[Project No. 14687-000]

Energy Resources USA Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On June 25, 2015, the Energy Resources USA Inc. filed an application for a preliminary permit under section 4(f) of the Federal Power Act proposing to study the feasibility of the proposed Lock and Dam No.11 Hydroelectric Project No. 14687-000, to be located at the existing Mississippi River Lock and Dam No. 11 on the Mississippi River, near the City of Dubuque, in Grant County, Wisconsin. The Mississippi River Lock and Dam No. 11 is owned by the United States government and operated by the U.S. Army Corps of Engineers.

The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) A new 770-foot-long by 300-foot-wide earthen intake area; (2) a new 220-foot by 90-foot concrete powerhouse containing four 2.5-megawatt hydropower turbine-generators having a total combined generating capacity of 10 megawatts; (3) one new 1000-foot-long by 220-foot-wide tailrace; (4) a new intake retaining wall and new tailrace retaining wall each measuring 85-foot-long by 43-foot-high by 3-foot-thick; (5) a new 50-foot by 60-foot switchyard; (6) a new 1.52-mile-long, 69-kilovolt transmission line; and (7) appurtenant facilities. The project would have an estimated annual generation of 119,655 megawatt-hours.

Electric Quarterly Reports: M&R Energy Resources Corp., Reliable Power, LLC, Susterra Energy, LLC; Order on Intent To Revoke Market-Based Rate Authority

Before Commissioners: Norman C. Bay, Chairman; Philip D. Moeller, Cheryl A. LaFleur, Tony Clark, and Colette D. Honorable.

1. Section 205 of the Federal Power Act (FPA), 16 U.S.C. 824d (2012), and 18 CFR part 35 (2015), require, among other things, that all rates, terms, and conditions of jurisdictional services be filed with the Commission. In Order No. 2001, the Commission revised its public utility filing requirements and established a requirement for public utilities, including power marketers, to file Electric Quarterly Reports summarizing the contractual terms and conditions in their agreements for all

jurisdictional services (including market-based power sales, cost-based power sales, and transmission service) and providing transaction information (including rates) for short-term and long-term power sales during the most recent calendar quarter.¹

2. The Commission requires sellers with market-based rate authorization to file Electric Quarterly Reports.² Commission staff's review of the Electric Quarterly Report submittals indicates that the following three public utilities with market-based rate authorization have failed to file their Electric Quarterly Reports: M&R Energy Resources Corp.; Reliable Power, LLC; and Susterra Energy, LLC. This order notifies these public utilities that their market-based rate authorizations will be revoked unless they comply with the Commission's requirements within 15 days of the date of issuance of this order.

3. In Order No. 2001, the Commission stated that,

[i]f a public utility fails to file a[n] Electric Quarterly Report (without an appropriate request for extension), or fails to report an agreement in a report, that public utility may forfeit its market-based rate authority and may be required to file a new application for market-based rate authority if it wishes to resume making sales at market-based rates.^[3]

4. The Commission further stated that, [o]nce this rule becomes effective, the requirement to comply with this rule will supersede the conditions in public utilities' market-based rate authorizations, and failure to comply with the requirements of this rule will subject public utilities to the same consequences they would face for not satisfying the conditions in their rate authorizations, including possible revocation
