

independent utility (*i.e.*, is usable and a reasonable expenditure of Federal funds even if no other improvements are made in the area). In other words, FHWA may fund an independent component of a project, instead of the full project described in the application, only if that component provides transportation benefits and will be ready for its intended use upon completion of that component's construction. Applicants should be aware that, depending on the relationship between the overall project and the independent component, the NEPA review for the independent component may have to include evaluation of all project components as connected, similar, or cumulative actions, as detailed at 40 CFR 1508.25. Priority consideration will also be given to funding requests that include a commitment of other funding sources to complement the TTPSF, and those requests where the applicants demonstrate the capacity to successfully implement the proposed project in a timely manner.

c. Not Qualified: Projects that do not meet the eligibility requirements; are not included in a State SHSP or Tribal safety plan, or a road safety audit, or impact assessment, or other safety engineering study; no data provided in the application to support the request; or do not have a comprehensive approach to safety with other partners.
