

impact of increment conventions on the liquidity and trading of the common stock of small-capitalization companies. The Exchange believes that this proposal is consistent with the Act and Section VII(A) of the Plan because it mitigates confidentiality concerns regarding the identity of certain OTC Trading Centers for which the Exchange is the DEA.¹³

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that the proposed rule change implements the provisions of the Plan.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange asserts that the proposed rule change: (1) Will not significantly affect the protection of investors or the public interest, (2) will not impose any significant burden on competition, and (3) and will not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate. In addition, the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing, or such shorter time as designated by the Commission.¹⁴

The Exchange believes that the proposed rule change raises no novel issues. The Exchange notes that the proposed rule change is intended to address the requirement in Section VII(A) of the Plan that the data made publicly available will not identify the Trading Center that generated the data, as well as the confidentiality concerns raised in connection with the publication of Appendix B data.¹⁵ The Exchange also notes that the proposal does not alter the information required to be submitted to the SEC. As such, the Exchange has designated this rule filing

as non-controversial under Section 19(b)(3)(A) of the Act¹⁶ and paragraph (f)(6) of Rule 19b-4 thereunder.¹⁷

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) of the Act to determine whether the proposed rule should be approved or disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-80760; File No. SR-CBOE-2017-042]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Market-Maker Reports of Executed Orders

May 24, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 15, 2017, Chicago Board Options Exchange, Incorporated (the “Exchange” or “CBOE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to delete and amend outdated rule language contained in Rule 8.9(b) related to Market-Maker reports of executed orders. The text of the proposed rule change is available on the Exchange’s Web site (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of

the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

CBOE Rule 8.9(b) currently provides that:

“In a manner prescribed by the Exchange, with respect to transactions to be cleared into all accounts carried for Market-Makers who are the subject of a clearing firm Letter of Guarantee issued pursuant to [CBOE] Rule 8.5, each clearing firm shall, on the business day following order entry date, report to the Exchange every executed order entered by the Market-Maker for the purchase or sale of (i) a security underlying options traded on the Exchange or (ii) a security convertible into or exchangeable for such underlying security or (iii) a security traded on the Exchange (including, with respect to multiply listed securities, orders sent to another exchange), as well as opening and closing positions in all such securities held in each such account. If the clearing firm does not report any executed order, upon the request of the Exchange the Market-Maker who entered the order will be responsible for reporting the order information.”

The Exchange is deleting this rule and replacing it with a rule substantially similar to that of the International Securities Exchange, LLC [sic] (“ISE”); ISE Gemini, LLC [sic] (“ISE Gemini”); BATS Options Market (“BZX”); BOX Options Exchange, LLC (“BOX”); NASDAQ Options Market (“NOM”); and NASDAQ OMX BX, Inc. (“BX”).³

The proposed rule change will result in some specific changes. First of all, Clearing Firms holding accounts for Market-Makers subject to a clearing firm letter of guarantee will no longer be required to submit daily reports of orders entered by those Market-Maker accounts. In addition they will not be required to submit daily position reports. Instead, the proposed rule will provide that orders, entered by Market-Makers for the purchase of (i) a security underlying options traded on the Exchange, or (ii) a security convertible into or exchangeable for such underlying security, as well as opening and closing positions in all such securities shall be provided to the Exchange by Market-Makers upon

request in a form prescribed by the Exchange. The obligation to provide order and position reports will be on the individual Market-Makers (as opposed to the clearing firms) and will only be required on an as needed basis. Previously, Market-Makers were responsible for reporting order information, when requested by the Exchange, if the clearing firm did not report on an executed order.

The proposed rule is also eliminating any requirement that either a Market-Maker or clearing firm provide order or position reports for securities traded on the Exchange. The requirement to provide order or position reports for securities traded on the Exchange has been removed completely and this information will not be required even on an as needed basis pursuant to proposed Rule 8.9(b). “Securities traded on the Exchange” was a reference to when non-options transactions were traded on the CBOE. The CBOE deleted its rules related to non-options transactions on the Exchange in 2008.⁴ Accordingly, the requirement to provide order or position reports for securities traded on the Exchange is obsolete.

Finally, the proposed rule outlines the form of the order reports to be provided by Market-Makers upon request. The proposed rule will require that the reports pertaining to orders must include the terms of each order, identification of the brokerage firms through which the orders were entered, the times of entry or cancellation, the times reports of execution were received and, if all or part of the order was executed, the quantity and execution price.

The Exchange believes current Rule 8.9(b) is outdated and operationally obsolete. The Exchange does not currently use the daily order and position reports from clearing firms. The daily order and position reports from clearing firms are no longer needed to conduct any routine regulatory surveillances or examinations or fulfill any other of the Exchange’s regulatory obligations. Any regulatory surveillance or examination that previously used the daily order and position reports can be operated without the information due to the development of effective workarounds. As such, the rule, as currently written, presents an undue burden on clearing firms and Market-Makers.
