Deputy Assistant Secretary for Insular Affairs	(VACANCY)
Director, Office of Insular Affairs	NIKOLAO PULA

The Department of the Interior protects and provides access to our Nation's natural and cultural heritage and honors our trust responsibilities to tribes and our commitments to island communities.

The Department of the Interior was created by act of March 3, 1849 (43 U.S.C. 1451), which transferred to it the General Land Office, the Office of Indian Affairs, the Pension Office, and the Patent Office. It was reorganized by Reorganization Plan No. 3 of 1950, as amended (5 U.S.C. app.).

The Department manages the Nation's public lands and minerals, national parks, national wildlife refuges, and western water resources and upholds Federal trust responsibilities to Indian tribes and Alaskan natives. It is also responsible for migratory wildlife conservation; historic preservation; endangered species conservation; surface-mined lands protection and restoration; mapping geological, hydrological, and biological science for the Nation; and for financial and technical assistance for the insular areas.

Secretary The Secretary of the Interior reports directly to the President and is responsible for the direction and supervision of all operations and activities of the Department. Some areas where public purposes are broadly applied include:

Fish, Wildlife, and Parks The Office of the Assistant Secretary for Fish and Wildlife and Parks has responsibility for programs associated with the use, management and conservation of natural resources, lands and cultural facilities associated with the National Park and National Refuge Systems, and the conservation and enhancement of fish, wildlife, vegetation, and habitat. The Office represents the Department in the coordination of marine ecosystems and biological resources programs with other Federal agencies. It also exercises secretarial direction and supervision over the United States Fish and Wildlife Service and the National Park Service.

Water and Science The Office of the Assistant Secretary for Water and Science provides oversight to the U.S. Geological Survey, the Bureau of

Reclamation and the Central Utah Project Completion Act Office. It provides policy direction and oversight in program areas related to water project operations, facility security and natural resource management as well as for geologic, hydrologic, cartographic, biologic, and technological research. It provides guidance in developing national water and science policies and environmental improvement.

Land and Minerals Management The Office of the Assistant Secretary for Land and Minerals Management has responsibility for programs associated with public land management; operations management and leasing for minerals on public lands, including the Outer Continental Shelf to the outer limits of the United States economic jurisdiction; minerals operations management on Indian lands; surface mining reclamation and enforcement functions; and management of revenues from Federal and Indian mineral leases.

Indian Affairs The Office of the Assistant Secretary for Indian Affairs is responsible for establishing and implementing Indian policy and programs; maintaining the Federal-tribal government-to-government relationship; assisting the Secretary of the Interior with carrying out the Department's Federal trust responsibilities; exercising direction and supervision of the Bureau of Indian Affairs and the Bureau of Indian Education; directly supervising the Federal acknowledgment of tribes, tribal self-determination and self-governance, Indian gaming, economic development, and all administrative, financial, and information resources management activities; and maintaining liaison coordination between the Department and other Federal agencies that provide services or funding to the federally recognized tribes and to the eligible American Indians and Alaska Natives.

The Office of the Special Trustee for American Indians (OST) oversees Indian

DEPARTMENT OF THE INTERIOR

trust reform efforts departmentwide to ensure the establishment of policies, procedures, systems, and practices to allow the Secretary to discharge the Government's fiduciary trust responsibilities to American Indians and tribes. OST also has programmatic responsibility for the management of financial trust assets, asset appraisals, and fiduciary trust beneficiary services.

Insular Affairs The Office of Insular Affairs (OIA) assists the territories of American Samoa, Guam, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands in developing more efficient and effective government

by providing financial and technical assistance, and serves as a focal point for the management of relations between the United States and the islands by developing and promoting appropriate Federal policies. OIA also carries out the Secretary's responsibilities that are related to the three freely associated states (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau); the Palmyra Atoll excluded areas; and Midway Atoll's nonterrestrial areas.

For further information, contact the Department of the Interior, Washington, DC 20240. Phone, 202-208-3100. Internet, www.doi.gov.

Bureaus

United States Fish and Wildlife Service

[For the United States Fish and Wildlife Service statement of organization, see the *Code of Federal Regulations*, Title 50, Subchapter A, Part 2]

The United States Fish and Wildlife Service is the principal Federal agency dedicated to fish and wildlife conservation. The Service's history spans nearly 140 years, dating from the establishment of its predecessor agency, the Bureau of Fisheries, in 1871. First created as an independent agency, the Bureau of Fisheries was later placed in the Department of Commerce. A second predecessor agency, the Bureau of Biological Survey, was established in 1885 in the Department of Agriculture. In 1939, the two Bureaus and their functions were transferred to the Department of the Interior. In 1940, they were consolidated into one agency and redesignated the Fish and Wildlife Service by Reorganization Plan III (5 U.S.C. app.).

The United States Fish and Wildlife Service is responsible for conserving, protecting, and enhancing fish, wildlife, and plants and their habitats for the continuing benefit of the American people. The Service manages the 150-million-acre National Wildlife Refuge System, which encompasses 550 units, thousands of small wetlands, and other

special management areas. It also operates 70 national fish hatcheries, 64 fishery resource offices, and 81 ecological services field stations. The Service enforces Federal wildlife laws, administers the Endangered Species Act, manages migratory bird populations, restores nationally significant fisheries, conserves and restores wildlife habitat such as wetlands, and assists foreign governments with their conservation efforts. It also oversees the Sport Fish and Wildlife Restoration Programs, which collect and distribute revenues from excise taxes on fishing and hunting equipment to State fish and wildlife agencies.

The Service is responsible for improving and maintaining fish and wildlife resources by proper management of wildlife and habitat. It also helps fulfill the public demand for recreational fishing while maintaining the Nation's fisheries at a level and in a condition that will ensure their continued survival.

Specific wildlife and fishery resources programs include:

- migratory birds (wildlife refuge management for production, migration, and wintering; law enforcement; game; and bird population, production, and harvest surveys);
- mammals and nonmigratory birds (refuge management of resident species,

law enforcement, protection of certain marine mammals, and technical assistance);

- coastal anadromous fish (hatchery production and stocking);

- Great Lakes fisheries (hatchery production of lake trout and fishery management in cooperation with Canada and the States); and

- other inland fisheries (hatchery production and stocking of Indian lands, and technical assistance).

The Service provides national and international leadership in identifying, protecting, and restoring endangered species of fish, wildlife, and plants. This program includes:

- developing the Federal Endangered and Threatened Species List, conducting status surveys, preparing recovery plans, conducting Federal agency consultations and coordinating efforts nationally and internationally;

- operating national wildlife refuges;

- law enforcement;

- foreign importation enforcement;

and

- consultation with foreign countries.

In the area of resource management, the Service provides leadership for the protection and improvement of land and water environments (habitat preservation) that directly benefit the living natural resources and add quality to human life. Activities include:

- administration of grant programs benefiting imperiled species and habitat on State, Federal, and tribal lands;

- operation of programs that provide technical and financial assistance to private landowners for habitat restoration and improvement;

- environmental impact assessment, including review of hydroelectric dams, wind and nuclear power sites, stream channelization, and dredge-and-fill permits;

- environmental impact statement review;

- management of the Coastal Barrier Resource System mapping;

- surveillance of pesticides, heavy metals, and other contaminants in wildlife; and

- surveys and studies of fish and wildlife populations.

Public use and information programs include preparing informational brochures and Web sites; coordinating environmental studies on Service lands; operating visitor centers, self-guided nature trails, observation towers, and display ponds; and providing recreational activities such as hunting, fishing, and wildlife photography.

The Service’s Office of Federal Assistance apportions funds for projects designed to conserve and enhance the Nation’s fish and wildlife resources. The funds for the projects are generated from excise taxes on sporting arms and fishing equipment.

National Park Service

The National Park Service was established in the Department of the Interior on August 25, 1916 (16 U.S.C. 1).

The National Park Service is dedicated to conserving unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. There are 391 units in the National Park System, including national parks, monuments and memorials, scenic parkways, preserves, reserves, trails, riverways, wild and scenic rivers, seashores, lakeshores, recreation areas, battlefields and battlefield parks and sites, national military parks, international historic sites, and historic sites associated with important movements, events, and personalities of the American past.

The National Park Service has a Service Center in Denver that provides planning, architectural, engineering, and other professional services. The Service is also responsible for managing a great variety of national and international programs designed to help extend the benefits of natural and cultural resource

conservation and outdoor recreation throughout this country and the world.

Activities The National Park Service develops and implements park management plans and staffs the areas under its administration. It relates the natural values and historical significance of these areas to the public through talks, tours, films, exhibits, publications, and other interpretive media. It operates campgrounds and other visitor facilities and provides lodging, food, and transportation services in many areas.

The National Park Service also administers the following programs: the State portion of the Land and Water Conservation Fund, nationwide outdoor recreation coordination and information, State comprehensive outdoor recreation planning, planning and technical assistance for the national wild and scenic rivers system, the national trails system, natural area programs, the National Register of Historic Places, national historic landmarks, historic preservation, technical preservation services, the historic American buildings survey, the historic American engineering record, and interagency archeological services.

United States Geological Survey

The U.S. Geological Survey (USGS) was established by the Organic Act of March 3, 1879 (43 U.S.C. 31). USGS classifies public lands, examines the geological structure, and assesses the energy,

mineral, water, and biology resources and products within and outside the national domain.

USGS provides relevant, objective scientific studies and information used to help address issues and solve problems dealing with natural resources, natural

hazards, and the environmental effects on human and wildlife health. It is responsible for:

- investigating and assessing the Nation’s water, energy, biological, and mineral resources;
- conducting research on global change;
- providing information to land and resource managers in the Department to help them assess and manage the biological and environmental consequences of management practices;
- investigating natural hazards and providing real-time information about the Earth and minimizing loss of life and property from earthquakes, volcanoes, floods, droughts, landslides, coastal erosion, and wildland fires;
- maintaining an archive of land-remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;
- ensuring production and availability of basic biologic, hydrologic, geologic, geographic, and geospatial data of the Nation; and
- maintaining and analyzing databases of natural resource information.

To attain these objectives, USGS prepares maps and digital and cartographic data; collects and interprets data on energy, mineral, and biological resources; conducts nationwide assessments of the quality, quantity, and use of the Nation’s water resources; performs fundamental and applied research in the sciences and techniques involved; and publishes the results of its investigations through maps, technical reports, and fact sheets.

For further information, contact the U.S. Geological Survey, Department of the Interior, 12201 Sunrise Valley Drive, Reston, VA 20192. Phone, 703-648-4000. Internet, www.usgs.gov. Email, ASK@usgs.gov.

Office of Surface Mining Reclamation and Enforcement

The Office of Surface Mining Reclamation and Enforcement (OSM) was established in the Department of the Interior by the Surface Mining Control

and Reclamation Act of 1977 (30 U.S.C. 1211).

The Office’s primary goal is to assist States in operating a nationwide program that protects society and the environment from the adverse effects of coal mining, while ensuring that surface coal mining can be done without permanent damage to land and water resources. With most coal mining States responsible for regulating coal mining and reclamation activities within their borders, OSM’s main objectives are to oversee State mining regulatory and abandoned-mine reclamation programs, assist States in meeting the objectives of the surface mining law, and regulate mining and reclamation activities on Federal and Indian lands, and in those States choosing not to assume primary responsibility.

Activities The Office establishes national policy for the surface mining control and reclamation program provided for in the surface mining law, reviews and approves amendments to previously approved State programs, and reviews and recommends approval of new State program submissions. Other activities include:

- managing the collection, disbursement, and accounting for abandoned-mine land reclamation fees;
- administering civil penalties programs;
- establishing technical standards and regulatory policy for reclamation and enforcement efforts;
- providing guidance for environmental considerations, research, training, and technology transfer for State, tribal, and Federal regulatory and abandoned-mine land reclamation programs; and
- monitoring and evaluating State and tribal regulatory programs, cooperative agreements, and abandoned-mine land reclamation programs.

For further information, contact the Office of Communications, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, DC 20240. Phone, 202-208-2565. TDD, 202-208-2694. Internet, www.osmre.gov.

Bureau of Indian Affairs

The Bureau of Indian Affairs (BIA) was created as part of the War Department in 1824 and transferred to the Department of the Interior when the latter was established in 1849. The mission of BIA is to fulfill its trust responsibilities and promote self-determination on behalf of federally recognized tribal governments, American Indians, and Alaska Natives. BIA provides services directly or through contracts, grants, or compacts to approximately 1.9 million American Indians and Alaska Natives, members of 562 federally recognized Indian tribes in the 48 contiguous United States and Alaska.

The scope of BIA's programs is extensive, covering virtually the entire range of State and local governmental services. The programs administered by either tribes or BIA include: management

of natural resources on 56 million acres of trust land, fire protection, emergency natural disaster relief, economic development programs in some of the most isolated and economically depressed areas of the United States, law enforcement, administration of tribal courts and detention centers, implementation of legislated land and water claim settlements, building, repair, and maintenance of roads and bridges, repair and maintenance of high-hazard dams, and operation of irrigation systems and agricultural programs on Federal Indian lands.

BIA works with American Indian and Alaska Native tribal governments and organizations, other Federal agencies, State and local governments, and other groups interested in the development and implementation of effective programs.

Bureau of Indian Education

The Bureau of Indian Education (BIE), formerly known as the Office of Indian Education Programs, provides quality educational opportunities for eligible American Indian and Alaska Native elementary, secondary, and post-secondary students from the federally recognized tribes. BIE is responsible for the direction and management of all education functions, including the formation of policies and procedures, the supervision of all program activities, and the approval of expenditure of funds appropriated for education functions.

There are 183 elementary and secondary schools within the BIE system serving approximately 48,000 students. Of these schools, 59 are BIE-operated and 124 are tribally controlled through BIE contracts or grants. BIE also supports 26 tribal colleges and universities in the continental U.S. and directly operates Haskell Indian Nations University in Lawrence, KS, and the Southwest Indian Polytechnic Institute in Albuquerque, NM.

For further information, contact the Office of the Assistant Secretary for Indian Affairs, Office of Public Affairs, Department of the Interior, 1849 C Street NW., MS-3658-MIB, Washington, DC 20240. Phone, 202-208-3710.

Minerals Management Service

The Minerals Management Service was established on January 19, 1982, by Secretarial order. The Service assesses the nature, extent, recoverability, and value of leasable minerals on the Outer Continental Shelf. It ensures the orderly and timely inventory and development and the efficient recovery of mineral resources; encourages utilization of the best available and safest technology; and safeguards against fraud, waste, and abuse.

Offshore Energy and Minerals Management The Service is responsible for resource assessment and evaluation; environmental review; leasing and permitting activities (including public liaison and planning functions), management of leases, easements, and rights-of-way; and inspection and enforcement programs for Outer Continental Shelf lands.

Programs are developed for energy, including renewable energy, mineral, and related activities on the Outer Continental Shelf in consultation with the Congress, affected States, local

governments, environmental groups, industry, and the public.

The Service conducts extensive environmental studies and consultations with State officials prior to issuing leases, easements, or rights-of-way. Once permits or other approvals have been issued, inspectors conduct frequent inspections of offshore operations, and environmental studies personnel collect data to ensure that marine and coastal environments are kept free of pollutants.

Minerals Revenue Management The Service is responsible for collecting, accounting for, and disbursing revenues associated with minerals produced on Federal and Indian-leased lands. The Service also conducts a comprehensive compliance program to ensure that fair market value is received for the mineral assets and that royalties are timely and accurately paid.

The basic organization of the Service consists of a headquarters in Washington, DC, with program components located in Herndon, VA, and Lakewood, CO; three Outer Continental Shelf regional offices; and two administrative service centers.

Bureau of Land Management

The Bureau of Land Management was established July 16, 1946, by the consolidation of the General Land Office (created in 1812) and the Grazing Service (formed in 1934).

The Bureau manages more land—256 million surface acres—than any other Federal Government agency. Most of this public land is located in 12 western States, including Alaska. There are also

small, scattered parcels in States east of the Mississippi River. The Bureau also administers more than 700 million acres of subsurface mineral estate throughout the Nation. These public lands make up about 13 percent of the total land surface of the United States and more than 40 percent of all land managed by the Federal Government. The Bureau preserves open space in the fast-growing, fast-changing West by managing the

public lands for multiple uses and by conserving resources so that current and future generations may use and enjoy them.

Resources managed by the Bureau include timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space. Bureau programs provide for the protection (including fire suppression), orderly development, and use of the public lands and resources under principles of multiple use and sustained yield. Land use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment. The Bureau also manages watersheds to protect soil and enhance water quality; develops recreational opportunities on public lands; administers programs to protect

and manage wild horses and burros; and under certain conditions, makes land available for sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes.

The Bureau oversees and manages the development of energy and mineral leases and ensures compliance with applicable regulations governing the extraction of these resources. It has responsibility to issue rights-of-way, leases, and permits.

The Bureau is also responsible for the survey of Federal lands and establishes and maintains public land records and mining claims records. It administers a program of payments in lieu of taxes based on the amount of federally owned lands in counties and other units of local government.

Bureau of Reclamation

The Bureau of Reclamation was established pursuant to the Reclamation Act of 1902 (43 U.S.C. 371 *et seq.*). The Bureau is the largest wholesale water

supplier and the second largest producer of hydroelectric power in the United States, with operations and facilities in the 17 Western States. Its facilities also provide substantial flood control, recreation, and fish and wildlife benefits.

Sources of Information

Inquiries on the following subjects should be directed to the specified office, Department of the Interior, Washington, DC 20240.

Contracts Contact the Office of Acquisition and Property Management, Room 2607. Phone, 202-208-6352.

Electronic Access Information is available electronically from the Department of the Interior. Internet, www.doi.gov (or see listings for specific Department components).

Employment Direct general inquiries to the Personnel Liaison Staff, 202-208-6702, the personnel office of a specific bureau or office, or visit any of the field personnel offices.

Museum The Interior Museum presents exhibits on the history and mission of the Department. Programs highlight Bureau management of cultural and natural resources. The museum staff coordinates tours of the art and architecture of the Interior building. For more information, contact the museum staff or visit our Web site. Phone, 202-208-4743. Internet, www.doi.gov/interiormuseum.

Library The Interior Library is a research level collection that covers the broad range of matters related to the Department's mission. Specific collections include departmental publications, a selective depository of Federal documents, a wide array of electronic information sources available through the library Web site, a comprehensive law collection, an

extensive periodical collection, and a rare book collection consisting of 19th-century monographs on Native Americans, American history, and zoology. For more information contact the library staff or visit our Web site. Phone, 202-208-5815. Internet, <http://library.doi.gov>.

Reading Room Visit the Department of the Interior Library, Main Interior Building. Phone, 202-208-5815.

Employee Locator To locate an employee of the Department of the Interior, call 202-208-3100.

United States Fish and Wildlife Service

Inquiries on the following subjects should be directed to the specified office, U.S. Fish and Wildlife Service, Department of the Interior, 1849 C Street NW., Washington, DC 20240.

Congressional/Legislative Services Congressional staffers and persons seeking information about specific legislation should call the Congressional/Legislative Services Office. Phone, 703-358-2240.

Contracts Contact the Washington, DC, headquarters Division of Contracting and General Services (phone, 703-358-1728) or any of the regional offices.

Electronic Access The Fish and Wildlife Service offers a range of information through the Internet at www.fws.gov.

Employment For information regarding employment opportunities with the U.S. Fish and Wildlife Service, contact the Headquarters Personnel Office (phone, 703-358-1743) or the regional office within the area you are seeking employment.

Import/Export Permits To obtain CITES permits for importing and exporting wildlife, contact the Office of Management Authority. Phone, 800-358-2104 or 703-358-2104.

Law Enforcement To obtain information about the enforcement of wildlife laws or to report an infraction of those laws, contact the Division of Law Enforcement (phone, 703-358-1949) or the nearest regional law enforcement office.

National Wildlife Refuges For general information about the National Wildlife Refuge System, as well as information about specific refuges, contact the Division of Refuges (phone, 703-358-2029) or the nearest national wildlife refuge or regional refuge office.

News Media Inquiries Specific information about the U.S. Fish and Wildlife Service and its activities is available from the Office of Public Affairs (phone, 703-358-2220) or the public affairs officer in each of the Service's regional offices.

Publications The U.S. Fish and Wildlife Service has publications available on subjects ranging from the National Wildlife Refuge System to endangered species. Some publications are only available as sales items from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. Further information is available from the Publications Unit, U.S. Fish and Wildlife Service, Mail Stop NCTC Washington, DC 20240. Phone, 800-344-9453.

National Park Service

Contracts Contact the nearest regional office; Administrative Services Division, National Park Service, 1849 C Street NW., Washington, DC 20240 (phone, 202-354-1950); or the Denver Service Center, P.O. Box 25287, 12795 West

Alameda Parkway, Denver, CO 80225 (phone, 303-969-2100).

Employment Employment inquiries and applications may be sent to the Human Resources Office, National Park Service, Department of the Interior, Washington, DC, and to the regional offices and individual parks. Applications for temporary employment should be sent to the Division of Human Resources, National Park Service, 1849 C Street NW., Washington, DC 20240. Phone, 202-354-1927. Colorado—Denver Federal Center, Bldg. 810, Box 25286, Denver, 80225. Phone, 303-202-4200.

Missouri—1400 Independence Road, Mail Stop 231, Rolla, 65401. Phone, 573-308-3500.

South Dakota—EROS Data Center, Sioux Falls, 57198 (also for spacecraft and aircraft remote sensing data). Phone, 605-594-6151.

Virginia—12201 Sunrise Valley Drive, Rm. 1C100, Reston, 20192. Phone, 703-648-5953.

Libraries and Reading Rooms Reports, maps, publications, and a variety of Earth and biological information resources and historical documents are available through the USGS library system. Locations, directions, and resources are available at www.usgs.gov/library. Online reference assistance is available through Ask-A-Librarian at http://library.usgs.gov/ext_request.html. **The main USGS libraries are located in the following States:**

Arizona—2255 N. Gemini Drive, Bldg. 6, Rm. 670, Flagstaff, 86001

California—345 Middlefield Road, Bldg. 15 Foyer, Menlo Park, 94025-3591.

Colorado—Denver Federal Center, Bldg. 20, Rm. C-2002, Denver, 80225-0046.

Virginia—12201 Sunrise Valley Drive, Rm. 1D100, Reston 20192.

Office of Surface Mining Reclamation and Enforcement

Contracts Contact the Procurement Branch, Office of Surface Mining, Department of the Interior, 1951 Constitution Avenue NW., Washington, DC 20240. Phone, 202-208-2839. TDD, 202-208-2737.

Employment For information on OSM employment opportunities throughout the United States, go to the jobs Web

site, at <https://jobs.quickhire.com/scripts/smart.exe>.

Bureau of Indian Affairs and Bureau of Indian Education

Inquiries regarding Indian Affairs programs, including those of the Bureau of Indian Affairs and the Bureau of Indian Education, may be obtained from the Office of the Assistant Secretary for Indian Affairs, Office of Public Affairs, Department of the Interior, 1849 C Street NW., MS-3658-MIB, Washington, DC 20240. Phone, 202-208-3710.

Minerals Management Service

Information about the Minerals Management Service and its activities is available from the Chief, Public Affairs, Department of the Interior, 1849 C Street NW., Room 5417, MS 5438, Washington, DC 20240. Phone, 202-208-3985.

Bureau of Land Management

Contracts The Bureau of Land Management (BLM) and the Department of the Interior (DOI) are now acquiring goods and services through the Internet Web site at <http://ideasec.nbc.gov>. To take advantage of future business opportunities with BLM, you must (1) obtain a valid Dun & Bradstreet number from Dun & Bradstreet at www.dnb.com, or by calling them at 800-333-0505; or (2) register your firm on the Central Contractor Registration System at www.ccr.gov.

Also, for information about BLM's purchases, how to do business with BLM, and the BLM acquisition offices and contacts, visit the BLM National Acquisition Web site at www.blm.gov/natacq. You may also view BLM's projected purchases of goods and services, known as the Advanced Procurement Plan.

Employment Inquiries should be directed to the National Operations Center Division of Human Resources Services, any Bureau of Land Management State Office, or the Washington Office Human Resources Branch, Department of the Interior, Washington, DC. Phone, 202-452-5072.

General Inquiries For information about parcels of land that the Bureau occasionally sells, contact any of the State offices or the Bureau of Land Management, Office of Public Affairs, Department of the Interior, Washington, DC 20240. Phone, 202-452-5125. Fax, 202-452-5124.

Publications The annual publication *Public Land Statistics*, which relates to public lands, is available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Reading Rooms All State offices provide facilities for individuals who wish to examine status records, tract books, or other records relating to the public lands and their resources.

Small Business Activities The Bureau has three major buying offices that provide contacts for small business activities: the Headquarters Office in Washington, DC (phone, 202-452-5177); the national operations center in Lakewood, CO (phone, 303-236-9436); and the Oregon State office (phone, 503-808-6216). The acquisition plan and procurement office contacts are available through the Internet at www.blm.gov/natacq.

Speakers Local Bureau offices will arrange for speakers to explain Bureau programs upon request from organizations within their areas of jurisdiction.

Bureau of Reclamation

Contracts Information is available to contractors, manufacturers, and suppliers from Acquisition and Assistance Management Division, Building 67, Denver Federal Center, Denver, CO 80225. Phone, 303-445-2431. Internet, www.fedbizopps.gov.

Employment Information on engineering and other positions is available from the Diversity and Human Resources Office, Denver, CO (phone, 303-445-2684) or from the nearest regional office. Internet, www.usajobs.opm.gov.

Publications Publications for sale are available through the National Technical Information Service. Phone, 703-605-6585.

For further information, contact the U.S. Department of the Interior, 1849 C Street NW., Washington, DC 20240. Phone, 202-208-3100. Internet, www.doi.gov.
