44 CFR Part 67

[Docket ID FEMA-2015-0001]

#### **Final Flood Elevation Determinations**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

**ADDRESSES:** The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) Luis.Rodriguez3@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

notification.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the

communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

# Allowing Importers To Provide Information to U.S. Customs and Border Protection in Electronic Format

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT). **ACTION:** Interim Final Rule; request for comments.

**SUMMARY:** This interim Final Rule amends NHTSA's regulation on the importation of motor vehicles and motor vehicle equipment subject to Federal safety, bumper and theft prevention standards by allowing importers to provide information to United States Customs and Border Protection (CBP) in either electronic or paper format. Presently, certain regulatory provisions require importers to provide documentation or information in a "written statement" or in ways that imply the submission of a paper document, including the phrases "in duplicate," "a copy of," a "document," and "accompanied by a statement." Over the course of the coming months, CBP plans to allow importers to file importation information in paper format only or electronic format only. To allow importers to choose their preferred format for filing information required by NHTSA, the agency is amending its importation regulations to specify that importers have the option to file all required information electronically, in addition to the paper option currently available.

This document is being issued as an interim Final Rule to provide timely assistance to importers by allowing alternative methods of filing with CBP the importation information required by

NHTSA. The amendments in this interim Final Rule do not create any new rights or obligations, nor impose any new reporting requirements. The agency herein requests comments on the rule. The agency will publish a notice responding to any comments received, if any, and will amend provisions of the regulation if appropriate.

**DATES:** Effective date: This interim Final Rule becomes effective September 2, 2015.

Comments: Comments on this interim Final Rule are due not later than October 2, 2015.

**ADDRESSES:** Written comments to NHTSA may be submitted using any one of the following methods:

- Federal eRulemaking Portal: go to http://www.regulations.gov. Follow the online instructions for submitting comments.
- *Mail:* Docket Management Facility, M–30, U.S. Department of Transportation, West Building Ground Floor, Rm. W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.

I. Background

- II. Immediate Effective Date and Request for Comments
- III. Regulatory Analyses and Notices

#### I. Background

Under 49 CFR parts 591 and 592, importers of motor vehicles and motor vehicle equipment are required, among other things, to provide certain information to NHTSA at the time of importation, which is collected by CBP. In the past, CBP collected all information on paper but has moved to a system that allows for either paper format filing or a "hybrid" combination of paper and electronic filing. Beginning in the fall of 2015, and with pilot programs beginning in the summer of 2015, CBP is introducing a new data collection system that will allow importers to make an electronic reporting of commodities being presented for importation at U.S. ports. After implementation of this new system, CBP may require importation declaration documents to be filed in either all paper or all electronic format. CBP is currently advising that importers will no longer have the option of using the "hybrid" filing system.

Currently, there are several provisions within 49 CFR part 591, Importation of Vehicles and Equipment Subject to Federal Safety, Bumper and Theft Prevention Standards, and a provision in 49 CFR part 592, Registered Importers of Vehicles Not Originally Manufactured to Conform to the Federal Motor Vehicle Safety Standards, that either explicitly or impliedly require a paper filing for specific pieces of data. Thus, maintaining these provisions may mean that, once the new CBP data collection system is implemented, importers would be required to file on paper, imposing an unintended burden on those currently making hybrid filings. To avoid this result, this interim Final Rule amends the wording of the provisions in 49 CFR parts 591 and 592 that explicitly or impliedly require paper filings clarifying that filings can be made in any format accepted by CBP. This rulemaking does not impose additional obligations or burdens on any party and, specifically, does not require filing of any new or additional information. Rather, it provides
