

for management of the Nation's marine fisheries. NMFS must also promulgate regulations, as necessary and appropriate, to carry out obligations the United States (U.S.) undertakes internationally regarding tuna management through the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*).

This collection serves as a family of forms for Atlantic highly migratory species (HMS) dealer reporting, including purchases of HMS from domestic fishermen, and the import, export, and/or re-export of HMS, including federally managed tunas, sharks, and swordfish.

Transactions covered under this collection include purchases of Atlantic HMS from domestic fishermen; and the import/export of all bluefin tuna (BFT), frozen bigeye tuna (BET), southern bluefin tuna (SBT) or swordfish (SWO), regardless of geographic area of origin. This information is used to monitor the harvest of domestic fisheries, and/or track international trade of internationally managed species.

The domestic dealer reporting covered by this collection includes weekly electronic landing reports and negative reports (*e.g.*, reports of no activity) of Atlantic SWO, sharks, BET, albacore, yellowfin, and skipjack tunas (collectively referred to as BAYS tunas), and biweekly and daily landing reports for BFT, including tagging of individual fish. Also, because of the recent development of an individual bluefin quota (IBQ) management system (RIN 0648-BC09), electronic entry of BFT landing card data is required for Atlantic BFT purchased from Longline and Purse seine category vessels. NMFS intends to consider integrating the data fields that have been collected on the Atlantic BFT Biweekly Dealer Report into the electronic system. However, at this time, dealers must submit to NMFS both electronic and faxed versions of BFT landing cards for purse seine and pelagic longline vessels.

International trade tracking programs are required by both the International Commission for the Conservation of Atlantic Tunas (ICCAT) and the Inter-American Tropical Tuna Commission (IATTC) to account for all international trade of covered species. The U.S. is a member of ICCAT and required by ATCA to promulgate regulations as necessary and appropriate to implement ICCAT recommendations. These programs require that a statistical document (SD) or catch document (CD) accompany each export from and import to a member nation, and that a re-export certificate (RXC) accompany each re-export. The international trade reporting requirements covered by this collection

include implementation of CD, SD, and RXC trade tracking programs for BFT, frozen BET, and SWO. U.S. regulations implementing ICCAT SD and CD programs require SDs and CDs for international transactions of the covered species from all ocean areas, so Pacific imports and exports must also be accompanied by SDs and CDs. Since there are SD programs in place under other international conventions (*e.g.*, the Indian Ocean Tuna Commission), a SD from another program may be used to satisfy the SD requirement for imports into the United States.

Dealers who internationally trade SBT are required to participate in a trade tracking program to ensure that imported Atlantic and Pacific BFT will not be intentionally mislabeled as "southern bluefin" to circumvent reporting requirements. This action is authorized under ATCA, which provides for the promulgation of regulations as may be necessary and appropriate to carry out ICCAT recommendations. In addition to SD, CD, and RXC requirements, this collection includes biweekly reports to complement trade tracking SDs by summarizing SD data and collecting additional economic information.

The one-time request for email addresses has been removed.

Affected Public: Business or other for-profit organizations.

Frequency: Weekly and biweekly.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: June 4, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Atlantic Highly Migratory Species Permit Family of Forms.

OMB Control Number: 0648-0327.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 38,095.

Average Hours per Response: HMS ITP application, termination of Atlantic HMS Vessel Chartering Permit, and renewal of Atlantic Tunas Dealer Permit application, 5 minutes; renewal applications for the following vessel permits—Atlantic Tunas, HMS Charter/Headboat, and HMS Angling, 6 minutes; initial Atlantic Tunas Dealer Permit application, 15 minutes; initial applications for the following vessel permits—Atlantic Tunas, HMS Charter/Headboat, HMS Angling, and Smoothhound Shark, 30 minutes; initial applications for Atlantic HMS Vessel Chartering Permit, 45 minutes.

Burden Hours: 8,307.

Needs and Uses: This request is for the revision and extension of a current information collection which includes both vessel and dealer permits.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. In addition, NMFS must comply with the United States' (U.S.) obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*). NMFS issues permits to fishing vessels and dealers in order to collect information necessary to comply with domestic and international obligations, secure compliance with regulations, and disseminate necessary information.

Regulations at 50 CFR 635.4 require that vessels participating in commercial and recreational fisheries for Atlantic highly migratory species (HMS) and dealers purchasing Atlantic HMS from a vessel obtain a Federal permit issued by NMFS. Regulations at 50 CFR 300.182 require that individuals entering for consumption, exporting, or re-exporting consignments of bluefin tuna, southern bluefin tuna, swordfish, or frozen bigeye tuna obtain an HMS International Trade Permit (ITP) from NMFS. This action addresses the renewal of permit applications currently approved under PRA 0648-0327, including both vessel and dealer permits. Vessel permits include Atlantic Tunas (except Longline

permits, which are approved under OMB Control No. 0648–0205), HMS Charter/Headboat, HMS Angling, Swordfish General Commercial, Smoothhound Shark, and Atlantic HMS Vessel Chartering permits. Dealer permits include the Atlantic Tunas Dealer permit and the HMS ITP.

The primary reason for the revision of this information collection is to reflect that Incidental HMS Squid Trawl permits have been removed from this collection. Instead, those permits were combined with the information collection for the Greater Atlantic Region Federal Fisheries Initial Permit Application form, which is covered under OMB Control No. 0648–0202. Thus, the burden and costs associated with renewal and issuance of an initial HMS Squid Trawl permit are no longer applicable to this collection of information. In addition, an International Maritime Organization (IMO) number must now be applied for by those not already in possession of one.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395–5806.

Dated: June 4, 2015.

Marine Mammals; File No. 19108; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application; correction.

SUMMARY: On May 27 2015, a notice was published in the **Federal Register** announcing that Daniel P. Costa, Ph.D.,

University of California at Santa Cruz, Long Marine Laboratory, 100 Shaffer Road, Santa Cruz, CA 95064, had applied in due form for a permit to conduct research on northern elephant seals (*Mirounga angustirostris*) throughout their range. That notice contained an error.

FOR FURTHER INFORMATION CONTACT: Amy Sloan or Brendan Hurley, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The notice for File No. 19108 on May 27, 2015 (80 FR 30212) indicated that incidental harassment of northern fur seals (*Callorhinus ursinus*) is requested. This was an error; the notice should indicate incidental harassment of harbor seals (*Phoca vitulina*) is requested, not northern fur seals. All other information in the notice is unchanged.

Dated: June 4, 2015.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Schedules for Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshops.

SUMMARY: Free Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops will be held in July, August, and September of 2015. Certain fishermen and shark dealers are required to attend a workshop to meet regulatory requirements and to maintain valid permits. Specifically, the Atlantic Shark Identification Workshop is mandatory for all federally permitted Atlantic shark dealers. The Protected Species Safe Handling, Release, and Identification Workshop is mandatory for vessel owners and operators who use bottom longline, pelagic longline, or gillnet gear, and who have also been issued shark or swordfish limited access permits. Additional free workshops will be conducted during 2015 and will be announced in a future notice.

DATES: The Atlantic Shark Identification Workshops will be held on July 23, August 13, and September 10, 2015.

The Protected Species Safe Handling, Release, and Identification Workshops will be held on July 9, July 16, August 6, August 11, September 3, and September 24, 2015.

See **SUPPLEMENTARY INFORMATION** for further details.

ADDRESSES: The Atlantic Shark Identification Workshops will be held in Panama City Beach, FL; Fort Lauderdale, FL; and Rosenberg, TX.

The Protected Species Safe Handling, Release, and Identification Workshops will be held in Kitty Hawk, NC; Ronkonkoma, NY; Gulfport, MS, Key Largo, FL; Corpus Christi, TX; and Manahawkin, NJ.

See **SUPPLEMENTARY INFORMATION** for further details on workshop locations.

FOR FURTHER INFORMATION CONTACT: Rick Pearson by phone: (727) 824–5399, or by fax: (727) 824–5398.

SUPPLEMENTARY INFORMATION: The workshop schedules, registration information, and a list of frequently asked questions regarding these workshops are posted on the Internet at: <http://www.nmfs.noaa.gov/sfa/hms/workshops/>.

Atlantic Shark Identification Workshops

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic sharks (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Approximately 110 free Atlantic Shark Identification Workshops have been conducted since January 2007.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification Workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit which first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer reports. Atlantic shark dealers are
