

adopted these rules in light of widespread 911 outages during the June 2012 derecho storm in the Midwest and Mid-Atlantic states, which revealed that multiple service providers did not take adequate precautions to maintain reliable service.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0329]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before December 4, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of

time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Nicole.Ongele@fcc.gov](mailto:Nicole.Ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele at (202) 418-2991 or email at [Nicole.Ongele@fcc.gov](mailto:Nicole.Ongele@fcc.gov).

**SUPPLEMENTARY INFORMATION:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

*OMB Control Number:* 3060-0329.

*Title:* Section 2.955, Equipment Authorization—Verification (Retention of Records).

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit and not-for-profit institutions.

*Number of Respondents and*

*Responses:* 8,000 respondents; 8,000 responses.

*Estimated Time per Response:* 18 hours (average).

*Frequency of Response:* One-time and on occasion reporting requirements, recordkeeping requirement; and third-party disclosure requirements.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4(i), 302, 303(g), and 303(r) of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 302 and 303(r).

*Total Annual Burden:* 144,000 hours.

*Total Annual Cost:* \$1,600,000.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* Commission rules require equipment testing to determine performance and compliance with FCC standards. This testing is typically done by either the manufacturer's testing laboratory or an independent testing laboratory.

*Needs and Uses:* This collection will be submitted as an extension after this 60 day comment period to the Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

Section 2.955 describes for each equipment device subject to verification, the responsible party, as shown in 47 CFR 2.909 shall maintain the records listed as follows:

(1) A record of the original design drawings and specifications and all changes that have been made that may affect compliance with the requirements of § 2.953.

(2) A record of the procedures used for production inspection and testing (if tests were performed) to insure the conformance required by § 2.953. (Statistical production line emission testing is not required.)

(3) A record of the measurements made on an appropriate test site that demonstrates compliance with the applicable regulations in this chapter. The record shall:

(i) Indicate the actual date all testing was performed;

(ii) State the name of the test laboratory, company, or individual performing the verification testing. The Commission may request additional information regarding the test site, the test equipment or the qualifications of the company or individual performing the verification tests;

(iii) Contain a description of how the device was actually tested, identifying the measurement procedure and test equipment that was used;

(iv) Contain a description of the equipment under test (EUT) and support equipment connected to, or installed within, the EUT;

(v) Identify the EUT and support equipment by trade name and model number and, if appropriate, by FCC Identifier and serial number;

(vi) Indicate the types and lengths of connecting cables used and how they were arranged or moved during testing;

(vii) Contain at least two drawings or photographs showing the test set-up for the highest line conducted emission and showing the test set-up for the highest radiated emission. These drawings or photographs must show enough detail to confirm other information contained in the test report. Any photographs used must be focused originals without glare or dark spots and must clearly show the test configuration used;

(viii) List all modifications, if any, made to the EUT by the testing company or individual to achieve compliance with the regulations in this chapter;

(ix) Include all of the data required to show compliance with the appropriate regulations in this chapter; and

(x) Contain, on the test report, the signature of the individual responsible for testing the product along with the name and signature of an official of the responsible party, as designated in § 2.909.

(4) For equipment subject to the provisions in part 15 of this chapter, the records shall indicate if the equipment was verified pursuant to the transition provisions contained in § 15.37 of this chapter.

(b) The records listed in paragraph (a) of this section shall be retained for two years after the manufacture of said equipment item has been permanently discontinued, or until the conclusion of an investigation or a proceeding if the manufacturer or importer is officially notified that an investigation or any other administrative proceeding involving his equipment has been instituted.

The Commission needs and requires the information under FCC Rules at 47 CFR parts 15 and 18, that RF equipment manufacturers (respondents) “self-determine” their responsibility for adherence to these rules, as guided by the following criteria:

(a) Whether the RF equipment device that is being marketed complies with the applicable Commission Rules; and

(b) If the operation of the equipment is consistent with the initially documented test results, as reported to the Commission.

The information collection is essential to controlling potential interference to radio communications.

(a) Companies that manufacture RF equipment are the anticipated respondents to this information collection.

(b) This respondent “public” generally remains the same, although the types of equipment devices that they manufacture may change in response to changing technologies and to new spectrum allocations made by the Commission.

(c) In addition, the Commission may establish new technical operating standards in response to these changing technologies and in allocation spectrum, which these RF equipment manufacturers must meet to receive their equipment authorization from the FCC.

(d) However, the process that RF equipment manufacturers must follow to verify their compliance, as mandated

by 47 CFR 2.955 of FCC Rules, will not change despite new technical standards established for specific equipment.

This information collection, therefore, applies to a variety of equipment, which is currently manufactured in the future, and that operates under varying technical standards.

Federal Communications Commission.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1242]

### Information Collection Approved by the Office of Management and Budget

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** The Federal Communications Commission (Commission) has received Office of Management and Budget (OMB) approval, on an emergency basis, for a new, one-time information collection pursuant to the Paperwork Reduction Act of 1995. An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid control number. Comments concerning the accuracy of the burden estimates and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

**FOR FURTHER INFORMATION CONTACT:**

Cathy Williams, *Cathy.Williams@fcc.gov*, (202) 418-2918.

**SUPPLEMENTARY INFORMATION:** The total annual reporting burdens and costs for the respondents are as follows:

*OMB Control Number:* 3060-1242.

*OMB Approval Date:* September 27, 2017.

*OMB Expiration Date:* March 31, 2018.

*Title:* Qualified 4G LTE Coverage Data Collection for Mobility Fund Phase II.

*Form Number:* N/A.

*Respondents:* Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

*Number of Respondents and Responses:* 50 respondents; 50 responses.

*Estimated Time per Response:* 64 hours.

*Frequency of Response:* One-time reporting requirement.

*Total Annual Burden:* 3,200 hours.

*Total Annual Cost:* None.

*Obligation To Respond:* Required to obtain or retain benefits. Statutory authority for the currently approved information collection is contained in sections 154, 254, and 303(r) of the Communications Act, as amended, 47 U.S.C. 4, 254, 303(r).

*Nature and Extent of Confidentiality:* The information collected under this collection is confidential and will not be made publicly available.

*Privacy Act Impact Assessment:* No impact(s).

*Needs and Uses:* In 2011, the Commission established the Mobility Fund, which consists of two phases. Mobility Fund Phase I provided one-time universal service support payments to immediately accelerate deployment of mobile broadband services. Mobility Fund Phase II (MF-II) will use a reverse auction to provide ongoing universal service support payments to continue to advance deployment of such services. In its February 2017 *Mobility Fund II Report and Order (MF-II Report and Order)* (FCC 17-11), the Commission adopted the rules and framework for moving forward expeditiously with the MF-II auction and stated that, prior to the auction, it would establish a map of areas presumptively eligible for MF-II support based on the most recently available FCC Form 477 mobile wireless coverage data, and provide a limited timeframe for parties to challenge those initial determinations during the pre-auction process. In its August 2017 *Order on Reconsideration and Second Report and Order* (FCC 17-102), the Commission, among other things, reconsidered its earlier decision to use FCC Form 477 data to compile the map of areas presumptively eligible for MF-II support. The Commission decided it would instead conduct a new, one-time data collection of 4G LTE coverage data that will be used for this purpose, concluding that for purposes of implementing MF-II expeditiously, this approach will provide the Commission and interested parties with the best available starting point for the challenge process and should result in fewer and more narrowly-focused challenges regarding representations of coverage. The information collected under this collection will be used by the Commission to compile the map of areas presumptively eligible for MF-II support.

The Commission received approval from OMB for the information collection requirements contained in OMB 3060-1242 on September 27, 2017.
