

retrieved by name and EPA personnel identification number. Searches by training or certification name can also be used to access user records.

- **Safeguards:** Access to EMP by external trusted partners, such as state employees, other federal employees and contractors as well as internal contractors, grantees, interns and non-EPA federal employees must be requested through OEI's Web Access Management process and must be approved by the requestor's EPA point of contact. In addition, requestor's EPA point of contact must explain and approve all read/edit access to the EMP-FR application. Access is then granted via the EMP Help Desk data managers. Those with edit rights to profiles other than their own, have rights granted individually through the EMP Help Desk in accordance with procedures determined by the various field readiness user community program managers such as the RSC project manager; the National Incident Management System project manager and the Safety, Health and Environmental Management Division of the Office of Administration and Resources Management. Access to the personal and emergency contact information is limited to the person himself/herself; the person's supervisor, as listed in EMP-FR; and the person's organizational RSC Coordinators and their specific designees. This access is managed through the standard EMP database security and policies.

- **Retention and Disposal:** An EMP-FR records schedule is currently under development.

FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request.

III. What action is the Agency taking?

This notice announces the cancellation, as requested by registrants, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Table 1 of this unit.

This cancellation order follows a notice of receipt of voluntary cancellation requests received from the registrants that issued in the **Federal Register** of June 11, 2014 (79 FR 33550) (FRL–9911–36)), and a correction notice issued in the **Federal Register** of July 16, 2014 (79 FR 41551) (FRL–9913–20) that removed two products that were inadvertently listed in the June 11, 2014 document. In the June 2014 document, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests.

IV. Summary of Public Comments Received and Agency Response to Comments

The comment period closed on December 8, 2014. EPA received one comment. The comment did not contain information about any specific product cancellation request. For this reason, the Agency does not believe that the comment submitted during the comment period merits further review or a denial of the request for voluntary cancellation.

Further, the registrants did not withdraw their requests.

V. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), EPA hereby approves the requested cancellations of the registrations identified in Table 1 of Unit III. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 of Unit III. are canceled. The effective date of the cancellations that are the subject of this order is April 16, 2015. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit III. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit III. until April 18, 2016, which is 1 year

after the publication of the Cancellation Order in the **Federal Register**.

Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit III. except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 of Unit III. until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 3, 2015.

Michael Goodis,

Acting Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.
