#### SUPPLEMENTARY INFORMATION:

*Title:* State Meat and Poultry Inspection Programs.

*Type of Request:* New information collection.

*Abstract:* FSIS has statutory authority under the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), to set national standards for meat and poultry inspection (MPI). Section 301(c) of the FMIA (21 U.S.C. 661(c)) and section 5(c) of the PPIA (21 U.S.C. 454(c)) authorize the Secretary of Agriculture (Secretary) to designate a State as one in which the provisions of Titles I and IV of the FMIA and sections 1-4, 6-11, and 12-22 of the PPIA will apply to operations and transactions wholly within the State after the Secretary has determined that requirements at least "equal to" those imposed under the Acts have not been developed and effectively enforced by the State. Under a cooperative agreement with FSIS, states may operate their own MPI programs (*i.e.* meat, poultry, or both; egg products are excluded) provided they meet and enforce requirements "at least equal to"

those imposed under the FMIA and PPIA. FSIS is responsible for certifying and monitoring that participating states meet the MPI program's "at least equal to" standard.

Twenty-seven (27) states have MPI programs that operate under a cooperative agreement with FSIS and are subject to the comprehensive state review process. Comprehensive reviews of State MPI programs are conducted by an interdisciplinary team of FSIS Auditors from the Office of Investigation, Enforcement and Audit (OIEA), the Financial Management Division (FMD), the Civil Rights Staff (CRS), and the Office of Public Health Science Laboratory Quality Assurance Staff (LQAS). There are nine review components that make up the comprehensive state review process. The components are as follows: Component 1—Statutory Authority and Food Safety Regulations; Component 2—Inspection; Component 3—Sampling Programs; Component 4—Staffing, Training, and Supervision; Component 5—Humane Handling; Component 6—Compliance; Component 7—Laboratory Quality Assurance Program and Methods; Component 8—Civil Rights; and Component 9—Financial Accountability.

For each of the first six (1-6) components, State MPI programs will submit annual self-assessment documentation to FSIS to demonstrate that the State MPI program is meeting the "at least equal to" Federal inspection requirements. Each component of the annual self-assessment will include a written narrative statement and documentation demonstrating that the program continuously meets the criteria to be "at least equal to" the Federal inspection program. State MPI programs will also submit sufficient documentation to demonstrate that the program either follows current FSIS statutes, regulations, applicable FSIS Directives and Notices, and has implemented any changes necessary to maintain the "at least equal to" status or the State MPI program has an effective, analogous program that would also be "at least equal to". All State MPI programs will need to demonstrate they operate in a manner that protects the health and welfare of consumers by ensuring that the meat and poultry products distributed by the establishments in the

program are wholesome, not adulterated, and properly marked, labeled, and packaged.

The annual self-assessment submission will also include one or more narratives describing the internal controls used by the State MPI program that: (1) Provide assurances and can measure the effectiveness of the program under the “at least equal to” criteria; (2) demonstrate how non-conformances will be addressed by corrective actions; and (3) demonstrate how the State MPI program will be maintained throughout the next 12 months.

For Component 7 of the comprehensive State review process, States will submit documentation of their laboratory quality assurance programs and methods. States will document their laboratory quality assurance program activities on the FSIS Form 5720–14, State Meat and Poultry Inspection Program Laboratory Quality Management System Checklist. States will submit copies of new or revised laboratory analytical methods accompanied by a FSIS Form 5720–15, Laboratory Method Notification Form.

For Component 8 of the comprehensive State review process, States will submit documentation of their Civil Rights compliance. States receive FSIS monies to operate their MPI programs, and as such, are subject to the nondiscrimination provisions of Title VI, Title IX, Section 504 of the Rehabilitation Act of 1973 and the Age Discrimination Act of 1975. In order to assess the 27 states’ compliance with these provisions, FSIS plans to annually request information on the States’ Civil Rights programs and controls in FSIS Form 1520.1—Civil Rights Compliance of State Inspection Programs. This form requests information regarding nine areas of Civil Rights compliance, which include: (1) Civil Rights Assurances; (2) State Infrastructure and Program Accountability; (3) Public Notification; (4) Racial and Ethnic Data Collection; (5) Civil Rights Complaints of Discrimination; (6) Civil Rights Training; (7) Disability Compliance, (8) Limited English Proficiency; and (9) Compliance with the Age Discrimination Act of 1975. The form allows States to: (1) Document management controls they have implemented and maintained with regard to these nine categories; and (2) document how their overall Civil Rights program constitutes a Civil Rights program “at least equal to” the FSIS Federal program.

FSIS plans to request documentation from all components of the self-assessment and completion of these

forms annually. Submission of the completed forms will be due by November 1 each year to the Coordinators from OIEA, FMD, CRS and LQAS. In each submission, states will respond to all questions and report on programs and activities implemented and maintained during the prior fiscal year (October 1 through September 30).

In addition to the annual self-assessment submission, State MPI programs will be subject to an on-site review at a minimum frequency of once every three years to verify the accuracy and implementation of the self-assessment submissions. In the year that a State MPI program is scheduled for an on-site review, FSIS will closely examine records from the State MPI program in order to make an annual determination that the program is or is not “at least equal to” the Federal inspection program.

Additionally, FSIS Form 5720–15, Laboratory Method Notification Form shall be submitted whenever a State lab revises or adds a new method for MPI program testing. FSIS has made the following estimates on the basis of an information collection assessment.

*Estimate of Burden:* FSIS estimates that it will take each respondent an average of 255 hours to complete the forms and narratives.

*Respondents:* State MPI Directors, Program Managers, and/or Human Resources Officials

*Estimated No. of Respondents:* 27 respondents.

*Estimated No. of Annual Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 6,887 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence SW., Room 6077, South Building, Washington, DC 20250, (202) 690–6510.

*Comments are invited on:* (a) Whether the proposed collection of information is necessary for the proper performance of FSIS’s functions, including whether the information will have practical utility; (b) the accuracy of FSIS’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of

#### Abstract

USDA's Food and Nutrition Service (FNS) administers the National School Lunch Program (NSLP) and School Breakfast Program (SBP) at the Federal level. At the State level, State agencies, typically State Departments of Education or Agriculture, operate the program through agreements with Local Education Agencies (LEAs). Federal law, regulations, and policies determine eligibility for meal benefits. Based on federal regulations at 7 CFR part 210, LEAs have the legal authority to operate the NSLP and SBP as well as to certify and verify student eligibility for free and reduced-price meal benefits. Section 9 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758) and regulations at 7 CFR part 245 provide the requirements related to determining free and reduced-price meal eligibility including certification and verification requirements and procedures.

FNS administers and provides directives for these school meal programs but most of the reporting and data collection originates at schools or sites, flows up to school food authorities (SFAs), then to State agencies, and

ultimately to FNS. Some of the key forms FNS uses to collect data on the NSLP and SBP are the *FNS-10, Report of School Operations*; the *FNS-742, SFA Verification Collection Report*; and the *FNS-834, State Agency Direct Certification Rate Data Element Report*.

FNS is conducting a study, the *Evaluation of the School Meal Data Collection Process*, to provide a description and evaluation of the methodologies and processes used to collect and report program data for the school meal programs via the FNS-10, FNS-742, and FNS-834 forms. The key research objectives relate to assessing how schools/sites, SFAs, and State agencies handle the following three functions: Collect/aggregate data, process or validate data, and transmit data about the school meal programs. The ultimate objective is to understand the likely sources of error within each of these functions at each reporting level.

The study approach includes analysis of administrative data and site visits to conduct case studies. Using on-site interviews and observations in 4 States, 40 SFAs and 120 schools that are selected purposively, the study will describe and assess the data collection/aggregation, validation, and transmittal processes used to complete the FNS-10, FNS-742, and FNS-834, and to describe the likely sources of error for each of these processes—from schools/sites, to SFAs, to States, and ultimately delivery to FNS regional offices via the FNS Food Program Reporting System (FPRS).

*Affected Public:* State, Local or Tribal government (20 respondents and 0 non-respondents); and Business-for-profit/not-for-profit (167; 160 respondents and 7 non-respondents). There are approximately 7 non-respondents who will be contacted but choose not to participate. The burden for all respondents is broken down in the table below.

*Type of Respondents:* State Child Nutrition (CN) Agency Directors and key staff; State Supplemental Nutrition Assistance Program (SNAP) Agency Directors; SFA Directors and School Cafeteria Managers.

*Estimated Number of Respondents:* The total estimated number of respondents is 187. This includes: 4 State Child Nutrition Agency Directors, 12 Child Nutrition Agency key staff involved in reporting, 4 State SNAP Directors, 40 SFA Directors, 120 School Cafeteria Managers, and 7 non-respondents.

*Estimated Frequency of Response:* The estimated frequency of response is
