

from this provision is necessary to avoid impeding counterterrorism, law enforcement, or intelligence efforts by putting the subject of an investigation, study, or analysis on notice of that fact, thereby permitting the subject to engage in conduct intended to frustrate or impede the activity.

(G) From subsection (e)(4)(G), (e)(4)(H), and (e)(4)(I) (Agency Requirements) because portions of this system are exempt from the access and amendment provisions of subsection (d).

(H) From subsection (e)(5) because the requirement that records be maintained with attention to accuracy, relevance, timeliness, and completeness could unfairly hamper law enforcement processes. It is the nature of law enforcement to uncover the commission of illegal acts at diverse stages. It is often impossible to determine initially what information is accurate, relevant, timely, and least of all complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significance as further details are brought to light.

(I) From subsection (e)(8) because the requirement to serve notice on an individual when a record is disclosed under compulsory legal process could unfairly hamper law enforcement processes. It is the nature of law enforcement that there are instances where compliance with these provisions could alert the subject of an investigation of the fact and nature of the investigation, and/or the investigative interest of intelligence or law enforcement agencies; compromise sensitive information related to national security; interfere with the overall law enforcement process by leading to the destruction of evidence, improper influencing of witnesses, fabrication of testimony, and/or flight of the subject; reveal a sensitive investigative or intelligence technique; or constitute a potential danger to the health or safety of law enforcement personnel, confidential informants, and witnesses.

(J) From subsection (f) because requiring the Agency to grant access to records and establishing agency rules for amendment of records would unfairly impede the agency's law enforcement mission. To require the confirmation or denial of the existence of a record pertaining to a requesting individual may in itself provide an answer to that individual relating to the existence of an on-going investigation. The investigation of possible unlawful activities would be jeopardized by agency rules requiring verification of the record, disclosure of the record to the

subject, and record amendment procedures.

(K) From subsection (g) to the extent that the system is exempt from other specific subsections of the Privacy Act.
