

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:
Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:
Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Respondents are existing facilities and new OSWI units, which include two sub-categories: 1) very small municipal waste combustion (VSMWC) units that combust less than 35 tons per day of waste; and 2) institutional waste incineration (IWI) units. These standards apply to any air quality program in a state or United States protectorate with one or more existing other solid waste incineration (OSWI) units or air curtain incinerators that commenced construction on or before December 9, 2004. This subpart does not directly affect incineration unit owners and operators; however, they must comply with the state's plan that was developed by the air quality program administrator to implement the emission guidelines.

Form Numbers: None.

Respondents/affected entities: OSWI units, which include two subcategories: VSMWC units that combust less than 35 tons per day of waste and IWI units.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart FFFF).

Estimated number of respondents: 99 (total).

Frequency of response: Initially, occasionally, semiannually, and annually.

Total estimated burden: 70,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,560,000 (per year), including \$495,000 in either annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the total estimated labor burden as currently identified in the OMB Inventory of Approved Burdens. This is not due to any program changes. The increase occurred because we assume existing respondents will take some time to re-familiarize themselves with the rule each year. In addition, the cost estimate has been updated using more current labor rates.

Courtney Kerwin,
Acting-Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Stationary Compression Ignition Internal Combustion Engines (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NSPS for Stationary Compression Ignition Internal Combustion Engines (40 CFR part 60, subpart III) (Renewal)" (EPA ICR No. 2196.05, OMB Control No. 2060-0590) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through October 31, 2015. Public comments were previously requested via the **Federal Register** (80 FR 32116) on June 5, 2015 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public.

An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 27, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2011-0264, to (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with the reporting and record keeping requirements for the general provisions of 40 CFR part 60, subpart A, as well as the specific requirements in 40 CFR part 60, subpart III. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Manufacturers, owners and operators of new stationary compression ignition (CI) internal combustion engines (ICE).

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart III).

Estimated number of respondents: 206,530 (total).

Frequency of response: Initially and annually.

Total estimated burden: 408,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$41,200,000 (per year), includes \$167,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase in the respondent burden hours from the ICR currently approved by OMB. The increase in burden from the most recently approved ICR is primarily due to accounting for burden items that became applicable as sources came into full compliance with the rule. In this ICR period, owners/operators of emergency stationary CI ICE must begin submitting annual reports. The first annual report must cover the calendar year 2015 and must be submitted no later than March 31, 2016. In addition, this ICR includes the burden for owners/operators of stationary CI ICE equipped with diesel particulate filter to maintain records of any corrective action taken after the high backpressure limit of the engine is approached, which became applicable in 2011.

There is a decrease in the estimated number of responses and the O&M cost due to corrections to the Agency's estimates. The decrease is not due to any program changes. The previous ICR incorrectly included responses for non-emergency operations, and had an inconsistency in calculating the O&M cost for selective enforcement audit.

Courtney Kerwin,
Acting Director, Collection Strategies Division.

Proposed Information Collection Request; Comment Request; Part 70 State Operating Permit Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), "Part 70 State Operating Permit Program (Renewal)" (EPA ICR No. 1587.13, OMB Control No. 2060-0243) to the Office of

Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through October 31, 2015. Public comments were previously requested via the **Federal Register** on May 8, 2015. This notice allows for an additional 30 days for public comments. This ICR renewal covers state, local and tribal (state) air quality operating permitting programs under 40 CFR part 70, as authorized under Title V of the Clean Air Act (CAA or Act) for the period of November 1, 2015, through October 31, 2018. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before November 27, 2015.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2004-0015, to (1) EPA online using <https://www.regulations.gov> (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for the EPA.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information or other information whose disclosure is restricted by statute.

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, William Jefferson Clinton West Building, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The telephone number

for the Docket Center is (202) 566-1744. For additional information about the EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Title V of the CAA requires states to develop and implement a program for issuing operating permits to all sources that fall under any Act definition of "major" and certain other non-major sources that are subject to Federal air quality regulations. The Act further requires EPA to develop regulations that establish the minimum requirements for those state operating permits programs and to oversee implementation of the state programs. The EPA regulations setting forth requirements for the state operating permit program are found at 40 CFR part 70. The part 70 program is designed to be implemented primarily by state, local and tribal permitting authorities in all areas where they have jurisdiction.

In order to receive an operating permit for a major or other source subject to the permitting program, the applicant must conduct the necessary research, perform the appropriate analyses, and prepare the permit application with documentation to demonstrate that its facility meets all applicable statutory and regulatory requirements. Specific activities and requirements are listed and described in the Supporting Statement for the 40 CFR part 70 ICR.

Under 40 CFR part 70, state, local and tribal permitting authorities review permit applications, provide for public review of proposed permits, issue permits based on consideration of all technical factors and public input and review information submittals required of sources during the term of the permit. Also, under 40 CFR part 70, the EPA reviews certain actions of the permitting authorities and provides oversight of the programs to ensure that they are being adequately implemented and enforced. Consequently, information prepared and submitted by sources is essential for sources to receive permits, and for federal, state, local and tribal permitting authorities to adequately review the permit applications and thereby properly administer and manage the program.

Information that is collected is handled according to EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2). See also section 114(c) of the Act.

Respondents/affected entities: Industrial plants (sources); state, local and tribal permitting authorities.

Respondent's obligation to respond: Mandatory (see 40 CFR part 70).
