

DEPARTMENT OF COMMERCE**International Trade Administration****[Application No. 03–1A008]****Export Trade Certificate of Review**

ACTION: Notice of Application for an Amended Export Trade Certificate of Review by California Pistachio Export Council (“CPEC”), Application No. 03–1A008.

SUMMARY: The Secretary of Commerce, through the International Trade Administration, Office of Trade and Economic Analysis (OTEA), has received an application for an amended Export Trade Certificate of Review (“Certificate”) from CPEC. This notice summarizes the proposed amendment and seeks public comments on whether the amended Certificate should be issued.

FOR FURTHER INFORMATION CONTACT:

Joseph E. Flynn, Director, Office of Trade and Economic Analysis, International Trade Administration, by telephone at (202) 482–5131 (this is not a toll-free number) or email at etca@trade.gov.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. Sections 4001–21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. An Export Trade Certificate of Review protects the holder and the members identified in the Certificate from State and Federal government antitrust actions and from private treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. The regulations implementing Title III are found at 15 CFR part 325 (2015). Section 302(b)(1) of the Export Trade Company Act of 1982 and 15 CFR 325.6(a) require the Secretary to publish a notice in the **Federal Register** identifying the applicant and summarizing its application. Under 15 CFR 325.6(a), interested parties may, within twenty days after the date of this notice, submit written comments to the Secretary on the application.

Request for Public Comments: Interested parties may submit written comments relevant to the determination whether an amended Certificate should be issued. If the comments include any privileged or confidential business information, it must be clearly marked and a nonconfidential version of the comments (identified as such) should be included. Any comments not marked as privileged or confidential business

information will be deemed to be nonconfidential.

An original and five (5) copies, plus two (2) copies of the nonconfidential version, should be submitted no later than 20 days after the date of this notice to: Office of Trade and Economic Analysis, International Trade Administration, U.S. Department of Commerce, Room 21028, Washington, DC 20230.

Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). However, nonconfidential versions of the comments will be made available to the applicant if necessary for determining whether or not to issue the amended Certificate. Comments should refer to this application as “Export Trade Certificate of Review, application number 03–1A008.”

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): Threatened California Coastal (CC).

Coho salmon (*O. kisutch*): Endangered Central California Coast (CCC).

Steelhead (*O. mykiss*): Threatened Central California Coast (CCC).

Authority

Enhancement of Survival Permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR parts 222-227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Under a Safe Harbor Agreement, participating landowners voluntarily undertake management activities on their property to enhance, restore, or maintain habitat benefiting species listed under the Act (16 U.S.C. 1531 *et seq.*). Safe Harbor Agreements, and the subsequent Enhancement of Survival Permits that are issued pursuant to section 10(a)(1)(A) of the Act, encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased property use restrictions as a result of their efforts to attract listed species to their property or to increase the numbers or distribution of listed species already on their property. Application requirements and issuance criteria for Enhancement of

Survival Permits through Safe Harbor Agreements are found in 50 CFR 222.308(b), 222.308(c) and June 17, 1999 (64 FR 32717). These permits allow any necessary future incidental take of covered species above the mutually agreed-upon baseline conditions for those species in accordance with the terms and conditions of the permits and accompanying agreements.

An interested party may submit written data, views, arguments, or a request for a hearing with respect to the action proposed in the application or related matters. Anyone requesting a hearing on a matter pursuant to this notice should set out the specific reasons why a hearing on that matter would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Application Received

Permit 20032

The Sonoma County Water Agency (Applicant) is requesting an Enhancement of Survival Permit and approval of the associated proposed Agreement that was developed by NMFS and the Applicant. The Enhancement of Survival Permit will facilitate implementation of the Agreement that is expected to promote the recovery of the Covered Species on non-federal properties within Dry Creek below Warm Springs Dam, a tributary to the Russian River in Sonoma County, California. The proposed duration of the Agreement and the associated Enhancement of Survival Permit is 35 years. The proposed Enhancement of Survival Permit would authorize the incidental taking of the Covered Species associated with routine viticulture activities and the potential future return of any property included in the Agreement to the Elevated Baseline Conditions. Under this Agreement, individual landowners (Cooperators) may include their properties by entering into a Cooperative Agreement with the Applicant. Each Cooperative Agreement will specify the restoration and/or enhancement, and management activities to be carried out on that specific property and a timetable for implementing those activities. All Cooperative Agreements will be reviewed by NMFS to determine whether the proposed activities will result in a net conservation benefit for the Covered Species and meet all required standards of the Safe Harbor Policy (64 FR 32717). Upon NMFS approval, the Applicant will issue a Certificate of Inclusion to the Cooperator. Each Certificate of Inclusion

will extend the incidental take coverage conferred by the Enhancement of Survival permit to the Cooperator. Certificates of Inclusion will be valid for a minimum of 10 years, but no longer than term of the Enhancement of Survival permit.

The Agreement requires that each enrolled property adopt an Elevated Baseline Condition. Elevated Baseline levels for the Covered Species will be determined by completing the Elevated Baseline Habitat Worksheet (Table 1 in Attachment 3 of the Agreement), which will be completed by the Applicant. NMFS will review each Elevated Baseline determination prior to the Applicant issuing a Certificate of Inclusion to the Cooperator. The Agreement also contains a monitoring component that requires the Applicant to ensure that the Cooperators are in compliance with the terms and conditions of the Agreement and that the Elevated Baseline levels of habitat for the Covered Species occurs on the Enrolled Property. Results of these monitoring efforts will be provided to NMFS by the Applicant in annual reports for the duration of the 35-year permit term.

Upon approval of this Agreement, and consistent with the NMFS's Safe Harbor Policy (64 FR 32717), NMFS would issue an Enhancement of Survival Permit to the Applicant. The Enhancement of Survival Permit will authorize those Cooperators who have been issued a Certificate of Inclusion to take Covered Species incidental to the implementation of the management activities specified in the Agreement, incidental to other lawful uses of the property including Routine Viticulture Activities, and to return to baseline conditions if desired. In addition to meeting other criteria, actions to be performed under an Enhancement of Survival Permit must not jeopardize the existence of federally listed species.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments submitted to determine whether the application meets the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period. NMFS will publish notice of its final action in the **Federal Register**.
