

Higher Education Challenge Grants Program (HEC)

The Higher Education Challenge Grants Program (HEC) is a NIFA-administered competitive grants program focused on improving formal, baccalaureate or master's degree level food, agricultural, natural resources, and human sciences (FANH) education and first professional degree-level education in veterinary medicine (DVM). HEC projects provide funding to eligible applicants to help ensure a competent, qualified and diverse workforce will exist to serve the FANH sciences system. At the same time, HEC-funded projects improve the economic health and viability of communities through the development of degree programs emphasizing new and emerging employment opportunities. Finally, HEC projects address the national challenge to increase the number and diversity of students entering the FANH sciences (*i.e.*, having a FANH sciences workforce representative of the Nation's population).

SUPPLEMENTARY INFORMATION:

Background and Purpose: Higher Education Multicultural Scholars Program (MSP)—The purpose of the MSP is to provide scholarships to support recruiting, engaging, retaining, mentoring, and training committed, eligible multicultural scholars, resulting in either baccalaureate degrees within the food and agricultural sciences disciplines or a Doctor of Veterinary Medicine (D.V.M.) degree. The scholarships are intended to encourage outstanding students from groups that are historically underrepresented and underserved to pursue and complete baccalaureate degrees in the Food, Agricultural, Natural Resources, and Human Sciences, or achieve a D.V.M., that would lead to a diverse and highly skilled work force.

Through these scholarships, the goal of the MSP is to increase the participation of any group historically underrepresented in USDA mission areas and prepare them for the professional and scientific workforce in these areas. Underrepresented/underserved groups are those whose representation among food and agricultural professionals is disproportionately less than their proportion in the general population as indicated in standard statistical references, or as documented on a case-by-case basis by national survey data (*e.g.* the U.S. Department of Education's Digest of Education Statistics, U.S. Department of Agriculture's Food and Agricultural Education Information Systems, etc.).

National Needs Graduate and Postgraduate Fellowship Grants Program (NNF)—The purpose of the NNF Grants Program is to provide funding to support students' training and completion of master's and/or doctoral degree programs in identified national need areas within the Food, Agricultural, Natural Resources, and Human Sciences. Awards made under NNF are specifically intended to support traineeship programs that engage outstanding students to pursue and complete their degrees in areas where there is a national need for the development of scientific and professional expertise in the food and

agricultural sciences. NNF awards invest in graduate training and relevant international experiential learning for a cadre of diverse individuals who demonstrate their potential to successfully complete graduate degree programs in disciplines relevant to the mission of the USDA.

SUPPLEMENTARY INFORMATION:

Title: Annual Survey of Farmer Cooperatives.

OMB Number: 0570-0007.

Expiration Date of Approval: November 30, 2017.

Type of Request: Revision of a currently approved information collection.

Abstract: A primary objective of Rural Business-Cooperative Service (RBS) is to promote understanding, use and development of the cooperative form of business as a viable option for enhancing the income of agricultural producers and other rural residents. RBS direct role is providing knowledge to improve the effectiveness and performance of farmer cooperative businesses through technical assistance, research, information, and education. The annual survey of farmer cooperatives collects basic statistics on cooperative business volume, net income, members, financial status, employees, and other selected information to support RBS' objective and role. Cooperative statistics are published in various reports and used by the U.S. Department of Agriculture, cooperative management and members, educators and researchers, and others in planning and in promoting the cooperative form of business.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1 hour or less per response.

Respondents: Farmer cooperatives.

Estimated Number of Respondents: 1,175.

Estimated Number of Responses per Respondent: 1.

Estimated Number of Responses: 1,175.

Estimated Total Annual Burden on Respondents: 1,160 Hours.

Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of RBS, including whether the information will have practical utility; (2) the accuracy of the RBS' estimate of the burden of the proposed collection of information, including the validity of the

methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or forms of information technology. Comments may be sent to Jeanne Jacobs, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, Stop 0742, 1400 Independence Ave. SW., Washington, DC 20250. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record.

Dated: July 25, 2017.

Chad Parker,

Acting Administrator, Rural Business-Cooperative Service.
