

DATES: The OMB will consider all written comments that agency receives on or before April 13, 2018.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the *RegInfo.gov* website at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201707-1235-001 (this link will only become active on the day following publication of this notice) or by contacting Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL-WHD, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503; by Fax: 202-395-5806 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW, Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT: Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Davis-Bacon Certified Payroll information collection. The Copeland Act requires contractors and subcontractors performing work on Federally financed or assisted construction contracts to furnish weekly a statement with respect to the wages paid each employee during the preceding week. See 40 U.S.C. 3145(a); 29 CFR 3.3(b). Regulations 29 CFR 5.5 (a)(3)(ii)(A) requires contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project if the agency is a party to the contract, accompanied by a signed Statement of Compliance indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. The DOL has developed optional use Form WH-347, Payroll

Form, to aide contractors and subcontractors performing work on federally financed or assisted construction contracts in meeting weekly payroll reporting requirements. See 29 CFR 5.5(a)(3)(ii)(A); see also, 29 CFR 3.3(b). Properly filled out, this form will satisfy the requirements of Regulations 29 CFR parts 3 and 5 as to payrolls submitted in connection with contracts subject to the Davis-Bacon and Related Acts. Copeland Act section 2 authorizes this information collection. See 40 U.S.C. 3145(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1235-0008. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 7, 2017 (82 FR 31636).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1235-0008. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Recordkeeping and Reporting Occupational Injuries and Illnesses information collection. The Occupational Safety and Health Act of 1970 (OSHAct) and regulations 29 CFR part 1904 prescribe that certain employers maintain records of job related injuries and illnesses. The OSHA uses the information to carry out enforcement and intervention activities to secure for workers a safe and healthful work environment. The data also provide the Bureau of Labor Statistics information to report on the number and rate of occupational injuries and illnesses in the country. In addition, the data inform employers and workers on the kinds of injuries and illnesses occurring in the workplace and their related hazards. Increased employer awareness should result in the identification and voluntary correction of hazardous workplace conditions. Likewise, workers who receive information on injuries and illnesses will be more likely to follow safe work practices and report workplace hazards. This would generally raise the overall level of safety and health in the workplace. OSH Act sections 8(c)(2) and 24(b)(2) authorize this information collection. See 29 U.S.C. 657(c)(2), 673(b)(2).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject

to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218–0176. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 14, 2017 (82 FR 43255).

SUPPLEMENTARY INFORMATION:

I. Abstract

Supersonic flight over land is currently restricted in the U.S. and many countries because sonic boom noise disturbs people on the ground and can potentially damage private property. NASA is researching the public acceptability of quiet commercial supersonic flight. As sufficient research is assembled, there is potential for a change in federal and international regulations.

The 2018 Quiet Supersonic Flight Community Response Test will correlate human annoyance response with low level supersonic exposure in a community setting. The supersonic exposure will be generated with an F–18 research aircraft performing a specialized maneuver. This effort is designed to evaluate remote aircraft basing and operations, community engagement, sonic boom measurements, and community annoyance surveys. The effort will improve research methods for future community-scale response testing using a purpose-built, low boom flight demonstration aircraft (LBFD).
