States met all of the criteria of that section necessary to qualify for the waiver of the additional credit reduction. Further, the additional credit reduction of section 3302(c)(2)(B) is zero for these States for 2014. Therefore, employers in these States will have no additional credit reduction applied for calendar year 2014. In addition, Missouri, Rhode Island, and Wisconsin did not have balance of advances at the beginning of November 10, 2014. Therefore, employers in those States will have no reduction in FUTA offset credit for calendar year 2014.

Section 3302(g) of FUTA provides that a State may avoid any reduction in credit for a year by meeting certain criteria. South Carolina applied for avoidance of the 2014 credit reduction under this section. It has been determined that South Carolina met all of the criteria of section 3302(g) and thus qualifies for credit reduction avoidance. Therefore, South Carolina employers will have no reduction in FUTA credit for calendar year 2014.

Portia Wu,

Assistant Secretary for Employment and Training.

BILLING CODE 4510–FW–P

NUCLEAR REGULATORY COMMISSION

[NRC–2014–0245]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the Office of Management and Budget's (OMB) approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 20, ''Standards for Protection Against Radiation.''

2. *Current OMB approval number:* 3150–0014.

3. *How often the collection is required:* Annually for most reports and at license termination for reports dealing with decommissioning.

4. *Who is required or asked to report:* NRC licensees and Agreement State licensees, including those requesting license terminations. Types of licensees include civilian commercial, industrial, academic, and medical users of nuclear materials. Licenses are issued for, among other things, the possession, use, processing, handling, and importing and exporting of nuclear materials, and for the operation of nuclear reactors.

5. *The number of annual respondents:* 21,018 (3,003 NRC licensees and 18,015 Agreement State licensees).

6. *The number of hours needed annually to complete the requirement or request:* 640,776 hours (91,545 hours for NRC licensees and 549,231 hours for Agreement State licensees).

7. *Abstract:* 10 CFR part 20 establishes standards for protection against ionizing radiation resulting from activities conducted under licenses issued by the NRC and by Agreement States. These standards require the establishment of radiation protection programs, maintenance of radiation protection programs, maintenance of radiation records recording of radiation received by workers, reporting of incidents which could cause exposure to radiation, submittal of an annual report to NRC and to Agreement States of the results of individual monitoring, and submittal of license termination information. These mandatory requirements are needed to protect occupationally exposed individuals from undue risks of excessive exposure to ionizing radiation and to protect the health and safety of the public.

Submit, by February 2, 2015, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

The public may examine and purchase copies of the publicly-available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O–1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: *http://www.nrc.gov/public-involve/doc-comment/omb/.*

The document will be available on the NRC's home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

Comments submitted should reference Docket No. NRC–2014–0245. You may submit your comments by any of the following methods. Electronic comments go to *http://www.regulations.gov* and search for Docket No. NRC–2014–0245. Mail comments to NRC Clearance Officer, Tremaine Donnell (T–5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell (T–5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, by telephone at 301–415–6258, or by email to *INFOCOLLECTS.Resource@NRC.GOV.*

Dated at Rockville, Maryland, this 25th day of November, 2014.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.
