

Federal Regulations (CFR), the FEMA/NRC Steering Committee for Emergency Planning determined that the three existing MOUs between the two agencies on radiological emergency preparedness and response should be consolidated into one MOU, resulting in a streamlined, updated agreement reflecting the current process used by the agencies to coordinate their activities. The original MOUs were as follows: (1) "Memorandum of Understanding Between the Federal Emergency Management Agency and the Nuclear Regulatory Commission for Incident Response" (45 FR 82715; December 16, 1980); (2) Memorandum of Understanding for Assistance and Support Between the Federal Emergency Management Agency and the Nuclear Regulatory Commission—relating to Executive Order 12657 (December 1, 1991) (ADAMS Accession No. ML16077A212); and (3) Memorandum of Understanding Between NRC and FEMA Relating to Radiological Emergency Planning and Preparedness (located at Appendix A to 44 CFR part 353) (58 FR 47997; September 14, 1993).

Consolidating the MOUs results in the following revisions: establishes a concise listing of legal authorities; enhances the description of the disaster-initiated review process; eliminates superfluous language on emergency response by referring to existing documentation such as the National Preparedness System and the Nuclear/Radiological Incident Annex; confirms that nothing in the MOU is intended to conflict with current law or regulations or the directives of DHS/FEMA or the NRC, or restrict the authority of either party to act as provided by statute or regulation; includes the interface process between the NRC and FEMA concerning decommissioning plants and the NRC-approved effective date when FEMA Radiological Emergency Preparedness Program services will no longer be needed; and, for consistency with new wording, FEMA intends to include in 44 CFR part 350 the current term "deficiency" with "Level 1 Finding."

Dated at Rockville, Maryland, this 17th day of March, 2016.

For the Nuclear Regulatory Commission.

Stephanie M. Coffin,

Acting Director, Division of Preparedness and Response, Office of Nuclear Security and Incident Response.
