The Defense Systems Management College (DSMC), established July 1, 1971, is a joint service educational institution, and is the largest school in the Defense Acquisition University. The mission of the College is to promote and support the adoption and practice of sound systems management principles by the acquisition workforce through education, research, consulting, and information dissemination.

In addition to a 14-week Advanced Program Management Course, DSMC's academic program consists of over 30 other courses of 3 days to 4 weeks in duration, all with the purpose of educating DOD acquisition professionals, military and civilian, in a broad spectrum of management activities through formal studies, simulation exercises, and case studies. Many of these courses are mandatory for

certification in various career fields within Service acquisition corps. Individuals from Defense industry and other Federal agencies may attend DSMC courses on a space-available basis. In addition to the main campus

located at Fort Belvoir, VA, courses are taught at the four regions of Boston, MA; Huntsville, AL; Los Angeles, CA; and Fort Monmouth, NJ; and at selected on-site locations on an as-requested basis.

The Joint Military Intelligence College (previously the Defense Intelligence College) was established by a Department of Defense directive in 1962. It is a joint service educational institution serving the entire intelligence community and operates under the authority of the Director, Defense Intelligence Agency. Its mission is to educate military and civilian intelligence professionals and conduct and disseminate relevant intelligence research.

The College is authorized by Congress to award the Bachelor of Science in Intelligence (BSI) and Master of Science of Strategic Intelligence (MSSI) degrees

and also offers two diploma programs: Undergraduate Intelligence Program (UGIP), and Post Graduate Intelligence Program (PGIP). Qualified students may enroll for full- or part-time study at the main campus located at the Defense Intelligence Analysis Center, Bolling Air Force Base. Part-time study is also available at the National Security Agency. Evening and weekend programs are available as well; one is specifically for military reservists and is taught by reserve faculty.

The College is accredited by the Middle States Association of Colleges and Schools.

The National Defense University was established by the Department of Defense on January 16, 1976, thereby merging the Industrial College of the Armed Forces and the National War College to form a university. Because the two senior service colleges are located at Fort McNair, Washington, DC, their close affiliation reduces administrative costs, provides for the sharing of faculty expertise and educational resources, and promotes a constructive dialog, which benefits both colleges. On August 16, 1981, the Armed Forces Staff College in Norfolk, VA, an institution educating mid-career officers, was incorporated into the National Defense University.

The Institute for National Strategic Studies was created in 1984 as an interdisciplinary research institute staffed by senior civilian and military analysts from all four military services. In 1990,

the Information Resources Management College was established to provide graduate-level courses in information resources management. The Center for Hemispheric Defense Studies was added to the National Defense University in 1997, and in 1998, the Defense Leadership and Management Program, the National Security Education Program, and the Office of Net Assessment became the most recent additions.

The mission of the National Defense University is to educate military and civilian leaders through teaching, research, and outreach in national security, military, and national resource strategy; joint and multinational operations; information strategies, operations, and resource management; acquisition; and hemispheric defense studies.

The National War College provides education in national security policy to selected military officers and career civil service employees of Federal departments and agencies concerned with national security. It is the only senior service college with the primary mission of offering a course of study that emphasizes national security policy

formulation and the planning and implementation of national strategy.

Its 10-month academic program is an issue-centered study in U.S. national security. The elective program is designed to permit each student to tailor his academic experience to meet individual professional development needs.

The Armed Forces Staff College (AFSC), a major component of the National Defense University, is an intermediate- and senior-level joint college in the professional military education system dedicated to the study of the principles, perspectives, and techniques of joint operational planning and warfare.

The mission of AFSC is to educate staff officers and other leaders in joint

operational planning and warfighting in order to instill a primary commitment to joint and combined teamwork, attitudes, and perspectives. The College accomplishes this mission through three schools: the Joint and Combined Warfighting School (JCWS), the Joint and Combined Staff Officer School (JCSOS), and the Joint Command, Control, and Information Warfare School (JCIWS).

The Information Resources Management College (IRMC) was established on March 1, 1990, as a full college of the National Defense University. It provides graduate-level courses in information resources management. The College prepares senior DOD officials for joint management of the information resources component of national power and its integration with, and support to, national strategy.

The College's curriculum is designed to provide a forum where senior Defense professionals—interacting with the faculty—not only gain knowledge, qualifications, and competencies for

defense IRM leadership, but contribute to the growth and excellence of the field itself. The premier offering of the college is the 14-week Advanced Management Program (AMP), which is supplemented by a number of advanced studies courses available to students in all colleges of the National Defense University. Additionally, the College offers a series of intensive courses related to specific problematic areas and emerging concepts of IRM, and special symposia, seminars, and workshops focusing on critical IRM issues and directions.

Authorized by act of September 21, 1972 (10 U.S.C. 2112), the Uniformed Services University of the Health Sciences was established to educate career-oriented medical officers for the Military Departments and the Public Health Service.

The University currently incorporates the F. Edward Hebert School of Medicine (including graduate and continuing education programs) and the Graduate School of Nursing. It is located on the National Naval Medical Center (NNMC) reservation in Bethesda, MD.

Students are selected by procedures recommended by the Board of Regents and prescribed by the Secretary of Defense. The actual selection is carried out by a faculty committee on admissions and is based upon motivation and dedication to a career in the uniformed services and an overall appraisal of the personal and intellectual characteristics of the candidates without regard to sex, race, religion, or national origin. Applicants must be U.S. citizens.

Medical school matriculants will be commissioned officers in one of the

uniformed services. They must meet the physical and personal qualifications for such a commission and must give evidence of a strong commitment to serving as a uniformed medical officer. The graduating medical student is required to serve a period of obligation of not less than 7 years, excluding graduate medical education.

Students of the Graduate School of Nursing must be commissioned officers of the Army, Navy, Air Force, or Public Health Service prior to application. Graduate nursing students must serve a commitment determined by their respective service.

For further information, contact the President, Uniformed Services University of the Health Sciences, 4301 Jones Bridge Road, Bethesda, MD 20814-4799. Phone, 301-295-3030.
