Abstract: On March 21, 2011, EPA finalized standards and procedures to be used to identify whether non-hazardous secondary materials are solid wastes when used as fuels or ingredients in combustion units. "Secondary material" is defined as any material that is not the primary product of a manufacturing or commercial process, and can include post-consumer material, off-specification commercial chemical products or manufacturing chemical intermediates, post-industrial material, and scrap (codified in § 241.2). "Non-hazardous secondary material" is a secondary material that, when discarded, would not be identified as a hazardous waste under 40 CFR part 261 (codified in § 241.2). This RCRA solid waste definition determines whether a combustion unit is required to meet the emissions standards for solid waste incineration units issued under section 129 of the Clean Air Act (CAA) or the emissions standards for commercial, industrial, and institutional boilers issued under section 112 of the CAA. In this rule, EPA also finalized a definition of traditional fuels.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are private sector.

Respondent's obligation to respond: required to obtain benefit (Sections 1004 and 2002 of RCRA).

Estimated number of respondents: 1,461.

Frequency of response: One-time.

Total estimated burden: 2,951 hours. Burden is defined at 5 CFR 1320.03(b).
Total estimated cost: \$320,200, which includes \$320,200 annualized labor costs and \$0 annualized capital or O&M costs.

Changes in Estimates: There is a decrease of 23,542 hours in the total estimated respondent burden and \$1.4 million in the total labor costs compared with the ICR currently approved by

OMB. These decreases are not due to any program changes, but rather a revised estimate of the number of petitions expected to be submitted by the respondents. Only two petitions were submitted over the last three year period, versus the original estimate of 168 petitions. The number of petitions anticipated to be filed over the next three year period has therefore been reduced to 10, which EPA believes is still a conservative estimate. The change in labor costs also incorporates updated labor rates available from the Bureau of Labor Statistics.

Dated: November 23, 2015.

Director, Office of Resource Conservation and Recovery.

EXPORT-IMPORT BANK

[Public Notice 2015-6014]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the U.S.
ACTION: Submission for OMB Review and Comments Request.

Form Title: EIB 95-10, Application for Long Term Loan or Guarantee.

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the paperwork Reduction Act of 1995.

By neutralizing the effect of export credit insurance and guarantees offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. This collection of information is necessary, pursuant to 12 U.S.C. 635(a)(1), to determine eligibility of the applicant for Ex-Im Bank support.

The Export-Import Bank has made a change to the report to have the financial institution provide specific information (industry code, number of employees and annual sales volume) needed to make a determination as to whether or not the exporter meets the SBA's definition of a small business. The financial institution already provides the exporter's name and address. These additional pieces of information will allow Ex-Im Bank to

better track the extent to which its support assists U.S. small businesses.

The other change that Ex-Im Bank has made is to require the financial institution to indicate whether the exporter is a minority-owned business, women-owned business and/or veteran-owned business. Although answers to the questions are mandatory, the company may choose any one of the three answers: Yes/No/Decline to Answer. The option of "Decline to Answer" allows a company to consciously decline to answer the specific question should they not wish to provide that information.

The application can be viewed at <http://www.exim.gov/sites/default/files/pub/pending/eib95-10all.pdf>.

DATES: Comments should be received on or before February 8, 2016 to be assured of consideration.

Form Title: EIB 11–08, Application for Global Credit Express Revolving Line of Credit

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as a part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

The Application for Global Credit Express Revolving Line of Credit is used to determine the eligibility of the applicant and the transaction for Export-Import Bank assistance under its Working Capital Guarantee and Direct Loan Program. This form is used by small U.S. businesses with limited export experience. This program relies to a large extent on the exporter's qualifying score on the FICO (Fair Isaac Corporation) SBSS (Small Business Scoring Service). Therefore the financial and credit information needs are minimized. This is a request to renew an existing form. The only change is to enhance a question about company ownership so as to improve the quality of information derived from the question.
