FEDERAL REGISTER

Vol. 89 Friday,

No. 77 April 19, 2024

Pages 28569–29246

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097–6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see *www.federalregister.gov.*

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at *www.govinfo.gov*, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 1, 1 (March 14, 1936) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, *gpocusthelp.com.*

The annual subscription price for the **Federal Register** paper edition is $860 plus postage, or $929, for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $330, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register,** including postage, is based on the number of pages: $11 for an issue containing less than 200 pages; $22 for an issue containing 200 to 400 pages; and $33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for $3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see *bookstore.gpo.gov.*

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 89 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

DEPARTMENT OF HOMELAND SECURITY

6 CFR Chapter I

49 CFR Chapter XII

Recommendation Regarding Emergency Action in Aviation

AGENCY: Office of Strategy, Policy, and Plans, Department of Homeland Security (DHS).

ACTION: Notice.

SUMMARY: DHS is publishing official notice that the Transportation Security Oversight Board (TSOB) has recommended to the Transportation Security Administration (TSA) that a cybersecurity emergency exists that warrants TSA's determination to expedite the implementation of critical cyber mitigation measures through the exercise of emergency regulatory authority.

DATES: The TSOB provided this recommendation on April 20, 2023.

FOR FURTHER INFORMATION CONTACT: Thomas McDermott, Acting Assistant Secretary for Cyber, Infrastructure, Risk and Resilience Policy at 202–834–5803 or *thomas.mcdermott@hq.dhs.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

On March 7, 2023, TSA issued Joint Emergency Amendment (EA) 23–01 [1] to certain aviation stakeholders to address the significant cybersecurity threat to the aviation system, evidenced by recent incidents and intelligence. Joint EA 23–01 is part of TSA's and the Government's, more broadly, ongoing plans and efforts to rapidly increase the cybersecurity resilience of critical transportation infrastructure. TSA determined that proceeding with immediate action was warranted under the circumstances to ensure timely implementation of critical mitigation measures by higher risk regulated entities. Joint EA 23–01 amends the security programs [2] for covered owners/operators to require performance-based cybersecurity measures intended to prevent the disruption and degradation of their critical systems. Joint EA 23–01's requirements are similar to performance-based requirements that TSA has already issued to critical pipeline and rail entities.[3]

II. TSOB Recommendation

The TSOB was created by the Aviation and Transportation Security Act (ATSA) to provide guidance regarding transportation security-related matters. TSOB members include the Secretaries of Homeland Security, Transportation, Defense, and the Treasury, the Attorney General, the Director of National Intelligence, or their designees, and one member appointed by the President to represent the National Security Council. The Secretary of Homeland Security serves in the role of TSOB chairman, which has been further delegated within the Department to the Deputy Secretary.[4] As part of its statutory duties, the TSOB is authorized to review plans for transportation security and make recommendations to the TSA Administrator regarding those plans.[5]

Following the issuance of Joint EA 23–01, TSA sought the TSOB's discretionary review under 49 U.S.C. 115(c)(5) and (6) regarding whether a cybersecurity emergency exists that warrants TSA's determination to expedite the implementation of critical cyber mitigation measures through the exercise of its emergency regulatory authority, under which the EA was issued.[6] TSA sought the TSOB's perspective and guidance given the TSOB's role in ratifying TSA's emergency cybersecurity actions applicable in the pipeline and rail sectors as well as the context of the coordinated efforts across the Government to counter the continuing and serious cyber threats.

Under the authority of 49 U.S.C. 115(c)(5) and (6), the chairman of the TSOB convened a meeting of the Board to review TSA's transportation security plans for cybersecurity in the aviation sector and provide a recommendation regarding whether a cybersecurity emergency exists that warrants TSA's determination to expedite the implementation of critical cyber mitigation measures by exercising its emergency regulatory authority to issue Joint EA 23–01. Representatives from the White House Office of the National Cyber Director, the Department of Defense's United States Transportation Command, DHS's Cybersecurity and Infrastructure Security Agency, and the Federal Aviation Administration, as well as the Deputy National Security Advisor for Cyber and Emerging Technology at NSC were also invited to participate in the meeting given their relevant expertise.

During the meeting, the TSOB was briefed on the cyber threat to the aviation transportation system and on TSA's effort to mitigate the threat through Joint EA 23–01. The briefing included presentation of sensitive security information and classified information. Following the briefing, the TSOB discussed the circumstances precipitating TSA's issuance of Joint EA 23–01, including relevant events and intelligence presented during the briefing. At the meeting's conclusion, the TSOB recommended that a cybersecurity emergency exists that warrants TSA's determination to expedite the implementation of a critical cyber mitigation measures through the exercise of its emergency regulatory authority to issue Joint EA 23–01. This action reinforced the need for TSA to proceed with critical

[1] EA 23–01 is Sensitive Security Information (SSI). *See* 49 CFR 1520.5(b).

[2] Under TSA regulations, airport and aircraft operators must adopt and carry out a security program approved by TSA that provides for the safety and security of persons and property engaged in air transportation. 49 CFR part 1542, subpart B; 49 CFR part 1544, subpart B.

[3] The TSOB reviewed and ratified TSA's security directives mandating performance-based cybersecurity requirements in the pipeline and rail sectors. 88 FR 36919; 88 FR 36921.

[4] 49 U.S.C. 115(a), (b)(1), (b)(2), and (c).

[5] 49 U.S.C. 115(c)(5)–(6).

[6] Certain TSA actions issued pursuant to statutory emergency authority, like the security directives mandating cybersecurity measures in the pipeline and rail sectors, must be ratified by the TSOB to remain effective beyond 90 days. 49 U.S.C. 114(*l*)(2)(B). Unlike those directives, EA 23–01 was issued under separate TSA regulatory authority, 49 CFR 1542.105(d); 49 CFR 1544.105(d), which does not require TSOB ratification.

mitigation measures on an emergency basis.

Kristie Canegallo,

Senior Official Performing the Duties of the Deputy Secretary & Chairman of the Transportation Security Oversight Board.

Ratification of Security Directives

AGENCY: Office of Strategy, Policy, and Plans, Department of Homeland Security (DHS).

ACTION: Notice of ratification of security directives.

SUMMARY: The Department of Homeland Security (DHS) is publishing official notice that the Transportation Security Oversight Board (TSOB) ratified Transportation Security Administration (TSA) Security Directive Pipeline–2021–01C and Security Directive Pipeline–2021–02D, applicable to owners and operators of critical hazardous liquid and natural gas pipeline infrastructure (owner/operators). Security Directive Pipeline–2021–01C, issued on May 22, 2023, extended the requirements of the Security Directive Pipeline-2021–01 series for an additional year. Security Directive Pipeline–2021–02D, issued on July 26, 2023, extended the requirements of the Security Directive Pipeline–2021–02 series for an additional year and amended them to strengthen their effectiveness and address emerging cyber threats.

DATES: The TSOB ratified Security Directive Pipeline–2021–01C on June 21, 2023, and Security Directive Pipeline–2021–02D on August 24, 2023.

FOR FURTHER INFORMATION CONTACT: Thomas McDermott, Deputy Assistant Secretary for Cyber, Infrastructure, Risk and Resilience Policy, at 202–834–5803 or *thomas.mcdermott@hq.dhs.gov*.

SUPPLEMENTARY INFORMATION:

I. Background

A. Cybersecurity Threat

The cyber threat to the country's critical infrastructure has only increased in the time since TSA issued its initial cybersecurity-related security directive (Security Directive Pipeline–2021–01) in response to the Colonial Pipeline incident. Cyber threats to surface transportation systems, including pipelines, continue to proliferate, as both nation-states and criminal cyber groups continue to target critical infrastructure in order to cause operational disruption and economic harm.[1] Cyber incidents, particularly ransomware attacks, are likely to increase in the near and long term, due in part to vulnerabilities identified by threat actors in U.S. networks.[2] Particularly in light of the ongoing Russia-Ukraine conflict,[3] these threats remain elevated and pose a risk to the national and economic security of the United States.

B. Security Directive Pipeline–2021–01C

On May 27, 2021, TSA issued Security Directive Pipeline–2021–01, which was the first of two security directives issued by TSA to enhance the cybersecurity of critical pipeline systems in response to the Colonial Pipeline attack on May 7, 2021. Security Directive Pipeline–2021–01, and the subsequent amendments in this series, required covered owner/operators to: (1) report cybersecurity incidents to CISA; (2) appoint a cybersecurity coordinator to be available 24/7 to coordinate with TSA and CISA; and (3) conduct a self-assessment of cybersecurity practices, identify any gaps, and develop a plan and timeline for remediation.[4] This first security directive went into effect on May 28, 2021, was ratified by the TSOB on July 3, 2021, and was set to expire on May 28, 2022.[5]

On December 2, 2021, TSA issued Security Directive Pipeline–2021–01A, amending Security Directive Pipeline–2021–01, to update the definition of cybersecurity incident covered by the directive's reporting requirement and align it with the definition applicable to the other modes.[6] The TSOB ratified Security Directive Pipeline–2021–01A on December 29, 2021.[7] Security Directive Pipeline–2021–01, as amended by Security Directive Pipeline–2021–01A, was set to expire May 28, 2022. On May 27, 2022, TSA issued Security Directive Pipeline–2021–01B to extend the requirements of Security Directive Pipeline–2021–01A for an additional year.[8] Security Directive Pipeline–2021–01B became effective May 29, 2022 and was set to expire on May 29, 2023. The TSOB ratified Security Directive Pipeline–2021–01B on June 24, 2021.[9]

In light of the continuing threat, TSA determined that the measures required by the Security Directive Pipeline–2021–01, as amended and extended by Security Directive Pipeline–2021–01A and Security Directive Pipeline–2021–01B, remain necessary to protect the Nation's critical pipeline infrastructure beyond Security Directive Pipeline–2021–01B's expiration date of May 29, 2023. On May 22, 2023, TSA issued Security Directive Pipeline–2021–01C to extend the requirements of Security Directive Pipeline–2021–01B for an additional year. Security Directive Pipeline–2021–01C became effective May 29, 2023 and expires on May 29, 2024. Security Directive Pipeline–2021–01C contains no substantive changes from Security Directive Pipeline–2021–01B. Security Directive Pipeline–2021–01C is available online in TSA's Surface Transportation Cybersecurity Toolkit.[10]

C. Security Directive Pipeline–2021–02D

On July 19, 2021, TSA issued Security Directive Pipeline-2021–02, the second security directive TSA issued in response to the attack on Colonial Pipeline. This directive required owner/operators to implement additional

[3] Joint Cybersecurity Alert—Alert (AA22–011A), *Understanding and Mitigating Russian State-Sponsored Cyber Threats to U.S. Critical Infrastructure,* released by CISA, the Federal Bureau of Investigation (FBI), and the National Security Agency (NSA) on January 11, 2022 (as revised); Joint Cybersecurity Alert—Alert (AA22–110A), *Russian State-Sponsored and Criminal Cyber Threats to Critical Infrastructure,* released cybersecurity authorities of the United States, Australia, Canada, New Zealand, and the United Kingdom on April 20, 2022 (as revised).

[4] Security Directive Pipeline–2021–01: Enhancing Pipeline Cybersecurity.

[5] 86 FR 38209.

[6] During TSA's development of cybersecurity actions applicable to other transportation modes, TSA made a determination to modify the definition of cybersecurity incident it had used in the first security directive following industry input and consultation with DHS cybersecurity experts.

[7] 87 FR 31093.

[8] 88 FR 36919. Security Directive Pipeline–2021–01B also extended the deadline by which cybersecurity incidents must be reported to CISA from 12 hours to 24 hours after an incident is identified. This change aligned the reporting timeline for critical pipeline entities to mirror the reporting requirements applicable to other surface transportation entities and aviation entities.

[9] *Id.*

[10] TSA Surface Transportation Cybersecurity Toolkit, *available at https://www.tsa.gov/for-industry/surface-transportation-cybersecurity-toolkit.*

cybersecurity measures to prevent disruption and degradation to their infrastructure in response to the ongoing threat, including a number of specific, prescribed mitigation measures.[11] On December 17, 2021, TSA issued Security Directive Pipeline–2021–02B, revising Security Directive Pipeline–2021–02 to provide additional flexibility to owner/operators in complying with certain requirements. The TSOB ratified Security Directive Pipeline–2021–02B on January 13, 2022.[12]

On July 21, 2022, TSA issued Security Directive Pipeline–2021–02C, transitioning the requirements of the previous versions in the series to be more performance-based and less prescriptive. The performance-based approach enhanced security by mandating that critical security outcomes are achieved while allowing owner/operators to choose the most appropriate security measures for their specific systems and operations. The directive became effective on July 27, 2022, and was set to expire on July 27, 2023. The TSOB ratified Security Directive Pipeline–2021–02C on August 19, 2022.[13]

Security Directive Pipeline–2021–02C identified critical security outcomes that covered parties must achieve. To ensure that these outcomes are met, the directive requires owner/operators to:

- Establish and implement a TSA-approved Cybersecurity Implementation Plan (CIP) that describes the specific cybersecurity measures employed and the schedule for achieving the security outcomes identified;
- Develop and maintain an up-to-date Cybersecurity Incident Response Plan (CIRP) to reduce the risk of operational disruption, or the risk of other significant impacts on necessary capacity, as defined in the directive, should the Information and/or Operational Technology systems of a gas or liquid pipeline be affected by a cybersecurity incident; and
- Establish a Cybersecurity Assessment Program (CAP) and submit an annual plan that describes how the owner/operator will proactively and regularly assess the effectiveness of cybersecurity measures and identify and resolve device, network, and/or system vulnerabilities.

In light of the continuing threat, TSA issued Security Directive Pipeline–2021–02D on July 26, 2023, extending the requirements of Security Directive Pipeline–2021–02C for an additional year. The directive became effective on July 27, 2023, and expires on July 27, 2024.

In addition to extending the performance-based requirements, Security Directive Pipeline–2021–02D includes several revisions intended to strengthen the effectiveness of the directive's requirements and allow greater ability to respond to changing threats. Security Directive Pipeline–2021–02D modified the requirements related to CIRPS and CAPS to provide greater clarity and strengthen their effectiveness and to ensure the provisions related to defining Critical Cyber Systems allow flexibility to respond to emerging and evolving threats. The security directive also contains several other clarifications and refinements of the existing requirements. The revisions contained in the directive were made following engagement with covered entities and in consultation with federal partners. Security Directive Pipeline–2021–02D is available online in TSA's Surface Transportation Cybersecurity Toolkit.[14]

II. TSOB Ratification

TSA has broad statutory responsibility and authority to safeguard the nation's transportation system.[15] The TSOB—a body consisting of the Secretary of Homeland Security, the Secretary of Transportation, the Attorney General, the Secretary of Defense, the Secretary of the Treasury, the Director of National Intelligence, or their designees, and a representative of the National Security Council—reviews certain TSA regulations and security directives as consistent with law.[16] TSA issued Security Directive Pipeline–2021–01C and Security Directive Pipeline–2021–02D under 49 U.S.C. 114(*l*)(2)(A), which authorizes TSA to issue emergency regulations or security directives without providing notice or the opportunity for public comment where ''the Administrator determines that a regulation or security directive must be issued immediately in order to protect transportation security.'' Security directives issued pursuant to the procedures in 49 U.S.C. 114(*l*)(2) ''shall remain effective for a period not to exceed 90 days unless ratified or disapproved by the Board or rescinded by the Administrator.'' [17]

Following the issuance of Security Directive Pipeline–2021–01C on May 22, 2023, the chair of the TSOB convened the board to review the directive. In reviewing Security Directive Pipeline–2021–01C, the TSOB reviewed the required measures extended by the directive and the continuing need for TSA to maintain these requirements pursuant to its emergency authority under 49 U.S.C. 114(*l*)(2) to prevent the disruption and degradation of the country's critical transportation infrastructure. The TSOB also considered whether to authorize TSA to extend the security directive beyond its current expiration date of May 29, 2024, subject to certain conditions, should the TSA Administrator believe such an extension is necessary to address the evolving threat that may continue beyond the original expiration date.

Following its review, the TSOB ratified Security Directive Pipeline–2021–01C on June 21, 2023. The TSOB also authorized TSA to extend the security directive beyond its current expiration date, should the TSA Administrator determine such an extension is necessary to address the evolving threat that may continue beyond the original expiration date. Such an extension is subject to the following conditions: (1) there are no changes to the security directive other than an extended expiration date; (2) the TSA Administrator makes an affirmative determination that conditions warrant the extension of the directive's requirements; and (3) the TSA Administrator documents such a determination and notifies the TSOB.

After TSA issued Security Directive Pipeline–2021–02D on July 26, 2023, the chair of the TSOB again convened the board to review that directive. In reviewing Security Directive Pipeline–2021–02D, the TSOB reviewed the amended required measures extended by the directive as well as the continuing need for TSA to maintain these requirements pursuant to its emergency authority under 49 U.S.C. 114(*l*)(2) to protect critical transportation infrastructure. Again, the TSOB also considered whether to authorize TSA to extend Security Directive Pipeline–2021–02D beyond its current expiration date of July 27, 2024, subject to the same conditions, should the TSA Administrator believe such an extension is necessary to address the threat.

[11] Security Directive Pipeline–2021–02 became effective on July 26, 2021, and was ratified by the TSOB on August 17, 2021.

[12] *See* 87 FR 31093 (May 23, 2022).

[13] *See* 88 FR 36919 (May 6, 2023). The TSOB also authorized TSA to extend Security Directive Pipeline–2021–02C beyond its expiration date of July 27, 2023, subject to certain conditions, including that such an extension would make no changes other than the extension of the expiration date.

[14] TSA Surface Transportation Cybersecurity Toolkit, *available at https://www.tsa.gov/for-industry/surface-transportation-cybersecurity-toolkit.*

[15] *See, e.g.,* 49 U.S.C. 114(d), (f), (*l*), (m).

[16] *See, e.g.,* 49 U.S.C. 115; 49 U.S.C. 114(*l*)(2)(B).

[17] 49 U.S.C. 114(*l*)(2)(B).

The TSOB ratified Security Directive Pipeline–2021–02D on August 24, 2023. The TSOB also authorized TSA to extend the security directive beyond its current expiration date, should the TSA Administrator determine such an extension is necessary to address the evolving threat that may continue beyond the original expiration date. Such an extension is subject to the following conditions: (1) there are no changes to the security directive other than an extended expiration date; (2) the TSA Administrator makes an affirmative determination that conditions warrant the extension of the directive's requirements; and (3) the TSA Administrator documents such a determination and notifies the TSOB.

RIN 0584–AE96

Establishing the Summer EBT Program and Rural Non-Congregate Option in the Summer Meal Programs

AGENCY: Food and Nutrition Service (FNS), Department of Agriculture (USDA).

ACTION: Interim final rule, extension of comment period.

SUMMARY: The USDA Food and Nutrition Service is extending for 120 days the public comment period on the interim final rule, ''Establishing the Summer EBT Program and Rural Non-Congregate Option in the Summer Meal Programs'', which published in the **Federal Register** on December 29, 2023. This action extends the public comment period from April 29, 2024, to August 27, 2024, to give the public additional time to prepare and submit comments.

DATES: The comment period of the interim final rule published December 29, 2023, at 88 FR 90230, is extended through August 27, 2024. To be assured of consideration, written comments on this interim final rule must be received on or before August 27, 2024.

ADDRESSES: The Food and Nutrition Service invites interested persons to submit comments on this interim final rule. Comments may be submitted by any of the following methods:

- *Federal eRulemaking Portal:* Go to *https://www.regulations.gov.* Follow the online instructions for submitting comments.
- *Mail:* Send comments to Community Meals Policy Division, Food and Nutrition Service, 1320 Braddock Place, Alexandria, VA 22314.
- All written comments submitted in response to this interim final rule will be included in the record and will be made available to the public. Please be advised that the substance of the comments and the identity of the individuals or entities submitting the comments will be subject to public disclosure. USDA will make the written comments publicly available on the internet via *https://www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: J. Kevin Maskornick, Division Director, Community Meals Policy Division, USDA Food and Nutrition Service, 1320 Braddock Place, Alexandria, VA 22314; telephone: 703–305–2537.

SUPPLEMENTARY INFORMATION: The Food and Nutrition Service is extending the public comment period on the interim final rule ''Establishing the Summer EBT Program and Rural Non-Congregate Option in the Summer Meal Programs'', which published on December 29, 2023, at 88 FR 90230. The Consolidated Appropriations Act, 2023 required the Secretary of Agriculture to make available an option to States to provide summer meals for non-congregate meal service in rural areas with no congregate meal service and to establish a permanent Summer Electronic Benefits Transfer for Children Program (Summer EBT) for the purpose of ensuring continued access to food when school is not in session for the summer. This interim final rule amends the Summer Food Service Program (SFSP) and the National School Lunch Program's Seamless Summer Option (SSO) regulations to codify the flexibility for rural program operators to provide non-congregate meal service in the SFSP and SSO, collectively referred to as the summer meal programs. This rule also establishes regulations and codifies the Summer EBT Program in the Code of Federal Regulations.

This action extends the public comment period to August 27, 2024, to provide additional time for the public, including State administering agencies, Territories, and Indian Tribal Organizations, as well as program participants and beneficiaries, and other stakeholders, to prepare and submit comments. Because the interim final rule became effective immediately upon publication, stakeholders are already taking active steps to implement its provisions. Extending the comment period ensures that these stakeholders are able to provide robust feedback on the entirety of the interim final rule's provisions, and that this feedback is reflective of their implementation experiences in advance of and during Summer 2024. Receipt of informed public input accounting for the first year of operations under the new Program rules will be vital when the Food and Nutrition Service considers future rulemaking to finalize the provisions of the interim final rule.

Cynthia Long,

Administrator, Food and Nutrition Service.

BILLING CODE 3410–30–P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC–2023–0220]

RIN 3150–AL05

List of Approved Spent Fuel Storage Casks: FuelSolutions™ Spent Fuel Management System, Certificate of Compliance No. 1026, Renewal of Initial Certificate and Amendment Nos. 1 Through 4

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is amending its spent fuel storage regulations by revising the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System listing within the ''List of approved spent fuel storage casks'' to renew the initial certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026. The renewal of the initial certificate of compliance and Amendment Nos. 1 through 4 for 40 years revises the certificate's conditions and technical specifications to address aging management activities related to the structures, systems, and components important to safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations.

DATES: This direct final rule is effective July 3, 2024, unless significant adverse comments are received by May 20, 2024. If the direct final rule is withdrawn as

a result of such comments, timely notice of the withdrawal will be published in the **Federal Register**. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Comments received on this direct final rule will also be considered to be comments on a companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register**.

ADDRESSES: Submit your comments, identified by Docket ID NRC–2023–0220, at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

You can read a plain language description of this direct final rule at *https://www.regulations.gov/docket/NRC-2023-0220.* For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: George Tartal, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–0016, email: *george.tartal@nrc.gov* and Yen-Ju Chen, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–1018, email: *yen-ju.chen@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2023–0220 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2023–0220. Address questions about NRC dockets to Dawn Forder, telephone: 301–415–3407, email: *Dawn.Forder@nrc.gov.* For technical questions contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *PDR.Resource@nrc.gov.* For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the ''Availability of Documents'' section.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

B. Submitting Comments

Please include Docket ID NRC–2023–0220 in your comment submission. The NRC requests that you submit comments through the Federal rulemaking website at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Rulemaking Procedure

This direct final rule is limited to the changes contained in the Initial Certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026 and does not include other aspects of the FuelSolutions™ Spent Fuel Management System Cask System design. The NRC is using the ''direct final rule procedure'' to issue this amendment because it represents a limited and routine change to an existing certificate of compliance that is expected to be non-controversial. Adequate protection of public health and safety continues to be reasonably assured. The amendment to the rule will become effective on July 3, 2024. However, if the NRC receives any significant adverse comment on this direct final rule by May 20, 2024, then the NRC will publish a document that withdraws this action and will subsequently address the comments received in a final rule as a response to the companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register** or as otherwise appropriate. In general, absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC to make a change (other than editorial) to

the rule, certificate of compliance, or technical specifications (TS).

III. Background

Section 218(a) of the Nuclear Waste Policy Act of 1982, as amended, requires that ''[t]he Secretary [of the Department of Energy] shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the [Nuclear Regulatory] Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission.'' Section 133 of the Nuclear Waste Policy Act states, in part, that ''[t]he Commission shall, by rule, establish procedures for the licensing of any technology approved by the Commission under Section 219(a) [sic: 218(a)] for use at the site of any civilian nuclear power reactor.''

To implement this mandate, the Commission approved dry storage of spent nuclear fuel in NRC-approved casks under a general license by publishing a final rule that added a new subpart K in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) entitled ''General License for Storage of Spent Fuel at Power Reactor Sites'' (55 FR 29181; July 18, 1990). This rule also established a new subpart L in 10 CFR part 72 entitled ''Approval of Spent Fuel Storage Casks,'' which contains procedures and criteria for obtaining NRC approval of spent fuel storage cask designs. The NRC subsequently issued a final rule on January 16, 2001 (66 FR 3444), that approved the FuelSolutions™ Spent Fuel Management System design and added it to the list of NRC-approved cask designs in § 72.214 as Certificate of Compliance No. 1026.

On August 28, 2007 (72 FR 49352), the NRC amended the scope of the general licenses issued under 10 CFR 72.210 to include the storage of spent fuel in an independent spent fuel storage installations (ISFSI) at power reactor sites to persons authorized to possess or operate nuclear power reactors under 10 CFR part 52. On February 16, 2011 (76 FR 8872), the NRC amended subparts K and L in 10 CFR part 72, to extend and clarify the term limits for certificates of compliance and revised the conditions for spent fuel storage cask renewals, including adding requirements for the safety analysis report to include time-limited aging analyses and a description of aging management programs. The NRC also clarified the terminology used in the regulations to use ''renewal'' rather than ''reapproval'' to better reflect that extending the term of a currently approved cask design is based on the cask design standards in effect at the time the certificate of compliance was approved rather than current standards.

IV. Discussion of Changes

The term certified by the initial Certificate of Compliance No. 1026 was 20 years. The period of extended operation for each cask begins 20 years after the cask is first used by the general licensee to store spent fuel. On November 6, 2020, Westinghouse Electric Company LLC submitted a request to the NRC to renew Certificate of Compliance No. 1026 for a period of 40 years beyond the initial certificate period. Westinghouse Electric Company LLC supplemented its request on March 30, 2021; June 30, 2022; and September 13, 2022.

The FuelSolutions™ Storage System (the system) is certified as described in the Safety Analysis Report (SAR) and in NRC's Safety Evaluation Report (SER) accompanying the certificate of compliance (CoC). The system consists of the following components: (1) canister for dry storage of spent nuclear fuel (W21 and W74); (2) transfer cask for canister loading, closure and handling capability (W100); and (3) storage cask which provides passive vertical dry storage of a loaded canister (W150). The system stores up to 21 pressurized water reactor (PWR) assemblies or 64 boiling water reactor (BWR) assemblies.

The canister is the component providing confinement to the system for the stored fuel. A typical canister consists of a shell assembly, top and bottom inner closure plates, vent and drain port covers, internal basket assembly, top and bottom shield plugs, and top and bottom outer closure plates. All structural components are constructed of high-strength carbon steel (electroless nickel coated) or stainless steel. The canister shell, top and bottom inner closure plates, and the vent and drain port covers form the confinement boundary. The storage overpack provides structural support, shielding, protection from environmental conditions, and natural convection cooling of the canister during long-term storage. The transfer cask provides shielding during canister movements between the spent fuel pool and the storage cask.

The Nuclear Energy Institute's (NEI) document NEI 14–03, Revision 2, ''Format, Content and Implementation Guidance for Dry Cask Storage Operations-Based Aging Management,'' (December 2016) provides an operations-based, learning approach to aging management for the storage of spent fuel, which builds on the lessons learned from industry's experience with aging management for reactors. The NRC endorsed NEI 14–03, Revision 2, with clarifications, in Regulatory Guide 3.76, Revision 0, ''Implementation of Aging Management Requirements for Spent Fuel Storage Renewals,'' issued July 2021. Specifically, NEI 14–03 provides a framework for sharing operating experience through an industry-developed database called the ISFSI Aging Management Institute of Nuclear Power Operations Database. NEI 14–03 also includes a framework for learning aging management programs using aging management ''tollgates,'' which offer a structured approach for periodically assessing operating experience and data from applicable research and industry initiatives at specific times during the period of extended operation and performing a safety assessment that confirms the safe storage of the spent nuclear fuel by ensuring the aging management programs continue to effectively manage the identified aging effects. The ISFSI Aging Management Institute of Nuclear Power Operations Database provides operating experience information and a basis to support licensees' future changes to the aging management programs. The ISFSI Aging Management Institute of Nuclear Power Operations Database and the aging management tollgates are considered key elements in ensuring the effectiveness of aging management activities and the continued safe storage of spent fuel during the period of extended operation.

Westinghouse Electric Company, LLC incorporated periodic tollgate assessments as requirements in the renewed certificate of compliance, as recommended in NEI 14–03, Revision 2. The implementation of tollgate assessments provides reasonable assurance that the aging management programs for the canister, the transfer cask, and the overpack will continue to effectively manage aging effects during the period of extended operation.

The renewal of the initial certificate and Amendment Nos. 1 through 4 was conducted in accordance with the renewal provisions in § 72.240. The NRC's regulations require the safety analysis report for the renewal to include time-limited aging analyses that demonstrate that structures, systems, and components important to safety will continue to perform their intended function for the requested period of extended operation and a description of the aging management programs for the

management of issues associated with aging that could adversely affect structures, systems, and components important to safety. In addition, the regulations in § 72.240(e) authorize the NRC to revise the certificate of compliance to include any additional terms, conditions, and specifications it deems necessary to ensure the safe operation of the cask during the certificate of compliance's renewal term.

The NRC is revising the initial certificate and Amendment Nos. 1 through 4 to update the certificate holder name and address and to make corrections and editorial changes to the CoC and TSs. The changes to the aforementioned documents are identified with revision bars in the margin of each document. The NRC is adding three new conditions to address aging management activities related to the structures, systems, and components important to the safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations. The three new conditions added to the renewal of the initial certificate of compliance and Amendment Nos. 1 through 4 are:

- A condition requiring the certificate of compliance holder to submit an updated final safety analysis report within 90 days after the effective date of the renewal. The updated final safety analysis report must reflect the changes resulting from the review and approval of the renewal of the certificate of compliance, including the FuelSolutions™ Spent Fuel Management System final safety analysis report. This condition ensures that final safety analysis report changes are made in a timely fashion to enable general licensees using the storage system during the period of extended operation to develop and implement necessary procedures related to renewal and aging management activities. The certificate of compliance holder is required to continue to update the final safety analysis report pursuant to the requirements of § 72.248.
- A condition requiring each general licensee using the FuelSolutions™ Spent Fuel Management System design to include, in the evaluations required by § 72.212(b)(5), evaluations related to the terms, conditions, and specifications of this certificate of compliance amendment as modified (*i.e.,* changed or added) as a result of the renewal of the certificate of compliance and include, in the document review required by § 72.212(b)(6), a review of the final safety analysis report changes resulting from the renewal of the certificate of compliance and the NRC Safety Evaluation Report for the renewal of the certificate of compliance. The general licensee would also be required to ensure that the evaluations required by § 72.212(b)(7) in response to these changes are conducted and the determination required by § 72.212(b)(8) is made. This condition also makes it clear that to meet the requirements in § 72.212(b)(11), general licensees that currently use a FuelSolutions™ Spent Fuel Management System will need to update their § 72.212 reports, even if they do not put additional Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management Systems into service after the renewal's effective date. These evaluations, reviews, and determinations are to be completed before the dry storage system enters the period of extended operation (which begins 20 years after the first use of the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System) or no later than 365 days after the effective date of this rule, whichever is later. This will provide general licensees a minimum of 365 days to comply with the new terms, conditions, specifications, and other changes to the certificate of compliance and to make the necessary determinations required by § 72.212(b)(8) as to whether activities related to the storage of spent nuclear fuel using the renewed certificate of compliance involve a change in the facility Technical Specifications or requires a license amendment for the facility.
- A condition requiring all future amendments and revisions to the certificate of compliance (*i.e.,* the initial certificate 1026 and Amendment Nos. 1 through 4) include evaluations of the impacts to aging management activities (*i.e.,* time-limited aging analyses and aging management programs) to ensure that they remain adequate for any changes to structures, systems, and components important to safety within the scope of renewal. This condition ensures that future amendments to the certificate of compliance address the renewed design bases for the certificate of compliance, including aging management impacts that may arise from any changes to the system in proposed future amendments.

Additionally, the condition for the initial certificate and Amendment Nos. 1 through 4 would be amended to reflect changes to the scope of the general license granted by § 72.210 that were made after the approval of the initial certificate. The authorization is amended to allow persons authorized to possess or operate a nuclear power reactor under 10 CFR part 52 to use the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System under the general license issued under § 72.210.

The NRC made one corresponding change from the technical specifications for the initial certificate of compliance and Amendment Nos. 1 through 4 by adding a section addressing the aging management program. General licensees using the FuelSolutions™ Spent Fuel Management System design during the period of extended operation will need to establish, implement, and maintain written procedures for each applicable aging management program in the final safety analysis report to use the FuelSolutions™ Spent Fuel Management System design during the approved period of extended operation. The procedures will need to include provisions for changing aging management program elements, as necessary, and within the limitations of the approved design bases to address new information on aging effects based on inspection findings and/or industry operating experience. General licensees will also be required to perform tollgate assessments as described in the final safety analysis report.

General licensees will need to establish and implement these written procedures prior to entering the period of extended operation (which begins 20 years after the first use of the cask system) or no later than 365 days after the effective date of this rule, whichever is later. The general licensee is required to maintain these written procedures for as long as the general licensee continues to operate the FuelSolutions™ Spent Fuel Management System in service for longer than 20 years.

Under § 72.240(d), the design of a spent fuel storage cask will be renewed if (1) the quality assurance requirements in 10 CFR part 72, subpart G, ''Quality Assurance,'' are met, (2) the requirements of § 72.236(a) through (i) are met, and (3) the application includes a demonstration that the storage of spent fuel has not, in a significant manner, adversely affected the structures, systems, and components important to safety. Additionally, § 72.240(c) requires that the safety analysis report accompanying the application contain time-limited aging analyses that demonstrate that the structures, systems, and components important to safety will continue to perform their intended function for the requested period of extended operation and a description of the aging management program for management of aging issues that could adversely affect structures,

systems, and components important to safety.

As documented in the preliminary safety evaluation report, the NRC reviewed the application for the renewal of the certificate of compliance and the conditions in the certificate of compliance and determined that the conditions in subpart G, § 72.236(a) through (i), have been met and the application includes a demonstration that the storage of spent nuclear fuel has not, in a significant manner, adversely affected structures, systems, and components important to safety. The NRC's safety review determined that the FuelSolutions™ Spent Fuel Management System, with the added terms, conditions, and specifications in the certificate of compliance and the technical specifications, will continue to meet the requirements of 10 CFR part 72 for an additional 40 years beyond the initial certificate term. Consistent with § 72.240, the NRC is renewing the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System initial certificate 1026 and Amendment Nos. 1 through 4.

Extending the expiration date of the approval for the initial certificate and Amendment Nos. 1 through 4 for 40 years and requiring the implementation of aging management activities during the period of extended operation does not impose any modification or addition to the design of a cask system's structures, systems, and components important to safety, or to the procedures or organization required to operate the system during the initial 20-year storage term certified by the cask's initial certificate of compliance. General licensees who have loaded these casks, or who load these casks in the future under the specifications of the applicable renewed certificate of compliance, may store spent fuel in these cask system designs for 20 years without implementing the aging management program. For any casks that have been in use for more than 20 years, the general licensee will have 365 days to complete the analyses required to use the cask system design pursuant to the terms and conditions in the renewed certificate of compliance. As explained in the 2011 final rule that amended 10 CFR part 72 (76 FR 8872), the general licensee's authority to use a particular storage cask design under an approved certificate of compliance will be for at least the term certified by the cask's certificate of compliance. For casks placed into service before the expiration date of the initial certificate, the general licensee's authority to use the cask would be extended for an additional 40 years from the date the initial certificate expired. For casks placed into service after the expiration date of the initial certificate and before the effective date of this rule, the general licensee's authority to use the cask would last the length of the term certified by the cask's certificate of compliance (*i.e.,* 40 years after the cask is placed into service). For casks placed into service after this rule becomes effective, the general licensee's authority to use the cask would expire 40 years after the cask is first placed into service.

This direct final rule revises the FuelSolutions™ Spent Fuel Management System design listing in § 72.214 by renewing, for 40 more years, the initial certificate and Amendment Nos. 1 through 4 of Certificate of Compliance No. 1026. The renewed certificate of compliance includes the changes to the certificate of compliance and technical specifications previously described. The renewed certificate of compliance includes the terms, conditions, and specifications that will ensure the safe operation of the cask during the renewal term and the added conditions that will require the implementation of an aging management program. The preliminary safety evaluation report describes the new and revised conditions in the certificate of compliance, the changes to the technical specifications, and the NRC staff evaluation.

V. Voluntary Consensus Standards

The National Technology Transfer and Advancement Act of 1995 (Pub. L. 104–113) requires that Federal agencies use technical standards that are developed or adopted by voluntary consensus standards bodies unless the use of such a standard is inconsistent with applicable law or otherwise impractical. In this direct final rule, the NRC revises the FuelSolutions™ Spent Fuel Management System Cask System design listed in § 72.214, ''List of approved spent fuel storage casks.'' This action does not constitute the establishment of a standard that contains generally applicable requirements.

VI. Agreement State Compatibility

Under the ''Agreement State Program Policy Statement'' approved by the Commission on October 2, 2017, and published in the **Federal Register** on October 18, 2017 (82 FR 48535), this rule is classified as Compatibility Category NRC—Areas of Exclusive NRC Regulatory Authority. The NRC program elements in this category are those that relate directly to areas of regulation reserved to the NRC by the Atomic Energy Act of 1954, as amended, or the provisions of 10 CFR chapter I. Therefore, compatibility is not required for program elements in this category.

VII. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, ''Plain Language in Government Writing,'' published June 10, 1998 (63 FR 31885).

VIII. Environmental Assessment and Finding of No Significant Impact

Under the National Environmental Policy Act of 1969, as amended, and the NRC's regulations in 10 CFR part 51, ''Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,'' the NRC has determined that this direct final rule, if adopted, would not be a major Federal action significantly affecting the quality of the human environment and, therefore, an environmental impact statement is not required. The NRC has made a finding of no significant impact based on this environmental assessment.

A. The Action

The action is to amend § 72.214 to revise the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System listing within the ''List of approved spent fuel storage casks'' to renew the initial certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026.

B. The Need for the Action

This direct final rule renews the certificate of compliance for the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design within the list of approved spent fuel storage casks to allow power reactor licensees to store spent fuel at reactor sites in casks with the approved modifications under a general license. Specifically, this rule extends the expiration date for the FuelSolutions™ Spent Fuel Management System certificate of compliance for an additional 40 years, allowing a power reactor licensee to continue using the cask design during a period of extended operation for a term certified by the cask's renewed certificate of compliance.

In addition, this direct final rule revises the certificate of compliance for the initial certificate and Amendment Nos. 1 through 4 to update the

certificate holder name and address and adds three new conditions:

- A condition for submitting an updated FSAR to the NRC, in accordance with § 72.4, within 90 days after the effective date of the CoC renewal.
- A condition for renewed CoC use during the period of extended operation to ensure that a general licensee's report prepared under § 72.212 evaluates the appropriate considerations for the period of extended operation. All future amendments and revisions to this CoC must include evaluations of the impacts to aging management activities. The NRC is revising the initial certificate and Amendment Nos. 1 through 4 to address the language change in § 72.210 ''General license issue'' and other updates to the regulations. The NRC is making changes to TSs including updating the certificate holder's information in all TSs for the initial certificate and Amendment Nos. 1 through 4 and updating references to ''FuelSolutions'' and ''Westinghouse Electric Company LLC'' or ''WEC.''
- A condition requiring all future amendments and revisions to the certificate of compliance (*i.e.,* the initial certificate 1026 and Amendment Nos. 1 through 4) include evaluations of the impacts to aging management activities (*i.e.,* time-limited aging analyses and aging management programs) to ensure that they remain adequate for any changes to structures, systems, and components important to safety within the scope of renewal.

Finally, the NRC will make various corrections and editorial changes to the CoC and TSs.

C. Environmental Impacts of the Action

On July 18,1990 (55 FR 29181), the NRC issued an amendment to 10 CFR part 72 to provide for the storage of spent fuel under a general license in cask designs approved by the NRC. The potential environmental impact of using NRC-approved storage casks was analyzed in the environmental assessment for the 1990 final rule and are described in ''Environmental Assessment for Proposed Rule Entitled, 'Storage of Spent Nuclear Fuel in NRC-Approved Storage Casks at Nuclear Power Reactor Sites.' '' The potential environmental impacts for the longer-term use of dry cask designs and the renewal of certificates of compliance were analyzed in the environmental assessment for the 2011 final rule establishing the regulatory requirements for renewing certificates of compliance and are described in ''Environmental Assessment and Finding of No Significant Impact for the Final Rule Amending 10 CFR part 72 License and Certificate of Compliance Terms.'' The environmental impacts from continued storage were also considered in NUREG–2157, ''Generic Environmental Impact Statement for Continued Storage of Spent Nuclear Fuel.'' The environmental assessment for the initial certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026 tiers off the environmental assessment for the February 16, 2011, final rule and NUREG–2157. Tiering on past environmental assessments is a standard process under the National Environmental Policy Act of 1969, as amended.

The Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System is designed to mitigate the effects of design basis accidents that could occur during storage. Design basis accidents account for human-induced events and the most severe natural phenomena reported for the site and surrounding area. Postulated accidents analyzed for an independent spent fuel storage installation, the type of facility at which a holder of a power reactor operating license would store spent fuel in casks in accordance with 10 CFR part 72, can include tornado winds and tornado-generated missiles, a design basis earthquake, a design basis flood, an accidental cask drop, lightning effects, fire, explosions, and other incidents.

A renewal reaffirms the original design basis and allows the cask to be used during a period of extended operation that corresponds to the term certified by the cask's certificate of compliance in the renewal. As a condition of the renewal, the NRC requires an aging management program that will ensure that structures, systems, and components important to safety will perform as designers intended during the renewal period. The renewal does not reflect a change in design or fabrication of the cask system. This renewal does not reflect a significant change in design or fabrication of the cask. Because there are no significant design or process changes, any resulting occupational exposure or offsite dose rates from the renewal of the initial certificate and Amendment Nos. 1 through 4 would remain well within the 10 CFR part 20 limits. The NRC has also determined that the design of the cask would continue to maintain confinement, shielding, and criticality control in the event of an accident. Therefore, these changes will not result in any radiological or non-radiological environmental impacts that significantly differ from the environmental impacts evaluated in the environmental assessment supporting the February 16, 2011, final rule. There will be no significant change in the types or significant revisions in the amounts of any effluent released, no significant increase in the individual or cumulative radiation exposures, and no significant increase in the potential for, or consequences from, radiological accidents. The NRC determined that the structures, systems, and components important to safety will continue to perform their intended functions during the requested period of extended operation. The NRC determined that the renewed Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design, when used under the conditions specified in the renewed certificate of compliance, the technical specifications, and the NRC's regulations, will meet the requirements of 10 CFR part 72; therefore, adequate protection of public health and safety will continue to be reasonably assured. The NRC documented its safety findings in the preliminary safety evaluation report.

D. Alternative to the Action

The alternative to this action is to deny the renewal of the initial certificate and Amendment Nos. 1 through 4 and not issue the direct final rule. Consequently, any 10 CFR part 72 general licensee that seeks to load spent nuclear fuel into Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System after the expiration date of the certificate of compliance or that seeks to continue storing spent nuclear fuel in the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System for longer than the term certified by the cask's certificate of compliance for the initial certificate (*i.e.,* more than 20 years) would have to request an exemption from the requirements of §§ 72.212 and 72.214 or would have to load the spent nuclear fuel into a different approved cask design. Under this alternative, those licensees interested in continuing to use the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System would have to prepare, and the NRC would have to review, a separate exemption request, thereby increasing the administrative burden upon the NRC and the costs to each licensee. If the general licensee is granted an exemption, the environmental impacts would be the same as the proposed action. If the general licensee is not granted an exemption, the general licensee would need to unload the Westinghouse Electric Company LLC FuelSolutions™

Spent Fuel Management System and load the fuel into another cask system design, which would result in environmental impacts that are greater than for the proposed action because activities associated with cask loading and decontamination may result in some small liquid and gaseous effluent.

E. Alternative Use of Resources

Renewal of the initial certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026 would result in no irreversible commitment of resources.

F. Agencies and Persons Contacted

No agencies or persons outside the NRC were contacted in connection with the preparation of this environmental assessment.

G. Finding of No Significant Impact

This direct final rule is to amend § 72.214 to revise the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System listing within the ''List of approved spent fuel storage casks'' to renew, for an additional 40 years, the initial certificate and Amendment Nos. 1 through 4 of Certificate of Compliance No. 1026. The environmental impacts of the action have been reviewed under the requirements in the National Environmental Policy Act of 1969, as amended, and the NRC's regulations in subpart A of 10 CFR part 51, ''Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.'' The renewal does not reflect a change in design or fabrication of the cask system as approved for the initial certificate or Amendment Nos. 1 through 4. The NRC determined that the renewed Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design, when used under the conditions specified in the renewed certificate of compliance, the technical specifications, and the NRC's regulations, will meet the requirements of 10 CFR part 72; therefore, adequate protection of public health and safety will continue to be reasonably assured.

Based on the foregoing environmental assessment, the NRC concludes that this direct final rule, ''List of Approved Spent Fuel Storage Casks: FuelSolutions™ Spent Fuel Management System, Certificate of Compliance No. 1026, Renewal of Initial Certificate and Amendment Nos. 1 through 4,'' will not have a significant effect on the quality of the human environment. Therefore, the NRC has determined that an environmental impact statement is not necessary for this direct final rule.

IX. Paperwork Reduction Act Statement

This direct final rule does not contain any new or amended collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Existing collections of information were approved by the Office of Management and Budget, approval number 3150–0132.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

X. Regulatory Flexibility Certification

Under the Regulatory Flexibility Act of 1980 (5 U.S.C. 605(b)), the NRC certifies that this direct final rule will not, if issued, have a significant economic impact on a substantial number of small entities. This direct final rule affects only nuclear power plant licensees and Westinghouse Electric Company LLC. These entities do not fall within the scope of the definition of small entities set forth in the Regulatory Flexibility Act or the size standards established by the NRC (§ 2.810).

XI. Regulatory Analysis

On July 18, 1990 (55 FR 29181), the NRC issued an amendment to 10 CFR part 72 to provide for the storage of spent nuclear fuel under a general license in cask designs approved by the NRC. Any nuclear power reactor licensee can use NRC-approved cask designs to store spent nuclear fuel if (1) it notifies the NRC in advance; (2) the spent fuel is stored under the conditions specified in the cask's certificate of compliance; and (3) the conditions of the general license are met. A list of NRC-approved cask designs is contained in § 72.214. On January 16, 2001 (66 FR 3444), the NRC issued an amendment to 10 CFR part 72 that approved the FuelSolutions™ Spent Fuel Management System by adding it to the list of NRC-approved cask designs in § 72.214.

On November 6, 2020, and as supplemented on March 30, 2021, June 30, 2022, and September 13, 2022, Westinghouse Electric Company LLC submitted a request to renew the FuelSolutions™ Spent Fuel Management System as described in Section IV, ''Discussion of Changes,'' of this document.

The alternative to this action is to withhold approval of the renewal of the initial certificate and Amendment Nos. 1 through 4 and to require any 10 CFR part 72 general licensee seeking to continue the storage of spent nuclear fuel in Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System using the initial certificate or Amendment Nos. 1 through 4 beyond the initial 20-year storage term certified by the cask's initial certificate of compliance to request an exemption from the requirements of §§ 72.212 and 72.214. The term for general licenses would not be extended from 20 years to 40 years. Under this alternative, each interested 10 CFR part 72 licensee would have to prepare, and the NRC would have to review, a separate exemption request, thereby increasing the administrative burden upon the NRC and the costs to each licensee.

Approval of this direct final rule is consistent with previous NRC actions. Further, as documented in the preliminary safety evaluation report and environmental assessment, this direct final rule will have no adverse effect on public health and safety or the environment. This direct final rule has no significant identifiable impact or benefit on other government agencies. Based on this regulatory analysis, the NRC concludes that the requirements of this direct final rule are commensurate with the NRC's responsibilities for public health and safety and the common defense and security. No other available alternative is believed to be as satisfactory; therefore, this action is recommended.

XII. Backfitting and Issue Finality

The NRC has determined that the actions in this direct final rule do not require a backfit analysis because they do not fall within the definition of backfitting under § 72.62 or § 50.109(a)(1), they do not impact the issue finality provisions applicable to combined licenses under 10 CFR part 52, and they do not impact general licensees that are using these systems for the duration of their current general licenses.

Certificate of Compliance No. 1026 for the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design, as currently listed in § 72.214, ''List of Approved Spent Fuel Storage Casks,'' was initially approved for a 20-year term. This direct final rule would renew the initial certificate and Amendment Nos. 1 through 4, extending their

approval period by 40 years. The term certified by the cask's certificate of compliance for a renewed certificate of compliance is the period of time commencing with the most recent certificate of compliance renewal date and ending with the certificate of compliance expiration date. With this renewal, the term certified by the cask's certificate of compliance would change from 20 years to 60 years, with the period of extended operation beginning 20 years after the cask is placed into service. The revision to the certificate of compliance through the renewal consists of the changes in the renewed initial certificate (Amendment No. 0) and renewed Amendment Nos. 1 through 4 as previously described, and as set forth in the renewed certificates of compliance and technical specifications. These changes would not affect the use of the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design for the initial 20- year term for previously loaded casks. The renewed certificates would require implementation of aging management programs during the period of extended operation, which begins after the storage cask system's initial 20-year service period.

Because the term for the renewal would be longer than the initial term certified by the cask's certificate of compliance, the general licensee's authority to use the cask would be extended and would be no less than 60 years. This change would not add, eliminate, or modify (1) structures, systems, or components of an independent spent fuel storage installation or a monitored retrievable storage installation or (2) the procedures or organization required to operate an independent spent fuel storage installation or a monitored retrievable storage installation.

Renewing these certificates does not fall within the definition of backfit under § 72.62 or § 50.109, or otherwise represent an inconsistency with the issue finality provisions applicable to combined licenses in 10 CFR part 52. General licensees who have loaded these casks, or who load these casks in the future under the specifications of the applicable certificate, may continue to store spent fuel in these systems for the initial 20-year storage period authorized by the original certificate. Extending the certificates' expiration dates for 40 more years and requiring the implementation of aging management programs does not impose any modification or addition to the design of the structures, systems, and components important to safety of a cask system, or to the procedures or organization required to operate the system during this initial 20-year term certified by the cask's certificate of compliance. The aging management programs required to be implemented by this renewal are only required to be implemented after the storage cask system's initial 20-year service period ends.

Because this rulemaking renews the certificates, and because renewal is a separate NRC licensing action voluntarily implemented by vendors or licensees, the renewal of these certificates is not an imposition of new or changed requirements from which these certificate of compliance holders or licensees would otherwise be protected by the backfitting provisions in § 72.62 or § 50.109. Even if renewal of this certificate of compliance cask system design could be considered a backfit, Westinghouse Electric Company LLC, as the certificate of compliance holder and vendor of the casks, is not protected by the backfitting provisions in § 72.62 in this capacity.

Unlike a vendor, general licensees using the existing systems subject to these renewals would be protected by the backfitting provisions in § 72.62 and § 50.109 if the renewals constituted new or changed requirements. But as previously explained, renewal of the certificates for these systems does not impose such requirements. The general licensees using these certificates of compliance may continue storing material in the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design for the initial 20-year storage period identified in the applicable certificate or amendment with no changes. If general licensees choose to continue to store spent fuel in the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System design after the initial 20-year period, these general licensees will be required to implement the applicable aging management programs for any cask systems subject to a renewed certificate of compliance, but such continued use is voluntary.

Additionally, the actions in this direct final rule do not impact issue finality provisions applicable to combined licenses under 10 CFR part 52. For these reasons, renewing the initial certificate and Amendment Nos. 1 through 4 of Certificate of Compliance No. 1026 does not constitute backfitting under § 72.62 or § 50.109(a)(1), or otherwise represent an inconsistency with the issue finality provisions applicable to combined licenses in 10 CFR part 52. Accordingly, the NRC has not prepared a backfit analysis for this rulemaking.

XIII. Congressional Review Act

This direct final rule is not a rule as defined in the Congressional Review Act.

XIV. Availability of Documents

The documents identified in the following table are available to interested persons as indicated.

List of Subjects in 10 CFR Part 72

Administrative practice and procedure, Hazardous waste, Indians, Intergovernmental relations, Nuclear energy, Penalties, Radiation protection, Reporting and recordkeeping requirements, Security measures, Spent fuel, Whistleblowing.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended; the Energy Reorganization Act of 1974, as amended; the Nuclear Waste Policy Act of 1982, as amended; and 5 U.S.C. 552 and 553; the NRC is adopting the following amendments to 10 CFR part 72:

PART 72—LICENSING REQUIREMENTS FOR THE INDEPENDENT STORAGE OF SPENT NUCLEAR FUEL, HIGH-LEVEL RADIOACTIVE WASTE, AND REACTOR-RELATED GREATER THAN CLASS C WASTE

■ 1. The authority citation for part 72 continues to read as follows:

Authority: Atomic Energy Act of 1954, secs. 51, 53, 57, 62, 63, 65, 69, 81, 161, 182, 183, 184, 186, 187, 189, 223, 234, 274 (42 U.S.C. 2071, 2073, 2077, 2092, 2093, 2095, 2099, 2111, 2201, 2210e, 2232, 2233, 2234, 2236, 2237, 2238, 2273, 2282, 2021); Energy Reorganization Act of 1974, secs. 201, 202, 206, 211 (42 U.S.C. 5841, 5842, 5846, 5851);

National Environmental Policy Act of 1969 (42 U.S.C. 4332); Nuclear Waste Policy Act of 1982, secs. 117(a), 132, 133, 134, 135, 137, 141, 145(g), 148, 218(a) (42 U.S.C. 10137(a), 10152, 10153, 10154, 10155, 10157, 10161, 10165(g), 10168, 10198(a)); 44 U.S.C. 3504 note.

■ 2. In § 72.214, Certificate of Compliance No. 1026 is revised to read as follows:

§ 72.214 List of approved spent fuel storage casks.

* * * * *

Certificate Number: 1026.

Initial Certificate Effective Date: February 15, 2001, superseded by Renewed Initial Certificate on July 3, 2024.

Amendment Number 1 Effective Date: May 14, 2001, superseded by Renewed Amendment Number 1 on July 3, 2024.

Amendment Number 2 Effective Date: January 28, 2002, superseded by Renewed Amendment Number 2 on July 3, 2024.

Amendment Number 3 Effective Date: May 7, 2003, superseded by Renewed Amendment Number 3 on July 3, 2024.

Amendment Number 4 Effective Date: July 3, 2006, superseded by Renewed Amendment Number 4 on July 3, 2024.

SAR Submitted by: Westinghouse Electric Company LLC.

SAR Title: Final Safety Analysis Report for the FuelSolutions™ Spent Fuel Management System.

Docket Number: 72–1026.

Renewed Certificate Expiration Date: February 15, 2061.

Model Number: WSNF–220, WSNF–221, and WSNF–223 systems; W150 storage cask; W100 transfer cask; and the W21 and W74 canisters.

DEPARTMENT OF ENERGY

10 CFR Part 430

[EERE–2022–BT–TP–0005]

RIN 1904–AF11

Energy Conservation Program: Test Procedure for Uninterruptible Power Supplies

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Final rule.

SUMMARY: The U.S. Department of Energy (''DOE'') is amending the test procedure for uninterruptable power supplies (''UPSs'') to incorporate by reference relevant portions of the latest version of the industry testing standard, harmonize the current DOE definitions for UPS, total harmonic distortion, and certain types of UPSs with the definitions in the latest version of the industry standard, and add a no-load testing condition, as an optional test.

DATES: The effective date of this rule is July 3, 2024. The amendments will be mandatory for product testing starting October 16, 2024.

The incorporation by reference of certain material listed in the rule is approved by the Director of the Federal Register on July 3, 2024.

ADDRESSES: The docket, which includes **Federal Register** notices, public meeting attendee lists and transcripts, comments, and other supporting documents/materials, is available for review at *www.regulations.gov.* All documents in the docket are listed in the *www.regulations.gov* index. However, not all documents listed in the index may be publicly available, such as those containing information that is exempt from public disclosure.

A link to the docket web page can be found at *www.regulations.gov/docket/EERE-2022-BT-TP-0005.* The docket web page contains instructions on how to access all documents, including public comments, in the docket.

For further information on how to review the docket contact the Appliance and Equipment Standards Program staff at (202) 287–1445 or by email: *ApplianceStandardsQuestions@ee.doe.gov.*

FOR FURTHER INFORMATION CONTACT:

Mr. Jeremy Dommu, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Office, EE–2J, 1000 Independence Avenue SW, Washington, DC 20585–0121. Telephone: (202) 586–9870. Email: *ApplianceStandardsQuestions@ee.doe.gov.*

Ms. Kristin Koernig, U.S. Department of Energy, Office of the General Counsel, GC–33, 1000 Independence Avenue SW, Washington, DC 20585–0121. Telephone: (202) 586–3593. Email: *Kristin.koernig@hq.doe.gov.*

SUPPLEMENTARY INFORMATION: DOE incorporates by reference the following industry standard into part 430:

IEC 62040–3, ''*Uninterruptible power systems (UPS)—Part 3: Method of specifying the performance and test requirements*,'' Edition 3.0, copyright April 2021.

Copies of IEC 62040–3 Ed. 3.0 are available from the International Electrotechnical Commission, 3 Rue de Varembe, Case Postale 131, 1211 Geneva 20, Switzerland; *webstore.iec.ch.*

For a further discussion of this standard, see section IV.N of this document.

Table of Contents

I. Authority and Background

Uninterruptible power supplies (''UPSs'') are a class of battery chargers and fall among the list of ''covered products'' for which DOE is authorized to establish and amend energy conservation standards and test procedures. (42 U.S.C. 6295(u)) DOE's test procedure for UPSs is currently prescribed at title 10 of the Code of Federal Regulations (CFR), part 430 section 32(z)(3); and 10 CFR part 430 subpart B appendix Y (''appendix Y'') and appendix Y1 (''appendix Y1''). The following sections discuss DOE's authority to establish and amend test procedures for UPSs and relevant background information regarding DOE's consideration of test procedures for this product.

A. Authority

The Energy Policy and Conservation Act, Public Law 94–163, as amended (EPCA),[1] authorizes DOE to regulate the energy efficiency of a number of consumer products and certain industrial equipment. (42 U.S.C. 6291–6317) Title III, Part B of EPCA [2] established the Energy Conservation Program for Consumer Products Other Than Automobiles, which sets forth a variety of provisions designed to improve energy efficiency. These products include UPSs, the subject of this document. (42 U.S.C. 6295(u))

The energy conservation program under EPCA consists essentially of four parts: (1) testing, (2) labeling, (3) Federal energy conservation standards, and (4) certification and enforcement procedures. Relevant provisions of EPCA specifically include definitions (42 U.S.C. 6291), test procedures (42 U.S.C. 6293), labeling provisions (42 U.S.C. 6294), energy conservation standards (42 U.S.C. 6295), and the authority to require information and reports from manufacturers (42 U.S.C. 6296).

The Federal testing requirements consist of test procedures that manufacturers of covered products must use as the basis for (1) certifying to DOE that their products comply with the applicable energy conservation standards adopted under EPCA (42 U.S.C. 6295(s)), and (2) making other representations about the efficiency of those products. (42 U.S.C. 6293(c)) Similarly, DOE must use these test procedures to determine whether the products comply with any relevant standards promulgated under EPCA. (42 U.S.C. 6295(s))

Federal energy efficiency requirements for covered products established under EPCA generally supersede State laws and regulations concerning energy conservation testing, labeling, and standards. (42 U.S.C. 6297) DOE may, however, grant waivers of Federal preemption for particular State laws or regulations, in accordance with the procedures and other provisions of EPCA. (42 U.S.C. 6297(d))

Under 42 U.S.C. 6293, EPCA sets forth the criteria and procedures DOE must follow when prescribing or amending test procedures for covered products. EPCA requires that any test procedures prescribed or amended under this section shall be reasonably designed to produce test results which measure energy efficiency, energy use or estimated annual operating cost of a covered product during a representative average use cycle (as determined by the Secretary) or period of use and shall not be unduly burdensome to conduct. (42 U.S.C. 6293(b)(3))

EPCA also requires that, at least once every 7 years, DOE evaluate test procedures for each type of covered product, including UPSs, to determine whether amended test procedures would more accurately or fully comply with the requirements for the test procedures to not be unduly burdensome to conduct and be reasonably designed to produce test results that reflect energy efficiency, energy use, and estimated operating costs during a representative average use cycle or period of use. (42 U.S.C. 6293(b)(1)(A))

If the Secretary determines, on her own behalf or in response to a petition by any interested person, that a test procedure should be prescribed or amended, the Secretary shall promptly publish in the **Federal Register** proposed test procedures and afford interested persons an opportunity to present oral and written data, views, and arguments with respect to such procedures. The comment period on a proposed rule to amend a test procedure shall be at least 60 days and may not exceed 270 days. In prescribing or amending a test procedure, the Secretary shall take into account such information as the Secretary determines relevant to such procedure, including technological developments relating to energy use or energy efficiency of the type (or class) of covered products involved. (42 U.S.C. 6293(b)(2)). If DOE determines that test procedure revisions are not appropriate, DOE must publish its determination not to amend the test procedure. (42 U.S.C. 6293(b)(1)(A)(ii))

In addition, EPCA requires that DOE amend its test procedures for all covered products to integrate measures of standby mode and off mode energy consumption into the overall energy efficiency, energy consumption, or other energy descriptor, unless the current test procedure already incorporates the standby mode and off mode energy consumption, or if such integration is technically infeasible. (42 U.S.C. 6295(gg)(2)(A)) If an integrated test procedure is technically infeasible, DOE must prescribe separate standby mode and off mode energy use test procedures for the covered product, if a separate test is technically feasible. (42 U.S.C. 6295(gg)(2)(A)(ii)) Any such amendment must consider the most current versions of the International Electrotechnical Commission (''IEC'') Standard 62301 [3] and IEC Standard 62087 [4] as applicable. (42 U.S.C. 6295(gg)(2)(A))

DOE is publishing this final rule in satisfaction of the 7-year review requirement specified in EPCA. (42 U.S.C. 6293(b)(1)(A))

B. Background

On December 12, 2016, DOE amended its battery charger test procedure by publishing a final rule in the **Federal Register** that added a discrete test procedure for UPSs (''December 2016 Final Rule''). 81 FR 89806. The December 2016 Final Rule incorporated by reference specific sections of the relevant industry standard for UPSs, with additional instructions, into the current battery charger test procedure published at appendix Y. 81 FR 89806, 89810.

On September 8, 2022, DOE published a final rule in the **Federal Register** amending the existing test procedure at appendix Y for battery chargers and creating a new test procedure at appendix Y1 that expanded the scope of the battery charger test method to include open placement and fixed-position wireless battery chargers and established separate metrics for active mode, standby mode, and off mode for all battery chargers other than UPSs (''September 2022 Final Rule''). 87 FR 55090. Manufacturers will be required to continue to use the amended test procedure in appendix Y until the compliance date of any new final rule establishing amended energy conservation standards based on the newly established test procedure in appendix Y1. 87 FR 55090, 55122. At such time as DOE establishes new standards for battery chargers other than UPSs using these new metrics, manufacturers would no longer use appendix Y and instead will be required to determine compliance using the updated test procedure at appendix Y1. *Id.* at 87 FR 55125. The September 2022 Final Rule also replicated all aspects of testing UPSs from appendix Y to appendix Y1, ensuring that instructions for all battery chargers are consolidated in one location. *Id.* at 87 FR 55125–55132.

On February 2, 2022, DOE initiated a rulemaking process to consider amendments to the UPS test procedure

[1] All references to EPCA in this document refer to the statute as amended through the Energy Act of 2020, Public Law 116–260 (Dec. 27, 2020), which reflect the last statutory amendments that impact Parts A and A–1 of EPCA.

[2] For editorial reasons, upon codification in the U.S. Code, Part B was redesignated Part A.

[3] IEC 62301, *Household electrical appliances—Measurement of standby power* (Edition 2.0, 2011–01).

[4] IEC 62087, *Audio, video and related equipment—Methods of measurement for power consumption* (Edition 1.0, Parts 1–6: 2015, Part 7: 2018).

by publishing in the **Federal Register** a request for information (''RFI'') seeking data and information regarding the existing DOE test procedure for UPSs (''February 2022 RFI''). 87 FR 5742. On May 11, 2022, DOE issued a correcting amendment to address an error in describing input dependency modes in the regulatory text as it appeared in the December 2016 Final Rule. 87 FR 28755.

On January 5, 2023, DOE published a notice of proposed rulemaking (NOPR) proposing amendments to appendices Y and Y1 of the UPS test procedure to consider the latest revision of the industry standard that is incorporated by reference and to provide an optional test method for measuring power consumption of a UPS at no-load conditions (''January 2023 NOPR''). 88 FR 790. DOE held a webinar related to the January 2023 NOPR on February 2, 2023 (''February 2023 public meeting'').

DOE received comments in response to the January 2023 NOPR from the interested parties listed in Table I.1.

TABLE I.1—LIST OF COMMENTERS WITH WRITTEN SUBMISSIONS IN RESPONSE TO THE JANUARY 2023 NOPR

Commenter(s)	Reference in this final rule	Comment No. in the docket	Commenter type
National Electrical Manufacturers Association	NEMA	10	Trade Association.
Northwest Energy Efficiency Alliance	NEEA	11	Efficiency Organization.
Appliance Standards Awareness Project and American Council for an Energy-Efficient Economy.	Joint Commenters	12	Efficiency Organizations.

A parenthetical reference at the end of a comment quotation or paraphrase provides the location of the item in the public record.[5] To the extent that interested parties have provided written comments that are substantively consistent with any oral comments provided during the February 2023 public meeting, DOE cites the written comments throughout this final rule. Any substantial oral comments provided during the webinar but were not accompanied by written comments are summarized and cited separately throughout this final rule.

II. Synopsis of the Final Rule

In this final rule, DOE amends appendices Y and Y1 as follows:

- Incorporate by reference the current revision to the applicable industry standard—IEC 62040–3 Ed. 3.0, ''Uninterruptible power systems (UPS)—Part 3: Method of specifying the performance and test requirements''—to reflect redesignated subsections in the latest version of that standard.
- Provide an optional test method for measuring the power consumption of UPSs at no-load conditions.

The adopted amendments are summarized in Table II.1 and compared to the test procedure provision prior to the amendment, as well as the reason for the adopted change.

TABLE II.1—SUMMARY OF CHANGES IN THE AMENDED UPS TEST PROCEDURE

DOE test procedure prior to amendment	Amended test procedure	Attribution
References IEC 62040–3 Ed. 2.0	Updates each reference to IEC 62040–3 Ed. 3.0	To harmonize with the latest industry standard.
Provides definitions for UPS, total harmonic distortion, and certain types of UPSs that differ non-substantively from the definitions in IEC 62040–3 Ed. 3.0.	Harmonizes DOE definitions with definitions of UPS provided in IEC 62040–3 Ed. 3.0.	To harmonize with the latest industry standard.
Does not provide a method for testing the power consumption of UPSs at no-load conditions.	Incorporates the no-load test from Annex J of IEC 62040–3, Ed. 3.0 as an optional test method for voluntary representations of no-load power consumption.	In response to comments received on the February 2022 RFI and the January 2023 NOPR.

DOE has determined that the amendments described in section III of this document and adopted in this document will not alter the measured efficiency of UPSs or require retesting or recertification solely as a result of DOE's adoption of the amendments to the test procedure. Additionally, DOE has determined that the amendments will not increase the cost of testing. Discussion of DOE's actions are addressed in detail in section III of this document.

The effective date for the amended test procedure adopted in this final rule is 75 days after publication of this document in the **Federal Register**. Representations of energy use or energy efficiency must be based on testing in accordance with the amended test procedure beginning 180 days after the publication of this final rule.

III. Discussion

In the following sections, DOE adopts certain proposed amendments to its test procedure for UPSs. For each adopted amendment, DOE provides relevant background information, discusses relevant public comments, and provides reasons for the amendment.

A. Scope of Applicability

The scope of the current test procedure at appendices Y and Y1, as applicable to UPSs, covers UPSs[6] that utilize the standardized National Electrical Manufacturer Association (''NEMA'') plug, 1–15P or 5–15P,[7] and have an alternating current (''AC'') output. Appendices Y and Y1, section 1.

To the extent that a portable power system meets the definition of a battery charger, operates on direct current

[5] The parenthetical reference provides a reference for information located in the docket of DOE's rulemaking to develop test procedures for UPSs. (Docket No. EERE–2022–BT–TP–0005, which is maintained at *www.regulations.gov*). The references are arranged as follows: (commenter name, comment docket ID number, page of that document).

[6] As discussed further in section III.B of this document, DOE defines a UPS as a battery charger consisting of a combination of convertors, switches, and energy storage devices (such as batteries), constituting a power system for maintaining continuity of load power in case of input power failure. Appendices Y and Y1, section 2.27.

[7] Plug designations are as specified in American National Standards Institute (''ANSI'')/NEMA WD 6–2016, incorporated by reference at 10 CFR 430.2.

(''DC'') or United States AC line voltage, but does not meet the definition of a back-up battery charger as defined by DOE, such a product is currently covered within the scope of the non-UPS portion of the battery charger test procedure, which includes all battery chargers operating at either DC or United States AC line voltage (115V at 60Hz). Appendices Y and Y1, section 1. As discussed in the January 2023 NOPR, DOE has identified—based on a review of product literature—a wide range of portable power stations currently certified as non-UPS battery chargers and listed in the compliance certification database (''CCD''),[8] suggesting that manufacturers have the mutual understanding that such products are covered within the scope of the non-UPS portion of the battery charger test procedure. 88 FR 790, 793. Because such products are already included within the scope of the non-UPS battery charger test procedure, DOE tentatively determined that no changes were warranted to the scope of the UPS test procedure with respect to such products. *Id.*

To the extent that a portable power station meets DOE's definition of a back-up battery charger, such a product is likely a ''whole-home power backup device'' and would be outside the scope of appendices Y and Y1. DOE tentatively determined in the January 2023 NOPR that the market for whole-home backup devices is still nascent, albeit growing, and the devices currently lack widespread use among consumers. *Id.* at 88 FR 794. DOE stated its concern that defining such technologies and addressing them in the UPS test procedure at this time could potentially restrict the development of these less mature technologies. *Id.* Furthermore, DOE did not have sufficient consumer usage data, nor did commenters provide any such information, that would be needed at this time to develop a test procedure that produces representative results for these products. *Id.* For these reasons, DOE did not propose to expand the scope of the UPS test procedure to include whole-home backup power systems. *Id.*

In response to the January 2023 NOPR, NEEA expressed its support for DOE's determination that portable power stations would be covered under the non-UPS battery charger test procedure scope. (NEEA, No. 11 at p. 2)

For the reasons discussed here and in the January 2023 NOPR, in this final rule, DOE has determined that no amendments are needed to the scope of the UPS test procedure to address portable power systems that meet the definition of a battery charger, operate on DC or United States AC line voltage, but do not meet the definition of a back-up battery charger as defined by DOE. Consistent with the January 2023 NOPR, DOE is also not expanding the scope of the UPS test procedure to include whole-home backup power systems.

B. Definitions

DOE defines a UPS as a battery charger consisting of a combination of convertors, switches, and energy storage devices (such as batteries), constituting a power system for maintaining continuity of load power in case of input power failure. Appendices Y and Y1, section 2.27. This definition aligns with the definition of a UPS provided in IEC 62040–3 Ed. 2.0, which is currently incorporated by reference into appendices Y and Y1.

DOE recognizes the benefit of harmonizing with the latest versions of industry standards where applicable and appropriate. IEC 62040–3 Ed. 3.0 includes slightly revised language stating ''maintaining continuity of AC load power in case of AC input power failure.'' In the January 2023 NOPR, DOE tentatively determined that the addition of the term ''AC'' in the IEC 62040–3 Ed. 3.0 definition is consistent with the range of products that meet the current definition of a UPS and would not change the scope of products subject to the test procedure.[9] 88 FR 790, 794. Therefore, DOE proposed to update its definition of a UPS to incorporate by reference the definition specified in IEC 62040–3 Ed. 3.0 and requested comment on its proposal to harmonize its definition of a UPS with that of IEC 62040–3 Edition 3.0 in the January 2023 NOPR. *Id.* Specifically, DOE requested comment on its tentative determination that such harmonization would not affect the current scope of the UPS test procedure. *Id.*

In response to the January 2023 NOPR, NEMA supported DOE's proposal to harmonize its UPS definition with IEC 62040–3 Ed. 3.0 but suggested that DOE further clarify that the load power being maintained must be AC. (NEMA, No. 10 at pp. 1–2) Similarly, in the February 2023 public meeting, Schneider Electric suggested to DOE to further clarify in the UPS definitions that the current test procedure is only designed for AC input and AC output UPSs.[10]

With regards to the suggestions from NEMA and Schneider Electric, DOE notes that the proposed UPS definition has already harmonized with IEC 62040–3 Ed. 3.0 by adding the clarification of ''maintaining continuity of AC load power in case of AC input power failure.'' Additionally, section 1 of appendices Y and Y1 describes the scope of the test procedure as applying to only those UPSs that utilize a NEMA 1–15P or 5–15P plug and have an AC output. DOE has determined that adding the term ''AC'' to describe the load power within the definition of UPS is redundant and risks falling out of harmonization with the definition found in IEC 62040–3 Ed. 3.0 without much to gain. As such, DOE has determined that adding the additional term ''AC'' to describe output power in the definition is unnecessary. Accordingly, DOE is finalizing its proposed definition of a UPS to harmonize with that of IEC 62040–3 Edition 3.0 without changes in this final rule.

Section 2.26 of appendices Y and Y1 defines ''total harmonic distortion'' (THD), expressed as a percent, as the root mean square (RMS) value of an AC signal after the fundamental component is removed and interharmonic components are ignored, divided by the RMS value of the fundamental component. Section 3.5.49 of IEC 62040–3 Ed. 3.0 defines THD as the ratio of the RMS value of the sum of the harmonic components X_h of orders 2 to 40 to the RMS value of the fundamental component X_1, and also includes a mathematical formula accompanying this descriptive definition. The key difference between the definitions is that DOE refers to the RMS value of the AC signal, whereas the IEC 62040–3 Ed. 3.0 definition more narrowly specifies measuring the RMS value of harmonic components of order 2 through 40. DOE understands that, in measuring the RMS value of a signal, a laboratory would be required to determine the number of harmonics to include within the measurement. By specifying harmonic components of order 2 through 40, DOE tentatively concluded in the January 2023 NOPR that the IEC definition may provide a more reproducible measurement among different laboratories compared to the current DOE definition, which requires a laboratory to determine which harmonic

[8] For example, DOE has identified the following inexhaustive list of portable power stations models in the battery charger CCD: Jackery 550, DEWALT DXAEPS14, STANLEY J5C09, Anker A1710, Duracell PPS1000–1050–120–01.

[9] DOE notes that use of NEMA 1–15P/5–15P wall plugs, as specified by the currently defined scope for UPSs, implies the use of AC input power.

[10] Schneider Electric's comment can be found at pp. 8–9 of the February 2023 public meeting transcript, available at *https://www.regulations.gov/document/EERE-2022-BT-TP-0005-0009*.

components to measure. For this reason, DOE proposed to update its definition of THD to incorporate by reference the definition specified in IEC 62040–3 Ed. 3.0. 88 FR 790, 794.

Additionally, DOE carefully reviewed its definitions of ''voltage frequency dependent (VFD) UPS,'' [11] ''voltage and frequency independent (VFI) UPS,'' [12] and ''voltage independent (VI) UPS'' [13] in comparison to the definitions provided in sections 5.3.4.2.2,[14] 5.3.4.2.3,[15] and 5.3.4.2.4,[16] respectively, of IEC 62040–3 Ed. 3.0. The IEC definitions closely align with the core capabilities described by the DOE definitions. However, DOE's definitions each include a ''Note'' that provides greater specificity regarding certain product characteristics than the definitions provided by IEC 62040–3 Ed. 3.0. For example, the Note to section 2.27.2 of appendices Y and Y1 (providing the definition for VFI UPS) specifies that, at a minimum, the VFI UPS produces an output voltage and frequency within the specified output range even when the input voltage is varied by ±10 percent of the rated input voltage and the input frequency is varied by ±2 percent of the rated input frequency. By contrast, the definition of VFI UPS in IEC 62040–3 Ed. 3.0 specifies the AC input power voltage tolerance bands to be the greater of ±10 percent of the rated input voltage and what is declared by the manufacturer and the AC input power frequency to be the greater of ±2 percent of the rated input frequency and what is declared by the manufacturer. Similarly, the Note to section 2.27.3 of appendices Y and Y1 (providing the definition for VI UPS) specifies an input voltage variation of ±10 percent, whereas the corresponding definition in IEC 62040–3 Ed 3.0 specifies the voltage limits to be the greater of ±10 percent of the rated input voltage and what is declared by the manufacturer.

DOE notes that there are scenarios where using the manufacturer-declared limits may result in a different input dependency classification of a UPS when compared to using DOE's current input voltage tolerance limits. For example, a manufacturer that declares an input voltage tolerance limit of ±15 percent for a VI basic model could have a unit that is unable to maintain the required output when the input voltage is adjusted by more than 13 percent in real world testing. Per the IEC definition, this unit would fail the VI input dependency at the manufactured declared limits of ±15 percent and therefore be classified as a VFD UPS (the highest input dependent UPS topology). However, the same unit when tested per DOE's current input voltage limits of ±10 percent would continue to classify it as a VI.

To avoid such discrepancies, DOE proposed in the January 2023 NOPR to harmonize its definitions of VFD UPS, VI UPS, and VFI UPS with IEC 62040–3 Ed 3.0 but maintain the notes alongside each definition that currently establish the input voltage and frequency tolerance limits of ±10 percent and ±2 percent, respectively. *Id.* at 88 FR 794–795.

DOE noted also that the section numbers of IEC 62040–3 Ed. 2.0 currently referenced by DOE's definitions have been updated to different section numbers in IEC 62040–3 Ed. 3.0. Therefore, DOE proposed to update its definitions of VFD UPS, VI UPS, and VFI UPS to reference the corresponding updated section numbers within IEC 62040–3 Ed. 3.0. *Id.* at 88 FR 795.

DOE initially determined that the proposed amended definitions would not substantively change the scope or applicability of the test procedure as compared to the current definitions. *Id.*

In the January 2023 NOPR, DOE requested comment on its proposal to update its definitions of THD, VFD UPS, VI UPS, and VFI UPC to harmonize with the IEC 62040–3 Ed 3.0 definitions. *Id.*

In response to the January 2023 NOPR, NEEA and NEMA supported DOE's proposal to harmonize with IEC 62040–3 Ed. 3.0, specifically on the proposed updated definitions of THD, VFD, VI, and VFI. (NEEA, No. 11 at pp. 2–3; NEMA, No. 10 at pp. 1–2) NEEA further stated that these updated definitions can increase reproducibility and reduce complexity. (NEEA, No. 11 at p. 2)

NEMA further recommended that DOE specify VFI operating conditions and revise the language used when referring to drawing power from the energy storage device. (NEMA, No. 10 at p. 2) NEMA also recommended that DOE clarify that the voltage limits should be referring to those described in section 5.3 of IEC 62040–3 Ed. 3.0 for VI UPSs. (*Id.*)

DOE appreciates the comments from NEMA and NEEA regarding their support for the updates to the definitions of THD, VFD, VI, and VFI. In

[11] Section 2.27.1 of appendices Y and Y1 defines VFD UPS as a UPS that produces an AC output where the output voltage and frequency are dependent on the input voltage and frequency. This UPS architecture does not provide corrective functions like those in voltage independent and voltage and frequency independent systems. The definition also includes a *Note* specifying that VFD input dependency may be verified by performing the AC input failure test in section 6.2.2.7 of IEC 62040–3 Ed. 2.0 and observing that, at a minimum, the UPS switches from normal mode of operation to battery power while the input is interrupted.

[12] Section 2.27.2 of appendices Y and Y1 defines VFI UPS as a UPS where the device remains in normal mode producing an AC output voltage and frequency that is independent of input voltage and frequency variations and protects the load against adverse effects from such variations without depleting the stored energy source. The definition also includes a *Note* specifying that VFI input dependency may be verified by performing the steady state input voltage tolerance test and the input frequency tolerance test in sections 6.4.1.1 and 6.4.1.2 of IEC 62040–3 Ed. 2.0, respectively, and observing that, at a minimum, the UPS produces an output voltage and frequency within the specified output range when the input voltage is varied by ±10 percent of the rated input voltage and the input frequency is varied by ±2 percent of the rated input frequency.

[13] Section 2.27.3 of appendices Y and Y1 defines VI UPS as a UPS that produces an AC output within a specific tolerance band that is independent of under-voltage or over-voltage variations in the input voltage without depleting the stored energy source. The output frequency of a VI UPS is dependent on the input frequency, similar to a voltage and frequency dependent system. The definition also includes a *Note* specifying that VI input dependency may be verified by performing the steady state input voltage tolerance test in section 6.4.1.1 of IEC 62040–3 Ed. 2.0 and ensuring that the UPS remains in normal mode with the output voltage within the specified output range when the input voltage is varied by ±10 percent of the rated input voltage.

[14] Section 5.3.4.2.2 of IEC 62040–3 Ed. 3.0 specifies that a UPS classified as VFD shall protect the load from a complete loss of AC input power. The output of the VFD UPS is dependent on changes in voltage and frequency of the AC input power and is not intended to provide additional voltage corrective functions, such as those arising from the use of tapped transformers. VFD classification is verified when performing the test described in section 6.2.2.7.

[15] Section 5.3.4.2.3 of IEC 62040–3 Ed. 3.0 specifies that a UPS classified VI shall protect the load as required for VFD and also from under-voltage applied continuously to the input, and over-voltage applied continuously to the input. The output voltage of the VI UPS shall remain within declared voltage limits (provided by voltage corrective functions, such as those arising from the use of active and/or passive circuits). The manufacturer shall declare an output voltage tolerance band narrower than the input voltage tolerance band. VI classification is verified when performing the tests described in section 6.4.1.2. The definition also includes a *Note* specifying that the energy storage device does not discharge when the AC input power is within the input voltage tolerance band.

[16] Section 5.3.4.2.4 of IEC 62040–3 Ed. 3.0 specifies that a UPS classified VFI is independent of AC input power voltage and frequency variations as specified and declared in section 5.2 and shall protect the load against adverse effects from such variations without discharging the energy storage device. VFI classification is verified when performing the tests described in section 6.4.1.3.

response to the recommendation from NEMA, DOE notes that DOE's proposed updates to the VFI UPS definition already reference section 5.2 of IEC 62040–3 Ed. 3.0 for VFI UPS input voltage and frequency variation limits. Furthermore, the proposed definition also clarifies that VFI UPSs ''shall protect the load against adverse effects from such variations without discharging the energy storage device.'' 88 FR 790, 805. DOE further notes that IEC 62040–3 Ed. 3.0 does not specifically prescribe a voltage limit for VI UPSs. Rather, the voltage limit is based on the UPS model and is declared by manufacturers directly. As such, DOE has determined that it would not be essential to add reference to section 5.3 of IEC 62040–3 Ed. 3.0 for VI UPS output voltage tolerance.

For the reasons discussed here and in the January 2023 NOPR, in this final rule, DOE is updating the definitions of THD, VFD, VI, and VFI to harmonize with the IEC 62040–3 Ed 3.0 definitions, including referencing the corresponding updated section numbers within IEC 62040–3 Ed 3.0 definitions, and maintaining the notes to these definitions as proposed in the January 2023 NOPR.

C. Updates to Industry Standards

As discussed, the current UPS test procedure incorporates by reference certain sections of IEC 62040–3 Ed. 2.0 regarding test setup, input and output power measurement, and the optional determination of UPS architecture. Specifically:

- The definitions of VFD UPS, VFI UPS, and VI UPS in sections 2.27.1 through 2.27.3 of appendices Y and Y1 reference: (1) the AC input failure test in section 6.2.2.7 of IEC 62040–3 Ed. 2.0, which in turn references section 5.3.4 and Annex G of IEC 62040–3 Ed. 2.0; (2) the steady state input voltage tolerance test in section 6.4.1.1 of IEC 62040–3 Ed. 2.0, as a subsection to section 6.4.1, which in turn references sections 5.2.1 and 5.2.2.k of IEC 62040–3 Ed. 2.0; and (3) the input frequency tolerance test in section 6.4.1.2 of IEC 62040–3 Ed. 2.0, which in turn references sections 5.3.2.d and 5.3.2.3 of IEC 62040–3 Ed. 2.0.
- Section 4.2.1 of appendices Y and Y1 specifies configuring the UPS according to Annex J.2 of IEC 62040–3 Ed. 2.0.
- Section 4.3.3 of appendices Y and Y1 specifies measuring input and output power according to section J.3 of Annex J of IEC 62040–3 Ed. 2.0.

Since the publication of the December 2016 Final Rule, IEC has updated the IEC 62040–3 standard to its third edition (*i.e.,* IEC 62040–3 Ed. 3.0). The following paragraphs summarize the key changes from the second edition, based on DOE's review of the revised standard.

Section 4 of IEC 62040–3 Ed. 3.0 includes updates to various environmental conditions, such as the general test environment and operating conditions when testing UPSs. Appendices Y and Y1, however, do not refer to section 4 of the IEC 62040–3 standard but instead provide their own environmental and operating conditions for testing purposes. Therefore, DOE determined in the January 2023 NOPR that its test procedure for measuring the efficiency of UPSs will remain unaffected by the updates to section 4 of the IEC 62040–3 Ed. 3.0. 88 FR 790, 795.

Section 5.2 of IEC 62040–3 Ed. 2.0 addresses UPS input specifications, such as the input voltage range, input frequency range, and total harmonic distortions during which the UPS under test must remain in the normal mode of operation. While an initial review of IEC 62040–3 Ed. 3.0 shows significant editorial changes to the sections that define these parameters, the remainder of the parameters remain unchanged. Similarly, section 5.3 of IEC 62040–3 Ed. 3.0 provides the minimum output specifications for UPSs that must be declared by manufacturers, such as its input dependency, rated output voltage and RMS output voltage tolerance band, rated frequency tolerance band, rated output active and apparent power, total harmonic distortion, etc. As before, the majority of the changes to this section are editorial or a reorganization.

Section 6 of IEC 62040–3 Ed. 2.0 previously provided instructions for performing the AC input failure test (*see* section 6.2.2.7), the steady-state input voltage tolerance test (*see* section 6.4.1.1), and the input frequency tolerance test (*see* section 6.4.1.2) that are used to classify the input dependency of a UPS as VI, VFD, or VFI. IEC 62040–3 Ed. 3.0 has since updated these subsections with the following changes: subsection titles and numbering have been updated to specifically refer to them as VI, VFD, and VFI input dependency tests; additional criteria have been added for meeting the VI, VFD, and VFI classifications; and a new test load condition at 0 percent (*i.e.,* no-load) has been added (see section III.E of this document for further discussion of a no-load test).

Additional updates to Annex J to IEC 62040–3 Ed. 3.0 require multi-mode UPSs to be tested at all dependency modes, whereas DOE's current test procedure explicitly requires UPSs to be tested at only their highest and lowest input dependency modes. Annex J has also been updated to allow manufacturers to test UPSs with functions or ports set to the lowest power-consuming mode or disconnected if they are not related to maintaining the energy storage device (*i.e.,* batteries) at full charge, along with added reporting requirements for manufacturers to report these features, interfaces, or ports that have been turned off or set to the lowest power-consuming mode. This updated clarification regarding additional features is similar to DOE's current UPS test procedure, which requires UPSs to be tested with such features off or disconnected; however, DOE currently does not require manufacturers to report these manually switched-off features.

DOE did not propose to amend the certification or reporting requirements for UPSs in the January 2023 NOPR. *Id.* at 88 FR 796. Instead, DOE stated that it may consider proposals to amend the certification requirements and reporting for UPSs under a separate rulemaking regarding appliance and equipment certification. *Id.*

In the January 2023 NOPR, DOE carefully reviewed IEC 62040–3 Ed. 3.0 as it relates to measuring the efficiency of a UPS. DOE determined that the relevant updates to IEC 62040–3 Ed. 3.0 compared to IEC 62040–3 Ed. 2.0 are largely editorial, including renumbering of certain sections referenced by the DOE test procedure, and that updating DOE's existing references to IEC 62040–3 Ed. 3.0 would not alter the measured efficiency of basic models. As a result, DOE proposed in the January 2023 NOPR to update its incorporation by reference of IEC 62040–3 Ed. 2.0 to IEC 62040–3 Ed. 3.0 in 10 CFR 430.3 and to update its references in appendices Y and Y1 accordingly to reflect the renumbering of sections in IEC 62040–3 Ed. 3.0. *Id.*

DOE's existing test procedure for UPSs allows recording of either instantaneous power or accumulated energy over a 15-minute period. DOE's review of Annex J in IEC 62040–3 Ed. 3.0 did not reveal any additional instructions that would further facilitate the use of the accumulated energy method. As such, DOE did not propose any changes to its existing language in section 4.3.3 of appendices Y and Y1. *Id.*

In the January 2023 NOPR, DOE requested comment on its proposal to incorporate by reference IEC 62040–3 Ed 3.0 and to update references in appendices Y and Y1 accordingly to

reflect the renumbering of sections in IEC 62040–3 Ed 3.0. *Id.*

In response to the January 2023 NOPR, NEMA supported the proposed incorporation by reference and the associated renumbering. (NEMA, No. 10 at p. 2) NEEA also commented in support of DOE's proposal to update references based on the IEC 62040–3 Ed. 3.0 edition and recommended that DOE consider requiring manufacturers to report whether additional functionality was switched off for testing, which would increase transparency and harmonization. (NEEA, No. 11 at pp. 2–3) DOE appreciates NEEA's recommendation but reiterates that, under a separate rulemaking regarding appliance and equipment certification, DOE will review relevant reporting and certification requirements and may consider proposals to amend the certification requirements for UPSs at that time.

For the reasons discussed here and in the January 2023 NOPR, in this final rule, DOE is incorporating by reference IEC 62040–3 Ed 3.0 and updating references in appendices Y and Y1 to reflect the renumbering of sections in IEC 62040–3 Ed 3.0.

D. Loading Conditions

Section 4.3.3 of appendices Y and Y1 requires that the efficiency of a UPS be measured at 100, 75, 50, and 25 percent of the device's rated output power. Each of these measured efficiencies is weighted according to values provided in Table 4.3.1 of appendices Y and Y1 and combined to determine a single weighted average output metric (*i.e.,* the average load adjusted efficiency) representing the UPS's overall efficiency. These load conditions and weightings were established in the December 2016 Final Rule consistent with the load weightings specified in ENERGY STAR UPS Specification Version 1.0.[17] 81 FR 89806, 89816. The current ENERGY STAR UPS Specification Version 2.0 [18] maintains these same load conditions and weightings. These load conditions and weightings are also consistent with those specified in section 6.4.1.6 of IEC 62040–3 Ed. 2.0 and section 6.4.1.9 of IEC 62040–3 Ed. 3.0.

In the January 2023 NOPR, DOE discussed comments received in response to the February 2022 RFI regarding a 10 percent loading point. 88 FR 790, 796–797. DOE noted that EPCA requires that any test procedures prescribed or amended under this section be reasonably designed to produce test results that measure energy efficiency, energy use, or estimated annual operating cost of a covered product during a representative average use cycle or period of use, and not be unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) As such, DOE must weigh the representativeness of test results with the associated test burden in evaluating any amendments to its test procedures. Regarding the representativeness of the DOE UPS test procedure, the commenters did not provide specific data, nor was DOE aware of any specific data, demonstrating that a 10-percent loading condition would produce a more representative measure of energy use or energy efficiency of UPSs. In addition, DOE's test procedure does not differentiate between specific end-use applications. Therefore, load profiles specific to certain applications (*e.g.,* desktop computers) may not be representative of overall average use of UPSs across all end-use applications. Further, were DOE to consider a 10-percent load condition, DOE was not aware of any data to suggest what corresponding weighting factor should be used to combine this loading condition with the other defined loading conditions comprising the overall efficiency metric.

Regarding test burden, as noted, the loading points currently specified in appendices Y and Y1 are consistent with the loading points defined by ENERGY STAR, as well as section 6.4.1.6 of IEC 62040–3 Ed. 3.0. DOE also noted that the requirements of IEC 62040–3 Ed. 3.0 are referenced by the European Union (''EU'') Code of Conduct (''CoC'') on Energy Efficiency and Quality of AC UPSs Version 2.0.[19] Like many other types of consumer electronics, UPSs are manufactured and distributed globally by multi-national suppliers; as such, any differences between the DOE UPS test procedure (applicable to products sold or imported into the United States) and internationally-recognized industry test methods impose a burden that is acutely impactful to the consumer electronics industry.

Having weighed the potential improvement to representativeness against the potential for increased test burden associated with adding a required 10-percent loading condition that would be applicable to all UPSs, DOE tentatively concluded in the January 2023 NOPR—based on information available—that the potential burden would outweigh any potential improvement in representativeness (*i.e.,* would introduce undue test burden). *Id.* at 88 FR 797. Consequently, DOE did not propose to modify its existing loading points, weightings, or overall efficiency metric in the January 2023 NOPR. *Id.*

In the January 2023 NOPR, DOE requested comment on its proposal to not modify the existing loading points, weighting, or the overall efficiency metric in the current UPS test procedure. *Id.*

In response to the January 2023 NOPR, NEMA commented in support of DOE's proposal to maintain the existing loading points as the referenced loading points and associated coefficients are employed by not only the IEC standard, but also EU CoC's regulation for UPSs. (NEMA, No. 10 at p. 2)

For the reasons discussed here and in the January 2023 NOPR, in this final rule, DOE is not modifying the existing loading points, weighting, or the overall efficiency metric in the UPS test procedure.

E. No-Load Test

DOE's test procedure for UPSs does not currently specify a method for determining the energy consumption of a UPS at no-load (*i.e.,* 0-percent loading condition).

However, DOE recognizes the usefulness of a no-load power consumption metric to the industry and stakeholders and proposed in the January 2023 NOPR to incorporate by reference the no-load test condition specified in section 6.4.1.10 of IEC 62040–3 Ed. 3.0 as an optional test in section 4.3.3 of appendices Y and Y1 that would be used as the basis for any representations of no-load power consumption. 88 FR 790, 797. DOE noted that manufacturers would not be required to certify no-load power consumption to DOE as a result of this amendment because the energy conservation standards for UPSs do not have a no-load requirement at this time. *Id.*

In the January 2023 NOPR, DOE requested feedback on its proposal to add a method for measuring the power consumption of UPSs at no-load as a test to be used as the basis for any representations of no-load power consumption. *Id.*

[17] The ENERGY STAR UPS Specification Version 1.0 is available at *www.energystar.gov/products/spec/uninterruptible_power_supplies_specification_version_1_0_pd.*

[18] The ENERGY STAR UPS Specification Version 2.0 is available at *www.energystar.gov/sites/default/files/asset/document/ENERGY%20STAR%20Uninterruptible%20Power%20Supplies%20Final%20Version%202.0%20Specification_1.pdf.*

[19] The EU CoC on Energy Efficiency and Quality of AC UPSs Version 2.0 is available at *e3p.jrc.ec.europa.eu/publications/code-conduct-energy-efficiency-and-quality-ac-uninterruptible-power-systems-ups-0.*

During the February 2023 public meeting, Appliance Standards Awareness Project (ASAP) supported adding the optional no-load test based on the IEC test method and stated that the added no-load test can provide important information to customers. ASAP further encouraged DOE to enable voluntary no-load power reporting in the compliance database.[20] Schneider Electric also expressed support of the optional no-load testing requirement during the February 2023 public meeting.[21]

NEMA and NEEA also supported adding the optional no-load test procedure. (NEMA, No. 10 at p. 3; NEEA, No. 11 at p. 1) NEEA additionally urged DOE to enable manufacturer reporting of the no-load power and to require the no-load test in the next round of rulemaking. (NEEA, No. 11 at p. 1) NEEA stated that the no-load test would improve harmonization with other test procedures as the no-load test was already required by both the IEC and the ENERGY STAR test procedure. (*Id.* at pp. 1–2) NEEA stated that the no-load test can better and more effectively represent real-world usage of UPSs because desktop computers that are commonly connected to UPSs spend substantial time in sleep or off mode. (*Id.* at p. 2) NEEA noted that addressing the energy use of a UPS in no-load condition will increase the representativeness and can possibly achieve additional energy savings. (*Id.*) Similarly, the Joint Commenters supported DOE's proposal to add an optional no-load test, which would better represent current UPS usage, and requested DOE to enable voluntary reporting of the no-load power consumption on DOE's CCD. (Joint Commenters, No. 12 at p. 1) The Joint Commenters recommended that DOE establish a separate standby mode metric and standard based on the no-load testing condition in the future because UPSs' no-load mode aligns closely with battery chargers' maintenance mode, which qualify under EPCA's definition of standby. (*Id.*)

Regarding the comments recommending enabling the reporting option for the optional no-load test, DOE reiterates that DOE is not making any amendments to reporting or certification requirements for UPSs in this rulemaking. Instead, DOE may consider proposals to amend the certification requirements and reporting for UPSs under a separate rulemaking regarding appliance and equipment certification. DOE notes that it is only adopting the no-load test as an optional test in this rulemaking and will continue to regularly review the UPS market to analyze the representativeness of the no-load test condition in real world applications. DOE also notes that an analysis of any potential energy conservation standards pertaining to the no-load test is outside the scope of this test procedure rulemaking.

For the reasons discussed here and in the January 2023 NOPR, in this final rule, DOE is finalizing the proposals to add a method for measuring the power consumption of UPSs at no-load as a test to be used as the basis for any representations of no-load power consumption.

F. Reference Test Load

DOE's UPS test procedure refers to the 25, 50, 75, and 100-percent loads as ''reference test loads.'' In general, test loads for testing consumer electronics can be either linear [22] or non-linear [23] in nature.

While IEC 62040–3 Ed. 2.0 provides a definition for reference test load,[24] it does not explicitly address whether such a test load is linear or non-linear in nature. Section 2.24 of appendices Y and Y1 defines ''reference test load'' as a load or condition with a power factor of greater than 0.99 in which the AC output socket of the UPS delivers the active power (W) for which the UPS is rated. By specifying a power factor requirement of greater than 0.99, DOE's current definition of ''reference test load'' necessitates the use of a test load that is both linear and resistive.

Section D.2 in Annex D of IEC 62040–3 Ed. 3.0 explains that the diversity of types of load equipment and their relevant characteristics are always changing with technology. For this reason, the UPS output performance is characterized by loading with passive reference loads to simulate, as far as practical, the expected load types, but it cannot be taken that these load types are totally representative of the actual load equipment in a given application. The UPS industry has generally specified UPS output characteristics under conditions of linear loading (*i.e.,* resistive or resistive/inductive). The effect on the output of the UPS by non-linear loads both in steady state and dynamic is, in many cases, to cause deviation from the output characteristic specified by the manufacturer/supplier where these are quoted under linear load conditions.

In the January 2023 NOPR, DOE discussed comments suggesting the use of non-linear loads. 88 FR 790, 798. While DOE recognized that loads protected by UPSs can be non-linear, the use of non-linear loads for testing may create certain challenges or difficulties in meeting the specified test conditions, as described within section D.2 of IEC 62040–3 Ed. 3.0. *Id.* This suggests that testing with non-linear loads may produce results that are less repeatable or reproducible than testing with linear loads. *Id.* In the January 2023 NOPR, DOE stated that it had no information, nor had commenters provided any information, about how the use of non-linear loads for UPS testing may affect repeatability, reproducibility, or test burden. *Id.* As a result, DOE did not propose the use of non-linear test loads for testing UPSs in the January 2023 NOPR. *Id.*

DOE did not receive any stakeholder comments on this topic in response to the January 2023 NOPR. As such, in this final rule, DOE is not making any amendments to the UPS test loads.

G. Test Procedure Costs and Harmonization

In this final rule, DOE is amending the existing test procedure for UPSs by updating the industry standard incorporated by reference to its latest version, updating definitions consistent with the latest version of the industry standard, and introducing an optional test for measuring the power consumption of UPSs at no-load conditions. DOE has determined that these amendments would not be unduly burdensome for manufacturers to conduct.

EPCA requires that test procedures prescribed by DOE not be unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The following sections discuss DOE's evaluation of estimated costs associated with the finalized amendments.

1. Test Procedure Costs and Impact

This final rule updates certain referenced sections in the UPS test procedure at appendices Y and Y1 to the latest version of the industry standard and would not change the method of testing UPSs, but rather

[20] ASAP's comment can be found at pp. 14–15 of the February 2023 public meeting transcript, available at *www.regulations.gov/document/EERE-2022-BT-TP-0005-0009.*

[21] Schneider Electric's comment can be found at pp. 15–16 of the February 2023 public meeting transcript, available at *www.regulations.gov/document/EERE-2022-BT-TP-0005-0009.*

[22] IEC 62040–3 Ed 3.0 defines a linear load as a load wherein the load impedance is a constant.

[23] IEC 62040–3 Ed 3.0 defines a non-linear load as a load wherein the load impedance is a variable dependent on other parameters, such as voltage or time.

[24] IEC 62040–3 Ed. 2.0 defines ''reference test load'' as a load or condition in which the output of the UPS delivers the active power (W) for which the UPS is rated.

would only make non-substantive changes, such as section renumbering. The adopted amendments to harmonize certain definitions with the industry standard would not change the scope of products currently subject to the DOE test procedure or energy conservation standards. Additionally, the adopted optional test procedure for measuring the power consumption of UPSs at no-load conditions would not be required for demonstrating compliance with standards. Therefore, the finalized amendments would not alter the measured energy efficiency or energy use of UPSs. Manufacturers will be able to rely on data generated under the current test procedure. Further, the adopted changes would not require the purchase of additional equipment or increased test burden, and consequently would not impact testing costs. If manufacturers elected to continue to make representations or begin making representations regarding UPS power consumption at no-load conditions, they may need to retest the no-load power portion of the test procedure for their UPS model. DOE estimates that this retest would cost approximately $1,700 per unit if the test is conducted by a third-party lab and substantially less if done by the manufacturer themselves. However, as stated previously, any representations from such a retest would not be required for demonstrating compliance with standards for UPSs.

2. Harmonization With Industry Standards

DOE's established practice is to adopt relevant industry standards as DOE test procedures unless such methodology would be unduly burdensome to conduct or would not produce test results that reflect the energy efficiency, energy use, water use (as specified in EPCA), or estimated operating costs of that product during a representative average use cycle or period of use. Section 8(c) of appendix A of 10 CFR part 430 subpart C. In cases where the industry standard does not meet EPCA statutory criteria for test procedures, DOE will make modifications through the rulemaking process to these standards as the DOE test procedure.

The test procedure for UPSs at appendices Y and Y1 currently incorporates by reference IEC 62040–3 Ed. 2.0 regarding test setup, input and output power measurement, and the optional determination of UPS architecture. DOE is incorporating by reference the latest version of this industry standard (*i.e.,* IEC 62040–3 Ed. 3.0). Additional discussion of this update is provided in section III.C of this document.

In the January 2023 NOPR, DOE requested comment on the benefits and burdens of the proposed updates and additions to the industry standard referenced in the test procedure for UPSs. 88 FR 790, 798. NEMA supported DOE's proposal to harmonize with industry standards. (NEMA, No. 10 at p. 3) Therefore, in this final rule, DOE is adopting its proposal to harmonize with IEC 62040–3 Ed. 3.0.

H. Effective and Compliance Dates

The effective date for the adopted test procedure amendment will be 75 days after publication of this final rule in the **Federal Register**. EPCA prescribes that all representations of energy efficiency and energy use, including those made on marketing materials and product labels, must be made in accordance with an amended test procedure, beginning 180 days after publication of the final rule in the **Federal Register**. (42 U.S.C. 6293(c)(2)) EPCA provides an allowance for individual manufacturers to petition DOE for an extension of the 180-day period if the manufacturer may experience undue hardship in meeting the deadline. (42 U.S.C. 6293(c)(3)) To receive such an extension, petitions must be filed with DOE no later than 60 days before the end of the 180-day period and must detail how the manufacturer will experience undue hardship. (*Id.*)

DOE also recognizes that the publication of separate final rules for battery chargers and UPSs may complicate the compliance dates in appendices Y and Y1 as they apply to battery chargers and UPSs, respectively. As an example, the September 2022 Final Rule amended appendices Y and Y1 requiring manufacturers of battery chargers to use this recently updated version of appendix Y beginning March 7, 2023. Considering that there are no differences in how a UPS is tested between the two versions, DOE concludes that it would be beneficial to refer to the same version of the appendix (as finalized by the September 2022 Final Rule) for testing both battery chargers and UPSs. DOE also concludes that presenting these various compliance dates and references to different versions of the appendices in a tabular format would clearly show the applicability of each appendix. Accordingly, in this final rule, DOE is updating the notes section at the beginning of appendices Y and Y1 to include a table that clearly identifies the appropriate appendix reference and compliance dates for each product at any given time.

IV. Procedural Issues and Regulatory Review

A. Review Under Executive Orders 12866, 13563, and 14094

Executive Order (''E.O.'') 12866, ''Regulatory Planning and Review,'' as supplemented and reaffirmed by E.O. 13563, ''Improving Regulation and Regulatory Review,'' 76 FR 3821 (Jan. 21, 2011) and amended by E.O. 14094, ''Modernizing Regulatory Review,'' 88 FR 21879 (April 11, 2023), requires agencies, to the extent permitted by law, to (1) propose or adopt a regulation only upon a reasoned determination that its benefits justify its costs (recognizing that some benefits and costs are difficult to quantify); (2) tailor regulations to impose the least burden on society, consistent with obtaining regulatory objectives, taking into account, among other things, and to the extent practicable, the costs of cumulative regulations; (3) select, in choosing among alternative regulatory approaches, those approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages; distributive impacts; and equity); (4) to the extent feasible, specify performance objectives, rather than specifying the behavior or manner of compliance that regulated entities must adopt; and (5) identify and assess available alternatives to direct regulation, including providing economic incentives to encourage the desired behavior, such as user fees or marketable permits, or providing information upon which choices can be made by the public. DOE emphasizes as well that E.O. 13563 requires agencies to use the best available techniques to quantify anticipated present and future benefits and costs as accurately as possible. In its guidance, the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) has emphasized that such techniques may include identifying changing future compliance costs that might result from technological innovation or anticipated behavioral changes. For the reasons stated in this preamble, this final regulatory action is consistent with these principles.

Section 6(a) of E.O. 12866 also requires agencies to submit ''significant regulatory actions'' to OIRA for review. OIRA has determined that this final regulatory action does not constitute a ''significant regulatory action'' under section 3(f) of E.O. 12866. Accordingly, this action was not submitted to OIRA for review under E.O. 12866.

B. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires preparation of a final regulatory flexibility analysis (FRFA) for any final rule where the agency was first required by law to publish a proposed rule for public comment, unless the agency certifies that the rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. As required by Executive Order 13272, ''Proper Consideration of Small Entities in Agency Rulemaking,'' 67 FR 53461 (August 16, 2002), DOE published procedures and policies on February 19, 2003, to ensure that the potential impacts of its rules on small entities are properly considered during the DOE rulemaking process. 68 FR 7990. DOE has made its procedures and policies available on the Office of the General Counsel's website: *www.energy.gov/gc/office-general-counsel.* DOE reviewed this final rule under the provisions of the Regulatory Flexibility Act and the procedures and policies published on February 19, 2003. DOE has recently conducted a focused inquiry into small business manufacturers of the UPSs covered by this rulemaking. DOE used available public information to identify potential small manufacturers. DOE accessed the CCD [25] to create a list of companies that import or otherwise manufacture the UPSs covered by this final rule.

For manufacturers of UPSs, the Small Business Administration (''SBA'') has set a size threshold, which defines those entities classified as ''small businesses'' for the purposes of the statute. DOE used the SBA's small business size standards to determine whether any small entities would be subject to the requirements of the rule. *See* 13 CFR part 121. The size standards are listed by the North American Industry Classification System (''NAICS'') code and industry description and are available at *www.sba.gov/document/support—table-size-standards.* Manufacturing of UPSs is classified under NAICS 335999, ''All Other Miscellaneous Electrical Equipment and Component Manufacturing.'' The SBA sets a threshold of 500 employees or less for an entity to be considered as a small business for this category.

To estimate the number of small businesses that manufacture UPSs impacted by this rulemaking, DOE conducted a survey using information from DOE's CCD and previous rulemakings. DOE used information from these sources to create a list of companies that potentially manufacture or sell UPSs. DOE screened out companies that do not offer products covered by this rulemaking, do not meet the definition of a ''small business,'' or are foreign owned and operated. DOE identified five companies that are small businesses manufacturing UPSs covered by this rulemaking.

However, DOE has concluded that the updates to DOE's test procedure for UPSs do not involve substantive changes to the test setup and methodology and will not pose any additional test burden or additional test costs for any UPS manufacturers, large or small.

Therefore, DOE concludes that the cost effects accruing from the final rule would not have a ''significant economic impact on a substantial number of small entities,'' and that the preparation of a FRFA is not warranted. DOE has submitted a certification and supporting statement of factual basis to the Chief Counsel for Advocacy of the Small Business Administration for review under 5 U.S.C. 605(b).

C. Review Under the Paperwork Reduction Act of 1995

Manufacturers of UPSs must certify to DOE that their products comply with any applicable energy conservation standards. To certify compliance, manufacturers must first obtain test data for their products according to the DOE test procedures, including any amendments adopted for those test procedures. DOE has established regulations for the certification and recordkeeping requirements for all covered consumer products and commercial equipment, including UPSs. (*See generally* 10 CFR part 429.) The collection-of-information requirement for the certification and recordkeeping is subject to review and approval by OMB under the Paperwork Reduction Act (PRA). This requirement has been approved by OMB under OMB control number 1910–1400. Public reporting burden for the certification is estimated to average 35 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

DOE is not amending the certification or reporting requirements for UPSs in this final rule. Instead, DOE may consider proposals to amend the certification requirements and reporting for UPSs under a separate rulemaking regarding appliance and equipment certification. DOE will address changes to OMB Control Number 1910–1400 at that time, as necessary.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

D. Review Under the National Environmental Policy Act of 1969

In this final rule, DOE establishes test procedure amendments that it expects will be used to develop and implement future energy conservation standards for UPSs. DOE has determined that this rule falls into a class of actions that are categorically excluded from review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and DOE's implementing regulations at 10 CFR part 1021. Specifically, DOE has determined that adopting test procedures for measuring energy efficiency of consumer products and industrial equipment is consistent with activities identified in 10 CFR part 1021, appendix A to subpart D, A5 and A6. Accordingly, neither an environmental assessment nor an environmental impact statement is required.

E. Review Under Executive Order 13132

Executive Order 13132, ''Federalism,'' 64 FR 43255 (August 4, 1999), imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. The Executive order requires agencies to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and to carefully assess the necessity for such actions. The Executive order also requires agencies to have an accountable process to ensure meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations. 65 FR 13735. DOE examined this final rule and determined that it will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. EPCA governs and prescribes Federal preemption of State regulations as to energy conservation for

[25] U.S. Department of Energy Compliance Certification Database, available at: *www.regulations.doe.gov/certification-data/products.html.*

the products that are the subject of this final rule. States can petition DOE for exemption from such preemption to the extent, and based on criteria, set forth in EPCA. (42 U.S.C. 6297(d)) No further action is required by Executive Order 13132.

F. Review Under Executive Order 12988

Regarding the review of existing regulations and the promulgation of new regulations, section 3(a) of Executive Order 12988, ''Civil Justice Reform,'' 61 FR 4729 (Feb. 7, 1996), imposes on Federal agencies the general duty to adhere to the following requirements: (1) eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; (3) provide a clear legal standard for affected conduct rather than a general standard; and (4) promote simplification and burden reduction. Section 3(b) of Executive Order 12988 specifically requires that Executive agencies make every reasonable effort to ensure that the regulation (1) clearly specifies the preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies the retroactive effect, if any; (5) adequately defines key terms; and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General. Section 3(c) of Executive Order 12988 requires Executive agencies to review regulations in light of applicable standards in sections 3(a) and 3(b) to determine whether they are met or it is unreasonable to meet one or more of them. DOE has completed the required review and determined that, to the extent permitted by law, this final rule meets the relevant standards of Executive Order 12988.

G. Review Under the Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) requires each Federal agency to assess the effects of Federal regulatory actions on State, local, and Tribal governments and the private sector. Public Law 104–4, sec. 201 (codified at 2 U.S.C. 1531). For a regulatory action resulting in a rule that may cause the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector of $100 million or more in any one year (adjusted annually for inflation), section 202 of UMRA requires a Federal agency to publish a written statement that estimates the resulting costs, benefits, and other effects on the national economy. (2 U.S.C. 1532(a), (b)) The UMRA also requires a Federal agency to develop an effective process to permit timely input by elected officers of State, local, and Tribal governments on a proposed ''significant intergovernmental mandate,'' and requires an agency plan for giving notice and opportunity for timely input to potentially affected small governments before establishing any requirements that might significantly or uniquely affect small governments. On March 18, 1997, DOE published a statement of policy on its process for intergovernmental consultation under UMRA. 62 FR 12820; also available at *www.energy.gov/gc/office-general-counsel.* DOE examined this final rule according to UMRA and its statement of policy and determined that the rule contains neither an intergovernmental mandate, nor a mandate that may result in the expenditure of $100 million or more in any year, so these requirements do not apply.

H. Review Under the Treasury and General Government Appropriations Act, 1999

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105–277) requires Federal agencies to issue a Family Policymaking Assessment for any rule that may affect family well-being. This final rule will not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

I. Review Under Executive Order 12630

DOE has determined, under Executive Order 12630, ''Governmental Actions and Interference with Constitutionally Protected Property Rights'' 53 FR 8859 (March 18, 1988), that this regulation will not result in any takings that might require compensation under the Fifth Amendment to the U.S. Constitution.

J. Review Under Treasury and General Government Appropriations Act, 2001

Section 515 of the Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516 note) provides for agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (Feb. 22, 2002), and DOE's guidelines were published at 67 FR 62446 (Oct. 7, 2002). Pursuant to OMB Memorandum M–19–15, Improving Implementation of the Information Quality Act (April 24, 2019), DOE published updated guidelines which are available at *www.energy.gov/sites/prod/files/2019/12/f70/DOE%20Final%20Updated%20IQA%20Guidelines%20Dec%202019.pdf.* DOE has reviewed this final rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

K. Review Under Executive Order 13211

Executive Order 13211, ''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use,'' 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to OMB, a Statement of Energy Effects for any significant energy action. A ''significant energy action'' is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that (1) is a significant regulatory action under Executive Order 12866, or any successor order; and (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (3) is designated by the Administrator of OIRA as a significant energy action. For any significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use if the regulation is implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use.

This regulatory action is not a significant regulatory action under Executive Order 12866. Moreover, it would not have a significant adverse effect on the supply, distribution, or use of energy, nor has it been designated as a significant energy action by the Administrator of OIRA. Therefore, it is not a significant energy action, and, accordingly, DOE has not prepared a Statement of Energy Effects.

L. Review Under Section 32 of the Federal Energy Administration Act of 1974

Under section 301 of the Department of Energy Organization Act (Pub. L. 95–91; 42 U.S.C. 7101), DOE must comply with section 32 of the Federal Energy Administration Act of 1974, as amended by the Federal Energy Administration Authorization Act of 1977. (15 U.S.C. 788; FEAA) Section 32 essentially provides in relevant part that, where a proposed rule authorizes or requires use of commercial standards, the notice of proposed rulemaking must inform the public of the use and background of such standards. In addition, section 32(c) requires DOE to consult with the Attorney General and the Chairman of

the Federal Trade Commission (FTC) concerning the impact of the commercial or industry standards on competition.

The modifications to the test procedure for UPSs adopted in this final rule incorporate testing methods contained in certain sections of the following commercial standard: IEC 62040–3 Ed. 3.0. DOE has evaluated this standard and is unable to conclude whether it fully complies with the requirements of section 32(b) of the FEAA (*i.e.,* whether it was developed in a manner that fully provides for public participation, comment, and review.) DOE has consulted with both the Attorney General and the Chairman of the FTC about the impact on competition of using the methods contained in this standard and has received no comments objecting to its use.

M. Congressional Notification

As required by 5 U.S.C. 801, DOE will report to Congress on the promulgation of this rule before its effective date. The report will state that it has been determined that the rule is not a ''major rule'' as defined by 5 U.S.C. 804(2).

N. Description of Materials Incorporated by Reference

IEC 62040–3 Ed. 3.0, ''Uninterruptible power systems (UPS)—Part 3: Method of specifying the performance and test requirements'' is an industry-accepted test standard that specifies methods for measuring the efficiency of a UPS. The test procedure amended in this final rule updates all references from the previous edition (IEC 62040–3 Ed. 2.0) to this most current edition (IEC 62040–3 Ed. 3.0). IEC 62040–3 Ed. 3.0 is reasonably available from IEC at *https://webstore.iec.ch/* and ANSI at *webstore.ansi.org.*

In this final rule, DOE included amendments to add a new section 0 (Incorporation by Reference) to both appendices Y and Y1 listing the applicable sections of IEC 62040–3 Ed. 3.0 that are referenced by the test procedure.

V. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this final rule.

List of Subjects in 10 CFR Part 430

Administrative practice and procedure, Confidential business information, Energy conservation, Household appliances, Imports, Incorporation by reference, Intergovernmental relations, Small businesses.

Signing Authority

This document of the Department of Energy was signed on March 25, 2024, by Jeff Marootian, Principal Deputy Assistant Secretary for Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 5, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

For the reasons stated in the preamble, DOE amends part 430 of Chapter II of Title 10, Code of Federal Regulations as set forth below:

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

■ 1. The authority citation for part 430 continues to read as follows:

Authority: 42 U.S.C. 6291–6309; 28 U.S.C. 2461 note.

■ 2. Amend § 430.3 by removing paragraph (o)(3) and revising paragraph (q)(4) to read as follows:

§ 430.3 Materials incorporated by reference.

* * * * *

(q) * * *

(4) IEC 62040–3:2021 (''IEC 62040–3 Ed. 3.0'') *Uninterruptible power systems (UPS)—Part 3: Method of specifying the performance and test requirements,* Edition 3.0, 2021–04; IBR approved for appendices Y and Y1 to subpart B.

* * * * *

■ 3. Amend appendix Y to subpart B of part 430 by:

■ a. Revising the introductory note;

■ b. Adding section 0;

■ c. Revising sections 2.26, 2.27, 2.27.1, 2.27.2, and 2.27.3;

■ d. Revising the introductory text of sections 4.2.1 and 4.3.3; and

■ e. Adding section 4.3.3(c).

The revisions and additions read as follows:

Appendix Y to Subpart B of Part 430—Uniform Test Method for Measuring the Energy Consumption of Battery Chargers

Note 1: For all Battery Chargers, including UPSs, compliance with the relevant standard in § 430.32(z) or any representation must be based upon results generated under the corresponding appendix listed in the following table:

	Battery chargers other than UPSs	UPS
On or After July 3, 2024 and Before October 16, 2024	Use appendix Y as it appeared on either March 7, 2023, or July 3, 2024.	Use appendix Y as it appeared on either March 7, 2023, or July 3, 2024
On or After October 16, 2024 and Before compliance date of any new or amended standards published any time after September 2022.	Use appendix Y as it appeared on July 3, 2024..	Use appendix Y as it appeared on July 3, 2024.
On or After compliance date of any new or amended standards published any time after September 2022.	Use appendix Y1	Use appendix Y1.

0. Incorporation by Reference

DOE incorporated by reference in § 430.3 the entire test standard for IEC 62040–3 Ed. 3.0. However, only enumerated provisions of this standard are applicable to this appendix, as follows. In cases in which there is a conflict, the language of the test procedure in this appendix takes precedence over the referenced test standard.

0.1 IEC 62040–3 Ed. 3.0:

(a) Section 3.5, Specified values;

(b) Section 3.5.49, total harmonic distortion;

(c) Section 5, Electrical conditions, performance and declared values;

(d) Section 5.2, UPS input specification, as specified in section 2.28.2 of this appendix;

(e) Section 5.2.1, Conditions for normal mode of operation; Clause 5.2.1.a;

(f) Clause 5.2.1.b;

(g) Section 5.2.2, Conditions to be declared by the manufacturer; Clause 5.2.2.k;

(h) Clause 5.2.2.l;

(i) Clause 5.2.2.m;
(j) Section 5.3, UPS output specification; Section 5.3.2, Characteristics to be declared by the manufacturer; Clause 5.3.2.b;
(k) Clause 5.3.2.c;
(l) Clause 5.3.2.d;
(m) Clause 5.3.2.e;
(n) Section 5.3.4.2, Input dependency AAA;
(o) Section 6.2, Routine test procedure; Section 6.2.2, Electrical; Section 6.2.2.4, No load, as specified in section 4.3.3(c) of this appendix;
(p) Section 6.2.2.7, AC input failure, as specified in Note to section 2.28.1 of this appendix;
(q) Section 6.4, Type test procedure (electrical); Section 6.4.1, Input—AC input power compatibility; Section 6.4.1.2, Steady state input voltage tolerance and VI input independency, as specified in Note to section 2.28.3 of this appendix;
(r) Section 6.4.1.3, Combined input voltage/frequency tolerance and VFI input independency, as specified in Note to section 2.28.2 of this appendix;
(s) Annex G—AC input power failure—Test method;
(t) Annex J—UPS efficiency and no load losses—Methods of measurement, as specified in sections 4.2.1 and 4.3.3 of this appendix.

0.2 [Reserved]

* * * * *

2.26. *Total harmonic distortion (THD),* expressed as a percent, is as defined in section 3.5.9 of IEC 62040–3 Ed. 3.0.

2.27. *Uninterruptible power supply or UPS* means a battery charger consisting of a combination of convertors, switches and energy storage devices (such as batteries), constituting a power system for maintaining continuity of load power in case of AC input power failure.

2.27.1. *Voltage and frequency dependent UPS or VFD UPS* means a UPS that protects the load from a complete loss of AC input power. The output of a VFD UPS is dependent on changes in voltage and frequency of the AC input power and is not intended to provide additional voltage corrective functions, such as those arising from the use of tapped transformers.

Note to 2.27.1: VFD input dependency may be verified by performing the AC input failure test in section 6.2.2.7 of IEC 62040–3 Ed. 3.0 and observing that, at a minimum, the UPS switches from normal mode of operation to battery power while the input is interrupted.

2.27.2. *Voltage and frequency independent UPS or VFI UPS* means a UPS that is independent of AC input power voltage and frequency variations as specified and declared in section 5.2 of IEC 62040–3 Ed. 3.0 and shall protect the load against adverse effects from such variations without discharging the energy storage device.

Note to 2.27.2: VFI input dependency may be verified by performing the combined input voltage/frequency tolerance and VFI input independency test in section 6.4.1.3 of IEC 62040–3 Ed. 3.0 respectively and observing that, at a minimum, the UPS produces an output voltage and frequency within the specified output range when the input voltage is varied by ±10% of the rated input voltage and the input frequency is varied by ±2% of the rated input frequency.

2.27.3. *Voltage independent UPS or VI UPS* means a UPS that protects the load as required for VFD and also from (a) under-voltage applied continuously to the input, and (b) over-voltage applied continuously to the input. The output voltage of a VI UPS shall remain within declared voltage limits (provided by voltage corrective functions, such as those arising from the use of active and/or passive circuits). The output voltage tolerance band shall be narrower than the input voltage tolerance band.

Note to 2.27.3: VI input dependency may be verified by performing the steady state input voltage tolerance test in section 6.4.1.2 of IEC 62040–3 Ed. 3.0 and ensuring that the UPS remains in normal mode with the output voltage within the specified output range when the input voltage is varied by ±10% of the rated input voltage.

* * * * *

4.2.1. General Setup

Configure the UPS according to Annex J.2 of IEC 62040–3 Ed. 3.0 with the following additional requirements:

* * * * *

4.3.3. Power Measurements and Efficiency Calculations

Measure input and output power of the UUT according to section J.3 of Annex J of IEC 62040–3 Ed. 3.0, or measure the input and output energy of the UUT for efficiency calculations with the following exceptions:

* * * * *

(c) For representations of no-load losses, measure the active power at the UPS input port with no load applied in accordance with section 6.2.2.4 of IEC 62040–3 Ed. 3.0.

* * * * *

■ 4. Amend appendix Y1 to subpart B of part 430 by:
■ a. Revising the introductory note;
■ b. Adding section 0;
■ c. Revising sections 2.27, 2.28, 2.28.1, 2.28.2, and 2.28.3;
■ d. Revising the introductory text of sections 4.2.1 and 4.3.3; and
■ e. Adding section 4.3.3(c).

The revisions and additions read as follows:

Appendix Y1 to Subpart B of Part 430—Uniform Test Method for Measuring the Energy Consumption of Battery Chargers

Note 1: For all Battery Chargers, including UPSs, compliance with the relevant standard in § 430.32(z) or any representation must be based upon results generated under the corresponding appendix listed in the following table:

	Battery chargers other than UPSs	UPS
On or After July 3, 2024 and Before October 16, 2024	Use appendix Y as it appeared on either October 11, 2022, or July 3, 2024.	Use appendix Y as it appeared on either October 11, 2022, or July 3, 2024.
On or After October 16, 2024 and Before compliance date of any new or amended standards published any time after September 2022.	Use appendix Y as it appeared on July 3, 2024.	Use appendix Y as it appeared on July 3, 2024.
On or After compliance date of any new or amended standards published any time after September 2022.	Use appendix Y1	Use appendix Y1.

Manufacturers may begin to use appendix Y1 to certify compliance with any new or amended energy conservation standards, published after September 8, 2022, prior to the applicable compliance date for those standards.

0. Incorporation by Reference

DOE incorporated by reference in § 430.3 the entire test standard for IEC 62040–3 Ed. 3.0. However, only enumerated provisions of this standard are applicable to this appendix, as follows. In cases in which there is a conflict, the language of the test procedure in this appendix takes precedence over the referenced test standard.

0.1 IEC 62040–3 Ed. 3.0:
(a) Section 3.5 Specified values;
(b) Section 3.5.49 total harmonic distortion;
(c) Section 5, Electrical conditions, performance and declared values;
(d) Section 5.2, UPS input specification, as specified in section 2.28.2 of this appendix;
(e) Section 5.2.1, Conditions for normal mode of operation; Clause 5.2.1.a;
(f) Clause 5.2.1.b;
(g) Section 5.2.2, Conditions to be declared by the manufacturer; Clause 5.2.2.k;
(h) Clause 5.2.2.l;
(i) Clause 5.2.2.m;
(j) Section 5.3, UPS output specification; Section 5.3.2, Characteristics to be declared by the manufacturer; Clause 5.3.2.b;
(k) Clause 5.3.2.c;
(l) Clause 5.3.2.d;
(m) Clause 5.3.2.e;
(n) Section 5.3.4.2, Input dependency AAA;
(o) Section 6.2, Routine test procedure; Section 6.2.2, Electrical; Section 6.2.2.4, No

load, as specified in section 4.3.3(c) of this appendix;

(p) Section 6.2.2.7, AC input failure, as specified in Note to section 2.28.1 of this appendix;

(q) Section 6.4, Type test procedure (electrical); Section 6.4.1, Input—AC input power compatibility; Section 6.4.1.2, Steady state input voltage tolerance and VI input independency, as specified in Note to section 2.28.3 of this appendix;

(r) Section 6.4.1.3, Combined input voltage/frequency tolerance and VFI input independency, as specified in Note to section 2.28.2 of this appendix;

(s) Annex G—AC input power failure—Test method;

(t) Annex J—UPS efficiency and no load losses—Methods of measurement, as specified in sections 4.2.1 and 4.3.3 of this appendix.

0.2 [Reserved]

* * * * *

2.27. *Total harmonic distortion (THD),* expressed as a percent, is as defined in section 3.5.9 of IEC 62040–3 Ed. 3.0.

2.28. *Uninterruptible power supply or UPS* means a battery charger consisting of a combination of convertors, switches and energy storage devices (such as batteries), constituting a power system for maintaining continuity of load power in case of AC input power failure.

2.28.1. *Voltage and frequency dependent UPS or VFD UPS* means a UPS that protects the load from a complete loss of AC input power. The output of a VFD UPS is dependent on changes in voltage and frequency of the AC input power and is not intended to provide additional voltage corrective functions, such as those arising from the use of tapped transformers.

Note to 2.28.1: VFD input dependency may be verified by performing the AC input failure test in section 6.2.2.7 of IEC 62040–3 Ed. 3.0 and observing that, at a minimum, the UPS switches from normal mode of operation to battery power while the input is interrupted.

2.28.2. *Voltage and frequency independent UPS or VFI UPS* means a UPS that is independent of AC input power voltage and frequency variations as specified and declared in section 5.2 of IEC 62040–3 Ed. 3.0 and shall protect the load against adverse effects from such variations without discharging the energy storage device.

Note to 2.28.2: VFI input dependency may be verified by performing the combined input voltage/frequency tolerance and VFI input independency test in section 6.4.1.3 of IEC 62040–3 Ed. 3.0 respectively and observing that, at a minimum, the UPS produces an output voltage and frequency within the specified output range when the input voltage is varied by ±10% of the rated input voltage and the input frequency is varied by ±2% of the rated input frequency.

2.28.3. *Voltage independent UPS or VI UPS* means a UPS that protects the load as required for VFD and also from (a) under-voltage applied continuously to the input, and (b) over-voltage applied continuously to the input. The output voltage of a VI UPS shall remain within declared voltage limits (provided by voltage corrective functions, such as those arising from the use of active and/or passive circuits). The output voltage tolerance band shall be narrower than the input voltage tolerance band.

Note to 2.28.3: VI input dependency may be verified by performing the steady state input voltage tolerance test in section 6.4.1.2 of IEC 62040–3 Ed. 3.0 and ensuring that the UPS remains in normal mode with the output voltage within the specified output range when the input voltage is varied by ±10% of the rated input voltage.

* * * * *

4.2.1. General Setup

Configure the UPS according to Annex J.2 of IEC 62040–3 Ed. 3.0 with the following additional requirements:

* * * * *

4.3.3. Power Measurements and Efficiency Calculations

Measure input and output power of the UUT according to section J.3 of Annex J of IEC 62040–3 Ed. 3.0, or measure the input and output energy of the UUT for efficiency calculations with the following exceptions:

* * * * *

(c) For representations of no-load losses, measure the active power at the UPS input port with no load applied in accordance with section 6.2.2.4 of IEC 62040–3 Ed. 3.0.

[Docket No. 240415–0109]

RIN 0694–AJ58

Export Control Revisions for Australia, United Kingdom, United States (AUKUS) Enhanced Trilateral Security Partnership

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Interim final rule.

SUMMARY: With this interim final rule (IFR), the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) to remove license requirements, expand the availability of license exceptions, and reduce the scope of end-use and end-user-based license requirements for exports, reexports, and transfers (in-country) to or within Australia and the United Kingdom (UK) to enhance technological innovation among the three countries and support the goals of the AUKUS Trilateral Security Partnership.

DATES: This rule is effective April 19, 2024. Comments must be received by BIS no later than June 3, 2024.

ADDRESSES: Comments on this rule may be submitted to the Federal rulemaking portal (*www.regulations.gov*). The *regulations.gov* ID for this rule is: BIS–2024–0019. Please refer to RIN 0694–AJ58 in all comments.

All filers using the portal should use the name of the person or entity submitting the comments as the name of their files, in accordance with the instructions below. Anyone submitting business confidential information should clearly identify the business confidential portion at the time of submission, file a statement justifying nondisclosure and referring to the specific legal authority claimed, and provide a non-confidential version of the submission.

For comments submitted electronically containing business confidential information, the file name of the business confidential version should begin with the characters ''BC.'' Any page containing business confidential information must be clearly marked ''BUSINESS CONFIDENTIAL'' on the top of that page. The corresponding non-confidential version of those comments must be clearly marked ''PUBLIC.'' The file name of the non-confidential version should begin with the character ''P.'' Any submissions with file names that do not begin with either a ''BC'' or a ''P'' will be assumed to be public and will be made publicly available through *https://www.regulations.gov.* Commenters submitting business confidential information are encouraged to scan a hard copy of the non-confidential version to create an image of the file, rather than submitting a digital copy with redactions applied, to avoid inadvertent redaction errors which could enable the public to read business confidential information.

FOR FURTHER INFORMATION CONTACT: For questions on this rule, contact Philip Johnson at *RPD2@bis.doc.gov* or (202) 482–2440.

SUPPLEMENTARY INFORMATION:

Background

BIS is amending the EAR (15 CFR parts 730–774), by revising the license requirements for items being exported, reexported, or transferred (in-country) to or within Australia and the UK. Background regarding these changes is detailed below.

AUKUS Trilateral Security Partnership

On September 15, 2021, the leaders of Australia, the UK, and the United States

announced their ''resolve to deepen diplomatic, security, and defense cooperation in the Indo-Pacific region, including by working with partners, to meet the challenges of the twenty-first century'' by creating AUKUS, an enhanced trilateral security partnership. Through AUKUS, partner governments are strengthening each other's ability to support their collective security and defense interests, building on longstanding and ongoing bilateral ties. AUKUS implementation promotes deeper information and technology sharing, while fostering integration of security and defense-related science, technology, industrial bases, and supply chains. In particular, AUKUS significantly enhances cooperation on a range of security and defense capabilities, many of which are detailed below. AUKUS is part of a broader U.S. Government effort to fortify international alliances and partnerships in mutually reinforcing ways across issues and continents. It is one of multiple partnerships that the United States is pursuing, enhancing cooperation on security issues in the Indo-Pacific region and around the world.

As it currently stands, AUKUS consists of two main pillars, Pillar I and Pillar II. Pillar I focuses on trilateral submarine cooperation. Pillar II has a wider scope than Pillar I because it focuses initial partner collaboration efforts on advanced capabilities in the following areas: (1) advanced cyber, artificial intelligence (AI), and autonomy; (2) quantum technologies; (3) hypersonic and counter-hypersonic capabilities; (4) electronic warfare; (5) innovation; (6) information sharing; and (7) additional undersea capabilities. Recognizing the deep defense ties built over decades, the three partner nations endeavor to streamline their collective defense collaboration while strengthening the ability to protect the sensitive technologies that underpin national security on these topics. It should be noted that the AUKUS partnership will continue to evolve. The technologies and areas of cooperation highlighted above are illustrative, not exhaustive, and are referenced here to highlight how license-free exports of certain items facilitated by the changes in this rule directly support not only the AUKUS partnership, but general defense trade and innovation between and among the AUKUS nations.

Export Control Cooperation With the UK and Australia

On December 22, 2023, President Biden signed the National Defense Authorization Act (NDAA) for Fiscal Year 2024, Public Law 118–31, which enacted provisions related to streamlining defense trade between and among the United States, UK, and Australia, provided certain conditions are met. The Department of State has purview over the implementation of the new authorities provided through the NDAA's revisions to the Arms Export Control Act. Separately, to support the United States' broader defense trade and technology cooperation with the AUKUS partners, BIS is issuing this rule to remove certain license requirements under the EAR.

The UK and Australia are two of the United States' closest allies, with longstanding collective defense arrangements. They are also members of all four multilateral export control regimes (*i.e.,* the Wassenaar Arrangement on Export Controls for Conventional Arms and Related Dual-Use Goods and Technologies, Australia Group, Nuclear Suppliers Group, and Missile Technology Control Regime (MTCR)) and are also members of the Global Export Controls Coalition (GECC) of governments that have substantially aligned on export control measures in response to Russia's illegal war against Ukraine (see supplement no. 3 to part 746 of the EAR). The UK and Australia have robust export control systems and have taken additional measures in recent months to enhance technology protection and promote secure trade. Specifically, in December 2023, the United Kingdom's National Security Act 2023 came into force, providing for *inter alia* enhanced protections against the unauthorized disclosure of certain defense-related information. In March 2024, the Australian Parliament passed the Defence Trade Controls Amendment Act 2024 and the Safeguarding Australia's Military Secrets Act 2024, providing for *inter alia* controls on the reexport of items originally exported from Australia, and disclosures of controlled technology to certain foreign persons within Australia, as well as controls on the provision of defense services. Following their passage in their respective parliaments, the UK and Australian actions received royal assent. These actions highlight the UK's and Australia's commitment to implementing robust export controls and technology protection measures. Accordingly, this rule significantly streamlines many license requirements under the EAR for exports, reexports, and transfers (in-country) to and within the UK and Australia.

Regulatory Changes

With this rule, Australia and the UK will have nearly the same licensing treatment under the EAR as Canada. The liberal licensing treatment of items destined to Canada was made possible in part because Canada is included in the National Technology and Industrial Base (NTIB) (as defined in 10 U.S.C. 4801(1)). In 2017, this definition was broadened to include the UK and Australia. Accordingly, the regulatory changes in this rule not only advance the goals of the AUKUS Enhanced Trilateral Security Partnership, but also further align treatment of the UK and Australia under the EAR with fellow NTIB member Canada. This rule makes six primary export control policy changes as well as several minor conforming changes to further align the treatment of Australia, Canada, and the UK under the EAR.

The first three changes involve the removal of list-based license requirements for exports, reexports, and transfers (in-country) to Australia and the UK. Specifically, BIS is removing license requirements for national security column 1 (NS1), regional stability column 1 (RS1), and missile technology column 1 (MT1) reasons for control for the destinations of Australia and the UK. As Australia and the UK are not currently subject to NS2 or RS2 controls, with this rule all Commerce Country Chart-based NS and RS controls are removed for these countries. As detailed above, the AUKUS partners are among the closest allies of the United States and have similar export control and technology protection systems in place, mitigating the risk of misuse or diversion of license-free exports, reexports, and transfers of NS1, RS1, and MT1 items to and within these destinations. To facilitate this change, the Xs are being removed from the Country Chart (supplement no. 1 to part 738) for NS1, RS1, and MT1 for Australia and the UK. Corresponding to the Commerce Country Chart, provisions in part 742 of the EAR that specify the license requirements for NS, MT, and RS reasons (§§ 742.4(a), .5(a), and .6(a), respectively) are revised in order to fully remove the license for Australia and the UK.

With these changes, ''600 series'' items, which are generally items on the Wassenaar Arrangement Munitions List, will no longer require a license to Australia or the UK. In addition, items controlled under the EAR for missile technology reasons consistent with the MTCR Annex will also no longer require a license to Australia or the UK. Finally, except for those items requiring a license to all destinations worldwide pursuant to § 742.6(a)(9), many 9x515 satellite-related items will no longer require a license to Australia or the UK.

These changes will significantly reduce the volume of BIS licenses for exports, reexports, and transfers to and within Australia and the UK, as BIS previously issued over 1,800 licenses per year for such items to Australia and the UK.

The fourth policy change is consistent with the general RS1 removal. BIS maintains a special RS Column 1 license requirement in § 742.6(a)(3) applicable to military commodities described under ECCN 0A919. Specifically, the special RS1 control required a license for reexports to all destinations except Canada for items classified under ECCN 0A919 except when such items are being reexported as part of a military deployment by a unit of the government of a country in Country Group A:1 (see supplement no. 1 to part 740 of the EAR) or the United States. This final rule will remove license requirements for 0A919 items to Australia and the UK, further aligning their treatment with Canada. As licenses for ECCN 0A919 items will no longer be required to the two countries under § 744.9(a)(1)(iii), this rule also removes footnote 3 on the Country Chart from Australia and the UK, which highlighted that a license was required for these items to those destinations.

Fifth, BIS is removing military end-use and end-user-based license requirements for exports, reexports, and transfers (in-country) of certain cameras, systems, or related components detailed under § 744.9(a)(1)(i) and (a)(1)(iii) of the EAR. Paragraph (a)(1)(i) of § 744.9 pertains to commodities described in ECCN 6A003.a.3, 6A003.a.4, or 6A003.a.6 that will be or are intended to be used by a 'military end-user,' as defined in § 744.9(d); paragraph (a)(1)(iii) pertains to commodities described in ECCNs 0A504 (incorporating commodities controlled by ECCNs 6A002 or 6A003, or commodities controlled by 6A993.a that meet the criterion of Note 3.a to 6A003.b.4), 6A002, 6A003, or 6A993.a (having a maximum frame rate equal to or less than 9 Hz and thus meeting the criteria of Note 3.a to 6A003.b.4), or 8A002.d that will be or are intended to be incorporated into a ''military commodity'' controlled by ECCN 0A919. Prior to this rule, the only exception to the requirements under these paragraphs was to Canada. With the publication of this rule, the exception now applies to Australia, Canada, and the UK.

Finally, BIS is revising its treatment of significant items (SI) (*i.e.,* hot section technology for the development, production or overhaul of commercial aircraft engines, components, and systems) controlled under ECCN 9E003.a.1 through a.6, a.8, .h, .i, and .l, and related controls to allow these items to be exported, reexported, or transferred (in-country) to or within Australia and the UK without a license, consistent with the current exception for Canada. This provision is in § 742.14(a).

In addition to the major policy changes discussed above, the broader alignment of controls on Australia, Canada, and the UK under the EAR requires additional minor policy changes. These changes are as follows:

1. Under § 734.17(c)(1), precautions for internet transfers of products eligible for export under § 740.17(b)(2) shall include such measures as an access control system that, either through automated means or human intervention, checks the address of every system outside of the U.S. or Canada to check against transfers to foreign government end users, is edited to include Australia and the UK within the list of countries exempted from the required measures;

2. Under §§ 740.15, 740.16, and 740.17 (License Exceptions Aircraft, Vessels and Spacecraft (AVS), Additional Permissive Reexports (APR), and Encryption Commodities, Software, and Technology (ENC), respectively), BIS is expanding the explicit applicability of these License Exceptions for use to Australia, Canada, and the UK;

3. Under § 742.2(a)(1), a license was required to all destinations, including Canada, for CB Column 1 items; with the publication of this rule the countries exempt from the license requirement is expanded to include Australia and the UK in the list for clarity, although the revision does not change existing license requirements;

4. Under § 742.7(a)(4), Canada remains exempted from certain crime control related license requirements for non-firearms items, but the text has been edited to read ''Canada only'' as these items are not available without a license to Australia and the UK;

5. Under § 742.13(a)(1), Canada is mentioned as requiring a license for certain communications intercepting devices, with the publication of this rule, this phrase now includes Australia and the UK for clarity, although the revision does not change existing license requirements;

6. Under § 742.18(a)(1), Canada is mentioned as requiring a license under the Chemical Weapons Convention; with the publication of this rule, this phrase now includes Australia and the UK for clarity although the revision does not change existing license requirements;

7. Under § 743.3(b), BIS is exempting Australia and the UK alongside Canada from unilateral reporting requirements for thermal imaging camera transactions;

8. Under §§ 754.3(a), .4(a), and .5(a), a license is required for short supply reasons for control for certain items, including to Canada; these phrases now include Australia and the UK for clarity without changing existing license requirements;

9. Under § 758.1(b)(3), (6), and (9), BIS requires certain transactions involving Canada to be reported in Electronic Export Information (EEI) filings, and these paragraphs now include Australia and the UK for clarity without changing existing EEI filing requirements; and

10. Under § 758.11(a), which covers the scope of export clearance requirements for firearms and related items, BIS now includes Australia and the UK alongside Canada for clarity as destinations to which certain clearance requirements continue to pertain.

Among other things, license exception Aircraft, Vessels, and Spacecraft (AVS) treats exports to Canadian airlines in most destinations as an export to Canada. Since MT1 items do not require a license for export to Canada, the primary impact of this AVS eligibility is that Canadian airlines in most destinations may receive MT1 items as spare parts. Consistent with the removal in this rule of MT1 license requirements for the UK and Australia, and as discussed above, BIS is adding AVS eligibility for Australian and United Kingdom airlines to receive such items in most destinations. As a conforming change, BIS is creating two new definitions for what constitutes an ''Australian airline'' and ''United Kingdom (or UK) airline.'' These two definitions are added to § 772.1 and mirror the definition of ''Canadian airline.'' Both definitions state that an Australian or UK airline is a citizen of that destination who is authorized by their respective government to engage in business as an airline. The definitions then define, for purposes of these defined terms only, what it means to be a citizen of these countries, including firms incorporated or otherwise organized in a state or territory for Australia and a country or territory for the UK. To ensure alignment across these definitions, BIS is adding the term territory under the existing definition for a ''Canadian airline,'' which will now include firms incorporated or otherwise organized in Canadian provinces or territories.

Furthermore, BIS notes one particular license requirement that will remain unchanged as a result of this rule. Under

the EAR, firearms-related items and other CC controlled items in ECCNs 0A501 (except 0A501.y), 0A502, 0A503, 0A504, 0A505. a, .b, and .x, 0A981, 0A982, 0A983, 0D501, 0D505, 0E501, 0E502, 0E504, 0E505, and 0E982 will continue to require a license when destined to and among the UK and Australia. This license requirement mirrors the license requirement for firearms-related items in ECCNs 0A501 (except 0A501.y), 0A502, 0A504 (except 0A504.f), and 0A505 (except 0A505.d) destined to Canada. Prior to this IFR, license requirements for these items to the UK and Australia were implemented through NS1/RS1 reasons for control. Since these license requirements are removed for the UK and Australia in this rule, BIS is adding a footnote to the Commerce Country Chart for the UK and Australia, which indicates that a license is still required for these 0x5zz firearms-related items to those two countries. This does not change the scope of the license requirements for these items to the UK and Australia that applied prior to the effective date of this rule.

Request for Public Comments

To ensure that the export control revisions implemented in this rule advance AUKUS objectives, BIS requests comments on the impacts of these changes. BIS also requests comments on additional revisions to the EAR that would further enhance defense industrial base cooperation and technology innovation with Australia and the United Kingdom. In particular, BIS is not removing license requirements to Australia and the UK in this IFR for encryption items (EI) in § 742.15(a)(1) of the EAR. BIS notes that license exceptions such as encryption commodities, software, and technology (ENC) and authorized cybersecurity exports (ACE) are currently available for exports, reexports, and transfers (in-country) of such items to and within Australia and the UK, subject to certain conditions. BIS welcomes comments on the potential impact of removing EI licensing requirements for Australia and the UK.

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA), 50 U.S.C. 4801–4852. ECRA, as amended, provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distribute impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This final rule has been designated a ''significant regulatory action'' under Executive Order 12866.

2. Notwithstanding any other provision of law, no person may be required to respond to, or be subject to a penalty for failure to comply with, a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves a collection currently approved by OMB under control number 0694–0088, Simplified Network Application Processing System. This collection includes, among other things, license applications and commodity classification, and carries a burden estimate of 29.4 minutes for a manual or electronic submission for a total burden estimate of 38,826 hours. BIS expects license application submissions to decrease by approximately 1,800 applications annually, for a total decrease in burden estimate under this collection of approximately 882 hours.

3. This rule does not contain policies with federalism implications as that term is defined under Executive Order 13132.

4. Pursuant to Section 1762 of ECRA (50 U.S.C. 4821), this action is exempt from the Administrative Procedure Act (APA) (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation and delay in effective date. Additionally, this rule is exempt from the ordinary rulemaking requirements of the APA pursuant to 5 U.S.C. 553(a)(1) as a military or foreign affairs function of the United States Government.

5. Because neither the APA nor any other law requires that notice of proposed rulemaking and an opportunity for public comment be given for this rule, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Accordingly, no Final Regulatory Flexibility Analysis is required and none has been prepared.

List of Subjects

15 CFR Part 734

Administrative practice and procedure, Exports, Inventions and patents, Research, Science and technology.

15 CFR Part 738

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

15 CFR Part 740

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

15 CFR Part 742

Exports and Terrorism.

15 CFR Part 743

Administrative practice and procedure, Reporting and recordkeeping requirements.

15 CFR Part 744

Exports, Reporting and recordkeeping requirements, Terrorism.

15 CFR Part 754

Agricultural commodities, Exports, Forests and forest products, Horses, Petroleum, Reporting and recordkeeping requirements.

15 CFR Part 758

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

15 CFR Part 772

Exports.

15 CFR Part 774

Exports, Reporting and recordkeeping requirements.

Accordingly, parts 734, 738, 740, 742, 743, 744, 754, 758, 772, and 774 of the Export Administration Regulations (15 CFR parts 730–774) are amended as follows:

PART 734—SCOPE OF THE EXPORT ADMINISTRATION REGULATIONS

■ 1. The authority citation for 15 CFR part 734 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* E.O. 12938, 59 FR 59099, 3 CFR, 1994 Comp., p. 950; E.O. 13020, 61 FR 54079, 3 CFR, 1996 Comp., p. 219; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13637, 78 FR 16129, 3 CFR, 2014 Comp., p. 223; Notice of November 8, 2022, 87 FR 68015 (November 10, 2022).

■ 2. Revise § 734.17(c)(1) to read as follows:

§ 734.17 Export of encryption source code and object code software.

(c) * * *

(1) The access control system, either through automated means or human intervention, checks the address of every system outside of the U.S., Australia, Canada, or the United Kingdom requesting or receiving a transfer and verifies such systems do not have a domain name or internet address of a foreign government end-user (*e.g.,* ''.gov,'' ''.gouv,'' ''.mil'' or similar addresses);

* * * * *

PART 738—COMMERCE CONTROL LIST OVERVIEW AND THE COUNTRY CHART

■ 3. The authority citation for 15 CFR part 738 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 10 U.S.C. 8720; 10 U.S.C. 8730(e); 22 U.S.C. 287c; 22 U.S.C. 2151 note; 22 U.S.C. 3201 *et seq.;* 22 U.S.C. 6004; 42 U.S.C. 2139a; 15 U.S.C. 1824; 50 U.S.C. 4305; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 4. In supplement no. 1 to part 738, revise the entries for Australia and the United Kingdom and add footnote 9 as follows:

Supplement No. 1 to Part 738—Commerce Country Chart

* * * * *

COMMERCE COUNTRY CHART

Countries	Chemical & biological weapons			Nuclear nonproliferation		National security		Missile tech	Regional stability		Firearms convention	Crime control			Anti-terrorism	
	CB 1	CB 2	CB 3	NP 1	NP 2	NS 1	NS 2	MT 1	RS 1	RS 2	FC 1	CC 1	CC 2	CC 3	AT 1	AT 2
*		*		*			*		*		*		*			
Australia [9]	X															
*		*		*			*		*		*		*			
United Kingdom [9]	X															
*		*		*			*		*		*		*			

* * * * *

[9] A license is required to these destinations for items in the following ECCNs: 0A501 (except 0A501.y), 0A502, 0A503, 0A504, 0A505.a, .b, and .x, 0D501, 0D505, 0E501, 0E502, 0E504, and 0E505.

PART 740—LICENSE EXCEPTIONS

■ 5. The authority citation for 15 CFR part 740 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 7201 *et seq.;* E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 6. Amend § 740.15 by revising the introductory text and paragraph (c)(1) introductory text, and revising and republishing paragraph (c)(2) to read as follows:

§ 740.15 Aircraft, vessels and spacecraft (AVS).

This License Exception authorizes departure from the United States of foreign registry civil aircraft on temporary sojourn in the United States and of U.S. civil aircraft for temporary sojourn abroad; the export of equipment and spare parts for permanent use on a vessel or aircraft; exports to vessels or planes of U.S., Australian, Canadian, or UK (the United Kingdom) registry and U.S., Australian, Canadian, or UK Airlines' installations or agents; the export or reexport of cargo that will transit Cuba on an aircraft or vessel on temporary sojourn; and the export of spacecraft and components for fundamental research. Generally, no License Exception symbol is necessary for export clearance purposes; however, when necessary, the symbol ''AVS'' may be used.

* * * * *

(c) *Shipments to U.S., Australian, Canadian, or UK vessels, planes and airline installations or agents*—(1) *Exports to vessels or planes of U.S., Australian, Canadian, or UK registry.* Export may be made of the commodities set forth in paragraph (c)(3) of this section, for use by or on a specific vessel or plane of U.S., Australian, Canadian, or UK registry located at any seaport or airport outside the United States, Australia, Canada, or the UK except a port in Cuba or Country Group D:1 (excluding the PRC), (see supplement no. 1 to part 740) provided that such commodities are all of the following: [3]

* * * * *

(2) *Exports to U.S., Australian, Canadian, or UK airline's installation or agent.* Exports of the commodities set forth in paragraph (c)(3) of this section, except fuel, may be made to a U.S., Australian, Canadian, or UK airline's [4] installation or agent in any foreign destination except Cuba or Country Group D:1 (excluding the PRC), (see supplement no. 1 to part 740) provided such commodities are all of the following:

(i) Ordered by a U.S., Australian, Canadian, or UK airline and consigned to its own installation or agent abroad;

(ii) Intended for maintenance, repair, or operation of aircraft registered in either the U.S., Australia, Canada, or UK and necessary for the aircraft's proper operation, except where such aircraft is located in, or owned, operated or controlled by, or leased or chartered to, Cuba or Country Group D:1 (excluding the PRC) (see supplement no. 1 to part 740) or a national of such country;

(iii) In usual and reasonable kinds and quantities; and

(iv) Shipped as cargo for which Electronic Export Information (EEI) is filed to the Automated Export System (AES) in accordance with the requirements of the Foreign Trade Regulations (FTR) (15 CFR part 30), except EEI is not required to be filed when any of these commodities is exported by U.S. airlines to their own installations and agents abroad for use in their aircraft operations, see 15 CFR 30.37(o) of the FTR.

* * * * *

[3] Where a license is required, see §§ 748.1, 748.4 and 748.6 of the EAR.

[4] See part 772 of the EAR for definitions of United States, Australia, Canadian, and UK airlines.

■ 7. Revise § 740.16(d) and (f) to read as follows:

§ 740.16 Additional permissive reexports (APR).

* * * * *

(d) Reexports of any item from Australia, Canada, or the United Kingdom that, at the time of reexport,

may be exported directly from the United States to the new country of destination under any License Exception.

* * * * *

(f) Reexports from a foreign destination to Australia, Canada, or the United Kingdom of any item if the item could be exported to Australia, Canada, or the United Kingdom without a license.

* * * * *

■ 8. Amend § 740.17 by revising paragraphs (e)(1) introductory text, (e)(1)(i) and (e)(iii)(C) to read as follows:

§ 740.17 Encryption commodities, software, and technology (ENC).

* * * * *

(e) *Reporting requirements*—(1) *Semiannual reporting requirement.* Semiannual reporting is required for exports to all destinations other than Australia, Canada, or the United Kingdom, and for reexports from Australia, Canada, or the United Kingdom for items described under paragraphs (b)(2) and (b)(3)(iii) of this section. Certain encryption items and transactions are excluded from this reporting requirement (see paragraph (e)(1)(iii) of this section). For information about what must be included in the report and submission requirements, see paragraphs (e)(1)(i) and (ii) of this section, respectively.

(i) *Information required.* Exporters must include, for each item, the Commodity Classification Automated Tracking System (CCATS) number and the name of the item(s) exported (or reexported from Australia, Canada, or the United Kingdom), and the following information in their reports:

(A) *Distributors or resellers.* For items exported (or reexported from Australia, Canada, or the United Kingdom) to a distributor or other reseller, including subsidiaries of U.S. firms, the name and address of the distributor or reseller, the item and the quantity exported or reexported and, if collected by the exporter as part of the distribution process, the end user's name and address;

(B) *Direct sales.* For items exported (or reexported from Australia, Canada, or the United Kingdom) through direct sale, the name and address of the recipient, the item, and the quantity exported; or

(C) *Foreign manufacturers and products that use encryption items.* For exports (*i.e.,* from the United States) or direct transfers (*e.g.,* by a ''U.S. subsidiary'' located outside the United States) of encryption components, source code, general purpose toolkits, equipment controlled under ECCN 5B002, technology, or items that provide an ''open cryptographic interface,'' to a foreign developer or manufacturer headquartered in a country not listed in supplement no. 3 to this part when intended for use in foreign products developed for commercial sale, the names and addresses of the manufacturers using these encryption items and, if known, when the product is made available for commercial sale, a non-proprietary technical description of the foreign products for which these encryption items are being used (*e.g.,* brochures, other documentation, descriptions or other identifiers of the final foreign product; the algorithm and key lengths used; general programming interfaces to the product, if known; any standards or protocols that the foreign product adheres to; and source code, if available).

* * * * *

(iii) * * *

(C) Encryption items exported (or reexported from Australia, Canada, or the United Kingdom) via free and anonymous download;

* * * * *

PART 742—CONTROL POLICY—CCL BASED CONTROLS

■ 5. The authority citation for 15 CFR part 742 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 3201 *et seq.;* 42 U.S.C. 2139a; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; Sec. 1503, Pub. L. 108–11, 117 Stat. 559; E.O. 12058, 43 FR 20947, 3 CFR, 1978 Comp., p. 179; E.O. 12851, 58 FR 33181, 3 CFR, 1993 Comp., p. 608; E.O. 12938, 59 FR 59099, 3 CFR, 1994 Comp., p. 950; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; Presidential Determination 2003–23, 68 FR 26459, 3 CFR, 2004 Comp., p. 320; Notice of November 8, 2022, 87 FR 68015 (November 10, 2022).

■ 6. Amend § 742.2 by revising paragraph (a)(1) introductory text to read as follows:

§ 742.2 Proliferation of chemical and biological weapons.

(a) * * *

(1) If CB Column 1 of the Country Chart (supplement no. 1 to part 738 of the EAR) is indicated in the appropriate ECCN, a license is required to all destinations, including Australia, Canada, and the United Kingdom, for the following:

* * * * *

■ 6. Revise § 742.4(a)(1) to read as follows:

§ 742.4 National security.

(a) * * *

(1) *National Security column 1 (NS:1).* A license is required for exports and reexports to all destinations, except Australia, Canada, or the United Kingdom, for all items in ECCNs on the CCL that include NS Column 1 in the Country Chart column of the ''License Requirements'' section.

* * * * *

■ 7. Revise § 742.5(a)(1) to read as follows:

§ 742.5 Missile technology.

(a) * * *

(1) In support of U.S. foreign policy to limit the proliferation of missiles, a license is required to export and reexport items related to the design, development, production, or use of missiles. These items are identified in ECCNs on the CCL as MT Column No. 1 in the Country Chart column of the ''License Requirements'' section. Licenses for these items are required to all destinations, except Australia, Canada, or the United Kingdom, as indicated by MT Column 1 of the Country Chart (see supplement no. 1 to part 738 of the EAR).

* * * * *

■ 8. Amend § 742.6 by revising paragraphs (a)(1), (a)(2)(i), (ii), (iv), (3), and (9) to read as follows:

§ 742.6 Regional stability.

(a) * * *

(1) *RS Column 1 license requirements in general.* A license is required for exports and reexports to all destinations, except Australia, Canada, or the United Kingdom, for all items in ECCNs on the CCL that include RS Column 1 in the Country Chart column of the ''License Requirements'' section. Transactions described in paragraph (a)(2), (3), or (9) of this section are subject to the RS Column 1 license requirements set forth in those paragraphs rather than the license requirements set forth in this paragraph (a)(1).

(2) * * *

(i) As indicated in the CCL and in RS Column 1 of the Commerce Country Chart, cameras described in 6A003.b.4.b require a license to all destinations other than Australia, Canada, or the United Kingdom if such cameras have a frame rate greater than 60 Hz.

(ii) Except as noted in paragraph (a)(2)(iii) of this section, as indicated in the CCL and in RS Column 1 of the Commerce Country Chart, cameras described in 6A003.b.4.b require a license to all destinations other than Australia, Canada, or the United

Kingdom if such cameras incorporate a focal plane array with more than 111,000 elements and a frame rate of 60 Hz or less, or cameras described in 6A003.b.4.b that are being exported or reexported to be embedded in a civil product.

* * * * *

(iv) Except as noted in paragraph (a)(2)(v) of this section, as indicated in the CCL and in RS Column 1 of the Commerce Country Chart, cameras described in 6A003 b.4.b require a license to all destinations other than Australia, Canada, or the United Kingdom if such cameras incorporate a focal plane array with 111,000 elements or less and a frame rate of 60 Hz or less and are being exported or reexported to be embedded in a civil product.

* * * * *

(3) *Special RS Column 1 license requirement applicable to military commodities.* A license is required for reexports to all destinations except Australia, Canada, or the United Kingdom for items classified under ECCN 0A919 except when such items are being reexported as part of a military deployment by a unit of the government of a country in Country Group A:1 (see supplement no. 1 to part 740 of the EAR) or the United States.

* * * * *

(9) *Special RS Column 1 license requirement applicable to certain spacecraft and related items.* A license is required for all destinations, including Australia, Canada, and the United Kingdom, for spacecraft and related items classified under ECCN 9A515.a.1, .a.2., .a.3., .a.4., .g, and ECCN 9E515.f.

* * * * *

■ 9. Amend § 742.7 by revising paragraphs (a)(4) through (6) to read as follows:

§ 742.7 Crime control and detection.

(a) * * *

(4) Certain crime control items require a license to all destinations, except Canada only. These items are identified under ECCNs 0A982, 0A503, and 0E982. Controls for these items appear in each ECCN; a column specific to these controls does not appear in the Country Chart (supplement no. 1 to part 738 of the EAR).

(5) Items designed for the execution of human beings as identified in ECCN 0A981 require a license to all destinations including Australia, Canada, and the United Kingdom.

(6) See § 742.11 of the EAR for further information on items controlled under ECCN 0A983, which require a license to all destinations, including Australia, Canada, and the United Kingdom.

* * * * *

■ 10. Revise § 742.11(a) to read as follows:

§ 742.11 Specially designed implements of torture, including thumbscrews, thumbcuffs, fingercuffs, spiked batons, and parts and accessories, n.e.s.

(a) *License Requirements.* In support of U.S. foreign policy to promote the observance of human rights throughout the world, a license is required to export any commodity controlled by ECCN 0A983 to all destinations including Australia, Canada, and the United Kingdom.

* * * * *

■ 11. Revise § 742.13(a)(1) to read as follows:

§ 742.13 Communications intercepting devices; software and technology for communications intercepting devices.

(a) * * *

(1) In support of U.S. foreign policy to prohibit the export of items that may be used for the surreptitious interception of wire, oral, or electronic communications, a license is required for all destinations, including Australia, Canada, and the United Kingdom, for ECCNs having an ''SL'' under the ''Reason for Control'' paragraph. These items include any electronic, mechanical, or other device primarily useful for the surreptitious interception of wire, oral, or electronic communications (ECCNs 5A001.f.1 and 5A980); and for related ''software'' primarily useful for the surreptitious interception of wire, oral, or electronic communications (ECCN 5D001.c and 5D980.a); and ''software'' primarily useful for the ''development'', ''production'', or ''use'' of devices controlled under ECCNs 5A001.f.1 and 5A980 (ECCNs 5D001.a and 5D980.b); and for ''technology'' primarily useful for the ''development'', ''production'', or ''use'' of items controlled by ECCNs 5A001.f.1, 5D001.a (for 5A001.f.1), 5A980 and 5D980 (ECCNs 5E001.a and 5E980); and for ''software'' primarily useful to support such ECCN 5E001.a ''development'', ''production'', or ''use'' ''technology'' for 5A001.f.1 equipment and certain 5D001.a ''software'' (ECCN 5D001.b). These licensing requirements do not supersede the requirements contained in the Omnibus Crime Control and Safe Streets Act of 1968, as amended (18 U.S.C. 2512). This license requirement is not reflected on the Commerce Country Chart (supplement no. 1 to part 738 of the EAR).

* * * * *

■ 12. Revise § 742.14(a) to read as follows:

§ 742.14 Significant items: hot section technology for the development, production or overhaul of commercial aircraft engines, components, and systems.

(a) *License requirement.* Licenses are required for all destinations, except Australia, Canada, and the United Kingdom, for ECCNs having an ''SI'' under the ''Reason for Control'' paragraph. These items include hot section technology for the development, production or overhaul of commercial aircraft engines controlled under ECCN 9E003.a.1 through a.6, a.8, .h, .i, and .l, and related controls.

* * * * *

■ 14. Revise § 742.18(a)(1) to read as follows:

§ 742.18 Chemical Weapons Convention (CWC or Convention).

* * * * *

(a) * * *

(1) Schedule 1 chemicals and mixtures controlled under ECCN 1C351. A license is required for CW reasons to export or reexport Schedule 1 chemicals controlled under ECCN 1C351.d.14 or .d.15 to all destinations including Australia, Canada, and the United Kingdom. CW applies to 1C351.d.14 for ricin in the form of Ricinus Communis AgglutininII (RCA_{II}), which is also known as ricin D or Ricinus Communis LectinIII (RCL_{III}), and Ricinus Communis LectinIV (RCL_{IV}), which is also known as ricin E. CW applies to 1C351.d.15 for saxitoxin identified by C.A.S. #35523–89–8. (Note that the advance notification procedures and annual reporting requirements described in § 745.1 of the EAR also apply to exports of Schedule 1 chemicals.)

* * * * *

PART 743—SPECIAL REPORTING AND NOTIFICATION

■ 15. The authority citation for 15 CFR part 743 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13637, 78 FR 16129, 3 CFR, 2014 Comp., p. 223; 78 FR 16129 (January 23, 2020).

■ 16. Revise § 743.3(b) to read as follows:

§ 743.3 Thermal imaging camera reporting.

* * * * *

(b) *Transactions to be reported.* Exports that are not authorized by an individually validated license of more than 100 thermal imaging cameras in a

monocular, biocular, or binocular configuration controlled by ECCN 6A003.b.4.b to a destination in Country Group A:1 (see supplement no. 1 to part 740 of the EAR), except Australia, Canada, or the United Kingdom, must be reported to BIS.

* * * * *

PART 744—CONTROL POLICY: END-USER AND END-USE BASED

■ 17. The authority citation for 15 CFR part 744 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 3201 *et seq.;* 42 U.S.C. 2139a; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; E.O. 12058, 43 FR 20947, 3 CFR, 1978 Comp., p. 179; E.O. 12851, 58 FR 33181, 3 CFR, 1993 Comp., p. 608; E.O. 12938, 59 FR 59099, 3 CFR, 1994 Comp., p. 950; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13099, 63 FR 45167, 3 CFR, 1998 Comp., p. 208; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13224, 66 FR 49079, 3 CFR, 2001 Comp., p. 786; Notice of September 19, 2022, 87 FR 57569 (September 21, 202); Notice of November 8, 2022, 87 FR 68015, 3 CFR, 2022 Comp., p. 563; Notice of September 7, 2023, 88 FR 62439 (September 11, 2023).

■ 18. Revise § 744.9(a)(1)(i) and (iii) to read as follows:

§ 744.9 Restrictions on exports, reexports, and transfers (in-country) of certain cameras, systems, or related components.

(a) * * *

(1) * * *

(i) Commodities controlled by ECCN 6A003.a.3, 6A003.a.4, or 6A003.a.6 will be or are intended to be used by a 'military end-user,' as defined in paragraph (d) of this section in all destinations except Australia, Canada, or the United Kingdom.

* * * * *

(iii) Commodities described in ECCNs 0A504 (incorporating commodities controlled by ECCNs 6A002 or 6A003, or commodities controlled by 6A993.a that meet the criterion of Note 3.a to 6A003.b.4), 6A002, 6A003, or 6A993.a (having a maximum frame rate equal to or less than 9 Hz and thus meeting the criteria of Note 3.a to 6A003.b.4), or 8A002.d will be or are intended to be incorporated into a ''military commodity'' controlled by ECCN 0A919 in all destinations except Australia, Canada, or the United Kingdom.

* * * * *

PART 754—SHORT SUPPLY CONTROLS

■ 19. The authority citation for 15 CFR part 754 is revised to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 10 U.S.C. 8720; 10 U.S.C. 8730(e); 15 U.S.C. 1824; E.O. 11912, 41 FR 15825, 3 CFR, 1976 Comp., p. 114; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 20. Revise § 754.3(a) to read as follows:

§ 754.3 Petroleum products not including crude oil.

(a) *License requirement.* As indicated by the letters ''SS'' in the ''Reason for Control'' paragraph in the ''License Requirements'' section of ECCNs 1C980, 1C982, 1C983, and 1C984 on the CCL (supplement no. 1 to part 774 of the EAR), a license is required to all destinations, including Australia, Canada, and the United Kingdom, for the export of petroleum products, excluding crude oil, listed in supplement no. 1 to this part, that were produced or derived from the Naval Petroleum Reserves (NPR) or became available for export as a result of an exchange of any NPR produced or derived commodities.

* * * * *

■ 21. Revise § 754.4(a) to read as follows:

§ 754.4 Unprocessed western red cedar.

(a) *License requirement.* As indicated by the letters ''SS'' in the ''Reason for Control'' paragraph in the ''License Requirements'' section of ECCN 1C988 on the CCL (supplement no. 1 to part 774 of the EAR), a license is required to all destinations, including Australia, Canada, and the United Kingdom, for the export of unprocessed western red cedar covered by ECCN 1C988 (Western red cedar (thuja plicata) logs and timber, and rough, dressed and worked lumber containing wane). For a non-exhaustive list of 10-digit Harmonized System-based Schedule B commodity numbers that may apply to unprocessed western red cedar products subject to the license requirements of this section, see supplement no. 2 to part 754 of the EAR. See paragraph (c) of this section for license exceptions for timber harvested from public lands in the State of Alaska, private lands, or Indian lands, and see paragraph (d) of this section for relevant definitions.

* * * * *

■ 22. Revise § 754.5(a) to read as follows:

§ 754.5 Horses for export by sea.

(a) *License requirement.* As indicated by the letters ''SS'' in the ''Reason for Control'' paragraph of the ''License Requirements'' section of ECCN 0A980 on the CCL (supplement no. 1 to part 774 of the EAR) a license is required for the export of horses exported by sea to all destinations, including Australia, Canada, and the United Kingdom.

* * * * *

PART 758—EXPORT CLEARANCE REQUIREMENTS AND AUTHORITIES

■ 23. The authority citation for 15 CFR part 758 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 24. Amend § 758.1 by revising paragraphs (b)(3), (6), and (9) to read as follows:

§ 758.1 The Electronic Export Information (EEI) filing to the Automated Export System (AES).

* * * * *

(b) * * *

(3) For all exports of 9x515 or ''600 series'' items enumerated or otherwise described in paragraphs .a through .x of a 9x515 or ''600 series'' ECCN regardless of value or destination, including exports to Australia, Canada, and the United Kingdom;

* * * * *

(6) For all exports of items subject to the EAR that will be transshipped through Australia, Canada, or the United Kingdom to a third destination, where the export would require EEI or license if shipped directly to the final destination from the United States (see 15 CFR 30.36(b)(2) of the FTR);

* * * * *

(9) For all exports, except for exports authorized under License Exception BAG, as set forth in § 740.14 of the EAR, of items controlled under ECCNs 0A501.a or .b, shotguns with a barrel length less than 18 inches controlled under ECCN 0A502, or ammunition controlled under ECCN 0A505 except for .c, regardless of value or destination, including exports to Australia, Canada, and the United Kingdom. * * *

* * * * *

■ 25. Revise § 758.11(a) to read as follows:

§ 758.11 Export clearance requirements for firearms and related items.

(a) *Scope.* The export clearance requirements of this section apply to all exports of commodities controlled under ECCNs 0A501.a or .b, shotguns with a barrel length less than 18 inches controlled under ECCN 0A502, or ammunition controlled under ECCN 0A505 except for .c, regardless of value or destination, including exports to Australia, Canada, and the United Kingdom, that are authorized under

License Exception BAG, as set forth in § 740.14 of the EAR.

* * * * *

PART 772—DEFINITIONS OF TERMS

■ 26. The authority citation for 15 CFR part 772 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 25. Revise § 772.1 by:
■ a. Adding the definitions of ''Australian airline'';
■ b. Revising the definition for ''Canadian airline''; and
■ c. Adding and ''United Kingdom (or UK) airline''.

The additions and revisions read as follows:

§ 772.1 Definitions of terms as used in the Export Administration Regulations (EAR).

* * * * *

Australian airline. Any citizen of Australia who is authorized by the Australian Government to engage in business as an airline. For purposes of this definition, an Australian citizen is:

(1) A natural person who is a citizen of Australia; or

(2) A partnership of which each member is such an individual; or

(3) An Australian firm incorporated or otherwise organized under the laws of Australia or any Australian state or territory, having a total foreign stock interest not greater than 40 percent, and having the Chairman or Acting Chairman and at least two-thirds of the Directors thereof Australian citizens.

* * * * *

Canadian airline. Any citizen of Canada who is authorized by the Canadian Government to engage in business as an airline. For purposes of this definition, a Canadian citizen is:

(1) A natural person who is a citizen of Canada; or

(2) A partnership of which each member is such an individual; or

(3) A Canadian firm incorporated or otherwise organized under the laws of Canada or any Canadian province or territory, having a total foreign stock interest not greater than 40 percent, and having the Chairman or Acting Chairman and at least two-thirds of the Directors thereof Canadian citizens.

* * * * *

United Kingdom (or UK) airline. Any citizen of the United Kingdom who is authorized by the Government of the United Kingdom to engage in business as an airline. For purposes of this definition, a United Kingdom citizen is:

(1) A natural person who is a citizen of the United Kingdom; or

(2) A partnership of which each member is such an individual; or

(3) A United Kingdom firm incorporated or otherwise organized under the laws of the United Kingdom or any country or territory that comprises the United Kingdom, having a total foreign stock interest not greater than 40 percent, and having the Chairman or Acting Chairman and at least two-thirds of the Directors thereof United Kingdom citizens.

* * * * *

PART 774—THE COMMERCE CONTROL LIST

■ 27. The authority citation for 15 CFR part 774 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 10 U.S.C. 8720; 10 U.S.C. 8730(e); 22 U.S.C. 287c, 22 U.S.C. 3201 *et seq.;* 22 U.S.C. 6004; 42 U.S.C. 2139a; 15 U.S.C. 1824; 50 U.S.C. 4305; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 28. Revise ECCN 1C351 in supplement no. 1 to part 774 to read as follows:

Supplement No. 1 to Part 774—The Commerce Control List

* * * * *

1C351 Human and animal pathogens and ''toxins,'' as follows (see List of Items Controlled).

License Requirements

Reason for Control: CB, CW, AT

Control(s)	*Country chart (see Supp. No. 1 to part 738)*
CB applies to items controlled by 1C351.d.14 and .15.	CB Column 1.
CB applies to entire entry.	CB Column 2.

CW applies to 1C351.d.14 and .d.15 and a license is required for CW reasons for all destinations, including Australia, Canada, and the United Kingdom, as follows: CW applies to 1C351.d.14 for ricin in the form of (1) Ricinus communis AgglutininII (RCA_{II}), also known as ricin D or Ricinus Communis LectinIII (RCL_{III}) and (2) Ricinus communis LectinIV (RCL_{IV}), also known as ricin E. CW applies to 1C351.d.15 for saxitoxin identified by C.A.S. #35523–89–8. See § 742.18 of the EAR for licensing information pertaining to chemicals subject to restriction pursuant to the Chemical Weapons Convention (CWC). The Commerce Country Chart is not designed to determine licensing requirements for items controlled for CW reasons.

Control(s)	*Country chart (see Supp. No. 1 to part 738)*
AT applies to entire entry.	AT Column 1.

LICENSE REQUIREMENT NOTES:

1. All vaccines and 'immunotoxins' are excluded from the scope of this entry. Certain medical products and diagnostic and food testing kits that contain biological toxins controlled under 1C351.d, with the exception of toxins controlled for CW reasons under 1C351.d.14 or .d.15, are excluded from the scope of this entry. Vaccines, 'immunotoxins', certain medical products, and diagnostic and food testing kits excluded from the scope of this entry are controlled under ECCN 1C991.

2. For the purposes of this entry, only saxitoxin is controlled under 1C351.d.15; other members of the paralytic shellfish poison family (e.g., neosaxitoxin) are designated EAR99.

3. Clostridium perfringens strains, other than the epsilon toxin-producing strains of Clostridium perfringens described in 1C351.c.12, are excluded from the scope of this entry, since they may be used as positive control cultures for food testing and quality control.

4. Unless specified elsewhere in this ECCN 1C351 (e.g., in License Requirement Notes 1–3), this ECCN controls all biological agents and ''toxins,'' regardless of quantity or attenuation, that are identified in the List of Items Controlled for this ECCN, including small quantities or attenuated strains of select biological agents or ''toxins'' that are excluded from the lists of select biological agents or ''toxins'' by the Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture (USDA), or the Centers for Disease Control and Prevention (CDC), U.S. Department of Health and Human Services (HHS), in accordance with their regulations in 9 CFR part 121 and 42 CFR part 73, respectively.

5. Biological agents and pathogens are controlled under this ECCN 1C351 when they are an isolated live culture of a pathogen agent, or a preparation of a toxin agent that has been isolated or extracted from any source or material, including living material that has been deliberately inoculated or contaminated with the agent. Isolated live cultures of a pathogen agent include live cultures in dormant form or in dried preparations, whether the agent is natural, enhanced or modified.

List Based License Exceptions (See Part 740 for a Description of All License Exceptions)

LVS: N/A
GBS: N/A

List of Items Controlled

Related Controls: (1) Certain forms of ricin and saxitoxin in 1C351.d.14 and .d.15 are CWC Schedule 1 chemicals (see § 742.18 of the EAR). The U.S. Government must provide advance notification and annual reports to the OPCW of all exports of Schedule 1 chemicals. See § 745.1 of the EAR for notification procedures. See 22 CFR part 121, Category XIV and § 121.7 for

CWC Schedule 1 chemicals that are ''subject to the ITAR.'' (2) The Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture, and the Centers for Disease Control and Prevention (CDC), U.S. Department of Health and Human Services, maintain controls on the possession, use, and transfer within the United States of certain items controlled by this ECCN (for APHIS, see 7 CFR 331.3(b), 9 CFR 121.3(b), and 9 CFR 121.4(b); for CDC, see 42 CFR 73.3(b) and 42 CFR 73.4(b)). (3) See 22 CFR part 121, Category XIV(b), for modified biological agents and biologically derived substances that are ''subject to the ITAR.''

Related Definitions: For the purposes of this entry, 'immunotoxins' are monoclonal antibodies linked to a toxin with the intention of destroying a specific target cell while leaving adjacent cells intact.

Items:

a. Viruses identified on the Australia Group (AG) ''List of Human and Animal Pathogens and Toxins for Export Control,'' as follows:

a.1. African horse sickness virus;

a.2. African swine fever virus;

a.3. Andes virus;

a.4. Avian influenza (AI) viruses identified as having high pathogenicity (HP), as follows:

a.4.a. AI viruses that have an intravenous pathogenicity index (IVPI) in 6-week-old chickens greater than 1.2; *or*

a.4.b. AI viruses that cause at least 75% mortality in 4- to 8-week-old chickens infected intravenously.

NOTE: *Avian influenza (AI) viruses of the H5 or H7 subtype that do not have either of the characteristics described in 1C351.a.4 (specifically, 1C351.a.4.a or .a.4.b) should be sequenced to determine whether multiple basic amino acids are present at the cleavage site of the haemagglutinin molecule (HA0). If the amino acid motif is similar to that observed for other HPAI isolates, then the isolate being tested should be considered as HPAI and the virus is controlled under 1C351.a.4.*

a.5. Bluetongue virus;

a.6. Chapare virus;

a.7. Chikungunya virus;

a.8. Choclo virus;

a.9. Classical swine fever virus (Hog cholera virus);

a.10. Crimean-Congo hemorrhagic fever virus;

a.11. Dobrava-Belgrade virus;

a.12. Eastern equine encephalitis virus;

a.13. Ebolavirus (includes all members of the Ebolavirus genus);

a.14. Foot-and-mouth disease virus;

a.15. Goatpox virus;

a.16. Guanarito virus;

a.17. Hantaan virus;

a.18. Hendra virus (Equine morbillivirus);

a.19. Japanese encephalitis virus;

a.20. Junin virus;

a.21. Kyasanur Forest disease virus;

a.22. Laguna Negra virus;

a.23. Lassa virus;

a.24. Louping ill virus;

a.25. Lujo virus;

a.26. Lumpy skin disease virus;

a.27. Lymphocytic choriomeningitis virus;

a.28. Machupo virus;

a.29. Marburgvirus (includes all members of the Marburgvirus genus);

a.30. Middle East respiratory syndrome-related coronavirus (MERS-related coronavirus);

a.31. Monkeypox virus;

a.32. Murray Valley encephalitis virus;

a.33. Newcastle disease virus;

a.34. Nipah virus;

a.35. Omsk hemorrhagic fever virus;

a.36. Oropouche virus;

a.37. Peste-des-petits ruminants virus;

a.38. Porcine Teschovirus;

a.39. Powassan virus;

a.40. Rabies virus and all other members of the Lyssavirus genus;

a.41. Reconstructed 1918 influenza virus;

TECHNICAL NOTE: *1C351.a.41 includes reconstructed replication competent forms of the 1918 pandemic influenza virus containing any portion of the coding regions of all eight gene segments.*

a.42. Rift Valley fever virus;

a.43. Rinderpest virus;

a.44. Rocio virus;

a.45. Sabia virus;

a.46. Seoul virus;

a.47. Severe acute respiratory syndrome-related coronavirus (SARS-related coronavirus);

a.48. Sheeppox virus;

a.49. Sin Nombre virus;

a.50. St. Louis encephalitis virus;

a.51. Suid herpesvirus 1 (Pseudorabies virus; Aujeszky's disease);

a.52. Swine vesicular disease virus;

a.53. Tick-borne encephalitis virus (Far Eastern subtype, formerly known as Russian Spring-Summer encephalitis virus—see 1C351.b.3 for Siberian subtype);

a.54. Variola virus;

a.55. Venezuelan equine encephalitis virus;

a.56. Vesicular stomatitis virus;

a.57. Western equine encephalitis virus; *or*

a.58. Yellow fever virus.

b. Viruses identified on the APHIS/CDC ''select agents'' lists (see Related Controls paragraph #2 for this ECCN), but not identified on the Australia Group (AG) ''List of Human and Animal Pathogens and Toxins for Export Control,'' as follows:

b.1. [Reserved];

b.2. [Reserved]; *or*

b.3. Tick-borne encephalitis virus (Siberian subtype, formerly West Siberian virus—see 1C351.a.53 for Far Eastern subtype).

c. Bacteria identified on the Australia Group (AG) ''List of Human and Animal Pathogens and Toxins for Export Control,'' as follows:

c.1. Bacillus anthracis;

c.2. Brucella abortus;

c.3. Brucella melitensis;

c.4. Brucella suis;

c.5. Burkholderia mallei (Pseudomonas mallei);

c.6. Burkholderia pseudomallei (Pseudomonas pseudomallei);

c.7. Chlamydia psittaci (Chlamydophila psittaci);

c.8. Clostriduim argentinense (formerly known as Clostridium botulinum Type G), botulinum neurotoxin producing strains;

c.9. Clostridium baratii, botulinum neurotoxin producing strains;

c.10. Clostridium botulinum;

c.11. Clostridium butyricum, botulinum neurotoxin producing strains;

c.12. Clostridium perfringens, epsilon toxin producing types;

c.13. Coxiella burnetii;

c.14. Francisella tularensis;

c.15. Mycoplasma capricolum subspecies capripneumoniae (''strain F38'');

c.16. Mycoplasma mycoides subspecies mycoides SC (small colony) (a.k.a. contagious bovine pleuropneumonia);

c.17. Rickettsia prowazekii;

c.18. Salmonella enterica subspecies enterica serovar Typhi (Salmonella typhi);

c.19. Shiga toxin producing Escherichia coli (STEC) of serogroups O26, O45, O103, O104, O111, O121, O145, O157, and other shiga toxin producing serogroups;

NOTE: *Shiga toxin producing Escherichia coli (STEC) includes, inter alia, enterohaemorrhagic E. coli (EHEC), verotoxin producing E. coli (VTEC) or verocytotoxin producing E. coli (VTEC).*

c.20. Shigella dysenteriae;

c.21. Vibrio cholerae; *or*

c.22. Yersinia pestis.

d. ''Toxins'' identified on the Australia Group (AG) ''List of Human and Animal Pathogens and Toxins for Export Control,'' as follows, or their subunits:

d.1. Abrin;

d.2. Aflatoxins;

BILLING CODE 3510–33–P

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1700

[Docket No. CPSC–2021–0027]

Poison Prevention Packaging Requirements; Exemption of Baloxavir Marboxil Tablets in Packages Containing Not More Than 80 mg of the Drug

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Consumer Product Safety Commission (Commission or CPSC) is amending the child-resistant packaging requirements of CPSC's regulation to exempt baloxavir marboxil tablets, currently marketed as XOFLUZA™, in packages containing not more than 80 mg of the drug, from the special packaging requirements. XOFLUZA is used to treat the flu, and the drug is taken in one dose within 48 hours of experiencing flu symptoms. The final rule exempts this prescription drug product on the basis that child-resistant packaging is not needed to protect young children from serious injury or illness because the product is not acutely toxic and lacks adverse human experience associated with ingestion.

DATES: The rule is effective May 20, 2024.

FOR FURTHER INFORMATION CONTACT: Will Cusey, Small Business Ombudsman, U.S. Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504–7945 or (888) 531–9070; email: *sbo@cpsc.gov.*

SUPPLEMENTARY INFORMATION:

A. Background

1. The Poison Prevention Packaging Act of 1970 and CPSC's Implementing Regulations

The Poison Prevention Packaging Act of 1970 (PPPA), 15 U.S.C. 1471–1476, gives the Commission authority to establish standards for the ''special packaging'' of household substances, such as drugs, when child-resistant (CR) packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting the substance, and the special packaging is technically feasible, practicable, and appropriate for such substance. 15 U.S.C. 1472(a). Special packaging requirements under the PPPA have been codified at 16 CFR parts 1700 and 1702. Specifically, CPSC regulations require special packaging for oral prescription drugs. 16 CFR 1700.14(a)(10). CPSC regulations allow companies to petition the Commission for an exemption from CR requirements. 16 CFR part 1702.

Two of the three ''reasonable grounds'' [1] for granting an exemption from the special packaging requirements are: (1) that the degree or nature of the hazard to children in the availability of the substance, by reason of its packaging, is such that special packaging is not required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting the substance; or (2) special packing is not technically feasible, practicable, or appropriate for the subject substance. 16 CFR 1702.17(a) and (b).

If the Commission determines that a petition presents reasonable grounds for an exemption, CPSC regulations require publication in the **Federal Register** of a proposed amendment to the listing of substances that require special packaging, stating that the substance at issue would be exempt. 16 CFR 1702.17.

2. The Product for Which an Exemption Is Sought

On March 30, 2020, Genentech, Inc. (Genentech), petitioned the Commission to exempt two specified sized tablets of baloxavir marboxil, which it markets as XOFLUZA, from the special packaging requirements for oral prescription drugs. The U.S. Food and Drug Administration (FDA) approved XOFLUZA in October 2018, with a two-tablet dose for acute uncomplicated flu in patients older than 12 years old showing symptoms for less than 48 hours. FDA approved single tablet doses in March 2021. XOFLUZA has been marketed in tablet form and is currently dispensed in CR packaging. The petitioner asserted that an exemption from special packaging is justified because of the lack of toxicity and lack of adverse human experience with the drug. The petitioner also claimed that special packaging is not technically feasible, practicable, or appropriate for XOFLUZA.

Genentech represents that it intends to continue U.S. production and packaging of XOFLUZA if the petition is granted. The firm also states that grant of the petition would allow it to use a packaging site in Kaiseraugst, Switzerland, as a back-up facility for the U.S. market in the event there is a spike in demand for XOFLUZA over a short period of time.

[1] The third reasonable ground for an exemption is that special packaging is incompatible with the particular substance. 16 CFR 1702.17(c). The petitioner has not requested an exemption on this basis, so it is not relevant here.

In September 2021, after considering the information provided by the petitioner up to that date and other available toxicity and human experience data, the Commission preliminarily concluded in the preamble of the Notice of Proposed Rulemaking (NPR) that the ''lack of toxicity and lack of adverse human experience for the substance'' presented by the availability of 40 mg and 80 mg tablets of baloxavir marboxil (currently marketed as XOFLUZA) is such that special packaging is not required to protect children from serious injury or serious illness from handling, using, or ingesting XOFLUZA. 86 FR 51640, at 54641–42 (September 16, 2021); 16 CFR 1702.17(a). However, the Commission preliminarily found that the petitioner's request for an exemption from special packaging, on the basis that it is not technically feasible, practicable, or appropriate for XOFLUZA, was not warranted based on the information provided by the petitioner. Based on the lack of toxicity, the Commission determined that reasonable grounds for an exemption were presented and voted to grant the petition and begin a rulemaking proceeding to exempt baloxavir marboxil tablets in packages containing not more than 80 mg of the drug from the special packaging requirements for oral prescription drugs.

B. Toxicity and Injury Data for XOFLUZA

1. Summary of Data From Proposed Rule

Toxicity

Staff reviewed the toxicity of XOFLUZA. XOFLUZA has been studied in pediatric patients.[2] Overall, clinically relevant doses of XOFLUZA (40 or 80 mg total dose) in humans are well tolerated.[3]

[2] Hirotsu N. (2019). Baloxavir Marboxil in Japanese Pediatric Patients with Influenza: Safety and Clinical and Virologic Outcomes. Clin Infect Dis Aug 14;71(4):971–981.; Heo Y–A. (2018). Baloxavir: First Global Approval. Drugs 78:693 697.;*https://clinicaltrials.gov/ct2/show/NCT03653364;* XOFLUZA Prescribing Information, 2021; Hayden F.G. (2018). Baloxavir Marboxil for Uncomplicated Influenza in Adults and Adolescents. The New England Journal of Medicine.379:(10); Dziewiatkowski N.A., Osmon E.N., Chahine E.B., Thornby K.A. (2019). Baloxavir: a novel single-dose oral antiviral for the treatment of influenza. Sr Care. Pharm; 34:243–52.

[3] Dziewiatkowski N.A., Osmon E.N., Chahine E.B., Thornby K.A. (2019). Baloxavir: a novel single-dose oral antiviral for the treatment of influenza. Sr Care. Pharm; 34:243–52.; Taieb V., Ikeoka, Fang-Fang Ma H., Borkowski K., Aballea S., Tone Keiko and Hirotsu N. (2019). A network meta-analysis of the efficacy and safety of baloxavir marboxil versus neuraminidase inhibitors for the treatment of influenza in otherwise healthy patients; Current Medical Research and Opinion 35:8, 1355–1364.;

The analysis of total adverse events (AE) included 10 studies [4] with six treatments and 5,628 patients. AE did not differ significantly between placebo and XOFLUZA. For drug-related vomiting, 3,297 patients from five studies were included. XOFLUZA did not differ from placebo in these studies. The percentage of patients experiencing any AE of 610 patients (12 to 64 years old) in the CAPSTONE 1 clinical trial was 1.0% grade 3 or grade 4, which can be categorized as not serious. The adverse events experienced were diarrhea, bronchitis, nasopharyngitis, nausea, sinusitis, increase in the level of aspartate aminotransferase (AST, headache, vomiting, dizziness, leukopenia, and constipation. Five deaths have been reported by the Adverse Event Reporting System (AERS); [5] however, staff assessed that these deaths were not caused by XOFLUZA.

The most common AE of the correct dose of XOFLUZA is diarrhea.[6] The XOFLUZA Product Information, 2021 reported that diarrhea (3%), bronchitis (3%), nausea (2%), headache (1%) were the most significant adverse events found. Treatment of an overdose of XOFLUZA should consist of general supportive measures, including monitoring of vital signs and observations of the clinical status of the patient.[7] There is no specific antidote for overdose with XOFLUZA, and it is unlikely to be significantly removed by dialysis because it is highly protein bound.[8] Two overdoses of XOFLUZA were reported in children under 5 years old in the FAERS data. Neither overdose resulted in serious injury or death; one of the children experienced malaise and the other child experienced a rash.

Overall, treatment with XOFLUZA is well tolerated. In drug trials, XOFLUZA was well-tolerated as a treatment for flu in otherwise healthy children age 1 to less than 12 years old. Additionally, two Phase 3 pediatric studies in Japan demonstrate that XOFLUZA is well tolerated across all pediatric age groups. Finally, the FDA concluded there are no safety concerns for children from Phase I, Phase 2, and Phase 3 trials of XOFLUZA. If accidentally ingested, the most likely symptoms are diarrhea, nausea, or headache. For these reasons, staff determined that XOFLUZA will not cause serious injury or death upon acute exposure by a child under 5 years old.

Injury Data

The NPR explained that CPSC staff had searched the Consumer Product Safety Risk Management System (CPSRMS) and the National Electronic Injury Surveillance System (NEISS) databases, and reviewed reports from FDA related to adverse events associated with XOFLUZA. Staff found no incidents related to XOFLUZA in CPSRMS or NEISS from January 2015 through December 2020.

2. Updated Injury Data Since NPR

Since publication of the NPR staff has done an updated search and found no incidents related to XOFLUZA in the CPSRMS and NEISS databases from January 2021 through March 2024. CPSC staff also reviewed 26 reports received from FDA related to AEs associated with XOFLUZA between January of 2018 through March 2024. Of these 26 reports, there were 8 nonserious reports, such as off-label use of XOFLUZA. There were also 18 reported AEs. All of these AEs, such as febrile seizures, delirious behaviors, and gastrointestinal bleeding, were assessed by staff to be due to the flu disease progression and not due to XOFLUZA. The staff briefing package on this final rule provides more detailed information.[9]

C. Response to Comments on the Proposed Rule

Two comments were submitted in response to the publication of the NPR. One comment stated that XOFLUZA should not be exempt from child-resistant packaging because there is little-to-no existing human toxicity data for age groups 0–12 years old, and asserted there is a risk of allergic reactions (including anaphylaxis, angioedema, urticaria, and erythema multiforme). In response to this comment, CPSC staff advises that a drug trial demonstrated that XOFLUZA is a well-tolerated potential treatment for the flu in otherwise healthy children within the age range of 1 year and over to 12 years and under. Additionally, two Phase 3 pediatric studies conducted in Japan demonstrate that XOFLUZA is well tolerated across all pediatric age groups. Finally, the FDA concluded there are no safety findings of concern for children from Phase 1, Phase 2, or Phase 3 trials of XOFLUZA. Indeed, as compared to adults, drugs are less common triggers of anaphylaxis in children, with a frequency which is increasing from infancy to adolescence.[10] Of the 26 adverse reactions in the FDA FAERS data, there were no hypersensitivity reactions in children under 5 years of age.[11]

The second comment stated that people should use zinc instead of XOFLUZA for treatment of the flu. The use of other substances to treat the flu is not relevant to whether baloxavir marboxil should be given an exemption from the special packing requirements and, therefore, is outside the scope of this rulemaking.

D. Description of the Final Rule

The final rule amends 16 CFR part 1700 to include a new exemption from the special packaging requirements for baloxavir marboxil tablets in packages

Hayden F.G. (2018).; Baloxavir Marboxil for Uncomplicated Influenza in Adults and Adolescents. The New England Journal of Medicine.379:(10).

Acta Biomed. 2019 90 (3–S): 30–35.; Atanaskovic-Markovic M, Gomes E, Cernadas JR, du Toit G, Kidon M, Kuyucu S, Mori F, Ponvert C, Terreehorst I, Caubet JC. Diagnosis and management of drug-induced anaphylaxis in children: An EAACI position paper. Pediatric Allergy Immunol. 2019 May;30(3):269–276.). In the pediatric population the average age of diagnosis for drug-induced hypersensitivity was 8.7 years old. The most common causative drugs included antiepileptics (50%) and antibiotics (30.8%) (Metterle L, Hatch L, Seminario-Vidal L. Pediatric drug reaction with eosinophilia and systemic symptoms: A systemic review of the literature, with a focus on relapsing cases. Pediatric Dermatol. 2020 Jan;37(1):124–129. doi: 10.1111/pde.14044. Epub 2019 Nov 5., Oberlin KE, Rahnama-Moghadam S, Alomari AK, Haggstrom AN. Drug reaction with eosinophilia and systemic symptoms: Pediatric case series and literature review. Pediatric Dermatol. 2019 Nov;36(6):887–892.). Pediatric drug reaction with eosinophiliea and systemic symptoms is an uncommon disease with a mean age of 11.5 years of age presenting with the syndrome (Oberlin KE, Rahnama-Moghadam S, Alomari AK, Haggstrom AN. Drug reaction with eosinophilia and systemic symptoms: Pediatric case series and literature review. Pediatric Dermatol. 2019 Nov;36(6):887–892.).

[11] *https://www.fda.gov/drugs/questions-and-answers-fdas-adverse-event-reporting-system-faers/fda-adverse-event-reporting-system-faers-public-dashboard.*

containing not more than 80 mg of the drug in proposed 1700.14(a)(10)(xxiv).[12] The exemption is intended to cover baloxavir marboxil tablets in a dosage of 80 mg or less. The text of the final rule is unchanged from the proposed rule. The final rule makes no other changes to part 1700.

E. Regulatory Flexibility Act

Under the Regulatory Flexibility Act (RFA; 5 U.S.C. 601 *et seq.*), an agency that engages in rulemaking generally must prepare initial and final regulatory flexibility analyses describing the impact of the rule on small businesses and other small entities. Section 605(b) of the Act provides that an agency is not required to prepare an RFA if the head of an agency certifies that the rule will not have a significant economic impact on a substantial number of small entities.

As noted in the preamble to the proposed rule (86 FR 51640 at 51642), the Commission's Directorate for Economic Analysis prepared a preliminary assessment of the impact of the proposed rule. Based on this assessment, the Commission preliminarily concluded that the proposed rule would not have a significant impact on a substantial number of small businesses or other small entities. We received no comments on this assessment or any additional information. Therefore, we certify that the rule will not have a significant economic impact on a substantial number of small entities. 5 U.S.C. 605(b).

F. Effective Date

The Administrative Procedure Act (APA) generally requires that a substantive rule must be published not less than 30 days before its effective date. 5 U.S.C. 553(d)(1). The NPR proposed an effective date of 30 days after publication of the final rule in the **Federal Register**. We received no comments on the proposed effective date. Therefore, the effective date for the final rule will be May 20, 2024.

G. Environmental Considerations

The Commission's regulations provide a categorical exclusion from any requirement to prepare an environmental assessment or an environmental impact statement the Commission rules ''have little or no potential for affecting the human environment.'' 16 CFR 1021.5(c)(3). Rules exempting products from poison prevention packaging rules fall within the categorical exclusion, so no environmental assessment or environmental impact statement is required.

H. Preemption

The PPPA provides that, generally, when a special packaging standard issued under the PPPA is in effect, ''no State or political subdivision thereof shall have any authority either to establish or continue in effect, with respect to such household substance, any standard for special packaging (and any exemption therefrom and requirement related thereto) which is not identical to the [PPPA] standard.'' 15 U.S.C. 1476(a). A state or local standard may be excepted from this preemptive effect if (1) the state or local standard provides a significantly higher degree of protection from the risk of injury or illness than the PPPA standard and (2) the state or political subdivision applies to the Commission for an exemption from the PPPA's preemption clause and the Commission grants the exemption through a process specified at 16 CFR part 1061. 15 U.S.C. 1476(c)(1). In addition, the Federal government, or a State or local government, may establish and continue in effect a nonidentical special packaging requirement that provides a higher degree of protection than the PPPA requirement for a household substance for that government's own use. 15 U.S.C. 1476(b).

Thus, with the exceptions noted above, the final rule exempting baloxavir marboxil tablets in packages containing not more than 80 mg of the drug from special packaging requirements preempts nonidentical state or local special packaging standards for the substance.

List of Subjects in 16 CFR Part 1700

Consumer protection, Drugs, Infants and children, Packaging and containers, Poison prevention, Toxic substances.

For the reasons given above, the Commission amends 16 CFR part 1700 as follows:

PART 1700—[AMENDED]

■ 1. The authority citation for part 1700 continues to read as follows:

Authority: 15 U.S.C. 1471–76. Secs. 1700.1 and 1700.14 also issued under 15 U.S.C. 2079(a).

■ 2. Section 1700.14 is amended by adding paragraph (a)(10)(xxiv) to read as follows:

§ 1700.14 Substances requiring special packaging.

(a) * * *

(10) * * *

(xxiv) Baloxavir marboxil tablets in packages containing not more than 80 mg of the drug.

* * * * *

Alberta E. Mills,

Secretary, U.S. Consumer Product Safety Commission.

[FR Doc. 2024–07651 Filed 4–18–24; 8:45 am]

BILLING CODE 6355–01–P

[12] The Commission voted 4–1 to publish this final rule. The Record of Commission Action can be viewed here: *https://www.cpsc.gov/s3fs-public/RCA-Draft-Final-Rule-to-Exempt-Baloxavir-Marboxil-XOFLUZA-from-Packaging-Requirements-in-PPPA.pdf?VersionId=TR31D0KETbniRXpLZHUqI_9R28VqffJo.*

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 232

[Release Nos. 33–11277; 34–99752; 39–2554; IC–35155]

Adoption of Updated EDGAR Filer Manual

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission (''Commission'') is adopting amendments to Volume II of the Electronic Data Gathering, Analysis, and Retrieval system Filer Manual (''EDGAR Filer Manual'' or ''Filer Manual'') and related rules and forms. EDGAR Release 24.1 will be deployed in the EDGAR system on March 18, 2024.

DATES: *Effective date:* April 19, 2024. The incorporation by reference of the revised Filer Manual is approved by the Director of the **Federal Register** as of April 19, 2024.

FOR FURTHER INFORMATION CONTACT: For questions regarding the amendments to Volume II of the Filer Manual, please contact Rosemary Filou, Deputy Director and Chief Counsel, Laurita Finch, Senior Special Counsel, or Lidian Pereira, Senior Special Counsel, in the EDGAR Business Office at (202) 551–3900. For questions regarding the Inline eXtensible Business Reporting Language (''Inline XBRL'') mandate for filing financial statements and schedules required by Form 11–K, please contact the Office of Rulemaking in the Division of Corporation Finance at (202) 551–3430. For technical questions concerning Inline XBRL, please contact the Office of Structured Disclosure in the Division of Economic and Risk Analysis at (202) 551–5494. For questions regarding the filing of submission form types 17AD–27 and 17AD–27/A in an Inline XBRL format that includes the data elements described in Rule 17Ad-27(b)(1) through

(5), please contact Matthew Lee, Assistant Director, or Seoyeon Park, Counsel to the Director, in the Division of Trading and Markets; at (202) 551–5710. For questions regarding the extension of Schedules 13D and 13G EDGAR filing hours, please contact Nicholas Panos, Senior Special Counsel, or Valian Afshar, Senior Special Counsel, in the Division of Corporation Finance at (202) 551–3440. For questions regarding the Share Repurchase Disclosure Modernization rule (vacated), please contact Robert Errett, Disclosure Management Office, in the Division of Corporation Finance at (202) 551–3225 or, for questions related to the SHR taxonomy, please contact Jim Yu in the Division of Economic and Risk Analysis, at (202) 551–6845.

SUPPLEMENTARY INFORMATION: We are adopting an updated Filer Manual, Volume II: ''EDGAR Filing,'' Version 69 (March 2024) and amendments to 17 CFR 232.301 (''Rule 301''). The updated Filer Manual is incorporated by reference into the Code of Federal Regulations.

I. Background

The Filer Manual contains information needed for filers to make submissions on EDGAR. Filers must comply with the applicable provisions of the Filer Manual in order to assure the timely acceptance and processing of filings made in electronic format.[1] Filers must consult the Filer Manual in conjunction with our rules governing mandated electronic filings when preparing documents for electronic submission.

II. EDGAR System Changes and Associated Modifications to Volume II of the Filer Manual

EDGAR is being updated in EDGAR Release 24.1, and corresponding amendments to Volume II of the Filer Manual are being made to reflect these changes, as described below.[2]

Inline XBRL Mandate for Financial Statements and Schedules Required by Form 11–K

On June 2, 2022, the Commission adopted amendments to its rules governing the electronic filing and submission of documents to require the use of Inline eXtensible Business Reporting Language (''Inline XBRL'') for the filing of the financial statements and accompanying schedules to the financial statements required by Form 11–K.[3] EDGAR will be updated to allow filers to file submission form types 11–K, 11–KT, 11–K/A, and 11–KT/A in Inline XBRL format.

Shortening the Securities Transaction Settlement Cycle

In furtherance of the Commission's rule requiring clearing agencies that provide a central matching service to establish, implement, maintain, and enforce policies and procedures reasonably designed to facilitate straight-matching processing, filers will be able to file submission form types 17AD–27 and 17AD–27/A in an Inline XBRL format that includes the data elements described in Rule 17Ad–27(b)(1) through (5).[4] These form types will allow the filer to request confidential treatment on sections of the document that the filer does not want to be publicly disseminated.

Extending Schedules 13D and 13G EDGAR Filing Hours

Consistent with the Commission's amendments to rules that govern beneficial ownership reporting,[5] on February 5, 2024, EDGAR underwent software changes to extend the filing ''cut-off'' times for Schedule 13D, Schedule 13G, and corresponding amendments from 5:30 p.m. Eastern time to 10 p.m. eastern time. In accordance with this software change, the EDGAR Filer Manual will be revised to include references to SC 13D, SC 13G, SC 13D/A, SC 13G/A, SCHEDULE 13D, SCHEDULE 13D/A, SCHEDULE 13G, and SCHEDULE 13G/A as submission types that will have a ''Filing Date'' identical to the EDGAR ''Received Date'' even if received after 5:30 p.m. eastern time, and will be disseminated until 10 p.m. eastern time.

Share Repurchase Disclosure Modernization

References to submission types F–SR and F–SR/A, Exhibit 26 of Form 10–K and 10–Q, and the SHR taxonomy were removed from the EDGAR Filer Manual as a result of the United States Court of Appeals for the Fifth Circuit ruling[6] vacating the Share Repurchase Disclosure Modernization rule.[7] Further, the SHR taxonomy has been removed from EDGAR.

General functional enhancements to EDGAR Release 24.1 are set forth below.

Revision of Filer Manual Volume II, Chapter 6, and Relocation of Technical Content

Chapter 6 of the Filer Manual, Interactive Data, will be revised to remove technical and instructional details of XBRL formatting and validation. The information to be removed from Chapter 6 consists of technical specifications and guidance that filers will be able to consult in a new EDGAR XBRL Guide on *SEC.gov.* The revised Chapter 6 will present XBRL content in a concise fashion and will continue to complement Chapter 3, Index to Forms, by identifying different XBRL formatted documents associated with relevant EDGAR form and submission types. The revised Chapter 6 will also make clear that Interactive Data submissions in EDGAR use the Extensible Business Reporting Language (''XBRL'') information model and explain the use of taxonomies and instances which comprise this model.

Taxonomy Update

The EDGAR system will be updated to accept the 2024 versions of the following taxonomies:

- US–GAAP, SRT (published by FASB)
- CEF, COUNTRY, CURRENCY, DEI, ECD, EXCH, FFD, FND, NAICS, OEF, RXP, SIC, SNJ, SRO, STPR, VIP (published by SEC)[8]

EDGAR will also accept validations based on FASB's 2024 XBRL US Data Quality Committee Rules Taxonomy (DQCRT).

- *Updates to Table 7–1 of the Filer Manual*

The EDGAR Filer Manual reference to 8–K and 1–U Items will be updated in Table 7–1: Information Fields Available on Main Page.

On January 29, 2024, EDGAR Release 24.0.1 introduced the following changes, in addition to those noted in the December 2023 Filer Manual update:

- The check box labeled ''Attach Inline XBRL Fee Tagging Exhibit'' on the EDGARLink Online ''Documents'' tab was renamed to ''Attach Inline XBRL Filing Fee Exhibit'' for the 72 fee bearing submission types impacted.

[1] See Rule 301 of Regulation S–T.

[2] EDGAR Release 24.1 was deployed on [Mar. 18, 2024].

[3] Updating EDGAR Filing Requirements and Form 144 Filings, Release No. 33–11070 (June 2, 2022) [87 FR 35393 (June 10, 2022)].

[4] Shortening the Securities Transaction Settlement Cycle, Release No. 34–96930 (Feb.15, 2023) [88 FR 13872 (Mar. 6, 2023)].

[5] Modernization of Beneficial Ownership Reporting, Release No. 33–11253 (Oct. 10, 2023) [88 FR 76896 (Nov. 7, 2023)].

[6] *Chamber of Commerce of the USA* v. *SEC,* 88 F.4th 115 (5th Cir., Dec. 19, 2023).

[7] Share Repurchase Disclosure Modernization, Release No. 34–97424 (May 3, 2023) [88 FR 36002 (June 1, 2023)].

[8] See *https://www.sec.gov/edgar/information-for-filers/standard-taxonomies.*

• Submission type SC 13E1 has been updated to remove the ''Is Fee Table/Exhibit included?'' check box from the ''Main'' tab of the EDGARLink Online interface. As a result, filers are now required to attach an EX–FILING FEES exhibit attachment on a SC 13E1 filing.

III. Amendments to Rule 301 of Regulation S–T

Along with the adoption of the updated Filer Manual, we are amending Rule 301 of Regulation S–T to provide for the incorporation by reference into the Code of Federal Regulations of the current revisions. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

The updated EDGAR Filer Manual is available at *https://www.sec.gov/edgar/filerinformation/current-edgar-filer-manual.*

IV. Administrative Law Matters

Because the Filer Manual and rule amendments relate solely to agency procedures or practice and do not substantially alter the rights and obligations of non-agency parties, publication for notice and comment is not required under the Administrative Procedure Act (''APA'').[9] It follows that the amendments do not require analysis under requirements of the Regulatory Flexibility Act [10] or a report to Congress under the Small Business Regulatory Enforcement Fairness Act of 1996.[11]

The effective date for the updated Filer Manual and related rule amendments is April 19, 2024. In accordance with the APA,[12] we find that there is good cause to establish an effective date less than 30 days after publication of these rules. The Commission believes that establishing an effective date less than 30 days after publication of these rules is necessary to coordinate the effectiveness of the updated Filer Manual with the related system upgrades.

V. Statutory Basis

We are adopting the amendments to Regulation S–T under the authority in Sections 6, 7, 8, 10, and 19(a) of the Securities Act of 1933,[13] Sections 3, 12, 13, 14, 15, 15B, 23, and 35A of the Securities Exchange Act of 1934,[14] Section 319 of the Trust Indenture Act of 1939,[15] and Sections 8, 30, 31, and 38 of the Investment Company Act of 1940.[16]

List of Subjects in 17 CFR Part 232

Incorporation by reference, Reporting and recordkeeping requirements, Securities.

Text of the Amendments

In accordance with the foregoing, title 17, chapter II of the Code of Federal Regulations is amended as follows:

PART 232—REGULATION S–T—GENERAL RULES AND REGULATIONS FOR ELECTRONIC FILINGS

■ 1. The general authority citation for part 232 continues to read as follows:

Authority: 15 U.S.C. 77c, 77f, 77g, 77h, 77j, 77s(a), 77z–3, 77sss(a), 78c(b), 78*l,* 78m, 78n, 78*o*(d), 78w(a), 78*ll,* 80a–6(c), 80a–8, 80a–29, 80a–30, 80a–37, 80b–4, 80b–6a, 80b–10, 80b–11, 7201 *et seq.;* and 18 U.S.C. 1350, unless otherwise noted.

* * * * *

■ 2. Section 232.301 is revised to read as follows:

§ 232.301 EDGAR Filer Manual.

Filers must prepare electronic filings in the manner prescribed by the EDGAR Filer Manual, promulgated by the Commission, which sets forth the technical formatting requirements for electronic submissions. The requirements for becoming an EDGAR Filer and updating company data are set forth in the EDGAR Filer Manual, Volume I: ''General Information,'' Version 41 (December 2022). The requirements for filing on EDGAR are set forth in the updated EDGAR Filer Manual, Volume II: ''EDGAR Filing,'' Version 69 (March 2024). All of these provisions have been incorporated by reference into the Code of Federal Regulations, which action was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. You must comply with these requirements in order for documents to be timely received and accepted. The EDGAR Filer Manual is available for inspection at the Commission and at the National Archives and Records Administration (NARA). The EDGAR Filer Manual is available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Operating conditions may limit access to the Commission's Public Reference Room. For information on the availability of the EDGAR Filer Manual at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations.html* or email *fr.inspection@nara.gov.* The EDGAR Filer Manual may also be obtained from *https://www.sec.gov/edgar/filerinformation/current-edgar-filer-manual.*

By the Commission.

Dated: March 18, 2024.

Vanessa A. Countryman,

Secretary.

SOCIAL SECURITY ADMINISTRATION

20 CFR Part 416

[Docket No. SSA–2023–0015]

RIN 0960–AI81

Expand the Definition of a Public Assistance Household

AGENCY: Social Security Administration.

ACTION: Final rule.

SUMMARY: We are finalizing our proposed rule to expand the definition of a public assistance (PA) household for purposes of our programs, particularly the Supplemental Security Income (SSI) program, to include the Supplemental Nutrition Assistance Program (SNAP) as an additional means-tested public income-maintenance (PIM) program. We are also revising the definition of a PA household from a household in which every member receives some kind of PIM payment to a household that has both an SSI applicant or recipient, and at least one other household member who receives one or more of the listed PIM payments (the *any other* definition). If determined to be living in a PA household, inside in-kind support and maintenance (ISM) would no longer need to be developed. The final rule will decrease the number of SSI applicants and recipients charged with ISM from others within their household. In addition, we expect this rule to decrease the amount of income we would deem to SSI applicants and recipients because we will no longer deem as income from ineligible spouses and parents who live in the same household: the value of the SNAP benefits that they receive; any income that was counted or excluded in figuring the amount of that payment; or any income that was used to determine the amount of SNAP benefits to someone else. These policy changes reduce administrative burden for low-income households and SSA.

DATES: This final rule will be effective September 30, 2024.

FOR FURTHER INFORMATION CONTACT: Tamara Levingston, Office of Income Security Programs, 6401 Security Blvd., Robert M. Ball Building, Suite 2512B, Woodlawn, MD 21235, 410–966–7384.

For information on eligibility or filing for benefits, call our national toll-free number, 1–800–772–1213, or TTY 1–800–325–0778, or visit our internet site, Social Security Online, at *https://www.ssa.gov.*

SUPPLEMENTARY INFORMATION:

Background

The SSI program provides monthly payments to: (1) adults and children with a disability or blindness; and (2) people aged 65 and older who have little or no income and resources. Eligible individuals must meet all the requirements in the Social Security Act (Act), including having resources and income below specified amounts.[1] Generally, the more income an individual has, the less their SSI payment will be. Under the SSI program, resources are cash or other liquid assets or any real or personal property that an individual (or spouse, if any) owns and could convert to cash to be used for their support and maintenance.[2] Income, on the other hand, is anything the SSI applicant or recipient receives in cash or in-kind that can be used to meet food and shelter needs.[3] Applicants' and recipients' resources may affect their SSI eligibility, while their income may affect both their SSI eligibility and payment amounts.

Once an applicant is found eligible for SSI, their monthly payment is determined by subtracting countable monthly income from the Federal benefit rate (FBR), which is the monthly maximum Federal SSI payment.[4] The FBR for 2024 is $943 for an individual and $1,415 for an eligible individual with an eligible spouse.[5] The Act and our regulations[6] define income as ''earned,'' such as wages from work, and ''unearned,'' such as gifted cash or ISM.[7]

ISM

As indicated above, income that affects an individual's monthly SSI payment can be provided in cash or in-kind. We calculate ISM considering any shelter that is given to the individual or that the individual receives because someone else pays for it.[8] For example, if an applicant or recipient lives with their sibling and does not pay rent, we would consider the shelter that their sibling provides to be ISM.

Like other forms of income, ISM can reduce the amount of a recipient's monthly SSI payment. For example, we reduce the SSI monthly payment by one-third of the FBR if an individual is living in another person's household, receives shelter from others living in the household, and others within the household pay for or provide the individual with all of the individual's meals.[9]

Additional circumstances regarding ISM are discussed further in our regulations.[10]

Deeming Income

In addition to counting ISM that an applicant or recipient receives, the SSI program deems income of certain individuals to the SSI applicant or recipient.[11] ''Deeming'' is the process of considering a portion of another person's income to be the income of an SSI applicant or recipient.[12] When our deeming rules apply, it does not matter whether the other person's income is actually available to the applicant or recipient.[13] In determining an SSI applicant's or recipient's eligibility and payment amount, we consider both the SSI applicant's or recipient's own income as well as any relevant deemed income from others. For example, when a child who is applying for or receiving SSI lives with a parent who is ineligible for SSI, we deem a portion of that parent's income to the child through the month in which the child reaches age 18.[14] Likewise, when an adult who is applying for or receiving SSI lives with a spouse who is ineligible for SSI, we deem a portion of the ineligible spouse's income to the applicant or recipient.[15] We look at the deemor's income to see if we must deem a portion of it to the applicant or recipient because we expect the deemor, based on their relationship with the SSI applicant or recipient, to use some of their income to take care of (some of) the applicant's or recipient's needs. Ultimately, only some of the deemor's income is assigned to the SSI applicant or recipient.

Some income from ineligible parents and spouses is not deemed to the SSI applicant or recipient. For example, our policy excludes from deeming: the amount of any PIM payments the ineligible parents and spouses receive under the programs listed in the PA household definition;[16] any income that those programs counted or excluded in determining the amount of the PIM payments they received; and any income of the ineligible spouse or parent that is used by a PIM program to determine the amount of that program's benefit to someone else.[17] For example, if an ineligible spouse or parent receives Temporary Aid for Needy Families (TANF) assistance based on their income of $400 per month, we do not consider the TANF benefit amount or the $400 in our income determination for the SSI applicant or recipient. This is based on the premise that the income used to demonstrate eligibility for a PIM program and the PIM payment itself are required for that individual's own needs.

Prior Policy

We previously defined a PA household as one in which every member receives a PIM payment under at least one of the following:

1. Title IV–A of the Social Security Act (Temporary Assistance for Needy Families or TANF);
2. Title XVI of the Social Security Act (Supplemental Security Income or SSI);
3. The Refugee Act of 1980 (payments based on need);
4. The Disaster Relief and Emergency Assistance Act;
5. General assistance programs of the Bureau of Indian Affairs;
6. State or local government assistance programs based on need (tax credits or refunds are not assistance based on need); and
7. Department of Veterans Affairs program (payments based on need).[18]

New Policy

We are making changes based on the Commissioner of Social Security's

rulemaking authority specified in sections 205(a), 702(a)(5), 1631(d)(1), 1631(e)(1)(A), and 1633(a) of the Social Security Act. Under those sections, the Commissioner may adopt rules regarding, among other things, the nature and extent of evidence needed to establish benefit eligibility, as well as methods of taking and furnishing such evidence.

We are finalizing three changes discussed in the Notice of Proposed Rulemaking (NPRM) that we published on September 29, 2023.[19] First, we are finalizing a minor clarification to our definition of a PA household at 20 CFR 416.1142(a). The term ''public assistance'' may have implications outside our programs. We are finalizing, without change from the NPRM, the clarification that our definition of ''public assistance household,'' which we use as a term of art, applies only for purposes of our programs. Second, we are finalizing, without change from the NPRM, our proposed revision to the definition of a PA household in 20 CFR 416.1142(a) of adding SNAP to the existing list of PIM programs.[20] Third, we are changing our definition of a PA household from one in which *every* member receives a PIM payment to one in which the household has both an SSI applicant or recipient, and at least one other household member who receives one or more of the listed PIM payments. If determined to be living in a PA household, inside ISM would no longer need to be developed. We discussed this potential change (from *every* to *any other*) in the NPRM and invited public comment; public commenters were largely supportive of the change.[21]

In the event of an invalidation of any part of this rule, our intent is to preserve the remaining portions of the rule to the fullest possible extent. Each of the three changes can be implemented independently of the others, and we intend each of the three changes to be severable from the others. The addition of SNAP to our list of PIM programs in 20 CFR 416.1142(a) is independent of our adoption of the *any other* definition—adding SNAP could be implemented separately even if we did not adopt the *any other* definition. Likewise, expanding our definition of a PA household by adopting the *any other* definition could be fully implemented whether or not SNAP is added to the list of PIM programs in 20 CFR 416.1142(a). The clarification that our definition of ''public assistance household'' is a term of art that applies only for purposes of our programs is a minor administrative clarification that is not contingent on the implementation of the two ways in which we are expanding the definition of a PA household with this final rule. If any of these three changes were to be invalidated, the others could still be implemented fully, as these changes relate to three separate aspects of the PA household policy.

During the development of the NPRM, we considered other programs which are often considered means-tested programs, including Medicaid,[22] the Low Income Home Energy Assistance Program (LIHEAP),[23] the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC),[24] the Housing Choice Voucher Program,[25] Project Based Rental Assistance, and Public Housing [26] which we discussed in the ''Rationale for the Proposed Policy'' in the NPRM.[27] At this time, we have decided to add SNAP with this expansion and continue to explore adding other programs in the future.

SNAP provides nutrition benefits via an Electronic Benefit Transfer (EBT) card, which can be used to buy groceries at authorized food stores and retailers.[28] Everyone who lives together and purchases and prepares meals together is grouped together as one SNAP household; and, in most cases, the household must meet both gross and net income limits, which vary with household size, for the household to be eligible for and receive SNAP benefits.[29] If everyone in the SNAP household is receiving TANF and/or SSI, the household may be deemed ''categorically eligible'' for SNAP because they have already been determined eligible for another means-tested program.[30] SNAP benefits meet the definition of income in our regulations.[31] However, SNAP benefits are excluded from our income counting based on Federal statute.[32] Because our policy links the types of PIM payments listed in 20 CFR 416.1142(a) with the income of ineligible spouses and parents that is excluded from deeming under 20 CFR 416.1161(a)(2)–(3), adding SNAP to the list of PIM programs will decrease the amount of income that is deemed to SSI applicants and recipients. If an SSI-ineligible spouse or parent is receiving SNAP benefits, the value of the SNAP benefit, as well as any income that was counted or excluded in figuring the amount of the SNAP benefits, would not be deemed to the SSI applicant or recipient. In addition, any income of the ineligible spouse or parent that is used to determine the amount of SNAP benefits to someone else would not be deemed to the SSI applicant or recipient.

We also discussed and invited public comment on broadening our definition of a PA household from one in which every member receives a PIM payment to one in which any member other than the SSI applicant or recipient receives a PIM payment. We have decided to adopt this change. Thus, under our new definition of PA household, if there is an SSI applicant or recipient in a household where at least one other member receives one or more of the listed PIM payments, the household will be considered a PA household, and we will not develop for inside ISM.[33]

As we discussed in the NPRM, the previous definition of PA household (requiring *every* member to receive a PIM payment) may have disadvantaged individuals in low-income households where household members still needed their income (and resources) to meet their own needs but where a household member was not receiving a PIM payment for reasons unrelated to need.

[19] 88 FR 67148.

[20] For more information on SNAP, visit *https://www.fns.usda.gov/snap/supplemental-nutrition-assistance-program.*

[21] In the NPRM, we referred to this potential change as from *every* to *any other.* In this final rule, we are adopting that proposed change but, for purposes of clarification, have slightly modified the new language defining a PA household in 20 CFR 416.1142(a), such that the *any other* language is no longer used. Because the substance of the new definition is the same as the *any other* proposal, we continue to refer to the new definition as the *any other* definition throughout this final rule.

[28] See ''How do I receive SNAP benefits?'' available at *https://www.fns.usda.gov/snap/recipient/eligibility.*

[29] See ''Who is in a SNAP household?'' and ''What are the SNAP income limits?'' available at: *https://www.fns.usda.gov/snap/recipient/eligibility.*

[30] See ''What are the SNAP income limits?'' available at: *https://www.fns.usda.gov/snap/recipient/eligibility.*

[31] See 20 CFR 416.1102.

[32] 7 U.S.C. 2017(b); *see also* 20 CFR 416, Subpart K, Appendix (I)(a).

[33] ''Inside ISM'' is ISM that is provided to the SSI applicant or recipient from others within the same household in which the applicant or recipient is living. *See* POMS SI 00835.465.B.; *see also* POMS SI 00835.515. In contrast, ''[w]hen a person who is not a household member pays a vendor directly for any of the household's costs or provides the household with [ISM] for less than the current market value (CMV),'' we consider this ''outside ISM.'' *See* POMS SI 00835.465.C.; *see also* POMS SI 00835.515. ISM that is neither inside, nor outside—such as ISM provided to only one person in the household—is considered ''other ISM.'' *See* POMS SI 00835.630.E.

For example, college students, who do not meet a student exception for SNAP, may not receive SNAP benefits even though the rest of the household does.[34] In such circumstances, under our previous definition of PA household, the household would not qualify. But under the expanded definition of PA household that we are adopting, the household would not be disqualified as a PA household simply because one member was not receiving a PIM payment. In fact, many commenters supported the change we are now adopting based on their experiences, under the previous definition, of households that did not qualify for reasons unrelated to need.[35]

Additionally, when we first established the PA household rule in 1980, we explained that our rule ''relied on the fact that other agencies have determined that these individuals [receiving PIM payments] need all their income for their own needs.'' [36] Because SNAP and several of the other PIM programs listed in our PA household definition provide, or may provide, benefits at the household (or family) level instead of the individual level (*e.g.,* TANF, Refugee Act of 1980, Disaster Relief and Emergency Assistance Act, and general assistance programs of the Bureau of Indian Affairs), we note that in many circumstances a needs-based determination has been made for other household members. We discuss further justification for the change (from *every* member to *any other* member) in the Comments Summary section below.

Comments Summary

We received 221 public comments on our NPRM from September 29 through November 29, 2023. Of the total comments, 219 are available for public viewing at *https://www.regulations.gov/document/SSA-2023-0015-0001*.[37] These comments were from:

- Individuals; and
- Advocacy groups, such as the National Organization of Social Security Claimants' Representatives and the National Association of Disability Representatives.

We carefully considered the public comments we received. More than 95 percent of commenters supported the proposals in the NPRM to add SNAP and to adopt the change from *every* member to *any other* member, meaning the household has both an SSI applicant or recipient, and at least one other household member who receives one or more of the listed PIM payments. Some commenters agreed with the overarching proposals but recommended amendments. Other commenters asked questions and offered opinions on the potential financial and legal implications of the proposals. A few commenters disagreed with the proposals altogether.

We received some comments that were outside the scope of this rulemaking because they did not relate to our proposals either to add SNAP to our list of PIM programs or to change our definition from *every* member to *any other* member. Even though outside the scope, we address some of these other comments where they related to ISM more generally because a response might help the public understand our program better.

The next section summarizes and responds to the public comments.

Comments and Responses

General Support

Comment: Many commenters broadly supported, and encouraged us to quickly finalize and implement, adding SNAP to the list of PIM programs in our definition of a PA household.

Response: We acknowledge and appreciate the support for that change.

Comments Regarding Scope of Change

Comment: Many commenters supported the proposed change in the PA household definition from one in which *every* member receives some kind of PIM payments to one that has both an SSI applicant or recipient, and at least one other household member who receives one or more of the listed PIM payments. Some commenters stated that the *any other* proposal would simplify our processing of SSI claims, save time, and increase the speed with which we serve applicants and recipients. Some commenters noted that some SNAP households face barriers to SNAP enrollment for all household members, including households with: college students who do not meet a student exemption for SNAP; individuals with Able-Bodied Adults Without Dependent (ABAWD) status who are otherwise eligible for SNAP, but who are generally limited to no more than three months of SNAP benefits within a three-year period if they are not meeting certain work requirements or they do not qualify for an exception; and households with mixed immigration status.[38] These commenters stated that such households, where some, but not all, members may be eligible for SNAP, would not benefit from the addition of SNAP to our list of PIM programs unless we adopted the *any other* proposal. In support of this point, commenters stated that the change to *any other* member would be consistent with Executive Order (E.O.) 13985.[39]

One commenter objected to the examination and discussion of the *any other* proposal because they want further analysis and justification of the change. The commenter suggested that such a change should be explored through an Advance Notice of Proposed Rulemaking.

Response: We carefully considered the comments on the *any other* proposal and have decided to adopt the *any other* change in this final rule.

First, the commenters cited examples of how requiring every member of the household to receive a PIM payment has disadvantaged individuals in low-income households under the previous definition when there was a household member who did not receive a PIM payment for reasons unrelated to need. We found these examples to be persuasive. The commenters noted, for example, that SNAP and TANF restrict certain individuals in the household from receiving benefits even if their income is used to determine the household's eligibility for the benefits.[40] Specifically, several commenters [41] pointed out that some members of a household are not eligible to receive SNAP because of their immigration

January 20, 2021. *Available at: https://www.federalregister.gov/documents/2021/01/25/2021-01753/advancing-racial-equity-and-support-for-underserved-communities-through-the-federal-government.*

[40] For example, adults who have exceeded eligibility time limits and certain non-citizens are not eligible to receive TANF, even if their income is used to determine a household's eligibility for TANF benefits. See ''Characteristics and Financial Circumstances of TANF Recipients Fiscal Year (FY) 2021,'' *available at https://www.acf.hhs.gov/sites/default/files/documents/ofa/fy2021_characteristics.pdf.*

[41] Comments are available to the public at *https://www.regulations.gov.* Search for docket ''SSA–2023–0015.'' See comments from: National Organization of Social Security Claimants' Representatives (NOSSCR); California Association of Food Banks (CAFB); Californians for SSI (CA4SSI); Center on Budget and Policy Priorities (CBPP); Justice in Aging; and the Legal Aid Society.

status, even if they would otherwise qualify for SNAP benefits based on their income (or need).[42] In such a case, under the previous policy, although the SSI recipient lives in a household where all but one of the other members are receiving SNAP, we would not have considered this a PA household because not every member of the household was receiving a PIM payment. As a result, we may have treated the SSI recipient as receiving inside ISM and would have reduced their benefit despite the fact that the household was still sufficiently low income to qualify everyone in the household for the PIM payments based on financial need.

Second, for households with an SSI applicant or recipient and at least one other member who receives means-tested PIM payments, we find it reasonable to conclude that members of the household likely would not be able to provide the SSI applicant or recipient with inside ISM. This conclusion is supported by the data we have about the composition of households that receive the types of PIM payments covered by our PA household policy. This data generally shows that individuals eligible for PIM payments live in low-income households. For example:

- The average monthly income for TANF households is $958 (or under $12,000 annually). These income levels indicate that if someone in a household is receiving TANF, the entire household is likely to be low income.[43]
- In 2014, a study showed that families who receive public assistance are significantly lower income than families who do not, with annual incomes averaging $33,549 for a family of four who receive at least one form of public assistance versus $74,597 for a family of four who do not receive any assistance.[44]
- 70 percent of SSI recipients live in households with family incomes below $30,000, including income from assistance benefits.[45]
- In FY 2020, 81 percent of SNAP households had gross monthly income less than or equal to the poverty line.[46]
- An analysis of families receiving multiple public benefits (but not necessarily where every member received some form of public assistance) found that higher levels of benefit receipt are associated with lower income, earnings, and employment, and greater material hardship.[47]
- A 2013 study found that about 25 percent of SSI recipients lived in a household where the total family income was below 100 percent of the applicable family poverty threshold, even though the household contained at least one member who was not receiving PIM payments. This was true regardless of whether the SSI recipients were individuals/couples or noncouple multi-recipient.[48]
- The 2019 Survey of Income and Program Participation found that in households that receive both TANF and SSI, 85.7 percent (+/− 8.4 percent) have incomes less than 200 percent of the Federal poverty rate, even after all transfers (that is, including the income the household receives from all sources of cash public assistance payments).[49]
- Lastly, related to the policy to add SNAP to the list of PIM programs, among households receiving SSI in 2021, 64.7 percent also qualified for and received SNAP.[50]

Third, as discussed above and in our NPRM, SNAP and several other listed PIM programs provide, or may provide, household-level (or family-level) benefits (*e.g.,* TANF, Refugee Act of 1980, Disaster Relief and Emergency Assistance Act, and General assistance programs of the Bureau of Indian Affairs). This means a government agency has already determined that a household's income is sufficiently low such that the household is in need of public assistance. Based on that finding, it is reasonable for us to conclude that household members require their own income (and resources) to meet their own needs.

Finally, regarding the suggestion that we explore whether to adopt the *any other* definition through an ANPRM, we used the NPRM to explore this option. In the NPRM, we discussed the possible policy change, examined evidence that supported the change, invited public comment specifically on the proposed change, and included an estimate and cost analysis from our Office of the Chief Actuary (OCACT) over the fiscal years 2024 to 2033. The OCACT estimate projected SSI payments, and estimated changes for both recipients and new individuals who will be eligible under the revised *any other* definition that would not have been eligible under our previous rules.

Comment: Some commenters encouraged us to go beyond the *any other* proposal and change the definition of a PA household to refer simply to *any* member, including the SSI applicants or recipients themselves.

Response: Under the commenters' alternative proposal, *every* SSI recipient would live in a PA household and, thus, would be considered not to be receiving ISM from other members of the household (*i.e.,* inside ISM). We do not think that result would be supportable because it would mean that we would never apply the one-third reduction (VTR) rule,[51] which is based on a provision in the Social Security Act.[52]

Comment: Many commenters encouraged us to expand the definition of PA household to include additional programs, whether in this final rule or in a future rulemaking, including: Medicaid; LIHEAP and similar energy assistance programs; housing assistance from the Department of Housing and Urban Development (HUD); WIC; CHIP; and the earned income tax credit (EITC).

Response: As we discussed in the NPRM,[53] this is our first expansion of the definition of a PA household since 1980, when the policy was first established. Therefore, we decided to add SNAP initially and will consider other programs in the future; our

[53] 88 FR 67152–67153.

choosing not to do so now does not preclude adding other programs via future rulemaking. As discussed in our NPRM, SNAP recipients have been determined to be low-income and, therefore, need their income (and resources) to take care of their own needs, which is consistent with the rationale underlying our policy when it was first established.[54] The other programs cited by the commenter do not align as easily with the criteria we used. For example, while the benefits of the EITC are concentrated among low-income households, some moderate-income taxpayers are eligible for a small credit, including taxpayers with three or more children earning up to $63,398 and with up to $11,000 in investment income (in 2023). This demonstrates that the EITC does not align with the underlying intent of our initially established PA household policy to the extent that SNAP does.

In addition, SNAP has several advantages over other programs that we considered that make it the best fit for this first expansion of our PA household definition. First, SNAP eligibility and receipt have relatively low State variability because SNAP is a nationwide program with relatively uniform eligibility standards. In general, net monthly income limits for SNAP eligibility are set at 100 percent of the poverty level.[55] In contrast, Medicaid, for example, has varying income limits based on an individual's State of residence.[56] Likewise, the upper eligibility levels for CHIP vary by State and range widely,[57] as do the types of CHIP programs and groups covered by States. In contrast, the relative uniformity in SNAP eligibility requirements makes this initial expansion of our PA household policy more consistent and supportable.

Second, SNAP benefits are typically certified for relatively longer periods than other government benefit programs. For example, many SNAP participants are certified for 12 months, and older individuals and individuals with disabilities may be certified for up to 24 or 36 months. In contrast, other programs with shorter or less predictable benefit periods might require more frequent development of individuals' living arrangements, which could be burdensome for recipients and our staff. For example, LIHEAP benefits, which help low-income households pay for heating or cooling, are typically seasonal, meaning that eligibility can vary within a 12-month period.

Moreover, SNAP does not have a cap on enrollment, meaning those who qualify or meet eligibility requirements receive benefits. This ensures that we can include the entire SNAP-eligible population when we determine what households qualify as PA households. In contrast, programs like WIC, LIHEAP, and HUD housing are capped based on the availability of resources, which means there are waiting lists for those who are financially eligible and priority levels to receive benefits.[58] As we strive for uniformity across the SSI program, we are concerned that including government benefit programs with enrollment caps or waiting lists may lead to disparate treatment of similarly situated SSI applicants and recipients.

Finally, we note that SNAP participation overlaps to a great extent with participation in other means-tested programs and, thus, by adding SNAP to the definition of PA household, we anticipate that we will also capture many of the individuals who receive benefits from other means-tested programs. We would like to observe how adding SNAP to the PA household definition affects the SSI population before we determine whether to add additional programs, and if so, which programs.

Despite the considerations cited above, we are not precluding adding other programs to the list of PIM payments in our PA Household definition. As well, changes to the programs discussed here might also cause us to reconsider them for inclusion on the list. Expanding the definition of PA household to include additional programs would require further, program-specific consideration.

Use of Data Sharing To Implement New Policy

Comment: One commenter encouraged us to proactively recalculate benefits for existing recipients based on this new rule, rather than waiting until the recipients' next scheduled redetermination. The commenter wanted us to do this to ensure recipients received the benefit of the new policy as soon as possible. The commenter also stated that this process of proactive recalculation could be simplified by utilizing data we already receive through existing data matches. The commenter further stated that ''SSA should conduct Limited Issue reviews of all VTR and ISM records in order to comply with the new rules, as well as of all claims denied in the previous twelve months to identify erroneously denied applicants.''

Similarly, many commenters, in their support for finalizing the proposed rule, encouraged us to expand or implement data sharing agreements with State SNAP administrators across the country. They advocated that expanded data sharing with SNAP administrators would be an improvement over using redeterminations to identify and correct ''over-reduction'' of payment and ineligibility decisions.

Response: We acknowledge and share the commenter's desire to ensure existing recipients receive the benefit of the new PA household policy as soon as possible. However, due to limited resources it is not administratively feasible to conduct Limited Issue reviews of all the VTR and ISM records. Further, this final rule does not apply to any claims denied before its effective date.

Expanding or implementing data sharing agreements with States across the country would involve several important considerations that are outside the scope of this rulemaking, including the interest, capacity, and requirements of the States. We have an established process for data exchanges that we follow to implement any data exchange, including establishing the agreements. We currently have 174 data sharing agreements with States/State agencies under which we provide data for the State/State agency to determine entitlement and eligibility for federally funded benefit programs, including Medicaid, SNAP, and TANF.

Income From Family or Friends

Comment: One commenter expressed concern that our regulations that deem income create a disincentive for SSI recipients to get married, and implied tension or conflict with the Supreme Court's holding in *Obergefell* v. *Hodges,*[59] which holds that same-sex couples may not be deprived of the fundamental right to marry.

Response: In general, deeming from a spouse is required by the Social Security Act.[60] In the context of this rulemaking, as we explained in the NPRM, adding SNAP to our list of PIM programs will ''decrease the amount of

income we [will] deem to SSI applicants and recipients because we [will] no longer deem income from ineligible spouses . . . who receive SNAP benefits and live in the same household.'' There is no tension or conflict between spouse-to-spouse deeming and the Supreme Court's holding in *Obergefell:* spouse-to-spouse deeming applies equally to opposite-sex couples and same-sex couples.

Comment: Several commenters made a broad suggestion to entirely eliminate ISM because counting ISM discourages friends and family from providing assistance to disabled loved ones, while one commenter acknowledged that a statutory change would be required to eliminate ISM.

Response: We acknowledge the commenters' desired policy change, but as the one commenter stated, entirely removing ISM from our income calculations would require a statutory change.[61]

Opposition to the Rule

Comment: One commenter opposed the proposed rulemaking because the NPRM did not extensively discuss the distinctions in the definitions of household composition for SSI and SNAP.

Response: This rulemaking does not change the definition of a household for SSI purposes [62] or for SNAP purposes.[63] The commenter did not explain how the distinctions in the household composition definitions are relevant to our addition of SNAP, and we do not believe that the distinctions preclude us from adding SNAP to our regulatory list.

Comment: One commenter asserted that because a federal food-stamp program existed in 1980, when the PA household policy was first created, the relative increase in SNAP participation since that time does not sufficiently justify the change to include SNAP in the list of PIM programs in our definition of a PA household. The commenter further noted that ''the large increase in SNAP users and concurrent decline in the poverty rate since 1980 . . . is not a relevant indication of increased need.''

Response: When we first established the PA household policy in 1980, we explained that it was based on the idea that if the other individuals in the household were receiving a PIM payment, they needed their income (and resources) to meet their own needs. This meant they could not support the SSI applicant or recipient because they had no extra income (or resources) to share. The determination of need, made by the applicable Federal or State agency providing the PIM payments, supported the assumption that the others in the household could not provide ISM to the SSI applicant or recipient. The fluctuations in the overall poverty rate in the United States are not directly relevant to whether the household members are able to provide ISM to the SSI applicant or recipient. As we discussed in the NPRM, when the PA household policy was first created in 1980, the list of PIM programs in our definition of a PA household reflected the most widely used means-tested public benefit programs at that time.[64] The nationwide food-stamp program began in 1974—just six years before the establishment of the PA household policy—and had approximately 21.1 million participants in 1980.[65] In contrast, approximately 42.1 million people receive SNAP benefits today,[66] making SNAP now one of the most widely used public benefit programs. As we discussed in the NPRM, we have not updated our list of PIM programs for the PA household policy since 1980, despite the significant shifts in the landscape of public assistance programs since that time. SNAP recipients have been determined to be low-income and, therefore, need their income (and resources) to meet their own needs.[67] Indeed, a USDA report from 2019 showed that approximately 80 percent of all SNAP households had gross monthly income that was less than or equal to the Federal poverty level.[68]

Comment: One commenter opposed adding other programs, such as ''in-kind assistance programs like food and medical care,'' that are not cash assistance programs, to the programs listed in our definition of a PA household. Further, the commenter asserted that we had taken an inconsistent stance by calling our treatment of food ''insignificant'' in a different rulemaking [69] but ''including SNAP . . . as significant'' in this PA household rulemaking.

Response: Regarding the commenter's statement that we should not add in-kind assistance programs like food and medical care to our PA household definition, we have determined that means-tested programs largely have shifted over the last several decades from cash assistance programs toward voucher-based or in-kind support programs. Because of this shift over time, we have a reduced ability to effectively identify the individuals we intended to serve under our PA household definition.

As we noted in the NPRM, SNAP benefits meet our definition of income in 20 CFR 416.1102.[70] The commenter's reference to our NPRM on *Omitting Food from In-Kind Support and Maintenance* is generally outside the scope of this rulemaking. However, we note that, contrary to the commenter's assertion, we have not described food assistance as ''insignificant,'' nor is food assistance treated inconsistently under the two rules. Here, we are adding SNAP benefits to the list of PIM programs under the PA household policy. This change means that if the household has both an SSI applicant or recipient, and at least one other household member who receives SNAP benefits (or other PIM payments listed in the PA household definition), we will not develop inside ISM because we consider that the household is sufficiently low income such that the members need all of their income (and resources) to meet their own needs—they are not able to share with or provide ISM to the SSI applicant or recipient. In contrast, under the final rule *Omitting Food from In-Kind Support and Maintenance,* we removed food from our calculations of ISM. More importantly, it is less accurate to compare potentially partial, inconsistent food assistance that an individual receives from family or friends with something like SNAP, a Federal benefit one can only qualify for after demonstrating they do not have enough income or resources to fulfill their own basic nutrition needs.

Comment: One commenter described the NPRM as incomplete because there was ''no federalism, no distributional

[69] The commenter appears to be referring to the NPRM the agency published on ''Omitting Food from In-Kind Support and Maintenance.'' *See* 88 FR 9779 (Feb. 15, 2023).

[70] See 88 FR 67151.

analysis, no alternatives considered[.]'' The commenter also desired estimates of costs from Medicaid, and other programs using an SSI Financial Eligibility Model (FEM). The same commenter asserted that data from the Survey of Income and Program Participation (SIPP) was better for this rulemaking than the Current Population Survey (CPS) data used in our proposed rule. The commenter asserted that CPS data undercounts income and suggested our estimates might be incorrect.

Response: Regarding federalism, section 1(a) of E.O. 13132 defines ''policies that have federalism implications'' as ''refer[ring] to regulations, legislative comments or proposed legislation, and other policy statements or actions that have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.'' [71] As stated in the NPRM and this final rule, we analyzed the rule in accordance with the principles and criteria established by E.O. 13132 and determined that the rule will not have sufficient federalism implications to warrant the preparation of a federalism assessment. As also stated in the NPRM and this final rule, we also determined that the rule will not preempt any State law or State regulation or affect States' abilities to discharge traditional State governmental functions. We maintain that those determinations are accurate, and the commenter did not give any reason to believe they are not.

As a matter of protocol, the estimates prepared by SSA's Office of the Chief Actuary (OCACT) focus on the impact on SSA. The commenter is incorrect in stating regarding the NPRM that ''no alternatives [were] considered[.]'' For example, the reasons that we provided in support of the proposal, particularly in the ''Rationale for the Proposed Policy'' section of the NPRM, demonstrate that we considered the proposal against the alternative of making no change.[72] Also, as we stated in the ''Proposed Policy'' section of the NPRM, ''[d]uring the development of [the NPRM], we considered other means-tested programs, including Medicaid, the Low Income Home Energy Assistance Program (LIHEAP), the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), the Housing Choice Voucher Program, Project Based Rental Assistance, and Public Housing, which we discuss[ed] in the 'Rationale for the Proposed Policy' section'' of the NPRM.[73]

With regard to the commenter's assertion that SIPP data was better for this rulemaking than CPS data, in our development of the estimated Federal SSI program cost effects, we did not use the income fields from the CPS to estimate the effects of this proposal. The CPS was only used for the purpose of determining how many SSI households were also receiving SNAP and would thus be impacted by implementation of the proposal. Regarding the research cited in the NPRM that used the CPS, the CPS Annual Social and Economic Supplement (CPS ASEC) is the source of official poverty measures, and we consider it sufficiently reliable for other government estimates. A chief advantage of the CPS ASEC over the SIPP (used by the FEM) is larger sample size. Because PA households represent a small fraction of the SSI caseload, we rely on the larger data source to make more precise estimates. Even the CPS ASEC does not include enough cases to support the additional detailed analyses that the commenter would like to see.

Comment: Two commenters stated that the NPRM should comply with the Fiscal Responsibility Act of 2023, known as the Administrative Pay-As-You-Go Act of 2023.[74]

Response: This rule complies with the Administrative Pay-As-You-Go Act of 2023. That Act does not impose requirements at the NPRM stage. Additionally, this final rule is not subject to the Act's requirements because it is not estimated to increase direct spending by at least $100 million for FY 2024 (the first fiscal year during the 10-year period). See section 266 of the Act.

Comment: One commenter opposed the proposed rule based on the administrative implementation cost of $105 million because, in the commenter's view, it conflicts with our anticipated administrative burden reduction from simplified calculations. The commenter also stated that there will be more redeterminations and more applications because of the new policy.

Response: To clarify, administrative costs to implement a new regulation (stemming from a variety of sources, such as new systems) are distinct from non-financial administrative burden sources such as time, ease, and efficiency. Administrative costs and non-financial burdens, then, will not necessarily move in the same direction. As explained in the NPRM, we anticipate this policy change will result in administrative costs that will be only partially offset by administrative savings. At the same time, we expect processing time savings because employees will spend less time developing household expenses and making inside ISM determinations. Nonetheless, as the comment suggests, we estimated that there will be costs to process additional claims, reconsiderations, and appeals. As we stated in the NPRM, we anticipate that this expansion of our PA household policy will increase the amount of monthly SSI benefits for those to whom the policy applies and make more individuals eligible for SSI benefits. Consequently, we anticipate that there will be additional costs to process redeterminations and post-eligibility actions associated with this rule change.

In summary, we acknowledge what the commenter is expressing, and we provided revised estimate text in the preamble to clarify that the administrative burden would be reduced in a subset of cases, which would only partially offset the greater amount of costs from newly eligible recipients. However, as further discussed in the preamble and in the Regulatory Impact Analysis, we have determined that the benefits of the rule justify the costs, and that the rule can have administrative benefits even while it imposes administrative costs.

Comment: One commenter asserted that using SNAP to confirm SSI eligibility will result in overpayments in multiple programs, thereby increasing financial burdens on beneficiaries to repay the funds. The commenter stated that ''SNAP income and asset testing has changed dramatically with the creation and expansion of Broad-Based Categorical Eligibility (BBCE). This has contributed to a massive increase in SNAP participation rolls and a greater reliance on recipient self-attestation—the number one contributor to program overpayments.'' The commenter also asserted that our proposed rule ''will increase the participation in SSI, not decrease as imagined in [the] NPRM.''

Response: Under this final rule, receipt of SNAP is not dispositive of the applicant's or recipient's SSI eligibility. It is true that under this final rule, receipt of SNAP by one or more household members (other than the SSI applicant or recipient) may factor into our determination of whether the SSI applicant or recipient lives in a PA household, but this is advantageous to the individual applying for or receiving SSI. If the SSI applicant or recipient lives in a PA household, that means

[71] See *https://www.govinfo.gov/content/pkg/FR-1999-08-10/html/99-20729.htm.*

[72] See 88 FR 67148, 67151–52 (Sept. 29, 2023).

[73] Id. at 67150–51 (footnotes omitted).

[74] Public Law 118–5, div. B, title III.

only that we consider the SSI applicant or recipient not to be receiving ISM from members of the household—not necessarily that the SSI applicant or recipient is eligible for SSI.

We carefully considered the commenter's reservations about SNAP. However, we continue to maintain that adding SNAP is consistent with the rationales and purposes of our PA household policy, as discussed in the NPRM and in this final rule. We would add, first, that we find it reasonable and supportable to consider a needs-based eligibility determination by a government entity, on a matter within its competence, as reliable. Second, an overpayment determination for a given type of benefit does not necessarily mean that the applicant or recipient was not entitled or eligible to receive *any* such benefits for the period at issue; and our PA household policy looks at receipt of a PIM payment generally, not the *amount* of the PIM payment. Third, if we determined, in light of another government entity's overpayment determination, that a household member did not receive a PIM payment, we could and would make a correction, as appropriate and subject to all our usual rules, including administrative finality.[75] Fourth, BBCE ''is a policy in which households may become categorically eligible for SNAP because they qualify for a non-cash Temporary Assistance for Needy Families (TANF) or state maintenance of effort (MOE) funded benefit.'' [76] BBCE is consistent with our longstanding list of PIM programs, which includes both TANF and State or local government assistance programs based on need.[77]

Lastly, contrary to the commenter's statement, our proposed rule did not indicate that we anticipated a decrease in SSI participation. In the NPRM, we stated that there would be a ''decrease [in] the number of SSI applicants and recipients charged with in-kind support and maintenance (ISM)'' and a ''decrease [in] the amount of income we would deem to SSI applicants or recipients because we would no longer deem income from ineligible spouses and parents who receive SNAP benefits and live in the same household.'' [78]

Comment: One commenter suggested reducing administrative burden when we determine eligibility by conducting mandatory verifications of all income and assets in SSI applications, because self-attestation creates ''an environment favorable to first and third-party fraud[.]'' The commenter stated that ''the 'pay and chase' implications in overpayment recoveries infers an administrative burden upon state and local welfare agencies.''

Response: Verification of ''all income and assets in SSI applications'' is outside the scope of this rulemaking. However, we note that in administering the SSI program, we carefully ensure that our policies and procedures are consistent with the requirement in the Social Security Act: ''that eligibility for [SSI] benefits . . . will not be determined solely on the basis of declarations by the applicant concerning eligibility factors or other relevant facts, and that relevant information will be verified from independent or collateral sources and additional information obtained as necessary in order to assure that such benefits are provided only to eligible individuals (or eligible spouses) and that the amounts of such benefits are correct.'' [79]

Regarding our PA household policy, we do not rely on self-attestation alone. For initial claims, we ''substantiate receipt of PA payments'' (or PIM payments) with ''evidence . . . [in] the form of an award letter, report of contact with the paying agency, etc.''; and, in post-eligibility situations, we appropriately document or substantiate PIM payments depending on indications of a changed living arrangement.[80] Lastly, after over 40 years of applying our PA household policy, we are aware of no evidence that the policy as such leads to overpayments or that overpayments occur with respect to PA household determinations more than other comparable determinations.

Miscellaneous Comments

Comment: One commenter asserted the proposed rule would not benefit the quality of life of all U.S. citizens and that ''[t]here is no defined option to revert changes if [the rulemaking] proves to be incorrect.''

Response: Under the Social Security Act, we have broad authority to make and revise rules and regulations, consistent with the Act, that are necessary or appropriate for the administration of our programs, including the SSI program.[81] Adding SNAP to the list of PIM programs in our definition of a PA household and adopting the *any other* definition are proper exercises of the Commissioner's rulemaking authority under the Act, and these changes are appropriate and justified. For the reasons articulated in the NPRM and this final rule, we believe these changes will help us administer the SSI program and provide better support to individuals with limited income and resources. Administering the SSI program as we have been charged to do benefits the public more broadly and the common good.

Comment: One commenter opposed the proposed rule in light of inflation, which ''is presenting challenges for low/no income individuals with their SSI payment and SNAP benefits taken together. Any cuts to their SSI payment at this time will place such individuals at a disadvantage in paying their bills and living with dignity in their households.'' The commenter also suggested that we tax ''the super-rich'' and ''[s]top illegal immigrants at the border and stop them from exploiting the benefits budgeted for legal residents with genuine needs.''

Response: This rulemaking will not result in cuts to SSI payments. We anticipate that the expansion of our PA household policy will increase SSI payments for those to whom the policy applies. Taxation and border control are outside our administrative authority and outside the scope of this rulemaking. Immigration status may be relevant for SSI purposes, but changes to national immigration policy are outside the scope of this rulemaking.

Regulatory Procedures

E.O. 12866, as Amended by E.O. 14094

We consulted with the OMB, and OMB determined that this final rule meets the criteria for a significant regulatory action under section (3)(f)(1) of E.O. 12866, as amended by E.O. 14094, and is subject to OMB review.

Anticipated Transfers to Our Program

The primary anticipated impact of this rule is an increase in monetary transfers from the government to SSI recipients. Our Office of the Chief Actuary (OCACT) estimates that implementation of this rule would result in a total increase in Federal SSI payments of $15 billion over fiscal years 2024 through 2033, assuming implementation of this rule beginning on September 30, 2024. When the effects of implementing this rule are fully realized, the annual increase in Federal SSI payments is estimated to be about two percent relative to what would have occurred under previous rules. To estimate the impact, OCACT used the Annual and Social Economic Supplement (ASEC) to the Current

Population Survey (CPS) and our administrative data. We expect that adding SNAP to the list of PIM programs and changing to the *any other* definition of a PA household will increase the number of PA households for which we do not charge inside ISM, which will increase Federal SSI payments for these recipients. In addition, we expect that no longer deeming income from ineligible spouses and parents whose income is used to determine eligibility for or amount of SNAP payments will also increase Federal SSI payments. We expect that implementation of this final rule will also cause some individuals to receive Federal SSI payments who would not have been eligible under the previous rules.

According to our Office of the Chief Information Officer, Office of Benefit Information Systems, as of January 2023, there were 303,609 SSI recipients living in a PA household according to the previous definition, approximately four percent of our total 7.5 million SSI recipients.[82] We expect the share of SSI recipients living in a PA household, as defined under this rule, to increase substantially when this final rule is implemented. Specifically, OCACT estimates that once this rule is implemented and the effects have stabilized, in fiscal year 2033 roughly 277,000 Federal SSI recipients (4 percent of all SSI recipients) will have an increase in monthly payments compared to current rules, and an additional 109,000 individuals (1 percent increase) will receive Federal SSI payments who would not have been eligible under current rules.

Additionally, the expansions of our PA household definition could result in a reduction of SNAP benefits due to potential interaction between SSI and SNAP. For example, if an ineligible spouse or parent were receiving SNAP, we would no longer deem their income to an SSI applicant or recipient. Not deeming income for SSI purposes could lead to an increase in the SSI payment, which could in turn cause the household to receive a SNAP reduction that is 30 percent of the SSI increase, up to the point of ineligibility.[83] The household's ineligibility for SNAP could mean, in turn, that the SSI recipient is no longer part of a PA household for SSI purposes. Our understanding is that: an individual or household generally would prefer cash to SNAP benefits; an increase in SSI could not result in a decrease in SNAP benefits greater than the increase in SSI; and, in the main, the increase in SSI that may result from the expansions of our definition of a PA household will be favorable on net to individuals and households. However, we recognize that the interplay among various benefit types, as well as the relationships and financial interests of the SSI individual and other household members, can be complicated. We cannot necessarily predict how the change could affect individuals participating in other programs within these households.

Anticipated Net Administrative Cost to the Social Security Administration

The Office of Budget, Finance, and Management estimates that this proposal will result in a total net administrative cost of $83 million for the 10-year period from FY 2024 to FY 2033. This estimate includes costs to update our systems, to send notices to inform current recipients of the policy changes, to address inquiries from the notices, to verify receipt of SNAP benefits, and to perform additional post-eligibility actions to account for changes in living arrangements. Under this final rule, more individuals will be newly eligible for SSI benefits than under the current rule, resulting in additional costs to process additional claims, reconsiderations, appeals, redeterminations, and post-eligibility actions. In addition to the costs, our estimate also includes processing time savings as field office employees will not have to spend time developing for household expenses/contributions or the full income of deemors (ineligible parents and spouses) or go through the inside ISM determination process during initial claims, pre-effectuation reviews, redeterminations, and post-eligibility actions. While our estimate includes savings due to the reduction in processing times for affected cases, we expect that the costs to process new claims, reconsiderations, and appeals for additional newly eligible individuals will outweigh the savings.

Anticipated Qualitative Costs & Benefits

We anticipate qualitative benefits from the revision of adding SNAP to the PA household definition, thereby ensuring that ISM and income deeming do not undermine the economic security of households who receive nutrition assistance.

Additionally, the revision will reduce administrative burdens for SSI applicants or recipients. Under our finalized policy, the list of PIM programs includes SNAP, and the definition of PA household has changed to refer to a household which has both the SSI applicant or recipient, and at least one other household member who receives a PIM payment. Once we identify that an SSI applicant or recipient lives in a PA household, the applicant or recipient would not have to provide household expenses information.

Our change from every member to *any other* member receiving a PIM payment to meet the definition of a PA household further simplifies the development of living arrangements and ISM, reduces SSA's administrative costs and compliance costs during initial determinations and redeterminations for applicants and recipients living in PA households, and reduces ISM complexities that lead to payment errors. Removing the requirement that every member be in receipt of a PIM payment will help ensure that we reach more SSI applicants and recipients based on their need, especially in cases where one individual in a household was categorically ineligible for a PIM payment for reasons unrelated to their potential need. For example, the change to *any other* will save time for individuals, household members, and us, since we will no longer have to develop for the entire household once we identify one other person in the household receiving a PIM payment. We acknowledge that if the individual receiving the PIM payment leaves the household we would subsequently inquire if there is another household member also receiving a PIM payment, and this would impose a small administrative burden. However, this burden is not meaningfully different from those caused by other changes in circumstances that would lead us to verify whether the SSI recipient remains eligible for SSI benefits. We anticipate this final rule will still reduce administrative burden overall.

We also anticipate some qualitative costs. Specifically, because of our new definition of a ''public assistance household,'' the SSI applicant or recipient will now need to answer new questions and provide documentation about the public assistance they and others in their household receive, so we can accurately determine if they live in a ''public assistance household.'' As well, since SNAP is being added to the list of programs considered for PA household determinations, processing times may temporarily increase as we

[82] Annual Statistical Supplement, 2023—Summary of SSI. Available at: *https://www.ssa.gov/policy/docs/statcomps/supplement/2023/7a.html.*

[83] Because SNAP households are expected to spend about 30 percent of their own resources on food, the maximum monthly allotment is calculated by multiplying a household's net monthly income by 0.3 and subtracting the result from the maximum monthly allotment for the household size. See ''How much could I receive in SNAP benefits?'' at *https://www.fns.usda.gov/snap/recipient/eligibility.*

verify receipt of SNAP benefits. This additional information is a qualitative cost of the regulation, although ultimately, providing the information may be beneficial to the SSI applicant or recipient.

Additionally, the rule change may impose quantitative costs on us due to our increased need for additional development in certain circumstances. For instance, it is possible our regulatory change may incentivize current SSI recipients to change living arrangements to co-locate with family or friends who are receiving SNAP. This is similar to our current policy that requires SSI applicants and recipients to notify us of changes in their living arrangements. SSI applicants and recipients will need to ask ineligible spouses or parents whether their income was used to determine eligibility for, or the amount of, the SNAP benefits. If it was, and if this information is verified by SSA during the initial claim, we would exclude the income for deeming purposes in the SSI program.[84]

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this rule as meeting the criteria in 5 U.S.C. 804(2).

[84] See POMS SI 01320.141.

E.O. 13132 (Federalism)

We analyzed this rule in accordance with the principles and criteria established by E.O. 13132 and determined that the rule will not have sufficient federalism implications to warrant the preparation of a federalism assessment. We also determined that this rule will not preempt any State law or State regulation or affect the States' abilities to discharge traditional State governmental functions.

Regulatory Flexibility Act

We certify that this rule will not have a significant economic impact on a substantial number of small entities because it affects individuals only. Therefore, a regulatory flexibility analysis is not required under the Regulatory Flexibility Act, as amended.

Paperwork Reduction Act

The final rule requires minor revisions to our existing information collections to expand our definition of PA Household and include SNAP as an example of a PIM program. In addition, the application of the revisions to these rules causes a burden change to our currently approved information collections under the following information collection requests: 0960 0174, the SSA–8006, Statement of Living Arrangements, In Kind Support and Maintenance; 0960–0456, the SSA–8011, Statement of Household Expense and Contributions; and 0960–0529, the SSA–5062, Claimant Statement about Loan of Food or Shelter, and the SSA L5063–F3, Statement about Food or Shelter Provided to Another. We also anticipate a small burden reduction per response for the SSA 8006 (0960–0174) as respondents will not need to develop the responses about their household. In addition, we anticipate a 50% reduction in the number of respondents based on those who indicate they are part of a Public Assistance Household and who may not need to complete the follow-up forms SSA–5062, SSA L5063, SSA–8006, and SSA 8011. We anticipate this will result in a reduction in the overall burden for these information collections.

We published a notice of proposed rulemaking on September 29, 2023, at 88 FR 67148. In that notice, we solicited comments under the PRA on the burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and on ways to minimize the burden on respondents, including the use of automated collection techniques or other forms of information technology. The comments section above includes our responses to the PRA-related public comments we received under the NPRM.

The following chart shows the reduction in time burden information associated with the final rule:

BILLING CODE 4191–02–P

Totals	**389,528**		**88,820**			**$5,834,336*** **

* We based this figure on the average DI payments based on SSA's current FY 2024 data (https://www.ssa.gov/legislation/2024FactSheet.pdf); on the average U.S. citizen's hourly salary, as reported by Bureau of Labor Statistics data (https://www.bls.gov/oes/current/oes_nat.htm); as well as the combined theoretical wages for both DI Payments and Average U.S. Workers.

** We based this figure on the average FY 2024 wait times for field offices and hearings office, as well as by averaging both the average FY 2024 wait times for field offices and teleservice centers, based on SSA's current management information data.

*** This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. **There is no actual charge to respondents to complete the application**.

SSA submitted a single new Information Collection Request which encompasses revisions to information collections currently under OMB Numbers 0960-0174, 0960-0456, and 0960-0529

to OMB for the approval of the changes due to the final rule. After approval at the final rule stage, we will adjust the figures associated with the current OMB numbers for these forms to reflect the new burden.

As we have revised the associated burdens for the above-mentioned forms since we made revisions to the final rule which were not included at the NPRM stage, we are currently soliciting comment on the burden for the forms as shown in the charts above. If you would like to submit comments, please send them to the following locations:

BILLING CODE 4191–02–C

List of Subjects in 20 CFR Part 416

Administrative practice and procedure, Reporting and recordkeeping requirements, Supplemental Security Income (SSI).

The Commissioner of Social Security, Martin O'Malley, having reviewed and approved this document, is delegating the authority to electronically sign this document to Faye I. Lipsky, who is the primary **Federal Register** Liaison for SSA, for purposes of publication in the **Federal Register**.

Faye I. Lipsky,

Federal Register Liaison, Office of Legislation and Congressional Affairs, Social Security Administration.

For the reasons stated in the preamble, we amend 20 CFR chapter III, part 416, as follows:

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Subpart K—Income

■ 1. The authority citation for subpart K of part 416 continues to read as follows:

Authority: 42 U.S.C. 902(a)(5), 1381a, 1382, 1382a, 1382b, 1382c(f), 1382j, 1383, and 1383b; sec. 211, Pub. L. 93–66, 87 Stat. 154 (42 U.S.C. 1382 note).

■ 2. Amend § 416.1142 by revising paragraphs (a) introductory text, (a)(6) and (7) and adding paragraph (a)(8) to read as follows:

§ 416.1142 If you live in a public assistance household.

(a) Definition. For purposes of our programs, a public assistance household is one that has both an SSI applicant or recipient, and at least one other household member who receives one or more of the listed public income maintenance payments. These are payments made under—

* * * * *

(6) State or local government assistance programs based on need (tax credits or refunds are not assistance based on need);

(7) U.S. Department of Veterans Affairs programs (those payments based on need); and

(8) The Supplemental Nutrition Assistance Program (SNAP).

[FR Doc. 2024–08364 Filed 4–18–24; 8:45 am]

BILLING CODE 4191–02–P

DEPARTMENT OF JUSTICE

Bureau of Alcohol, Tobacco, Firearms, and Explosives

27 CFR Part 478

[Docket No. ATF 2022R–09; AG Order No. 5921–2024]

RIN 1140–AA57

Bipartisan Safer Communities Act Conforming Regulations

AGENCY: Bureau of Alcohol, Tobacco, Firearms, and Explosives, Department of Justice.

ACTION: Direct final rule.

SUMMARY: The Department of Justice (''Department'') is amending Bureau of Alcohol, Tobacco, Firearms, and Explosives (''ATF'') regulations to implement firearms-related definitions and requirements established by the Bipartisan Safer Communities Act (''BSCA'') and the NICS Denial Notification Act (''NDNA''). These statutes went into effect on June 25, 2022, and October 1, 2022, respectively. It is necessary to make conforming changes to ensure that ATF's regulations are current and consistent with the applicable statutes. For this reason, this direct final rule incorporates many of the BSCA and NDNA provisions that are applicable to ATF.

DATES: This final rule is effective on July 18, 2024, unless ATF receives any significant adverse comment by May 20, 2024. If ATF receives a significant adverse comment within the stated time that warrants revising the rule (as described under the Public Participation heading in the **SUPPLEMENTARY INFORMATION** section of this regulation), the Department will publish notification in the **Federal Register,** withdrawing this direct final rule before its effective date.

ADDRESSES: You may submit comments, identified by docket number ATF 2022R–09, by either of the following methods—

- *Federal eRulemaking portal: www.regulations.gov.* Follow the instructions for submitting comments.
- *Mail:* ATF Rulemaking Comments, Mail Stop 6N–518, Office of Regulatory Affairs, Enforcement Programs and Services; Bureau of Alcohol, Tobacco, Firearms, and Explosives; 99 New York Ave. NE, Washington, DC 20226; *ATTN: ATF 2022R–09.*

Instructions: All submissions received must include the agency name and docket number (ATF 2022R–09) for this direct final rule. All properly completed comments received through either of the methods described above will be posted without change to the Federal eRulemaking portal, *www.regulations.gov.* This includes any personal identifying information (''PII'') submitted in the body of the comment or as part of a related attachment. Commenters who submit through the Federal eRulemaking portal and who do not want any of their PII posted on the internet should omit PII from the body of their comment or in any uploaded attachments. Commenters who submit through mail should likewise omit their PII from the body of the comment and provide any PII on the cover sheet only. For detailed instructions on submitting comments, the scope of comments for this rulemaking, and additional information on the rulemaking process,

see the ''Public Participation'' heading of the **SUPPLEMENTARY INFORMATION** section of this rule.

FOR FURTHER INFORMATION CONTACT: Helen Koppe, Office of Regulatory Affairs, Enforcement Programs and Services; Bureau of Alcohol, Tobacco, Firearms, and Explosives; U.S. Department of Justice; 99 New York Ave. NE, Washington, DC 20226; or by telephone at (202) 648–7070 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

I. Background

The Attorney General is responsible for enforcing the Gun Control Act of 1968 (''GCA''), as amended. This responsibility includes the authority to promulgate regulations necessary to enforce the provisions of the GCA. *See* 18 U.S.C. 926(a). Congress and the Attorney General have delegated the responsibility for administering and enforcing the GCA to the Director of ATF, subject to the direction of the Attorney General and the Deputy Attorney General. *See* 28 U.S.C. 599A(b)(1), (c)(1); 28 CFR 0.130(a)(1)–(2); Treas. Order No. 221(2)(a), (d), 37 FR 11696–97 (June 10, 1972). Accordingly, the Department and ATF have promulgated regulations to implement the GCA. *See* 27 CFR part 478.

The Bipartisan Safer Communities Act (''BSCA'') (Pub. L. 117–159) was signed into law and became effective on June 25, 2022. It made several changes to the mental health services system, school safety programs, and gun safety laws. Among other provisions, the BSCA requires enhanced background checks for firearm purchasers under 21 years old, addresses Federal firearms license requirements, authorizes funding for State red flag laws and other crisis intervention programs, creates new Federal offenses for firearms trafficking and straw purchases, and partially closes the ''boyfriend loophole,'' which previously excluded domestic violence offenses involving dating relationships from firearms restrictions that apply to spouses convicted of similar offenses. This direct final rule serves only to incorporate many of these new statutory provisions into existing ATF firearms regulations.

Federal law prohibits persons meeting certain criteria from receiving any firearm or ammunition that has been shipped or transported in interstate or foreign commerce, *see* 18 U.S.C. 922(g), (n), and makes it unlawful to sell or otherwise dispose of any firearm or ammunition to any person who is known or reasonably believed to meet certain criteria, *see* 18 U.S.C. 922(d).[1] The Brady Handgun Violence Prevention Act of 1993 (''Brady Act'') (Pub. L. 103–159), as amended, established a background check system that federally licensed manufacturers, dealers, and importers of firearms—otherwise known as Federal firearms licensees (''FFLs''), *see* 18 U.S.C. 923—must, unless the transfer is excepted, contact for an immediate response on whether transfer of a firearm to, or receipt of a firearm by, a prospective transferee would violate 18 U.S.C. 922 or State, local, or Tribal law. Consistent with the Brady Act's requirements, the Federal Bureau of Investigation (''FBI'') operates the National Instant Criminal Background Check System (''NICS'') for FFLs to use to initiate a background check in connection with a proposed transfer of a firearm to a non-licensee.

When an FFL contacts NICS to initiate a background check, NICS searches three nationally held electronic systems—the National Crime Information Center (''NCIC''),[2] the Interstate Identification Index,[3] and the NICS Index [4]—that may reveal the existence of a record demonstrating that the person is prohibited from receiving or possessing firearms. If the query of those three systems results in no matching records, NICS provides a ''Proceed'' response to the FFL. If a record demonstrates that the person is prohibited from receiving or possessing a firearm, NICS provides the FFL with a ''Denied'' response. For those transactions for which NICS cannot provide a definitive response of either ''Proceed'' or ''Denied'' and must conduct additional research to determine whether the prospective transferee is disqualified from receiving or possessing a firearm by Federal or State law, the transaction will be placed in a ''Delayed'' status. If NICS has not notified the FFL that the transferee is prohibited from receiving or possessing a firearm within three business days of when the FFL initiated the NICS check, the FFL is not federally prohibited from transferring the firearm beginning on the day after the third business day. *See* 18 U.S.C. 922(t)(1), 27 CFR 478.102, 28 CFR 25.6. However, the BSCA now provides that, in the case of a person under 21 years old, if NICS notifies the FFL that cause exists to further investigate possible disqualifying juvenile records, an FFL may not transfer the firearm until 10 business days have elapsed [5] since the FFL contacted NICS. *See* 18 U.S.C. 922(t)(1)(C).

As described below, the BSCA also added new disqualifying factors to existing restrictions on the transfer of firearms and ammunition and set forth additional requirements for transfers of firearms to persons under the age of 21, including enhanced contacts to State and local entities. The BSCA provisions affecting NICS are discussed in this rulemaking only to the extent that they inform FFLs of the requirements they must follow during prospective firearms transfers. Such FFL transfer requirements are the subject of ATF regulations that are among those amended in this rule. *See* 27 CFR 478.102. As noted above, the Department regulates and manages NICS processes, such as notifications and responses, under the FBI's authority, not ATF's.

The BSCA also necessitated conforming changes to the Firearms Transaction Record, ATF Form 4473 (''Form 4473''). FFLs are required to complete a Form 4473 as part of a firearms transaction involving a non-licensee, and some of the information recorded on the form must be submitted to NICS for the background check. ATF received emergency approval, beginning December 9, 2022, from the Office of Management and Budget (''OMB'') to issue a revised Form 4473 (OMB No. 1140–0020) that incorporates conforming changes so that FFLs could begin complying with the information-collecting requirements set forth in the BSCA. In August 2023, OMB approved the new form for another three years.

In addition, on March 15, 2022, the President signed into law the Consolidated Appropriations Act of

[1] Prior to passage of the BSCA, 18 U.S.C. 922(d) made it unlawful to sell or otherwise dispose of a firearm or ammunition to persons meeting the same criteria as provided in 18 U.S.C. 922(g) and (n). As discussed further in this preamble, the BSCA added new criteria to section 922(d) to match new prohibitions on straw purchases and firearms trafficking in 18 U.S.C. 932 and 933.

[2] The NCIC is a national criminal justice information system linking criminal (and authorized non-criminal) justice agencies located in the 50 states, the District of Columbia, U.S. territories and possessions, and select foreign countries to facilitate the cooperative sharing of criminal justice information. The NCIC provides a system to receive and maintain information contributed by participating agencies relating to criminal justice and national security.

[3] The Interstate Identification Index is part of the FBI's Next Generation Identification system and is used to search for available Federal, State, Tribal, and local criminal history records such as arrests, charges, and case dispositions.

[4] The NICS Index consists of entries from Federal, State, Tribal, and local agencies relating to persons who are prohibited from receiving or possessing firearms under Federal or State law.

[5] As discussed further below in this preamble, this delay is up through the tenth business day unless the FFL receives a ''Proceed'' or ''Denied'' response during that time.

2022 (Pub. L. 117–103), which included the NICS Denial Notification Act of 2022 (''NDNA''). The NDNA requires the Attorney General to report to applicable State, local, or Tribal law enforcement and, where practicable, the relevant State, local, or Tribal prosecutors, if a person has attempted to acquire a firearm and been denied pursuant to a NICS background check. NICS must provide such a report within 24 hours after NICS denies a firearm transfer and include the Federal, State, local or Tribal prohibition, the date and time of the notice, the location of the licensee where the attempted firearm transfer was sought, and the person's identity. This direct final rule incorporates relevant portions of the new statutory language into existing ATF regulations to account for the addition of State, local, and Tribal law enforcement reporting requirements in the NDNA.

In summary, this direct final rule makes conforming updates to ATF regulations to incorporate many of the firearm-related statutory changes made by the BSCA and the NDNA to ensure that the regulations are consistent with the statutes and can be relied upon by the public. The Department has also published a separate proposed ATF rulemaking, ''Definition of 'Engaged in the Business' as a Dealer in Firearms,'' that proposed implementing the BSCA provisions related to what it means to be ''engaged in the business'' as a wholesale or retail firearms dealer (RIN 1140–AA58; 88 FR 61993 (Sept. 8, 2023)). The Department published the final rule, ''Definition of 'Engaged in the Business' as a Dealer in Firearms,'' in the **Federal Register** of April 19, 2024 (FR Doc. 2024–07838). In addition, the Department anticipates issuing three rules that implement BSCA and NDNA provisions related to FBI's operations.[6]

II. Direct Final Rule

With the enactment of the BSCA on June 25, 2022, a number of amendments to the GCA went into effect. This rule updates ATF's corresponding regulatory provisions within title 27, Code of Federal Regulations, part 478, to conform with the new statutory amendments. It also makes minor revisions to incorporate the NDNA's State, local, and Tribal law enforcement authority notification requirements.

A. Changes To Disqualifying Criteria and Civil Penalty Provisions in Conformity With 18 U.S.C. 922(d) and (t)

18 U.S.C. 922(d) provides that it is unlawful for any person to sell or otherwise dispose of a firearm or ammunition to another person if the transferor knows, or has reasonable cause to believe, that the prospective transferee is disqualified as specified in that subsection. As amended by the BSCA, 18 U.S.C. 922(d) now specifies that events occurring when the person was a juvenile are disqualifying, except that the prohibition against the sale or disposition of firearms and ammunition to persons who have been adjudicated as a ''mental defective,'' *see* GCA, Public Law 90–618, sec. 102, 82 Stat. 1213, 1220 (1968), or committed to any mental institution applies only to persons who were adjudicated or committed at 16 years of age or older, 18 U.S.C. 922(d)(4).

To conform to the statutory changes in the BSCA, this rule adds the phrase ''including as a juvenile'' to the end of the introductory language in 27 CFR 478.32(d) and 478.99(c). This rule is also adding the phrase ''at 16 years of age or older'' to the end of paragraph (d)(4) of § 478.32 and the end of paragraph (c)(4) of § 478.99. Paragraph (d) of § 478.32 mirrors 18 U.S.C. 922(d) and prohibits the sale and disposition of firearms and ammunition to persons meeting certain criteria. Paragraph (c) of § 478.99 also mirrors 18 U.S.C. 922(d) and sets forth prohibitions against sales or deliveries by FFLs to prohibited categories of persons. Because of the BSCA amendments to 18 U.S.C. 922(d), the Department is amending both corresponding regulatory provisions. These revisions bring the existing language in the regulations into conformity with the revised statutory provisions they mirror.

The BSCA added new offenses for ''straw purchasing of firearms'' and ''trafficking in firearms'' at 18 U.S.C. 932 and 933, respectively (discussed in detail under Section II.C of this preamble), which are accompanied by additions to the list of prohibitions under 18 U.S.C. 922(d) as new paragraphs (10) and (11). These additional prohibitions make it unlawful to sell or otherwise dispose of firearms or ammunition to persons who intend to sell or otherwise dispose of the firearms or ammunition in furtherance of a ''felony,'' a ''Federal crime of terrorism,'' or a ''drug trafficking offense,'' as those terms are defined in 18 U.S.C. 932(a), or who intend to sell or otherwise dispose of the firearms or ammunition to a person disqualified by any of the criteria listed under 18 U.S.C. 922(d). As a result of these additions to 18 U.S.C. 922(d), the Department is adding the same prohibitions as new 27 CFR 478.32(d)(10) and (11) and 478.99(c)(10) and (11). As noted above, paragraph (d) of § 478.32 mirrors 18 U.S.C. 922(d) and prohibits the sale and disposition of firearms and ammunition to persons meeting certain criteria. Paragraph (c) of § 478.99 also mirrors 18 U.S.C. 922(d) and sets forth prohibitions against sales or deliveries by FFLs to prohibited categories of persons. Because of the BSCA amendments to 18 U.S.C. 922(d), the Department is also adding to 27 CFR 478.11 new definitions of ''drug trafficking crime,''[7] ''Federal crime of terrorism,''[8] and ''felony''[9] to mirror the definitions enacted by the BSCA in 18 U.S.C. 932(a). These revisions bring the existing language in the regulations into conformity with the revised statutory provisions they mirror.

The Department is also making minor revisions to the civil penalty provisions in 27 CFR 478.73(a) to reflect the statutory amendments to 18 U.S.C. 922(d) discussed above, as well as changes the BSCA made to 18 U.S.C. 922(t). Section 922(t) sets forth the requirement that FFLs initiate a background check with NICS before they transfer firearms (the process is discussed in more detail in Section II.D of this preamble). Although NICS is operated by the FBI, which has promulgated regulations on NICS use and request processes, ATF regulations (1) set forth the requirement that licensees must conduct background checks before transferring firearms, and (2) establish when they may subsequently transfer a firearm. These ATF regulations are affected by the BSCA changes regarding prohibited persons, background checks, and timing of transfers in under-21 transactions. This rule is updating the ATF regulations, and the FBI is updating its corresponding NICS regulations in separate rules.

[6] *See* DOJ, *Statement of Regulatory Priorities* 8–10 (Fall 2023), *http://www.reginfo.gov/public/jsp/eAgenda/StaticContent/202310/Statement_1100_DOJ.pdf* (outlining the Department's semiannual regulatory agenda).

[7] ''Drug trafficking crime'' means ''(a) Any felony punishable under the Controlled Substances Act (21 U.S.C. 801 *et seq.*), the Controlled Substances Import and Export Act (21 U.S.C. 951 *et seq.*), or 46 U.S.C. chapter 705; and (b) Any felony punishable under the law of a State for which the conduct constituting the offense would constitute a felony punishable under the statutes cited in paragraph (a) of this definition.'' *See* 18 U.S.C. 932(a)(1) (citing 18 U.S.C. 924(c)(2)).

[8] ''Federal crime of terrorism has the meaning given that term in 18 U.S.C. 2332b(g)(5).'' *See* 18 U.S.C. 932(a)(2).

[9] ''Felony'' means ''[a]ny offense under Federal or State law punishable by imprisonment for a term exceeding 1 year.'' *See* 18 U.S.C. 932(a)(3).

Prior to the enactment of the BSCA, a unique identification number would be provided if NICS determined that the receipt of a firearm would not violate subsections 922(g) or (n), which prohibit certain qualifying persons from shipping, transporting, or receiving firearms. Relevant to this rulemaking, the BSCA revised subsection 922(t)(2) to state that NICS will provide a unique identification number for a transfer if the system determines that ''transfer or'' receipt of a firearm would not violate 18 U.S.C. 922(d) in addition to 922(g) and (n). And, consistent with 922(t)(2) as amended, the BSCA also revised subsection 922(t)(5), which authorizes the Attorney General to impose civil penalties when an FFL knowingly fails to comply with the background check requirements in subsection 922(t)(1), to refer to the ''transfer'' of a firearm and to 922(d). In addition, the NDNA added that, as a condition of NICS issuing a unique identification number, receipt of a firearm must not violate local or Tribal law. The Department is revising 27 CFR 478.73(a), which sets forth the basis for civil penalty actions against FFLs, to conform to these changes to the statute.

The BSCA also includes criminal penalty provisions that amend 18 U.S.C. 924(h) and (k). As revised by the BSCA:

- 18 U.S.C. 924(h) makes it unlawful for a person to transfer or receive a firearm or ammunition—or attempt or conspire to do so—knowing or having reasonable cause to believe that it will be used to commit any felony, a Federal crime of terrorism, a drug trafficking crime (as such terms are defined in 18 U.S.C. 932(a)), or a crime under the Arms Export Control Act (22 U.S.C. 22751 *et seq.*), the Export Control Reform Act of 2018 (50 U.S.C. 4081 *et seq.*), the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*), or the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1901 *et seq.*). Under this provision, persons who engage in such unlawful actions, as described, are subject to fines under title 18 of the United States Code, or imprisonment for not more than 15 years, or both.
- 18 U.S.C. 924(k) makes it illegal for a person to smuggle or knowingly bring into the United States a firearm or ammunition with intent to engage in or promote conduct that is punishable under the Controlled Substances Import and Export Act (21 U.S.C. 951, *et seq.*) or under 46 U.S.C. chapter 705 (pertaining to Maritime Drug Law Enforcement); or that constitutes any felony, a Federal crime of terrorism, or a drug trafficking crime (as defined in 18 U.S.C. 932(a)). This offense also includes smuggling or knowingly taking a firearm or ammunition out of the United States with intent to engage in or promote conduct punishable under the Controlled Substances Import and Export Act (21 U.S.C. 951, *et seq.*) or under 46 U.S.C. chapter 705 (pertaining to Maritime Drug Law Enforcement), if the conduct had occurred within the United States; or that would constitute a felony or a Federal crime of terrorism (as such terms are defined in 18 U.S.C. 932(a)) for which the person may be prosecuted in a court of the United States, if the conduct had occurred within the United States. Under this provision, persons who engage in such unlawful actions are subject to fines under title 18 of the United States Code, or imprisonment for not more than 15 years, or both.

Existing ATF regulations do not include every criminal provision of the GCA, and as a result, the Department is not currently amending its regulations to reflect these particular criminal provisions in the BSCA and is including them in this discussion solely for the public's awareness.

B. Misdemeanor Crimes of Domestic Violence

The BSCA revises pre-existing prohibitions against selling or disposing of a firearm or ammunition to a person who has been convicted of a misdemeanor crime of domestic violence, and against such a person receiving or possessing a firearm or ammunition. *See* 18 U.S.C. 921(a)(33), 922(d)(9), and 922(g)(9). Previously, the domestic violence prohibitions applied only to persons convicted of crimes committed by a current or former spouse, parent, or guardian of the victim; by a person sharing a child in common with the victim; by a person who is cohabitating with or has cohabitated with the victim as a spouse, parent, or guardian; or by a person ''similarly situated'' to a spouse, parent, or guardian of the victim. 18 U.S.C. 921(a)(33) (2020). This left open the so-called ''boyfriend loophole,'' because convictions for misdemeanor crimes of domestic violence against a non-married dating partner who did not cohabitate or otherwise share a spouse-like relationship with the victim did not preclude the convicted person from receiving or possessing firearms or ammunition.

The BSCA narrows this gap by including within these prohibitions persons who are, or were recently, in a dating relationship with the victim and who have been convicted of a misdemeanor crime of domestic violence after June 25, 2022. The statute defines ''dating relationship'' to mean a relationship between persons who have or have recently had a continuing serious relationship of a romantic or intimate nature. 18 U.S.C. 921(a)(37)(A). It also provides factors that must be considered when determining whether a relationship constitutes a dating relationship: the length of the relationship, the nature of the relationship, and the frequency and type of interaction between the persons involved in the relationship. *Id.* 921(a)(37)(B). A ''casual acquaintanceship or ordinary fraternization in a business or social context'' is not a dating relationship. *Id.* 921(a)(37)(C).

A person will not be considered to have been convicted of a misdemeanor crime of domestic violence against a person in a dating relationship if the conviction has been expunged or set aside, or is an offense for which the person has been pardoned or has had firearm rights restored, unless the expungement, pardon, or restoration of rights expressly provides that the person may not ship, transport, possess, or receive firearms. In addition, the statutory prohibition does not apply to persons who have only one conviction of a misdemeanor crime of domestic violence against a person in a dating relationship if five years have elapsed from the later of their conviction or the completion of their custodial or supervisory sentence (if any), provided that the person has not subsequently been convicted of (a) another such offense, (b) a different offense that has as an element the use or attempted use of physical force or the threatened use of a deadly weapon, or (c) any other offense that would disqualify the person from purchasing or possessing firearms under 18 U.S.C. 922(g). More than one conviction for an offense of domestic violence against a person in a dating relationship committed since June 25, 2022, regardless of whether with the same or a different partner, disqualifies the person under Federal law from purchasing or possessing firearms and precludes the person from restoration pursuant to 18 U.S.C. 921(a)(33)(C).

To incorporate the BSCA amendments relating to these provisions, the Department is amending ATF regulations to add a definition of ''dating relationship'' to 27 CFR 478.11. This definition mirrors the language that the BSCA added to 18 U.S.C. 921(a)(37). In addition, the Department is adding to the end of the definition of ''misdemeanor crime of domestic violence,'' paragraph (a)(3), the phrase ''or by a person who has a current or recent former dating relationship with the victim.'' This language is identical

to the language in 18 U.S.C. 921(a)(33)(A)(ii). In that same definition, the Department is making minor technical edits to paragraph (a)(3) to bring this part of the definition into direct alignment with the revised statutory language at 18 U.S.C. 921(a)(33)(C), which was added by the BSCA and specifically lists Federal, State, Tribal and local offenses. Further, the Department is revising paragraph (a)(1) of the regulatory definition to expressly align the regulation with the existing statutory language in 18 U.S.C. 921(a)(33)(A)(i), which also explicitly states that the definition of a ''misdemeanor crime of domestic violence'' involves a misdemeanor under Federal, State, Tribal, or local law. Notably, the NDNA specifically amended section 921(a)(33)(A)(i) to include misdemeanors under local law. Currently, paragraph (a)(1) of the regulatory definition provides that the term includes an offense under Federal and State law and only includes a parenthetical that less directly incorporates Tribal convictions. These changes to the definition of ''misdemeanor crime of domestic violence'' bring the regulatory language into alignment with 18 U.S.C. 921(a)(33)(A)(i) and (C), as amended by the BSCA and the NDNA.

The Department is also adding a new paragraph (d) to the regulatory definition of ''misdemeanor crime of domestic violence'' to reflect the statutory changes discussed above as to when a person will, or will not, be considered convicted of a misdemeanor crime of domestic violence against a person in a dating relationship. *See* 18 U.S.C. 921(a)(33)(C).

C. Straw Purchasing and Firearms Trafficking

The BSCA creates two new criminal offenses, for ''straw purchasing of firearms'' and for ''trafficking in firearms,'' as mentioned in Section II.B of this preamble. *See* 18 U.S.C. 932 and 933. The ''straw purchasing'' offense makes it illegal for any person to knowingly purchase, or conspire to purchase, a firearm on behalf of another person knowing or having reasonable cause to believe the person for whom they are making the purchase:

- is prohibited under 18 U.S.C. 922(d);
- intends to use, carry, possess, sell, or dispose of the firearm in furtherance of any felony, a Federal crime of terrorism, or a drug trafficking crime (as those terms are defined in 18 U.S.C. 932(a)); or
- intends to sell or dispose of the firearm to a section 922(d)-prohibited person or a person intending to use, carry, possess, sell, or dispose of the firearm in furtherance of any felony, a Federal crime of terrorism, or a drug trafficking crime (as those terms are defined in 18 U.S.C. 932(a)).

The ''firearms trafficking'' offense makes it illegal for any person to (1) ship, transport, cause to be transported, transfer, or otherwise dispose of a firearm knowing or having reasonable cause to believe that the use, carrying, or possession of a firearm by the recipient would constitute a felony (as defined in 18 U.S.C. 932(a)); or (2) receive a firearm from another person knowing or having reasonable cause to believe the receipt would constitute such a felony. The ''firearms trafficking'' offense also makes it illegal for a person to attempt or conspire to transfer or receive a firearm in the manners just described. Accordingly, this regulation further amends 27 CFR 478.32 to add new paragraphs (g) and (h) and further amends 27 CFR 478.99 to add new paragraphs (f) and (g) that mirror 18 U.S.C. 932 and 933. In addition, the Department is adding the word ''purchases'' into the headings of both provisions because the prohibition on straw purchasing in 18 U.S.C. 932 prohibits certain firearms purchases.

As mentioned above, the BSCA establishes criminal penalties for the new ''straw purchases'' and ''firearms trafficking'' offenses. Both the ''straw purchases'' and ''firearms trafficking'' offenses are subject to broad criminal forfeiture provisions that provide that any person convicted of either offense shall forfeit any proceeds or property obtained, directly or indirectly, as the result of such offenses, as well as any property used or intended to be used, in any manner, to facilitate the violation. 18 U.S.C. 934. Such property may include firearms and ammunition, in which case section 924(d) applies.[10] *Id.* The BSCA also provides that a defendant who derives profits or other proceeds from a straw purchase or firearms trafficking offense under 18 U.S.C. 932 or 933 may be fined not more than the greater of the fine otherwise authorized under part I of title 18 of the United States Code or the amount equal to twice the gross profits or other proceeds of the offense. 18 U.S.C. 934(b).

To incorporate these BSCA seizure and forfeiture provisions into ATF regulations, the Department is amending ATF regulations at 27 CFR 478.152, which governs seizure and forfeiture, to add paragraphs (d) and (e). This rule is adding paragraphs (d) and (e) to incorporate and mirror the statutory provisions on fines and the forfeiture of firearms, ammunition, and other property or proceeds used in, derived from, constituting, or intended to be used to commit or facilitate commission of ''straw purchases'' or ''firearms trafficking'' and the seizure of profits provisions of the new ''straw purchases'' and ''firearms trafficking'' offenses in 18 U.S.C. 934.

In addition, the BSCA establishes the maximum term of imprisonment for a ''straw purchase'' offense at 25 years, 18 U.S.C. 932(c), and for ''trafficking in firearms'' at 15 years, 18 U.S.C. 933(b), and all other unlawful transfer and possession of firearms offenses under 18 U.S.C. 922(d) and 922(g) now carry a maximum term of not more than 15 years' imprisonment, 18 U.S.C. 924(a)(8). As previously mentioned, existing ATF regulations do not include every criminal provision of the GCA and, as a result, the Department is not currently amending its regulations to reflect these particular criminal provisions in the BSCA. The Department provides a discussion above on these amendments to the statutory penalty provisions solely to inform the public that they apply in this context.

D. Under-21 Transactions

The BSCA made changes to 18 U.S.C. 922(t) and 34 U.S.C. 40901(*l*) to expand the records searched for background checks involving persons under the age of 21 that could preclude approval of a firearm or ammunition transfer to such persons. Related to this amendment, possibly disqualifying juvenile records are subject to further investigation, and the BSCA provides an additional investigatory period, if needed, for NICS to conduct the enhanced records checks for criminal, mental health, or other relevant juvenile records. As discussed in Section II.B of this preamble, the FBI operates NICS and FBI regulations govern NICS use and request processes, while ATF regulations (1) set out the requirement that licensees must conduct

[10] 18 U.S.C. 924(d) authorizes seizure and forfeiture of any firearm or ammunition involved or used in any knowing violation of subsection (a)(4), (a)(6), (f), (g), (h), (i), (j), or (k) of 18 U.S.C. 922, or knowing importation or bringing into the United States or any possession thereof any firearm or ammunition in violation of section 18 U.S.C. 922(l), or knowing violation of 18 U.S.C. 924, 932, or 933, or willful violation of any other provision of chapter 44 of title 18 of the U.S. Code, or any rule or regulation promulgated thereunder, or any violation of any other criminal law of the United States. It also authorizes seizure and forfeiture of any firearm or ammunition intended to be used in any offense listed in section 924(d)(3) (which includes sections 932 (straw purchasing of firearms) and 933 (trafficking in firearms)). Section 924(d) also provides that all provisions of the Internal Revenue Code of 1986 relating to seizure, forfeiture, and disposition of firearms, as defined in section 5845(a) of that Code, shall apply.

background checks before transferring firearms and (2) establish when they may subsequently transfer a firearm. These regulatory provisions are outdated in light of the BSCA changes to the GCA regarding background checks and timing of transfers in under-21 transactions. The Department is updating ATF's regulations on FFL responsibilities with regard to NICS through this rule, and is also updating the related FBI NICS regulations in separate rules. For purposes of understanding the regulatory revisions the Department is making in this rule, the Department is providing a synopsis of the BSCA changes affecting NICS.

When a NICS transaction is initiated, regardless of the age of the prospective transferee, NICS searches three FBI systems, as noted above, to determine if the person is disqualified from possessing or receiving firearms under 18 U.S.C. 922(d), (g), or (n), or under State, local, or Tribal law. If a possibly disqualifying record results from the search, NICS provides a ''Delayed'' status and advises the FFL that the transfer should not proceed pending receipt of a follow-up ''Proceed'' response from NICS or the expiration of three business days, whichever occurs first. *See* 28 CFR 25.6. State, local, or Tribal laws may impose a separate waiting period—or require a ''Proceed'' response—before an FFL can lawfully transfer a firearm.

The BSCA now requires enhanced NICS background checks on transactions for which the prospective firearm transferee is under 21 years of age.[11] With respect to these enhanced background checks of under-21 transactions, Congress imposed two overarching requirements upon NICS via the BSCA. First, in addition to the traditional NICS check of relevant FBI systems, NICS is required to conduct additional outreach to three specified types of State and local entities to determine whether the prospective transferee has a ''possibly disqualifying juvenile record'' under 18 U.S.C. 922(d). *See* 34 U.S.C. 40901(*l*).

Second, beyond the possibility of a three-business-day investigatory period already allowed for a NICS transaction as noted above, the BSCA provides for an additional investigatory period, if needed, as part of an under-21 transaction, up to a total of ten business days (the traditional three business days described above plus up to an additional seven business days for further investigation), before an FFL may transfer a firearm to a person under 21. *See* 18 U.S.C. 922(t)(1)(C), 34 U.S.C. 40901(*l*)(3). The additional investigatory period applies if NICS determines that there is cause to further investigate whether the prospective transferee has a possibly disqualifying juvenile record under 18 U.S.C. 922(d). *See* 18 U.S.C. 922(t)(1)(C); 34 U.S.C. 40901(*l*)(3). NICS is required to notify the FFL no later than the end of the third business day if the additional investigatory period is needed. *See* 34 U.S.C. 40901(*l*)(2).

The BSCA amended 18 U.S.C. 922(t) to provide that, for under-21 transactions, where cause exists (in the first three business days) to investigate further whether the prospective transferee has a possibly disqualifying juvenile record under 18 U.S.C. 922(d), and the FFL is notified that such cause exists, the FFL may not transfer a firearm to the prospective transferee during the investigatory period without receiving a follow-up ''Proceed'' response from the system, or allowing the elapse of up to ten business days from the date the background check was initiated, whichever occurs first. The permissible transfer date for an under-21 transaction on which the FFL has been notified that there is cause for further investigation, therefore, is now the day after the tenth business day, in the absence of a follow-up ''Proceed'' response.

Accordingly, the Department is making amendments to conform ATF's regulations that instruct FFLs on the requirement to conduct NICS checks and when they may subsequently transfer a firearm with the above-described provisions of the BSCA for under-21 transactions. The Department is amending 27 CFR 478.102(a)(2) and (3) by adding information on a possible further investigatory response from NICS for transferees under 21 years old, how that affects the timing of the possible transaction, and revising the examples to distinguish between the standard background check investigatory period and a potential additional investigatory period for a transferee who is under 21 years old.

E. Updates to Recordkeeping Requirements

The Department is also amending 27 CFR 478.124(c)(1) to reflect the BSCA and NDNA statutory amendments by adding additional information requirements for transaction records. Section 478.124 covers firearms transaction records that licensees are required to keep for transactions with nonlicensees. Paragraph (c)(1) of § 478.124 establishes that, for each transaction, the licensee must have a transferee fill out a Form 4473 with information relevant to conducting a background check as well as recording the transfer and certifying that the transferee is not a prohibited person. In accordance with the new ''straw purchase'' and ''firearms trafficking'' prohibitions and additional transfer prohibitions included in the BSCA, the Department is adding language to the transferee certification portion of the form, whereby the transferee will certify that they do not intend to purchase or acquire a firearm for sale or other disposition to a prohibited person or in furtherance of a felony, Federal crime of terrorism, or a drug trafficking offense. These provisions requiring that the Form 4473 reflect this information implement new subsections (d)(10) and (d)(11) of 18 U.S.C. 922, which make it unlawful for a person to transfer a firearm to another if the transferor has reasonable cause to believe the transferee intends to sell or otherwise dispose of the firearm to a prohibited person or in furtherance of a felony, Federal crime of terrorism, or a drug trafficking offense. These BSCA provisions were already incorporated into the certification on ATF Form 4473, as described above.

The NDNA requires the Attorney General to report when NICS issues a denial of a firearm transfer pursuant to 18 U.S.C. 922(t) to the local law enforcement authorities (as defined in 18 U.S.C. 921(a)(36)) of the State or Tribe where the person sought to acquire the firearm, or, if different, the local law enforcement authorities of the State or Tribe where the person resides. Moreover, as discussed in Section II.D of this preamble, the BSCA requires NICS to contact certain State and local authorities when a licensee contacts NICS regarding a proposed transfer of a firearm to a person under 21 years old. The Department is amending § 478.124(c)(1) to require additional information on the transferee's residence address (to add whether they reside in city limits or not) as necessary to identify the record locations that must be searched pursuant to the BSCA and NDNA, and, as necessary, for NICS to notify the ''local law enforcement authority'' where the transferee resides when a transfer is denied, pursuant to the NDNA (18 U.S.C. 925B). The revised Form 4473 already includes a question requesting this city limits information from potential transferees; this rule will require FFLs to collect that information from potential transferees on the Form 4473.

The NDNA requirements for NICS background checks of, and reports to,

[11] Under Federal law, persons who are at least 18 years of age are of lawful age to purchase shotguns and rifles; however, some States set a higher minimum age under State law. *See* 18 U.S.C. 922(b).

local and Tribal law enforcement also include a new definition of ''local law enforcement authority'' added to 18 U.S.C. 921(a)(36), and the Department is adding this definition to 27 CFR 478.11 as well. The Department is also including a minor technical revision to 27 CFR 478.124(c)(1) to update references to ''INS'' to references to ''DHS.'' Although the relevant statute refers to the INS, that agency no longer exists, and the Department is therefore taking this opportunity to update the regulation to refer to DHS, the successor agency for that function.

Because of the BSCA and NDNA changes described above, the Department is also making technical revisions to paragraph (f) of § 478.124, which requires nonlicensees, among other provisions, to submit a Form 4473 to an FFL if they are acquiring firearms by other than an over-the-counter transaction as permitted by 18 U.S.C. 922(c). The regulations refer to the same Form 4473 whether the person is acquiring a firearm under § 478.124(c) or (f); therefore, the technical revisions the Department is making to § 478.124(f) that describe what the Form 4473 must show as submitted by the transferee are the same as those described for § 478.124(c)(1). As described above, these technical changes to conform with the BSCA and NDNA include that the Form 4473 reflect the transferee's residence address (including county or similar political subdivision and whether they reside within the city limits) and certification that the transferee does not intend to purchase or acquire a firearm for sale or other disposition to a prohibited person or in furtherance of a felony, Federal crime of terrorism, or a drug trafficking offense. Other minor revisions to § 478.124(f) include adding ''sex,'' ''transferee's country of citizenship,'' ''the transferee's DHS-issue alien number or admission number'' and ''the transferee's State of residence'' to the list of information that the Form 4473 must include when submitted by the transferee. These changes are to ensure parity between § 478.124(c)(1) and (f).

III. Statutory and Executive Order Review

A. Executive Orders 12866, 13563, and 14094

Executive Order 12866 (''Regulatory Planning and Review'') directs agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 (''Improving Regulation and Regulatory Review'') emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. Executive Order 14094 (''Modernizing Regulatory Review'') amends section 3(f) of Executive Order 12866.

OMB has determined that this rule is not a ''significant regulatory action'' under Executive Order 12866, as amended by Executive Order 14094, and it is not a significant action under section 3(f)(1) of Executive Order 12866.

The BSCA requires enhanced background checks for firearm purchasers under 21 years old, clarifies Federal firearms license requirements, authorizes funding for State red flag laws and other crisis intervention programs, creates new Federal offenses for arms trafficking and straw purchases, and partially closes the ''boyfriend loophole,'' which previously excluded domestic violence offenses involving dating relationships from firearms restrictions equivalent with those involving a spouse. The NDNA requires the Attorney General to report to State, local, and Tribal law enforcement when NICS provides a notice pursuant to 18 U.S.C. 922(t) that the receipt of a firearm by a person seeking to receive a firearm in their jurisdiction (or living in their jurisdiction and seeking a firearm from elsewhere) would violate 18 U.S.C. 922(g) or (n). This direct final rule merely incorporates the new statutory provisions into existing ATF firearms regulations (the related revisions to the FBI NICS regulations will be implemented in separate rules). Upon review of these new provisions, ATF has determined that costs associated with this rule are largely costs associated with updating ATF Form 4473 to align the questions and information regarding background checks on that form with the new statutory requirements. ATF Form 4473 was updated through OMB to align with the new requirements in December 2022 and the form was approved for another three years in August 2023. This rule does not require further updates to the form.

B. Executive Order 13132

This regulation will not have substantial direct effects on the States, the relationship between the Federal Government and the States, or the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with section 6 of Executive Order 13132 (''Federalism''), the Attorney General has determined that this regulation does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

C. Executive Order 12988

This regulation meets the applicable standards set forth in sections 3(a) and 3(b)(2) of Executive Order 12988 (''Civil Justice Reform'').

D. Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act, 5 U.S.C. 603, 604, and 605(b), a Regulatory Flexibility Analysis is not required for this direct final rule because the Department was not required to publish a general notice of proposed rulemaking for this matter.

E. Unfunded Mandates Reform Act of 1995

This direct final rule will not result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of $100 million or more in any one year (as adjusted for inflation), and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995, Pub. L. 104–4, 109 Stat. 48.

F. Paperwork Reduction Act of 1995

Under the Paperwork Reduction Act of 1995 (''PRA''), 44 U.S.C. 3501–3521, agencies are required to submit to OMB, for review and approval, any reporting requirements inherent in a rule. This direct final rule does not impose any new reporting or recordkeeping requirements under the PRA. OMB has approved the existing Form 4473 information collection under OMB Control Number 1140–0020.

G. Congressional Review Act

Pursuant to the Congressional Review Act, 5 U.S.C. 801–808, OMB's Office of Information and Regulatory Affairs has determined that this direct final rule is not a ''major rule,'' as defined in 5 U.S.C. 804(2).

H. Direct Final Rulemaking

Under the Administrative Procedure Act (''APA''), 5 U.S.C. 553(b)(B), an agency may, for good cause, find that the usual requirements of prior notice and comment are impracticable, unnecessary, or contrary to the public interest. The notice-and-comment requirements also do not apply to ''interpretive rules,'' meaning those that ''remind parties of existing statutory or regulatory duties, or 'merely track[ ]'

preexisting requirements and explain something the statute or regulation already required.'' *POET Biorefining, LLC* v. *EPA,* 970 F.3d 392, 407 (D.C. Cir. 2020) (quotation marks omitted); *see also United States* v. *Kriesel,* 508 F.3d 941, 945 (9th Cir. 2007) (a regulation that ''mirror[s] the statute'' is a ''classic interpretive rule''). As described above, this direct final rule simply incorporates statutory changes into existing regulatory provisions that already mirrored preexisting statutory language. These conforming updates to ATF regulations in part 478 are to ensure that ATF regulations are consistent with the statutes and can be relied upon by the public. In the absence of this rule, however, the relevant statutes provide an adequate basis for enforcement action. Therefore, because this rulemaking is limited to directly incorporating statutory provisions, which can already be enforced absent this rule, notice and comment on this rule is unnecessary and not practical to implement the BSCA and NDNA. Were ATF to receive an adverse comment on the statutory requirements, the Department would not be able to alter those requirements in response to comments because it cannot change the statutory provisions enacted by Congress. For these reasons, the Department has determined that publishing a notice of proposed rulemaking and providing opportunity for comment is unnecessary under the good cause and interpretive rule exceptions to the APA's notice-and-comment requirements. *See* 5 U.S.C. 553(b)(4).

Nonetheless, the Department is providing the public a 90-day delayed effective date and an opportunity to comment in accordance with Recommendation 95–4, Procedures for Noncontroversial and Expedited Rulemaking, issued by the Administrative Conference of the United States (''ACUS''). ACUS has described direct final rulemaking as an appropriate procedure where the ''unnecessary'' prong of the good cause exemption is available, in order to expedite promulgation of rules that are non-controversial and that are not expected to generate significant adverse comment. *See* 60 FR 43108, 43108 (Aug. 18, 1995).

Under direct final rulemaking, an agency may issue a rule that it believes to be non-controversial ''without having to go through the review process twice . . . while at the same time offering the public the opportunity to challenge the agency's view that the rule is noncontroversial.'' *Id.* at 43110. If the agency determines that it has received a significant adverse comment the direct final rule will be withdrawn before its effective date. *Id.* Recommendation 95–4 also provides that, in determining whether a significant adverse comment is sufficient to terminate a direct final rulemaking, agencies should consider whether the comment raises an issue serious enough to warrant a substantive response in a notice-and-comment process. *Id.*

As this rulemaking is limited to directly incorporating statutory provisions (rather than effecting a substantive or discretionary change in existing law pursuant to the Department's congressional delegation of authority), direct final rulemaking is appropriate here because the Department does not expect ATF to receive any significant adverse comments.[12] As discussed in more detail in Section IV of this preamble, ATF could receive adverse comments on the assessment that the rulemaking is non-controversial.

In sum, although the Department has determined that prior notice and comment and a delayed effective date are ''unnecessary'' in accordance with the APA's good cause and interpretive rule exceptions in 5 U.S.C. 553(b)(4), the Department is providing that the rule will take effect 90 days after publication and is allowing a 30-day period for submission of significant adverse comments for the reasons described above. Therefore, unless ATF receives a significant adverse comment by May 20, 2024, this rule will become effective on July 18, 2024. If ATF receives any timely significant adverse comments, the Department will publish notification in the **Federal Register**, withdrawing this direct final rule before its effective date. See the section on ''Public Participation'' in this preamble for a description of a significant adverse comment.

IV. Public Participation

A. Comments Sought

ATF accepts comments from all interested persons. Pertinent to this direct final rule, a significant adverse comment is a comment in which the commenter explains why the rule, rather than the statutory language that the Department is incorporating into ATF's regulations, is controversial or would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is significant and adverse if:

(1) The comment opposes the Department's assessment regarding the non-controversial nature of the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response may be required when:

(a) The comment causes the Department to reconsider its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the Department;

(2) The comment proposes a salient change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition; or

(3) The comment causes the Department to make a change (other than editorial or administrative) to the rule.

Comments that raise concerns regarding the underlying statutory provisions that this rule is incorporating into existing regulations will not be considered significant adverse comments. Those statutory provisions were enacted by Congress and cannot be altered by the Department. Accordingly, the Department is unable to provide a substantive response to such comments.

All comments must reference this document's docket number ATF 2022R–09 and be legible. Commenters are encouraged to include the commenter's complete first and last name and contact information. If submitting a comment through the Federal eRulemaking portal, as described below in Section IV.C of this preamble, commenters should carefully review and follow the instructions on that website on submitting comments. If submitting a comment by mail, commenters should review Section IV.B (''Confidentiality'') of this preamble regarding proper submission of PII. ATF may not consider, or respond to, comments that do not meet these requirements or comments containing profanity. ATF will retain comments containing profanity as part of this direct final rule's administrative record but will not publish such documents on *www.regulations.gov.* ATF will treat all comments as originals and will not acknowledge receipt of comments. In addition, if ATF cannot read your

[12] To the extent that the APA and 18 U.S.C. 926(b)'s procedural requirements may apply to this rule, ATF is complying with those requirements by providing a 90-day delayed effective date and an opportunity for the public to submit comments in accordance with ACUS Recommendation 95–4.

comment due to technical difficulties and cannot contact you for clarification, ATF may not be able to consider your comment.

B. Confidentiality

ATF will make all comments meeting the requirements of Section IV, whether submitted electronically or on paper, available for public viewing at ATF and on the internet through the Federal eRulemaking portal, and subject to the Freedom of Information Act (5 U.S.C. 552) (''FOIA''). Commenters who submit by mail and who do not want their name or other PII posted on the internet should submit their comments along with a separate cover sheet containing their PII. Both the cover sheet and comment must reference this docket number (ATF 2022R–09). For comments submitted by mail, information contained on the cover sheet will not appear when posted on the internet but any PII that appears within the body of a comment will not be redacted by ATF and it will appear on the internet. Commenters who submit through the Federal eRulemaking portal and who do not want any of their PII posted on the internet should omit such PII from the body of their comment or in any uploaded attachments.

A commenter may submit to ATF information identified as proprietary or confidential business information. The commenter must place any portion of a comment that is proprietary or confidential business information under law on pages separate from the balance of the comment with each page prominently marked ''PROPRIETARY OR CONFIDENTIAL BUSINESS INFORMATION'' at the top of the page.

ATF will not make proprietary or confidential business information submitted in compliance with these instructions available when disclosing the comments that it receives, but will disclose that the commenter provided proprietary or confidential business information that ATF is holding in a separate file to which the public does not have access. If ATF receives a request to examine or copy this information, it will treat it as any other request under FOIA. In addition, ATF will disclose such proprietary or confidential business information to the extent required by other legal processes.

C. Submitting Comments

Submit comments using either of the two methods below (but do not submit the same comment multiple times or by more than one method). Hand-delivered comments will not be accepted.

• *Federal eRulemaking portal:* ATF recommends that you submit your comments to ATF via the Federal eRulemaking portal at *www.regulations.gov* and follow the instructions. Comments will be posted within a few days of being submitted. However, if large volumes of comments are being processed simultaneously, your comment may not be viewable for up to several weeks. Please keep the comment tracking number that is provided after you have successfully uploaded your comment.

• *Mail:* Send written comments to the address listed in the **ADDRESSES** section of this document. Written comments must appear in minimum 12-point font size (.17 inches), include the commenter's first and last name and full mailing address, be signed, and may be of any length. See also Section IV.B (''Confidentiality'') of this preamble.

Disclosure

Copies of this direct final rule and the comments received in response to it will be available through the Federal eRulemaking portal, at *www.regulations.gov* (search for RIN 1140–AA57), and for public inspection by appointment during normal business hours at: ATF Reading Room, Room 1E–063, 99 New York Ave. NE, Washington, DC 20226; telephone: (202) 648–8740.

List of Subjects in 27 CFR Part 478

Administrative practice and procedure, Arms and munitions, Exports, Freight, Imports, Intergovernmental relations, Law enforcement officers, Military personnel, Penalties, Reporting and recordkeeping requirements, Research, Seizures and forfeitures, Transportation.

Authority and Issuance

For the reasons discussed in the preamble, the Department amends 27 CFR part 478 as follows:

PART 478—COMMERCE IN FIREARMS AND AMMUNITION

■ 1. The authority citation for 27 CFR part 478 continues to read as follows:

Authority: 5 U.S.C. 552(a); 18 U.S.C. 847, 921–931; 44 U.S.C. 3504(h).

■ 2. Amend § 478.11 as follows:
■ a. Add, in alphabetical order, definitions for ''Dating relationship,'' ''Drug-trafficking crime,'' ''Federal crime of terrorism,'' ''Felony,'' and ''Local law enforcement authority''; and
■ b. In the definition of ''Misdemeanor crime of domestic violence'':
■ i. Redesignate paragraphs (a) introductory text and (a)(1) through (3) as paragraphs (1) introductory text and (1)(i) through (iii), respectively;
■ ii. Revise newly redesignated paragraphs (1)(i) and (iii);
■ iii. Redesignate paragraphs (b) introductory text, (b)(1) and (2), (b)(3) introductory text, and (b)(3)(i) and (ii) as paragraphs (2) introductory text, (2)(i) and (ii), (2)(iii) introductory text, and (2)(iii)(A) and (B), respectively;
■ iv. Redesignate paragraph (c) as paragraph (iii); and
■ v. Add paragraph (iv).

The revisions and additions read as follows:

§ 478.11 Meaning of terms.

* * * * *

Dating relationship. A relationship between individuals who have or have recently had a continuing serious relationship of a romantic or intimate nature. A casual acquaintanceship or ordinary fraternization in a business or social context does not constitute a dating relationship. Whether a relationship constitutes a dating relationship shall be determined based on consideration of—

(1) The length of the relationship;

(2) The nature of the relationship; and

(3) The frequency and type of interaction between the individuals involved in the relationship.

* * * * *

Drug trafficking crime. (1) Any felony punishable under the Controlled Substances Act (21 U.S.C. 801 *et seq.*), the Controlled Substances Import and Export Act (21 U.S.C. 951 *et seq.*), or 46 U.S.C. chapter 705; and

(2) Any felony punishable under the law of a State for which the conduct constituting the offense would constitute a felony punishable under the statutes cited in paragraph (1) of this definition.

* * * * *

Federal crime of terrorism. Any offense as defined under 18 U.S.C. 2332b(g)(5).

* * * * *

Felony. Any offense under Federal or State law punishable by imprisonment for a term exceeding one year.

* * * * *

Local law enforcement authority. A bureau, office, department, or other authority of a State or local government or Tribe that has jurisdiction to investigate a violation or potential violation of, or enforce, a State, local, or Tribal law.

* * * * *

Misdemeanor crime of domestic violence. (1) * * *

(i) Is a misdemeanor under Federal, State, Tribal, or local law or, in States which do not classify offenses as misdemeanors, is an offense punishable

by imprisonment for a term of one year or less, and includes offenses that are punishable only by a fine. (This is true whether or not the State statute specifically defines the offense as a ''misdemeanor'' or as a ''misdemeanor crime of domestic violence.'' The term includes all such misdemeanor convictions in Indian Courts established pursuant to 25 CFR part 11.);

* * * * *

(iii) Was committed by a current or former spouse, parent, or guardian of the victim; by a person with whom the victim shares a child in common; by a person who is cohabiting with or has cohabited with the victim as a spouse, parent, or guardian, (*e.g.,* the equivalent of a ''common law'' marriage even if such relationship is not recognized under the law); by a person similarly situated to a spouse, parent, or guardian of the victim (*e.g.,* two persons who are residing at the same location in an intimate relationship with the intent to make that place their home would be similarly situated to a spouse); or by a person who has a current or recent former dating relationship with the victim.

* * * * *

(iv)(A) Subject to paragraphs (iv)(B) and (C) of this definition, a person shall not be considered to have been convicted of a misdemeanor crime of domestic violence against an individual in a dating relationship if the conviction has been expunged or set aside, or is an offense for which the person has been pardoned or has had firearm rights restored, unless the expungement, pardon, or restoration of rights expressly provides that the person may not ship, transport, possess, or receive firearms.

(B) In the case of a person who has not more than one conviction of a misdemeanor crime of domestic violence against an individual in a dating relationship, and is not otherwise prohibited under 18 U.S.C. chapter 44, the person shall not be disqualified from shipping, transport, possession, receipt, or purchase of a firearm under 18 U.S.C. chapter 44 if:

(*1*) Five years have elapsed from the later of the judgment of conviction or the completion of the person's custodial or supervisory sentence, if any; and

(*2*) The person has not subsequently been convicted of another such offense, or any misdemeanor under Federal, State, local, or Tribal law that has, as an element, the use or attempted use of physical force, or the threatened use of a deadly weapon, or any other offense that would disqualify the person under 18 U.S.C. 922(g).

(C) Restoration under paragraph (iv)(B) of this definition only removes the disqualification from shipping, transport, possession, receipt, or purchase of a firearm under this part. Restoration under paragraph (iv)(B) is not available for a current or former spouse, parent, or guardian of the victim; a person with whom the victim shares a child in common; a person who is cohabiting with or has cohabited with the victim as a spouse, parent, or guardian; or a person similarly situated to a spouse, parent, or guardian of the victim.

* * * * *

■ 3. Amend § 478.32 as follows:
■ a. Revise the section heading and paragraph (d) introductory text;
■ b. Remove the comma at the end of paragraphs (d)(1) through (3) and add in its place a semicolon;
■ c. Revise paragraph (d)(4);
■ d. Remove the comma at the end of paragraphs (d)(5)(ii)(D) and (d)(6) and (7) and add in its place a semicolon;
■ e. Remove '', or'' at the end of paragraph (d)(8)(ii)(B) and add in its place a semicolon;
■ f. Remove the period at the end of paragraph (d)(9) and add in its place a semicolon; and
■ g. Add paragraphs (d)(10) and (11), (g), and (h).

The revisions and additions read as follows:

§ 478.32 Prohibited shipment, transportation, possession, purchase, or receipt of firearms and ammunition by certain persons.

* * * * *

(d) No person may sell or otherwise dispose of any firearm or ammunition to any person knowing or having reasonable cause to believe that such person, including as a juvenile:

* * * * *

(4) Has been adjudicated as a mental defective or has been committed to a mental institution at 16 years of age or older;

* * * * *

(10) Intends to sell or otherwise dispose of the firearm or ammunition in furtherance of a felony, a Federal crime of terrorism, or a drug trafficking offense; or

(11) Intends to sell or otherwise dispose of the firearm or ammunition to a person described in any of paragraphs (d)(1) through (10) of this section.

* * * * *

(g) No person may knowingly purchase or conspire to purchase any firearm in or otherwise affecting interstate or foreign commerce for, or on behalf of, or at the request or demand of any other person, knowing or having reasonable cause to believe that such other person:

(1) Meets the criteria of 1 or more subsections of 18 U.S.C. 922(d);

(2) Intends to use, carry, possess, or sell or otherwise dispose of the firearm in furtherance of a felony, a Federal crime of terrorism, or a drug trafficking crime; or

(3) Intends to sell or otherwise dispose of the firearm to a person described in paragraph (g)(1) or (2) of this section.

(h) No person may:

(1) Ship, transport, transfer, cause to be transported, or otherwise dispose of, any firearm to another person in or otherwise affecting interstate or foreign commerce, knowing or having reasonable cause to believe that it would constitute a felony for the recipient to use, carry, or possess a firearm;

(2) Receive from another person any firearm in or otherwise affecting interstate or foreign commerce if the recipient knows or has reasonable cause to believe that receiving the firearm would constitute a felony; or

(3) Attempt or conspire to commit the conduct described in paragraph (h)(1) or (2) of this section.

§ 478.73 [Amended]

■ 4. Amend § 478.73 in paragraph (a) by removing ''demonstrating that the transferee's receipt of a firearm would violate 18 U.S.C. 922(g) or 922(n) or State law'' and adding in its place ''demonstrating that transfer to the transferee or their receipt of a firearm would violate 18 U.S.C. 922(d), 922(g), or 922(n) (as applicable), or State, local, or Tribal law''.

■ 5. Amend § 478.99 as follows:
■ a. Revise the section heading and paragraphs (c) introductory text and (c)(4);
■ b. Remove '', or'' at the end of paragraph (c)(8)(ii)(B) and add in its place a semicolon;
■ c. Remove the period at the end of paragraph (c)(9) and add in its place a semicolon; and
■ d. Add paragraphs (c)(10) and (11), (f), and (g).

The revisions and additions read as follows:

§ 478.99 Certain prohibited sales, purchases, or deliveries.

* * * * *

(c) *Sales or deliveries to prohibited categories of persons.* No person may sell or otherwise dispose of any firearm or ammunition to any person knowing or having reasonable cause to believe

that such person, including as a juvenile:

* * * * *

(4) Has been adjudicated as a mental defective or has been committed to a mental institution at 16 years of age or older;

* * * * *

(10) Intends to sell or otherwise dispose of the firearm or ammunition in furtherance of a felony, a Federal crime of terrorism, or a drug trafficking offense; or

(11) Intends to sell or otherwise dispose of the firearm or ammunition to a person described in any of paragraphs (c)(1) through (10) of this section.

* * * * *

(f) *Purchase for, or conspire to purchase for, or sell or otherwise dispose of firearms to certain prohibited persons.* It is unlawful for any person to knowingly purchase, or conspire to purchase, any firearm in or otherwise affecting interstate or foreign commerce for, on behalf of, or at the request or demand of any other person, knowing or having reasonable cause to believe that such other person:

(1) Meets the criteria of one or more subsections of 18 U.S.C. 922(d);

(2) Intends to use, carry, possess, or sell or otherwise dispose of, the firearm in furtherance of a felony, a Federal crime of terrorism, or a drug trafficking crime; or

(3) Intends to sell or otherwise dispose of the firearm to a person described in paragraph (f)(1) or (2) of this section.

(g) *Transfer, otherwise dispose of, or attempt or conspire to dispose of, ship, transport, or cause to be transported, firearms when use, carrying, possession, or receipt constitutes a felony.* It shall be unlawful for any person to:

(1) Transfer, otherwise dispose of, ship, transport, or cause to be transported, any firearm to another person in or otherwise affecting interstate or foreign commerce, knowing or having reasonable cause to believe that it would constitute a felony for the recipient to use, carry, or possess a firearm;

(2) Receive any firearm in or otherwise affecting interstate or foreign commerce if the recipient knows or has reasonable cause to believe that receiving the firearm would constitute a felony; or

(3) Attempt or conspire to commit the conduct described in paragraph (g)(1) or (2) of this section.

■ 6. Amend § 478.102 as follows:

■ a. Revise paragraphs (a)(2) and (3);

■ b. Remove the example following paragraph (a)(3); and

■ c. Redesignate examples 1 through 3 to paragraph (c) as examples 3 through 5.

The revisions read as follows:

§ 478.102 Sales or deliveries of firearms on and after November 30, 1998.

(a) * * *

(2) The licensee has verified the identity of the transferee by examining the identification document presented in accordance with the provisions of § 478.124(c); and

(3) NICS has responded to the licensee with one of the following results, or has not responded to the licensee and the required investigatory period has elapsed:

(i) *Notification.* NICS provides the licensee with a ''Proceed'' notification and a unique identification number, at which time the transfer may proceed.

(ii) *Initial investigatory period.* If NICS does not respond to the licensee as described in paragraph (a)(3)(i) of this section, the licensee must not proceed with the transfer for three business days (days on which State offices are open). If three business days have elapsed from the date the licensee contacted NICS, and NICS has not provided the licensee with a ''Denied'' notification, the licensee may proceed with the transfer unless the transferee is under 21 years old and paragraph (a)(3)(iii) of this section applies.

Example 1 to paragraph (a)(3)(ii): A licensee contacts NICS on Thursday and gets a ''Delayed'' response. The licensee does not get a further response from NICS of any kind. If State offices are not open on Saturday and Sunday, three business days would have elapsed on the following Tuesday. The licensee may transfer the firearm on the next day, Wednesday.

(iii) *Additional investigatory period in the case of a transferee who is under 21 years old (applies through September 30, 2032).* In the case of a transferee under 21 years of age, if NICS notifies the licensee within three business days from the date the licensee contacted NICS that cause exists for further investigation, the licensee may not proceed with the transfer until they receive a follow-up ''Proceed'' response from NICS or until another seven business days have expired, exclusive of the day on which the query is made (up to ten business days in total), whichever occurs first. If ten business days have elapsed from the date the licensee contacted NICS, and NICS has not notified the licensee that transfer to, or receipt of the firearm by, the transferee is ''Denied,'' the transfer may proceed.

Example 2 to paragraph (a)(3)(iii): A licensee contacts NICS on Thursday, the 10th and gets a ''Delayed'' response. If State offices are not open on Saturdays and Sundays, three business days would elapse on the following Tuesday, the 15th. If the transferee is a person 21 years of age or older, the FFL may transfer the firearm at 12:01 on Wednesday, the 16th. However, if the transferee is a person less than 21 years of age, and NICS notifies the licensee by Tuesday, the 15th, that cause exists for further investigation of a possibly disqualifying juvenile record, the licensee may not transfer the firearm the next day, the 16th. If the licensee does not get a further response from NICS by the end of the tenth business day denying the transfer, the licensee may transfer the firearm the next day. Ten business days would elapse on the Thursday of the following week, the 24th. The licensee may transfer the firearm on the next day, Friday, the 25th.

* * * * *

■ 7. Amend § 478.124 by revising paragraphs (c)(1) and (f) to read as follows:

§ 478.124 Firearms transaction record.

* * * * *

(c)(1) Prior to making an over-the-counter transfer of a firearm to a non-licensee who is a resident of the State in which the licensee's business premises is located, the licensed importer, licensed manufacturer, or licensed dealer so transferring the firearm shall obtain a Form 4473 from the transferee showing the transferee's name, sex, residence address (including county or similar political subdivision and whether they reside within city limits), and date and place of birth; the height, weight, and race of the transferee; the transferee's country of citizenship; the transferee's DHS-issued alien number or admission number; the transferee's State of residence; certification by the transferee that the transferee is not prohibited by the Act from transporting or shipping a firearm in interstate or foreign commerce or receiving a firearm which has been shipped or transported in interstate or foreign commerce or possessing a firearm in or affecting commerce; and certification that the transferee does not intend to purchase or acquire any firearm for sale or other disposition to a person so prohibited or in furtherance of any felony or other offense punishable by imprisonment for a term of more than one year, a Federal crime of terrorism, or a drug trafficking offense.

* * * * *

(f) Form 4473 shall be submitted, in duplicate, to a licensed importer, licensed manufacturer, or licensed dealer by a transferee who is purchasing or otherwise acquiring a firearm by other than an over-the-counter transaction, who is not subject to the provisions of § 478.102(a), and who is a resident of the State in which the licensee's business premises are located. The Form 4473 shall show the transferee's name, sex, residence address (including county or similar political subdivision and whether they reside within city limits), and date and place of birth; the height, weight, and race of the transferee; the transferee's country of citizenship; the transferee's DHS-issued alien number or admission number; the transferee's State of residence; and the title, name, and address of the principal law enforcement officer of the locality to which the firearm will be delivered. The transferee shall also certify on the Form 4473 that the transferee does not intend to purchase or acquire any firearm for sale or other disposition to a person so prohibited or in furtherance of any felony or other offense punishable by imprisonment for a term of more than one year, a Federal crime of terrorism, or a drug trafficking offense. The licensee shall identify the firearm to be transferred by listing in the Forms 4473 the name of the manufacturer, the name of the importer (if any), the type, model, caliber or gauge, and the serial number of the firearm to be transferred. Where no manufacturer name has been identified on a privately made firearm, the words ''privately made firearm'' (or abbreviation ''PMF'') shall be recorded as the name of the manufacturer. The licensee shall prior to shipment or delivery of the firearm to such transferee, forward by registered or certified mail (return receipt requested) a copy of the Form 4473 to the principal law enforcement officer named in the Form 4473 by the transferee, and shall delay shipment or delivery of the firearm to the transferee for a period of at least 7 days following receipt by the licensee of the return receipt evidencing delivery of the copy of the Form 4473 to such principal law enforcement officer, or the return of the copy of the Form 4473 to the licensee due to the refusal of such principal law enforcement officer to accept same in accordance with U.S. Postal Service regulations. The original Form 4473, and evidence of receipt or rejection of delivery of the copy of the Form 4473 sent to the principal law enforcement officer, shall be retained by the licensee as a part of the records required to be kept under this subpart.

* * * * *

■ 8. Amend § 478.152 by adding paragraphs (d) and (e) to read as follows:

§ 478.152 Seizure and forfeiture.

* * * * *

(d) Any person convicted of a violation of section 932 or 933 of the Act shall forfeit to the United States, irrespective of any provision of State law—

(1) Any property constituting, or derived from, any proceeds the person obtained, directly or indirectly, as the result of such violation; and

(2) Any of the person's property used, or intended to be used, in any manner or part, to commit, or to facilitate the commission of, such violation, except that for any forfeiture of any firearm or ammunition pursuant to this section, 18 U.S.C. 924(d) shall apply.

(e) A defendant who derives profits or other proceeds from an offense under section 932 or 933 of the Act may be fined not more than the greater of—

(1) The fine otherwise authorized by part I of title 18 of the U.S. Code; or

(2) The amount equal to twice the gross profits or other proceeds of the offense under section 932 or 933.

Dated: April 12, 2024.

Merrick B. Garland,

Attorney General.

BILLING CODE 4410–FY–P

DEPARTMENT OF JUSTICE

28 CFR Part 106

[JMD Docket No. 157; A.G. Order No. 5922–2024]

RIN 1105–AB71

Implementation of HAVANA Act of 2021

AGENCY: Department of Justice.

ACTION: Interim final rule; request for comments.

SUMMARY: This rule provides implementation by the Department of Justice of the HAVANA Act of 2021. The HAVANA Act authorizes agency heads to provide payments to certain individuals who have incurred qualifying injuries to the brain. This rule covers current and former Department of Justice employees and their dependents.

DATES: This interim final rule is effective on May 20, 2024.

Comments: Electronic comments must be submitted, and written comments must be postmarked, on or before June 18, 2024. Commenters should be aware that the electronic Federal Docket Management System will not accept comments after 11:59 p.m. Eastern Time on the last day of the comment period.

ADDRESSES: If you wish to provide comments regarding this interim final rule, you must submit comments, referencing RIN 1105–AB71 or JMD Docket No. 157, by one of the two methods below:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the website instructions for submitting comments.
- *Mail:* Paper comments that duplicate an electronic submission are unnecessary. If you wish to submit a paper comment in lieu of an electronic submission, please direct the mail/shipment to: General Counsel, Justice Management Division, U.S. Department of Justice, Two Constitution Square (2CON), 145 N St. NE, Suite 8E.500, Washington, DC 20530. To ensure proper handling, please reference the agency name and RIN 1105–AB71 or JMD Docket No. 157 on your correspondence. Mailed items must be postmarked or otherwise indicate a shipping date on or before the submission deadline.

FOR FURTHER INFORMATION CONTACT: Morton J. Posner, General Counsel, Justice Management Division, (202) 514–3452.

SUPPLEMENTARY INFORMATION: This rule implements the HAVANA Act of 2021, Public Law 117–46, 135 Stat. 391 (2021) (codified at 22 U.S.C. 2680b(i)).

Background and Authority—§ 106.1

In 2016, Department of State employees stationed in Havana, Cuba, began reporting a sudden onset of symptoms, including headaches, pain, nausea, disequilibrium, and hearing loss, in conjunction with sensory events. Federal agencies have called such incidents Anomalous Health Incidents (''AHIs''). Since 2016, Federal employees in numerous countries reported suspected AHIs. On December 20, 2019, Congress authorized the Department of State to pay benefits to employees and their dependents for injuries suffered after January 1, 2016, in the Republic of Cuba, the People's Republic of China, or other foreign countries designated by the Secretary of State, in connection with war, insurgency, hostile acts, or terrorist activity, or in connection with other incidents designated by the Secretary of State. *See* Further Consolidated Appropriations Act, 2020, Public Law 116–94, div. J, title IX, section 901, 133

Stat. 2534, 3079–81 (2019) (codified as amended at 22 U.S.C. 2680b). These benefits were limited to State Department employees only (*i.e.,* not other employees under Chief of Mission (''COM'') authority).

On January 1, 2021, Congress amended this law to authorize other Federal Government agencies to provide benefits to their own employees under COM authority if they suffered similar injuries. National Defense Authorization Act for Fiscal Year 2021, Public Law 116–283, section 1110, 134 Stat. 3388, 3892–93 (2021).

On October 8, 2021, Congress passed the Helping American Victims Affected by Neurological Attacks or the HAVANA Act of 2021, Public Law 117–46, 135 Stat. 391 (2021) (''HAVANA Act''). In the HAVANA Act, Congress authorized Federal Government agencies to compensate affected current employees, former employees, and their dependents for qualifying injuries to the brain. The HAVANA Act also omitted the previous law's requirement that the qualifying injury must occur in the Republic of Cuba, the People's Republic of China, or another foreign country designated by the Secretary of State. The scope of coverage now includes a qualifying injury that occurs in any foreign or domestic location. The HAVANA Act requires Federal agencies who make payments under the HAVANA Act to prescribe implementing regulations not later than 180 days after the effective date of the Act. Section 9216 of the National Defense Authorization Act for Fiscal Year 2023, Public Law 117–263, 136 Stat. 2395, 3877 (2022) (codified at 22 U.S.C. 2680b(j)), provided agencies with authority to designate incidents affecting employees or dependents who are not under the security responsibility of the Secretary of State.

This rule implements section 3 of the HAVANA Act as it applies to the Department of Justice (the ''Department''). This rule only applies to current and former employees of the Department and their dependents, as defined in § 106.2 of this rule.

On June 30, 2022, the Department of State published an interim final rule to implement its requirements under the HAVANA Act, with an effective date of August 15, 2022. 87 FR 38981 (June 30, 2022) (codified at 22 CFR part 135). The Department of State subsequently published a final rule that became effective on January 25, 2023. 88 FR 4722 (Jan. 25, 2023) (codified at 22 CFR part 135). The Department of Justice has independently reviewed the approach implemented by the Department of State in these rules and has determined that its approach is reasonable and well considered. Accordingly, the Department of Justice plans to adopt that approach as appropriate in its regulations to ensure consistency of benefits among Federal employees and their dependents. In particular, the Department has based its interim final rule on the Department of State's definitions and process for the payment of benefits.

Definitions—§ 106.2

The rule defines those who are eligible to receive payments: covered employees (including current and former employees) and covered dependents who on or after January 1, 2016, experience a qualifying brain injury. A ''covered employee'' includes all Department employees, including employees on Limited Non-Career Appointments, employees on Temporary Appointments, personnel hired on Personal Services Contracts, and students providing volunteer services under 5 U.S.C. 3111.

An employee's family member is a covered dependent if, on or after January 1, 2016, the family member experiences a qualifying injury. The rule defines the family members who are eligible as certain children, parents residing with the employee sponsor, dependent siblings, or spouses.

For the purposes of this rule, the Department also adopts the Department of State's definition of ''qualifying injury to the brain.'' 22 CFR 135.2. The Department has determined that the Department of State definition is reasonable and well considered. The Department of State consulted with the chief medical officers at other Federal agencies and experts at civilian medical centers of excellence. There is no diagnostic code or criteria for AHIs in the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD–10–CM). Because of the varied symptoms and still nascent understanding of how to test or otherwise screen for AHI impacts, the standard adopted is broadly inclusive of the types of injuries that have been reported to date.

The definition of ''qualifying injury to the brain'' is based on current medical practices related to brain injuries. The individual must have: (1) an acute injury to the brain such as a concussion, a penetrating injury, or an injury as the consequence of an event that leads to permanent alterations in brain function as demonstrated by confirming correlative findings on imaging studies or electroencephalogram (''EEG''); (2) a medical diagnosis of a traumatic brain injury that required active medical treatment for 12 months or more; or (3) the acute onset of new, persistent, disabling neurologic symptoms, as demonstrated by confirming correlative findings on imaging studies, EEG, a physical exam, or other appropriate testing, that required active medical treatment for 12 months or more.

The first component of the definition of ''qualifying injury to the brain'' set forth in § 106.2(d)(2)(i) accounts for a variety of observable impacts to an individual, including a concussion or a penetrating injury or, absent either of those, permanent alterations in brain function as confirmed by a board-certified physician's review of a variety of forms of medical imaging evidence. The goal with this standard is to ensure there is some documented evidence of impact to the brain, while minimally circumscribing what that impact entails. The second and third components of the definition (paragraphs (d)(2)(ii) and (iii)) are intended to provide alternative avenues for demonstrating sustained, long-term impact to the individual. This benefit is intended for individuals who experience long-term consequences, potentially including an inability to gainfully work, as a result of a suspected AHI.

The standard is consistent with that employed by other agencies, including the Department of State. A 12-month threshold of active medical treatment is indicative of a long-term injury. For example, the Centers for Disease Control and Prevention (''CDC'') broadly defines chronic diseases ''as conditions that last 1 year or more and require ongoing medical attention or limit activities of daily living or both.'' CDC, *About Chronic Diseases, https://www.cdc.gov/chronicdisease/about/index.htm* (last reviewed July 21, 2022). The Department notes that applicants who have suffered kinetic or external, physically caused injuries to the brain such as the head striking an object, the brain undergoing an acceleration or deceleration movement, or brain injuries from events such as a blast or explosion, including penetrating injuries, may be eligible if the injuries satisfy the other requirements of this rule.

Under the HAVANA Act, the injury must have occurred ''in connection with war, insurgency, hostile act, terrorist activity, or other incidents designated by the Secretary of State,'' and cannot have been ''the result of the willful misconduct'' of the covered individual. 22 U.S.C. 2680b(e)(4)(A)(ii)–(iii), (e)(4)(B)(ii)–(iii), (i)(1)(D). The Department will work with an applicant upon the applicant's submission of the DS–4316, ''Eligibility Questionnaire for

HAVANA Act Payments,'' to determine whether their alleged incident qualifies.

The definition of ''other incident'' is a new onset of physical manifestations that cannot otherwise be readily explained and that is designated under 22 U.S.C. 2680b. The Department will review available information on the reported incident. If a physician does not indicate that there is a credible alternative explanation for the individual's symptoms, and if the information the Department has regarding the incident does not provide a credible alternative explanation for the incident, that incident will be recommended for designation. Incidents for which an alternative explanation has been identified will not be recommended for designation. For incidents affecting employees or dependents who are not under the security responsibility of the Secretary of State, the Department will determine whether to designate such incidents.

Eligibility for Payments—§ 106.3

The Department will make available to its workforce information on the regulations and the process to apply for HAVANA Act payments. Current employees, former employees, and dependents (as defined in this rule) can apply for consideration. Applicants will be required to provide the necessary documentation so the Department may determine whether they qualify for payment. The DS–4316, ''Eligibility Questionnaire for HAVANA Act Payments,'' is the form associated with developing the necessary evidence to submit a claim, and it will be available upon request with instructions on how to apply for a HAVANA Act payment. A portion of the form must be filled out by a qualified physician; the rule specifies certain board certification requirements for physicians who can evaluate a qualifying injury to the brain.

The Department has determined that the payment scheme set forth in the Department of State's HAVANA Act regulations, 22 CFR 135.3, is well reasoned and provides an effective means of compensating covered employees. Accordingly, the Department has adopted it for purposes of this rulemaking. Pursuant to this interim final rule, the Department, in its discretion, may authorize a one-time, non-taxable, lump sum payment based on Level III of the Executive Schedule. *See* 5 U.S.C. 5311 *et seq.* The payment is non-taxable pursuant to 22 U.S.C. 2680b(g). Payment eligibility and the amount of the payment will be at the Department's discretion. The maximum should only be awarded where a condition has a consistent, sustained, and exceptionally severe impact on a victim's quality of life or prevents a victim from successfully performing their work-related duties. The purpose is to compensate individuals only for qualifying brain injuries that meet the criteria set forth in this rule. The following factors will be taken into account to determine the amount of the payment to be authorized: (1) the applicant's responses on the eligibility form; and (2) whether the Department of Labor (Office of Workers' Compensation Programs) has determined that the applicant has no reemployment potential, the Social Security Administration (''SSA'') has approved the applicant for Social Security Disability Insurance or Supplemental Security Income benefits, or the applicant's board-certified physician has certified that the individual requires a full-time caregiver for activities of daily living, as defined by the Katz Index of Independence in Activities of Daily Living.

The award thresholds are based on Level III of the Executive Schedule. A Base payment will be 75 percent of Level III pay, and a Base+ payment will be 100 percent of Level III pay. The specific use of Level III of the Executive Schedule sets the compensation at the maximum annual salary potentially available to most of the Federal workforce. The Department believes this amount is the most it can reasonably compensate each applicant while ensuring funds for the total number of applicants it believes will likely receive payments. If the applicant meets any of the criteria for severe impacts, the applicant will be eligible to receive a Base+ payment. Applicants whose board-certified physician confirms that the definition of qualifying injury to the brain has been met, but who have not met any of the criteria for severe impacts, will be eligible to receive a Base payment.

The criteria established for severe impacts are reflective of the Department's objective of ensuring that the individuals most severely affected by AHIs (as indicated by a lack of reemployment potential, an inability to engage in substantial gainful activity, or the need for a full-time caregiver) receive additional payment. The use of the Department of Labor's or the SSA's determination is to ensure that both Federal employees as well as their dependents have access to a mechanism for this determination. The Department recognizes that the criteria the Department of Labor and SSA use in their determinations are distinct, as well as the fact that the procedural timelines for seeking and receiving approval may be different between these agencies. The third option, that a board-certified physician certify that the individual requires a full-time caregiver for activities of daily living, provides an alternative mechanism for all individuals. Finally, the Department notes that if an applicant who received a Base payment later meets any of the criteria listed for severe impacts, the applicant may apply for an additional payment that will be the difference between the Base and Base+ payment. As the payments are tied to the Executive Schedule payment levels, the amounts will change over time based on changes to the Federal salary schedule. Payments will be based on the Executive Schedule in effect at the time the payment was approved.

While payments under the HAVANA Act may be in addition to other leave benefits, disability benefits, or workers' compensation payments that the applicant may be receiving or may be entitled to receive that also help augment any loss of income, the Department believes this is an appropriate additional payment. This payment scheme is also consistent with what is being offered by other Federal agencies and will ensure consistency of benefits among affected individuals.

The Department notes that payments may only be made using amounts appropriated in advance specifically for this purpose in the relevant fiscal year, unless Congress specifies otherwise. Therefore, payments are contingent on appropriated funds, and all payments will be paid out on a first-come, first-served basis.

Consultations With the Department of State—§ 106.4

Under the rule, the Department's procedures for determining whether an incident has been designated under 22 U.S.C. 2680b include, where appropriate, consultation with the Secretary of State. *See* 22 U.S.C. 2680b(i)(1)(D) (cross-referencing subparagraph 2680b(e)(4)).

Procedures—§ 106.5

Each Federal agency is responsible for (1) processing applications for the HAVANA Act payments; (2) determining or, as necessary, consulting with the Secretary of State to determine, whether the incident causing the injury may be deemed a designated incident under the statute, *see* 22 U.S.C. 2680b(j); *id.* 2680b(i)(1)(D) (cross-referencing subparagraph 2680b(e)(4)); (3) determining eligibility for the benefit, determining the amount of the benefit, and processing payment of the benefit; and (4) notifying applicants upon

receipt of their applications and when a decision has been made whether to authorize payment.

The Executive Assistant Director, Human Resources Branch, Federal Bureau of Investigation (''FBI''), is authorized to approve HAVANA Act payments to FBI employees or their dependents. The Deputy Assistant Attorney General, Human Resources and Administration, Justice Management Division (''JMD''), is authorized to approve HAVANA Act payments for all other Department employees or their dependents. If payment is denied by the designated FBI or JMD official, the applicant may direct an appeal to the Assistant Attorney General for Administration within 60 days of the notification of denial, but decisions on the amount of payment are not appealable.

Regulatory Analysis

Administrative Procedure Act

This rule is being published as an interim final rule. Because this rule is a matter relating to public benefits, it is exempt from requirements for notice-and-comment rulemaking. *See* 5 U.S.C. 553(a)(2). Because the rule is exempt from section 553 of title 5 of the United States code, the provisions of section 553(d) do not apply. Nevertheless, the rule will go into effect 30 days after publication. However, the Department is seeking comment from interested persons on the provisions of this rule and will consider all relevant comments in determining whether additional rulemaking is warranted under the provisions of the HAVANA Act.

Congressional Review Act

This rule is not a major rule as defined by 5 U.S.C. 804 for the purposes of congressional review of agency rulemaking under the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 801–808.

Unfunded Mandates Reform Act of 1995

This rule will not result in the expenditure by State, local, or Tribal governments, in the aggregate, or by the private sector, of $100 million in any year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1501 *et seq.*

Executive Order 13175—Consultation and Coordination With Indian Tribal Governments

The Department has determined that this rulemaking will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not preempt tribal law. Accordingly, the requirements of Executive Order 13175 do not apply to this rulemaking.

Regulatory Flexibility Act: Small Business

A regulatory flexibility analysis is not required under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.,* because the Department was not required to issue a notice of proposed rulemaking.

Executive Order 12866 and Executive Order 13563

The Department provided this interim final rule to the Office of Management and Budget for its review. The Office of Information and Regulatory Affairs has designated this rule as ''significant'' under Executive Order 12866. The Department has also reviewed the rule to ensure its consistency with the regulatory philosophy and principles set forth in Executive Order 12866 and finds that the benefits of the rule (in providing mechanisms for individuals to obtain compensation for certain injuries) outweigh any costs to the public, which are limited, given the anticipated small number of individuals with qualifying injuries. The Department has also considered this rulemaking in light of Executive Order 13563 and affirms that this proposed regulation is consistent with the guidance therein.

Executive Order 12988

The Department has reviewed this rule in light of Executive Order 12988 to eliminate ambiguity, minimize litigation, establish clear legal standards, and reduce burden.

Executive Order 13132

This rule will not have substantial direct effects on the States, on the relationships between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, it is determined that this rule does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement.

Paperwork Reduction Act

This rulemaking is related to an information collection for the DS–4316, ''Eligibility Questionnaire for HAVANA Act Payments,'' OMB Control Number 1405–0250.

List of Subjects in 28 CFR Part 106

Government employees, Federal retirees, Health care.

■ Accordingly, for the reasons stated in the preamble, the Department adds part 106, title 28, Code of Federal Regulations, to read as follows:

PART 106—IMPLEMENTATION OF THE HAVANA ACT OF 2021

Sec.

Authority: 22 U.S.C. 2680b.

§ 106.1 Authority.

(1) Under section 3 of the HAVANA Act of 2021, Public Law 117–46, 135 Stat. 391 (2021) (codified at 22 U.S.C. 2680b(i)), the Attorney General or other agency heads may provide a payment to a covered employee or covered dependent who experiences a qualifying injury to the brain on or after January 1, 2016. The authority to provide such payments is at the discretion of the Attorney General or the Attorney General's designees.

(2) These regulations are issued in accordance with 22 U.S.C. 2680b(i)(4) and apply to covered employees (current and former employees) and covered dependents.

§ 106.2 Definitions.

For purposes of this part, the following definitions apply:

(a) *Covered employee.* (1) A current or former employee of the Department who, on or after January 1, 2016, became injured by reason of a qualifying injury while they were employed by the Department.

(2) The following are considered covered employees for the purposes of this rule: Department of Justice employees as defined in 5 U.S.C. 2105, including employees on Limited Non-Career Appointments, employees on Temporary Appointments, personnel hired on Personal Services Contracts, and students providing volunteer services under 5 U.S.C. 3111.

(3) The following are not considered employees of the Department for purposes of this rule: employees or retired employees who were employed by other agencies at the time of the injury.

(b) *Covered dependent.* A family member, as defined in paragraph (c) of this section, of a current or former employee of the Department who, on or after January 1, 2016, became injured by

reason of a qualifying injury while their relative was an employee of the Department in a position listed in paragraph (a)(2) of this section.

(c) *Family member.* For purposes of determining who is a ''covered dependent,'' a family member is defined as follows:

(1) Children who at the time of the injury are unmarried and under 21 years of age or, regardless of age, are unmarried and due to mental or physical limitations are incapable of self-support. The term ''children'' includes natural offspring; stepchildren; adopted children; those under permanent legal guardianship, or comparable permanent custody arrangement, of the employee, spouse, or domestic partner as defined in 5 CFR 875.101 when dependent upon and normally residing with the guardian or custodial party; and U.S. citizen children placed for adoption if a U.S. court grants temporary guardianship of the child to the employee and specifically authorizes the child to reside with the employee in the country of assignment before the adoption is finalized;

(2) Parents (including stepparents and legally adoptive parents) of the employee or of the spouse or of the domestic partner as defined in 5 CFR 875.101, when normally residing with the employee at the time of the injury;

(3) Sisters and brothers (including stepsisters or stepbrothers, or adoptive sisters or brothers) of the employee or the spouse when at the time of the injury such sisters and brothers are at least 51 percent dependent on the employee or spouse for support, unmarried and under 21 years of age, or, regardless of age, are physically or mentally incapable of self-support; and

(4) Spouse or domestic partner at the time of the injury.

(d) *Qualifying injury to the brain.* (1) An injury to the brain that occurred in connection with war, insurgency, hostile act, terrorist activity, or other incidents designated under 22 U.S.C. 2680b, and that was not the result of the willful misconduct of the covered employee or covered dependent.

(2) The individual must have:

(i) An acute injury to the brain such as a concussion, a penetrating injury, or an injury as the consequence of an event that leads to permanent alterations in brain function where such alterations are demonstrated by confirming correlative findings on imaging studies (including computed tomography scan (CT) or magnetic resonance imaging scan (MRI)), or electroencephalogram (EEG);

(ii) A medical diagnosis of a traumatic brain injury that required active medical treatment for 12 months or more; or

(iii) Acute onset of new, persistent, disabling neurologic symptoms, as demonstrated by confirming correlative findings on imaging studies (including CT or MRI), EEG, physical exam, or other appropriate testing, that required active medical treatment for 12 months or more.

(e) *Other incident.* A new onset of physical manifestations that cannot otherwise be readily explained and that is designated under 22 U.S.C. 2680b.

§ 106.3 Eligibility for payments by the Department of Justice.

(a) The Department may, in its discretion, provide a payment to an employee, covered dependent, or former employee if that person suffered a qualifying injury to the brain that was assessed and diagnosed in person by a physician who is currently a neurologist certified by the American Board of Psychology and Neurology (ABPN) or a physician certified by the American Osteopathic Board of Neurology and Psychiatry (AOBNP), the American Board of Physical Medicine and Rehabilitation (ABPMR), or the American Osteopathic Board of Physical Medicine and Rehabilitation (AOBPMR); occurred on or after January 1, 2016; and, for an employee or former employee, occurred while the employee or former employee was a covered employee of the Department or, for a covered dependent, occurred while the covered dependent's relative was an employee of the Department in a position listed in § 106.2(a)(2).

(b) Payment for a qualifying injury to the brain will be a non-taxable, one-time lump sum payment, unless a second payment is authorized under paragraph (d) of this section.

(c) The amount of the payment is at the Department's discretion. The Department will determine the amount paid to each eligible person based on the following factors:

(1) The responses on the ''Eligibility Questionnaire for HAVANA Act Payments'' form; and

(2) Whether the Department of Labor (Office of Workers' Compensation Programs) has determined that the applicant has no reemployment potential, or the Social Security Administration has approved the applicant for Social Security Disability Insurance or Supplemental Security Income benefits, or the applicant's ABPN-certified neurologist or the applicant's AOBNP-, ABPMR-, or AOBPMR-certified physician has certified that the individual requires a full-time caregiver for activities of daily living, as defined by the Katz Index of Independence in Activities of Daily Living.

(d) The award thresholds are based on Level III of the Executive Schedule: Base will be 75 percent of Level III pay, and Base+ will be 100 percent of Level III pay. If the applicant meets any of the criteria listed in paragraph (c)(2) of this section, the applicant will be eligible to receive a Base+ payment. Applicants whose board-certified physician (as described in paragraph (a) of this section) confirms that the definition of ''qualifying injury to the brain'' has been met, but who have not met any of the criteria listed in paragraph (c)(2) of this section, will be eligible to receive a Base payment. If an applicant who received a Base payment later meets any of the criteria listed in paragraph (c)(2) of this section, the applicant may apply for an additional payment that will be the difference between the Base and Base+ payment.

§ 106.4 Consultation.

When a covered employee or covered dependent seeks payment for an incident that occurred overseas under Chief of Mission security responsibility, the Department will coordinate with the Department of State as appropriate in evaluating whether the incident is an ''other incident'' under the HAVANA Act or should be so designated.

§ 106.5 Procedures.

(a) *Application.* (1) A covered employee or covered dependent may apply for a HAVANA Act payment if the covered individual has sustained a qualifying injury to the brain on or after January 1, 2016. To apply for the benefit, the applicant must submit the ''Eligibility Questionnaire for HAVANA Act Payments'' claim form to the appropriate email address or fax number set forth in this paragraph (a). The claim form must be completed by a person eligible to file a claim under the HAVANA Act or by that person's legal guardian and must be signed by a currently certified physician as listed in § 106.3(a) of this part. The claim form must be emailed or faxed to the following address: *HRD_AHI_QUESTIONNAIR@FBI.GOV* or fax number (202) 323–9420 (covered FBI employees and dependents) or *HavanaActClaims@usdoj.gov* or fax number (202) 616–3200 (covered DOJ employees and dependents).

(2) The applicant must furnish additional documentation upon request.

(3) Copies of the claim form, as well as the regulations and other information, may be obtained by

requesting the document or publications via an email to *HRD_AHI_QUESTIONNAIR@FBI.GOV* (covered FBI employees and dependents) or *HavanaActClaims@usdoj.gov* (covered DOJ employees and dependents).

(b) *Review.* For FBI covered employees and dependents, the Human Resources Division (HRD) of the FBI is responsible for reviewing the applications to determine their completeness. For other DOJ covered employees and dependents, the Justice Management Division (JMD) is responsible for reviewing the applications to determine their completeness.

(c) *Other incident.* The Department will determine whether a covered employee or covered dependent has a qualifying injury to the brain as set forth in § 106.2, and whether the incident causing the injury was in connection with war, insurgency, hostile act, or terrorist activity. The Department will as appropriate or necessary make a recommendation to the Secretary of State that the incident should be deemed an ''other incident designated by the Secretary of State'' for purposes of 22 U.S.C. 2680b(i)(1)(D) (cross-referencing subparagraph 2680b(e)(4)); or, for incidents affecting employees or dependents who are not under the security responsibility of the Secretary of State, the Department will as appropriate or necessary designate such incidents, under authority set forth in 22 U.S.C. 2680b(j).

(d) *Decisions.* For FBI covered employees and covered dependents, the Executive Assistant Director, Human Resources Branch, FBI, in their discretion may approve payments under the HAVANA Act. For all other Departmental covered employees and covered dependents, the Deputy Assistant Attorney General, Human Resources and Administration, JMD, in their discretion may approve payments under the HAVANA Act.

(e) *Appeals.* In the event of a decision to deny an application for payment under the HAVANA Act, the Department will notify the applicant in writing. Applicants may direct an appeal to the Assistant Attorney General for Administration within 60 days of the date of the notification of the denial. However, decisions concerning the amount paid are not subject to appeal. The Department will notify the applicant in writing of the decision on appeal.

Dated: April 15, 2024.

Merrick B. Garland,

Attorney General.

BILLING CODE 4410–AR–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket Number USCG–2024–0314]

RIN 1625–AA00

Safety Zone; Corpus Christi Ship Channel, Corpus Christi, TX

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for certain navigable waters of the Corpus Christi Ship Channel. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by the removal of pipeline from the floor of the Corpus Christi Ship Channel near mile markers 55 and 56. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port, Sector Corpus Christi or a designated representative.

DATES: This rule is effective from April 22, 2024, through May 31, 2024. It will be subject to enforcement each and every day, between the hours of 8 p.m. of one day to 6 a.m. of the next day.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to *https://www.regulations.gov,* type USCG–2024–0314 in the ''SEARCH'' box and click ''SEARCH.'' Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Lieutenant Commander Anthony Garofalo, Sector Corpus Christi Waterways Management Division, U.S. Coast Guard; telephone 361–939–5130, email *Anthony.M.Garofalo@uscg.mil.*

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
COTP Captain of the Port, Sector Corpus Christi
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to 5 U.S.C. 553(b). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable. This safety zone must be in place by April 22 to protect personnel, vessels, and the marine environment from potential hazards associated with removal of the pipelines and there is insufficient time between now and April 22 to provide notice of a proposal to create these safety zones, consider comments received, and publish a final rule.

In addition, the Coast Guard finds that good cause also exists under 5 U.S.C. 553(d)(3) for making this rule effective less than 30 days after publication in the **Federal Register** because the safety zone must be in effect less than 30 days from now to serve their purpose and it would be contrary to the public interest to delay its effective date until after the hazardous activities begin.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The Captain of the Port, Sector Corpus Christi (COTP) has determined that hazards inherent in blocking the channel for pipeline removal activities necessitate provisions to protect personnel, vessels, and the marine environment while those activities are taking place. The activities giving rise to these hazards include the deployment of heavy equipment which will obstruct vessel traffic, continuous diving operations, and various other activities which create underwater hazards while people are working.

IV. Discussion of the Rule

This rule is subject to overnight enforcement, starting from 8 p.m. of the first day, to 6 a.m., of the next day, each and every day, from April 22, 2024 through May 31, 2024. No vessel or person will be permitted to enter the temporary safety zones during the period in which the rule is subject to enforcement without obtaining permission from the COTP or a designated representative, who may be contacted on Channel 16 VHF–FM

(156.8 MHz) or by telephone at 1–800–874–2143. The Coast Guard will issue Broadcast Notices to Mariners, Local Notices to Mariners, and/or Safety Marine Information Broadcasts as appropriate.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a ''significant regulatory action,'' under Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, and duration of the safety zones. The safety zones cover less than 0.5 square mile area of the Corpus Christi Ship Channel in Texas. The temporary safety zones will be subject to enforcement for a period of 9 consecutive hours, from April 22, 2024 through May 31, 2024. The rule does not completely prohibit vessel traffic within the waterway and it allows mariners to request permission to enter the zones.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the temporary safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial, direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01 and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f) and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves establishment of a temporary safety zone for navigable waters in the Corpus Christi Bay. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by pipeline removal activities that may include deployment of heavy equipment which will obstruct vessel traffic, continuous diver's operations, and various other activities which create underwater hazards while people are working. It is categorically excluded from further review under paragraph L60(a), in Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C 70034, 70051; 70124; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3.

■ 2. Add § 165.T08–0314 to read as follows:

§ 165.T08–0314 Safety Zone; Corpus Christi Ship Channel, Corpus Christi, TX

(a) *Location.* The safety zone will be within the following area: All navigable waters of the Corpus Christi Ship Channel, from the surface to bottom, encompassed by a line connecting the following points beginning at Point 1: 27°48′47.41″ N, 97°16′49.55″ W, thence to Point 2: 27°48′46.55″ N, 97°16′54.8″ W, thence to Point 3: 27°48′28.48″ N, 97°16′58.94″ W, thence to Point 4: 27°48′28.04″ N, 97°16′51.42″ W. These coordinates are based on World Geodetic System (WGS) 84.

(b) *Definitions.* As used in this section, designated representative means a Coast Guard Patrol officer, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port, Port Arthur, TX (COTP), in the enforcement of the safety zone.

(c) *Enforcement period.* This section will be subject to enforcement from 8 p.m. to 6 a.m. of the next day, on each day, from April 22, 2024 through May 31, 2024.

(d) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into the temporary safety zones described in paragraph (a) of this section are prohibited unless authorized by the Captain of the Port Sector Corpus Christi (COTP) or a designated representative. They may be contacted on Channel 16 VHF–FM (156.8 MHz) or by telephone at 1–800–874–2143.

(2) If permission is granted, all persons and vessels shall comply with the instructions of the COTP or designated representative.

(e) *Information broadcasts.* The COTP or a designated representative will inform the public of the enforcement times and date for this safety zone through Broadcast Notices to Mariners, Local Notices to Mariners, and/or Safety Marine Information Broadcasts as appropriate.

Dated: April 15, 2024.

Jason Gunning,

Captain, U.S. Coast Guard, Captain of the Port, Sector Corpus Christi.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 70

[EPA–R07–OAR–2024–0064; FRL–11722–02–R7]

Air Plan Approval; Iowa; State Implementation Plan and State Operating Permits Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the Iowa State Implementation Plan (SIP) and the Operating Permit Program for the State of Iowa. The revisions update incorporations by reference to EPA methods for performance testing (stack testing), update the definitions, and adopt the most recent National Ambient Air Quality Standards (NAAQS) for ozone. These revisions do not impact the stringency of the SIP or have an adverse effect on air quality. The EPA's approval of this rule revision is being done in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on May 20, 2024.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2024–0064. All documents in the docket are listed on the *https://www.regulations.gov* website. Although listed in the index, some information is not publicly available, *i.e.,* CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through *https://www.regulations.gov* or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional information.

FOR FURTHER INFORMATION CONTACT: Bethany Olson, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number: (913) 551–7905; email address: *olson.bethany@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this document ''we,'' ''us,'' and ''our'' refer to EPA.

Table of Contents

I. What is being addressed in this document?

The EPA is approving revisions to the Iowa SIP and the Operating Permits Program received on March 29, 2023. The revisions incorporate recent changes to Iowa Administrative Code. The following chapters are impacted:

- Chapter 20, ''Scope of Title—Definitions;''
- Chapter 22, ''Controlling Pollution;''
- Chapter 25, ''Measurement of Emissions;'' and
- Chapter 28, ''Ambient Air Quality Standards.''

The revisions update incorporations by reference to EPA methods for performance testing (stack testing) and adopt the most recent National Ambient Air Quality Standards (NAAQS) for ozone. As explained in detail in the EPA's proposed rule, EPA finds these revisions meet the requirements of the Clean Air Act, do not impact the stringency of the SIP, and do not adversely impact air quality (89 FR 12291, February 16, 2024). The full text of these changes can be found in the State's submission, which is included in the docket for this action.

Sections 111 and 112 of the Clean Air Act (CAA) allow EPA to delegate authority to states for New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPs). EPA has delegated authority to Iowa for approved portions of these sections of the CAA. Changes made to Iowa's Chapter 23 pertaining to new and revised NSPS and NESHAPs are not directly approved into the SIP, but rather, are adopted by reference. Thus, EPA is not approving the changes to Chapter 23 of the Iowa Administrative Code into the state's SIP.

II. Have the requirements for approval of a SIP and the operating permit plan revisions been met?

The State submission has met the public notice requirements for SIP

submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from November 2, 2022, to December 5, 2022, and held a public hearing on December 5, 2022. The State received no comments. In addition, as explained above, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

III. The EPA's Response to Comments

The public comment period on the EPA's proposed rule opened February 16, 2024, the date of its publication in the **Federal Register** and closed on March 18, 2024. During this period, EPA received one comment. The comment is available for review in the docket for this action.

Comment 1: The commenter stated the date the state public comment period opened was incorrect in section V. of the proposed rule. The proposed rule incorrectly stated that the state provided public notice on the SIP revision from November 22, 2022, to December 5, 2022. The correct date the state public comment period opened is November 2, 2022.

Response 1: The EPA acknowledges that the proposed rule used an incorrect date for the opening of the state public comment period. While the error does not have a substantive impact on EPA's proposed action, EPA has changed the date the state public comment period opened in the final rulemaking.

IV. What action is the EPA taking?

The EPA is finalizing its proposal to approve revisions to the Iowa SIP and the Operating Permits Program at IAC 567–20.2, 567–25.1, 567–28.1, and 567–22.100.

V. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Iowa rules 567–20.2, Definitions, which provides definitions for air quality regulations; 567–25.1, Testing and Sampling of New and Existing Equipment, which regulates testing and sampling of equipment; 567–28.1, Statewide Standards, which regulates ambient air quality standards; and 22.100, Definitions for Title V Operating Permits, which provides definitions for state operating permits. The state effective date of these rules is March 15, 2023. The EPA has made, and will continue to make, these materials generally available through *https://www.regulations.gov* and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State Implementation Plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.[1]

VI. Statutory and Executive Order

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address ''disproportionately high and adverse human health or environmental effects'' of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as ''the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.'' EPA further defines the term fair treatment to mean that ''no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.''

The Iowa Department of Natural Resources did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

This action is subject to the Congressional Review Act, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

[1] 62 FR 27968, May 22, 1997.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 18, 2024. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

40 CFR Part 70

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Operating permits, Reporting and recordkeeping requirements.

Dated: April 11, 2024.

Meghan A. McCollister,

Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR parts 52 and 70 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart Q—Iowa

■ 2. In § 52.820, the table in paragraph (c) is amended by revising the entries ''567–20.2,'' ''567–25.1,'' and ''567–28.1'' to read as follows:

§ 52.820 Identification of plan.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

42 CFR Part 10

[Docket No. 2021–0004]

RIN 0906–AB28

340B Drug Pricing Program; Administrative Dispute Resolution Regulation

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Final rule.

SUMMARY: The Health Resources and Services Administration administers section 340B of the Public Health Service (PHS) Act, which is referred to as the ''340B Drug Pricing Program'' or the ''340B Program.'' This final rule will apply to all drug manufacturers and covered entities that participate in the 340B Program. The final rule sets forth the requirements and procedures for the 340B Program's administrative dispute resolution (ADR) process. This final rule revises the 340B administrative dispute resolution process set forth in the Code of Federal Regulations.

DATES: This final rule is effective June 18, 2024.

SUPPLEMENTARY INFORMATION:

I. Background

Section 340B of the PHS Act entitled ''Limitation on Prices of Drugs Purchased by Covered Entities,'' was created under section 602 of Public Law 102–585, the ''Veterans Health Care Act of 1992,'' and codified at 42 U.S.C. 256b. The 340B Program is intended to enable covered entities ''to stretch scarce Federal resources as far as possible, reaching more eligible patients and providing more comprehensive services.'' H.R. Rep. No. 102–384(II), at 12 (1992). The Secretary of Health and Human Services (Secretary) has delegated the authority to administer the 340B Program to the HRSA Administrator, who has further delegated authority to the Office of Pharmacy Affairs (OPA), within HRSA, which oversees the 340B Program. Eligible covered entity types are defined in section 340B(a)(4) of the PHS Act, as amended. Section 340B(a)(1) of the PHS Act instructs HHS to enter into pharmaceutical pricing agreements (PPAs) with manufacturers of covered outpatient drugs. Under section 1927(a)(5)(A) of the Social Security Act, a manufacturer must enter into an agreement with the Secretary that complies with section 340B of the PHS Act ''[i]n order for payment to be available under section 1903(a) or under part B of title XVIII of the Social Security Act for covered outpatient drugs of a manufacturer.'' When a drug manufacturer signs a PPA, it agrees that the prices charged for covered outpatient drugs to covered entities will not exceed statutorily defined 340B ceiling prices. 340B ceiling prices are based on quarterly pricing reports that manufacturers must provide to the Secretary through the Centers for Medicare & Medicaid Services (CMS) and are calculated and verified by HRSA.

Section 7102 of the Patient Protection and Affordable Care Act (Pub. L. 111–148), as amended by section 2302 of the Health Care and Education Reconciliation Act (Pub. L. 111–152), jointly referred to as the ''Affordable Care Act,'' added section 340B(d)(3) to the PHS Act, which requires the Secretary to promulgate regulations establishing and implementing a binding 340B ADR process for certain disputes arising under the 340B Program. Under the 340B statute, the purpose of the 340B ADR process is to resolve (1) claims by covered entities that they have been overcharged for covered outpatient drugs by manufacturers and (2) claims by manufacturers, after a manufacturer has conducted an audit as authorized by section 340B(a)(5)(C) of the PHS Act, that a covered entity has violated the prohibition on diversion or duplicate discounts.

The 340B ADR process is an *administrative* process designed to assist covered entities and manufacturers in resolving disputes regarding overcharging, duplicate discounts, or diversion, as outlined in statute. This 340B ADR process is also designed to provide stakeholders the opportunity to have disputes evaluated in a timely, consistent, and fair and equitable manner.

Historically, HHS has encouraged manufacturers and covered entities to work with one another to attempt to resolve disputes in good faith. HHS recognizes that most disputes that occur between individual parties are resolved in a timely manner without HRSA's involvement. The 340B ADR process is not intended to replace these good faith efforts and should be considered only when good faith efforts to resolve disputes independently have been exhausted and failed.

In 2020, HHS issued a final rule ((85 FR 80632, Dec. 14, 2020) herein referred to as the 2020 final rule), which was codified at 42 CFR 10.20 through 10.24. HRSA began implementing the 2020 final rule when it became effective on January 13, 2021, by accepting claims through the 340B ADR process. HRSA encountered policy and operational challenges with implementation of the 2020 final rule and issued a notice of proposed rulemaking (NPRM) on November 30, 2022 (87 FR 73516), to propose a revision to the 340B ADR process.

HHS is issuing this final rule to revise the current ADR process by modifying the regulations issued under the 2020 final rule. As HHS has indicated in the 2022 NPRM, the 2020 final rule poses policy and operational challenges that are described in this section.

First, HHS is finalizing that the 340B ADR process be revised to be more accessible, administratively feasible and timely than the 2020 final rule. The 340B statute at section 340B(d)(3)(B)(ii) of the PHS Act, requires the establishment of deadlines and procedures that ensure that claims are resolved fairly, efficiently, and expeditiously. This ADR process should be an expeditious and less formal process for parties to resolve disputes than the 2020 final rule. An ADR process governed by the Federal Rules of Evidence (FRE) and Civil Procedure (FRCP), as envisioned in the 2020 final rule, does not advance these goals. For example, potential petitioners, many of whom are safety net providers in under-resourced communities, may lack the resources to undertake ADR even if it would be in their best interest to do so. In addition, reliance on the FRE and FRCP could create unnecessary delays in what is intended to be a timely decision-making process. Finally, it is challenging to assign ADR Panel members with expertise in the FRE or FRCP. In implementing the 2020 final rule, HRSA received questions from stakeholders about the formality of the ADR process and the legal requirements under the FRCP for submitting a petition and accompanying documents, *e.g.,* whether the filings submitted must conform to the FRCP, which added to the complexity and difficulty of the ADR process.

HHS is finalizing an ADR process that is designed to assist covered entities and manufacturers in resolving disputes regarding overcharging, duplicate discounts, or diversion, as set forth in the 340B statute. HHS believes that for the ADR process to be workable, it needs to be accessible. HHS recognizes that many covered entities are small,

community-based organizations with limited means. These covered entities may not have the financial resources to hire an attorney to navigate the complex FRCP and FRE requirements and engage in a lengthy, trial-like process, as envisioned in the 2020 final rule. The 340B statute does not compel such a process. The 2020 final rule also institutes a minimum threshold of $25,000 or where the equitable relief sought will likely have a value of more than $25,000 to be met before the petition could be filed. Given the smaller, community-based nature of many covered entities, HHS believes that flexibility should be maintained with respect to the amount of damages and is therefore not finalizing a minimum threshold for accessing the ADR process. However, covered entities and manufacturers should carefully evaluate whether the ADR process is appropriate for minor or *de minimis* claims given the time and resource investment required of the parties involved. After deliberate consideration of these issues and review of the comments, HHS is finalizing rule provisions that create a more accessible process where stakeholders have equal access to the ADR process and can easily understand and participate in it without having legal expertise or expending significant resources.

Second, the 2020 final rule states that the Secretary of HHS shall establish a 340B ADR Board that consists of at least six members appointed by the Secretary with equal numbers from HRSA, CMS, and the HHS Office of the General Counsel (OGC). It also requires the HRSA Administrator to select three members from the ADR Board to form a 340B ADR Panel and that each 340B ADR Panel include one ex-officio, non-voting member (appointed by the Secretary) from OPA to assist the 340B ADR Panel. The 2020 final rule states that HRSA and CMS ADR Board members must have relevant expertise and experience in drug pricing or drug distribution and that the OGC ADR Board members must have expertise and experience in handling complex litigation. While the 340B Program is related to drug pricing and drug distribution, it is a distinct program that requires knowledge of the 340B statute and specific 340B Program operations. Few OGC, CMS, and HRSA employees (outside of OPA) have both the required expertise as well as the availability (in addition to their day-to-day responsibilities) to serve on such 340B ADR Panels.

Therefore, HHS is finalizing rule provisions requiring that 340B ADR Panel members should be subject matter experts from OPA to ensure Panel members have specific knowledge of the authorizing statute and the operational processes of the 340B Program (*e.g.,* registration and program integrity efforts) and the ability to dedicate a portion of their time to ADR Panel service. Moreover, decisions by subject matter experts from OPA are less likely to conflict with current 340B policy. All members on the 340B ADR Panel will undergo an additional screening prior to reviewing a specific claim to ensure that the 340B ADR Panel member was not involved in previous agency actions related to the claim (including previous 340B ADR Panel decisions).

Third, HHS is finalizing final rule provisions stating that prior to initiating the ADR process, parties must undertake good-faith efforts to resolve the disputed issues. Historically, HRSA has encouraged parties to work in good faith and covered entities, and manufacturers have not had significant numbers of disputes due to the success of these good-faith-resolution efforts. 340B Program administrative improvements have narrowed the areas where parties had, in the past, disagreed over 340B Program issues. For example, HRSA released the pricing component of the 340B Office of Pharmacy Affairs Information System (340B OPAIS) in February 2019, which, for the first time, provided 340B ceiling prices to authorized covered entity users. OPAIS implementation has provided the necessary transparency to decrease disputes specific to the 340B ceiling price and its calculation. Outside of an issue involving some manufacturers placing restrictions on certain covered entities use of contract pharmacies, OPA has only received three covered entity overcharge complaints since making 340B ceiling prices available to covered entities through 340B OPAIS. Of additional note, prior to the 2020 final rule, stakeholders were able to utilize an informal dispute resolution process to resolve disputes between covered entities and manufacturers (61 FR 65406, Dec. 12, 1996) (''1996 guidelines''). There have been only four informal dispute resolution requests since the publication of the 1996 guidelines. Of the four informal dispute resolution requests received, two were terminated by HRSA due to non-participation by one of the parties, another was dismissed due to lack of sufficient evidence, and the last was terminated because the parties disputed each other's attempts of good faith resolution. The relatively small number may also be attributed to the parties' successful attempts to resolve issues in good faith. With this very small number of past informal disputes, the increased transparency in 340B pricing data, and HRSA's encouragement that parties work to resolve issues in good faith, HHS is finalizing final rule provisions that include an ADR process more closely aligned with the process that was established in the 1996 guidelines, and less trial-like and resource-intensive—for both the participants and HHS—than that established in the 2020 final rule.

Also, in the time since Congress enacted the 340B ADR statutory provision, HRSA implemented its extensive audit program in 2012, which ensures that participating covered entities and manufacturers can demonstrate compliance with all 340B Program requirements. On average, HRSA conducts 200 covered entity audits each fiscal year including child/associate sites and contract pharmacies associated with the covered entities, and issues findings in three areas: eligibility, diversion, and duplicate discounts. These findings vary in terms of severity—from covered entities not having the correct information in the 340B OPAIS to the diversion of 340B drugs to individuals who are not patients of the covered entity. HRSA conducts approximately five manufacturer audits each year and makes findings related to manufacturers charging above the 340B statutorily required ceiling price and manufacturers not reporting the required 340B pricing data to HRSA. Since HRSA began auditing covered entities and manufacturers, HRSA has identified 340B compliance concerns that would have previously been disputed. In addition to the extensive audit program, HRSA has also developed a comprehensive program integrity strategy to ensure compliance among all stakeholders participating in the 340B Program. These activities include quarterly checks of 340B Program eligibility, a self-disclosure and allegation process, which involves communication between OPA and the stakeholders regarding the compliance issue, and spot checks of covered eligibility documentation including contracts with State and local governments and contract pharmacy agreements.

Further, manufacturers are required to audit a covered entity prior to filing an ADR claim pursuant to section 340B(d)(3)(B)(iv) of the PHS Act. Since November 2022, HRSA has received two final audit reports from the manufacturers. The infrequency of finalized manufacturer audit reports along with the requirement that

manufacturers audit covered entities prior to filing an ADR claim suggests that the number of manufacturer ADR claims will be low.

HRSA's impartial facilitation of good faith resolution efforts have allowed parties to take advantage of opportunities for open communication to better understand each other's positions and come to an agreement, without need for formal intervention by HRSA (*e.g.,* through a HRSA targeted audit).

Fourth, the ADR process should be reserved for those disputes set forth in the statutory ADR provision (overcharge, diversion, or duplicate discount). For example, a manufacturer that audited a covered entity may report its findings of alleged duplicate discounts identified by specific purchasing patterns over a period of time. The covered entity may disagree with the audit assessment of purchases. In this example, the matter would be best resolved through the ADR process as it involves an alleged duplicate discount violation.

This final rule aligns with the statutory provisions by outlining the specific types of claims that can be brought forth through the ADR process—claims for overcharge, diversion or duplicate discounts.

Fifth, HHS believes that there should be an opportunity for dissatisfied parties to seek reconsideration of the 340B ADR Panel's decision by HRSA. The 2020 final rule did not include such a process. This final rule establishes an appeals or reconsideration process option that would be made available to either party.

Therefore, based on these issues with the 2020 final rule, HHS is finalizing in this rule to (1) establish a more accessible ADR process that is reflective of an administrative process rather than a trial-like proceeding; (2) revise the structure of the 340B ADR Panel so that it is comprised of 340B Program subject-matter experts; (3) ensure that the parties have worked in good faith before proceeding through the ADR process; (4) more closely align the ADR process with the provisions set forth in the 340B statute (diversion, duplicate discounts, and overcharges); and (5) include a reconsideration process for parties dissatisfied with a 340B ADR Panel's decision.

HRSA received 112 non-duplicative comments and, after consideration of the comments received, HHS has developed this final rule.

II. Summary of Proposed Provisions and Analysis and Responses to Public Comments

Part 10 of title 42 of the Code of Federal Regulations has been revised to incorporate changes to the 340B ADR process, which is described below in conjunction with the comments received to each such section.

General Comments

Comments received during the comment period addressed general issues that were raised in the preamble of the NPRM. We have summarized these general comments and have provided a response below.

Comment: The 2020 final rule instituted a minimum threshold of $25,000 or where the equitable relief sought would likely have a value of more than $25,000 as an ADR petition prerequisite. In the NPRM, HHS did not propose a minimum threshold for accessing the 340B ADR process. Many covered entity comments favored eliminating the threshold and argued that the 340B ADR process would be more accessible and would help ensure all providers could seek relief through the 340B ADR process. Most manufacturer comments were against eliminating the minimum threshold and argued that *de minimis* claims and frivolous claims would be filed through the 340B ADR process.

Response: Many 340B covered entities are small, rural or health care providers in underserved areas. The 340B ADR process should be accessible and available to these and all other stakeholders regardless of their volume of purchases or sales, and that flexibility should be maintained with respect to the amount of damages demonstrated when filing a 340B ADR claim; therefore, HHS is finalizing this provision as proposed without a minimum threshold for accessing the 340B ADR process. As noted above, HHS recognizes that most disputes that occur between individual parties are resolved in a timely manner without HRSA's involvement. The 340B ADR process should be considered only when good faith efforts to resolve disputes have been exhausted and failed.

Comment: The 2020 final rule established the 340B ADR process as reliant on the Federal Rules of Civil Procedure (FRCP) and the Federal Rules of Evidence (FRE). These rules govern civil proceedings and the introduction of evidence at civil and criminal trials in Federal courts. In the NPRM, HHS proposed removing reliance on these rules as the statute does not compel reliance on the FRCP and FRE and many covered entities lack the expertise in these legal rules as well as the resources to hire outside counsel to navigate them. Conflicting comments were received related to removal of reliance on the FRCP and FRE for the 340B ADR process. Some covered entity stakeholders appreciated the proposal to make the process more accessible and administrative rather than trial-like. Most manufacturer commenters raised concerns that HHS had not proposed an alternative procedural framework or evidentiary standards in the absence of the Federal Rules asserting that without standards, the ground rules would be subject to dispute in each case.

Response: HHS believes the new 340B ADR process will be a more accessible process, especially for covered entities with fewer resources, and will not require legal expertise during the claim resolution process. This approach will be more accessible to stakeholders and will use fewer stakeholder and government resources to resolve disputes. As such, this final rule sets up an accessible and comprehensible process without needing to invoke the more elaborate procedures available under the FRCP and FRE.

Comment: Some covered entity commenters approved of the proposal to automatically transfer claims under the 2020 final rule to the new process.

Other commenters disagreed that claims should be automatically transferred to the new process. These commenters specifically argued that HHS should proceed to handle the claims that are currently in the queue under the 2020 final rule as opposed to automatically transferring them to the new process. Further, one covered entity commenter generally stated that it was unclear whether HHS would be permitted under administrative law principles to transfer claims to the new process. The commenter suggested that such a transfer would conflict with the general principle that agencies must apply the law in effect at the time a decision is made, even when that law has changed during the course of a proceeding.

Most manufacturer commenters disagreed, arguing that all pending ADR claims should be dismissed upon issuance of a final rule, and claimants should be required to refile claims if they wished to initiate new ADR proceedings.

Response: After consideration of the comments received, HHS is finalizing this provision as proposed to provide for the automatic transfer of any pending claims to the new process. The decision to automatically transfer any

claims that were submitted pursuant to the 2020 final rule and that are pending will minimize burden on all parties involved. For petitioners, it will mean that they do not have to resubmit claims under the new process. It will ensure the continuity of the 340B ADR process for the stakeholders involved in claims under the 2020 final rule, despite the new process as envisioned in this final rule.

In particular, we disagree that automatically transferring claims to the new process will run afoul of any administrative law principles. The general presumption that agencies apply the law in effect at the time a decision was made is of no moment here, because nothing in this final rule changes the substantive law governing disputes covered by the 340B ADR process. Transferring pending claims to the new process ''takes away no substantive right but simply changes the tribunal that is to hear the case''; in such a situation, ''[p]resent law normally governs.'' *Landgraf* v. *USI Film Prod.,* 511 U.S. 244, 274 (1994) (cleaned up). As the Supreme Court has explained, a law ''govern[ing] the transfer of an action instituted prior to that statute's enactment'' may ''be applied in suits arising before their enactment without raising concerns about retroactivity.'' *Id.* at 275. ''Because rules of procedure regulate secondary rather than primary conduct, the fact that a new procedural rule [is] instituted after the conduct giving rise to the suit does not make application of the rule at trial retroactive.'' *Id.*

This rule modifies procedural requirements for the 340B ADR process. It does not impair any rights possessed by parties when they acted, increase or affect their liability for past conduct, or impose new duties on the parties for already completed transactions. The changes in this final rule do not affect the substance of claims at issue for the ADR panel and accordingly could not be considered to have retroactive application that affects potential consequences understood by the parties when they began the 340B ADR process.

Claims that are automatically transferred will be first in the queue to be reviewed once this final rule becomes effective. Within a specified time period, HHS will allow petitioners of claims submitted under the 2020 final rule to submit additional information or revise their petition, as necessary, in support of their original claim. Petitioners will also be able to withdraw their pending claims. HRSA will work with affected parties to the extent that additional information is needed as part of the process outlined in this final rule. Details concerning this automatic transfer of claims will be provided to affected parties once this final rule becomes effective.

Comment: Many manufacturer commenters requested that HHS revise the 1996 manufacturer audit guidelines before it issues regulations on ADR. They stated that the guidelines are problematic because they impose onerous and unnecessary barriers on a manufacturer's ability to audit a covered entity for 340B compliance.

Response: Revisions to the 1996 manufacturer audit guidelines are outside the scope of this final rule. The requirement for a manufacturer to conduct an audit prior to initiating the 340B ADR process is a statutory requirement (section 340B(d)(3)(B)(iv) of the PHS Act). This rule is not meant to address how a manufacturer should conduct the audit—only that a manufacturer does conduct the audit prior to initiating the ADR process. Multiple manufacturers have utilized the 1996 manufacturer audit guidelines to conduct audits of covered entities. In the last 5 years, six have followed the guidelines to request audits of covered entities. During that same time frame, HRSA has not denied a request for a manufacturer audit of a covered entity, thereby, demonstrating the guidelines are not overly burdensome or present any barriers to a manufacturer's ability to perform an audit of a covered entity. Further, the guidelines present a clear and transparent process that may decrease burden on both parties with open dialogue and present an objective review of a covered entity's compliance.

Comment: Several manufacturer commenters raised that HHS has failed to establish procedures for manufacturers to issue refunds to covered entities for overcharges. They explained that this is a prerequisite to the 340B ADR process in order for it to be fair, efficient, and expeditious. Relatedly, they stated that there is a need for HHS to address refund procedures that permit offsets of covered entity overpayments and underpayments to a manufacturer.

Response: Specific procedures for refunds are outside the scope of this final rule, as the authority for this final rule directly relates to the development of an administrative process for the resolution of claims as described in section 340B(d)(3) of the PHS Act.

Subpart A—General Provisions

Section 10.3 Definitions

In the NPRM, HHS sought to add or revise the following definitions: ''Administrative Dispute Resolution Panel (340B ADR Panel),'' ''340B Administrative Dispute Resolution Process,'' ''claim,'' ''consolidated claim,'' ''joint claim,'' and ''Office of Pharmacy Affairs.'' HHS did not receive substantive comments on this section, and we are finalizing this section as proposed. HHS received numerous comments on defining the types of claims that could be adjudicated through the 340B ADR process, and HHS addresses those comments in § 10.21.

Subpart C—Administrative Dispute Resolution

Section 10.20 340B Administrative Dispute Resolution Panel

(a) Members of the 340B ADR Panel

The 2020 final rule states that the Secretary shall establish a 340B ADR Board consisting of at least six members appointed by the Secretary with equal numbers from HRSA, CMS, and the HHS OG C. It also requires the HRSA Administrator to select three members from the ADR Board to form a 340B ADR Panel and that each 340B ADR Panel include one ex-officio, non-voting member (appointed by the Secretary) from OPA to assist the 340B ADR Panel. HHS proposed to revise the composition of the 340B ADR Panel that would review and make decisions for claims filed by covered entities and manufacturers. In the NPRM, HHS proposed that the Secretary appoint a roster of no fewer than 10 eligible individuals (Roster) consisting of OPA staff to serve on the 340B ADR Panels. Under the proposed rule, the OPA Director, or designee, selects at least three members for each 340B ADR Panel from the Roster of appointed staff; has the authority to remove an individual from the 340B ADR Panel and replace such individual; selects replacement members should a 340B Panel member be removed or resign; and screens for any potential conflicts of interests. After consideration of the comments received, HHS is finalizing this provision as proposed. HHS has addressed specific comments with respect to this section below.

Comment: Several covered entity commenters favored the proposal to have OPA staff serve as the 340B ADR Panel members, because the staff understand the intricacies of the 340B Program. They explained that the 340B Program is complex and it is important that individuals understand the complexities of the 340B Program to adjudicate these disputes in order to ensure a fair outcome. Some concerns were raised that the workload may be too much for a small OPA staff, and that

an insufficient number of available panelists could lead to delayed decisions. Some covered entity commenters who favored OPA staff serving on 340B ADR Panels also recommended that other staff within HRSA could serve on 340B ADR Panels, such as staff working on programs with grantees that participate in the 340B Program.

Response: HHS agrees with the commenters that OPA staff should serve on 340B ADR Panels given their specialized knowledge and expertise of the 340B Program. Therefore, HHS is finalizing this provision as proposed. HHS also appreciates the commenters' concerns regarding the workload of OPA staff and the suggestion to include other HRSA staff that work with grantees participating in the 340B Program. However, as stated in the preamble of the proposed rule, OPA staff are subject matter experts and have years of experience with complex 340B matters involving covered entities and manufacturers. Given this expertise, HHS continues to believe that OPA staff are best suited to serve on 340B ADR Panels to ensure that the process is efficient and that claim reviews are handled in a timely fashion. This final rule limits 340B ADR Panel participation to OPA staff who have daily exposure to the complex issues facing both covered entities and manufacturers, to ensure there will be equitable, consistent, and fair 340B ADR adjudications. In addition, the OPA Director is aware of the workload of each OPA staff member and will be able to appropriately assign 340B ADR Panel members taking into consideration existing workload demands and priorities.

Comment: Some manufacturer commenters opposed OPA staff serving on 340B ADR Panels. These commenters argued that all OPA staff are involved in audits of covered entities and manufacturers, and with at least 10 staff planned to be on the ADR Roster under the proposed rule, there may be too many conflicts of interests and, in turn, the possibility and perception of bias may arise. Moreover, manufacturers opposing this policy were concerned that, given OPA's regular and extensive involvement in the day-to-day administration of the 340B Program, it may be difficult for OPA staff to approach adjudications without the appearance that they may be predisposed to particular views on relevant issues. Some commenters suggested Administrative Law Judges be the adjudicators of the 340B ADR process because they have the professional background, legal training and independence needed to resolve claims in a fair, consistent, and well-reasoned manner.

Response: HHS continues to believe that a Panel of OPA staff members who are steeped in 340B knowledge and experience and who can provide a consistent application of 340B policies will ensure a more efficient ADR adjudication process. As such, HHS is finalizing this provision as proposed. OPA staff members work to provide oversight of the 340B Program without bias—working with both manufacturers and covered entities in a manner that is impartial to the stakeholders involved. In addition, staff members work toward the goal of ensuring the integrity of the 340B Program and they do so without prejudice toward particular stakeholders. Those serving as 340B ADR Panel members will be fair and make consistent decisions in a well-reasoned manner using the 340B statute, applicable regulations, policies, and guidance documents. OPA staff have demonstrated their ability to follow the principles of fairness, consistency, transparency of applicable statute, regulations, policies, and guidance in their performance of covered entity and manufacturer audits. The breadth of experience, which we believe far outweighs any risks of perceived bias, among the OPA staff members serving on a 340B ADR Panel will ensure fairness, consistency, and transparency in ADR decisions. In addition, the OPA Director, in consultation with government ethics officials, will consider financial interest(s), current or former business or employment relationship(s), or other involvement of a prospective panel member or close family member who is either employed by or otherwise has a business relationship with an involved party, subsidiary of an involved party, or particular claim(s) expected to be presented to the prospective panel member.[1]

In addition, specialized legal knowledge or training is not necessary for 340B ADR Panel members to effectively function in their role as the 340B ADR process is an administrative process that is best served by having 340B subject matter experience rather than legal experience. HHS disagrees with the recommendation that Administrative Law Judges should be appointed as adjudicators of the 340B ADR process.

The 340B ADR process is different, as it is designed as a process to resolve disputes between covered entities and manufacturers and in this final rule, HHS is establishing 340B ADR Panels comprised of OPA staff, who are uniquely suited to handle the complexities of the 340B Program, given their day-to-day administration of the Program. Processes are well established to provide staff opportunity for continuous learning and training on program implementation and oversight. OPA staff also have distinct knowledge of the 340B statute, laws, and policies as they apply that subject matter expertise throughout the work that is conducted on a daily basis to oversee the program and therefore will be able to handle such disputes effectively and efficiently.

Comment: Some manufacturer commenters argued that the new proposed rule has the same Appointments Clause and structural constitutional defects as the 2020 final rule. They stated that there is no mechanism for review of a 340B ADR Panel decision by a principal officer, appointed by the President with Senate confirmation, before that decision becomes ''final agency decision.''

Response: HHS disagrees. Under this final rule, the Secretary will appoint a roster of eligible individuals (Roster) consisting of staff within OPA to serve on a 340B ADR Panel. When a 340B ADR claim is presented, the OPA Director will select three members from the Roster to serve on a 340B ADR Panel to review claims and make final agency decisions that will be binding on the parties involved, unless invalidated by an order of a Federal court. As discussed further in § 10.20(c), the Secretary, who is appointed by the President and Senate-confirmed, has the authority to intervene in the 340B ADR process at any time, including the ability to remove any individual from the Roster of 340B ADR Panelists for any reason. The Secretary had inherent authority to take these same actions under the 2020 final rule, and the codified regulatory text now explicitly addresses this authority. Specifically, as outlined further below, any 340B Panel decision or reconsideration decision regarding a 340B ADR Panel's decision will be effective 30 business days from issuance and serve as the final agency decision unless within 30 business days of issuance, the Secretary makes a determination that the Secretary will review the decision.

(b) Conflicts of Interest

In the NPRM, HHS proposed that the OPA Director would ensure that each 340B ADR Panel member is screened prior to reviewing a claim and that there

[1] ''Confidential Financial Disclosure Guide: OGE 450.'' U.S. Office of Government Ethics. October 2023.

are no conflicts of interest between the parties involved in the dispute and the 340B ADR Panel member. The conflict-of-interest review includes financial interest(s), current or former business or employment relationship(s), or other involvement of a prospective panel member or close family member who is either employed by or otherwise has a business relationship with an involved party, subsidiary of an involved party, or particular claim(s) expected to be presented to the prospective panel member. Under the proposed rule, members of the 340B ADR Panel will also undergo additional screening prior to reviewing a specific claim to ensure that the 340B ADR Panel member was not involved in the previous agency action, including previous 340B ADR Panel decisions, concerning the specific issue in the claim. HHS received several comments on this provision, which are summarized below. After a review and analysis of the comments, HHS is clarifying the additional conflict of interest screening as discussed in more detail below.

Comment: Both manufacturer and covered entity commenters agreed that HHS should evaluate conflicts of interest with regard to a 340B ADR Panel member; however, they recommended that the parties should have the ability to make objections to a proposed panelist. Some commenters mentioned the small size of the OPA staff may make having too broad of screening for conflict of interest, such as having worked on an audit, difficult to fill a panel with subject matter experts. Commenters also requested the policies and procedures for screening panel members be publicly outlined.

Response: HHS will inform the parties involved in the ADR of Panel members for that specific claim. The OPA Director has full knowledge of a Panel member's workload and will select Panel members for each claim, which will also be based on the OPA Director's awareness of any potential conflicts of an OPA staff member, including financial interest conflicts, current or former business relationships or other involvement. We believe that the process sufficiently addresses the need to screen for conflicts and allowing the parties to object to proposed panelists or the specific policies or procedures for screening panel members would unduly lengthen the 340B ADR process. To the extent a conflict arises regarding an assigned panelist, the OPA Director is authorized to make changes to the panel composition. The commenters also raised concern about whether the additional conflict of interest screenings would make it difficult to fill 340B ADR Panel positions, given the small staff within OPA. In order to make this process fair, efficient and transparent, HHS is retaining the policy that a conflict of interest screening will be conducted on all 340B ADR Panel members to ensure there is no conflict of interest with respect to financial conflicts or current/former business relationships or other involvement of a prospective panel member or close family member who is either employed by or otherwise has a business relationship with an involved party, subsidiary of an involved party in an 340B ADR claim. However, based on the comments received, HHS is clarifying that the additional screening in § 10.20(b)(2) will be conducted to ensure that a 340B ADR Panel member was not directly involved in a decision concerning the specific issue of the ADR claim as it relates to the specific covered entity or manufacturer involved, including previous 340B ADR Panel decisions. This clarification responds to the concerns of the commenters and balances the fact that 340B ADR Panel members will be selected from a relatively small staff. Indirect or tangential involvement in matters affecting a specific covered entity or manufacturer will not be considered a conflict of interest.

To the extent that any significant conflict issue is raised outside of those specifically addressed in § 10.20(b), the OPA Director or the Secretary still have the discretion to remove a 340B ADR Panel member (as addressed in § 10.20(a) and (c) of this final rule, respectively).

(c) Secretarial Removal Power

The NPRM proposed to codify in regulatory text the Secretary's authority to remove any individual from the Roster of 340B ADR Panelists for any reason, including from any 340B ADR Panel to which the individual has already been assigned. After a review of the comments received, HHS is modifying this provision by clarifying the Secretary's role in the 340B ADR process.

To respond to commenter requests for transparency, HHS commits to publishing these policies and procedures for screening panel members on a HRSA public-facing website within 120 calendar days of the publication of this final rule and, likewise, in the event that these policies and procedures are modified, HHS commits to publishing these policies and procedures for screening panel members on a HRSA public-facing website within 120 calendar days of such modification.

Comment: Many manufacturers argued that while the preamble to the proposed rule suggests that the Secretary would have the inherent authority to review and reverse or alter the 340B ADR Panel's decision, it was not explicitly included in the proposed regulatory text. Further, they stated that the Secretary does not exercise sufficient control over ADR panelist decisions.

Response: There are no restrictions on the Secretary's oversight or supervision over the 340B ADR process. The Secretary has the authority to intervene in the 340B ADR process at any time, has the authority to remove Panel members from the Roster, and has the authority to review, reverse, or alter any decision made by the 340B ADR Panel or any reconsideration decision made by the HRSA Administrator as outlined in § 10.24. In consideration of the comments received, HHS is modifying this provision to make explicit that the Secretary has the authority to review, alter, reverse, or uphold any 340B ADR Panel or reconsideration decision. Specifically, as outlined further below, any 340B Panel decision or reconsideration decision regarding a 340B ADR Panel's decision will be effective 30 business days from issuance and serve as the final agency decision unless within 30 business days of issuance, the Secretary makes a determination that the Secretary will review the decision. If the Secretary reviews and reverses, alters, or upholds any 340B ADR Panel or reconsideration decision, the Secretary's decision will serve as the final agency decision and will be binding upon the parties involved in the dispute, unless invalidated by an order of a Federal court.

(d) Duties of the 340B ADR Panel

The proposed rule outlined the duties of the 340B ADR Panel, which included:

(1) reviewing and evaluating claims, including consolidated and joint claims, and documents and information submitted by covered entities and manufacturers;

(2) reviewing and possibly requesting additional documentation, information, or clarification of an issue from any or all parties to make a decision;

(3) evaluating claims based on information received, unless, at the 340B ADR Panel's discretion, the nature of the claim necessitates that a meeting with the parties be held;

(4) consulting with other Federal agencies while reviewing the claim, at the 340B ADR Panel's discretion; and

(5) making decisions on each claim.

There were no substantial comments received on this provision; therefore, HHS is finalizing the provision as proposed.

Section 10.21 Claims

(a) Claims Permitted

In accordance with section 340B(d)(3) of the PHS Act, 340B ADR claims may include: (1) claims by a covered entity that it has been overcharged by a manufacturer for a covered outpatient drug; and (2) claims by a manufacturer, after it has conducted an audit of a covered entity pursuant to section 340B(a)(5)(C) of the PHS Act, that the covered entity has violated section 340B(a)(5)(A) of the PHS Act, regarding the prohibition of duplicate discounts, or section 340B(a)(5)(B) of the PHS Act, regarding the prohibition of the resale or transfer of covered outpatient drugs to a person who is not a patient of the covered entity. The NPRM proposed that all claims must be specific to the parties identified in the claims. Based on the comments received, HHS is finalizing this provision as proposed. HHS has also decided to provide an illustrative but not exhaustive list of examples of the types of overcharges, diversion, and duplicate discount claims that may be eligible for the 340B ADR process.

Comment: Several covered entity commenters argued that manufacturers should not be allowed to bring claims related to a covered entity's eligibility and suggested that manufacturers cannot pursue claims alleging Medicaid managed care duplicate discount violations. These commenters believe that these types of claims are outside those permitted under the ADR statute.

Response: Generally, HHS agrees with the exclusion of claims regarding covered entity eligibility but disagrees with the commenters on claims related to duplicate discounts in Medicaid managed care. This final rule aligns claims to those expressly set forth in section 340B(d)(3) of the PHS Act: (1) claims by covered entities that they have been overcharged by manufacturers for drugs purchased under this section and (2) claims by manufacturers, after a manufacturer has conducted an audit of a covered entity, as authorized by section 340B(a)(5)(C) of the PHS Act, that a covered entity has violated the prohibitions against duplicate discounts and diversion (sections 340B(a)(5)(A) and (B) of the PHS Act). As duplicate discounts can occur with drugs subject to rebates under both Medicaid fee-for-service and Medicaid managed care, HHS declines to exclude Medicaid managed care claims from the 340B ADR process. In addition, although the eligibility of a covered entity is generally outside of the scope of the 340B ADR process; if resolution of a diversion claim depends in whole or in part on whether a claimant is an eligible covered entity, then that claim may proceed through the 340B ADR process, given that the 340B statute permits claims for overcharges, diversion, and duplicate discounts. In this final rule, the role of the 340B ADR Panel is to independently review and apply the 340B statute and applicable regulations, policies, and guidance documents to the case-specific factual circumstances at issue in an overcharge, diversion, or duplicate discount dispute.

Comment: Some covered entity commenters urged HHS to reinstate language from the 2020 final rule to make clear that covered entities may bring an overcharge claim in situations in which a manufacturer has limited the covered entity's ability to purchase a covered outpatient drug at or below the 340B ceiling price.

Response: HHS agrees and has modified § 10.21(a)(1) to further explain that an overcharge claim generally includes claims that a manufacturer has limited the covered entity's ability to purchase covered outpatient drugs at or below the 340B ceiling price.

Comment: Some covered entity commenters recommended that the final rule include a definition for the term ''overcharge,'' to mean an attempt to collect a price in excess of the 340B price for a covered outpatient drug, any attempt to cause a drug wholesaler to decline to offer 340B pricing on a covered outpatient drug to a covered entity, and any refusal by a manufacturer to sell a covered outpatient drug at 340B pricing.

Response: When an overcharge claim is presented before a 340B ADR Panel, the Panel will follow the 340B statute, relevant case law, all applicable regulations, and consider 340B policies and guidance documents when evaluating 340B ADR claims. One example of an overcharge claim in the 340B ADR process would be a claim that a manufacturer has limited the covered entity's ability to purchase covered outpatient drugs at or below the 340B ceiling price or the manufacturer does not offer the 340B ceiling price. We do not believe that an explicit definition of the term ''overcharge'' is needed in light of the process discussed above for addressing an overcharge claim.

Comment: Many manufacturer commenters objected to the lack of an explicit definition in the proposal for the terms ''patient'' or ''diversion.'' They explained that covered entities are prohibited from selling or otherwise transferring drugs purchased under the 340B Program to a person who is not a patient of the entity in accordance with section 340B(a)(5)(B) of the PHS Act. These commenters believe that HRSA should revise and clarify its current guidance (61 FR 55156 (Oct. 24, 1996)), to strengthen administration of the 340B Program, including the 340B ADR process and the parties' ability to work together to resolve disputes in good faith as proposed in § 10.21(b).

Response: Revision of the 1996 patient definition guidance is outside the scope of this rule. When a diversion claim is presented before a 340B ADR Panel, the Panel will follow the 340B statute and all applicable regulations, and consider 340B policies and guidance documents when evaluating 340B ADR claims. Examples of a diversion claim that may be submitted (after a manufacturer has conducted an audit of a covered entity), include but are not limited to: (1) transferring of covered outpatient drugs to a patient where there was no record of the individual's health care or no provider relationship or (2) transferring covered outpatient drugs to an individual who is an inpatient. Similarly, examples of a duplicate discount claim include but are not limited to: (1) if it is found after an audit of a covered entity that the covered entity billed Medicaid without the site being listed on the Medicaid Exclusion File and the manufacturer paid a State rebate or (2) if it is found after an audit of a covered entity that the manufacturer paid a State rebate and the covered entity had incomplete or inaccurate information on the Medicaid Exclusion File.

(b) Requirements for Filing a Claim

As proposed in the NPRM, a covered entity or manufacturer must file a 340B ADR claim in writing to OPA within 3 years of the date of the alleged violation. HHS also proposed that any file, document, or record associated with the claim that is the subject of a dispute must be maintained by the covered entity and manufacturer until the date of the final agency decision. Before filing a claim, each stakeholder must provide appropriate documentation, including documentation of communication with the opposing party to resolve the matter in good faith. In the case of a covered entity, the covered entity must provide documentation to support that it has been overcharged by a manufacturer, in addition to any other documentation requested by OPA. Covered entities are not permitted to file a claim against multiple manufacturers.

A manufacturer must provide documents that show it audited the covered entity and that are sufficient to support its claim that a covered entity has violated the prohibition on diversion and/or duplicate discounts, in addition to any other documentation as may be requested by OPA. HHS received several comments on these provisions and considered them carefully. For the reasons detailed below, HHS is finalizing these provisions as proposed.

Comment: Some covered entities commenters requested clarification that the 3-year records limitation period begins on the date of sale or payment at issue except when the manufacturer issues a restatement of the average manufacturer price (AMP), best price, customary prompt pay discounts, nominal prices, or other data that affects the 340B ceiling prices. Some of these commenters recommended that HHS include an undue hardship exemption to the 3-year limitation on claims to benefit small rural covered entities. They explain that small rural providers may submit ADR claims without outside counsel. Further, they state that alongside other challenges that a covered entity could be facing, pulling together the needed documentation to file a claim could be burdensome for covered entities.

Some manufacturer commenters expressed that because of the manufacturer audit requirement, which may take significant time to complete, the final rule should ''toll'' the 3-year period for manufacturer ADR claims from the point when a manufacturer first seeks to conduct an audit until the audit concludes with the completion of the audit report.

Response: While HHS believes that the 3-year limit is sufficient, there may be times when the initial reviewer will account for extenuating circumstances. For example, the timeline for manufacturer audits of covered entities depends on a variety factors, which may affect when they are finalized. Another example is when data affecting the 340B ceiling price are revised, such as where AMP or best price are corrected or restated, an alleged violation would have not occurred until the data were revised. These examples are not exhaustive but illustrate situations that may warrant flexibilities. In addition, under the current ADR process, the 3-year time period has proved to be sufficient for the parties. Noting these flexibilities, HHS is finalizing the provision as proposed.

Comment: Most commenters were generally supportive of the proposal that documentation of ''good faith'' efforts is required before a party can initiate a claim through the 340B ADR process. However, some manufacturer commenters believe that HHS should specify the types of documents required to evidence ''good faith'', including, but not limited to, documentation demonstrating that the covered entity has contacted the manufacturer about the potential issue and has given the manufacturer sufficient notice of a potential claim before initiating 340B ADR process.

Some covered entity commenters recommend that HHS remove the ''good faith'' requirement before filing a claim. Specifically, they argue that the act of overcharging a covered entity could not be an act of good faith and engaging with the manufacturer would be futile and cause unnecessary delay. These commenters argue that a ''good faith effort'' prerequisite to filing a claim requires the agency to make difficult determinations regarding whether an attempt at resolution was made in ''good faith.''

Response: After consideration of the comments received, HHS is finalizing this provision as proposed. Given the resources required to pursue an ADR claim, HHS encourages covered entities and manufacturers to work in good faith to resolve disputes. Good faith attempts include for example, at least one instance of written documentation demonstrating that the initiating party has made attempts to contact the opposing party regarding the specific issues cited in the ADR claim. The requirement to engage in good faith efforts may resolve disputes before the need to file a petition in many cases. In addition, HHS has historically encouraged manufacturers and covered entities to work with each other to attempt to resolve disputes in good faith, and most disputes have been resolved in a timely manner without needing HRSA's involvement. Also, the 340B ADR process is not intended to replace these good faith efforts and should be considered only when good faith efforts to resolve disputes have been exhausted and failed.

Good faith efforts and documentation can include communication between parties to obtain clarifications or to provide explanations that may not be readily apparent and may provide perspective to either party that may help mitigate concerns. For example, HRSA currently has a process in place when a covered entity is unable to obtain a 340B price from a manufacturer. In this case, HRSA can facilitate good faith efforts between the parties, and oftentimes help them resolve disputes, which typically are as a result of an error or misunderstanding.

Comment: Some manufacturer commenters encouraged HHS to protect the proprietary and confidential components of all parties' information throughout the 340B ADR process. They explained that for the 340B ADR process to work efficiently, parties need assurances that the proprietary and confidential information that they disclose will not be made publicly available.

Response: HHS will work to protect the proprietary and confidential information of the parties to the maximum extent that it is able to pursuant to current law.

(c) Combining Claims

The NPRM proposed that two or more covered entities may jointly file claims of overcharges by the same manufacturer for the same drug. The NPRM also provided that an association or organization may file on behalf of one or more covered entities representing their interests pertaining to overcharging by a single manufacturer for the same drug(s). The proposed rule provided specific parameters for covered entities filing joint claims and for associations/organizations filing claims on behalf of one or more covered entities, including that each covered entity meets the requirements for filing the ADR claim and that there is documentation of each covered entity's consent.

The NPRM also proposes that a manufacturer or manufacturers may request to consolidate claims brought by more than one manufacturer against the same covered entity if each manufacturer could individually file a claim against the covered entity, consents to the consolidated claim, meets the requirements for filing a claim, and the 340B ADR Panel determines that such consolidation is appropriate and consistent with the goals of fairness and economy of resources. The statutory authority for implementing the 340B ADR process does not address consolidated claims on behalf of manufacturers by associations or organizations representing their interests. After a careful review and consideration of the comments received, HHS is finalizing this provision as proposed.

Comment: Many covered entities commenters indicated that the NPRM improperly limits claims brought by associations and organizations representing covered entities to only those covered entities that consent to the claim being asserted on their behalf. These commenters argued that the

criteria for inclusion in an organizational claim in the 340B statute is merely membership in the organization. Representation by associations, regardless of whether the entity consents, allows covered entities to access the process more easily. They argued that requiring consent from each member of an organization introduces unnecessary resource and time burden—and could significantly delay the filing of claims that are sometimes time sensitive.

Response: An ADR claim could substantively affect a covered entity's ability to recover for 340B overcharges, as well as a covered entity's relationship with a manufacturer. However, after consideration of the comments, HHS, will permit associations or organizations filing a claim on behalf of its members to submit an attestation, rather than submitting signatures from each individual covered entity, that they have confirmed that all of the individual covered entities have agreed to be part of the ADR claim.

As part of the initial review of the claim, OPA will review the attestation statement submitted by the organization or association. If attestation documentation is missing, OPA will follow-up to obtain the attestation.

Comment: A few manufacturer commenters requested that HHS prohibit covered entities or manufacturers from asserting any individual claim that overlaps with a consolidated claim or joint claim. Commenters also urged HHS to clarify that the requirement for a joint claim by covered entities must involve the ''same drug or drugs,'' which would mean that the alleged overcharges must involve substantially the same national drug code (NDC) and quarters.

Response: As part of the initial claim review, OPA will evaluate whether an individual claim would overlap with a consolidated claim or joint claim. If an overlap exists, OPA will contact the parties involved and request that they resolve the discrepancy. In addition, the review will also ensure that the alleged overcharge involves the same NDCs for joint claims.

Comment: Several manufacturer commenters argued that HHS should recognize manufacturers' ability to pursue claims through a trade association or agent of their choice. The statute required HHS to allow the combining of claims and permit claims to be brought on behalf of covered entities by associations or organizations—however, commenters assert that the statute does not preclude HHS from extending this ability to manufacturers. Commenters also argued that few manufacturers will utilize the 340B ADR process due to the onerous requirements of the 2020 final rule and the audit requirement placed on them. They explained that this requirement would further preclude manufacturers from accessing the 340B ADR process by requiring them to wait several years for each manufacturer to audit a covered entity before bringing a consolidated claim.

Response: Section 340B(d)(3)(B) of the PHS Act permits associations to file joint ADR claims on behalf of covered entities; however, it does not include similar language for associations to file consolidated claims filed on behalf of manufacturers. In addition, due to the requirement that a manufacturer must first audit a covered entity before submitting an ADR claim, it would be difficult to have each manufacturer of the association or organization conduct an audit of a covered entity before filing a claim. Therefore, HHS is finalizing this provision as proposed. Regarding the commenter's argument about the audit requirements, HHS does not have the authority to waive this statutory requirement. Section 340B(d)(3)(B)(iv) of the PHSA requires that a manufacturer conduct an audit of a covered entity pursuant to subsection (a)(5)(C) as a prerequisite to initiating the 340B ADR process against a covered entity.

(d) Deadlines and Procedures for Filing a Claim

The proposed rule set forth the deadlines and procedures for filing a claim, including that OPA would conduct an initial review to determine whether the claim meets certain requirements as set forth by the statute and regulations. HHS proposed that OPA staff reviewing the initial claim review may not be appointed to serve on the 340B ADR Panel reviewing the specific claim. Additionally, under the proposed rule, OPA could request additional information of the initiating party and the party would have 20 business days from the receipt of the request to respond and if the party does not respond (or request and receive an extension to respond during that time period), the claim would not move forward to the 340B ADR Panel for review. The proposed rule also indicates that a written response would be sent to the initiating party once the claim is complete and OPA would send that verification of completion to the opposing party with instructions regarding the 340B ADR process, including timelines and information on how to submit their response as outlined in § 10.21(e). Once OPA receives the opposing party's response, OPA would notify both parties, either advising that the claim would move forward for the 340B ADR Panel for review or that OPA determined the claim did not meet the requirements as set forth in § 10.21(b) and the reasons why. HHS proposed that for any claim that did not proceed to review by the 340B ADR Panel, the claim could be revised and refiled if there were new information to support the alleged statutory violation and the claim meets the criteria set forth in the statute and the regulation. HHS received several comments related to this provision and is finalizing this provision as proposed.

Comment: Several commenters suggested that HHS clarify that OPA's initial review of the claim is limited to determining whether the claim meets all the information requirements to file a claim and does not involve a factual or legal review of the claim. They state that at this stage, OPA should only be requesting additional information to satisfy the filing requirements. The determination as to whether a claim is substantiated should be reserved exclusively for the 340B ADR Panel.

Response: During the initial claim review, OPA will review a claim only for completeness, and not make any determinations whether a claim is substantiated. That determination will be reserved for the 340B ADR Panel.

(e) Responding to a Submitted Claim

When responding to a submitted claim, the NPRM proposed that the opposing party would have 30 business days to submit a written response to OPA upon receipt of notification that the claim is deemed complete. The proposed rule indicated that the opposing party may request an extension of the initial 30 business days to respond. Once the opposing party's response is received, OPA would provide a copy to the initiating party as indicated in § 10.21(d). The proposed rule also explained that if the opposing party's response was not received or the party elects not to participate in the 340B ADR process, OPA would notify both parties that the claim has proceeded to 340B ADR Panel review, and the 340B ADR Panel will render its decision after review of the information submitted in the claim. HHS carefully considered the comments received, which are summarized below, and is finalizing the provision as proposed.

Comment: Some commenters suggested that HHS adopt a timeframe of 60 calendar days (with the possibility of extensions) for opposing parties to respond to claims. These commenters are concerned with the proposal to

allow 340B ADR Panels to draw an adverse inference if the opposing party does not respond. They argued the proposed rule does not contain any standard that would ensure that adverse inferences are drawn against a party only in narrow circumstances. Finally, commenters noted that the final rule should recognize that an ''adverse inference'' is an extraordinary sanction, and there should be clear standards for when such a sanction is appropriate.

Response: HHS is revising this rule to remove references to adverse inferences, but otherwise finalizing this rule as proposed. Consistent with the statutory goals of efficiency, fairness and timeliness, we believe a response in 30 days is an adequate amount of time. However, HHS recognizes that there may be instances that require time beyond the stated deadlines, such as availability of key personnel. Depending on the circumstances presented, the 340B ADR Panel may exercise its discretion in granting additional time if warranted.

In addition, if a non-responsive party fails to respond before the deadline, the 340B ADR Panel will render its decision based on the information available to it during the adjudication process. If a party chooses not to respond, the 340B ADR Panel will move forward with its decision and there is a possibility that the decision may not be in favor of the non-responsive party.

Section 10.22 Covered Entity Information and Document Requests

Under the proposed rule and in accordance with section 340B(d)(3)(B)(iii) of the PHS Act, covered entities may discover or obtain information and documents from manufacturers and third parties relevant to a claim that the covered entity has been overcharged by a manufacturer. The NPRM proposed that the covered entity submit a written request within 20 business days of the receipt from OPA that the claim was forwarded to the 340B ADR Panel for review. The NPRM proposed that such covered entity document requests be facilitated by the 340B ADR Panel, including a review of the information/document request and notifying the covered entity if the request is not reasonable, not relevant or beyond the scope of the claim, and would permit the covered entity to resubmit a revised request if necessary.

The manufacturer (and any affiliated third-party agents of the manufacturer—wholesalers or other third parties) must respond to the request within 20 business days of receiving the request. The manufacturer must fully respond, in writing, to an information/document request from the 340B ADR Panel by the response deadline. An extension will be granted by notifying the 340B ADR Panel in writing within 15 business days of receipt of the request. The NPRM proposed that if a manufacturer fails to fully respond to an information request, the 340B ADR Panel shall draw an adverse inference and proceed with the facts that the 340B ADR Panel has determined have been established in the proceeding.

Many commenters recommended changes to the proposed provision allowing parties to request and receive information during the 340B ADR process, including allowing a manufacturer to submit an information request—which was not contemplated by the statute. HHS carefully reviewed the comments received, which are summarized below, and is finalizing this provision as proposed.

Comment: Commenters argued HHS should establish a process for manufacturers to directly request additional information from covered entities during an ADR proceeding. These commenters requested that HHS extend the timeframe for manufacturers to respond to additional information and document requests from 20 business days to 60 calendar days (with the possibility of reasonable extensions).

Response: Section 340B(d)(3)(B)(iii) of the PHS Act requires a process whereby a covered entity may discover or obtain information and documents from manufacturers and third parties relevant to a claim that the covered entity has been overcharged by a manufacturer. The statute does not have a similar provision for manufacturers and manufacturers have the ability to gather needed information through the audits they are required to conduct prior to filing ADR claims. As such, the provision will be finalized as proposed.

In addition, HHS believes a response from manufacturers for additional information and document requests in 20 business days is an adequate amount of time. Any such additional time will unduly delay the 340B ADR process and run counter to the goals of fairness, efficiency, and timeliness. This final rule also contains a provision through which manufacturers may request an extension of this deadline.

Section 10.23 340B ADR Panel Decision Process

Aligned with section 340B(d)(3)(B)(ii) of the PHS Act, HHS has sought to ensure that the 340B ADR decision process would ensure that its review and decision of the claim is conducted in a fair, efficient, and expeditious manner. HHS proposed that the 340B ADR Panel would conduct an initial review of the claim to determine if the specific issue that would be brought forth in a claim is the same as or similar to an issue that is pending in Federal court. If this determination is made, the 340B ADR Panel would suspend review of the claim until such time as the issue is no longer pending in Federal court. If no such issue exists, the proposed rule explained that the 340B ADR Panel would review the documents submitted by the parties and determine if there is adequate support to conclude that an overcharge, diversion, or a duplicate discount has occurred in the specific case at issue. As discussed in more detail below and after consideration of the comments received on this proposal, HHS is removing this proposed provision from this final rule to allow claims on issues pending in Federal court to proceed through the 340B ADR process.

In addition, the NPRM proposed that the 340B ADR Panel would prepare a decision that would represent the determination of a majority of the 340B ADR Panel members' findings and include an explanation regarding each finding. Once the letter has been transmitted to the OPA Director and the parties involved, either party may request that the HRSA Administrator reconsider the 340B ADR Panel decision or the HRSA Administrator may decide to initiate a reconsideration without such a request as outlined in § 10.24. Under the NPRM, after 20 business days of the issuance of the 340B ADR Panel decision, there is no request for reconsideration from either party and the HRSA Administrator has not initiated a reconsideration, the 340B ADR Panel's decision letter will serve as the final agency decision and will be binding upon the parties involved in the dispute, unless invalidated by an order of a Federal court. The NPRM proposed that the OPA Director would then determine any necessary corrective action or consider whether to take enforcement action, and the form of that action, based on the final agency decision. Based on comments received and as discussed in detail below, HHS is modifying this proposal in this final rule by including a timeframe by which the 340B ADR Panel decisions will be issued to ensure that 340B ADR claims are resolved in a timely manner. Finally, HHS will address the OPA Director's role in making determinations for corrective action in future guidance and other clarifications as discussed below.

Comment: The NPRM proposed that if the ADR Panel determines that a specific issue in a claim is the same as,

or similar to an issue pending in Federal court, the ADR Panel would suspend review of the claim until such time the issue is no longer pending in Federal court. The NPRM expressly solicited comments from stakeholders on this issue and HHS received significant comments. Some commenters favor suspending claims until they are resolved in Federal court as it would limit the risk of using limited ADR resources on complex legal questions that would also be considered by the courts. Without a suspension of claims, they argue there could be a risk that the ADR Panel decision would be superseded by a Federal court ruling.

In contrast, other commenters strongly oppose the proposal and argue why the provision should not be finalized. In general, the commenters raised the following arguments:

- Commenters opposing the policy expressed that an issue relevant to an ADR proceeding may be pending in several district courts and the court decisions may diverge and not achieve a final consistent resolution on the issue. They stated it is unclear how an ADR Panel would decide after the rulings and whether the ruling would be based on the outcome of the Federal court decision, and if so, which court decision would control in the case of conflicts.
- Commenters also argued that Congress created the 340B ADR process since covered entities have limited options for bringing legal claims against manufacturers. They asserted that suspending claims is a divergence from the statute, as the statute vests the ADR Panel with authority to issue final agency decisions that are binding on the parties involved through adjudication of 340B disputes. They argued that the provision violates the 340B statute and the Administrative Procedure Act (APA) as it prevents the 340B ADR Panel from resolving a claim for an indefinite period of time based solely on the determination that a Federal lawsuit is addressing an issue that is the same or similar to the one included in an ADR claim.
- Commenters also expressed that the NPRM did not include rules that would govern the 340B ADR Panel's determination that it would not review a claim nor is there any mechanism for a covered entity or manufacturer to contest a 340B ADR Panel's determination to suspend review.
- Commenters cited the 2011 U.S. Supreme Court ruling in *Astra* (*Astra USA, Inc.* v. *Santa Clara County,* 563 U.S. 110 (2011)) that determined that covered entities do not have a cause of action to sue manufacturers for 340B violations, but noted that covered entities do have the option of pursuing recourse through the 340B ADR process.
- Finally, commenters opposing the policy explain that the suspension of the 340B ADR Panel review may lead a 340B ADR Panel to defer to a Federal court's decision on a 340B compliance issue, thereby abrogating the 340B ADR Panel's duty to interpret 340B statutory requirements. These commenters stated that this is contradictory to the role of the 340B ADR Panel envisioned by the NPRM, which is to independently review and apply 340B law and policy to the case-specific factual circumstances at issue.

Response: After review of the comments received, HHS is removing the provision at § 10.23 in the NPRM that would suspend review of ADR claims if the issue is the same as or similar to an issue that is pending in Federal court. By allowing claims that are the same as or similar to those pending in Federal court to move through the 340B ADR process, HHS is proceeding consistent with the *Astra* decision and meeting its statutory mandate to establish and implement a 340B ADR process including the establishment of such deadlines and procedures to ensure that claims involving certain 340B disputes are resolved fairly, efficiently, and expeditiously. Therefore, this final rule will remove the proposed § 10.23(a) and revise § 10.23(b) to allow for a claim to proceed through the 340B ADR process, regardless of whether it is the same as or similar to one that is pending in Federal court.

Comment: Many commenters argued that HHS should impose a timeframe for ADR Panel decisions to ensure that 340B ADR claims are resolved in a timely manner. Some suggested 45, 90, 120, or 180 days. Some explained that 120 days is longer than the 90-day timeframe that Medicare administrative law judges are subject to for Medicare claims appeals and would be a sufficient amount of time. Commenters assert that HHS should clarify that if an ADR panel has not issued a decision within 120 days, a claimant should be able to bypass the 340B ADR process and proceed to Federal court. Most commenters agreed that the decision should be rendered no later than within one year.

Response: Based on the comments received, HHS is clarifying that the expectation is that the 340B ADR Panel will make a decision on a claim within one year of receiving the claim for review. However, HHS recognizes that this general timeframe may not be suitable in every situation, as there may be complexities that warrant additional time beyond the one year timeframe. Additional time may be necessary, for example, if a claim is submitted and the 340B ADR Panel requires additional material, must determine whether there are overlapping claims, must determine whether a covered entity consented to an organizational claim, or seeks to consult with, as appropriate or necessary, other staff within OPA, other HHS offices, other Federal agencies, or with outside parties. Depending on the complexity of the issue, this timeframe may exceed the one year timeframe set forth in this final rule.

HHS does not believe it possible to list out every possible exception in this final rule as there may be situations that are beyond the control of the 340B ADR Panel and cannot be anticipated or predicted in this final rule; however, these examples serve to illustrate circumstances when it may take longer than one year for a 340B ADR Panel to render a decision. In any event, HHS does not believe that many claims that are submitted under this final rule will take longer than a year to resolve. As such, HHS is clarifying that the expectation is the 340B ADR Panel decisions will be issued within a one year time period; however, the 340B ADR Panel will inform the parties, no later than 1 year from the date a claim is deemed complete, if the forthcoming decision will exceed that one year timeframe and provide an explanation as to why the decision on the claim will exceed one year.

Comment: Many commenters requested there be the option for an in-person hearing before the 340B ADR Panel, if requested by either party. The commenters explain that ADR claims may often involve factual questions and the 340B ADR Panel may benefit from the ''adversarial input'' of the parties involved.

Response: The NPRM did not contemplate in-person hearings as part of the 340B ADR process, as HHS proposed a process that would be more accessible than the 2020 final rule, by making it more expeditious and less trial-like for all parties to resolve disputes. HHS believes adding in-person hearings to the process could be arduous, could create disadvantages to under-resourced parties, and could create unnecessary delays. For example, smaller or rural covered entities, including those with limited resources, could have significant difficulties complying with such a requirement compared to larger and better resourced parties.

Comment: Some commenters appreciated HHS' proposed removal of

language indicating that 340B ADR Panel decisions are precedential. They argued that the 2020 final rule gave the 340B ADR Panel the ability to set and change policy on fundamental program issues, such as who qualifies as a 340B-eligible patient—and they argued that such language was inconsistent with the 340B statute, which does not support making 340B ADR Panel decisions precedential.

Conversely, other commenters disagreed and believed that ADR decisions should be precedential because, otherwise, it would be difficult to adequately assess the viability of a claim prior to submitting it to the 340B ADR Panel. They explained that by ensuring that decisions are precedential, it would impact how well entities are able to evaluate whether the 340B ADR process is appropriate for a given claim based on the time and resource investment required of the parties involved.

Response: Section 340B(d)(3)(C) of the PHS Act states that the administrative resolution of a claim shall constitute final agency decision and will be binding on the parties involved, unless invalidated by an order of a court of competent jurisdiction. The 340B statute does not expressly state that the 340B ADR Panel decision or a subsequent reconsideration decision be precedential. As set forth in §§ 10.21 and 10.23, the 340B ADR Panel will follow the 340B statute, regulations, and all policies governing the 340B Program when reviewing and evaluating 340B ADR claims and HHS is finalizing as proposed.

Comment: Most commenters urged wider transparency and requested that HHS publish 340B ADR Panel decisions on HRSA's website and require 340B ADR Panel decisions to include the 340B ADR Panel's factual and legal conclusions, including the HRSA policy on which the decision is based. They reasoned that this would ensure ADR decisions are consistent with current 340B policies and that 340B stakeholders are able to understand and apply HRSA's rule and compliance expectations.

Response: HHS values and supports transparency in the outcome of any 340B ADR Panel decision. For HRSA audits of covered entities and manufactuers, HRSA publishes its audit findings in summary format as full audit reports may include proprietary and/or sensitive business information (for example, under the statute, 340B ceiling prices themselves cannot be publicly disclosed). Consistent with this approach, HRSA will publish 340B ADR final agency decisions on a HRSA public-facing website within 120 calendar days of issuance.

Comment: Some commenters suggest that HHS revise this section to require the 340B ADR Panel or OPA to inform the parties of their reconsideration rights when the 340B ADR Panel's decision is communicated to the parties.

Response: HHS agrees and is finalizing this rule to include a provision that would ensure that parties are informed of their reconsideration rights at the time the 340B ADR Panel's decision is communicated to the parties.

Comment: HHS received several comments recommending that HHS revise this section to require manufacturers or covered entities to repay the other party within a specified time-period (*e.g.,* 60 days) of the date 340B ADR Panel's decision letter or the HRSA Administrator's reconsideration decision.

Response: The NPRM explained that once the parties have been notified of the final agency decision and no request for reconsideration has been made in accordance with § 10.24, the OPA Director will consider whether to take enforcement action to ensure corrective action to the extent allowed under the 340B statute. For example, based on the final agency decision, the OPA Director may require a covered entity to repay an affected manufacturer in a timely manner. In addition, in the case of a 340B ADR Panel decision involving an overcharge, the OPA Director may require that the manufacturer refund or issue a credit to the impacted covered entity. Such an enforcement decision may include the time frame and manner of such remedies.

Section 10.24 340B ADR Panel Decision Reconsideration Process

The NPRM proposed a process for either party to initiate a reconsideration request within 20 business days of the date of the 340B ADR Panel's decision letter. The HRSA Administrator, or their designee, may initiate the process without such a request. The NPRM also proposed that a reconsideration process may only be granted when a party demonstrates that the 340B ADR Panel decision may have been inaccurate or flawed. As proposed, the reconsideration process would involve the HRSA Administrator, or designee, reviewing the record and the 340B ADR Panel's decision, and either issuing a revised decision to be effective 20 business days from issuance or declining to issue a revised decision. Finally, the NPRM proposed that the reconsideration decision or the 340B ADR Panel decision (in the event of a declination) will serve as the final agency decision and will be binding upon the parties involved in the dispute, unless invalidated by an order of a Federal court. The proposed rule indicates that the OPA Director will determine any necessary corrective action, or consider whether to take enforcement action, and the form of any such action, based on the final agency decision. There were several comments received on the reconsideration process, and HHS is finalizing this provision with some clarifications as discussed below.

Comment: The majority of comments received support a reconsideration process by the HRSA Administrator. Some suggest that HHS clarify the timeline for a reconsideration decision.

Response: HHS appreciates the comments received in support of a reconsideration process conducted by the HRSA Administrator. Regarding a timeline for the HRSA Administrator's reconsideration and after review of the comments, the HRSA Administrator will make efforts to issue a reconsideration decision within 180 calendar days from the initiation of the reconsideration process. HHS is finalizing, as proposed, that if a reconsideration decision is rendered, the reconsideration decision, unless altered or reversed (after review) by the Secretary, will serve as the final agency decision and will be binding on the parties involved in the dispute, unless invalidated by an order of a Federal court.

Comment: Some commenters recommend that HHS lengthen the amount of time for parties to request a reconsideration. The NPRM contemplates that a request for reconsideration must be made within 20 business days of the date of the 340B ADR Panel's decision letter. Commenters urged HHS to revise this timeline to either 30 or 60 business days to allow for more time to (1) determine that they believe the reconsideration is necessary and (2) file the request in a timely manner.

Response: HHS agrees with the commenters and is finalizing § 10.24(b) to lengthen the time that a request for reconsideration can be made from the proposed 20 business days to 30 business days. This will allow a requestor additional time to obtain consent in the case of a joint or consolidated claim for a reconsideration request as indicated in § 10.24(b)(3). In the event that no request for reconsideration is received by either party after the 30-day period, the 340B ADR Panel decision or any such alteration or reversal by the Secretary (after review) will serve as the final

agency decision and will be binding on the parties involved in the dispute, unless invalidated by an order of a Federal court.

Comment: Some commenters request that HHS clarify that new facts or information may not be submitted as part of the reconsideration process. They argue that new legal or policy arguments may be warranted in light of the 340B ADR Panel's decision and should not be prohibited.

Response: HHS has clarified in § 10.24 to state that no new ''facts,'' information, or legal or policy arguments may be submitted as part of the reconsideration process in order to remain consistent with the content reviewed by the 340B ADR Panel in reaching their decision.

Comment: Several commenters request that HHS remove the proposed provision at § 10.24(b)(3), which would require that in the case of joint or consolidated claims, the requestor for reconsideration submit documentation showing consent to the reconsideration process, including signatures of the individuals representing each covered entity or manufacturer. They state that it is unclear why consent should be required for a reconsideration request when the covered entity or manufacturer previously consented to joint/consolidated representation as part of the 340B ADR process as outlined in § 10.21(c).

Response: After consideration of the comments, HHS will permit associations or organizations filing a claim on behalf of its members to submit an attestation that they have confirmed that all covered entities have agreed to be part of the reconsideration process. Also, as discussed above, HHS is modifying the proposal to lengthen the time for a party to initiate a reconsideration request from 20 business days to 30 business days.

Comment: A few commenters recommended that HHS clarify the HRSA Administrator's standard of review used when analyzing the 340B ADR Panel's decision and further clarify that the 340B ADR Panel's decision is held in abeyance until the HRSA Administrator issues a decision on reconsideration.

Response: The standard that the HRSA Administrator will use in reviewing any reconsideration request will be the same for each request. The HRSA Administrator will review the record, including the 340B ADR Panel decision, and determine whether there was an error in the 340B ADR Panel's decision, including any deviation from policy, guidance or statute. HHS has made this clear in this final rule. HHS will also clarify in § 10.24 that in the event of a reconsideration request, the 340B ADR Panel's decision is held in abeyance until the HRSA Administrator modifies or sustains the 340B ADR Panel's decision. Any such reconsideration decision letter will be effective 30 business days from issuance and serve as the final agency decision unless within 30 business days of issuance, the Secretary makes a determination that the Secretary will review the decision. The final agency decision will be binding upon the parties involved in the dispute unless invalidated by an order of a Federal court.

Section 10.25 Severability

In this final rule, we adopt modifications to 42 CFR part 10 that support a unified scheme for review of 340B ADR claims. While the unity and comprehensiveness of this scheme maximizes its utility, we clarify that its constituent elements operate independently of each other. Were a provision of this regulation stayed or invalidated by a reviewing court, the provisions that remain in effect would continue to provide a process for review of 340B claims. For example, this final rule contains a number of requirements to be fulfilled prior to review by the 340 ADR Panel, such as providing evidence of good faith efforts and evidence that each covered entity consents to the combining of the claims for a joint claim. To the extent that these provisions were no longer in effect, the remainder of the final rule could still function without these provisions.

To best serve these purposes, we have addressed severability in the regulations to make clear that the provisions of 42 CFR part 10 are designed to operate independently of each other and to convey the Department's intent that the potential invalidity of one provision or any of its subparts should not affect the remainder of the provisions.

III. Regulatory Impact Analysis

A. Regulatory Impact Analysis

HHS has examined the effects of this final rule as required by Executive Order 12866 on Regulatory Planning and Review (September 30, 1993), Executive Order 13563 on Improving Regulation and Regulatory Review (January 18, 2011), Executive Order 14094 on Modernizing Regulatory Review (April 6, 2023), the Regulatory Flexibility Act (September 19, 1980, Pub. L. 96–354), the Unfunded Mandates Reform Act of 1995 (UMRA; Pub. L. 104–4), and Executive Order 13132 on Federalism (August 4, 1999). HHS did not receive any substantive comments on this section of the proposed rule and is therefore finalizing this section as proposed.

B. Overall Impact

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 is supplemental to and reaffirms the principles, structures, and definitions governing regulatory review as established in Executive Order 12866, emphasizing the importance of quantifying both costs and benefits, of reducing costs, harmonizing rules, and promoting flexibility.

Under E.O. 12866, OMB's Office of Information and Regulatory Affairs (OIRA) determines whether a regulatory action is significant and, therefore, subject to the requirements of the E.O. and review by OMB. *See* 58 FR 51735 (Oct. 4, 1993). Section 1(b) of E.O. 14094 amended sec. 3(f) of E.O. 12866 to define a ''significant regulatory action'' as an action that is likely to result in a rule that may: (1) have an annual effect on the economy of $200 million or more (adjusted every 3 years by the Administrator of OIRA for changes in gross domestic product) or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, territorial, or Tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs, or the rights and obligations of recipients thereof; or (4) raise legal or policy issues for which centralized review would meaningfully further the President's priorities or the principles set forth in the E.O. *See* 88 FR 21879 (Apr. 11, 2023). OIRA has determined that this final rule is a significant regulatory action, although not a significant regulatory action under sec. 3(f)(1) of E.O. 12866. Accordingly, OMB has reviewed this final rule.

This final rule would modify the framework for HHS to resolve certain disputed claims regarding manufacturers overcharging covered entities and disputed claims of diversion and duplicate discounts by covered entities audited by

manufacturers under the 340B Program. HHS does not anticipate the modification of the 340B ADR process to result in significant economic impact. Because this rule only updates an existing process, there is no additional economic impact. In addition, the parties involved already have the information that will reported through the 340B ADR process; therefore, we do not anticipate any additional impact. This is also consistent with a similar determination in the 2020 final rule that ''HHS does not anticipate the introduction of an ADR process to result in significant economic impacts.'' Pursuant to Subtitle E of the Small Business Regulatory Enforcement Fairness Act of 1996, also known as the Congressional Review Act (5 U.S.C. 801 *et seq.*), OIRA has determined that this rule does not meet the criteria set forth in 5 U.S.C. 804(2).

C. The Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA; 5 U.S.C. 601 *et seq.*) and the Small Business Regulatory Enforcement and Fairness Act of 1996 (SBREFA), which amended the RFA, requires HHS to analyze options for regulatory relief of small businesses. If a rule has a significant economic effect on a substantial number of small entities, HHS must specifically consider the economic effect of this rule on small entities and analyze regulatory options that could lessen the impact of this rule. HHS will use a RFA threshold of at least a 3 percent impact on at least 5 percent of small entities.

This final rule's requirements would affect drug manufacturers (North American Industry Classification System code 325412: Pharmaceutical Preparation Manufacturing). The small business size standard for drug manufacturers is 750 employees. Approximately 700 drug manufacturers participate in the 340B Program. While it is possible to estimate the impact of this final rule on the industry as a whole, the data necessary to project the impact of changes on specific manufacturers or groups of manufacturers is not available, as HRSA does not collect the information necessary to assess the size of an individual manufacturer that participates in the 340B Program. This final rule would also affect health care providers. For purposes of the RFA, HHS considers all health care providers to be small entities either by virtue of meeting the Small Business Administration (SBA) size standard for a small business, or for being a nonprofit organization that is not dominant in its market. The current SBA size standard for health care providers ranges from annual receipts of $8 million to $41.5 million. As of April 1, 2023, 14,134 covered entities participate in the 340B Program.

This final rule would modify the ADR mechanism for reviewing claims by manufacturers that covered entities have violated certain statutory obligations and claims by covered entities alleging overcharges for 340B covered outpatient drugs by manufacturers. This 340B ADR process would require submission of documents that manufacturers and covered entities are already required to maintain as part of their participation in the 340B Program. HHS expects that this documentation would be readily available prior to submitting a claim. Therefore, the collection of this information would not result in an economic impact or create additional administrative burden on these businesses.

By design of this final rule, the 340B ADR process will resolve claims in a fair, efficient, and expeditious manner in accordance with section 340B(d)(3)(B)(ii) of the PHS Act. This final rule provides an option to join or consolidate claims by similar situated entities, and covered entities may have claims asserted on their behalf by associations or organizations which could reduce costs. HHS has determined, and the Secretary certifies, that this final rule would not have a significant economic impact on a substantial number of small health care providers or a significant impact on the operations of a substantial number of small manufacturers; therefore, HHS is not preparing an analysis of impact for the purposes of the RFA. HHS estimates that the economic impact on the less than 5 percent of small entities and small manufacturers participating in the 340B Program would be minimal and less than a 3 percent economic burden and therefore does not meet the RFA threshold of 3 percent.

D. Unfunded Mandates Reform Act of 1995

Section 202(a) of the Unfunded Mandates Reform Act of 1995 UMRA requires that agencies prepare a written statement, which includes an assessment of anticipated costs and benefits, before proposing ''any rule that includes any Federal mandate that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of $100 million or more (adjusted annually for inflation) in any one year.'' In 2023, that threshold is approximately $177 million. HHS does not expect this rule to exceed the threshold.

E. Executive Order 13132—Federalism

HHS has reviewed this final rule in accordance with Executive Order 13132 regarding federalism and has determined that it does not have federalism implications. This final rule would not ''have substantial direct effects on the States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.'' The final rule would also not adversely affect the following family elements: family safety, family stability, marital commitment; parental rights in the education, nurture, and supervision of their children; family functioning, disposable income, or poverty; or the behavior and personal responsibility of youth, as determined under section 654(c) of the Treasury and General Government Appropriations Act of 1999.

F. Collection of Information

The Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)) requires that OMB approve all collections of information by a Federal agency from the public before they can be implemented. This final rule would not impact the current reporting and recordkeeping burden for manufacturers or covered entities under the 340B Program. Because the 340B ADR process provides the mechanism and procedures for an administrative action or investigation involving an agency against specific individuals or entities, pursuant to 44 U.S.C. 3518(c), the 340B ADR process is exempt from Paperwork Reduction Act requirements. In addition, participants in the 340B Program are already required to maintain the necessary records to submit an ADR claim.

List of Subjects in 42 CFR Part 10

Biologics, Business and industry, Diseases, Drugs, Health, Health care, Health facilities, Hospitals, 340B Drug Pricing Program.

Dated: April 12, 2024.

Xavier Becerra,

Secretary, Department of Health and Human Services.

For the reasons set forth in the preamble, the Department of Health and Human Services amends 42 CFR part 10 as follows:

PART 10—340B DRUG PRICING PROGRAM

■ 1. The authority citation for part 10 continues to read as follows:

Authority: Sec. 340B of the Public Health Service Act (42 U.S.C. 256b) (PHSA), as amended.

■ 2. Amend § 10.3 by:
■ a. Removing the definition for *Administrative Dispute Resolution (ADR) Process* and dding the definition *340B Administrative Dispute Resolution (ADR) process* in its place;
■ b. Revising the definitions for *Administrative Dispute Resolution Panel (340B ADR Panel), Claim, Consolidated claim,* and *Joint claim;* and
■ c. Adding in alphabetical order the definition for *Office of Pharmacy Affairs (OPA).*

The revisions and additions read as follows:

§ 10.3 Definitions.

* * * * *

340B Administrative Dispute Resolution (ADR) process means a process used to resolve the following types of claims, including any issues that assist the 340B ADR Panel in resolving such claims:

(1) Claims by covered entities that may have been overcharged for covered outpatient drugs purchased from manufacturers; and

(2) Claims by manufacturers of 340B drugs, after a manufacturer has conducted an audit of a covered entity (pursuant to section 340B(a)(5)(C) of the Public Health Service Act (PHS Act)), that a covered entity may have violated the prohibitions against duplicate discounts or diversion.

Administrative Dispute Resolution Panel (340B ADR Panel) means a decision-making body within the Health Resources and Services Administration's Office of Pharmacy Affairs that reviews and makes decisions for claims filed through the 340B ADR process.

* * * * *

Claim means a written allegation filed by or on behalf of a covered entity or by a manufacturer for resolution under the 340B ADR process.

* * * * *

Consolidated claim means a claim resulting from combining multiple manufacturers' claims against the same covered entity.

* * * * *

Joint claim means a claim resulting from combining multiple covered entities' claims (or claims from their membership organizations or associations) against the same manufacturer for the same drug or drugs.

* * * * *

Office of Pharmacy Affairs (OPA) means the office, or any successor office assigned to administer the 340B Program, within the Health Resources and Services Administration, or any successor agency, that oversees the 340B Program.

* * * * *

■ 3. Revise subpart C to read as follows:

Subpart C—Administrative Dispute Resolution

Sec.

Subpart C—Administrative Dispute Resolution

§ 10.20 340B Administrative Dispute Resolution Panel.

The Secretary shall appoint a roster of eligible individuals (Roster) consisting of staff within OPA, to serve on a 340B ADR Panel, as defined in § 10.3. The OPA Director, or the OPA Director's designee, shall select at least three members from the Roster to form a 340B ADR Panel to review and make decisions regarding one or more claims filed by covered entities or manufacturers.

(a) *Members of the 340B ADR Panel.* (1) The OPA Director shall:

(i) Select at least three members for each 340B ADR Panel from the Roster of appointed staff;

(ii) Have the authority to remove an individual from the 340B ADR Panel and replace such individual; and

(iii) Select replacement 340B ADR Panel members should an individual resign from the panel or otherwise be unable to complete their duties.

(2) No member of the 340B ADR Panel may have a conflict of interest, as set forth in paragraph (b) of this section.

(b) *Conflicts of interest.* (1) All members appointed by the Secretary to the Roster of individuals eligible to be selected for a 340B ADR Panel will be screened for conflicts of interest prior to reviewing a claim. In determining whether a conflict exists, the OPA Director, in consultation with government ethics officials, will consider financial interest(s), current or former business or employment relationship(s), or other involvement of a prospective panel member or close family member who is either employed by or otherwise has a business relationship with an involved party, subsidiary of an involved party, or particular claim(s) expected to be presented to the prospective panel member.

(2) All members of the 340B ADR Panel will undergo an additional screening prior to reviewing a specific claim to ensure that the 340B ADR Panel member was not directly involved in a decision concerning the specific issue of the ADR claim as it relates to the specific covered entity or manufacturer involved, including previous 340B ADR Panel decisions.

(c) *Secretarial authority in the 340B ADR process.* The Secretary may remove any individual from the Roster of 340B ADR Panelists for any reason, including from any 340B ADR Panel to which the individual has already been assigned. The Secretary has the authority to review and reverse, alter, or uphold any 340B ADR Panel or reconsideration decision as outlined in §§ 10.23 and 10.24. Any such decision of the Secretary will serve as the final agency decision and will be binding upon the parties involved in the dispute, unless invalidated by an order of a Federal court.

(d) *Duties of the 340B ADR Panel.* The 340B ADR Panel will:

(1) Review and evaluate claims, including consolidated and joint claims, and documents and information submitted by (or on behalf of) covered entities and manufacturers;

(2) Review and may request additional documentation, information, or clarification of an issue from any or all parties to make a decision (if the 340B ADR Panel finds that a party has failed to respond or fully respond to an information request, the 340B ADR Panel may proceed with facts that the 340B ADR Panel determines have been established in the proceeding);

(3) Evaluate claims based on information received, unless, at the 340B ADR Panel's discretion, the nature of the claim necessitates that a meeting with the parties be held;

(4) At its discretion, consult with others, including staff within OPA, other HHS offices, and other Federal agencies while reviewing a claim; and

(5) Make decisions on each claim.

§ 10.21 Claims.

(a) *Claims permitted.* All claims must be specific to the parties identified in the claims and are limited to the following:

(1) Claims by a covered entity that it has been overcharged by a manufacturer for a covered outpatient drug, including claims that a manufacturer has limited the covered entity's ability to purchase covered outpatient drugs at or below the 340B ceiling price; and

(2) Claims by a manufacturer, after it has conducted an audit of a covered entity pursuant to section 340B(a)(5)(C) of the PHS Act, that the covered entity has violated section 340B(a)(5)(A) of the PHS Act, regarding the prohibition of duplicate discounts, or section 340B(a)(5)(B) of the PHS Act, regarding the prohibition of the resale or transfer of covered outpatient drugs to a person who is not a patient of the covered entity.

(b) *Requirements for filing a claim.* (1) Absent extenuating circumstances, a covered entity or manufacturer must file a claim under this section in writing to OPA within 3 years of the date of the alleged violation. Any file, document, or record associated with the claim that is the subject of a dispute must be maintained by the covered entity and manufacturer until the date of the final agency decision.

(2) A covered entity filing a claim described in paragraph (a)(1) of this section must provide the basis, including all available supporting documentation, for its belief that it has been overcharged by a manufacturer, in addition to any other documentation as may be requested by OPA. A covered entity claim against multiple manufacturers is not permitted.

(3) A manufacturer filing a claim under paragraph (a)(2) of this section must provide documents sufficient to support its claim that a covered entity has violated the prohibition on diversion and/or duplicate discounts, in addition to any other documentation as may be requested by OPA.

(4) A covered entity or manufacturer filing a claim must provide documentation of good faith efforts, including for example, documentation demonstrating that the initiating party has made attempts to contact the opposing party regarding the specific issues cited in the ADR claim.

(c) *Combining claims.* (1) Two or more covered entities may jointly file claims of overcharges by the same manufacturer for the same drug or drugs if each covered entity consents to the jointly filed claim and meets the filing requirements.

(i) For covered entity joint claims, the claim must list each covered entity, its 340B ID and include documentation as described in paragraph (b) of this section, which demonstrates that each covered entity meets all of the requirements for filing the ADR claim.

(ii) For covered entity joint claims, a letter requesting the combining of claims must accompany the claim at the time of filing and must document that each covered entity consents to the combining of the claims, including signatures of individuals representing each covered entity and a point of contact for each covered entity.

(2) An association or organization may file on behalf of one or more covered entities representing their interests if:

(i) Each covered entity is a member of the association or the organization representing it and each covered entity meets the requirements for filing a claim;

(ii) The joint claim filed by the association or organization must assert overcharging by a single manufacturer for the same drug(s); and

(iii) The claim includes a letter from the association or organization attesting that each covered entity agrees to the organization or association asserting a claim on its behalf, including a point of contact for each covered entity.

(3) A manufacturer or manufacturers may request to consolidate claims brought by more than one manufacturer against the same covered entity if each manufacturer could individually file a claim against the covered entity, consents to the consolidated claim, meets the requirements for filing a claim, and the 340B ADR Panel determines that such consolidation is appropriate and consistent with the goals of fairness and economy of resources. Consolidated claims filed on behalf of manufacturers by associations or organizations representing their interests are not permitted.

(d) *Deadlines and procedures for filing a claim.* (1) Covered entities and manufacturers must file claims in writing with OPA, in the manner set forth by OPA.

(2) OPA will conduct an initial review of all information submitted by the party filing the claim and will make a determination as to whether the requirements in paragraph (b) of this section are met. The OPA staff conducting the initial review of a claim may not be appointed to serve on the 340B ADR Panel reviewing that specific claim.

(3) Additional information to substantiate a claim may be submitted by the initiating party and may be requested by OPA. If additional information is requested, the initiating party will have 20 business days from the receipt of OPA's request to respond. If the initiating party does not respond to a request for additional information within the specified time frame or request and receive an extension, the claim will not move forward to the 340B ADR Panel for review.

(4) OPA will provide written notification to the initiating party that the claim is complete. Once the claim is complete, OPA will also provide written notification to the opposing party that the claim was submitted. This written notification will provide a copy of the initiating party's claim, and additional instructions regarding the 340B ADR process, including timelines and information on how to submit their response in accordance with the procedures for responding to a claim as outlined in paragraph (e) of this section.

(5) If OPA finds that the claim meets the requirements described in paragraph (b) of this section, and once OPA receives the opposing party's response in accordance with the procedures outlined in paragraph (e) of this section, additional written notification will be sent to both parties advising that the claim will be forwarded to the 340B ADR Panel for review.

(6) If OPA finds that the claim does not meet the requirements described in paragraph (b) of this section, written notification will be sent to both parties stating the reasons that the claim did not move forward.

(7) For any claim that does not move forward for review by the 340B ADR Panel, the claim may be revised and refiled if there is new information to support the alleged statutory violation and the claim meets the criteria set forth in this section.

(e) *Responding to a submitted claim.* (1) Upon receipt of notification by OPA that a claim is deemed complete and has met the requirements in paragraph (b) of this section, the opposing party in alleged violation will have 30 business days to submit a written response to OPA.

(2) A party may submit a request for an extension of the initial 30 business days response period and OPA will make a determination to approve or disapprove such request and notify both parties.

(3) OPA will provide a copy of the opposing party's response to the initiating party and will notify both parties that the claim has moved forward for review by the 340B ADR Panel.

(4) If an opposing party does not respond or elects not to participate in the 340B ADR process, OPA will notify both parties that the claim has moved forward for review by the 340B ADR Panel and the 340B ADR Panel will render its decision after review of the information submitted in the claim.

§ 10.22 Covered entity information and document requests.

(a) To request information necessary to support its claim from an opposing party, a covered entity must submit a written request for additional

information or documents to the 340B ADR Panel within 20 business days of the receipt from OPA that the claim was forwarded to the 340B ADR Panel for review. The 340B ADR Panel will review the information/document request and notify the covered entity if the request is not reasonable, not relevant or beyond the scope of the claim, and will permit the covered entity to resubmit a revised request if necessary.

(b) The 340B ADR Panel will transmit the covered entity's information/document request to the manufacturer who must respond to the request within 20 business days of receipt of the request.

(c) The manufacturer must fully respond, in writing, to an information/document request from the 340B ADR Panel by the response deadline.

(1) A manufacturer is responsible for obtaining relevant information or documents from any wholesaler or other third party that may facilitate the sale or distribution of its drugs to covered entities.

(2) If a manufacturer anticipates that it will not be able to respond to the information/document request by the deadline, it can request one extension by notifying the 340B ADR Panel in writing within 15 business days of receipt of the request.

(3) A request to extend the deadline must include the reason why the specific deadline is not feasible and must outline the proposed timeline for fully responding to the information/document request.

(4) The 340B ADR Panel may approve or disapprove the request for an extension of time and will notify all parties in writing of its decision.

(5) If the 340B ADR Panel finds that a manufacturer has failed to fully respond to an information/document request, the 340B ADR Panel will proceed with the facts that the 340B ADR Panel has determined have been established in the proceeding.

(6) If a manufacturer believes an information request to a covered entity is necessary for the 340B ADR Panel's review, it may make a request to the 340B ADR Panel to make the request to the covered entity.

§ 10.23 340B ADR Panel decision process.

(a) The 340B ADR Panel will conduct a review of the claims. The 340B ADR Panel will review all documents gathered during the 340B ADR process to determine if a violation as described in § 10.21(a)(1) or (2) has occurred.

(b) The 340B ADR Panel will prepare a decision letter based on its review. The 340B ADR Panel's decision letter will be completed within one year of receiving a complete claim for review, except to the extent that there are situations beyond the control of the 340B ADR Panel that may affect the ability to issue a decision on a claim within one year. If the issuance of a 340B ADR Panel decision will exceed one year, the 340B ADR Panel must provide notice to the parties involved. The 340B ADR Panel decision letter will represent the determination of a majority of the 340B ADR Panel members' findings regarding the claim and include an explanation regarding each finding. The 340B ADR Panel will transmit its decision letter to all parties and to the OPA Director.

(c) The 340B ADR Panel decision letter will inform the parties involved of their rights for reconsideration as described in § 10.24. Either party may request reconsideration of the 340B ADR Panel decision or the Health Resources and Service Administration (HRSA) Administrator may decide to initiate a reconsideration without such a request. The final agency decision will be binding upon the parties involved in the dispute unless invalidated by an order of a Federal court. The 340B ADR Panel's decision letter will be effective 30 business days from issuance and serve as the final agency decision unless:

(1) Within 30 business days of issuance, reconsideration occurs under § 10.24; or

(2) Within 30 business days of issuance, the Secretary makes a determination that the Secretary will review the decision.

(d) The OPA Director will determine any necessary corrective action or consider whether to take enforcement action, and the form of any such action, based on the final agency decision.

§ 10.24 340B ADR Panel decision reconsideration process.

(a) Either party may initiate a reconsideration request, or the HRSA Administrator may decide to initiate the process without such a request. In the event of a reconsideration request, the 340B ADR Panel's decision is held in abeyance until such time the HRSA Administrator makes a reconsideration decision of the 340B ADR Panel decision (or in the event of a declination). A reconsideration decision will affirm or supersede a 340B ADR Panel decision.

(b) The request for a reconsideration of the 340B ADR Panel's decision must be made to the HRSA Administrator within 30 business days of the date of the 340B ADR Panel's decision letter.

(1) The request for reconsideration must include a copy of the 340B ADR Panel decision letter, and documentation indicating why a reconsideration is warranted.

(2) New facts, information, legal arguments, or policy arguments may not be submitted as part of the reconsideration process in order to remain consistent with the facts that were reviewed by the 340B ADR Panel in determining their decision.

(3) In the case of joint or consolidated claims, the reconsideration request must include an attestation confirming that all of the entities have agreed to be part of the reconsideration process.

(c) The standard for review of the reconsideration request by the HRSA Administrator, or their designee, will include a review of the record, including the 340B ADR Panel decision, and a determination of whether there was an error in the 340B ADR Panel's decision. The HRSA Administrator, or designee, may consult with other HHS officials, as necessary.

(d) The HRSA Administrator, or their designee, will make a determination based on the reconsideration request by either issuing a revised decision or declining to issue a revised decision.

(e) The reconsideration decision letter will be effective 30 business days from issuance and serve as the final agency decision unless within 30 business days of issuance, the Secretary makes a determination that the Secretary will review the decision. The final agency decision will be binding upon the parties involved in the dispute unless invalidated by an order of a Federal court.

(f) The OPA Director will determine any necessary corrective action, or consider whether to take enforcement action, and the form of any such action, based on the final agency decision.

§ 10.25 Severability.

If any provision of this subpart is held to be invalid or unenforceable by its terms, or as applied to any person or circumstance, or stayed pending further agency action, the provision shall be construed so as to continue to give the maximum effect to the provision permitted by law, unless such holding shall be one of utter invalidity or unenforceability, in which event the provision shall be severable from this part and shall not affect the remainder thereof.

BILLING CODE 4165–15–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 76

[MB Docket No. 23–203; FCC 24–29; FR ID 211518]

All-In Pricing for Cable and Satellite Television Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) implements the ''all-in'' rule, requiring cable operators and direct broadcast satellite (DBS) providers to state an aggregate price for the video programming that they provide as a clear, easy-to-understand, and accurate single line item on subscribers' bills, including on bills for legacy or grandfathered video programming service plans. The ''all-in'' rule also requires cable operators and DBS providers that communicate a price for video programming in promotional materials to state the aggregate price for the video programming in a clear, easy-to-understand, and accurate manner.

DATES:

Effective date: This rule is effective April 19, 2024.

Compliance date: Compliance with 47 CFR 76.310 is not required until the Commission has published a document in the **Federal Register** announcing the compliance date.

FOR FURTHER INFORMATION CONTACT: For additional information on this proceeding, contact Joseph Price, *Joseph.Price@fcc.gov,* of the Policy Division, Media Bureau, (202) 418–1423.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order (*Order*), FCC 24–29, adopted on March 14, 2024, and released on March 19, 2024. The full text of this document is available at *https://docs.fcc.gov/public/attachments/FCC-24-29A1.pdf* and via ECFS at *https://www.fcc.gov/ecfs/.* Documents will be available electronically in ASCII, Microsoft Word, and/or Adobe Acrobat. Alternative formats are available for people with disabilities (Braille, large print, electronic files, audio format), by sending an email to *fcc504@fcc.gov* or calling the Commission's Consumer and Governmental Affairs Bureau at (202) 418–0530 (voice), 1–844–4–FCC–ASL (1–844–432–2275) (videophone).

Synopsis

1. In the Report and Order (*Order*), we take action to benefit video consumers by requiring cable operators and direct broadcast satellite (DBS) providers to specify the ''all-in'' price for video programming in their promotional materials that include pricing information and on subscribers' bills. Our action today enables consumers to make purchasing decisions with access to clear, easy-to-understand, and accurate information disclosing the price of video programming. We believe that an ''all-in'' price for video service also will increase transparency and have a positive effect on competition in the video programming marketplace by allowing consumers to make better informed choices among the ranges of video programming service options available to them.

2. Sections 335 and 632 of the Communications Act of 1934, as amended (the Act), authorize the Commission to adopt public interest regulations for DBS providers and direct the Commission to adopt cable operator customer service requirements, respectively.[1] In 2019, Congress adopted the Television Viewer Protection Act of 2019 (TVPA), which bolstered the consumer protection provisions of the Act by adding specific consumer protections.[2] The TVPA revised the Act to add section 642, which, among other things, requires greater transparency in subscribers' bills.[3] As Congress explained then, and we observe today, consumers face ''unexpected and confusing fees when purchasing video programming,'' including ''fees for broadcast TV [and] regional sports.'' [4]

3. On June 20, 2023, the Commission released a notice of proposed rulemaking (*NPRM*) (88 FR 42277, June 20, 2023), observing that consumers who choose a video service based on an advertised monthly price may be surprised by unexpected fees that cable operators and DBS providers charge and list in the fine print separately from the top-line listed service price. The Commission found that such fees can be potentially misleading and make it difficult for consumers to compare the prices of competing video service providers.[5] In the *NPRM,* the Commission proposed to enhance pricing transparency by requiring cable operators and DBS providers to provide the ''all-in'' price for video programming in their promotional materials and on subscribers' bills.[6] The Commission sought comment on whether the proposal is sufficient to ensure that subscribers and potential subscribers have accurate information about the cost for video service for which they will be billed. Specifically, the Commission sought comment on (i) the specifics of the proposed requirement for increased marketing and billing transparency, (ii) existing Federal, state, and local requirements related to truth-in-billing, (iii) the marketplace practices regarding advertising and billing, and (iv) the Commission's legal authority to adopt this proposal.[7] The Commission also included a request for comment on the costs and benefits of the proposal, as well as the effects that the proposal could have on equity and inclusion.[8] The Commission received comments and *ex parte* filings from individuals, consumer advocates, cable, DBS, broadcast industry members, trade associations, state and local governments, and franchising authorities.[9] A number of comments

describe general consumer frustration with unexpected ''fees'' (for example, for broadcast television programming and regional sports programming [10] charges listed separately from the monthly subscription rate for video programming) that are actually charges for the video programming for which the subscriber pays.[11]

Discussion

4. In the *Order,* we adopt the proposal in the *NPRM* to require that cable operators and DBS providers provide the ''all-in'' price of video programming as a prominent single line item on subscribers' bills and in promotional materials that state a price.[12] We find that the record demonstrates that charges and fees for video programming provided by cable and DBS providers are often obscured in misleading promotional materials and bills, which causes significant and costly confusion for consumers. We, therefore, adopt the ''all-in'' rule to promote pricing transparency and to complement existing consumer protections and practices of cable operators and DBS providers.

5. First, we describe current marketplace practices and conclude that the ''all-in'' rule is well-tailored to address the need for consumers to have accurate information about the cost of video service. Next, we consider issues related to implementation of the ''all-in'' rule, including how the rule applies to bundled services and billing material (including for currently-offered and grandfathered or legacy plans) and promotional material (including national and regional marketing where charges to consumers vary by geography and promotional discounts). We discuss the legal authority we rely upon to implement the ''all-in'' rule. We conclude that section 642 of the Act (the TVPA), section 632 of the Act (covering cable operators), section 335 of the Act (covering DBS providers), as well as ancillary authority, provide ample authority for the ''all-in'' rule. We also conclude that the ''all-in'' rule is consistent with the First Amendment. We consider existing local, state, and voluntary consumer protections adopted and implemented by cable operators and DBS providers, as well as existing Federal requirements stemming from the TVPA applicable to multichannel video programming distributors (MVPDs), that relate to transparency and disclosure of pricing information. We conclude that the ''all-in'' rule will complement existing protections by further mitigating consumer confusion about the aggregate cost of video programming. Finally, we consider the potential competitive effects of the ''all-in'' rule and conclude that increased consumer access to clear, easy-to-understand, and accurate information likely encourages price competition, innovation, and the provision of high-quality services.

6. *Need for the ''All-In'' Rule.* Based on the record, we find that there is a need for the ''all-in'' rule so that consumers can make better informed decisions about their service and can comparison shop among video programming providers without having to ''read fine print or try to determine which 'fees' or 'surcharges' are really charges related to video programming services that might raise the monthly cost compared to other offers they are considering.'' [13] In the *NPRM,* the Commission sought comment on whether consumers encounter misleading promotions or receive misleading bills, and on current industry practices regarding pricing categorization.[14] As described below, individuals, consumer protection organizations, state and local governments, and franchise authorities report that consumers experience ''considerable'' confusion and surprise when unanticipated charges and fees for cable and satellite video programming are not included in the advertised price in promotional materials and are separately listed on bills.[15]

7. Consumer protection groups describe significant, recurring issues with consumer access to clear, easy-to-understand, and accurate information about the price of cable operator and DBS provider video programming. Truth in Advertising, for example, contends that ''several cable and satellite service companies [are] engaged in deceptive pricing practices, including the use of unexpected fees.'' [16] Truth in

[16] Truth in Advertising Comments at 2.

Advertising discusses a 2019 analysis by Consumer Reports of 800 cable bills, revealing the cable industry generates $450 per customer, per year, from company-imposed fees, and that nearly 60% of Americans who encounter these unexpected or hidden fees report the fees caused them to exceed their budget.[17] Consumer Reports examined hundreds of cable and satellite television bills collected in 2018 and made several findings in the 2019 report, ''including that consumers pay significantly more than the advertised price for video programming . . . because of the addition of various fees, surcharges, and taxes.'' [18] According to Consumer Reports, fees are ''often imposed or increased with little notice, and are often listed among a dizzying array of other charges, including government-imposed fees and taxes'' while cable companies ''continue advertising relatively low base rates.'' [19] Further, a 2018 ''Secret Shopper Investigation'' conducted by Consumer Reports found that consumers were provided with inaccurate or confusing fee-related information by customer service representatives of cable and DBS providers on a number of occasions.[20] This included customer service representatives portraying certain company-imposed fees as government-imposed taxes and fees; failing to mention fees; or offering incomplete fee information.[21]

8. Comments filed by individual consumers as well as state and local governments and franchise authorities likewise detail concerns about misleading promotional materials and bills for cable and DBS service and urge the Commission to adopt an ''all-in'' rule to protect consumers. The record indicates that approximately 24 to 33 percent of a consumer's bill is attributable to company-imposed fees such as ''Broadcast TV Fees,'' ''Regional Sports Surcharges,'' ''HD Technology Fees,'' and others,[22] and that the ''dollar amount of company-imposed fees has skyrocketed.'' [23] However, consumers too often lack transparent information about fees that significantly increase the cost of advertised and billed video services and how they will affect their total cost and bottom-line budget.[24] Increases in fees relating to video programming during the term of the service agreement are sources of consumer surprise and confusion, and it is ''especially notable . . . that these fees are being raised by cable companies even while many consumers are locked into supposed 'fixed-rate' contracts.'' [25] As the Local Government Commenters emphasize, these fees disproportionately impact lower-income households.[26]

9. Misinformation and misunderstandings about how much subscribing to video programming service costs lead to subscriber complaints, disputed bills, and litigation. Consumer Reports observed that since 2016, state attorneys general in Massachusetts, Minnesota, and Washington have ''launched investigations and/or filed lawsuits accusing Comcast, one of the nation's largest cable operators, of fee-related fraud.'' [27] Truth in Advertising describes eight class-action lawsuits initiated by consumers challenging unexpected charges and fees.[28] The Local Government Commenters report that ''[c]lass action lawsuits or suits brought by state Attorneys General have resulted in settlements when companies impose fees that exceed its promise of a fixed price.'' [29] Local franchising authorities from several states also report a variety of complaints they are receiving, and the types of questions they respond to, in support of ''subscribers who are confused'' about the charges on bills from cable operators and DBS providers.[30]

10. On the other hand, cable and DBS commenters dispute the characterization of their advertising and billing practices as misleading to consumers and argue that there is no need for the Commission to adopt an ''all-in'' rule. NCTA—The Internet & Television Association (NCTA) contends that ''[p]roviding accurate and transparent pricing information to consumers is a marketplace necessity'' given fierce competition for consumers in the video programming market.[31] According to NCTA, ''[i]n the course of a prospective customer's consideration of which service package to buy (the 'buy-flow') and on customers' bills, our members clearly disclose the specific amounts of the fees that will apply and the total amount customers will pay for service, thereby ensuring that customers are not 'surprised by unexpected fees.'' [32] In addition, NCTA argues that there is no need for the Commission to adopt an ''all-in'' requirement because the existing transparency in billing requirements of the TVPA sufficiently address this issue.[33] DIRECTV submits that an ''all-in'' rule could complicate ''apples-to-apples'' comparison shopping because it (i) would require the disclosure of only one variable in a service offering—price—rather than specific channels or other aspects of the video programming service that the provider offers, thus ''creat[ing] confusion in a world where the content and other terms of the service offering differ dramatically among providers''; (ii) would apply only to cable and DBS and not other providers of video programming, including online video distributors; and (iii) would require a single price in national advertising even though actual prices differ depending on where a customer lives.[34]

11. Although industry commenters assert that the practice of separating certain elements of the price for video programming and listing them as ''fees'' does not deceive consumers,[35] we believe that the weight of evidence in the record as detailed above suggests otherwise and that efforts to address these issues will benefit from a robust ''all-in'' rule. As Local Government Commenters contend, ''[m]ore clarity and transparency are needed to help consumers understand their cable bills and make informed decisions about their services,'' and ''consumers should know what their video programming services will cost, including all charges cable operators add to those services.'' [36] We agree that an ''all-in'' rule serves the dual purposes of helping consumers

comparison shop among video programming providers when looking at promotional materials and helping subscribers recognize when the price for video service has changed when looking at their bills.[37] As we found in the *NPRM,* unexpected fees related to the cost of video programming, and how those fees are disclosed, can ''make it difficult for consumers to compare the prices of video programming providers.'' [38] An ''all-in'' price that lets consumers know the exact amount that they pay for video programming will give consumers a clear, easy-to-understand, and accurate price-point to consider.[39] We disagree that requiring cable operators and DBS providers to present consumers with honest pricing information without addressing other variables of video programming service will complicate comparison shopping. The ''all-in'' rule does not prohibit additional information that may highlight or compare a service feature (for example, the number, quality, or types of video programming channels available). Instead, it simply prohibits deceptive pricing practices. We also find, based on the record, that the ''all-in'' rule will benefit consumers, notwithstanding its application only to cable and DBS providers, considering the specific issues raised in the record with respect to these services.

12. *The ''All-In'' Rule.* We adopt the proposal in the *NPRM* to require cable operators and DBS providers to provide the ''all-in'' price for video programming service in both their promotional materials and on subscribers' bills.[40] As noted in the *NPRM* and confirmed by the record in this proceeding, the public interest requires that cable operators and DBS providers represent their subscription charges transparently, accurately, and clearly. While commenters representing the cable and DBS industry object to the proposal, the record otherwise reflects a broad swath of support for adoption of an ''all-in'' price rule.

13. *General Implementation.* In accordance with this requirement, cable operators and DBS providers must aggregate the cost of video programming (that is, any and all amounts that the cable operator or DBS provider charges the consumer for video programming, including for broadcast retransmission consent, regional sports programming, and other programming-related fees) as a prominent single line item in promotional materials (if a price is included in those promotional materials) and on subscribers' bills.[41] We do not require every cable or DBS advertisement to provide an ''all-in'' price where pricing is not otherwise included in the ad; but when a price is included in promotional materials, the ''all-in'' rule applies.[42] This aggregate price must include the full amount of the charge the cable operator or DBS provider charges (or intends to charge) the customer in exchange for video programming, including costs relating to broadcast television retransmission, and sports and entertainment programming. We agree with commenters that requiring cable and DBS providers to include these video programming charges in the ''all-in'' price will help consumers ''better distinguish between operator-imposed charges and government-imposed taxes or fees''; as the record indicates, by separating out these charges, cable operators and DBS providers mislead consumers into believing such charges are government-imposed fees when they are nothing of the sort. Instead, such video programming charges are part of the aggregate cost for video programming in their promotional and billing material.[43]

14. Consistent with the Commission's proposal in the *NPRM,*[44] amounts beyond those charged to the consumer for the video programming itself, such as taxes, administrative fees, equipment fees,[45] and franchise fees,[46] or other such charges, are excluded from the ''all-in'' rule.[47] Commenters discussed the potential benefits and downsides of extending the ''all-in'' rule to cover charges and fees not directly related to the provisioning of video programing. Consumer Reports and Public Knowledge, for example, support a broad application of the ''all-in'' rule, including where ''fees might be variable,'' such as equipment costs, because, if not, the advertised price ''is not the real price a consumer will eventually pay.'' [48] The Local Franchise Authorities, on the other hand, suggest ''the Commission should be clear that an all-in price that includes government-imposed taxes or fees does not satisfy the rule.'' [49] We are convinced, at this time, to focus the ''all-in'' rule on the issues identified in the record regarding the disclosure of charges associated with the video programming itself. We also are mindful of pragmatic difficulties of complying with the ''all-in'' rule when certain costs for *each consumer* (not for *each market*) vary more than others.[50] Compliance with the ''all-in'' rule could be complicated, for example, by taxes that may vary by location; and decisions on whether there is a need to purchase equipment and on the number and type of devices, which vary for each household.

15. As proposed in the *NPRM,* we are persuaded that service providers subject to the ''all-in'' requirement may provide

[37] *Id.*

[38] *NPRM,* 2023 WL 4105426 at *1, para. 2.

[39] Thus, we disagree with industry commenters that suggest that an ''all-in'' rule will lead to less transparency because it addresses only one variable in a video service offering—price. *See, e.g.,* DIRECTV Comments at 9–12. Commenters point to the success of the recently adopted broadband consumer label that also ''offers helpful guidance for the Commission in adopting a consistent and clear obligation for cable services and DBS'' and suggest the all-in rule should include factors similar to those required in a broadband consumer label. Local Government Comments at 10–11.

[40] *NPRM,* 2023 WL 4105426 at *2, para. 5.

[41] *Id.* at *2, para. 6.

[42] For purposes of the ''all-in'' rule, promotional material includes communications to consumers such as advertising and marketing.

[43] Local Franchise Authorities Comments at 7–8; Consumer Reports and Public Knowledge Comments at 5, 15, 19; Local Government Comments at 5; NCTA Reply Comments at 3.

[44] *NPRM,* 2023 WL 4105426 at *2, para. 6 (stating that the Commission ''intend[s] for this aggregate amount to include the full amount the cable operator or satellite provider charges (or intends to charge) the customer in exchange for video programming service (such as broadcast television, sports programming, and entertainment programming), but nothing more (that is, no taxes or charges unrelated to video programming).''

[45] *See id.* at *2, para. 6 n.10 (declining to propose ''to require that cable operators and DBS providers include equipment costs in the 'all-in' price listed on promotional materials and bills, as these costs are variable for each subscriber, and some subscribers use their own equipment and therefore do not incur such charges from the provider'').

[46] For purposes of this proceeding, we will consider Public, Educational, and Governmental Access Support Fees (PEG Fees) as part of franchise fees, consistent with prior Commission findings. *Implementation of Section 621(A)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992,* MB Docket No. 05–311, 34 FCC Rcd 6844, 6860–62, paras. 28–30 (2019) (84 FR 44725, Aug. 27, 2019) (finding that the definition of franchise fee in section 622(g)(1) encompasses PEG-related contributions).

[47] *Id.* at *7, para. 16 (concluding, tentatively, that ''the terms 'taxes,' 'administrative fees,' 'equipment fees,' or 'other charges' cannot reasonably include separate charges for various types of video programming (*e.g.,* amounts paid for retransmission consent rights or rights to transmit regional sports programming or any other programming)'' (citing 47 U.S.C. 542(c)).

[48] Consumer Reports and Public Knowledge Comments at 10–11 (arguing ''the fact that [equipment] fees might be variable is not a reason to exclude them in the aggregate price'').

[49] Local Franchise Authorities Comments at 8 (''[T]o ensure full transparency, the Commission should be clear that an all-in price that includes government-imposed taxes or fees does not satisfy the rule. Including government-imposed taxes and fees in the all-in price will continue to obscure cable operators' decisions regarding pricing and additional charges.'' (citing *NPRM,* 2023 WL 4105426 at *2, para. 7)).

[50] Consumer Reports and Public Knowledge Comments at 11 (arguing that ''even if minor variations were present, tailoring an advertised price to reflect different prices does not strike us as overly burdensome'').

their subscribers and potential subscribers with itemized information about how much of their subscription payments are attributable to specific costs relating to providing video programming or other items that contribute to the bill.[51] Thus, consistent with sections 622(c) and 642 of the Act,[52] cable operators and DBS providers may complement the prominent aggregate cost line item with an itemized explanation of the elements that compose that aggregate cost.[53] Information in addition to the ''all-in'' price may be included, so long as the cable operator or DBS provider portrays the video programming-related costs as part of the ''all-in'' price for service.[54] Additional communications (the customer subscription and billing processes, for example) may also include information about other attributable costs with even more granularity, but may not be a substitute for, or obscure, compliance with the ''all-in'' price. The ''all-in'' rule, for example, does not prevent the additional disclosure of costs relating to retransmission consent fees incurred by cable operators and DBS providers. The record describes issues cable operators and DBS providers incur by recouping retransmission costs, which some providers would like to avoid entirely or inform their customers of, and there is a lack of evidence indicating that additional disclosures that the industry supports causes consumer confusion.[55] Our decision does not prohibit additional disclosures or separate line items, including those required by section 642 of the Act or permitted under 622(c) of the Act.[56] We also decline at this time to ''reform the retransmission consent marketplace,'' as some commenters have requested, as it is beyond the scope of this proceeding and the focus of the Commission in other dockets.[57]

16. In the *NPRM,* the Commission sought comment on whether the ''all-in'' proposal should differentiate between residential, small business, and enterprise subscribers.[58] We agree with commenters asserting that the ''all-in'' rule should apply to all residential customer services provided by cable and DBS operators, including residents in multiple tenant or dwelling unit environments served by such operators.[59] However, we are also persuaded that services provided and marketed to enterprise customers and bulk purchasers of non-residential video programming service should be exempt from the rule because, as NCTA explains, ''[s]uch customers subscribe to video services under customized or individually negotiated plans and thus receive all of the relevant information during the customization or negotiation process.'' [60]

17. We decline to impose more specific requirements for how to present an ''all-in'' price to consumers beyond our finding that it must be a prominent single line item in promotional materials and on subscribers' bills. In the *NPRM,* the Commission sought comment on whether the term ''prominent'' is specific enough to ensure that cable operators and DBS providers present consumers with easy-to-understand ''all-in'' subscription price, or whether we need to provide more detail about how the price for service must be communicated.[61] We do not at this time impose a ''service nutrition-style label,'' specific font size, or disclosure proximity requirement to comply with the ''all-in'' rule. Comments submitted on this point support a clear, easy-to-understand, and accurate statement of the total cost of video programming, while service providers suggest flexibility. We find that the clear, easy-to-understand, and accurate communication of the aggregate price of video service that the cable operator or DBS provider charges best achieves our goal of promoting transparency in promotional and billing material.

18. *Compliance Date.* The ''all-in'' rule must be fully implemented within nine months of release of the Report and Order or after the Office of Management and Budget completes review of any information collection requirements that may be required under the Paperwork Reduction Act of 1995 (PRA),[62] whichever is later, with the exception of small cable operators which will have 12 months to come into compliance. In

[51] *See NPRM,* 2023 WL 4105426 at *3, para. 8; 47 U.S.C. 562; NTCA—The Rural Broadband Association Comments at 5. We note that in some instances this itemization may be required, as well as compliance with the ''all-in'' rule. *See* 47 U.S.C. 562(b)(1) (requiring bill in electronic formats to include ''an itemized statement that breaks down the total amount charged for or relating to the provision of the [MVPD] service by the amount charged for the provision of the service itself and the amount of all related taxes, administrative fees, equipment fees, or other charges'').

[52] 47 U.S.C. 542(c) (permitting cable operators to identify franchisee fees, public, educational, and governmental access (PEG) fees, and other fees, taxes, assessments, or other charges imposed by the government ''as a separate line item on each regular bill of each subscriber''); 47 U.S.C. 562(b)(1) (requiring MVPD consumer bills to include an ''itemized statement that breaks down the total amount charged for or relating to the provision of the covered service by the amount charged for the provision of the service itself and the amount of all related taxes, administrative fees, equipment fees, or other charges'').

[53] ACA Connects Comments at 9, 15.

[54] *See id.* at 6–7 (describing how some ACA Connects members ''explicitly pass through retransmission consent fees and [regional sports] fees as line items on subscriber bills'' to promote transparency and ''help customers understand the source of . . . increases'').

[55] *See, e.g., id.* at 6–7 (''To be clear, our Members would prefer to help their video customers by reducing prices or at least curbing price increases, but the dictates of the retransmission consent regime make this impossible. The best they can do is transparency: by explicitly identifying the programming fees that are driving up cable bills, they can at least help customers understand the source of these increases.'').

[56] *See NPRM,* 2023 WL 4105426 at *3, para. 8 (discussing that cable operators may identify certain charges imposed by the government ''as a separate line item on each regular bill of each subscriber,'' 47 U.S.C. 542(c), and the MVPD electronic format billing requirement to include an itemized statement that breaks down the total amount charged, 47 U.S.C. 562(b)(1)).

[57] *See* ACA Connects Comments at 9, 15 (urging the Commission to ''to refocus its efforts on finding ways to reform the retransmission consent marketplace for the benefit of consumers''). The Commission has and is addressing issues regarding retransmission consent in other dockets, and we continue to believe those issues should be addressed separate from the ''all-in'' rule. *See, e.g., Amendment of the Commission's Rules Related to Retransmission Consent,* MB Docket No. 10–71, Report and Order (79 FR 28615, May 19, 2014) and Further Notice of Proposed Rulemaking (79 FR 19849, April 10, 2014), 29 FCC Rcd 3351 (2014) (seeking comment on the Commission's retransmission consent rules); *Reporting Requirements for Commercial Television Broadcast Station Blackouts,* Notice of Proposed Rulemaking, MB Docket No. 23–437, FCC 23–115, 2023 WL 8889607 (Dec. 21, 2023) (89 FR 5184, Jan. 26, 2024) (proposing a reporting framework that ''would require public notice to the Commission of the beginning and resolution of any blackout and submission of information about the number of subscribers affected''); *Customer Rebates for Undelivered Video Programming During Blackouts,* Notice of Proposed Rulemaking, MB Docket No. 24–20, FCC 24–2, 2024 WL 212126 (Jan. 17, 2024) (89 FR 8385, Jan. 7, 2024) (seeking comment on whether to require cable operators and DBS providers to rebate subscribers for programming blackouts that result from failed retransmission consent negotiations or failed non-broadcast carriage negotiations); Federal Communications Commission, Retransmission Consent, *https://www.fcc.gov/media/policy/retransmission-consent* (last updated Sept. 27, 2021).

[58] *See NPRM,* 2023 WL 4105426 at *3, para. 9. Enterprise customers include bulk purchasers (such as multiple dwelling unit (MDU) or multiple tenant environment (MTE) owners) and typically do not include small business or residential customers. *See* NCTA Comments at 8.

[61] *See NPRM,* 2023 WL 4105426 at *2, para. 7.

[62] Public Law 104–13, 109 Stat. 163 (1995) (codified in Chapter 35 of title 44 U.S.C.).

the *NPRM,* we sought comment on what would be a reasonable implementation period for providers to update their systems to reflect any changes if we were to adopt the ''all-in'' price.[63] Verizon has suggested the Commission ''allow at least six months for providers to comply and ensure 'a reasonable implementation period for providers to update their system,' [and] an additional six months for parties to comply with any rules that affect legacy plans.[64] NCTA contends that ''given the scope of changes that could be necessary to implement an all-in pricing rule, the Commission should grant at least 12 months for operators to come into compliance.'' [65] ACA Connects likewise argues that the Commission should provide at least twelve months for providers to implement any requirements, particularly for smaller cable operators that use software platforms from third-party vendors.[66] We conclude that a nine-month implementation period will be sufficient to fully implement the ''all-in'' rule, which will afford time to affect operating systems and address legacy plan billing. We note that Congress afforded MVPDs six months to implement the billing requirements of the TVPA and conclude that nine months for most providers is a time period that will similarly benefit consumers when implementing the ''all-in'' rule.[67] However, given the concerns raised by ACA Connects, we give small cable operators, *i.e.,* those with annual receipts of $47 million or less, an additional three months to come into compliance.[68]

19. *Bundled Services.* The ''all-in'' rule requires clear, easy-to-understand, and accurate disclosure of the aggregate cost of video programming when a cable operator or DBS provider promotes or bills for video programming that is part of a bundle. Bundled services are increasingly popular among consumers. We agree with Verizon that bundles can be economically efficient and benefit consumers, and allow video programming service providers to distinguish themselves.[69] As part of the *NPRM,* the Commission asked for comment on whether to apply the ''all-in'' rule in circumstances where the cable operator or DBS provider bundles video programming with other services like broadband internet service.[70] The Commission also inquired as to whether it was possible to provide an ''all-in'' price, as Verizon explains, ''where the video component has not been priced or itemized separately from the bundle as a whole.'' [71]

20. The record raises issues with how bundled service offerings disclose and bill for the costs of video programming, particularly when charges and fees for the video programming element of the bundle increase due to a promotion schedule or otherwise. Consumer Reports argues ''the video portion of a bundled offering should reflect the required prominent all-in price of the equivalent stand-alone video offering.'' [72] Truth in Advertising notes ''deceptive pricing tactics'' and comments that the rule should specifically address bundled and related services.[73] The Connecticut Office of State Broadband submits that consumers would benefit from application of the ''all-in'' rule to the marketing and billing of oftentimes complicated bundles that include video programing service with other services, like phone and internet.[74] They discuss consumer reports of deceptive pricing specifically related to bundled services and are in favor of applying the ''all-in'' rule for the video programming portion of a bundled offering, ''because many bundles are discounted'' [75] and ''the advertised prices for such bundles often omit fees that consumers are ultimately charged,'' including video programming charges that unexpectedly increase the bottom-line monthly price of the bundled service.[76]

21. Verizon and NCTA argue that applying the ''all-in'' rule to bundled packages that include video programming removes flexibility necessary to offer competitive packages, while potentially adding to consumer confusion. Verizon contends that the ''all-in'' rule ''threaten[s] to undermine this flexibility, by potentially requiring carriers to advertise and bill for a stand-alone price where none exists—that is, where the video component has not been priced or itemized separately from the bundle as a whole.'' [77] As NCTA explains, video programming is ''frequently bundled with other services, such as broadband . . . and voice services, resulting in service packages that offer consumers a wide range of choices but do not easily lend themselves to apples-to-apples comparisons between providers.'' [78] ''[R]equiring an all-in price for video for bundled customers is also likely to increase customer confusion, not reduce it,'' especially where the ''consumers have been purchasing the plans for many years,'' [79] Verizon asserts.

22. We find that application of the ''all-in'' rule is warranted when video programing service is offered and billed as part of a bundle of services. Our

[78] NCTA Comments at 7.

[79] Verizon Comments at 12.

driving intent is to inform and enable consumers with information regardless of the type of service agreement they have with a provider, including agreements for bundles of services. Thus, in circumstances in which a cable operator or DBS provider promotes or bills for a bundled service that includes video programming as part of a bundle that will result in a charge to a consumer, compliance with the ''all-in'' rule requires clear, easy-to-understand, and accurate disclosure of the aggregate customer fees and charges specific to video programming,[80] and, if applicable, either the length of time that a promotional discount will be charged or the date on which a time period will end that will result in a price change for video programming. If a cable operator or DBS provider charges (or will charge) for a cost related to video programming in whole or in part (for example, charge for costs related to local broadcast programming), then disclosure of those costs must comply with the ''all-in'' rule. And if a discount is applied, it also must be presented in clear, easy-to-understand, and accurate terms, which includes any expiration date, if applicable, for example.[81] In that manner, consumers will be better informed about an element of the service bundle that may lead to an unexpected charge or fee. Providers are free to describe in their promotional materials the value of bundling, including the discounts associated with bundling various services.

23. *Specific Implementation Issues Raised in the Record, Billing Materials: Pricing Disclosures and Billing Material.* The ''all-in'' rule requires providers to state the aggregate monthly (or regularly occurring) price for video programming on billing material so that consumers know the charges they will incur during the term of service and when.[82] We find requiring an ''all-in'' price on billing material further enables consumers access to important information about the cost of video programming, including increases in prices during the term of service. DIRECTV contends that, as an alternative to the ''all-in'' rule, the Commission could require that bills be ''accurate'' and ''disclose key information regarding programming-related fees clearly and conspicuously and in close proximity to pricing.'' [83] We do not, however, accept that as an alternative to the ''all-in'' rule, as this proposal is a more subjective alternative that would be difficult to enforce and does not address issues identified in the record specific to charges related to video programming. Thus, subscriber billing material for video programming, standalone or otherwise, requires inclusion of the aggregate monthly amount the subscriber's video programming will ultimately cost including all video programming related fees.[84] If a price is introductory or limited in time, for example, then the ''all-in'' rule requires customer billing to include clear, easy-to-understand, and accurate disclosure of the date the promotional rate ends (by stating either the length of a promotional period or the date on which it will end), and the post-promotion ''all-in'' rate (*i.e.,* the roll-off rate) 60 and 30 days before the end of any promotional period (as is necessary when offering a varying rate in promotional material, discussed below).[85]

24. *Grandfathered Service Plans.* We are persuaded that the ''all-in'' rule should apply to billing materials for legacy or grandfathered service plans that cable operators and DBS providers no longer offer to subscribers and when promotional material is used to market legacy plans that are being renewed by customers. In the *NPRM,* the Commission sought comment on whether the proposal should apply to existing customers with legacy plans that are no longer available,[86] and industry commenters raise concern with how the ''all-in'' rule would apply to existing subscribers with legacy or grandfathered plans.[87] Verizon suggests we exempt legacy or grandfathered plans that are no longer available to new customers as the Commission did with the Broadband Nutrition Labels required of broadband internet service providers. According to DIRECTV, ''[a]t a minimum, the Commission should not seek to regulate bills for legacy offers not available to new subscribers,'' which would have a ''substantially diminished benefit for purposes of comparison shopping.'' [88] Consumer Reports disagrees, citing consumer benefits of pricing disclosures and suggests the ''task need not be more complicated than a simple case of addition'' of the ''all-in'' price.[89]

25. We are persuaded that consumers of legacy plans benefit as much as consumers of available plans and that the benefits of providing an ''all-in'' price outweigh burdens described by industry.[90] It is a complicated process, according to Verizon, for it to apply an ''all-in'' rule across a wide variety of pricing plans and content packages that have changed over time to adapt to market forces, and we appreciate the difficulties involved with changing various billing formats all at once.[91] We disagree, however, that inclusion of the ''all-in'' price on billing material for legacy plans will ''cause unnecessary confusion.'' [92] To the contrary, application of the ''all-in'' rule to the billing of legacy service plans, including potentially long-term or renewable agreements, will benefit consumers' knowledge of how much their video programming service costs. As for

[80] Because our intent is to inform consumers about the price they are paying specifically for video programming and enable them to comparison shop, we disagree with NCTA's contention that a provider should have the option of complying with the ''all-in'' rule by stating the full price of the bundle, inclusive of all video programming related fees. *See* NCTA Mar. 6 *Ex Parte* at 3.

[91] Verizon Comments at 8 (''In addition, regulation of legacy plans could provide an incentive for providers to eliminate them, which would lead to further consumer disruption.'').

[92] Verizon Reply Comments at 6 (''Requiring changes to these customers' legacy bills would cause unnecessary confusion, especially when they have been purchasing the same plans for many years and are therefore fully aware of the total costs of the services to which they subscribed.'').

promotional materials, grandfathered plans are not available to new consumers by definition, and therefore we expect that cable operators and DBS providers will not be marketing the services in a way that would trigger the ''all-in'' rule. But if the operator or provider issues promotional material used to inform or market a legacy plan to existing customers that are subscribed to such plans, then that material must include the ''all-in'' price.[93] By applying the ''all-in'' rule in this manner, we avoid unnecessary confusion to customers, while enabling subscriber access to information that is key to their understanding of the services they are purchasing under the grandfathered plans and ability to comparison shop.[94]

26. *Promotional Materials. Time-Limited Promotional Discounts.* The ''all-in'' rule applies to promotional materials that state a price, including in circumstances involving a promotional discount when the amount billed to the customer by the cable operator or DBS provider may change (for example, at the end of a promotional period). And if a discount is applied, it also must be presented in clear, easy-to-understand, and accurate terms, which includes any expiration date, if applicable, for example. According to NCTA, consumers ''do not jump immediately from advertising to bills,'' rather they typically go through the ''sales process during which providers disclose the total price that the consumer would pay, inclusive of the relevant fees.'' [95] The record, however, indicates that the onboarding sales process has not proven to be entirely effective.[96] The record includes evidence indicating persistent confusion over the price for video programming, particularly with how the price for video programming is described in promotional material and when the price may vary over the term of the service agreement.

27. We disagree that applying the ''all-in'' rule to promotional rates will undermine transparency and potentially discourage the use of promotions altogether.[97] We find that knowledge of how a time-limited discounted price will increase to the ultimate price the consumer will be charged for video programming service gives consumers a reliable idea of what they will pay each month that incorporates pricing variables, and does so in a way that is uniform among providers and enables comparison shopping. Compliance with the ''all-in'' rule therefore includes disclosing the base (or standalone) rate with a subtracted amount (the amount after application of any promotional discount) in a way that enables consumers to know the amount they will be required to pay each month (each billing cycle) during the term of the service agreement.[98] If, for example, a promotion or other circumstance includes an introductory offer of free or discounted channels and the ''all-in'' price will change at the conclusion of the promotional period, then the cable operator or DBS provider must state in promotional materials the current cost of video programming service that the consumer will pay initially and state the ''all-in'' price that applies following the introductory period or promotion.[99] To the extent that a provider subject to this requirement has multiple or graduated roll-off periods, the operator must, at a minimum, provide the initial promotional rate and the final rate after all promotional discounts have expired. Consumers must simply be enabled to know what amount they can expect to find as a charge on their bill, particularly when the amount is scheduled to change due to promotions or other circumstances.

28. *Regional And National Promotional Material.* We conclude that the ''all-in'' rule applies to regional and national promotions of cable operators and DBS providers. Service providers raise concerns with how an ''all-in'' pricing requirement would affect regional and national promotional efforts.[100] In the *NPRM,* the Commission asked how it should account for national, regional, or local advertisements, where the actual price may not be the same for all consumers receiving the promotional materials due to market-specific price variation.[101] DIRECTV argues that the ''all-in price proposal *cannot* account for national advertising.'' [102] DIRECTV predominantly advertises nationally, but ''charges different [regional sports] fees in different markets based on the differing fees it pays for access to those [regional sports networks].'' [103] According to DIRECTV, a single, ''all-in'' price afforded to everybody could ''provide inaccurate information for most subscribers and potential subscribers no matter what price DIRECTV may choose to provide.'' [104] Likewise, NCTA states that there is a potential that the ''all-in'' requirement ''would not give consumers an accurate estimate of the all-in price for video programming services available in their areas given the variation in these fees.'' [105] DIRECTV reports it may have to calculate a price using the most expensive regional sports programming fees, which ''could artificially encourage customers and potential customers in markets without [regional sports networks] or with lower-priced [regional sports networks] to take service from one of DIRECTV's competitors, particularly its unregulated online competitors.'' [106]

29. We find these arguments merely support the need for Commission action. A number of services and commodities are promoted and sold at nationwide or regional prices that include varying local costs, including services of cable operators and DBS providers.[107] These arguments support our conclusion that the manner in which promotional and billing information is being communicated with consumers currently is susceptible to costly misunderstandings. The separation of programming fees (such as the cost of regional sports programming fees) from the bottom-line, ''all-in'' price has been described as a leading contributor to customer confusion we seek to address. Costs may vary depending upon franchise area, as the NCTA, DIRECTV, and ACA explain, but the exclusion of any and all amounts charged to the consumer for video programming leads to significant issues,

[93] As we discuss below, we apply the ''all-in'' rule to promotional material to further our principal goal of allowing consumers to comparison shop among services, but new customers comparison shopping do not benefit from an ''all-in'' rule price for service that is not available to them. *See generally Broadband Transparency Order,* 37 FCC Rcd at 13718, para. 101 (''And such labels may even confuse consumers if those plans are not actually available to them.'').

as described in the record by individuals, organizations, and state and local governments. We disagree, therefore, that programming fees should be excluded from the ''all-in'' rule for regional or national promotions.[108]

30. To address the fact that certain costs vary by region, our rule requires any advertised price to include all video programming fees that apply to all consumers in the market that the advertisement is targeted to reach. Providers may opt to provide a ''starting at'' price, or a range of prices that account for the fluctuation in video programming fees in the locations that the advertisement is intended to reach. In this case, when an aggregate ''all-in'' price is not stated due to pricing fluctuation that depends on service location, the provider must state where and how consumers may obtain their subscriber-specific ''all-in'' price (for example, online at the provider's website or by contacting a customer service or sales representative). At the time the potential consumer provides location information, online or otherwise, then the provider must state the ''all-in'' price. Providers also may state time-limited introductory prices that are available to all potential customers the advertisement is targeted to reach,[109] if the advertised price includes the video programming fees that apply to all consumers in the targeted market and the consumer has the ability to obtain an ''all-in'' price before ordering video programming, as discussed above.[110] This allows flexibility for service providers to highlight information in promotional and billing material while providing transparency to promotional material that reduces consumer confusion and enables comparison shopping with a budgets in mind. Our goal is to enable consumers to know the amount they will be billed for the service offered.

31. *Legal Authority.* We conclude that the TVPA, section 632 of the Act (covering cable operators), and section 335 of the Act (covering DBS providers), in addition to ancillary authority, provide ample authority for the ''all-in'' rule.[111] We also conclude that the ''all-in'' rule is consistent with the First Amendment. In the *NPRM,* the Commission asked ''whether we should consider expanding the requirements of this proceeding to other types of [MVPDs] and on our authority to do so.'' [112] We decline to extend the ''all-in'' rule to other entities at this time given the lack of record evidence concerning the billing and advertising practices of non-cable and non-DBS video services.[113]

32. *Section 642 of the Act,* 47 U.S.C. 562 *(Television Viewer Protection Act of 2019 (TVPA)).* The Commission derives authority for the ''all-in'' rule from the TVPA requirements as it applies to electronic billing. Section 642 of the Act, as added by the TVPA, requires MVPDs to bill subscribers transparently when the MVPD sends an electronic bill, and specifically requires MVPDs to include in their bills ''an itemized statement that breaks down the total amount charged for or relating to the provision of the covered service by the amount charged for the provision of the service itself and the amount of all related taxes, administrative fees, equipment fees, or other charges.'' [114] As mandated by this statutory directive, the ''all-in'' rule requires cable operators and DBS providers to provide consumers with the total charge for all video programming and will ensure that consumers are provided complete and accurate information about the ''amount charged for the provision of the service itself,'' as Congress intended.[115] Such costs make up the charges for the ''provision of the service itself'' because broadcast channels, regional sports programming, and other programming track the statutory definition of ''video programming'' (that is, all are programming provided by, or generally considered comparable to programming provided by, a television broadcast station),[116] and video programming is, by definition, the service that an MVPD makes available for purchase.[117] Listing such costs as below-the-line fees potentially results in confusion for consumers about the ''amount charged for the provision of the service itself,'' because the word ''itself'' suggests a single charge for the total service rather than one charge for one portion of the service and then a separate charge for other programming provided. This contravenes Congress's core purpose for enacting the legislation: to curb MVPDs' practice of charging ''unexpected and confusing fees,'' but the record, including recent press reports, suggest that this practice continues.[118]

33. We observe that the TVPA provides for the disclosure of a second group of costs on electronic bills—*i.e.,* ''the amount of all related taxes, administrative fees, equipment fees, or other charges.'' [119] Charges and fees relating to video programming (including broadcast channels, regional sports programming, and other programming) do not fall within this category because video programming, by definition, is the service that an MVPD makes available for purchase—in other words, the ''service itself.'' [120] Thus, the most reasonable reading of the statute is that the terms ''taxes,'' ''administrative fees,'' ''equipment fees,'' or ''other charges'' do not include separate charges for various types of video programming (*e.g.,* amounts paid for retransmission consent rights or rights to transmit regional sports programming or any other programming).[121] We

[115] 47 U.S.C. 562(b)(1).

[116] *Id.* Section 522(20) (''the term 'video programming' means programming provided by, or generally considered comparable to programming provided by, a television broadcast station'').

[117] *Id.* Section 522(13) (''the term 'multichannel video programming distributor' means a person such as, but not limited to, a cable operator, a multichannel multipoint distribution service, a direct broadcast satellite service, or a television receive-only satellite program distributor, who makes available for purchase, by subscribers or customers, multiple channels of video programming'').

[118] Congress expressed specific concern that consumers face ''unexpected and confusing fees when purchasing video programming,'' including ''fees for broadcast TV,'' and noted that the practice of charging these fees began in the late 2000s. H.R. Rep 116–329, at 6 (2019). We reject the claim that the ''only authority that the TVPA gave the Commission'' was to grant MVPDs an additional six months to comply with the statute. State Cable Ass'ns Mar. 5 *Ex Parte* at 4 n.19. The courts have affirmed the Commission's authority to promulgate rules implementing a section of the Communications Act without an explicit delegation to the Commission to interpret that particular statutory section. *See Alliance for Community Media* v. *FCC,* 529 F.3d 763, 773 (6th Cir. 2008) (affirming the Commission's jurisdiction to promulgate rules implementing section 621(a)(1) of the Communications Act even in the absence of an explicit delegation of rulemaking power to the Commission in that statutory section).

[119] 47 U.S.C. 562(b)(1).

[120] *Id.* Section 522(13).

[121] The ''all-in'' rule is explicit that cable operators and DBS providers may list certain discrete costs. 47 U.S.C. 542(c) (Cable operators may identify, ''as a separate line item on each regular bill of each subscriber, . . . [t]he amount of the total bill assessed to satisfy any requirements

accordingly reject NCTA's argument that programming fees (such as retransmission consent fees) fall within this ''second group'' of costs on electronic bills.[122]

34. *Section 632 of the Act,* 47 U.S.C. 552 *(Cable Operators).* We conclude that section 632 of the Act provides us with authority to adopt the ''all-in'' rule as it will apply to cable operators.[123] Section 632(b) of the Act provides the Commission authority to establish customer service standards regarding billing practices and other communications with subscribers, and the Commission has relied on that authority for decades to regulate in this area.[124] Section 632(b)(3) also supports the Commission adopting customer service requirements regarding, among other enumerated topics, ''communications between the cable operator and the subscriber (including standards governing bills and refunds).'' [125] The legislative history of section 632 provides that ''[p]roblems with customer service have been at the heart of complaints about cable television,'' and indicates Congress' belief that ''strong mandatory requirements are necessary.'' [126] Congress expected ''the FCC, in establishing customer service standards to provide standards addressing . . . billing and collection practices; disclosure of all available service tiers, [and] prices (for those tiers and changes in service) . . . .'' [127] Our ''all-in'' rule addresses cable operators' billing practices, *i.e.,* requiring clear, easy-to-understand, and accurate price information in customer bills for video programming service, and, therefore, is a customer service matter within the meaning of section 632(b)(3). In addition, the statute identifies the specific areas for the Commission to act as the ''minimum'' standards.[128] Thus, by its terms, section 632(b) gives the Commissions broad authority to adopt customer service standards that go beyond those enumerated in the statute.[129] We find that the ''all-in'' rule is also authorized under our general authority in section 632(b) to establish ''customer service'' standards. The term ''customer service'' is not defined in the statute. In 1984, when Congress first enacted section 632 authorizing franchising authorities to establish customer service requirements, the legislative history defined the term ''customer service'' to mean ''in general'' ''the direct business relation between a cable operator and a subscriber,'' and goes on to explain that ''customer service requirements include . . . the provision to customers (*or potential customers*) of information on billing or services.'' [130] In 1992, Congress retained this term when amending section 632 to require the FCC to adopt ''customer service'' standards.[131] The ''all-in'' rule imposes requirements on billing information provided to potential customers in promotional materials, which, as reflected in the legislative history, is a customer service matter.[132] Accordingly, billing communications in customer bills as well as promotional materials and advertising aimed at potential customers are precisely the type of customer service concerns that Congress meant to address when it enacted section 632.[133] Thus, the ''all-in'' rule covering bills, advertisements and promotional materials is within the statute's grant of authority.

35. We thus reject commenters' argument that covering ''non-subscribers'' or ''potential subscribers'' under the ''all-in'' rule renders it a ''consumer protection'' law under section 632(d) and thus falls ''outside'' the Commission's authority, as evidenced by section 632's title, which distinguishes between customer service and consumer protection.[134] As mentioned above, the ''all-in'' rule, which covers both current and potential subscribers, is a customer service requirement that is authorized under section 632(b). Moreover, section 632(d) does not place any limitation on the Commission's authority; rather it preserves States' and local governments' ability to enact and enforce consumer protection laws and customer service requirements that are not specifically preempted by the Cable Act.[135] We likewise reject commenters' argument that the text of the statute—which ''uses the terms 'customer' and 'subscriber', and refers to 'installations, outages, and service calls', and discusses 'bills and refunds' ''—indicates that section 632 only addresses ''interactions between the cable operators and current and former subscribers'' but ''not potential subscribers.'' [136] Those statutory terms are found in subsection (b)'s list of specific areas for the Commission to address—areas the statute makes clear are ''minimum'' requirements.[137] Commenters' statutory-narrowing argument essentially reads out of the provision the Commission's general grant of authority in subsection (b) to ''establish standards by which cable operators may fulfill their customer service requirements.'' [138] Moreover, we are not persuaded by commenters' argument that the use of the generic

imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.'').

[137] 47 U.S.C. 552(b)(1)–(3).

[138] *Id.* section 552(b).

term ''subscriber'' means ''actual cable subscribers'' and excludes ''potential subscribers'' from the authority granted under subsection (b).[139] We find that the better reading of the statute is that the term ''subscriber'' is not limited to current subscribers because ''the term [subscriber] is sufficiently ambiguous to include those considering a subscription,'' as well as current subscribers considering renewal and reviewing promotional material.[140] Indeed, those commenters arguing for a narrow construction concede that the term ''subscriber'' used in subsection (b) can be read to cover both ''current and *former* subscribers.'' [141] And their argument ignores the legislative history, which, as discussed above, indicates Congressional intent to cover under subsection (b) billing information provided to both current and *potential* customers.[142] This language from the legislative history—including the expectation that the Commission would adopt standards regarding ''disclosure of all available service tiers, [and] prices''—suggests that Congress granted the Commission authority over how cable operators disclose their prices to consumers, including prices for services to which consumers may have not yet subscribed.[143]

36. *Section 4(i) of the Act,* 47 U.S.C. 154(i). Applying the ''all-in'' rule's to the promotional materials of cable operators for video programming is also a proper exercise of our authority under section 4(i) of the Act.[144] The Commission is specifically delegated authority under the Communications Act to adopt standards governing communications between the cable operator and subscriber regarding bills.[145] Extending the ''all-in'' requirement to promotional material when a price for video programming is offered is necessary to achieve customer service standards in light of issues raised in the record. Otherwise, consumers might be misled by confusing or misleading pricing information from promotional material and enter into long-term contracts with higher charges than understood would be due. This would undermine the very purpose of the ''all-in'' rule as applied to bills, which aims to ensure consumers receive clear, easy-to-understand, and accurate pricing information.

37. *Section 335 of the Act,* 47 U.S.C. 335 *(Direct Broadcast Service Providers).* Section 335 of the Act provides the Commission with authority to adopt the ''all-in'' rule as it will apply to direct broadcast satellite (DBS) providers.[146] Our action is supported, specifically, by section 335(a), which provides the Commission with authority to impose ''public interest or other requirements for providing video programming'' on DBS providers.[147] We conclude that the ''all-in'' rule is a public interest requirement that falls squarely within our authority under section 335(a).[148]

38. The Commission has previously confirmed, and we agree, that the public interest includes consumer access to clear, easy-to-understand, and accurate information about charges for service, which benefits a well-functioning marketplace.[149] The record reveals how promotional and billing materials are critical to a consumer's understanding of fees and charges relating to video programming, and that misunderstandings from promotional material lead to subscribers going over budget and billing disputes, often while locked into long-term agreements.[150] In addition to billing, we focus on the demonstrated start of the customer's understanding of the pricing of video services, and adopt the ''all-in'' rule to ensure consumers have accurate and understandable information about the monthly cost in order to choose an MVPD service that best suits his or her needs.[151]

39. DIRECTV's description of the limits of the Commission's jurisdiction is inconsistent with the broad authority granted by Congress in section 335(a), which grants authority to impose on DBS providers ''public interest or other requirements for providing video programming.'' [152] We do not read the reference in section 335(a) to adopt requirements for ''providing video programming'' as limiting our authority to cover only public service carriage or programming requirements on DBS providers, as DIRECTV contends,[153] and we disagree with DIRECTV that our interpretation ''is inconsistent with the text, structure and legislative history of the provision.'' [154] Section 335(a) directs the Commission to impose on providers of DBS service ''public interest or other requirements for providing video programming.'' On its face, this language is broad in scope. And the regulation we are adopting here is precisely the type of regulation covered under the statute, *i.e.,* our rule serves the public interest by requiring DBS operators in ''providing video programming'' to ensure consumers have clear, easy-to-understand, and accurate information about the charges for service. DIRECTV, on the other hand, argues that what Congress really intended was to grant the Commission limited authority over public interest *carriage* requirements, such as carriage of political advertising, educational programming, and other public service uses.[155] However, there is no ''carriage'' limitation in the statutory text. Although section 335(a) specifies certain topics that must be addressed by the Commission (including political advertising requirements in sections 312(a)(7) and 315 of the Act), the list is not exhaustive. Because section 335(a) states that the regulations must address these topics ''at a minimum,'' [156] the Commission has authority to adopt public interest requirements beyond those enumerated in the statute. DIRECTV also argues that reading section 335(a) to authorize the ''all-in'' rule would render ''redundant'' the ''prices, terms and conditions'' provision in section 335(b)(3) covering carriage obligations for noncommercial, educational programming.[157] We reject this argument. Our rule does not impose requirements on ''reasonable prices, terms, and conditions,'' as directed under section 335(b)(3). Rather our rule is a public interest requirement directed at ensuring DBS providers are *transparent* about the price *they* have chosen to charge for their service. Thus, there is no redundancy.

40. To be sure, the legislative history suggests that when enacting section

[157] DIRECTV Comments at 4–5.

335(a), Congress was focused on potential requirements to be placed on DBS providers with respect to public service programming.[158] However, ''rarely have [courts] relied on legislative history to constrict the otherwise broad application of a statute indicated by its text.'' [159] Contrary to DIRECTV's assertion,[160] the legislative history cannot overcome the clearest and most common sense reading of the language of the statute, which does not limit our authority only to national educational programming.[161] The ''all-in'' rule is a ''public interest or other requirement[]'' for providing video programming that we find falls within our jurisdiction under section 335(a).[162] The ''all-in'' rule is not an imposition of ''sweeping new authority over DBS,'' [163] nor is the Commission ''assert[ing] that [section 335(a) of the Act] confers power to regulate virtually all other terms and conditions of service as well,'' including general regulation of terms, conditions, and pricing for DBS service.[164] Our prior invocation of section 335(b) to reserve channel capacity for noncommercial programming of an educational or informational nature does not preclude targeting non-carriage related problems when they arise under section 335(a), as the ''all-in'' rule does with a specific public interest problem raised in the record.[165] Moreover, the requirement we adopt for DBS providers here as necessary to protect consumers from misleading pricing information, is a proper exercise of the Commission's other authority in Title III, which courts have found endow the Commission with ''expansive powers'' and a ''comprehensive mandate to 'encourage the larger and more effective use of radio in the public interest.' '' [166]

41. DIRECTV analogizes the authority granted to the Commission in section 335 with statutes conferring administration authority to the Department of Health and Human Services (Department) that the D.C. Circuit found did not support its regulation of advertisements of certain pharmaceuticals.[167] The circumstances of that decision are distinguishable. In *Merck & Co.,* the Department argued that its regulation was '' 'necessary' to [a pharmaceutical] programs' 'administration,' '' and the court found that ''the Secretary must demonstrate an actual and discernible nexus between the rule and the conduct or management of Medicare and Medicaid programs.'' [168] The nexus was too attenuated, the court concluded, ''stray[ing] far off the path of administration for four reasons.'' [169] The authority granted under section 335, on the other hand, does not provide ''general administrative authority'' to the Commission.[170] Under section 335, a rule must further a ''public interest or other requirement[ ] for providing video programming,'' which the ''all-in'' rule does: it protects the public interest by requiring truth in billing and advertisements for video programming.[171]

42. *Section 4(i) of the Act,* 47 U.S.C. 154(i). In addition, we find authority to extend the ''all-in'' rule to DBS providers under section 4(i) of the Act.[172] The Commission is specifically delegated authority under the Communications Act to adopt standards governing communications between the cable operator and subscriber.[173] Extending the ''all-in'' requirement imposed on cable operators to DBS is necessary for our exercise of this specifically delegated power. Otherwise, consumers might opt for DBS service based on confusing or misleading pricing information over service offered by cable operators that are required to be transparent about the price they are charging. This would undermine the very purpose of the ''all-in'' rule that we are imposing on cable operators. Thus, by extending our rule to DBS providers, we will ensure uniformity of regulation between and among cable operators (regulated under Title VI and by various state consumer protection laws and local franchising provisions) and DBS providers (under Title III).[174]

[158] *See id.* at 5 (citing H.R. Rep. No. 102–862, 100 (1992) (Conf. Rep.), *reprinted in* 1992 U.S.C.C.A.N. 1231, 1282).

43. *Other Federal Statutes.* Contrary to arguments raised by industry commenters, the TVPA does not preclude the ''all-in'' rule.[175] We recognize that Congress did not include ''language in the original version of the TVPA that would have required all-in pricing in advertisements and other marketing.'' [176] The lack of such a requirement in the TVPA, however, does not preclude the Commission from exercising its powers outside the TVPA (*i.e.,* under Titles III, VI, and section 4(i)) over promotional materials including advertising.[177] With the TVPA, Congress addressed a specific customer service issue, but there is no indication that Congress intended to restrict other authority of the Commission to address these types of issues.[178] First, Congress enacted the TVPA in 2019 to address a specific issue relating to basic protections to consumers when purchasing MVPD services.[179] There is nothing in the TVPA to demonstrate that Congress intended to repeal, supplant or otherwise disturb the Commission's existing statutory authority over cable customer service provided under section 632 or public interest requirements for DBS providers under section 335. Legislative history also makes clear that the TVPA was ''provid[ing] basic protections'' targeted at a particular concern of Congress, but nowhere does it suggest Congress's intent to repeal, supplant or otherwise disturb the Commission's other existing authority.[180] Second, the TVPA's focus is on electronic billing, but we do not rely on the TVPA to apply the ''all-in'' rule to promotional materials. Rather, we rely on other authority (sections 632 (cable operators) of the Act, 335 (DBS providers), and 4(i) (ancillary jurisdiction) [181]) to implement customer service obligations that are not foreclosed by the TVPA.

44. *The First Amendment.* We affirm the Commission's tentative conclusion in the *NPRM* that the proposed ''all-in'' rule is consistent with the First Amendment.[182] When adopting truth-in-billing, advertising, and labeling rules in similar contexts, the Commission has found that ''[c]ommercial speech that is misleading is not protected speech and may be prohibited,'' and ''commercial speech that is only potentially misleading may be restricted if the restrictions directly advance a substantial governmental interest and are no more extensive than necessary to serve that interest.'' [183] The same is true here. The speech implicated here is information in bills and promotional materials about the cost of video programming service offered by cable operators and DBS providers, which the record shows consumers currently find misleading. Thus, our proposed rule simply prevents misleading commercial speech, which is afforded no protection under the First Amendment.[184]

45. In the alternative, even if our ''all-in'' rule regulates only potentially misleading speech, regulations involving commercial speech [185] that require a disclosure of factual information (such as the disclosure of the total cost for video programming service that the ''all-in'' rule would require) are entitled to more lenient review from courts than regulations that limit speech.[186] A speaker's commercial speech rights are adequately protected as long as disclosure requirements are reasonably related to the government's interest in preventing deception of consumers.[187] We conclude that we have met this standard. As an initial matter, for promotional materials, the rule applies only when the cable or DBS provider chooses to state information about price. The rule we adopt does not mandate pricing information if the cable or DBS provider decides not to state information about price. In those cases where the cable or DBS operator chooses to state information about price, the ''all-in'' rule requires only that the operator disclose accurate information about the total cost for video programming service, and the disclosure requirement is reasonably related to the government's interest in preventing an oftentimes costly deception of consumers.[188] The rule does not prevent cable operators and DBS providers from conveying any additional information. A cable operator's or DBS provider's constitutionally protected interest in not providing the cost a subscriber will be

[187] *Zauderer,* 471 U.S. at 651.

[188] *See, e.g.,* Truth in Advertising Comments at 4.

charged for video programming service is ''minimal.'' [189]

46. Further, as the Commission discussed in the *NPRM,* even if our rule is subject to the more stringent test of commercial speech (*i.e.,* intermediate scrutiny), we find that the rule passes that three-prong test that the Supreme Court established in *Central Hudson:* first, the government must assert a substantial interest in support of its regulation; second, the government must demonstrate that the restriction on commercial speech directly and materially advances that interest; and third, the regulation must be ''narrowly drawn.'' [190] We have a longstanding substantial interest in ensuring that consumers receive sufficient information to understand the full cost of video programming to which they subscribe, and make informed purchasing decisions as they consider competing cable and DBS service options. Our ''all-in'' rule advances this interest by requiring cable operators and DBS providers to identify the cost for video programming as a clear, easy-to-understand and accurate line-item on consumer bills and promotional materials, allowing consumers to identify the full cost of video programming. Finally, the ''all-in'' rule is narrowly drawn to focus on misleading (and potentially misleading) information, without effect on other speech.

47. Thus, as we explain above and as stated in the *NPRM,* we believe the ''all-in'' rule we adopt is consistent with the requirements described in *Zauderer,* as well as *Central Hudson* (assuming arguendo that the *Central Hudson* standard is applicable).[191] NCTA disagrees, arguing that the ''all-in'' rule fails under the standard of *Zauderer* and the test for commercial speech articulated in *Central Hudson.*[192] According to NCTA, ''[h]ere, a mandate to provide an all-in price in advertising and promotional materials would be unduly burdensome, particularly for national companies that offer a national base price but have additional charges that vary by state or locality.'' [193]

48. We disagree that requiring clear, easy-to-understand, and accurate information regarding the price of video programming in promotional material and billing imposes an unreasonable burden or comparative disadvantage.[194] We mitigate potential burdens on cable operators and DBS providers complying with the ''all-in'' rule by applying it responsively to issues identified in the record (as discussed above). For example, if promotional material is intended for a variety of locations, or is nationwide, our ''all-in'' price requirement will be satisfied if the promotion includes a range of prices that include the highest ''all-in'' price a consumer could be charged, or includes more than a single ''all-in'' price with ability for the consumer to determine his or her ''all-in'' price.[195] We also were persuaded to add flexibility for marketing of grandfathered serviced plans.

49. NCTA argues that, with regard to the *Central Hudson* inquiry required by courts, ''the Commission's proposed rule is woefully underinclusive to serve its supposed substantial interest.'' [196] NCTA claims that regulating only cable and DBS providers would hinder consumer choice ''given that other MVPDs would have greater flexibility in how they present pricing information.'' [197] We disagree that our effort to restrict misleading promotional and billing material contravenes the test of *Central Hudson,* assuming, *arguendo, Central Hudson* is applicable. Under authority granted to the Commission to prevent the types of consumer harm identified in the record, the ''all-in'' rule simply prevents misleading commercial messages that do not accurately inform current and potential subscribers about the price of video programming service, which is afforded no protection under the First Amendment.[198]

50. *Existing Consumer Protections.* We find the ''all-in'' rule complements existing state, local, and Federal laws and regulations and voluntary consumer protections. The promotional and billing information of competing video programming service providers can be subject to different laws and regulations, depending upon how and where the service is promoted and provided. We share bifurcated authority with state and local governments.[199] For most services provided by cable operators and DBS providers, customer service issues are generally addressed by Federal and state governments with shared authority under the Act. The Commission sets baseline customer service requirements at the Federal level,[200] and state and local governments tailor more specific customer service regulations based on

[198] *NPRM,* 2023 WL 4105426 at *8, para. 18 (citing *Central Hudson,* 447 U.S. at 563 (holding ''there can be no constitutional objection to the suppression of commercial messages that do not accurately inform the public about lawful activity'' and ''[t]he government may ban forms of communication more likely to deceive the public than to inform it'') (citations omitted)). One commenter made a passing reference to the possibility of ''heightened First Amendment scrutiny'' applying because the rule applies only to ''certain participants in the video marketplace'' thus creating a ''speaker-based distinction.'' *See* NCTA Comments at 10. We reject this argument. The all-in rule does not single out cable operators or DBS providers for different treatment based on content or their viewpoint, such that it might be argued we are imposing a content-based regulation of speech. Nor has any commenter shown that to be the case. Rather, the all-in rule applies to cable operators and DBS operators because the record reveals that these operators, which account for the overwhelming majority of MVPD subscribers, have engaged in misleading pricing information leading to consumer confusion. Most available data does not track other providers, including OVS and MMDS. Based on S&P and other available data, we estimate that cable and DBS combined constitute between 96 and 99 percent of all MVPD subscribership. *See, e.g.,* S&P Global, *U.S. Multichannel Industry Benchmarks* (providing data on subscribers to cable, DBS, and total MVPD subscribers); S&P Global, *Q4'21 leading US video provider rankings* (Apr. 8, 2022); Brian Bacon, S&P Global, *Consumer Insights: US SVOD user trends and demographics, Q1'22* (Apr. 7, 2022); *2022 Communications Marketplace Report,* 37 FCC Rcd 15552, paras. 218 (discussing Multichannel Video Programming Distributors (MVDS) (citing S&P Global, *U.S. Multichannel Industry Benchmarks*), 328 (discussing AVOD (citing Seth Shafer, S&P Global, *Economics of Internet: State of US online video: AVOD 2021* (Nov. 30, 2021)). To the extent information is brought to the Commission's attention about other entities engaging in misleading pricing practices, we will not hesitate to consider appropriate action.

[199] 47 U.S.C. 552 (Consumer protection and customer service).

[200] 47 U.S.C. 542. *See also Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as amended by the Cable Television Consumer Protection and Competition Act of 1992,* MB Docket No. 05–311, Second Report and Order, 22 FCC Rcd 19633, 19646, para. 27 (2007) (72 FR 65670, Nov. 23, 2007) (''The statute's explicit language [in section 632] makes clear that Commission standards are a floor for customer service requirements, rather than a ceiling, and thus do not preclude [Local Franchise Authorities (LFAs)] from adopting stricter customer service requirements.''). *See also* Local Government Comments at 8 (discussing ''authority to adopt customer service requirements as part of their cable franchise authority, 47 U.S.C. 552(a), and . . . their police power to regulate consumer protection, 47 U.S.C. 552(d)''); NCTA Comments at 3–4 (citing 47 CFR 76.1602(b), 76.1603(b), 76.1619, 47 U.S.C. 552(d)(2)).

their communities' needs.[201] Aside from legal requirements, we recognize that video programming service providers also ''have incentives to provide promotional and billing material clearly to consumers,'' which is especially true for subscribers with plans that allow them to cancel at any time.[202]

51. *State and Local Requirements.* We find that the ''all-in'' rule complements existing consumer protection efforts by targeting issues raised in the comments about consumer confusion due to misleading pricing, and in a way that state and local governments support. In support of the ''all-in'' rule, the Local Franchise Authorities explain that many cable service bills do not currently meet what they consider to be basic standards of presenting clear, easy-to-understand, and accurate charges, despite the TVPA, existing Commission rules, and other formal and informal consumer protections. The Local Government Commenters explain that state and local governments ''that adopt consumer protection rules typically adopt, at a minimum, requirements mandating that cable operators provide advance notice, typically 30 days, to consumers for any price change, or publicly available rate card or schedule outlining current prices.'' [203] In Connecticut, for example, the line items that appear to represent retransmission consent fees, the Connecticut Office of State Broadband explains, are often confusing to consumers, and could be difficult to predict or substantiate.[204] The ''all-in'' rule addresses these issues by complementing state and local requirements to inform consumers of which costs relate specifically to the provision of video programming service.

52. *The Television Viewer Protection Act of 2019,* 47 U.S.C. 562 *(TVPA) and Other Federal Requirements.* Contrary to some commenters' arguments, we find that the Television Viewer Protection Act of 2019 (TVPA) does not render the ''all-in'' rule unnecessary; rather, we find that the rule complements the TVPA's consumer protections. Some industry commenters argue that an ''all-in'' rule is unnecessary because, in addition to other laws and regulations,[205] the TVPA ''already requires [MVPDs] to disclose the all-in price for multichannel video programming services, including non-governmental fees and charges, both at the point of sale and in writing within 24-hours of entering a contract for service, and to provide customers with an opportunity to cancel without penalty.'' [206] ACA asserts the TVPA is ''working effectively.'' [207] Industry also asserts that the TVPA provides flexibility that allows individual cable operators to implement how much video programming costs ''in a way that best suits their customers and existing sales and billing systems.'' [208]

53. According to the industry commenters, consumers greatly benefit from the TVPA and service providers regularly meet and exceed its requirements.[209] Members of NCTA and ACA, for example, ''disclose in promotional materials that the price for video service may include additional fees, typically dependent on what customers purchase and where they live,'' [210] and service providers have ''every incentive to provide prospective and existing customers with the best experience possible, including by communicating with them clearly and effectively.'' [211] However, the record also reveals common and widespread frustration from consumers, which reflects that there continue to be significant issues in the marketplace regarding the provision of information about fees and charges associated with video programming.

54. We find the ''all-in'' rule complements how cable operators and DBS providers comply with the TVPA.[212] The TVPA requires certain consumer protection disclosures be made at the point of sale,[213] as NCTA emphasizes, but the record does not support the conclusion ''that consumers are fully informed.'' [214] We, therefore, disagree that the issues raised by commenters have ''already been explicitly addressed and resolved by Congress'' and that our action implementing the ''all-in'' rule is ''arbitrary and capricious.'' [215] Congress, with the TVPA, did not limit the Commission's ability to address consumer issues that are within the scope of the Act, but beyond the requirements of the TVPA.

55. Notably, the TVPA does not address promotional materials that include a price for video programming, as the ''all-in'' rule does, which we find will address many issues described in the record.[216] The City of Seattle reports, for example, that in their local experience, ''even with the congressional oversight and subsequent

[201] For example, local franchises often require refunds, prompt credits for service outages, local consumer offices, customer service standards for cable operator personnel, billing practices disclosures, call center hours, response times to repair calls, and procedures for unresolved complaints, and collect data regarding cable operator responses to customers.'' Local Government Comments at 9.

[206] NCTA Comments at 4 (citing 47 U.S.C. 562(a)); ACA Connects Comments at 8 (describing ''robust, existing mechanisms, including sales and billing disclosure requirements enacted as part of the [TVPA] that ensure that consumers signing up for video service understand the rates they will pay'').

[207] *See* ACA Connects Comments at 11 (''With the TVPA and other safeguards in place, there is no indication of any gap in transparency that the proposed 'all-in' price requirement is necessary to fill.'').

[208] NCTA Comments at 1.

[209] *See* NCTA Reply Comments at 3 (charactering claims that cable operators are not complying ''with the law or are otherwise hiding fees from consumers are flatly incorrect and rely either on data from before the enactment of the TVPA or misrepresentations of current industry practices'').

[210] NCTA Comments at 2; ACA Connects Comments at 8 (describing the success with implementing the ''robust, existing mechanisms, including sales and billing disclosure requirements enacted as part of the [TVPA] that ensure that consumers signing up for video service understand the rates they will pay'').

[211] NCTA Comments at 3; Verizon Reply Comments at 8 (describing how many providers, such as Verizon, '''have adopted the practice of breaking out retransmission consent fees and other video programming fees on subscriber bills—not to mislead their customers, but to help them understand the root cause of soaring prices for cable service' '' (quoting ACA Connects Comments at 17)).

[212] As Consumer Reports explains, ''Sections 642(a)(2) and 642(b) [(the TVPA)] both refer to situations where a consumer has signed a contract with a provider, thus becoming a 'subscriber,' '' and it would be ''odd to argue that providers must show the all-in price when the subscriber has the right to cancel within the 24 hour period under Section 642(a), or when a provider provides an electronic bill under Section 642(b), or when a subscriber renews their subscription, but that the provider may lure the consumer into the store or onto its website with a misleading price.'' Consumer Reports and Public Knowledge Comments at 7.

[213] *See* 47 U.S.C. 562.

[214] *See* NCTA Comments at 5; Local Government Reply Comments at 16 (''A disclosure at the time of purchase will be less effective pursuant to the TVPA if the consumer has already been confused by misleading and inaccurate advertising that led up to a consumer's decision to subscribe.'').

[215] NCTA Comments at 5; NCTA Reply Comments 7–8 (arguing that applying the ''all-in'' rule ''just to cable and DBS providers but not to similarly situated competitors in the video marketplace would be all the more legally suspect'').

[216] Consumer Reports and Public Knowledge Reply Comments at 3 (''[T]he TVPA does nothing with respect to the price MVPDs can advertise, preserving the practice of promoting a low teaser rate, with the increasingly expensive raft of fees hidden in the fine print to be revealed later . . . and it does not clear up any confusion about what these fees are and who is charging them.'').

2019, the practice of separating obligatory programming costs from the service price, and listing them separately as fees continues making it difficult for consumers to find clear service and pricing information and to compare options within a provider or among other providers,'' especially where customers ''expect to use websites to find current service and price options.'' [217] The ''all-in'' rule addresses this issue in a way the TVPA does not, and enables awareness of programming fees that consumers will find helpful to understand the sources that ''are driving up cable bills.'' [218]

56. ACA argues that there is the potential for confusion about the ''true'' ''all-in'' price because that ''is not the all-in price that any subscriber will actually pay.'' [219] According to ACA, that amount will include programming fees and ''also 'taxes and other fees unrelated to programming,' including equipment fees.'' [220] ACA maintains that in other contexts, the '''all-in' price of a communications service would include such taxes and fees.'' [221] We recognize that other customer service or consumer protections may require disclosure of a total price that includes fees and charges unrelated to video programming, such as taxes. The ''all-in'' price complements those requirements, including the TVPA, by addressing the source of misunderstandings about the costs of video programming that will be inclusive of the larger, total price, that includes charges and fess unrelated to video programming.

57. *The Federal Trade Commission (FTC).* DIRECTV argues that compliance with the ''all-in'' price rule could cause tension with FTC directives, ''particularly with nationwide advertisements advertising across localities with different [regional sports programming] fees.'' [222] DIRECTV complains that seeking to comply with ''at least two sets of potentially overlapping and perhaps conflicting regulation (not to mention state-by-state FTC-like regulation) could present ''complications'' and ''challenges'' and could result in an ''overly clunky advertisement or bill, likely to be both confusing and ineffective.'' [223] DIRECTV, however, does not identify any actual regulations that overlap or conflict with the ''all-in'' pricing rule we adopt here. In the absence of any evidence of an actual conflict, we decline to refrain from adopting an ''all-in'' rule based simply on vague, general, and conclusory burden claims. If in the future there arises a concrete conflict, parties can seek clarification or waiver at that time.

58. *Competitive Effects.* We find that the ''all-in'' rule will increase transparency and enhance competition. As the Commission recently explained, ''[c]onsumer access to clear, easy-to-understand, and accurate information is central to a well-functioning marketplace that encourages competition, innovation, low prices, and high-quality services.'' [224] The record demonstrates that the ''all-in'' rule will serve consumers and promote competition by giving consumers access to information so they can shop among various video services providers more effectively.

59. We disagree that competition among service providers has supplanted the need for the ''all-in'' rule or outweigh its competitive benefits. The Commission's authority in this area is not limited or less beneficial to consumers confronting unexpected charges because the marketplace is now more competitive. Although we recognize that significant entry into the video marketplace has benefited consumers, we do not rely on entry alone, consistent with Congress' directive to protect consumers purchasing services when warranted.[225] The authority for the ''all-in'' rule, on which we rely, was not solely concerned with competition, but with protecting consumers.

60. *Cost/Benefit Analysis.* We adopt the ''all-in'' requirement having considered the costs and benefits associated with adopting the proposal. The purpose of this proceeding is to reduce confusion, in an effective and narrow way that complements current consumer protections, and mitigates the cost of unexpected charges and fees for consumers. No commenter submitted a rigorous economic cost/benefit analysis, but we note that certain commenters argued that an ''all-in'' rule ''would create confusion—not clarity—for consumers, and impose undue burdens on the Companies without any countervailing public benefit.'' [226] We disagree. The ''all-in'' rule will address consumer confusion identified in the record that has led to household budget issues, billing disputes, and litigation. Requiring clear, easy-to-understand, and accurate pricing disclosure empowers consumer choice, possibly improving customer satisfaction,[227] and increases competition in the video marketplace.

61. *Digital Equity and Inclusion.* The ''all-in'' rule furthers our continuing effort to advance digital equity for all,[228] including people of color, persons with disabilities, persons who live in rural or Tribal areas, and others who are or have been historically underserved, marginalized, or adversely affected by persistent poverty or inequality. As part of the *NPRM,* the Commission invited ''comment on any equity-related considerations [229] and benefits (if any) that may be associated with the'' ''all-in'' rule and related issues and, specifically, on how the ''all-in'' rule ''may promote or inhibit advances in diversity, equity, inclusion, and accessibility, as well the scope of the

[228] Section 1 of the Communications Act of 1934 as amended provides that the FCC ''regulat[es] interstate and foreign commerce in communication by wire and radio so as to make [such service] available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex.'' 47 U.S.C. 151.

[229] The term ''equity'' is used here consistent with Executive Order 13985 as the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders, and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality. *See* E.O. 13985, 86 FR 7009, Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government (January 20, 2021).

Commission's relevant legal authority.'' [230] We agree with the Local Governments Commenters that the ''all-in'' rule promotes equity by addressing unexpected fees and charges that disproportionately impact lower-income households.[231]

Procedural Matters

62. *Regulatory Flexibility Act Analysis.* The Regulatory Flexibility Act of 1980, as amended (RFA),[232] requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that ''the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.'' [233] Accordingly, we have prepared a Final Regulatory Flexibility Analysis (FRFA) concerning the possible impact of rule changes contained in the *Report and Order* on small entities. The FRFA is set forth in Appendix C of the *Report and Order.*

63. *Final Paperwork Reduction Act Analysis.* This document may contain new information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA).[234] Any such requirements will be submitted to the Office of Management and Budget (OMB) for review under Section 3507(d) of the PRA. OMB, the general public, and other Federal agencies will be invited to comment on the information collection requirements contained in this proceeding. The Commission will publish a separate document in the **Federal Register** at a later date seeking these comments. In addition, we note that, pursuant to the Small Business Paperwork Relief Act of 2002 (SBPRA),[235] we requested specific comment on how the Commission might further reduce the information collection burden for small business concerns with fewer than 25 employees.[236]

64. *Congressional Review Act.* The Commission has determined, and the Administrator of the Office of Information and Regulatory Affairs, OMB concurs, that these rules are ''non-major'' under the Congressional Review Act, 5 U.S.C. 804(2). The Commission will send a copy of the Report and Order to Congress and the Government Accountability Office pursuant to 5 U.S.C. 801(a)(1)(A).

Final Regulatory Flexibility Act

65. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),[237] an Initial Regulatory Flexibility Act Analysis (IRFA) was incorporated into the *All-In Pricing for Cable and Satellite Television Service, Notice of Proposed Rulemaking* (*NPRM*) released in June 2023.[238] The Federal Communications Commission (Commission) sought written public comment on the proposals in the *NPRM,* including comment on the IRFA. No comments were filed addressing the IRFA. This Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.[239]

66. *Need for, and Objectives of, the Report and Order.* The *Report and Order* (*Order*) reflects the Commission's effort to enhance pricing transparency by requiring cable operators and direct broadcast service (DBS) providers to provide the ''all-in'' price for video programming service in their promotional materials and on subscribers' bills. The Commission received comments and *ex parte* filings from individuals, consumer advocates, cable operators, DBS providers, broadcast industry members, trade associations, state and local governments, and franchising authorities. A number of comments describe general consumer frustration with unexpected ''fees'' (for example, for broadcast television programming and regional sports programming charges listed separately from the monthly subscription rate for video programming service) that are actually charges for the video programming service for which the subscriber pays.

67. The *Order* largely adopts the rule proposed in the *NPRM,* with certain limited exceptions or modifications, in response to comments in the record. In the *Order,* we adopt the proposal in the *NPRM* to require that cable operators and DBS providers provide the ''all-in'' cost of video programming service as a prominent single line item on subscribers' bills and in promotional materials. We require compliance with the ''all-in'' rule when the price for video programming increases during the term of the subscriber's service agreement and to national and regional promotional materials where charges to consumers varies by geography. We also acknowledge limitations that apply when the customer has a residential legacy or grandfathered plan, and recognize that how providers comply with the ''all-in'' rule may vary, if the price for video programming is clear, easy-to-understand, and accurate.

68. *Summary of Significant Issues Raised by Public Comments in Response to the IRFA.* There were no comments filed that specifically addressed the proposed rules and policies presented in the IRFA.

69. *Response to Comments by the Chief Counsel for Advocacy of the Small Business Administration.* Pursuant to the Small Business Jobs Act of 2010, the Commission is required to respond to any comments filed by the Chief Counsel for Advocacy of the Small Business Administration (SBA), and to provide a detailed statement of any change made to the proposed rules as a result of those comments.[240]

70. The Chief Counsel did not file any comments in response to the proposed rules in this proceeding.

71. *Description and Estimate of the Number of Small Entities to Which the Rules Will Apply.* The RFA directs agencies to provide a description of, and where feasible, an estimate of the number of small entities that may be affected by the rules adopted herein.[241] The RFA generally defines the term ''small entity'' as having the same meaning as the terms ''small business,'' ''small organization,'' and ''small governmental jurisdiction.'' [242] In addition, the term ''small business'' has the same meaning as the term ''small business concern'' under the Small Business Act (SBA).[243] A small business

[240] *Id.* section 604(a)(3).

[241] *Id.* section 604(a)(4).

[242] *Id.* section 601(6).

[243] *Id.* section 601(3) (adopting by reference the definition of ''small business concern'' in 15 U.S.C. 632(a)(1)). Pursuant to 5 U.S.C. 601(3), the statutory definition of a small business applies ''unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term

concern is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.[244]

72. The rule adopted in the *Order* will directly affect small cable systems operators and DBS providers. Below, we provide a description of such small entities, as well as an estimate of the number of such small entities, where feasible.

73. *Cable and Other Subscription Programming.* The U.S. Census Bureau defines this industry as establishments primarily engaged in operating studios and facilities for the broadcasting of programs on a subscription or fee basis.[245] The broadcast programming is typically narrowcast in nature (*e.g.,* limited format, such as news, sports, education, or youth-oriented). These establishments produce programming in their own facilities or acquire programming from external sources.[246] The programming material is usually delivered to a third party, such as cable systems or direct-to-home satellite systems, for transmission to viewers.[247] The SBA small business size standard for this industry classifies firms with annual receipts less than $47 million as small.[248] Based on U.S. Census Bureau data for 2017, 378 firms operated in this industry during that year.[249] Of that number, 149 firms operated with revenue of less than $25 million a year and 44 firms operated with revenue of $25 million or more.[250] Based on this data, the Commission estimates that a majority of firms in this industry are small.

74. *Cable Companies and Systems (Rate Regulation).* The Commission has developed its own small business size standard for the purpose of cable rate regulation. Under the Commission's rules, a ''small cable company'' is one serving 400,000 or fewer subscribers nationwide.[251] Based on industry data, there are about 420 cable companies in the U.S.[252] Of these, only seven have more than 400,000 subscribers.[253] In addition, under the Commission's rules, a ''small system'' is a cable system serving 15,000 or fewer subscribers.[254] Based on industry data, there are about 4,139 cable systems (headends) in the U.S.[255] Of these, about 639 have more than 15,000 subscribers.[256] Accordingly, the Commission estimates that the majority of cable companies and cable systems are small.

75. *Cable System Operators (Telecom Act Standard).* The Communications Act of 1934, as amended, contains a size standard for a ''small cable operator,'' which is ''a cable operator that, directly or through an affiliate, serves in the aggregate fewer than one percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed $250,000,000.'' [257] For purposes of the Telecom Act Standard, the Commission determined that a cable system operator that serves fewer than 498,000 subscribers, either directly or through affiliates, will meet the definition of a small cable operator.[258] Based on industry data, only six cable system operators have more than 498,000 subscribers.[259] Accordingly, the Commission estimates that the majority of cable system operators are small under this size standard. We note, however, that the Commission neither requests nor collects information on whether cable system operators are affiliated with entities whose gross annual revenues exceed $250 million.[260] Therefore, we are unable at this time to estimate with greater precision the number of cable system operators that would qualify as small cable operators under the definition in the Communications Act.

76. *Direct Broadcast Satellite (DBS) Service.* DBS service is a nationally distributed subscription service that delivers video and audio programming via satellite to a small parabolic ''dish'' antenna at the subscriber's location. DBS is included in the Wired Telecommunications Carriers industry which comprises establishments primarily engaged in operating and/or providing access to transmission facilities and infrastructure that they own and/or lease for the transmission of voice, data, text, sound, and video using wired telecommunications networks.[261] Transmission facilities may be based on a single technology or combination of technologies.[262] Establishments in this industry use the wired telecommunications network facilities that they operate to provide a variety of services, such as wired telephony services, including VoIP services, wired (cable) audio and video programming distribution; and wired broadband internet services.[263] By exception, establishments providing satellite television distribution services using

which are appropriate to the activities of the agency and publishes such definition(s) in the **Federal Register**.''*Id.*

[249] U.S. Census Bureau, *2017 Economic Census of the United States, Selected Sectors: Sales, Value of Shipments, or Revenue Size of Firms for the U.S.: 2017,* Table ID: EC1700SIZEREVFIRM, NAICS Code 515210, *https://data.census.gov/cedsci/table?y=2017&n=515210&tid=ECNSIZE2017EC1700SIZEREVFIRM&hidePreview=false.* The US Census Bureau withheld publication of the number of firms that operated for the entire year to avoid disclosing data for individual companies (see Cell Notes for this category).

[250] *Id.* The available U.S. Census Bureau data does not provide a more precise estimate of the number of firms that meet the SBA size standard. We note that the U.S. Census Bureau withheld publication of the number of firms that operated with sales/value of shipments/revenue in all categories of revenue less than $500,000 to avoid disclosing data for individual companies (see Cell Notes for the sales/value of shipments/revenue in these categories). Therefore, the number of firms with revenue that meet the SBA size standard would be higher than noted herein. We also note that according to the U.S. Census Bureau glossary, the terms receipts and revenues are used interchangeably, *see https://www.census.gov/glossary/#term_ReceiptsRevenueServices.*

In this Public Notice, the Commission determined that there were approximately 49.8 million cable subscribers in the United States at that time using the most reliable source publicly available. *Id.* This threshold will remain in effect until the Commission issues a superseding Public Notice. *See* 47 CFR 76.901(e)(1).

[259] S&P Global Market Intelligence, S&P Capital IQ Pro, *Top Cable MSOs 06/23Q* (last visited Sept. 27, 2023); S&P Global Market Intelligence, Multichannel Video Subscriptions, Top 10 (Apr. 2022).

[260] The Commission does receive such information on a case-by-case basis if a cable operator appeals a local franchise authority's finding that the operator does not qualify as a small cable operator pursuant to § 76.901(e) of the Commission's rules. *See* 47 CFR 76.910(b).

[261] *See* U.S. Census Bureau, *2017 NAICS Definition,* ''*517311 Wired Telecommunications Carriers,*'' *https://www.census.gov/naics/?input=517311&year=2017&details=517311.*

[262] *Id.*

[263] *See id.* Included in this industry are: broadband internet service providers (*e.g.,* cable, DSL); local telephone carriers (wired); cable television distribution services; long-distance telephone carriers (wired); closed-circuit television (CCTV) services; VoIP service providers, using own operated wired telecommunications infrastructure; direct-to-home satellite system (DTH) services; telecommunications carriers (wired); satellite television distribution systems; and multichannel multipoint distribution services (MMDS).

facilities and infrastructure that they operate are included in this industry.[264]

77. The SBA small business size standard for Wired Telecommunications Carriers classifies firms having 1,500 or fewer employees as small.[265] U.S. Census Bureau data for 2017 show that 3,054 firms operated in this industry for the entire year.[266] Of this number, 2,964 firms operated with fewer than 250 employees.[267] Based on this data, the majority of firms in this industry can be considered small under the SBA small business size standard. According to Commission data, however, only two entities provide DBS service—DIRECTV (owned by AT&T) and DISH Network, which require a great deal of capital for operation.[268] DIRECTV and DISH Network both exceed the SBA size standard for classification as a small business. Therefore, we must conclude based on internally developed Commission data, in general DBS service is provided only by large firms.

78. *Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities.* The *Order* requires cable operators and DBS providers to state the aggregate cost for video programming service in bills and any promotional material that presents a cost for service as clear, easy-to-understand, and accurate information.

79. The ''all-in'' rule must be fully implemented no later than (i) 9 months after release of the *Report and Order* or (ii) when the Commission announces an effective date in the **Federal Register** pursuant to the Paperwork Reduction Act, whichever is later; except that compliance with this section is required no later than (i) 12 months after release of the *Report and Order* or (ii) when the Commission announces an effective date in the **Federal Register** pursuant to the Paperwork Reduction Act, whichever is later, for small cable operators. For the purpose of the rule, small cable operators are defined as those with annual receipts of $47 million or less, consistent with the SBA's small business size standards. We find that this is a reasonable amount to time based upon prior experience with how the industry has implemented TVPA billing requirements.[269] The record does not include a sufficient cost/benefit analysis that would allow us to quantify the costs of compliance for small entities, including whether it will be necessary for small entities to hire professionals to comply with the adopted rules. However, the transparent pricing requirements of the ''all-in'' rule will benefit competition for small and other video programming providers by providing consumers with more clarity when comparing costs for video programming services.

80. *Steps Taken to Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered.* The RFA requires an agency to provide, ''a description of the steps the agency has taken to minimize the significant economic impact on small entities . . . including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected.'' [270]

81. As explained in the *Order,* the ''all-in'' rule is necessary to equip consumers to make informed decisions about their service and comparison shop among video programming providers with clear, easy-to-understand, and accurate information about the charges related to video programming.[271] This rule includes flexibility that should make it easier for small and other entities to comply. For example, the Commission does not limit compliance with the ''all-in'' rule to a specific manner to disclose the aggregate price when charges for video programming are part of a bundled service or when video programming is marketed regionally or nationally, other than requiring a clear, easy-to-understand, and accurate ''all-in'' price. We also considered whether the ''all-in'' rule should differentiate between residential, small business, and enterprise subscribers, and determined that it should not apply to bulk purchasers of non-residential services or enterprise customers because those are typically customized, individually negotiated pricing plans. We believe the rule will protect consumers from deceptive bills and advertising with minimized costs and burdens on small and other entities. In the absence of evidence to the contrary in the record, the Commission does not expect the adopted requirements to have a significant economic impact on small entities. Finally, we provide small cable operators, defined as those with annual receipts of $47 million or less, with an additional three months to come into compliance with the rule.

82. *Report to Congress.* The Commission will send a copy of the *Order,* including the FRFA, in a report to be sent to Congress pursuant to the Congressional Review Act.[272] In addition, the Commission will send a copy of the *Order,* including this FRFA, to the Chief Counsel for Advocacy of the SBA. The *Order* and FRFA (or summaries thereof) will also be published in the **Federal Register**.[273]

Ordering Clauses

83. Accordingly, *it is ordered* that, pursuant to the authority found in sections 1, 4(i), 303, 316, 335(a), 632(b), and 642 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 303, 316, 335(a), 552(b), and 562, the *Report and Order is adopted*, and part 76 of the Commission's rules, 47 CFR part 76, *is amended* as set forth in the Appendix of the *Report and Order.*

84. *It is further ordered* that the *Report and Order shall be effective* thirty (30) days after the date of publication in the **Federal Register**. Compliance with § 76.310, 47 CFR 76.310, which may contain new or modified information collection requirements, will not be required until (i) nine months after the release of the *Report and Order* or (ii) after the Office of Management and Budget completes review of any information collection requirements that the Media Bureau determines is required under the Paperwork Reduction Act, whichever is later; with the exception of small cable operators, which will have (i) twelve months after the release of the *Report and Order* or (ii) after the Office of Management and Budget completes review of any information collection requirements that the Media Bureau determines is required under the Paperwork Reduction Act, whichever is later, to come into compliance. The Commission directs the Media Bureau to announce the compliance date for § 76.310 by subsequent Public Notice and to cause § 76.310 to be revised accordingly. The Commission's rules *are hereby amended* as set forth in the Appendix of the *Report and Order.*

Final Rule

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 76 to read as follows:

PART 76—MULTICHANNEL VIDEO AND CABLE TELEVISION SERVICE

■ 1. The authority citation for part 76 is revised to read as follows:

Authority: 47 U.S.C. 151, 152, 153, 154, 301, 302, 302a, 303, 303a, 307, 308, 309, 312, 315, 317, 325, 335, 338, 339, 340, 341, 503, 521, 522, 531, 532, 534, 535, 536, 537, 543, 544, 544a, 545, 548, 549, 552, 554, 556, 558, 560, 561, 562, 571, 572, 573.

■ 2. Add § 76.310 to read as follows:

§ 76.310 Truth in billing and advertising.

(a) Cable operators and direct broadcast satellite (DBS) providers shall state an aggregate price for the video programming that they provide as a clear, easy-to-understand, and accurate single line item on subscribers' bills, including on bills for legacy or grandfathered video programming service plans. If a price is introductory or limited in time, cable and DBS providers shall state on subscribers' bills the date the price ends, by disclosing either the length of time that a discounted price will be charged or the date on which a time period will end that will result in a price change for video programming, and the post-promotion rate 60 and 30 days before the end of any introductory period. Cable operators and DBS providers may complement the aggregate line item with an itemized explanation of the elements that compose that single line item.

(b) Cable operators and DBS providers that communicate a price for video programming in promotional materials shall state the aggregate price for the video programming in a clear, easy-to-understand, and accurate manner. If part of the aggregate price for video programming fluctuates based upon service location, then the provider must state where and how consumers may obtain their subscriber-specific ''all-in'' price (for example, electronically or by contacting a customer service or sales representative). If part or all of the aggregate price is limited in time, then the provider must state the post-promotion rate, as calculated at that time, and the duration of each rate that will be charged. Cable operators and DBS providers may complement the aggregate price with an itemized explanation of the elements that compose that aggregate price. The requirement in this paragraph (b) shall not apply to the marketing of legacy or grandfathered video programming service plans that are no longer generally available to new customers. For purposes of this section, the term ''promotional material'' includes communications offering video programming to consumers such as advertising and marketing.

(c) This section may contain information collection and/or recordkeeping requirements. Compliance with this section will not be required until this paragraph (c) is removed or contains compliance dates. The Commission will publish a document in the **Federal Register** announcing the compliance dates and revising or removing this paragraph (c) accordingly.

USAID Acquisition Regulation (AIDAR): Security and Information Technology Requirements

Correction

In rule document 2024–05748, appearing on pages 19754–19760 in the issue of Wednesday, March 20, 2024, make the following corrections:

§ 739.106 Contract clauses [Corrected].

■ On page 19758, in the second column, on the fifty-fourth line, the term ''Project websites'' should read ''Project Websites''.

§ 752.239–70 Information Technology Authorization [Corrected].

■ On page 19759, in the first column, on the fifty-ninth line, the paragraph designation ''(d)'' should read ''(a)''.

§ 752.239–72 USAID-Financed Project Websites [Corrected].

■ On page 19760, in the first column, on the fourteenth line, the term ''Project website'' should read ''Project Website''.

■ On the same page, in the second column, on the fourth line, the term ''Project website'' should read ''Project Website''.

■ On the same page, in the same column, on the twentieth line, the term ''Project website'' should read ''Project Website''.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 240415–0107]

RTID 0648–XD112

Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Harvest Specifications for the Central Subpopulation of Northern Anchovy

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS is issuing this final rule to revise the overfishing limit (OFL) and acceptable biological catch (ABC) for the central subpopulation of northern anchovy (CSNA) in the U.S. exclusive economic zone (EEZ) off the West Coast under the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP) to 243,779 metric tons (mt) and an 60,945 mt, respectively. This final rule also maintains an annual catch limit (ACL) of 25,000 mt for CSNA. Under current regulations, if the ACL for this stock is reached or projected to be reached in a fishing year (January 1–December 31), then the fishery will be closed until it reopens at the start of the next fishing year. This rulemaking is intended to conserve and manage CSNA off the U.S. West Coast.

DATES: Effective May 20, 2024.

FOR FURTHER INFORMATION CONTACT: Katie Davis, West Coast Region, NMFS, (323) 372–2126, *Katie.Davis@noaa.gov.*

SUPPLEMENTARY INFORMATION: The CPS fishery in the U.S. EEZ off the West Coast is managed under the CPS FMP in coordination with the Pacific Fishery Management Council (Council). The CPS FMP was developed pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*). The CPS FMP is implemented by regulations at 50 CFR part 660, subpart I. This final rule adopts, without changes, the CSNA harvest specifications in NMFS's proposed rule published on December 27, 2023 (88 FR 89358). CSNA is managed using ACLs implemented for multiple years, and quantitative or qualitative reviews of available abundance data without required regular stock assessments or required annual adjustments to target harvest levels. Further background on CSNA management and the formulas for calculating the revised reference points in this action was published in the proposed rule and is not repeated here.

Final Reference Points

This final action revises the OFL and ABC, and maintains the ACL, for CSNA in the U.S. EEZ off the West Coast, based on recommendations from the Council. NMFS is implementing multi-year annual reference points for CSNA including an OFL of 243,779 mt and an ABC of 60,945 mt. The OFL and ABC are increasing from 119,153 mt and 28,788 mt, respectively (December 31, 2020, 85 FR 86855). NMFS is maintaining, as proposed, an ACL of 25,000 mt. NMFS has determined that the OFL and ABC implemented by this action are supported by the best scientific information available, comply with the CPS FMP, and will prevent overfishing. Although these values deviate from the default calculations described in the CPS FMP, as described in the proposed rule, they are supported by the most recent stock assessment and recommendations from the Council's Scientific and Statistical Committee and are robust enough to remain in place for multiple years and still prevent overfishing.

Upon taking effect, these annual reference points will apply to the current and following calendar years (January 1–December 31), remaining in place until new scientific information warrants revising them. Any catch that has already occurred in calendar year 2024 will apply to the 2024 ACL. Because this ACL value is already in place (see 50 CFR 660.511(k)), no regulatory changes are necessary.

All sources of catch will be accounted for against the ACL, including any fishing occurring as part of an exempted fishing permit, the live bait fishery, and other minimal sources of harvest (*e.g.,* incidental catch in CPS and non-CPS fisheries and minor directed fishing). Under current regulations at 50 CFR 660.509(a), if catch reaches the ACL, the NMFS West Coast Regional Administrator will publish a notice in the **Federal Register** to announce the closure of the fishery until the commencement of the next fishing season (January 1). Additionally, to ensure that the regulated community is informed of any closure, NMFS will make announcements through other means available, including emails to fishermen, processors, and state fishery management agencies.

Public Comment and Response

On December 27, 2023, NMFS published a proposed rule for this action and solicited public comments (89 FR 12810) with a public comment period that ended on January 26, 2024. NMFS received one comment letter on the proposed rule. The letter was submitted jointly by two environmental non-governmental organizations, Oceana and Earthjustice, containing several comments and requests. With respect to the proposed reference points, the commenters expressed support for an ACL of 25,000 mt and noted that the proposed OFL and ABC are consistent with the Council's recommendation. The remaining comments and requests in the comment letter are beyond the scope of this rulemaking. For instance, the comment letter included a recommendation that NMFS direct the Council to develop a substantive amendment to the CPS FMP that would incorporate the Council's anchovy management framework into the CPS FMP, develop an ACL control rule for CSNA, and establish a minimum stock size threshold for CSNA, but such measures are not within the scope of this rulemaking. Therefore, NMFS does not provide a response to those comments. However, Oceana and Earthjustice may continue to bring these requests to the Council as appropriate. Additionally, as noted earlier, Oceana and Earthjustice stated support for the ACL, but also requested NMFS limit the effectiveness of the ACL to 2 years. This request is also outside the scope of this rulemaking. Pursuant to 50 CFR 660.508, annual specifications for CPS are determined in accordance with the CPS FMP. Under the CPS FMP, reference points for CSNA are specified for multiple years until the species becomes managed under the general harvest control rule (based on annual estimates of biomass) or under a new species-specific control rule, or until new scientific information becomes available that warrants a change to the reference points.

NMFS made no changes to the proposed rule in response to the comments received.

Classification

Pursuant to section 304(b)(1)(A) of the Magnuson-Stevens Act, the NMFS Assistant Administrator has determined that this final rule is consistent with the CPS FMP, other provisions of the Magnuson-Stevens Act, and other applicable law.

This final rule is not subject to the requirements of Executive Order 12866 because it is a routine rule that implements regulations for less than one year.

Pursuant to Executive Order 13175, this rulemaking was developed after meaningful consultation and collaboration with the tribal representative on the Council.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule (88 FR 89358, December 27, 2023) and is not repeated here. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not required and none was prepared.

This final rule contains no information collection requirements under the Paperwork Reduction Act of 1995.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 15, 2024.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Proposed Rules

Federal Register
Vol. 89, No. 77
Friday, April 19, 2024

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 930

[Doc. No. AMS–SC–23–0074]

Tart Cherries Grown in the States of Michigan, et al.; Free and Restricted Percentages for the 2023–24 Crop Year

AGENCY: Agricultural Marketing Service, Department of Agriculture (USDA).

ACTION: Proposed rule.

SUMMARY: This proposed rule would implement a recommendation from the Cherry Industry Administrative Board (Board) to establish free and restricted percentages for the 2023–24 crop year under the Federal marketing order for tart cherries grown in the states of Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin. This action would establish the proportion of tart cherries from the 2023–24 crop which may be handled in commercial outlets. This action should stabilize marketing conditions by adjusting supply to meet market demand and help improve grower returns.

DATES: Comments must be received by May 20, 2024.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposed rule. Comments can be sent to the Docket Clerk, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237. Comments can also be sent to the Docket Clerk electronically by Email: *MarketingOrderComment@usda.gov* or via the internet at: *https://www.regulations.gov.* Comments should reference the document number, the date and page number of this issue of the **Federal Register**. Comments submitted in response to this proposed rule will be included in the record and will be made available to the public and can be viewed at: *https://www.regulations.gov.* Please be advised that the identity of the individuals or entities submitting the comments will be made public on the internet at the address provided above.

FOR FURTHER INFORMATION CONTACT: Steven W. Kauffman, Marketing Specialist, or Christian D. Nissen, Chief, Southeast Region Branch, Market Development Division, Specialty Crops Program, AMS, USDA; Telephone: (863) 324–3375, or Email: *Steven.Kauffman@usda.gov* or *Christian.Nissen@usda.gov.*

Small businesses may request information on complying with this regulation by contacting Richard Lower, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; Telephone: (202) 720–8085, or Email: *Richard.Lower@usda.gov.*

SUPPLEMENTARY INFORMATION: This action, pursuant to 5 U.S.C. 553, proposes to amend regulations issued to carry out a marketing order as defined in 7 CFR 900.2(j). This proposed rule is issued under Marketing Order No. 930, as amended (7 CFR part 930), regulating the handling of tart cherries produced in the states of Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin. Part 930 (referred to as the ''Order'') is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the ''Act.'' The Board locally administers the Order and is comprised of growers and handlers of tart cherries operating within the production area, and a public member.

The Agricultural Marketing Service (AMS) is issuing this proposed rule in conformance with Executive Orders 12866, 13563, and 14094. Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. Executive Order 14094 reaffirms, supplements, and updates Executive Order 12866 and further directs agencies to solicit and consider input from a wide range of affected and interested parties through a variety of means. This proposed action falls within a category of regulatory actions that the Office of Management and Budget (OMB) exempted from Executive Order 12866 review.

This proposed rule has been reviewed under Executive Order 13175—Consultation and Coordination with Indian Tribal Governments, which requires Federal agencies to consider whether their rulemaking actions would have Tribal implications. AMS has determined that this proposed rule is unlikely to have substantial direct effects on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

This proposed rule has been reviewed under Executive Order 12988—Civil Justice Reform. Under the Order provisions now in effect, free and restricted percentages may be established for tart cherries for the 2023–24 crop year. This proposed rule would establish free and restricted percentages for the 2023–2024 crop year, beginning July 1, 2023, through June 30, 2024.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the U.S. Department of Agriculture (USDA) a petition stating that the marketing order, any provision of the marketing order, or any obligation imposed in connection with the marketing order is not in accordance with law and request a modification of the marketing order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed no later than 20 days after the date of the entry of the ruling.

This proposed rule would establish the proportion of tart cherries from the 2023–24 crop which may be handled at 94 percent free and 6 percent restricted.

The Secretary of Agriculture (Secretary) has determined that designating free and restricted percentages of tart cherries for the 2023–24 crop year would effectuate the declared policy of the Act to stabilize marketing conditions by adjusting supply to meet market demand and help improve grower returns. These recommendations were made by the Board at a meeting on September 14, 2023, and reaffirmed at a meeting on December 14, 2023.

Section 930.51(a) provides the Secretary authority to regulate volume by designating free and restricted percentages for any tart cherries acquired by handlers in a given crop year. Section 930.50 prescribes procedures for computing an optimum supply based on sales history and for calculating these free and restricted percentages. Free percentage volume may be shipped to any market, while restricted percentage volume must be held by handlers in a primary or secondary reserve, or be diverted, or used for exempt purposes as prescribed in §§ 930.159 and 930.162. Exempt purposes include, in part, the development of new products, sales into new markets, the development of export markets, and charitable contributions. Sections 930.55 through 930.57 prescribe procedures for inventory reserve. For cherries held in reserve, handlers would be responsible for storage and would retain title of the tart cherries.

Under section 930.52, only districts in which the average annual production of cherries over the prior three years has exceeded six million pounds are subject to volume regulation, and any district producing a crop that is less than 50 percent of its annual average processed production in the previous five years would be exempt from any volume regulation. The regulated districts for the 2023–24 crop year would be: District 1—Northern Michigan; District 2—Central Michigan; District 3—Southern Michigan; District 4—New York; District 7—Utah; District 8—Washington; and District 9—Wisconsin. Districts 5 and 6 (Oregon and Pennsylvania, respectively) would not be regulated for the 2023–24 season.

Demand for tart cherries and tart cherry products tends to be relatively stable despite the variance in production volume that industry may experience from year to year. Additionally, once processed, tart cherries can be stored and carried over from crop year to crop year, further impacting supply. The Board is aware of this economic relationship and focuses on using the volume control provisions in the marketing order to balance supply and demand to stabilize industry returns.

Pursuant to section 930.50, the Board meets on or about July 1 to review sales data, inventory data, current crop forecasts, and market conditions for the upcoming season and, if necessary, to recommend preliminary free and restricted percentages if anticipated supply would exceed demand. After harvest is complete, but no later than September 15, the Board meets again to update its calculations using actual production data, consider any necessary adjustments to the preliminary percentages, and determine if final free and restricted percentages should be recommended to the Secretary.

The Board uses sales history, inventory, and production data to determine whether a surplus exists and how much volume should be restricted to maintain optimum supply. The optimum supply represents the desirable volume of tart cherries that should be available for sale in the coming crop year. Optimum supply is defined as the average free sales of the prior three years plus desirable carry-out inventory. Desirable carry-out is the amount of fruit needed by the industry to be carried into the succeeding crop year to meet market demand until the new crop is available. Desirable carry-out is recommended by the Board after considering market circumstances and needs. Section 930.151(b) specifies that desirable carry-out can range from zero to a maximum of 100 million pounds.

In addition, § 930.50(g) specifies that in years when restricted percentages are established, the Board shall make available tonnage equivalent to an additional 10 percent of the average sales of the prior three years for market expansion. This requirement is in USDA's ''Guidelines for Fruit, Vegetable, and Specialty Crop Marketing Orders'' (*https://www.ams.usda.gov/publications/content/1982-guidelines-fruit-vegetable-marketing-orders*) which specifies that 110 percent of recent years' sales should be made available to primary markets each season before recommendations for volume regulation are approved.

After the Board determines the optimum supply, desirable carry-out, and market growth factor, it must examine the current year's available volume to determine whether an oversupply might occur. Available volume includes carry-in inventory (any inventory available at the beginning of the season) along with that season's production. If production plus the carry-in inventory is greater than the optimum supply (3-year sales average plus the targeted carry-out), then the difference is considered surplus. The ten percent market expansion factor and any economic adjustments recommended by the Board are then subtracted from this surplus number to arrive at an adjusted surplus. This adjusted surplus tonnage is divided by the sum of production in the regulated districts to reach a restricted percentage. This percentage must be held in reserve or used for approved diversion activities, such as exports, new products, or new market activities.

The Board met on June 22, 2023, and computed an optimum supply of 279.2 million pounds for the 2023–24 crop year using the average of free sales for the three previous seasons plus the desirable carry-out. To determine the carry-out figure, the Board discussed a range of alternatives. One member recommended a carry-out value of 85 million pounds, noting he did not think 100 million pounds was necessary to keep the markets supplied. Another member suggested a 70-million-pound carry-out and stated the industry does not need all those cherries in inventory and there will be fewer growers in the future if the market is oversupplied. Other members were concerned that 70 million pounds was too low to satisfy the demand prior to the new crop being available. Discussion also included that the carryover should be enough to supply the needs of the industry in case of a disaster and that the carryover should also reflect the increased number of tart cherry products now supplied to the market. Other members noted that more supply is also needed due to new food safety requirements being implemented. After considering the alternatives, the Board determined a carry-out of 85 million pounds would be enough to supply the industry's needs at the beginning of the next season.

The Board subtracted the carry-in inventory available on June 1st of 137.2 million pounds from the optimum supply to calculate the production quantity needed from the 2023–24 crop to meet optimum supply. This number, 142 million pounds, was subtracted from the Board's estimated 2023–24 total production of 175.2 million pound (from regulated and unregulated districts) to calculate a surplus of 33.2 million pounds of tart cherries. The Board also complied with the market expansion factor requirement by removing 19.4 million pounds (average sales for prior three years of 194.2 million times 10 percent) from the surplus. The adjusted surplus of 13.8 million pounds was then divided by the expected production in the regulated districts (173.5 million pounds) to reach

a preliminary restricted percentage of 8 percent for the 2023–24 crop year.

The Board then discussed whether this calculation would supply enough cherries to grow sales and fulfill orders that have not yet shipped. Some members stated that the Board should account for some large late season demand purchases by the USDA, which would account for approximately 26 million pounds raw product equivalent. After discussing multiple motions for an economic adjustment ranging from 0 to 26 million pounds, the Board did not recommend a preliminary economic adjustment at the June meeting. Without an economic adjustment, the preliminary restricted percentage remained at 8 percent. With this relatively small restriction, the Board did not anticipate significant orchard diversion.

The Board met again on September 14, 2023, to consider final volume regulation percentages for the 2023–24 season. The final percentages are based on the Board's reported production figures and the supply and demand information available in September.

The total production for the 2023–24 season reported at the September meeting was 202.7 million pounds. This exceeded the Board's June production estimate by 27.5 million pounds. In addition, growers diverted 6.86 million pounds in the orchard, lowering the available production for market. As a result, 195.8 million pounds of production would be available to the market, 193.4 million pounds of which are in the districts subject to volume regulation. The Board accounted for the recommended desirable carry-out and economic adjustment, as well as the market growth factor, and recalculated the restricted percentage using the actual production numbers.

The Board subtracted the carry-in figure used in June of 137.2 million pounds, from the optimum supply of 279.2 million pounds to determine 142 million pounds of 2023–24 production would be necessary to reach optimum supply. The Board subtracted the 142 million pounds from the actual production of 202.7 million pounds, resulting in a surplus of 60.7 million pounds of tart cherries.

At its June meeting, the Board did not recommend making an economic adjustment of the optimum supply calculation to address unexpected factors that could have a bearing on the marketing of tart cherries. However, in September, following another discussion of a late seasonal purchase made by USDA, and the possible impact on the available supply, the Board recommended an economic adjustment of 30 million pounds to ensure sufficient inventory was available to meet demand.

The Board also discussed the impact of imported tart cherries on the domestic market. Imports have been an important topic of discussion for the Board when considering preliminary and final volume recommendations since the demand for tart cherries is inelastic. In June, the Board received a presentation indicating tart cherry imports were only approximately 1/7th of the volume previously reported. At the September meeting, AMS verified the industry report and confirmed that tart cherry imports were considerably less than previously reported. As a result, the Board did not recommend making an additional economic adjustment based on imports.

The calculated surplus was reduced by subtracting the economic adjustment of 30 million pounds from the September meeting and the market growth factor of 19.4 million pounds, resulting in an adjusted surplus of 11.25 million pounds. The Board then divided the adjusted surplus by the available production of 193.4 million pounds (202.66 million pounds minus 6.86 million pounds of in-orchard diversion minus 2.44 million pounds from unregulated districts) in the regulated districts to calculate a restricted percentage of 5.8 percent. The Board rounded this number up, and recommended a 6 percent restriction (11.6 million pounds) with a corresponding free percentage of 94 percent (181.8 million pounds) in the regulated districts for the 2023–24 crop year, as outlined in the following table from the September meeting:

	Millions of pounds
September Calculations:	
(1) Average sales of the prior three years	194.2
(2) Desirable carry-out	85
(3) Optimum supply calculated by the Board (item 1 plus item 2)	279.2
(4) Carry-in as of July 1, 2023	137.2
(5) Adjusted optimum supply (item 3 minus item 4)	142
(6) Board reported production	202.7
(7) Surplus (item 6 minus item 5)	60.7
(8) Total economic adjustments	30
(9) Market growth factor	19.4
(10) Adjusted Surplus (item 7 minus items 8 and 9)	11.25
(11) Production in regulated districts	200.2
(12) In-Orchard Diversion	6.86
(13) Production minus in-orchard diversion	193.4
Final Percentages:	Percent
Restricted (item 10 divided by item 13 × 100)	6
Free (100 minus restricted percentage)	94

The final restriction of 6 percent is lower than the preliminary restriction percentage of 8 percent. The change is due to the increase in production of 27.5 million pounds more in total production above the June estimate, and the 30-million-pound economic adjustment the Board made in September. The desired carry-out remained the same at 85 million pounds.

After the September meeting, industry reported an additional 3.24 million pounds of production that was not accounted for at the September meeting. The Board met again on December 14,

2023, and reviewed the impact of this additional production on the free and restricted percentages recommended at the September meeting. The inclusion of the additional 3.24 million pounds would increase the surplus from approximately 60.7 to 63.9 million pounds. Given no further changes to the other numbers incorporated in the September calculation, this surplus change would increase the restricted percentage to 7.4 percent.

The Board discussed maintaining the final restriction at 6 percent as recommended in September. Members recognized that this would relieve the industry from the burden of having to meet an increased reserve requirement of 1.4 percent more (7.4% − 6% = 1.4%). Since the industry makes business decisions based on the June estimates and the final recommendation from September, a late season increase to the reserve requirement could have a negative impact on some industry members. After discussing the possible impact of the increased production, the Board unanimously recommended increasing the economic adjustment by the 3.24 million pounds of additional production to offset its impact on available supply and to leave the percentages recommended in September in place with 94 percent free and 6 percent restricted for the 2023–24 season.

With these changes, the total production increased from 202.7 million pounds to 205.9 million pounds and the surplus rose to 63.9 million pounds. The economic adjustment shifted from 30 million pounds to 33.24 million pounds, balancing out the additional surplus. Using the new production number and the revised economic adjustment to recalculate the restricted percentage, and rounding up, results in a 6 percent restriction percentage as recommended at the September meeting, as outlined in the following table from the December meeting:

	Millions of pounds
Final Calculations:	
(1) Average sales of the prior three years	194.2
(2) Desirable carry-out	85
(3) Optimum supply calculated by the Board (item 1 plus item 2)	279.2
(4) Carry-in as of July 1, 2023	137.2
(5) Adjusted optimum supply (item 3 minus item 4)	142
(6) Board reported production	205.9
(7) Surplus (item 6 minus item 5)	63.9
(8) Total economic adjustments	33.24
(9) Market growth factor	19.4
(10) Adjusted Surplus (item 7 minus items 8 and 9)	11.25
(11) Production in regulated districts	203.46
(12) In-Orchard Diversion	6.86
(13) Production minus in-orchard diversion	196.6
Final Percentages:	Percent
Restricted (item 10 divided by item 13 × 100)	6
Free (100 minus restricted percentage)	94

Establishing free and restricted percentages is an attempt to bring supply and demand into balance. If the primary market is oversupplied with cherries, grower prices decline substantially. Restricted percentages have benefited grower returns and helped stabilize the market as compared to those seasons prior to the implementation of the Order. The Board, based on its discussion of this issue and the result of the above calculations, believes the available information indicates a restricted percentage should be established for the 2023–24 crop year to avoid oversupplying the market with tart cherries.

Consequently, the Board recommended final percentages of 94 percent free and 6 percent restricted by a vote of 12 in favor, and 4 opposed on September 14, 2023, but later unanimously recommended the same percentages at the meeting on December 14, 2023. The Board could meet during the crop year, and if conditions so warranted, recommend the release of additional volume. The Secretary finds, from the recommendation and supporting information supplied by the Board, that designating final percentages of 94 percent free and 6 percent restricted would tend to effectuate the declared policy of the Act, and so designates these percentages.

Initial Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), the AMS has considered the economic impact of this proposed rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 400 growers of tart cherries in the regulated area and approximately 30 handlers of tart cherries who are subject to regulation under the Order. At the time this analysis was prepared, the Small Business Administration (SBA) defined small agricultural growers of tart cherries as those having annual receipts equal to or less than $3.5 million (NAICS code—111339, Other Noncitrus Fruit Farming), and small agricultural service firms, including handlers, are defined as those whose annual receipts are equal to or less than $34 million (NAICS code 11514, Postharvest Crop Activities). (13 CFR 121.201).

According to data from the National Agricultural Statistics Service (NASS), the 2022–2023 season average grower price for tart cherries utilized for processing was approximately $0.218

per pound. With total utilization for processing at 241.6 million pounds for the 2022–23 season, the total 2022–23 value of the crop utilized for processing is estimated at $52.7 million. Dividing the crop value by the estimated number of growers (400) yields an estimated average annual receipts per grower of approximately $132,000. This is well below the $3.5 million SBA threshold for small growers.

An estimate of the season average price per pound received by handlers for processed tart cherries was derived from USDA's purchases of dried tart cherries for feeding programs in 2023, which had an average price of $4.72 per pound. The dried cherry price was converted to a raw product equivalent price of $0.94 per pound at an industry recognized ratio of five to one. Based on utilization, this price represents a good estimate of the price for processed cherries. Multiplying this price by total processed utilization of 241.5 million pounds results in an estimated handler-level tart cherry value of $227 million. Dividing this figure by the number of handlers ($227 million divided by 30 handlers) yields estimated average annual receipts per handler of approximately $7.6 million, which is well below the SBA threshold of $34 million for small agricultural service firms. Assuming a normal distribution, the majority of growers and handlers of tart cherries may be classified as small entities.

The tart cherry industry in the United States is characterized by wide annual fluctuations in production. According to NASS, the pounds of tart cherry production utilized for processing for the years 2019 through 2022 were 234 million, 138 million, 171 million, and 241 million, respectively. Because of these fluctuations, supply and demand for tart cherries are rarely in balance.

Demand for tart cherries is inelastic, meaning changes in price have a minimal effect on total sales volume. However, prices are very sensitive to changes in supply, and grower prices vary widely in response to the large swings in annual supply. Grower prices per pound for processed utilization have ranged from a low of $0.07 in 1987 to a high of $0.59 per pound in 2012 when a weather event substantially reduced supply. Grower prices per pound for processed utilization over the most recent three years (2020 through 2022) were $0.38, $0.50, and $0.22, respectively.

Because of this relationship between supply and price, oversupplying the market with tart cherries would have a sharp negative effect on prices, driving down grower returns. Aware of this economic relationship, the Board focuses on using the volume control authority in the Order to align supply with demand and stabilize industry returns. This authority allows the industry to set free and restricted percentages to bring supply and demand into balance. Free percentage cherries can be marketed by handlers to any outlet, while restricted percentage volume must be held by handlers in reserve, diverted, or used for exempted purposes.

This proposal would establish 2023–24 crop year percentages of 94 percent free and 6 percent restricted. These percentages should stabilize marketing conditions by adjusting supply to meet market demand and help improve grower returns. The proposal would regulate tart cherries handled in Michigan, Utah, Washington, Wisconsin, and New York. The authority for this proposed action is provided in §§ 930.50, 930.51(a), and 930.52. The Board recommended this action at meetings on September 14, 2023, and December 14, 2023.

This proposal would result in some fruit being diverted from the primary domestic markets as authorized in the Order's marketing policy in § 930.50. However, as mentioned earlier, the USDA's ''Guidelines for Fruit, Vegetable, and Specialty Crop Marketing Orders'' (*https://www.ams.usda.gov/publications/content/1982-guidelines-fruit-vegetable-marketing-orders*) specify that 110 percent of recent years' sales should be made available to primary markets each crop year per § 930.50(g), before recommendations for volume regulation are approved. Under this proposal, the available quantity of 324.4 million pounds (Free production of 184.8 million plus a carry-in of 137.2 million plus 2.4 million pounds unregulated) would be 167 percent of the average sales for the last three years (194.2 million pounds).

In addition, there are secondary uses available for restricted fruit, including the development of new products, sales into new markets, the development of export markets, and being placed in reserve. While these alternatives may provide different levels of return than the sales to primary markets, they play an important role for the industry. The areas of new products, new markets, and the development of export markets utilize restricted fruit to develop and expand the markets for tart cherries.

Placing tart cherries into reserves is also a key part of balancing supply and demand. Although handlers bear the handling and storage costs for fruit in reserve, reserves stored in large crop years can be used to supplement supplies in short crop years. The reserves help the industry to mitigate the impact of oversupply in large crop years, while allowing the industry to supply markets in years when production falls below demand. During the 2020–21 season, the Board voted to release all fruit in the reserve into the primary market to increase supply.

In considering the establishment of free and restricted percentages, the Board recommended a carry-out of 85 million pounds to help ensure sufficient product to meet demand until availability of the following year's crop and to allow for inventory to span the lead-time on processing new products. The Board also recommended a demand adjustment of 33.24 million pounds. These numbers, along with carry-in, production in the unregulated districts, and free tonnage from the regulated districts, would make 324.4 million pounds of fruit available for the domestic market. This amount exceeds the 317.4 million pounds available in the previous season when the industry did not regulate the volume on the market. Even with the recommended restriction, the domestic market would have an ample supply of tart cherries. Further, should marketing conditions change, and market demand exceed existing supplies, the Board could meet and recommend the release of additional reserves up to 11.8 million pounds of tart cherries. Consequently, it is not anticipated that this proposal would unduly burden growers or handlers.

While this proposal could result in some additional costs to the industry, these costs would be outweighed by the benefits. The purpose of setting restricted percentages is to attempt to bring supply and demand into balance. If the primary market (domestic) is oversupplied with cherries, grower prices decline substantially. Without volume control, the primary market would likely be oversupplied, resulting in lower grower prices.

An AMS econometric model used to assess the impact volume control has on the price growers receive for their product estimated that volume control would have a positive impact on grower returns for this crop year. With volume control, grower prices are estimated to be about nine tenths of a cent higher than without restrictions. In addition, absent volume control, the industry could start to build large amounts of unwanted inventories, which in turn, could have a depressing effect on grower prices.

Retail demand is assumed to be inelastic, which indicates changes in

price do not result in significant changes in the quantity demanded. Consumer prices largely do not reflect fluctuations in cherry supplies. Therefore, this proposal should have little or no effect on consumer prices and should not result in a reduction in retail sales.

The free and restricted percentages established by this proposal would provide the market with optimum supply and would apply uniformly to all regulated handlers in the industry, regardless of size. As the restriction represents a percentage of a handler's volume, the costs, when applicable, are proportionate and should not place an extra burden on small entities as compared to large entities.

The stabilizing effects of this proposal would benefit all handlers by helping them maintain and expand markets, despite seasonal supply fluctuations. Likewise, price stability positively impacts all growers and handlers by allowing them to better anticipate the revenues their tart cherries would generate. Growers and handlers, regardless of size, would benefit from the stabilizing effects of the volume restriction.

As noted earlier, the Board discussed several carry-out inventory alternatives, ranging from 70 million pounds to 100 million pounds. The Board noted if the carry-out number was too large, it could have a negative impact on grower returns, and if it was too small, it could negatively impact the supply processors need before the harvest next season. After consideration of the alternatives, the Board recommended a carry-out of 85 million pounds.

The Board also weighed alternatives when discussing the economic adjustment. At its June meeting, the Board did not recommend making an economic adjustment after considering alternatives that included making no economic adjustment or an economic adjustment of 26 million pounds. However, in September, the Board revisited the issue and after discussion, and considering the impact of purchases by the USDA on available supply, recommended an economic adjustment of 30 million pounds. Additionally, the Board met again on December 14, 2023, and unanimously recommended adding another 3.24 million pounds to the economic adjustment to reflect the additional production volume.

Given the concerns with regulation expressed by Board members and industry members in attendance, the Board also considered recommending no volume regulation. However, after considering the larger than expected harvest and the carry-in inventory adding to the available supply, the industry recommended a six percent restriction to the 2023–24 crop. Thus, the alternatives were rejected.

The Board's meetings were widely publicized throughout the tart cherry industry and all interested persons were invited to attend the meeting and participate in Board deliberations on all issues. Like all Board meetings, the June, September, and December meetings were public meetings and all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit comments on this proposed rule, including the regulatory impacts of this action on small businesses.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Order's information collection requirements have been previously approved by OMB and assigned OMB No. 0581–0177, Tart Cherries Grown in the States of Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin. No changes are necessary in those requirements as a result of this action. Should any changes become necessary, they would be submitted to OMB for approval.

This proposed rule would not impose any additional reporting or recordkeeping requirements on either small or large tart cherry handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

AMS has not identified any relevant Federal rules that duplicate, overlap or conflict with this proposed rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: *https://www.ams.usda.gov/rules-regulations/moa/small-businesses.* Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendations submitted by the Board and other available information, USDA has determined that this proposed rule is consistent with and would effectuate the purposes of the Act.

A 30-day comment period is provided to allow interested persons to comment on this proposed rule. All written comments timely received will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 930

Cherries, Marketing agreements, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, the Agriculture Marketing Services proposes to amend 7 CFR part 930 as follows:

PART 930—TART CHERRIES GROWN IN THE STATES OF MICHIGAN, NEW YORK, PENNSYLVANIA, OREGON, UTAH, WASHINGTON, AND WISCONSIN

■ 1. The authority citation for 7 CFR part 930 continues to read as follows:

Authority: 7 U.S.C. 601–674.

■ 2. Revise § 930.256 and its heading title to read as follows:

§ 930.256 Free and restricted percentages for the 2023–24 crop year.

The percentages for tart cherries handled by handlers during the crop year beginning on July 1, 2023, which shall be free and restricted, respectively, are designated as follows: Free percentage, 94 percent and restricted percentage, 6 percent.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC–2023–0220]

RIN 3150–AL05

List of Approved Spent Fuel Storage Casks: FuelSolutions™ Spent Fuel Management System, Certificate of Compliance No. 1026, Renewal of Initial Certificate and Amendment Nos. 1 Through 4

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its spent fuel regulations by

revising the Westinghouse Electric Company LLC FuelSolutions™ Spent Fuel Management System listing within the ''List of approved spent fuel storage casks'' to renew the initial certificate and Amendment Nos. 1 through 4 to Certificate of Compliance No. 1026. The renewal of the initial certificate of compliance and Amendment Nos. 1 through 4 for 40 years would revise the certificate's conditions and technical specifications to address aging management activities related to the structures, systems, and components important to safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations.

DATES: Submit comments by May 20, 2024. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Submit your comments, identified by Docket ID NRC–2023–0220, at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

You can read a plain language description of this proposed rule at *https://www.regulations.gov/docket/NRC-2023-0220.* For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: George Tartal, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–0016, email: *george.tartal@nrc.gov* and Yen-Ju Chen, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–1018, email: *yen-ju.chen@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2023–0220 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2023–0220. Address questions about NRC dockets to Dawn Forder, telephone: 301–415–3407, email: *Dawn.Forder@nrc.gov.* For technical questions contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *PDR.Resource@nrc.gov.* For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the ''Availability of Documents'' section.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

B. Submitting Comments

Please include Docket ID NRC–2023–0220 in your comment submission. The NRC requests that you submit comments through the Federal rulemaking website at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Rulemaking Procedure

Because the NRC considers this action to be non-controversial, the NRC is publishing this proposed rule concurrently with a direct final rule in the Rules and Regulations section of this issue of the **Federal Register**. The direct final rule will become effective on July 3, 2024. However, if the NRC receives any significant adverse comment by May 20, 2024, then the NRC will publish a document that withdraws the direct final rule. If the direct final rule is withdrawn, the NRC will address the comments in a subsequent final rule. In general, absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action in the event the direct final rule is withdrawn.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC to make a change (other than editorial) to the rule, certificate of compliance, or technical specifications (TS).

For a more detailed discussion of the proposed rule changes and associated analyses, see the direct final rule published in the Rules and Regulations section of this issue of the **Federal Register**.

III. Background

Section 218(a) of the Nuclear Waste Policy Act of 1982, as amended, requires that ''[t]he Secretary [of the Department of Energy] shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the [Nuclear Regulatory] Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission.'' Section 133 of the Nuclear Waste Policy Act states, in part, that ''[t]he Commission shall, by rule, establish procedures for the licensing of any technology approved by the Commission under Section 219(a) [sic: 218(a)] for use at the site of any civilian nuclear power reactor.''

To implement this mandate, the Commission approved dry storage of spent nuclear fuel in NRC-approved casks under a general license by publishing a final rule that added a new subpart K in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) entitled ''General License for Storage of Spent Fuel at Power Reactor Sites'' (55 FR 29181; July 18, 1990). This rule also established a new subpart L in 10 CFR part 72 entitled ''Approval of Spent Fuel Storage Casks,'' which contains procedures and criteria for obtaining NRC approval of spent fuel storage cask designs. The NRC subsequently issued a final rule on January 16, 2001 (66 FR 3444), that approved the FuelSolutions™ Spent Fuel Management System design and added it to the list of NRC-approved cask designs in § 72.214 as Certificate of Compliance No.1026.

On August 28, 2007 (72 FR 49352), the NRC amended the scope of the general licenses issued under 10 CFR 72.210 to include the storage of spent fuel in an independent spent fuel storage installations (ISFSI) at power reactor sites to persons authorized to possess or operate nuclear power reactors under 10 CFR part 52. On February 16, 2011 (76 FR 8872), the NRC amended subparts K and L in 10 CFR part 72, to extend and clarify the term limits for certificates of compliance and revised the conditions for spent fuel storage cask renewals, including adding requirements for the safety analysis report to include time-limited aging analyses and a description of aging management programs. The NRC also clarified the terminology used in the regulations to use ''renewal'' rather than ''reapproval'' to better reflect that extending the term of a currently approved cask design is based on the cask design standards in effect at the time the certificate of compliance was approved rather than current standards.

IV. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, ''Plain Language in Government Writing,'' published June 10, 1998 (63 FR 31885). The NRC requests comment on the proposed rule with respect to clarity and effectiveness of the language used.

BILLING CODE 7590–01–P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 53

[REG–142338–07]

RIN 1545–BI33

Taxes on Taxable Distributions From Donor Advised Funds Under Section 4966; Hearing

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking; notice of hearing.

SUMMARY: This document provides a notice of public hearing on proposed regulations regarding excise taxes on taxable distributions made by a sponsoring organization from a donor advised fund (DAF), and on the agreement of certain fund managers to the making of such distributions.

DATES: The public hearing on these proposed regulations has been scheduled for Monday, May 6, 2024, at 10:00 a.m. ET and Tuesday, May 7, 2024, at 10:00 a.m. ET.

ADDRESSES: On Monday, May 6, 2024, the public hearing will be held in the Auditorium, at the Internal Revenue Service Building, 1111 Constitution Avenue NW, Washington, DC. Due to security procedures, visitors must enter at the Constitution Avenue entrance. In addition, all visitors must present a valid photo identification to enter the building. Because of access restrictions,

visitors will not be admitted beyond the immediate entrance area more than 30 minutes before the hearing starts. Participants may alternatively attend the public hearing by telephone.

On Tuesday, May 7, 2024, the public hearing will be held by telephone only.

FOR FURTHER INFORMATION CONTACT: Concerning the proposed regulations, call Christopher A. Hyde at (202) 317–5800 (not a toll-free number); concerning submissions of comments, the hearing and/or to be placed on the building access list to attend the public hearing, call Vivian Hayes (202–317–6901) (not a toll-free number) or by email to *publichearings@irs.gov* (preferred).

SUPPLEMENTARY INFORMATION: The subject of the public hearing is the notice of proposed rulemaking (REG–142338–07) that was published in the **Federal Register** on Tuesday, November 14, 2023, (88 FR 77922).

Persons who wished to present oral comments at the public hearing were required to submit an outline of the topics to be discussed as well as the time to be devoted to each topic by April 5, 2024. This due date for requests to testify has not been extended. Persons who made timely requests to testify will receive the telephone number and access codes for the public hearing.

An agenda showing the scheduling of the speakers will be prepared after the deadline for receiving outlines has passed. Copies of the agenda will be available free of charge at the hearing, and via the Federal eRulemaking Portal (*www.Regulations.gov*) under the title of Supporting & Related Material.

Individuals who want to attend the public hearing in person without testifying must send an email to *publichearings@irs.gov* to have your name added to the building access list. The subject line of the email must contain the regulation number REG–142338–07 and the language ATTEND In Person. For example, the subject line may say: Request to ATTEND Hearing In Person for REG–142338–07. Requests to attend the public hearing must be received by 5:00 p.m. ET on May 1, 2024.

Individuals who want to attend the public hearing by telephone without testifying must also send an email to *publichearings@irs.gov* to receive the telephone number and access code for the hearing. The subject line of the email must contain the regulation number REG–142338–07, and the language ATTEND Hearing Telephonically. For example, the subject line may say: Request to ATTEND Hearing Telephonically for REG–142338–07. Requests to attend the public hearing must be received by 5:00 p.m. ET on May 1, 2024.

Hearings will be made accessible to people with disabilities. To request special assistance during a hearing please contact the Publications and Regulations Section of the Office of Associate Chief Counsel (Procedure and Administration) by sending an email to *publichearings@irs.gov* (preferred) or by telephone at (202) 317–6901 (not a toll-free number) by 5:00 p.m. ET on April 30, 2024.

Any questions regarding speaking at or attending a public hearing may also be emailed to *publichearings@irs.gov.*

Oluwafunmilayo A. Taylor,

Section Chief, Publications and Regulations Section, Associate Chief Counsel (Procedure and Administration).

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 100

[Docket Number USCG–2024–0169]

RIN 1625–AA08

Special Local Regulation; Sail Grand Prix, Upper Bay, New York City, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is proposing to establish a temporary special local regulation in the Upper Bay of New York Harbor in support of Sail Grand Prix 2024 from June 21, 2024, through June 23, 2024. This special local regulation is necessary to provide for the safety of life from the dangers associated with high-speed sailing during the event. This proposed rulemaking would temporarily prohibit persons and vessels from entering, transiting through, blocking, or loitering within the event area, unless authorized by the Captain of the Port New York or a designated representative. We invite your comments on this proposed rulemaking.

DATES: Comments and related material must be received by the Coast Guard on or before May 20, 2024.

ADDRESSES: You may submit comments identified by docket number USCG–2024–0169 using the Federal Decision-Making Portal at *https://www.regulations.gov.* See the ''Public Participation and Request for Comments'' portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments. This notice of proposed rulemaking with its plain-language, 100-word-or-less proposed rule summary will be available in this same docket.

FOR FURTHER INFORMATION CONTACT: If you have questions about this proposed rulemaking, call or email MST1 Kathryn Veal, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718–354–4151, email *Kathryn.M.Veal@uscg.mil.*

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
COTP Captain of the Port
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
Sail GP Sail Grand Prix
§ Section
U.S.C. United States Code

II. Background, Purpose, and Legal Basis

On October 5, 2023, a representative of Sail Grand Prix (Sail GP) notified the Coast Guard of intentions to conduct Sail Grand Prix 2024 in the Upper Bay of New York Harbor from 1 p.m. to 4 p.m. on June 21, 2024, and from 3:30 p.m. to 6:30 p.m. on June 22, 2024, through June 23, 2024. The race will take place between Governor's Island, Ellis Island and Liberty Island in the Upper Bay featuring 50-foot foiling catamaran sailboats. Due to the high-profile nature of this event, spectator vessels and support craft that will be present and have the potential to cause vessel congestion in proximity of the Anchorage Channel and Hudson River Channel, the Captain of the Port (COTP) Sector New York has determined that potential hazards associated with the race and race location would be a safety concern for anyone within the race area and adjacent navigable waters.

The purpose of this rulemaking is to ensure the safety of vessels, spectators and participants and the navigable waters within the racing area before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70041.

III. Discussion of Proposed Rule

The COTP Sector New York proposes to establish a special local regulation in the Upper Bay of New York Harbor from 1 p.m. to 4 p.m. on June 21, 2024, and from 3:30 p.m. to 6:30 p.m. on June 22, 2024, through June 23, 2024. The areas regulated by this special local regulation would be between Governor's Island,

Ellis Island and Liberty Island and will cover all navigable waters, from surface to bottom, within the area formed by connecting the following latitude and longitude points in the following order: 40°42′10.6″ N, 74°01′48.5″ W; thence to 40°41′50.0″ N, 74°01′08.7″ W; thence to 40°41′35.6″ N 74°01′08.8″ W; thence along the shore to 40°41′02.4″ N 74°01′29.3″ W; thence to 40°40′46.9″ N 74°01′49.3″ W; thence to 40°40′49.0″ N 74°02′25.5″ W; thence to 40°41′13.3″ N 74°02′26.2″ W; thence to 40°41′31.0″ N 74°02′18.7″ W; thence to 40°41′54.6″ N 74°02′01.3″ W; thence to 40°42′03.9″ N 74°01′56.8″ W and thence back to the point of origin. The Sail GP Sponsor will mark the regulated area via colored visual markers and will designate a spectator area within the regulated area. The spectator area will be located on the southern end of the regulated area and may change depending upon the racecourse.

The duration of the establishment of the proposed special local regulation is intended to ensure the safety of vessels in these navigable waters during the scheduled practice and race periods. This proposed temporary special local regulation would temporarily restrict vessel traffic in the vicinity of Liberty Island and Ellis Island and prohibit vessels and persons not participating in the race event from entering the dedicated race area. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This NPRM has not been designated a ''significant regulatory action,'' under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, this NPRM has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, duration, and time-of-day of the special local regulation. Vessel traffic will be able to safely transit around this area via the Buttermilk Channel and via a transit lane west of the race area. The event will impact a small, designated area of the New York Harbor for less than 4 hours each day. Considerations were made to adjust to an earlier time for Friday June 21, 2024, as to reduce impact to commuter ferries. Moreover, the Coast Guard would issue a Broadcast Notice to Mariners via VHF–FM Channel 16 about the regulation, and the rule would allow vessels to seek permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the zone may be small entities, for the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator. Routes around the race area are present while the special local regulation is in effect.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the potential effects of this proposed rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves special local regulation lasting 4 hours that would limit entry to the race area without authorization from the Captain of the Port or their

designated representatives. Normally such actions are categorically excluded from further review under paragraph L61 of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

V. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking and will consider all comments and material received during the comment period. Your comment can help shape the outcome of this rulemaking. If you submit a comment, please include the docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

Submitting comments. We encourage you to submit comments through the Federal Decision-Making Portal at *https://www.regulations.gov.* To do so, go to *https://www.regulations.gov,* type USCG–2024–0169 in the search box and click ''Search.'' Next, look for this document in the Search Results column, and click on it. Then click on the Comment option. If you cannot submit your material by using *https://www.regulations.gov,* call or email the person in the **FOR FURTHER INFORMATION CONTACT** section of this proposed rule for alternate instructions.

Viewing material in docket. To view documents mentioned in this proposed rule as being available in the docket, find the docket as described in the previous paragraph, and then select ''Supporting & Related Material'' in the Document Type column. Public comments will also be placed in our online docket and can be viewed by following instructions on the *https://www.regulations.gov* Frequently Asked Questions web page. Also, if you click on the Dockets tab and then the proposed rule, you should see a ''Subscribe'' option for email alerts. The option will notify you when comments are posted, or a final rule is published.

We review all comments received, but we will only post comments that address the topic of the proposed rule. We may choose not to post off-topic, inappropriate, or duplicate comments that we receive.

Personal information. We accept anonymous comments. Comments we post to *https://www.regulations.gov* will include any personal information you have provided. For more about privacy and submissions to the docket in response to this document, see DHS's eRulemaking System of Records notice (85 FR 14226, March 11, 2020).

List of Subjects in 33 CFR Part 100

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard is proposing to amend 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for part 100 continues to read as follows:

Authority: 46 U.S.C. 70041; 33 CFR 1.05–1.

■ 2. Add § 100.T01–0169 to read as follows:

§ 100.T01–0169 Sail Grand Prix 2024, Upper Bay New York Harbor, New York City, NY.

(a) *Regulated area.* The regulations in this section apply to the following area: All waters of the Upper Bay of New York Harbor, from surface to bottom, encompassed by a line connecting the following points beginning at 40°42′10.6″ N, 74°01′48.5″ W; thence to 40°41′50.0″ N, 74°01′08.7″ W; thence to 40°41′35.6″ N 74°01′08.8″ W; thence along the shore to 40°41′02.4″ N 74°01′29.3″ W; thence to 40°40′46.9″ N 74°01′49.3″ W; thence to 40°40′49.0″ N 74°02′25.5″ W; thence to 40°41′13.3″ N 74°02′26.2″ W; thence to 40°41′31.0″ N 74°02′18.7″ W; thence to 40°41′54.6″ N 74°02′01.3″ W; thence to 40°42′03.9″ N 74°01′56.8″ W and thence back to the point of origin. These coordinates are based on North American Datum 83 (NAD 83).

(b) *Definitions.* As used in this section—

Designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port New York (COTP) in the enforcement of the regulations in this section.

Participant means all persons and vessels registered with the event sponsor as a participant in the race.

(c) *Regulations.* (1) All non-participants are prohibited from entering, transiting through, anchoring in, or remaining within the regulated area described in paragraph (a) of this section unless authorized by the Captain of the Port New York (COTP) or their designated representative.

(2) To seek permission to enter, contact the COTP or the COTP's representative by VHF–FM Channel 16. Those in the regulated area must comply with all lawful orders or directions given to them by the COTP or the designated representative.

(3) The COTP will provide notice of the regulated area through advanced notice via broadcast notice to mariners and by on-scene designated representatives.

(d) *Enforcement periods.* This section will be enforced from 1 p.m. to 4 p.m. on June 21, 2024, and from 3:30 p.m. to 6:30 p.m. on June 22, 2024, through June 23, 2024.

Zeita Merchant,

Captain, U.S. Coast Guard, Captain of the Port Sector New York.

RIN 0651–AD72

Patent Trial and Appeal Board Rules of Practice for Briefing Discretionary Denial Issues, and Rules for 325(d) Considerations, Instituting Parallel and Serial Petitions, and Termination Due to Settlement Agreement

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice of proposed rulemaking.

SUMMARY: The United States Patent and Trademark Office (USPTO or Office) proposes modifications to the rules of practice for inter partes review (IPR) and post-grant review (PGR) proceedings before the Patent Trial and Appeal Board (PTAB or Board) that the Director and, by delegation, the PTAB will use

in exercising discretion to institute IPRs and PGRs. The Office proposes these provisions in light of stakeholder feedback received in response to an October 2020 Request for Comments (RFC) and an April 2023 Advance Notice of Proposed Rulemaking (ANPRM). The proposals enhance and build on existing precedent and guidance regarding the exercise of the Director's discretion pursuant to the America Invents Act (AIA) to determine whether to institute an IPR or PGR proceeding with regard to serial petitions, parallel petitions, and petitions implicating the same or substantially the same art or arguments previously presented to the Office. The proposed rules also provide a separate briefing process for discretionary institution arguments and align the procedures for termination of proceedings pre- and post-institution.

DATES: Comments must be received by June 18, 2024 to ensure consideration.

ADDRESSES: *For reasons of Government efficiency,* comments must be submitted through the Federal eRulemaking Portal at *https://www.regulations.gov*. To submit comments via the portal, one should enter docket number PTO–P–2023–0048 on the homepage and click ''search.'' The site will provide search results listing all documents associated with this docket. Commenters can find a reference to this notice and click on the ''Comment'' icon, complete the required fields, and enter or attach their comments. Attachments to electronic comments will be accepted in Adobe® portable document format (PDF) or Microsoft Word® format. Because comments will be made available for public inspection, information that the submitter does not desire to make public, such as an address or phone number, should not be included in the comments.

Visit the Federal eRulemaking Portal for additional instructions on providing comments via the portal. If electronic submission of, or access to, comments is not feasible due to a lack of access to a computer and/or the internet, please contact the USPTO using the contact information below for special instructions.

FOR FURTHER INFORMATION CONTACT: Michael P. Tierney, Vice Chief Administrative Patent Judge; Amber L. Hagy, Lead Administrative Patent Judge; or

Jamie T. Wisz, Lead Administrative Patent Judge, at 571–272–9797.

SUPPLEMENTARY INFORMATION:

Background

The USPTO is charged with promoting innovation through patent protection. U.S. Const., art. I, section 8. The patent system is a catalyst for jobs, economic prosperity, and world problem-solving. It fosters innovation by encouraging the public disclosure of ideas and by providing inventors time-limited exclusive rights to their patented innovation, thereby incentivizing research and development and investment in the same, as well as the investment necessary to bring that research and development to market. The patent system works most efficiently and effectively when the USPTO issues and maintains robust and reliable patents upon which patent owners and the public can rely to engage in technology transfer and licensing (including cross-licensing), invest in innovations to bring them to market and commercialize ideas, and/or to enforce patent rights.

Congress granted the Office ''significant power to revisit and revise earlier patent grants'' as a mechanism to ''improve patent quality and restore confidence in the presumption of validity that comes with issued patents.'' *Cuozzo Speed Techs., LLC* v. *Lee,* 579 U.S. 261, 272 (2016) (quoting H.R. Rep. No. 112–98, pt. 1, at 45, 48). Congress also sought to ensure that the proceedings provided ''a quick, inexpensive, and reliable alternative to district court litigation to resolve questions of patent validity.'' S. Rep. No. 110–259, at 20. At the same time, Congress instructed that ''the changes made by [the AIA] are not to be used as tools for harassment or a means to prevent market entry through repeated litigation and administrative attacks on the validity of a patent,'' as ''[d]oing so would frustrate the purpose of the section as providing quick and cost-effective alternatives to litigation.'' H.R. Rep. No. 112–98, at 48 (2011).

Under 35 U.S.C. 316(a) and 326(a), the Director shall prescribe regulations for certain enumerated aspects of AIA proceedings and 35 U.S.C. 2(b)(2)(A) gives the Director authority to establish regulations that ''shall govern the conduct of proceedings in the Office.'' The proposed rules are in furtherance of this statutory authority.

The AIA gives the Director discretion to institute an IPR or PGR proceeding that satisfies the relevant statutory institution standard. Sections 314(a) and 324(a) of 35 U.S.C. provide the Director with discretion to deny a petition, even when meritorious. *See, e.g.,* 35 U.S.C. 314(a) (stating ''[t]he Director may not authorize an *inter partes* review to be instituted unless . . .''); *Cuozzo,* 579 U.S. at 273 (''[T]he agency's decision to deny a petition is a matter committed to the Patent Office's discretion.''). The Director's discretion to institute an AIA trial is informed by 35 U.S.C. 316(b) and 326(b), which require that ''the Director shall consider the effect of any such regulation on the economy, the integrity of the patent system, the efficient administration of the Office, and the ability of the Office to timely complete proceedings instituted under'' 35 U.S.C. 316 and 326. In addition, 35 U.S.C. 325(d) provides that ''[i]n determining whether to institute or order a proceeding . . . , the Director may take into account whether, and reject the petition or request because, the same or substantially the same prior art or arguments previously were presented to the Office.''

The powers and discretion granted to the Director to determine whether to institute an AIA proceeding have been delegated to the PTAB. 35 U.S.C. 6(a), 314, 324; 37 CFR 42.4(a). To promote the delegated authority being exercised consistent with how the Director would exercise their discretion and consistently across panels, and to promote more transparency and consistency for those appearing before the PTAB and the public, the Director and the PTAB have issued guidance and precedential decisions. In particular, to take into account the 35 U.S.C. 316(b) and 326(b) considerations of the economy, the integrity of the patent system, and the ability of the USPTO to provide timely and cost-effective post-grant proceedings, as outlined in the AIA, this guidance and precedential decisions have set forth factors to consider when determining whether to institute an AIA review, including whether: (1) more than one AIA petition challenging the same patent is filed by the same petitioner at the same time as the first petition or up until the filing of the preliminary response in the first filed proceeding (''parallel petitions''); (2) additional AIA petitions are filed by the same petitioner (or privy or real party in interest with a petitioner) challenging overlapping claims of the same patent as the first petition after the patent owner has filed a preliminary response to the first petition (''serial'' or ''follow-on'' petitions); or (3) an AIA petition relies on the same or substantially the same prior art or arguments previously addressed by the USPTO in connection with the challenged patent (implicating considerations under 35 U.S.C. 325(d)).

The changes under consideration would amend the rules of practice for IPR and PGR proceedings to codify and

build on that guidance and those precedential decisions as well as formalize PTAB's current practices, while creating more uniformity across PTAB panels. In proposing these changes, the Director considered ''the effect of any such regulation on the economy, the integrity of the patent system, the efficient administration of the Office, and the ability of the Office to timely complete proceedings instituted under'' 35 U.S.C. 316 and 326. The Director has also considered the comments received from stakeholders, including those in response to the ''Request for Comments on Discretion To Institute Trials Before the Patent Trial and Appeal Board'' (85 FR 66502 (Oct. 20, 2020)), and received in response to the ANPRM titled ''Changes Under Consideration to Discretionary Institution Practices, Petition Word-Count Limits, and Settlement Practices for America Invents Act Trial Proceedings Before the Patent Trial and Appeal Board'' (88 FR 24503 (Apr. 21, 2023)). In light of the robust, extensive feedback from diverse stakeholders, and the Board's experience in implementing the AIA for over a decade, the Office proposes rule revisions intended to help ensure fairness, transparency, and efficiency. This rulemaking is consistent with comments received from stakeholders in response to the RFC and the ANPRM, as well as those received in other contexts, expressing a preference that key policy changes be made and formalized through rulemaking.

The Office is now proposing rules addressing a subset of topics from the ANPRM. The Office continues to consider issuing proposed rules, with associated opportunities to comment, on other topics raised in the ANPRM.

The Office proposes to incorporate into the rules the factors the Board will consider in determining whether to institute an IPR or PGR for parallel petitions and serial petitions as well as set forth the framework the Board will use to conduct an analysis under 35 U.S.C. 325(d) when determining whether to institute an IPR or PGR. These proposed changes enhance and build on existing precedent and guidance regarding the exercise of the Director's discretion to determine whether to institute an AIA proceeding.

Another proposed change would provide a procedure in which a patent owner may, in a separate paper filed prior to a preliminary response, request discretionary denial of institution, in which case each of the parties will have the opportunity, in a separate responsive briefing, to address relevant factors for discretionary denial. This separate briefing avoids encroaching on the parties' word-count limits for briefing on the merits.

An additional proposed change would amend the rules of practice for the termination of proceedings in view of settlement to align the requirements for terminating proceedings pre- and post-institution, requiring that pre-institution settlement agreements be filed timely with the Board to support termination of a proceeding pre-institution. This proposed change would also align with the ''Executive Order on Promoting Competition in the American Economy'' (E.O. 14036, 86 FR 36987 (July 9, 2021)) by facilitating a depository for all settlement agreements in connection with contested cases, including AIA proceedings, to assist the Federal Trade Commission (FTC) and the Department of Justice (DOJ) in ensuring compliance with antitrust laws.

Development of the Changes Under Consideration

On September 16, 2011, the AIA was enacted into law (Pub. L. 112–29, 125 Stat. 284 (2011)), and in 2012, the USPTO implemented rules to govern Office practice for AIA proceedings, including IPRs, PGRs, covered business method (CBM) patent reviews, and derivation proceedings pursuant to 35 U.S.C. 135, 316, and 326 and AIA 18(d)(2). *See* 37 CFR part 42; Rules of Practice for Trials Before the Patent Trial and Appeal Board and Judicial Review of Patent Trial and Appeal Board Decisions, 77 FR 48612 (Aug. 14, 2012); Changes to Implement Inter Partes Review Proceedings, Post-Grant Review Proceedings, and Transitional Program for Covered Business Method Patents, 77 FR 48680 (Aug. 14, 2012); Transitional Program for Covered Business Method Patents—Definitions of Covered Business Method Patent and Technological Invention, 77 FR 48734 (Aug. 14, 2012). Additionally, the USPTO published a ''Patent Trial Practice Guide'' to advise the public on the general framework of the regulations, including the structure and times for taking action in each of the new proceedings. *See* Office Patent Trial Practice Guide, 77 FR 48756 (Aug. 14, 2012). Since then, the USPTO has designated numerous decisions in such proceedings as precedential or informative, issued several Director memoranda providing agency guidance on the PTAB's implementation of various statutory provisions, and issued several updates to the ''Trial Practice Guide.''

Prior Request for Comments Regarding Discretionary Institution

On October 20, 2020, the USPTO published an RFC to obtain feedback from stakeholders on case-specific approaches by the PTAB for exercising discretion on whether to institute an AIA proceeding and whether the USPTO should promulgate rules based on these approaches. *See* Request for Comments on Discretion To Institute Trials Before the Patent Trial and Appeal Board, 85 FR 66502 (Oct. 20, 2020). The USPTO received 822 comments from a wide range of stakeholders, including individuals, associations, law firms, companies, and three United States Senators. In January 2021, the USPTO published an executive summary encapsulating stakeholder feedback received from the RFC.[1]

Prior Advance Notice of Proposed Rulemaking

On April 20, 2023, as a follow-up to the RFC, the USPTO published an ANPRM to obtain feedback from stakeholders on a range of concepts relating to how the Director, and, by delegation, the PTAB, exercises discretion to institute IPRs and PGRs under 35 U.S.C. 314(a), 324(a), and 325(d). *See* Changes Under Consideration to Discretionary Institution Practices, Petition Word-Count Limits, and Settlement Practices for America Invents Act Trial Proceedings Before the Patent Trial and Appeal Board, 88 FR 24503 (Apr. 20, 2023). In the ANPRM, the USPTO also solicited comments regarding whether it should provide a separate briefing process for discretionary institution arguments, and/or clarify that parties that settle prior to institution must file copies of any settlement agreements that exist with the PTAB.

Engagement on the ANPRM was extensive. During the two-month comment period, which ended on June 20, 2023, diverse stakeholders submitted over 14,500 comments, reflecting the nation's deep interest in shaping the future of the patent system. The comments provided support for, opposition to, and diverse recommendations on the concepts discussed. The Office appreciates the thoughtful comments and has considered and analyzed them thoroughly.

[1] USPTO, Executive Summary: Public Views on Discretionary Institution of AIA Proceedings (Jan. 2021), available at *https://www.uspto.gov/sites/default/files/documents/USPTOExecutiveSummaryofPublicViewsonDiscretionaryInstitutiononAIAProceedingsJanuary2021.pdf.*

The vast majority of comments were from individuals, whose views generally fell on the opposite ends of the spectrum—stating either that AIA review is an important protection against unwarranted litigation and unpatentable claims and the Office should have fewer bases for discretionarily denying review of patents or that AIA review is being misused, for example, to the detriment of small inventors.

The USPTO also received many comments from trade and legal associations representing numerous members, many of which provided detailed, point-by-point comments on each concept discussed in the ANPRM. Individual companies also weighed in, from large, established corporations to small startups. These comments also spanned the spectrum, with some supporting or opposing all or most of the concepts discussed.

Discussion of Proposed Changes

In this section, the Office describes the proposed changes to specific sections in part 42 of Title 37 of the Code of Federal Regulations. Each subsection describes a related group of regulatory changes and discusses stakeholder comments relevant to the proposed changes. The Office solicits additional comments on the specific proposed changes.

Definitions: Section 42.2

Section 42.2: Adds definitions of ''serial petition'' and ''parallel petitions'' as follows:

A ''serial petition'' is a petition that (1) challenges overlapping claims of the same patent that have already been challenged by the petitioner, the petitioner's real party in interest, or a privy of the petitioner; and (2) is filed after (a) the filing of a patent owner preliminary response to the first petition; or (b) the expiration of the period for filing such a response under § 42.107(a)(2) or § 42.207(a)(2), or as otherwise ordered, if no preliminary response to the first petition is filed.

Discussion: Comments were mixed as to whether the definition of a serial petition should apply to petitions filed by parties other than the original petitioner, and what degree of relationship between the parties is sufficient to bring a subsequent petition under the definition of a serial petition. Some comments expressed uncertainty as to the definition of ''significant relationship'' as set forth in *Valve Corp.* v. *Electronic Scripting Products, Inc.,* IPR2019–00062, Paper 11 (PTAB Apr. 2, 2019), and asked for clarity as to the degree of relationship that would be considered sufficient. The Office has determined that applying the real party in interest and privity concepts in exercising discretion in the serial petition context carries out Congress's desire that the Director balance concerns about harassment in exercising discretion. Further, adopting the established common-law concepts of real party in interest and privity (*see Taylor* v. *Sturgell,* 553 U.S. 880 (2008)) provides a body of case law from which the PTAB and the public can draw when assessing whether the relationship between the parties is sufficiently significant to warrant discretionary denial. The Office notes that though *Valve* used the term ''significant relationship'' to examine the relationship between the petitioners, the analysis was consistent with privity concepts.

''Parallel petitions'' are two or more petitions that (1) challenge the same patent and (2) are filed by the same petitioner on or before: (a) the filing of a patent owner preliminary response to any of the petitions, or (b) the due date set forth in § 42.107(a)(2) or § 42.207(a)(2) for filing a patent owner preliminary response to the first petition (if no patent owner preliminary response to the petitions is filed).

Discussion: In response to the ANPRM, some commenters expressed concern that the definition of parallel petitions in the ANPRM was overly restrictive, as the definition focused on petitions challenging the same ''patent'' as opposed to petitions challenging overlapping ''claims'' of the patent. The Office is moving forward with the ''same patent'' definition as opposed to the ''overlapping claims'' definition at this time to provide a mechanism for the Board to review filing behaviors to assess whether there are any abuses or misuses of the post-grant procedures, including ones that may place unwarranted and unnecessary burdens on the patent owner (*e.g.,* filing, without explanation, multiple petitions challenging a single patent where each petition challenges a single claim of the patent). That said, even if two petitions are considered parallel under this definition, if the petitions challenge different claims given a large claim set or different art relevant to the different claim sets, the Board may still exercise its discretion to institute both petitions under proposed §§ 42.108(d) and 42.208(e).

Some commenters requested more clarity regarding the difference in timing between petitions the Office deems to be filed in parallel and those it deems to be filed serially. To provide better clarity on this issue, the Office proposes to define a parallel petition in the rule as one filed during the time period for filing a patent owner preliminary response in the first proceeding. This timing reflects current practice, as noted in the Board's 2019 Consolidated Trial Practice Guide.

Briefing on Motions for Discretionary Denial: Sections 42.24, 42.107, 42.207, 42.108(c)(1), 42.208(c)(1)

Section 42.24: Provides page limits for briefing on requests for discretionary denial (which are provided for in §§ 42.107 and 42.207, and which further provide that a patent owner may file the request for discretionary denial without Board authorization under 37 CFR 42.20(b)). A patent owner request for discretionary denial is limited to 10 pages, a petitioner opposition is also limited to 10 pages, and a patent owner sur-reply is limited to 5 pages.

Sections 42.107 and 42.207: Amend the rules on preliminary responses to provide that the patent owner preliminary response shall not address discretionary denial unless authorized by the Board, and further provide that a patent owner may raise and address discretionary denial issues in a separate request for discretionary denial of the petition, which would be limited to addressing any applicable discretionary institution issues and factors. Issues and factors applicable to requests for discretionary institution include those provided for in proposed §§ 42.108 and 42.208, except §§ 42.108(d) and 42.208(e) governing parallel petitions, as well as any issue that the patent owner believes warrants discretionary denial of the petition in view of the Office's rules, precedents, or guidance. The proposed amendment also provides the following due dates: (1) a request for discretionary denial must be filed no later than two months after the date of a notice indicating that the petition to institute an IPR has been granted a filing date; (2) the opposition to the request must be filed no later than one month after the filing of the request for discretionary denial; and (3) a reply in support of the request must be filed no later than two weeks after the filing of the opposition. The proposed amendment also provides that the Board may *sua sponte* raise discretionary denial, in which case the Board will provide the parties with the opportunity for briefing on the relevant factors set forth in this section. However, nothing in the rules prevents the Board, when the circumstances warrant, from exercising discretion and authorizing the patent owner to include discretionary denial issues in the patent owner preliminary response. Further, to the extent the merits are relevant to

discretionary denial, the parties may direct the Board's attention to the petition and patent owner preliminary response for discussion of the merits as contained in those documents.

Sections 42.108(c)(1) and 42.208(c)(1): Provide that the Board's decision on institution will take into account a patent owner's request for discretionary denial when such a request is filed, including any opposition and reply.

Discussion: The Office has found the practice of allowing parties to file separate papers ranking their petitions in the order in which petitioner desires the Board to consider the merits is helpful in evaluating parallel petitions while preserving the parties' word count to focus on the merits of the challenge. The Office solicited feedback in the ANRPM on a similar procedure to allow parties to address discretionary denial in separate briefing. In response, most commenters favored separate briefing to discuss discretionary denial issues, noting that it would free up space in the petitions and patent owner responses to address the merits and allow more fulsome discussion of discretionary denial issues. That response is consistent with the responses the USPTO received from the RFC.

In response to the ANPRM, some commenters expressed concern that allowing separate briefing on discretionary denial would only favor petitioners because it would give a petitioner an automatic right to respond to a patent owner preliminary response. The proposed rules address these concerns by limiting the petitioner's opposition to the patent owner's request for discretionary denial to the issues raised in that request, and then allowing a patent owner the opportunity to file a reply brief limited to responding to the petitioner's opposition.

The USPTO also recognizes that there may be instances in which it is appropriate for the Office to address discretionary denial even if the patent owner does not file a request. The Office is further proposing amendments to §§ 42.107 and 42.207 to provide that the Board may raise discretionary denial *sua sponte,* in which case the Board will provide the parties with the opportunity for briefing.

Termination and Settlement Agreements: 37 CFR 42.72 and 42.74

Section 42.72: Revises the provisions for termination of a proceeding in view of settlement, clarifying that the Board may terminate a proceeding on its own initiative before or after institution. Provides that the parties may jointly move for termination of a proceeding, before or after institution.

Section 42.74: Provides that a joint motion for termination of a proceeding, filed before or after institution, must be accompanied by any written settlement agreement.

Discussion: Since FY2020, the settlement rate for AIA proceedings has been approximately 30% per year, with pre-institution being over 50% of the settlements each year. *See https://www.uspto.gov/sites/default/files/documents/ptab_aia_fy2023__roundup.pdf.* For consistency and predictability, the USPTO is proposing changes to the rules to ensure that pre-institution settlement agreements are filed with the Office, similar to post-institution settlement agreements. Although 35 U.S.C. 135(e), 317(b), and 327(b) require filing of settlement agreements made in connection with, or in contemplation of, the termination of an AIA proceeding that has been instituted, by their own terms these statutory provisions do not expressly govern AIA pre-institution settlement. *See* Rules of Practice for Trials Before the Patent Trial and Appeal Board and Judicial Review of Patent Trial and Appeal Board Decisions, 77 FR 48612, 48625 (Aug. 14, 2012) (final rule) (stating that ''35 U.S.C. 135(e) and 317, as amended, and 35 U.S.C. 327 will govern settlement of Board trial proceedings but do not expressly govern pre-institution settlement''). Pursuant to the Board's authority to establish procedural rules for post-grant proceedings, 35 U.S.C. 316(a)(4) and 326(a)(4), we propose to extend the same practice required by statute to encompass current practice and require filing of pre-institution settlement agreements.

This proposed rule aligns with the policy set forth in Executive Order 14036, which encourages government agencies to cooperate on policing unfair, anticompetitive practices. In addition, having a depository for all settlement agreements in connection with contested cases, including AIA proceedings, in the USPTO would assist the FTC and the DOJ in determining whether antitrust laws have been violated.

Since the inception of AIA proceedings, the Board has been generally uniform in requiring the filing of a settlement agreement prior to terminating an AIA proceeding based on a joint motion by the parties, pre- or post-institution. Nevertheless, some petitioners have filed motions to dismiss or withdraw the petition before institution, arguing that they should not be required to file a copy of the parties' settlement agreements, and panels in some of those cases have granted the motions and terminated the proceedings without requiring the parties to file their settlement agreements. *See, e.g., Samsung Elecs. Co.* v. *Telefonaktiebolaget LM Ericsson,* IPR2021–00446, Paper 7 (PTAB Aug. 3, 2021) (Order—Dismissal Prior to Institution of Trial) (over the dissent of one Administrative Patent Judge (APJ), granting the petitioner's motion to dismiss the petition and terminating the proceeding without requiring the parties to file their settlement agreements); *Huawei Techs. Co.* v. *Verizon Patent & Licensing Inc.,* IPR2021–00616, Paper 9 and IPR2021–00617, Paper 9 (PTAB Sept. 9, 2021) (Order—Dismissal Prior to Institution of Trial) (same dispute among a panel of APJs); *AEP Generation Res. Inc.* v. *Midwest Energy Emissions Corp.,* IPR2020–01294, Paper 11 (PTAB Dec. 14, 2020).

Stakeholder comments in response to the ANPRM were divided on whether the filing of pre-institution settlement agreements should be required to terminate a proceeding pre-institution. A number of comments supported the filing of pre-institution settlement agreements to provide greater transparency and to curb the potential for abusive filings. The Office agrees. The proposed changes provide consistency and predictability by making clear that pre-institution settlement agreements must be filed with the Office. This approach provides the USPTO a greater ability to monitor and curb potential abusive filings and, consistent with Executive Order 14036, allows the USPTO to cooperate with other government agencies to police unfair, anticompetitive practices.

A few ANPRM comments opposed the proposed requirement to file pre-institution settlement agreements, taking the position that the statute only requires the filing of agreements post-institution. Some believed that parties should have the option to voluntarily file pre-institution settlement agreements. A few comments expressed concern that the Office lacks authority to require the filing of settlement agreements to terminate a proceeding before institution. As noted above, the statute requires the filing of settlement agreements made in connection with, or in contemplation of, the termination of a proceeding that has been instituted, and is silent on AIA pre-institution settlement. The proposed rule is promulgated within the Director's authority to prescribe regulations establishing and governing an IPR under the AIA provisions. *See* 35 U.S.C. 316(a)(4).

Further, as discussed above, the Board has been generally uniform in requiring

the filing of a settlement agreement prior to terminating an AIA proceeding both pre- and post-institution, pursuant to 37 CFR 42.74(b). The proposed rule ensures greater predictability and consistency.

Some ANPRM comments expressed concern that requiring the filing of settlement agreements would discourage or complicate pre-institution settlement negotiations. As noted above, the proposed rule is consistent with the prior general uniform practice of the Board of requiring the filing of settlement agreements if parties would like termination based on settlement prior to a decision on institution. Any concerns regarding possible disclosure to nonparties of settlement terms from such filings have not been borne out in practice, given the availability of filing such documents with the designation ''Board and Parties Only.''

Factors for Discretionary Denial: 37 CFR 42.108 and 42.208

Sections 42.108 and 42.208: Revise the rules for institution of IPRs to include factors to be addressed in consideration of discretionary denial on the basis of parallel petitions (§§ 42.108(d), 42.208(e)) and serial petitions (§§ 42.108(e), 42.208(f)), and in accordance with 35 U.S.C. 325(d) (§§ 42.108(f), 42.208(g)).

Sections 42.108(c)(1) and 42.208(c)(1) provide that the factors set forth for discretionary denial shall not be construed to limit the Board's discretion to deny institution or dismiss a proceeding as a sanction or in response to evidence of improper conduct or gamesmanship.

Sections 42.108(c)(2) and 42.208(c)(2) provide that, in reaching a decision on institution of a petition accompanied by a timely motion for joinder to a petition that was instituted, the Board will not consider arguments against initiating that petition on the basis of discretionary considerations under §§ 42.108(d) and 42.208(e) (parallel petitions) or §§ 42.108(f) and 42.208(g) (petitions implicating 35 U.S.C. 325(d)) where those considerations were available in the already-instituted petition. However, the Board may deny motions for joinder and the later-filed petition where a patent owner successfully identifies other bases for discretionary denial.

Sections 42.108(d) and 42.208(e) provide that the Board will not institute parallel petitions absent a threshold showing of good cause as to why more than one petition is necessary. The petitioner must provide information relevant to a good cause determination either in the petition or a separate filing, and the patent owner may respond in a separate filing. Various factors relevant to the good cause determination may be considered by the Board, including: (1) a petitioner's ranking of their parallel petitions in the order in which petitioner wishes the Board to consider the merits, (2) an explanation of the differences between parallel petitions, (3) the number of claims challenged by the petitioner and asserted by the patent owner, (4) whether the parties dispute the priority date of the challenged patent, (5) whether there are alternative claim constructions requiring different prior art, (6) whether the petitioner lacked information at the time of filing the petition; and (7) the complexity of the technology in the case, as well as any other information believed to be pertinent to the good cause determination.

Sections 42.108(e) and 42.208(f) provide that the Board may deny institution of any serial petition when it challenges claims of the same patent that overlap with claims challenged in a previously filed petition for IPR, PGR, or CBM patent review. The Board will consider various factors in determining whether to deny institution of a serial petition, including: (1) whether, at the time of filing of the first petition, the petitioner knew of the prior art asserted in the second petition or should have known of it; (2) whether, at the time of filing of the second petition, the petitioner had already received the patent owner preliminary response to the first petition or had received the Board's institution decision for the earlier petition; (3) the length of time that elapsed between the time the petitioner learned of the prior art asserted in the second petition and the filing of the second petition; and (4) whether the petitioner provided an adequate explanation for the time elapsed between the filings of multiple petitions directed to the same claims of the same patent. (As discussed below, these are factors (2) through (5) from the 2017 *General Plastic* precedential decision. Factor (1) from *General Plastic* is incorporated into the proposed rule's definition of a ''serial petition,'' and factors (6) and (7) are not included in the proposed rule.)

Sections 42.108(f) and 42.208(g) provide that the Board may deny a petition for IPR under 35 U.S.C. 325(d) if the same or substantially the same prior art or arguments previously presented were meaningfully addressed by the Office with respect to the challenged patent or a related patent or application, unless the petitioner establishes material error in the Office's previous evaluation. The rule provides an opportunity for a patent owner to file a request for discretionary denial under 35 U.S.C. 325(d), for the petitioner to file an opposition, and for the patent owner to file a reply. The Board may deny the petition if section 325(d) is sufficiently implicated such that instituting on all grounds of unpatentability would not promote the efficient administration of the Office or support the integrity of the patent system.

Discussion

Statutory Authority

Some comments assert generally that discretionary denials frustrate Congress's intent by depriving parties of the ability to seek AIA review. Some comments express the view that the Director does not have the authority to preclude serial or parallel petitions.

Congress specifically granted the Director of the USPTO the authority to institute a review. 35 U.S.C. 314 and 324. The AIA statute does not require the Director to institute a review in any case, and gives the Director discretion not to institute even where the statutory requirements for institution are met. The Director's discretion is informed by 35 U.S.C. 316 and 326, which require that ''the Director shall consider the effect of any such regulation on the economy, the integrity of the patent system, the efficient administration of the Office, and the ability of the Office to timely complete proceedings instituted under this chapter.'' 35 U.S.C. 316 and 326. Congress also empowered the Director to prescribe regulations related to the implementation of the AIA. *See* 35 U.S.C. 316(a) and 326(a) (stating that the Director shall prescribe regulations for certain enumerated aspects of AIA proceedings). Under 35 U.S.C. 2(b)(2)(A), the Director may establish regulations that ''shall govern the conduct of proceedings in the Office.'' The language and intent of the above statutes therefore support evaluating whether parallel or serial petitions advance the mission and vision of the Office to promote innovation or the intent behind the AIA to provide a less-expensive alternative to district court litigation when exercising the Director's discretion to institute. 35 U.S.C. 316(b) and 326(b). Also, under 35 U.S.C. 325(d), ''the Director may take into account whether, and reject the petition or request because, the same or substantially the same prior art or arguments previously were presented to the Office.''

Parallel Petitions

Comments pertaining to parallel petitions challenging the same patent, as defined in § 42.2, were mixed.

Many comments supported denying parallel petitions absent a showing of good cause. Some comments that supported the concept of requiring a showing of good cause for filing parallel petitions asserted that this practice is in line with the congressional intent to allow discretionary denials based on the volume of AIA petitions. In line with these comments, the proposed rule implements the current practice of requiring that petitioners demonstrate why parallel petitions should be allowed to proceed. This framework supports the Office's goal of reducing duplicative challenges to a patent and balances the interests of parties by preventing undue harassment of patent owners through the filing of multiple challenges to a patent, while allowing petitioners reasonable opportunities to seek review.

Many comments asserted that denials of meritorious challenges are an unnecessary restraint on review. Yet, some comments urged that the restrictions on parallel petitions do not go far enough. Some urged greater restrictions on parallel petitions, asserting that most, if not all, parallel petitions should be denied to prevent companies from harassing patent owners. The proposed rule strikes a balance between denying all parallel petitions and instituting all parallel petitions that meet the statutory threshold for institution in 35 U.S.C. 314(a) and 35 U.S.C. 324(a) by requiring a showing by the petitioner of good cause as to why more than one petition is necessary.

Some comments asserted that there are no justifications for limiting multiple petitions because there is little, if any, evidence of petitioners abusing the system by filing multiple petitions. A USPTO study of parallel petitions found that from fiscal year 2015 through fiscal year 2018, parallel petitions represented roughly 15–18% of all challenges. *https://www.uspto.gov/sites/default/files/documents/executive_summary_ptab_multiple_petitions_study_fy2021-2022_update.pdf.* In fiscal year 2019, parallel petitions represented roughly 20% of all challenges, but then in fiscal years 2020 through 2022, the percent of challenges involving parallel petitions steadily dropped, down to roughly 7% in fiscal year 2022 (the final year of the study). *See id.* The decrease in the number of parallel petition filings was influenced by USPTO guidance (*see* Consolidated Trial Practice Guide (2019)), which the USPTO is now codifying and clarifying through the rulemaking process.

Serial Petitions

Comments on proposed discretionary denials of serial petitions, as defined in § 42.2, were sharply divided, with most comments favoring either fewer or greater restrictions.

Some comments supported the adoption of the *General Plastic* factors as a compromise between denying all serial petitions and instituting all serial petitions that meet the statutory threshold for institution in 35 U.S.C. 314(a) and 35 U.S.C. 324(a). In *General Plastic Co.* v. *Canon Kabushiki Kaisha,* IPR2016–01357, 2017 WL 3917706, at *7 (PTAB Sept. 6, 2017) (precedential), the PTAB referred to the AIA's goals ''to improve patent quality and make the patent system more efficient by the use of post-grant review procedures'' but also ''recognize[d] the potential for abuse of the review process by repeated attacks on patents.'' 2017 WL 3917706, at *7 (citing H.R. Rep. No. 112–98, part 1, at 48 (2011)). To aid the Board's assessment of ''the potential impacts on both the efficiency of the inter partes review process and the fundamental fairness of the process for all parties,'' *General Plastic* identified a number of non-exclusive factors that the Board will consider in exercising discretion in instituting an IPR, especially as to ''follow-on'' petitions challenging a patent that was challenged previously in an IPR, PGR, or CBM proceeding. *Id.* at *8. The *General Plastic* non-exclusive factors include: (1) whether the same petitioner previously filed a petition directed to the same claims of the same patent; (2) whether, at the time of the filing of the first petition, the petitioner knew of the prior art asserted in the second petition or should have known of it; (3) whether, at the time of the filing of the second petition, the petitioner had already received a patent owner preliminary response (if filed) to the first petition or received the Board's decision on whether to institute review in the first petition; (4) the length of time that elapsed between the time the petitioner learned of the prior art asserted in the second petition and the filing of the second petition; and (5) whether the petitioner provided an adequate explanation for the time elapsed between the filings of multiple petitions directed to the same claims of the same patent. *Id.* at *7. Additional factors include: (6) the finite resources of the Board, and (7) the requirement to issue a final determination not later than one year after the date on which the Director notices institution of review. *Id.*

The proposed serial petition definition and rules generally adopt the *General Plastic* factors approach, striking a balance between denying all serial petitions versus removing all restrictions on serial petitions. Specifically, *General Plastic* factor (1) is included in the definition of ''serial petition'' in § 42.2, and factors (2) through (5) are included in the proposed rules at § 42.108(e) and § 42.208(f). The other two *General Plastic* factors—(6) and (7)—are not proposed for regulatory adoption in light of stakeholder feedback that parties lack sufficient information to opine on the finite resources of the Board and the Board's ability to issue a final determination within one year. While the parties need not address existing factors (6) and (7), the Board may still weigh the considerations reflected by those factors in rendering its decision on serial petition issues.

Comments that urged greater restrictions on serial petitions asserted that most, if not all, serial petitions should be presumptively denied to prevent companies from harassing patent owners or contesting the same patent repeatedly. Some of these comments offered limited exceptions to presumptive denials, including requiring the petitioner to demonstrate it could not reasonably have discovered earlier the prior art presented in the subsequent petition and requiring a heightened burden for subsequent petitions of demonstrating unpatentability by clear and convincing evidence.

As discussed, the proposed rule implements the current practice of applying substantially the same factors as those stated in *General Plastic.* This framework supports the Office's goal of reducing duplicative challenges to a patent and balances the interests of parties by preventing undue harassment of patent owners through serial challenges while allowing petitioners reasonable opportunities to seek review.

A USPTO study of serial petitions filed by the same petitioner found a notable decrease in the filing of serial petitions, as well as institution of AIA trials based on serial petitions, after the Office issued *General Plastic* in late 2017. *See https://www.uspto.gov/sites/default/files/documents/executive_summary_ptab_multiple_petitions_study_fy2021-2022_update.pdf.* This data showed that in fiscal year 2015, serial petitions represented roughly 9.0% of all challenges, and in fiscal years 2016 and 2017 serial petitions represented roughly 8% of all

challenges. After the issuance of *General Plastic* in late 2017, serial petition filings began immediately dropping, representing 5.6% of filings in fiscal year 2018, approximately 2% of filings fiscal years 2019 and 2020, 1.4% of filings in fiscal year 2021, and 1.7% of filings in fiscal year 2022. Additionally, of the 17 petitions involving a serial petition attempt by the same petitioner in fiscal year 2022, only 3 petitions resulted in institution (roughly 18%), as compared to 42 out of 99 serial petition filings that resulted in institution (roughly 42%) in fiscal year 2015. Although the data suggests that only small number of serial petition challenges continue to occur each year, in the wake of *General Plastic,* the USPTO believes that there is a public benefit to codifying and clarifying the existing practice related to serial petition challenges through the rulemaking process.

Some stakeholders commented that multiple filings are often the result of a patent owner's litigation tactics. The Office believes the articulated factors provide adequate means to strike the appropriate balance between denying and allowing all serial petitions because they allow the Board to weigh relevant and appropriate evidence and, for example, to identify instances of improper roadmapping, in which a petitioner engages in a litigation tactic to gain an advantage by tailoring a ''follow on'' petition based on information gleaned from a patent owner's preliminary response to an earlier petition. As the Board noted in *General Plastic:* ''Multiple, staggered petitions challenging the same patent and same claims raise the potential for abuse. The absence of any restrictions on follow-on petitions would allow petitioners the opportunity to strategically stage their prior art and arguments in multiple petitions, using our decisions as a roadmap, until a ground is found that results in the grant of review.'' 2017 WL 3917706, at *7.

Previously Presented Art or Arguments

On March 24, 2020, the Office designated as precedential *Advanced Bionics, LLC* v. *Med-El Elektromedizinische Geräte GmbH,* IPR2019–01469, Paper 6 (PTAB Feb. 13, 2020). This precedent lays out a two-part framework for evaluating whether to exercise discretion under 325(d). The first part of the test relates to whether the same or substantially the same art or arguments were previously presented to the Office. The second part of the test looks to whether the petitioner has demonstrated that the Office erred in a manner material to the patentability of the challenged claims.

The Office does not have any studies evaluating the impact of the *Advanced Bionics* precedent on the application of 325(d). Comments received in response to the ANPRM, however, generally expressed the view that *Advanced Bionics* provides the public with a simplified framework for evaluating 325(d) issues, even if application of the *Advanced Bionics* framework would not alter the outcome of the majority of cases where 325(d) issues arose.

Specific comments on the application of 35 U.S.C. 325(d) to deny petitions on the basis of previously presented prior art or arguments were split, primarily on the question of whether the Office should consider prior art that was made of record, but not applied or substantively discussed by the examiner, as having been ''previously presented.''

Some comments supported a proposed rule that would limit the application of discretionary denial under section 325(d) to situations in which the prior art was previously applied or substantively discussed during examination. One comment stated that applying discretionary denial in situations in which prior art was listed on an Information Disclosure Statement (IDS), without more involvement in examination, would encourage ''dumping'' of references on the Office during prosecution. Another comment agreed that a requirement that a prior art reference be previously addressed would increase efficiency by providing a clear test that reduces unnecessary briefing.

Section 325(d) provides discretion for the Director, when determining whether to institute a proceeding, to take into account whether the same (or substantially the same) art or arguments were previously presented to the Office. The USPTO agrees that the application of section 325(d) should be limited to situations in which the prior art or arguments were meaningfully addressed by the Office. The proposed rule provides that art or arguments are deemed to have been meaningfully addressed where the Office has evaluated the art or arguments and articulated its consideration of the art or arguments in the record of the application from which the patent issued or the record of a related application or patent with claims that are substantially the same. For purposes of this section, an application or patent is ''related'' to the challenged patent if it claims priority to a common application or is a parent application or parent patent of the challenged patent. This definition of ''related application or patent'' only applies to part 42 and does not apply to other sections that discuss the term (*e.g.,* 37 CFR 1.77(b)(2), 1.78(d)(5)).

Some comments favored the broader application of discretionary denial in circumstances in which prior art references were made of record during prosecution (such as on an IDS) but not applied or substantively discussed by the examiner. Comments expressed concern that requiring a patent owner to identify prior art or arguments that were meaningfully addressed by the Office is inconsistent with the text of 325(d). One comment noted patent applicants do not have control over what references an examiner chooses to cite in the record and believed that excluding art that was merely cited on an IDS may deter compliance with the duty of disclosure. Another comment expressed concern with a blanket rule that section 325(d) only applies to art and arguments previously evaluated by the Office. One comment suggested that if prior art and arguments are limited to art and arguments addressed by the Office, petitioners should face a higher ''material error'' burden. In response to the concern that patent applicants do not have control over what references an examiner chooses to address, the rule does not prevent patent applicants from drawing attention to specific references.

As noted above, 35 U.S.C. 325(d) gives the Director the authority to take into account whether the same or substantially the same prior art was previously presented to the Office, but does not require the Director to do so. After careful consideration of the comments, and to best support the integrity of the patent system, the USPTO proposes to limit the application of 325(d) to circumstances in which the same or substantially the same prior art or arguments previously presented to the Office were meaningfully addressed by the Office. Under these circumstances, the proposed rule installs the current Board practice of requiring petitioners to establish a ''material error'' by the Office. *Advanced Bionics, LLC* v. *Med-El Elektromedizinische Geräte GmbH,* IPR2019–01469, Paper 6 (PTAB Feb. 13, 2020) (precedential). A material error may include misapprehending or overlooking clear, specific evidence in the prior record, including teachings of the relevant prior art that impact the patentability of the challenged claims; evidence demonstrating an inherent feature of the prior art; or evidence rebutting a showing of unexpected results. A material error may also include a legal error, including an

erroneous claim construction that impacts the patentability of the challenged claims.

The proposed rule also seeks to carry out the purpose of 325(d), and give appropriate deference to prior findings made by the Office when meaningfully addressing prior art references, by focusing on instances in which a petitioner seeks to apply a reference in a manner that is directly contrary to prior Office findings. The proposed rule thus defines ''the same prior art'' as a reference that forms the basis of a challenge in a petition, where that reference was previously meaningfully addressed by the Office and the petition relies on the reference for a factual proposition that directly contradicts a finding made by the Office when the reference was previously meaningfully addressed. Therefore, if the ''same prior art'' was meaningfully addressed, the petition may be denied under 35 U.S.C. 325(d) unless the petitioner establishes material error by the Office.

The proposed rule ensures greater predictability and consistency in the application of 325(d) and focuses the application of 325(d) on circumstances in which the prior record is clear. The proposed rule further supports the Office's goal of reducing duplicative challenges to a patent by considering whether the same or substantially the same challenge was meaningfully addressed by the Office previously. The proposed rule does not reduce or eliminate a patent applicant's duty of disclosure under 37 CFR 1.56.

One comment suggested that where a patent owner asserts that the same or substantially the same prior art was previously presented in a related application, the requirement for the patent owner to identify how the claims are substantially the same as those in the challenged patent should only apply to related applications that are not direct ancestors.

Under the proposed rule, a patent owner must identify, in a request for discretionary denial under 35 U.S.C. 325(d), where the same or substantially the same prior art or arguments were meaningfully addressed by the Office. If the art or arguments were previously evaluated by the Office in the record of a related application, the patent owner must establish that the art or arguments were previously evaluated with respect to claims that are substantially the same as the claims in the challenged patent. Claims in a direct ancestor patent may not be substantially the same as those in the challenged patent, and therefore the requirement of establishing that the claims are substantially the same as those in the challenged patent to related applications that are not direct ancestors is still necessary. Additionally, where the claims are substantially the same as those in a related application, a petitioner could identify inconsistent positions taken by an examiner in the related application as part of its burden of establishing material error.

Discretionary Denial Considerations for Joinder Petitions

Proposed rule § 42.208(c)(2) installs current Board practice regarding the analysis of 35 U.S.C. 325(d) and parallel petition issues in the joinder context. Joinder petitions may present the same discretionary denial considerations as the petition upon which the IPR sought to be joined was instituted. *See Facebook, Inc.* v. *Windy City Innovations, LLC,* 973 F.3d 1321, 1335–38 (Fed. Cir. 2020) (holding that 35 U.S.C. 315(c) prohibits a joined party from bringing new issues through its petition into the proceeding being joined). Additionally, section 325(d) or parallel petition issues implicated by the joinder petition were already implicated by the previously instituted petition. Issues raised by discretionary considerations under 35 U.S.C. 325(d) are directed to the prosecution history of the challenged patent and to whether the same or substantially the same prior art or arguments were previously presented to the Office. Arguments under section 325(d) were available to the patent owner in the context of the already instituted petition. Similarly, parallel petition issues require the showing of good cause for multiple petitions filed by the same petitioner based on particular considerations (*e.g.,* the number of claims the petitioner is challenging, whether there is a priority date dispute, whether there are alternative claim constructions, the number of claims the patent owner is asserting in litigation, etc.). In the scenario in which a joinder petitioner seeks to join multiple instituted IPRs, the need to justify multiple IPR trials is implicated by the already instituted petitions.

Accordingly, under current practice, Board panels presented with 35 U.S.C. 325(d) or parallel petition issues for joinder petitions have declined to consider those issues in light of the decision to institute the previously instituted petition(s) to be joined. In order to maintain consistency with current practice, in reaching a decision on institution of a petition accompanied by a timely motion for joinder, Board panels will not consider arguments on discretionary considerations under § 42.108(d) (parallel petitions) or § 42.108(f) (35 U.S.C. 325(d)) where the petition(s) sought to be joined was instituted and those discretionary considerations were available in the already instituted petition. The Board may, however, deny motions for joinder where the later-filed petition implicates other bases for discretionary denial.

Rulemaking Considerations

A. Administrative Procedure Act: The changes proposed by this rulemaking involve rules of agency practice and procedure, and/or interpretive rules, and do not require notice-and-comment rulemaking. *See Perez* v. *Mortg. Bankers Ass'n,* 575 U.S. 92, 97, 101 (2015) (explaining that interpretive rules ''advise the public of the agency's construction of the statutes and rules which it administers'' and do not require notice and comment when issued or amended); *Cooper Techs. Co.* v. *Dudas,* 536 F.3d 1330, 1336–37 (Fed. Cir. 2008) (stating that 5 U.S.C. 553, and thus 35 U.S.C. 2(b)(2)(B), do not require notice-and-comment rulemaking for ''interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice''); and *JEM Broadcasting Co.* v. *F.C.C.,* 22 F.3d 320, 328 (D.C. Cir. 1994) (explaining that rules are not legislative because they do not ''foreclose effective opportunity to make one's case on the merits'').

Nevertheless, the USPTO is publishing this proposed rule for comment to seek the benefit of the public's views on the Office's proposed regulatory changes.

B. Regulatory Flexibility Act: For the reasons set forth in this notice, the Senior Counsel for Regulatory and Legislative Affairs, Office of General Law, USPTO, has certified to the Chief Counsel for Advocacy of the Small Business Administration that changes set forth in this notice of proposed rulemaking (NPRM) would not have a significant economic impact on a substantial number of small entities. *See* 5 U.S.C. 605(b).

The changes in this NPRM set forth express modifications to the rules of practice for IPR and PGR proceedings before the PTAB that the Director and, by delegation, the PTAB, will use in exercising discretion to institute IPRs and PGRs under 35 U.S.C. 314(a), 324(a), and 325(d). The changes pertaining to discretionary institution are largely formalizing existing Board practice, as set forth in precedential decisions and the Trial Practice Guide. Additionally, the changes allowing parties to separately brief discretionary institution issues and the filing of pre-existing settlement agreements prior to

institution would not cause any party to incur significant additional cost.

As a result, the Office estimates that any requirements resulting from these proposed changes would create little, if any, additional burden to those practicing before the Board. The Office proposes to formalize rules that, for the most part, implement current PTAB practices with regard to discretionary denial of serial and parallel petitions for review, petitions implicating considerations under 35 U.S.C. 325(d), procedures for separate briefing on discretionary denial, and practices regarding termination due to settlement. Accordingly, any economic impact would be minimal.

Regarding parallel petitions, the proposed rule providing that the Board will not institute parallel petitions absent a showing of good cause as to why more than one petition is necessary reflects current practice. The Board's Consolidated Trial Practice Guide (November 2019) already makes clear that one petition should be sufficient in most situations and requires petitioners to rank any parallel petitions. In response to stakeholder comments, the proposed rule articulates specific circumstances that may establish good cause and promotes greater efficiency and transparency in the Board's determination whether to go forward with parallel petitions. Accordingly, the proposed change is expected to have minimal economic impact.

With regard to serial petitions, the proposed rule adopts the factors set forth in the Board's precedential decision in *General Plastic.* Accordingly, the proposed rule generally reflects current practice, including practice based on binding precedent, to reduce duplicative proceedings, and is expected to have minimal economic impact.

With regard to petitions implicating considerations under 35 U.S.C. 325(d), the proposed rule clarifies that mere prior citation of prior art in an IDS will not automatically satisfy the first prong of the analytical framework in the Board's decision in *Advanced Bionics, LLC* v. *Med-El Elektromedizinische Geräte GmbH,* IPR2019–01469, Paper 6 at 8 (PTAB Feb. 13, 2020) (precedential). The proposed rule resolves an issue that has caused confusion and resulted in unnecessary briefing and the consumption of significant time and effort in the past in the absence of credible evidence that the art or arguments were meaningfully addressed by the Office. Accordingly, the proposed change is expected to mitigate the need for parties and the Board to expend resources in trying to assess examiner error where the examiner did not meaningfully address the art and arguments. As such, the proposed rule is expected to increase efficiency for the parties and the Board and therefore is not expected to have a significant economic impact.

The proposed rule regarding separate briefing on discretionary denial issues is likewise expected to increase efficiency for the parties and the Board. The parties already brief the same issues and provide the same information that would be presented in the separate briefing in any existing patent owner preliminary response and any petitioner sur-reply, but will merely do so in a different format going forward. The proposed rule will help highlight and focus attention on the key issues concerning discretionary denial. As such, the proposed rule will not substantially change existing practice and is unlikely to have any significant economic impact.

Finally, with respect to practices regarding termination, the proposed change aligns the requirements for terminating proceedings pre- and post-institution by clarifying that pre-institution settlement agreements must be filed with the Board for termination of a proceeding, which includes pre-institution terminations as well as post-institution terminations. This proposal aligns with already widespread practice, where most parties requesting termination pre-institution have provided such agreements. 35 U.S.C. 135(e), 317(b), and 327(b), concerning settlement, do not expressly address settlements pre-institution, but the Board has been generally uniform in requiring agreements to be filed prior to termination. As such, the proposed rule reflects existing practice and eliminates potential confusion. Under the proposed rule, parties will simply be filing existing documents, not creating any additional documents, and accordingly, any cost for compliance will be minimal.

For these reasons, the proposed changes in this NPRM would not have a significant economic impact on a substantial number of small entities.

C. Executive Order 12866 (Regulatory Planning and Review): This rulemaking is significant under Executive Order 12866 (Sept. 30, 1993), as amended by Executive Order 14094 (Apr. 6, 2023).

D. Executive Order 13563 (Improving Regulation and Regulatory Review): The Office has complied with Executive Order 13563 (Jan. 18, 2011). Specifically, and as discussed above, the Office has, to the extent feasible and applicable: (1) made a reasoned determination that the benefits justify the costs of the rule; (2) tailored the rule to impose the least burden on society consistent with obtaining the regulatory objectives; (3) selected a regulatory approach that maximizes net benefits; (4) specified performance objectives; (5) identified and assessed available alternatives; (6) involved the public in an open exchange of information and perspectives among experts in relevant disciplines, affected stakeholders in the private sector, and the public as a whole, and provided online access to the rulemaking docket; (7) attempted to promote coordination, simplification, and harmonization across Government agencies and identified goals designed to promote innovation; (8) considered approaches that reduce burdens and maintain flexibility and freedom of choice for the public; and (9) ensured the objectivity of scientific and technological information and processes.

E. Executive Order 13132 (Federalism): This rulemaking pertains strictly to federal agency procedures and does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 13132 (Aug. 4, 1999).

F. Executive Order 13175 (Tribal Consultation): This rulemaking will not: (1) have substantial direct effects on one or more Indian tribes, (2) impose substantial direct compliance costs on Indian tribal governments, or (3) preempt tribal law. Therefore, a tribal summary impact statement is not required under Executive Order 13175 (Nov. 6, 2000).

G. Executive Order 13211 (Energy Effects): This rulemaking is not a significant energy action under Executive Order 13211 because this rulemaking is not likely to have a significant adverse effect on the supply, distribution, or use of energy. Therefore, a Statement of Energy Effects is not required under Executive Order 13211 (May 18, 2001).

H. Executive Order 12988 (Civil Justice Reform): This rulemaking meets applicable standards to minimize litigation, eliminate ambiguity, and reduce burden as set forth in sections 3(a) and 3(b)(2) of Executive Order 12988 (Feb. 5, 1996).

I. Executive Order 13045 (Protection of Children): This rulemaking does not concern an environmental risk to health or safety that may disproportionately affect children under Executive Order 13045 (Apr. 21, 1997).

J. Executive Order 12630 (Taking of Private Property): This rulemaking will not affect a taking of private property or otherwise have taking implications

under Executive Order 12630 (Mar. 15, 1988).

K. Congressional Review Act: Under the Congressional Review Act provisions of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*), prior to issuing any final rule, the USPTO will submit a report containing the rule and other required information to the United States Senate, the United States House of Representatives, and the Comptroller General of the Government Accountability Office. The changes in this NPRM are not expected to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets. Therefore, this rulemaking is not a ''major rule'' as defined in 5 U.S.C. 804(2).

L. Unfunded Mandates Reform Act of 1995: The changes set forth in this NPRM do not involve a Federal intergovernmental mandate that will result in the expenditure by State, local, and tribal governments, in the aggregate, of $100 million (as adjusted) or more in any one year, or a Federal private sector mandate that will result in the expenditure by the private sector of $100 million (as adjusted) or more in any one year, and will not significantly or uniquely affect small governments. Therefore, no actions are necessary under the provisions of the Unfunded Mandates Reform Act of 1995. *See* 2 U.S.C. 1501 *et seq.*

M. National Environmental Policy Act of 1969: This rulemaking will not have any effect on the quality of the environment and is thus categorically excluded from review under the National Environmental Policy Act of 1969. *See* 42 U.S.C. 4321 *et seq.*

N. National Technology Transfer and Advancement Act of 1995: The requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) are not applicable because this rulemaking does not contain provisions that involve the use of technical standards.

O. Paperwork Reduction Act of 1995: The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) requires that the Office consider the impact of paperwork and other information collection burdens imposed on the public. This NPRM involves information collection requirements that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The collection of information involved in this rulemaking have been reviewed and previously approved by OMB under OMB control numbers 0651–0069. This rulemaking does not add any additional information requirements or fees for parties before the Board.

Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to, a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

P. E-Government Act Compliance: The USPTO is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes.

List of Subjects in 37 CFR Part 42

Administrative practice and procedure, Inventions and patents, Lawyers.

For the reasons set forth in the preamble, the Office proposes to amend 37 CFR part 42 as follows:

PART 42—TRIAL PRACTICE BEFORE THE PATENT TRIAL AND APPEAL BOARD

■ 1. The authority citation for 37 CFR part 42 is revised to read as follows:

Authority: 35 U.S.C. 2(b)(2), 6, 21, 23, 41, 135, 311–319, 321–329; Pub. L. 112–129, 125 Stat. 284; and Pub. L. 112–274, 126 Stat. 2456.

■ 2. Amend § 42.2 by adding, in alphabetical order, the definitions for ''parallel petitions'' and ''serial petition'' to read as follows:

§ 42.2 Definitions.

* * * * *

Parallel petitions means two or more petitions that:

(1) Challenge the same patent by the petitioner; and

(2) Are filed on or before:

(i) The filing of the first patent owner preliminary response to any of the petitions; or

(ii) The due date set forth in § 42.107(a)(2) or § 42.207(a)(2) for filing a patent owner preliminary response to the first petition, if no patent owner preliminary response to the petitions is filed.

* * * * *

Serial petition means a petition that:

(1) Challenges same or overlapping claims of the same patent that have already been challenged by the petitioner, the petitioner's real party in interest, or a privy of the petitioner; and

(2) Is filed after:

(a) The filing of a patent owner preliminary response to the first petition; or

(b) The expiration of the period for filing such a response under § 42.107(a)(2) or § 42.207(a)(2), or as otherwise ordered, if no preliminary response to the first petition is filed.

* * * * *

■ 3. Amend § 42.24 by adding paragraph (e) to read as follows:

§ 42.24 Type-volume or page limits for petitions, motions, oppositions, replies, and sur-replies.

* * * * *

(e) *Requests for discretionary denial.* The following page limits apply to briefing in connection with a patent owner request for discretionary denial but do not include a table of contents; a table of authorities; a listing of facts that are admitted, denied, or cannot be admitted or denied; a certificate of service; or an appendix of exhibits:

(1) *Patent owner request:* 10 pages.

(2) *Petitioner opposition:* 10 pages.

(3) *Patent owner reply:* 5 pages.

■ 4. Revise § 42.72 to read as follows:

§ 42.72 Termination of proceeding.

(a) *The Board may terminate a proceeding.* The Board may terminate a proceeding, where appropriate, before institution or after institution, including where the proceeding is consolidated with another proceeding or pursuant to a joint request under 35 U.S.C. 317(a) or 327(a).

(b) *Motion for termination of a proceeding.* With prior authorization from the Board, parties may file a joint request for termination of a proceeding before institution, or after institution pursuant to 35 U.S.C. 317(a) or 327(a), by filing a joint motion accompanied by any written agreement or understanding, including any collateral agreements, between the parties as required by § 42.74.

■ 5. Amend § 42.74 by revising paragraph (b) to read as follows:

§ 42.74 Settlement.

* * * * *

(b) *Agreements in writing.* Any agreement or understanding between the parties made in connection with, or in contemplation of, the termination of a proceeding shall be in writing, and a true copy shall be filed with the Board before the termination of a proceeding.

* * * * *

■ 6. Amend § 42.107 by revising the section heading and paragraphs (a) and (b) to read as follows:

§ 42.107 Preliminary response to petition and request for discretionary denial.

(a) *Patent owner preliminary response.* (1) The patent owner may file a preliminary response to the petition. The response is limited to setting forth the reasons why no *inter partes* review should be instituted under 35 U.S.C. 314 based on issues other than discretionary denial, and can include supporting evidence. The preliminary response is subject to the word count under § 42.24. A patent owner preliminary response shall not address discretionary denial, which may only be raised pursuant to § 42.107(b), unless otherwise authorized by the Board.

(2) The preliminary response must be filed no later than three months after the date of a notice indicating that the petition to institute an *inter partes* review has been granted a filing date. A patent owner may expedite the proceeding by filing an election to waive the patent owner preliminary response.

(b) *Request for discretionary denial.* (1) In addition to a preliminary response to the petition, the patent owner may file a single request for discretionary denial of the petition. 37 CFR 42.20(b) notwithstanding, no prior Board authorization is required to file the single request for discretionary denial. The request is limited to addressing any applicable discretionary institution issues and factors, other than those involving parallel petitions under § 42.108(d). Applicable discretionary institution issues include those enumerated in § 42.108(e) and (f), as well as any issue that the patent owner believes, based on Office rules, precedent, or guidance, warrants discretionary denial of the petition. If the patent owner files a request for discretionary denial, the petitioner may file an opposition limited to the issues raised in the request, and the patent owner may file a reply limited to the issues raised in the opposition. The request, opposition, and reply are subject to the page limits under § 42.24(e). The Board may also *sua sponte* raise any applicable discretionary denial issue, in which case the Board will provide an opportunity for briefing by the parties.

(2) A request for discretionary denial must be filed no later than two months after the date of a notice indicating that the petition to institute an *inter partes* review has been granted a filing date. An opposition to the request for discretionary denial must be filed no later than one month after the filing of the request for discretionary denial. A reply in support of the request must be filed no later than two weeks after the filing of the opposition.

* * * * *

■ 7. Amend § 42.108 by revising paragraph (c) and adding paragraphs (d) through (f) to read as follows:

§ 42.108 Institution of inter partes review.

* * * * *

(c) *Institution considerations. Inter partes* review shall not be instituted unless the Board decides that the information presented in the petition demonstrates that there is a reasonable likelihood that at least one of the claims challenged in the petition is unpatentable. The Board's decision will take into account a patent owner preliminary response when such a response is filed, including any testimonial evidence. A petitioner may seek leave to file a reply to the preliminary response in accordance with §§ 42.23 and 42.24(c). Any such request must make a showing of good cause.

(1) *Consideration of discretionary denial.* The Board's decision will also take into account, when filed, a patent owner's request for discretionary denial, including any opposition and reply, and a petitioner's filing pursuant to § 42.108(d). To the extent the patent owner contends that there are substantive weaknesses in the petitioner's grounds of unpatentability that are relevant to the exercise of discretion under 35 U.S.C. 314(a), the patent owner may indicate in their request that they will address those substantive weaknesses in the preliminary response permitted by § 42.107(a). Nothing in § 42.108 shall be construed to limit the Board's discretion to deny institution or dismiss a proceeding as a sanction or for any other reason deemed warranted by the Board.

(2) *Discretionary considerations for joined petitions.* In reaching a decision on institution of a petition accompanied by a timely motion for joinder, the Board will not consider arguments on discretionary considerations under § 42.108(d) (parallel petitions) or § 42.108(f) (35 U.S.C. 325(d)) where the petition sought to be joined was instituted. However, the Board may deny the accompanying motion for joinder where the later-filed petition implicates other bases for discretionary denial.

(d) *Parallel petitions challenging the same patent.* The Board will not institute parallel petitions, as defined in § 42.2, absent a showing of good cause as to why more than one petition is necessary. A petitioner filing a parallel petition may, either in the petition or in a separate paper filed concurrently with the petition and limited to no more than five pages, provide information relevant to the good cause determination. 37 CFR 42.20(b) notwithstanding, the patent owner is authorized, without prior Board authorization, to file a separate paper of no more than five pages, on or before the deadline for the preliminary response, limited to providing an explanation of why the Board should not institute more than one petition. Information relevant to the good cause determination may include:

(1) A petitioner's ranking of their petitions in the order in which petitioner desires the Board to consider the merits of their petitions relative to the other parallel petitions;

(2) An explanation of the differences between the petitions and why the issues addressed by the differences are material;

(3) The number of patent claims of the challenged patent that have been asserted by the patent owner in district court litigation;

(4) The number of claims the petitioner is challenging;

(5) Whether there is a dispute about the priority date of the challenged patent;

(6) Whether there are alternative claim constructions that require different prior art references on mutually exclusive grounds;

(7) Whether the petitioner lacked information, such as the identity of asserted claims, at the time they filed the petitions;

(8) The complexity of the technology in the case; and

(9) Any other information believed to be pertinent to the good cause determination.

(e) *Institution factors for serial petitions.* The Board, in its discretion, may deny institution of any serial petition, as defined in § 42.2, for *inter partes* review challenging claims of the same patent that overlap with claims challenged in a previously filed petition for *inter partes* review, post-grant review, or covered business method patent review. The Board will consider the following factors in determining whether to deny institution:

(1) Whether, at the time of filing of the first petition, the petitioner knew of the prior art asserted in the second petition or should have known of it;

(2) Whether, at the time of filing of the second petition, the petitioner had already received the patent owner preliminary response to the first petition or had received the Board's decision on

whether to institute review in the first petition;

(3) The length of time that elapsed between the time the petitioner learned of the prior art asserted in the second petition and the filing of the second petition; and

(4) Whether the petitioner provided an adequate explanation for the time elapsed between the filings of multiple petitions directed to the same claims of the same patent.

(f) *Discretion based on previously presented art or arguments.* A petition for *inter partes* review may be denied under 35 U.S.C. 325(d) if the same or substantially the same prior art was previously meaningfully addressed by the Office or the same or substantially the same arguments were previously meaningfully addressed by the Office with regard to the challenged patent or a related patent or application, unless the petitioner establishes material error by the Office. If some, but not all, of the grounds of unpatentability presented in a petition implicate considerations under 35 U.S.C. 325(d), the Board may deny the petition if section 325(d) is sufficiently implicated such that instituting on all grounds of unpatentability would not promote the efficient administration of the Office or support the integrity of the patent system.

(1) *Request to deny institution pursuant to discretion under 35 U.S.C. 325(d).* A patent owner may file a request for discretionary denial under 35 U.S.C. 325(d) under the provisions of § 42.107(b). Such request must identify whether the same or substantially the same prior art was previously meaningfully addressed by the Office and/or whether the same or substantially the same arguments were previously meaningfully addressed by the Office. A petitioner may file an opposition under the provisions of § 42.107(b) to argue that the same or substantially the same prior art or arguments were not previously meaningfully addressed by the Office and/or to argue that there was material error by the Office. The patent owner may file a reply to the opposition under the provisions of § 42.107(b).

(2) *The same prior art.* Prior art is deemed to be ''the same prior art'' if a reference that forms the basis of the challenges in the petition was previously meaningfully addressed by the Office and the petition relies on the reference for a factual proposition that directly contradicts a finding made by the Office when the reference was previously meaningfully addressed.

(3) *Substantially the same prior art.* Prior art is ''substantially the same prior art'' if the disclosure in the prior art previously meaningfully addressed by the Office contains the same teaching as that relied upon in the petition.

(4) *Meaningfully addressed art or arguments.* Art or arguments are deemed to have been meaningfully addressed when the Office has evaluated the art or arguments and articulated its consideration of the art or arguments in the record of the patent or the application from which the patent issued or the record of a related application or patent with claims that are substantially the same. An initialed Information Disclosure Statement, without more, does not satisfy this standard. Art or arguments from a related application or patent will only be considered to be meaningfully addressed if they are addressed by the Office before the issuance of the challenged patent.

(5) *Related application or patent.* For purposes of this section, an application or patent is ''related'' to the challenged patent if it claims priority to a common application or is a parent application or parent patent of the challenged patent.

■ 8. Amend § 42.207 by revising the section heading and paragraphs (a) and (b) to read as follows:

§ 42.207 Preliminary response to petition and request for discretionary denial.

(a) *Patent owner preliminary response.* (1) The patent owner may file a preliminary response to the petition. The response is limited to setting forth the reasons why no post-grant review should be instituted under 35 U.S.C. 324 based on issues other than discretionary denial, and can include supporting evidence. The preliminary response is subject to the word count under § 42.24. A patent owner preliminary response shall not address discretionary denial, which may only be raised pursuant to paragraph (b) of this section, unless otherwise authorized by the Board.

(2) The preliminary response must be filed no later than three months after the date of a notice indicating that the petition to institute a post-grant review has been accorded a filing date. A patent owner may expedite the proceeding by filing an election to waive the patent owner preliminary response.

(b) *Request for discretionary denial.* (1) In addition to a preliminary response to the petition, the patent owner may file a single request for discretionary denial of the petition. Section 42.20(b) notwithstanding, no prior Board authorization is required to file the single request for discretionary denial. The request is limited to addressing any applicable discretionary institution issues and factors other than those involving parallel petitions under § 42.208(e). Applicable discretionary institution issues include those enumerated in § 42.208(f) and (g), as well as any issue that the patent owner believes, based on Office rules, precedent, or guidance, warrants discretionary denial of the petition. If the patent owner files a request for discretionary denial, the petitioner may file an opposition limited to the issues raised in the request, and the patent owner may file a reply limited to the issues raised in the opposition. The request, opposition, and reply are subject to the page limits under § 42.24(e). The Board may also *sua sponte* raise discretionary denial, in which case the Board will provide an opportunity for briefing by the parties.

(2) A request for discretionary denial must be filed no later than two months after the date of a notice indicating that the petition to institute a post-grant review has been accorded a filing date. An opposition to the request for discretionary denial must be filed no later than one month after the filing of the request for discretionary denial. A reply in support of the request must be filed no later than two weeks after the filing of the opposition.

* * * * *

■ 9. Amend § 42.208 by revising paragraph (c) and adding paragraphs (e) through (g) to read as follows:

§ 42.208 Institution of post-grant review.

* * * * *

(c) *Institution considerations.* Post-grant review shall not be instituted unless the Board decides that the information presented in the petition demonstrates that there is a reasonable likelihood that at least one of the claims challenged in the petition is unpatentable. The Board's decision will take into account a patent owner preliminary response when such a response is filed, including any testimonial evidence. A petitioner may seek leave to file a reply to the preliminary response in accordance with §§ 42.23 and 42.24(c). Any such request must make a showing of good cause.

(1) *Consideration of discretionary denial.* The Board's decision will also take into account, where filed, a patent owner's request for discretionary denial, including any opposition and reply, and a petitioner's filing pursuant to § 42.208(e). To the extent the patent owner contends that there are substantive weaknesses in the petitioner's grounds of unpatentability that are relevant to the exercise of discretion under 35 U.S.C. 324(a), the

patent owner may indicate in their request that they will address those substantive weaknesses in the preliminary response permitted by § 42.207(a). Nothing in this section shall be construed to limit the Board's discretion to deny institution or dismiss a proceeding as a sanction or for any other reason deemed warranted by the Board.

(2) *Discretionary considerations for joined petitions.* In reaching a decision on institution of a petition accompanied by a timely motion for joinder, the Board will not consider arguments on discretionary considerations under paragraph (e) of this section (parallel petitions) or paragraph (g) of this section (35 U.S.C. 325(d)) where the petition sought to be joined was instituted. However, the Board may deny the accompanying motion for joinder where the later-filed petition implicates other bases for discretionary denial.

* * * * *

(e) *Parallel petitions challenging the same patent.* The Board will not institute parallel petitions, as defined in § 42.2, absent a showing of good cause as to why more than one petition is necessary. A petitioner filing a parallel petition may, either in the petition or in a separate paper filed concurrently with the petition and limited to no more than five pages, provide information relevant to the good cause determination. Section 42.20(b) notwithstanding, the patent owner is authorized, without prior Board authorization, to file a separate paper of no more than five pages, on or before the deadline for the preliminary response, limited to providing an explanation of why the Board should not institute more than one petition. Information relevant to the good cause determination may include:

(1) A petitioner's ranking of their petitions in the order in which petitioner desires the Board to consider the merits of their petitions relative to their other parallel petitions;

(2) An explanation of the differences between the petitions and why the issues addressed by the differences are material;

(3) The number of patent claims of the challenged patent that have been asserted by the patent owner in district court litigation;

(4) The number of claims the petitioner is challenging;

(5) Whether there is a dispute about the priority date of the challenged patent;

(6) Whether there are alternative claim constructions that require different prior art references on mutually exclusive grounds;

(7) Whether the petitioner lacked information, such as the identity of asserted claims, at the time they filed the petitions;

(8) The complexity of the technology in the case; and

(9) Any other information believed to be pertinent to the good cause determination.

(f) *Institution factors for serial petitions.* The Board, in its discretion, may deny institution of any serial petition, as defined in § 42.2, for post-grant review challenging claims of the same patent that overlap with claims challenged in a previously filed petition for *inter partes* review, post-grant review, or covered business method patent review. The Board will consider the following factors in determining whether to deny institution:

(1) Whether, at the time of filing of the first petition, the petitioner knew of the prior art asserted in the second petition or should have known of it;

(2) Whether, at the time of filing of the second petition, the petitioner had already received the patent owner preliminary response to the first petition or had received the Board's decision on whether to institute review in the first petition;

(3) The length of time that elapsed between the time the petitioner learned of the prior art asserted in the second petition and the filing of the second petition; and

(4) Whether the petitioner provided an adequate explanation for the time elapsed between the filings of multiple petitions directed to the same claims of the same patent.

(g) *Discretion based on previously presented art or arguments.* A petition for post-grant review may be denied under 35 U.S.C. 325(d) if the same or substantially the same prior art was previously meaningfully addressed by the Office or the same or substantially the same arguments were previously meaningfully addressed by the Office with regard to the challenged patent or a related patent or application, unless the petitioner establishes material error by the Office. If some, but not all, of the grounds of unpatentability presented in a petition implicate considerations under 35 U.S.C. 325(d), the Board may deny the petition if section 325(d) is sufficiently implicated such that instituting on all grounds of unpatentability would not promote the efficient administration of the Office or support the integrity of the patent system.

(1) *Request to deny institution pursuant to discretion under 35 U.S.C. 325(d).* A patent owner may file a request for discretionary denial under 35 U.S.C. 325(d) under the provisions of § 42.207(b). Such request must identify whether the same or substantially the same prior art was previously meaningfully addressed by the Office and/or whether the same or substantially the same arguments were previously meaningfully addressed by the Office. A petitioner may file an opposition under the provisions of § 42.207(b) to argue that the same or substantially the same prior art or arguments were not previously meaningfully addressed by the Office and/or to argue that there was material error by the Office. The patent owner may file a reply to the opposition under the provisions of § 42.207(b).

(2) *The same prior art.* Prior art is deemed to be ''the same prior art'' if a reference that forms the basis of the challenges in the petition was previously meaningfully addressed by the Office and the petition relies on the reference for a factual proposition that directly contradicts a finding made by the Office when the reference was previously meaningfully addressed.

(3) *Substantially the same prior art.* Prior art is ''substantially the same prior art'' if the disclosure in the prior art previously meaningfully addressed by the Office contains the same teaching as that relied upon in the petition.

(4) *Meaningfully addressed art or arguments.* Art or arguments are deemed to have been meaningfully addressed when the Office has evaluated the art or arguments and articulated its consideration of the art or arguments in the record of the patent or the application from which the patent issued or the record of a related application or patent with claims that are substantially the same. An initialed Information Disclosure Statement, without more, does not satisfy this standard. Art or arguments from a related application or patent will only be considered to be meaningfully addressed if they are addressed by the Office before the issuance of the challenged patent.

(5) *Related application or patent.* For purposes of this section, an application or patent is ''related'' to the challenged patent if it claims priority to a common application or is a parent application or parent patent of the challenged patent.

Dated: April 15, 2024.

Katherine K. Vidal,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

[FR Doc. 2024–08362 Filed 4–18–24; 8:45 am]

BILLING CODE 3510–16–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 223 and 224

[Docket No. 240212–0044; RTID 0648–XR130]

Endangered and Threatened Wildlife; 90-Day Finding on a Petition To List the Whitespotted Eagle Ray as Threatened or Endangered Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of 90-day petition finding.

SUMMARY: We, NMFS, announce a 90-day finding on a petition under the Endangered Species Act (ESA) to list the whitespotted eagle ray (*Aetobatus narinari*) as a threatened or endangered species and to designate critical habitat concurrent with the listing. We find that the petition does not present substantial scientific or commercial information indicating that the petitioned action may be warranted.

DATES: These findings were made on April 19, 2024.

ADDRESSES: Copies of the petition and related materials are available from the NMFS website at *https://www.fisheries.noaa.gov/national/endangered-species-conservation/negative-90-day-findings.*

FOR FURTHER INFORMATION CONTACT: Adrienne Lohe, NMFS Office of Protected Resources, (301) 427–8442, *adrienne.lohe@noaa.gov.*

SUPPLEMENTARY INFORMATION:

Background

On April 6, 2023, we received a petition from the Defend Them All Foundation to list the whitespotted eagle ray, *Aetobatus narinari,* as a threatened or endangered species under the ESA and to designate critical habitat concurrent with the listing. The petition asserts that this species is threatened by four of the five ESA section 4(a)(1) factors: (1) present or threatened destruction, modification, or curtailment of its habitat or range; (2) overutilization for commercial and recreational purposes; (3) inadequacy of existing regulatory mechanisms; and (4) other natural or manmade factors. The petition requests that if the species is listed as threatened or endangered, we promulgate a regulation under section 4(e) of the ESA for species similar in appearance to the whitespotted eagle ray, and if we determine the whitespotted eagle ray warrants listing as a threatened species, we promulgate a protective regulation under section 4(d) of the ESA. The petition is available online (see **ADDRESSES**).

ESA Statutory, Regulatory, and Policy Provisions and Evaluation Framework

Section 4(b)(3)(A) of the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*), requires, to the maximum extent practicable, that within 90 days of receipt of a petition to list a species as threatened or endangered, the Secretary of Commerce make a finding on whether that petition presents substantial scientific or commercial information indicating that the petitioned action may be warranted, and to promptly publish such finding in the **Federal Register** (16 U.S.C. 1533(b)(3)(A)). When it is found that substantial scientific or commercial information in a petition indicates the petitioned action may be warranted (a ''positive 90-day finding''), we are required to promptly commence a review of the status of the species concerned during which we will conduct a comprehensive review of the best available scientific and commercial information. In such cases, we conclude the review with a finding as to whether, in fact, the petitioned action is warranted within 12 months of receipt of the petition (16 U.S.C. 1533(b)(3)(B)). Because the finding at the 12-month stage is based on a more thorough review that encompasses all the best available information, as compared to the narrow scope of review at the 90-day stage, a ''may be warranted'' finding does not prejudge the outcome of the status review.

Under the ESA, a listing determination may address a species, which is defined to also include subspecies and any vertebrate distinct population segment (DPS) that interbreeds when mature (16 U.S.C. 1532(16)). A joint NMFS–U.S. Fish and Wildlife Service (USFWS) (jointly, ''the Services'') policy clarifies the Services' interpretation of the phrase ''distinct population segment'' for the purposes of listing, delisting, and reclassifying a species under the ESA (61 FR 4722, February 7, 1996). A species, subspecies, or DPS is ''endangered'' if it is in danger of extinction throughout all or a significant portion of its range, and ''threatened'' if it is likely to become endangered within the foreseeable future throughout all or a significant portion of its range (ESA sections 3(6) and 3(20), respectively, 16 U.S.C. 1532(6) and (20)). Pursuant to the ESA and our implementing regulations, we determine whether species are threatened or endangered based on any one or a combination of the following five ESA section 4(a)(1) factors: (1) the present or threatened destruction, modification, or curtailment of habitat or range; (2) overutilization for commercial, recreational, scientific, or educational purposes; (3) disease or predation; (4) inadequacy of existing regulatory mechanisms to address identified threats; or (5) any other natural or manmade factors affecting the species' existence (16 U.S.C. 1533(a)(1), 50 CFR 424.11(c)).

ESA-implementing regulations issued jointly by NMFS and USFWS (50 CFR 424.14(h)(1)(i)) define ''substantial scientific or commercial information'' in the context of reviewing a petition to list, delist, or reclassify a species as ''credible scientific or commercial information in support of the petition's claims such that a reasonable person conducting an impartial scientific review would conclude that the action proposed in the petition may be warranted.'' Conclusions drawn in the petition without the support of credible scientific or commercial information will not be considered ''substantial information.'' In accordance with 50 CFR 424.14(h)(1)(ii), in reaching the initial (90-day) finding on the petition, we will consider the information described in subsections 50 CFR 424.14(c), (d), and (g) (if applicable).

Our determination as to whether the petition provides substantial scientific or commercial information indicating that the petitioned action may be warranted will depend in part on the degree to which the petition includes the following types of information: (1) information on current population status and trends and estimates of current population sizes and distributions, both in captivity and the wild, if available; (2) identification of the factors under section 4(a)(1) of the ESA that may affect the species and where these factors are acting upon the species; (3) whether and to what extent any or all of the factors alone or in combination identified in section 4(a)(1) of the ESA may cause the species to be an endangered species or threatened species (*i.e.,* the species is currently in danger of extinction or is likely to become so within the foreseeable future), and, if so, how high in magnitude and how imminent the threats to the species and its habitat are; (4) information on adequacy of regulatory protections and effectiveness of conservation activities by states as well as other parties, that have been initiated or that are ongoing, that may protect the species or its habitat; and (5) a complete, balanced representation of

the relevant facts, including information that may contradict claims in the petition. See 50 CFR 424.14(d).

If the petitioner provides supplemental information before the initial finding is made and states that it is part of the petition, the new information, along with the previously submitted information, is treated as a new petition that supersedes the original petition, and the statutory timeframes will begin when such supplemental information is received. See 50 CFR 424.14(g).

We may also consider information readily available at the time the determination is made (50 CFR 424.14(h)(1)(ii)). We are not required to consider any supporting materials cited by the petitioner if the petitioner does not provide electronic or hard copies, to the extent permitted by U.S. copyright law, or appropriate excerpts or quotations from those materials (*e.g.,* publications, maps, reports, letters from authorities). See 50 CFR 424.14(c)(6).

The ''substantial scientific or commercial information'' standard must be applied in light of any prior reviews or findings we have made on the listing status of the species that is the subject of the petition (50 CFR 424.14(h)(1)(iii)). Where we have already conducted a finding on, or review of, the listing status of that species (whether in response to a petition or on our own initiative), we will evaluate any petition received thereafter seeking to list, delist, or reclassify that species to determine whether a reasonable person conducting an impartial scientific review would conclude that the action proposed in the petition may be warranted despite the previous review or finding. Where the prior review resulted in a final agency action—such as a final listing determination, 90-day not-substantial finding, or 12-month not-warranted finding—a petitioned action will generally not be considered to present substantial scientific and commercial information indicating that the action may be warranted unless the petition provides new information or analysis not previously considered.

At the 90-day finding stage, we do not conduct additional research, and we do not solicit information from parties outside the agency to help us in evaluating the petition. We will accept the petitioners' sources and characterizations of the information presented if they appear to be based on accepted scientific principles, unless we have specific information in our files that indicates the petition's information is incorrect, unreliable, obsolete, or otherwise irrelevant to the requested action. Information that is susceptible to more than one interpretation or that is contradicted by other available information will not be dismissed at the 90-day finding stage, so long as it is reliable and a reasonable person conducting an impartial scientific review would conclude it supports the petitioners' assertions. In other words, conclusive information indicating the species may meet the ESA's requirements for listing is not required to make a positive 90-day finding. We will not conclude that a lack of specific information alone necessitates a negative 90-day finding if a reasonable person conducting an impartial scientific review would conclude that the unknown information itself suggests the species may be at risk of extinction presently or within the foreseeable future.

To make a 90-day finding on a petition to list a species, we evaluate whether the petition presents substantial scientific or commercial information indicating the subject species may be either threatened or endangered, as defined by the ESA. First, we evaluate whether the information presented in the petition, in light of the information readily available in our files, indicates that the petitioned entity constitutes a ''species'' eligible for listing under the ESA. Next, we evaluate whether the information indicates that the species faces an extinction risk such that listing, delisting, or reclassification may be warranted; this may be indicated in information expressly discussing the species' status and trends, or in information describing impacts and threats to the species. We evaluate any information on specific demographic factors pertinent to evaluating extinction risk for the species (*e.g.,* population abundance and trends, productivity, spatial structure, age structure, sex ratio, diversity, current and historical range, habitat integrity or fragmentation), and the potential contribution of identified demographic risks to extinction risk for the species. We then evaluate the potential links between these demographic risks and the causative impacts and threats identified in section 4(a)(1).

Information presented on impacts or threats should be specific to the species and should reasonably suggest that one or more of these factors may be operative threats that act or have acted on the species to the point that it may warrant protection under the ESA. Broad statements about generalized threats to the species, or identification of factors that could negatively impact a species, do not constitute substantial information indicating that listing may be warranted. We look for information indicating that not only is the particular species exposed to a factor, but that the species may be responding in a negative fashion; then we assess the potential significance of that negative response.

Many petitions identify risk classifications made by nongovernmental organizations, such as the International Union for Conservation of Nature (IUCN), the American Fisheries Society, or NatureServe, as evidence of extinction risk for a species. Risk classifications by other organizations or made under other Federal or state statutes may be informative, but such classification alone will not provide a sufficient rationale for a positive 90-day finding under the ESA. For example, as explained by NatureServe, their assessments of a species' conservation status do not constitute a recommendation by NatureServe for listing under the U.S. Endangered Species Act because NatureServe assessments have different criteria, evidence requirements, purposes and taxonomic coverage than government lists of endangered and threatened species, and therefore these two types of lists should not be expected to coincide (*https://explorer.natureserve.org/AboutTheData/DataTypes/ConservationStatusCategories*). Additionally, species classifications under IUCN and the ESA are not equivalent; data standards, criteria used to evaluate species, and treatment of uncertainty are also not necessarily the same. Thus, when a petition cites such classifications, we will evaluate the source of information that the classification is based upon in light of the ESA standards on extinction risk and impacts or threats discussed above.

Analysis of the Petition

We have reviewed the petition, the literature cited in the petition, and other literature and information readily available in our files. In this section, we provide a summary of this information and present our analysis of whether this information indicates that the petitioned action may be warranted.

Species Description

The whitespotted eagle ray, *A. narinari,* is a large (up to 230 centimeters (cm) disc width (DW)) benthopelagic batoid found in warm-temperate and tropical coastal waters (Dulvy *et al.* 2021). The species was previously thought to have a circumglobal distribution, although morphological, parasitological, and genetic evidence indicates that the species is limited to the Atlantic, while eagle rays in the Pacific and Indian

Oceans constitute separate species (Sales *et al.* 2019). The petition cites Eschmeyer's Catalog of Fishes (Fricke *et al.* 2020) and Dulvy *et al.* (2021) in its assertion that the species spans the western and eastern Atlantic. This contradicts Sales *et al.* (2019)'s conclusion that based on nuclear and mitochondrial markers, *A. narinari* is restricted to the western Atlantic, and samples from South Africa formed a monophyletic clade closest to another species of eagle ray, *Aetobatus ocellatus,* found in the Indian Ocean. Despite the apparent ongoing scientific debate surrounding the taxonomy of the whitespotted eagle ray and the genus as a whole, there is no further discussion of the taxonomic status of *A. narinari* in the petition. The petition asserts that the whitespotted eagle ray ranges from Cape Hatteras, North Carolina, to Rio de Janeiro, Brazil, including the Gulf of Mexico, the Bahamas, and the Caribbean Islands, and in the eastern Atlantic, from Mauritania south to Angola, and possibly South Africa (Dulvy *et al.* 2021). We accept the petition's characterization of the species' taxonomy and distribution because the petition provides recent and reputable references for this conclusion, and because we find that a reasonable person conducting an impartial scientific review would conclude that the petitioners' assertions are reasonably supported.

Whitespotted eagle rays occur in the neritic zone from the low-tide mark to water depths of 60 meters (m), and are often associated with coral reefs, lagoons, and estuaries (Cerutti-Pereyra *et al.* 2018, Dulvy *et al.* 2021). They are highly mobile and display both migratory and resident behavior (Bassos-Hull *et al.* 2014; Sellas *et al.* 2015; De Groot *et al.* 2021). Whitespotted eagle rays are mid-trophic level predators that forage for invertebrates (often bivalves, gastropods, and crustaceans) in the seabed sediment, serving as bioturbators (Ajieman *et al.* 2012; Flowers *et al.* 2021). The species is often observed as solitary individuals, but can also be seen in large aggregations of up to several hundred individuals (Bassos-Hull *et al.* 2014; Tagliafico *et al.* 2012). Size at maturity has been estimated at approximately 115–130 cm DW for males and slightly larger for females (Araújo *et al.* 2022; Bassos-Hull *et al.* 2014; Taglifico *et al.* 2012). Age at maturity is estimated at 4 to 6 years (Cerutti-Pereyra *et al.* 2018). Whitespotted eagle rays exhibit matrotrophic viviparity in which embryos are nourished through uterine secretions and born live (Araújo *et al.* 2022). Between one and five young are produced in each litter after a gestation period of 12 months (Dulvy *et al.* 2021). Generation length for the species is estimated at 10 years, inferred from the slightly larger *A. ocellatus* which has a generation length of 12 years (Dulvy *et al.* 2021).

Population Status and Trends

The petition asserts that the whitespotted eagle ray has undergone dramatic population decline, largely relying on the IUCN Red List Assessment of the species as ''endangered'' (Dulvy *et al.* 2021). This assessment concludes that the whitespotted eagle ray ''is suspected'' to have experienced a population reduction of 50–79 percent over the past three generation lengths (30 years) due to ''actual and potential levels of fishing pressure'' (Dulvy *et al.* 2021).

Dulvy *et al.* (2021) use population trend data from baited remote underwater videos (BRUVs) in Belize from 2009–2018 (G. Clementi and D. Chapman, unpublished data 2019) and a survey in Mexico spanning 2000–2014 (J–C. Pérez Jiménez unpublished data 2019) to perform Bayesian state-space population trend analysis over three generation lengths (30 years). The BRUV data from Belize indicated an increase in abundance of 7.5 percent annually, while data from Mexico indicate a 0.95 percent decrease in abundance annually over the respective time series. Additionally, Dulvy *et al.* (2021) state that in the southern Gulf of Mexico, interviews with fishermen indicated catch declines from 30–40 rays per night/trip from 1990 to 2000 to 10–15 rays per night/trip in 2019 (Cuevas-Zimbrón *et al.* 2011; J–C. Pérez Jiménez unpublished data 2019, as cited in Dulvy *et al.* 2021). Considering the two available population trend datasets (Belize 2009–2018 and Mexico 2000–2014) and extrapolating over three generation lengths, however, Dulvy *et al.* (2021) found an increasing population trend of 1.32 percent per year in the Western Central Atlantic.

Outside of these datasets, there is little information available on whitespotted eagle ray population trends. Dulvy *et al.* (2021) rely on the assumption that where the species is known to be targeted in artisanal fisheries or bycaught in commercial fisheries (*e.g.,* in Colombia, Venezuela, the Guianas; see *ESA Section 4(a)(1) Factors*), it is experiencing population declines. In Brazil, personal communications cited in Dulvy *et al* (2021) from 2018 indicate that landings of the species in gillnets at Pernambuco have declined by about 80 percent since 1995, and that the species has also declined in São Paulo, where fishery monitoring between 1996 and 2002 only recorded five individuals. Dulvy *et al.* (2021) write that because unmanaged fisheries in Brazil have led to declines in other species, ''. . . there is no reason not to suspect that this species has also been reduced in numbers in that area.'' Based on suspected high exploitation levels and lack of adequate management, their assessment indicates that it is ''suspected that this species has undergone a population reduction of 50–79 percent over the past three generation lengths (30 years) in the Atlantic South American part of its range'' (Dulvy *et al.* 2021). It is unclear whether the personal communications cited by Dulvy *et al.* (2021) are based on time series data or take into account fishing effort or other factors. Therefore, it is unknown how accurately this estimate reflects the abundance of whitespotted eagle rays across this region. We find that, based on the information presented in the petition, a reasonable person conducting an impartial scientific review would conclude that some level of population decline may be occurring in the Southwest Atlantic, although there is not sufficient credible scientific or commercial information to conclude that the species has declined by 50–79 percent.

Trends specific to *A. narinari* are unavailable in the Eastern Atlantic, and therefore Dulvy *et al.* (2021) use reported catch levels of elasmobranchs as a proxy for whitespotted eagle ray population trends here. Dulvy *et al.* (2021) report the decline in average elasmobranch catch per unit effort by 71 percent from 1970–2015 and simultaneous increase in average elasmobranch catch by over 250 percent across the West Africa region, implying a dramatic increase in fishing effort. Trends in elasmobranch landings during this period of increasing fishing effort are described for individual countries in the region. In Mauritania, landings increased by 246 percent over 1992–2015; since then effort has been stable and landings continued to increase. In Senegal, reconstructed landings (which include an estimate of unreported landings data, therefore increasing uncertainty) showed a 30–80 percent decline from 2001–2016, suggesting population decline. In Guinea-Bissau, reconstructed landings declined 22 percent from 2012 to 2016 after rising since the 1960s. In Cameroon, there has been a 96 percent decline in reconstructed landings from 2007–2016

after rising since the 1960s. There have been few recent observations of the species in the Republic of Congo, Mauritania, Gabon, Senegal, Gambia, Guinea-Bissau, Sierra Leone, Ghana, Nigeria, Cameroon or Angola; in certain cases, this is despite sightings of species with similar habitat needs and catchability. However, some confounding factors are at play; for example, in Ghana there are few shallow fishing gears likely to take the species (Dulvy *et al.* 2021). Dulvy *et al.* (2021) take the above information to indicate that the species has largely disappeared from the Eastern Atlantic part of its range. Dulvy *et al.* (2021) conclude ''it is suspected that a population reduction of more than 80 percent has occurred in the past three generation lengths (30 years)'' (Dulvy *et al.* 2021). While trends in elasmobranch catch and fishing effort are concerning, they do not provide enough species-specific evidence for us to conclude that the whitespotted eagle ray in particular has followed these same trends. Further, neither the petition nor Dulvy *et al.* (2021) provide information on historical population sizes in the areas with few recent observations. We find that, based on the information presented in the petition, a reasonable person conducting an impartial scientific review would conclude that some level of population decline may be occurring in the Eastern Atlantic, although there is not sufficient credible scientific or commercial information to conclude that the species has declined by more than 80 percent.

Altogether, Dulvy *et al.* (2021) conclude that the whitespotted eagle ray has undergone a population reduction of 50–79 percent over the past three generation lengths across its range. However, a reasonable person would conclude that this information is not supported by credible scientific information and is therefore unreliable given the only available quantitative population data for whitespotted eagle rays from Belize and Mexico indicate that the population is increasing there. Species-specific information on trends is unavailable from the Southwest Atlantic, the Eastern Central Atlantic, and Southeast Atlantic, although Dulvy *et al.* (2021) suspect population reductions in these areas. While declining elasmobranch landings, few recorded sightings of the species, and accounts of reduced catch by artisanal fishermen are indicative of potential population declines in these areas, we are not able to conclude that this information points to the dramatic population declines that Dulvy *et al.* (2021) infer.

Outside of the IUCN Red List Assessment (Dulvy *et al.* 2021), the petition discusses just one other relevant study relating to population trends for the species. Bassos-Hull *et al.* (2014) observed a yearly decrease in number of whitespotted eagle rays observed in both aerial and boat-based surveys in the eastern Gulf of Mexico off southwest Florida from 2008–2013. The authors note, however, that without further study, it is unclear whether this is due to a true decrease in abundance over time or other factors such as sampling bias, a shift in range, or a clustering phenomenon in the study area during the 2008–2009 season (Bassos-Hull *et al.* 2014).

In all, we do not find that the information presented in the petition constitutes credible scientific information that indicates a dramatic decrease in whitespotted eagle ray abundance across its range as asserted by the petitioners. In fact, the region with available time-series population data shows an increasing population trend for the species. Information presented in the petition only points to potential abundance decreases in other parts of its range with little supporting information; the principal study the petition relies on for this assertion is unreliable because it rests on unsupported assumptions (*i.e.,* the assumptions that, where the species is known to be targeted in artisanal fisheries or bycaught in commercial fisheries, it is experiencing population declines; and that, where elasmobranch catch rates are declining, the species is experiencing population declines) rather than data. Therefore, we do not find that the petition offers substantial scientific or commercial information that would suggest that the species' current population status and trends may warrant the petitioned action.

ESA Section 4(a)(1) Factors

The petition asserts that four of the five factors in section 4(a)(1) of the ESA are adversely affecting the whitespotted eagle ray: (A) present or threatened destruction, modification, or curtailment of habitat or range; (B) overutilization for commercial, recreational, scientific, or educational purposes; (D) inadequacy of existing regulatory mechanisms; and (E) other natural or manmade factors affecting its continued existence. While the petition does not state that factor (C), disease or predation, poses a threat to the species, it does argue that the species may be more susceptible to disease in combination with other stressors. In the following sections, we discuss the information presented in the petition, viewed in the context of information readily available in our files where applicable, regarding threats to this species.

(A) Present or Threatened Destruction, Modification, or Curtailment of Habitat or Range

The petition describes the effect of destructive fishing practices, specifically bottom trawling, on coastal ocean habitats. Although the petition discusses negative impacts of trawling, including damage and destruction of biotic and abiotic seabed structures, increased water column turbidity, release of contaminants contained in seabed sediment, and reduced food availability for bottom-feeders, the petition includes no discussion of specific areas where bottom trawling activities occur within the range of the whitespotted eagle ray, or the intensity of bottom trawling activity. While the impacts of bottom trawling are concerning for certain marine habitats generally, the extent to which whitespotted eagle rays in particular may be threatened by such impacts is not clear based on the information in the petition.

The petition similarly discusses impacts of coastal development and dredging, as well as resulting pollution and suspension of sediment, on marine habitats. Suspension of sediment resulting from dredging can cause physiological stress and changes in foraging and predation behavior in marine fishes (Wenger *et al.* 2016). Contaminants released from disturbed sediment (*e.g.,* metals and persistent organic pollutants (POPs) such as polycyclic aromatic hydrocarbons (PAHs), polychlorinated biphenyls (PCBs), and dichlorodiphenyltrichloroethane (DDT)), have been shown to accumulate in, and have further negative impacts on marine fishes, including on the reproductive success of adults and development of eggs and larvae (Wenger *et al.* 2016). PCBs, DDT and hexachlorobenzene (HCB) were detected in whitespotted eagle rays off Australia, sometimes in high enough concentrations to cause possible negative long-term impacts (Cagnazzi *et al.* 2019). Without further study, however, it remains unclear whether observed contaminant loads lead to lower survival and/or lower reproductive success in elasmobranchs (Cagnazzi *et al.* 2019). The petition also asserts that sounds from dredging activity may cause harm to whitespotted eagle rays based on a study that found the sound of boat motors to disturb *A. ocellatus,* causing these rays to exhibit

escape behavior when foraging (Berthe and Lecchini 2016). It is unclear whether such disruptions of foraging behavior would lead to population-level impacts to *A. narinari,* or whether noise from dredging would cause a similar response; neither of these points are addressed in the petition. Generally, the whitespotted eagle ray is vulnerable to coastal development as it uses shallow, coastal areas for breeding and feeding (Dulvy *et al.* 2021). While coastal development has the potential to negatively impact whitespotted eagle rays, specific information indicating how and where dredging and development are impacting the whitespotted eagle ray's habitat is not provided in the petition, and thus the degree to which the population may be threatened by this stressor is unclear.

The petition discusses, and provides references regarding, direct and indirect impacts of climate change, including physical and chemical changes to ocean habitats (*e.g.,* ocean warming and increasing ocean acidity), changes in ocean circulation patterns, declines in primary productivity, range shifts, increasing occurrences of extreme weather events and harmful algal blooms, and physiological and behavioral impairments in certain marine fishes. The specific effects of climate change on ray ecology are largely unknown, and few studies have investigated the impacts of climate change on the whitespotted eagle ray. Specific impacts that may be of concern to the whitespotted eagle ray that are discussed in the petition include decreased aragonite and calcite availability due to ocean acidification, which can hinder the ability of calcifying organisms such as bivalves and corals to build their skeletons (Branch *et al.* 2013; Kroeker *et al.* 2013). This could result in reduced availability of certain prey species and coral reef habitat for the whitespotted eagle ray to utilize. The petition cites Flowers *et al.* (2021) in its assertion that range and habitat shifts may result in negative effects on ray fitness through decreased ability to find food, increased predation risk and increased competition. However, the same study points out that vulnerability to climate change varies by species, and, in certain cases, climate change may have beneficial outcomes for rays (Flowers *et al.* 2021). The petition also points out that sharks and rays in particular exhibit thermotaxis, a behavior that involves moving to waters of different temperatures throughout the day. Therefore, beyond large-scale geographic range shifts that may occur as a result of climate change, changes in such small-scale movements may also be significant to the fitness and survival of sharks and rays (Vilmar and Di Santo 2022). In an assessment of shark and ray behavior in response to gradual increases in sea surface temperature as well as acute temperature anomalies caused by El Niño Southern Oscillation over 27 years, *A. narinari* exhibited significantly increased relative abundance at higher temperatures in both cases (Osgood *et al.* 2021). While this study took place in the eastern Pacific and taxonomic revisions have limited *A. narinari* to the Atlantic (see *Species Description*), the results suggest that eagle ray species such as *A. narinari* could be more tolerant of temperature extremes than other elasmobranchs (Osgood *et al.* 2021). Although climate change has the potential to adversely impact the whitespotted eagle ray, the degree to which whitespotted eagle ray individuals or populations have been or will be affected is unclear. Therefore, the degree to which climate change threatens the whitespotted eagle ray is not clear based on the information in the petition.

In summary, the petition and the references cited therein do not comprise substantial scientific or commercial information indicating there is present or threatened destruction, modification, or curtailment of the whitespotted eagle ray's habitat or range such that a reasonable person conducting an impartial scientific review would conclude that listing may be warranted.

(B) Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

The petition identifies overutilization for commercial purposes as the greatest threat to the whitespotted eagle ray. The species is captured as incidental bycatch and, less commonly, in targeted fisheries (Tagliafico *et al.* 2012).

In the Western Central Atlantic, artisanal fisheries targeting the species are known to exist (but ''are not well described'') in Mexico, Cuba, the Caribbean coast of Colombia, and Venezuela (Dulvy *et al.* 2021). In Colombia, the whitespotted eagle ray is taken in gillnet, longline, and trawl gears (Dulvy *et al.* 2021). In both Colombia and Venezuela, artisanal fisheries are widespread, intense, and lack management (Dulvy *et al.* 2021). A study of the small, directed fishery in northeastern Venezuela found that while the time series analyzed (August 2005 to December 2007) is too short to infer changes in population abundance, the capture of juvenile, mature, and pregnant individuals is of concern (Tagliafico *et al.* 2012). An artisanal fishery targeting *A. narinari* exists off the coast of the State of Campeche in the southern Gulf of Mexico driven by the traditional consumption of this species there (Cuevas-Zimbrón *et al.* 2011). According to fishermen interviewed, catches of *A. narinari* have declined over recent decades due to overfishing of the species as well as its molluscan prey (Cuevas-Zimbrón *et al.* 2011). Data from Mexico's National Aquaculture and Fisheries Commission (CONAPESCA) indicate that in 2013, *A. narinari* was the second-most captured batoid in the region at about 40 tons each year (Rodriguez-Santiago *et al.* 2016). Whitespotted eagle rays have also been caught as bycatch in shark gillnet fisheries in the U.S. south Atlantic, and the petition asserts that they are among the top bycatch species by abundance in the observed catches (Trent *et al.* 1997). However, according to information readily available in our files, which provides important context for judging the accuracy and reliability of the information presented in the petition, the species hasn't been observed as bycatch in this fishery since 2008 (NOAA Fisheries Southeast Fisheries Science Center, unpublished data). In all, despite the existence of artisanal fisheries targeting the whitespotted eagle ray in this region as well as interactions with commercial fisheries, available population data does not support the conclusion that these fisheries are causing significant population declines. Rather, available data sources indicate an increasing population trend in the Western Central Atlantic (see *Population Status and Trends*).

In the Southwest Atlantic, artisanal fisheries and commercial trawl and longline fisheries along the coast of South America can be intense and unmanaged, and the petition asserts this has led to the disappearance of several elasmobranch species in the region, including largetooth sawfish (*Pristis pristis*), smalltooth sawfish (*Pristis pectinata*), daggernose shark (*Isogomphodon oxyrhynchus*), and smalltail shark (*Carcharhinus porosus*) (Dulvy *et al.* 2021). Although fishing pressure is heavy and many of the stocks targeted by artisanal fishermen are overexploited in this region (Dulvy *et al.* 2021), the petition does not present any information about the specific fisheries that interact with the whitespotted eagle ray, or levels of catch of the whitespotted eagle ray.

In the Eastern Central Atlantic, sharks are targeted in artisanal fisheries across much of the region due to demand for dried salted shark meat (Dulvy *et al.*

2021). Specifically, drift gillnets and demersal set gillnets are used to target sharks and rays in artisanal fisheries of Mauritania, Nigeria, Ghana, and Cameroon (Dulvy *et al.* 2021). Population reductions and some local extinctions of shark and ray species have been observed in this region as a result of fishing pressure (Dulvy *et al.* 2021). The petition states that total demersal biomass of inshore stocks in the Gulf of Guinea is estimated to have declined by 75 percent since 1982 as a result of destructive fishing practices (Dulvy *et al.* 2021). Additionally, the number of traditional and industrial fishing boats has significantly increased since 1950 (Dulvy *et al.* 2021). Although poorly managed fishing activity in this region is having negative impacts on fish stocks generally, the petition presents no information relating to the capture or landings of the whitespotted eagle ray in particular.

Little information on the impact of fisheries bycatch on the species was provided in the petition. A study examining the physiological responses of capture on benthopelagic rays, including *A. narinari,* showed elevated lactate and glucose levels lasting the length of time that the rays were confined after capture (Rangel *et al.* 2021). This is indicative of increased physiological stress, and immediate release of captured individuals is recommended (Rangel *et al.* 2021). Mortality rates or other sublethal effects of capture on the whitespotted eagle ray were not addressed in the petition.

The petition also discusses other potential sources of overutilization. The whitespotted eagle ray is popular in public aquarium displays and is collected for this purpose (Dulvy *et al.* 2021). No further information on the impact of the aquarium trade on the species is included in the petition. The petitioners also assert that the species may be vulnerable to negative interactions with shellfish farms due to their molluscan diet. Negative interactions have been anecdotally reported in the Northwest Atlantic, although confirmed interactions generally take place with eagle rays in the Indo-Pacific (Dulvy *et al.* 2021).

In all, while the petition presents information on fisheries targeting the whitespotted eagle ray in the Western Central Atlantic, overutilization does not appear to be occurring based on population increases indicated in this region. The petition does not provide information specific to fisheries affecting the whitespotted eagle ray in the Southwest Atlantic or the Eastern Atlantic parts of its range, although fishing pressure is generally high in these areas. There is little information on other potential sources of overutilization of the species such as the aquarium trade. Based on information in the petition and readily available in our files, overutilization does not appear to be affecting the species to such a point that a reasonable person conducting an impartial scientific review would conclude that the petitioned action may be warranted.

(C) Disease or Predation

Disease and predation are not identified as primary threats to the species in the petition. Although the petition asserts that whitespotted eagle rays may be more susceptible to disease and parasitic infection in the face of other stressors, there is no evidence in the petition indicating that disease or predation are negatively impacting the species.

(D) Inadequacy of Existing Regulatory Mechanisms

According to the petition, current regulatory mechanisms are inadequate to protect the whitespotted eagle ray from threats posed by fisheries. Generally, the petition states that the lack of research, monitoring plans, protected areas, species management, and education (as determined by Dulvy *et al.* 2021) contribute to the species' decline. In the United States, while Florida has prohibited the harvest, possession, landing, purchase, sale, or exchange of the species in state waters for over two decades, neighboring states do not have similar regulatory measures. The petition cites Dulvy *et al.* (2021) in its assertion that similar actions in other states ''could contribute to the conservation of the species.'' The petition concludes that because harvest is allowed in nearby state and federal waters, regulatory measures are inadequate; however, the petition fails to discuss why the lack of regulations is inadequate to address the threats. As discussed in *Population Status and Trends* above, the species has an increasing population trend in the Western Central Atlantic and it is not clear why further regulation would be needed in this area. Internationally, 13 of the top 20 shark-fishing nations have completed and implemented National Plans of Action for elasmobranchs (Dulvy *et al.* 2021), and the petition argues that this leaves whitespotted eagle rays vulnerable to threats globally. It is not clear if this statistic is relevant to the whitespotted eagle ray, or where in the species' range regulatory actions are lacking. Overall, the petition does not provide substantive information regarding the existing regulatory mechanisms for the species outside of the United States, or on whether they are inadequate to manage fisheries for the species. Unsupported conclusions are not considered ''substantial information'' under our regulations (50 CFR 424.14(h)(1)(i)).

The petition also argues that current regulatory mechanisms are inadequate to protect the whitespotted eagle ray from threats posed by climate change. While the petition discusses ways in which domestic and international regulatory measures are not sufficient to reduce greenhouse gas emissions, it remains unclear to what degree climate change is impacting or will impact the species in particular, and therefore, whether additional regulations are needed to address the impact of climate change on the species.

Altogether, we find that the information presented in the petition does not comprise substantial scientific or commercial information indicating inadequacies of existing regulatory mechanisms such that a reasonable person conducting an impartial scientific review would conclude that listing may be warranted.

(E) Other Natural or Manmade Factors Affecting Its Continued Existence

Finally, the petition discusses threats of noise, chemical pollution, plastic pollution, and human disturbance. We considered information provided on the impacts of noise, chemical pollution, and human disturbance (development and dredging) under *(A) Present or Threatened Destruction, Modification, or Curtailment of Habitat or Range,* above. We considered information provided on the impact of human disturbance through fisheries bycatch/entanglement in fishing gear in *(B) Overutilization for commercial, recreational, scientific, or educational purposes,* above. The petition very briefly mentions the species' susceptibility to boat strikes as it inhabits coastal waters, although, beyond two individual whitespotted eagle rays with scars from boat strikes documented by Bassos-Hull *et al.* (2014), the petition does not provide any discussion of the frequency of, or impact of, boat strikes on the species.

Ingestion of microplastics has been shown to result in deleterious effects such as inflammation, metabolic disruption, compromised intestinal function, and behavioral changes in bony fishes (Pinho *et al.* 2022). Microplastics can also absorb POPs and other contaminants, leading to further contaminant exposure when ingested (Pinho *et al.* 2022). However, no information is presented in the petition

on the effect of microplastic ingestion in batoids. While microplastic ingestion poses a potential threat to the whitespotted eagle ray, the physiological impacts to individual rays and population-level impacts on survival and fitness remain unaddressed. We therefore find that there is not substantial scientific or commercial information provided in the petition indicating that the other natural or manmade factors named in the petition are impacting the species to such a degree that a reasonable person conducting an impartial scientific review would conclude that listing may be warranted.

Petition Finding

After thoroughly reviewing the information presented in the petition in the context of information readily available in our files, we conclude the petition does not present substantial scientific or commercial information indicating that the petitioned action may be warranted.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 240408–0102]

RIN 0648–BM79

Fisheries of the Northeastern United States; 2024–2026 Specifications for the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule, request for comments.

SUMMARY: NMFS proposes the 2024–2026 specifications for the Mackerel, Squid, and Butterfish Fishery Management Plan as recommended by the Mid-Atlantic Fishery Management Council. This action proposes to set the 2024 *Illex* squid and 2024–2026 longfin squid specifications and reaffirms the 2024 chub mackerel and butterfish specifications. The implementing regulations for the Mackerel, Squid, and Butterfish Fishery Management Plan require us to publish specifications every fishing year for each of these species and to provide an opportunity for public comment. The proposed specifications are intended to establish allowable harvest levels that will prevent overfishing, consistent with the most recent scientific information.

DATES: Public comments must be received by May 20, 2024.

ADDRESSES: Copies of supporting documents used by the Mid-Atlantic Fishery Management Council, including the draft Supplemental Information Report (SIR) and the Regulatory Flexibility Act (RFA) analysis are available from: Dr. Christopher M. Moore, Executive Director, Mid-Atlantic Fishery Management Council, 800 North State Street, Suite 201, Dover, DE 19901, telephone (302) 674–2331.

A plain language summary of this proposed rule is available at *https://www.regulations.gov/docket/NOAA-NMFS-2023-0154.* You may submit comments on this document, identified by NOAA–NMFS–2023–0154, by the following method:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Visit *https://www.regulations.gov* and NOAA–NMFS–2023–0154 in the Search box. Click on the ''Comment'' icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on *https://www.regulations.gov* without change. All personal identifying information (*e.g.,* name, address, *etc.*), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter ''N/A'' in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Louis Forristall, Fishery Management Specialist, (978) 281–9321.

SUPPLEMENTARY INFORMATION:

Background

This rule proposes specifications, which are the combined suite of commercial and recreational catch levels established for one or more fishing years, for longfin and *Illex* squid, and reaffirms previously announced projected specifications for butterfish and chub mackerel. Section 302(g)(1)(B) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) states that the Scientific and Statistical Committee (SSC) for each regional fishery management council shall provide its Council ongoing scientific advice for fishery management decisions, including recommendations for acceptable biological catch (ABC), preventing overfishing, ensuring maximum sustainable yield, and achieving rebuilding targets. The ABC is a level of catch that accounts for the scientific uncertainty in the estimate of the stock's defined overfishing limit (OFL).

The regulations implementing the fishery management plan (FMP) require the Mid-Atlantic Fishery Management Council's (Council) Mackerel, Squid, and Butterfish Monitoring Committee to develop specification recommendations for each species based upon the ABC advice of the Council's SSC. The FMP regulations also require the specification of annual catch limits (ACL) and accountability measure (AM) provisions for butterfish. Both squid species are exempt from the ACL/AM requirements because they have a life cycle of less than one year. In addition, the regulations require the specification of domestic annual harvest (DAH), the butterfish mortality cap in the longfin squid fishery, and initial optimum yield (IOY) for both squid species.

On July 27, 2023 (88 FR 48389), NMFS published a final rule in the **Federal Register** implementing the 2023 specifications for the chub mackerel, butterfish, longfin squid, and *Illex* squid fisheries. This included projected 2024 specifications for butterfish and projected 2024–2025 specifications for chub mackerel.

The Council's SSC met in March, May, and July 2023 to reevaluate the longfin squid, *Illex* squid, chub mackerel, and butterfish 2024 specifications based upon the latest information. At those meetings, the SSC concluded that no adjustments to these species' ABCs were warranted.

Proposed 2024–2026 Longfin Squid Specifications

NMFS proposes to maintain the 2023 longfin squid ABC of 23,400 metric tons

(mt) for the 2024 fishing year, and projects the same ABC for the 2025–2026 fishing years. The background for this ABC is discussed in the proposed rule to implement the 2021–2022 squid and butterfish specifications (86 FR 38586, July 22, 2021) and is not repeated here. The IOY, DAH, and domestic annual processing (DAP) are calculated by deducting an estimated discard rate from the ABC. At its July 2023 meeting, the Mackerel, Squid and Butterfish Monitoring Committee recommended to increase the discard rate from 2 percent to 2.16 percent, therefore increasing the discard set-aside from 468 mt to 506.3 mt. This results in a 2024 IOY, DAH, and DAP of 22,893.7 mt (see table 1), which is a .17 percent decrease from the 2023 IOY, DAH and DAP of 22,932 mt. The Council adopted these recommendations at its August 2023 meeting, and NMFS concurs. NMFS and the Council will review these specifications during future annual specifications processes following data updates each spring. The 2025 specifications could change if new information becomes available.

TABLE 1—2024–2026 LONGFIN SQUID SPECIFICATIONS IN METRIC TONS

Specification	2024	2025–2026 (projected)
OFL	Unknown	Unknown
ABC	23,400	23,400
IOY	22,893.7	22,893.7
DAH/DAP	22,893.7	22,893.7

TABLE 2—2024–2026 LONGFIN QUOTA TRIMESTER ALLOCATIONS

Trimester	Percent	Metric tons
I (Jan–Apr)	43	9,861
II (May–Aug)	17	3,898
III (Sep–Dec)	40	9,173

Proposed 2024 Illex Squid Specifications

NMFS proposes to maintain the 2023 *Illex* squid ABC of 40,000 mt for the fishing year 2024, in alignment with the Council's recommendation. Based on the Council's recommendation, NMFS proposed that the rate used to calculate the discard set-aside be reduced from 4.53 percent to 3.42 percent, based on bycatch data from fishing years 2018–2019. Fishing years 2018–2019 were used because those were the most recent years where the full *Illex* quota was caught. This results in a 2024 IOY, DAH, and DAP of 38,631 mt (table 3), which is a slight increase from the 2023 IOY, DAH, and DAP of 38,192 mt.

TABLE 3—PROPOSED 2024 *Illex* SQUID SPECIFICATIONS IN METRIC TONS

Specification	2024
OFL	Unknown
ABC	40,000
IOY	38,631
DAH/DAP	38,631

Reaffirmation of 2024 Butterfish Specifications

As part of the 2023–2025 multiyear specifications for butterfish, NMFS implemented projected specifications that would decrease the ABC by 12.7 percent, from 17,267 mt in 2023 to 15,764 mt in 2024, and the available quota from 11,271 mt in 2023 to 9,844 mt in 2024. Even with this reduction, the proposed 2024 butterfish quota is still above recent catch levels. After reviewing recent biological data, fishery performance, and recommendations from staff, the Mackerel, Squid, Butterfish Advisory Panel, and the SSC, the Council decided to reaffirm the previously-set 2024 specifications at its June 2023 meeting, and NMFS proposes to reaffirm the 2024 specifications in this rule.

TABLE 4—PROPOSED 2024 BUTTERFISH SPECIFICATIONS IN METRIC TONS

Specification	2024
OFL	16,096
ABC/ACL	15,764
Annual Catch Target (ACT)	14,976
Assumed discards	1,248
Total discards	5,132
Butterfish cap in longfin	3,884
DAH	9,844

Reaffirmation of 2024 Atlantic Chub Mackerel Specifications

Amendment 21 to the FMP previously implemented chub mackerel specifications for the 2020–2022 fishing years. The Council reevaluated these specifications at its June 2022 meeting and decided to make no adjustments for the 2023–2025 fishing years. The Council reevaluated these specifications again at its June 2023 meeting and decided to make no adjustments for the 2024 fishing year. NMFS, in agreement with the Council's recommendation, proposes to set the previously implemented specifications for 2024 and projects the same for 2025.

TABLE 5—PROPOSED 2024–2025 ATLANTIC CHUB MACKEREL SPECIFICATIONS IN METRIC TONS

Specification	2024–2025
ABC	2,300
Annual Catch Limit (ACL)	2,262
ACT	2,171
Total Allowable Landings	2,041

Classification

NMFS is issuing this rule pursuant to section 305(d) of the Magnuson-Stevens Act. Consistent with Magnuson-Stevens Act section 305(d), this action is necessary to carry out the Mackerel, Squid, and Butterfish FMP in accordance with the FMP's implementing regulations. The NMFS Assistant Administrator has determined that this proposed rule is consistent with the Mackerel, Squid, and Butterfish FMP, other provisions of the Magnuson-Stevens Act, and other applicable law, subject to further consideration after public comment.

This proposed rule has been determined to be not significant for purposes of Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the

Small Business Administration (SBA) that this proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities. The purpose, context, and statutory basis for this action is described above and not repeated here. Business entities affected by this action include vessels that are issued limited access squid permits.

Vessels issued open access incidental catch permits for these species would not be affected by this action, because there are no proposed changes to the incidental trip limits for any species. Additionally, vessels holding chub mackerel permits would not be affected because there are no new changes proposed for that species.

Any entity with combined annual fishery landing receipts less than $11 million is considered a small entity based on standards published in the **Federal Register** (80 FR 81194, December 29, 2015). In 2023, 292 separate vessels held commercial limited access squid permits. Approximately 215 entities owned those vessels, and based on current SBA size standards, 205 would be small business entities. Fishing revenue and, therefore, economic impacts of annual mackerel, squid, and butterfish specifications depend upon species availability, which may change yearly. This action is not expected to have negative impacts on any participating entities. Chub mackerel would be maintained at status quo; butterfish quotas, which were previously approved in 2023 as projected specifications, would decrease from 2023 levels by 12.7 percent; longfin quotas would decrease by 0.17 percent; and *Illex* squid quotas would increase by 1.15 percent. This action would generally maintain the current squid specifications and there is no information that the action would impact small businesses differently than large businesses, or that it would unduly inhibit the ability of small entities to compete. To avoid exceeding the longfin squid ABC, the quota would be reduced by 0.17 percent to better account for potential discards, a negligible amount or impact, especially considering that the fishery rarely lands its quota. Although butterfish quotas would be reduced, the fishery has landed less than 75 percent of the DAH for the past several years, so the proposed quotas would still allow for a higher harvest level compared to what the fishery has recently landed.

In determining the significance of the economic impacts of the proposed action, NMFS considered the following two criteria outlined in applicable NMFS guidance: disproportionality and profitability. The proposed measures would not place a substantial number of small entities at a significant competitive disadvantage to large entities because all entities affected by this action would be equally affected. Accordingly, there are no disproportionate economic effects from this action between small and large entities. Proposed measures would not reduce fishing opportunities based on recent squid and butterfish landings, change any entity's access to these resources, or impose any costs on affected entities. Therefore, this action would not be expected to reduce revenues or profit for affected entities compared to recent levels. Based on the above justification, the proposed action is not expected to have a significant economic impact on a substantial number of small entities.

This proposed rule does not contain a change to a collection of information requirement for purposes of the Paperwork Reduction Act of 1995. The existing collection of information requirements would continue to apply under the following OMB Control Number: 0648–0229, Greater Atlantic Region Dealer Purchase Reports. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

Friday, April 19, 2024

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Notice of Issuance of Final Permanent Prairie Dog Hunting Order in the Wall Ranger District of the Buffalo Gap National Grassland

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice.

SUMMARY: The Forest Service (Forest Service or Agency), United States Department of Agriculture, is issuing a final permanent order prohibiting prairie dog hunting in part of the Conata Basin area of the Wall Ranger District in the Buffalo Gap National Grassland covering approximately 80,694 acres in Jackson and Pennington Counties, South Dakota.

ADDRESSES: The final permanent prairie dog hunting order, map and justification for the final permanent order, and the response to comments on the proposed permanent order are posted on the Nebraska National Forests and Grasslands web page at *https://www.fs.usda.gov/alerts/nebraska/alerts-notices.*

FOR FURTHER INFORMATION CONTACT: Julie Johndreau, Resource Staff Officer, 308–432–0330, or *julie.johndreau@usda.gov.* Individuals who use telecommunication devices for the hearing impaired may call 711 to reach the Telecommunications Relay Service, 24 hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION: Section 4103 of the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019 (Pub. L. 116–9, Title IV (Sportsmen's Access and Related Matters)), hereinafter ''the Dingell Act,'' requires the Forest Service to provide advance notice and opportunity for public comment before temporarily or permanently closing any National Forest System lands to hunting, fishing, or recreational shooting.

The final permanent order prohibiting prairie dog hunting in part of the Conata Basin area of the Wall Ranger District in the Buffalo Gap National Grassland has completed the public notice and comment process required under the Dingell Act. The Forest Service is issuing the final permanent prairie dog hunting order. The final permanent prairie dog hunting order, map and justification for the final permanent order, and the response to comments on the proposed permanent order are posted on the Nebraska National Forests and Grasslands web page at *https://www.fs.usda.gov/alerts/nebraska/alerts-notices.*

Dated: March 29, 2024.

Jacqueline Emanuel,

Associate Deputy Chief, National Forest System.

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Forest Service

Pacific Northwest National Scenic Trail Advisory Council

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice of meeting.

SUMMARY: The Pacific Northwest National Scenic Trail Advisory Council will hold public meetings according to the details shown below. The committee is authorized under the National Trails System Act (the Act) and operates in compliance with the Federal Advisory Committee Act (FACA). The purpose of the Council is to advise and make recommendations to the Secretary of Agriculture, through the Chief of the Forest Service, on matters relating to the Pacific Northwest National Scenic Trail as described in the Act.

DATES: A virtual meeting will be held May 14th, 2024, 10:00 a.m.–2:00 p.m., Pacific Daylight Time.

Written and Oral Comments: Anyone wishing to provide virtual oral comments must pre-register by 11:59 p.m. Pacific Daylight Time on May 7, 2024. Written public comments will be accepted by 11:59 p.m. Pacific Daylight Time on May 7, 2024. Comments submitted after this date will be provided to the Agency, but the Committee may not have adequate time to consider those comments prior to the meeting.

All council meetings are subject to cancellation. For status of the meeting prior to attendance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

ADDRESSES: This meeting will be held virtually. The public may join virtually via the Zoom app or the internet using the link posted on the Pacific Northwest National Scenic Trail Advisory Council Meetings web page: *https://www.fs.usda.gov/detail/pnt/working-together/advisory-committees/?cid=fseprd505622.* Council information and meeting details can be found at the following website: *https://www.fs.usda.gov/detail/pnt/working-together/advisory-committees/?cid=fseprd505622* or by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

Written Comments: Written comments must be sent by email to *jeffrey.kitchens@usda.gov* or via mail (*i.e.,* postmarked) to Jeff Kitchens, 63095 Deschutes Market Road, Bend, Oregon 97701. The Forest Service strongly prefers comments be submitted electronically.

Oral Comments: Persons or organizations wishing to make oral comments must pre-register by 11:59 p.m. Pacific Daylight Time, May 7, 2024, and speakers can only register for one speaking slot. Oral comments must be sent by email to *jeffrey.kitchens@usda.gov* or via mail (*i.e.,* postmarked) to Jeff Kitchens, 63095 Deschutes Market Road, Bend, Oregon 97701.

FOR FURTHER INFORMATION CONTACT: Jeff Kitchens, Designated Federal Officer (DFO), by email at *jeffrey.kitchens@usda.gov,* or by phone at (458) 899–6185.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:

1. Approve meeting minutes;
2. Discuss implementation of the comprehensive plan for the Pacific Northwest National Scenic Trail Advisory Council;
3. Discuss and identify future Pacific Northwest National Scenic Trail Advisory Council activity;

The agenda will include time for individuals to make oral statements of three minutes or less. Individuals wishing to make an oral statement should make a request in writing at least

three days prior to the meeting date to be scheduled on the agenda. Written comments may be submitted to the Forest Service up to 14 days after the meeting date listed under **DATES**.

Please contact the person listed under **FOR FURTHER INFORMATION CONTACT**, by or before the deadline, for all questions related to the meeting. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received upon request.

Meeting Accommodations: The meeting location is compliant with the Americans with Disabilities Act, and the USDA provides reasonable accommodation to individuals with disabilities where appropriate. If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpretation, assistive listening devices, or other reasonable accommodation to the person listed under the **FOR FURTHER INFORMATION CONTACT** section or contact USDA's TARGET Center at (202) 720–2600 (voice and TTY) or USDA through the Federal Relay Service at (800) 877–8339. Additionally, program information may be made available in languages other than English.

USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Equal opportunity practices in accordance with USDA's policies will be followed in all appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by USDA, membership shall include to the extent possible, individuals with demonstrated ability to represent minorities, women, and person with disabilities. USDA is an equal opportunity provider, employer, and lender.

(below section completed by CMO)

Dated: April 12, 2024.

Cikena Reid,

USDA Committee Management Officer.

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Rural Housing Service

[Docket No. RHS–24–MFH–0010]

Notice of Solicitation of Applications for Section 514 Off-Farm Labor Housing Loans and Section 516 Off-Farm Labor Housing Grants for New Construction for Fiscal Year 2024

AGENCY: Rural Housing Service, United States Department of Agriculture.

ACTION: Notice of Solicitation of Applications (NOSA).

SUMMARY: The Rural Housing Service (RHS or Agency), a Rural Development (RD) agency of the United States Department of Agriculture (USDA), announces that it is soliciting competitive pre-applications for Section 514 Off-Farm Labor Housing (Off-FLH) loans and Section 516 Off-FLH grants for the construction of new Off-FLH units for domestic farm laborers, retired domestic farm laborers, or disabled domestic farm laborers. The program objective is to increase the supply of affordable housing for farm laborers. This Notice describes the method used to distribute funds, the pre-application and final application process, and submission requirements.

DATES: Eligible pre-applications submitted to the Production and Preservation Division, Processing and Report Review Branch, for this Notice will be accepted until July 3, 2024, 12:00 p.m., Eastern Time. Applications that are deemed eligible but are not selected for further processing due to inadequate funding will be withdrawn from processing. RHS will not consider any application that is received after the established deadlines unless the date and time are extended by another Notice published in the **Federal Register**. The RHS may at any time supplement, extend, amend, modify, or supersede this Notice by publishing another Notice in the **Federal Register**. Additional information about this funding opportunity can be found on the *Grants.gov* website at *http://www.grants.gov*.

The application deadlines are as follows:

1. Available loan and grant funding posted to the RHS Multifamily Housing (MFH) website by April 19, 2024.

2. Pre-applications must be submitted by July 3, 2024, 12 p.m., Eastern Time.

3. RHS pre-application notice to proceed and non-selection notifications to applicants by September 3, 2024.

4. Final applications must be submitted by October 16, 2024, 12 p.m., Eastern Time.

5. Awards communicated to applicants by December 16, 2024.

6. Awards posted to the RHS website by January 14, 2025.

ADDRESSES: Applications to this Notice must be submitted electronically to the Production and Preservation Division, Processing and Report Review Branch.

At least three business days prior to the application deadline, the applicant must email the RHS a request to create a shared folder in CloudVault. The email must be sent to the following address: *Off-FLHapplication@usda.gov*. The email must contain the following information:

1. *Subject line:* ''Off-FLH New Construction Application Submission.''

2. *Body of email:* Borrower Name, Project Name, Borrower Contact Information, Project State.

3. *Request language:* ''Please create a shared CloudVault folder so that we may submit our new construction application documents.''

Once the email request to create a shared CloudVault folder has been received, a shared folder will be created within two business days. When the shared CloudVault folder is created by the RHS, the system will automatically send an email to the applicant's submission email address with a link to the shared folder. All required application documents in accordance with this Notice must be loaded into the shared CloudVault folder. The applicant's access to the shared CloudVault folder will be removed when the submission deadline is reached. Any document uploaded to the shared CloudVault folder after the application deadline will not be reviewed or considered. Please note: CloudVault is a USDA-approved cloud-based file sharing and synchronization system. CloudVault folders are neither suitable nor intended for file storage due to agency file retention policies and space limitations. Therefore, the agency will remove all application-related files stored in shared CloudVault folders the latter of either 180 days from the application date, or once the application has been processed and the transaction has been closed.

FOR FURTHER INFORMATION CONTACT: Jonathan Bell, Branch Director, Processing and Report Review Branch, Production and Division, Multifamily Housing Programs, Rural Development, United States Department of Agriculture, via email: *MFHprocessing1@usda.gov* or phone at: 202–205–9217.

SUPPLEMENTARY INFORMATION:

Authority

This solicitation is authorized pursuant to the Title V of the Housing Act of 1949 (Pub. L. 81–171), as amended; 7 CFR 3560, subpart L; 42 U.S.C. 1484; 42 U.S.C. 1486; and 42 U.S.C. 1480.

RD: Key Priorities

RD will continue to support and promote activities and investments that will achieve the following:

1. *Creating More and Better Market Opportunities:* Assisting rural communities recover economically through more and better market opportunities and through improved infrastructure.

2. *Addressing Climate Change and Environmental Justice:* Reducing climate pollution and increasing resilience to the impacts of climate change through economic support for rural communities.

3. *Advancing Racial Justice, Place-Based Equity, and Opportunity:* Ensuring all rural residents have equitable access to RD programs and benefits from RD funded projects. For further information, visit *https://www.rd.usda.gov/priority-points.*

Background

USDA's RD Agencies, comprised of the Rural Business-Cooperative Service (RB–CS), Rural Housing Service (RHS), and the Rural Utilities Service (RUS), are leading the way in helping rural America improve the quality of life and increase the economic opportunities for rural people. RHS offers a variety of programs to build or improve housing and essential community facilities in rural areas. The Agency also offers loans, grants, and loan guarantees for single-family and multi-family housing, child-care centers, fire and police stations, hospitals, libraries, nursing homes, schools, first responder vehicles and equipment, housing for farm laborers and much more. The Agency also provides technical assistance loans and grants in partnership with non-profit organizations, Indian tribes, state and Federal government agencies, and local communities.

Sections 514 and 516 of the Housing Act of 1949 allows the RHS to provide competitive loan financing and grants, respectively, for affordable multifamily rental housing. Funds will be used to construct new Off-FLH properties to serve domestic farm laborers, retired domestic farm laborers, or disabled domestic farm laborers.

To focus investments in areas where the need for increased prosperity is greatest, the RHS will set aside 10 percent of the available funds for applications that will serve persistent poverty counties. The term ''persistent poverty counties'' means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and 2007–2011 American Community Survey 5-year average, or any territory or possession of the United States. Information on which counties are considered persistent poverty counties can be found through using the following link (*Persistent Poverty Counties* (*arcgis.com*) provided by the USDA's RD Innovation Center. Set-aside funds will be awarded in point score order, starting with the highest score. Once the set-aside funds are exhausted, any further set-aside applications will be evaluated and ranked with the other applications submitted in response to this Notice. If the RHS does not receive enough eligible applications to fully utilize the 10 percent set aside in the service of these areas, the RHS will award any unused set aside funds to other eligible applicants.

Overview

Federal Agency: Rural Housing Service.

Funding Opportunity Title: Notice of Solicitation of Applications for Section 514 Off-Farm Labor Housing Loans and Section 516 Off-Farm Labor Housing Grants for New Construction for Fiscal Year 2024.

Funding Opportunity Number: USDA–RD–HCFP–OFFFLH–NEW–2024.

Available Funds: Available loan and grant funding amounts for new construction can be found at the following link: *https://www.rd.usda.gov/programs-services/farm-labor-housing-direct-loans-grants.*

Maximum Award: All awards are subject to the availability of funding. Total Award amounts for Section 514 loans and Section 516 grants under this notice for Off-FLH may not exceed the per unit, as adjusted by number of bedrooms, Basic Statutory Mortgage Limits published by the U.S. Department of Housing & Urban Development for the 221(d)(4) program for elevatored building as follows:

SECTION 221(d)(4)—MODERATE INCOME HOUSING

Bedrooms	Per unit limit
0	$66,591
1	76,340
2	92,831
3	120,090
4+	131,826

The maximum award per selected project may not exceed $5 million (total loan and grant).

Announcement Type: Request for applications from qualified applicants for Fiscal Year 2024.

Assistance Listing Number: 10.405.

Please Note: Expenses incurred in developing applications will be at the applicant's sole risk.

A. Federal Award Description

1. A state will not receive more than 30 percent of the Off-FLH funding (excluding awards made to Federally Recognized Tribes or Tribally Designated Housing Entities) unless there are remaining Section 514 and Section 516 funds after all eligible applications nationwide have been funded. In this case, funds will be awarded to the next highest-ranking eligible applications among all of the remaining unfunded applications. The allocation of these funds may result in a state or states exceeding the 30 percent limitation.

2. Section 516 Off-FLH grants must not exceed the limits set forth in 7 CFR 3560.562(c). Total Development Cost (TDC) is defined in 7 CFR 3560.11. Section 514 Off-FLH loans may not exceed the limits set forth in 7 CFR 3560.562(b).

3. All award commitments will be valid for a period of twelve months. Applicants dependent upon third-party funding, including but not limited to local, state, and federal resources through competitive and noncompetitive application rounds, must obtain and submit to the Agency a firm commitment letter for those funds, upon receipt, but no later than the twelve-month time frame, as specified in the award commitment. An extension of the award commitment of up to six months may be given, at the sole discretion of the Agency, and will be based on project viability, current program demand, and availability of program funds. Applicants unable to satisfy this condition of the award commitment will be subject to having the award rescinded and will be required to reapply in future funding announcements.

4. A firm commitment letter is defined as a lender's unqualified pledge to the borrower that they have passed their underwriting guidelines, and they

are willing to offer the borrower a loan and/or grant under specified terms. The letter validates that the borrower's financing has been fully approved and that the lender is prepared to close the transaction. Preliminary commitment letters, term sheets, or any other letter from the lender that does not meet the definition above will not be considered a firm commitment letter and will not meet the requirements specified in this Notice.

5. Rental Assistance (RA) and Operating Assistance (OA) may be available for projects funded under this Notice, subject to the availability of funds. OA is described in 7 CFR 3560.574 and may be used in lieu of tenant-specific RA in Off-FLH projects financed under Section 514 or Section 516(i) of the Housing Act of 1949 (42 U.S.C. 1484 and 1486(i) respectively) that serve migrant farmworkers as defined in 7 CFR 3560.11. Owners of eligible projects may choose tenant-specific RA as described in § 3560.573 or OA, or a combination of both, however, any tenant or unit assisted under § 3560.574 may not receive rental assistance under § 3560.573. To request RA and/or OA, applicants must submit form RD 3560–25, Initial Request for Rental Assistance or Operating Assistance.

6. To maximize the use of the limited supply of FLH funds, the RHS may contact eligible applicants selected for an award with proposals to modify the transaction's proportions of loan and grant funds. Such applicants will be contacted in point score order, starting with the highest score. In addition, if funds remain after the highest scoring eligible applications are selected for awards, the RHS may contact those eligible applicants selected for the awards, in point score order, starting with the highest score, to ascertain whether those respondents will accept the remaining funds.

7. To enhance customer service and the transparency of this program, RHS will publish a list of awardees and the loan and/or grant amounts of their respective awards in accordance with the dates listed in this Notice. This information can be found at: *https://www.rd.usda.gov/programs-services/farm-labor-housing-direct-loans-grants.* RHS reserves the right to post all information submitted as part of the pre-application and final application package that is not protected under the Privacy Act on a public website with free and open access to any member of the public.

B. Eligibility Information

1. Housing Eligibility

Housing that is constructed with FLH loans and/or grant funds must meet RHS's design and construction standards contained in 7 CFR part 1924, subparts A and C. All projects must comply with current building codes and standards. Better building performance efforts are rewarded in the section *Building Performance and Climate Resilience* under section (12) *Addressing Climate Change and Environmental Justice.* Once constructed, Off-FLH must be managed in accordance with 7 CFR part 3560. In addition, Off-FLH must be operated on a non-profit basis and tenancy must be open to all qualified domestic farm laborers, regardless of which farm they work. Section 514(f)(3) of the Housing Act of 1949, as amended (42 U.S.C.1484(f)(3)) defines domestic farm laborers to include any person regardless of the person's source of employment, who receives a substantial portion of his/her income from the primary production, handling, or processing of agricultural or aqua cultural commodities, and also includes the person's family.

2. Tenant Eligibility

Tenant eligibility is limited to persons who meet the definition of a ''domestic farm laborer,'' a ''disabled domestic farm laborer,'' or a ''retired domestic farm laborer'' as defined in Section 514(f)(3) of the Housing Act of 1949, as amended (42U.S.C. 1484(f)(3)).

Section 514(f)(3)(A) of the Housing Act of 1949 (42 U.S.C. 1484(f)(3)(A)) hasbeen amended to extend FLH tenant eligibility to agricultural workers legally admitted to theUnited States and authorized to work in agriculture.

Owners are responsible for verifying tenant income eligibility. Only very-low or low-income households are eligible for the operating assistance rents or RA. Households with incomes above the low-income limits must pay the full rent.

In accordance with 7 CFR 3560.554, off-farm labor housing may be used to serve migrant farmworkers, as defined in 7 CFR 3560.11. Migrants or migrant agricultural laborer is a person (and the family of such person) who receives a substantial portion of his or her income from farm labor employment and who establishes a residence in a location on a seasonal or temporary basis, in an attempt to receive farm labor employment at one or more locations away from their home base state, excluding day-haul agricultural workers whose travels are limited to work areas within one day of their residence.

Seasonal housing is housing that is operated on a seasonal basis, typically for migrants or migrant agricultural laborers as opposed to year-round. Off-FLH loan and grant funds may be used to provide facilities for seasonal or temporary residential use with appropriate furnishings and equipment. A temporary residence is a dwelling which is used for occupancy, usually for a short period of time, but is not the legal residence for the occupant.

The design and construction requirements established in § 3560.60 apply to all applications for Off-FLH loans and grants except that seasonal Off-FLH that will be occupied for eight months or less per year by migrant farmworkers while they are away from their residence, may be constructed in accordance with Exhibit I of 7 CFR part 1924, subpart A.

For Off-FLH operating on a seasonal basis, the management plan must establish specific opening and closing dates.

Off-FLH is subject to the tenant contribution and rental unit rent requirements for Plan II housing established under 7 CFR part 3560, subpart E, except where seasonal housing will be occupied for less than a three-month period. In such instances the best available and practical income verification methods may be used with prior approval of RHS.

For housing rented to farm laborers and owned by public bodies, public or private nonprofit organizations, and limited partnerships, when charging rent, households must meet the income requirements outlined in 7 CFR 3560.576(b)(2)(i)(A).

3. Applicant Eligibility

(a) To be eligible to receive a Section 514 loan for Off-FLH, the applicant must meet the requirements of 7 CFR 3560.555(a) and (1) be a broad-based non-profit organization, a non-profit organization of farmworkers, a Federally recognized Indian tribe, a community organization, or an Agency or political subdivision of state or local Government, and must meet the requirements of § 3560.55, excluding § 3560.55(a)(6), or (2) be a limited partnership with a non-profit general partner which meets the requirements of § 3560.55(d). A broad-based non- profit organization is a non-profit organization that has a membership that reflects a variety of interests in the area where the housing will be located.

(b) To be eligible to receive a Section 516 grant for Off-FLH, the applicant must meet the requirements of 7 CFR

3560.555(b) and (1) be a broad-based non- profit organization, a non-profit organization of farmworkers, a federally recognized Indian tribe, a community organization, or an agency or political subdivision of State or local Government, and must meet the requirements of § 3560.55, excluding § 3560.55(a)(6), and (2) be able to contribute at least one-tenth of the total FLH development cost from its own or other resources. A broad-based non-profit organization is a non-profit organization that has a membership that reflects a variety of interests in the area where the housing will be located . The applicant's contribution must be available at the time of the grant closing. An Off-FLH loan financed by RHS may be used to meet this requirement, however, an RHS grant cannot be used to meet this requirement. Limited partnerships with a non-profit general partner are eligible for Section 514 loans; however, they are not eligible for Section 516 grants.

(c) The applicant must be unable to provide the necessary housing from their own resources and be unable to obtain credit from any other source upon terms and conditions which the applicant could reasonably be expected to fulfill.

(d) Broad-based non-profit organizations must have a membership that reflects a variety of interests in the area where the housing will be located.

4. Other Requirements

The following requirements apply to loans and grants made in response to this Notice:

(a) 7 CFR part 1901, subpart E, regarding equal opportunity requirements;

(b) For grants only, 2 CFR parts 200 and 400, which establishes the uniform administrative and audit requirements for grants and cooperative agreements to State and local Governments and to non-profit organizations;

(c) 7 CFR part 1901, subpart F, regarding historical and archaeological properties;

(d) 7 CFR 1970.11, Timing of the environmental review process. *Please note, the environmental information must be submitted by the applicant to RHS. RHS must review and determine that the environmental information is acceptable before the obligation of funds;*

(e) 7 CFR part 3560, regarding the loan and grant authorities of the Off-FLH program;

(f) 7 CFR part 1924, subpart A, regarding the planning and performing of construction and other development;

(g) 7 CFR part 1924, subpart C, regarding the planning and performing of site development work;

(h) For construction utilizing a Section 516 grant, the provisions of the Davis-Bacon Act (40 U.S.C. chapter 31, subchapter IV) and implementing regulations published at 29 CFR parts 1, 3, and 5;

(i) Applicants must be financially stable and provide proof of credit worthiness.

(j) Borrowers and grantees must take reasonable steps to ensure that tenants receive the language assistance necessary to afford them meaningful access to USDA programs and activities, free of charge. Failure to provide this assistance to tenants who can effectively participate in or benefit from Federally assisted programs or activities may violate the prohibition under Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d *et seq.*

(k) In accordance with 7 CFR 3560.60, the housing must be economical to construct, operate, and maintain and must not be of elaborate design or materials.

(l) The agency promotes the protection of outdoor workers from heat illness. Applicants are encouraged to include amenities in the project that help prevent heat illness or promote recovery from potential impacts of exposure to heat illness.

(m) All program applicants, unless exempt under 2 CFR 25.110(b), (c), or (d), are required to:

i. Be registered in System Award Management (SAM) before submitting their applications;

ii. Provide a valid Unique Entity ID (UEI) in their applications; and

iii. Continue to maintain an active SAM registration with current information at all times during which they have an active Federal award or an application or plan under consideration by a Federal awarding agency.

The Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. SAM is the Official U.S. Government system for collection of forms for acceptance of a federal award through the registration or annual recertification process. Applicants may register for SAM at *https://www.sam.gov* or by calling 1–866–606–8220. The applicant must ensure that the information in the database is current, accurate, and complete. On April 4, 2022, the unique entity identifier used across the federal government changed from the DUNS Number to the UEI (generated by SAM.gov). As required by the Office of Management and Budget (OMB), all applications must provide a UEI number when applying for Federal assistance. Instructions for obtaining the UEI are available at *https://sam.gov/content/entity-registration.* Applicants must ensure they complete the Financial Assistance General Certifications and Representations in SAM. Similarly, all recipients of Federal financial assistance are required to report information about first-tier subawards and executive compensation in accordance with 2 CFR part 170. So long as an entity applicant does not have an exception under 2 CFR 170.110(b), the applicant must have the necessary processes and systems in place to comply with the reporting requirements should the applicant receive funding. See 2 CFR 170.200(b).

Additional information concerning these requirements can be obtained on the *Grants.gov* website at *http://www.grants.gov.* The applicant must provide documentation that they are registered in SAM and their UEI number or the application will not be considered for funding. The following forms for acceptance of a federal award are now collected through the registration or annual recertification in SAM.gov in the Financial Assistance General Certifications and Representations section:

- Form AD–1047, ''Certification Regarding Debarment, Suspension, and Other Responsibility Matters-Primary Covered Transactions.''
- Form AD–1048, ''Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion. Lower Tier Covered Transactions.''
- Form AD–1049, ''Certification Regarding Drug-Free Workplace Requirements (Grants).''
- Form AD–3031, ''Assurance Regarding Felony Conviction or Tax Delinquent Status for Corporate Applicants.''
- Form AD–3030, ''Representations Regarding Felony Conviction and Tax Delinquent Status for Corporate Applicants.''

C. Pre-Application and Submission Information

The application process will be in two phases: The initial pre-application and the submission of a final application. Only those pre-applications that are selected for further processing will be

invited to submit a final application. In the event that a pre-application is selected for further processing and the applicant declines, the next highest ranked pre-application will be selected for further processing. All pre-applications for Section 514 and Section 516 funds must meet the requirements of this Notice. Incomplete pre-applications will be rejected and returned to the applicant. No pre-application will be accepted after the deadline unless the date and time is extended by another Notice published in the **Federal Register**.

Applicants are encouraged to include a checklist or Table of Contents of all the application requirements and to index and tab their application to facilitate the review process. Applicants must submit a separate one-page information sheet listing each of the pre-application scoring criteria contained in this Notice, followed by a reference to the page numbers of all relevant material and documentation that is contained in the proposal that supports the criteria.

1. Pre-Application submission process. Pre-applications must be submitted electronically. The process for submitting an electronic application to RHS is as follows:

(a) At least three business days prior to the application deadline, the applicant must email RHS a request to create a shared folder in CloudVault. The email must be sent to the following address: *Off-FLHapplication@usda.gov.* The email must contain the following information:

i. *Subject line:* ''Off-FLH New Construction Application Submission.''

ii. *Body of email:* Borrower Name, Project Name, Borrower Contact Information, Project State.

iii. *Request language:* ''Please create a shared CloudVault folder so that we may submit our new construction application documents.''

(b) Once the email request to create a shared CloudVault folder has been received, a shared folder will be created within two business days. When the shared CloudVault folder is created by RHS, the system will automatically send an email to the applicant's submission email with a link to the shared folder. All required application documents in accordance with this Notice must be loaded into the shared CloudVault folder. When the submission deadline is reached, the applicant's access to the shared CloudVault folder will be removed. Any document uploaded to the shared CloudVault folder after the application deadline will not be reviewed or considered.

(c) The applicant should upload a Table of Contents of all of the documents that have been uploaded to the shared CloudVault folder. Last-minute requests and submissions may not allow adequate time for the submission process to take place prior to the deadline. *Applicants are reminded that all submissions must be received by the deadline and the application will be rejected if it is not received by the deadline date and time, regardless of when the application was submitted.*

2. Pre-Application Requirements. The application must contain the following:

(a) An executed and dated Executive Summary on the applicant's letterhead that must include at least the following:

i. Brief description of the proposed project. Be sure to address if the project will be used year-round or seasonally and to what construction standards the housing will be built.

ii. Document the need for the project. The *applicant* must document that the housing and related facilities will fulfill a pressing need in the area in which the project will be located.

iii. Description of the proposed ownership structure with an organizational chart.

iv. Narrative verifying the applicant's ability to meet the eligibility requirements stated earlier in this Notice.

v. A statement of the applicant's experience in operating labor housing or other rental housing. If the applicant's experience is limited, additional information should be provided to indicate that the applicant plans to compensate for this limited experience (*e.g.,* by obtaining assistance and advice of a management firm, non-profit group, public agency, or other organization which is experienced in rental management and will be available on a continuous basis).

vi. Description of the applicant's legal and financial capability to carry out the obligation of the loan and/or grant.

vii. Proposed management. A brief statement explaining the applicant's proposed method of operation and management (*e.g.,* on-site manager, contract for management services, or other method.). As stated earlier in this Notice, the housing must be managed in accordance with the program's management regulations, 7 CFR part 3560.

viii. Description and proof of established site control.

ix. Proposed Return to Owner (RTO), if applicable.

x. Any financial commitments, financial concessions, or other economic benefits proposed to be provided by RHS.

xi. Third-party funding, if applicable. For each third-party funding source or leveraged funds, discuss briefly the funding provider, funding amount, including terms, commitment status, timing issues such as any proposed closing dates, any restrictions that will be applicable to the project, and whether any accommodation from RHS is proposed, such as a lien position other than first. The desired lien position of any third-party funding source must be clearly disclosed as well as any proposal for RHS to accept a second lien position.

xii. Any proposed compensation to parties having an identity of interest with either the seller, purchaser, consultant, or Technical Assistance (TA) provider.

xiii. Any proposed construction financing, for example, a construction or bridge loan or the use of multiple advances.

xiv. Type and method of construction such as negotiated bid or contractor method.

xv. If a FLH grant is desired, a statement concerning the need for a FLH grant. The statement must include estimates of the rents required with a grant and rents required without a grant. Documentation to demonstrate how the rent figures were computed must be provided. Documentation must be in the form of a completed Form RD 3560–7 ''Multiple Family Housing Project Budget/Utility Allowance'' completed as if a grant was received and another form completed as if a grant would not be received. RHS will review each budget to determine that the income and expenses are reasonable and customary for the area.

xvi. If RA or OA is requested, a statement concerning the need for the RA or OA and a statement concerning the specific number of units of RA or OA that is needed. Strong and detailed justification must be provided for requests of 100 percent RA or OA.

xvii. In accordance with § 3560.63(f), all applicants must agree in writing to provide funds at no cost to the housing and without pledging the housing as security to pay cost overruns for completing planned construction after the maximum debt limit is reached.

xviii. Estimated development timeline to include estimated start and end date as well as any other important milestones such as a required closing date.

xix. Description of any required site development such as building roads, obtaining easements, installing utilities, verification that there is proper site

access, and any state or local approvals such as zoning.

xx. Description of the required and intended applicant contribution.

xxi. Any other pertinent information that the applicant feels should be disclosed as part of this proposal.

(b) Provide the following forms and certifications:

i. Standard Form 424 ''Application for Federal Assistance'' which can be obtained at: *https://www.grants.gov/.*

ii. Form RD 3560–30, ''Certification of no Identity of Interest (IOI),'' if applicable, can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD3560-30.PDF.*

iii. Form RD 3560–31, ''Identity of Interest Disclosure/Qualification Certification'' if applicable, can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD3560-31.PDF.*

An IOI is defined in 7 CFR 3560.11. RHS will review Form RD 3560–30 and Form RD 3560–31, as applicable, to determine if they are completed in accordance with the Forms Manual Insert and to determine that all IOI's have been disclosed. TA will not be funded by RHS when an IOI exists between the TA provider and the loan or grant applicant.

iv. Form HUD 2530, ''Previous Participation Certification'' can be found at: *https://www.hud.gov/sites/dfiles/OCHCO/documents/2530.pdf.*

v. Form RD 400–4, ''Assurance Agreement'' can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD400-4.PDF.*

vi. RD Instruction 1940–Q, Exhibit A–1, ''Certification for contracts, grants and loans,'' can be found at: *https://www.rd.usda.gov/files/1940q.pdf.*

vii. Form RD 1910–11, ''Applicant Certification, Federal Collection Policies for Consumer or Commercial Debts'' can be found at: *https://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD1910-11.PDF.*

viii. Form RD 400–1, ''Equal Opportunity Agreement,'' can be found at: *https://formsadmin.sc.egov.usda.gov/eFormsAdmin/browseFormsAction.do?pageAction=displayPDF&formIndex=2.*

(c) Provide the following financial and organizational information:

i. Current (within six months of this Notice's pre-application submission due date) financial statements for each entity within the ownership structure with the following paragraph certified by the applicant's designated and legally authorized signer:

''I/we certify the above is a true and accurate reflection of our financial condition as of the date stated herein. This statement is given for the purpose of inducing the United States of America to make a loan or to enable the United States of America to make a determination of continued eligibility of the applicant for a loan as requested in the loan application of which this statement is a part.''

ii. Submit a current (within 6 months from the date of issuance) comprehensive credit reports that contain details of both current open credit accounts and closed accounts for both the entity and the actual individual principals, partners, and members within the applicant entity, including any sub-entities who are responsible for controlling the ownership and operations of the entity. If any of the principals in the applicant entity are not natural persons (including but not limited to corporations, limited liability companies, trusts, partnerships, or limited partnerships), separate comprehensive commercial credit reports must be submitted on those organizations as well. Only credit reports provided by one of the three accredited major credit bureaus (Experian, Equifax, or TransUnion) will be accepted. The Agency will also accept combination comprehensive credit reports which provide a comprehensive view of the applicant's credit profile by combining data from all three major credit bureaus (Experian, Equifax, and TransUnion). If the credit report(s) is not submitted by the application deadline, the application will be considered incomplete and will not be considered for funding.

iii. Letter from the IRS indicating the applicant's tax identification number.

iv. Organizational applicants must provide to their attorney acceptable evidence of U.S. citizenship and/or qualified alien status. Acceptable evidence of U.S. citizenship may include a valid U.S. birth certificate, a valid U.S. Passport, a valid U.S. Certificate of Naturalization, or other acceptable evidence of U.S. citizenship proposed by the applicant and determined by the Agency. Acceptable evidence of qualified alien status may include valid documentation issued by the U.S. Citizenship and Immigration Services (USCIS), or other acceptable documentation of qualified alien status proposed by the applicant and determined by the Agency.

Attorney Certification. The applicant's attorney must review all applicable evidence to verify U.S. citizenship and/or qualified alien status, must certify that the Agency's U.S. citizenship and/or qualified alien status eligibility requirements are met by all applicants, and must submit the certification for Agency review.

v. Documentation verifying the applicant is registered in SAM and the applicant's UEI number (unless exempt under 2 CFR 25.110(b), (c), or (d)).

vi. If the applicant is a limited partnership, a current and fully executed limited partnership agreement and certificates of limited partnership. If changes are proposed to be made to the limited partnership agreement prior to loan/grant closing, the applicant must provide the proposed limited partnership agreement and certificates of limited partners for any proposed new limited partners. (Agency requirements should be contained in one section of the agreement and their location identified by the applicant or their attorney in a cover sheet.)

vii. If the applicant is a non-profit organization:

a. Tax-exempt ruling from the IRS designating the applicant as a 501(c)(3) or 501(c)(4) organization. If the designation is pending, a copy of the designation request must be submitted.

b. Purpose statement, including the provision of low-income housing.

c. Evidence of organization under Tribal, state and/or local law, or copies of pending applications and a copy of the applicant's charter, Articles of Incorporation, and by-laws.

d. List of Board of Directors including their names, occupations, phone numbers, and addresses.

e. If the applicant is a member or subsidiary of another organization, the organization's name, address, and nature of business.

viii. Certificate of Good Standing.

ix. Attorney Certification. Letter from the applicant's attorney certifying the legal sufficiency of the organizational documents. The attorney must certify:

a. The applicant's legal capacity to successfully operate the proposed project for the life of the loan and/or grant.

b. That the organizational documents comply with RHS regulations.

c. For partnership purchasers, that the term of the partnership extends at least through the latest maturity of all proposed RHS debt.

d. That the organizational documents require prior written RHS approval for any of the following: withdrawal of a general partner of a partnership or limited partnership applicant, withdrawal of any member of a limited liability company applicant, admission of a new general partner to a partnership or limited partnership applicant, admission of any new member to a limited liability company applicant, amending the applicant's organizational

documents, and selling all or substantially all of the assets of the applicant.

(d) Provide the following information about the Project:

i. Market feasibility documentation to identify the supply and demand for Off-FLH in the market area. A market study must be submitted. The market area must be clearly identified and may include only the area from which tenants can reasonably be drawn for the proposed project. Documentation must be provided to justify a need within the intended market area for the housing of domestic farm laborers, taking into consideration the pool of applicants that meet the occupancy requirements of the Off-FLH program under 7 CFR 3560.576. The documentation must also consider disabled and retired farm workers and adjusted median incomes of very-low, low, and moderate. The market study must include the following:

a. A complete description of the proposed site and a map showing the site, location of services, and their distances from the site.

b. Names and qualifications of members of the community interviewed during the site visit and a discussion of their comments.

c. Major employers in the area and year established.

d. Employment opportunities and rates for the area for the past 5 years.

e. Services available in the area, including shopping, schools, and medical facilities as well as community services such as recreational, transportation, and day care that are available.

f. Population by year plus the annual increase or decrease for the past 5 years.

g. Population characteristics by age.

h. Number of households by year and number of persons per household for the past 5 years.

i. Historical breakdown of households by owners and renters.

j. Households by income groups.

k. A survey of existing or proposed rental housing, including complex name, location, number of units, bedroom mix, family or elderly type, year built, rent charges, vacancies, waiting lists, amenities, and the availability of RA or other subsidies.

l. Available mobile homes, if part of housing stock.

m. The existing vacancy rate of all available rental units in the community, including houses.

n. Proportionate need for project type.

o. Building permits issued per year for the last 3 years for single and multiple unit dwellings.

p. For proposals where the applicant is requesting LIHTCs, the number of LIHTC units and the maximum LIHTC incomes and rents by unit size. This information will determine the levels of incomes in the market area, which will support the basic rents while also qualifying the applicant for tax credits.

q. The amount of RA and/or OA necessary to ensure the project's success.

r. Major employment data including the name, location, and date of establishment of any major employers within the community; the product or service of each employer; the number of employees; and salary range for each employer; and business permits issued.

s. Housing stock as defined by total number of units: one-unit buildings, two- or more unit buildings, mobile homes, and the number of these lacking some or all plumbing facilities (substandard housing).

t. Number of rent-overburdened households.

u. An expanded analysis of existing vacancy rates for all available rental units in the community, including mobile homes. The analysis must make a distinction between ''owned properties,'' ''available for rent,'' and ''for sale—not available for rent,'' as well as available apartments and other rental units.

v. Population characteristics by age.

w. A projection of housing demand based on:

- Household growth;
- Units constructed since the last U.S. Census;
- Number of owned and rented units;
- Number of replacements; and
- Number of households in the eligible-income range.

x. The annual income level of farmworker families in the area and the probable income of the farm workers who will likely occupy the proposed housing;

y. A realistic estimate of the number of farm workers who remain in the area where they harvest and the number of farm workers who normally migrate into the area. Information on migratory workers should indicate the average number of months the migrants reside in the area and an indication of what type of households are represented by the migrants (*i.e.,* single individuals as opposed to families);

z. General information concerning the type of labor-intensive crops grown in the area and prospects for continued demand for farm laborers;

aa. The overall occupancy rate for comparable rental units in the area, the rents charged, and customary rental practices for these comparable units (*e.g.,* will they rent to large families, do they require annual leases, etc.);

bb. The number, condition, adequacy, rental rates and ownership of units currently used by or available to farm workers;

cc. Information on any proposed new construction of housing units within the market area. The building permit information and pending tax credit applications must be checked for the primary market area;

dd. Documentation verifying that interviews were conducted with farms and other agricultural businesses within the primary market area to inquire if they are in need of additional housing for their employees or if they plan to expand and hire additional employees that will need housing; and

ee. A description of the proposed units, including the number, type, size, rental rates, amenities such as carpets and drapes, related facilities such as a laundry room or a community room, and other facilities providing supportive services in connection with the housing and the needs of the prospective tenants such as a health clinic or day care facility.

ff. All market studies must provide a summary of the sample of farm workers used to document the need for off-farm labor housing. This summary should quantify eligible tenants according to 7 CFR part 3560 subpart L section 3560.577 within the farm worker demographics sample and provide the reference/source of the information.

gg. The market study must also include the following required elements of the market feasibility documentation (MFD):

- Services available in the area include shopping, schools, and medical facilities as well as community services such as recreational, transportation, and day care. Services appear to be appropriate for the project type and within reasonable proximity of the site.
- Building permits issued during the past 3 years and new employment opportunities show the community to be growing, rather than declining.
- Major employers in the area provide employment opportunities sufficient to support a population base of renters for the proposed project.
- Employment rates for the area have been high over the past 5 years.

hh. The analyst makes realistic recommendations supported by the statistical information provided:

- Population characteristics and household data for the community are stable or show an increase during the past 5 years.
- Population characteristics by age shows support for the type of project being proposed, and the type of complex proposed reflects the greater

proportionate need and demand of the community. To establish this, compare the share or percentage of the community's total rental units that are designated for the elderly (62 years or older or disabled) to the community's share of elderly households, and the share of total rental units for families to the share of family households in the community. For mixed projects, the unit mix must reflect the proportionate need of each household type.

- Statistical data showing households by income group shows that there are households in the eligible income group that could rent in the project.
- Historical breakdown of households by owners and renters shows that there is a tradition of renters.
- The MFD addresses the need for more than just one and two bedroom units.
- The bedroom mix of the proposed units is proportional to the need in the market area based on renter household size and the bedroom mix of existing units.
- The bedroom mix of fully accessible units (5 percent) is comparable to the bedroom mix of non-accessible units.
- The MFD shows evidence of need for the housing in that there are rent overburdened households and/or households in substandard housing.
- A discussion of existing housing supply includes reference to the single-family housing rental and sale units available and shows these to be inadequate.
- Temporary residents of a community, including college students, military personnel, or others not claiming their current residence as their legal domicile, have not been included in determining need and project size.
- The MFD includes a discussion on the current market for single-family houses and how sales, or the lack of sales, will affect the demand for elderly rental units. If the market study discusses how elderly homeowners reinforce the need for rental housing, it does so only as a secondary market and not as the primary market.
- The vacancy rates in existing rental housing, including available single-family housing and mobile homes, is 5 percent (or the State-approved vacancy standard, if different) or less, or there is an acceptable explanation where higher rates occur. Existing rental complexes should also show waiting lists.
- The CRCU shown is less than or equal to the rents proposed for the project.
- For proposals where the applicant is requesting LIHTCs, the number of LIHTC units and the maximum LIHTC incomes and rents by unit size are provided. Statistical data provided show that there are households in the tax credit-eligible income group to rent in the project. If not, rental assistance is requested.
- The MFD makes clear the amount of RA that is necessary to ensure the project's success.

ii. The analyst that completes the market study must provide the following certifications:

- The information presented is accurate to the best of the preparer's knowledge.
- Reliable sources were used to collect the information and data presented (for a study, the analyst has included a statement of qualifications).
- A site visit was made by the preparer or their representative.
- The analyst will not receive any fees that are contingent upon approval of the project by the Agency.
- The analyst will have no interest in the project.

jj. The market study must also include the following methodologies:

- A brief statement of the methodology used in the study has been included.
- All mathematical calculations are expressed in actual numbers, including percentages.
- Source references are identified for each table or section of the market study.

It is recommended that the provider include a copy of Attachment 4–F, located in HB–1–3560, Chapter 4 (*https://www.rd.usda.gov/sites/default/files/3560-1chapter04.pdf*), within the report and provide the page number of the report where it contains the information that satisfies each element of Attachment 4–F. The market study must be obtained from, and performed by, an independent third-party provider that has no identity of interest with the property owner, management agent, applicant or any other principal or affiliate. The market study must also include the following:

ii. If the applicant is seeking points for land donation, a narrative to explain how the land donation meets all of the requirements set forth in Section E(5) of this Notice.

iii. Evidence of site control, such as an executed option contract or sales contract. The option contract or sales contract must not be expired.

iv. A map and description of the proposed site, including the availability of water, sewer, and utilities and the proximity to community facilities and services such as shopping, schools, transportation, doctors, dentists, and hospitals. Off-FLH projects must comply with the site requirements in 7 CFR 3560.58 with the exception of the requirement that the property be located in a designated place.

v. A supportive services plan which describes services that will be provided on-site or made available to tenants through cooperative agreements with service providers in the community, such as a health clinic or day care facility. Off-site services must be accessible and affordable to farm workers and their families. A map showing the location of supportive services must be included. Letters of commitment from service providers to deliver services to tenants must be included. The plan must describe how the services will be funded. RA may not fund supportive services.

(e) Provide the following construction related documents:

i. Preliminary plans and specifications, including a plot plan, site plan with contour lines, floor plan for each living unit type and other spaces, such as laundry facilities, community rooms, stairwells, etc., building exterior elevations, typical building exterior wall section, building layouts, and type of construction and materials. The housing must meet RHS's design and construction standards contained in 7 CFR part 1924, subparts A and C, including meeting all current applicable building codes, and must also meet all applicable federal, state, and local accessibility standards and be in compliance with all building codes. Applications for Off-FLH loans and grants must also meet the design requirements in 7 CFR 3560.559.

ii. A description of the proposed interior/exterior washing facilities, if applicable. Applicants should consider incorporating interior/exterior washing facilities for tenants, as necessary to protect the housing and the tenants from excess dirt and chemical exposure. Such facilities might include a boot washing station or hose bibs, among others.

iii. Description and justification of related facilities as defined in 7 CFR 3560.11, and a schedule of separate charges for the related facilities.

iv. A checklist, certification, and signed affidavit by the project architect or engineer, as applicable, for any energy programs the applicant intends to participate in.

(f) Provide the following project financing information:

i. A Sources and Uses Statement which shows all sources of funding included in the proposed transaction. The terms and schedules of all sources included in the project should be included in the Sources and Uses Statement. (Note: A Section 516 grant

may not exceed 90 percent of the TDC of the transaction)

ii. All applications that propose the use of any grant, non-amortizing leveraged funds, or similar funding source should submit commitment letters with their application, if available. If the applicant is unable to secure third-party firm commitment letters within 180 calendar days from the issuance of the award letter under this NOSA, the application will be deemed incomplete, the award letter will be considered null and void, and the applicant will be notified in writing that the application will be rejected.

iii. Description of how the applicant will meet the applicable equity contribution requirement.

(g) Provide the following environmental information:

i. Environmental information in accordance with the requirements in 7 CFR part 1970. The applicant is responsible for preparing and submitting the environmental review document in accordance with the format and standards provided by RHS in 7 CFR part 1970. Applicants may employ a design or environmental professional or technical service provider to assist them in the preparation of their environmental review documents at their own expense.

ii. Evidence of the submission of the project description to the applicable State Housing Preservation Office (SHPO), and/or Tribal Historic Preservation Officer (THPO) with the request for comments. A letter from the SHPO and/or THPO where the Off-FLH project is located stating they have reviewed the site and made a determination, signed by their designee, is required to demonstrate compliance.

iii. Intergovernmental review. Evidence of compliance with Executive Order 12372. The applicant must initiate the intergovernmental review by submitting the required information to the applicable State Clearinghouse. The applicant must provide documentation that the intergovernmental review process was completed. The applicant must also submit any comments that were received as part of this review to the agency. If no comments are received, the applicant must provide documentation that the review was properly initiated and that the required comment period has expired. Applications from Federally recognized Indian tribes are not subject to this requirement.

iv. FEMA Form 81–93, Standard Flood Hazard Determination.

v. Comments regarding relevant offsite environmental conditions, which could include but are not limited to, information on surrounding businesses or land uses such as abandoned buildings or facilities, landfills, and waste or water management facilities, etc. that may present an adverse impact to the proposed development.

(h) Provide the following budget and management information:

i. A proposed post-construction operating budget utilizing Form RD 3560–7, ''Multiple Family Housing Project Budget/Utility Allowance'' can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD3560-7.PDF.*

RHS will review the budget to determine that the income and expenses are reasonable and customary for the area. RHS will also verify that the budget reflects the correct and estimated RHS debt service, number of units, unit mix, and proposed rents. Overall, RHS will review the budget for feasibility, accuracy, and reasonableness.

ii. An estimate of development costs utilizing Form RD 1924–13 ''Estimate and Certificate of Actual Cost'' can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD1924-13.PDF.*

iii. If requesting RA or OA, Form RD 3560–25, ''Initial Request for Rental Assistance or Operating Assistance'' can be found at: *http://forms.sc.egov.usda.gov/efcommon/eFileServices/eForms/RD3560-25.PDF.*

If any of the required items listed above are not submitted within the pre-application in accordance with this Notice or are incomplete, the pre-application will be considered incomplete and will not be considered for funding.

RHS will not consider information from an applicant after the pre-application deadline. RHS may contact the applicant to clarify items in the application. RHS will uniformly notify applicants of each curable deficiency. A curable deficiency is an error or oversight that if corrected it would not alter, in a positive or negative fashion, the review and rating of the application. An example of a curable (correctable) deficiency would be inconsistencies in the amount of the funding request.

D. Preliminary Eligibility Assessment

RHS shall make a preliminary eligibility assessment using the following criteria:

1. The pre-application was received by the applicable submission deadlines specified in the Notice;

2. The pre-application is complete as specified by the Notice;

3. The applicant is an eligible entity and is not currently debarred, suspended, or delinquent on any Federal debt; and

4. The proposal is for authorized purposes.

E. Pre-Application Review and Scoring Information

RHS will accept, review, score, and rank pre-applications in accordance with this Notice. The maximum score that can be obtained is 106 points. Section 514 Off- FLH loan funds and Section 516 Off- FLH grant funds will be distributed to states based on a national competition, based on the following scoring criteria:

(1) *Development Team Experience (up to 15 points).* Applicants should demonstrate their team's (owner, including the General Partner of a partnership applicant, Developer and Management Company) recent experience in successfully completing the development of FLH and/or MFH projects in a timely manner. RHS will consider the applicant's experience with utilizing federal financing programs, including timely project completion and ensuring that Section 514/516 projects are occupied by eligible farmworker tenants. A firm resume must be provided for all sponsors/co-sponsors, including the management agent in order to receive points. The description or firm resumes must include any rental housing projects that the applicant team sponsored, owns, or operates. To score the highest number of points for this factor, applicants must describe significant previous experience in providing housing to generally and significant previous experience implementing affordable housing development activities. Points will be awarded as follows:

Low level of development experience (5 points)
Medium level of development experience (10 points)
High level of development experience (15 points)

(2) *Market Conditions/Need for Farm Labor Housing (up to 15 points).* The applicant must provide the required market study as described above in Section C, Pre-application and Submission Information, number 11. In particular, the applicant must ensure that the market study assesses the supply of eligible farmworkers that meet the tenancy requirements for the Section 514/516 program. Points will be awarded as follows:

a. *Need (up to 10 points).* Points will be awarded based on the absorption ratio. The absorption ratio is computed by dividing the number of units in the proposed project by the number of

income eligible and farm labor eligible households within the primary market area.

Evidence of Strong Need (10 points). An absorption ratio of 15 percent or less.

Evidence of Need (5 points). An absorption ratio greater than 15 percent and less than 30 percent.

b. *Diminished Needs Waivers in Primary Market Area.* If the market study indicates that the primary market area for the property includes an existing Section 514/516 property, the Agency will determine if the existing property has been approved by the Agency for a Diminished Needs Waiver (DNW) due to a lack of qualified farmworker tenants. If a DNW is in place, the Agency will reduce the scoring by two (2) points in (a) to reflect a reduced need for the property.

c. *Location and Access to Services (up to 5 points).* Applicants must demonstrate that the location of the site supports FLH. The applicant must identify the location, the proximity, and ease of access of the project site to amenities important to the residents that supplement the services provided on-site. Applicants must describe how residents could reasonably access critical amenities. Amenities will generally be considered readily available if they are within one-half mile walking distance or they can be accessed by public transportation within one-quarter walking mile, and/or affordable private door-to-door shuttle/van service that is reliable and accessible. Applicants may commit to providing such transportation services if the nature of the commitment and the financing of the commitment is adequately described. Project funds cannot be used for this purpose. To score the maximum number of points on this factor, applicants must make a compelling argument that the location of the proposed project is well suited with respect to proximate amenities to meet the needs of farm workers. Documentation must be provided that clearly outlines the project site and its proximity to the applicable amenities. The site location will be rated on access to the following:

Health care and social services (1 point) (*e.g.* hospital, medical clinic, social service organization that offers services to farm workers);

Grocery stores (1 point) (*e.g.,* supermarket or other store that sells produce and meat);

Recreational facilities (1 point) (*e.g.,* parks and green space, community center, gym, health club, family entertainment venue, library);

Schools and civic facilities (1 point) (*e.g.,* place of worship, schools, police or fire station, post office);

Other neighborhood-serving amenities (1 point) (*e.g.,* apparel store, convenience store, pharmacy, bank, hair care, and restaurants).

(3) *Ownership and Management Capacity (up to 15 points).* Applicants should demonstrate that they have the experience and organizational resources to successfully own, operate and manage FLH on a long-term basis. In the case of co-sponsored applications, the rating will be based upon the combination of the experience of all co-sponsors in the area under review. In order to receive points, a firm resume must be provided for the applicant and all Sponsors/Co-Sponsors, including the management agent. Each resume must include FLH and MFH ownership and management experience, as applicable. In addition, the resume should include a description of all similar projects that the applicant and Sponsors/Co-Sponsors have been involved with, to include whether they were Federal housing projects, and information regarding the success of the projects. Points will be awarded as follows:

Low level of management experience (5 points)

Medium level of management experience (10 points)

High level of management experience (15 points)

(4) Leveraging Other Funds (up to 10 points). Points will be allocated for applications that leverage other funds based on the ratio of leveraged funds to total development cost (TDC). Leveraged funds are defined as non-Section 514/516 funds, including third-party funds from equity, grants, loans and deferred developer fees. To receive points, the proposal must serve tenants meeting Agency income limits at basic rents comparable to what the rent would be if the Agency provided full financing. These comparable rents will be determined by the Agency. Points are calculated as follows:

Leveraged funds/TDC is greater than 80%: 10 points

Leveraged funds/TDC is 60% to 79%: 8 points

Leveraged funds/TDC is 40% to 59%: 6 points

Leveraged funds/TDC is 20% to 39%: 4 points

Leveraged funds/TDC is 5% to 19%: 2 points

(5) *Land Donation (5 points).* Points are provided if the proposal uses a donated site which meets the following conditions: (A) The site is donated by a state, unit of local government, public body or a nonprofit organization; (B) The site is suitable for the housing proposal and meets Agency requirements in accordance with § 3560.56 (c) (1) (iv); (C) Site development costs do not exceed what they would be to purchase and develop an alternative site; (D) The overall cost of the FLH is reduced by the donation of the site; and (E) A return on investment is not paid to the borrower for the value of the donated site nor is the value of the site considered as part of the borrower's contribution. If the applicant is seeking points for land donation, provide a narrative to explain how the land donation meets all of the requirements.

(6) *Operational cost savings (up to 5 points).* The presence of outside funding sources that contribute to operational cost savings, such as tax abatements, non-RHS tenant subsidies or donated services, are calculated on a per-unit cost savings for the sum of the savings. Savings must be available for at least 15 years and documentation must be provided within the pre-application demonstrating the availability of savings for 15 years. To calculate the savings, take the total amount of savings and divide it by the number of units in the project that will benefit from the savings to obtain the per-unit cost savings. For example, a 10- unit property receiving $30,000 per year non-RHS subsidy yields a cost savings of $450,000 ($30,000 × 15 years); resulting in a $3,000 per-unit per-year cost savings ($450,000/10 units/15 years). Documentation must be provided within the pre-application that verifies the presence of operational cost savings. Points will be awarded relative to the amount of operating cost savings obtained by other NOSA applicants:

Per-unit operating costs saving amount is among the top 50% of applicants: (5 points)

Per unit operating cost savings are demonstrated, but are not among the top 50% of applicants: (3 points)

No per-unit operating cost savings are demonstrated: (0 points)

(7) *Targeted Locations (5 points).* Points will be awarded to proposals that provide rental units in a colonia, on Tribal land, Rural Economic Area Partnership (REAP) community, Enterprise Zone or Empowerment Community (EZ/EC) or in a place identified in the state Consolidated Plan or a state needs assessment as a high need community for MFH. Documentation must be provided within the pre-application that verifies

the property is located in one of the targeted locations.

(8) *Tenant Support Services (up to 5 points).* Points will be allocated for the presence of tenant supportive services. One point will be awarded for each tenant service included in the tenant supportive services plan up to a maximum of 5 points. In order to receive points, the tenant support services plan must describe the proposed supportive services, including a description of the public or private funds that are expected to fund the proposed services as well as the way the services will be delivered, who will administer them, and where they will be administered. All tenant service plans must include letters of intent that clearly state the service that will be provided at the project for the benefit of the residents from any party administering each service, including the applicant. These services may include, but are not limited to, transportation-related services, on-site English as a Second Language classes, move-in funds, emergency assistance funds, homeownership counseling, food pantries, after school tutoring, and computer learning centers. The proposed supportive services plan must describe how the services will meet the identified needs of the tenants and how the services will be provided on a consistent, long-term basis to support the tenants. The plan must clearly state how the services will be funded. RA, OA and project funds may not be used to pay for these services.

(9) *Rural Communities (5 points).* Although a rural area location is not required for the Section 514/516 program, points will be awarded to properties located in MFH eligible rural areas. Applicants must include a copy of the map demonstrating the project is located in an eligible rural area. MFH eligible areas are found on the following website: Eligibility (usda.gov)

(10) *Creating More and Better Markets (5 points).* Assisting Rural communities to recover economically through more and better market opportunities and through improved infrastructure. Priority points will be awarded if the project is located in or serving a rural community whose economic well-being ranks in the most distressed tier of the Distressed Communities Index. The Distressed Communities Index provides a score between 1–100 for every community at the zip code level. The most distressed tier of the index are those communities with a score over 80. Please use the Distressed Communities Index Look-Up Map to determine if your project qualifies for priority points. Provide a copy of the map showing the project is eligible to claim points. *Note:* US Territories are considered distressed and qualify for priority points. For additional information on data sources used for this priority determination, please download the Data Sources for Rural Development Priorities document. Additional information for priority points can be found on the following website: *https://www.rd.usda.gov/priority-points.*

(11) *Advancing Racial Justice, Place-Based Equity, and Opportunity (5 points).* Ensuring all rural residents have equitable access to RD programs and benefits from RD funded projects. Priority points will be awarded if the project is located in or serving a community with score 0.75 or above on the CDC Social Vulnerability Index. Please use Social Vulnerability Index Map to look up map or list to determine if your project qualifies for priority points. Provide a copy of the map showing the project is eligible to claim points. Applications from Federally Recognized Tribes, including Tribal instrumentalities and entities that are wholly owned by Tribes, will receive priority points. Federally Recognized Tribes are classified as any Indian or Alaska Native tribe, band, nation, pueblo, village, or community as defined by the Federally Recognized Indian Tribe List Act (List Act) of 1994 (Pub. L. 103–454). Please refer to the Bureau of Indian Affairs for a listing of Federally Recognized Tribes. Additionally, projects where at least 50% of the project beneficiaries are members of Federally Recognized Tribes, will receive priority points if applications from non-Tribal applicants include a Tribal Resolution of Consent from the Tribe or Tribes that the applicant is proposing to serve. *Note:* US Territories are considered socially vulnerable and qualify for priority points. For additional information on data sources used for this priority determination, please download the Data Sources for Rural Development Priorities document. Additional information for priority points can be found on the following website: *https://www.rd.usda.gov/priority-points.*

(12) *Addressing Climate Change and Environmental Justice (up to 5 points).* Increasing resilience to the impacts of climate change through economic support to rural communities. Applicants can receive priority points through the options listed below.

Option 1 (5 points). Priority points will be awarded if the project is in or serves a Disadvantaged Community as defined by the Climate and Economic Justice Screening Tool (CEJST), from the White House Council on Environmental Quality (CEQ). CEJST is a tool to help Federal agencies identify disadvantaged communities that will benefit from programs included in the Justice40 initiative. Census tracts are considered disadvantaged if they meet the thresholds for at least one of the CEJST's eight (8) categories of burden: Climate, Energy, Health, Housing, Legacy Pollution, Transportation, Water and Wastewater, or Workforce Development.

OR;

Option 2 (5 points). Priority points will be awarded if the project is in or serves an Energy Community as defined by the Inflation Reduction Act (IRA). The IRA defines energy communities as:

A ''brownfield site'' (as defined in certain subparagraphs of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA))

A ''metropolitan statistical area'' or ''non-metropolitan statistical area'' that has (or had at any time after 2009) 0.17% or greater direct employment or 25% or greater local tax revenues related to the extraction, processing, transport, or storage of coal, oil, or natural gas; and has an unemployment rate at or above the national average unemployment rate for the previous year

A census tract (or directly adjoining census tract) in which a coal mine has closed after 1999; or in which a coal-fired electric generating unit has been retired after 2009.

To determine if your project qualifies for priority points under Option 1 or Option 2, please use the Disadvantaged Community & Energy Community Look-Up Map on the following website: *https://www.rd.usda.gov/priority-points.* Provide a copy of the map showing the project is eligible to claim points.

(13) Building Performance and Climate Resilience (11 points maximum).

A. *Disaster Resilient Construction Practices and Standards (Up to 3 points).* Constructing buildings to be of good quality at the outset will ensure the long-term durability, health, safety, operational efficiency, and asset quality into the future. Addressing location specific hazards may also offer applicants an opportunity to lower insurance premiums.

The FEMA National Risk Index (NRI) *https://hazards.fema.gov/nri/map.* identifies the following hazards, which may occur simultaneously: Avalanche, coastal flooding, cold wave, drought, earthquake, hail, heat wave, hurricane, ice storm, landslide, lightening, riverine flooding, strong wind, tornado, tsunami, volcanic activity, wildfire, winter

weather. The FEMA mapping tool allows a report to be generated for the County level and the Census track level. The applicant should use the tool to create a report based on the address of the proposed project at the Census track level. This report should be included in the application in order to obtain points in this category.

USDA RD was involved in the authorship of the collaborative creation of guides to builders on resilient construction techniques germane to Natural Hazards. Five volumes include: wind, water, fire, earth, and auxiliary hazards. *https://www.huduser.gov/portal/publications/Designing-for-Natural-Hazards-Series.html*.

(i) *Disaster Resilient Construction (1 point).* Applicants seeking to earn 1 point for Disaster Resilient construction must submit a signed commitment from the applicant that the project will be designed and constructed using the most current suite of codes published by the International Code Council, including the International Building Code 2021 without weakening amendments, or a more stringent code, and shall articulate the specific measures that will be carefully taken to mitigate the impact of pertinent natural hazards impacting the project location. In order to obtain points, the applicant must also provide a certification from a licensed professional architect or engineer that the building plans meet these standards and that the final building plans, if not yet available, will meet these standards.

(ii) *Addressing Specific Hazards (2 points)* In addition to best practices illustrated in the Natural Hazard guides, there are some industry standards that address specific hazards. To obtain points in this category, applicants must commit to additional compliance beyond the building code, with the industry standard resilience programs such as those listed below, and must illustrate this through commitments signed by the applicant and key leaders of the project development team, including the lead developer, architects, engineers, and special consultants if applicable. Applicants can obtain points by illustrating the specific hazard(s) germane to the location of the project and committing to participate in an industry standard program designed to address the identified risk(s). The applicant must also submit a certification from a licensed professional architect or engineer that the building plans comply with the standards of the identified resilience program and that the final building plans, if not yet available, will comply with such standards.

- *Strong Wind, Hurricane, Tornado, Hail:* Institute for Business and Home Safety (IBHS) FORTIFIED programs that address high-wind, hail, hurricane and up to CAT 3 tornado risk. *https://fortifiedhome.org/fortified-multifamily/*
- *Wildfire:* 2021 Wildland Urban Interface (WUI) Code *https://planningforhazards.com/wildland-urban-interface-code-wui-code.*

NFPA Firewise USA *https://www.nfpa.org/education-and-research/wildfire/firewise-usa*.

- *Riverine, Coastal, or Pluvial Flooding*—Federal Flood Risk Management Standard (FFRMS) (required as of January 1, 2024)
- *Wholistic Multihazard*—RELi is a holistic third-party rating system that can be used for both individual buildings and communities, addressing multi-hazards and deeper community resilience. *https://c3livingdesign.org/reli/*.

B. *Green Building Standards: (3–6 points).* The complex processes of design and construction of buildings have interwoven choices that have potential to protect the health, safety, and welfare of not only its occupants but also every part of the supply chain and lives of human beings within that ecosystem. Development has the potential to improve lives, create communities, elevate economies, and heal ecosystems if done well. Achieving certification from one or more of the green building standard programs listed below will yield a maximum of 3 points for achievement of an above-code, green building standard, with an additional 3 points possible for full zero energy achievements, for a total of 6 points maximum.

(i) *Green Building Program Participation (3 points)*

- EPA's Energy Star Multifamily Certification or Energy Star Next Gen *https://www.energystar.gov/partner_resources/residential_new/homes_prog_reqs/multifamily_national_page*.
- DOE Zero Energy Ready Homes *https://www.energy.gov/eere/buildings/zero-energy-ready-homes*.
- Earth Advantage *https://www.earthadvantage.org/*.
- Earthcraft Gold or Platinum *https://earthcraft.org/programs/earthcraft-house/*.
- Green Communities program by the Enterprise Community Partners (2020 Criteria, EGC + Zero Ready/Phius) *https://www.enterprisecommunity.org/solutions-and-innovation/green-communities*.
- Greenpoint Gold or Platinum. *https://www.greenpointrated.com/greenpoint-rated/*.
- The National Green Building Standard (NGBS)—Multifamily and Mixed Use (four levels of base certification, plus *NGBS Green + NET ZERO ENERGY CERTIFICATION) *https://www.homeinnovation.com/services/certification/green_homes/multifamily_certification*.
- International Living Future Institute (ILFI) Living Building Challenge (LBC 4.0—Core Building Certification, *Zero Energy, *Zero Carbon). *https://living-future.org/lbc/*.
- LEED V4 Homes and Multifamily Midrise, or LEED BD+C: Homes and Multifamily Lowrise LEED BD+C: Multifamily Midrise (four levels of certification, plus *LEED Zero) *https://www.usgbc.org/resources/leed-v4-homes-and-multifamily-midrise-current-version*.
- Passive House Institute US, Inc. (Phius Core, *Phius Zero) *https://multifamily.phius.org/service-category/phius-within-reach*.

(ii) *Zero Energy Buildings (3 points maximum).* Points will be awarded for achievements of deep energy efficiency and transitions toward Zero Energy Building Performance for projects that have already committed to compliance with at least Energy Star for Homes program, with the additional following performance achievement commitments. For Energy Star and other programs, a Home Energy Rating System (HERS score) is a potential pathway for assessment of energy performance achievement. A HERS score of 100 is the benchmark of an average home, and scores that are lower than 100 illustrate a percentage of improved performance from that average. A HERS 85 would mean that the unit performs 15% better than the average housing unit. A HERS 0 means that the housing unit has achieved net zero—that there is enough on-site renewable energy to cover its consumption needs. HERS 42 is an approximate benchmark that indicates that improved energy performance achievements in performance will require the addition of on-site renewable energy sources. Energy modeling that illustrates the achievements of the following progressively successful achievements will be awarded the following points:

- (1 point) HERS 42 or lower and all-electric
- (2 points) HERS 42 or lower, all-electric, and 10% on-site renewable energy
- (3 points) HERS 0 or lower, all-electric, and 100% on-site renewable energy

Applicants aspiring to achieve net zero energy are encouraged to choose a

program from the list of green building programs above that has a Zero Energy achievement adder or separately designed track. These programs have asterisks next to them and include programs such as the Phius Zero program, the ILFI Zero Energy or Zero Carbon Program, the NGBS Green + NET ZERO ENERGY CERTIFICATION or LEED Zero. Working within a guided program will assist the applicant in ensuring successful achievement of zero energy goals.

Applicants must submit the corresponding checklist, registrations in programs, and signed affidavits by the owner, the architect, applicable mechanical, electrical plumbing, and structural engineers, and other program-required green building professionals, energy modelers and raters as applicable to the programs selected for point consideration.

C. *Water Conservation (1 point).* One (1) point will be awarded for xeriscaping of site landscaping and/or water conservation in irrigation measures to include a recycled water (gray water or storm water) for landscape irrigation covering 50 percent or more of the property's site landscaping needs. In order to receive this point, the applicant's architect or consulting landscape architect must illustrate in narrative, draft specifications, and schematic drawings how this will be achieved.

D. *Property Management Credentials (1 point).* Projects may be awarded one (1) point if the designated property management company or individuals that will assume maintenance and operation responsibilities upon completion of construction work have a Credential for Green Property Management. Credentialing can be obtained from the National Apartment Association (NAA), National Affordable Housing Management Association, The Institute for Real Estate Management, U.S. Green Building Council Leadership in Energy and Environmental Design (USGBC LEED) for Operations and Maintenance, or another source with a certifiable credentialing program. Credentialing must be illustrated in the resume(s) of the property management team and included with the application in order to receive the point.

Additional requirement: All projects awarded scoring points for energy initiatives must enroll the project in the EPA Portfolio Manager program and the associated EPA Water Score program to track post construction energy consumption data as well as water usage. More information about this program may be found at: *https://www.energystar.gov/buildings/benchmark.*

F. Federal Award Administration Information

1. Review and Selection Process

All pre-applications must be received by the due dates specified in this Notice. Applications or application materials received after the deadline will not be considered. Each application will be reviewed for overall completeness, as well as compliance with eligibility and program requirements set forth in this Notice. If an application does not meet these requirements, it will be removed from consideration and will not be scored. For applications found ineligible or incomplete, RHS will send notices of ineligibility that provide notice of any applicable appeal rights under 7 CFR part 11.

RHS will rank all eligible and complete pre-applications nationwide by score, highest to lowest. Taking into account available funding, the 10 percent persistent poverty counties set-aside, and the 30 percent limitation per state, RHS will determine which pre-applications will be selected for further processing starting with the highest scoring pre-application. RHS will notify applicants with pre-applications found eligible and selected for further processing.

When proposals have an equal score and not all pre-applications can be funded, preference will be given first to Indian tribes as defined in § 3560.11, then local non-profit organizations or public bodies whose principal purposes include low-income housing and that meet the conditions of § 3560.55(c) and the following conditions:

- Is exempt from Federal income taxes as a public body or under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code;
- Is not wholly or partially owned or controlled by a for-profit or limited-profit type entity;
- Whose members, or the entity, do not share an identity of interest with a for-profit or limited-profit type entity;
- Is not co-venturing with a for-profit or limited-profit type entity; and
- The entity or its members will not be receiving any direct or indirect benefits pursuant to the Low Income Housing Tax Credit Program (LIHTC).

If after all of the above evaluations are completed and there are two or more pre-applications that have the same score, and all cannot be funded, a lottery will be used to break the tie. The lottery will consist of the names of each pre-application with equal scores printed onto a same size piece of paper, which will then be placed into a receptacle that fully obstructs the view of the names. The Director of the RHS Production and Preservation Division, in the presence of two witnesses, will draw a piece of paper from the receptacle. The name on the piece of paper drawn will be the applicant to be funded.

If insufficient funds or RA/OA remain for the next ranked proposal, that applicant will be given a chance to modify their pre-application funding request to bring it within the remaining available funding. This will be repeated for the next ranked eligible proposal until an award can be made or the list is exhausted.

If a pre-application is selected and the applicant declines, the next highest ranked pre-application will be selected.

Applicants will be notified if there are insufficient funds available for the proposal, and such notification is not appealable.

2. Administrative and National Policy

All FLH loans and grants are subject to the restrictive-use requirements contained in 7 CFR 3560.72(a)(2).

For Section 516 Off-FLH grant awardees, a FLH grant agreement, prepared by RHS, must be dated and executed by the applicant on the date of closing. The grant agreement will remain in effect for so long as there is a need for the housing and will not expire until an official determination has been made by RHS that there is no longer a need for the housing.

The applicant's Board of Directors must adopt a resolution in a form acceptable to the RHS stating that the Board has read and fully understands the grant agreement and understands that the grant agreement will remain in effect until RHS determines that there is no longer a need for the housing.

3. Reporting

Borrowers must maintain separate financial records for the operation and maintenance of the project and for tenant services. Tenant services will not be funded by RHS. Funds allocated to the operation and maintenance of the project may not be used to supplement the cost of tenant services, nor may tenant service funds be used to supplement the project operation and maintenance. Detailed financial reports regarding tenant services will not be required unless specifically requested by RHS, and then only to the extent necessary for RHS and the borrower to discuss the affordability (and competitiveness) of the service provided to the tenant. The project audit, or

verification of accounts on Form RD 3560–10, ''Multifamily Housing Borrower Balance Sheet'' together with an accompanying Form RD 3560–7, ''Multiple Family Housing Project Budget/Utility Allowance'' must allocate revenue and expenses between project operations and the tenant services component.

G. Final Application and Submission Information

1. Final Application Submission Process

The pre-applications that are selected for further processing will be invited to submit final applications. In the event that a pre-application is selected for further processing and the applicant declines, the next highest ranked pre-application will be selected for further processing. The final applications will be due by the dates specified in this Notice.

All final applications must be submitted to RHS and must meet the requirements of this Notice. The final application submission process will be the same as previously explained and outlined for the pre-application submission process in Section C 1, ''Pre-Application and Submission Information.'' Final applications that are incomplete as of the deadline will be rejected and returned to the applicant. No final applications or application materials will be accepted after the deadline unless the date and time are extended by another Notice published in the **Federal Register**.

A final application in accordance with this Notice must be submitted and approved by RHS prior to the obligation of funds. RHS will follow this Notice for the processing of final applications. Awards will require a determination from RHS that the project is feasible and meets all applicable program requirements as stated in this Notice and in RHS regulations. If there are insufficient funds available to fund all eligible final applications, awards will be made in accordance with the Review and Selection Process described in Section F.1 of this Notice.

2. Final Application Requirements

In addition to the items listed below, the final application must contain any document that was submitted within the pre-application that has since changed or needs to be updated. The Agency will advise the applicant of any documents that are required to be updated. The applicant may also change or update additional documents at the applicant's discretion. The following new documents must be submitted:

(a) A narrative that contains a description of any changes from the pre-application submission.

(b) Provide the following forms and certifications:

a. Form RD 400–1, ''Equal Opportunity Agreement'' can be found at: *https://forms.sc.egov.usda.gov/eForms/browseFormsAction.do?pageAction=displayPDF&formIndex=1.*

b. Form RD 400–6, ''Compliance Statement'' can be found at: *https://forms.sc.egov.usda.gov/eForms/browseFormsAction.do?pageAction=displayPDF&formIndex=4.*

(c) Provide the following financial and organizational information:

a. Final organizational documents and Certificate of Good Standing.

b. Description of how the applicant will meet the equity contribution requirement as applicable.

c. Description of how the applicant will provide the two percent initial operating and maintenance reserve requirement.

(d) Provide the following Project information:

a. Current Preliminary title insurance commitment/binder.

b. Land survey with flood plain certification.

(e) Provide the following construction documents:

a. Final plans and specifications along with the proposed manner of construction, if available. The housing must meet RHS's design and construction standards contained in 7 CFR part 1924, subparts A and C, and must also meet all applicable Federal, state, and local accessibility standards and be in compliance with all current building codes. The final plans and specifications, along with the proposed manner of construction, are not required to be submitted prior to the final application deadline. However, these documents must be submitted prior to the approval of the final application. The Agency will communicate to applicants the deadline to submit these documents.

b. Final construction planning, bidding, and contract documents, including, but not limited to the construction contract and architectural agreement, if available. The final construction planning, bidding, and contract documents, including the construction contract and architectural agreement, etc., are not required to be submitted prior to the final application deadline. However, these documents must be submitted prior to the approval of the final application. The Agency will communicate to applicants the deadline to submit these documents.

(f) Provide the following financing information:

a. All applications that propose the use of any leveraged funds should submit firm commitment letters within their final application, if available. Applicants dependent upon third-party funding, including but not limited to local-, state-, and federal resources through competitive and noncompetitive application rounds, must obtain and submit to the Agency a satisfactory commitment of those funds, as determined by the Agency, upon receipt, but no later than the twelve-month time frame, as specified in the award commitment. An extension of the award commitment of up to six months may be given, at the sole discretion of the Agency, and will be based on project viability, current program demand, and availability of program funds. Applicants unable to satisfy this condition of the award commitment will be subject to having the award rescinded and will be required to reapply in future funding announcements.

(g) Provide the following budget and management information:

a. Final proposed Form RD 1924–13, ''Estimate and Certificate of Actual Cost.''

b. Final proposed post-construction operating budget utilizing Form RD 3560–7, ''Multiple Family Housing Project Budget/Utility Allowance.''

c. Form RD 3560–13, ''Multifamily Project Borrower's/Management Agent's Management Certification'' if applicable, can be found at: *https://forms.sc.egov.usda.gov//efcommon/eFileServices/eForms/RD3560-13.PDF.*

d. Management plan with all attachments including the proposed record keeping system, the proposed lease with an attorney's certification, if applicable, and the proposed occupancy rules.

e. Management Agreement, if applicable.

f. For projects that have five or more rental units, an Affirmative Fair Housing Marketing Plan (AFHMP) as defined in 24 CFR part 200, subpart M, in accordance with 7 CFR 1901.203(c). The AFHMP will reflect that occupancy is open to all qualified ''domestic farm laborers,'' regardless of which farming operation they work for, and that they will not discriminate on the basis of race, color, sex, age, disability, marital or familial status or National origin in regard to the occupancy or use of the units. The AFHMP must include all attachments and supporting documentation.

Indian Tribes, including instrumentalities of such Indian Tribes,

are not required to comply with certain aspects of the AFHMP guidelines above, and may allow members of Indian Tribes to be given preference for housing. The Native American Housing Enhancement Act of 2005 (NAHEA), Public Law 109–136, Codified at 25 U.S.C. 4101 *et seq.,* amended Title V of the Housing Act of 1949 (42 U.S.C. 1471 *et seq*.) which created the housing programs administered by the United States Department of Agriculture, Rural Housing Service. The NAHEA excludes Indian Tribes, including instrumentalities of such Indian Tribes, from the requirement to comply with Title VI of the Civil Rights Act of 1964, and Title VIII of the Civil Rights Act of 1968, allowing members of Indian Tribes to be given preference for housing in accordance to the Native American Housing Assistance and Self Determination Act of 1996 (25 U.S.C. 4101 *et seq*.).

The NAHEA does not exempt Indian Tribes from complying with other laws that apply to recipients of Federal financial assistance. Therefore, Federally recognized Indian Tribes must continue to comply with Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and Title IX of the Education Amendments Act of 1972, where applicable. The NAHEA also does not exempt Indian Tribes from complying with the accessibility requirements of the Fair Housing Amendments Act (FHAA) of 1988. This Act amended Title VIII of the Fair Housing Act of 1968, to include disability and familial status. Therefore, the NAHEA did not specifically exempt Indian Tribes from the accessibility requirements of the FHAA. The requirements to construct multi-family housing properties accessible to, or adaptable for, persons with disabilities are to be followed. This requirement shall be consistent with 7 CFR 3560.60(d).

(h) Provide the following third-party reports:

a. Acceptable appraisal. Appraisals for applications requesting an Off-FLH loan may be conditioned but will be required prior to closing. Please refer to the Agency's appraisal guidance under the ''To Apply'' tab on the Off-Farm Labor Housing Direct Loans & Grants website (*https://www.rd.usda.gov/programs-services/multifamily-housing-programs/farm-labor-housing-direct-loans-grants#to-apply*).

b. A Capital Needs Assessment (CNA) is not required. When underwriting new construction applications, the Agency will require an initial and ongoing capitalization of the replacement reserve account to address future replacement reserve-eligible needs. This shall be reflected in the applicant's development budget as an Initial Deposit for Replacement Reserve (IDRR) in an amount equal to $250 per-unit. The Annual Deposit for Replacement Reserve (ADRR) requirements shall be reflected in the operating budget and shall be the lower of the following:

i. 0.2% of the Total Development Costs (TDC) per unit.

ii. $450 per unit.

iii. An amount determined to be acceptable, at the sole discretion of the agency based on the underwriting analysis, that is required by another participating state or federal: program, lender, or investor in the proposed transaction.

H. Documentation of Underwriting and Costs

All final applications including the loan and/or grant requests will be analyzed using an underwriting template that RHS has developed. A complete analysis and underwriting of the proposed transaction will be completed to ensure all regulatory requirements are met and to ensure overall project feasibility as well as to determine the minimum amount of assistance that is needed for the proposal. Proposals that are determined not to be feasible will not receive funding.

Questions regarding this Notice may be directed to Jonathan Bell, Branch Director, Processing and Report Review Branch, Production and Preservation Division, Multifamily Housing Program, Rural Development, United States Department of Agriculture, or email: *MFHprocessing1@usda.gov* or phone at: 800–292–8293.

I. Technical Assistance Providers

Please be aware that TA services may not be used to reimburse a non-profit or public body applicant for technical services provided by a non-profit organization, with housing and/or community development experience, to assist the non-profit applicant entity in the development and packaging of its loan/grant docket and project. In addition, TA will not be funded by RHS when an identity of interest exists between the TA provider and the loan or grant applicant. Identity of interest is defined in 7 CFR 3560.11.

J. Applicant Assistance

The RHS plans to host a workshop to discuss this Notice, the application process, and the borrower's responsibilities, among other topics. Further information regarding the date and time of this workshop, as well as information on how to participate in the workshop will be issued at a later date in a public notice via GovDelivery. Click here to sign up for notifications from Rural Development.

Prior to the submission of an application, the applicant is encouraged to schedule a concept meeting with RHS to discuss the application process, the specifics of the proposed project, and the borrower's responsibilities under the Off-FLH new construction program, among other topics.

Concept meetings will be scheduled between the dates of May 6, 2024 and May 31, 2024. No concept meetings will be scheduled outside of the specified dates.

Requests for concept meetings can be sent to the following email address: *MFHprocessing1@usda.gov* and must be received by May 20, 2024. The email must contain the following information:

(1) *Subject line:* ''Off-FLH New Construction Concept Call Request.''

(2) *Body of email:* Borrower Name, Project Name, Borrower Contact Information, Project State.

(3) *Request language:* ''We request to schedule a concept call to discuss our proposed application for the Off-FLH New Construction NOSA.''

K. Equal Opportunity Survey

RHS will provide applicants the voluntary OMB 1890–0014 form, ''Survey on Ensuring Equal Opportunity for Applicants,'' (or other forms currently being used by RHS) and ask the applicant to complete it and return it to RHS.

L. Substantial Portion of Income From Farm Labor

The Notice restates the requirement that domestic farm laborers must receive a substantial portion of their income from ''farm labor.'' Further explanation of this requirement can be found in the regulation at 7 CFR 3560.576(b)(2). The term ''farm labor'' is defined in 7 CFR 3560.11.

M. Build America, Buy America Act

Funding to Non-Federal Entities. Awardees that are Non-Federal Entities, defined pursuant to 2 CFR 200.1 as any State, local government, Indian tribe, Institution of Higher Education, or nonprofit organization, shall be governed by the requirements of Section 70914 of the Build America, Buy America Act (BABAA) within the Infrastructure Investment and Jobs Act (Pub. L. 117–58), and its implementing regulations at 2 CFR part 184. Any requests for waiver of these requirements must be submitted pursuant to USDA's guidance available

online at *https://www.usda.gov/ocfo/federal-financial-assistance-policy/USDABuyAmericaWaiver.*

N. Equal Opportunity and Non-Discrimination Requirements

In accordance with federal civil rights law and USDA civil rights regulations and policies, USDA, its Mission Areas, agencies, staff offices, employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (*e.g.,* Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Mission Area, agency, staff office; or the 711 Relay Service. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, a complainant should complete Form AD–3027, USDA Program Discrimination Complaint Form, which can be obtained online at *https://www.usda.gov/sites/default/files/documents/ad-3027.pdf,* from any USDA office, by calling (866) 632–9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights about the nature and date of an alleged civil rights violation.

The completed AD–3027 form or letter must be submitted to USDA by:

(1) *Mail:* United States Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410;

(2) *Fax:* (202) 690–7442; or

(3) *Email at: program.intake@usda.gov.*

USDA is an equal opportunity provider, employer, and lender.

Joaquin Altoro,

Administrator, Rural Housing Service.

BILLING CODE 3410–XV–P

DEPARTMENT OF COMMERCE

Economic Development Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Regional Economic Development Data Collection Instrument

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 18, 2024.

ADDRESSES: Interested persons are invited to submit written comments via email to Hallie Davis, Program and Management Analyst, Economic Development Administration (EDA), at *HDavis1@eda.gov* or *PRAcomments@doc.gov.* Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Hallie Davis, Program and Management Analyst, EDA, at *HDavis1@eda.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

EDA leads the Federal economic development agenda by promoting innovation and competitiveness and preparing American regions for growth and success in the worldwide economy. Guided by the basic principle that sustainable economic development should be driven locally, EDA works directly with communities and regions to help them build the capacity for economic development based on local business conditions and needs. Section 28 of the Stevenson-Wydler Technology Innovation Act of 1980 (Regional Technology and Innovation Hub Program (15 U.S.C. 3722a) is the legal authority under which EDA awards financial assistance and designee status under the Fiscal Year (FY) 23 Regional Technology and Innovation Hub Program (''Tech Hubs''). Under Tech Hubs, EDA seeks to strengthen U.S. economic and national security through place-based investments in regions with the assets, resources, capacity, and potential to become globally competitive, within approximately ten years, in the technologies and industries of the future—and for those industries, companies, and the good jobs they create to start, grow, and remain in the U.S. in order to support the growth and modernization of U.S. manufacturing, improve commercialization of the domestic production of innovative research, and strengthen U.S. economic and national security. Tech Hubs is a two-phase program: in Phase 1, EDA funded Strategy Development grants and designated 31 regions as Tech Hubs. In Phase 2, designated Tech Hubs are eligible to compete for funding for implementation projects. Further information on Tech Hubs can be found at *www.eda.gov.*

The purpose of this notice is to seek comments from the public and other Federal agencies on a request for a new information collection for designated Tech Hubs to help ensure that Tech Hub investments are evidence-based, data-driven, and accountable to participants and the public.

Lead consortium members of the 31 designated Tech Hubs will submit identified program metrics and qualitative information to help assess specific program objectives. A one-time questionnaire will be sent to each of the Tech Hubs consortium leads which will gather the relevant data and stories for each of the 31 Tech Hubs designee consortia, resulting in consortia regional impact evaluation, resources, and tools for regional economic development decision-makers. The 31 designated Tech Hubs will provide information on the following objectives:

(1) Accelerating technology innovation, commercialization, demonstration, and deployment, which may include information on the number of patents filed, licensing agreements, approximate levels of research and development expenditures, adoption of

new technologies, and acceleration of current technologies.

(2) Enabling infrastructure and advancing manufacturing, which may include information on specific facility information.

(3) Integrating an agile workforce system, which may include information on skills needed by employers, available training, hard-to-fill vacancies, policies and strategies for worker retention, and strategies for engagement with underserved workers.

(4) Increasing business and entrepreneurial capacity, which may include assessing employer competitiveness, relationships with federal, state, and local entities, current partnerships, and information about sources of capital to start and grow businesses and to adopt innovative approaches and technologies.

(5) Strengthening national security, which may include information on procurement processes, critical inputs, sourcing, supply chains, and strategic implications of technologies and their use cases.

Tech Hubs designees must submit this data one time to provide a baseline status of the Tech Hub and to help assess the results of designee status as well as potential future federal investments.

EDA is particularly interested in public comment on how the proposed data collection will support the assessment of job quality, including in ways that rely on pairing this information administrative data for analysis and other ways to minimize burden, or if alternative information should be considered.

II. Method of Collection

Data will be collected electronically.

III. Data

OMB Control Number: None: new information collection.

Form Number(s): None: new information collection.

Type of Review: Regular submission: new information collection.

Affected Public: Tech Hubs designees, which may include a (n): Institution of higher education, including Historically Black Colleges and Universities, Tribal Colleges or Universities, and Minority-Serving Institutions; State, territorial, local or Tribal governments or other political subdivisions of a State, including State and local agencies, or a consortium thereof; Industry groups or firms in relevant technology, innovation, or manufacturing sectors; Economic development organizations or similar entities that are focused primarily on improving science, technology, innovation, entrepreneurship, or access to capital; Labor organizations or workforce training organizations, which may include State and local workforce development boards; Economic development entities with relevant expertise, including a district organization; Organizations that contribute to increasing the participation of underserved populations in science, technology, innovation, and entrepreneurship; Venture development organizations; Organizations that promote local economic stability, high wage domestic jobs, and broad-based economic opportunities, such as employee ownership membership associations and State or local employee ownerships and cooperative development centers, financial institutions and investment funds, including community development financial institutions and minority depository institutions; Elementary schools and secondary schools, including area career and technical education schools; National laboratories; Federal laboratories; Manufacturing extension centers; Manufacturing U.S.A. Institutes; Transportation planning organizations; A cooperative extension services; Organizations that represent the perspectives of underserved communities in economic development initiatives; and Institutions receiving an award under the National Science Foundation's (NSF) Regional Innovation Engines Program.

Estimated Number of Respondents: Consortium Lead Members/Tech Hubs Designee Consortia: 31 respondents, responding once.

Estimated Time per Response: Consortium Lead Members/Tech Hubs Designee Consortia: 3 hours.

Estimated Total Annual Burden Hours: 93 hours.

Type of respondent (one time)	Number of respondents	Hours per response (hours)	Number of responses per year	Total estimated time (hours)
Lead Consortium Members/Tech Hubs Designee Consortia	31	3	1 (Once)	93
Total	31	3	1	93

Estimated Total Annual Cost to Public: $5,769.72 (cost assumes application of U.S. Bureau of Labor Statistics second quarter 2022 mean hourly employer costs for employee compensation for professional and related occupations of $62.04).

Respondent's Obligation: Mandatory for Consortium Lead Members.

Legal Authority: Stevenson Wydler Technology Innovation Act of 1980, section 28 (15 U.S.C. 3722a).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary of Economic Affairs, Commerce Department.

[FR Doc. 2024–08443 Filed 4–18–24; 8:45 am]

BILLING CODE 3510–34–P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Simple Network Application Process and Multipurpose Application Form

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 8, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: Bureau of Industry and Security, Department of Commerce.

Title: Simple Network Application Process and Multipurpose Application Form.

OMB Control Number: 0694–0088.

Form Number(s): BIS–748P, BIS–748P–A, BIS–748P–B.

Type of Request: Revision of a current information collection.

Number of Respondents: 78,360.

Average Hours per Response: 29.7.

Burden Hours: 38,826.

Needs and Uses: Section 1761(h) under the Export Control Reform Act (ECRA) of 2018, authorizes the President and the Secretary of Commerce to issue regulations to implement the ECRA including those provisions authorizing the control of exports of U.S. goods and technology to all foreign destinations, as necessary for the purpose of national security, foreign policy and short supply, and the provision prohibiting U.S. persons from participating in certain foreign boycotts. Export control authority has been assigned directly to the Secretary of Commerce by the ECRA and delegated by the President to the Secretary of Commerce. This authority is administered by the Bureau of Industry and Security through the Export Administration Regulations (EAR). BIS administers a system of export, re-export, and in-country transfer controls in accordance with the EAR. In doing so, BIS requires that parties wishing to engage in certain transactions apply for licenses, submit Encryption Review Requests, or submit notifications to BIS. BIS also reviews, upon request, specifications of various items and determines their proper classification under the EAR.

Affected Public: Business or other for-profit organizations.

Frequency: On Occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Section 1761(h) of the Export Control Reform Act (ECRA).

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0694–0088.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–33–P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Miscellaneous Short Supply Activities

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 18, 2024.

ADDRESSES: Interested persons are invited to submit comments by email to Mark Crace, IC Liaison, Bureau of Industry and Security, at *mark.crace@bis.doc.gov* or to *PRAcomments@doc.gov*). Please reference OMB Control Number 0694–0102 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Mark Crace, IC Liaison, Bureau of Industry and Security, phone 202–482–8093 or by email at *mark.crace@bis.doc.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection comprises two rarely used short supply activities: ''Registration of U.S. Agricultural Commodities for Exemption from Short Supply Limitations on Export (USAG)'', and ''Petitions for the Imposition of Monitoring or Controls on Recyclable Metallic Materials; Public Hearings (Petitions).'' Under provisions of sections 754.6 and 754.7 of the Export Administration Regulations (EAR), agricultural commodities of U.S. origin purchased by or for use in a foreign country and stored in the United States for export at a later date may voluntarily be registered with the Bureau of Industry and Security for exemption from any quantitative limitations on export that may subsequently be imposed under the EAR for reasons of short supply.

II. Method of Collection

Any entity, including a trade association, firm or certified or recognized union or group of workers, which is representative of an industry or a substantial segment of an industry which processes metallic materials capable of being recycled with respect to which an increase in domestic prices or a domestic shortage, either of which results from increased exports, has or may have a significant adverse effect on the national economy or any sector thereof, may submit a written petition to BIS requesting the monitoring of exports, or the imposition of export controls, or both, with respect to such materials.

III. Data

OMB Control Number: 0694–0102.

Form Number(s): None.

Type of Review: Extension of a current information collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 2.

Estimated Time per Response: 100.5 hours.

Estimated Total Annual Burden Hours: 201.

Estimated Total Annual Cost to Public: 0.

Respondent's Obligation: Voluntary.

Legal Authority: 754.6 and 754.7 of the Export Administration Regulations (EAR).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–33–P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Request for Investigation Under Section 232 of the Trade Expansion Act

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 18, 2024.

ADDRESSES: Interested persons are invited to submit comments by email to Mark Crace, IC Liaison, Bureau of Industry and Security, at *mark.crace@bis.doc.gov* or to *PRAcomments@doc.gov*). Please reference OMB Control Number 0694–0120 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Mark Crace, IC Liaison, Bureau of Industry and Security, phone 202–482–8093 or by email at *mark.crace@bis.doc.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

Upon request, BIS will initiate an investigation to determine the effects of imports of specific commodities on the national security and will make the findings known to the President for possible adjustments to imports through tariffs. The findings are made publicly available and are reported to Congress. The purpose of this collection is to account for the public burden associated with the surveys distributed to determine the impact on national security. These surveys are designed to gather information so that BIS can evaluate the impact of foreign imports of strategic commodities on the national security of the United States. Each Section 232 study is for a specific commodity or technology that is required for national security reasons (*e.g.,* precision bearings, microprocessors, machine tools, etc). These surveys attempt to determine the size of the domestic U.S. industry, how the domestic U.S. industry has been effected by foreign imports, demand for the commodity during peacetime, demand during wartime, the ability of the U.S. domestic industry to meet a surge in demand during wartime, and the potential impact on U.S. national security if wartime demand cannot be met by domestic U.S. suppliers.

II. Method of Collection

BIS custom-designs unique instruments for each Section 232 survey. The method of collection could be via paper or electronic.

III. Data

OMB Control Number: 0694–0120.

Form Number(s): None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 800.

Estimated Time Per Response: 15 hours.

Estimated Total Annual Burden Hours: 12,000.

Estimated Total Annual Cost to Public: 0.

Respondent's Obligation: Mandatory.

Legal Authority: Section 232 of the Trade Expansion Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number,

email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF COMMERCE

International Trade Administration

[A–557–824]

Boltless Steel Shelving Units Prepackaged for Sale From Malaysia: Final Affirmative Determination of Sales at Less-Than-Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that imports of boltless steel shelving units prepackaged for sale (boltless steel shelving) from Malaysia are being, or are likely to be, sold in the United States at less-than-fair value (LTFV). The period of investigation is April 1, 2022, through March 31, 2023.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Samuel Frost, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–8180.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2023, Commerce published in the **Federal Register** its preliminary affirmative determination in this investigation, in which we also postponed the final determination until April 12, 2024.[1] We invited parties to comment on the *Preliminary Determination.*

A summary of the events that occurred since Commerce published the *Preliminary Determination,* as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.[2] The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Scope of the Investigation

The product covered by this investigation is boltless steel shelving from Malaysia. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope-specific case and rebuttal briefs.[3] We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.[4] We did not make any changes to the scope of the investigation from the scope published in the *Preliminary Determination.*

Verification

In the *Preliminary Determination,* Commerce stated that it intended to verify the information relied upon in making its final determination.[5] However, due to circumstances discussed in the Issues and Decision Memorandum, Commerce declined to conduct any verifications in this investigation.[6]

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix II.

Changes Since the Preliminary Determination

We have made certain changes since the *Preliminary Determination.* For a discussion of these changes, *see* the Issues and Decision Memorandum.

Use of Adverse Facts Available

As discussed in the *Preliminary Determination,* Commerce assigned to certain mandatory respondents in this investigation, Nanjing Chervon Industry Co., Ltd. (Nanjing Chervon) and Wuxi Bote Electrical Apparatus Co., Ltd. (Wuxi Bote), estimated weighted-average dumping margins on the basis of adverse facts available (AFA), pursuant to sections 776(a) and (b) of the Tariff Act of 1930, as amended (the Act).[7] There is no new information on the record that would cause us to revisit our decision in the *Preliminary Determination.* Accordingly, for this final determination, we continue to find that the application of AFA pursuant to sections 776(a) and (b) of the Act is warranted with respect to Nanjing Chervon and Wuxi Bote.

Moreover, in the *Preliminary Determination,* Commerce calculated an estimated weighted-average dumping margin of zero for Eonmetall Industries Sdn. Bhd. (EMI).[8] However, following the *Preliminary Determination,* we determined that information submitted by EMI in this investigation is unverifiable.[9] Therefore, as explained in the Issues and Decision Memorandum, we find that EMI failed to provide verifiable information and did not cooperate to the best of its ability in this proceeding. As such, for this final determination, we determine it is also appropriate to apply a dumping margin based on AFA to EMI, in accordance with sections 776(a) and (b) of the Act. For further discussion, *see* the Issues and Decision Memorandum.

[2] *See* Memorandum, ''Decision Memorandum for the Final Affirmative Determination of Sales at Less-Than-Fair-Value Boltless Steel Shelving Units Prepackaged for Sale from Malaysia,'' dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

[3] *See* Memorandum, ''Antidumping Duty Investigations of Boltless Steel Shelving Units Prepackaged for Sale from India, Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Preliminary Scope Decision Memorandum,'' dated November 13, 2023 (Preliminary Scope Decision Memorandum).

[4] *See* Memorandum, ''Antidumping Duty Investigation of Boltless Steel Shelving Units Prepackaged for Sale from Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Final Scope Decision Memorandum,'' dated April 12, 2024 (Final Scope Decision Memorandum).

[5] *See Preliminary Determination,* 88 FR at 83388.

[6] *See* Issues and Decision Memorandum at Comment 1.

[7] *See Preliminary Determination,* 88 FR at 83387.

[8] *Id.*

[9] *See* Memorandum, ''Verification Cancellation and Establishment of Briefing Schedule,'' dated January 22, 2024.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding rates that are zero, *de minimis,* or determined entirely under section 776 of the Act.

Pursuant to section 735(c)(5)(B) of the Act, if the estimated weighted-average dumping margins established for all exporters and producers individually examined are zero, *de minimis* or determined based entirely on facts otherwise available, Commerce may use any reasonable method to establish the estimated weighted-average dumping margin for all other producers or exporters. Consequently, pursuant to section 735(c)(5)(B) of the Act, Commerce's normal practice under these circumstances has been to calculate the all-others rate as a simple average of the alleged dumping margins(s) from the petition.[10] In the Petition, the petitioner provided two dumping margins, 35.45 percent and 81.12 percent.[11] Therefore, in the absence of any estimated weighted-average dumping margin on the record of this investigation that is not zero, *de minimis,* or determined entirely under section 776 of the Act, we are assigning the simple average of the two dumping margins in the Initiation Checklist, *i.e.,* 58.29 percent, as the all-others rate.[12]

Final Determination

The final estimated dumping margins are as follows:

Producer/exporter	Estimated dumping margins (percent)
Eonmetall Industries Sdn. Bhd	*81.12
Nanjing Chervon Industry Co., Ltd	*81.12
Wuxi Bote Electrical Apparatus Co., Ltd	*81.12
All Others	58.29

*Rate based on facts available with adverse inferences.

Disclosure

Normally, Commerce will disclose to the parties in a proceeding the calculations performed in connection with a final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of the notice of final determination in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because Commerce relied solely on the application of AFA for the mandatory respondents in this investigation, there are no calculations to disclose for this final determination.

Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of subject merchandise as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption, on or after November 29, 2023, the date of publication of the *Preliminary Determination* in the **Federal Register**, except for those entries of subject merchandise produced and exported by EMI.

In accordance with section 735(c)(1)(B) of the Act, for EMI, Commerce will direct CBP to suspend liquidation of all subject merchandise as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the **Federal Register**.[13]

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), Commerce will instruct CBP to require a cash deposit equal to the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) the cash deposit rate for the respondents listed above will be equal to the company-specific estimated dumping margins determined in this final determination; (2) if the exporter is not a respondent identified above but the producer is, then the cash deposit rate will be equal to the company-specific estimated dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated dumping margin.

These suspension of liquidation instructions will remain in effect until further notice.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the U.S. International Trade Commission (ITC) of our final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of boltless steel shelving from Malaysia no later than 45 days after this final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded or canceled, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the ''Suspension of Liquidation'' section.

Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is

hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This final determination and notice are issued and published in accordance with sections 735(d) and 777(i) of the Act, and 19 CFR 351.210(c).

Dated: April 12, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I—Scope of the Investigation

The scope of this investigation covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term ''prepackaged for sale'' means that, at a minimum, the steel vertical supports (*i.e.,* uprights and posts) and steel horizontal supports (*i.e.,* beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the extension and the original unit will share common frame elements (*e.g.,* two posts). The term ''boltless'' refers to steel shelving in which the vertical and horizontal supports forming the frame are assembled primarily without the use of nuts and bolts, or screws. The vertical and horizontal support members for boltless steel shelving are assembled by methods such as, but not limited to, fitting a rivet, punched or cut tab, or other similar connector on one support into a hole, slot or similar receptacle on another support. The supports lock together to form the frame for the shelving unit, and provide the structural integrity of the shelving unit separate from the inclusion of any decking. The incidental use of nuts and bolts, or screws to add accessories, wall anchors, tie-bars or shelf supports does not remove the product from scope. Boltless steel shelving units may also come packaged as partially assembled, such as when two upright supports are welded together with front-to-back supports, or are otherwise connected, to form an end unit for the frame. The boltless steel shelving covered by this investigation may be commonly described as rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving as well as by other trade names. The term ''deck'' refers to the shelf that sits on or fits into the horizontal supports (beams or braces) to provide the horizontal storage surface of the shelving unit.

The scope includes all boltless steel shelving meeting the description above, regardless of: (1) vertical support or post type (including but not limited to open post, closed post and tubing); (2) horizontal support or beam/brace profile (including but not limited to Z-beam, C-beam, L-beam, step beam and cargo rack); (3) number of supports; (4) surface coating (including but not limited to paint, epoxy, powder coating, zinc and other metallic coating); (5) number of levels; (6) weight capacity; (7) shape (including but not limited to rectangular, square, and corner units); (8) decking material (including but not limited to wire decking, particle board, laminated board or no deck at all); or (9) the boltless method by which vertical and horizontal supports connect (including but not limited to keyhole and rivet, slot and tab, welded frame, punched rivet and clip).

Specifically excluded from the scope are:

- wall-mounted shelving, defined as shelving that is hung on the wall and does not stand on, or transfer load to, the floor. The addition of a wall bracket or other device to attach otherwise freestanding subject merchandise to a wall does not meet the terms of this exclusion;
- wire shelving units, which consist of shelves made from wire that incorporates both a wire deck and wire horizontal supports (taking the place of the horizontal beams and braces) into a single piece with tubular collars that slide over the posts and onto plastic sleeves snapped on the posts to create the finished shelving unit;
- bulk-packed parts or components of boltless steel shelving units; and
- made-to-order shelving systems.

Subject boltless steel shelving enters the United States through Harmonized Tariff Schedule of the United States (HTSUS) statistical subheading 9403.20.0075. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Boltless Steel Shelving Units Prepackaged for Sale From Thailand: Final Affirmative Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that boltless steel shelving units prepackaged for sale (boltless steel shelving) from Thailand are being, or are likely to be, sold in the United States at less than fair value (LTFV). The period of investigation is April 1, 2022, through March 31, 2023.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Fred Baker, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2924.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2023, Commerce published in the **Federal Register** its preliminary affirmative determination in this investigation, in which we also postponed the final determination until April 12, 2024.[1] On January 2, 2024, Commerce published in the **Federal Register** its *Amended Preliminary Determination.*[2] We published a correction to the *Preliminary Determination* and *Amended Preliminary Determination* on January 24, 2024.[3] We invited parties to comment on the *Preliminary Determination.*

A summary of the events that occurred since Commerce published the *Preliminary Determination,* as well as a

full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.[4] The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Scope of the Investigation

The products covered by this investigation are boltless steel shelving from Thailand. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope-specific case and rebuttal briefs.[5] We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.[6] We did not make any changes to the scope of the investigation from the scope published in the *Preliminary Determination.*

Verification

Commerce verified the sales and cost information submitted by Bangkok Sheet Metal Public Co., Ltd. (Bangkok Sheet) and Siam Metal Tech Co., Ltd. (Siam Metal) for use in our final determination, consistent with section 782(i) of the Tariff Act of 1930, as amended (the Act). Specifically, Commerce conducted on-site verifications of the home market sales and cost of production responses submitted by Bangkok Sheet and Siam Metal. We used standard verification procedures, including an examination of relevant sales and accounting records, and original source documents provided by Bangkok Sheet and Siam Metal.[7]

Analysis of Comments Received

All issues raised in the case briefs and rebuttal briefs submitted by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix II.

Changes Since the Preliminary Determination

We have made certain changes to the margin calculations for the Bangkok Sheet and Siam Metal since the *Preliminary Determination.* In addition, for both Bangkok Sheet and Siam Metal, we made changes certain changes based on minor corrections accepted during the cost and sales verifications. *See* the Issues and Decision Memorandum for a discussion of these changes.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for individually examined exporters and producers, excluding rates that are zero, *de minimis,* or determined entirely under section 776 of the Act, *i.e.,* facts otherwise available.

In this investigation, we calculated an individual estimated weighted-average dumping margin for Bangkok Sheet that is not zero, *de minimis,* or determined entirely on the basis of facts available.[8] We also calculated a dumping margin for Siam Metal that is zero. Consequently, Commerce is assigning the estimated weighted-average dumping margin calculated for Bangkok Sheet to all other producers and exporters of the merchandise under consideration, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The final estimated weighted-average dumping margins are as follows:

Exporter/Producer	Estimated weighted-average dumping margin (percent)
Bangkok Sheet Metal Public Co., Ltd.	2.75
Siam Metal Tech Co., Ltd.	0.00
All Others	2.75

Disclosure

Commerce intends to disclose its calculations performed to interested parties in this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of subject merchandise as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption, on or after November 29, 2023, the date of publication of the *Preliminary Determination* in the **Federal Register**.

Because the estimated weighted-average dumping margin for Siam Metal as the producer and exporter is zero, entries of shipments of subject merchandise that are produced and exported by Siam Metal will not be subject to suspension of liquidation or cash deposit requirements. Accordingly, Commerce will direct CBP not to suspend liquidation of entries of subject merchandise produced and exported by Siam Metal. In accordance with section 735(a)(4) of the Act and 19 CFR 351.204(e)(1), should the investigation result in an antidumping duty order pursuant to section 736 of the Act, entries of shipments of subject merchandise from this producer/exporter combination will be excluded from the order. However, entries of shipments of subject merchandise from this company in any other producer/exporter combination, or by third parties that sourced subject merchandise from the excluded producer/exporter combination, will be subject to suspension of liquidation at the all-others rate.

[4] *See* Memorandum, ''Decision Memorandum for the Final Affirmative Determination in the Less-Than-Fair-Value Investigation of Boltless Steel Shelving Units Prepackaged for Sale from Thailand,'' dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

[5] *See* Memorandum, ''Antidumping Duty Investigations of Boltless Steel Shelving Units Prepackaged for Sale from India, Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Preliminary Scope Decision Memorandum,'' dated November 13, 2023 (Preliminary Scope Decision Memorandum).

[6] *See* Memorandum, ''Antidumping Duty Investigations of Boltless Steel Shelving Units Prepackaged for Sale from India, Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Final Scope Decision Memorandum,'' dated April 12, 2024 (Final Scope Decision Memorandum).

[7] *See* Memoranda, ''Verification of the Sales Response of Bangkok Sheet Metal Public Co., Ltd.,'' dated March 12, 2024; ''Verification of the Sales Response of Siam Metal Tech Co., Ltd.,'' dated March 12, 2024; ''Verification of the Cost Response of Siam Metal Tech Co., Ltd. in the Antidumping Duty Investigation of Boltless Steel Shelving Units Prepackaged (BSS) from Thailand'' dated March 11, 2024; and, ''Verification of the Cost Response of Bangkok Sheet Metal Public Co., Ltd. in the Antidumping Duty Investigation of Boltless Steel Shelving Units Prepackaged from Thailand'' dated March 12, 2024.

[8] *See Amended Preliminary Determination,* 89 FR at 62.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), upon the publication of this notice, Commerce will instruct CBP to require a cash deposit equal to the estimated weighted-average dumping margin as follows: (1) the cash deposit rate for the respondents listed in the table above is equal to the company-specific estimated weighted-average dumping margin listed for the respondent in the table; (2) if the exporter is not a respondent identified in the table above but the producer is, then the cash deposit rate is equal to the company-specific estimated weighted-average dumping margin listed for the producer of the subject merchandise in the table above; and (3) the cash deposit rate for all other producers and exporters is equal to the all-others estimated weighted-average dumping margin listed in the table above.

These suspension of liquidation instructions will remain in effect until further notice.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, Commerce will notify the U.S. International Trade Commission (ITC) of its final affirmative determination of sales at LTFV. Because Commerce's final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of boltless steel shelving from Thailand no later than 45 days after this final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded or canceled, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the ''Continuation of Suspension of Liquidation'' section above.

Administrative Protective Order

This notice serves as the final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

This determination is issued and published in accordance with sections 735(d) and 777(i) of the Act and 19 CFR 351.210(c).

Dated: April 12, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I—Scope of the Investigation

The scope of this investigation covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term ''prepackaged for sale'' means that, at a minimum, the steel vertical supports (*i.e.,* uprights and posts) and steel horizontal supports (*i.e.,* beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the extension and the original unit will share common frame elements (*e.g.,* two posts). The term ''boltless'' refers to steel shelving in which the vertical and horizontal supports forming the frame are assembled primarily without the use of nuts and bolts, or screws. The vertical and horizontal support members for boltless steel shelving are assembled by methods such as, but not limited to, fitting a rivet, punched or cut tab, or other similar connector on one support into a hole, slot or similar receptacle on another support. The supports lock together to form the frame for the shelving unit, and provide the structural integrity of the shelving unit separate from the inclusion of any decking. The incidental use of nuts and bolts, or screws to add accessories, wall anchors, tie-bars or shelf supports does not remove the product from scope. Boltless steel shelving units may also come packaged as partially assembled, such as when two upright supports are welded together with front-to-back supports, or are otherwise connected, to form an end unit for the frame. The boltless steel shelving covered by this investigation may be commonly described as rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving as well as by other trade names. The term ''deck'' refers to the shelf that sits on or fits into the horizontal supports (beams or braces) to provide the horizontal storage surface of the shelving unit.

The scope includes all boltless steel shelving meeting the description above, regardless of: (1) vertical support or post type (including but not limited to open post, closed post and tubing); (2) horizontal support or beam/brace profile (including but not limited to Z-beam, C-beam, L-beam, step beam and cargo rack); (3) number of supports; (4) surface coating (including but not limited to paint, epoxy, powder coating, zinc and other metallic coating); (5) number of levels; (6) weight capacity; (7) shape (including but not limited to rectangular, square, and corner units); (8) decking material (including but not limited to wire decking, particle board, laminated board or no deck at all); or (9) the boltless method by which vertical and horizontal supports connect (including but not limited to keyhole and rivet, slot and tab, welded frame, punched rivet and clip).

Specifically excluded from the scope are:

- wall-mounted shelving, defined as shelving that is hung on the wall and does not stand on, or transfer load to, the floor. The addition of a wall bracket or other device to attach otherwise freestanding subject merchandise to a wall does not meet the terms of this exclusion;
- wire shelving units, which consist of shelves made from wire that incorporates both a wire deck and wire horizontal supports (taking the place of the horizontal beams and braces) into a single piece with tubular collars that slide over the posts and onto plastic sleeves snapped on the posts to create the finished shelving unit;
- bulk-packed parts or components of boltless steel shelving units; and
- made-to-order shelving systems.

Subject boltless steel shelving enters the United States through Harmonized Tariff Schedule of the United States (HTSUS) statistical subheading 9403.20.0075. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Boltless Steel Shelving Units Prepackaged for Sale From Taiwan: Final Affirmative Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that boltless steel shelving units prepackaged for sale (boltless steel shelving) from Taiwan are being, or are likely to be, sold in the United States at less-than-fair value (LTFV). The period of investigation is April 1, 2022, through March 31, 2023.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Joy Zhang, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1168.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2023, Commerce published in the **Federal Register** its preliminary affirmative determination in this investigation, in which we also postponed the final determination until April 12, 2024.[1] We invited parties to comment on the *Preliminary Determination.*

A summary of the events that occurred since Commerce published the *Preliminary Determination,* as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.[2] The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Scope of the Investigation

The product covered by this investigation is boltless steel shelving from Taiwan. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope-specific case and rebuttal briefs.[3] We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.[4] We did not make any changes to the scope of the investigation from the scope published in the *Preliminary Determination.*

Verification

Commerce verified the sales and cost information relied upon in making its final determination in this investigation, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act). Specifically, Commerce conducted on-site verifications of the home market sales, U.S. sales, and cost of production responses submitted by Taiwan Shin Yeh Enterprise Co., Ltd (Shin Yeh).[5]

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is attached to this notice as Appendix II.

Changes Since the Preliminary Determination

We are incorporating Shin Yeh's revised home market and U.S. sales database submitted on January 31, 2024, which reflects changes from minor corrections Shin Yeh submitted at verification.[6] We also have adjusted Shin Yeh's reported costs.[7] These minor corrections and cost adjustments resulted in a change to the estimated weighted-average dumping margin calculated for Shin Yeh from the *Preliminary Determination.*[8]

Use of Adverse Facts Available (AFA)

As discussed in the *Preliminary Determination,* Commerce assigned to a mandatory respondent in this investigation, Jin Yi Sheng Industrial Co., Ltd. (Jin Yi Sheng) an estimated weighted-average dumping margins on the basis of adverse facts available (AFA), pursuant to sections 776(a) and (b) of the Act.[9] There is no new information on the record that would cause us to revisit our decision in the *Preliminary Determination.* Accordingly, for the reasons explained in the *Preliminary Determination,* and consistent with Commerce's practice, as AFA, we assigned Jin Yi Sheng the highest corroborated dumping margin alleged in the petition.[10]

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other

[8] *Id., see also* Memorandum, ''Final Determination Analysis Memorandum for Shin Yeh,'' dated concurrently with this memorandum; dated concurrently with this memorandum (Final Sales Calculation Memorandum).

[9] *See Preliminary Determination,* 88 FR at 83383.

[10] *See Preliminary Determination* PDM at 7.

producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding rates that are zero, *de minimis,* or determined entirely under section 776 of the Act.

In this investigation, Commerce assigned a rate based entirely on facts available to Jin Yi Sheng. Therefore, the only rate that is not zero, *de minimis* or based entirely on facts otherwise available is the rate calculated for Shin Yeh. Consequently, the rate calculated for Shin Yeh is also assigned as the rate for all other producers and exporters.

Final Determination

Commerce determines that the following estimated weighted-average dumping margins exist for the POI:

Exporter/producer	Weighted-average dumping margin (percent)
Taiwan Shin Yeh Enterprise Co., Ltd	8.09
Jin Yi Sheng Industrial Co., Ltd	*78.12
All Others	8.09

*Rate based on AFA.

Disclosure

Commerce intends to disclose its calculations performed in connection with this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of subject merchandise as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption, on or after November 29, 2023, the date of publication of the *Preliminary Determination* in the **Federal Register**.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), upon the publication of this notice, we will instruct CBP to require a cash deposit for estimated antidumping duties for such entries as follows: (1) the cash deposit rate for each respondent listed in the table above is the company-specific estimated weighted-average dumping margin listed for the respondent in the table; (2) if the exporter is not the respondent listed in the table above, but the producer is, then the cash deposit rate is the company-specific estimated weighted-average dumping margin listed for the producer of the subject merchandise in the table above; and (3) the cash deposit rate for all other producers and exporters is the all-others estimated weighted-average dumping margin listed in the table above.

These suspension of liquidation instructions will remain in effect until further notice.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, Commerce will notify the U.S. International Trade Commission (ITC) of its final affirmative determination of sales at LTFV. Because Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of tin mill products no later than 45 days after this final determination. If the ITC determines that such injury does not exist, this proceeding will be terminated, all cash deposits posted will be refunded, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed in the ''Continuation of Suspension of Liquidation'' section above.

Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return, or destruction, of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

This determination and this notice are issued and published in accordance with sections 735(d) and 777(i) of the Act, and 19 CFR 351.210(c).

Dated: April 12, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The scope of this investigation covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term ''prepackaged for sale'' means that, at a minimum, the steel vertical supports (*i.e.,* uprights and posts) and steel horizontal supports (*i.e.,* beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the extension and the original unit will share common frame elements (*e.g.,* two posts). The term ''boltless'' refers to steel shelving in which the vertical and horizontal supports forming the frame are assembled primarily without the use of nuts and bolts, or screws. The vertical and horizontal support members for boltless steel shelving are assembled by methods such as, but not limited to, fitting a rivet, punched or cut tab, or other similar connector on one support into a hole, slot or similar receptacle on another support. The supports lock together to form the frame for the shelving unit, and provide the structural integrity of the shelving unit separate from the inclusion of any decking. The incidental use of nuts and bolts, or screws to add accessories, wall anchors, tie-bars or shelf supports does not remove the product from scope. Boltless steel shelving units may also come packaged as partially assembled, such as when two upright supports are welded together with front-to-back supports, or are otherwise connected, to form an end unit for the frame. The boltless steel shelving covered by this investigation may be commonly described as rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving as well as by other trade names. The term ''deck'' refers to the shelf that sits on or fits into the horizontal supports (beams or braces) to provide the horizontal storage surface of the shelving unit.

The scope includes all boltless steel shelving meeting the description above, regardless of: (1) vertical support or post type (including but not limited to open post, closed post and tubing); (2) horizontal support or beam/brace profile (including but not limited to Z-beam, C-beam, L-beam, step beam and cargo rack); (3) number of supports; (4) surface coating (including but not limited to paint, epoxy, powder coating, zinc and other metallic coating); (5) number

of levels; (6) weight capacity; (7) shape (including but not limited to rectangular, square, and corner units); (8) decking material (including but not limited to wire decking, particle board, laminated board or no deck at all); or (9) the boltless method by which vertical and horizontal supports connect (including but not limited to keyhole and rivet, slot and tab, welded frame, punched rivet and clip).

Specifically excluded from the scope are:

- wall-mounted shelving, defined as shelving that is hung on the wall and does not stand on, or transfer load to, the floor. The addition of a wall bracket or other device to attach otherwise freestanding subject merchandise to a wall does not meet the terms of this exclusion;
- wire shelving units, which consist of shelves made from wire that incorporates both a wire deck and wire horizontal supports (taking the place of the horizontal beams and braces) into a single piece with tubular collars that slide over the posts and onto plastic sleeves snapped on the posts to create the finished shelving unit;
- bulk-packed parts or components of boltless steel shelving units; and
- made-to-order shelving systems.

Subject boltless steel shelving enters the United States through Harmonized Tariff Schedule of the United States (HTSUS) statistical subheading 9403.20.0075. While the HTSUS subheading is provided for convenience and customs purposes, the description of the scope of this investigation is dispositive.

Boltless Steel Shelving Units Prepackaged for Sale From the Socialist Republic of Vietnam: Final Affirmative Determination of Sales at Less-Than-Fair-Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that imports of boltless steel shelving units prepackaged for sale (boltless steel shelving) from the Socialist Republic of Vietnam (Vietnam) are being, or likely to be, sold in the United States at less than fair value (LTFV). The period of investigation is October 1, 2022, through March 31, 2023.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Eliza DeLong or Eric Hawkins, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–3878 or (202) 482–1988, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2023, Commerce published in the **Federal Register** its preliminary affirmative determination in the LTFV investigation of boltless steel shelving from Vietnam.[1] We invited parties to comment on the *Preliminary Determination.*

A summary of the events that occurred since Commerce published the *Preliminary Determination,* as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.[2] The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Scope of the Investigation

The product covered by this investigation is boltless steel shelving from Vietnam. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope-specific case and rebuttal briefs.[3] We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.[4] We did not make any changes to the scope of the investigation from the scope published in the *Preliminary Determination.*

Verification

Commerce verified the sales and factors of production information submitted by Xinguang (Vietnam) Logistic Equipment Co., Ltd (Xinguang Vietnam) and the sales information submitted by Thanh Phong Production and Trade Limited Company (Thanh Phong) for use in our final determination, consistent with section 782(i) of the Tariff Act of 1930, as amended (the Act). We used standard verification procedures, including an examination of relevant sales and accounting records, and original source documents provided by Xinguang Vietnam and Thanh Phong.[5]

Continued

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix II.

Changes Since the Preliminary Determination

Based on our review and analysis of the comments received from interested parties, we made changes to the margin calculations for Xinguang Vietnam.[6] For a discussion of these changes, *see* the Issues and Decision Memorandum.

Vietnam-Wide Entity and Use of Adverse Facts Available (AFA)

Consistent with the *Preliminary Determination,*[7] Commerce continues to find, pursuant to sections 776(a)(1) and (a)(2)(A)–(C) of the Act, that the use of facts available is warranted in determining the rate of the Vietnam-wide entity, which includes Cuong Nghia Imp. Exp. (Cuong Nghia) and Parkway Thanh Phong Co. (Parkway), two companies that were not selected for individual examination [8] that did not respond to our requests for information. Furthermore, we continue to find that an adverse inference is warranted in selecting from the facts otherwise available, pursuant to section 776(b) of the Act and 19 CFR 351.308(a), because the Vietnam-wide entity, including the two companies referred to above, failed to cooperate by not acting to the best of its ability to comply with Commerce's requests for information. For the final determination, consistent with the *Preliminary Determination,*[9] as AFA, we are continuing to assign the Vietnam-wide entity, including the above-referenced companies, the rate of 224.94 percent, which is the highest margin alleged in the petition.[10]

Combination Rates

Consistent with the *Preliminary Determination* and Policy Bulletin 05.1,[11] Commerce calculated a combination rate for Xinguang Vietnam, *i.e.,* the sole respondent eligible for a separate rate.

Final Determination

The final estimated weighted-average dumping margins are as follows:

Exporter	Producer	Estimated weighted-average dumping margin (percent)
Xinguang (Vietnam) Logistic Equipment Co., Ltd	Xinguang (Vietnam) Logistic Equipment Co., Ltd	181.60
Vietnam-Wide Entity		[12] 224.94

Disclosure

Commerce intends to disclose its calculations performed to interested parties in this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of subject merchandise entries, as described in Appendix I of this notice, which are entered, or withdrawn from warehouse, for consumption on or after November 29, 2023, the date of publication in the **Federal Register** of the *Preliminary Determination.*

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), Commerce will instruct CBP to require a cash deposit equal to the amount by which the normal value exceeds the U.S. price as follows: (1) the cash deposit rate for the exporter/producer combination listed in the table above will be the rate identified in the table; (2) for all combinations of Vietnamese exporters/producers of subject merchandise that have not received their own separate rate above, the cash deposit rate will be the cash deposit rate established for the Vietnam-wide entity; and (3) for all non-Vietnamese exporters of subject merchandise which have not received their own separate rate above, the cash deposit rate will be the cash deposit rate applicable to the Vietnamese exporter/producer combination that supplied that non-Vietnamese exporter. These suspension of liquidation instructions will remain in effect until further notice.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, Commerce will notify the U.S. International Trade Commission (ITC) of its final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of boltless steel shelving from Vietnam no later than 45 days after this final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded or canceled, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed in the

Equipment Co., Ltd. in the Less-Than-Fair-Value Investigation of Boltless Steel Shelving Units Prepackaged for Sale from the Socialist Republic of Vietnam,'' dated February 13, 2024.

[12] The Vietnam-wide rate is based on facts available with adverse inferences.

''Continuation of Suspension of Liquidation'' section above.

Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

This final determination is issued and published in accordance with sections 735(d) and 777(i) of the Act, and 19 CFR 351.210(c).

Dated: April 12, 2024.

Ryan Majerus

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The scope of this investigation covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term ''prepackaged for sale'' means that, at a minimum, the steel vertical supports (*i.e.,* uprights and posts) and steel horizontal supports (*i.e.,* beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the extension and the original unit will share common frame elements (*e.g.,* two posts). The term ''boltless'' refers to steel shelving in which the vertical and horizontal supports forming the frame are assembled primarily without the use of nuts and bolts, or screws. The vertical and horizontal support members for boltless steel shelving are assembled by methods such as, but not limited to, fitting a rivet, punched or cut tab, or other similar connector on one support into a hole, slot or similar receptacle on another support. The supports lock together to form the frame for the shelving unit and provide the structural integrity of the shelving unit separate from the inclusion of any decking. The incidental use of nuts and bolts, or screws to add accessories, wall anchors, tie-bars or shelf supports does not remove the product from scope. Boltless steel shelving units may also come packaged as partially assembled, such as when two upright supports are welded together with front-to-back supports, or are otherwise connected, to form an end unit for the frame. The boltless steel shelving covered by this investigation may be commonly described as rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving as well as by other trade names. The term ''deck'' refers to the shelf that sits on or fits into the horizontal supports (beams or braces) to provide the horizontal storage surface of the shelving unit.

The scope includes all boltless steel shelving meeting the description above, regardless of: (1) vertical support or post type (including but not limited to open post, closed post and tubing); (2) horizontal support or beam/brace profile (including but not limited to Z-beam, C-beam, L-beam, step beam and cargo rack); (3) number of supports; (4) surface coating (including but not limited to paint, epoxy, powder coating, zinc and other metallic coating); (5) number of levels; (6) weight capacity; (7) shape (including but not limited to rectangular, square, and corner units); (8) decking material (including but not limited to wire decking, particle board, laminated board or no deck at all); or (9) the boltless method by which vertical and horizontal supports connect (including but not limited to keyhole and rivet, slot and tab, welded frame, punched rivet and clip).

Specifically excluded from the scope are:

- Wall-mounted shelving, defined as shelving that is hung on the wall and does not stand on, or transfer load to, the floor. The addition of a wall bracket or other device to attach otherwise freestanding subject merchandise to a wall does not meet the terms of this exclusion;
- Wire shelving units, which consist of shelves made from wire that incorporates both a wire deck and wire horizontal supports (taking the place of the horizontal beams and braces) into a single piece with tubular collars that slide over the posts and onto plastic sleeves snapped on the posts to create the finished shelving unit;
- Bulk-packed parts or components of boltless steel shelving units; and
- Made-to-order shelving systems.

Subject boltless steel shelving enters the United States through Harmonized Tariff Schedule of the United States (HTSUS) statistical subheading 9403.20.0075. While the HTSUS subheading is provided for convenience and customs purposes, the description of the scope of this investigation is dispositive.

Quarterly Update to Annual Listing of Foreign Government Subsidies on Articles of Cheese Subject to an In-Quota Rate of Duty

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Samuel Brummitt, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Ave. NW, Washington, DC 20230, telephone: (202) 482–7851.

SUPPLEMENTARY INFORMATION: On November 15, 2023, the U.S. Department of Commerce (Commerce), pursuant to section 702(h) of the Trade Agreements Act of 1979 (as amended) (the Act), published the quarterly update to the annual listing of foreign government subsidies on articles of cheese subject to an in-quota rate of duty covering the period April 1, 2023, through June 30, 2023.[1] In the *Second Quarter 2023 Update,* we requested that any party that had information on foreign government subsidy programs that benefited articles of cheese subject to an in-quota rate of duty submit such information to Commerce.[2] We received no comments, information, or requests for consultation from any party.

Pursuant to section 702(h) of the Act, we hereby provide Commerce's update of subsidies on articles of cheese that were imported during the period July 1, 2023, through September 30, 2023. The appendix to this notice lists the country, the subsidy program or programs, and the gross and net amounts of each subsidy for which information is currently available.

Commerce will incorporate additional programs which are found to constitute subsidies, and additional information on the subsidy programs listed, as the

Boltless Steel Shelving Units Prepackaged for Sale From India: Final Negative Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that boltless steel shelving units prepackaged for sale (boltless steel shelving) from India are not being, or are not likely to be, sold in the United States at less than fair value (LTFV). The period of investigation is April 1, 2022, through March 31, 2023.

DATES: Applicable April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Andrew Huston, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4261.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2023, Commerce published in the **Federal Register** its preliminary negative determination in this investigation, in which we also postponed the final determination until April 12, 2024.[1] We invited parties to comments on the *Preliminary Determination.*

A summary of the events that occurred since Commerce published the *Preliminary Determination,* as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.[2] The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Scope of the Investigation

The product covered by this investigation is boltless steel shelving from India. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope-specific case and rebuttal briefs.[3]

[3] Defined in 19 U.S.C. 1677(5).

[4] Defined in 19 U.S.C. 1677(6).

[5] The 27 member states of the European Union are: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, and Sweden.

[1] *See Boltless Steel Shelving Units Prepackaged for Sale from India: Preliminary Negative Determination of Sales at Less Than Fair Value and Postponement of Final Determination,* 88 FR 83395 (November 29, 2023) (*Preliminary Determination*), and accompanying Preliminary Decision Memorandum.

[2] *See* Memorandum, ''Issues and Decision Memorandum for the Final Negative Determination in the Less-Than-Fair-Value Investigation of Boltless Steel Shelving Units Prepackaged for Sale from India,'' dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

[3] *See* Memorandum, ''Antidumping Duty Investigations of Boltless Steel Shelving Units Prepackaged for Sale from India, Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Preliminary Scope Decision Memorandum,'' dated November 13, 2023 (Preliminary Scope Decision Memorandum).

We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.[4] We did not make any changes to the scope of the investigation from the scope published in the *Preliminary Determination.*

Verification

Commerce verified the sales and cost information submitted by Triune Technofab Private Limited (Triune) for use in our final determination, consistent with section 782(i) of the Tariff Act of 1930, as amended (the Act). Specifically, Commerce conducted on-site verifications of the home market sales and cost of production responses submitted by Triune. We used standard verification procedures, including an examination of relevant sales and accounting records, and original source documents provided by Triune.[5]

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by interested parties in this investigation are discussed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix II.

Changes Since the Preliminary Determination

We are incorporating Triune's revised U.S. sales database submitted on January 9, 2024, which reflects changes from minor corrections Triune submitted at verification.[6] For additional details, *see* the Final Analysis Memorandum.[7]

Final Determination

The final estimated weighted-average dumping margin is as follows:

Exporter/producer	Estimated weighted-average dumping margin (percent)
Triune Technofab Private Limited	0.00

Commerce determines that Triune, the only individually examined respondent, has not made sales of subject merchandise at LTFV. Accordingly, Commerce has not calculated an estimated weighted-average dumping margin for all other producers and exporters pursuant to sections 735(c)(1)(B) and (c)(5) of the Act because it has not made an affirmative determination of sales at LTFV.

Disclosure

Commerce intends to disclose its calculations performed to interested parties in this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Suspension of Liquidation

In the *Preliminary Determination,* the estimated weighted-average dumping margin for Triune was zero percent and, therefore, we did not suspend liquidation of entries of boltless steel shelving from India.[8] Because Commerce has made a final negative determination of sales at LTFV with regard to the subject merchandise, Commerce will not direct U.S. Customs and Border Protection to suspend liquidation or to require a cash deposit of estimated antidumping duties for entries of boltless steel shelving from India.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, Commerce will notify the U.S. International Trade Commission of its final negative determination of sales at LTFV. As our final determination is negative, this proceeding is terminated in accordance with section 735(c)(2) of the Act.

Administrative Protective Order

This notice serves as the final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

This final determination is issued and published in accordance with sections 735(d) and 777(i) of the Act, and 19 CFR 351.210(c).

Dated: April 12, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The scope of this investigation covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term ''prepackaged for sale'' means that, at a minimum, the steel vertical supports (*i.e.,* uprights and posts) and steel horizontal supports (*i.e.,* beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the extension and the original unit will share common frame elements (*e.g.,* two posts). The term ''boltless'' refers to steel shelving in which the vertical and horizontal supports forming the frame are assembled primarily without the use of nuts and bolts, or screws. The vertical and horizontal support members for boltless steel shelving are assembled by methods such as, but not limited to, fitting a rivet, punched or cut tab, or other similar connector on one support into a hole, slot or similar receptacle on another support. The supports lock together to form the frame for the shelving unit, and provide the structural integrity of the shelving unit separate from the inclusion of any decking. The incidental use of nuts and bolts, or screws to add accessories, wall anchors, tie-bars or shelf supports does not remove the product from scope. Boltless steel shelving units may also come packaged as partially assembled, such as when two upright supports are welded together with front-to-back supports, or are otherwise connected, to form an end unit for the frame. The boltless steel shelving covered by these investigations may be commonly described as rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving as well as by other trade names. The term ''deck'' refers to the shelf that sits on or fits into the horizontal supports (beams or braces) to provide the horizontal storage surface of the shelving unit.

The scope includes all boltless steel shelving meeting the description above,

[4] *See* Memorandum, ''Antidumping Duty Investigation of Boltless Steel Shelving Units Prepackaged for Sale from Malaysia, Taiwan, Thailand, and the Socialist Republic of Vietnam: Final Scope Decision Memorandum,'' dated April 12, 2024 (Final Scope Decision Memorandum).

[5] *See* Memoranda, ''Verification of Cost Response of Triune Technofab Private Limited in the Antidumping Investigation of Boltless Steel Shelving from India,'' dated February 28, 2024; and ''Verification of Sales Responses of Triune Technofab Private Limited in the Antidumping Investigation of Boltless Steel Shelving from India,'' dated January 25, 2024 (Sales Verification Report).

[7] *See* Memorandum, ''Triune Technofab Private Limited Final Determination Analysis,'' dated concurrently with this notice (Final Analysis Memorandum).

[8] *See Preliminary Determination,* 88 FR at 83396.

regardless of: (1)Vertical support or post type (including but not limited to open post, closed post and tubing); (2) horizontal support or beam/brace profile (including but not limited to Z-beam, C-beam, L-beam, step beam and cargo rack); (3) number of supports; (4) surface coating (including but not limited to paint, epoxy, powder coating, zinc and other metallic coating); (5) number of levels; (6) weight capacity; (7) shape (including but not limited to rectangular, square, and corner units); (8) decking material (including but not limited to wire decking, particle board, laminated board or no deck at all); or (9) the boltless method by which vertical and horizontal supports connect (including but not limited to keyhole and rivet, slot and tab, welded frame, punched rivet and clip).

Specifically excluded from the scope are:

- wall-mounted shelving, defined as shelving that is hung on the wall and does not stand on, or transfer load to, the floor. The addition of a wall bracket or other device to attach otherwise freestanding subject merchandise to a wall does not meet the terms of this exclusion;
- wire shelving units, which consist of shelves made from wire that incorporates both a wire deck and wire horizontal supports (taking the place of the horizontal beams and braces) into a single piece with tubular collars that slide over the posts and onto plastic sleeves snapped on the posts to create the finished shelving unit;
- bulk-packed parts or components of boltless steel shelving units; and
- made-to-order shelving systems.

Subject boltless steel shelving enters the United States through Harmonized Tariff Schedule of the United States (HTSUS) statistical subheading 9403.20.0075. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Minority Business Development Agency

[Docket No.: 240229–0064]

Minority Business Development Agency's Request for Public Comment and Notice of Tribal Consultation Meetings

AGENCY: Minority Business Development Agency, Department of Commerce

ACTION: Notice of meeting and request for comments.

SUMMARY: The Minority Business Development Agency (MBDA) plans to establish a period for the submission and acceptance of written comments from the public through Sunday, June 16, 2024 and conduct virtual Tribal consultation meetings on Friday, May 17, 2024.

DATES: The Tribal consultation meetings will be held virtually on Friday, May 17, 2024. Additional information regarding the consultation meetings will be posted on MBDA's website at *https://www.mbda.gov/tribalconsult2024.* The Tribal consultation meetings will be recorded and transcribed so that MBDA can retain valuable input and feedback.

ADDRESSES: Please submit all comments in response to the questions presented in this notice at *www.regualtions.gov.* To access the docket where comments may be submitted, please enter ''DOC–2024–0003'' in the search bar. Written comments must be submitted no later than 11:59 p.m. EDT, June 16, 2024.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis Doster, Jr., Associate Director, Office of Legislative, Education and Intergovernmental Affairs, Minority Business Development Agency, at (202) 482–2332; or by email at *MBDA-OLIA@mbda.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to Executive Order 13175, ''Consultation and Coordination with Indian Tribal Governments,'' the Federal government has established a practice of conducting consultations with Tribal governments that are designed to provide ''regular and meaningful consultation and collaboration with Tribal officials in the development of Federal policies that have Tribal implications[.]'' The requirements under E.O. 13175 are currently implemented by the United States Department of Commerce under Department Administrative Order (DAO) 218–8, effective April 26, 2012. The Department of Commerce further sets out its policy in the Tribal Consultation Policy of the U.S. Department of Commerce, available at: *https://www.commerce.gov/files/tribal-consultation-and-coordination-policy-us-department-commerce.* The U.S. Government has additionally reiterated its commitment to improving accountable consultation processes in Executive Order 14112, ''Reforming Federal Funding and Support for Tribal Nations to Better Embrace Our Trust Responsibilities and Promote the Next Era of Tribal Self-Determination,'' the Presidential Memorandum of November 30, 2022 (Uniform Standards for Tribal Consultation), and the Presidential Memorandum of January 26, 2021 (Tribal Consultation and Strengthening Nation-to-Nation Relationships).

MBDA's Office of Legislative, Education, and Intergovernmental Affairs (OLEIA) serves as the focal point for Tribal consultation on policy, regulatory and legislative issues that will have a direct impact on American Indian, Alaska Native, and Native Hawaiian (AIANNH) communities. The Tribal consultation meetings will be conducted in conjunction with MBDA's Office of Business Centers, Office of Data, Research and Evaluation and Office of Grants Management which document evidence and design and manage business development services, including services that may be of interest to Native American, Alaska Native and Native Hawaiian entrepreneurs and Tribe-owned businesses. Outreach specific to the AIANNH populations is one part of the overall efforts of MBDA to ensure members of Native communities are able to learn about and access programs and services.

MBDA is the only Federal agency created specifically to foster the growth and global competitiveness of minority business enterprises (MBEs). MBDA actively promotes the growth and expansion of MBEs by offering management and technical assistance, including through a nationwide network of AIANNH projects.

AIANNH projects address strategic initiatives that may include innovation and entrepreneurship (*e.g.,* business training, access to capital, incubators, accelerators, Federal program coaching); strategic planning (*e.g.,* fostering, developing and/or implementing entrepreneurial and economic development); and transformative projects (*e.g.,* support for MBEs involved in infrastructure focused public-private partnerships, and broadband).

MBDA awarded thirteen AIANNH projects during the 2021 competition cycle under funding opportunity number MBDA–OBD–2021–2006916. MBDA designated at least one award in each of these service locations: (1) Alaska; (2) California; (3) Northwest Area (Idaho, Oregon and Washington); (4) Rocky Mountain Area (Montana and Wyoming); (5) Western Area (Arizona, Nevada, and Utah); (6) Southwest Area (Colorado and New Mexico); (7) Great Plains Area (Nebraska, North Dakota and South Dakota); (8) Southern Plains Area (Kansas, Oklahoma and Texas); (9) Midwest Area (Iowa, Michigan, Minnesota, and Wisconsin); (10) Eastern Area (Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Kentucky, Illinois, Indiana, Louisiana, Maine, Massachusetts, Missouri, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia); and (11) Hawaii.

The AIANNH project cycle spanned from September 2021 through August 2023 and was extended through August 2024. The one-year extension allowed MBDA to conduct an analysis of current AIANNH projects, outcomes, and impact and to obtain public feedback through Tribal consultation and open comment period for future program design. The current AIANNH project awards will expire in August 2024.

II. Consultation Meetings

The purpose of the consultation meetings is, consistent with E.O. 13175 and DAO 218–8, to provide an accountable and transparent process that ensures meaningful and timely input from Tribal officials regarding MBDA's business development and entrepreneurial services in Indian Country, Alaska, and Hawaii and the implications that these programs have in these communities. The consultation meetings are closed to the public.

III. Questions for Public Comment

Members of the general public are invited to submit responses to the following questions. Please provide comments on any or all of the following issues and identify the specific AIANNH community addressed by these comments:

1. What is the primary challenge (or top three challenges) businesses encounter in AIANNH communities? What solutions do you think would help to address the challenge(s)?

2. What are some best practices that you have seen implemented that positively address the business challenges experienced by your AIANNH community through self-funded and/or externally funded programs (*e.g.,* Federal, State, local government, foundations, etc.)?

3. If you have direct or indirect experience with a MBDA AIANNH project, please provide your thoughts on which services and activities were most beneficial and which could have been more effective.

For comments to be considered, they must include the following identification of the commenter: name; title (if applicable); Tribe, Alaska Native Corporation, or native community (if applicable); organization or business (if applicable); city and state; and they must be submitted in written form at *www.regulations.gov. To access the docket where comments may be submitted, please enter* ''DOC–2024–0003'' in the search bar. Comments must be received no later than 11:59 p.m., EDT, Sunday, June 16, 2024.

Dated: April 16, 2024.

Eric Morrissette,

Acting Under Secretary, Minority Business Development Agency, U.S. Department of Commerce.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Draft Supplemental Programmatic Environmental Assessment for Fisheries Research Conducted and Funded by the Alaska Fisheries Science Center

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), US Department of Commerce.

ACTION: Notice of availability of a Draft Supplemental Programmatic Environmental Assessment; request for comments.

SUMMARY: NMFS announces the availability of the ''Draft Supplemental Programmatic Environmental Assessment (SPEA) for Fisheries Research Conducted and Funded by the Alaska Fisheries Science Center.'' Publication of this notice begins the official public comment period for this SPEA. The purpose of this Draft SPEA is to evaluate potential direct, indirect, and cumulative effects of changes in research that were not analyzed in the 2019 Alaska Fisheries Science Center (AFSC) Programmatic Environmental Assessment (PEA), or new research activities in the North Pacific Ocean and marine waters off of Alaska. Where necessary, updates to certain information on species, stock status or other components of the affected environment that may result in different conclusions from the 2019 PEA are presented in this analysis.

DATES: Comments and information must be received no later than June 18, 2024.

ADDRESSES: Comments on the Draft SPEA should be addressed to Rebecca Reuter, Environmental Compliance Coordinator, NOAA/NMFS/AFSC, 7600 Sand Point Way NE, Seattle, WA 98115.

The mailbox address for providing email comments is: *nmfs.afsc.spea@noaa.gov* NMFS is not responsible for email comments sent to addresses other than the one provided here. Comments sent via email, including all attachments, must not exceed a 10-megabyte file size.

A copy of the Draft SPEA may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the internet at: *https://www.fisheries.noaa.gov/action/supplemental-programmatic-environmental-assessment-fisheries-research-conducted-and-funded.* Documents cited in this notice may also be viewed, by appointment, during regular business hours at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Rebecca Reuter, email: *rebecca.reuter@noaa.gov,* phone: (206) 526–4234.

SUPPLEMENTARY INFORMATION: The AFSC is the research arm of NMFS in the Alaska Region. The purpose of AFSC fisheries research is to produce scientific information necessary for the management and conservation of living marine resources in the North Pacific Ocean and marine waters off of Alaska. AFSC's research is needed to promote both the long-term sustainability of the resource and the recovery of certain species, while generating social and economic opportunities and benefits from their use. The AFSC provides scientific data and technical advice to a variety of management organizations and stakeholder groups, including the NMFS Alaska Regional Office, North Pacific Fishery Management Council (NPFMC), State of Alaska, Alaska coastal subsistence communities, and U.S. representatives participating in international fishery and marine mammal negotiations, as well as the fishing industry, environmental non-governmental organizations and other constituents.

NMFS has prepared the Draft SPEA under the National Environmental Policy Act (NEPA) to evaluate several

alternatives for conducting and funding fisheries and ecosystem research activities as the primary Federal action. Additionally, in the Draft SPEA, NMFS evaluates a related action—also called a ''connected action'' under 40 CFR 1508.25 of the Council on Environmental Quality's regulations for implementing the procedural provisions of NEPA (42 U.S.C. 4321 *et seq.*)—which is the proposed promulgation of regulations and authorization of the take of marine mammal incidental to the fisheries research under the Marine Mammal Protection Act (MMPA). Additionally, because the proposed research activities occur in areas inhabited by species of marine mammals, birds, sea turtles and fish listed under the Endangered Species Act (ESA) as threatened or endangered, this Draft SPEA evaluates activities that could result in unintentional takes of ESA-listed marine species.

The following two alternatives are currently evaluated in the Draft SPEA:

- Alternative 1—Continue current fisheries and ecosystem research (Status Quo/no action) as described in the 2019 AFSC PEA.
- Alternative 2—Conduct current research with some modifications as well as new research activities that are planned for the future (*i.e.,* 2024—2029). New future research proposed under Alternative 2 was not previously analyzed in the 2019 PEA.

The alternatives include a program of fisheries and ecosystem research projects conducted or funded by the AFSC as the primary Federal action. Because this primary action is connected to a secondary Federal action, to consider authorizing incidental take of marine mammals under the MMPA, NMFS must identify as part of this evaluation ''(t)he means of effecting the least practicable adverse impact on the species or stock and its habitat.'' (section 101(a)(5)(A) of the MMPA [16 U.S.C. 1361 *et seq.*]) NMFS must therefore identify and evaluate a reasonable range of mitigation measures to minimize impacts to protected species that occur in AFSC research areas. These mitigation measures are considered as part of the identified alternatives in order to evaluate their effectiveness to minimize potential adverse environmental impacts. The two action alternatives also include mitigation measures intended to minimize potentially adverse interaction with other protected species that occur within the action area. Protected species include all marine mammals, which are covered under the MMPA, all species listed under the ESA, and bird species protected under the Migratory Bird Treaty Act.

Potential direct and indirect effects on the environment are evaluated under each alternative in the Draft SPEA. The environmental effects on the following resources are considered: physical environment, special resource areas, fish, marine mammals, birds, sea turtles, invertebrates, and the social and economic environment. Cumulative effects of external actions and the contribution of fisheries research activities to the overall cumulative impact on the aforementioned resources is also evaluated in the Draft SPEA for the geographic regions in which AFSC surveys are conducted.

NMFS requests comments on the Draft SPEA for Fisheries Research Conducted and Funded by the National Marine Fisheries Service, Alaska Fisheries Science Center. Please include, with your comments, any supporting data or literature citations that may be informative in substantiating your comment.

Dated: March 29, 2024.

Robert Foy,

Science and Research Director, Alaska Fisheries Science Center, National Marine Fisheries Service.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Center of Independent Experts (CIE) review of the Gulf of Alaska walleye pollock stock assessment will be held in May, in Seattle, WA.

DATES: The meeting will be held on Tuesday, May 7, 2024 through Thursday, May 9, 2024, from 10 a.m. to 5 p.m., Pacific Time.

ADDRESSES:

Meeting address: The meeting will be in-person only and will be held in Room 2079 on Tuesday, May 7, 2024 and in Room 2143 on May 8–9, 2024, at the Alaska Fishery Science Center, Sand Point Way NE, Building 4, Seattle, WA 98115.

If you plan to attend, you need to notify Cole Monnahan (*cole.monnahan@noaa.gov*) at least 2 days prior to the meeting (or 2 weeks prior if you are a foreign national). You will also need a valid U.S. Identification Card.

Council address: North Pacific Fishery Management Council, 1007 W 3rd Ave., Anchorage, AK 99501–2252; telephone: (907) 271–2809.

FOR FURTHER INFORMATION CONTACT: Cole Monnahan, Alaska Fishery Science Center staff; phone: (206) 526–4224; email: *cole.monnahan@noaa.gov.*

SUPPLEMENTARY INFORMATION:

Agenda

Tuesday, May 7, 2024 Through Thursday, May 9, 2024

The CIE will review the Gulf of Alaska walleye pollock stock assessment input data and model. The agenda is subject to change, and the latest version will be posted at *https://apps-afsc.fisheries.noaa.gov/Plan_Team/2024_GOA_pollock_cie/* prior to the meeting, along with meeting materials.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 16, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Atlantic Highly Migratory Species; Meeting of the Atlantic Highly Migratory Species Advisory Panel

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting and webinar/conference call.

SUMMARY: NMFS will hold a 3-day Atlantic Highly Migratory Species (HMS) Advisory Panel (AP) meeting in May 2024. The intent of the meeting is to consider options for the conservation and management of Atlantic HMS. The meeting is open to the public.

DATES: The AP meeting and webinar will be held on Tuesday, May 14, from 9:30 a.m. to 5 p.m. ET; Wednesday, May 15, from 9:30 a.m. to 5 p.m. ET; and Thursday, May 16, from 9 a.m. to 12 p.m. ET.

ADDRESSES: The meeting will be held at the DoubleTree by Hilton Silver Spring Hotel, 8777 Georgia Avenue, Silver Spring, MD 20910. The meeting will also be accessible via WebEx webinar/conference call. Conference call and webinar access information are available at: *https://www.fisheries.noaa.gov/event/may-2024-hms-advisory-panel-meeting.*

Participants accessing the webinar are strongly encouraged to log/dial in 15 minutes prior to the meeting. NMFS will show the presentations via webinar and allow public comment during identified times on the agenda.

FOR FURTHER INFORMATION CONTACT: Peter Cooper (*peter.cooper@noaa.gov*) or Lisa Crawford (*lisa.crawford@noaa.gov*) at 301–427–8503.

SUPPLEMENTARY INFORMATION: Atlantic HMS fisheries (tunas, billfish, swordfish, and sharks) are managed under the 2006 Consolidated Atlantic HMS Fishery Management Plan (FMP) and its amendments pursuant to the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) and consistent with the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*). HMS implementing regulations are at 50 CFR part 635.

The Magnuson-Stevens Act requires the establishment of APs and requires NMFS to consult with and consider the comments and views of AP members during the preparation and implementation of FMPs or FMP amendments (16 U.S.C. 1854(g)(1)(A)–(B)). NMFS meets with the HMS AP approximately twice each year to consider potential alternatives for the conservation and management of Atlantic tunas, swordfish, billfish, and shark fisheries, consistent with the Magnuson-Stevens Act.

Some of the discussion topics are:

- Outcomes of the 2023 International Commission for the Conservation of Atlantic Tunas Annual Meeting;
- Atlantic bluefin tuna fishery update: management and recent trends;
- Atlantic shark fishery update: management and recent trends;
- Amendment 15 to the 2006 Consolidated HMS FMP regarding spatial management; and
- Atlantic HMS fishing gear considerations.

We also anticipate inviting other NMFS offices and the U.S. Coast Guard to provide updates, if available, on their activities relevant to HMS fisheries. Additional information on the meetings and a copy of the draft agenda will be posted prior to the meeting (see **ADDRESSES**).

All members of the public will have virtual access to the meeting available via webinar and status updates of in-person public access to the meeting will be available on the NMFS website (see **ADDRESSES**). The meeting location is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Peter Cooper at 301–427–8503, at least 7 days prior to the meeting.

Dated: April 16, 2024.

Everett Wayne Baxter,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Additions and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to and deletions from the Procurement List.

SUMMARY: This action adds product(s) to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and deletes product(s) from the Procurement List previously furnished by such agencies.

DATES: *Date added to and deleted from the Procurement List:* May 19, 2024.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 355 E Street SW, Suite 325, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Michael R. Jurkowski, Telephone: (703) 489–1322, or email *CMTEFedReg@AbilityOne.gov.*

SUPPLEMENTARY INFORMATION:

Additions

On 3/15/2024, the Committee for Purchase From People Who Are Blind or Severely Disabled (operating as the U.S. AbilityOne Commission) published an initial notice of proposed additions to the Procurement List (89 FR 18912). This final notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51–2.3. The Committee has determined that the product listed below is suitable for procurement by the Federal Government and has added this product to the Procurement List as a mandatory purchase for Federal entities. In accordance with 41 CFR 51–5.2, the Committee has authorized the qualified nonprofit agency described with the product as the source of supply.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the product(s) and impact of the additions on the current or most recent contractors, the Committee has determined that the product(s) listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the product(s) to the Government.
2. The action will result in authorizing small entities to furnish the product(s) to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the product(s) proposed for addition to the Procurement List.

End of Certification

Accordingly, the following product is added to the Procurement List:

Product(s)

NSN(s)—Product Name(s):
4210–01–387–1392—Rake, Collapsible, Forest Fire

Authorized Source of Supply: BESTWORK INDUSTRIES FOR THE BLIND, INC, Cherry Hill, NJ

Contracting Activity: DEFENSE LOGISTICS AGENCY, DLA TROOP SUPPORT

Mandatory for: Total Government Requirement

Distribution: The product will be available through the Commission's Commercial Distribution Program

Deletions

On 3/15/2024 (83 FR), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List. This notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51–2.3.

After consideration of the relevant matter presented, the Committee has determined that the product(s) listed below are no longer suitable for procurement by the Federal Government

under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action may result in authorizing small entities to furnish the product(s) to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the product(s) deleted from the Procurement List.

End of Certification

Accordingly, the following product(s) are deleted from the Procurement List:

Product(s)

NSN(s)—Product Name(s):
8105–01–662–7124—Can Liners—Can Liner, Linear Low Density, 44 Gallon, Clear
8105–01–662–6362—Can Liners—Can Liner, Linear Low Density, 23 Gallon, Clear
8105–01–662–7122—Can Liners—Can Liner, Linear Low Density, 32 Gallon, Clear
8105–01–662–6361—Can Liners—Can Liner, Linear Low Density, 10–15 Gallons, Clear
8105–01–662–7928—Can Liners—Can Liner, Linear Low Density, 40–45 Gallon, Clear
Authorized Source of Supply: Envision, Inc., Wichita, KS
Contracting Activity: GSA/FAS ADMIN SVCS ACQUISITION BR(2, NEW YORK, NY
NSN(s)—Product Name(s):
7350–00–988–6498—Cup, Paper, Disposable, Hot, White, 8 oz, with Handle
7350–00–205–1182—Cup, Paper, Disposable, Hot, White, 6 oz, with Handle
Authorized Source of Supply: The Lighthouse for the Blind in New Orleans, Inc., New Orleans, LA
Contracting Activity: STRATEGIC ACQUISITION CENTER, FREDERICKSBURG, VA
NSN(s)—Product Name(s):
7350–00–988–6498—Cup, Paper, Disposable, Hot, White, 8 oz, with Handle
7350–00–205–1182—Cup, Paper, Disposable, Hot, White, 6 oz, with Handle
Authorized Source of Supply: The Lighthouse for the Blind in New Orleans, Inc., New Orleans, LA
Contracting Activity: GSA/FSS GREATER SOUTHWEST ACQUISITI, FORT WORTH, TX
NSN(s)—Product Name(s):
8520–01–522–0832—Refill, Body and Hair Shampoo, Scented, 2000 mL
8520–01–522–0833—Refill, Body and Hair Shampoo, Scented, 1000 mL
8520–01–522–0836—Refill, Body and Hair Shampoo, Scented, 800 mL
Authorized Source of Supply: Travis Association for the Blind, Austin, TX
Contracting Activity: GSA/FSS GREATER SOUTHWEST ACQUISITI, FORT WORTH, TX

Michael R. Jurkowski,

Director, Business Operations.

BILLING CODE 6353–01–P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Changes

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed changes to the Procurement List.

SUMMARY: The Committee is proposing to change requirements for products already existing on the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

DATES: Comments must be received on or before: May 12, 2024.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 355 E Street SW, Suite 325, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Michael R. Jurkowski, Telephone: (703) 489–1322, or email *CMTEFedReg@AbilityOne.gov.*

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Changes

If the Committee approves the proposed changes, the entities of the Federal Government identified in this notice will be required to procure the product(s) listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

NSN(s)—Product Name(s):
8415–01–670–9017—Coat, Improved Hot Weather Combat Uniform (IHWCU), Permethrin, Unisex, Army, OCP 2015 (s)
Authorized Source of Supply: Goodwill Industries of South Florida, Inc., Miami, FL
Authorized Source of Supply: ReadyOne Industries, Inc., El Paso, TX
Contracting Activity: DEFENSE LOGISTICS AGENCY, DLA TROOP SUPPORT

The Commission is correcting its Notice of 4/12/2024 which stated that the mandatory purchase requirement for the Improved Coat, Improved Hot Weather Combat Uniform (IHWCU), Permethrin, Unisex would be 70,900. The correct mandatory purchase amount is 270,900.

Michael R. Jurkowski,

Director, Business Operations.

BILLING CODE 6353–01–P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Additions and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed additions to and deletions from the Procurement List.

SUMMARY: The Committee is proposing to add product(s) and service(s) to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities and deletes product(s) and service(s) previously furnished by such agencies.

DATES: Comments must be received on or before: May 19, 2024.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 355 E Street SW, Suite 325, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: For further information or to submit comments contact: Michael R. Jurkowski, Telephone: (703) 489–1322, or email *CMTEFedReg@AbilityOne.gov.*

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

In accordance with 41 CFR 51–5.3(b), the Committee intends to add these service requirements to the Procurement List as a mandatory purchase only for (contracting activity) at (location) with the proposed qualified nonprofit agency as the authorized source of supply. Prior to adding the service to the Procurement List, the Committee will consider other pertinent information, including

information from Government personnel and relevant comments from interested parties regarding the Committee's intent to geographically limit this services requirement.

The following product(s) and service(s) are proposed for addition to the Procurement List for production by the nonprofit agencies listed:

Product(s)

NSN(s)—Product Name(s):
700005401N—Monitor, Desktop, 23.8″
Authorized Source of Supply: Goodwill Vision Enterprises, Rochester, NY
Contracting Activity: DEFENSE LOGISTICS AGENCY, DLA TROOP SUPPORT
Distribution: B-List
Mandatory for: Total Government Requirement

Service(s)

Service Type: Custodial
Mandatory for: US Geological Survey, Earth Resources Observation Science (EROS) Center, Sioux Falls, SD
Authorized Source of Supply: Northwest Center, Seattle, WA
Contracting Activity: US GEOLOGICAL SURVEY, US GEOLOGICAL SURVEY
Service Type: Base Information Transfer Center & Postal Service, Mail Distribution Service
Mandatory for: US Army, Central Mail Facility, Redstone Arsenal, Huntsville, AL
Authorized Source of Supply: Huntsville Rehabilitation Foundation, Inc., Huntsville, AL
Contracting Activity: DEPT OF THE ARMY, W6QK ACC–RSA

Deletions

The following product(s) and service(s) are proposed for deletion from the Procurement List:

Product(s)

NSN(s)—Product Name(s):
9930–00–NIB–0105—Kit, Post Mortem Bag, Basic, Straight Zipper, 36″ x 90″
9930–00–NIB–0106—Kit, Post Mortem Bag, Basic, Curved Zipper, 36″ x 90″
9930–00–NIB–0107—Kit, Post Mortem Bag, Heavy Duty, 36″ x 90″
9930–00–NIB–0108—Kit, Post Mortem Bag, Heavy Duty, XL, 72″ x 90″
9930–00–NIB–0109—Kit, Disaster Bag with ID Tags, 34″ x 96″
Authorized Source of Supply: BOSMA Enterprises, Indianapolis, IN
Contracting Activity: DLA TROOP SUPPORT, PHILADELPHIA, PA

Service(s)

Service Type: Grounds Maintenance Service
Mandatory for: Joint Interagency Task Force South, Truman Annex, Key West, FL
Authorized Source of Supply: Goodwill Industries of South Florida, Inc., Miami, FL
Contracting Activity: DEPT OF THE ARMY, W453 JIATFS

Michael R. Jurkowski,
Director, Business Operations.

DEPARTMENT OF DEFENSE

Department of the Army

Second Draft Environmental Impact Statement for Army Training Land Retention at Pōhakuloa Training Area in Hawai'i

AGENCY: Department of the Army, DOD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army (Army) announces the availability of a Second Draft Environmental Impact Statement (Draft EIS) regarding its proposed action to retain up to approximately 22,750 acres of the 23,000 acres of land the Army currently leases from the State of Hawai'i (''State-owned land'') at Pōhakuloa Training Area (PTA) on the island of Hawai'i. The Army is publishing the Draft EIS for public review during a 45-day comment period. In accordance with the National Environmental Policy Act (NEPA) and the Hawai'i Environmental Policy Act (HEPA), the Draft EIS analyzes the potential direct, indirect, and cumulative impacts of a range of reasonable alternatives that meet the purpose of, and need for, the proposed action. Because the proposed action involves State-owned land, the EIS is a joint NEPA–HEPA document; therefore, the public review process runs concurrently and meets both NEPA and HEPA requirements.

DATES: The Army invites public comments on the Draft EIS during the 45-day public comment period. To be considered in the Final EIS, all comments must be postmarked or received by 11:59 p.m. Hawai'i standard time on June 7, 2024. Public meetings will be held in Waimea District Park on May 6, 2024, and at the 'Imiloa Astronomy Center on May 7, 2024 to provide information on the Draft EIS and to enhance the opportunity for public comment. Information on how to participate in the Draft EIS public meetings and how to submit comments is available on the EIS website at *https://home.army.mil/hawaii/index.php/PTAEIS.*

ADDRESSES: Written comments should be submitted through the EIS website at *https://home.army.mil/hawaii/index.php/PTAEIS,* emailed to *atlr-pta-eis@g70.design,* mailed to ATLR PTA EIS Comments, P.O. Box 3444, Honolulu, HI 96801–3444, or provided during the public meetings. Comments must be postmarked or received by June 7, 2024.

FOR FURTHER INFORMATION CONTACT: U.S. Army Garrison-Hawaii, Mr. Michael Donnelly, Public Affairs Office, by telephone at (808) 787–2140 or by email at *usarmy.hawaii.nepa@army.mil.*

SUPPLEMENTARY INFORMATION: During World War II, the U.S. Marine Corps trained on the land now known as PTA. A 1956 maneuver agreement between the Territory of Hawai'i and the Army formally established PTA. In 1964, the State of Hawai'i granted the Army a 65-year lease of approximately 23,000 acres of land adjacent to PTA for military purposes. The State-owned land now contains utilities, critical infrastructure, maneuver area, and key training facilities, some of which are not available elsewhere in Hawai'i. The parcel also provides access among the PTA cantonment area and Bradshaw Army Airfield and two other federally owned parcels at PTA.

The Army made a Draft EIS available for comment on this action on April 8, 2022. In response to comments received from agencies and the public on that Draft EIS, the Army is no longer considering the retention of approximately 250 acres of State-owned land administered by the Department of Hawaiian Home Lands. In addition to analyzing impacts of a fee simple retention method, the new Draft EIS also assesses impacts of a lease retention method. Due to these changes, the Army determined that another draft EIS should be made available for public comment.

The Draft EIS evaluates the potential impacts of a range of reasonable alternatives: (1) Maximum Retention (of approximately 22,750 acres); (2) Modified Retention (of approximately 19,700 acres); and (3) Minimum Retention and Access (of approximately 10,100 acres and 11 miles of roads and training trails). The Draft EIS also analyzes the potential impacts of the No Action Alternative, under which Army use of the land would cease altogether when the lease expires in 2029. The Army has identified Alternative 2, Modified Retention, as the Preferred Alternative. The Army based its preference on: public comments; environmental, social, technical, and economic considerations; and the ability of the alternative to meet the mission of the Army.

The Draft EIS analyzes: land use; biological resources; historic and cultural resources and cultural

practices; hazardous substances and hazardous wastes; air quality and greenhouse gases; noise; geology, topography, and soils; water resources; socioeconomics; environmental justice; transportation and traffic; airspace; electromagnetic spectrum; utilities; and human health and safety.

The Draft EIS indicates that under Alternatives 1, 2, and 3, significant adverse impacts on land use (land tenure), cultural practices, and environmental justice could occur. Under the No Action Alternative, significant adverse impacts on biological resources, socioeconomics, and utilities could occur. The No Action Alternative could have significant beneficial impacts on land use, cultural practices, and environmental justice. To mitigate adverse impacts to land use, the Army would consider adding non-barbed wire fencing and signage to minimize encroachment and accidental or intentional trespass from adjacent non-U.S. Government-owned land. In consideration of adverse impacts to cultural practices and environmental justice, the Army, in consultation with Native Hawaiians and cultural practitioners, proposes to: (1) formalize a cultural access request process to enable Native Hawaiians and cultural practitioners to promote and preserve cultural practices, beliefs, and resources; and (2) explore options to provide unlimited access to specific locations. To mitigate adverse impacts on human health and safety, the Army would consider: (1) negotiating an agreement with the State to allow the Army to monitor for wildfires on the State-owned land that is not retained by the Army; and (2) continuing or renegotiating its Memorandum of Agreement with the Hawai'i County Fire Department to assist wildfire responders with wildfire suppression outside of PTA boundaries.

The No Action Alternative could have: significant adverse impacts on biological resources, socioeconomics, and utilities; significant beneficial impacts for land use, cultural practices, and environmental justice; and less than significant impacts on all other resources.

The Army distributed the Draft EIS to: Native Hawaiian Organizations; Federal, State, and local agencies and officials; and other stakeholders. The Draft EIS and informational materials are also available on the EIS website at: *https://home.army.mil/hawaii/index.php/PTAEIS*. The public may also review the Draft EIS and select materials at the following libraries:

1. Hawai'i State Library, Hawai'i Documents Center, 478 S King Street, Honolulu, HI 96813
2. Hilo Public Library, 300 Waianuenue Avenue, Hilo, HI 96720
3. Kailua-Kona Public Library, 75–138 Hualalai Road, Kailua-Kona, HI 96740
4. Thelma Parker Memorial Public and School Library, 67–1209 Mamalahoa Highway, Kamuela, HI 96743

Native Hawaiian Organizations, Federal, State, and local agencies/officials, and other interested entities/individuals are encouraged to comment on the Draft EIS during the 45-day public comment period. All comments postmarked or received June 7, 2024 will be considered in the development of the Final EIS.

James W. Satterwhite, Jr.,

U.S. Army Federal Register Liaison Officer.

[FR Doc. 2024–08403 Filed 4–18–24; 8:45 am]

BILLING CODE 3711–02–P

DEPARTMENT OF DEFENSE

Office of the Secretary

Department of Defense Wage Committee (DoDWC); Notice of Federal Advisory Committee Meetings

AGENCY: Under Secretary of Defense for Personnel and Readiness (USD(P&R)), Department of Defense (DoD).

ACTION: Notice of closed Federal Advisory Committee meetings.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meetings of the DoDWC will take place.

DATES: Tuesday, April 16, 2024, from 10 a.m. to 1 p.m. and will be closed to the public. Tuesday, April 30, 2024, from 10 a.m. to 11:30 a.m. and will be closed to the public; Tuesday, May 14, 2024, from 10 a.m. to 1 p.m. and will be closed to the public; Tuesday, May 28, 2024, from 10 a.m. to 10:30 a.m. and will be closed to the public; Tuesday, June 11, 2024, from 10 a.m. to 11:30 a.m. and will be closed to the public.

ADDRESSES: The closed meetings will be held by Microsoft Teams.

FOR FURTHER INFORMATION CONTACT: Mr. Karl Fendt, (571) 372–1618 (voice), *karl.h.fendt.civ@mail.mil.* (email), 4800 Mark Center Drive, Suite 05G21, Alexandria, Virginia 22350 (mailing address). Any agenda updates can be found at the DoDWC's official website: *https://wageandsalary.dcpas.osd.mil/BWN/DODWC/.*

SUPPLEMENTARY INFORMATION: Due to circumstances beyond the control of the Designated Federal Officer (DFO) and the DoD, the DoDWC was unable to provide public notification required by 41 CFR 102–3.150(a) concerning its April 16, 2024 meeting. Accordingly, the Advisory Committee Management Officer for the DoD, pursuant to 41 CFR 102–3.150(b), waives the 15-calendar day notification requirement.

Due to circumstances beyond the control of the DFO and the DoD, the DoDWC was unable to provide public notification required by 41 CFR 102–3.150(a) concerning its April 30, 2024 meeting. Accordingly, the Advisory Committee Management Officer for the DoD, pursuant to 41 CFR 102–3.150(b), waives the 15-calendar day notification requirement.

These meetings are being held under the provisions of chapter 10 of title 5, United States Code (U.S.C.) (commonly known as the ''Federal Advisory Committee Act'' or ''FACA''), 5 U.S.C. 552b(c) (commonly known as the ''Government in the Sunshine Act''), and 41 CFR 102–3.140 and 102–3.150.

Purpose of the Meeting: The purpose of these meetings is to provide independent advice and recommendations on matters relating to the conduct of wage surveys and the establishment of wage schedules for all appropriated fund and non-appropriated fund areas of blue-collar employees within the DoD.

Agendas

April 16, 2024

Opening Remarks by Chair, Mr. Eric Clayton, and DFO, Mr. Karl Fendt.

Reviewing survey results and/or survey specifications for the following Nonappropriated Fund areas:

1. Any items needing further clarification or action from the previous meeting.

2. Wage Schedule (Full Scale) for the Onslow, North Carolina wage area (AC–097).

3. Wage Schedule (Full Scale) for the Shelby, Tennessee wage area (AC–098).

4. Wage Schedule (Full Scale) for the Christian, Kentucky/Montgomery, Tennessee wage area (AC–099).

5. Wage Schedule (Full Scale) for the Charleston, South Carolina wage area (AC–120).

6. Wage Schedule (Full Scale) for the San Juan-Guaynabo, Puerto Rico wage area (AC–155).

7. Wage Schedule (Wage Change) for the Sacramento, California wage area (AC–002).

8. Wage Schedule (Wage Change) for the San Joaquin, California wage area (AC–008).

9. Wage Schedule (Wage Change) for the Bernalillo, New Mexico wage area (AC–019).

10. Wage Schedule (Wage Change) for the Dona Ana, New Mexico wage area (AC–021).
11. Wage Schedule (Wage Change) for the El Paso, Texas wage area (AC–023).
12. Survey Specifications for the Frederick, Maryland wage area (AC–088).
13. Survey Specifications for the Washington, District of Columbia wage area (AC–124).
14. Survey Specifications for the Alexandria-Arlington-Fairfax, Virginia wage area (AC–125).
15. Survey Specifications for the Prince William, Virginia wage area (AC–126).
16. Survey Specifications for the Prince George's-Montgomery, Maryland wage area (AC–127).
17. Survey Specifications for the Charles-St. Mary's, Maryland wage area (AC–128).
18. Survey Specifications for the Anne Arundel, Maryland wage area (AC–147).

Reviewing survey results and/or survey specifications for the following Appropriated Fund areas:

19. Wage Schedule (Full Scale) for the Salinas-Monterey, California wage area (AC–015).
20. Wage Schedule (Full Scale) for the Southern Colorado wage area (AC–023).
21. Wage Schedule (Full Scale) for the Lexington, Kentucky wage area (AC–058).
22. Wage Schedule (Full Scale) for the Northern Mississippi wage area (AC–077).
23. Wage Schedule (Full Scale) for the New York, New York wage area (AC–094).
24. Wage Schedule (Full Scale) for the Rochester, New York wage area (AC–096).
25. Wage Schedule (Full Scale) for the Dayton, Ohio wage area (AC–107).
26. Wage Schedule (Full Scale) for the Memphis, Tennessee wage area (AC–124).
27. Wage Schedule (Full Scale) for the Nashville, Tennessee wage area (AC–125).
28. Wage Schedule (Full Scale) for the Wyoming wage area (AC–150).
29. Wage Schedule (Wage Change) for the Fresno, California wage area (AC–012).
30. Wage Schedule (Wage Change) for the Sacramento, California wage area (AC–014).
31. Wage Schedule (Wage Change) for the Stockton, California wage area (AC–020).
32. Wage Schedule (Wage Change) for the Denver, Colorado wage area (AC–022).
33. Wage Schedule (Wage Change) for the Miami, Florida wage area (AC–031).
34. Wage Schedule (Wage Change) for the Louisville, Kentucky wage area (AC–059).
35. Wage Schedule (Wage Change) for the Jackson, Mississippi wage area (AC–078).
36. Wage Schedule (Wage Change) for the Meridian, Mississippi wage area (AC–079).
37. Wage Schedule (Wage Change) for the Cincinnati, Ohio wage area (AC–104).
38. Wage Schedule (Wage Change) for the Narragansett Bay, Rhode Island wage area (AC–118).
39. Wage Schedule (Wage Change) for the Eastern Tennessee wage area (AC–123).
40. Survey Specifications for the Alaska wage area (AC–007).
41. Survey Specifications for the Hawaii wage area (AC–044).
42. Survey Specifications for the Central & Western Massachusetts wage area (AC–069).
43. Survey Specifications for the Southwestern Wisconsin wage area (AC–149).
44. Survey Specifications for the Central and Northern Maine wage area (AC–064).
45. Survey Specifications for the Montana wage area (AC–083).
46. Survey Specifications for the Asheville, North Carolina wage area (AC–098).
47. Survey Specifications for the Southwestern Oregon wage area (AC–113).
48. Survey Specifications for the Charleston, South Carolina wage area (AC–119).
49. Survey Specifications for the Austin, Texas wage area (AC–129).
50. Survey Specifications for the Corpus Christi, Texas wage area (AC–130).
51. Special Pay—Northern Mississippi Special Rates.
52. Special Pay—Fresno, California Special Rates.
53. Special Pay—Louisville, Kentucky Special Rates.
54. Special Pay—Stockton, California Special Rates.
55. Special Pay—Narragansett Bay, Rhode Island Special Rates.
56. Special Pay—Southeast Power Rate.
57. Any items needing further clarification from this agenda may be discussed during future scheduled meetings.

Closing Remarks by Chair, Mr. Eric Clayton.

April 30, 2024

Opening Remarks by Chair, Mr. Eric Clayton, and DFO, Mr. Karl Fendt.

Reviewing survey results and/or survey specifications for the following Nonappropriated Fund areas:

1. Any items needing further clarification or action from the previous meeting.
2. Wage Schedule (Full Scale) for the Oklahoma, Oklahoma wage area (AC–052).
3. Wage Schedule (Full Scale) for the Harrison, Mississippi wage area (AC–070).

Closing Remarks by Chair, Mr. Eric Clayton.

Meeting Accessibility: Pursuant to 5 U.S.C. 552b(c)(4), the DoD has determined that the meetings shall be closed to the public. The USD(P&R), in consultation with the DoD Office of General Counsel, has determined in writing that each of these meetings is likely to disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential.

Written Statements: Pursuant to 5 U.S.C. 1009(a)(3) and 41 CFR 102–3.140,

interested persons may submit written statements to the DFO for the DoDWC at any time. Written statements should be submitted to the DFO at the email or mailing address listed above in **FOR FURTHER INFORMATION CONTACT**. If statements pertain to a specific topic being discussed at a planned meeting, then these statements must be submitted no later than five (5) business days prior to the meeting in question. Written statements received after this date may not be provided to or considered by the DoDWC until its next meeting. The DFO will review all timely submitted written statements and provide copies to all the committee members before the meetings that are the subject of this notice.

Dated: April 15, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

DEPARTMENT OF THE DEFENSE

Department of the Army, Corps of Engineers

Withdrawal of the Notice of Intent To Prepare a Joint Environmental Impact Statement/Environmental Impact Report for the Dredged Material Management Plan Feasibility Study, Los Angeles County, CA

AGENCY: Army Corps of Engineers, Department of the Army, DoD.

ACTION: Notice of intent; withdrawal.

SUMMARY: The U.S. Army Corps of Engineers, Los Angeles District, Planning Division is notifying interested parties that it has withdrawn the Notice of Intent (NOI) to develop a Joint Environmental Impact Statement/ Environmental Impact Report for the Dredged Material Management Plan Feasibility Study. The original NOI to prepare a Joint EIS/EIR was published in the **Federal Register** on February 13, 2003. The proposed Dredged Material Management Plan Feasibility Study was converted into a Dredged Material Management Framework on August 24, 2009. A Final EIS/EIR was never completed.

DATES: The notice of intent to prepare an EIS published in the **Federal Register** on February 13, 2003 (68 FR 7353), is withdrawn as of April 19, 2024.

ADDRESSES: U.S. Army Corps of Engineers, Los Angeles District, Environmental Resources Branch, (CESPL–PDR), 915 Wilshire Blvd., Suite 1109, Los Angeles, CA 90017–3409.

FOR FURTHER INFORMATION CONTACT: Questions regarding the withdrawal of this NOI should be addressed to Mr. Larry Smith, 213–452–3876, or *.army.mil.*

SUPPLEMENTARY INFORMATION: The Draft EIS/EIR was distributed for public and agency review on February 10, 2009. The Dredged Material Management Framework was completed as an internal document in November 2022 after it was determined that the Study did not meet the programmatic definition of a Dredged Material Management Plan.

David R. Hibner,

Programs Director, South Pacific Division.

BILLING CODE 3720–58–P

DEPARTMENT OF EDUCATION

Peer Review Opportunities With the U.S. Department of Education's Office of Elementary and Secondary Education (OESE); Office of English Language Acquisition (OELA); Office of Postsecondary Education (OPE); and Office of Special Education and Rehabilitative Services (OSERS)

AGENCY: Office of Elementary and Secondary Education, Office of English Language Acquisition, Office of Postsecondary Education, and Office of Special Education and Rehabilitative Services, U.S. Department of Education.

ACTION: Notice.

SUMMARY: The U.S. Department of Education (Department) announces opportunities for individuals to participate in its peer review process for competitive grant funding under the programs administered by OESE, OELA, OPE, and OSERS.

DATES: Requests to serve as a peer reviewer for fiscal year 2024 will be accepted on an ongoing basis, aligned with this year's grant competition schedule. Requests to serve as a peer reviewer should be submitted at least four weeks prior to the program's application deadline noted on the Department's website under ''Forecast of Funding Opportunities'' at *www2.ed.gov/fund/grant/find/edlite-forecast.html.* This notice highlights the specific needs of OESE, OELA, OPE, and OSERS.

ADDRESSES: An individual interested in serving as a peer reviewer must register and upload his or her resume in the Department's grants management system known as ''G6'' at *www.g6.gov.*

FOR FURTHER INFORMATION CONTACT:

OESE: Andrew Brake, U.S. Department of Education, 400 Maryland Avenue SW, Room 4B168, Washington, DC 20202. Telephone: (202) 453–6136. Email: *andrew.brake@ed.gov.*

OELA: Francisco Javier López, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202–5076. Telephone: (202) 558–4880. Email: *NPD2024@ed.gov.*

OPE: Tonya Hardin, U.S. Department of Education, 400 Maryland Avenue SW, 5th Floor, Washington, DC 20202. Telephone: (202) 453–7694. Email: *tonya.hardin@ed.gov.*

OSERS: Kate Friday, U.S. Department of Education, 400 Maryland Avenue SW, Room 4A–111, Potomac Center Plaza, Washington, DC 20202–5076. Telephone: (202) 987–1439. Email: *kate.friday@ed.gov.*

If you are deaf, hard of hearing, or have a speech disability and wish to access telecommunications relay services, please dial 7–1–1.

SUPPLEMENTARY INFORMATION: The mission of the Department is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access. The Department pursues its mission by funding grant programs that will improve access to high-quality educational opportunities and programs that pursue innovations in teaching and learning with a focus on underserved students. The Department also funds programs in other areas as authorized by statute. Grant funds are awarded to State educational agencies; local educational agencies (*i.e.,* school districts); State, local, or Tribal governments; nonprofit organizations; institutions of higher education; and other entities through a competitive process referred to as a grant competition.

Each year the Department convenes panels of external education professionals and practitioners to serve as peer reviewers.[1] Peer reviewers evaluate and score submitted applications against competition-specific criteria and announced priorities. Application scores are then used to inform the Secretary's funding decisions.

Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, directs Federal agencies to ''assess whether

[1] Please note that the Institute of Education Sciences (IES) uses different peer review processes and procedures than those described in this notice. More information on the IES peer review process can be found at: *https://ies.ed.gov/director/sro/application_review.asp.* IES also administers its research grant competitions on a different timeline from other offices in the Department.

underserved communities and their members face systemic barriers in accessing benefits and opportunities available pursuant to those policies and programs.'' The Department is committed to increasing the racial and ethnic diversity of peer reviewers—an important element of the Department's efforts to implement this Executive order. Moreover, the Department is particularly interested in peer reviewers who represent diverse experiences and perspectives, including experiences working with diverse and underserved communities, and whose expertise pertains to the Department's grant competitions. This emphasis on increasing peer reviewer diversity is included in the Department's Agency Equity Plan, available at *www2.ed.gov/documents/equity/2022-equity-plan.pdf.*

This year, OESE is managing over 20 grant competitions to fund a range of projects that support increasing the number of mental health providers in schools; education innovation and research; educator preparation, growth, and diversity; migratory or seasonal farmworkers; magnet schools; charter schools; literacy; Indian education; and technical assistance, among others.

OELA is managing one grant competition: National Professional Development. Grants awarded under this program may be used for effective pre-service professional development programs that will increase the number and diversity of fully licensed or certified bilingual or multilingual teachers supporting ELs.

OPE is managing approximately 15 grant competitions to fund a wide range of projects, including projects to support improvements in educational quality, management, and financial stability at colleges and universities that enroll high numbers of underserved students; projects designed to increase college enrollment among students in high-poverty schools; projects to strengthen multilingual education and foreign language instruction, international studies, teaching and research, professional preparation and development for educators, and curriculum development at the K–12, graduate, and postsecondary levels; projects to fund fellowships to students studying in a field designated as an area of national need; projects designed to support high-quality teacher preparation at Historically Black Colleges and Universities, Tribally Controlled Colleges and Universities, and Minority Serving Institutions; and projects to build research and development infrastructure at under resourced institutions.

OSERS is managing nearly 20 grant competitions. The competitions in OSERS' Office of Special Education Programs (OSEP) include those under the following programs: State Personnel Development Grants; Personnel Development; Technical Assistance and Dissemination; Educational Technology, Media, and Materials; and Technical Assistance on State Data Collection. The remaining competitions in OSERS' Rehabilitation Services Administration (RSA) are under the following programs: Braille Training Program, American Indian Vocational Rehabilitation Services, and the Disability Innovation Fund.

The Department seeks to expand its pool of peer reviewers to ensure that applications are evaluated by individuals with up-to-date and relevant knowledge of educational interventions and practices across the learning continuum, from early education to college and career, in a variety of learning settings. Department peer reviewers are education professionals and practitioners who have gained subject matter expertise through their education and work as teachers, professors, principals, administrators, school counselors, researchers, evaluators, content developers, or vocational rehabilitation professionals or interpreters. Peer reviewers can be active education professionals in any educational level or sector, or those who are retired but stay informed of current educational content and issues. No prior experience as a peer reviewer is required.

Peer reviewers for each competition will be selected based on several factors, including each reviewer's program-specific expertise, the number of applications to be reviewed, and the diversity and availability of prospective reviewers. Individuals selected to serve as peer reviewers are expected to participate in training; independently read, score, and provide written evaluative comments on assigned applications; and participate in facilitated panel discussions with other peer reviewers. Panel discussions are held via conference calls or in-person, as identified for the specific competition. The time commitment for peer reviewers is usually several hours a day over a period of two to four weeks. Peer reviewers receive an honorarium payment as monetary compensation for successfully reviewing applications.

If you are interested in serving as a peer reviewer for the Department, you should first review the program web pages of the grant programs that match your area of expertise. You can access information on each grant program from the link provided on the Department's grants forecast page at *www2.ed.gov/fund/grant/find/edlite-forecast.html.* If you have documented experience that you believe qualifies you to serve as a peer reviewer for one or more specific grant programs, please register in G6, at *www.g6.gov,* which allows the Department to manage and assign potential peer reviewers to competitions that may draw upon their professional backgrounds and expertise. A toolkit that includes helpful information on how to be considered as a peer reviewer for programs administered by the Department can be found at *www2.ed.gov/documents/peer-review/peer-reviewer-toolkit.pptx.* Additional information on becoming a peer reviewer is available at *www2.ed.gov/fund/grant/about/discretionary/peer-review-flyer-2024.pdf.* Neither the submission of a resume nor registration in G6 guarantees you will be selected to be a peer reviewer.

In addition to registering in G6, some OPE and OSERS/RSA peer reviews may require being registered in the System for Award Management. Since registration for this process can take longer than a week, interested individuals are encouraged to register in advance of being contacted by the Department. In addition to registering in G6, some OSERS/OSEP peer reviews require being approved to serve on the Office of Special Education's Standing Panel. Individuals should express their interest to serve as a peer reviewer for OSEP competitions directly to the competition manager listed in the notice inviting applications for that competition at least four weeks prior to the application closing date.

If you have interest in serving as a reviewer specifically for OESE competitions (Chart 2 of the Forecast of Funding Opportunities), you must also send your resume to *OESEPeerReviewRecruitment@ed.gov.*

If you have interest in serving as a reviewer specifically for the OELA competition (Chart 6 of the Forecast of Funding Opportunities), you must also send your resume to *NPD2024@ed.gov.* The subject line of the email should read ''Prospective 2024 Peer Reviewer.''

If you have interest in serving as a reviewer specifically for RSA competitions (Chart 4B of the Forecast of Funding Opportunities), you must also send your resume to *RSAPeerReview@ed.gov* and *osersprs@ed.gov.* The subject line of the email should read ''Prospective 2024 Peer Reviewer.'' In the body of the email, list all programs for which you would like to be considered to serve as a peer reviewer.

Requests to serve as a peer reviewer should be submitted at least four weeks prior to the program's application deadline, noted on the forecast page, to provide program offices with sufficient time to review resumes and determine an individual's suitability to serve as a peer reviewer for a specific competition. If you are selected to serve as a peer reviewer, the program office will contact you.

Accessible Format: On request to the person(s) listed under **FOR FURTHER INFORMATION CONTACT**, individuals with disabilities can obtain this document and a copy of the application package in an accessible format. The Department will provide the requestor with an accessible format that may include Rich Text Format (RTF) or text format (txt), a thumb drive, an MP3 file, braille, large print, audiotape, or compact disc, or other accessible format.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. You may access the official edition of the **Federal Register** and the Code of Federal Regulations at *www.govinfo.gov.* At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at *www.federalregister.gov.* Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Program Authority: Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6301 *et seq.*); Higher Education Act of 1965, as amended (20 U.S.C. 1001 *et seq.*); Individuals with Disabilities Education Act (20 U.S.C. 1400 *et seq.*); and the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (29 U.S.C. 701 *et seq.*).

Roberto J. Rodriguez,

Assistant Secretary for Planning, Evaluation and Policy Development.

DEPARTMENT OF EDUCATION

[Docket No.: ED–2024–SCC–0025]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Student Assistance General Provision Subpart I Immigration Status Confirmation

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before May 20, 2024.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link *www.reginfo.gov/public/do/PRAMain* to access the site. Find this information collection request (ICR) by selecting ''Department of Education'' under ''Currently Under Review,'' then check the ''Only Show ICR for Public Comment'' checkbox. *Reginfo.gov* provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the ''View Information Collection (IC) List'' link. Supporting statements and other supporting documentation may be found by clicking on the ''View Supporting Statement and Other Documents'' link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Beth Grebeldinger, 202–377–4018.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Student Assistance General Provision Subpart I Immigration Status Confirmation.

OMB Control Number: 1845–0052.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: Private sector; State, local, and Tribal governments; individuals and households.

Total Estimated Number of Annual Responses: 118,360.

Total Estimated Number of Annual Burden Hours: 14,794.

Abstract: This request is for approval of an extension of the reporting requirements currently in the Student Assistance General Provisions, 34 CFR 668, subpart I. This subpart governs the Immigration-Status Confirmation, as authorized by section 484(g) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1091). The regulations may be reviewed at 34 CFR 668, subpart I. The regulations are necessary to determine eligibility to receive program benefits and to prevent fraud and abuse of program funds. This collection updates the usage by individuals and schools. While the regulations refer to a secondary confirmation process and completion of the paper G–845 form these processes are no longer in use. The Department of Homeland Security/U.S. Citizen and Immigration Services (DHS/USCIS) replaced the paper secondary confirmation method with a fully electronic process, Systematic Alien Verification for Entitlements (SAVE) system and the use of the Third Step Verification Process.

Dated: April 16, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Notice of Request for Information (RFI) on Critical Materials Market Dynamics

AGENCY: Office of Manufacturing and Energy Supply Chains, Department of Energy.

ACTION: Request for information.

SUMMARY: The Department of Energy (DOE or the Department)'s Office of Manufacturing and Energy Supply Chains seeks public comment on market dynamics for critical materials, including non-competitive practices and

price volatility, to identify potential ways DOE can help address these concerns.

DATES: Responses to the RFI are requested by May 20, 2024.

ADDRESSES: Interested parties may submit comments electronically to *MESCanalysis@hq.doe.gov* and include ''Critical Materials Market Dynamics RFI'' in the subject line of the email.

FOR FURTHER INFORMATION CONTACT: Further questions may be addressed to Charles Yang, *MESCanalysis@hq.doe.gov* or (202) 586–6116.

SUPPLEMENTARY INFORMATION:

I. Background

This is an RFI issued by the U.S. Department of Energy's (DOE) Office of Manufacturing and Energy Supply Chains (MESC). This RFI seeks public input on market dynamics and price volatility in critical materials processing, refining, and recycling. This RFI will inform DOE's development of critical materials strategies and measures to more effectively mitigate market volatility as critical materials processing, refining, and recycling are scaled up in the United States and allied countries.

MESC seeks input from all types of critical material market participants:

- Companies that process, refine, or recycle critical materials;
- Groups that supply feedstock for such processors or recyclers (*e.g.,* miners, scrap collectors);
- Offtakers of critical materials (*e.g.,* automobile manufacturers, battery manufacturers, other clean energy manufacturers, utilities, heavy industries);
- Investors in critical material projects (*e.g.,* project finance investors, banks, commodity traders, brokers, private equity);
- Not-for-profit organizations (*e.g.,* entities capable of operating demand-side support mechanisms to scale up critical material processing, refining, and recycling);
- State, local, and tribal government entities; and
- Other interested entities (*e.g.,* trade associations, market-clearing organizations).

II. Purpose

On July 31, 2023, DOE released its Critical Material Assessment,[1] which identified critical materials in the near and medium term that will face supply-demand imbalances. This assessment also informed the DOE's Critical Material List.[2]

MESC is committed to securing the energy supply chains needed to support a clean and stable energy transition, which will be fueled by critical materials. This RFI will help inform the development of the U.S. Department of Energy's and its Office of Manufacturing Energy Supply Chain's strategy towards securing critical materials for the energy sector industrial base.

The purpose of this RFI is to solicit feedback on market dynamics in the critical material supply chain and how the Federal Government can play a role in supporting market stability and price transparency. DOE is specifically interested in information on:

- Market dynamics for critical material producers and implications of those market dynamics for securing a secure and resilient critical material supply chain; and
- What kind of Federal Government support or coordination would be essential to scaling up domestic critical material processing, refining, and recycling, particularly to mitigate market volatility.

You may answer as few or as many of the questions below as you would like. Please use the question number in your response to help reviewers. Please also provide detailed responses.

III. Questions

1. For a given critical material, are there particular market dynamics DOE should be aware of?

a. Are there specific critical materials that have experienced significant market volatility and price instability?

b. For a given critical material, are there differences in cost of production domestically versus cost of production in other countries? How are those differences in cost of production reflected in prices?

c. What, if any, impact has market volatility and price instability had on various market participants?

d. For those critical materials that have experienced significant market volatility and price instability, what are the underlying causes?

e. Are there particular critical materials where processing, refining, or recycling projects struggle to attract investment specifically because of demand-side uncertainty and/or lack of firm offtake (vs., *e.g.,* concerns about competitiveness on price or lengthy qualification processes)?

f. How do these market dynamics implicate the ability of domestic critical material producers to sign offtake agreements with end users? How does this impact DOE investments in the critical material industry and the path to securing a resilient supply chain?

2. What measures can DOE take to promote market stability within a given critical material market?

a. How can DOE facilitate market adoption and maturity as a stakeholder (*e.g.,* facilitating market information sharing, encouraging price transparency, supporting consortiums)?

b. How can DOE support critical material projects beyond capital grants and loans? Are there particular programs or policy mechanisms DOE should leverage with existing statutory authority to support critical material projects and successful project offtake? Are there particular aspects of the supply chain that DOE should focus on?

c. In operations without co-located vertical integration across extraction (or production) and processing, what specific federal support would be most useful to provide operational stability?

3. What indicators of market volatility demonstrate the need for support? What are effective measures or guiding principles DOE or the Federal Government could take to support critical materials?

a. What are important considerations in exploring reverse auctions, advanced market commitments, contracts for difference, direct procurement, pooled offtake vehicles, or other support measures?

b. What are implementation approaches for DOE to facilitate demand-side support for critical materials through existing grant and loan authorities and/or public-private partnerships?

4. What are the benefits and drawbacks of physical offtake of critical material products for stockpiling compared to other measures that do not involve physical offtake? What existing mechanisms could be used and what concerns should be considered in terms of implementation?

5. How would setting up alternative market exchanges or indices with international partners for critical materials enable price transparency, market stability, and/or reduce emissions from critical material production?

a. What premium would firms be willing to pay for validated attributes such as ESG standards and supply chains sourced from domestic/allied

[1] *https://www.energy.gov/sites/default/files/2023-07/doe-critical-material-assessment_07312023.pdf.*

[2] The following materials are on the DOE critical material list: aluminum, cobalt, copper, dysprosium, electrical steel, fluorine, gallium, iridium, lithium, magnesium, natural graphite, neodymium, nickel, platinum, praseodymium, silicon, silicon carbide and terbium. *https://www.energy.gov/cmm/what-are-critical-materials-and-critical-minerals.*

countries? How could DOE or the Federal Government support greater demand for higher standard materials?

b. How might environmental, social, and governance (ESG) standards or critical material grades specific to energy applications be incorporated into an exchange and what are the conditions needed for successful implementation?

6. What other tools outside of market exchanges could support price transparency, market stability, and/or reduce emissions from critical material production?

a. What actions could the United States take in collaboration with its international partners to enhance price transparency and stability?

b. Which country partners would be ideal collaborators?

c. Are there established international fora that are better suited to have an impact on these challenges? (*i.e.,* International Energy Agency, G7, OECD, etc.)

IV. Response Guidelines

Commenters are welcome to comment on any question. RFI responses shall include:

1. RFI title;

2. Name(s), phone number(s), and email address(es) for the principal point(s) of contact;

3. Institution or organization affiliation and postal address; and

4. Clear indication of the specific question(s) to which you are responding.

Responses to this RFI must be submitted electronically to *MESCanalysis@hq.doe.gov* with the subject line ''Critical Materials Market Dynamics RFI'' no later than 5:00 p.m. (ET) on May 20, 2024. Responses must be provided as attachments to an email. It is recommended that attachments with file sizes exceeding 25 MB be compressed (*i.e.,* zipped) to ensure message delivery. Responses must be provided as a Microsoft Word (*.docx) or Adobe Acrobat (*.pdf) attachment to the email, and no more than 10 pages in length, 12-point font, 1-inch margins. Only electronic responses will be accepted.

A response to this RFI will not be viewed as a binding commitment to develop or pursue the project or ideas discussed. MESC may engage in pre- and post-response conversations with interested parties.

Confidential Business Information

Because information received in response to this RFI may be used to structure future programs and/or otherwise be made available to the public, respondents are strongly advised NOT to include any information in their responses that might be considered business sensitive, proprietary, or otherwise confidential.

Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: one copy of the document marked ''confidential'' including all the information believed to be confidential, and one copy of the document marked ''non-confidential'' with the information believed to be confidential deleted. Failure to comply with these marking requirements may result in the disclosure of the unmarked information under the Freedom of Information Act or otherwise. The U.S. Government is not liable for the disclosure or use of unmarked information and may use or disclose such information for any purpose. If your response contains confidential, proprietary, or privileged information, you must include a cover sheet marked as follows identifying the specific pages containing confidential, proprietary, or privileged information:

Notice of Restriction on Disclosure and Use of Data:

Pages [list applicable pages] of this response may contain confidential, proprietary, or privileged information that is exempt from public disclosure. Such information shall be used or disclosed only for the purposes described in this RFI. The Government may use or disclose any information that is not appropriately marked or otherwise restricted, regardless of source.

In addition, (1) the header and footer of every page that contains confidential, proprietary, or privileged information must be marked as follows: ''Contains, Confidential, Proprietary, or Privileged Information Exempt from Public Disclosure'' and (2) every line and paragraph containing proprietary, privileged, or trade secret information must be clearly marked with [[double brackets]] or highlighting. Submissions containing CBI should be sent to: *MESCanalysis@hq.doe.gov.*

Signing Authority

This document of the Department of Energy was signed on April 12, 2024, by Giulia Siccardo, Director, Office of Manufacturing and Energy Supply Chains, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 16, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

[FR Doc. 2024–08391 Filed 4–18–24; 8:45 am]

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

President's Council of Advisors on Science and Technology (PCAST)

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of an open virtual meeting.

SUMMARY: This notice announces an open virtual meeting of the President's Council of Advisors on Science and Technology (PCAST). The Federal Advisory Committee Act (FACA) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Tuesday, April 23, 2024; 11:00 a.m. to 12:15 p.m. EST.

ADDRESSES: Information for viewing the livestream of the meeting can be found on the PCAST website closer to the meeting at: *www.whitehouse.gov/PCAST/meetings.*

FOR FURTHER INFORMATION CONTACT: Dr. Melissa A. Edwards, Designated Federal Officer, PCAST, email: *PCAST@ostp.eop.gov;* telephone: 202–881–9018.

SUPPLEMENTARY INFORMATION: PCAST is an advisory group of the nation's leading scientists and engineers, appointed by the President to augment the science and technology advice available to him from the White House, cabinet departments, and other Federal agencies. See the Executive Order at *whitehouse.gov.* PCAST is consulted on and provides analyses and recommendations concerning a wide range of issues where understanding of science, technology, and innovation may bear on the policy choices before the President. The Designated Federal Officer is Dr. Melissa A. Edwards. Information about PCAST can be found at: *www.whitehouse.gov/PCAST.*

Tentative Agenda

PCAST will discuss and consider for approval a report on Supercharging Science: Harnessing AI to Achieve Unprecedented Discoveries and Understandings in fulfillment of the charge to PCAST in the Executive Order on the Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence (E.O. 141110). Additional information and the meeting agenda, including any changes that arise, will be posted on the PCAST website at: *www.whitehouse.gov/PCAST/meetings.*

Public Participation: The open meeting is open to the public. The meeting will be held virtually for members of the public. It is the policy of the PCAST to accept written public comments no longer than 10 pages and to accommodate oral public comments whenever possible. The PCAST expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements.

The public comment period for this meeting will take place on April 23, 2024, at times specified in the meeting agenda. This public comment period is designed only for substantive commentary on PCAST's work, not for business marketing purposes.

This notice is being published less than 15 days prior to the meeting due to scheduling difficulties and members' availability.

Oral Comments: To be considered for the public speaker list at the meeting, interested parties should register to speak at *PCAST@ostp.eop.gov,* no later than 12:00 p.m. Eastern Time on April 19, 2024. To accommodate as many speakers as possible, the time for public comments will be limited to two (2) minutes per person, with a total public comment period of up to 10 minutes. If more speakers register than there is space available on the agenda, PCAST will select speakers on a first-come, first-served basis from those who registered. Those not able to present oral comments may file written comments with the council.

Written Comments: Although written comments are accepted continuously, written comments should be submitted to *PCAST@ostp.eop.gov* no later than 12:00 p.m. Eastern Time on April 19, 2024, so that the comments can be made available to the PCAST members for their consideration prior to this meeting.

PCAST operates under the provisions of FACA, all public comments and/or presentations will be treated as public documents and will be made available for public inspection, including being posted on the PCAST website at: *www.whitehouse.gov/PCAST/meetings.*

Minutes: Minutes will be available within 45 days at: *www.whitehouse.gov/PCAST/meetings.*

Signing Authority: This document of the Department of Energy was signed on April 16, 2024, by David Borak, Deputy Committee Management Officer, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 16, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

[FR Doc. 2024–08415 Filed 4–18–24; 8:45 am]

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[Docket No. 24–27–LNG]

Sabine Pass Liquefaction, LLC and Sabine Pass Liquefaction Stage V, LLC; Application for Long-Term Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed by Sabine Pass Liquefaction, LLC and Sabine Pass Liquefaction Stage V, LLC (collectively, Sabine Pass Stage 5 or Sabine Pass) on March 1, 2024, and supplemented on March 21, 2024. Sabine Pass Stage 5 requests long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 899.46 billion cubic feet (Bcf) per year (Bcf/yr) of natural gas from the proposed Sabine Pass Stage 5 Expansion Project (Trains 7–8) (Stage 5 Project) to be added to the existing Sabine Pass LNG Terminal (SPLNG Terminal) located in Cameron Parish, Louisiana. Sabine Pass Stage 5 filed the Application under the Natural Gas Act (NGA).

DATES: Protests, motions to intervene, or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed as detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, June 18, 2024.

ADDRESSES: *Electronic Filing by email (Strongly encouraged): fergas@hq.doe.gov.* Postal Mail, Hand Delivery, or Private Delivery Services (*e.g.,* FedEx, UPS, etc.): U.S. Department of Energy (FE–34), Office of Regulation, Analysis, and Engagement, Office of Fossil Energy and Carbon Management, Forrestal Building, Room 3E–056, 1000 Independence Avenue SW, Washington, DC 20585.

Due to potential delays in DOE's receipt and processing of mail sent through the U.S. Postal Service, we encourage respondents to submit filings electronically to ensure timely receipt.

FOR FURTHER INFORMATION CONTACT:

Jennifer Wade or Peri Ulrey, U.S. Department of Energy (FE–34), Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability, Office of Fossil Energy and Carbon Management, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–4749 or (202) 586–7893, *jennifer.wade@hq.doe.gov* or *peri.ulrey@hq.doe.gov*

Cassandra Bernstein, U.S. Department of Energy (GC–76), Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D–033, 1000 Independence Avenue SW, Washington, DC 20585, (240) 780–1691, *cassandra.bernstein@hq.doe.gov*

SUPPLEMENTARY INFORMATION: Sabine Pass Stage 5 states that the proposed Stage 5 Project will include two new natural gas liquefaction trains (Trains 7 and 8), a boil-off gas re-liquefaction unit, two full-containment LNG storage tanks and supporting infrastructure, which will be constructed on land controlled under long-term lease by Sabine Pass, adjacent to and interconnected and operated, on an integrated basis, with the existing SPLNG Terminal.[1] Sabine Pass Stage 5 seeks to export LNG by ocean-going

[1] Sabine Pass Stage 5 states that they have previously received DOE authorizations for LNG exports from six liquefaction trains at the SPLNG Terminal that are already fully operational.

carrier from the proposed Stage 5 Project in a volume equivalent to approximately 899.46 Bcf/yr of natural gas (approximately 2.46 Bcf per day) on a non-additive basis to: (i) any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries), and (ii) any other country with which trade is not prohibited by U.S. law or policy (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA.[2] DOE will review the Applicants' request for an export authorization to FTA countries separately pursuant to NGA section 3(c).[3]

Sabine Pass Stage 5 seeks this authorization on its own behalf and as agent for other parties that may hold title to the LNG at the time of export. Sabine Pass Stage 5 requests the authorization for a term commencing on the earlier of the date of first export or seven (7) years from the date of issuance of the requested authorization and extending through the later of (1) December 31, 2050, or (2) a 20-year term.

Additional details can be found in the Application and supplement, posted on the DOE website at: *https://www.energy.gov/fecm/articles/sabine-pass-liquefaction-llc-and-sabine-pass-liquefaction-stage-v-llc-fecm-docket-no.*

DOE Evaluation

In reviewing Sabine Pass Stage 5's Application, DOE will consider any issues required by law or policy under NGA section 3(a), DOE's regulations, and any other documents deemed appropriate. Parties that may oppose the Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application. The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.,* requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding before DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, a motion to intervene or notice of intervention, or request for additional procedures, as applicable. Interested parties will be provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to this proceeding evaluating the Application must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to this proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, notices of intervention, or request for additional procedures must meet the requirements specified by the regulations in 10 CFR part 590, including the service requirements.

Filings may be submitted using one of the following methods:

(1) Submitting the filing electronically at *fergas@hq.doe.gov;*

(2) Mailing the filing to the Office of Regulation, Analysis, and Engagement at the address listed in the **ADDRESSES** section; or

(3) Hand delivering the filing to the Office of Regulation, Analysis, and Engagement at the address listed in the **ADDRESSES** section.

For administrative efficiency, DOE prefers filings to be filed electronically. All filings must include a reference to ''Docket No. 24–27–LNG'' or ''Sabine Pass Stage V Application'' in the title line.

For electronic submissions: Please include all related documents and attachments (*e.g.,* exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner.

The Notice, and any filed protests, motions to intervene, notices of intervention, and comments will be available electronically on the DOE website at *www.energy.gov/fecm/regulation.*

A decisional record on the Application will be developed through responses to this Notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this Notice, in accordance with 10 CFR 590.316.

Signed in Washington, DC, on April 15, 2024.

Amy Sweeney,

Director, Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability.

DEPARTMENT OF ENERGY

National Nuclear Security Administration

Record of Decision for the Final Environmental Impact Statement for the Surplus Plutonium Disposition Program

AGENCY: National Nuclear Security Administration, Department of Energy.

ACTION: Record of decision.

SUMMARY: The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the U.S. Department of Energy (DOE), is issuing this Record of Decision (ROD) for the Final Environmental Impact Statement (EIS) for the Surplus Plutonium Disposition Program (SPDP) (SPDP EIS) (DOE/EIS–0549). In this ROD, NNSA announces its decision to use the dilute and dispose strategy, rather than the Mixed Oxide Fuel (MOX) Program, to permanently dispose of 34 metric tons (MT) of plutonium surplus to the defense needs of the Nation (surplus defense-related plutonium). NNSA will implement the Base Approach Sub-alternative of the Preferred Alternative as described and analyzed in the SPDP EIS.

FOR FURTHER INFORMATION CONTACT: For further information on this ROD or the SPDP EIS, contact: Ms. Maxcine Maxted, National Environmental Policy Act (NEPA) Document Manager, National Nuclear Security Administration, Office of Material Management and Minimization, P.O. Box A, Bldg. 730–2B, Rm. 328, Aiken, SC 29802; via email at *SPDP-EIS@nnsa.doe.gov;* or by phone at (803) 952–7434. This ROD, the SPDP EIS, and related NEPA documents are available at *www.energy.gov/nnsa/nnsa-nepa-reading-room.*

SUPPLEMENTARY INFORMATION: DOE is currently employing the dilute and dispose strategy to dispose of up to 13.1 MT of surplus plutonium. Recently, NNSA announced a replanning effort to revisit the initiation of the Pit

Disassembly and Processing (PDP) Project, a part of the SPDP, by approximately 10 years. Increased capacity for producing plutonium oxide, which NNSA evaluated as part of the Preferred Alternative in the SPDP EIS, will therefore be delayed. This decision will extend the timeline for the full 34 MT disposition mission. NNSA will continue to dismantle surplus pits and produce plutonium oxide at the Los Alamos National Laboratory (LANL) and remains fully committed to dispositioning 34 MT of surplus plutonium. The Surplus Plutonium Disposition line-item project execution at the Savannah River Site (SRS) will continue as described in the SPDP EIS, and NNSA will continue to dilute surplus plutonium and ship contact-handled transuranic waste to the Waste Isolation Pilot Plant (WIPP) for permanent disposal. This decision will allow NNSA to continue to remove surplus plutonium from South Carolina in alignment with the DOE-South Carolina Settlement Agreement.

Background

NNSA prepared the SPDP EIS pursuant to NEPA (title 42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality's NEPA regulations (40 CFR parts 1500–1508), and the DOE NEPA implementing procedures (10 CFR part 1021). NNSA's previous NEPA reviews and decisions regarding the disposition of surplus plutonium are summarized in Section 1.1 of the SPDP EIS. The following paragraphs describe recent developments relevant to the scope of the SPDP EIS.

In 2015, NNSA completed the Surplus Plutonium Disposition Supplemental Environmental Impact Statement (SPD Supplemental EIS) (DOE/EIS–0283–S2). In the SPD Supplemental EIS, NNSA evaluated the environmental impacts of alternatives for dispositioning 13.1 MT of surplus plutonium (7.1 MT of pit plutonium and 6 MT of non-pit plutonium) for which a disposition path had not been assigned. The alternatives evaluated in the 2015 SPD Supplemental EIS included the MOX Fuel Alternative, the WIPP Alternative (the WIPP Alternative is equivalent to the dilute and dispose strategy, as used in the SPDP EIS), and two variations of waste immobilization. In addition, NNSA evaluated four options for pit disassembly and conversion (pit disassembly and conversion is equivalent to pit disassembly and processing as used in the SPDP EIS) using facilities at SRS and LANL. In a 2016 ROD, NNSA announced a decision to disposition the 6 MT of non-pit surplus plutonium by downblending it with an adulterant (downblending is a process equivalent to dilution in the dilute and dispose strategy as used in the SPDP EIS), packaging it as defense-related contact-handled transuranic (CH–TRU) waste, and shipping it to the WIPP facility for disposal (81 FR 19588). In this 2016 ROD, NNSA also decided to increase available downblend capability by continuing construction and initiating operation of the SPD Project at SRS. NNSA did not make a decision about the disposition of the 7.1 MT of pit plutonium or about the various options for pit disassembly and conversion that were analyzed in the 2015 SPD Supplemental EIS.

In May 2018, the Secretary of Energy halted the MOX Program by waiving the requirement to use funds for construction and support activities for the Mixed Oxide Fuel Fabrication Facility in accordance with the National Defense Authorization Act. In a letter dated May 10, 2018 to Congress, the Secretary of Energy certified that ''the remaining lifecycle cost for the dilute and dispose strategy will be less than approximately half of the estimated remaining lifecycle cost of the MOX Program.'' NNSA prepared this SPDP EIS to evaluate alternatives for disposition of the 34 MT of surplus plutonium previously designated for disposition using the MOX Program (Amended ROD 68 FR 20134, April 24, 2003) that no longer has a disposition path because the MOX Program has been cancelled.

In 2020, NNSA prepared a Supplement Analysis (SA) based on the analysis presented in the 2015 SPD Supplemental EIS. NNSA determined that disposition of 7.1 MT of non-pit surplus plutonium was not a substantial change in the action analyzed in the 2015 SPD Supplemental EIS to disposition 7.1 MT of pit plutonium via the WIPP Alternative, and that the environmental impacts had been sufficiently analyzed. NNSA subsequently issued an Amended ROD stating its decision to prepare an additional 7.1 MT of non-pit surplus plutonium for disposal as defense-related CH–TRU waste at the WIPP facility (85 FR 53350, August 28, 2020). In the same 2020 Amended ROD, NNSA also decided that non-pit metal processing (NPMP) may be performed at either LANL or SRS.

The 7.1 MT of non-pit surplus plutonium referred to in the 2020 Amended ROD is part of the 34 MT of surplus plutonium that NNSA had decided (Amended ROD 68 FR 20134, April 24, 2003) to disposition by fabricating it into MOX fuel for use in commercial reactors (*i.e.,* the MOX Program). The disposition of that 34 MT is the subject of the SPDP EIS.

Alternatives Considered

In the SPDP EIS, NNSA analyzed the impact of two alternatives: the Preferred Alternative, consisting of four sub-alternatives, and the No Action Alternative. Both alternatives use the dilute and dispose strategy and both include up to 7.1 MT of non-pit surplus plutonium that NNSA previously decided to dispose of (85 FR 53350) using the dilute and dispose strategy. NNSA's Preferred Alternative is to use the dilute and dispose strategy for 34 MT of surplus plutonium comprised of both pit and non-pit plutonium. The No Action Alternative is continued management of the 34 MT of both pit and non-pit plutonium, including the disposition of up to 7.1 MT of non-pit plutonium using the dilute and dispose strategy based on the previous NNSA decision (85 FR 53350). The Preferred Alternative is the only alternative that meets NNSA's purpose and need to take action.

Preferred Alternative: NNSA's Preferred Alternative is to use the dilute and dispose strategy for disposal of 34 MT of surplus plutonium comprised of both pit and non-pit surplus plutonium. The exact amounts of pit and non-pit forms of plutonium that compose the 34 MT are classified. To bound the impacts, in the SPDP EIS NNSA evaluated the impacts of dispositioning 34 MT of surplus plutonium in pit form and the impacts of dispositioning 7.1 MT of non-pit surplus plutonium. However, the SPDP Program would disposition only up to 34 MT of surplus plutonium total, not 34 MT plus 7.1 MT. The activities that are part of the Preferred Alternative would occur at five DOE sites: the Pantex Plant (Pantex) in Texas, LANL in New Mexico, SRS in South Carolina, the Y–12 National Security Complex (Y–12) in Tennessee, and the WIPP facility in New Mexico. NNSA describes the steps and technologies involved in the Preferred Alternative in detail in Section 2.1 of the SPDP EIS. NNSA developed and evaluated the impacts of four sub-alternatives for the Preferred Alternative based on the location of processing activities.

The Base Approach Sub-Alternative involves shipping 34 MT of pit plutonium from Pantex to LANL and disassembling and processing (PDP) the 34 MT of pit plutonium to oxide, with subsequent shipment of the decontaminated and oxidized highly enriched uranium (HEU) to Y–12. The Base Approach Sub-Alternative also includes processing 7.1 MT of non-pit

surplus plutonium using the same capability provided by PDP at LANL. This sub-alternative relies on expanding existing capabilities at LANL in the Plutonium Facility (PF–4) and modifying or building additional support facilities for PDP and NPMP. This expansion would allow NNSA to accelerate the dilute and dispose strategy compared to relying solely on existing facilities at LANL. The resulting plutonium oxide from the surplus pit and non-pit plutonium would be shipped to K-Area at SRS, where it would be blended with an adulterant and characterized and packaged (C&P) as CH–TRU waste for shipment to and disposal at the WIPP facility.

The SRS NPMP Sub-Alternative is similar to the Base Approach Sub-Alternative: NNSA would ship 34 MT of pit plutonium from Pantex to LANL where PDP would take place in PF–4. In the SRS NPMP Sub-Alternative, NNSA would ship the decontaminated and oxidized HEU to Y–12. PDP would be followed by shipment of the resulting plutonium oxide to SRS (K-Area). Unlike the Base Approach Sub-Alternative, NPMP would not take place at LANL. Instead of processing 7.1 MT of non-pit surplus plutonium would occur at SRS's K-Area either in Building 105–K or in a modular system adjacent to the building. Similar to the Base Approach Sub-Alternative, the SRS NPMP Sub-Alternative plutonium oxide would be blended with an adulterant and characterized and packaged as CH–TRU waste for shipment to and disposal at the WIPP facility.

For the All LANL Sub-Alternative, NNSA would use only capabilities at LANL for the entire disposition pathway. Like the Base Approach Sub-Alternative, under the All LANL Sub-Alternative NNSA would ship 34 MT of pit plutonium from Pantex to LANL for PDP in PF–4 with subsequent shipment of the decontaminated and oxidized HEU to Y–12. In the All LANL Sub-Alternative, processing 7.1 MT of non-pit surplus plutonium would occur at LANL in PF–4. Unlike the Base Approach Sub-Alternative, the resulting plutonium oxide would remain at LANL for dilution and C&P before shipment to and disposal at the WIPP facility as CH–TRU waste.

For the All SRS Sub-Alternative, NNSA would use only capabilities at SRS. NNSA would ship 34 MT of pit plutonium from Pantex to SRS. PDP would take place in a new capability installed at SRS in either K-Area or F-Area. NNSA would ship the decontaminated and oxidized HEU to Y–12. Processing 7.1 MT of non-pit surplus plutonium would use new capability provided by PDP. The resulting plutonium oxide would remain at SRS for dilution and C&P before shipment to and disposal at the WIPP facility as CH–TRU waste.

No Action Alternative: NNSA's No Action Alternative for dispositioning 34 MT of surplus plutonium is continued management of 34 MT of surplus plutonium. This includes (1) continued storage of pits at Pantex, (2) the continued plutonium mission at LANL to process up to 400 kg of actinides (including surplus plutonium) a year as announced in NNSA's 2008 LANL SWEIS ROD (73 FR 55833), and (3) disposition of up to 7.1 MT of non-pit surplus plutonium for which the disposition decision, using the dilute and dispose strategy, was announced in NNSA's 2020 Amended ROD (85 FR 53350). NNSA describes the steps and technologies involved in the No Action Alternative in detail in Section 2.1.2 of the SPDP EIS.

NPMP of up to 7.1 MT could be performed in the existing furnaces installed in gloveboxes at LANL's PF–4 or in a NPMP capability that would be built at Building 105–K in K-Area at SRS. If NPMP occurs at LANL, the resulting plutonium oxide would be shipped to SRS for dilution and C&P and subsequently shipped from K-Area to the WIPP facility for disposal as CH–TRU waste.

Environmentally Preferrable Alternative

The No Action Alternative, using only existing facilities at LANL and SRS, would require no new land disturbance or construction. In addition, the lesser quantity of plutonium that would be processed would result in fewer emissions and a smaller volume of CH–TRU waste for disposal at the WIPP facility. The No Action Alternative is therefore the environmental preferable alternative. However, the No Action Alternative does not meet NNSA's mission need.

Potential Environmental Impacts of Preferred Alternative

NNSA estimated the potential environmental impacts of the Preferred Alternative, the Sub-Alternatives, and the No Action Alternative on air quality, visual resources, human health, socioeconomics, waste management, transportation, environmental justice, land resources, geology and soils, water resources, noise, ecological resources, cultural resources, infrastructure, and the global commons. NNSA also evaluated the potential impacts of the irreversible and irretrievable commitment of resources, the short-term uses of the environment, and the maintenance and enhancement of long-term productivity. These analyses and results for the 34 MT of surplus plutonium are described in the Summary and Section 4 of the Final SPDP EIS. Table S–10 of the Final SPDP EIS Summary provides a summary of potential environmental impacts associated with each alternative as well as a means for comparing the potential impacts among alternatives and sub-Alternatives. A full discussion of the impacts for all resources is found in Section 4.0 of Volume 1. Appendix C in Volume 2 contains the detailed potential environmental impacts broken out by activity and site (LANL and SRS), as well as impacts across the sites under each of the alternatives and sub-alternatives. NNSA determined that the impacts of the Preferred Alternative at both LANL and SRS are minor to negligible for land use and visual resources, air quality, noise, geology and soils, water resources, human health (chemical use), and waste management. NNSA finds that impacts at both sites from radiological releases during normal operations and impacts on other resources are small and within the bounds of existing regulations.

DOE has authorized WIPP to use fiscal year (FY) 2050 as a planning assumption for a closure date for project management plans related to capital asset projects and other strategic planning initiatives. Therefore, for the purpose of estimating impacts, NNSA chose fiscal year (FY) 2050 as the date for completion of the 34 MT mission described in the SPDP EIS. NNSA estimated operational durations based on process throughputs that would result in mission completion in FY 2050. Because NNSA has decided to revisit the timing for initiation of the PDP, the 34 MT mission will not be completed by 2050. As a result, the annual impacts NNSA estimated in the SPDP EIS are greater than the impacts that will result from implementation of the Preferred Alternative without the PDP Project. The impact analysis of the Preferred Alternative assumed the PDP Project would be operational in approximately 2030. In addition, construction impacts, except for those associated with the SPD Project at SRS, will not occur until the PDP Project is initiated.

Public Involvement

On December 16, 2020, NNSA published a Notice of Intent (NOI) to prepare this SPDP EIS in the **Federal Register** (85 FR 81460) announcing a 45-day public scoping period ending February 1, 2021. NNSA extended the

scoping period to February 18, 2021. The NOI also provided information regarding NNSA's overall NEPA strategy related to fulfilling the purpose and need to disposition 34 MT of surplus plutonium. Considering the public health concerns at the time, NNSA held virtual public scoping meetings on January 25 and 26, 2021, to discuss the SPDP EIS and to receive comments on the potential scope of the SPDP EIS. In addition to the scoping meetings, NNSA encouraged members of the public to provide comments via U.S. postal mail, email, or telephone. NNSA received 279 comment documents related to the project scope during the public scoping process. NNSA considered all comments received during the public scoping process including some received after the close of the comment period, when preparing the Draft SPDP EIS. A summary of the comments, including an indication of how NNSA addressed the comments, was published in the Draft SPDP EIS.

In accordance with NEPA regulations, the Draft SPDP EIS was provided to the public for comment on December 16, 2022, with publication of a Notice of Availability (NOA) in the **Federal Register** (87 FR 77096). Publication of the U.S. Environmental Protection Agency's NOA (87 FR 77106) on the same day started a 60-day public comment period that originally ran through February 14, 2023, and was extended 30 days until March 16, 2023, resulting from requests from the public. The Environmental Protection Agency announced the comment period extension in a February 10, 2023, Notice in the **Federal Register**. NNSA held in-person public hearings at locations near SRS, the WIPP facility, and LANL on January 19, 24, and 26, 2023, respectively, and a virtual public hearing on January 30, 2023, to present preliminary findings and to provide the public, governmental entities including Native American Tribes, and other stakeholders the opportunity to comment on the Draft SPDP EIS.

The NOA encouraged members of the public to provide comments on the Draft EIS. NNSA considered all comments carefully and equally. After considering the comments, NNSA revised the Draft SPDP EIS. The primary changes found in the Final SPDP EIS that resulted from public comments include clarification related to (1) pit and non-pit terminology and descriptions, (2) facility throughputs, (3) various plutonium disposition pathways NNSA had determined, and (4) assumptions used in technical calculations and analyses. In addition, NNSA included background information on plutonium and americium-241 in the Final SPDP EIS and updated radiological health information to address potential impacts to surrounding communities. NNSA provided responses to comments in Volume 3 of the Final SPDP EIS. Volume 3 includes a detailed description of the public comment process and copies of correspondence received on the Draft SPDP EIS. In addition to changes made in the Final SPDP EIS in response to public comments, NNSA also made changes to update the environmental baseline information, update analyses based on more recent information, correct inaccuracies, and to clarify text.

NNSA invited 24 Native American groups with ties to the land on or in the vicinity of the SRS and LANL sites to participate in Government-to-Government consultations and offered briefings on the Draft SPDP EIS. The initial meeting was held on December 6, 2022. The Pueblo de San Ildefonso requested an additional consultation meeting to discuss the program and potential impacts from the SPDP. The meeting with the San Ildefonso Pueblo leadership and attorneys was held on January 31, 2023.

Comments on the Final Surplus Plutonium Disposition Program EIS

NNSA posted the Final SPDP EIS on the NNSA NEPA Reading Room website (*www.energy.gov/nnsa/nnsa-nepareading-room*) and EPA published a NOA in the **Federal Register** (89 FR 3653, January 19, 2024). NNSA also published a NOA of the Final SPDP EIS in the **Federal Register** on January 19, 2024 (89 FR 3642). In response to these Notices, NNSA received three comment documents related to the Final SPDP EIS. NNSA considered each of the comments contained in these documents during the preparation of this ROD.

Decision

NNSA has decided to implement the Preferred Alternative, Base Approach Sub-alternative, to continue the 34 MT surplus plutonium disposition mission. This decision changes the program of record for surplus plutonium disposition from the MOX Program to the dilute and dispose strategy. NNSA will continue to dismantle surplus pits and produce plutonium oxide in the Advanced Recovery and Integrated Extraction System (ARIES) facility at LANL. Because the MOX Program has been terminated, NNSA has decided to use existing and future inventories of plutonium oxide from the ARIES facility as feedstock for the dilute and dispose strategy. NNSA does not plan to expand the ARIES footprint at this time.

Using the dilute and dispose strategy, NNSA will disassemble pits, convert pit and non-pit plutonium metal to oxide, and blend surplus plutonium in oxide form with an adulterant. The blended material will be compressed into a steel container (called the robust outer container (ROC)) for radiation control, then the ROC will be enclosed in a further container for contamination control. These ROC containers are then placed in overpacks and disposed of as defense-related CH–TRU waste underground at the WIPP facility.

This decision will require the use of existing facilities at Pantex, LANL, SRS, Y–12, and WIPP, and completion and operation of the SPD Project at SRS. Implementation will involve (1) continued transfer of surplus pits from Pantex to LANL, (2) continued operation of the existing ARIES process at LANL to oxidize pit and non-pit plutonium, until a decision on the PDP Project is made, (3) transfer of plutonium oxide from LANL to SRS, (4) continued operation of existing dilution capability and operation of the Surplus Plutonium Disposition Project at SRS to dilute plutonium oxide, transferred from LANL or currently stored at SRS, with an adulterant, (5) characterization and packaging of defense-related CH–TRU waste and transfer to WIPP, and (6) disposal in the WIPP underground.

Recently, NNSA announced a decision to replan the timeline for the Pit Disassembly and Processing (PDP) Project, delaying initiation of the PDP for approximately 10 years. Increased capacity for producing plutonium oxide, which NNSA evaluated as part of the Preferred Alternative in the SPDP EIS, will therefore be available later than originally planned, extending the timeline for the full 34 MT disposition mission. NNSA will determine whether it needs to prepare any additional NEPA analysis and complete that review prior to initiating any new facility to increase plutonium oxidation capacity.

Basis for Decision

In 2003 (Amended ROD 68 FR 20134, Apr. 24, 2003), NNSA decided to use the MOX Program to disposition 34 MT of surplus plutonium. Construction on the Mixed Oxide Fuel Fabrication Facility (MFFF) at SRS began in 2008. In 2016, NNSA, partnering with the U.S. Army Corps of Engineers, developed an independent cost estimate for the MFFF project, and concluded that the cost of the project, upon completion of construction, would be approximately $17 billion, and construction would not be complete until 2048. Congress

directed NNSA to prepare a lifecycle cost estimate for disposal of surplus plutonium using the dilute and dispose strategy. The completed cost estimate indicated that the estimate-to-complete lifecycle cost of the dilute and dispose strategy would be substantially lower than the cost to complete the MOX Program. In response, the Secretary of Energy halted construction of the MFFF in May 2018 by waiving the requirement to use funds for MFFF construction as required by the *National Defense Authorization Act of 2018.* In a letter dated May 10, 2018, the Secretary of Energy certified ''that the remaining lifecycle cost for the dilute and dispose approach will be less than approximately half of the estimated remaining lifecycle cost of the MOX fuel program.'' In 2018, NNSA terminated construction of the MFFF. In 2019, the U.S. Nuclear Regulatory Commission (NRC) terminated the construction license for MFFF. With the end of the MOX project there was no longer a disposition path for the 34 MT of surplus plutonium that had been designated for disposition as MOX fuel.

The decision to use the dilute and dispose strategy for disposition of the 34 MT of surplus plutonium allows NNSA to make the maximum use of existing, proven technologies and operating facilities.

Construction of the SPD Project will continue consistent with DOE's 2016 decision (81 FR 19588). When it becomes operational, the project's three new gloveboxes for dilution will significantly increase throughput capacity. Other aspects of the SPD Program, including pit transfer from Pantex, ARIES operation at LANL, the capability to transfer plutonium oxide from LANL to SRS, dilution, assay, and shipment of resulting CH–TRU waste to WIPP for emplacement in the underground, are operational and require no upgrades or modifications to continue operations. This decision will result in continued progress toward the disposition of 34 MT of surplus plutonium while eliminating potential conflicts with ongoing construction projects and new missions within the nuclear security enterprise.

After analyzing options for expanding a PDP capability at SRS or LANL and considering the current high volume of major construction projects across the nuclear security enterprise, NNSA has decided to revisit the initiation of the PDP capital line-item project. This will result in initiation of the PDP project in the mid-2030s rather than the mid-2020s. NNSA may re-evaluate this decision as conditions change in the nuclear security enterprise. In the meantime, NNSA will continue to dismantle surplus pits and produce plutonium oxide at LANL and remains fully committed to dispositioning 34 MT of surplus plutonium.

The Surplus Plutonium Disposition line-item project execution at SRS will continue as planned and NNSA will continue to dilute and ship downblended plutonium as defense-related contact handled transuranic waste to the Waste Isolation Pilot Plant for permanent disposal. This decision will allow NNSA to focus on removal of material from South Carolina in alignment with the DOE-South Carolina Settlement Agreement.

Mitigation Measures

Operations at each facility involved in the SPD Program would result in airborne emissions of various pollutants, including radionuclides, and organic and inorganic constituents. These emissions would continue to be controlled using Best Available Control Technology to ensure that emissions are compliant with applicable standards. Impacts would be controlled by use of glovebox confinement, packaging as applicable, and confinement and air filtration systems to remove radioactive particulates before discharging process exhaust air to the atmosphere. Occupational safety risks to workers would be limited by adherence to Federal and state laws, Occupational Safety and Health Administration regulations, NNSA requirements including regulations and orders, and plans and procedures for performing work. NNSA facility operations adhere to programs to ensure the reduction of human health and safety impacts. Workers are protected from specific hazards by use of engineering and administrative controls, use of personal protective equipment, and monitoring and training. Implementation of DOE's required Radiological Protection Program limits impacts by ensuring that radiological exposures and doses to all personnel are maintained As Low As Reasonably Achievable and by providing job specific instructions to the facility workers regarding the use of personal protective equipment.

The Emergency Preparedness Program required for each site mitigates potential accident consequences by ensuring that appropriate organizations are available to respond to emergency situations and take appropriate actions to recover from accident events, while reducing the spread of contamination and protecting facility personnel and the public.

Signing Authority

This document of the Department of Energy was signed on April 3, 2024, by Jill Hruby, Under Secretary for Nuclear Security and Administrator, NNSA, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 16, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Western Area Power Administration

Boulder Canyon Project

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed fiscal year 2025 Boulder Canyon Project base charge and rates for electric service.

SUMMARY: The Desert Southwest region (DSW) of the Western Area Power Administration (WAPA) proposes an adjustment to the fiscal year (FY) 2025 base charge and rates for Boulder Canyon Project (BCP) electric service under Rate Schedule BCP–F11. The proposed FY 2025 base charge is unchanged from FY 2024 and will remain at $74.3 million. The proposed base charge and rates would go into effect on October 1, 2024, and remain in effect through September 30, 2025. Publication of this **Federal Register** notice will initiate the public process.

DATES: A consultation and comment period begins today and will end July 18, 2024. DSW will present a detailed explanation of the proposed FY 2025 base charge and rates at a public information forum on May 20, 2024, from 10 a.m. Mountain Standard Time to no later than 12 p.m. Mountain Standard Time. DSW will also host a public comment forum on June 18, 2024, from 10 a.m. Mountain Standard Time to no later than 12 p.m. Mountain

Standard Time, or until the last comment is received.

ADDRESSES: The public information and public comment forums will be held virtually and in person at WAPA's Desert Southwest Regional Office located at 615 South 43rd Avenue, Phoenix, Arizona 85009. Instructions for participating in the forums will be posted on DSW's website at least 14 days prior to the public information and comment forums at: *www.wapa.gov/about-wapa/regions/dsw/rates/boulder-canyon-project-rates.* DSW will accept written comments any time during the consultation and comment period.

As access to Federal facilities is controlled, any U.S. citizen wishing to attend a public forum at WAPA must present an official form of picture identification (ID), such as a U.S. driver's license, U.S. passport, U.S. Government ID, or U.S. military ID at the time of the meeting. Foreign nationals should contact Tina Ramsey, Rates Manager, Desert Southwest Region, Western Area Power Administration, (602) 605–2565, or *dswpwrmrk@wapa.gov* in advance of a forum to obtain the necessary form for admittance to the Desert Southwest Regional Office. Written comments and requests to be informed of Federal Energy Regulatory Commission (FERC) actions concerning the proposed base charge and rates should be sent to: Jack D. Murray, Regional Manager, Desert Southwest Region, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005–6457, or *dswpwrmrk@wapa.gov.* DSW will post information concerning the rate process and written comments received to its website at: *www.wapa.gov/about-wapa/regions/dsw/rates/boulder-canyon-project-rates.*

FOR FURTHER INFORMATION CONTACT: Tina Ramsey, Rates Manager, Desert Southwest Region, Western Area Power Administration, (602) 605–2565, or *dswpwrmrk@wapa.gov.*

SUPPLEMENTARY INFORMATION: Hoover Dam,[1] authorized by the Boulder Canyon Project Act of 1928, as amended (43 U.S.C. 617, *et seq.*), sits on the Colorado River along the Arizona-Nevada border. The Hoover Dam power plant has 19 generating units (two for plant use) with installed capacity of 2,078.8 megawatts (4,800 kilowatts for plant use). In collaboration with the U.S. Bureau of Reclamation (Reclamation), WAPA markets and delivers hydropower from the Hoover Dam power plant through high-voltage transmission lines and substations to customers in Arizona, Southern California, and Southern Nevada.

The rate-setting methodology for BCP calculates an annual base charge rather than a unit rate for Hoover Dam hydropower. The base charge recovers an annual revenue requirement that includes projected costs for investment repayment, interest, operations, maintenance, replacements, payments to states, and Hoover Dam visitor services. Non-power revenue projections such as water sales, Hoover Dam visitor revenue, ancillary services, and late fees help offset these projected costs. Hoover power customers are billed a percentage of the base charge in proportion to their power allocation. Unit rates are calculated for comparative purposes but are not used to determine the charges for service.

On March 31, 2023, FERC approved and confirmed Rate Schedule BCP–F11, under Rate Order No. WAPA–204, on a final basis through September 30, 2027.[2] Rate Schedule BCP–F11 and the BCP Electric Service Contract require WAPA to determine the annual base charge and rates for the next fiscal year before October 1 of each year. The FY 2024 BCP base charge and rates expire on September 30, 2024.

COMPARISON OF BASE CHARGE AND RATES

	FY 2024	FY 2025	Amount change	Percent change
Base Charge ($)	$74,334,285	$74,334,285	$0.00	0.0
Composite Rate (mills/kWh)	23.10	24.61	1.51	6.5
Energy Rate (mills/kWh)	11.55	12.30	0.75	6.5
Capacity Rate ($/kW-Mo)	$2.15	$2.19	$0.04	1.9

The proposed FY 2025 base charge for BCP electric service is projected to remain at $74.3 million, the same as FY 2024.

Reclamation's FY 2025 budget is decreasing $700,000 from $87.9 million to $87.2 million, a 0.8 percent decrease from FY 2024. Reflected in this budget, O&M costs are increasing $1.1 million primarily due to higher projected labor costs for salaries, benefits, and overhead. Several large projects are being delayed, decreasing replacements costs by $2.2 million. Post-retirement benefits costs are increasing $109,000 based on a higher five-year average of recent actual expenses. Visitor services costs are increasing by $270,000 primarily due to higher projected labor costs for salaries, benefits, overhead, and overtime. The FY 2024 budget amounts cited for Reclamation do not include approximately $20.8 million in costs that are funded by prior year carryover from FY 2023.

WAPA's FY 2025 budget is increasing approximately $600,000 to $10.1 million, a 5.9 percent increase from FY 2024. WAPA's O&M costs are increasing $770,000 from FY 2024 due to higher labor projections for salaries, overtime, overhead, and benefits. The increase in O&M costs is offset by a $208,000 decrease in replacement costs and modest decreases in WAPA's post-retirement benefit costs and interest expenses due to lower 5-year averages of recent actual expenses. The FY 2024 budget amounts for WAPA do not include approximately $282,000 in costs that are funded by prior year carryover from FY 2023.

Non-power revenue projections for Reclamation and WAPA are decreasing $2.1 million due to lower estimated revenues for the Commercial Use Fee program and ancillary services. Prior year carryover is projected to be $4.1 million, a $1.9 million increase from FY 2024.

The composite and energy rate are both increasing 6.5 percent and the capacity rate is increasing 1.9 percent from FY 2024. These unit rate calculations use forecasted energy and capacity values, which have been decreasing due to the ongoing drought in the Lower Colorado River Basin. Forecasted energy and capacity values may be updated when determining the

[1] Hoover Dam was known as Boulder Dam from 1933 to 1947, but was renamed Hoover Dam by an April 30, 1947, joint resolution of Congress. *See* Act of April 30, 1947, H.J. Res. 140, ch. 46, 61 Stat. 56–57.

[2] *Order Confirming and Approving Rate Schedule on a Final Basis,* FERC Docket No. EF22–4–000.

final base charge and rates if hydrological conditions change.

WAPA's proposed base charge and rates for FY 2025, which would be effective October 1, 2024, are preliminary and subject to change based on modifications to forecasts before publication of the final base charge and rates.

Legal Authority

WAPA is establishing rates for BCP electric service in accordance with section 302 of the DOE Organization Act (42 U.S.C. 7152). This provision transferred to, and vested in, the Secretary of Energy certain functions of the Secretary of the Interior, along with the power marketing functions of Reclamation. Those functions include actions that specifically apply to the BCP.

WAPA's proposal to calculate the base charge and rates for FY 2025 constitutes a major rate adjustment, as defined by 10 CFR 903.2(d). In accordance with 10 CFR 903.15, 10 CFR 903.16, and 10 CFR 904.7(e), DSW will hold public information and public comment forums for this rate adjustment. DSW will review and consider all timely public comments at the conclusion of the consultation and comment period and adjust the proposal as appropriate.

DOE regulations governing charges for the sale of BCP power, 10 CFR 904.7(e), require annual review of the BCP base charge and an ''adjust[ment], either upward or downward, when necessary and administratively feasible, to assure sufficient revenues to effect payment of all costs and financial obligations associated with the [p]roject.'' This proposal is issued pursuant to Delegation Order No. S1–DEL–RATES–2016, effective November 19, 2016, in which the Secretary of Energy delegated the authority to develop power and transmission rates to WAPA's Administrator. The BCP Electric Service Contract states that for years other than the first year and each fifth year thereafter, when the rate schedule is approved by the Deputy Secretary of Energy on a provisional basis and by FERC on a final basis, adjustments to the base charge ''shall become effective upon approval by the Deputy Secretary of Energy.'' Accordingly, the Deputy Secretary of Energy would approve the final FY 2025 base charge and rates for BCP electric service, as authorized by the BCP Electric Service Contract and DOE's procedures for public participation in rate adjustments set forth at 10 CFR parts 903 and 904.[3] The FY 2025 base charge will also be filed at FERC for informational purposes only.

Availability of Information

All brochures, studies, comments, letters, memorandums, or other documents that DSW initiates or uses to develop the proposed formula rates for electric service and the base charge and rates are available for inspection and copying at the Desert Southwest Regional Office, located at 615 South 43rd Avenue, Phoenix, Arizona. Many of these documents and supporting information are also available on DSW's website at: *www.wapa.gov/about-wapa/regions/dsw/rates/boulder-canyon-project-rates.*

Ratemaking Procedure Requirements

Environmental Compliance

WAPA is in the process of determining whether an environmental assessment or an environmental impact statement should be prepared or if this action can be categorically excluded from those requirements.[4]

Determination Under Executive Order 12866

WAPA has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Signing Authority

This document of the Department of Energy was signed on April 12, 2024, by Tracey A. LeBeau, Administrator, Western Area Power Administration, pursuant to delegated authority from the Secretary of Energy. The document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

[3] 50 FR 37835 (Sept. 18, 1985) and 84 FR 5347 (Feb. 21, 2019).

[4] In compliance with the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.,* the Council on Environmental Quality Regulations for implementing NEPA (40 CFR parts 1500–1508), and DOE NEPA Implementing Procedures and Guidelines (10 CFR part 1021).

Signed in Washington, DC, on April 16, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

Pesticide Registration Review; Draft Human Health and Ecological Risk Assessments for Formaldehyde and Paraformaldehyde; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's draft human health and ecological risk assessments for the registration review of formaldehyde and paraformaldehyde and opens a 60-day public comment period on this document.

DATES: Comments must be received on or before June 18, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2015–0739, through the *Federal eRulemaking Portal* at *https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at *https://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: The Chemical Review Manager for formaldehyde identified in table 1 of unit I.

For general questions on the registration review program, contact: Melanie Biscoe, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 566–0701; email address: *biscoe.melanie@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This notice is directed to the public in general and may be of interest to a

wide range of stakeholders including environmental, human health, worker rights advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in table 1 in unit I.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at *https://www.epa.gov/dockets/commenting-epa-dockets.*

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

4. *Information submission requirements.* Anyone may submit data or information in response to this document. To be considered during a pesticide's registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. However, the Agency may, at its discretion, consider data or information submitted at a later date.
- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English, and a written transcript must accompany any information submitted as an audio graphic or videographic record. Written material may be submitted in paper or electronic form.
- Submitters must clearly identify the source of any submitted data or information.
- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide's registration review.

II. Background

Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed comprehensive draft human health and/or ecological risk assessments for the pesticides listed in table 1 in unit I. After reviewing comments received during the public comment period, EPA may issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments and may request public input on risk mitigation before completing a proposed registration review decision for the pesticides listed in table 1 in unit I. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.

III. Authority

EPA is conducting its registration review of formaldehyde and paraformaldehyde pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)).

As part of the registration review process, the Agency has completed draft human health and ecological risk assessments on formaldehyde and paraformaldehyde. Pursuant to 40 CFR 155.53(c), EPA generally provides for at least a 30-day public comment period on draft human health and/or ecological risk assessments during registration review. This comment period is intended to provide an opportunity for public input on the Agency's assessment of the human health and/or ecological risks posed by use of these pesticides.

IV. What action is the Agency taking?

Pursuant to 40 CFR 155.53(c), this notice announces the availability of EPA's draft human health and ecological risk assessments for formaldehyde and paraformaldehyde and opens a 60-day public comment period on this document.

TABLE 1—FORMALDEHYDE AND PARAFORMALDEHYDE REGISTRATION REVIEW DOCKET DETAILS

Registration review case name and No.	Docket ID No.	Chemical Review Manager and contact information
Formaldehyde and Paraformaldehyde Case 0556.	EPA–HQ–OPP–2015–0739	Kendall Ziner, *ziner.kendall@epa.gov,* (202) 566–0621.

All comments should be submitted using the methods in **ADDRESSES** and must be received by the EPA on or before the closing date. These comments will become part of the docket for formaldehyde and paraformaldehyde.

The Agency will consider all comments received during the public comment period and make changes, as appropriate, to the draft human health and/or ecological risk assessment. As appropriate, EPA may then issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 10, 2024.

Anita Pease,

Director, Antimicrobials Division, Office of Pesticide Programs.

Nominations to the Federal Insecticide, Fungicide, and Rodenticide Act Scientific Advisory Panel (FIFRA SAP); Request for Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or the Agency) is now accepting public comments on the experts the Agency is considering for membership on the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP). This document identifies the individuals nominated. The Agency anticipates selecting from those nominees that are identified as interested and available to appoint up to four new SAP members by July 2024 due to expiring membership terms. Current members of the SAP are eligible for reappointment during this period. Therefore, the appointments anticipated to be completed by July may include a mix of newly appointed and reappointed members. Public comments on these nominations will be used to assist the Agency in selecting the new members for the FIFRA SAP.

DATES: Submit your comments on or before May 20, 2024.

ADDRESSES: Submit comments, identified by docket identification (ID) number EPA–HQ–OPP–2024–0118, online at *https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at *https://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: The Designated Federal Official (DFO) is Tamue L. Gibson; Mission Support Division (7602M), Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency; telephone number: (202) 564–7642; email address: *gibson.tamue@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. It may be of particular interest to persons who are interested in the impact of pesticide regulatory actions on health and the environment and pesticide-related issues in general. The Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions, consult the DFO listed under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI

Do not submit CBI information to EPA through email or *https://www.regulations.gov.* If your comment contains any information that you consider to be CBI or otherwise protected, please contact the DFO listed under **FOR FURTHER INFORMATION CONTACT** to obtain special instructions before submitting your comments. Information properly marked as CBI will not be disclosed except in accordance with the procedures set forth in 40 CFR part 2.

2. Commenting on EPA Dockets

When preparing and submitting your comments, see Commenting on EPA Dockets at *https://www.epa.gov/dockets/commenting-epa-dockets.*

C. What action is the Agency taking?

This document solicits public comment on the experts recently

nominated to serve on the FIFRA SAP (see unit III.D.2.). The Agency anticipates selecting from these nominations to appoint up to four new SAP members by July 2024 due to expiring membership terms. Current members of the SAP are eligible for reappointment during this period. Therefore, the appointments anticipated to be completed by July may include a mix of newly appointed and reappointed members. Public comments on these recent nominations will be used to assist the Agency in selecting the new members for the FIFRA SAP.

D. What is the Agency's authority for taking this action?

The FIFRA SAP is a Federal advisory committee, established in 1975 under FIFRA (7 U.S.C. 136 *et seq.*), that operates in accordance with requirements of the Federal Advisory Committee Act (FACA) (5 U.S.C. 10). In accordance with FACA requirements, a Charter for the FIFRA SAP, dated August 17, 2022, provides for open meetings with opportunities for public participation.

II. Background

The FIFRA SAP serves as a scientific peer review mechanism of EPA's Office of Chemical Safety and Pollution Prevention (OCSPP) and is structured to provide independent scientific advice, information, and recommendations to the EPA Administrator on pesticides and pesticide-related issues as to the impact of regulatory actions on health and the environment. The FIFRA SAP is composed of a permanent panel consisting of seven members who are appointed by the EPA Administrator from nominees provided by the National Institutes of Health (NIH) and the National Science Foundation (NSF). Members serve staggered terms of appointment, generally of three to six years duration. To augment the knowledge-base of the FIFRA SAP, FIFRA established a Science Review Board (SRB) consisting of at least 60 scientists who are available to the FIFRA SAP on an ad hoc basis to assist in reviews conducted by the FIFRA SAP.

As a scientific peer review mechanism, the FIFRA SAP provides comments, evaluations, and recommendations to improve the effectiveness and quality of analyses made by Agency scientists. Members of the FIFRA SAP are scientists who have sufficient professional qualifications, including training and experience, to provide expert advice and recommendations to the Agency.

III. Nominees

A. Qualifications of Members

Members are scientists who have sufficient professional qualifications, including training and experience, to provide expert comments on the impact of pesticides on human health and the environment. In accordance with FIFRA section 25(d)(1), the Administrator shall require nominees to the FIFRA SAP to furnish information concerning their professional qualifications, including educational background, employment history, and scientific publications. No persons shall be ineligible to serve on the FIFRA SAP by reason of their membership on any other advisory committee to a Federal department or agency, or their employment by a Federal department or agency (except EPA). FIFRA section 25(d) further stipulates that the Agency publish the name, address, and professional affiliation of the nominees in the **Federal Register**.

B. Applicability of Existing Regulations

Consistent with the requirements of FIFRA section 25(d), FIFRA SAP members are subject to the provisions of the Standards of Ethical Conduct for Employees of the Executive Branch at 5 CFR part 2635, conflict of interest statutes in title 18 of the United States Code, and related regulations. Before being formally appointed, each candidate is required to submit a Confidential Financial Disclosure Form in which they must fully disclose, among other financial interests, the nominee's sources of research support, if any. EPA will evaluate the candidate's financial disclosure forms to assess the possibility of financial conflicts of interest, appearance of a loss of impartially, or any prior involvement with the development of documents likely to be under consideration by the FIFRA SAP (including previous scientific peer reviews) before the candidate is considered further.

C. Process of Obtaining Nominees

In accordance with the provisions of FIFRA section 25(d), on November 21, 2023, EPA requested that the NIH and the NSF nominate scientists to fill vacancies occurring on the FIFRA SAP. The Agency requested nominations of nationally recognized experts in the fields of ecological and human exposure assessment, including environmental fate and transport of chemicals; mathematical biostatistics; new approach methodologies (NAMs), including in vitro to in vivo extrapolation (IVIVE); toxicology, including carcinogenicity and physiologically-based pharmacokinetic (PBPK) modeling. Experts with specific experience in risk assessment, dose-response analysis, cheminformatics, bioinformatics, and genomics are preferred.

D. Nominated Individuals

NIH and NSF provided the Agency with a total of 39 nominees, of which, 12 are interested and available to actively participate in FIFRA SAP meetings (see unit III.D.2.), and 27 individuals are not available to be considered further for membership at this time (see unit III.D.1.). In addition to the list of nominees provided in this document, a compilation of brief biographical sketches, including information about the qualifications of the individual nominees, is available in the public docket identified under **ADDRESSES**.

1. Nominees That Are Not Available

The following individuals are not available to be considered further for membership at this time (listed alphabetically):

1. Lauren Aleksunes, PharmD, Ph.D., Rutgers University, Piscataway, New Jersey.
2. Abby Alkon, RN, Ph.D., University of California-San Francisco, San Francisco, California.
3. Thomas Arcury, Ph.D. (retired), Wake Forest School of Medicine, Winston-Salem, North Carolina.
4. Michelle Block, Ph.D., Indiana University, Indianapolis, Indiana.
5. Kim Boekelheide, Ph.D., Brown University, Providence, Rhode Island.
6. Tianxi Cai, ScD, Harvard Medical School, Boston, Massachusetts.
7. Weihsueh Chu, Ph.D., Texas A&M University, College Station, Texas.
8. Robert M. Corrigan, Ph.D., RMC Pest Management Consulting. Briarcliff Manor, New York.
9. Elaine Faustman, Ph.D., University of Washington, Seattle, Washington.
10. John Glasser, Ph.D., Centers for Disease Control and Prevention, Atlanta, Georgia.
11. Damian Helbing, Ph.D., Cornell University, Ithaca, New York.
12. Mevin Hooten, Ph.D., University of Texas-Austin, Austin, Texas.
13. Steve Hrudey, Ph.D., Professor Emeritus, University of Alberta. Edmonton, Alberta.
14. Nicole Kleinstreuer, Ph.D., National Institute of Environmental Health Sciences, Durham, North Carolina.
15. Ed Kolodziej, Ph.D., University of Washington, Seattle, Washington.
16. Rosa Krajmalnik-Brown, Ph.D., Arizona State University, Tempe, Arizona.
17. Teresa Leavens, Ph.D., North Carolina State University, Raleigh, North Carolina.
18. Zhoumeng Lin, Ph.D., University of Florida, Gainsville, Florida.
19. Michael Plewa, Ph.D., University of Illinois Urbana, Champaign, Illinois.

20. Beate Ritz, Ph.D., MD, University of California- Los Angeles, Los Angeles, California.
21. Ivan Rusyn, Ph.D., Texas A&M University, College Station, Texas.
22. Martyn Smith, Ph.D., University of California-Berkely, Berkeley, California.
23. Ana-Maria Staicu, Ph.D., North Carolina State University, Raleigh, North Carolina.
24. Michael L. Stein, Ph.D., Rutgers University, Piscataway, New Jersey.
25. Robyn Tanguay, Ph.D., Oregon State University, Corvallis, Oregon.
26. Katrina Waters, Ph.D., Oregon State University, Portland, Oregon.
27. Forest White, Ph.D., Massachusetts Institute of Technology, Cambridge, Massachusetts.

2. Nominees That Are Interested and Available

The following individuals are interested and available experts that the Agency is considering for membership on the FIFRA SAP (listed alphabetically). Selected biographical data for each nominee is available in the docket identified under **ADDRESSES** and through the FIFRA SAP website at *https://www.epa.gov/sap.* The Agency anticipates selecting new members by July 2024 to fill upcoming vacancies occurring on the Panel.

1. Antonio Banes, Ph.D., North Carolina Central University, Durham, North Carolina.
2. Steven Belmain, Ph.D., University of Greenwich, Greenwich, London.
3. Rebecca Fry, Ph.D., University of North Carolina, Chapel Hill, North Carolina.
4. James J. Galligan, Ph.D., University of Arizona, Tuscon, Arizona.
5. Thomas Hartung, MD, Ph.D., Johns Hopkins University, Baltimore, Maryland.
6. Eunha Hoh, Ph.D., San Diego State University, San Diego, California.
7. Lifang Hou, MD, Northwestern University, Chicago, Illinois.
8. Pamela Lein, Ph.D., University of California-Davis, Davis, California.
9. Bo Li, Ph.D., University of Illinois Urbana-Champaign, Illinois.
10. Michael Parsons, Ph.D., Fordham University, Bronx, New York.
11. Irfan Rahma, Ph.D., University of Rochester Medical Center, Rochester, New York.
12. Brian J. Reich, Ph.D., North Carolina State University, Raleigh, North Carolina.

Authority: 7 U.S.C. 136 *et. seq.;*21 U.S.C. 301 *et seq.;* 5 U.S.C. 10.

Dated: April 16, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–11903–01–OAR]

Announcing Upcoming Meeting of Mobile Sources Technical Review Subcommittee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, the Environmental Protection Agency (EPA) announces an upcoming meeting of the Mobile Sources Technical Review Subcommittee (MSTRS), which is a subcommittee under the Clean Air Act Advisory Committee (CAAAC). This is a hybrid (both in-person and virtual) meeting and open to the public. The meeting will include discussion of current topics and presentations about activities being conducted by EPA's Office of Transportation and Air Quality. MSTRS listserv subscribers will receive notification when the agenda is available on the Subcommittee website. To subscribe to the MSTRS listserv, send an email to *MSTRS@epa.gov.*

DATES: EPA will hold a hybrid (both in-person and virtual) public meeting on Thursday, May 30, 2024 from 9 a.m. to 4:30 p.m. central daylight time (CDT). Registration for in-person participants begins at 8:30 a.m. Please monitor the website *https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac* for any changes to meeting logistics. The final meeting agenda will be posted on the website.

ADDRESSES: The meeting is currently scheduled to be held virtually and at EPA's Region 5 Offices at The Metcalfe Federal Building, 77 W Jackson Boulevard, Chicago, IL, 60604. However, this date and location are subject to change and interested parties should monitor the Subcommittee website (above) for the latest logistical information. For information on the public meeting or to register to attend, please contact *MSTRS@epa.gov.*

FOR FURTHER INFORMATION CONTACT: Further information concerning this public meeting and general information concerning the MSTRS can be found at: *https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac.* Other MSTRS inquiries can be directed to Jessica Fan, the Designated Federal Officer for MSTRS, Office of Transportation and Air Quality, at 202–564–1094 or *mroz.jessica@epa.gov.*

SUPPLEMENTARY INFORMATION: During the meeting, the Subcommittee may also hear progress reports from its workgroups as well as updates and announcements on Office of Transportation and Air Quality activities of general interest to attendees.

Participation in hybrid public meetings. The hybrid (both in-person and virtual) public meeting will provide interested parties the opportunity to participate in this Federal Advisory Committee meeting.

For individuals with disabilities: For information on access or services for individuals with disabilities, please email *MSTRS@epa.gov.* To request accommodate of a disability, please email *MSTRS@epa.gov,* preferably at least 10 business days prior to the meeting, to give EPA as much time as possible to process your request.

EPA is asking all meeting attendees, even those who do not intend to speak, to register for the meeting by sending an email to the address listed in the **FOR FURTHER INFORMATION CONTACT** section above, by Thursday, May 16, 2024. This will help EPA ensure that sufficient participation capacity will be available.

Please note that any updates made to any aspect of the meeting logistics, including potential additional sessions, will be posted online at *https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac.* While EPA expects the meeting to go forward as set forth above, please monitor the website for any updates.

Jessica Mroz,

Designated Federal Officer, Mobile Source Technical Review Subcommittee, Office of Transportation and Air Quality.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[DA 24–338; FR ID 213961]

Disability Advisory Committee; Announcement of Meeting

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission announces the fourth meeting of the fifth term of its Disability Advisory Committee (DAC or Committee).

DATES: Thursday, May 16, 2024. The meeting will come to order at 10:00 a.m. Eastern Time.

ADDRESSES: The DAC meeting will be held remotely, with video and audio coverage at: *www.fcc.gov/live.*

FOR FURTHER INFORMATION CONTACT: Joshua Mendelsohn, Designated Federal Officer, Federal Communications Commission, (202) 559–7304, or email: *dac@fcc.gov.*

SUPPLEMENTARY INFORMATION: This meeting is open to members of the general public. The meeting will be webcast with sign language interpreters and open captioning at: *www.fcc.gov/live.* In addition, a reserved amount of time will be available on the agenda for comments and inquiries from the public. Members of the public may comment or ask questions of presenters via *livequestions@fcc.gov.*

Requests for other reasonable accommodations or for materials in accessible formats for people with disabilities should be submitted via email to: *fcc504@fcc.gov* or by calling the Consumer and Governmental Affairs Bureau at (202) 418–0530. Such requests should include a detailed description of the accommodation needed and a way for the FCC to contact the requester if more information is needed to fill the request. Requests should be made as early as possible; last minute requests will be accepted but may not be possible to accommodate.

Proposed Agenda: At this meeting, the DAC is expected to (1) hold a facilitated conversation on the current and emerging challenges and opportunities in the area of digital accessibility; (2) receive updates from the working groups; and (3) address any other topics relevant to the DAC's work.

Federal Communications Commission.

Suzanne Singleton,

Chief, Disability Rights Office, Consumer and Governmental Affairs Bureau.

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 214886]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) proposes to modify a system of records, FCC/WCB–6, USAC Customer Relationship Management (CRM), subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. The Universal Service Administrative Company (USAC), under the direction of the Commission and, by delegation, of the Commission's Wireline Competition Bureau (WCB), administers the Universal Service Fund (USF) programs and certain programs funded by Congressional appropriations (appropriated programs). This system of records contains information about individuals who are customers, participants, and stakeholders of the programs who submit complaints and requests for assistance to USAC to address issues with their program participation.

DATES: Written comments are due on or before May 20, 2024. This action will become effective on April 19, 2024, except for any new or significantly modified routine uses, which will become effective May 20, 2024.

ADDRESSES: Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005. Send comments to Brendan McTaggart, Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554, or to *privacy@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418–1738, or *privacy@fcc.gov.*

SUPPLEMENTARY INFORMATION: This notice serves to update and modify FCC/WCB–6, USAC Customer Relationship Management (CRM), system of records as a result of necessary changes and updates. The substantive changes and modifications to the previously published version of the FCC/WCB–6 system of records include:

1. Updating the Categories of Records to include USAC-assigned identifying numbers, such as ''Application ID,'' ''Eligibility Check ID,'' or ''eligibility ID'' numbers;

2. Updating the Authority for Maintenance of the System and Categories of Records sections to accommodate FCC implementation of the Safe Connections Act, which, among other things, designates the Lifeline program to provide emergency communications support to survivors of domestic violence;

3. Adding a new routine use (1) Customer Relations to permit disclosure of records to individuals to whom those records pertain;

4. Updating and/or revising language in the following routine uses (listed by the routine use number provided in this notice): (9) Law Enforcement and Investigation; and (15) Non-Federal Personnel (formerly named ''Contract Services, Grants, or Cooperative Agreements'').

The system of records is also revised for clarity and updated to reflect various administrative changes.

SYSTEM NAME AND NUMBER:

FCC/WCB–6, USAC Customer Relationship Management.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005; and Wireline Competition Bureau (WCB), Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554.

SYSTEM MANAGER(S):

Address inquiries to USAC, 700 12th Street NW, Suite 900, Washington, DC 20005; or WCB, FCC, 45 L Street NE, Washington, DC 20554.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

47 U.S.C. 151–154, 201–205, 214, 403; 47 CFR part 54, subpart H; Safe Connections Act of 2022, Public Law 117–223, 116 Stat. 2280.

PURPOSE(S) OF THE SYSTEM:

USAC administers the programs of the USF (including the Lifeline, High Cost, Rural Health Care, and E-Rate programs) and certain appropriated programs including the Affordable Connectivity Program (ACP), Emergency Connectivity Fund Program (ECF), and the COVID–19 Telehealth Program on behalf of the FCC, as set forth in 47 CFR part 54, under the direction of the Commission and, by delegation, of WCB. Under the Memorandum of Understanding Between the FCC and USAC (Dec. 19, 2018), as amended (Nov. 22, 2021) and extended (Dec. 19, 2023) (FCC/USAC MOU),1 USAC is responsible for the effective administration of the programs, including responding to inquiries from program participants and providing timely and relevant data and analysis to inform the Commission in its policy making and oversight of the USF and appropriated programs. The USAC CRM handles and processes inquiries from individuals, groups, and other entities, for all of the programs administered by USAC. The system allows USAC customer service representatives to access prior related inquiries in order to provide excellent customer service. It includes a portal to allow customers to

easily interact with USAC through one channel of communication, maintaining the ability to view case status, create new cases, and review closed cases within the same interface. This system of records includes existing data from the established USF and appropriated programs administered by USAC. The system can also accommodate data from any future programs assigned by the FCC to be administered by USAC. The system allows USAC to retrieve records based on an individual's information within the system. The CRM system will be launched in phases on a program by program basis. Phase I currently includes High Cost, Rural Health Care, and Finance (Contributions) customer support. Phase II is anticipated to incorporate Lifeline and the Affordable Connectivity Program for customer support. Phase III will commence the consumer portal.

This system of records is maintained to provide a unified tool to enable USAC, on behalf of the FCC, to respond to inquiries from consumers, participants, and stakeholders in the USF and appropriated programs; to inform the FCC of concerns regarding the USF and appropriated programs in support of the agency's policymaking and enforcement endeavors or otherwise to evaluate the efficiency and administration of FCC programs and to inform future FCC rulemaking activity; to provide consumers with access to a unified portal to view case status, create new cases, and review closed cases; and to provide USAC staff with access to documents and otherwise improve staff efficiency.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The categories of individuals in this system include, but are not limited to, individuals who contact USAC with inquiries concerning USF and appropriated programs administered by USAC on behalf of the FCC. These individuals include, but are not limited to, individuals and representatives of individuals who participate in these programs; individuals making inquiries on behalf of program participants and stakeholders; and employees of USAC, USAC's vendors, and the FCC.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of records in the system collected by design include first and last name, telephone number, email address, and user ID numbers; service representative names and ID numbers; USAC-assigned identifying numbers, such as Application ID, Eligibility Check ID, or eligibility ID numbers; and the name of the organization associated with the individual. Examples for organization names include but are not limited to carrier and school names. Customers or customer representatives may provide data elements that have not been specifically requested, including date of birth, home address, place of birth, gender, work address, taxpayer ID numbers, facsimile numbers, Social Security numbers (SSNs), mother's maiden name, information contained in birth, death, or marriage certificates, financial account numbers, employment status, employer identification numbers (EINs), and a driver's licenses or State ID (or foreign country equivalent). This system of records also includes existing data from the established USF and appropriated programs administered by USAC.

RECORD SOURCE CATEGORIES:

Information systems for established USF and appropriated programs administered by USAC; participants in USF and appropriated programs; participating providers and their registered enrollment representatives; and USAC employees or contractors or FCC employees or contractors.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed to authorized entities, as is determined to be relevant and necessary, outside the FCC, as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

1. Customer Relations—To the individual to whom a record pertains in order to respond to inquiries about that individual's participation in USF and appropriated programs or otherwise assist that individual.

2. Program Management—To USAC employees to conduct official duties associated with the administration of FCC programs or the management, operation, and oversight of the CRM, as directed by the Commission.

3. Third Party Contractors—To an employee of a third-party contractor engaged by USAC or a participating provider, or to a subcontractor engaged by a third-party contractor, engaged by USAC, to, among other things, develop the CRM, respond to inquiries concerning USF and appropriated programs, run call center and email support operations, assist in dispute resolution, and develop, test, and operate the database system and network.

4. Service Providers—To service providers, and their registered representatives, only such information that may be required to help resolve a consumer complaint or dispute.

5. State, Tribal, or Local Governmental Agencies and Other Authorized Governmental Entities—To State, Tribal, or local government agencies and other authorized governmental entities, including public utility commissions, only such information that may be required to help resolve a consumer complaint or dispute.

6. FCC Enforcement Actions—When a record in this system involves an informal complaint filed alleging a violation of the Communications Act of 1934, as amended, or FCC regulations or orders (FCC Rules and Regulations) by an applicant, licensee, certified or regulated entity, or an unlicensed person or entity, the complaint may be provided to the alleged violator for a response. Where a complainant, in filing his or her complaint, explicitly requests confidentiality of his or her name from public disclosure, the Commission will endeavor to protect such information from public disclosure. Complaints that contain requests for confidentiality may be dismissed if the Commission determines that the request impedes the Commission's ability to investigate and/or resolve the complaint.

7. Congressional Inquiries—To provide information to a Congressional office from the record of an individual in response to an inquiry from that Congressional office made at the written request of that individual.

8. Government-Wide Program Management and Oversight—To the Department of Justice (DOJ) to obtain that department's advice regarding disclosure obligations under the Freedom of Information Act (FOIA); or the Office of Management and Budget (OMB) to obtain that office's advice regarding obligations under the Privacy Act.

9. Law Enforcement and Investigation—When the FCC investigates any violation or potential violation of a civil or criminal law, regulation, policy, executed consent decree, order, or any other type of compulsory obligation and determines that a record in this system, either alone or in conjunction with other information, indicates a violation or potential violation of law, regulation, policy, consent decree, order, or other compulsory obligation, the FCC may disclose pertinent information as it deems necessary to the target of an investigation, as well as with the appropriate Federal (including the

Internal Revenue Service to investigate income eligibility verification), State, local, Tribal, international, or multinational agencies, or a component of such an agency, responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, order, or other compulsory obligation.

10. Litigation—To disclose the records to the Department of Justice (DOJ) when: (a) the FCC or any component thereof; (b) any employee of the FCC in his or her official capacity; (c) any employee of the FCC in his or her individual capacity where the DOJ or the FCC has agreed to represent the employee; or (d) the United States Government is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and the use of such records by the Department of Justice is for a purpose that is compatible with the purpose for which the FCC collected the records.

11. Adjudication—To disclose the records in a proceeding before a court or adjudicative body, when: (a) the FCC or any component thereof; or (b) any employee of the FCC in his or her official capacity; or (c) any employee of the FCC in his or her individual capacity; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and that the use of such records is for a purpose that is compatible with the purpose for which the agency collected the records.

12. Breach Notification—To appropriate agencies, entities (including USAC), and persons when: (a) the Commission suspects or has confirmed that there has been a breach of the system of records; (b) the Commission has determined that as a result of the suspected or confirmed compromise there is a risk of harm to individuals, the Commission (including its information systems, programs, and operations), the Federal Government, or national security; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Commission's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

13. Assistance to Federal Agencies and Entities Related to Breaches—To another Federal agency or entity, when the Commission determines that information from this system is reasonably necessary to assist the recipient agency or entity in: (a) responding to a suspected or confirmed breach or (b) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, program, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

14. Prevention of Fraud, Waste, and Abuse Disclosure—To Federal agencies, or to an instrumentality of any governmental jurisdiction within or under the control of the United States (including any State, Tribal, or local governmental agency), and their employees and agents (including contractors, their agents or employees; employees or contractors of the agents or designated agents); or contractors, their employees or agents with whom the FCC or USAC has a contract, service agreement, cooperative agreement, or computer matching agreement for the purpose of: (1) detection, prevention, and recovery of improper payments; (2) detection and prevention of fraud, waste, and abuse in Federal programs administered by a Federal agency or non-Federal entity; (3) detection of fraud, waste, and abuse by individuals in their operations and programs, but only to the extent that the information shared is necessary and relevant to verify pre-award and prepayment requirements prior to the release of Federal funds, prevent and recover improper payments for services rendered under programs of the FCC or of those Federal agencies and non-Federal entities to which the FCC or USAC provides information under this routine use.

15. Non-Federal Personnel—To disclose information to non-Federal personnel, including FCC or USAC contractors, other vendors (*e.g.,* identity verification services), grantees, or volunteers who have been engaged to assist the FCC or USAC in the performance of a contract service, grant, cooperative agreement, or other activity related to this system of records that has not been otherwise identified in this Notice and who need to have access to the records in order to perform their activity.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

The information pertaining to the CRM includes electronic records, files, data, records, and may include audio recordings of calls. Records are maintained in secure, limited access areas. Physical entry by unauthorized persons is restricted through use of locks, passwords, and other security measures. Both USAC and its contractors will jointly manage the electronic data housed at USAC and contractors will have access to the data at their locations.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Information in the CRM system of records may be retrieved by various identifiers, including, but not limited to the individual's name, or identification number. USAC employees and contractors information can also be retrieved through identifiers including first or last name, title, email address, and username.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Data from USF programs contained in the CRM system are maintained and disposed of in accordance with the National Archives and Records Administration (NARA) Records Schedule DAA–0173–2017–0001. ACP records are maintained and disposed of in accordance with NARA Records Schedule DAA–0173–2021–0022, Emergency Broadband Benefit Program (EBB Program)/Affordable Connectivity Program (ACP). Records related to the Connected Care Pilot Program/COVID–19 Telehealth Program are maintained and disposed of in accordance with NARA Records Schedule DAA–0173–2020–0006.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The electronic records, data, and files are maintained in the FCC and the USAC computer network databases, which are protected by the FCC's and USAC's privacy safeguards, a comprehensive and dynamic set of IT safety and security protocols and features that are designed to meet all Federal IT privacy standards, including those required by OMB, the National Institute of Standard and Technology (NIST) and the Federal Information Security Modernization Act of 2014 (FISMA). In addition, access to the electronic files is restricted to authorized USAC and contractors' supervisors and staff, to the FCC's supervisors and staff in WCB, and to the IT contractors who maintain these computer databases. Other FCC employees and contractors may be granted access only on a ''need-to-know'' basis. In addition, data in USAC's network servers which are accessible by USAC's contractors will be routinely backed-up. The servers will be stored in secured environments to protect the data.

The paper documents and files are maintained in file cabinets in USAC and the contractors' office suites. The file cabinets are locked when not in use and

at the end of the business day. Access to these files is restricted to authorized USAC and its contractors' staffs.

RECORD ACCESS PROCEDURES:

Individuals wishing to request access to and/or amendment of records about themselves should follow the Notification Procedures below.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request an amendment of records about themselves should follow the Notification Procedures below.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about themselves may do so by writing Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554, or to *privacy@fcc.gov.* Individuals requesting access must also comply with the FCC's Privacy Act regulations regarding verification of identity to gain access to the records (47 CFR part 0, subpart E).

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

88 FR 19138 (March 30, 2023) and 88 FR 23672 (April 18, 2023) (correction).

Federal Communications Commission.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 214884]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) is modifying an existing system of records, FCC/WCB–1, Lifeline Program, subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency. The Lifeline Program (or ''Lifeline'') provides discounts for one Lifeline Program voice service per household and/or broadband internet access service (BIAS) to qualifying low-income individuals. Individuals may qualify for Lifeline through proof of income or participation in another qualifying program. Since the enactment of the Telecommunications Act of 1996 (1996 Act), the Lifeline Program has been administered by the Universal Service Administrative Company (USAC) under the direction of the Commission and, by delegation, of the Commission's Wireline Competition Bureau (WCB). This system of records contains information about individuals who have started an application online or applied to participate in the Lifeline Program, respondents to consumer surveys related to the Lifeline program, and enrollment representatives. The modifications described in this notice will allow USAC to maintain and administer this system in a manner that promotes efficiency and minimizes waste, fraud, and abuse.

DATES: This modified system of records will become effective on April 19, 2024. Written comments on the routine uses are due by May 20, 2024. The routine uses in this action will become effective on May 20, 2024 unless comments are received that require a contrary determination.

ADDRESSES: Send comments to Brendan McTaggart, Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554, or to *privacy@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418–1738, or *privacy@fcc.gov.*

SUPPLEMENTARY INFORMATION: This notice modifies FCC/WCB–1, Lifeline Program system of records as a result of necessary changes and updates. The substantive changes and modifications to the previously published version of the FCC/WCB–1 system of records include:

1. Updating the Authority for Maintenance of the System, Purposes of the System, Categories of Individuals, and Categories of Records sections to accommodate FCC implementation of the Safe Connections Act (SCA), that, among other things, designates the Lifeline program to provide emergency communications support to survivors, as that term is defined in the SCA and FCC regulations or orders;

2. Updating the Categories of Records to include identifying numbers assigned by USAC to applicants and or subscribers, such as ''Application ID,'' ''Eligibility Check ID,'' or ''eligibility ID'' numbers;

3. Adding one new routine use (listed by the routine use number provided in this notice): (2) Application, Enrollment, and Recertification;

4. Updating and/or revising language in the following routine uses (listed by the routine use number provided in this notice): (14) Law Enforcement and Investigation; (15) Litigation and (16) Adjudication (formerly a single routine use); and (21) Non-Federal Personnel (formerly named ''Contract Services, Grants, or Cooperative Agreements'').

The system of records is also revised for clarity and updated to reflect various administrative changes related to the system managers and system addresses; policies and practices for storage, retrieval, and retention of the information; administrative, technical, and physical safeguards; and updated notification, records access, and contesting records procedures.

SYSTEM NAME AND NUMBER:

FCC/WCB–1, Lifeline Program.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005; and Wireline Competition Bureau (WCB), Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554.

SYSTEM MANAGER(S):

USAC administers the Lifeline Program for the FCC. Address inquiries to the Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005; or Wireline Competition Bureau (WCB), 45 L Street NE, Washington, DC 20554.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

47 U.S.C. 151–154, 201–205, 214, 254, 403; 47 CFR 54.400–54.424; Safe Connections Act of 2022, Public Law 117–223, 116 Stat. 2280.

PURPOSE(S) OF THE SYSTEM:

The Lifeline Program provides discounts for one Lifeline voice service and/or BIAS per household, and the initial connection charge in certain Tribal areas to support such service, to qualifying low-income individuals, including survivors eligible to receive emergency communications support. Individuals may qualify for Lifeline through proof of income, proof of participation in another qualifying program, or proof of the need for emergency communications support for survivors, including documentation of financial hardship as defined in FCC regulations and orders. The Lifeline Program system of records is maintained to determine whether the applicant meets the eligibility requirements for

initial enrollment and recertification, including the limit of one benefit per household; program administration; dispute resolution; monitoring of enrollment representatives; and, consumer surveys.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The categories of individuals in this system include those individuals residing in a single household who have applied for benefits; are currently receiving benefits; are individuals who enable another individual in their household to qualify for benefits; are minors whose status qualifies a parent or guardian for benefits; are individuals who have received benefits under the Lifeline Program; are survivors seeking emergency communications support and, as required, their alleged abusers; are individuals that respond to a consumer survey developed using information in this system; and are individuals acting as enrollment representatives and providing information directly or indirectly into USAC's Lifeline Systems on behalf of an ETC to enroll subscribers, recertify subscribers, or update subscriber information in the Lifeline Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of records in the system include first and last name of the applicant, subscriber, other household members, survivor, alleged abuser, caregiver, or consumer survey participant; date of birth; last four digits of Social Security Number or a full Tribal identification number; residential address; descriptive address; address based on geographic coordinates (geolocation); internet Protocol (IP) address; contact information; evidence of residence on Tribal lands; qualifying program participation; financial information; username and password; account security questions and answers; Lifeline subscriber identification number; assigned Representative ID Number; Lifeline participation status; amount of benefit received; documents demonstrating eligibility; documents showing only one benefit is received per household; voice recordings; USAC-assigned identifying numbers, such as Application ID, Eligibility Check ID, or eligibility ID numbers; for survivors seeking emergency communications support, documentation related to the submission of a legitimate line separation request to a telecommunications provider and documentation or certification of financial hardship (such as income self-certification or documentation related to receipt of Pell Grants or qualification for federal nutrition programs); and signatures.

For ETC enrollment representatives who register to access the National Verifier or National Lifeline Accountability Database the following information may be collected: first and last name, date of birth, the last four digits of his or her social security number, email address, residential address, or other identity proof documentation.

RECORD SOURCE CATEGORIES:

The sources for the information in the Lifeline Program system of records include ETCs and their registered enrollment representatives; applicants; consumer survey respondents; State, Tribal, and Federal databases; and, third-party identity verifiers.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed to authorized entities, as is determined to be relevant and necessary, outside the FCC as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows. In each of these cases, the FCC will determine whether disclosure of the records is compatible with the purpose(s) for which the records were collected:

1. Program Management—To USAC employees to conduct official duties associated with the management, operation, and oversight of the Lifeline Program, NLAD, National Verifier, Lifeline Claims System, and Representative Accountability Database, as directed by the Commission.

2. Application, Enrollment, and Recertification—To facilitate the Lifeline application, enrollment, or recertification processes, including for survivors seeking or receiving communications support, records from this system may be disclosed to the individual who originally submitted the records, to the individual applicant to whom the records pertain, or to an authorized representative, entity, or organization supporting the individual in the application, enrollment, or recertification process.

3. Third Party Contractors—To an employee of a third-party contractor, or subcontractor of the third- party contractor, engaged by USAC or an ETC to, among other things, develop the Lifeline Eligibility Database, conduct the eligibility verification process, recertification process, run call center and email support operations, and assist in dispute resolution.

4. Business Process Outsourcing (BPO) Entity—To an employee of the BPO engaged by USAC or an employee of a third-party contractor engaged by the BPO to perform and review eligibility evaluations where the National Verifier conducts such processes for purposes of conducting the eligibility verification process or recertification process, performing manual eligibility verification (when needed), run call center and email support operations, and to assist in dispute resolution.

5. State Agencies and Other Authorized State Government Entities—To designated State agencies and other authorized governmental entities, including State public utility commissions, State departments of health and human services or other State entities that share data with USAC or the FCC, and their agents, as is consistent with applicable Federal and State laws, for purposes of eligibility verification and recertification; administering the Lifeline Program on behalf of ETCs in that State; performing other management and oversight duties and responsibilities; enabling the National Verifier to perform eligibility verification for individuals applying for or re-certifying for Lifeline support; enabling the State to perform eligibility verification for individuals applying for or re-certifying for Lifeline support; providing enrollment and other selected reports to the State; comparing information contained in the National Lifeline Accountability Database (NLAD) and Lifeline eligibility, recertification, and related systems to information contained in state databases associated with State- administered Lifeline Programs in order to assess differences between State and Federal programs and make adjustments.

6. Social Service Agencies and Other Approved Third Parties—To social service agencies and other third parties that have been approved by USAC for purposes of assisting individuals in applying for and recertifying for Lifeline support.

7. Federal Agencies—To other Federal agencies for the development of and operation under data sharing agreements with USAC or the FCC to enable the National Verifier to perform eligibility verification or recertification for individuals applying for Lifeline support or another federal program using Lifeline qualification as an eligibility criterion.

8. Tribal Nations—To Tribal Nations to perform eligibility verification or recertification for individuals applying

for Lifeline support, to provide enrollment and other selected reports to Tribal Nations, and for purposes of assisting individuals in applying for and recertifying for Lifeline support.

9. Service Providers—To service providers and their registered representatives in states or territories where the National Verifier is operating where the service provider is using the carrier eligibility and status check Application Programming Interface (API) to initiate Lifeline applications and eligibility checks and complete benefit transfer requests. To service providers who have been designated as ETCs to facilitate the provision of service, allow for the service provider to receive reimbursement through the Lifeline Program, to provide information to the relevant ETC about an ETC representative whose account has been disabled for cause, and provide enrollment and other selected reports to service providers.

10. FCC Enforcement Actions—When a record in this system involves an informal complaint filed alleging a violation of the Communications Act of 1934, as amended, or FCC regulations or orders (FCC Rules and Regulations) by an applicant, licensee, certified or regulated entity, or an unlicensed person or entity, the complaint may be provided to the alleged violator for a response. Where a complainant in filing his or her complaint explicitly requests confidentiality of his or her name from public disclosure, the Commission will endeavor to protect such information from public disclosure. Complaints that contain requests for confidentiality may be dismissed if the Commission determines that the request impedes the Commission's ability to investigate and/or resolve the complaint.

11. Congressional Inquiries—To provide information to a Congressional office from the record of an individual in response to an inquiry from that Congressional office made at the written request of that individual.

12. Government-Wide Program Management and Oversight—To the Department of Justice (DOJ) to obtain that department's advice regarding disclosure obligations under the Freedom of Information Act (FOIA); or the Office of Management and Budget (OMB) to obtain that office's advice regarding obligations under the Privacy Act.

13. Other Federal Program Eligibility—To disclose an individual's Lifeline participation or qualification status to a Federal agency or contractor when a federal program administered by the agency or its contractor uses qualification for Lifeline as an eligibility criterion.

14. Law Enforcement and Investigation—When the FCC investigates any violation or potential violation of a civil or criminal law, regulation, policy, executed consent decree, order, or any other type of compulsory obligation and determines that a record in this system, either alone or in conjunction with other information, indicates a violation or potential violation of law, regulation, policy, consent decree, order, or other compulsory obligation, the FCC may disclose pertinent information as it deems necessary to the target of an investigation, as well as with the appropriate Federal (including the Internal Revenue Service to investigate income eligibility verification), State, local, Tribal, international, or multinational agencies, or a component of such an agency, responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, order, or other compulsory obligation.

15. Litigation—To disclose records to DOJ when: (a) the FCC or any component thereof; (b) any employee of the FCC in his or her official capacity; (c) any employee of the FCC in his or her individual capacity where the DOJ or the FCC has agreed to represent the employee; or (d) the United States Government is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and the use of such records by the DOJ is for a purpose that is compatible with the purpose for which the FCC collected the records.

16. Adjudication—To disclose records in a proceeding before a court or adjudicative body, when: (a) the FCC or any component thereof; or (b) any employee of the FCC in his or her official capacity; or (c) any employee of the FCC in his or her individual capacity; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and that the use of such records is for a purpose that is compatible with the purpose for which the agency collected the records.

17. Breach Notification—To appropriate agencies, entities (including USAC), and persons when: (a) the Commission suspects or has confirmed that there has been a breach of the system of records; (b) the Commission has determined that as a result of the suspected or confirmed compromise there is a risk of harm to individuals, the Commission (including its information systems, programs, and operations), the Federal Government, or national security; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Commission's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

18. Assistance to Federal Agencies and Entities Related to Breaches—To another Federal agency or Federal entity or USAC, when the Commission determines that information from this system is reasonably necessary to assist the recipient agency or entity in: (a) responding to a suspected or confirmed breach or (b) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, program, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

19. Computer Matching Program Disclosure—To Federal, State, and local agencies, and USAC, their employees, and agents for the purpose of developing and conducting computer matching programs as regulated by the Privacy Act of 1974, as amended (5 U.S.C. 552a).

20. Prevention of Fraud, Waste, and Abuse Disclosure—To Federal agencies, non-Federal entities, their employees, and agents (including contractors, their agents or employees; employees or contractors of the agents or designated agents); or contractors, their employees or agents with whom the FCC or USAC has a contract, service agreement, cooperative agreement, or computer matching agreement for the purpose of: (1) detection, prevention, and recovery of improper payments; (2) detection and prevention of fraud, waste, and abuse in Federal programs administered by a Federal agency or non- Federal entity; (3) detection of fraud, waste, and abuse by individuals in their operations and programs, but only to the extent that the information shared is necessary and relevant to verify pre- award and prepayment requirements prior to the release of Federal funds, prevent and recover improper payments for services rendered under programs of the FCC or of those Federal agencies and non-Federal entities to which the FCC or USAC provides information under this routine use.

21. Non-Federal Personnel—To disclose information to non-Federal personnel, including FCC or USAC contractors, other vendors (*e.g.,* identity verification services), grantees, or volunteers who have been engaged to

assist the FCC or USAC in the performance of a contract service, grant, cooperative agreement, or other activity related to this system of records that has not been otherwise identified in this Notice and who need to have access to the records in order to perform their activity.

22. Consumer Survey Development and Execution—To contractors, grantees, experts, consultants and their agents, or others performing or working under a contract service, grant, or cooperative agreement with the FCC or USAC, when necessary to develop and conduct consumer surveys as described in this system of records. Individuals who are provided information under these routine use conditions are subject to Privacy Act requirements and disclosure limitations imposed on the Commission.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

The information pertaining to the Lifeline Program includes electronic records, files, data, paper documents, records, and may include audio recordings of calls. Records are maintained in secure, limited access areas. Physical entry by unauthorized persons is restricted through use of locks, passwords, and other security measures. Both USAC and its contractors will jointly manage the electronic data housed at USAC and at the contractors' locations. Paper documents and other physical records (*i.e.,* tapes, compact discs, etc.) will be kept in locked, controlled access areas. Paper documents submitted by applicants to the Lifeline Program will be digitized, and paper copies will be immediately destroyed.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Information in the Lifeline Program system of records may be retrieved by various identifiers, including, but not limited to the individual's name, last four digits of the Social Security Number (SSN), Tribal identification number, date of birth, phone number, residential address, and Lifeline subscriber identification number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

The information in this system is maintained and disposed of in accordance with the National Archives and Records Administration (NARA) Records Schedule DAA–0173–2017–0001–0002 (Universal Service).

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The electronic records, data, and files are maintained in the FCC and the USAC computer network databases, which are protected by the FCC's privacy safeguards, a comprehensive and dynamic set of safety and security protocols and features that are designed to meet all Federal privacy standards, including those required by OMB, the National Institute of Standard and Technology (NIST) and the Federal Information Security Modernization Act of 2014 (FISMA). In addition, access to the electronic files is restricted to authorized USAC and contractors' supervisors and staff and to the FCC's IT supervisors and staff and to the IT contractors who maintain these computer databases. Other FCC employees and contractors may be granted access only on a ''need-to-know'' basis. In addition, data in the network servers for both USAC and its contractors will be routinely backed-up. The servers will be stored in secured environments to protect the data.

The paper documents and files are maintained in file cabinets in USAC and the contractors' office suites. The file cabinets are locked when not in use and at the end of the business day. Access to these files is restricted to authorized USAC and its contractors' staffs.

RECORDS ACCESS PROCEDURES:

Individuals wishing to request access to and/or amendment of records about themselves should follow the Notification Procedure below.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request an amendment of records about themselves should follow the Notification Procedure below.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about themselves may do so by writing to *privacy@fcc.gov.* Individuals requesting access must also comply with the FCC's Privacy Act regulations regarding verification of identity to gain access to the records (47 CFR part 0, subpart E).

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 214885]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) is modifying a system of records, FCC/WCB–3, Affordable Connectivity Program, subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency. The Affordable Connectivity Program (''ACP''), the successor to the Commission's Emergency Broadband Benefit Program, provides discounts for broadband internet access service (''BIAS'') to qualifying households. A household may qualify for the ACP if an individual in the household has applied for and has been approved to receive benefits under the free and reduced price lunch program, receives assistance through the special supplemental nutritional program for women, infants, and children (''WIC''), receives a Pell Grant, qualifies for the Lifeline program, meets certain income requirements, or qualifies for a low-income program offered by internet service providers. The ACP is administered by the Universal Service Administrative Company (USAC) under the direction of the Commission and, by delegation, of the Commission's Wireline Competition Bureau (WCB). This system of records contains information about individual ACP applicants and participants, providers' claims and certifying officers, and providers' enrollment representatives.

DATES: This modified system of records will become effective on April 19, 2024. Written comments on the routine uses are due by May 20, 2024. The routine uses in this action will become effective on May 20, 2024 unless comments are received that require a contrary determination.

ADDRESSES: Send comments to Brendan McTaggart, Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554, or to *privacy@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418–1738, or *privacy@fcc.gov.*

SUPPLEMENTARY INFORMATION: This notice modifies the FCC/WCB–3 system of records as a result of necessary changes and updates. The substantive changes and modifications to the previously published version of the FCC/WCB–3 system of records include:

1. Updating the Categories of Records to include identifying numbers assigned by USAC to applicants and subscribers such as ''Application ID,'' ''Eligibility Check ID'' or ''eligibility ID'' numbers and to accommodate FCC implementation of the Safe Connections Act, which, among other things, designates the Lifeline program to provide emergency communications support to survivors of domestic violence;

2. Adding one new routine use (listed by the routine use number provided in this notice): (2) Application, Enrollment, and Recertification, which permits disclosure of records to the individual to whom those records pertain in order to facilitate the application, enrollment, or recertification processes;

3. Updating and/or revising language in the following routine uses (listed by the routine use number provided in this notice): (4) Federal, State, and Local Agencies, Tribal Nations and Agencies, and Other Authorized Government Entities; (5) Social Service Agencies, Housing Agencies, and Other Approved Third Parties; (12) Law Enforcement and Investigation; and (18) Non-Federal Personnel (formerly named ''Contract Services, Grants, or Cooperative Agreements'');

4. Updating the SORN to include the National Archives and Records Administration (NARA) Records Schedule DAA–0173–2021–0022, Emergency Broadband Benefit Program (EBB Program)/Affordable Connectivity Program (ACP).

SYSTEM NAME AND NUMBER:

FCC/WCB–3, Affordable Connectivity Program.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005; and Wireline Competition Bureau (WCB), Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554.

SYSTEM MANAGER(S):

USAC administers the ACP for the FCC. Address inquiries to the Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005; or Wireline Competition Bureau (WCB), 45 L Street NE, Washington, DC 20554.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

47 U.S.C. 151–154, 201–205, 214, 403; Consolidated Appropriations Act, 2021, Public Law 116–260 sec. 904; Infrastructure Investment and Jobs Act, Public Law 117–58 secs. 60501 *et seq.;* 47 CFR 54.400, 54.401, 54.404, 54.407, 54.409, 54.410, 54.417, 54.419, 54.420, 54.1800–54.1814.

PURPOSE(S) OF THE SYSTEM:

This system of records is maintained for use in determining whether a member of a household meets the eligibility criteria to qualify for and/or recertify for a discount on the cost of internet service and a subsidy for low-cost devices such as computers and tablets; ensuring benefits are not duplicated; dispute resolution regarding eligibility for the ACP; customer surveys and program notifications; audit; verification of a provider's representative identity; and statistical studies.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The categories of individuals in this system include, but are not limited to, those individuals who have applied for the ACP; are individuals currently receiving ACP benefits; are individuals who enable another individual to qualify for benefits, including veterans or their beneficiaries; are minors whose status qualifies a household for benefits; are individuals who have received benefits under the Lifeline Program, including survivors, as that term is defined in the Safe Connections Act (SCA) and FCC regulations or orders, receiving emergency communications support; or are individuals acting on behalf of a participating provider as enrollment representatives who have enrolled or verified the eligibility of a household in the ACP.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of records in the system include an applicant's first and last name; email address; residential address; information on whether the individual resides on Tribal lands or certain high-cost areas; information on whether the address is temporary and/or descriptive and whether it includes coordinates; mailing address (if different); address based on geographic coordinates (geocoding); internet Protocol (IP) address; date of birth; last four digits of social security number, full Tribal identification number, or identification number assigned by the Veterans Administration; telephone number; full name of the qualifying person (if different from the individual applicant); qualifying person's date of birth; qualifying person's email address; qualifying person's residential address; qualifying person's mailing address; the last four digits of the qualifying person's social security number, their full Tribal identification number, or identification number assigned by the Veterans Administration; information on whether the qualifying person resides on Tribal lands or certain high cost areas; full name of the veteran (if different from the individual applicant and qualifying person); veteran's date of birth (if different from the individual applicant and qualifying person); the veteran's identification number assigned by the Veterans Administration; veteran's email address; the veteran's residential address (if different from the individual applicant and qualifying person); the veteran's mailing address; means of qualification for the ACP (*i.e.,* participation in Lifeline (including survivors of domestic violence receiving emergency communications support, whose eligibility records include documentation related to the submission of a legitimate line separation request to a telecommunications provider and documentation of financial hardship), receipt of a Pell Grant, qualification for Federal nutrition programs, etc.); documents demonstrating eligibility; ACP subscriber identification number; ACP application number; identifying numbers assigned by USAC, such as Application ID, Eligibility Check ID, or eligibility ID numbers; security question; answer to security question; user name; password; agent identification information (if an agent is assisting in completing the application); individual applicant's eligibility certifications; individual applicant's signature and date of application; ACP service initiation date and termination date; amount of discount received; and amount of device benefit received.

For participating provider enrollment representatives who register to access the National Verifier or National Lifeline Accountability Database the following information may be collected: first and last name, date of birth, the last four digits of his or her social security number, email address, and address, or other identity proof documentation.

RECORD SOURCE CATEGORIES:

Participating providers and their registered enrollment representatives; individuals applying on behalf of a household; schools; Lifeline databases; and State, Federal, Local and Tribal

Government databases; and third-party identity verifiers.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed to authorized entities, as is determined to be relevant and necessary, outside the FCC as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

1. Program Management—To USAC employees to conduct official duties associated with the management, operation, and oversight of the ACP, the National Lifeline Accountability Database (NLAD), the National Verifier, and the Representative Accountability Database (RAD), as directed by the Commission.

2. Application, Enrollment, and Recertification—To facilitate the ACP application, enrollment, or recertification processes, records from this system may be disclosed to the individual who originally submitted the records, to the individual to whom the records pertain, or to an authorized representative, entity or organization supporting the individual in the application, enrollment, or recertification process.

3. Third Party Contractors—To an employee of a third-party contractor engaged by USAC or a participating provider, or to a subcontractor engaged by a third-party contractor engaged by USAC, to, among other things, develop the ACP Eligibility Database, perform and review eligibility evaluations where the National Verifier conducts such processes for purposes of performing manual eligibility verification (when needed), conduct the eligibility verification or recertification process, run call center and email support operations, assist in dispute resolution, and develop, test, and operate the database system and network.

4. Federal, State, and Local Agencies, Tribal Nations and Agencies, and Other Authorized Government Entities—For purposes of (a) eligibility verification and recertification, including through a computer matching program, (b) providing enrollment and other selected reports, or (c) comparing information contained in NLAD and ACP eligibility, to designated Tribal Nations; designated Federal, State, Local, and Tribal agencies, including public utility commissions and departments of health and human services; and other authorized governmental entities that share data with USAC or the FCC.

5. Social Service Agencies, Housing Agencies, and Other Approved Third Parties—To social service or housing agencies and other third parties (including nonprofit organizations) that have been approved by the FCC or USAC for purposes of assisting individuals in applying for and recertifying for the ACP.

6. Tribal Nations—To Tribal Nations for purposes of assisting individuals in applying for and recertifying for the ACP.

7. Service Providers—To broadband providers, and their registered representatives, in order to confirm an individual's eligibility, complete benefit transfer requests, facilitate the provision of service, complete de-enrollments, allow for the provider to receive reimbursement through the ACP, to provide information to the relevant provider about a registered enrollment representative whose account has been disabled for cause, and provide enrollment and other selected reports.

8. Other Federal Program Eligibility—To disclose an individual's ACP participation status to a Federal agency or contractor, including through a computer matching program, when a Federal program administered by the agency or its contractor uses qualification for the ACP as an eligibility criterion.

9. FCC Enforcement Actions—When a record in this system involves an informal complaint filed alleging a violation of the Communications Act of 1934, as amended, or FCC regulations or orders (FCC Rules and Regulations) by an applicant, licensee, certified or regulated entity, or an unlicensed person or entity, the complaint may be provided to the alleged violator for a response. Where a complainant in filing his or her complaint explicitly requests confidentiality of his or her name from public disclosure, the Commission will endeavor to protect such information from public disclosure. Complaints that contain requests for confidentiality may be dismissed if the Commission determines that the request impedes the Commission's ability to investigate and/or resolve the complaint.

10. Congressional Inquiries—To provide information to a Congressional office from the record of an individual in response to an inquiry from that Congressional office made at the written request of that individual.

11. Government-Wide Program Management and Oversight—To the Department of Justice (DOJ) to obtain that department's advice regarding disclosure obligations under the Freedom of Information Act (FOIA); or the Office of Management and Budget (OMB) to obtain that office's advice regarding obligations under the Privacy Act.

12. Law Enforcement and Investigation—When the FCC investigates any violation or potential violation of a civil or criminal law, regulation, policy, executed consent decree, order, or any other type of compulsory obligation and determines that a record in this system, either alone or in conjunction with other information, indicates a violation or potential violation of law, regulation, policy, consent decree, order, or other compulsory obligation, the FCC may disclose pertinent information as it deems necessary to the target of an investigation, as well as with the appropriate Federal (including the Internal Revenue Service to investigate income eligibility verification), State, local, Tribal, international, or multinational agencies, or a component of such an agency, responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, order, or other compulsory obligation.

13. Litigation—To disclose the records to the Department of Justice (DOJ) when: (a) the FCC or any component thereof; (b) any employee of the FCC in his or her official capacity; (c) any employee of the FCC in his or her individual capacity where the DOJ or the FCC has agreed to represent the employee; or (d) the United States Government is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and the use of such records by the Department of Justice is for a purpose that is compatible with the purpose for which the FCC collected the records.

14. Adjudication—To disclose the records in a proceeding before a court or adjudicative body, when: (a) the FCC or any component thereof; or (b) any employee of the FCC in his or her official capacity; or (c) any employee of the FCC in his or her individual capacity; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, the FCC determines that the records are both relevant and necessary to the litigation, and that the use of such records is for a purpose that is compatible with the purpose for which the agency collected the records.

15. Breach Notification—To appropriate agencies, entities (including USAC), and persons when: (a) the Commission suspects or has confirmed that there has been a breach of the

system of records; (b) the Commission has determined that as a result of the suspected or confirmed compromise there is a risk of harm to individuals, the Commission (including its information systems, programs, and operations), the Federal Government, or national security; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Commission's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

16. Assistance to Federal Agencies and Entities Related to Breaches—To another Federal agency or Federal entity or USAC, when the Commission determines that information from this system is reasonably necessary to assist the recipient agency or entity in: (a) responding to a suspected or confirmed breach or (b) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, program, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

17. Prevention of Fraud, Waste, and Abuse Disclosure—To Federal agencies, non-Federal entities, their employees, and agents (including contractors, their agents or employees; employees or contractors of the agents or designated agents); or contractors, their employees or agents with whom the FCC or USAC has a contract, service agreement, cooperative agreement, or computer matching agreement for the purpose of: (1) detection, prevention, and recovery of improper payments; (2) detection and prevention of fraud, waste, and abuse in Federal programs administered by a Federal agency or non-Federal entity; (3) detection of fraud, waste, and abuse by individuals in their operations and programs, but only to the extent that the information shared is necessary and relevant to verify pre-award and prepayment requirements prior to the release of Federal funds, prevent and recover improper payments for services rendered under programs of the FCC or of those Federal agencies and non-Federal entities to which the FCC or USAC provides information under this routine use.

18. Non-Federal Personnel—To disclose information to non-Federal personnel, including FCC or USAC contractors, other vendors (*e.g.,* identity verification services), grantees, or volunteers who have been engaged to assist the FCC or USAC in the performance of a contract service, grant, cooperative agreement, or other activity related to this system of records that has not been otherwise identified in this Notice and who need to have access to the records in order to perform their activity.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

The information pertaining to the ACP includes electronic records, files, data, paper documents, records, and may include audio recordings of calls. Records are maintained in secure, limited access areas. Physical entry by unauthorized persons is restricted through use of locks, passwords, and other security measures. Both USAC and its contractors will jointly manage the electronic data housed at USAC and at the contractors' locations. Paper documents and other physical records (*i.e.,* tapes, compact discs, etc.) will be kept in locked, controlled access areas. Paper documents submitted by applicants to the ACP and provider representatives will be digitized, and paper copies will be immediately destroyed after digitization.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Information in the ACP system of records may be retrieved by various identifiers, including, but not limited to the individual's name, last four digits of the social security number, Tribal identification number, identification number assigned by the Veterans Administration, date of birth, email address, phone number, address, and ACP subscriber identification number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

The information in this system is maintained and disposed of in accordance with the National Archives and Records Administration (NARA) Records Schedule DAA–0173–2021–0022, Emergency Broadband Benefit Program (EBB Program)/Affordable Connectivity Program (ACP).

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The electronic records, data, and files are maintained in the FCC and the USAC computer network databases, which are protected by the FCC's and USAC's privacy safeguards, a comprehensive and dynamic set of IT safety and security protocols and features that are designed to meet all Federal IT privacy standards, including those required by OMB, the National Institute of Standard and Technology (NIST) and the Federal Information Security Modernization Act of 2014 (FISMA). In addition, access to the electronic files is restricted to authorized USAC and contractors' supervisors and staff and to the FCC's supervisors and staff in WCB and to the IT contractors who maintain these computer databases. Other FCC employees and contractors may be granted access only on a ''need-to-know'' basis. In addition, data in the network servers for both USAC and its contractors will be routinely backed-up. The servers will be stored in secured environments to protect the data. The paper documents and files are maintained in file cabinets in USAC and the contractors' office suites. The file cabinets are locked when not in use and at the end of the business day. Access to these files is restricted to authorized USAC and its contractors' staffs.

RECORD ACCESS PROCEDURES:

Individuals wishing to request access to and/or amendment of records about themselves should follow the Notification Procedures below.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request an amendment of records about themselves should follow the Notification Procedures below.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about themselves may do so by writing to *privacy@fcc.gov.* Individuals requesting access must also comply with the FCC's Privacy Act regulations regarding verification of identity to gain access to the records (47 CFR part 0, subpart E).

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

BILLING CODE 6712–01–P

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

[Docket No. AS24–10]

Agency Information Collection Activities; Reporting Information for the AMC Registry

AGENCY: Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

ACTION: Request for comment.

SUMMARY: The Appraisal Subcommittee (ASC) is issuing this Notice of Request

(Notice) for public comment on the reporting information for the National Registry of Appraisal Management Companies (AMC Registry) to the Office of Management and Budget (OMB) of proposed collection of information. In conjunction with the Paperwork Reduction Act of 1995, the ASC submitted to the OMB a request for review of approval of information collection listed below. The purpose of this Notice is to allow an additional 30 days for public comment from all interested individuals and organizations.

DATES: Written comments must be received on or before May 20, 2024 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: For information, contact Lori Schuster, Management and Program Analyst, ASC at (202) 595–7578 or *Lori@asc.gov.*

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on February 5, 2024, at 89 FR 7707 and allowed 60 days for public comment. No comments were received to that notice.

Title: Reporting Information for the AMC Registry.

The Dodd-Frank Act requires the ASC to maintain the AMC Registry of those AMCs that are either: (1) registered with and subject to supervision by a State that has elected to register and supervise AMCs; or (2) are Federally regulated AMCs. In order for a State that elected to register and supervise AMCs to enter an AMC on the AMC Registry, the following items are required entries by the State via extranet application on the AMC Registry:

State Abbreviation
State Registration Number for AMC
Employer Identification Number (EIN)
AMC Name
  Street Address
  City
  State
  Zip
License or Registration Status
  Effective Date
  Expiration Date
AMC Type (State or multi-State)
Disciplinary Action
  Effective Date
  Expiration Date
Number of Appraisers (for invoicing registry fee)

States listing AMCs on the AMC Registry enter the above information for each AMC for the initial entry only. After the initial entry, the information is retained on the AMC Registry, and will be amended, if necessary, by the State. Currently, 51 States have elected to register and supervise AMCs with 50 States currently entering data in the AMC Registry.

OMB Number: 3139–0009.

Burden Estimates

Type of Review: Regular.
Affected Public: States.
Estimated Number of Respondents: 51 States.
Estimated Burden per Response: 15 minutes.
Frequency of Response: Annually and on occasion.
Estimated Total Annual Burden Hours: We estimate that a State will spend approximately 25.25 hours annually submitting data to the ASC for a total of 1,287.75 hours.

* * * * *

By the Appraisal Subcommittee.

James R. Park,

Executive Director.

[FR Doc. 2024–08377 Filed 4–18–24; 8:45 am]

BILLING CODE 6700–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve a revision of the currently approved information collection project: ''Medical Expenditures Panel Survey—Household and Medical Provider Components.'' In accordance with the Paperwork Reduction Act of 1995, AHRQ invites the public to comment on this proposed information collection.

DATES: Comments on this notice must be received by June 18, 2024.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at *REPORTSCLEARANCEOFFICER@ahrq.hhs.gov*.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427–1477, or by email at *REPORTSCLEARANCEOFFICER@ahrq.hhs.gov*.

SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Expenditures Panel Survey—Household and Medical Provider Components

AHRQ requests that OMB approve a revision to AHRQ's collection of information for the Medical Expenditures Panel Survey—Household and Medical Provider Components: OMB Control number 0935–0118, expiration November 30, 2025. Requested changes are for the Household Component (MEPS–HC) only.

The MEPS was initiated in 1996. Each year a new panel of sample households is selected. Recent annual MEPS–HC sample sizes average about 13,500 households. Data can be analyzed at either the person, family, or event level. The panel design of the survey, which includes 5 rounds of interviews covering 2 full calendar years, provides data for examining person level changes in selected variables such as expenditures, health insurance coverage, and health status.

This Research Has the Following Goals

(1) To produce nationally representative estimates of health care use, expenditures, sources of payment, and health insurance coverage for the U.S. civilian noninstitutionalized population.

(2) To produce nationally representative estimates of respondents' health status, demographic and socio-economic characteristics, employment, access to care, and satisfaction with health care.

Proposed Changes for the 2025 MEPS–HC

• *Core MEPS Interview and Adult SAQ*—The Core interview and the Adult Self-Administered Questionnaire (SAQ) include four questions from the Consumer Assessment of Healthcare Providers and Systems 5.0 (CAHPS 5.0). These questions will have wording changes to update them to CAHPS 5.1. These wording changes will help identify telehealth utilization and access, as well as maintain consistency between CAHPS and MEPS–HC questionnaire items. Below are the four

questions, both the current version and the proposed version:

Current: In the last 12 months, did {you/{PERSON}} have an illness, injury or condition that needed care right away in a clinic, emergency room, or doctor's office?

Proposed: In the last 12 months, did {you/{PERSON}} have an illness, injury, or condition that needed care right away?

Current: In the last 12 months, did you make any appointments for a check-up or routine care for {yourself/{PERSON}} at a doctor's office or clinic?

Proposed: In the last 12 months, did you make any in-person, phone, or video appointments for a check-up or routine care for {yourself/{PERSON}}?

Current: Looking at card CS–2, in the last 12 months, how often did you get an appointment for a check-up or routine care for {yourself/{PERSON}} at a doctor's office or clinic as soon as {you/he/she} needed?

Proposed: Looking at card CS–2, in the last 12 months, how often did you get an appointment for a check-up or routine care for {yourself/{PERSON}} as soon as {you/he/she} needed?

Current: Looking at card CS–3, in the last 12 months, not counting times {you/{PERSON}} went to an emergency room, how many times did {you/he/she} go to a doctor's office or clinic to get health care?

Proposed: Looking at card CS–3, in the last 12 months, not counting the times {you/{PERSON}} went to an emergency room, how many times did {you/he/she} get health care in person, by phone, or by video?

• *Burdens and Economic Impacts of Medical Care Self-Administered Questionnaire (ESAQ)*—The Office of the Secretary—Patient Centered Outcomes Research Trust Fund is funding this SAQ to expand the collection of economic outcomes data for patient-centered outcomes research (PCOR) via the Medical Expenditure Panel Survey (MEPS).

The ESAQ will be completed during Round 3, Panel 30 and Round 5, Panel 29 (Spring 2025) by adult household members (aged 18 and over). The ESAQ will be administered in a mixed-mode of paper and online. Respondents will be offered a $20.00 monetary incentive to complete the ESAQ. This is a one-time data collection and the ESAQ will be removed from the MEPS after the 2025 fielding. The goal of the ESAQ is to enhance the MEPS data by adding new domains related to the economic burdens of seeking and receiving health care, to study economic outcomes in patient-centered outcomes research.

There is no other survey that is now or has been recently conducted that will meet the objectives of the ESAQ. The ESAQ will supplement MEPS data on direct care expenditures with data on major indirect costs, including time costs of getting care and administrative hassles; lost work productivity due to presenteeism, lost productivity in non-market activities, and time costs of informal care. With this new data, researchers will be able to better examine health care economic burdens and equity in health care access, utilization, and outcomes, for example to aggregate social costs of health care and poor health, examine indirect costs associated with common conditions, and analyze disparities and equity in indirect costs.

In developing the ESAQ, AHRQ consulted with several experts in the area and used their expertise to identify priority topics and questions that have already been tested and widely accepted. Nearly all items are either from Federal surveys, federally funded surveys, or adapted from instruments that have been carefully validated. Two questions related to affordability and access are from Kaiser Family Foundation surveys. One question about informal care was cognitively tested in a prior question development project. One question on the high-priority topic of administrative hassles of health insurance was developed from phrases from the carefully tested and widely accepted Consumer Assessment of Health Plans and Systems.

• *Cancer Self-Administered Questionnaire (CSAQ)*—The CSAQ will be removed from the 2025 MEPS–HC.

This study is being conducted by AHRQ through its contractor, Westat, pursuant to AHRQ's statutory authority to conduct and support research on healthcare and on systems for the delivery of such care, including activities with respect to the cost and use of health care services and with respect to health statistics and surveys. 42 U.S.C. 299a(a)(3) and (8); 42 U.S.C. 299b–2.

Method of Collection

The MEPS–HC uses a combination of computer assisted personal interviewing (CAPI), computer assisted video interviewing (CAVI), and self-administered paper and web questionnaires, to collect information about each household member, and the survey builds on this information from interview to interview. CAVI is a new data collection technology and offers the best of both telephone and in-person interviewing, while offering opportunities for cost savings and more accurate reporting.

Estimated Annual Respondent Burden

Exhibit 1 shows the estimated annualized burden hours for the respondents' time to participate in the MEPS–HC and the MEPS–MPC.

MEPS–HC

• *MEPS–HC Core Interview*—completed by 12,218 ''family level'' respondents. Since the MEPS–HC typically consists of 5 rounds of interviewing covering a full two years of data, the annual average number of responses per respondent is 2.5 responses per year. The MEPS–HC core requires an average response time of 88 minutes to administer.

• *Adult SAQ*—completed once during the 2-year panel, in rounds 2 and 4 during odd numbered years, making the annualized average 0.5 times per year. The Adult SAQ will be completed by 11,912 adults and requires an average of 7 minutes to complete.

• *Preventive Care SAQ (PSAQ)*—completed once during the 2-year panel, in rounds 2 and 4 during even numbered years, making the annualized average 0.5 times per year. The PSAQ will be completed by 11,912 adults and requires an average of 7 minutes to complete.

• *Diabetes Care Survey (DCS)*—completed by 1,195 persons each year and requires 3 minutes to complete.

• *Burdens and Economic Impacts of Medical Care SAQ*—completed by 15,577 and is estimated to take 10 minutes to complete. This SAQ will be completed only once in 2025 and will be removed in 2026; to annualize the burden hours the number of responses per respondent is 0.5 times per year.

• *Authorization forms for the MEPS–MPC and Pharmacy Survey*—completed by 6,769 respondents. Each respondent will complete an average of 5.7 forms each year, with each form requiring an average of 3 minutes to complete.

• *Validation interview*—conducted with approximately 1,759 respondents each year and requires 5 minutes to complete. The total annual burden hours for the respondent's time to participate in the MEPS–HC is estimated to be 49,149 hours.

MEPS–MPC

• *Contact Guide/Screening Call*—conducted with 38,683 providers and pharmacies each year and requires 5 minutes to complete.

• *Home Care Providers Event Form*—completed by 540 providers, with each provider completing an average of 5

forms and each form requiring 3 minutes to complete.

• *Office-based Providers Event Form*—completed by 9,300 providers. Each provider will complete an average of 2.8 forms and each form requires 3 minutes to complete.

• *Separately Billing Doctors Event Form*—will be completed by 4,676 providers, with each provider completing 1.2 forms on average, and each form requiring 3 minutes to complete.

• *Hospital Event Form*—completed by 3,935 hospitals or HMOs. Each hospital or HMO will complete 5.9 forms on average, with each form requiring 3 minutes to complete.

• *Institutions (non-hospital) Event Form*—completed by 86 institutions, with each institution completing 1.3 forms on average, and each form requiring 3 minutes to complete.

• *Pharmacy Event Form*—completed by 6,112 pharmacies. Each pharmacy will complete 31.3 forms on average, with each form requiring 3 minutes to complete.

The total burden hours for the respondent's time to participate in the MEPS–MPC is estimated to be 15,674 hours. The total annual burden hours for the MEPS–HC and MPC is estimated to be 64,832 hours.

EXHIBIT 1—MEPS–HC AND MPC ESTIMATED ANNUALIZED RESPONDENTS AND BURDEN HOURS, 2025 TO 2027

Form name	Number of respondents	Number of responses per respondent	Hours per response	Total burden hours

Request for Comments

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, comments on AHRQ's information collection are requested with regard to any of the following: (a) whether the proposed collection of information is necessary for the proper performance of AHRQ's health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: April 15, 2024.

Mamatha Pancholi,

Deputy Director.

BILLING CODE 4160–90–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Meeting of the National Advisory Council on Migrant Health

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act, this notice announces that the Secretary's National Advisory Council on Migrant Health (NACMH or Council) has scheduled a public meeting. Information about NACMH and the agenda for this meeting can be found on the NACMH website at: *https://www.hrsa.gov/advisory-committees/migrant-health.*

DATES: May 15–16, 2024; 8 a.m.–5 p.m. Pacific Time.

ADDRESSES: This meeting will be held in-person and via webinar. The meeting address is DoubleTree by Hilton Hotel Sacramento, 2001 Point West Way, Sacramento, CA 95815. Instructions for joining the meeting by webinar are posted on the NACMH website. For meeting information updates, visit the NACMH website at: *https://www.hrsa.gov/advisory-committees/migrant-health.*

FOR FURTHER INFORMATION CONTACT: Liz Rhee, NACMH Designated Federal Official (DFO), Office of Policy and Program Development, Bureau of Primary Health Care, HRSA, 5600 Fishers Lane, Rockville, MD 20857; *lrhee@hrsa.gov,* or 301–443–1082.

SUPPLEMENTARY INFORMATION: NACMH advises, consults with, and makes recommendations to the Secretary of Health and Human Services on policy, program development, and other matters of significance concerning the activities under section 217 of the Public Health Service Act, as amended (42 U.S.C. 218). Specifically, NACMH provides recommendations concerning policy related to the organization, operation, selection, and funding of migrant health centers and other entities that receive grants and contracts under section 330 of the Public Health Service Act (42 U.S.C. 54b). NACMH meets twice each calendar year, or at the discretion of the DFO in consultation with NACMH's Chair.

Agenda items for the meeting may include topics and issues related to migratory and seasonal agricultural worker health. Refer to the NACMH website listed above for information concerning the May 2024 NACMH meeting, including a draft agenda and meeting materials.

Members of the public will have the opportunity to provide comments at the meeting. Public participants may submit written statements in advance of the scheduled meeting. Oral comments will be honored in the order they are requested and may be limited as time allows. Requests to submit a written statement or make oral comments at the NACMH meeting should be sent to Liz Rhee, DFO, using the contact information above at least 3 business days prior to the meeting.

Individuals who plan to attend and need special assistance or another reasonable accommodation should notify Liz Rhee using the contact information listed above at least 10 business days prior to the meeting. Registration is required to attend the meeting. Registration and meeting attendance instructions are posted on the NACMH website.

Maria G. Button,

Director, Executive Secretariat.

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

National Vaccine Injury Compensation Program; List of Petitions Received

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: HRSA is publishing this notice of petitions received under the National Vaccine Injury Compensation Program (the Program), as required by the Public Health Service (PHS) Act, as amended. While the Secretary of HHS is named as the respondent in all proceedings brought by the filing of petitions for compensation under the Program, the United States Court of Federal Claims is charged by statute with responsibility for considering and acting upon the petitions.

FOR FURTHER INFORMATION CONTACT: For information about requirements for filing petitions, and the Program in general, contact Lisa L. Reyes, Clerk of Court, United States Court of Federal Claims, 717 Madison Place NW, Washington, DC 20005, (202) 357–6400. For information on HRSA's role in the Program, contact the Director, National Vaccine Injury Compensation Program, 5600 Fishers Lane, Room 08W–25A, Rockville, Maryland 20857; (301) 443–6593, or visit our website at: *http://www.hrsa.gov/vaccinecompensation/index.html.*

SUPPLEMENTARY INFORMATION: The Program provides a system of no-fault compensation for certain individuals who have been injured by specified childhood vaccines. Subtitle 2 of title XXI of the PHS Act, 42 U.S.C. 300aa–10 *et seq.,* provides that those seeking compensation are to file a petition with the United States Court of Federal Claims and to serve a copy of the petition to the Secretary of HHS, who is named as the respondent in each proceeding. The Secretary has delegated this responsibility under the Program to HRSA. The Court is directed by statute to appoint special masters who take evidence, conduct hearings as appropriate, and make initial decisions as to eligibility for, and amount of, compensation.

A petition may be filed with respect to injuries, disabilities, illnesses, conditions, and deaths resulting from vaccines described in the Vaccine Injury Table (the Table) set forth at 42 CFR 100.3. This Table lists for each covered childhood vaccine the conditions that may lead to compensation and, for each condition, the time period for occurrence of the first symptom or manifestation of onset or of significant aggravation after vaccine administration. Compensation may also be awarded for conditions not listed in the Table and for conditions that are manifested outside the time periods specified in the Table, but only if the petitioner shows that the condition was caused by one of the listed vaccines.

Section 2112(b)(2) of the PHS Act, 42 U.S.C. 300aa–12(b)(2), requires that ''[w]ithin 30 days after the Secretary receives service of any petition filed under section 2111 the Secretary shall publish notice of such petition in the **Federal Register**.'' Set forth below is a list of petitions received by HRSA on March 1, 2024, through March 31, 2024. This list provides the name of the petitioner, city, and state of vaccination (if unknown then the city and state of the person or attorney filing the claim), and case number. In cases where the Court has redacted the name of a petitioner and/or the case number, the list reflects such redaction.

Section 2112(b)(2) also provides that the special master ''shall afford all interested persons an opportunity to submit relevant, written information'' relating to the following:

1. The existence of evidence ''that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition,'' and

2. Any allegation in a petition that the petitioner either:

a. ''[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition not set forth in the Vaccine Injury Table but which was caused by'' one of the vaccines referred to in the Table, or

b. ''[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table the first symptom or manifestation of the onset or significant aggravation of which did not occur within the time period set forth in the Table but which was caused by a vaccine'' referred to in the Table.

In accordance with section 2112(b)(2), all interested persons may submit written information relevant to the issues described above in the case of the petitions listed below. Any person choosing to do so should file an original and three (3) copies of the information with the Clerk of the United States Court of Federal Claims at the address listed above (under the heading ''For Further Information Contact''), with a copy to HRSA addressed to Director, Division of Injury Compensation Programs, Health Systems Bureau, 5600 Fishers Lane, 08W–25A, Rockville, Maryland 20857. The Court's caption (*Petitioner's Name* v. *Secretary of HHS*) and the docket number assigned to the petition should be used as the caption for the written submission. Chapter 35 of Title 44, United States Code, related to paperwork reduction, does not apply to information required for purposes of carrying out the Program.

Carole Johnson,

Administrator.

List of Petitions Filed

1. Michelle Montgomery, Philadelphia, Pennsylvania, Court of Federal Claims No: 24–0323V
2. Lauryn Thomas, Los Angeles, California, Court of Federal Claims No: 24–0324V

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Development of a Universal Symbol for Language Assistance Services in Health Settings

AGENCY: Office of Minority Health, U.S. Department of Health and Human Services.

ACTION: Request for information.

SUMMARY: The U.S. Department of Health and Human Services (HHS) Office of Minority Health (OMH) seeks input from language access stakeholders, including organizations representing and/or serving communities with Limited English Proficiency (LEP), to inform the development of a universal symbol informing people about the availability of language assistance services in health settings. This is NOT a solicitation for proposals or proposal abstracts.

DATES: Written comments must be submitted and received at the address provided below, no later than 11:59 p.m. on May 20, 2024.

ADDRESSES: OMH invites the submission of the requested information through one of the following methods:

- *Preferred method:* Submit information through the Federal eRulemaking Portal at *http://www.regulations.gov.* Follow the online instructions for submissions.
- *Email:* Send comments to *minorityhealth@hhs.gov* with the subject line ''OMH RFI: Universal Symbol for Language Assistance Services in Health Settings.''

Submissions received after the deadline will not be reviewed. Respond concisely and in plain language. You may use any structure or layout that presents your information well. You may respond to some or all of our questions, and you can suggest other factors or relevant questions. You may also include links to online material or interactive presentations. Clearly mark any proprietary information and place it in its own section or file. Your response will become government property, and we may publish some of its non-proprietary content.

FOR FURTHER INFORMATION CONTACT: Leandra Olson, 1101 Wootton Parkway, Suite 100, Rockville, MD 20852, *Leandra.Olson@hhs.gov,* (301) 348–3577.

SUPPLEMENTARY INFORMATION:

Please Note: This request is for information (RFI) and is for planning purposes only. It is not a notice for a proposal and does not commit the Federal Government to issue a

solicitation, make an award, or pay any costs associated with responding to this announcement. All submitted information shall remain with the Federal Government and will not be returned. All responses will become part of the public record and will not be held confidential. The Federal Government reserves the right to use information provided by respondents for purposes deemed necessary and legally appropriate. Respondents are advised that the Federal Government is under no obligation to acknowledge receipt of the information received or provide feedback to respondents with respect to any information submitted. Responses will not be accepted after the due date.

I. Background Information

The Office of Minority Health (OMH)

Authorized under section 1707 of the Public Health Service Act, 42 U.S.C. 300u–6, as amended, the mission of OMH is to improve the health of racial and ethnic minority and American Indian and Alaska Native populations through the development of health policies and programs that help eliminate health disparities. OMH awards and other activities are intended to support the identification of effective policies, programs and practices for improving health outcomes and to promote sustainability and dissemination of these approaches.

Universal Symbol for Language Assistance Services

Under Fiscal Year 2023 Appropriations, Congress called upon OMH to research, develop, and test methods of informing LEP individuals about the availability of language assistance services. The Congressional report noted that the goal of this research would preferably be to develop a universal symbol informing people about the availability of language access services.

II. Request for Information

Through this RFI, OMH seeks to obtain information from language access stakeholders, including organizations representing and/or serving communities with LEP, to guide the development and implementation of a symbol informing people about the availability of language assistance services in health settings, including for health services, programs, and/or products.

III. Questions

- What methods do you or your organization currently use to inform individuals with LEP about the availability of services in their preferred language?
  - How effective are these methods?
- What are the challenges to implementing these methods? Do you believe a new graphic symbol informing people about the availability of language assistance services would increase the rate at which people request language assistance services and thereby increase access to information about health services, programs, and/or products?
- Are you aware of any previous or existing symbols used to inform people about the availability of language assistance services (*e.g.,* used in the health sector or other sectors)?
  - If yes, please share any information you have regarding the development and implementation of the symbol, including best practices, challenges, and effectiveness or impact.
- What should be considered in the development of a new graphic symbol informing people about the availability of language assistance services in health settings? Please add any specific suggestions you have for the symbol design and usability testing.
- What steps do you recommend for implementing, disseminating, and ensuring effectiveness of a new symbol for language assistance services, including utilization by LEP individuals, healthcare providers, public health departments, and other entities engaged in health care?
- Are there frameworks or standards that should be considered to support the development, testing, implementation, and dissemination of a new symbol for language assistance services?

IV. Definitions

For the purposes of this RFI, the following working definitions apply:

Language Assistance Services—All oral, written, and signed language services needed to assist individuals with LEP and people with disabilities to communicate effectively. Examples of language assistance services include oral interpretation services and written translations of materials.

Limited English Proficiency (LEP)—An individual who does not speak English as their preferred language and who has a limited ability to read, write, speak or understand English in a manner that permits them to communicate effectively and have meaningful access to and participate in the services, activities, programs, or other benefits administered in a health setting. Individuals with LEP may be competent in English for certain types of communication (*e.g.,* speaking or understanding) but have limited proficiency in English in other areas (*e.g.,* reading or writing). LEP designations are also context-specific; an individual may possess sufficient English language skills to function in one setting (*e.g.,* conversing in English with coworkers), but these skills may be insufficient in other settings (*e.g.,* addressing court proceedings). An individual who is deaf or hard of hearing may also have limited proficiency in spoken or written English.

Dated: April 10, 2024.

Leandra Olson,

Policy Team Lead, Office of Minority Health.

National Center for Complementary and Integrative Health; Notice of Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Center for Complementary and Integrative Health Special Emphasis Panel Institutional Research Training Grants (IT)

Date: May 22, 2024.

Time: 1:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Center for Complementary and Integrative Health, Democracy II, 6707 Democracy Blvd., Bethesda, MD 20892, (Virtual Meeting).

Contact Person: MICHAEL ERIC AUTHEMENT, Ph.D., Scientific Review Officer Office of Scientific Review Division of Extramural Activities 6707 Democracy Boulevard Bethesda, MD 20817 *michael.authement@nih.gov.*

(Catalogue of Federal Domestic Assistance Program Nos. 93.213, Research and Training in Complementary and Alternative Medicine, National Institutes of Health, HHS)

Dated: April 15, 2024.

Melanie J. Pantoja,

Program Analyst, Office of Federal Advisory Committee Policy.

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Prospective Grant of Exclusive License, Inter-Institutional Agreement-Institution Lead: Polyvalent Vaccines and Methods for Making Them

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: The National Institute of Allergy and Infectious Diseases, an institute of the National Institutes of Health, Department of Health and Human Services, on behalf of the Centers for Disease Control and Prevention, Department of Health and Human Services, is contemplating the grant of an exclusive, sublicensable patent license to University Health Network, located in Toronto, Canada, its rights to the technologies and the patent applications listed in the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: Only written comments and/or applications for a license which are received by the Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases on or before May 6, 2024 will be considered.

ADDRESSES: Requests for copies of the patent applications, inquiries, and comments relating to the contemplated exclusive patent license should be directed to: Ann Marie Flammang Ph.D., Senior Technology Transfer Patent Specialist, Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases, 5601 Fishers Lane, Suite 2G, MSC9804, Rockville, MD 20852–9804, phone number 301–761–6682, or *annmarie.flammang@nih.gov.*

SUPPLEMENTARY INFORMATION: The following represents the intellectual property to be licensed under the prospective agreement: United States Provisional Patent Application Number 63/278,467, filed November 11, 2021, entitled ''Polyvalent Vaccines and Methods for Making Them'' (HHS Reference No. E–091–2024–0–US–01), and Patent Cooperation Treaty Patent Application Number PCT/CA2022/051680, filed November 14, 2022, entitled ''Polyvalent Vaccines and Methods for Making Them'' (HHS Reference No. E–091–2024–0–PC–01). All patent rights in these inventions have been assigned to University Health Network, University of Liverpool, The Governing Council of the University of Toronto, and Centers for Disease Control and Prevention.

The prospective patent license will be for the purpose of consolidating the patent rights to University Health Network, the co-owners of said rights, for commercialization. Consolidation of these co-owned rights is intended to expedite development of the technology, consistent with the goals of the Bayh-Dole Act codified as 35 U.S.C. 200–212.

The prospective patent license will be worldwide, exclusive, and may be limited to those fields of use commensurate in scope with the patent rights. It will be sublicensable, and any sublicenses granted by University Health Network will be subject to the provisions of 37 CFR part 404.

The technology is a strategy to overcome the challenge of virus heterogeneity against hepatitis C virus (HCV). Using a model of hypervariable region 1 (HRV1) genetic variability and observed discrete, genotype-independent clusters, sequences were selected to synthesize peptides for vaccination. The pentavalent mixture resulted in an antibody response that was more broadly neutralizing than each individual variant or pooled sera, indicating a synergistic interaction among immune responses to related, but distinct, HVR1 variants. These findings open a new path for the development of an HCV vaccine using sequence complementary variants of genetically divergent HVR1 antigenic epitopes. A method was developed for producing a multivariant vaccine comprised of a plurality of peptides or the nucleic acids encoding them.

This notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will be royalty bearing, and the prospective exclusive license may be granted unless within fifteen (15) days from the date of this published notice, the National Insitute of Allergy and Infectious Diseases receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially, and may be made publicly available.

Complete license applications submitted in response to this Notice will be presumed to contain business confidential information and any release of information in these license applications will be made only as required and upon a request under *the Freedom of Information Act,* 5 U.S.C. 552.

Dated: April 15, 2024.

Surekha Vathyam,

Deputy Director, Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases.

BILLING CODE 4140–01–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR 6453–N–01]

Announcement of Tenant Protection Voucher Funding Awards for Fiscal Year 2023 for the Housing Choice Voucher Program

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Notice of fiscal year 2023 awards.

SUMMARY: In accordance with the Department of Housing and Urban Development Reform Act of 1989, this document notifies the public of Tenant Protection Voucher (TPV) funding awards for fiscal year (FY) 2023 to public housing agencies (PHAs) under the Section 8 Housing Choice Voucher Program (HCVP). The purpose of this notice is to publish the names, addresses of awardees, and the amount of their non-competitive funding awards for assisting households affected by housing conversion actions, public housing relocations and replacements, and moderate rehabilitation replacements. This notice also includes a link to the TPV awards issued since FY 2020, which can be sorted by PHAs, project name and identification number, by category of TPVs such as Multifamily or Public Housing, and by state and by HUD regions.

FOR FURTHER INFORMATION CONTACT: Danielle L. Bastarache, Deputy Assistant Secretary, Office of Public Housing and Voucher Programs, Office of Public and Indian Housing, Department of Housing and Urban Development, 451 Seventh Street SW, Room 4204, Washington, DC 20410–5000, telephone (202) 402–1380. HUD welcomes and is prepared to receive calls from individuals who are

deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit *https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs.*

SUPPLEMENTARY INFORMATION: The regulations governing the HCVP are published at 24 CFR 982. The purpose of the rental assistance program is to assist eligible families to pay their rent for decent, safe, and sanitary housing in the private rental market.

The FY 2023 awardees announced in this notice were provided HCVP tenant protection vouchers (TPVs) funds on an as-needed, non-competitive basis. TPV awards made to PHAs for program actions that displace families living in public housing were made on a first-come, first-served basis in accordance with PIH Notice 2018–04, ''Voucher Funding in Connection with the Demolition or Disposition of Occupied Public Housing Units.'' In addition, TPV awards for actions such as section 8 project-based contract expirations and terminations were made in accordance with PIH Notice 2022–14, ''Implementation of the Federal Fiscal Year (FFY) 2022 Funding Provisions for the Housing Choice Voucher Program.'' Lastly, awards for certain project under the Second Component of the Rental Assistance Demonstration were provided consistent with PIH Notice H–2020–09 PIH–2020–23(HA), REV–4, ''Rental Assistance Demonstration-Final Implementation, Revision 4.'' Announcements of awards provided under the NOFA process for Mainstream, Designated Housing, Family Unification (FUP), and Veterans Assistance Supportive Housing (VASH) programs will be published in a separate **Federal Register** notice.

Awards published under this notice were provided (1) to assist families living in HUD-owned properties that are being sold; (2) to assist families affected by the expiration or termination of their Project-based Section 8 and Moderate Rehabilitation contracts; (3) to assist families in properties where the owner has prepaid the HUD mortgage; (4) to assist families in projects where the Rental Supplement and Rental Assistance Payments contracts are expiring (RAD—Second Component); (5) to provide replacement housing assistance for single room occupancy (SRO) units that fail housing quality standards (HQS); and (6) to assist families in Public Housing developments that received HUD approval for the following actions: (a) units scheduled for demolition or disposition approved under section 18, (b) required conversions approved under section 33, (c) voluntary conversions approved under section 22, (d) homeownership plans approved under section 32, (e) removals authorized under Choice Neighborhood, and (f) public housing developments in connection with a HUD-approved HOPE VI revitalization or demolition grant.

A special administrative fee of $200 per occupied unit was provided to PHAs to compensate for any extraordinary HCVP administrative costs associated with the Multifamily Housing conversion actions.

The Department awarded new budget authority in the amount of $139,642,219 to recipients under all the above-mentioned categories for 12,694 housing choice vouchers. For further information about these TPV awards, and for awards since FY 2020, please use the TPV Dashboard log using this link: *https://www.hud.gov/program_offices/public_indian_housing/programs/hcv/fmd.* You can sort the awards by PHA, project name and identification number, and by state and HUD regions.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the names, addresses of awardees, and their award amounts in appendix A. The awardees are listed alphabetically by State for each type of TPV award.

Dominique Blom,

General Deputy Assistant Secretary for Public and Indian Housing.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[BLM_HQ–FRN_MO4500178304]

Adoption of Categorical Exclusions Under Section 109 of the National Environmental Policy Act

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of adoption of categorical exclusions under section 109 of the National Environmental Policy Act.

SUMMARY: The Department of the Interior (Department) is adopting the United States Forest Service's (USFS) categorical exclusion for short-term mineral, energy, or geothermal investigations and the Department of the Navy's (DON) categorical exclusion for pre-lease upland exploration activities for oil, gas, or geothermal reserves, (*e.g.,* geophysical surveys) pursuant to section 109 of the National Environmental Policy Act (NEPA) to use for proposed Bureau of Land Management (BLM) approval of geothermal exploration operations. This notice describes the limited categories of proposed actions for which the BLM intends to use the USFS and DON categorical exclusions and details the consultation between the respective agencies.

DATES: The adoption takes effect on April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Lorenzo Trimble, Geologist—National

Geothermal Program Lead, National Renewable Energy Coordination Office (330), telephone: 775–224–0267, or email: *ltrimble@blm.gov.*

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

I. National Environmental Policy Act and Categorical Exclusions

NEPA (42 U.S.C. 4321–4347, as amended) requires all Federal agencies to consider the environmental impact of their proposed actions before deciding whether and how to proceed. 42 U.S.C. 4321, 4332. NEPA's aims are to ensure that agencies consider the potential environmental effects of their proposed actions in their decision-making processes and inform and involve the public in that process. 42 U.S.C. 4332. NEPA created the Council on Environmental Quality (CEQ), which promulgated NEPA implementing regulations, 40 CFR parts 1500 through 1508 (CEQ regulations).

To comply with NEPA, agencies determine the appropriate level of review for a proposed action. Where required, these levels of review may be documented in an environmental impact statement (EIS), an environmental assessment (EA), or by reliance on a categorical exclusion. 40 CFR 1501.3. If a proposed action is likely to have significant environmental effects, the agency will prepare an EIS and document its decision in a record of decision. 40 CFR 1502, 1505.2. If the proposed action is not likely to have significant environmental effects or where the level of significance is unknown, the agency will prepare an EA, which involves a more concise analysis and process than an EIS. 40 CFR 1501.5. Following preparation of an EA, the agency may reach a finding of no significant impact if the analysis shows that the action will have no significant effects. 40 CFR 1501.6. If, following preparation of an EA, the agency finds that the proposed action may have significant effects, it will prepare an EIS before issuing any decision to authorize the action.

Under NEPA and CEQ's implementing regulations, a Federal agency can establish categorical exclusions—categories of actions that the agency has determined normally do not significantly affect the quality of the human environment—in its agency NEPA procedures. 42 U.S.C. 4336(e)(1); 40 CFR 1501.4, 1507.3(e)(2)(ii), 1508.1(d). If an agency determines that a categorical exclusion covers a proposed action, the agency then evaluates the proposed action for any extraordinary circumstances in which a normally excluded action may have a significant effect. 40 CFR 1501.4(b). Responsible Officials in the Department's bureaus evaluate proposed actions for the presence of extraordinary circumstances in accordance with the Department's NEPA implementing regulations at 43 CFR 46.205 and 46.215. If no extraordinary circumstances are present or if further analysis determines that the extraordinary circumstances do not involve the potential for significant environmental impacts, the agency may rely on the categorical exclusion to approve the proposed action without preparing an EA or EIS. 42 U.S.C. 4336(a)(2), 40 CFR 1501.4. If any extraordinary circumstances are present, the agency may nonetheless categorically exclude the proposed action if it determines that there are circumstances that lessen the impacts or other conditions sufficient to avoid significant effects. 40 CFR 1501.4(b)(1).

Section 109 of NEPA, enacted as part of the Fiscal Responsibility Act of 2023, allows a Federal agency to ''adopt a categorical exclusion listed in another agency's NEPA procedures for a category of proposed agency actions for which the categorical exclusion was established.'' 42 U.S.C. 4336c. To adopt another agency's categorical exclusion under section 109, the adopting agency: (1) identifies the relevant categorical exclusion listed in another agency's (''establishing agency'') NEPA procedures ''that covers a category of proposed actions or related actions''; (2) consults with the establishing agency ''to ensure that the proposed adoption of the categorical exclusion for a category of actions is appropriate''; (3) ''identif[ies] to the public the categorical exclusion that the [adopting] agency plans to use for its proposed actions''; and (4) documents adoption of the categorical exclusion. 42 U.S.C. 4336c. This notice documents the Department's adoption of the USFS categorical exclusion for short-term mineral, energy, or geothermal investigations and the DON categorical exclusion for pre-lease exploration activities for use by the BLM.

The Department's NEPA procedures are found at 43 CFR part 46. These procedures address compliance with NEPA. The Department maintains a list of categorical exclusions available to all Department bureaus and offices at 43 CFR 46.210. Additional Department-wide NEPA policy is found in the Departmental Manual (DM), in chapters 1 through 4 of part 516, available at *https://www.doi.gov/document-library.* The NEPA procedures for individual bureaus in the Department are published in additional chapters of part 516 of the DM. Chapter 11 of the 516 DM sets forth the BLM's NEPA procedures, and the BLM categorical exclusions are listed in 516 DM 11.9 and 11.10. (See *https://www.doi.gov/document-library/departmental-manual/516-dm-11-managing-nepa-process-bureau-land-management.*)

II. Identification of the Categorical Exclusions

USFS Categorical Exclusion for Short-Term Mineral, Energy, or Geophysical Investigations

The USFS categorical exclusion for short-term mineral, energy, or geophysical investigations is found at 36 CFR 220.6(e)(8), and states as follows:

> Short-term (1 year or less) mineral, energy, or geophysical investigations and their incidental support activities that may require cross-country travel by vehicles and equipment, construction of less than 1 mile of low standard road, or use and minor repair of existing roads. Examples include but are not limited to:
>
> (i) Authorizing geophysical investigations which use existing roads that may require incidental repair to reach sites for drilling core holes, temperature gradient holes, or seismic shot holes;
>
> (ii) Gathering geophysical data using shot hole, vibroseis, or surface charge methods;
>
> (iii) Trenching to obtain evidence of mineralization;
>
> (iv) Clearing vegetation for sight paths or from areas used for investigation or support facilities;
>
> (v) Redesigning or rearranging surface facilities within an approved site;
>
> (vi) Approving interim and final site restoration measures; and
>
> (vii) Approving a plan for exploration which authorizes repair of an existing road and the construction of 1/3 mile of temporary road; clearing vegetation from an acre of land for trenches, drill pads, or support facilities.

The USFS conducts review of any proposed reliance on its categorical exclusion according to its extraordinary circumstances review protocol found at 36 CFR 220.6.

DON Categorical Exclusion for Pre-Lease Upland Exploration Activities for Oil, Gas or Geothermal Reserves

The DON categorical exclusion for pre-lease exploration activities is found at 32 CFR 775.6(f)(39), and states as follows:

''Pre-lease upland exploration activities for oil, gas or geothermal reserves (*e.g.,* geophysical surveys).''

The DON conducts review of any proposed reliance on its categorical exclusion according to its extraordinary circumstances review protocol found at 32 CFR 775.6(e).

Proposed Department Category of Actions

Both the USFS and the DON categorical exclusions allow for pre-leasing exploration activities, geophysical surveys, or geophysical investigations. Those activities are included in the BLM's definition of geothermal ''exploration operations.'' See 43 CFR 3200.1. The DON categorical exclusion broadly allows activities meeting the BLM's definition of geothermal ''exploration operations,'' but specifies that these be conducted at the pre-leasing stage. Both the USFS and DON categorical exclusions could be applied to the BLM's approval of geothermal exploration operations as provided for under the regulations implementing the Geothermal Steam Act of 1970 as amended, 30 U.S.C. 1001 *et seq.,* Public Law 91–581, 84 Stat. 1566, and the Department intends for the BLM to use these adopted categorical exclusions exclusively to facilitate approval of such geothermal exploration operations, and not to use them for oil and gas or other mineral activities. Geothermal exploration operations do not contact or directly test a geothermal resource. The BLM Geothermal Resource Leasing regulations are found at 43 CFR part 3200 and include provisions defining the scope of *geothermal exploration operations* as follows:

> . . . any activity relating to the search for evidence of geothermal resources, where you are physically present on the land and your activities may cause damage to those lands. Exploration operations include, but are not limited to, geophysical operations, drilling temperature gradient wells, drilling holes used for explosive charges for seismic exploration, core drilling or any other drilling method, provided the well is not used for geothermal resource production. It also includes related construction of [routes] and trails, and cross-country transit by vehicles over public land. Exploration operations do not include the direct testing of geothermal resources or the production or utilization of geothermal resources.

43 CFR 3200.1. (The substitution of the term ''routes'' reflects current BLM terminology indicating the limited use and temporary nature of resource access routes.)

The BLM intends to rely on these adopted categorical exclusions as appropriate to support approval of Notices of Intent to Conduct Geothermal Exploration Operations (Form 3200–9) (NOIs). Requirements for reclamation are provided on Form 3200–9 and in the applicable regulations (See 43 CFR 3251.11(g)). Applications for NOI permits may be submitted for conforming activities on any federal lands or interests in lands open to geothermal development (43 CFR 3250.11) and do not require a lease. The NOI permit application and the associated regulations governing geothermal exploration operations permitting do not expressly limit the timeframe for activities. However, if the BLM were to rely on the adopted USFS categorical exclusion to approve such a permit, those exploration activities would have to be concluded within a 1-year timeframe. Implementation of reclamation plans can take longer, however, and may require extended monitoring to evaluate the success of the reclamation.

Responsible Officials in the Department will be able to rely on either the USFS or the DON categorical exclusions, as appropriate, to process NOIs for qualifying geothermal exploration operations. Responsible Officials in the Department will document such reliance, including describing how the proposed action conforms to the terms of whichever (the USFS or DON) categorical exclusion is relied upon, in accordance with any applicable Departmental NEPA or BLM NEPA or geothermal program guidance.

III. Consideration of Extraordinary Circumstances

When applying these categorical exclusions, Responsible Officials in the Department will evaluate the proposed actions to ensure evaluation of whether there are any extraordinary circumstances. The Department's extraordinary circumstances are listed at 43 CFR 46.215 and include, in part, consideration of impacts on public health and safety; natural resources and unique geographic characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; national monuments; migratory birds; and other ecologically significant or critical areas; unresolved conflicts concerning alternative uses of available resources; unique or unknown environmental risks; precedent for future decision-making; historic properties; listed species or critical habitat; low income or minority populations; access by Indian religious practitioners to, and for ceremonial use of, Indian sacred sites and the physical integrity of those sites; and contribution to the introduction, continued existence, or spread of invasive weeds or non-native invasive species. Responsible Officials in the Department are required to review any proposed action for which they intend to rely on a categorical exclusion, as provided at 43 CFR 46.205, by comparing it with the list at 43 CFR 46.215 and documenting that review in accordance with any applicable Departmental or bureau NEPA or program guidance.

The Department's list of extraordinary circumstances is comparable to those of the USFS, found at 36 CFR 220.6(b) and of the DON, found at 32 CFR 775.6(e); therefore, Responsible Officials in the Department intending to rely on either the USFS or the DON categorical exclusion will need to review the proposed action only in accordance with the Department's NEPA regulations at 43 CFR 46.205 and 46.215. The Responsible Official will assess whether an extraordinary circumstance is present, and if so, whether there are circumstances that lessen the impacts or other conditions sufficient to avoid significant effects, consistent with 40 CFR 1501.4(b). If the Responsible Official cannot rely on a categorical exclusion to support a decision on a particular proposed action due to extraordinary circumstances, the Responsible Official will prepare an EA or EIS, consistent with 40 CFR 1501.4(b)(2) and 43 CFR 46.205(c).

IV. Consultation With USFS and DON and Determination of Appropriateness

In January and February of 2024, the Department consulted with the USFS and the DON about the appropriateness of the Department's adoption of their respective categorical exclusions. Those consultations each included a review of the USFS's and the DON's experience in establishing and applying the categorical exclusions, as well as the types of actions for which the BLM plans to use the categorical exclusions. Based on those consultations and reviews, the Department has determined that the types of activities the BLM proposes to authorize as geothermal exploration operations are substantially similar to the geothermal resource-related activities for which the USFS and the DON have applied their respective categorical exclusions. Accordingly, the impacts of the BLM-authorized geothermal exploration operations, including the types of pre-lease exploration activities described in the DON categorical exclusion and the examples of activities described in the

USFS categorical exclusion, would be substantially similar to the impacts of these USFS and the DON actions, which are not significant, absent extraordinary circumstances. Therefore, the Department has determined that its proposed use of the USFS and the DON categorical exclusions to support BLM permitting decisions for qualifying geothermal exploration operations, as described in this notice, is appropriate. BLM will not rely on either the USFS or the DON categorical exclusions to support approval of other mineral or non-geothermal energy activities. Extending the BLM's use of the USFS and the DON categorical exclusions to other mineral or non-geothermal energy activities would require the agency to complete a separate process to adopt those categorical exclusions for that purpose in accordance with the requirements of Section 109 of NEPA.

V. Notice to the Public and Documentation of Adoption

This notice serves to identify to the public and document the Department's adoption of the USFS categorical exclusion for short-term mineral, energy, or geophysical investigations and the DON categorical exclusion for pre-lease upland exploration activities for oil, gas, or geothermal reserves and identifies the types of actions to which Responsible Officials in the Department will apply the categorical exclusions, including only approval of permitting for geothermal exploration operations, and the considerations Responsible Officials in the Department will use in determining whether an action is within the scope of the categorical exclusions. Upon issuance of this notice, the adopted USFS and DON categorical exclusions will be available to the Department for the BLM to rely upon to authorize geothermal exploration operations and will be accessible in 516 DM 11, found at *https://www.blm.gov/programs/planning-and-nepa/what-informs-our-plans/nepa* and at *https://www.doi.gov/oepc/nepa/categorical-exclusions.*

VI. Proposed Text for the Departmental Manual

The Department will add the following text to chapter 11 of part 516 of the Departmental Manual:

11.11 Categorical Exclusions Adopted Through NEPA Section 109

Responsible Officials will document reliance on the categorical exclusions listed below, including describing how the proposed action conforms to the terms of the categorical exclusion relied upon and application of extraordinary circumstances review consistent with 43 CFR 46.215.

A. Geothermal Exploration Operations

The Department has adopted the following categorical exclusions for the limited purpose of approving Notices of Intent to Conduct Geothermal Exploration Operations (Form 3200–9).

(1) U.S. Forest Service, 36 CFR 220.6(e)(8):

Short-term (1 year or less) mineral, energy, or geophysical investigations and their incidental support activities that may require cross-country travel by vehicles and equipment, construction of less than 1 mile of temporary road, or use and minor repair of existing roads. Examples include, but are not limited to:

(i) Authorizing geophysical investigations which use existing roads that may require incidental repair to reach sites for drilling core holes, temperature gradient holes, or seismic shot holes;

(ii) Gathering geophysical data using shot hole, vibroseis, or surface charge methods;

(iii) Trenching to obtain evidence of mineralization;

(iv) Clearing vegetation for sight paths or from areas used for investigation or support facilities;

(v) Redesigning or rearranging surface facilities within an approved site;

(vi) Approving interim and final site restoration measures; and

(vii) Approving a plan for exploration which authorizes repair of an existing road and the construction of ⅓ mile of temporary road; clearing vegetation from an acre of land for trenches, drill pads, or support facilities.

and

(2) Department of the Navy, 32 CFR 775.6(f)(39):

Pre-lease upland exploration activities for oil, gas, or geothermal reserves, (*e.g.,* geophysical surveys).

(Authority: 42 U.S.C. 4336c)

Stephen G. Tryon,

Director, Office of Environmental Policy and Compliance.

BILLING CODE 4331–29–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_NF_FRN_MO4500178506]

Notice of Availability of the Draft Resource Management Plan Amendment and Environmental Impact Statement for the GridLiance West Core Upgrades Transmission Line Project in Nye and Clark Counties, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) has prepared a Draft Resource Management Plan (RMP) Amendment and Draft Environmental Impact Statement (EIS) for the GridLiance West Core Upgrades Transmission Line Project and by this notice is providing information announcing the opening of the comment period on the Draft RMP Amendment/EIS.

DATES: This notice announces the opening of a 90-day comment period for the Draft RMP Amendment/EIS beginning with the date following the Environmental Protection Agency's (EPA) publication of its Notice of Availability (NOA) in the **Federal Register**. The EPA usually publishes its NOAs on Fridays.

To afford the BLM the opportunity to consider comments in the Proposed RMP Amendment/Final EIS, please ensure your comments are received prior to the close of the 90-day comment period or 15 days after the last public meeting, whichever is later.

The BLM will hold two public meetings. One meeting will be held at the Pahrump Nugget Hotel and Casino, 681 NV–160, Pahrump, NV 89048 on Thursday, May 9, 2024 from 6 p.m. to 8 p.m. Pacific Time. A second meeting will be held virtually via Zoom on Tuesday, May 7, 2024 at 6 p.m. to 8 p.m. Pacific Time. Additional information on the meetings, including how to register, can be found on the BLM National NEPA Register at: *https://eplanning.blm.gov/eplanning-ui/project/2025248/510.*

ADDRESSES: The Draft RMP Amendment/EIS is available for review on the BLM National NEPA Register at *https://eplanning.blm.gov/eplanning-ui/project/2025248/510.*

Written comments related to the GridLiance West Core Upgrades

Transmission Line Project may be submitted by any of the following methods:

- *Website: https://eplanning.blm.gov/eplanning-ui/project/2025248/510.*
- *Email: BLM_NV_SNDO_NEPA_Comments@blm.gov.*
- *Mail:* BLM, Southern Nevada District Office, Attn: GridLiance West Core Upgrades Transmission Line Project, 4701 North Torrey Pines Drive, Las Vegas, NV 89130–2301.

Documents pertinent to this proposal may be examined online at *https://eplanning.blm.gov/eplanning-ui/project/2025248/510* and at the Southern Nevada District Office.

FOR FURTHER INFORMATION CONTACT: Lisa Moody, Realty Specialist, telephone 702–515–5000; address BLM, Southern Nevada District Office, Attn: GridLiance West Core Upgrades Transmission Line Project, 4701 North Torrey Pines Drive, Las Vegas, NV 89130–2301; email *emoody@blm.gov.* Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Moody. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Nevada State Director has prepared a Draft RMP Amendment/EIS and provides information announcing the opening of the comment period on the Draft RMP Amendment/EIS.

The RMP Amendment is being considered to allow the BLM to evaluate the right-of-way (ROW) application submitted by GridLiance LLC to construct, operate, maintain, and decommission approximately 155 miles of transmission system upgrades across BLM-administered lands, which would require amending the existing 1998 Las Vegas RMP.

The planning area is located in Clark and Nye Counties, Nevada and encompasses approximately 4,309 acres of public land.

Purpose and Need

In accordance with FLPMA, the BLM is authorized to grant ROWs on public lands for systems of generation, transmission, and distribution of electric energy (Section 501(a)(4)). The BLM's purpose and need for this action is to respond to the FLPMA ROW amendment applications submitted by GridLiance under Title V of FLPMA (43 U.S.C. 1761) to construct, operate, maintain, and decommission approximately 155 miles of transmission system upgrades on approximately 4,900 acres in Clark and Nye Counties, Nevada. Proposed changes to the existing ROW grants require a plan amendment to the 1998 Record of Decision for the Approved Las Vegas Resource Management Plan and Final Environmental Impact Statement (the Las Vegas RMP) (BLM 1998), which is analyzed in this Draft EIS.

Propose Action and Alternatives, Including the Preferred Alternative

The BLM has analyzed eight alternatives, including the no action alternative and the Proposed Action.

The Proposed Action is to amend portions of existing BLM ROW grants to construct, operate, maintain, and decommission approximately 155 miles of upgraded alternating current overhead transmission lines on lands administered by the BLM, BIA, DoD, State of Nevada, and Clark County, as well as private lands, in Clark and Nye Counties, Nevada. Authorization of this proposal would require amendments to the Las Vegas RMP to modify some Visual Resource Management class locations. The Project is an upgrade of an existing overhead transmission system that currently consists of a single-circuit 230-kV transmission line system and seven substations. The proposed upgrade consists of four segments:

- *Segment 1:* Sloan Canyon Switchyard to Trout Canyon Switchyard. Includes upgrades and expansions at both switchyards. This segment would be upgraded to a double-circuit 500-kV transmission line, regardless of the voltage option chosen for the remainder of the system.
- *Segment 2:* Trout Canyon Switchyard to Wheeler Pass Substation. Includes upgrades and expansion at the Gamebird Substation. This segment would be upgraded to a double-circuit 500-kV (the 500kV option) or a double-circuit 230-kV (the 230-kV option) transmission line.
- *Segment 3:* Wheeler Pass Substation to Innovation Substation. Includes construction of the Wheeler Pass Substation, potential construction of the Johnnie Corner Substation, and upgrades at the Innovation Substation. Between Wheeler Pass Substation and Johnnie Corner Substation, the transmission line would be upgraded to a double-circuit capable, single-circuit 500-kV (the 500-kV option) or a double-circuit capable, single-circuit 230-kV (the 230-kV option) line; however, the proposed Johnnie Corner Substation would not be constructed if the transmission line is approved by CAISO as 230 kV. The portion from the proposed Johnnie Corner Substation to Innovation Substation would be upgraded to a double-circuit capable, single-circuit 230-kV system, regardless of the voltage option chosen for the remainder of the system.
- *Segment 4:* Innovation Substation to Northwest Substation. Includes upgrades at the Desert View Substation. This segment would be upgraded to a double-circuit 230-kV transmission line, regardless of the voltage option chosen for the remainder of the system.

Alternatives 1 through 6 each contain modifications to the Proposed Action, such as to the alignment of a particular segment, the types of facilities or structures utilized, or the types of transmission lines to be installed.

Alternative 1 involves a modification of Segment 2. This alternative is identical to the Proposed Action in all ways, including the need for an amendment to the Las Vegas RMP (BLM 1998), with the exception of a reroute that follows the designated utility corridor approximately 0.5 mile farther north before turning west to approach the proposed Wheeler Pass Substation. This alternative route utilizes more of the designated utility corridor and has two less angle structures and two more tangent structures than the Proposed Action.

Alternative 2 involves a modification to Segment 1 to ensure compatibility with the proposed Southern Nevada Supplemental Airport (SNSA) and avoid future potential hazards to air navigation. Alternative 2 is identical to the Proposed Action in all ways, including the need for an amendment to the Las Vegas RMP, with the exception of the following. Alternative 2 involves installation of two single-circuit 500-kV transmission lines with a horizontal conductor configuration. This adjustment would necessitate a 500-foot-wide ROW (a 250-foot-wide ROW for each of the two single-circuit lines), in contrast to the single 275-foot-wide ROW required for the double-circuit configuration for the Proposed Action. The structures associated with Alternative 2 in the airspace constrained area would be single-circuit tubular steel 500-kV H-frame structures and 500-kV horizontal dead-ends.

Alternative 3 is identical to Alternative 2 except it would have a slightly different alignment than Alternative 2. This alternative maintains the upgraded GridLiance transmission line on the north side of the existing double-circuit 230-kV NV Energy transmission line until exiting the SNSA

air navigation surfaces. Under this alternative, the acreage and locations where the RMP Amendment would apply would be identical to those described under the Proposed Action.

Alternative 4 involves relocating the Wheeler Pass Substation to an alternative location on privately owned lands. Under this alternative, the RMP Amendment would be the same as described under the Proposed Action, with modifications to bring additional areas into compliance. Design considerations common to the design of Alternative 4 and Alternative 5 include longer tie lines between the existing Pahrump Substation and the proposed Wheeler Pass Substation. Because of this increased distance, double-circuit 230-kV structures would be required to construct the tie lines. There would be no other modifications to the structure types, span lengths, or work areas compared to the Proposed Action.

Alternative 5 involves relocating the Wheeler Pass Substation to an alternative location on BLM-administered lands. Under this alternative, the RMP amendment would be the same as described under the Proposed Action, with modifications to bring additional areas into compliance.

Alternative 6 would be designed and built using tubular transmission structures when the project area passes through: (1) the Ivanpah ACEC; (2) areas designated as critical habitat; and (3) areas where the transmission line route is not parallel with other existing lattice structures. Under this alternative, only structures TC–SC276 to TC–SC290 and TC–SC207 to TC–SC238 would remain as lattice structures, and all others would be tubular transmission structures. Alternative 6 would only be required for the 500-kV option and is not necessary for the 230-kV option.

The BLM further considered five additional alternatives but dismissed these alternatives from detailed analysis as explained in the Draft RMP Amendment/EIS.

The State Director has identified the preferred alternative as the Proposed Action in combination with the modifications proposed in Alternatives 3, 4, and 6. Alternatives 3, 4, and 6, when taken together, were found to best meet the State Director's planning guidance. Alternative 3 would ensure compatibility with the proposed SNSA and avoid crossing the existing double-circuit 230-kV NV Energy transmission line within SNSA air navigation surfaces; Alternative 4 would avoid potential challenges with local government entitlements and land acquisition, as well as reduce long-term impacts to Mojave desert tortoise habitat; and Alternative 6 would further reduce long-term impacts to Mojave desert tortoise habitat.

Mitigation

No mitigation measures have been identified in the Draft RMP Amendment/EIS for the action alternatives. However, the alternatives were developed in order to address potential resource conflicts. Specifically, to avoid creating a hazard to air navigation, Alternatives 2 and 3 would prohibit structure heights from exceeding 130 feet above ground level. Alternative 6 uses tubular transmission structures, (*e.g.,* tubular H-frame, three pole dead-end, or monopole structures) as opposed to lattice structures, in certain locations to minimize impacts on Mojave desert tortoise due to raven predation.

Schedule for the Decision-Making Process

The BLM will provide additional opportunities for public participation consistent with the NEPA and land use planning processes, including a 30-day public protest period and a 60-day Governor's consistency review on the Proposed RMP Amendment. The Proposed RMP Amendment/Final EIS is anticipated to be available for public protest January 2025 with an Approved RMP and Record of Decision in March 2025.

Along with the ROW grant issued by the BLM, GridLiance anticipates needing the following authorizations and permits for the proposed project: construction authorization from the Bureau of Indian Affairs; clearance for survey and construction on Department of Defense lands; biological opinion and incidental take permit(s) from the U.S. Fish and Wildlife Service (USFWS) for Endangered Species Act compliance; USFWS Migratory Bird Treaty Act compliance; USFWS Bald and Golden Eagle Protection Act compliance; section 404 permit from the U.S. Army Corps of Engineers for Clean Water Act compliance; effect concurrence from the Nevada State Historic Preservation Office for National Historic Preservation Act compliance; No Hazard Declaration from the Federal Aviation Administration; Department of Homeland Security consultation regarding military radar; Utilities Environmental Protection Act Permit to Construct from the Public Utilities Commission of Nevada; Rare and Endangered Plant Permit from the Nevada State Division of Forestry; Desert Tortoise and Gila Monster Handling Permit from the Nevada Department of Wildlife; Native Cacti and Yucca Commercial Salvaging and Transportation Permit from the Nevada Division of Forestry; Special Permit for Capture, Removal, or Destruction of Animal Threatened with Extinction from the Nevada Department of Wildlife; Clean Water Act, section 401 Compliance with the Nevada Division of Environmental Protection (NDEP) and Bureau of Water Quality Planning; Notification for Stormwater Management During Construction for the Clean Water Act, section 402 permit for stormwater discharge from NDEP; Groundwater Discharge Permit from NDEP; ROW Occupancy Permit from the Nevada Department of Transportation; Over Legal Size/Load Permit from the Nevada Department of Transportation; Uniform Permit (for transportation of hazardous materials) from the Nevada Department of Public Safety; NDEP Phase 1 Environmental Site Assessment; Clark County Dust Control Permit; Clark County Grading Permit; Clark County Building Permit; Nye County Dust Control Permit; Nye County Grading Permit; and other permits as necessary. Further details on these permitting requirements may be found in the relevant Plans of Development submitted to the BLM by GridLiance.

Public meetings are listed in the **DATES** section of this notice. The date(s) and location(s) of any additional meetings will be announced at least 15 days in advance through the BLM National NEPA Register, news release, and BLM social media pages.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

The purpose of public review of the Draft RMP Amendment/EIS is to provide an opportunity for meaningful collaborative public engagement and for the public to provide substantive comments, such as identification of factual errors, data gaps, input on the identified BLM preferred alternative, relevant methods, or scientific studies. You may submit comments at any time during the 90-day comment period by using any of the methods listed in the **ADDRESSES** section of this notice. The BLM will respond to substantive comments by making appropriate revisions to the EIS or explaining why a comment did not warrant a change.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2)

Jon K. Raby,

State Director.

BILLING CODE 4331–21–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_NV_FRN_4500178518]

Notice of Availability of the Draft Environmental Impact Statement for the Rhyolite Ridge Lithium-Boron Mine Project, Esmeralda County, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) announces the availability of the Draft Environmental Impact Statement (EIS) for the Rhyolite Ridge Lithium-Boron Mine Project proposed by Ioneer Rhyolite Ridge LLC (Ioneer) in Esmeralda County, Nevada.

DATES: To afford the BLM the opportunity to consider comments in the Final EIS, please ensure that the BLM receives your comments within *45* days following the date the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) of the Draft EIS in the **Federal Register** or 15 days after the last public meeting, whichever is later. The EPA usually publishes its NOAs on Fridays.

ADDRESSES: The Draft EIS and documents pertinent to this proposal are available for review on the BLM's National NEPA Register (ePlanning) at *https://eplanning.blm.gov/eplanning-ui/project/2012309/510.*

Written comments related to the Rhyolite Ridge Lithium-Boron Mine Project may be submitted by any of the following methods:

- *BLM's National NEPA Register (ePlanning) at: https://eplanning.blm.gov/eplanning-ui/project/2012309/510.*
- *Email: BLM_NV_BMDO_P&EC_NEPA@blm.gov.*
- *Mail:* Rhyolite Ridge Lithium-Boron Mine EIS c/o BLM Battle Mountain District Office, 50 Bastian Road, Battle Mountain, NV 89820.
- *By fax at:* (775) 635–4034.

FOR FURTHER INFORMATION CONTACT: For further information or to have your name added to the mailing list, please send requests to: Scott Distel, Supervisory Project Manager, at telephone (775) 635–4093; address 50 Bastian Road, Battle Mountain, NV 89820; or email *sdistel@blm.gov.* Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Purpose and Need

The BLM's purpose for the action is to respond to Ioneer's proposal, as described in its proposed plan of operations, and to analyze the potential environmental effects associated with the proposed action and alternatives to the proposed action as required by NEPA. The BLM's need for the action is established by the BLM's responsibilities under Section 302 of FLPMA and the BLM surface management regulations at 43 CFR subpart 3809 to respond to a proposed plan of operations.

Alternatives A, B, and C

Under *Alternative A,* the proposed action, Ioneer is proposing to construct, operate, close, and reclaim a new lithium-boron mine project in Esmeralda County, Nevada. The proposed Rhyolite Ridge Lithium-Boron Mine Project plan of operations boundary would encompass 7,166 acres, which consists of a 6,369-acre operational project area and a 797-acre access road and infrastructure corridor. The total surface disturbance associated with Alternative A, including existing and reclassified disturbance and exploration, would be 2,306 acres of BLM-administered public lands and private land.

The Rhyolite Ridge Lithium-Boron Mine Project would employ a workforce of approximately 400 to 500 employees during initial construction, including both Ioneer staff and contracted personnel, and approximately 350 employees during operations. The Rhyolite Ridge Lithium-Boron Mine Project would operate 24 hours per day, 365 days per year. The total life of the Rhyolite Ridge Lithium-Boron Mine Project would be 23 years, including four years of construction (years 1 through 4), 17 years of quarrying (years 1 through 17), 13 years of ore processing (years 4 through 17), and six additional years of reclamation (years 18 through 23). Reclamation of disturbed areas would be completed in accordance with BLM and Nevada Division of Environmental Protection regulations. Concurrent reclamation would take place where practicable and safe.

The proposed facilities and activities associated with the Rhyolite Ridge Lithium-Boron Mine Project would include:

- A quarry, including a quarry berm and water storage tanks;
- A processing facility, including a contact water pond and diversion channels;
- Three overburden storage facilities (OSF) (North, West, and Quarry Infill), including contact water ponds and diversion channels;
- One spent ore storage facility, including an underdrain pond and diversion channels;
- Project Area exploration, including access routes and drill sites with sumps;
- Haul roads, service roads, and public road realignment;
- Buckwheat exclusion area and critical habitat fencing; and
- Ancillary facilities including an explosives storage area, communication towers including all-terrain vehicle trails, batch plant, proposed water supply testing and facilities including pipelines, sewage system including septic leach fields, dewatering pipeline, growth media stockpiles, stormwater controls and diversions, monitoring wells, laydown yards, and fencing.

Under *Alternative B,* the North and South OSF Alternative, all mine components and operations would be the same as Alternative A, but the facility layout would be modified to reduce surface disturbance within Tiehm's buckwheat (*Eriogonum tiemii*) designated critical habitat. Surface disturbance under Alternative B would be less than Alternative A and total approximately 2,271 acres.

Under *Alternative C,* the No Action Alternative, the development of the Rhyolite Ridge Lithium-Boron Mine Project would not be authorized and Ioneer would not construct, operate, and close a new lithium-boron mine project.

Lead and Cooperating Agencies

The BLM Battle Mountain District Office is the lead agency for the Draft

EIS. The Nevada Department of Wildlife, the Nevada Division of Forestry, the U.S. Department of Energy, the U.S. Fish and Wildlife Service—Ecological Services, the U.S. Fish and Wildlife Service—Migratory Birds Program, the U.S. Environmental Protection Agency, and the Esmeralda County Board of County Commissioners participated in this environmental analysis as cooperating agencies. Several Native American Tribes have also requested to participate in the environmental analysis.

Schedule for the Decision-Making Process

Consistent with NEPA and the BLM's land use planning regulations, the BLM will announce a 30-day public availability period when the Final EIS and NOA for the Final EIS is published by the BLM. The Final EIS is anticipated to be available in September of 2024.

Public Involvement Process

The BLM will announce the dates and times of the public meetings for the Draft EIS at least 15 days in advance of the meetings on the BLM's National NEPA Register (ePlanning) website at *https://eplanning.blm.gov/eplanning-ui/project/2012309/510.* The BLM will hold one in-person public meeting and one virtual public meeting. Information on how to register for the virtual meeting will be posted on the above website.

The purpose of public review of the Draft EIS is to provide an opportunity for meaningful public engagement and for the public to provide substantive comments, such as identification of factual errors, data gaps, relevant methods, or scientific studies. The BLM will respond to substantive comments by making appropriate revisions to the EIS or explaining why a comment did not warrant a change.

The BLM has and will continue to conduct government-to-government consultation with Tribes per Executive Order 13175 and other policies. Agencies will give due consideration to Tribal concerns, including impacts on Indian trust assets and treaty rights and potential impacts to cultural resources.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 40 CFR 1506.6, 40 CFR 1506.10)

Douglas W. Furtado,

District Manager.

BILLING CODE 4331–21–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_AZ_FRN_MO4500178666]

Notice of Availability of the Draft Environmental Impact Statement for the Jove Solar Project, La Paz County, AZ

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) announces the availability of the Draft Environmental Impact Statement (EIS) for the Jove Solar Project, La Paz County, Arizona.

DATES: To afford the BLM the opportunity to consider comments in the Final EIS, please ensure that the BLM receives your comments within 45 days following the date the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) of the Draft EIS in the **Federal Register**. The EPA usually publishes its NOAs on Fridays.

ADDRESSES: The Draft EIS is available for review on the BLM project website at *https://eplanning.blm.gov/eplanning-ui/project/2017881/510.*

Written comments related to the Jove Solar Project may be submitted by any of the following methods:

- *Website: https://eplanning.blm.gov/eplanning-ui/project/2017881/510.*
- *Email: blm_az_crd_solar@blm.gov.*
- *Mail:* BLM Yuma Field Office, Attention: Jove Solar Project, 7341 E 30th Street, Yuma, AZ 85365.

Documents pertinent to this proposal may be examined online at *https://eplanning.blm.gov/eplanning-ui/project/2017881/510* and at the Yuma Field Office.

FOR FURTHER INFORMATION CONTACT: Derek Eysenbach, Project Manager, at *deysenbach@blm.gov,* the mailing address above, or by phone at (602) 417–9505. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Eysenbach. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Purpose and Need for the Proposed Action

The BLM's purpose for the action is to respond to the applicant's application for a right-of-way (ROW) grant to construct, own, operate, maintain, and decommission a utility-scale solar photovoltaic (PV) energy generating facility on public lands administered by the BLM Yuma Field Office (YFO). The need for the BLM action is established by the BLM's responsibility under FLPMA and the Energy Policy Act of 2005 to respond to applications that promote grid reliability and renewable energy development and to designate corridors for electricity transmission and distribution facilities.

Proposed Action and Alternatives

Jove Solar, LLC (Applicant) (a wholly owned subsidiary of 174 Power Global, LLC, which is a wholly owned subsidiary of Hanwha Energy USA Holdings Corp.) is seeking a 30-year ROW to use 3,495 acres administered by the BLM alongside 38 acres administered by La Paz County to construct, operate and maintain, and decommission a utility-scale solar photovoltaic facility, called the Jove Solar Project (the Project). The Project would be located in southeastern La Paz County, Arizona, south of Interstate-10 midway between Phoenix and the California border, approximately 22 miles east-southeast of the community of Brenda and the I–10/Highway 60 junction, and 30 miles west of the community of Tonopah. The Project's proposed action would consist of up to 1.2 million solar PV modules and associated infrastructure, including new and improved roads, powerlines for collection and transmission of electricity, operation and maintenance facilities, and a battery energy storage system. The Project would interconnect at the Cielo Azul Substation, to be built adjacent to the Ten West Link 500-kilovolt (kV) transmission line, and have a generation capacity of 600 megawatts or more. The initial application in 2019 was received under the company name Taurus Solar; the project name was revised to Jove Solar in an amended application August 9, 2022. The Project is proposed within a solar variance area identified in the BLM Western Solar Plan (2012), and the BLM has processed the application

consistent with the variance process established in that Plan.

The BLM has prepared a Draft EIS with input from cooperating agencies and public comments collected during scoping to address the direct, indirect, and cumulative impacts of the Project. The Draft EIS analyzes three alternatives:

- No Action, in which the BLM would not authorize construction, operation and maintenance, and decommissioning of the Project;
- Proposed Action, in which the BLM would authorize construction, operation and maintenance, and decommissioning of the Project consistent with the detailed Project description below; and
- Wash Avoidance Alternative, which carries over the design of the Proposed Action, but avoids construction in a desert wash within the Project Area and near known sensitive sites, using specified setbacks to enhance resource conservation opportunities.

The BLM has identified the Wash Avoidance Alternative as the agency's preferred alternative. Information acquired during the Draft EIS public comment period will inform the BLM's ultimate decision to select any of the three alternatives.

Under the Proposed Action, the BLM would grant a ROW for the Project, which would have a net generating capacity of up to 600 megawatts alternating current (MWac) and span 3,495 acres administered by BLM and 38 acres of La Paz County land. The Project would include solar PV modules, direct current cabling and combining switchgear, inverters, voltage collection systems, transformers, monitoring and controls systems, operations and maintenance facilities, above-ground electrical connection lines, and potentially a battery energy storage system and substation. The Project would use a substation on an adjacent approved solar facility and connect into the regional transmission system via the Cielo Azul 500 kV switching station and Ten West Link 500 kV transmission line (construction ongoing). Overhead 69 kV connection lines would extend approximately 2 miles in a proposed utility easement on La Paz County land to the Cielo Azul switching station. The Applicant has incorporated numerous design features into the Proposed Action to avoid or minimize adverse environmental effects during construction, operation, and decommissioning. These plans and procedures are provided as appendices to the Proposed Plan of Development and the Draft EIS. The Wash Avoidance Alternative would employ the same technology and design as the Proposed Action but avoid construction impacts to a desert wash to maintain wildlife habitat connectivity and preserve natural features. All design features for the Proposed Action would apply to the Wash Avoidance Alternative.

Important Issues Identified During Scoping

During scoping, several issues were raised including for the following resource areas: air quality/greenhouse gas/climate change; biological resources; environmental justice/socioeconomics; fuels and fire management; livestock grazing; Native American, religious, and traditional cultural resources; recreation; soil resources; vegetation; visual resources; waste/hazardous waste; and water resources. The BLM reviewed all scoping comments and incorporated comments into the Draft EIS where applicable.

Lead and Cooperating Agencies

The BLM's Yuma Field Office is the lead Federal agency for the Draft EIS. The Arizona Department of Transportation, Arizona Game and Fish Department, La Paz County, Fort Yuma-Quechan Tribe, U.S. Army Corps of Engineers, U.S. Environmental Protection Agency, and U.S. Fish and Wildlife Service have also requested to participate in the environmental analysis as cooperating agencies. The BLM has a signed memorandum of understanding with each cooperating agency to identify its roles and responsibilities and those of the BLM in the process.

Public Involvement Process

A virtual public meeting will be held 2 to 3 weeks after publication of this notice; the meeting date will be announced on the Project ePlanning website at least 15 days prior to the meeting. The public meeting will include a presentation and opportunity to speak with the project team. The date(s) and location(s) of any additional meetings will be announced in advance through the Project ePlanning website (see **ADDRESSES**).

The BLM encourages the public to review the Draft EIS and provide comments on the adequacy of the alternatives, analysis of effects, and any new information that would help the BLM disclose potential impacts of the Project in the Final EIS.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including potential impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 40 CFR 1506.6, 40 CFR 1506.10)

Raymond Suazo,

State Director.

BILLING CODE 4331–12–P

DEPARTMENT OF LABOR

Privacy Act of 1974; System of Records

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Notice of a modified system of records.

SUMMARY: The Privacy Act of 1974 and Office of Management and Budget (OMB) Circular No. A–108 requires that each agency publish notice of a new or modified system of records that it maintains. This notice proposes to modify an existing system of records to add three additional statutes to the ''Authority'' section of the system, and to add two new routine uses and revise one routine use for the Department of Labor (DOL), Occupational Safety and Health Administration (OSHA), *Retaliation Complaint File,* DOL/OSHA–1, as well as to make general updates to provide more detail and clarity regarding OSHA's practices for disclosing, storing, retaining, and disposing of records in this system and the technical, physical, and administrative safeguards that OSHA relies on to protect records in this system from unauthorized disclosure.

DATES: Comments must be received no later than May 20, 2024. This modification is effective upon publication of this Notice. If no public comments are received, the new routine uses will be effective beginning May 20, 2024. If DOL receives public comments, DOL will review the comments to determine whether any changes to the notice are necessary.

ADDRESSES: We invite you to submit comments on this notice. You may

submit comments by any of the following methods:

- *Federal e-Rulemaking Portal: https://www.regulations.gov* or *https://www.federalregister.gov.* Follow the instructions for submitting comments.
- *Mail, Hand Delivery, or Courier:* 200 Constitution Avenue NW, Room N–3653, Washington, DC 20210. In your comment, specify ''Retaliation Complaint File, DOL/OSHA–1.''

All comments will be made public and will be posted without change to *https://www.regulations.gov,* including any personal information provided.

FOR FURTHER INFORMATION CONTACT: To submit general questions about the system, contact Lee Martin by telephone at 202–693–2199 or by email at *osha.dwpp@dol.gov.* Please include ''Retaliation Complaint File, DOL/OSHA–1'' in the submission.

SUPPLEMENTARY INFORMATION: The Retaliation Complaint File, DOL/OSHA–1 modified system of records includes three additional OSHA statutes and two new routine uses. The new statutes to be added are: The Taxpayer First Act (26 U.S.C. 7623(d)); The Criminal Antitrust Anti-Retaliation Act (15 U.S.C. 7a–3); and The Anti-Money Laundering Act (31 U.S.C. 5323(a)(5), (g) & (j)). DOL is adding routine uses e. and f. regarding disclosure of records, as needed, to address a suspected breach of DOL's or another agency's records systems. DOL has also revised routine use c. to note that disclosure of appropriate, relevant, necessary, and compatible investigative records may be made to OSHA-approved occupational safety and health State Plan agencies (State Plans), as well as Federal agencies, responsible for investigating, prosecuting, enforcing, or implementing laws related to one or more of the statutes listed under AUTHORITY FOR MAINTENANCE OF THE SYSTEM where OSHA deems such disclosure compatible with the purpose for which the records were collected. Former routine use e. (permitting disclosure of statistical reports containing aggregated results of program activities and outcomes to the media, researchers, or other interested parties) is being re-designated as routine use g. Additionally, DOL is making general updates to provide more detail and clarity regarding OSHA's practices for storing, retaining, and disposing of records in this system and the technical, physical, and administrative safeguards that OSHA relies on to protect records in this system from unauthorized disclosure.

SYSTEM NAME AND NUMBER:

Retaliation Complaint File, DOL/OSHA–1.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

The system resides in a secure cloud service environment provided through Amazon Web Services (AWS). Records from the secure cloud service are accessed by DOL personnel located at the Occupational Safety and Health Administration (OSHA)'s national, regional, and area offices. Address information for regional and area offices can be found at: *https://www.osha.gov/contactus/bystate.* Pursuant to DOL's Flexiplace Programs (also known as ''telework'' pursuant to the Telework Enhancement Act), copies of records may be temporarily located at alternative worksites, including employees' homes or at geographically convenient satellite offices for periods of time. All appropriate safeguards are taken at these sites.

SYSTEM MANAGER(S):

Lee Martin, Director of the Directorate of Whistleblower Protection Programs, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N–3647, Washington, DC 20210.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

a. The Occupational Safety and Health Act (29 U.S.C. 660(c));
b. The Surface Transportation Assistance Act (49 U.S.C. 31105);
c. The Asbestos Hazard Emergency Response Act (15 U.S.C. 2651);
d. The International Safe Container Act (46 U.S.C. 80507);
e. The Safe Drinking Water Act (42 U.S.C. 300j–9(i));
f. The Federal Water Pollution Control Act (33 U.S.C. 1367);
g. The Toxic Substances Control Act (15 U.S.C. 2622);
h. The Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (49 U.S.C. 42121);
i. The Solid Waste Disposal Act (42 U.S.C. 6971);
j. The Clean Air Act (42 U.S.C. 7622);
k. The Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9610);
l. The Energy Reorganization Act of 1978 (42 U.S.C. 5851);
m. The Pipeline Safety Improvement Act of 2002 (49 U.S.C. 60129);
n. The Corporate and Criminal Fraud Accountability Act of 2002, Title VIII of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1514A);
o. The Federal Railroad Safety Act (49 U.S.C. 20109);
p. The National Transit Systems Security Act (6 U.S.C. 1142);
q. The Consumer Product Safety Improvement Act (15 U.S.C. 2087);
r. The Affordable Care Act (29 U.S.C. 218C);
s. The Consumer Financial Protection Act of 2010 (12 U.S.C. 5567);
t. The Seaman's Protection Act (46 U.S.C. 2114);
u. The FDA Food Safety Modernization Act (21 U.S.C. 399d);
v. The Moving Ahead for Progress in the 21st Century Act (49 U.S.C. 30171);
w. The Taxpayer First Act (26 U.S.C. 7623(d));
x. The Criminal Antitrust Anti-Retaliation Act (15 U.S.C. 7a–3); and
y. The Anti-Money Laundering Act (31 U.S.C. 5323(a)(5), (g) & (j)).

PURPOSE(S) OF THE SYSTEM:

The records are used to support a determination by OSHA on the merits of a complaint alleging violation of the employee protection provisions of one or more of the statutes listed under AUTHORITY FOR MAINTENANCE OF THE SYSTEM. The records also are used as the basis of statistical reports on such activity by the system manager, national office administrators, regional administrators, investigators, and their supervisors in OSHA. The reports may be released to the public. The reports do not contain any identifying information and are generally used for statistical purposes.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have filed complaints alleging retaliation against them by their employers, or by others, for engaging in activities protected under the various statutes set forth below, popularly referenced as whistleblower protection statutes are covered by the system. Complainants may file such claims with OSHA pursuant to the following statutes: The Occupational Safety and Health Act (29 U.S.C. 660(c)); the Surface Transportation Assistance Act (49 U.S.C. 31105); the Asbestos Hazard Emergency Response Act (15 U.S.C. 2651); the International Safe Container Act (46 U.S.C. 80507); the Safe Drinking Water Act (42 U.S.C. 300j–9(i)); the Federal Water Pollution Control Act (33 U.S.C. 1367); the Toxic Substances Control Act (15 U.S.C. 2622); the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (49 U.S.C. 42121); the Solid Waste Disposal Act (42 U.S.C. 6971); the Clean Air Act (42 U.S.C. 7622); the Comprehensive

Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9610); the Energy Reorganization Act of 1978 (42 U.S.C. 5851); the Pipeline Safety Improvement Act of 2002 (49 U.S.C. 60129); the Corporate and Criminal Fraud Accountability Act of 2002, Title VIII of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1514A); the Federal Railroad Safety Act (49 U.S.C. 20109); the National Transit Systems Security Act (6 U.S.C. 1142); the Consumer Product Safety Improvement Act (15 U.S.C. 2087); the Affordable Care Act (29 U.S.C. 218C); the Consumer Financial Protection Act of 2010 (12 U.S.C. 5567); the Seaman's Protection Act (46 U.S.C. 2114); the FDA Food Safety Modernization Act (21 U.S.C. 399d); the Moving Ahead for Progress in the 21st Century Act (49 U.S.C. 30171); the Taxpayer First Act (26 U.S.C. 7623(d)); the Criminal Antitrust Anti-Retaliation Act (15 U.S.C. 7a–3); and the Anti-Money Laundering Act (31 U.S.C. 5323(a)(5), (g) & (j)).

CATEGORIES OF RECORDS IN THE SYSTEM:

Records in the system include the complainant's name, address, telephone numbers, occupation, place of employment, and other identifying data along with the allegation, OSHA forms, and evidence offered in the allegation's proof. Records in the system also includes the respondent's name, address, telephone numbers, response to notification of the complaint, statements, and any other evidence or background material submitted as evidence. This material includes records of interviews and other data gathered by the investigator.

RECORD SOURCE CATEGORIES:

Records contained in this system are obtained from individual complainants who filed allegation(s) of retaliation by employer(s) against employee(s) or persons who have engaged in protected activities. OSHA uses the OSHA Online Whistleblower Complaint Form (OSHA 8–60.1) approved under OMB Control No. 1218–0236 to collect initial complainant information. Records contained in this system are also obtained from employers, employees other than an individual complainant, and other witnesses.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

In addition to the disclosures permitted under 5 U.S.C. 552a(b), as well as those contained in DOL's Universal Routine Uses of Records,[1] a record from this system of records may be disclosed as follows:

a. Disclosure of the complaint, as well as the identity of the complainant, and any interviews, statements, or other information provided by the complainant, or information about the complainant given to OSHA, may be made to the respondent, so that the complaint can proceed to a resolution.

Note: Personal information about other employees that is contained in the complainant's file, such as statements taken by OSHA or information for use as comparative data, such as wages, bonuses, the substance of promotion recommendations, supervisory assessments of professional conduct and ability, or disciplinary actions generally may be withheld from the respondent when it could violate the other employee's privacy rights, cause intimidation or harassment to the other employee, or impair future investigations by making it more difficult to collect similar information from other employees.

b. Disclosure of the respondent's responses to the complaint and any other evidence it submits may be shared with the complainant so that the complaint can proceed to a resolution.

c. Disclosure of appropriate, relevant, necessary, and compatible investigative records may be made to other Federal agencies and State Plans responsible for investigating, prosecuting, enforcing, or implementing laws related to the statutes listed under AUTHORITY FOR MAINTENANCE OF THE SYSTEM where OSHA deems such disclosure compatible with the purpose for which the records were collected.

d. Disclosure of appropriate, relevant, necessary, and compatible investigative records may be made to another agency or instrumentality of any governmental jurisdiction within or under the control of the United States, for a civil or criminal law enforcement activity, if the activity is authorized by law, and if that agency or instrumentality has made a written request to OSHA, specifying the particular portion desired and the law enforcement activity for which the record is sought.

e. Disclosure of information contained in this system of records may be made to appropriate agencies, entities, and persons when (1) DOL suspects or confirms a breach of the system of records; (2) DOL determines as a result of the suspected or confirmed breach, there is a risk of harm to individuals, DOL (including its information systems, programs, and operations), the Federal Government, or national security; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with DOL's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

f. Disclosure of information contained in this system of records may be made to another Federal agency or Federal entity, when DOL determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

g. Statistical reports containing aggregated results of program activities and outcomes may be disclosed to the media, researchers, or other interested parties. Disclosure may be in response to requests made by telephone, email, fax, or letter, by a mutually convenient method. Statistical data may also be posted by the system manager on the OSHA web page.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Electronic records in this system of records are stored on AWS, in a self-contained system. Limited paper case files may be used on a temporary basis and kept in locked offices. The system is contained behind the DOL firewall. Users access the system via their personal identity verification (PIV) card for internal federal users or through *login.gov* for State Plan users.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved by complainant's name, respondent's name, or case number. The system is contained behind the DOL firewall. Users access the system via their personal identity verification (PIV) card for internal federal users or through *login.gov* for State Plan users.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records are maintained primarily in the DOL IT system on the AWS server. Limited paper case files may be maintained at applicable locations as set out above under the heading SYSTEM LOCATION. System records are destroyed five years after a case is closed, in accordance with Records Schedule Number DAA–0100–2018–0002–0009. Paper copies of case files that are not scanned are retained on-site until the five-year retention period has been met and then destroyed.

[1] *See https://www.dol.gov/general/privacy* under the heading ''System of Records Notices (SORNs).''

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Records in this system are safeguarded in accordance with applicable rules and policies, including all applicable DOL automated systems security and access policies. Access to the system containing the records is limited to those individuals deemed as authorized personnel. Records in the system are protected from unauthorized access and misuse through a combination of administrative, technical, and physical security measures. Administrative measures include policies that limit system access to individuals within an agency with a legitimate business need and regular review of security procedures and best practices to enhance security. Technical measures include system design that allows individuals within an agency access only to data for which they are responsible; role-based access controls that allow individuals access only to data for their agency or reporting unit; multi-factor authentication to access the system; and use of encryption for certain data transfers. Physical security measures include the use of DOL cloud data centers which meet government requirements for storage of sensitive data.

RECORD ACCESS PROCEDURES:

If an individual wishes to access their own data in the system, the individual should contact OSHA directly and follow the instructions for making a Privacy Act Request on DOL's web page at: *https://www.dol.gov/general/privacy/instructions.* DOL also describes its process for requesting records under the Privacy Act in regulations at 29 CFR 71.2. Individuals who need additional assistance may also reach out to DOL's Privacy Office by email at *privacy@dol.gov.*

CONTESTING RECORD PROCEDURES:

If an individual wishes to request a correction or amendment of a record, the individual should direct their request to OSHA directly. The request must be in writing and must identify:

- The name of the individual making the request,
- The particular record in question,
- The correction or amendment sought,
- The justification for the change, and
- Any other pertinent information to help identify the file.

Additional information can be found on DOL's web page at: *https://www.dol.gov/general/privacy/instructions.* DOL also describes its process for requesting a correction or amendment at 29 CFR 71.9. Individuals who need additional assistance may also reach out to DOL's Privacy Office by email at *privacy@dol.gov.*

NOTIFICATION PROCEDURES:

If an individual wishes to know if a system contains their information, the individual should contact OSHA directly and follow the instructions for making a Privacy Act Request on DOL's web page at: *https://www.dol.gov/general/privacy/instructions.* DOL also describes its process for requesting records under the Privacy Act in regulations at 29 CFR 71.2. Individuals who need additional assistance may also reach out to DOL's Privacy Office by email at *privacy@dol.gov.*

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

In accordance with 5 U.S.C. 552a(k)(2), investigatory material in this system of records compiled for law enforcement purposes is exempt from subsections (c)(3); (d); (e)(1); (e)(4)(G), (H), and (I); and (f) of 5 U.S.C. 552a.

However, if any individual is denied any right, privilege, or benefit that the individual would otherwise be entitled to by Federal law or for which the they would otherwise be eligible, such material shall be provided. To the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise [2] that the identity of the source would be held in confidence, DOL will not furnish such records to the individual.

HISTORY:

This is a full publication of the modified SORN in its entirety that replaces the previously published SORN found at 81 FR 25765, 25853–54 (April 29, 2016).

Carolyn Angus-Hornbuckle,

Assistant Secretary for Administration and Management.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petition for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the Rosebud Mining Company.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before May 20, 2024.

ADDRESSES: You may submit comments identified by Docket No. MSHA–2024–0008 by any of the following methods:

1. *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments for MSHA–2024–0008.
2. *Fax:* 202–693–9441.
3. *Email: petitioncomments@dol.gov.*
4. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202–5452.

Attention: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk, 4th Floor West. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's COVID–19 policy. Special health precautions may be required.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Office of Standards, Regulations, and Variances at 202–693–9440 (voice), *Petitionsformodification@dol.gov* (email), or 202–693–9441 (fax). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and 30 CFR part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

[2] For sources who furnished information to the Government prior to January 1, 1975, the standard is an implied promise that the identity of the source would be held in confidence.

In addition, §§ 44.10 and 44.11 establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2024–004–C.

Petitioner: Rosebud Mining Company, 301 Market Street, Kittanning, Pennsylvania 16201.

Mine: Fulton Run Mine, MSHA ID No. 36–10410, located in Indiana County, Pennsylvania.

Regulation Affected: 30 CFR 75.1700, Oil and gas wells.

Modification Request: The petitioner requests a modification of 30 CFR 75.1700 as it relates to oil and gas wells at the mine. Specifically, the petitioner is petitioning to mine within the 300-feet barrier established by 30 CFR 75.1700.

The petitioner states that:

(a) The mine will use a room and pillar method of mining.

(b) A continuous mining machine with attached haulage develops main entries. After the mains are established, butts, rooms, and/or panels are developed off the mains. The length of the rooms, and/or panels can typically extend 600 feet, depending on permit boundaries, projections, and conditions.

(c) The permit for the Fulton Run Mine contains oil or gas wells that have been depleted of production, producing wells, wells that may have been plugged not producing oil or gas, and coal bed methane (CBM) wells. These wells would alter the mining projections for the life of the mine and not allow for the most efficient use of air available to the mine, if the barrier established by 30 CFR 75.1700 were to remain in place. The presence of the 300-feet barrier would also limit the safest and most efficient use of in-seam CBM wells.

(d) Marcellus and Utica wells which may not be mined through are not contained within the mine permit, and are not subject to this petition.

(e) Plugging oil and gas wells provides an environmental benefit by eliminating gas emissions into the atmosphere from gas wells that are no longer maintained.

The petitioner proposes the following alternative method:

(a) A safety barrier of 300 feet in diameter (150 feet between any mined area and a well) shall be maintained around all oil and gas wells (including all active, inactive, abandoned, shut-in, previously plugged wells, water injection wells, and carbon dioxide sequestration wells) until approval to proceed with mining has been obtained from the District Manager.

(b) Prior to mining within the 300-feet safety barrier around any well that the mine plans to intersect, the mine operator shall provide to the District Manager a sworn affidavit or declaration executed by a company official stating that all mandatory procedures for cleaning out, preparing, and plugging each gas or oil well have been completed as described by the terms and conditions of the Proposed Decision and Order (PDO) granted by MSHA. The affidavit or declaration shall be accompanied by all logs described in the PDO granted by MSHA and any other records the District Manager may request. Once approved by the District Manager, the mine operator may mine within the safety barrier of the well, subject to the terms of the PDO granted by MSHA. If well intersection is not planned, the mine operator may request a permit to reduce the 300-feet diameter of the safety barrier that does not include intersection of the well. The District Manager may require documents and information to help verify the accuracy of the location of the well with respect to the mine maps and mining projections, including survey closure data, down-hole well deviation logs, and historical well intersection location data. If the District Manager approves, the mine operator may then mine within the safety barrier of the well. The following procedures shall be followed for cleaning out and preparing vertical oil and gas wells prior to plugging or re-plugging:

(1) The mine operator shall test for gas emissions inside the hole before cleaning out, preparing, plugging, and replugging oil and gas wells. The District Manager shall be contacted if gas is being produced.

(2) A diligent effort shall be made to clean the well to the original total depth. The mine operator shall contact the District Manager prior to stopping the operation to pull casing or clean out the total depth of the well. If this depth cannot be reached, and the total depth of the well is less than 4,000 feet, the operator shall completely clean out the well from the surface to at least 200 feet below the base of the lowest mineable coal seam, unless the District Manager requires cleaning to a greater depth based on the geological strata or pressure within the well. The operator shall provide the District Manager with all information it possesses concerning the geological nature of the strata and the pressure of the well. If the total depth of the well is 4,000 feet or greater, the operator shall completely clean out the well from the surface to at least 400 feet below the base of the lowest mineable coal seam. The operator shall remove all material from the entire diameter of the well, wall to wall. If the total depth of the well is unknown and there is no historical information, the mine operator must contact the District Manager before proceeding.

(3) The operator shall prepare down-hole logs for each well. Logs shall consist of a caliper survey, a gamma log, a bond log, and a deviation survey for determining the top, bottom, and thickness of all coal seams down to the lowest minable coal seam, potential hydrocarbon producing strata, and the location of any existing bridge plug. In addition, a journal shall be maintained describing the depth of each material encountered; the nature of each material encountered; bit size and type used to drill each portion of the hole; length and type of each material used to plug the well; length of casing(s) removed, perforated or ripped, or left in place; any sections where casing was cut or milled; and other pertinent information concerning cleaning and sealing the well. Invoices, work-orders, and other records relating to all work on the well shall be maintained as part of the logs and provided to MSHA upon request.

(4) When cleaning out the well as detailed in section (d)(2), the operator shall make a diligent effort to remove all of the casing in the well. After the well is completely cleaned out and all the casing removed, the well shall be plugged to the total depth by pumping expanding cement slurry and pressurizing to at least 200 pounds per square inch (psi). If the casing cannot be removed, it shall be cut, milled, or perforated or ripped at all mineable coal seam levels to facilitate the removal of any remaining casing in the coal seam by the mining equipment. Any casing which remains shall be perforated or ripped to permit the injection of cement into voids within and around the well.

(5) All casing remaining at mineable coal seam levels shall be perforated or ripped at least every 5 feet from 10 feet below the coal seam to 10 feet above the coal seam. Perforations or rips are required at least every 50 feet from 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam up to 100 feet above the uppermost mineable coal seam. The mine operator shall take appropriate steps to ensure that the annulus between the casing and the well walls is filled with expanding (minimum 0.5 percent expansion upon setting) cement and contains no voids. If it is not possible to remove all of the casing, the operator shall notify the District Manager before any other work is performed. If the well cannot be cleaned out or the casing removed, the operator shall prepare the well as described from the surface to at least 200 feet below the base of the lowest

mineable coal seam for wells less than 4,000 feet in depth and 400 feet below the lowest mineable coal seam for wells 4,000 feet or greater, unless the District Manager requires cleaning out and removal of casing to a greater depth based on the geological strata or the pressure within the well. If the operator, using a casing bond log, can demonstrate to the satisfaction of the District Manager that all annuli in the well are already adequately sealed with cement, the operator shall not be required to perforate or rip the casing for that particular well. When multiple casing and tubing strings are present in the coal horizon(s), any remaining casing shall be ripped or perforated; then it shall be filled with expanding cement as previously detailed. An acceptable casing bond log for each casing and tubing string shall be made if this is used in lieu of ripping or perforating multiple strings.

(6) If the District Manager concludes that the completely cleaned out well is emitting excessive amounts of gas, the operator must place a mechanical bridge plug in the well. It shall be placed in a competent stratum at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam, but above the top of the uppermost hydrocarbon-producing stratum, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well. The operator shall provide the District Manager with all information concerning the geological nature of the strata and the pressure of the well. If it is not possible to set a mechanical bridge plug, an appropriately sized packer shall be used. The mine operator shall document what has been done to ''kill the well'' and plug the carbon producing strata.

(7) If the upper-most hydrocarbon-producing stratum is within 300 feet of the base of the lowest minable coal seam, the operator shall properly place mechanical bridge plugs as described in section (d)(6) to isolate the hydrocarbon-producing stratum from the expanding cement plug. The operator shall place a minimum of 200 feet (400 feet if the total well depth is 4,000 feet or greater) of expanding cement below the lowest mineable coal seam, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well.

(e) The following procedures shall be followed for plugging or re-plugging oil or gas wells to the surface after completely cleaning out the well as previously specified:

(1) The operator shall pump expanding cement slurry down the well to form a plug which runs from at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam (or lower if required by the District Manager based on the geological strata or pressure within the well) to the surface. The expanding cement shall be placed in the well under a pressure of at least 200 psi. Portland cement or a lightweight cement mixture shall be used to fill the area from 100 feet above the top of the uppermost mineable coal seam (or higher if required by the District Manager that a higher distance is required due to the geological strata or the pressure within the well) to the surface.

(2) The operator shall embed steel turnings or other small magnetic particles in the top of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4-inch or larger diameter casing, set in cement, shall extend at least 36 inches above the ground level with the American Petroleum Institute (API) well number engraved or welded on the casing. When the hole cannot be marked with a physical monument (*e.g.,* prime farmland), high-resolution GPS coordinates (one-half meter resolution) shall be required.

(f) The following procedures shall be followed for plugging or re-plugging oil and gas wells for use as degasification wells after completely cleaning out the well as previously specified:

(1) The operator shall set a cement plug in the well by pumping an expanding cement slurry down the tubing to provide at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) of expanding cement below the lowest mineable coal seam, unless the District Manager requires a greater depth based on the geological strata or pressure within the well. The expanding cement shall be placed in the well under a pressure of at least 200 psi. The top of the expanding cement shall extend at least 50 feet above the top of the coal seam being mined, unless the District Manager requires a greater distance based on the geological strata or pressure within the well.

(2) The operator shall securely grout into the bedrock of the upper portion of the degasification well a suitable casing to protect it. The remainder of the well may be cased or uncased.

(3) The operator shall fit the top of the degasification casing with a wellhead equipped as required by the District Manager in the approved ventilation plan. Such equipment may include check valves, shut-in valves, sampling ports, flame arrestor equipment, and security fencing.

(4) Operation of the degasification well shall be addressed in the approved ventilation plan. This may include periodic tests of methane levels and limits on the minimum methane concentrations that may be extracted.

(5) After the area of the coal mine that is degassed by a well is sealed or the coal mine is abandoned, the operator shall plug all degasification wells using the following procedures:

(i) The operator shall insert a tube to the bottom of the well or, if not possible, to within 100 feet above the coal seam being mined. Any blockage must be removed to ensure that the tube can be inserted to this depth.

(ii) The operator shall set a cement plug in the well by pumping Portland cement or a lightweight cement mixture down the tubing until the well is filled to the surface.

(iii) The operator shall embed steel turnings or other small magnetic particles in the top of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4-inch or larger casing, set in cement, shall extend at least 36 inches above the ground level with the API well number engraved or welded on the casing.

(g) The following provisions apply to all wells which the operator determines, and with which the MSHA District Manager agrees, cannot be completely cleaned out due to damage to the well caused by subsidence, caving, or other factors.

(1) The operator shall drill a hole adjacent and parallel to the well to a depth of at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the lowest mineable coal seam, unless the District Manager requires a greater depth based on the geological strata or pressure within the well.

(2) The operator shall use a geophysical sensing device to locate any casing which may remain in the well.

(3) If the well contains casing(s), the operator shall drill into the well from the parallel hole. From 10 feet below the coal seam to 10 feet above the coal seam, the operator shall perforate or rip all casings at least every 5 feet. Beyond this distance, the operator shall perforate or rip at least every 50 feet from at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam up to 100 feet above the seam being mined, unless the District Manager requires a greater distance based on the geological strata or pressure within the well. The operator shall fill the annulus between the casings and between the casings and the well wall with expanding (minimum 0.5

percent expansion upon setting) cement and shall ensure that these areas contain no voids. If the operator, using a casing bond log, can demonstrate to the satisfaction of the District Manager that the annulus of the well is adequately sealed with cement, the operator shall not be required to perforate or rip the casing for that particular well or fill these areas with cement. When multiple casing and tubing strings are present in the coal horizon(s), any casing which remains shall be ripped or perforated and filled with expanding cement as previously indicated. An acceptable casing bond log for each casing and tubing string shall be made if this is used in lieu of ripping or perforating multiple strings.

(4) Where the operator determines, and the District Manager agrees, that there is insufficient casing in the well to allow the method previously outlined to be used, then the operator shall use a horizontal hydraulic fracturing technique to intercept the original well. From at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam to a point at least 50 feet above the seam being mined, the operator shall fracture in at least six places at intervals to be agreed upon by the operator and the District Manager after considering the geological strata and the pressure within the well. The operator shall pump expanding cement into the fractured well in sufficient quantities and in a manner which fills all intercepted voids.

(5) The operator shall prepare down-hole logs for each well. Logs shall consist of a caliper survey, a gamma log, a bond log, and a deviation survey for determining the top, bottom, and thickness of all coal seams down to the lowest minable coal seam, potential hydrocarbon producing strata, and the location of any existing bridge plug. The operator shall obtain the logs from the adjacent hole rather than the well if the condition of the well makes it impractical to insert the equipment necessary to obtain the log.

(6) A journal shall be maintained that describes: the depth of each material encountered; the nature of each material encountered; bit size and type used to drill each portion of the hole; length and type of each material used to plug the well; length of casing(s) removed, perforated or ripped, or left in place; any sections where casing was cut or milled; and other pertinent information concerning sealing the well. Invoices, workorders, and other records relating to all work on the well shall be also maintained as part of this journal and provided to MSHA upon request.

(7) After the operator has plugged the well, the operator shall plug the adjacent hole, from the bottom to the surface, with Portland cement or a lightweight cement mixture. The operator shall embed steel turnings or other small magnetic particles in the top of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4-inch or larger casing, set in cement, shall extend at least 36 inches above the ground level. A combination of the methods outlined previously may have to be used in a single well, depending upon the conditions of the hole and the presence of casings. The operator and the District Manager shall discuss the nature of each hole and if the District Manager requires more than one method be utilized. The mine operator may submit an alternative plan to the District Manager for approval to use different methods including certification by a registered petroleum engineer to support the proposed alternative methods to address wells that cannot be completely cleaned out.

(h) The following mandatory procedures shall be followed when mining within a 100-feet diameter around a well.

(1) A representative of the operator, a representative of the miners, the appropriate State agency, or the MSHA District Manager may request that a conference be conducted prior to intersecting any plugged or re-plugged well. The party requesting the conference shall notify all other parties listed above within a reasonable time prior to the conference to provide opportunity for participation. The purpose of the conference shall be to review, evaluate, and accommodate any abnormal or unusual circumstance related to the condition of the well or surrounding strata when such conditions are encountered.

(2) The operator shall intersect a well on a shift approved by the District Manager. The operator shall notify the District Manager and the miners' representative in sufficient time prior to intersecting a well to provide an opportunity to have representatives present.

(3) When using continuous mining methods, the operator shall install drivage sights at the last open crosscut near the place to be mined to ensure intersection of the well. The drivage sites shall not be more than 50 feet from the well.

(4) The operator shall ensure that fire-fighting equipment including fire extinguishers, rock dust, and sufficient fire hose to reach the working face area of the well intersection (when either the conventional or continuous mining method is used) is available and operable during all well intersections. The fire hose shall be located in the last open crosscut of the entry or room. The operator shall maintain the water line to the belt conveyor tailpiece along with a sufficient amount of fire hose to reach the farthest point of penetration on the section.

(5) The operator shall ensure that sufficient supplies of roof support and ventilation materials shall be available and located at the last open crosscut. In addition, emergency plugs and suitable sealing materials shall be available in the immediate area of the well intersection.

(6) Within 12 hours prior to intersecting the well, the operator shall test all equipment and check it for permissibility. Water sprays, water pressures, and water flow rates used for dust and spark suppression shall be examined and any deficiencies corrected.

(7) The operator shall calibrate the methane monitor(s) on the longwall, continuous mining machine, or cutting machine and loading machine within 12 hours prior to intersecting the well.

(8) When mining is in progress, the operator shall perform tests for methane with a handheld methane detector at least every 10 minutes from the time that mining with the continuous mining machine is within 30 feet of the well until the well is intersected. During the actual cutting process, no individual shall be allowed on the return side until the well intersection has been completed and the area has been examined and declared safe. The operator's most current approved ventilation plan shall be followed at all times unless the District Manager requires a greater air velocity for the intersect.

(9) When using continuous or conventional mining methods, the working place shall be free from accumulations of coal dust and coal spillages, and rock dust shall be placed on the roof, rib, and floor to within 20 feet of the face when intersecting the well.

(10) When the well is intersected, the operator shall deenergize all equipment, and thoroughly examine and determine the area to be safe before permitting mining to resume.

(11) After a well has been intersected and the working place determined to be safe, mining shall continue inby the well a sufficient distance to permit adequate ventilation around the area of the well.

(12) When necessary, torches shall be used for inadequately or inaccurately

cut or milled casings. No open flame shall be permitted in the area until adequate ventilation has been established around the well bore and methane levels of less than 1.0 percent are present in all areas that will be exposed to flames and sparks from the torch. The operator shall apply a thick layer of rock dust to the roof, face, floor, ribs, and any exposed coal within 20 feet of the casing prior to the use of torches.

(13) Non-sparking (brass) tools shall be located on the working section and shall be used exclusively to expose and examine cased wells.

(14) No person shall be permitted in the area of the well intersection except those engaged in the operation, company personnel, representatives of the miners, personnel from MSHA, or personnel from the appropriate State agency.

(15) The operator shall alert all personnel in the mine to the planned intersection of the well prior to their going underground if the planned intersection is to occur during their shift. This warning shall be repeated for all shifts until the well has been mined through.

(16) The well intersection shall be under the direct supervision of a certified individual. Instructions concerning the well intersection shall be issued only by the certified individual in charge.

(17) If the mine operator cannot find the well in the middle of the panel or room and misses the anticipated intersection, mining shall cease and the District Manager shall be notified.

(i) A copy of the PDO granted by MSHA shall be maintained at the mine and be available to the miners.

(1) If the well is not plugged to the total depth of all minable coal seams identified in the core hole logs, any coal seams beneath the lowest plug shall remain subject to the barrier requirements of 30 CFR 75.1700.

(2) All necessary safety precautions and safe practices required by MSHA regulations and State regulatory agencies with jurisdiction over the plugging site shall be followed.

(j) All miners involved in the plugging or re-plugging operations shall be trained on the contents of the PDO granted by MSHA prior to starting the process.

(k) Mechanical bridge plugs should incorporate the best available technologies required or recognized by the State regulatory agency and/or oil and gas industry.

(l) Within 30 days after the PDO granted by MSHA becomes final, the operator shall submit proposed revisions for its approved 30 CFR part 48 training plan to the District Manager. These proposed revisions shall include initial and refresher training on compliance with the terms and conditions stated in the PDO granted by MSHA. The operator shall provide all miners involved in well intersection with training on the requirements of the PDO granted by MSHA prior to mining within 150 feet of a well intended to be mined through.

(m) The responsible person required under 30 CFR 75.1501 shall be responsible for well intersection emergencies. The well intersection procedures shall be reviewed by the responsible person prior to any planned intersection.

(n) Within 30 days after the PDO granted by MSHA becomes final, the operator shall submit proposed revisions for its approved mine emergency evacuation and firefighting program of instruction required under 30 CFR 75.1502. The operator shall revise the program of instruction to include the hazards and evacuation procedures to be used for well intersections. All underground miners shall be trained on the revised plan within 30 days of submittal.

(o) The procedure as specified in 30 CFR 48.3 for approval of proposed revisions to already approved training plans shall apply.

In support of the proposed alternative method, the petitioner has also submitted a labeled schematic indicating the plugging depth and rip locations and a mine map including initial projections with all spotted and surveyed gas wells in support of the proposed alternative method.

The petitioner asserts that the alternative method proposed will at all times guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

Song-ae Aromie Noe,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520–43–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petition for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before May 20, 2024.

ADDRESSES: You may submit comments identified by Docket No. MSHA–2024–0007 by any of the following methods:

1. *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments for MSHA–2024–0007.

2. *Fax:* 202–693–9441.

3. *Email: petitioncomments@dol.gov.*

4. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, 4th Floor West, Arlington, Virginia 22202–5452.

Attention: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk, 4th Floor West. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's COVID–19 policy. Special health precautions may be required.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Office of Standards, Regulations, and Variances at 202–693–9440 (voice), *Petitionsformodification@dol.gov* (email), or 202–693–9441 (fax). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and 30 CFR part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, §§ 44.10 and 44.11 establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2024–003–C.

Petitioner: Elk Run Coal Company, LLC, P.O. Box 457, Whitesville, WV 25209.

Mine: Checkmate Powellton Mine, MSHA ID No. 46–09640, located in Boone County, West Virginia.

Regulation Affected: 30 CFR 75.1700, Oil and gas wells.

Modification Request: The petitioner requests a modification of 30 CFR 75.1700 as it relates to oil and gas wells. Specifically, the petitioner is proposing to mine through or near (within the 300 feet diameter safety barrier) plugged oil or gas wells.

The petitioner states that:

(a) The Checkmate Powellton Mine extracts coal from the Powellton coal seam. The mine operates one continuous mining machine section producing coal. Future workplans include adding an additional continuous mining machine.

(b) The mine will use a room and pillar method of mining.

(c) In the reserve area of the mine, many oil and gas wells exist.

The petitioner proposes the following alternative method:

(a) Prior to plugging an oil or gas well, the following procedures shall be followed:

(1) A diligent effort shall be made to clean the well to the original total depth. The mine operator shall contact the District Manager prior to stopping the operation to pull casing or clean out the total depth of the well.

(2) If this depth cannot be reached, and the total depth if the well is less than 4,000 feet, the operator shall completely clean out the well from the surface to at least 200 feet below the base of the lowest mineable coal seam, unless the District Manager requires cleaning to a greater depth based on the geological strata or pressure within the well.

(3) The operator shall provide the District Manager with all information it possesses concerning the geological nature of the strata and the pressure of the well. If the total depth of the well is 4,000 feet or greater, the operator shall completely clean out the well from the surface to at least 400 feet below the base of the lowest mineable coal seam. The operator shall remove all material from the entire diameter of the well, wall to wall. If the total depth of the well is unknown and there is no historical information, the mine operator must contact the District Manager before proceeding.

(4) The operator shall prepare down-hole logs for each well. Logs shall consist of a caliper survey, a gamma log, a bond log, and deviation survey for determining the top, bottom, and thickness of all coal seams down to the lowest mineable coal seam, potential hydrocarbon producing strata, and the location for a bridge plug. In addition, a journal shall be maintained describing: the depth of each material encountered; the nature of each material encountered; bit size and type used to drill each portion of the hole; length and type of each material used to plug the well; length of casing(s) removed, perforated, ripped, or left in place; any sections where casing was cut or milled; and other pertinent information concerning the cleaning and sealing the well. Invoices, work-orders, and other records relating to all work on the well shall be maintained as part of the logs and provided to MSHA upon request.

(5) When cleaning out the well as described in alternative method section (a), the operator shall make a diligent effort to remove all of the casing in the well. After the well is completely cleaned out and all the casing removed, the well shall be plugged to the total depth by pumping cement slurry and pressurizing to at least 200 pounds per square inch (psi). If the casing cannot be removed, it shall be cut, milled, perforated, or ripped at all mineable coal seam levels to facilitate the removal of any remaining casing in the coal seam by the mining equipment. Any casing which remains shall be perforated of ripped to permit the injection of cement into voids within and around the well.

(6) All casing remaining at mineable coal seam levels shall be perforated or ripped at least every 5 feet from 10 feet below the coal seam to 10 feet above the coal seam. Perforations or rips are required at least every 50 feet from 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam up to 100 feet above the uppermost mineable coal seam. The mine operator shall take appropriate steps to ensure that the annulus between the casing and the well walls are filled with expanding (minimum 0.5 percent expansion upon setting) cement and contain no voids.

(7) If it is not possible to remove all of the casing, the operator shall notify the District Manager before any other work is performed. If the well cannot be cleaned out or the casing removed, the operator shall prepare the well as described from the surface to at least 200 feet below the base of the lowest mineable coal seam for wells 4,000 feet or greater, unless the District Manger requires cleaning out and removal of casing to a greater depth based on the geological strata or pressure within the well. If the operator, using a casing bond log can demonstrate to the satisfaction of the District Manager that all annuli in the well are already adequately sealed with cement, the operator shall not be required to perforate or rip the casing for that particular well. When multiple casing and tubing strings are present in the coal horizon(s), any casing which remains shall be ripped or perforated and filled with expanding cement as previously detailed. An acceptable casing bond log for each casing and tubing string shall be made if this is used in lieu of ripping or perforating multiple strings.

(8) If the District Manager concludes that the completely cleaned-out well is emitting excessive amounts of gas, the operator shall place a mechanical bridge plug in the well. It shall be placed in a competent stratum at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam, but above the top of the uppermost hydrocarbon producing stratum, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well. The operator shall provide the District Manager with all information it possesses concerning the geological nature of the strata and the pressure of the well. If it is not possible to set a mechanical bridge plug, an appropriately sized packer may be used. The mine operator shall document what has been done to ''kill the well'' and plug the hydrocarbon producing strata. If the upper-most hydrocarbon producing stratum is within 300 feet of the base of the lowest minable coal seam, the operator shall properly place mechanical bridge plugs as described in alternative method section (a) to isolate the hydrocarbon producing stratum from the expanding cement plug. The operator shall place a minimum of 200 feet (400 feet if the total well depth is 4,000 feet or greater) of expanding cement below the lowest mineable coal seam, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well.

(b) The following procedures shall be followed for plugging or re-plugging oil or gas wells to the surface after completely cleaning out the well as previously specified:

(1) The operator shall pump expanding cement slurry down the well to form a plug which runs from at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base

of the lowest mineable coal seam (or lower if required by the District Manager based on the geological strata or the pressure within the well) to the surface. The expanding cement will be placed in the well under a pressure of at least 200 psi. Portland cement or a lightweight cement mixture may be used to fill the area from 100 feet above the top of the uppermost mineable coal seam (or higher if required by the District Manager based on the geological strata or the pressure within the well) to the surface.

(2) The operator shall embed steel turnings or other small magnetic particles in the top of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4 inch or larger diameter casing, set in cement, shall extend at least 36 inches above the ground level with the American Petroleum Institute (API) well number engraved or welded on the casing. When the hole cannot not be marked with a physical monument (*e.g.,* prime farmland), high-resolution GPS coordinates (one-half meter resolution) shall be required.

(c) The following procedures shall be followed for plugging or re-plugging oil and gas wells that are to be used as degasification boreholes after completely cleaning out the well as previously specified:

(1) The operator shall set a cement plug in the well by pumping an expanding cement slurry down the tubing to provide at least 200 feet (400 feet if the total well depth is 4,000 feet of greater) of expanding cement below the lowest mineable coal seam, unless the District Manager requires a greater depth based on the geological strata or the pressure within the well. The expanding cement will be placed in the well under a pressure of at least 200 psi. The top of the expanding cement shall extend at least 50 feet above the top of the coal seam being mined, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well.

(2) The operator shall securely grout into the bedrock of the upper portion of the degasification well a suitable casing to protect it. The remainder of the well may be cased or uncased.

(3) The operator shall fit the top of the degasification casing with a wellhead equipped as required by the District Manager in the approved ventilation plan. Such equipment may include check valves, shut-in valves, sampling ports, flame arrestor equipment, and security fencing.

(4) Operation of the degasification well shall be addressed in the approved ventilation plan.

(5) After the area of the coal mine that is degassed by a well is sealed or the coal mine is abandoned, the operator shall plug all degasification wells using the following procedures:

(i) The operator shall insert a tube to the bottom of the well or, if not possible, to at least 100 feet above the coal seam being mined. Any blockage must be removed to ensure that the tube can be inserted to this depth.

(ii) The operator shall set a cement plug in the well by pumping Portland cement or a lightweight cement mixture down the tubing until the well is filled to the surface.

(iii) The operator shall embed steel turnings or other small magnetic particles in the top of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4 inch or larger casing, set in cement, shall extend at least 36 inches above the ground level with the API well number engraved or welded on the casing.

(d) The following provisions shall apply to all wells which the operator determines, and the MSHA District Manager agrees, cannot be completely cleaned out due to damage to the well caused by subsidence, caving, or other factors.

(1) The operator shall drill a hole adjacent and parallel to the well to a depth of at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the lowest mineable coal seam, unless the District Manager requires a greater depth based on the geological strata or the pressure within the well.

(2) The operator shall use a geophysical sensing device to locate any casing which may remain in the well.

(3) If the well contains casings, the operator shall drill into the well from the parallel hole. From 10 feet below the coal seam to 10 feet above the coal seam, the operator shall perforate or rip all casings at intervals of at least every 5 feet. Beyond this distance, the operator shall perforate or rip at least every 50 feet from at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable coal seam up to 100 feet above the seam being mined, unless the District Manager requires a greater distance based on the geological strata or the pressure within the well. The operator shall fill the annulus between the casings and the well wall with expanding (minimum 0.5 percent expansion upon setting) cement and shall ensure that these areas contain no voids. If the operator, using a casing bond log, can demonstrate to the satisfaction of the District Manager that the annulus of the well is adequately sealed with cement, the operator shall not be required to perforate or rip the casing for that particular well or fill these areas with cement. When multiple casing and tubing strings are present in the coal horizon(s), any remaining casing shall be ripped or perforated and filled with expanding cement. An acceptable casing bond log for each casing and tubing string can be used in lieu of ripping or perforating multiple strings.

(4) Where the operator determines, and the District Manager agrees, that there is insufficient casing in the well to allow the methods previously outlined to be used, the operator shall use a horizontal hydraulic fracturing technique to intercept the original well. From at least 200 feet (400 feet if the total well depth is 4,000 feet or greater) below the base of the lowest mineable seam to a point at least 50 feet above the seam being mined, the operator shall fracture in at least 6 places at intervals to be agree upon by the operator and the District Manager after considering the geological strata and the pressure within the well. The operator shall pump expanding cement into the fractured well in sufficient quantities and in a manner which fills all intercepted voids.

(5) The operator shall prepare down-hole logs for each well. Logs shall consist of a caliper survey, gamma log, a bond log, and a deviation survey for determining the top, bottom, and thickness of all coal seams down to the lowest mineable coal seam, potential hydrocarbon producing strata, and the location of any existing bridge plug. The operator shall obtain the logs from the adjacent hole rather than the well if the condition of the well makes it impractical to insert the equipment necessary to obtain the log.

(6) A journal shall be maintained describing: the depth of each material encountered; the nature of each material encountered; bit size and type used to drill each portion of the hole; length and type of each material used to plug the well; length of casing(s) removed, perforated, or ripped, or left in place; any sections where casing was cut or milled; and other pertinent information concerning sealing the well. Invoices, work-orders, and other records relating to all work on the well shall be maintained as part of this journal and provided to MSHA upon request.

(7) After the operator has plugged the well, the operator shall plug the adjacent hole, from the bottom to the surface, with Portland cement or a lightweight cement mixture. The operator shall embed steel turnings or other small magnetic particles in the top

of the cement near the surface to serve as a permanent magnetic monument of the well. In the alternative, a 4 inch or larger casing, set in cement, shall extend at least 36 inches above the ground level. A combination of the methods outlined previously may have to be used in a single well, depending upon the conditions of the hole and the presence of casings. The operator and the District Manager shall discuss the nature of each hole and if the District Manager requires more than one method be utilized. The mine operator may submit an alternative plan to the District Manager for approval to use different methods to address wells that cannot be completely cleaned out. Additional documentation and certification by a registered petroleum engineer to support the proposed alternative methods shall be submitted if required by the District Manager.

(e) The following procedures shall be followed after approval has been granted by the District Manager to mine within the safety barrier established by 30 CFR 75.1700 or to mine through a plugged or re-plugged well.

(1) A representative of the operator, a representative of the miners, the appropriate State agency, or the MSHA District Manager may request that a conference be conducted prior to intersecting through any plugged or re-plugged well. The party requesting the conference shall notify all other parties listed above within a reasonable time prior to the conference to provide opportunity for participation. The purpose of the conference shall be to review, evaluate, and accommodate any abnormal or unusual circumstance related to the condition of the well or surrounding strata when such conditions are encountered.

(2) The operator shall intersect a well on a shift approved by the District Manager. The operator shall notify the District Manager and the miners' representative in sufficient time prior to intersecting a well to provide an opportunity to have representatives present.

(3) When using continuous mining methods, the operator shall install drivage sights at the last open crosscut near the place to be mined to ensure intersection of the well. The drivage sites shall not be more than 50 feet from the well.

(4) When using longwall mining methods, distance markers shall be installed on 5-foot centers for a distance of 50 feet in advance of the well in the headgate entry and in the tailgate entry.

(5) The operator shall ensure that fire-fighting equipment including fire extinguishers, rock dust, and sufficient fire hose to reach the working face area of the well intersection (when either the conventional or continuous mining method is used) is available and operable during all well intersections. The fire hose shall be located in the last open crosscut of the entry or room. The operator shall maintain the water line to the belt conveyor tailpiece along with a sufficient amount of fire hose to reach the farthest point of penetration on the section. When the longwall mining method is used, a hose to the longwall water supply is sufficient.

(6) The operator shall ensure that sufficient supplies of roof support and ventilation materials shall be available and located at the last open crosscut. In addition, emergency plugs and suitable sealing materials shall be available in the immediate area of the well intersection.

(7) On the shift prior to intersecting the well, the operator shall test all equipment and check it for permissibility. Water sprays, water pressures, and water flow rates used for dust and spark suppression shall be examined and any deficiencies corrected.

(8) The operator shall calibrate the methane monitor(s) on the longwall, continuous mining machine, or cutting machine and loading machine on the shift prior to intersecting the well.

(9) When mining is in progress, the operator shall perform tests for methane with a handheld methane detector at least every 10 minutes from the time that mining with the continuous mining machine or longwall face is within 30 feet of the well until the well is intersected. During the actual cutting process, no individual shall be allowed on the return side until the well intersection has been completed, and the area has been examined and declared safe. All workplace examinations on the return side of the shearer will be conducted while the shearer is idle. The operator's most current approved ventilation plan will be followed at all times unless the District Manager requires a greater air velocity for the intersect.

(10) When using continuous or conventional mining methods, the working place shall be free from accumulations of coal dust and coal spillages, and rock dust shall be placed on the roof, rib, and floor to within 20 feet of the face when intersecting the well. On longwall sections, rock dusting shall be conducted and placed on the roof, rib, and floor up to both the headgate and tailgate gob.

(11) When the well is intersected, the operator shall de-energize all equipment and thoroughly examine and determine the area is safe before permitting mining to resume.

(12) After a well has been intersected and the working place determined to be safe, mining shall continue inby the well a sufficient distance to permit adequate ventilation around the area of the well.

(13) When necessary, torches shall be used for inadequately or inaccurately cut or milled casings. No open flame shall be permitted in the area until adequate ventilation has been established around the well bore and methane levels of less than 1.0 percent are present in all areas that will be exposed to flames and sparks from the torch. The operator shall apply a thick layer of rock dust to the roof, face, floor, ribs and any exposed coal within 20 feet of the casing prior to any use of torches.

(14) Non-sparking (brass) tools shall be located on the working section and shall be used exclusively to expose and examine cased wells.

(15) No person shall be permitted in the area of the well intersection except those engaged in the operation, including company personnel, representatives of the miners, MSHA personnel, and personnel from the appropriate State agency.

(16) The operator shall alert all personnel in the mine to the planned intersection of the well prior to their going underground if the planned intersection is to occur during their shift. This warning shall be repeated for all shifts until the well has been mined through.

(17) The well intersection shall be under the direct supervision of a certified individual. Instructions concerning the well intersection shall be issued only by the certified individual in charge.

(18) If the mine operator cannot find the well in the middle of the panel or a gate section misses the anticipated intersection, mining shall cease and the District Manager shall be notified.

(f) A copy of the PDO granted by MSHA shall be maintained at the mine and be available to the miners.

(g) If the well is not plugged to the total depth of all mineable coal seams identified in the core hole logs, any coal seams beneath the lowest plug shall remain subject to the barrier requirements of 30 CFR 75.1700.

(h) All necessary safety precautions and safe practices required by MSHA regulations and State regulatory agencies with jurisdiction over the plugging site shall be followed.

(i) All miners involved in the plugging or re-plugging operations shall be trained on the contents of the PDO

granted by MSHA prior to starting the process.

(j) Mechanical bridge plugs shall incorporate the best available technologies required or recognized by the State regulatory agency and/or oil and gas industry.

(k) Within 30 days after the PDO granted by MSHA becomes final, the operator shall submit proposed revisions for its approved 30 CFR part 48 training plan to the District Manager. These proposed revisions shall include initial and refresher training on compliance with the terms and conditions stated in the PDO granted by MSHA. The operator shall provide all miners involved in well intersection with training on the requirements of the PDO granted by MSHA prior to mining within 150 feet of the next well intended to be mined through.

(l) The responsible person required under 30 CFR 75.1501 shall be responsible for well intersection emergencies. The well intersection procedures shall be reviewed by the responsible person prior to any planned intersection.

(m) Within 30 days after the PDO granted by MSHA becomes final, the operator shall submit proposed revisions for its approved mine emergency evacuation and firefighting program of instruction required under 30 CFR 75.1502. The operator shall revise the program of instruction to include the hazards and evacuation procedures to be used for well intersections. All underground miners will be trained in this revised plan within 30 days of the submittal.

In support of the proposed alternative method, the petitioner submitted a gas well map that provides details and locations of gas wells.

The petitioner asserts that the alternate method proposed will at all times guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

Song-ae Aromie Noe,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520–43–P

MERIT SYSTEMS PROTECTION BOARD

Notice of Opportunity To File Amicus Briefs

AGENCY: Merit Systems Protection Board.

ACTION: Notice.

The Merit Systems Protection Board (MSPB or the Board) announces the opportunity to file amicus briefs in the matter of *Mary Reese* v. *Department of the Navy*, MSPB Docket No. DC–1221–21–0203–W–1, currently pending before the Board on petition for review. The *Reese* appeal presents a question regarding the scope of 5 U.S.C. 2302(b)(9)(C), which prohibits reprisal for ''cooperating with or disclosing information to the Inspector General (or any other component responsible for internal investigation or review) of an agency, or the Special Counsel, in accordance with applicable provisions of law.'' Given the limited precedent addressing the types of activities covered or excluded from section 2302(b)(9)(C), the Board is seeking the input of interested parties, including the Office of Special Counsel.

DATES: All briefs submitted in response to this notice must be received by the Clerk of the Board on or before May 20, 2024.

ADDRESSES: Briefs must be submitted to Gina K. Grippando, Clerk of the Board, Merit Systems Protection Board, by email to *mspb@mspb.gov*; by mail to Clerk of the Board, Merit Systems Protection Board, 1615 M Street NW, Washington, DC 20419; or by fax to (202) 653–7130.

FOR FURTHER INFORMATION CONTACT: Gina K. Grippando, Clerk of the Board, Merit Systems Protection Board, 1615 M Street NW, Washington, DC 20419; phone: (202) 653–7200; fax: (202) 653–7130; email: *mspb@mspb.gov*.

SUPPLEMENTARY INFORMATION: The Board has thus far issued limited precedent addressing the types of activities covered or excluded from section 5 U.S.C. 2302(b)(9)(C). Because the *Reese* appeal may present an opportunity to do so, the Board is seeking input from interested parties about the proper interpretation and application of the provision.

The first question of law presented in *Reese* is whether an employee's informal complaints of a climate of sexual harassment made to her supervisors and others (but not through the equal employment opportunity process) on behalf of herself and other employees might constitute ''the exercise of any appeal, complaint, or grievance right granted by any law, rule or regulation'' so as to be covered by section 2302(b)(9)(A), and thus precluding coverage under section 2302(b)(9)(C). In the context of an employee's formal administrative grievance, the Board has found that such actions are covered by section 2302(b)(9)(A) rather than section 2302(b)(9)(C). *McCray* v. *Department of the Army,* 2023 MSPB 10, ¶¶ 26–29. However, the Board has limited precedent otherwise analyzing the type of appeal, complaint, or grievance covered under section 2302(b)(9)(A). *See Marcell* v. *Department of Veterans Affairs,* 2022 MSPB 33, ¶ 6 (finding that an employee's request for FMLA leave and a OWCP claim did not fall under section 2302(b)(9)(A) because neither constituted an initial step toward taking legal action against the agency for the perceived violation of the employee's rights).

The second question of law presented in *Reese* concerns whether activity that falls within the protections of title VII may also be protected by section 2302(b)(9)(C). The U.S. Court of Appeals for the Federal Circuit has held that disclosures of violations of antidiscrimination laws made in equal employment opportunity (EEO) complaints, which are protected under antiretaliation provisions specific to the EEO process, are excluded from the protections of 5 U.S.C. 2302(b)(8). *Spruill* v. *Merit Systems Protection Board,* 978 F.2d 679, 692 (Fed. Cir. 1992). The court has also affirmed a Board decision, *Edwards* v. *Department of Labor,* 2022 MSPB 9, which held that verbal complaints of discrimination to supervisors are similarly excluded from the protections of 5 U.S.C. 2302(b)(8), *Edwards* v. *Merit Systems Protection Board,* No. 2022–1967, 2023 WL 4398002 (Fed. Cir. July 7, 2023). The question is whether the court's reasoning extends to 5 U.S.C. 2302(b)(9)(C).

The third question of law presented in *Reese* is whether the language of section 2302(b)(9)(C), ''cooperating with or disclosing information to the Inspector General (or any other component responsible for internal investigation or review) of an agency, or the Special Counsel, in accordance with applicable provisions of law,'' encompasses (1) an informal discussion with someone from the kind of agency component that might conduct investigations or (2) a formal interview with someone who is appointed as a fact finder but is not otherwise part of a formal investigatory office or component within an agency. The Board has recognized that the scope of this statutory language is not defined elsewhere in the statute or in the associated legislative history. *McCray,* 2023 MSPB 10, ¶ 27.

Required Format for Briefs

All briefs shall be captioned ''*Mary Reese* v. *Department of the Navy*'' and entitled ''Amicus Brief.'' Only one copy of the brief need be submitted. The

Board encourages interested persons or organizations to submit amicus briefs as attachments to email sent to *mspb@mspb.gov*. An email should contain a subject line indicating that the submission contains an amicus brief in the *Reese* case. Any commonly used word processing format or PDF format is acceptable; text formats are preferable to image formats. Briefs shall not exceed 30 pages in length and the text must be formatted as double-spaced, except for quotations and footnotes, on 8½ by 11 inch paper with one inch margins on all four sides. Regardless of the method used for submitting briefs, all submissions will be posted, without change, to MSPB's website (*www.mspb.gov*) and will include any personal information you provide. Therefore, submitting this information makes it public.

Gina K. Grippando,

Clerk of the Board.

BILLING CODE 7400–01–P

NATIONAL COUNCIL ON DISABILITY

Sunshine Act Meetings

TIME AND DATE: The Members of the National Council on Disability (NCD) will hold a quarterly business meeting on Thursday, May 9, 2024, 1:00 p.m.–5:00 p.m., eastern daylight time (EDT).

PLACE: This meeting will occur via Zoom videoconference. Registration is required. Interested parties are encouraged to join the meeting in an attendee status by Zoom Desktop Client, Mobile App, or Telephone to dial-in. Updated information is available on NCD's event page at *https://www.ncd.gov/meeting/2024-05-09-may-9-2024-council-meeting/*. To register for the Zoom webinar, please use the following URL: *https://www.zoomgov.com/webinar/register/WN_C-wldbB6SKedo9Ap4o6k-Q#/registration.*

In the event of audio disruption or failure, attendees can follow the meeting by accessing the Communication Access Realtime Translation (CART) link provided. CART is text-only translation that occurs real time and is not an exact transcript.

MATTERS TO BE CONSIDERED: Following welcome remarks and introductions, the Executive Committee will provide their report; followed by the Chair's report; policy updates; a break; followed by policy proposals for fiscal year 2025; a presentation by the Intertribal Disability Advisory Council (IDAC) on living with a disability on tribal lands, followed by Council member Q&A; a public comment session focused on public facilities and public transportation; and Council Member training on National Archives and Records Administration (NARA) requirements; then adjournment.

Agenda: The times provided below are approximations for when each agenda item is anticipated to be discussed (all times eastern daylight time):

Thursday, May 9, 2024

1:00–1:10 p.m.—Welcome and Call to Order
1:10–1:25 p.m.—Executive Committee Reports
1:25–1:35 p.m.—Chair's Report
1:35–2:05 p.m.—Policy Updates
2:05–2:15 p.m.—BREAK
2:15–3:15 p.m.—FY2025 Policy Proposals
3:15–4:00 p.m.—Presentation by Intertribal Disability Advisory Council (IDAC): Living with a disability on tribal lands, and Council member Q&A
4:00–4:30 p.m.—Public comment on public facilities, public transportation
4:30–5:00 p.m.—NARA training for Council members
5:30 p.m.—Adjournment

Public Comment: Your participation during the public comment period provides an opportunity for us to hear from you—individuals, businesses, providers, educators, parents and advocates. Your comments are important in bringing to the Council's attention and issues and priorities of the disability community.

For the May 9 Council meeting, NCD will have a public comment session to receive input on experiences with public facilities and public transportation. Additional information on specifics of the topic and guidelines are available on NCD's public comment page at *https://www.ncd.gov/public-comment/.*

Please share your experiences and/or knowledge on the accessibility of municipal/county or private recreation facilities regarding: buildings (accessibility of buildings, locker rooms, weight rooms, exercise areas); fitness equipment (exercise machines, weight machines); exercise classes (integrated classes, modifications); swimming facilities (pool lifts, entry ramps); and other accessibility comments on private or federally financed recreation facilities. NCD also continues to seek public comment on ground transportation. Please provide comments about: the accessibility of rental cars (reservations, hand-controls, cars available for rental); and the accessibility of hotel shuttles or other public shuttles.

Because of the virtual format, the Council will receive public comment by email or by video or audio over Zoom. To provide public comment during an NCD Council Meeting, NCD now requires advanced registration by sending send an email to *PublicComment@ncd.gov* with the subject line ''Public Comment'' and your name, organization, state, and topic of comment included in the body of your email. Deadline for registration is May 8, 8:00 p.m. EDT.

While public comment can be submitted on any topic over email, comments during the meeting should be specific to ground transportation experiences, as the input is needed for an upcoming report.

If any time remains following the conclusion of the comments of those registered, NCD may call upon those who desire to make comments but did not register.

CONTACT PERSON FOR MORE INFORMATION: Nicholas Sabula, Public Affairs Specialist, NCD, 1331 F Street NW, Suite 850, Washington, DC 20004; 202–272–2004 (V), or *nsabula@ncd.gov.*

Accommodations: An ASL interpreter will be on-camera during the entire meeting, and CART has been arranged for this meeting and will be embedded into the Zoom platform as well as available via streamtext link. The web link to access CART (in English) is: *https://www.streamtext.net/player?event=NCD.*

If you require additional accommodations, please notify Stacey Brown by sending an email to *sbrown@ncd.gov* as soon as possible, no later than 24 hours before the meeting.

Due to last-minute confirmations or cancellations, NCD may substitute items without advance public notice.

Dated: April 17, 2024.

Anne C. Sommers McIntosh,

Executive Director.

[FR Doc. 2024–08581 Filed 4–17–24; 4:15 pm]

BILLING CODE 8421–02–P

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Humanities

Meeting of Humanities Panel

AGENCY: National Endowment for the Humanities; National Foundation on the Arts and the Humanities.

ACTION: Notice of meeting.

SUMMARY: The National Endowment for the Humanities (NEH) will hold one additional meeting, by video conference, of the Humanities Panel, a Federal advisory committee, in April 2024. The purpose of the meetings is for panel review, discussion, evaluation, and recommendation of applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965.

DATES: See **SUPPLEMENTARY INFORMATION** for meeting dates. The meetings will open at 8:30 a.m. and will adjourn by 5:00 p.m. on the dates specified below.

FOR FURTHER INFORMATION CONTACT: Elizabeth Voyatzis, Committee Management Officer, 400 7th Street SW, Room 4060, Washington, DC 20506; (202) 606–8322; *evoyatzis@neh.gov.*

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. 10), notice is hereby given of the following meetings:

1. Date: April 30, 2024

This video meeting will discuss an application for the State Projects grant program, submitted to the Office of Federal State Partnership.

Because these meetings will include review of personal and/or proprietary financial and commercial information given in confidence to the agency by grant applicants, the meetings will be closed to the public pursuant to sections 552b(c)(4) and 552b(c)(6) of title 5, U.S.C., as amended. I have made this determination pursuant to the authority granted me by the Chair's Delegation of Authority to Close Advisory Committee Meetings dated April 15, 2016.

Dated: April 16, 2024.

Jessica Graves,

Paralegal Specialist, National Endowment for the Humanities.

BILLING CODE 7536–01–P

NUCLEAR REGULATORY COMMISSION

[License No. 52–31453–01; EA–2023–016; NRC–2024–0066]

In the Matter of Almonte Geo Service Group; Order Imposing Civil Monetary Penalty

AGENCY: Nuclear Regulatory Commission.

ACTION: Order; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order to Almonte Geo Service Group (Almonte), imposing a civil monetary penalty of $17,500. The NRC issued a Notice of Violation and Proposed Imposition of Civil Penalty on November 9, 2023, to Almonte. The violation involved the failure by Almonte to complete decommissioning no later than 24 hours following the initiation of decommissioning as required by NRC regulations. This order is effective on the date of issuance.

DATES: This order became effective on April 11, 2024.

ADDRESSES: Please refer to Docket ID NRC–2024–0066 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0066. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The order imposing civil monetary penalty of $17,500 is available in ADAMS under Package Accession No. ML24089A031.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Carmen Rivera-Diaz, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–0296, email: *Carmen.RiveraDiaz@nrc.gov.*

SUPPLEMENTARY INFORMATION: The text of the order is attached.

Dated: April 15, 2024.

For the Nuclear Regulatory Commission.

David L. Pelton,

Director, Office of Enforcement.

Attachment—Order Imposing Civil Monetary Penalty of $17,500

United States of America

Nuclear Regulatory Commission

In the Matter of: Almonte Geo Service Group, Toa Alta, Puerto Rico, Docket No. 03038488, License No. 52–31453–01, EA–23–016

Order Imposing Civil Monetary Penalty

I

Almonte Geo Service Group (Licensee) is the holder of Nuclear Materials License No. 52–31453–01 issued on October 4, 2011, by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to Part 30 of Title 10 of the Code of Federal Regulations (10 CFR). The license authorizes the possession and use of radioactive sources contained in portable nuclear moisture density gauges in accordance with conditions specified therein. The facility is located on the Licensee's site in Toa Alta, Puerto Rico.

II

The NRC inspected the Licensee's activities between March 1, 2023, and June 14, 2023. The results of this inspection indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated November 9, 2023 (ML23310A012).[1] The Notice states the nature of the violation, the provision of the NRC's requirements that the Licensee violated, and the amount of the civil penalty proposed for the violation.

Namely, the Notice describes that the Licensee failed to complete decommissioning no later than 24 months following the initiation of decommissioning as required by 10 CFR 30.36(h). In particular, the Licensee has not disposed of or transferred its licensed material despite having had its license revoked more than seven years ago and having initiated decommissioning activities almost four years ago. The Notice also documents that the NRC's primary interest in this matter is ensuring that the Licensee meets its obligation to transfer or dispose of the licensed material in its

[1] Designation in parentheses refers to an Agency-wide Documents Access and Management System (ADAMS) accession number. Documents referenced in this letter are publicly-available using the accession number in ADAMS.

possession and complete decommissioning of its site. Therefore, the civil penalty would not have been imposed if the Licensee (1) had properly disposed of or transferred the remaining sealed radioactive source possessed under the NRC license and (2) had sent information documenting that the material had been transferred or disposed of to the NRC within 60 days of the date of the letter transmitting the Notice (*i.e.,* by January 8, 2024).

The Licensee responded to the Notice in an email dated December 9, 2023 (ML23345A099). In its response, the Licensee requested additional time to save money to pay for proper disposal of the remaining sealed radioactive source in its possession. As of the date of this Order, the Licensee remains in possession of the sealed radioactive source.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined that the violation occurred as stated and that the penalty proposed for the violation designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, IT IS HEREBY ORDERED THAT:

The Licensee shall pay the civil penalty in the amount of $17,500 within 30 days of the date of the publication of this Order in the **Federal Register** through one of the following two methods:

1. Submit the payment with the enclosed invoice to this Order (EA–23–016) to the following address: Office of the Chief Financial Officer, U.S. Nuclear Regulatory Commission, P.O. Box 979051, St. Louis, MO 63197 or,

2. Submit the payment in accordance with NUREG/BR–0254.

In addition, at the time payment is made, the Licensee shall submit a statement indicating when and by what method payment was made, to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852–2738.

V

In accordance with 10 CFR 2.202, the Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order within 30 days of its publication in the **Federal Register**. In addition, the Licensee and any other person adversely affected by this Order may request a hearing on this Order within 30 days of its publication in the **Federal Register**. Where good cause is shown, consideration will be given to extending the time to answer or request a hearing. A request for extension of time must be directed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, and include a statement of good cause for the extension.

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the ''Guidance for Electronic Submissions to the NRC'' (ML13031A056) and on the NRC's public website at *https://www.nrc.gov/site-help/e-submittals.html.*

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at *Hearing.Docket@nrc.gov* or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at *https://www.nrc.gov/site-help/e-submittals/getting-started.html.* After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC's public website at *https://www.nrc.gov/site-help/electronic-sub-ref-mat.html.* A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system timestamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the ''Contact Us'' link located on the NRC's public website at *https://www.nrc.gov/site-help/e-submittals.html,* by email to *MSHD.Resource@nrc.gov,* or by a toll-free call at 1–866–672–7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at *https://adams.nrc.gov/ehd,* unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click ''cancel'' when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where

you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute Fair Use applications, participants should not include copyrighted materials in their submission.

If a person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which their interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If a hearing is requested by a licensee or a person whose interest is adversely affected, the Commission will issue an order designating the time and place of any hearings. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained. In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section IV above shall be final 20 days from the date this Order is published in the **Federal Register** without further order or proceedings.

If an extension of time for requesting a hearing has been approved, the provisions specified in Section IV shall be final when the extension expires if a hearing request has not been received. If payment has not been made by the time specified above, the matter may be referred to the Attorney General, for collection.

For the Nuclear Regulatory Commission.

/RA/,

David L. Pelton,

Director, Office of Enforcement.

Dated this 11 day of April, 2024.

BILLING CODE 7590–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99962; File No. SR–CboeBZX–2024–025]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

April 15, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2024, Cboe BZX Exchange, Inc. (''Exchange'' or ''BZX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the ''Exchange'' or ''BZX'') proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/equities/regulation/rule_filings/BZX/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (''BZX Equities'') to increase its monthly fee assessed on Members' MPIDs. The Exchange proposes to implement these changes effective April 1, 2024.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the ''Act''), to which market participants may direct their order flow. Based on publicly available information,[3] no single registered equities exchange has more than 15% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange further notes that broker-dealers are not compelled to be Members of the Exchange, and a significant proportion of broker-dealers that trade U.S. equity securities have, in fact, chosen not to apply for membership on the Exchange.

By way of background, an MPID is a four-character unique identifier that is approved by the Exchange and assigned to a Member for use on the Exchange to identify the Member firm on the orders sent to the Exchange and resulting executions. Members may choose to request more than one MPID as a unique identifier(s) for their transactions on the Exchange. The Exchange notes that a Member may have multiple MPIDs for use by separate business units and trading desks or to support Sponsored Participant access.[4] Certain members currently leverage multiple MPIDs to obtain benefits from and added value in

[3] *See* Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (March 20, 2024), available at *https://www.cboe.com/us/equities/market_statistics/*.

[4] A Sponsored Participant is a person which has entered into a sponsorship arrangement with a Sponsoring Member pursuant to Rule 11.3, which permits a Sponsored Participant to obtain authorized access to the System only if such access is authorized in advance by one or more Sponsoring Members. *See* Rules 1.5(z) and 11.3.

their participation on the Exchange. Multiple MPIDs provide unique benefits to and efficiencies for Members by allowing: (1) Members to manage their trading activity more efficiently by assigning different MPIDs to different trading desks and/or strategies within the firm; and (2) Sponsoring Members [5] to segregate Sponsored Participants by MPID to allow for detailed client-level reporting, billing, and administration, and to market the ability to use separate MPIDs to Sponsored Participants, which, in turn, may serve as a potential incentive for increased order flow traded through the Sponsoring Member.

The Exchange currently assesses a fee applicable to Members that use multiple MPIDs to facilitate their trading on the Exchange. Specifically, the Exchange assesses a monthly MPID Fee of $350 per MPID per Member, with a Member's first MPID provided free of charge. The MPID Fee is assessed on a pro-rated basis for new MPIDs by charging a Member based on the trading day in the month during which an additional MPID becomes effective for use. If a Member cancels an additional MPID on or after the first business day of the month, the Member will be required to pay the entire MPID Fee for that month.

The Exchange now proposes to increase the monthly MPID Fee from $350 per MPID per Member to $450 per MPID per Member. The Exchange believes the proposed increase continues to align with the additional value and benefits provided to Members that choose to utilize more than one MPID to facilitate their trading on the Exchange. The Exchange also believes that continuing to assess a fee on additional MPIDs will be beneficial because such fee will promote efficiency in MPID use.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4) [9] as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient.

The Exchange believes that the proposed MPID Fee is consistent with the Act in that it is reasonable, equitable, and not unfairly discriminatory. In particular, the Exchange believes that the proposed fee is reasonable because it is reasonably aligned with the benefits provided to Members that choose to utilize multiple MPIDs to facilitate their trading on the Exchange. While each Member must have an MPID to participate on the Exchange, additional MPIDs are optional and will be assessed the fee, as amended. Additional MPIDs currently allow for Members to realize certain benefits from and added value to their participation on the Exchange but also require the Exchange to allocate additional administrative resources to manage each MPID that a Member chooses to use for its trading activity. Therefore, the Exchange believes that it is reasonable to assess a modest fee on any additional MPIDs that Members choose to use to facilitate their trading. The Exchange again notes that it is optional for a Member to request and employ additional MPIDs, and a large portion (approximately 69%) of the Exchange's Members currently utilize just the one MPID necessary to participate on the Exchange.

The Exchange also believes that assessing a fee on additional MPIDs continues to be reasonably designed to promote efficiency in MPID use. When the Exchange first implemented the current MPID Fee,[10] it observed as a result that Members were incentivized to more effectively administer their MPIDs and reduce the number of under-used or superfluous MPIDs, or MPIDs that did not contribute additional value to a Member's participation on the Exchange. Reduction of such MPIDs, in turn, reduces Exchange resources allocated to administration and maintenance of those MPIDs. In particular, the Exchange observed that within the first few months of introducing the previous MPID Fee, the number of MPIDs on the Exchange decreased by approximately 17%, demonstrating that Members may choose to be more efficient in their use of MPIDs in response to an MPID Fee, such as that proposed in this fee change.[11]

The Exchange further believes the proposed MPID Fee change is reasonable because the amount assessed continues to be less than the analogous fees charged by at least one other market; namely, Nasdaq Stock Market LLC (''Nasdaq'').[12] The Exchange's proposed MPID Fee increase to $450 a month per MPID, with no charge associated with a Members' first MPID, continues to be lower than Nasdaq's MPID fee of $550 per MPID, which is charged for all MPIDs used by a Nasdaq member, including a member's first MPIDs.

The Exchange believes that the proposed MPID Fee change is equitable and not unfairly discriminatory because it will apply equally to all Members that choose to employ two or more MPIDs based on the number of additional MPIDs that they use to facilitate their trading on the Exchange. As stated, additional MPIDs beyond a Member's first MPID are optional, and Members may choose to trade using such additional MPIDs to achieve additional benefits and added value to support their individual business needs. Moreover, the Exchange believes the proposed fee is equitable and not unfairly discriminatory because it is proportional to the potential value or benefit received by Members with a greater number of MPIDs. That is, those

[5] A Sponsoring Member is a Member that is a registered broker-dealer and that has been designated by a Sponsored Participant to execute, clear and settle transactions resulting from the System. The Sponsoring Member shall be either (i) a clearing firm with membership in a clearing agency registered with the Commission that maintains facilities through which transactions may be cleared or (ii) a correspondent firm with a clearing arrangement with any such clearing firm. See Rule 1.5(aa).

[6] 15 U.S.C. 78f(b).

[7] 15 U.S.C. 78f(b)(5).

[8] *Id.*

[9] 15 U.S.C. 78f(b)(4).

[10] *See* Securities and Exchange Release No. 90944 (January 19, 2021), 86 FR 7127 (January 26, 2021) (SR–CboeBZX–2021–011).

[11] The reduction in MPIDs may also demonstrate that Members are free to cancel MPIDs on the Exchange and choose, instead, to utilize unique identifiers associated with participation on other exchanges.

[12] *See* Nasdaq Price List, MPID Fees, available at *https://nasdaqtrader.com/Trader.aspx?id=PriceList Trading2*.

Members that choose to employ a greater number of additional MPIDs have the opportunity to more effectively manage firm-wide trading activity and client-level administration, as well as potentially appeal to customers through the use of separate MPIDs, which may result in increased order flow through a Sponsoring Member. A Member may request at any time that the Exchange terminate an MPID, including MPIDs that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary in furtherance of the purposes of the Act because the proposed change will apply equally to all Members that choose to employ additional MPIDs and equally to each additional MPID. As stated, additional MPIDs are optional and Members may choose to utilize additional MPIDs, or not, based on their view of the additional benefits and added value provided by utilizing the single MPID necessary to participate on the Exchange. The Exchange believes the proposed fee will be assessed proportionately to the potential value or benefit received by Members with a greater number of MPIDs and notes that a Member may continue to request at any time that the Exchange terminate any MPID, including those that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market, including competition for exchange memberships. Members have numerous alternative venues that they may participate on, including 15 other equities exchanges, as well as off-exchange venues, including alternative trading systems, where competitive products are available for trading. Indeed, participants can readily choose to submit their order flow to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. In addition to this the Exchange notes that at least one other exchange currently has higher MPID fees in place, which have been previously filed with the Commission. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [13] The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition* v. *Securities* and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[14] Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [15] and paragraph (f) of Rule 19b–4 [16] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include file number SR–CboeBZX–2024–025 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBZX–2024–025. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeBZX–2024–025 and should be submitted on or before May 10, 2024.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99961; File No. SR–CboeBYX–2024–011]

Self-Regulatory Organizations; Cboe BYX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

April 15, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2024, Cboe BYX Exchange, Inc. (''Exchange'' or ''BYX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BYX Exchange, Inc. (the ''Exchange'' or ''BYX'') proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/equities/regulation/rule_filings/BYX/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (''BYX Equities'') to increase its monthly fee assessed on Members' MPIDs. The Exchange proposes to implement these changes effective April 1, 2024.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the ''Act''), to which market participants may direct their order flow. Based on publicly available information,[3] no single registered equities exchange has more than 15% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange further notes that broker-dealers are not compelled to be Members of the Exchange, and a significant proportion of broker-dealers that trade U.S. equity securities have, in fact, chosen not to apply for membership on the Exchange.

By way of background, an MPID is a four-character unique identifier that is approved by the Exchange and assigned to a Member for use on the Exchange to identify the Member firm on the orders sent to the Exchange and resulting executions. Members may choose to request more than one MPID as a unique identifier(s) for their transactions on the Exchange. The Exchange notes that a Member may have multiple MPIDs for use by separate business units and trading desks or to support Sponsored Participant access.[4] Certain members currently leverage multiple MPIDs to obtain benefits from and added value in their participation on the Exchange. Multiple MPIDs provide unique benefits to and efficiencies for Members by allowing: (1) Members to manage their trading activity more efficiently by assigning different MPIDs to different trading desks and/or strategies within the firm; and (2) Sponsoring Members[5] to segregate Sponsored Participants by MPID to allow for detailed client-level reporting, billing, and administration, and to market the ability to use separate MPIDs to Sponsored Participants, which, in turn, may serve as a potential incentive for increased order flow traded through the Sponsoring Member.

The Exchange currently assesses a fee applicable to Members that use multiple MPIDs to facilitate their trading on the Exchange. Specifically, the Exchange assesses a monthly MPID Fee of $150 per MPID per Member, with a Member's first MPID provided free of charge. The MPID Fee is assessed on a pro-rated basis for new MPIDs by charging a Member based on the trading day in the month during which an additional MPID becomes effective for use. If a Member cancels an additional MPID on or after the first business day of the month, the Member will be required to pay the entire MPID Fee for that month.

The Exchange now proposes to increase the monthly MPID Fee from $150 per MPID per Member to $250 per MPID per Member. The Exchange believes the proposed increase continues to align with the additional value and benefits provided to Members that choose to utilize more than one MPID to facilitate their trading on the Exchange. The Exchange also believes that continuing to assess a fee on additional MPIDs will be beneficial because such fee will promote efficiency in MPID use.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[6] Specifically,

[17] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (March 20, 2024), available at *https://www.cboe.com/us/equities/market_statistics/*.

[4] A Sponsored Participant is a person which has entered into a sponsorship arrangement with a Sponsoring Member pursuant to Rule 11.3, which permits a Sponsored Participant to obtain authorized access to the System only if such access is authorized in advance by one or more Sponsoring Members. *See* Rules 1.5(z) and 11.3.

[5] A Sponsoring Member is a Member that is a registered broker-dealer and that has been designated by a Sponsored Participant to execute, clear and settle transactions resulting from the System. The Sponsoring Member shall be either (i) a clearing firm with membership in a clearing agency registered with the Commission that maintains facilities through which transactions may be cleared or (ii) a correspondent firm with a clearing arrangement with any such clearing firm. See Rule 1.5(aa).

[6] 15 U.S.C. 78f(b).

the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)[9] as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient.

The Exchange believes that the proposed MPID Fee is consistent with the Act in that it is reasonable, equitable, and not unfairly discriminatory. In particular, the Exchange believes that the proposed fee is reasonable because it is reasonably aligned with the benefits provided to Members that choose to utilize multiple MPIDs to facilitate their trading on the Exchange. While each Member must have an MPID to participate on the Exchange, additional MPIDs are optional and will be assessed the fee, as amended. Additional MPIDs currently allow for Members to realize certain benefits from and added value to their participation on the Exchange but also require the Exchange to allocate additional administrative resources to manage each MPID that a Member chooses to use for its trading activity. Therefore, the Exchange believes that it is reasonable to assess a modest fee on any additional MPIDs that Members choose to use to facilitate their trading. The Exchange again notes that it is optional for a Member to request and employ additional MPIDs, and a large portion (approximately 68%) of the Exchange's Members currently utilize just the one MPID necessary to participate on the Exchange.

The Exchange also believes that assessing a fee on additional MPIDs continues to be reasonably designed to promote efficiency in MPID use. When the Exchange first implemented the current MPID Fee,[10] it observed as a result that Members were incentivized to more effectively administer their MPIDs and reduce the number of under-used or superfluous MPIDs, or MPIDs that did not contribute additional value to a Member's participation on the Exchange. Reduction of such MPIDs, in turn, reduces Exchange resources allocated to administration and maintenance of those MPIDs. In particular, the Exchange observed that within the first few months of introducing the previous MPID Fee, the number of MPIDs on the Exchange decreased by approximately 18%, demonstrating that Members may choose to be more efficient in their use of MPIDs in response to an MPID Fee, such as that proposed in this fee change.[11]

The Exchange further believes the proposed MPID Fee change is reasonable because the amount assessed continues to be less than the analogous fees charged by at least one other market; namely, Nasdaq Stock Market LLC (''Nasdaq'').[12] The Exchange's proposed MPID Fee increase to $250 a month per MPID, with no charge associated with a Members' first MPID, continues to be lower than Nasdaq's MPID fee of $550 per MPID, which is charged for all MPIDs used by a Nasdaq member, including a member's first MPIDs.

The Exchange believes that the proposed MPID Fee change is equitable and not unfairly discriminatory because it will apply equally to all Members that choose to employ two or more MPIDs based on the number of additional MPIDs that they use to facilitate their trading on the Exchange. As stated, additional MPIDs beyond a Member's first MPID are optional, and Members may choose to trade using such additional MPIDs to achieve additional benefits and added value to support their individual business needs. Moreover, the Exchange believes the proposed fee is equitable and not unfairly discriminatory because it is proportional to the potential value or benefit received by Members with a greater number of MPIDs. That is, those Members that choose to employ a greater number of additional MPIDs have the opportunity to more effectively manage firm-wide trading activity and client-level administration, as well as potentially appeal to customers through the use of separate MPIDs, which may result in increased order flow through a Sponsoring Member. A Member may request at any time that the Exchange terminate an MPID, including MPIDs that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary in furtherance of the purposes of the Act because the proposed change will apply equally to all Members that choose to employ additional MPIDs and equally to each additional MPID. As stated, additional MPIDs are optional and Members may choose to utilize additional MPIDs, or not, based on their view of the additional benefits and added value provided by utilizing the single MPID necessary to participate on the Exchange. The Exchange believes the proposed fee will be assessed proportionately to the potential value or benefit received by Members with a greater number of MPIDs and notes that a Member may continue to request at any time that the Exchange terminate any MPID, including those that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market, including competition for exchange memberships. Members have numerous alternative venues that they may participate on, including 15 other equities exchanges, as well as off-exchange venues, including alternative trading systems, where competitive products are available for trading. Indeed, participants can readily choose to submit their order flow to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. In addition

[7] 15 U.S.C. 78f(b)(5).

[8] *Id.*

[9] 15 U.S.C. 78f(b)(4).

[10] *See* Securities and Exchange Release No. 90943 (January 19, 2021), 86 FR 7146 (January 26, 2021) (SR–CboeBYX–2021–004).

[11] The reduction in MPIDs may also demonstrate that Members are free to cancel MPIDs on the Exchange and choose, instead, to utilize unique identifiers associated with participation on other exchanges.

[12] *See* Nasdaq Price List, MPID Fees, available at *https://nasdaqtrader.com/Trader.aspx?id=PriceListTrading2.*

to this the Exchange notes that at least one other exchange currently has higher MPID fees in place, which have been previously filed with the Commission. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [13] The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition* v. *Securities and Exchange Commission,* the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[14] Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [15] and paragraph (f) of Rule 19b–4 [16] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeBYX–2024–011 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBYX–2024–011. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeBYX–2024–011 and should be submitted on or before May 10, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[17]

Vanessa A. Countryman,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99959; File No. SR–CboeEDGA–2024–011]

Self-Regulatory Organizations; Cboe EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

April 15, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'') [1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2024, Cboe EDGA Exchange, Inc. (''Exchange'' or ''EDGA'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGA Exchange, Inc. (the ''Exchange'' or ''EDGA'') proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/equities/regulation/rule_filings/edga/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (''EDGA Equities'') to increase its monthly fee assessed on Members' MPIDs. The Exchange proposes to implement these changes effective April 1, 2024.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the ''Act''), to which market participants may direct their order flow. Based on publicly available information,[3] no single registered equities exchange has more than 15% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange further notes that broker-dealers are not compelled to be Members of the Exchange, and a significant proportion of broker-dealers that trade U.S. equity securities have, in fact, chosen not to apply for membership on the Exchange.

By way of background, an MPID is a four-character unique identifier that is approved by the Exchange and assigned to a Member for use on the Exchange to identify the Member firm on the orders sent to the Exchange and resulting executions. Members may choose to request more than one MPID as a unique identifier(s) for their transactions on the Exchange. The Exchange notes that a Member may have multiple MPIDs for use by separate business units and trading desks or to support Sponsored Participant access.[4] Certain members currently leverage multiple MPIDs to obtain benefits from and added value in their participation on the Exchange. Multiple MPIDs provide unique benefits to and efficiencies for Members by allowing: (1) Members to manage their trading activity more efficiently by assigning different MPIDs to different trading desks and/or strategies within the firm; and (2) Sponsoring Members[5] to segregate Sponsored Participants by MPID to allow for detailed client-level reporting, billing, and administration, and to market the ability to use separate MPIDs to Sponsored Participants, which, in turn, may serve as a potential incentive for increased order flow traded through the Sponsoring Member.

The Exchange currently assesses a fee applicable to Members that use multiple MPIDs to facilitate their trading on the Exchange. Specifically, the Exchange assesses a monthly MPID Fee of $150 per MPID per Member, with a Member's first MPID provided free of charge. The MPID Fee is assessed on a pro-rated basis for new MPIDs by charging a Member based on the trading day in the month during which an additional MPID becomes effective for use. If a Member cancels an additional MPID on or after the first business day of the month, the Member will be required to pay the entire MPID Fee for that month.

The Exchange now proposes to increase the monthly MPID Fee from $150 per MPID per Member to $250 per MPID per Member. The Exchange believes the proposed increase continues to align with the additional value and benefits provided to Members that choose to utilize more than one MPID to facilitate their trading on the Exchange. The Exchange also believes that continuing to assess a fee on additional MPIDs will be beneficial because such fee will promote efficiency in MPID use.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)[9] as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient.

The Exchange believes that the proposed MPID Fee is consistent with the Act in that it is reasonable, equitable, and not unfairly discriminatory. In particular, the Exchange believes that the proposed fee is reasonable because it is reasonably aligned with the benefits provided to Members that choose to utilize multiple MPIDs to facilitate their trading on the Exchange. While each Member must have an MPID to participate on the Exchange, additional MPIDs are optional and will be assessed the fee, as amended. Additional MPIDs currently allow for Members to realize certain benefits from and added value to their participation on the Exchange but also require the Exchange to allocate additional administrative resources to manage each MPID that a Member chooses to use for its trading activity. Therefore, the Exchange believes that it is reasonable to assess a modest fee on any additional MPIDs that Members choose to use to facilitate their trading. The Exchange again notes that it is optional for a Member to request and employ additional MPIDs, and a large portion (approximately 68%) of the Exchange's Members currently utilize

[7] 15 U.S.C. 78f(b)(5).

[8] *Id.*

[9] 15 U.S.C. 78f(b)(4).

just the one MPID necessary to participate on the Exchange.

The Exchange also believes that assessing a fee on additional MPIDs continues to be reasonably designed to promote efficiency in MPID use. When the Exchange first implemented the current MPID Fee,[10] it observed as a result that Members were incentivized to more effectively administer their MPIDs and reduce the number of under-used or superfluous MPIDs, or MPIDs that did not contribute additional value to a Member's participation on the Exchange. Reduction of such MPIDs, in turn, reduces Exchange resources allocated to administration and maintenance of those MPIDs. In particular, the Exchange observed that within the first few months of introducing the previous MPID Fee, the number of MPIDs on the Exchange decreased by approximately 17%, demonstrating that Members may choose to be more efficient in their use of MPIDs in response to an MPID Fee, such as that proposed in this fee change.[11]

The Exchange further believes the proposed MPID Fee change is reasonable because the amount assessed continues to be less than the analogous fees charged by at least one other market; namely, Nasdaq Stock Market LLC (''Nasdaq'').[12] The Exchange's proposed MPID Fee increase to $250 a month per MPID, with no charge associated with a Members' first MPID, continues to be lower than Nasdaq's MPID fee of $550 per MPID, which is charged for all MPIDs used by a Nasdaq member, including a member's first MPIDs.

The Exchange believes that the proposed MPID Fee change is equitable and not unfairly discriminatory because it will apply equally to all Members that choose to employ two or more MPIDs based on the number of additional MPIDs that they use to facilitate their trading on the Exchange. As stated, additional MPIDs beyond a Member's first MPID are optional, and Members may choose to trade using such additional MPIDs to achieve additional benefits and added value to support their individual business needs. Moreover, the Exchange believes the proposed fee is equitable and not unfairly discriminatory because it is proportional to the potential value or benefit received by Members with a greater number of MPIDs. That is, those Members that choose to employ a greater number of additional MPIDs have the opportunity to more effectively manage firm-wide trading activity and client-level administration, as well as potentially appeal to customers through the use of separate MPIDs, which may result in increased order flow through a Sponsoring Member. A Member may request at any time that the Exchange terminate an MPID, including MPIDs that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary in furtherance of the purposes of the Act because the proposed change will apply equally to all Members that choose to employ additional MPIDs and equally to each additional MPID. As stated, additional MPIDs are optional and Members may choose to utilize additional MPIDs, or not, based on their view of the additional benefits and added value provided by utilizing the single MPID necessary to participate on the Exchange. The Exchange believes the proposed fee will be assessed proportionately to the potential value or benefit received by Members with a greater number of MPIDs and notes that a Member may continue to request at any time that the Exchange terminate any MPID, including those that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market, including competition for exchange memberships. Members have numerous alternative venues that they may participate on, including 15 other equities exchanges, as well as off-exchange venues, including alternative trading systems, where competitive products are available for trading. Indeed, participants can readily choose to submit their order flow to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. In addition to this the Exchange notes that at least one other exchange currently has higher MPID fees in place, which have been previously filed with the Commission. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [13] The fact that this market is competitive has also long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[14] Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [15] and paragraph (f) of Rule 19b–4 [16] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if

it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeEDGA–2024–011 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeEDGA–2024–011. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeEDGA–2024–011 and should be submitted on or before May 10, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[17]

Vanessa A. Countryman,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270–86, OMB Control No. 3235–0080]

Submission for OMB Review; Comment Request; Extension: Rule 12d2–2 and Form 25

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (''PRA'') (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (''Commission'') has submitted to the Office of Management and Budget (''OMB'') a request for approval of extension of the existing collection of information provided for in Rule 12d2–2 (17 CFR 240.12d2–2) and Form 25 (17 CFR 249.25) under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

On February 12, 1935, the Commission adopted Rule 12d2–2 [1] and Form 25, under the Securities Exchange Act of 1934 (''Act''), to establish the conditions and procedures under which a security may be delisted from an exchange and withdrawn from registration under Section 12(b) of the Act.[2] The Commission adopted amendments to Rule 12d2–2 and Form 25 in 2005.[3] Under the amended Rule 12d2–2, all issuers and national securities exchanges seeking to delist and deregister a security in accordance with the rules of an exchange must file the adopted version of Form 25 with the Commission. The Commission also adopted amendments to Rule 19d–1 under the Act to require exchanges to file the adopted version of Form 25 as notice to the Commission under Section 19(d) of the Act. Finally, the Commission adopted amendments to exempt standardized options and security futures products from Section 12(d) of the Act. These amendments were intended to simplify the paperwork and procedure associated with a delisting and to unify general rules and procedures relating to the delisting process.

Form 25 is useful because it informs the Commission and members of the public that a security previously traded on an exchange is no longer traded. In addition, Form 25 enables the Commission to verify that the delisting and/or deregistration has occurred in accordance with the rules of the exchange. Further, Form 25 helps to focus the attention of delisting issuers to make sure that they abide by the proper procedural and notice requirements associated with a delisting and/or deregistration. Without Rule 12d2–2 and Form 25, as applicable, the Commission would be unable to fulfill its statutory responsibilities.

There are 24 national securities exchanges that could possibly be respondents complying with the requirements of Rule 12d2–2 and Form 25.[4] The burden of complying with Rule 12d2–2 and Form 25 is not evenly distributed among the exchanges, however, since there are many more securities listed on the New York Stock Exchange, the NASDAQ Stock Market, and NYSE American than on the other exchanges. However, for purposes of this filing, the Commission staff has assumed that the number of responses is evenly divided among the exchanges. Since approximately 985 responses under Rule 12d2–2 and Form 25 for the purpose of delisting and/or deregistration of equity securities are received annually by the Commission from the national securities exchanges, the resultant aggregate annual reporting hour burden would be, assuming on average one hour per response, 985 annual burden hours for all exchanges (24 exchanges × an average of 41.04 responses per exchange × 1 hour per response). In addition, since approximately 117 responses are received by the Commission annually from issuers wishing to remove their

[17] 17 CFR 200.30–3(a)(12).

[1] *See* Securities Exchange Act Release No. 98 (Feb. 12, 1935).

[2] *See* Securities Exchange Act Release No. 7011 (Feb. 5, 1963), 28 FR 1506 (Feb. 16, 1963).

[3] *See* Securities Exchange Act Release No. 52029 (Jul. 14, 2005), 70 FR 42456 (Jul. 22, 2005).

[4] The staff notes that a few of these 24 registered national securities exchanges only have rules to permit the listing of standardized options, which are exempt from Rule 12d2–2 under the Act. Nevertheless, the staff counted national securities exchanges that can only list options as potential respondents because these exchanges could potentially adopt new rules, subject to Commission approval under Section 19(b) of the Act, to list and trade equity and other securities that have to comply with Rule 12d2–2 under the Act. Notice registrants that are registered as national securities exchanges solely for the purposes of trading securities futures products have not been counted since, as noted above, securities futures products are exempt from complying with Rule 12d–2–2 under the Act and therefore do not have to file Form 25.

securities from listing and registration on exchanges, the Commission staff estimates that the aggregate annual reporting hour burden on issuers would be, assuming on average one reporting hour per response, 117 annual burden hours for all issuers (117 issuers × 1 response per issuer × 1 hour per response). Accordingly, the total annual hour burden for all respondents to comply with Rule 12d2–2 is 1,102 hours (985 hours for exchanges + 117 hours for issuers). The total related internal compliance cost associated with these burden hours is $269,852 ($226,796 for exchanges plus $43,056 for issuers).

The collection of information obligations imposed by Rule 12d2–2 and Form 25 are mandatory. The response will be available to the public and will not be kept confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

The public may view background documentation for this information collection at the following website: *www.reginfo.gov.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Written comments and recommendations for the proposed information collection should be sent by May 20, 2024 to (i) *www.reginfo.gov/public/do/PRAMain* and (ii) David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street, NE, Washington, DC 20549, or by sending an email to: *PRA_Mailbox@sec.gov.*

Dated: April 16, 2024.

Vanessa A. Countryman,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99955; File No. SR–MIAX–2024–20]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Fees and Rebates for QCC and cQCC Orders

April 15, 2024.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 8, 2024, Miami International Securities Exchange, LLC (''MIAX'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Fee Schedule (''Fee Schedule'') to amend fees and rebates for QCC and cQCC Orders. The text of the proposed rule change is available on the Exchange's website at *https://www.miaxglobal.com/markets/us-options/all-options-exchanges/rule-filings,* at MIAX's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Sections 1)a)vii)–viii) of the Fee Schedule to modify certain fees and rebates applicable to Qualified Contingent Cross (''QCC'') Orders and Complex Qualified Contingent Cross (''cQCC'') Orders (defined and described below). The Exchange previously filed this proposal on March 28, 2024 (SR–MIAX–2024–18). On April 8, 2024, the Exchange withdrew SR–MIAX–2024–18 and resubmitted this proposal.

Background

A QCC Order is comprised of an originating order to buy or sell at least 1,000 contracts that is identified as being part of a qualified contingent trade, coupled with a contra-side order or orders totaling an equal number of contracts.[3] A ''qualified contingent trade'' is a transaction consisting of two or more component orders, executed as agent or principal, where: (a) at least one component is an NMS Stock, as defined in Rule 600 of Regulation NMS under the Exchange Act; (b) all components are effected with a product or price contingency that either has been agreed to by all the respective counterparties or arranged for by a broker-dealer as principal or agent; (c) the execution of one component is contingent upon the execution of all other components at or near the same time; (d) the specific relationship between the component orders (*e.g.,* the spread between the prices of the component orders) is determined by the time the contingent order is placed; (e) the component orders bear a derivative relationship to one another, represent different classes of shares of the same issuer, or involve the securities of participants in mergers or with intentions to merge that have been announced or cancelled; and (f) the transaction is fully hedged (without regard to any prior existing position) as a result of other components of the contingent trade.[4]

Section 1)a)vii) of the Fee Schedule provides certain fees and rebates applicable to QCC Orders. Currently, the Exchange provides rebates to the Member[5] firm that enters the QCC Order into the MIAX System,[6] with the rebates only paid on the initiating side (the ''initiator'') of the QCC transaction. However, no rebates are paid for QCC Orders for which both the initiator and contra-side orders are Priority Customers.[7] The Exchange notes that with regard to order entry, the first order submitted into the System is marked as

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Exchange Rule 516(j).

[4] *See* Exchange Rule 516, Interpretation and Policy .01.

[5] The term ''Member'' means an individual or organization approved to exercise the trading rights associated with a Trading Permit. Members are deemed ''members'' under the Exchange Act. *See* Exchange Rule 100.

[6] The term ''System'' means the automated trading system used by the Exchange for the trading of securities. *See* Exchange Rule 100.

[7] The term ''Priority Customer'' means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s). The number of orders shall be counted in accordance with the Interpretation and Policy .01. *See* Exchange Rule 100.

the initiating side and the second order is marked as the contra-side.

A cQCC Order is comprised of an originating complex order[8] to buy or sell where each component is at least 1,000 contracts that is identified as being part of a qualified contingent trade[9] coupled with a contra-side complex order or orders totaling an equal number of contracts.[10]

Section 1)a)viii) of the Fee Schedule provides certain fees and rebates applicable to cQCC Orders. Currently, for cQCC Orders, all fees and rebates are per contract per leg. The Exchange provides rebates to the Member firm that enters the order into the MIAX System, with rebates only paid on the initiating side of the cQCC Order. However, no rebates are paid for cQCC Orders for which both the initiator and contra-side orders are Priority Customers.

Proposal To Amend QCC Order Fees and Rebates

The Exchange proposes to amend the fees and rebates applicable to QCC Orders. Currently, the Exchange assesses initiator fees as follows: $0.00 per contract for the Priority Customer origin; and $0.15 per contract for all other market participant origins (*i.e.,* a Public Customer[11] that is not a Priority Customer, MIAX Market Makers,[12] non-MIAX Market Makers, non-Member Broker-Dealers, and Firm).[13] The Exchange assesses contra-side fees as follows: $0.00 per contract for the Priority Customer origin; and $0.17 per contract for all other types of market participant origins. The Exchange provides an initiator rebate of $0.14 per contract for all origins. The Exchange also provides the following initiator rebates when the contra-side is an origin other than a Priority Customer: $0.14 per contract for a Priority Customer; $0.27 per contract for a Public Customer that is not a Priority Customer; and $0.22 per contact for a Professional.

First, the Exchange proposes to clarify and amend the fees for initiators of a QCC Order so that the per contract side will be stated in the heading of the first column of fees in the table for QCC Orders. The Exchange proposes to assess initiator fees for all market participant origins, except the Priority Customer origin, as follows: $0.12 per contract side for the Public Customer that is not a Priority Customer origin; and $0.20 per contract side for Professional origins. The Exchange does not propose to charge an initiator fee for the Priority Customer origin.

Next, the Exchange proposes to clarify and amend the fees for the contra-side of a QCC Order so that the per contract side will be stated in the heading of the second column of fees in the table for QCC Orders. The Exchange proposes to assess contra-side fees for all market participant origins, except the Priority Customer origin, as follows: $0.12 per contract side for the Public Customer that is not a Priority Customer origin; and $0.20 per contract side for Professional origins.

Next, the Exchange proposes to amend the columns for rebates to clarify that rebates are paid to the Electronic Exchange Member (''EEM'')[14] that entered the QCC Order, depending upon the origin type and the origin type on the contra-side. In particular, the Exchange proposes to amend the heading of the third column of rebates in the table for QCC Orders to now state as follows: ''Per Contract Rebate for EEM when Contra is a Priority Customer''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is a Priority Customer: $0.00 per contract for the Priority Customer origin; $0.07 per contract for the Public Customer that is not a Priority Customer origin; and $0.17 per contract for Professional origins. The Exchange also proposes to amend the heading of the fourth column of rebates in the table for QCC Orders to now state as follows: ''Per Contract Rebate for EEM when Contra is a Public Customer that is not a Priority Customer''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is a Public Customer that is not Priority Customer: $0.07 per contract for the Priority Customer origin; $0.17 per contract for the Public Customer that is not a Priority Customer origin; and $0.25 per contract for Professional origins. Finally, the Exchange proposes to create a new fifth column of rebates in the table for QCC Orders, which will state as follows: ''Per Contract Rebate for EEM when Contra is all Other Origins''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is all other origins (*i.e.,* neither a Priority Customer nor a Public Customer that is not a Priority Customer): $0.17 per contract for the Priority Customer origin; $0.25 per contract for the Public Customer that is not a Priority Customer origin; and $0.30 per contract for Professional origins.

The Exchange also proposes to amend the notes below the table of fees and rebates for QCC Orders. The Exchange proposes to specify that per contract rebates will be paid to the EEM that enters the QCC Order into the MIAX System. In connection with this change, the Exchange proposes to delete the following sentences as they are no longer applicable in light of the changes described above: ''Rebates will be delivered to the Member firm that enters the order into the MIAX system, but will only be paid on the initiating side of the QCC transaction. However, no rebates will be paid for QCC transactions for which both the initiator and contra-side orders are Priority Customers.'' The Exchange notes that these are non-substantive changes to remove redundant information, which is already provided in the table of fees and rebates for QCC Orders. The Exchange believes that the way the table of fees and rebates for QCC Orders is arranged more clearly expresses these two points. The Exchange also proposes to delete the references to mini-option contracts as the Exchange no longer offers mini-option contracts.

Proposal To Amend cQCC Order Fees and Rebates

The Exchange proposes to amend the fees and rebates applicable to cQCC Orders, which are assessed per contract per leg. Currently, the Exchange assesses initiator fees as follows: $0.00 per contract for the Priority Customer origin; and $0.15 per contract for all other market participant origins. The Exchange assesses contra-side fees as follows: $0.00 per contract for the Priority Customer origin; and $0.17 per contract for all other types of market participant origins. The Exchange provides an initiator rebate of $0.14 per contract for all origins. The Exchange also provides the following initiator rebates when the contra-side is an origin other than a

[8] In sum, a ''complex order'' is any order involving the concurrent purchase and/or sale of two or more different options in the same underlying security (the ''legs'' or ''components'' of the complex order), for the same account, in a conforming or non-conforming ratio for the purposes of executing a particular investment strategy. *See* Exchange Rule 518(a)(5). A complex order can also be a ''stock-option order'' with a conforming or non-conforming ratio as defined in Exchange Rule 518. *See id.*

[9] *See supra* note 4.

[10] Trading of cQCC Orders is governed by Exchange Rule 515(h)(4).

[11] The term ''Public Customer'' means a person that is not a broker or dealer in securities. *See* Exchange Rule 100.

[12] The term ''Market Makers'' refers to ''Lead Market Makers'', ''Primary Lead Market Makers'' and ''Registered Market Makers'' collectively. *See* Exchange Rule 100.

[13] For the purposes of this filing, the origins comprising MIAX Market Makers, non-MIAX Market Makers, non-Member broker-dealers and firms will be referred to as ''Professional.''

[14] The term ''Electronic Exchange Member'' or ''EEM'' means the holder of a Trading Permit who is not a Market Maker. Electronic Exchange Members are deemed ''members'' under the Exchange Act. *See* Exchange Rule 100.

Priority Customer: $0.14 per contract for a Priority Customer; $0.27 per contract for a Public Customer that is not a Priority Customer; and $0.22 per contact for Professionals.

The Exchange proposes to clarify and amend the fees for initiators of a cQCC Order so that the per contract side will be stated in the heading of the first column of fees in the table for cQCC Orders. The Exchange proposes to assess initiator fees for all market participants, except the Priority Customer origin, as follows: $0.12 per contract side for the Public Customer that is not a Priority Customer origin; and $0.20 per contract side for Professional origins. The Exchange does not propose to charge an initiator fee for the Priority Customer origin.

Next, the Exchange proposes to clarify and amend the fees for the contra-side of a cQCC Order so that the per contract side will be stated in the heading of the second column of fees in the table for cQCC Orders. The Exchange proposes to assess contra-side fees for all market participants, except the Priority Customer origin, as follows: $0.12 per contract side for the Public Customer that is not a Priority Customer origin; and $0.20 per contract side for Professional origins.

Next, the Exchange proposes to amend the columns for rebates to clarify that rebates are paid to the EEM that entered the cQCC Order, depending upon the origin type and the origin type on the contra-side. In particular, the Exchange proposes to amend the heading of the third column of rebates in the table for cQCC Orders to now state as follows: ''Per Contract Rebate for EEM when Contra is a Priority Customer''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is a Priority Customer: $0.00 per contract for the Priority Customer origin; $0.07 per contract for the Public Customer that is not a Priority Customer origin; and $0.17 per contract for Professional origins. The Exchange also proposes to amend the heading of the fourth column of rebates in the table for cQCC Orders to now state as follows: ''Per Contract Rebate for EEM when Contra is a Public Customer that is not a Priority Customer''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is a Public Customer that is not Priority Customer: $0.07 per contract for the Priority Customer origin; $0.17 per contract for the Public Customer that is not a Priority Customer origin; and $0.25 per contract for Professional origins. Finally, the Exchange proposes to create a new fifth column of rebates in the table for cQCC Orders, which will state as follows: ''Per Contract Rebate for EEM when Contra is all Other Origins''. The Exchange proposes to provide the following rebates for an EEM when the contra-side is all other origins (*i.e.,* neither a Priority Customer nor a Public Customer that is not a Priority Customer): $0.17 per contract for the Priority Customer origin; $0.25 per contract for the Public Customer that is not a Priority Customer origin; and $0.30 per contract for Professional origins.

The Exchange also proposes to amend the notes below the table of fees and rebates for cQCC Orders. The Exchange proposes to specify that per contract rebates will be paid to the EEM that enters the cQCC Order into the MIAX System. In connection with this change, the Exchange proposes to delete the following sentences as they are no longer applicable in light of the changes described above: ''Rebates will be delivered to the Member firm that enters the order into the MIAX system, but will only be paid on the initiating side of the cQCC transaction. However, no rebates will be paid for cQCC transactions for which both the initiator and contra-side orders are Priority Customers.'' The Exchange notes that these are non-substantive changes to remove redundant information, which is already provided in the table of fees and rebates for cQCC Orders. The Exchange believes that the way the table of fees and rebates for cQCC Orders is arranged more clearly expresses these two points.

The Exchange also proposes to add the following reference sentence at the end of the notes section following the table of fees and rebates for cQCC Orders: ''The stock handling fee for the stock leg of cQCC transactions is described in Section 1)a)x) of the Fee Schedule.'' The purpose of this change is clarify and help signal to market participants that the stock handling fees for the stock leg of cQCC transactions will continue to be contained in Section 1)a)x) of the Fee Schedule and that this proposal does not amend or change that fee.

The purpose of all of the changes to the fees and rebates for QCC Orders and cQCC Orders is for business and competitive reasons. The Exchange believes the proposed changes will increase competition and potentially attract additional QCC and cQCC Order flow from various origins to the Exchange, which will grow the Exchange's market share in this segment. The Exchange also believes it is appropriate to provide higher rebates for QCC and cQCC Orders for EEMs that trade against origins other than Priority Customer or Public Customer because Priority Customer and Public Customer QCC and cQCC Orders are already incentivized with reduced fees for the initiator and contra-side of such orders. The Exchange believes it is reasonable to provide higher rebates for all origins other than Priority Customer QCC and cQCC Orders for EEMs that trade against the Priority Customer origin because Priority Customer orders are already incentivized with no fees for the initiator and contra-side of such orders. The Exchange also notes that competing exchanges provide similar rebate and fee structures and amounts for QCC and cQCC Orders on those exchanges.[15]

Implementation

The proposed fee changes are immediately effective.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act[16] in general, and furthers the objectives of Section 6(b)(4) of the Act[17] in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among its Members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of

[15] *See e.g.,* BOX Exchange LLC (''BOX'') Fee Schedule (dated January 2, 2024), Section IV.D., Qualified Contingent Cross (''QCC'') Transactions, *available at https://boxexchange.com/assets/BOX-Fee-Schedule-as-of-January-2-2024-2.pdf.* BOX does not assess any fee for QCC orders from public customers and professional customers and assesses broker-dealers and market makers a $0.20 fee per contract for their agency (originating) and contra-side QCC orders. BOX provides tiered rebates depending on the parties to each QCC transaction. For example, when only one side of a QCC transaction is a broker-dealer or market maker, BOX provides rebates ranging from $0.14 per contract to $0.17 per contract. When both parties to a QCC transaction are a broker-dealer or market maker (*i.e.,* professionals), BOX provides higher rebates ranging from $0.22 per contract to $0.27 per contract, similar to the Exchange's proposed rebate structure. *See also* NYSE American LLC (''NYSE American'') Options Exchange Fee Schedule (dated March 1, 2024), Section I.F., Qualified Contingent Cross (''QCC'') Fees & Credits, *available at https://www.nyse.com/publicdocs/nyse/markets/american-options/NYSE_American_Options_Fee_Schedule.pdf.* NYSE American does not assess any fee for QCC orders from customers or professional customers and assesses market makers, firms and broker-dealers a $0.20 fee per contract side for their QCC orders. NYSE American provides rebates depending on the parties to each QCC transaction. For example, when a Floor Broker executes a customer or professional customer QCC order when the contra-side is a market maker, firm or broker-dealer, NYSE American provides a lower rebate of $0.12 per contract. When a Floor Broker executes a market maker, firm or broker-dealer QCC order when the contra-side is another market maker, firm or broker-dealer, NYSE American provides a higher rebate of $0.18 per contract.

[16] 15 U.S.C. 78f(b).

[17] 15 U.S.C. 78f(b)(4).

Section 6(b)(5) of the Act [18] in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The Exchange believes the proposed changes to the fees and rebates for QCC and cQCC Orders is reasonable because the Exchange believes the proposed changes will increase competition and potentially attract additional QCC and cQCC Order flow from various origins to the Exchange, which will grow the Exchange's market share in this segment. The Exchange also believes it is reasonable and not unfairly discriminatory to provide higher rebates for QCC and cQCC Orders for EEMs that trade against origins other than Priority Customer or Public Customer because Priority Customer and Public Customer QCC and cQCC Orders are already incentivized with reduced fees for the initiator and contra-side of such orders. The Exchange believes that it is equitable and not unfairly discriminatory to assess lower fees to Priority Customer QCC and cQCC Order than to Professional QCC and cQCC Orders because a Priority Customer is by definition not a broker or dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s).[19] This limitation does not apply to Professionals, who will generally submit a higher number of orders than Priority Customers. Further, the Exchange believes that it is equitable and not unfairly discriminatory that Priority Customer and Public Customer origins be treated differently than Professional origins, who are assessed higher fees for QCC and cQCC Orders. The exchanges, in general, have historically aimed to improve markets for investors and develop various features within their market structure for customer benefit. Priority Customer and Public Customer liquidity benefits all market participants by providing more trading opportunities. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The Exchange also believes its proposed fee and rebate structure is reasonable, equitably allocated and not unfairly discriminatory because competing exchanges provide similar rebate and fee structures and amounts for QCC and cQCC Orders on those exchanges.[20]

Further, the Exchange believes its proposal provides for the equitable allocation of reasonable dues and fees and is not unfairly discriminatory since the Exchange has different net transaction revenues based on different combinations of origins and contra-side orders. For example, when a Priority Customer is both the initiator and contra-side, no rebates are paid (for both QCC and cQCC transactions). This combination is in the current version of the Exchange's Fee Schedule and in competitors' fee schedules as well.[21] The Exchange notes that Priority Customers are generally assessed a $0.00 transaction fee. Accordingly, the Exchange believes that it is reasonable, equitable, and not unfairly discriminatory to provide the proposed higher EEM rebates for QCC and cQCC Orders for Public Customer and Professional origins when they trade against an origin other than Priority Customer, in order to increase competition and potentially attract different combinations of additional QCC and cQCC Order flow to the Exchange. The Exchange also believes it is reasonable, equitable, and not unfairly discriminatory to continue to provide higher rebates for EEMs for QCC and cQCC Orders for Professionals when they trade against origins other than Priority Customers or Public Customers because Priority Customers and Public Customers are already incentivized by reduced fees for submitting QCC and cQCC Orders, as compared to Professionals that submit QCC and cQCC Orders.

The Exchange also believes its proposal is consistent with Section 6(b)(5) of the Act [22] and is designed to prevent fraudulent and manipulative acts and practices, promotes just and equitable principles of trade, fosters cooperation and coordination with persons engaged in regulating, clearing, setting, processing information with respect to, and facilitating transaction in securities, removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest; and is not designed to permit unfair discrimination. This is because the Exchange believes the proposed changes will continue to incentivize QCC and cQCC Order flow and an increase in such order flow will bring greater volume and liquidity, which benefits all market participants by providing more trading opportunities and tighter spreads. To the extent QCC and cQCC Order flow is increased by the proposal, market participants will increasingly compete for the opportunity to trade on the Exchange including sending more orders and providing narrower and larger-sized quotations in the effort to trade with such order flow.

Cleanup

The Exchange believes its proposal to delete the references to mini-option contracts in the notes for QCC Orders is reasonable because the Exchange no longer offers mini-option contracts. Further, the Exchange believes its proposal to delete certain sentences from the notes sections below the tables of fees and rebates for QCC and cQCC Orders, as described above, are reasonable because they are non-substantive changes to remove redundant information, which is already provided in the tables of fees and rebates for QCC and cQCC Orders. The Exchange believes that the way the tables of fees and rebates for QCC and cQCC Orders are arranged more clearly expresses the point of the sentences that the Exchange proposes to delete. Accordingly, the proposed changes will provide greater clarity to Members and the public regarding the Exchange's Fee Schedule, including by removing outdated references to mini-options, which no longer trade on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Intra-Market Competition

The Exchange believes that the proposed changes do not impose an undue burden on intra-market competition because the Exchange does not believe that its proposal will place any category of market participant at a competitive disadvantage. The Exchange believes that the proposed changes will encourage market participants to send their QCC and cQCC Orders to the Exchange for execution in order to obtain greater rebates and lower their costs. The Exchange believes the proposed changes to the fees and rebates for QCC and cQCC Orders will not impose an undue burden on intra-market competition because the proposed changes will increase competition and potentially

[22] 15 U.S.C. 78f(b)(1) *and* (b)(5).

attract different combinations of additional QCC and cQCC order flow to the Exchange, which will grow the Exchange's market share in this segment. The Exchange's proposal to provide higher rebates for QCC and cQCC Orders for EEMs that trade against origins other than Priority Customer or Public Customer does not impose an undue burden on intra-market competition because Priority Customer and Public Customer QCC and cQCC Orders are already incentivized with reduced fees for such orders. The Exchange's proposed fee and rebate structure is similar to that of competing exchanges that offer QCC and cQCC transaction fees and rebates.[23]

Inter-Market Competition

The Exchange operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. There are currently 17 registered options exchanges competing for order flow. For the month of February 2024, based on publicly-available information, and excluding index-based options, no single exchange exceeded approximately 13–14% of the market share of executed volume of multiply-listed equity and exchange-traded fund (''ETF'') options.[24] Therefore, no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, for the month of February 2024, the Exchange had a total market share of 6.67% for all equity options volume.[25] In such an environment, the Exchange must continually adjust its transaction and non-transaction fees to remain competitive with other exchanges and to attract order flow. The Exchange believes that the proposed rule changes reflect this competitive environment because they modify the Exchange's fees in a manner that encourages market participants to provide QCC and cQCC liquidity and to send order flow to the Exchange. To the extent this is achieved, all the Exchange's market participants should benefit from the improved market quality.

Cleanup

The Exchange believes its proposal to delete the references to mini-option contracts in the notes for QCC Orders will not impose any burden on intra-market or inter-market competition because the Exchange does not offer mini-option contracts. Further, the Exchange believes its proposal to delete certain sentences from the notes sections below the tables of fees and rebates for QCC and cQCC Orders, as described above, will not impose any burden on intra-market or inter-market competition because they are non-substantive changes to remove redundant information, which is already provided in the tables of fees and rebates for QCC and cQCC Orders. The Exchange believes that the way the tables of fees and rebates for QCC and cQCC Orders are arranged more clearly expresses the point of the sentences that the Exchange proposes to delete. Accordingly, the proposed changes will provide greater clarity to Members and the public regarding the Exchange's Fee Schedule by removing outdated references to mini-options, which no longer trade on the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,[26] and Rule 19b–4(f)(2)[27] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email *to rule-comments@sec.gov.* Please include File Number SR–MIAX–2024–20 on the subject line.

Paper Comments

- Send paper comments in triplicate to Vanessa Countryman, Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–MIAX–2024–20. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–MIAX–2024–20 and should be submitted on or before May 10, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[28]

Vanessa A. Countryman,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270–095, OMB Control No. 3235–0084]

Proposed Collection; Comment Request; Extension: Rule 17Ac2–1

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (''PRA'') (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (''Commission'') is soliciting comments on the existing collection of information provided for in Rule 17Ac2–1 (17 CFR 240.17Ac2–1), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget (''OMB'') for extension and approval.

Rule 17Ac2–1, pursuant to Section 17A(c) of the Exchange Act, generally requires transfer agents for whom the Commission is the transfer agent's Appropriate Regulatory Agency (''ARA''), to file an application for registration with the Commission on Form TA–1 and to amend their registrations under certain circumstances.

Specifically, Rule 17Ac2–1 requires transfer agents to file a Form TA–1 application for registration with the Commission where the Commission is their ARA. Such transfer agents must also amend their Form TA–1 if the existing information on their Form TA–1 becomes inaccurate, misleading, or incomplete within 60 days following the date the information became inaccurate, misleading, or incomplete. Registration filings on Form TA–1 and amendments thereto must be filed with the Commission electronically, absent an exemption, on EDGAR pursuant to Regulation S–T (17 CFR 232).

The Commission annually receives approximately 209 filings on Form TA–1 from transfer agents required to register as such with the Commission. Included in this figure are approximately 196 amendments made annually by transfer agents to their Form TA–1 as required by Rule 17Ac2–1(c) to address information that has become inaccurate, misleading, or incomplete and approximately 13 new applications by transfer agents for registration on Form TA–1 as required by Rule 17Ac2–1(a). Based on past submissions, the staff estimates that on average approximately twelve hours are required for initial completion of Form TA–1 and that on average one and one-half hours are required for an amendment to Form TA–1 by each such firm. Thus, the subtotal burden for new applications for registration filed on Form TA–1 each year is approximately 156 hours (12 hours times 13 filers = 156) and the subtotal burden for amendments to Form TA–1 filed each year is approximately 294 hours (1.5 hours × 196 filers = 294). The cumulative total is approximately 450 burden hours per year (156 hours plus 294 hours).

Of the approximately 450 hours per year associated with Rule 17Ac2–1, the Commission staff estimates that (i) sixty percent (270 hours) are spent by compliance staff at an estimated hourly wage of $344, for a total of $92,880 per year (270 hours × $344 per hour = $92,880 per year; (ii) forty percent (180 hours) are spent by attorneys at an estimated hourly wage of $462, for a total of $83,160 per year (180 hours × $462 per hour = $83,160 per year); and (iii) the total internal cost of compliance associated with the Rule is thus approximately $176,040 per year ($92,880 in compliance staff costs + $83,160 in attorney costs = $176,040 per year).

Written comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted by June 18, 2024.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

Please direct your written comments to: David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street NE, Washington, DC 20549, or send an email to: *PRA_Mailbox@sec.gov.*

Dated: April 16, 2024.

Vanessa A. Countryman,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99960; File No. SR–CboeEDGX–2024–019]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

April 15, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2024, Cboe EDGX Exchange, Inc. (''Exchange'' or ''EDGX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX'') proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/options/regulation/rule_filings/edgx/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (''EDGX Equities'') to increase its monthly fee assessed on Members' MPIDs. The Exchange proposes to implement these changes effective April 1, 2024.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the ''Act''), to which market participants may direct their order flow. Based on publicly available information,[3] no single registered equities exchange has more than 15% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange further notes that broker-dealers are not compelled to be Members of the Exchange, and a significant proportion of broker-dealers that trade U.S. equity securities have, in fact, chosen not to apply for membership on the Exchange.

By way of background, an MPID is a four-character unique identifier that is approved by the Exchange and assigned to a Member for use on the Exchange to identify the Member firm on the orders sent to the Exchange and resulting executions. Members may choose to request more than one MPID as a unique identifier(s) for their transactions on the Exchange. The Exchange notes that a Member may have multiple MPIDs for use by separate business units and trading desks or to support Sponsored Participant access.[4] Certain members currently leverage multiple MPIDs to obtain benefits from and added value in their participation on the Exchange. Multiple MPIDs provide unique benefits to and efficiencies for Members by allowing: (1) Members to manage their trading activity more efficiently by assigning different MPIDs to different trading desks and/or strategies within the firm; and (2) Sponsoring Members[5] to segregate Sponsored Participants by MPID to allow for detailed client-level reporting, billing, and administration, and to market the ability to use separate MPIDs to Sponsored Participants, which, in turn, may serve as a potential incentive for increased order flow traded through the Sponsoring Member.

The Exchange currently assesses a fee applicable to Members that use multiple MPIDs to facilitate their trading on the Exchange. Specifically, the Exchange assesses a monthly MPID Fee of $350 per MPID per Member, with a Member's first MPID provided free of charge. The MPID Fee is assessed on a pro-rated basis for new MPIDs by charging a Member based on the trading day in the month during which an additional MPID becomes effective for use. If a Member cancels an additional MPID on or after the first business day of the month, the Member will be required to pay the entire MPID Fee for that month.

The Exchange now proposes to increase the monthly MPID Fee from $350 per MPID per Member to $450 per MPID per Member. The Exchange believes the proposed increase continues to align with the additional value and benefits provided to Members that choose to utilize more than one MPID to facilitate their trading on the Exchange. The Exchange also believes that continuing to assess a fee on additional MPIDs will be beneficial because such fee will promote efficiency in MPID use.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)[9] as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient.

The Exchange believes that the proposed MPID Fee is consistent with the Act in that it is reasonable, equitable, and not unfairly discriminatory. In particular, the Exchange believes that the proposed fee is reasonable because it is reasonably aligned with the benefits provided to Members that choose to utilize multiple MPIDs to facilitate their trading on the Exchange. While each Member must have an MPID to participate on the Exchange, additional MPIDs are optional and will be assessed the fee, as amended. Additional MPIDs currently allow for Members to realize certain benefits from and added value to their participation on the Exchange but also require the Exchange to allocate additional administrative resources to manage each MPID that a Member chooses to use for its trading activity. Therefore, the Exchange believes that it is reasonable to assess a modest fee on any additional MPIDs that Members choose to use to facilitate their trading. The Exchange again notes that it is optional for a Member to request and employ additional MPIDs, and a large portion (approximately 69%) of the Exchange's Members currently utilize just the one MPID necessary to participate on the Exchange.

The Exchange also believes that assessing a fee on additional MPIDs

[3] *See* Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (March 20, 2024), available at *https://www.cboe.com/us/equities/market_statistics/*.

[4] A Sponsored Participant is a person which has entered into a sponsorship arrangement with a Sponsoring Member pursuant to Rule 11.3, which permits a Sponsored Participant to obtain authorized access to the System only if such access is authorized in advance by one or more Sponsoring Members. *See* Rules 1.5(z) and 11.3.

[5] A Sponsoring Member is a Member that is a registered broker-dealer and that has been designated by a Sponsored Participant to execute, clear and settle transactions resulting from the System. The Sponsoring Member shall be either (i) a clearing firm with membership in a clearing agency registered with the Commission that maintains facilities through which transactions may be cleared or (ii) a correspondent firm with a clearing arrangement with any such clearing firm. See Rule 1.5(aa)

[6] 15 U.S.C. 78f(b).

[7] 15 U.S.C. 78f(b)(5).

[8] *Id.*

[9] 15 U.S.C. 78f(b)(4).

continues to be reasonably designed to promote efficiency in MPID use. When the Exchange first implemented the current MPID Fee,[10] it observed as a result that Members were incentivized to more effectively administer their MPIDs and reduce the number of under-used or superfluous MPIDs, or MPIDs that did not contribute additional value to a Member's participation on the Exchange. Reduction of such MPIDs, in turn, reduces Exchange resources allocated to administration and maintenance of those MPIDs. In particular, the Exchange observed that within the first few months of introducing the previous MPID Fee, the number of MPIDs on the Exchange decreased by approximately 14%, demonstrating that Members may choose to be more efficient in their use of MPIDs in response to an MPID Fee, such as that proposed in this fee change.[11]

The Exchange further believes the proposed MPID Fee change is reasonable because the amount assessed continues to be less than the analogous fees charged by at least one other market; namely, Nasdaq Stock Market LLC (''Nasdaq'').[12] The Exchange's proposed MPID Fee increase to $450 a month per MPID, with no charge associated with a Members' first MPID, continues to be lower than Nasdaq's MPID fee of $550 per MPID, which is charged for all MPIDs used by a Nasdaq member, including a member's first MPIDs.

The Exchange believes that the proposed MPID Fee change is equitable and not unfairly discriminatory because it will apply equally to all Members that choose to employ two or more MPIDs based on the number of additional MPIDs that they use to facilitate their trading on the Exchange. As stated, additional MPIDs beyond a Member's first MPID are optional, and Members may choose to trade using such additional MPIDs to achieve additional benefits and added value to support their individual business needs. Moreover, the Exchange believes the proposed fee is equitable and not unfairly discriminatory because it is proportional to the potential value or benefit received by Members with a greater number of MPIDs. That is, those Members that choose to employ a greater number of additional MPIDs have the opportunity to more effectively manage firm-wide trading activity and client-level administration, as well as potentially appeal to customers through the use of separate MPIDs, which may result in increased order flow through a Sponsoring Member. A Member may request at any time that the Exchange terminate an MPID, including MPIDs that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary in furtherance of the purposes of the Act because the proposed change will apply equally to all Members that choose to employ additional MPIDs and equally to each additional MPID. As stated, additional MPIDs are optional and Members may choose to utilize additional MPIDs, or not, based on their view of the additional benefits and added value provided by utilizing the single MPID necessary to participate on the Exchange. The Exchange believes the proposed fee will be assessed proportionately to the potential value or benefit received by Members with a greater number of MPIDs and notes that a Member may continue to request at any time that the Exchange terminate any MPID, including those that may be under-used or superfluous, or that do not contribute additional value to a Member's participation on the Exchange.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market, including competition for exchange memberships. Members have numerous alternative venues that they may participate on, including 15 other equities exchanges, as well as off-exchange venues, including alternative trading systems, where competitive products are available for trading. Indeed, participants can readily choose to submit their order flow to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. In addition to this the Exchange notes that at least one other exchange currently has higher MPID fees in place, which have been previously filed with the Commission. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [13] The fact that this market is competitive has also long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[14] Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [15] and paragraph (f) of Rule 19b–4 [16] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of

investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include file number SR–CboeEDGX–2024–019 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeEDGX–2024–019. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeEDGX–2024–019 and should be submitted on or before May 10, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[17]

Vanessa A. Countryman,

Secretary.

DEPARTMENT OF STATE

[Public Notice: 12379]

Exchange Visitor Program

ACTION: Notice of a Memorandum of Cooperation (MOC) between the Government of the United States and the Government of Japan and waiver of a regulatory requirement.

SUMMARY: In accordance with the requirements of the Exchange Visitor Program regulations, the Assistant Secretary for Educational and Cultural Affairs (ECA), U.S. Department of State, has waived a regulatory provision to establish an international exchange program to promote closer cooperation between the people of Japan and the people of the United States. The program authorizes an exception under the Specialist category regulations to permit Japanese language and culture specialists to stay up to 36 months in the United States on a J–1 visa.

DATES: This action was effective on April 5, 2024.

FOR FURTHER INFORMATION CONTACT: Rebecca Pasini, Deputy Assistant Secretary for Private Sector Exchange at 2200 C Street NW, SA–5, 5th Floor, Washington, DC 20522 via telephone: (202) 826–4364, or via email: *JExchanges@state.gov.*

SUPPLEMENTARY INFORMATION: The United States and Japan have established a new program in accordance with existing Exchange Visitor Program regulations (22 CFR part 62), including regulations applying to the Specialist category (22 CFR 62.26). Through the program, the United States supports the purposes of the Fulbright-Hayes Act by facilitating the exchange of Japanese language and culture specialists to observe U.S. institutions and methods of practice in their educational fields and to share their specialized knowledge of Japanese education with their U.S. colleagues. The Japan Specialist Program will expand educational and cultural exchange opportunities between the people of the United States and Japan, promote the interchange of knowledge and skills among foreign and U.S. specialists, and foster long-term mutual understanding and international cooperation with U.S. communities across the United States. The MOC will authorize an exception under the Specialist category of the Exchange Visitor Program regulations to permit qualifying Japanese specialists to conduct their programs for up to 36 months in the United States on a J–1 visa.

During their program, exchange visitors from Japan will share their specialized knowledge of Japanese language and education in the United States at community based, non-profit organizations, U.S. Government offices, secondary schools, or post-secondary academic institutions offering Japanese, and similar types of institutions to increase U.S. local communities' understanding of Japan, its culture, and language. Selected experts in Japanese culture and language will gain a better understanding of U.S. culture and society and promote mutual enrichment by enhancing U.S. knowledge of Japanese culture, language, and educational systems.

Consistent with this program, the Assistant Secretary for Educational and Cultural Affairs waives certain provisions set forth in 22 CFR 62.26. Regulations at 22 CFR 62.26(i) provide that specialists shall be authorized to participate in the Exchange Visitor Program for the length of time necessary to complete the program, which shall not exceed one year. Accordingly, the Department waives subsection (i) of 22 CFR 62.26 with respect to this program to allow participants to conduct their programs for up to 36 months.

Lee A. Satterfield,

Assistant Secretary, Bureau of Educational and Cultural Affairs, Department of State.

BILLING CODE 4710–10–P

SURFACE TRANSPORTATION BOARD

[Docket No. FD 36763]

The Lowville & Beaver River Railroad Company—Acquisition Exemption—Lewis County Industrial Development Agency

The Lowville & Beaver River Railroad Company (LBRR) has filed a verified notice of exemption pursuant to 49 CFR 1150.41 [1] for authority after-the-fact to acquire approximately 10.61 miles of rail line between milepost 0.0 and milepost 10.57 between the Village of Lowville, N.Y., and the Village of Croghan, N.Y., including a secondary branch line of 0.4 miles extending towards Beaver Falls, N.Y.,[2] in Lewis County, N.Y. (the Line).

According to LBRR, it had been leasing the Line from the Lewis County Industrial Development Agency (LCID) since 1991 but the lease expired on December 31, 2015. LBRR states that the terms of the lease gave LCID authority to convey title to the Line to LBRR upon expiration of the lease, and when the parties were unable to reach an agreement to extend the lease, a deed was recorded conveying title of the Line to LBRR in July 2016. LBRR now seeks after-the-fact Board authorization for its 2016 acquisition. LBRR states that it intends to abandon the Line and to sell it to Lewis County, which intends to build a recreational trail on the right of way.[3]

LBRR certifies that it will not be subject to any limitations on its ability to interchange with a third-party connecting carrier. LBRR also certifies that its projected annual revenues are not expected to exceed $5 million and that the proposed transaction will not result in LBRR's becoming a Class I or Class II rail carrier.

The effective date of this exemption will be May 4, 2024 (30 days after the verified notice was filed).

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than April 26, 2024 (at least seven days before the exemption becomes effective).

All pleadings, referring to Docket No. FD 36763, must be filed with the Surface Transportation Board either via e-filing on the Board's website or in writing addressed to 395 E Street, SW, Washington, DC 20423–0001. In addition, a copy of each pleading must be served on LBRR's representative, John K. Fiorilla, Esq., Dyer & Peterson PC, 605 Main Street, Suite 104, Riverton, NJ 08077–1440.

According to LBRR, this action is categorically excluded from environmental review under 49 CFR 1105.6(c) and from historic preservation reporting requirements under 49 CFR 1105.8(b).

Board decisions and notices are available at *www.stb.gov.*

Decided: April 15, 2024.

By the Board, Board Members Fuchs, Hedlund, Oberman, Primus, and Schultz.

Regena Smith-Bernard,

Clearance Clerk.

[FR Doc. 2024–08412 Filed 4–18–24; 8:45 am]

BILLING CODE 4915–01–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No.: FAA–2024–0919; Summary Notice No.—2024–15]

Petition for Exemption; Summary of Petition Received; Moore County Airport

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This notice contains a summary of a petition seeking relief from specified requirements of Federal Aviation Regulations. The purpose of this notice is to improve the public's awareness of, and participation in, the FAA's exemption process. Neither publication of this notice nor the inclusion nor omission of information in the summary is intended to affect the legal status of the petition or its final disposition.

DATES: Comments on this petition must identify the petition docket number and must be received on or before May 9, 2024.

ADDRESSES: Send comments identified by docket number FAA–2024–0919 using any of the following methods:

- *Federal eRulemaking Portal:* Go to *http://www.regulations.gov* and follow the online instructions for sending your comments electronically.
- *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey

[1] LBRR states that it is seeking an operation exemption pursuant to 49 CFR 1150.31. However, because LBRR is already a Class III carrier, it must seek this authority pursuant to 49 CFR 1150.41. As such, the notice will be considered filed under 49 CFR 1150.41 instead.

[2] By decision in *The Lowville & Beaver River Railroad Co.—Abandonment Exemption—in Lewis County, N.Y.,* AB 180X (STB served Jan. 22, 2024), the Board directed LBRR to clarify the location of the 1.15-mile branch line at Beaver Falls that was referenced in Docket No. FD 31825. Specifically, the Board directed LBRR to clarify whether that line is the same one as the 0.40-mile rail line shown on the Federal Rail Administration (FRA) Safety Map that branches off from the Lowville-Croghan Line at Deveines Road, extends northward over a bridge on the Beaver River, and then terminates in Beaver Falls. In a supplemental environmental and historic report filed in that docket, LBRR refers to the line shown on the FRA Safety Map as the ''Beaver Falls Branch.'' Although LBRR does not explain the reference in Docket No. FD 31825 to the 1.15-mile branch line, the Board presumes that the lines are the same.

[3] On September 11, 2023, the Mohawk, Adirondack & Northern Railroad Corporation filed a verified notice of exemption to abandon a connected line, the Lowville-Carthage Line, as well as a separate segment, the Lyons Falls Track, in *Mohawk, Adirondack & Northern Railroad Corp.—Abandonment Exemption—in Lewis & Jefferson Counties, N.Y.,* AB 768X. The next day, LBRR filed a verified notice of exemption to abandon the Line in *The Lowville & Beaver River Railroad—Abandonment Exemption—in Lewis County, N.Y.,* AB 180X. By decision served on January 22, 2024, those dockets were held in abeyance and the carriers were directed to take certain actions, one of which was for LBRR to seek after-the-fact authority to acquire the Line. The issuance of this notice does not alter the status of either of those abandonment proceedings; both abandonment dockets remain in abeyance pending further Board order in those dockets.

Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

• *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC 20590–0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2024–0109]

Agency Information Collection Activities; Request Approval of a New Information Collection: FMCSA Registration System (FRS)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. FMCSA requests approval for a new ICR titled ''FMCSA Registration System (FRS)''. FMCSA is replacing its Unified Registration System (URS), with a new, online registration system, which will be named the ''FMCSA Registration

System'' (FRS). The new system will allow all persons required to register under the Agency's commercial or safety jurisdiction to do so online. Specifically, this new ICR will apply to: new registrants applying for safety and/or operating authority registration for the first time from FMCSA; existing registrants (*i.e.,* entities that already have a USDOT number and/or operating authority) that are subject to FMCSA's registration and certification regulations that wish to apply for additional authorities; Mexico-domiciled carriers that wish to operate beyond the U.S. municipalities on the U.S.-Mexico border and their commercial zones; registrants seeking to process name changes, address changes, and reinstatements of operating authority for motor carriers, freight forwarders, and brokers; registrants which are requesting to voluntarily suspend their safety and/or operating authority registration with FMCSA; and motor carriers, brokers and freight forwarders that must designate an agent on whom service of notices in proceedings before the Secretary may be made. It will also apply to designated agents and those entities providing proof of financial responsibility requirements, such as insurance companies and bond agents.

DATES: Comments on this notice must be received on or before June 18, 2024.

ADDRESSES: You may submit comments identified by Federal Docket Management System Docket Number FMCSA–2024–0109 using any of the following methods:

Background: FMCSA registers for-hire motor carriers of regulated commodities and of passengers, under 49 United States Code (U.S.C.) 13902(a); surface freight forwarders, under 49 U.S.C. 13903; property brokers, under 49 U.S.C. 13904; certain Mexico-domiciled motor carriers, under 49 U.S.C. 13902(c), and cargo tank motor vehicle manufacturers, assemblers, repairers, inspectors, testers, and design certifying engineers under 49 U.S.C. 5121a, 49 CFR 1.87, and 49 CFR part 107, subpart F. These motor carriers may conduct transportation services in the United States only if they are registered with FMCSA. Each registration is effective from the date specified and remains in effect for such period as the Secretary of Transportation (Secretary) determines by regulations.

Motor carriers, freight forwarders, and property brokers are required to request a name or address change and to request reinstatement of a revoked operating authority. Procedures for changing the name or business form of a motor carrier, freight forwarder, or property broker (49 CFR 365.413T) states that motor carriers, forwarders, and brokers must submit the required information to FMCSA's Office of Registration requesting the change.

Subsection (d) of 49 U.S.C. 13905 also provides that on application of the registrant, the Secretary may amend or revoke a registration, and hence the registrant's operating authority. These registrants may apply to voluntarily revoke their operating authority or parts thereof. If the registrant fails to maintain evidence of the required level of insurance coverage on file with FMCSA, its operating authority will be revoked involuntarily. Although the effect of both types of revocation is the same, some registrants prefer to request voluntary revocation. For various business reasons, a registrant may request revocation of part, but not all, of its operating authority.

Registered motor carriers, brokers and freight forwarders must designate an agent on whom service of notices in proceedings before the Secretary may be made (49 U.S.C. 13303). Registered motor carriers must also designate an agent for every State in which they operate and traverse in the United States during such operations, on whom process issued by a court may be served in actions brought against the registered motor carrier (49 U.S.C. 13304, 49 CFR 366.4T). Every broker shall make a designation for each State in which its offices are located or in which contracts are written (49 U.S.C. 13304, 49 CFR 366.4T). Regulations governing the designation of process agents are found at 49 CFR part 366.

FMCSA requests information to identify the applicant, the nature and scope of its proposed operations, safety-related details, and information regarding the drivers and vehicles it plans to use in U.S. operations. FMCSA and the States use registration information collected to track motor carriers, freight forwarders, brokers, and other entities they regulate. Registering motor carriers is essential to being able to identify carriers so that their safety performance can be tracked and evaluated. The data makes it possible to link individual trucks to the responsible motor carrier, thus implementing the mandate under 49 U.S.C. 31136(a)(1); that is, ensuring that commercial motor vehicles are maintained and operated safely. In general, registration information collected informs prioritization of the Agency's activities and aids in assessing and statistically analyzing the safety outcomes of those activities.

The final rule titled ''Unified Registration System,'' (78 FR 52608) dated August 23, 2013, implemented statutory provisions for an online registration system for entities that are subject to FMCSA's licensing, registration, and certification

regulations. When developing URS, FMCSA planned that the OP–1 series of forms (except for OP–1(MX)) would ultimately be folded into one overarching form (MCSA–1), which would be used by all motor carriers seeking authority.

FMCSA began a phased rollout of URS in 2015. The first phase, which became effective on December 12, 2015, impacted only first-time applicants seeking an FMCSA-issued registration. FMCSA had planned subsequent rollout phases for existing registrants; however, there were substantial delays, and subsequent phases have not been rolled out to date. On January 17, 2017, FMCSA issued a final rule titled ''Unified Registration System; Suspension of Effectiveness,'' which indefinitely suspended URS effectiveness dates for existing registrants only (82 FR 5292).

Pursuant to this final rule, FMCSA was accepting forms OP–1, OP–1(P), OP–1(FF), and OP–1(NNA) for existing registrants wishing to apply for additional authorities. Separately, FMCSA requires Form OP–1(MX) for Mexico-domiciled carriers that wish to operate beyond the U.S. municipalities on the U.S.-Mexico border and their commercial zones. Forms in the OP–1 series request information to identify the applicant, the nature and scope of its proposed operations, a narrative description of the applicant's safety policies and procedures, and information regarding the drivers and vehicles it plans to use in U.S. operations. The OP–1 series also requests information on the applicant's familiarity with relevant safety requirements, the applicant's willingness to comply with those requirements during its operations, and the applicant's willingness to meet any specific statutory and regulatory requirements applicable to its proposed operations. Information collected through these forms aids FMCSA in determining the type of operation a company may run, the cargo it may carry, and the resulting level of insurance coverage the applicant will be required to obtain and maintain to continue its operating authority.

In addition, FMCSA accepted Form MCS–150 (Motor Carrier Identification Report, Application for USDOT Number), Form MCS–150B (Combined Motor Carrier Identification Report and Hazardous Materials Permit Application), and MCS–150C (Intermodal Equipment Provider Identification Report, Application for USDOT Number). Title 49, U.S.C. 504(b)(2) provides the Secretary with authority to require carriers, lessors, associations, or classes of these entities to file annual, periodic, and special reports containing answers to questions asked by the Secretary. Existing registrants use the MCS–150 or MCS–150B to update their information in the Motor Carrier Management Information System, while applicants filing for the first time were required to file on-line using URS. Form MCS–150 or MCS–150B is also used for Mexico-domiciled carriers that seek authority to operate beyond the United States municipalities on the United States-Mexico border and their commercial zones.

Registered motor carriers, brokers, and freight forwarders must designate an agent on whom service of notices in proceedings before the Secretary may be made through filing the Form BOC–3, Designation of Agents for Service of Process. Registered motor carriers must designate an agent for every State in which they operate and traverse in the United States during such operations, on whom process issued by a court may be served in actions brought against the registered motor carrier (49 U.S.C. 13304, 49 CFR 366.4T). Every broker must also make a designation for each State in which its offices are located or in which contracts are written (49 U.S.C. 13304, 49 CFR 366.4T).

New Collection: As described above, only first-time applicants seeking an FMCSA-issued registration must apply for authority via URS, while existing registrants used several forms to update their information, apply for additional authorities, and designate process agents. Under the new FRS, all forms described above will be integrated into the online system through a series of questions that will be asked, using smart logic. The only exception will be the Form OP–2, Application for Mexican Certificate of Registration for Foreign Motor Carriers and Foreign Motor Private Carriers under 49 U.S.C. 13902. Information collection activities associated with the Form OP–2 are covered under a different ICR, titled ''Application for Certificate of Registration for Foreign Motor Carriers and Foreign Motor Private Carriers,'' OMB Control No. 2126–0019, which will continue in effect.

This new ICR impacts several currently approved collections of information, listed below. However, until the new FRS is completed, FMCSA cannot estimate the burden, in hours or expense, that FRS users will be required to endure in comparison to the burdens associated for the approved collections listed below. FMCSA is developing FRS in such a way as to save users as much time as possible. However, FMCSA expects that, at worst, the time and effort required to complete an application, update, or process agent designation in FRS will be the same as it is to complete in the URS or using a paper form. Thus, for purposes of this new collection, FMCSA assumes the same time and cost burdens as were previously listed in the approved collections. In the future, during routine renewals and/or revisions for this new collection, and as FMCSA gathers information on average time per transaction in FRS, FMCSA expects to be able to refine these estimates.

It is expected that FMCSA will eliminate the following collections, along with all associated forms, as users will instead use the FRS to collect the information previously submitted using the listed forms. However, until FMCSA completes a regulatory change to remove reference to these forms from regulation, registrants may continue to use these forms to request the appropriate registration action.

Information collection approval No.	Information collection title	Associated forms
2126–0013	Motor Carrier Identification Report	MCS–150, MCS–150B and MCS–150C.
2126–0015	Designation of Agents, Motor Carriers, Brokers and Freight Forwarders	BOC–3.
2126–0016	Licensing Applications for Motor Carriers Operating Authority	OP–1 series.
2126–0018	Request for Revocation of Authority Granted	OCE–46.
2126–0051	FMCSA Registration/Updates	MCSA–1.
2126–0060	Motor Carrier Records Change Form	MCSA–5889.

The current information collection supports the DOT Strategic Goal of Safety. It streamlines registration processes and ensures that FMCSA can more efficiently track motor carriers, freight forwarders, brokers, and other entities regulated by the Agency.

Title: FMCSA Registration System.

OMB Control Number: 2126–00XX.

Type of Request: New ICR.

Respondents: Motor carriers, freight forwarders, brokers, and other entities regulated by the Agency.

Estimated Number of Respondents: 648,928.

Estimated Time per Response: Varies.

Expiration Date: This is a new ICR.

Frequency of Response: Annual.

Estimated Total Annual Burden: 417,741 Hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this ICR.

Issued under the authority of 49 CFR 1.87.

Kenneth H. Riddle,

Director, Office of Registration.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2023–0095]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on October 17, 2023, Amtrak petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229 (Railroad Locomotive Safety Standards). FRA assigned the petition Docket Number FRA–2023–0095.

Amtrak's petition seeks FRA approval to install on its locomotive fleet, equipment designed to improve shunting of railroad track circuits and reduce the potential for a loss of shunt (LoS) incident (a shunt enhancer antenna). LoS within a track circuit causes a signal system or grade crossing system to not detect the presence of a train, significantly increasing the risk of train-to-train collisions and crossing accidents. Known causes of LoS include contaminants on the wheel or rail and locomotive weight, with contributing factors including the number of axles in a train, train speed, wheel profile, and weather. FRA recognizes that a LoS event is a significant safety concern, resulting in both activation failures at equipped highway-rail grade crossings and false proceed signals.

Over the last five years, an industry-led working group, the LoS Committee, supported by FRA, has expended significant effort and funding to investigate LoS events, evaluate LoS causes, identify potential solutions, and to test those solutions. The shunt enhancer antenna has been identified, tested, and recommended by the LoS Committee. The LoS Committee confirmed that the shunt enhancer antenna ''reliably demonstrate[s] improvement of a vehicle's interaction with the wayside track circuits.''

Amtrak seeks relief from 49 CFR 229.71, *Clearance above top of rail,* to implement the locomotive-mounted shunt enhancer antenna. Section 229.71 states that no part or appliance of a locomotive (excepting ''the wheels, flexible nonmetallic sand pipe extension tips, and trip cock arms'') may be within 2.5 inches from the top of rail. Amtrak seeks to install the shunt enhancers on its fleet of Siemens Charger SF4 locomotives. Amtrak explains that under conditions of worn wheels and dynamic profiles, the mechanical and electrical hardware of the truck-mounted antenna devices could protrude below 2.5 inches from the top of rail.

FRA understands the proposed shunt enhancer antenna is a truck-mounted antenna that injects a 2–4 amp, 165kHz signal into the rail.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at *www.regulations.gov.*

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at *www.regulations.gov.* Follow the online instructions for submitting comments.

Communications received by June 18, 2024 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *https://www.transportation.gov/privacy.* See also *https://www.regulations.gov/privacy-notice* for the privacy notice of regulations.gov.

Issued in Washington, DC.

John Karl Alexy,

Associate Administrator for Railroad Safety, Chief Safety Officer.

BILLING CODE 4910–06–P

DEPARTMENT OF THE TREASURY

Office of Foreign Assets Control

Notice of OFAC Sanctions Actions

AGENCY: Office of Foreign Assets Control, Treasury.

ACTION: Notice.

SUMMARY: The Department of the Treasury's Office of Foreign Assets Control (OFAC) is publishing the names of one or more persons that have been placed on OFAC's Specially Designated Nationals and Blocked Persons List based on OFAC's determination that one or more applicable legal criteria were satisfied. All property and interests in property subject to U.S. jurisdiction of these persons are blocked, and U.S. persons are generally prohibited from engaging in transactions with them.

DATES: March 13, 2024.

FOR FURTHER INFORMATION CONTACT: OFAC: Bradley T. Smith, Director, tel.: 202–622–2490; Associate Director for Global Targeting, tel.: 202–622–2420; Assistant Director for Licensing, tel.:

202–622–2480; Assistant Director for Regulatory Affairs, tel.: 202–622–4855; or Assistant Director for Sanctions Compliance & Evaluation, tel.: 202–622–2490.

SUPPLEMENTARY INFORMATION:

Electronic Availability

The SDN List and additional information concerning OFAC sanctions programs are available on OFAC's website (*https://www.treasury.gov/ofac*).

Notice of OFAC Action(s)

On March 13, 2024, OFAC determined that the property and interests in property subject to U.S. jurisdiction of the following persons are blocked under the relevant sanctions authorities listed below.

BILLING CODE 4810–AL–P

Individuals

1. GOLIC, Srebrenka (Cyrillic: ГОЛИЋ, Сребренка), Bosnia and Herzegovina; DOB 29 Jul 1958; nationality Bosnia and Herzegovina; Gender Female (individual) [BALKANS-EO14033].

   Designated pursuant to section 1(a)(iii) of Executive Order 14033 of June 8, 2021, "Blocking Property and Suspending Entry into the United States of Certain Persons Contributing to the Destabilizing Situation in the Western Balkans" (E.O. 14033), 86 FR 31079 (June 10, 2021), 3 CFR 2021 Comp., p. 591, for being responsible for or complicit in, or having directly or indirectly engaged in, a violation of, or an act that has obstructed or threatened the implementation of, any regional security, peace, cooperation, or mutual recognition agreement or framework or accountability mechanism related to the Western Balkans, including the Prespa Agreement of 2018; the Ohrid Framework Agreement of 2001; United Nations Security Council Resolution 1244; the Dayton Accords; or the Conclusions of the Peace Implementation Conference Council held in London in December 1995, including the decisions or conclusions of the High Representative, the Peace Implementation Council, or its Steering Board; or the International Criminal Tribunal for the former Yugoslavia, or, with respect to the former Yugoslavia, the International Residual Mechanism for Criminal Tribunals.

2. OKUKA, Branislav, Bosnia and Herzegovina; DOB 07 Jan 1967; nationality Bosnia and Herzegovina; citizen Bosnia and Herzegovina; Gender Male; Passport B2721680 (Bosnia and Herzegovina) expires 21 Oct 2030 (individual) [BALKANS-EO14033] (Linked To: DODIK, Milorad).

   Designated pursuant to section 1(a)(vii) of E.O. 14033 for having been owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, Milorad Dodik, a person whose property and interests in property are blocked pursuant to E.O. 14033.

3. PAJIC BASTINAC, Jelena (Cyrillic: ПАЈИЋ БАШТИНАЦ, Јелена), Banja Luka, Bosnia and Herzegovina; DOB 01 Dec 1982; POB Bijeljina, Bosnia and Herzegovina; nationality Bosnia and Herzegovina; Gender Female; Passport B1606358 (Bosnia and Herzegovina) expires 11 Jul 2027 (individual) [BALKANS-EO14033].

   Designated pursuant to section 1(a)(iii) of E.O. 14033 for being responsible for or complicit in, or having directly or indirectly engaged in, a violation of, or an act that has obstructed or threatened the implementation of, any regional security, peace, cooperation, or mutual recognition agreement or framework or accountability mechanism related to the Western Balkans, including the Prespa Agreement of 2018; the Ohrid Framework Agreement of 2001; United Nations Security Council Resolution 1244; the Dayton Accords; or the Conclusions of the Peace Implementation Conference Council held in London in December 1995, including the decisions or conclusions of the High Representative, the Peace Implementation Council, or its Steering Board; or the International Criminal Tribunal for the former Yugoslavia, or, with respect to the former Yugoslavia, the International Residual Mechanism for Criminal Tribunals.

Dated: April 15, 2024.

Bradley T. Smith,

Director, Office of Foreign Assets Control, U.S. Department of the Treasury.

Notice of OFAC Action(s)

On April 15, 2024, OFAC determined that the property and interests in property subject to U.S. jurisdiction of the following persons and entities are blocked under the relevant sanctions authorities listed below.

Individuals

1. ALI, Alhaitham Al (a.k.a. AL ALI, Al Haytham; a.k.a. AL–ALI, Al Haitham), Slovakia; DOB 17 Mar 1972; nationality Slovakia; Gender Male; Passport BA4490378 (Slovakia) expires 13 Jan 2027 (individual) [BELARUS–EO14038] (Linked To: BLACK SHIELD COMPANY FOR GENERAL TRADING LLC).

Designated pursuant to section 1(a)(vi) of Executive Order 14038 of August 9, 2021, ''Blocking Property of Additional Persons Contributing to the Situation in Belarus,'' 86 FR 43905, 3 CFR, 2021 Comp., p. 626 (E.O. 14038) for having materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of, BLACK SHIELD COMPANY FOR GENERAL TRADING LLC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

2. DEIRY, Mohamad Majd (a.k.a. DAYRI, Muhammad Husayn; a.k.a. DEIRY, Mohamad Majd Hussen), Syria; DOB 06 Jun 1961; nationality Syria; Gender Male; Passport 010213193 (Syria) expires 22 Jul 2017; alt. Passport 011786268 (Syria) expires 24 Oct 2019 (individual) [BELARUS–EO14038] (Linked To: BLACK SHIELD COMPANY FOR GENERAL TRADING LLC).

Designated pursuant to section 1(a)(i)(B) of Executive Order 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of BLACK SHIELD COMPANY FOR GENERAL TRADING LLC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

3. PROTOPOVICH, Tatyana (a.k.a. PROTOPOVICH, Tayuana), Praspiekt Dziarzynsakaha, 82, Flat 227, Minsk 22089, Belarus; DOB 24 Mar 1996; nationality Belarus; Gender Female; Passport MP4133985 (Belarus); National ID No. 4240396A013PB6 (Belarus) (individual) [BELARUS–EO14038] (Linked To: CENTURONIC LTD).

Designated pursuant to section 1(a)(i)(B) of Executive Order 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of CENTURONIC LTD, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

4. RAYYA, Samer (a.k.a. RAYYA, Samer Samir), Maroun al Nakkash, Beirut, Lebanon; DOB 15 Aug 1979; nationality Lebanon; Gender Male; Passport PR0157356 (Lebanon) expires 24 Aug 2022 (individual) [BELARUS–EO14038] (Linked To: BLACK SHIELD COMPANY FOR GENERAL TRADING LLC).

Designated pursuant to section 1(a)(i)(B) of Executive Order 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of BLACK SHIELD COMPANY FOR GENERAL TRADING LLC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

5. YAGMUR, Nora (a.k.a. YAGMUR, Nure), Turkey; DOB 01 Jan 1977; POB Upsala Isvech, Sweden; nationality Sweden; Gender Female; Passport 94954203 (Sweden) expires 29 Jun 2023; National ID No. 22121484408 (Turkey) (individual) [BELARUS–EO14038] (Linked To: RAYYA DANISMANLIK HIZMETLERI LIMITED SIRKETI).

Designated pursuant to section 1(a)(i)(B) of Executive Order 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of RAYYA DANISMANLIK HIZMETLERI LIMITED SIRKETI, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

Entities

1. BLACK SHIELD COMPANY FOR GENERAL TRADING LLC (a.k.a. BLACK SHIELD COMPANY LTD.), Villa S6/35, New Azadi Atconz, Ainkawa, Erbil, Iraq; Business Registration Number 21756 (Iraq) [BELARUS–EO14038] (Linked To: KIDMA TECH OJSC).

Designated pursuant to section 1(a)(vi) of E.O. 14038 for having materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of, KIDMA TECH OJSC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

2. CENTURONIC LTD, ABC Business Centre, Flat No: Flat 15, Floor No: Floor 1st, Charalampou Moyskou 20, Paphos 8010, Cyprus; Organization Established Date 23 Mar 2018; Business Registration Number 382931 (Cyprus) [BELARUS–EO14038] (Linked To: RAYYA, Samer).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, RAYYA, Samer, an individual whose property and interests in property are blocked pursuant to E.O. 14038.

3. PHOENIX LINES S.R.O., Dunajska 7614/8, Bratislava 81108, Slovakia; Organization Established Date 13 Oct 2016; Business Registration Number 50546813 (Slovakia) [BELARUS–EO14038] (Linked To: ALI, Alhaitham Al).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, ALI, Alhaitham Al, an individual whose property and interests in property are blocked pursuant to E.O. 14038.

4. RAYYA DANISMANLIK HIZMETLERI LIMITED SIRKETI, B–48, No. 3 Maltepe Mahallesi, Istanbul 34010, Turkey; Organization Established Date 14 Dec 2018; Business Registration Number 9418 (Turkey) [BELARUS–EO14038] (Linked To: RAYYA, Samer).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, RAYYA, Samer, an individual whose property and interests in property are blocked pursuant to E.O. 14038.

5. S. GROUP AIRLINES LTD, ABC Business Centre, Flat No: Flat 105, Floor No: Floor 1st, Charalampou Moyskou 20, Paphos 8010, Cyprus; Organization Established Date 23 Apr 2018; Business Registration Number 382880 (Cyprus) [BELARUS–EO14038] (Linked To: RAYYA, Samer).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, RAYYA, Samer, an individual whose property and interests in property are blocked pursuant to E.O. 14038.

Dated: April 15, 2024.

OKSENCHUK, Aleksandra Igorevna (Cyrillic: ОКСЕНЧУК, АЛЕКСАНДРА ИГОРЕВНА)), Odintsova L.E. Street, 113 Apartments 3, 4, Minsk, Belarus; DOB 16 Oct 1992; nationality Belarus; Gender Female; Passport MP4034627 (Belarus); National ID No. 4161092C013PB1 (Belarus) (individual) [BELARUS-EO14038] (Linked To: SHENZHEN 5G HIGH-TECH INNOVATION CO., LIMITED).

   Designated pursuant to section 1(a)(i)(B) of Executive Order 14038 of August 9, 2021, "Blocking Property of Additional Persons Contributing to the Situation in Belarus," 86 FR 43905, 3 CFR, 2021 Comp., p. 626 (E.O. 14038) for being or having been a leader, official, senior executive officer, or member of the board of directors of SHENZHEN 5G HIGH-TECH INNOVATION CO., LIMITED, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

2. BRAIM, Dmitry (a.k.a. BRAIM, Dmitry Vladimirovich (Cyrillic: БРАИМ, ДМИТРИЙ ВЛАДИМИРОВИЧ); a.k.a. BRAIM, Dzmitryri Uladzimiravich (Cyrillic: БРАІМ, ДЗМІТРЫЙ УЛАДЗІМІРАВІЧ)), P.A. Miroshnichenko Street, 27, ap. 106, Minsk, Belarus; DOB 18 Apr 1976; nationality Belarus; Gender Male; National ID No. 3180476A073PB3 (Belarus) (individual) [BELARUS-EO14038] (Linked To: PELENG JSC).

   Designated pursuant to section 1(a)(i)(B) of E.O. 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of PELENG JSC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

3. YURCHIK, Oleg (a.k.a. YURCHIK, Oleg Nikolaevich (Cyrillic: ЮРЧИК, ОЛЕГ НИКОЛАЕВИЧ); a.k.a. YURCHYK, Aleh Mikalaevich (Cyrillic: ЮРЧЫК, АЛЕГ МІКАЛАЕВІЧ)), 4 ap. 99 Repina Street, Minsk, Belarus; DOB 16 Aug 1979; nationality Belarus; Gender Male; National ID No. 3160879B005PB4 (Belarus) (individual) [BELARUS-EO14038] (Linked To: SHENZHEN 5G HIGH-TECH INNOVATION CO., LIMITED).

   Designated pursuant to section 1(a)(i)(B) of E.O. 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of SHENZHEN 5G HIGH-TECH INNOVATION CO., LIMITED, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

4. CHARHEIKA, Siarhei (a.k.a. CHARHEIKA, Siarhei Viktaravich (Cyrillic: ЧАРГЕЙКА, СЯРГЕЙ ВІКТАРАВІЧ); a.k.a. CHERGEIKO, Sergey Viktorovich (Cyrillic: ЧЕРГЕЙКО, СЕРГЕЙ ВИКТОРОВИЧ); a.k.a. "CHERGEIKO, S.V."), Academic Vyotsky St 3 apt. 114, Minsk, Belarus; DOB 27 Aug 1986; POB Mochulino Village, Belarus; nationality Belarus; citizen Belarus; Gender Male; Passport KH2638135

(Belarus); National ID No. 3270886K030PB1 (Belarus) (individual) [BELARUS-EO14038] (Linked To: PELENG JSC).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, PELENG JSC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

5. MIKHALTSOU, Dzmitry (Cyrillic: МІХАЛЬЦОЎ, ДЗМІТРЫЙ) (a.k.a. MIKHALTSOU, Dzmitry Viktaravich (Cyrillic: МІХАЛЬЦОЎ, ДЗМІТРЫЙ ВІКТАРАВІЧ); a.k.a. MIKHALTSOV, Dmitry Viktorovich (Cyrillic: МИХАЛЬЦОВ, ДМИТРИЙ ВИКТОРОВИЧ)), Ostroshitskaya Street 6, Apartment 104, Minsk, Belarus; DOB 27 Nov 1979; POB Tursk Village, Belarus; nationality Belarus; citizen Belarus; Gender Male; Passport MP3861223 (Belarus); National ID No. 3271179H010PB4 (Belarus) (individual) [BELARUS-EO14038] (Linked To: JSC MINSK MECHANICAL PLANT NAMED AFTER S.I. VAVILOV MANAGEMENT COMPANY OF BELOMO HOLDING).

Designated pursuant to section 1(a)(i)(B) of E.O. 14038 for being or having been a leader, official, senior executive officer, or member of the board of directors of JSC MINSK MECHANICAL PLANT NAMED AFTER S.I. VAVILOV MANAGEMENT COMPANY OF BELOMO HOLDING, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

Entities

1. OJSC AGAT-CONTROL SYSTEM-MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING (Cyrillic: ОАО АГАТ-СИСТЕМЫ УПРАВЛЕНИЯ-УПРАВЛЯЮЩАЯ КОМПАНИЯ ХОЛДИНГА ГЕОИНФОРМАЦИОННЫЕ СИСТЕМЫ УПРАВЛЕНИЯ) (a.k.a. ASU-UKKH-GISU OAO; f.k.a. OJSC AGAT-CONTROL SYSTEMS; a.k.a. OTKRYTOYE AKTSIONERNOYE OBSHCHESTVO AGAT-SISTEMY UPRAVLENIYA-UPRAVLYAYUSHCHAYA KOMPANIYA KHOLDINGA GEOINFORMATSIONNYYE SISTEMY UPRAVLENIYA (Cyrillic: ААТ АГАТ СІСТЭМЫ КІРАВАННЯ КІРУЮЧАЯ КАМПАНІЯ ХОЛДЫНГУ ГЕАІНФАРМАЦЫЙНЫЯ СІСТЭМЫ КІРАВАННЯ)), 117 Nezavisimosti Ave., Minsk 220114, Belarus; Target Type State-Owned Enterprise; Tax ID No. 100230547 (Belarus) [BELARUS-EO14038].

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, the Government of Belarus.

2. JSC AGAT-SYSTEM (Cyrillic: ОАО АГАТ-СИСТЕМ; Cyrillic: ААТ АГАТ-СІСТЭМ) (a.k.a. OTKRYTOYE AKTSIONERNOYE OBSHCHESTVO AGAT-SISTEM), 51 Skoriny str, Minsk 220141, Belarus; Target Type State-Owned Enterprise; Tax ID No. 100230470 (Belarus) [BELARUS-EO14038] (Linked To: OJSC AGAT-CONTROL SYSTEM-MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, OJSC AGAT-CONTROL SYSTEM- MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

3. JOINT STOCK COMPANY COMMUNICATION EQUIPMENT (a.k.a. AAT TEKHNIKA SUVYAZI (Cyrillic: ААТ ТЭХНІКА СУВЯЗІ); a.k.a. OAO TEKHNIKA SVYAZI (Cyrillic: ОАО ТЕХНИКА СВЯЗИ); a.k.a. TEKHNIKA SVYAZI JSC), 1 Naberezhnaya str., Baran, Vitebsk Region 211011, Belarus; Target Type State-Owned Enterprise; Tax ID No. 300209010 (Belarus) [BELARUS-EO14038] (Linked To: OJSC AGAT-CONTROL SYSTEM-MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING).

   Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, OJSC AGAT-CONTROL SYSTEM- MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

4. JSC NIIEVM (Cyrillic: ОАО НИИЭВМ; Cyrillic: ААТ НДІЭВМ) (a.k.a. AAT NAVUKOVA-DASLEDCHY INSTYTUT ELEKTRONNYKH VYLICHALNYKH MASHYN; a.k.a. COMPUTER RESEARCH INSTITUTE NIIEVM; a.k.a. OAO NAUCHNO-ISSLEDOVATELSKIY INSTITUT ELEKTRONNYKH VYCHISLITELNYKH MASHIN (Cyrillic: ОАО НАУЧНО-ИССЛЕДОВАТЕЛЬСКИЙ ИНСТИТУТ ЭЛЕКТРОННЫХ ВЫЧИСЛИТЕЛЬНЫХ МАШИН); a.k.a. OPEN JOINT STOCK COMPANY RESEARCH INSTITUTE OF ELECTRONIC COMPUTERS), 155 Bogdanovicha St., Minsk 220040, Belarus; Target Type State-Owned Enterprise; Tax ID No. 100219724 (Belarus) [BELARUS-EO14038] (Linked To: OJSC AGAT-CONTROL SYSTEM-MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING).

   Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, OJSC AGAT-CONTROL SYSTEM- MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

5. LLC INNOTECH SOLUTIONS (a.k.a. OBSHCHESTVO S OGRANICHENNOY OTVETSTVENNOSTYU INNOTEKH SOLYUSHNS (Cyrillic: ОБЩЕСТВО С ОГРАНИЧЕННОЙ ОТВЕТСТВЕННОСТЬЮ ИННОТЕХ СОЛЮШНС)), 104-105, Pobediteley avenue, Minsk 220062, Belarus; 21B-4, 9, Kulman Street, Minsk 220100, Belarus; Organization Established Date Oct 2018; Target Type State-Owned Enterprise; Tax ID No. 193156727 (Belarus) [BELARUS-EO14038] (Linked To: OJSC AGAT-CONTROL SYSTEM-MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING).

Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, OJSC AGAT-CONTROL SYSTEM- MANAGING COMPANY OF GEOINFORMATION CONTROL SYSTEMS HOLDING, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

6. SHENZHEN 5G HIGH-TECH INNOVATION CO., LIMITED (Chinese Simplified: 深圳五力高科创新科技有限公司) (a.k.a. SHENZHEN WU LI GAO KE INNOVATION SCIENCE AND TECHNOLOGY CO., LTD; a.k.a. SHENZHEN WU LI GAOKE CHUANGXIN YOUXIAN GONGSI), 502, Block B, Rongchaolong Building, Longfu Road, Shangjing Community, Longcheng Street, Longgang District, Shenzhen, China; 306 No. 66 Huayuan Road, Pingxi Community, Pingdi Street, Longgang District, Shenzhen, Guangdong Province, China; Organization Established Date 13 Dec 2022; Unified Social Credit Code (USCC) 91440300MA5HLP0L6L (China) [BELARUS-EO14038] (Linked To: PELENG JSC).

   Designated pursuant to section 1(a)(vi) of E.O. 14038 for having materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of, PELENG JSC, an entity whose property and interests in property are blocked pursuant to E.O. 14038.

7. OPEN JOINT STOCK COMPANY STANKOGOMEL (a.k.a. OAO STANKOGOMEL (Cyrillic: ОАО СТАНКОГОМЕЛЬ); a.k.a. OTKRYTOE AKTSIONERNOE OBSHCHESTVO STANKOGOMEL (Cyrillic: ОТКРЫТОЕ АКЦИОНЕРНОЕ ОБЩЕСТВО СТАНКОГОМЕЛЬ)), D. 10, Nezhiloe pomeshchenie, ul. Internatsionalnaya, Gomel 246640, Belarus; Organization Established Date 07 Dec 1995; Target Type State-Owned Enterprise; Tax ID No. 400085002 (Belarus) [BELARUS-EO14038].

   Designated pursuant to section 1(a)(vii) of E.O. 14038 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, the Government of Belarus.

Dated: April 15, 2024.

Bradley T. Smith,

Director, Office of Foreign Assets Control.

BILLING CODE 4810–AL–C

DEPARTMENT OF THE TREASURY

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Bureau of Fiscal Service Information Collection Request

AGENCY: Departmental Offices, U.S. Department of the Treasury.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: The Department of the Treasury will submit the following information collection requests to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The public is invited to submit comments on these requests.

DATES: Comments should be received on or before May 20, 2024 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of the submissions may be obtained from Melody Braswell by emailing *PRA@treasury.gov,* calling (202) 622–1035, or viewing the entire information collection request at *www.reginfo.gov.*

SUPPLEMENTARY INFORMATION:

Bureau of the Fiscal Service (BFS)

Title: Treasury Hunt Follow-Up.

OMB Number: 1530–New.

Form Number: FS Form 000140.

Abstract: The information is requested to verify a user's claim and process any associated transactions when a potential match is identified by using the Treasury Hunt online search tool to search for unredeemed bonds and holdings.

Current Actions: New collection.

Type of Review: Regular.

Affected Public: Individuals and Households.

Estimated Number of Respondents: 20,000.

Estimated Time per Respondent: 10 minutes.

Estimated Total Annual Burden Hours: 3,333.

(Authority: 44 U.S.C. 3501 *et seq.*)

Melody Braswell,

Treasury PRA Clearance Officer.

BILLING CODE 4810–AS–P

UNITED STATES INSTITUTE OF PEACE

Notice Regarding Board of Directors Meetings

AGENCY: United States Institute of Peace (USIP) and Endowment of the United States Institute of Peace.

ACTION: Announcement of meeting.

SUMMARY: USIP announces the next meeting of the Board of Directors.

DATES: Friday, April 19, 2024 (9:00 a.m.–12:30 p.m.). The next meeting of the Board of Directors will be held October 25, 2024.

ADDRESSES: 2301 Constitution Avenue NW, Washington DC 20037.

FOR FURTHER INFORMATION CONTACT: Corinne Graff, 202–429–7895, *cgraff@usip.org.*

SUPPLEMENTARY INFORMATION: Open Session—Portions may be closed pursuant to subsection (c) of section 552b of title 5, United States Code, as provided in subsection 1706(h)(3) of the United States Institute of Peace Act, Public Law 98–525.

Authority: 22 U.S.C. 4605(h)(3).

Dated: April 1, 2024.

Rebecca Fernandes,

Director of Accounting.

BILLING CODE 2810–03–P

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0886]

Agency Information Collection Activity Under OMB Review: Decision Review Request: Supplemental Claim

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, will submit the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden and it includes the actual data collection instrument.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Refer to ''OMB Control No. 2900–0886.

FOR FURTHER INFORMATION CONTACT: Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 810 Vermont Ave. NW, Washington, DC 20006, (202) 266–4688 or email *maribel.aponte@va.gov.* Please refer to ''OMB Control No. 2900–0886'' in any correspondence.

SUPPLEMENTARY INFORMATION:

Authority: Public Law 115–55, sec 2, 38 U.S.C. 5108, 38 CFR 3.2501.

Title: Decision Review Request: Supplemental Claim (VA Form 20–0995).

OMB Control Number: 2900–0886.

Type of Review: Revision of a currently approved collection.

Abstract: VA Form 20–0995 is used by a claimant and/or beneficiary to formally request a review of an initial VA decision, based on new and relevant evidence, in accordance with the Appeals Modernization Act. Without the information solicited by this form, VA would be unable to initiate the 'Supplemental Claim' on behalf of the claimant or determine the issues for which the claimant seeks review.

This proposed revision consists of; non-substantive edits to the 'Instructions' to help clarify the content, a new question that helps identify what benefit type the claimant is requesting, a new section that separates Veteran from claimant, a new section identifying if the claimant is homeless or at risk of becoming homeless, a new section that provides an option to the claimant to check a box if they want VBA to notify the Veteran Health Administration about certain upcoming event(s) during the claim and/or appeal process, and a witness signature section, alternate signer signature section, and a power of attorney signature section has been added to help clarify who is signing the form. The respondent burden has increased due to the estimated number of receivables averaged over the past year.

The frequency of collection depends solely upon the desire of VA claimants to seek review of an initial VA decision in the Supplemental Claim Lane. In that sense, VA does not control the frequency of collection.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 89 FR 10161 on Tuesday, February 13, 2024.

Affected Public: Individuals or households.

Estimated Annual Burden: 160,119.

Estimated Average Burden per Respondent: 15 minutes.

Frequency of Response: One time.

Estimated Number of Respondents: 640,477.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration, Data Governance Analytics, Department of Veterans Affairs.

BILLING CODE 8320–01–P

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0859]

Agency Information Collection Activity Under OMB Review: Education Benefit Entitlement Restoration Request Due to School Closure, Program Suspension or Withdrawal

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, will submit the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden, and it includes the actual data collection instrument.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice by clicking on the following link *www.reginfo.gov/public/do/PRAMain,* select ''Currently under Review—Open for Public Comments'', then search the list for the information collection by Title or ''OMB Control No. 2900–0859.''

FOR FURTHER INFORMATION CONTACT: Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 810 Vermont Ave. NW, Washington, DC 20420, (202) 266–4688 or email *Maribel.aponte@va.gov.* Please refer to ''OMB Control No. 2900–0859'' in any correspondence.

SUPPLEMENTARY INFORMATION:

Authority: Public Law 115–48; title 38 U.S.C. 3699.

Title: Education Benefit Entitlement Restoration Request Due to School Closure, Program Suspension or Withdrawal, VA Form 22–0989.

OMB Control Number: 2900–0859.

Type of Review: Revision of a currently approved collection.

Abstract: The VA Form 22–0989 allows students to apply for restoration of entitlement for VA education benefits used at a school that closed, suspended, or had its approval to receive VA benefits withdrawn.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 89 FR 12420 on Friday, February 16, 2024, Pages 12420–12421.

Affected Public: Individuals and households.

Estimated Annual Burden: 658 hours.

Estimated Average Burden Time per Respondent: 15 minutes.

Frequency of Response: Once on occasion.

Estimated Number of Respondents: 2,634.

By direction of the Secretary.

BILLING CODE 8320–01–P

FEDERAL REGISTER

Vol. 89 Friday,
No. 77 April 19, 2024

Part II

Department of Energy

10 CFR Part 430
Energy Conservation Program: Energy Conservation Standards for General Service Lamps; Final Rule

DEPARTMENT OF ENERGY

10 CFR Part 430

[EERE–2022–BT–STD–0022]

RIN 1904–AF43

Energy Conservation Program: Energy Conservation Standards for General Service Lamps

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Final rule.

SUMMARY: The Energy Policy and Conservation Act, as amended (''EPCA''), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including general service lamps (''GSLs''). EPCA also requires the U.S. Department of Energy (''DOE'') to periodically determine whether more stringent standards would be technologically feasible and economically justified and would result in significant energy savings. In this final rule, DOE is adopting amended energy conservation standards for GSLs. DOE has determined that the amended energy conservation standards for these products would result in significant conservation of energy and are technologically feasible and economically justified.

DATES: The effective date of this rule is July 3, 2024. Compliance with the amended standards established for GSLs in this final rule is required on and after July 25, 2028.

The incorporation by reference of certain material listed in this rule is approved by the Director of the Federal Register on July 3, 2024. The incorporation by reference of certain other material listed in this rule was approved by the Director of the Federal Register as of September 30, 2022.

ADDRESSES: The docket for this rulemaking, which includes **Federal Register** notices, public meeting attendee lists and transcripts, comments, and other supporting documents/materials, is available for review at *www.regulations.gov.* All documents in the docket are listed in the *www.regulations.gov* index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

The docket web page can be found at *www.regulations.gov/docket/EERE-2022-BT-STD-0022.* The docket web page contains instructions on how to access all documents, including public comments, in the docket.

For further information on how to review the docket, contact the Appliance and Equipment Standards Program staff at (202) 287–1445 or by email: *ApplianceStandardsQuestions@ee.doe.gov.*

FOR FURTHER INFORMATION CONTACT: Mr. Bryan Berringer, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Office, EE–5B, 1000 Independence Avenue SW, Washington, DC 20585–0121. Telephone: (202) 586–0371. Email: *ApplianceStandardsQuestions@ee.doe.gov.*

Ms. Laura Zuber, U.S. Department of Energy, Office of the General Counsel, GC–33, 1000 Independence Avenue SW, Washington, DC 20585–0121. Telephone: (240) 306–7651. Email: *Laura.Zuber@hq.doe.gov.*

SUPPLEMENTARY INFORMATION: DOE maintains a previously approved incorporation by reference for: ANSI C78.79–2014 (R2020) and incorporates by reference the following industry standard into 10 CFR part 430:

UL 1598C, *Standard for Safety for Light-Emitting Diode (LED) Retrofit Luminaire Conversion Kits,* First edition, dated January 16, 2014 (including revisions through November 17, 2016) (''UL 1598C–2016'').

A copy of UL 1598C may be obtained from the Underwriters Laboratories, Inc. (UL), 2600 NW Lake Rd., Camas, WA 98607–8542 (*www.UL.com*).

For a further discussion of this standard, see section VI.M of this document.

Table of Contents

I. Synopsis of the Final Rule

The Energy Policy and Conservation Act, Public Law 94–163, as amended (''EPCA''),[1] authorizes DOE to regulate the energy efficiency of a number of consumer products and certain industrial equipment. (42 U.S.C. 6291–6317) Title III, part B of EPCA [2] established the Energy Conservation Program for Consumer Products Other Than Automobiles. (42 U.S.C. 6291–6309) These products include GSLs, the subject of this rulemaking.

This is the second rulemaking cycle for GSLs. As a result of the first rulemaking cycle initiated per 42 U.S.C. 6295(i)(6)(A), on May 9, 2022, DOE codified a prohibition on the sale of any GSLs that do not meet a minimum efficacy standard of 45 lumens per watt. (87 FR 27439) There are existing DOE energy conservation standards higher than 45 lumens per watt for medium base compact fluorescent lamps (''MBCFLs''), which are types of GSLs. 70 FR 60407 (Oct. 18, 2005). DOE is issuing this final rule pursuant to multiple provisions in EPCA. First, EPCA requires that DOE initiate a second rulemaking cycle by January 1, 2020, to determine whether standards in effect for general service incandescent lamps (''GSILs'') should be amended with more stringent energy conservation standards and if the exemptions for certain incandescent lamps should be maintained or discontinued. Consistent with the first review, this second review of energy conservation standards, the scope of rulemaking is not limited to incandescent technologies. (42 U.S.C. 6295(i)(6)(B)(ii))

Second, EPCA also provides that not later than 6 years after issuance of any final rule establishing or amending a standard, DOE must publish either a notice of determination that standards for the product do not need to be amended, or a notice of proposed rulemaking including new proposed energy conservation standards (proceeding to a final rule, as appropriate). (42 U.S.C. 6295(m)) Third, pursuant to EPCA, any new or amended energy conservation standard must be designed to achieve the maximum improvement in energy efficiency that DOE determines is technologically feasible and economically justified. (42 U.S.C. 6295(o)(2)(A)) Furthermore, the new or amended standard must result in a significant conservation of energy. (42 U.S.C. 6295(o)(3)(B)) Lastly, when DOE proposes to adopt an amended standard for a type or class of covered product, it must determine the maximum improvement in energy efficiency or maximum reduction in energy use that is technologically feasible for such a product. (42 U.S.C. 6295(p)(1))

In accordance with these and other statutory provisions discussed in this document, DOE analyzed the benefits and burdens of six trial standard levels (''TSLs'') for GSLs. The TSLs and their associated benefits and burdens are discussed in detail in sections V.A through V.C of this document. As discussed in section V.C of this document, DOE has determined that TSL 6 represents the maximum improvement in energy efficiency that is technologically feasible and economically justified. The adopted standards, which are expressed in minimum lumens (''lm'') output per watt (''W'') of a lamp or lamp efficacy (''lm/W''), are shown in table I.1. These standards apply to all products listed in table I.1 and manufactured in, or imported into, the United States starting on July 25, 2028.

BILLING CODE 6450–01–P

[1] All references to EPCA in this document refer to the statute as amended through the Energy Act of 2020, Public Law 116–260 (Dec. 27, 2020), which reflect the last statutory amendments that impact parts A and A–1 of EPCA.

[2] For editorial reasons, upon codification in the U.S. Code, part B was redesignated part A.

Table I.1 Energy Conservation Standards for GSLs (Compliance Starting July 25, 2028)

Product Class	Adopted Energy Conservation Standards - Efficacy Equation (lm/W)	Example Efficacy for Common Lumen Lamp
Integrated Omnidirectional Short GSLs, No Standby Power	$\text{Efficacy} = \frac{123}{1.2 + e^{-0.005(\text{Lumens}-200)}} + 25.9$	124.6 lm/W (810 lumens)
Integrated Omnidirectional Short GSLs, With Standby Power	$\text{Efficacy} = \frac{123}{1.2 + e^{-0.005(\text{Lumens}-200)}} + 17.1$	115.7 lm/W (810 lumens)
Integrated Directional GSLs, No Standby Power	$\text{Efficacy} = \frac{73}{0.5 + e^{-0.0021(\text{Lumens}+1000)}} - 47.2$	96.0 lm/W (1200 lumens)
Integrated Directional GSLs, With Standby Power	$\text{Efficacy} = \frac{73}{0.5 + e^{-0.0021(\text{Lumens}+1000)}} - 50.9$	92.3 lm/W (1200 lumens)
Integrated Omnidirectional Long GSLs, No Standby Power	$\text{Efficacy} = \frac{123}{1.2 + e^{-0.005(\text{Lumens}-200)}} + 71.7$	174.1 lm/W (1625 lumens)
Non-integrated Omnidirectional Long GSLs, No Standby Power	$\text{Efficacy} = \frac{123}{1.2 + e^{-0.005(\text{Lumens}-200)}} + 93.0$	195.4 lm/W (1625 lumens)
Non-integrated Omnidirectional Short GSLs, No Standby Power	$\text{Efficacy} = \frac{122}{0.55 + e^{-0.003(\text{Lumens}+250)}} - 83.4$	133.3 lm/W (1200 lumens)
Non-integrated Directional GSLs, No Standby Power	$\text{Efficacy} = \frac{67}{0.45 + e^{-0.00176(\text{Lumens}+1310)}} - 53.1$	83.3 lm/W (500 lumens)

BILLING CODE 6450–01–C

A. Benefits and Costs to Consumers

Table I.2 summarizes DOE's evaluation of the economic impacts of the adopted standards on consumers of GSLs, as measured by the average life-cycle cost (''LCC'') savings and the simple payback period (''PBP'').[3] The average LCC savings are positive for all product classes, and the PBP is less than the average lifetime of GSLs, which varies by product class and efficiency level (*see* section IV.F.5 of this document).

[3] The average LCC savings refer to consumers that are affected by a standard and are measured relative to the efficiency distribution in the no-new-standards case, which depicts the market in the first full compliance year in the absence of new or amended standards (*see* section IV.F.9 of this document). The simple PBP, which is designed to compare specific efficiency levels, is measured relative to the baseline product (*see* section IV.D of this document).

Table I.2 Impacts of Adopted Energy Conservation Standards on Consumers of GSLs

Product Class	Average LCC Savings *2022$*	Simple Payback Period *years*
Integrated Omnidirectional Short	0.60	0.9
Integrated Omnidirectional Long	4.00	3.4
Integrated Directional	3.23	0.0
Non-Integrated Omnidirectional	6.67	2.4
Non-Integrated Directional	0.37	3.8

DOE's analysis of the impacts of the adopted standards on consumers is described in section V.B.1 of this document.

B. Impact on Manufacturers

The industry net present value (''INPV'') is the sum of the discounted cash flows to the industry from the base year through the end of the analysis period (2024–2058). Using a real discount rate of 6.1 percent, DOE estimates that the INPV for manufacturers of GSLs in the case without new and amended standards is $2,108 million in 2022$. Under the adopted standards, DOE estimates the change in INPV to range from −15.3 percent to −7.3 percent, which is approximately −$322 million to −$155 million. In order to bring products into compliance with new and amended standards, it is estimated that industry will incur total conversion costs of $430 million.

DOE's analysis of the impacts of the adopted standards on manufacturers is described in sections IV.J and V.B.2 of this document.

C. National Benefits and Costs[4]

DOE's analyses indicate that the adopted energy conservation standards for GSLs would save a significant amount of energy. Relative to the case without amended standards, the lifetime energy savings for GSLs purchased in the 30-year period that begins in the anticipated first full year of compliance with the amended standards (2029–2058) amount to 4.0 quadrillion British thermal units (''Btu''), or quads.[5] This represents a savings of 17 percent relative to the energy use of these products in the case without amended standards (referred to as the ''no-new-standards case'').

The cumulative net present value (''NPV'') of total consumer benefits of the standards for GSLs ranges from $8.5 billion (at a 7-percent discount rate) to $22.2 billion (at a 3-percent discount rate). This NPV expresses the estimated total value of future operating-cost savings minus the estimated increased product costs for GSLs purchased during the period 2029–2058.

In addition, the adopted standards for GSLs are projected to yield significant environmental benefits. DOE estimates that the standards will result in cumulative emission reductions (over the same period as for energy savings) of 70.3 million metric tons (''Mt'')[6] of carbon dioxide (''CO_2''), 22.1 thousand tons of sulfur dioxide (''SO_2''), 133.3 thousand tons of nitrogen oxides (''NO_X''), 608.1 thousand tons of methane (''CH_4''), 0.70 thousand tons of nitrous oxide (''N_2O''), and 0.15 tons of mercury (''Hg'').[7] The estimated cumulative reduction in CO_2 emissions through 2030 amounts to 0.61 Mt, which is equivalent to the emissions resulting from the annual electricity use of more than one hundred thousand homes.

DOE estimates the value of climate benefits from a reduction in greenhouse gases (''GHG'') using four different estimates of the social cost of CO_2 (''SC–CO_2''), the social cost of methane (''SC–CH_4''), and the social cost of nitrous oxide (''SC–N_2O''). Together these represent the social cost of GHG (''SC–GHG''). DOE used interim SC–GHG values (in terms of benefit per ton of GHG avoided) developed by an Interagency Working Group on the Social Cost of Greenhouse Gases (''IWG'').[8] The derivation of these values is discussed in section IV.L of this document. For presentational purposes, the climate benefits associated with the average SC–GHG at a 3-percent discount rate are estimated to be $3.8 billion. DOE does not have a single central SC–GHG point estimate and it emphasizes the importance and value of considering the benefits calculated using all four sets of SC–GHG estimates.

DOE estimated the monetary health benefits of SO_2 and NO_X emissions reductions, using benefit per ton estimates from the Environmental Protection Agency (''EPA''),[9] as discussed in section IV.L of this document. DOE estimated the present value of the health benefits would be $2.9 billion using a 7-percent discount rate, and $7.5 billion using a 3-percent discount rate.[10] DOE is currently only

[4] All monetary values in this document are expressed in 2022 dollars.

[5] The quantity refers to full-fuel-cycle (''FFC'') energy savings. FFC energy savings includes the energy consumed in extracting, processing, and transporting primary fuels (*i.e.,* coal, natural gas, petroleum fuels), and, thus, presents a more complete picture of the impacts of energy efficiency standards. For more information on the FFC metric, see section 0 of this document.

[6] A metric ton is equivalent to 1.1 short tons. Results for emissions other than CO_2 are presented in short tons.

[7] DOE calculated emissions reductions relative to the no-new-standards-case, which reflects key assumptions in the *Annual Energy Outlook 2023* (''*AEO2023*''). *AEO2023* reflects, to the extent possible, laws and regulations adopted through mid-November 2022, including the Inflation Reduction Act. *See* section IV.K of this document for further discussion of *AEO2023* assumptions that affect air pollutant emissions.

[8] To monetize the benefits of reducing GHG emissions this analysis uses the interim estimates presented in the *Technical Support Documents: Social Cost of Carbon, Methane, and Nitrous Oxide Interim Estimates Under Executive Order 13990* published in February 2021 by the IWG. (''February 2021 SC–GHG TSD''). Available at *www.whitehouse.gov/wp-content/uploads/2021/02/TechnicalSupportDocument_SocialCostofCarbonMethaneNitrousOxide.pdf.*

[9] U.S. Environmental Protection Agency. Estimating the Benefit per Ton of Reducing Directly-Emitted $PM_{2.5}$, $PM_{2.5}$ Precursors and Ozone Precursors from 21 Sectors. Available at *www.epa.gov/benmap/estimating-benefit-ton-reducing-pm25-precursors-21-sectors.*

[10] DOE estimates the economic value of these emissions reductions resulting from the considered TSLs for the purpose of complying with the requirements of Executive Order 12866.

monetizing health benefits from changes in ambient fine particulate matter (''$PM_{2.5}$'') concentrations from two precursors (SO_2 and NO_X), and from changes in ambient ozone from one precursor (for NO_X), but will continue to assess the ability to monetize other effects such as health benefits from reductions in direct $PM_{2.5}$ emissions.

Table 1.3 summarizes the monetized benefits and costs expected to result from the amended standards for GSLs. There are other important unquantified effects, including certain unquantified climate benefits, unquantified public health benefits from the reduction of toxic air pollutants and other emissions, unquantified energy security benefits, and distributional effects among others.

BILLING CODE 6450–01–P

Table I.3 Summary of Monetized Benefits and Costs of Adopted Energy Conservation Standards for GSLs (2029-2058)

	Billion $2022
3% discount rate	
Consumer Operating Cost Savings	27.2
Climate Benefits*	3.8
Health Benefits**	7.5
Total Benefits†	38.5
Consumer Incremental Product Costs‡	5.1
Net Benefits	33.5
Change in Producer Cashflow (INPV)‡‡	(0.3) – (0.2)
7% discount rate	
Consumer Operating Cost Savings	11.3
Climate Benefits* (3% discount rate)	3.8
Health Benefits**	2.9
Total Benefits†	18.0
Consumer Incremental Product Costs‡	2.9
Net Benefits	15.1
Change in Producer Cashflow (INPV)‡‡	(0.3) – (0.2)

Note: This table presents the costs and benefits associated with GSLs shipped during the period 2029–2058. These results include consumer, climate, and health benefits that accrue after 2058 from the products shipped during the period 2029–2058.

* Climate benefits are calculated using four different estimates of the social cost of carbon (SC-CO_2), methane (SC-CH_4), and nitrous oxide (SC-N_2O) (model average at 2.5-percent, 3-percent, and 5-percent discount rates; 95th percentile at a 3-percent discount rate) (*see* section IV.L of this final rule). Together these represent the global SC-GHG. For presentational purposes of this table, the climate benefits associated with the average SC-GHG at a 3-percent discount rate are shown; however, DOE emphasizes the importance and value of considering the benefits calculated using all four sets of SC-GHG estimates. To monetize the benefits of reducing GHG emissions, this analysis uses the interim estimates presented in the *Technical Support Document: Social Cost of Carbon, Methane, and Nitrous Oxide Interim Estimates Under Executive Order 13990* published in February 2021 by the IWG.

** Health benefits are calculated using benefit-per-ton values for NO_X and SO_2. DOE is currently only monetizing (for SO_2 and NO_X) $PM_{2.5}$ precursor health benefits and (for NO_X) ozone precursor health benefits but will continue to assess the ability to monetize other effects such as health benefits from reductions in direct $PM_{2.5}$ emissions. *See* section IV.L of this document for more details.

† Total and net benefits include those consumer, climate, and health benefits that can be quantified and monetized. For presentation purposes, total and net benefits for both the 3-percent and 7-percent cases are presented using the average SC-GHG with a 3-percent discount rate.

‡ Costs include incremental equipment costs as well as installation costs.

‡‡ Operating cost savings are calculated based on the life-cycle cost analysis and national impact analysis

as discussed in detail below. *See* sections IV.F and IV.H of this document. DOE's national impact analysis includes all impacts (both costs and benefits) along the distribution chain beginning with the increased costs to the manufacturer to manufacture the product and ending with the increase in price experienced by the consumer. DOE also separately conducts a detailed analysis on the impacts on manufacturers (*i.e.*, manufacturer impact analysis, or "MIA"). *See* section IV.J of this document. In the detailed MIA, DOE models manufacturers' pricing decisions based on assumptions regarding investments, conversion costs, cashflow, and margins. The MIA produces a range of impacts, which is the rule's expected impact on the INPV. The change in INPV is the present value of all changes in industry cashflow, including changes in production costs, capital expenditures, and manufacturer profit margins. Change in INPV is calculated using the industry weighted average cost of capital value of 6.1 percent that is estimated in the MIA (*see* chapter 11 of the final rule technical support document ("TSD") for a complete description of the industry weighted average cost of capital). For GSLs, the change in INPV ranges from -$322 million to -$155 million. DOE accounts for that range of likely impacts in analyzing whether a trial standard level is economically justified. *See* section V.C of this document. DOE is presenting the range of impacts to the INPV under two markup scenarios: the Preservation of Gross Margin scenario, which is the manufacturer markup scenario used in the calculation of Consumer Operating Cost Savings in this table; and the Preservation of Operating Profit scenario, where DOE assumed manufacturers would not be able to increase per-unit operating profit in proportion to increases in manufacturer production costs. DOE includes the range of estimated change in INPV in the above table, drawing on the MIA explained further in section IV.J of this document to provide additional context for assessing the estimated impacts of this final rule to society, including potential changes in production and consumption, which is consistent with OMB's Circular A-4 and E.O. 12866. If DOE were to include the change in INPV into the net benefit calculation for this final rule, the net benefits would range from $33.2 billion to $33.3 billion at a 3-percent discount rate and would range from $14.8 billion to $14.9 billion at a 7-percent discount rate. Parentheses () indicate negative values.

BILLING CODE 6450–01–C

The benefits and costs of the amended standards can also be expressed in terms of annualized values. The monetary values for the total annualized net benefits are (1) the reduced consumer operating costs, minus (2) the increase in product purchase prices and installation costs, plus (3) the value of climate and health benefits of emission reductions, all annualized.[11]

The national operating cost savings are domestic private U.S. consumer monetary savings that occur as a result of purchasing the covered products and are measured for the lifetime of GSLs shipped during the period 2029–2058. The benefits associated with reduced emissions achieved as a result of the adopted standards are also calculated based on the lifetime of GSLs shipped during the period 2029–2058. Total benefits for both the 3-percent and 7-percent cases are presented using the average GHG social costs with a 3-percent discount rate. Estimates of SC–GHG values are presented for all four discount rates in section V.B.8 of this document.

Table I.4 presents the total estimated monetized benefits and costs associated with the amended standard, expressed in terms of annualized values. The results under the primary estimate are as follows.

Using a 7-percent discount rate for consumer benefits and costs and health benefits from reduced NO_X and SO_2 emissions, and the 3-percent discount rate case for climate benefits from reduced GHG emissions, the estimated cost of the standards adopted in this rule is $301.4 million per year in increased equipment costs, while the estimated annual benefits are $1,193.6 million in reduced equipment operating costs, $217.7 million in climate benefits, and $303.2 million in health benefits. In this case, the net benefit would amount to $1,413.1 million per year.

Using a 3-percent discount rate for all benefits and costs, the estimated cost of the standards is $292.2 million per year in increased equipment costs, while the estimated annual benefits are $1,564.6 million in reduced operating costs, $217.7 million in climate benefits, and $430.8 million in health benefits. In this case, the net benefit would amount to $1,920.9 million per year.

BILLING CODE 6450–01–P

[11] To convert the time-series of costs and benefits into annualized values, DOE calculated a present value in 2024, the year used for discounting the NPV of total consumer costs and savings. For the benefits, DOE calculated a present value associated with each year's shipments in the year in which the shipments occur (*e.g.,* 2020 or 2030), and then discounted the present value from each year to 2024. Using the present value, DOE then calculated the fixed annual payment over a 30-year period, starting in the compliance year, that yields the same present value.

Table I.4 Annualized Benefits and Costs of Adopted Standards for GSLs (2029-2058)

	Million 2022$/year		
	Primary Estimate	**Low Net Benefits Estimate**	**High Net Benefits Estimate**
3% discount rate			
Consumer Operating Cost Savings	1,564.6	1,473.8	1,639.9
Climate Benefits*	217.7	213.0	220.6
Health Benefits**	430.8	421.6	436.3
Total Benefits†	2,213.1	2,108.4	2,296.8
Consumer Incremental Product Costs‡	292.2	279.0	304.4
Net Benefits	1,920.9	1,829.5	1,992.4
Change in Producer Cashflow (INPV)‡‡	(22.5) – (10.8)	(22.5) – (10.8)	(22.5) – (10.8)
7% discount rate			
Consumer Operating Cost Savings	1,193.6	1,129.5	1,248.5
Climate Benefits* (3% discount rate)	217.7	213.0	220.6
Health Benefits**	303.2	297.4	306.7
Total Benefits†	1,714.5	1,639.9	1,775.8
Consumer Incremental Product Costs‡	301.4	288.9	312.8
Net Benefits	1,413.1	1351.0	1,463.0
Change in Producer Cashflow (INPV)‡‡	(22.5) – (10.8)	(22.5) – (10.8)	(22.5) – (10.8)

Note: This table presents the costs and benefits associated with GSLs shipped during the period 2029−2058. These results include consumer, climate, and health benefits that accrue after 2058 from the products shipped during the period 2029−2058. The Primary, Low Net Benefits, and High Net Benefits Estimates utilize projections of energy prices from the *AEO2023* Reference case, Low Economic Growth case, and High Economic Growth case, respectively. In addition, LED lamp prices reflect a higher price learning rate in the Low Net Benefits Estimate, and a lower price learning rate in the High Net Benefits Estimate. The methods used to derive projected price trends are explained in section IV.G of this document. Note that the Benefits and Costs may not sum to the Net Benefits due to rounding.

* Climate benefits are calculated using four different estimates of the global SC-GHG (*see* section IV.L of this document). For presentational purposes of this table, the climate benefits associated with the average SC-GHG at a 3 percent discount rate are shown; however, DOE emphasizes the importance and value of considering the benefits calculated using all four sets of SC-GHG estimates. To monetize the benefits of reducing GHG emissions, this analysis uses the interim estimates presented in the *Technical Support Document: Social Cost of Carbon, Methane, and Nitrous Oxide Interim Estimates Under Executive Order 13990* published in February 2021 by the IWG.

** Health benefits are calculated using benefit-per-ton values for NO_X and SO_2. DOE is currently only monetizing (for SO_2 and NO_X) $PM_{2.5}$ precursor health benefits and (for NO_X) ozone precursor health benefits but will continue to assess the ability to monetize other effects such as health benefits from reductions in direct $PM_{2.5}$ emissions. *See* section IV.L of this document for more details.

† Total benefits for both the 3-percent and 7-percent cases are presented using the average SC-GHG with 3-percent discount rate.
‡ Costs include incremental equipment costs as well as installation costs.
‡‡ Operating cost savings are calculated based on the life cycle costs analysis and national impact analysis as discussed in detail below. *See* sections IV.F and IV.H of this document. DOE's national impact analysis includes all impacts (both costs and benefits) along the distribution chain beginning with the increased costs to the manufacturer to manufacture the product and ending with the increase in price experienced by the consumer. DOE also separately conducts a detailed analysis on the impacts on manufacturers (*i.e.*, manufacturer impact analysis, or "MIA"). *See* section IV.J of this document. In the detailed MIA, DOE models manufacturers' pricing decisions based on assumptions regarding investments, conversion costs, cashflow, and margins. The MIA produces a range of impacts, which is the rule's expected impact on the INPV. The change in INPV is the present value of all changes in industry cash flow, including changes in production costs, capital expenditures, and manufacturer profit margins. The annualized change in INPV is calculated using the industry weighted average cost of capital value of 6.1 percent that is estimated in the MIA (*see* chapter 11 of the final rule TSD for a complete description of the industry weighted average cost of capital). For GSLs, the annualized change in INPV ranges from -$22.5 million to -$10.8 million. DOE accounts for that range of likely impacts in analyzing whether a trial standard level is economically justified. *See* section V.C of this document. DOE is presenting the range of impacts to the INPV under two markup scenarios: the Preservation of Gross Margin scenario, which is the manufacturer markup scenario used in the calculation of Consumer Operating Cost Savings in this table; and the Preservation of Operating Profit scenario, where DOE assumed manufacturers would not be able to increase per-unit operating profit in proportion to increases in manufacturer production costs. DOE includes the range of estimated annualized change in INPV in the above table, drawing on the MIA explained further in section IV.J of this document to provide additional context for assessing the estimated impacts of this final rule to society, including potential changes in production and consumption, which is consistent with OMB's Circular A-4 and E.O. 12866. If DOE were to include the change in INPV into the annualized net benefit calculation for this final rule, the net benefits would range from $1,898.4 million to $1,910.1 million at 3-percent discount rate and would range from $1,390.6 million to $1,402.3 million at 7-percent discount rate. Parentheses () indicate negative values.

BILLING CODE 6450–01–C

DOE's analysis of the national impacts of the adopted standards is described in sections IV.H, IV.K, and IV.L of this document.

D. Conclusion

DOE concludes that the standards adopted in this final rule represent the maximum improvement in energy efficiency that is technologically feasible and economically justified and would result in the significant conservation of energy. Specifically, with regard to technological feasibility, products achieving these standard levels are already commercially available for all product classes covered by this final rule. As for economic justification, DOE's analysis shows that the benefits of the standards exceed, to a great extent, the burdens of the standards.

Using a 7-percent discount rate for consumer benefits and costs and NO_X and SO_2 reduction benefits, and a 3-percent discount rate case for GHG social costs, the estimated cost of the standards for GSLs is $301.4 million per year in increased GSL costs, while the estimated annual benefits are $1,193.6 million in reduced GSL operating costs, $217.7 million in climate benefits, and $303.2 million in health benefits. The net benefit amounts to $1,413.1 million per year. While DOE presents monetized climate benefits, DOE would reach the same conclusion presented in this rulemaking in the absence of the benefits of the social cost of greenhouse gases.

The significance of energy savings offered by a new or amended energy conservation standard cannot be determined without knowledge of the specific circumstances surrounding a given rulemaking.[12] For example, some covered products and equipment have most of their energy consumption occur during periods of peak energy demand. The impacts of these products on the energy infrastructure can be more pronounced than products with relatively constant demand. Accordingly, DOE evaluates the significance of energy savings on a case-by-case basis.

As previously mentioned, the standards are projected to result in estimated national energy savings of 4.0 quad full-fuel-cycle (''FFC''), the equivalent of the primary annual energy use of 261 million homes. In addition, they are projected to reduce CO_2 emissions by 70.3 Mt. Based on these findings, DOE has determined the energy savings from the standard levels adopted in this final rule are ''significant'' within the meaning of 42 U.S.C. 6295(o)(3)(B). A more detailed discussion of the basis for these conclusions is contained in the remainder of this document and the accompanying TSD.

[12] Procedures, Interpretations, and Policies for Consideration in New or Revised Energy Conservation Standards and Test Procedures for Consumer Products and Commercial/Industrial Equipment, 86 FR 70892, 70901 (Dec. 13, 2021).

II. Introduction

The following section briefly discusses the statutory authority underlying this final rule, as well as some of the relevant historical background related to the establishment of standards for GSLs.

A. Authority

EPCA authorizes DOE to regulate the energy efficiency of a number of consumer products and certain industrial equipment. Title III, part B of EPCA established the Energy Conservation Program for Consumer Products Other Than Automobiles. These products include GSLs, the subject of this document. (42 U.S.C. 6295 (i) (6)) EPCA directs DOE to conduct future rulemakings to determine whether to amend these

standards. *Id.* EPCA further provides that, not later than 6 years after the issuance of any final rule establishing or amending a standard, DOE must publish either a notice of determination that standards for the product do not need to be amended, or a notice of proposed rulemaking (''NOPR'') including new proposed energy conservation standards (proceeding to a final rule, as appropriate). (42 U.S.C. 6295(m)(1))

EPCA directs DOE to conduct two rulemaking cycles to evaluate energy conservation standards for GSLs. (42 U.S.C. 6295(i)(6)(A)–(B)) For the first rulemaking cycle, EPCA directed DOE to initiate a rulemaking process prior to January 1, 2014, to determine whether: (1) to amend energy conservation standards for GSLs and (2) the exemptions for certain incandescent lamps should be maintained or discontinued. (42 U.S.C. 6295(i)(6)(A)(i)) That rulemaking was not to be limited to incandescent lamp technologies and was required to include a consideration of a minimum standard of 45 lm/W for GSLs. (42 U.S.C. 6295(i)(6)(A)(ii)) EPCA required that if the Secretary determined that the standards in effect for GSILs should be amended, a final rule must be published by January 1, 2017, with a compliance date at least 3 years after the date on which the final rule is published. (42 U.S.C. 6295(i)(6)(A)(iii)) The Secretary was also required to consider phased-in effective dates after considering certain manufacturer and retailer impacts. (42 U.S.C. 6295(i)(6)(A)(iv)) If DOE failed to complete a rulemaking in accordance with 42 U.S.C. 6295(i)(6)(A)(i)–(iv), or if a final rule from the first rulemaking cycle did not produce savings greater than or equal to the savings from a minimum efficacy standard of 45 lm/W, the statute provides a ''backstop'' under which DOE was required to prohibit sales of GSLs that do not meet a minimum 45 lm/W standard. (42 U.S.C. 6295(i)(6)(A)(v)). DOE did not complete a rulemaking in accordance with the statutory criteria, and so accordingly codified this backstop requirement in a rule issued on May 9, 2022 (''May 2022 Backstop Final Rule''). 87 FR 27439.

EPCA further directs DOE to initiate a second rulemaking cycle by January 1, 2020, to determine whether standards in effect for GSILs (which are a subset of GSLs) should be amended with more stringent maximum wattage requirements than EPCA specifies, and whether the exemptions for certain incandescent lamps should be maintained or discontinued. (42 U.S.C. 6295(i)(6)(B)(i)) As in the first rulemaking cycle, the scope of the second rulemaking is not limited to incandescent lamp technologies. (42 U.S.C. 6295(i)(6)(B)(ii)) As previously stated in section I of this document, DOE is publishing this final rule pursuant to this second cycle of rulemaking, as well as section (m) of 42 U.S.C. 6295.

The energy conservation program under EPCA consists essentially of four parts: (1) testing, (2) labeling, (3) the establishment of Federal energy conservation standards, and (4) certification and enforcement procedures. Relevant provisions of EPCA specifically include definitions (42 U.S.C. 6291), test procedures (42 U.S.C. 6293), labeling provisions (42 U.S.C. 6294), energy conservation standards (42 U.S.C. 6295), and the authority to require information and reports from manufacturers (42 U.S.C. 6296).

Federal energy efficiency requirements for covered products established under EPCA generally supersede State laws and regulations concerning energy conservation testing, labeling, and standards. (42 U.S.C. 6297(a)–(c)) DOE may, however, grant waivers of Federal preemption in limited instances for particular State laws or regulations, in accordance with the procedures and other provisions set forth under EPCA. (*See* 42 U.S.C. 6297(d).)

Subject to certain criteria and conditions, DOE is required to develop test procedures to measure the energy efficiency, energy use, or estimated annual operating cost of each covered product. (42 U.S.C. 6295(o)(3)(A) and 42 U.S.C. 6295(r)) Manufacturers of covered products must use the prescribed DOE test procedure as the basis for certifying to DOE that their products comply with the applicable energy conservation standards adopted under EPCA and when making representations to the public regarding the energy use or efficiency of those products. (42 U.S.C. 6293(c) and 6295(s)) Similarly, DOE must use these test procedures to determine whether the products comply with standards adopted pursuant to EPCA. (42 U.S.C. 6295(s)) The DOE test procedures for GSLs appear at title 10 of the Code of Federal Regulations (''CFR'') part 430, subpart B, appendices R, W, BB, and DD.

DOE must follow specific statutory criteria for prescribing new or amended standards for covered products, including GSLs. Any new or amended standard for a covered product must be designed to achieve the maximum improvement in energy efficiency that the Secretary of Energy determines is technologically feasible and economically justified. (42 U.S.C. 6295(o)(2)(A)) Furthermore, DOE may not adopt any standard that would not result in the significant conservation of energy. (42 U.S.C. 6295(o)(3)) Moreover, DOE may not prescribe a standard (1) for certain products, including GSLs, if no test procedure has been established for the product, or (2) if DOE determines by rule that the standard is not technologically feasible or economically justified. (42 U.S.C. 6295(o)(3)(A)–(B)) In deciding whether a proposed standard is economically justified, DOE must determine whether the benefits of the standard exceed its burdens. (42 U.S.C. 6295(o)(2)(B)(i)) DOE must make this determination after receiving comments on the proposed standard, and by considering, to the greatest extent practicable, the following seven statutory factors:

(1) The economic impact of the standard on manufacturers and consumers of the products subject to the standard;

(2) The savings in operating costs throughout the estimated average life of the covered products in the type (or class) compared to any increase in the price, initial charges, or maintenance expenses for the covered products that are likely to result from the standard;

(3) The total projected amount of energy (or, as applicable, water) savings likely to result directly from the standard;

(4) Any lessening of the utility or the performance of the covered products likely to result from the standard;

(5) The impact of any lessening of competition, as determined in writing by the Attorney General, that is likely to result from the standard;

(6) The need for national energy and water conservation; and

(7) Other factors the Secretary of Energy (''Secretary'') considers relevant. (42 U.S.C. 6295(o)(2)(B)(i)(I)–(VII))

Further, EPCA, as codified, establishes a rebuttable presumption that a standard is economically justified if the Secretary finds that the additional cost to the consumer of purchasing a product complying with an energy conservation standard level will be less than three times the value of the energy savings during the first year that the consumer will receive as a result of the standard, as calculated under the applicable test procedure. (42 U.S.C. 6295(o)(2)(B)(iii))

EPCA, as codified, also contains what is known as an ''anti-backsliding'' provision, which prevents the Secretary from prescribing any amended standard that either increases the maximum allowable energy use or decreases the

minimum required energy efficiency of a covered product. (42 U.S.C. 6295(o)(1)) Also, the Secretary may not prescribe an amended or new standard if interested persons have established by a preponderance of the evidence that the standard is likely to result in the unavailability in the United States in any covered product type (or class) of performance characteristics (including reliability), features, sizes, capacities, and volumes that are substantially the same as those generally available in the United States. (42 U.S.C. 6295(o)(4))

Additionally, EPCA specifies requirements when promulgating an energy conservation standard for a covered product that has two or more subcategories. DOE must specify a different standard level for a type or class of products that has the same function or intended use if DOE determines that products within such group (A) consume a different kind of energy from that consumed by other covered products within such type (or class); or (B) have a capacity or other performance-related feature which other products within such type (or class) do not have and such feature justifies a higher or lower standard. (42 U.S.C. 6295(q)(1)) In determining whether a performance-related feature justifies a different standard for a group of products, DOE must consider such factors as the utility to the consumer of such a feature and other factors DOE deems appropriate. *Id.* Any rule prescribing such a standard must include an explanation of the basis on which such higher or lower level was established. (42 U.S.C. 6295(q)(2))

Finally, pursuant to the amendments contained in the Energy Independence and Security Act of 2007 (''EISA''), Public Law 110–140, any final rule for new or amended energy conservation standards promulgated after July 1, 2010, is required to address standby mode and off mode energy use. (42 U.S.C. 6295(gg)(3)) Specifically, when DOE adopts a standard for a covered product after that date, it must, if justified by the criteria for adoption of standards under EPCA (42 U.S.C. 6295(o)), incorporate standby mode and off mode energy use into a single standard, or, if that is not feasible, adopt a separate standard for such energy use for that product. (42 U.S.C. 6295(gg)(3)(A)–(B)) DOE determined that it is not feasible for GSLs included in the scope of this rulemaking to meet the off mode criteria because there is no condition in which a GSL connected to main power is not already in a mode accounted for in either active or standby mode. DOE notes the existence of commercially available GSLs that operate in standby mode. DOE's current test procedures and standards for GSLs address standby mode, as do the amended standards adopted in this final rule.

B. Background

1. Current Standards

This is the second cycle of energy conservation standards rulemakings for GSLs. As noted in section II.B.2 of this document, DOE has codified the statutory backstop requirement prohibiting sales of GSLs that do not meet a 45 lm/W requirement. Because incandescent and halogen GSLs are not able to meet the 45 lm/W requirement, they are not being considered in this analysis. The analysis does take into consideration existing standards for MBCFLs by ensuring that the adopted levels do not decrease the existing minimum required energy efficiency of MBCFLs in violation of EPCA's anti-backsliding provision, which precludes DOE from amending an existing energy conservation standard to permit greater energy use or a lesser amount of energy efficiency (*see* 42 U.S.C. 6295(o)(1)). The current standards for MBCFLs are summarized in table II.1. 10 CFR 430.32(u).

Table II.1 Existing Standards for MBCFLs

Lamp Configuration	Lamp Power (*W*)*	Minimum Efficacy (*lm/W*)
Bare Lamp	Lamp power < 15	45.0
	Lamp power ≥ 15	60.0
Covered Lamp, No Reflector	Lamp power < 15	40.0
	15 ≥ lamp power < 19	48.0
	19 ≥ lamp power < 25	50.0
	Lamp power ≥ 25	55.0
Lumen Maintenance at 1,000 Hours	≥ 90%	
Lumen Maintenance at 40% of Rated Lifetime	≥ 80%	
Rapid Cycle Stress Test	Each lamp must be cycled once for every 2 hours of lifetime.** At least 5 lamps must meet or exceed the minimum number of cycles.	
Lamp Lifetime**	≥ 6,000 hours	

*Use labeled wattage to determine the appropriate efficacy requirements in this table; do not use measured wattage for this purpose.

** Lifetime refers to lifetime of a compact fluorescent lamp as defined in 10 CFR 430.2.

MBCFLs fall within the Integrated Omnidirectional Short product class (*see* section IV.B.2 of this document for further details on product classes). Because DOE determined that a lamp cover (*i.e.,* bare or covered) is not a feature that justifies separate standards in this analysis, the baseline efficacy requirements are determined by lamp wattage. Therefore, for products with wattages less than 15 W that fall into the Integrated Omnidirectional Short product class, DOE set the baseline efficacy at 45 lm/W (the highest of the existing standards for that wattage range) to prevent increased energy usage in violation of EPCA's anti-backsliding provision. For products with wattages greater than or equal to 15 W that fall into the Integrated Omnidirectional Short product class, DOE set the baseline efficacy at 60 lm/W to prevent increased energy usage in violation of EPCA's anti-backsliding provision. Table II.2 shows the baseline efficacy requirements for the Integrated Omnidirectional Short product class.

Table II.2 Integrated Omnidirectional Short Current Standard Efficacy Requirements

Product Class	Lamp Power	Minimum Efficacy
	W	*lm/W*
Integrated GSLs	< 15	45.0
	≥ 15	60.0

2. History of Standards Rulemaking for GSLs

Pursuant to its statutory authority to complete the first cycle of rulemaking for GSLs, DOE published a NOPR on March 17, 2016 (''March 2016 NOPR''), that addressed the first question that Congress directed it to consider—whether to amend energy conservation standards for GSLs. 81 FR 14528, 14629–14630 (Mar. 17, 2016). In the March 2016 NOPR, DOE stated that it would be unable to undertake any analysis regarding GSILs and other incandescent lamps because of a then-applicable congressional restriction (''the Appropriations Rider''). *See* 81 FR 14528, 14540–14541. The Appropriations Rider prohibited expenditure of funds appropriated by that law to implement or enforce: (1) 10 CFR 430.32(x), which includes maximum wattage and minimum rated lifetime requirements for GSILs; and (2) standards set forth in section 325(i)(1)(B) of EPCA (42 U.S.C. 6295(i)(1)(B)), which sets minimum lamp efficiency ratings for incandescent reflector lamps (''IRLs''). Under the Appropriations Rider, DOE was restricted from undertaking the analysis required to address the first question presented by Congress, but was not so limited in addressing the second question—that is, DOE was not prevented from determining whether the exemptions for certain incandescent lamps should be maintained or discontinued. To address that second question, on October 18, 2016, DOE published a Notice of Proposed Definition and Data Availability (''October 2016 NOPDDA''), which proposed to amend the definitions of GSIL, GSL, and related terms. 81 FR 71794, 71815 (Oct. 18, 2016). The Appropriations Rider, which was originally adopted in 2011 and readopted and extended continuously in multiple subsequent legislative actions, expired on May 5, 2017, when the Consolidated Appropriations Act, 2017 was enacted.[13]

On January 19, 2017, DOE published two final rules concerning the definitions of GSL, GSIL, and related terms (''January 2017 Definition Final Rules''). 82 FR 7276; 82 FR 7322. The January 2017 Definition Final Rules amended the definitions of GSIL and GSL by bringing certain categories of lamps that had been excluded by statute from the definition of GSIL within the definitions of GSIL and GSL. DOE determined to use two final rules in 2017 to amend the definitions of GSIL and GSLs in order to address the majority of the definition changes in one final rule and the exemption for IRLs in the second final rule. These two rules were issued simultaneously, with the first rule eschewing a determination regarding the existing exemption for IRLs in the definition of GSL and the second rulemaking discontinuing that exemption from the GSL definition. 82 FR 7276, 7312; 82 FR 7322, 7323. As in the October 2016 NOPDDA, DOE stated that the January 2017 Definition Final Rules related only to the second question that Congress directed DOE to consider, *i.e.,* whether to maintain or discontinue ''exemptions'' for certain incandescent lamps. 82 FR 7276, 7277; 82 FR 7322, 7324 (*see* 42 U.S.C. 6295(i)(6)(A)(i)(II)). That is, neither of the two final rules issued on January 19, 2017, established energy conservation standards applicable to GSLs. DOE explained that the Appropriations Rider prevented it from establishing, or even analyzing, standards for GSILs. 82 FR 7276, 7278. Instead, DOE explained that it would either impose standards for GSLs in the future pursuant to its authority to develop GSL standards or apply the backstop standard prohibiting the sale of lamps not meeting a 45 lm/W efficacy standard. 82 FR 7276, 7277–7278. The two final rules were to become effective as of January 1, 2020.

On March 17, 2017, the National Electrical Manufacturers Association (''NEMA'') filed a petition for review of the January 2017 Definition Final Rules in the U.S. Court of Appeals for the Fourth Circuit. *National Electrical Manufacturers Association* v. *United States Department of Energy,* No. 17–1341. NEMA claimed that DOE ''amend[ed] the statutory definition of 'general service lamp' to include lamps that Congress expressly stated were 'not include[d]' in the definition'' and adopted an ''unreasonable and unlawful interpretation of the statutory definition.'' Pet. 2. Prior to merits briefing, the parties reached a settlement agreement under which DOE agreed, in part, to issue a notice of data availability requesting data for GSILs and other incandescent lamps to assist DOE in determining whether standards for GSILs should be amended (the first question of the rulemaking required by 42 U.S.C. 6295(i)(6)(A)(i)).

With the removal of the Appropriations Rider in the Consolidated Appropriations Act, 2017, DOE was no longer restricted from undertaking the analysis and decision-

[13] *See* Consolidated Appropriations Act of 2017 (Pub. L. 115–31, div. D, tit. III); *see also* Consolidated Appropriations Act, 2018 (Pub. L. 115–141).

making required to address the first question presented by Congress, *i.e.,* whether to amend energy conservation standards for GSLs, including GSILs. Thus, on August 15, 2017, DOE published a notice of data availability (''NODA'') and request for information seeking data for GSILs and other incandescent lamps (''August 2017 NODA''). 82 FR 38613.

The purpose of the August 2017 NODA was to assist DOE in determining whether standards for GSILs should be amended. (42 U.S.C. 6295(i)(6)(A)(i)(I)) Comments submitted in response to the August 2017 NODA also led DOE to reconsider the decisions it had already made with respect to the second question presented to DOE—whether the exemptions for certain incandescent lamps should be maintained or discontinued. 84 FR 3120, 3122 (*see* 42 U.S.C. 6295(i)(6)(A)(i)(II)). As a result of the comments received in response to the August 2017 NODA, DOE also reassessed the legal interpretations underlying certain decisions made in the January 2017 Definition Final Rules. *Id.*

On February 11, 2019, DOE published a NOPR that proposed to withdraw the revised definitions of GSL, GSIL, and the new and revised definitions of related terms that were to go into effect on January 1, 2020 (''February 2019 Definition NOPR''). 84 FR 3120. In a final rule published September 5, 2019, DOE finalized the withdrawal of the definitions in the January 2017 Definition Final Rules and maintained the existing regulatory definitions of GSL and GSIL, which are the same as the statutory definitions of those terms (''September 2019 Withdrawal Rule''). 84 FR 46661. The September 2019 Withdrawal Rule revisited the same primary question addressed in the January 2017 Definition Final Rules, namely, the statutory requirement for DOE to determine whether ''the exemptions for certain incandescent lamps should be maintained or discontinued.'' 42 U.S.C. 6295(i)(6)(A)(i)(II) (*see* 84 FR 46661, 46667). In the rule, DOE also addressed its interpretation of the statutory backstop at 42 U.S.C. 6295(i)(6)(A)(v) and concluded the backstop had not been triggered. 84 FR 46661, 46663–46664. DOE reasoned that 42 U.S.C. 6295(i)(6)(A)(iii) ''does not establish an absolute obligation on the Secretary to publish a rule by a date certain.'' 84 FR 46661, 46663. ''Rather, the obligation to issue a final rule prescribing standards by a date certain applies if, and only if, the Secretary makes a determination that standards in effect for GSILs need to be amended.'' *Id.* DOE further stated that, since it had not yet made the predicate determination on whether to amend standards for GSILs, the obligation to issue a final rule by a date certain did not yet exist and, as a result, the condition precedent to the potential imposition of the backstop requirement did not yet exist and no backstop requirement had yet been triggered. 84 FR 46661, 46664.

Similar to the January 2017 Definition Final Rules, the September 2019 Withdrawal Rule clarified that DOE was not determining whether standards for GSLs, including GSILs, should be amended. DOE stated it would make that determination in a separate rulemaking. 84 FR 46661, 46662. DOE initiated that separate rulemaking by publishing a notice of proposed definition (''NOPD'') on September 5, 2019 (''September 2019 NOPD''), regarding whether standards for GSILs should be amended. 84 FR 46830. In conducting its analysis for that notice, DOE used the data and comments received in response to the August 2017 NODA and relevant data and comments received in response to the February 2019 Definition NOPR, and DOE tentatively determined that the current standards for GSILs do not need to be amended because more stringent standards are not economically justified. 84 FR 46830, 46831. DOE finalized that tentative determination on December 27, 2019 (''December 2019 Final Determination''). 84 FR 71626. DOE also concluded in the December 2019 Final Determination that because it had made the predicate determination not to amend standards for GSILs, there was no obligation to issue a final rule by January 1, 2017, and, as a result, the backstop requirement had not been triggered. 84 FR 71626, 71636.

Two petitions for review were filed in the U.S. Court of Appeals for the Second Circuit challenging the September 2019 Withdrawal Rule. The first petition was filed by 15 States,[14] New York City, and the District of Columbia. *See New York* v. *U.S. Department of Energy,* No. 19–3652 (2d Cir., filed Nov. 4, 2019). The second petition was filed by six organizations [15] that included environmental, consumer, and public housing tenant groups. *See Natural Resources Defense Council* v. *U.S. Department of Energy,* No. 19–3658 (2d Cir., filed Nov. 4, 2019). The petitions were subsequently consolidated. On May 9, 2022, DOE published a final rule that revised the determination at issue in these consolidated cases and adopted new regulations in accordance with that revision. 87 FR 27439. In August 2022, the petitioners moved the court to dismiss the petitions for review, which the court granted.

Additionally, in two separate petitions also filed in the Second Circuit, groups of petitioners that were essentially identical to those that filed the lawsuit challenging the September 2019 Withdrawal Rule challenged the December 2019 Final Determination. *See Natural Resources Defense Council* v. *U.S. Department of Energy,* No. 20–699 (2d Cir., filed Feb. 25, 2020); *New York* v. *U.S. Department of Energy,* No. 20–743 (2d Cir., filed Feb. 28, 2020). These petitions were also dismissed in August 2022.

On January 20, 2021, President Biden issued Executive Order (''E.O.'') 13990, ''Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis.'' 86 FR 7037. Section 1 of E.O. 13990 lists a number of policies related to the protection of public health and the environment, including reducing greenhouse gas emissions and bolstering the Nation's resilience to climate change. 86 FR 7037, 7041. Section 2 of E.O. 13990 instructs all agencies to review ''existing regulations, orders, guidance documents, policies, and any other similar agency actions promulgated, issued, or adopted between January 20, 2017, and January 20, 2021, that are or may be inconsistent with, or present obstacles to, [these policies].'' *Id.* Agencies are then directed, as appropriate and consistent with applicable law, to consider suspending, revising, or rescinding these agency actions and to immediately commence work to confront the climate crisis. *Id.*

In accordance with E.O. 13990, DOE published a request for information (''RFI'') on May 25, 2021, initiating a reevaluation of its prior determination that the Secretary was not required to implement the statutory backstop requirement for GSLs (''May 2021 Backstop RFI''). 86 FR 28001. DOE solicited information regarding the availability of lamps that would satisfy a minimum efficacy standard of 45 lm/W, as well as other information that may be relevant to a possible implementation of the statutory backstop. *Id.* On December 13, 2021, DOE published a NOPR proposing to codify in the CFR the 45 lm/W backstop requirement for GSLs (''December 2021 Backstop

[14] The petitioning States are the States of New York, California, Colorado, Connecticut, Illinois, Maryland, Maine, Michigan, Minnesota, New Jersey, Nevada, Oregon, Vermont, and Washington and the Commonwealth of Massachusetts.

[15] The petitioning organizations are the Natural Resources Defense Council, Sierra Club, Consumer Federation of America, Massachusetts Union of Public Housing Tenants, Environment America, and U.S. Public Interest Research Group.

NOPR''). 86 FR 70755. On May 9, 2022, DOE published a final rule codifying the 45 lm/W backstop requirement (''May 2022 Backstop Final Rule''). 87 FR 27439. In the May 2022 Backstop Final Rule, DOE determined the backstop requirement applies because DOE failed to complete a rulemaking for GSLs in accordance with certain statutory criteria in 42 U.S.C. 6295(i)(6)(A). When DOE published the May 2022 Backstop Final Rule, it also released an enforcement policy statement for GSLs.[16] In response to lead-in time concerns raised by members of the industry and comments supporting immediate enforcement, DOE outlined a progressive enforcement model where it would exercise its discretion when taking enforcement action.

On August 19, 2021, DOE published a NOPR to amend the current definitions of GSL and GSIL and adopt associated supplemental definitions to be defined as previously set forth in the January 2017 Definition Final Rules (''August 2021 Definition NOPR''). 86 FR 46611. On May 9, 2022, DOE published a final rule adopting definitions of GSL and GSIL and associated supplemental definitions as set forth in the August 2021 Definition NOPR (''May 2022 Definition Final Rule''). 87 FR 27461.

Upon issuance of the May 2022 Backstop Final Rule and the May 2022 Definition Final Rule, DOE concluded the first cycle of GSL rulemaking required by 42 U.S.C. 6295(i)(6)(A). EPCA directs DOE to initiate this second cycle of rulemaking procedure no later than January 1, 2020. 42 U.S.C. 6295(i)(6)(B) However, DOE is delayed in initiating this second cycle because of the Appropriations Rider, DOE's evolving position under the first rulemaking cycle, and the associated delays that resulted in DOE certifying the backstop requirement for GSLs two years after the January 1, 2020, date specified in the statute.

On January 11, 2023, DOE published a NOPR (''January 2023 NOPR''), pursuant to this second cycle of rulemaking as well as 42 U.S.C. 6295(m). 88 FR 1638 (Jan. 11, 2023).

DOE received 17 comments in response to the January 2023 NOPR from the interested parties listed in table II.3. DOE also received 158 comments from private citizens.
