Proposed Projects:

Title: Objective Progress Report (OPR) and Objective Work Plan (OWP).

OMB No.: 0970-0429.

Description: Content and formatting changes are being made to the OPR and OWP. The information in the OPR is currently collected on a quarterly basis to monitor the performance of grantees and better gauge grantee progress. The OWP is utilized by applications when they submit their proposals and then by grantees to monitor their projects once awarded. ANA has determined that the requirement for ANA Grantees to submit information about the project activities on quarterly basis creates undue burden for Grantees. Therefore, ANA has reformatted the OPR to require Grantees submit semi-annually reports instead of quarterly report. This will reduce the administrative burden on Grantees especially the smaller organizations. The majority of content being requested from the grantees essentially remain same except for the frequency of reporting.

OPR: The following are proposed content changes to the document:

Grantee Information: Report Frequency—This section of OPR will be reformatted to request semi-annual or final project data instead of quarterly information. The other sections of the document with reference to “quarterly” information will be changed to reflect

the shift from four times a year reporting requirement to twice per year.

Objective Work Plan Update: Content is the same. No changes are proposed for this section of the OPR.

Impact indicator: Current Status of Expected Results and Current Status of Expected Benefits which are reported separately on the OPR will be combined to read “Current Status of Expected Results and Benefits.” The content requested in this section is similar to the previous OPR without the added burden of having the reporting organizations provide the analysis that distinguish between “results and benefits”. Every section of the document will be rewritten to reflect this change.

OWP: ANA proposes to reformat the OWP (content is same) by swapping the Objective field with Problem Statement. In other words, this section will require respondents to begin with a concise statement about the problem the project is designed to address and will be followed by more details about the objectives of the project.

The two fields “Results Expected and Benefits Expected” will be combined into one field to read “Results and Benefits Expected”. This will reduce redundancy and help reduce the burden on Grantees.

Respondents: Tribal Government, Native non-profit organizations, Tribal Colleges & Universities.

OWP	500	1	3	1,500

Title: Methodology for Determining Whether an Increase in a State's Child Poverty Rate is the Result of the TANF Program
OMB No.: 0970-0186

Description

In accordance with Section 413(i) of the Social Security Act and 45 CFR part 284, the Department of Health and

Human Services (HHS) intends to extend without change the following information collection requirements. For instances when Census Bureau data show that a States child poverty rate increased by 5 percent or more from one year to the next, a State may submit independent estimates of its child poverty rate. If HHS determines that the States independent estimates are not more reliable than the Census Bureau estimates, HHS will require the State to submit an assessment of the impact of the TANF program(s) in the State on the child poverty rate. If HHS determines from the assessment and other information that the child poverty rate in the State increased as a result of the TANF program(s) in the State, HHS will then require the State to submit a corrective action plan.

Respondents

The respondents are the 50 States and the District of Columbia. When reliable Census Bureau data become available for the Territories, additional respondents might include Guam, Puerto Rico, and the Virgin Islands.
