The National Archives and Records Administration (NARA) joins the Nation in celebrating the 50th anniversary of the 1963 March on Washington for Jobs and Freedom.

On August 28, 1963, despite searing heat, over 250,000 people from all corners of the country marched on our Nation's capital. In the shadow of the Washington Monument, all the marchers shared the same dream: equality for the nearly 20 million African Americans living in the United States. Organized by a coalition of civil rights, religious, and labor organizations, the March on Washington for Jobs and Freedom drew hundreds of thousands of participants in support of President John F. Kennedy's proposed civil rights bill. Organizers included A. Philip Randolph of the Brotherhood of Sleeping Car Porters, Roy Wilkins of the National Association for the Advancement of Colored People, John Lewis of the Student Nonviolent Coordinating Committee, and Dr. Martin Luther King, Jr. of the Southern Christian Leadership Conference. Recordings of Dr. King's "I Have a Dream" speech that day have helped it become one of the best-remembered speeches in American history and a lasting symbol of the event. The official program for the March on Washington for Jobs and Freedom was chosen as one of America's 100 milestone documents.

NARA serves American democracy by safeguarding and preserving the records of our Government, ensuring that the people can discover, use, and learn from this documentary heritage. The National Archives has extensive holdings from the March on Washington, and highlights are online at <http://tinyurl.com/NARAMLK50>. Preface

As the official handbook of the Federal Government, The United States Government Manual provides comprehensive information on the agencies of the legislative, judicial, and executive branches. The Manual also includes information on quasi-official agencies; international organizations in which the United States participates; and boards, commissions, and committees.

A typical agency description includes a list of principal officials, a summary statement of the agency's purpose and role in the Federal Government, a brief history of the agency, including its legislative or executive authority, a description of its programs and activities, and a "Sources of Information" section. This last section provides information on consumer activities, contracts and grants, employment, publications, and many other areas of public interest.

The Manual is also available and periodically updated on its own website. The U.S. Government Manual website (usgovernmentmanual.gov) is jointly administered by the Office of the Federal Register (OFR)/Government Printing Office (GPO) partnership. The website offers three ways to find information about Government agencies and organizations by entering a term in the keyword search box, browsing categories, or using "The Government of the United States" site map for an overview of the Government. For more information and to view The Manual online, go to www.usgovernmentmanual.gov.

The 2013 Manual was prepared by the Presidential and Legislative Publications Unit, Office of the Federal Register. Alfred W. Jones was Team Leader; Matthew R. Regan was Managing Editor; and Joseph Frankovic was Chief Editor, assisted by Lois Davis, Martin Franks, Joshua Liberatore, Joseph Vetter, Edgar G. Gibbs, and Ryan R. Nolan.

THE FEDERAL REGISTER AND ITS SPECIAL EDITIONS

The Manual is published as a special edition of the Federal Register (see 1 CFR 9.1). Its focus is on programs and activities. Persons interested in detailed organizational structure, the regulatory documents of an agency, or Presidential documents should refer to the Federal Register or one of its other special editions, described below. Issued each Federal working day, the Federal Register provides a uniform system for publishing Presidential documents, regulatory documents with general applicability and legal effect, proposed rules, notices, and documents required to be published by statute. For more information and to look at the Federal Register online, go to www.federalregister.gov.

The Code of Federal Regulations is an annual codification of the general and permanent rules published in the Federal Register. The Code is divided into 50 titles that represent broad areas subject to Federal regulation. The Code is kept up to date by the individual issues of the Federal Register. For more information and to look at the Code of Federal Regulations online, go to www.gpo.gov/fdsys/browse/collectionCfr.action?collectionCode=CFR.

The Compilation of Presidential Documents serves as a timely, up-to-date reference source for the public policies and activities of the President. It contains remarks, news conferences, messages, statements, and other Presidential material of a public nature issued by the White House. The Compilation of Presidential Documents collection is

composed of the Daily Compilation of Presidential Documents and its predecessor, the Weekly Compilation of Presidential Documents. For more information and to look at the Presidential documents online, go to www.gpo.gov/fdsys/browse/collection.action?collectionCode=CPD. The Compilation of Presidential Documents now has a free mobile application at www.gpo.gov/mobile.

A companion publication to the Compilation of Presidential Documents is the Public Papers of the Presidents, which contains public Presidential documents and speeches in convenient book form. Volumes of the Public Papers have been published for every President since Herbert Hoover, with the exception of Franklin D. Roosevelt, whose papers were published privately. For more information and to view the Public Papers online, go to www.gpo.gov/fdsys/browse/collection.action?collectionCode=PPP.

OTHER OFFICE OF THE FEDERAL REGISTER PUBLICATIONS

The Office of the Federal Register publishes slip laws, which are pamphlet prints of each public and private law enacted by Congress. Slip laws are compiled annually as the United States Statutes at Large. For more information and to look at the slip laws online, go to www.gpo.gov/fdsys/browse/collection.action?collectionCode=PLAW. The Statutes at Large volumes contain all public and private laws and concurrent resolutions enacted during a session of Congress; recommendations for executive, legislative, and judicial salaries; reorganization plans; proposed and ratified amendments to the Constitution; and Presidential proclamations. Included with many of these documents are sidenotes, U.S. Code and statutes citations, and a summary of their legislative histories. For more information and to look at the Statutes at Large online, go to www.gpo.gov/fdsys/browse/collection.action?collectionCode=STATUTE.

ELECTRONIC SERVICES

The Office of the Federal Register maintains an Internet site for the Federal Register's public inspection list, and information on the Office and its activities at www.ofr.gov. This site also contains links to the texts of The United States Government Manual, public laws, the Compilation of Presidential Documents, the Federal Register, and the Code of Federal Regulations (both as officially published on a quarterly basis and an unofficial, daily updated version, the e-CFR) in electronic format through the GPO's Federal Digital System (FDsys) at www.fdsys.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Printing Office. Phone, 202-512-1800, or 866-512-1800 (toll-free). Email, gpo@custhelp.com, Online, www.gpo.gov/askgpo.

INQUIRIES

For inquiries concerning The United States Government Manual and other publications of the Office of the Federal Register, call 202-741-6000, write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, or email fedreg.info@nara.gov.

SALES

The publications of the Office of the Federal Register are available for sale by writing to the Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954. Publications are also available for sale through the GPO's online bookstore at <http://bookstore.gpo.gov>, the GPO bookstore located in Washington, DC, and the retail sales outlet in Laurel, MD. Telephone inquiries should be directed to 202-512-1800, 866-512-1800 (toll-free), or 202-512-2104 (fax).

Declaration of Independence

Action of Second Continental Congress, July 4, 1776

IN CONGRESS, JULY 4, 1776.

THE UNANIMOUS DECLARATION of the thirteen united STATES OF AMERICA,

WHEN in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed,—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large

for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.—He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our people, and eat out their substance.—He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.—He has affected to render the Military independent of and superior to the Civil power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:—For Quartering large bodies of armed troops among us:—For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing Taxes on us without our Consent:—For depriving us in many cases, of the benefits of Trial by Jury:—For transporting us beyond Seas to be tried for pretended offences—For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:—For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.—He has abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.—He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.—He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.—He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.—In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.—Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the Representatives of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be **FREE AND INDEPENDENT STATES**; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent

States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

Constitution of the United States

Note: The following text is a transcription of the Constitution in its original form. Items that are underlined have since been amended or superseded.

Preamble

WE THE PEOPLE of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

Article I

Section 1. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section 2. The House of Representatives shall be composed of members chosen every second year by the people of the several states, and the electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state legislature.

No person shall be a Representative who shall not have attained to the age of twenty five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be chosen.

Representatives and direct taxes shall be apportioned among the several states which may be included within this union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three fifths of all other Persons. The actual Enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each state shall have at least one Representative; and until such enumeration shall be made, the state of New Hampshire shall be entitled to chuse three, Massachusetts eight, Rhode Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any state, the executive authority thereof shall issue writs of election to fill such vacancies.

The House of Representatives shall choose their speaker and other officers; and shall have the sole power of impeachment.

Section 3. The Senate of the United States shall be composed of two Senators from each state, chosen by the legislature thereof, for six years; and each Senator shall have one vote.

Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and the third class at the expiration of the sixth year, so that one third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.

The Vice President of the United States shall be President of the Senate, but shall have no vote, unless they be equally divided.

The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice President, or when he shall exercise the office of President of the United States.

The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside: And no person shall be convicted without the concurrence of two thirds of the members present.

Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States: but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment and punishment, according to law.

Section 4. The times, places and manner of holding elections for Senators and Representatives, shall be prescribed in each state by the legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the places of choosing Senators.

The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Section 5. Each House shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties as each House may provide.

Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two thirds, expel a member.

Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one fifth of those present, be entered on the journal.

Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

Section 6. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in

going to and returning from the same; and for any speech or debate in either House, they shall not be questioned in any other place.

No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased during such time: and no person holding any office under the United States, shall be a member of either House during his continuance in office.

Section 7. All bills for raising revenue shall originate in the House of Representatives; but the Senate may propose or concur with amendments as on other Bills.

Every bill which shall have passed the House of Representatives and the Senate, shall, before it become a law, be presented to the President of the United States; if he approve he shall sign it, but if not he shall return it, with his objections to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the Congress by their adjournment prevent its return, in which case it shall not be a law.

Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect, shall be approved by him, or being disapproved by him, shall be repassed by two thirds of the Senate and House of Representatives, according to the rules and limitations prescribed in the case of a bill.

Section 8. The Congress shall have power to lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States;

To borrow money on the credit of the United States;

To regulate commerce with foreign nations, and among the several states, and with the Indian tribes;

To establish a uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States;

To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures;

To provide for the punishment of counterfeiting the securities and current coin of the United States;

To establish post offices and post roads;

To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries;

To constitute tribunals inferior to the Supreme Court;

To define and punish piracies and felonies committed on the high seas, and offenses against the law of nations;

To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;

To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years;

To provide and maintain a navy;

To make rules for the government and regulation of the land and naval forces;

To provide for calling forth the militia to execute the laws of the union, suppress insurrections and repel invasions;

To provide for organizing, arming, and disciplining, the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the states respectively, the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress;

To exercise exclusive legislation in all cases whatsoever, over such District (not exceeding ten miles square) as may, by cession of particular states, and the acceptance of Congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent of the legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings;—And

To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the government of the United States, or in any department or officer thereof.

Section 9. The migration or importation of such persons as any of the states now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

No bill of attainder or ex post facto Law shall be passed.

No capitation, or other direct, tax shall be laid, unless in proportion to the census or enumeration herein before directed to be taken.

No tax or duty shall be laid on articles exported from any state.

No preference shall be given by any regulation of commerce or revenue to the ports of one state over those of another: nor shall vessels bound to, or from, one state, be obliged to enter, clear or pay duties in another.

No money shall be drawn from the treasury, but in consequence of appropriations made by law; and a regular statement and account of receipts and expenditures of all public money shall be published from time to time.

No title of nobility shall be granted by the United States: and no person holding any office of profit or trust under them, shall, without the consent of the Congress, accept of any present, emolument, office, or title, of any kind whatever, from any king, prince, or foreign state.

Section 10. No state shall enter into any treaty, alliance, or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

No state shall, without the consent of the Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws: and the net produce of all duties and imposts, laid by any state on imports or exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

No state shall, without the consent of Congress, lay any duty of tonnage, keep troops, or ships of war in time of peace, enter into any agreement or compact with another state, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

Article II

Section 1. The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice President, chosen for the same term, be elected, as follows:

Each state shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

The electors shall meet in their respective states, and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the votes shall be taken by States, the representation from each state having one vote; A quorum for this purpose shall consist of a member or members from two thirds of the states, and a majority of all the states shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice President.

The Congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

No person except a natural born citizen, or a citizen of the United States, at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty five years, and been fourteen Years a resident within the United States.

In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice President, and the Congress may by law provide for the case of removal, death, resignation or inability, both of the President and Vice President, declaring what officer shall then act as President, and such officer shall act accordingly, until the disability be removed, or a President shall be elected.

The President shall, at stated times, receive for his services, a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

Before he enter on the execution of his office, he shall take the following oath or affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will to the best of my ability, preserve, protect and defend the Constitution of the United States."

Section 2. The President shall be commander in chief of the Army and Navy of the United States, and of the militia of the several states, when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments, upon any subject relating to the duties

of their respective offices, and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States, whose appointments are not herein otherwise provided for, and which shall be established by law: but the Congress may by law vest the appointment of such inferior officers, as they think proper, in the President alone, in the courts of law, or in the heads of departments.

The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session.

Section 3. He shall from time to time give to the Congress information of the state of the union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them, with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

Section 4. The President, Vice President and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

Article III

Section 1. The judicial power of the United States, shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behaviour, and shall, at stated times, receive for their services, a compensation, which shall not be diminished during their continuance in office.

Section 2. The judicial power shall extend to all cases, in law and equity, arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority;—to all cases affecting ambassadors, other public ministers and consuls;—to all cases of admiralty and maritime jurisdiction;—to controversies to which the United States shall be a party;—to controversies between two or more states;—between a state and citizens of another state;—between citizens of different states;—between citizens of the same state claiming lands under grants of different states, and between a state, or the citizens thereof, and foreign states, citizens or subjects.

In all cases affecting ambassadors, other public ministers and consuls, and those in which a state shall be party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned, the Supreme Court shall have appellate jurisdiction, both as to law and fact, with such exceptions, and under such regulations as the Congress shall make.

The trial of all crimes, except in cases of impeachment, shall be by jury; and such trial shall be held in the state where the said crimes shall have been committed; but when not committed within any state, the trial shall be at such place or places as the Congress may by law have directed.

Section 3. Treason against the United States, shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall

be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood, or forfeiture except during the life of the person attainted.

Article IV

Section 1. Full faith and credit shall be given in each state to the public acts, records, and judicial proceedings of every other state. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

Section 2. The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

A person charged in any state with treason, felony, or other crime, who shall flee from justice, and be found in another state, shall on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

No person held to service or labor in one state, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

Section 3. New states may be admitted by the Congress into this union; but no new states shall be formed or erected within the jurisdiction of any other state; nor any state be formed by the junction of two or more states, or parts of states, without the consent of the legislatures of the states concerned as well as of the Congress.

The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular state.

Section 4. The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Article V

The Congress, whenever two thirds of both houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the legislatures of two thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the legislatures of three fourths of the several states, or by conventions in three fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no state, without its consent, shall be deprived of its equal suffrage in the Senate.

Article VI

All debts contracted and engagements entered into, before the adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

This Constitution, and the laws of the United States which shall be made in pursuance thereof; and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

The Senators and Representatives before mentioned, and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation, to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

Article VII

The ratification of the conventions of nine states, shall be sufficient for the establishment of this Constitution between the states so ratifying the same.

Amendments

Note: The first ten Amendments were ratified December 15, 1791, and form what is known as the Bill of Rights.

Amendment 1

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Amendment 2

A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed.

Amendment 3

No soldier shall, in time of peace be quartered in any house, without the consent of the owner, nor in time of war, but in a manner to be prescribed by law.

Amendment 4

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment 5

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

Amendment 6

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense.

Amendment 7

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the rules of the common law.

Amendment 8

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Amendment 9

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

Amendment 10

The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people.

Amendment 11

(Ratified February 7, 1795)

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by citizens of another state, or by citizens or subjects of any foreign state.

Amendment 12

(Ratified July 27, 1804)

The electors shall meet in their respective states and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate;—The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted;—the person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person

constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

Amendment 13

(Ratified December 6, 1865)

Section 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

Section 2. Congress shall have power to enforce this article by appropriate legislation.

Amendment 14

(Ratified July 9, 1868)

Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Section 2. Representatives shall be apportioned among the several states according to their respective numbers, counting the whole number of persons in each state, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice President of the United States, Representatives in Congress, the executive and judicial officers of a state, or the members of the legislature thereof, is denied to any of the male inhabitants of such state, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such state.

Section 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice President, or hold any office, civil or military, under the United States, or under any state, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any state legislature, or as an executive or judicial officer of any state, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof. But Congress may by a vote of two-thirds of each House, remove such disability.

Section 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any state shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

Section 5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

Amendment 15

(Ratified February 3, 1870)

Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of race, color, or previous condition of servitude.

Section 2. The Congress shall have power to enforce this article by appropriate legislation.

Amendment 16

(Ratified February 3, 1913)

The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several states, and without regard to any census or enumeration.

Amendment 17

(Ratified April 8, 1913)

The Senate of the United States shall be composed of two Senators from each state, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state legislatures.

When vacancies happen in the representation of any state in the Senate, the executive authority of such state shall issue writs of election to fill such vacancies: Provided, that the legislature of any state may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the legislature may direct.

This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

Amendment 18

(Ratified January 16, 1919. Repealed December 5, 1933 by Amendment 21)

Section 1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

Section 2. The Congress and the several states shall have concurrent power to enforce this article by appropriate legislation.

Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several states, as provided in the Constitution, within seven years from the date of the submission hereof to the states by the Congress.

Amendment 19

(Ratified August 18, 1920)

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

Congress shall have power to enforce this article by appropriate legislation.

Amendment 20

(Ratified January 23, 1933)

Section 1. The terms of the President and Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3d day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

Section 2. The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3d day of January, unless they shall by law appoint a different day.

Section 3. If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

Section 4. The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.

Section 5. Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article.

Section 6. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several states within seven years from the date of its submission.

Amendment 21

(Ratified December 5, 1933)

Section 1. The eighteenth article of amendment to the Constitution of the United States is hereby repealed.

Section 2. The transportation or importation into any state, territory, or possession of the United States for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited.

Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several states, as provided in the Constitution, within seven years from the date of the submission hereof to the states by the Congress.

Amendment 22

(Ratified February 27, 1951)

Section 1. No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of the President more than once. But this article shall not apply to any person holding the office of President when this article was proposed by the Congress, and shall not prevent any person who may be holding the office of President, or acting as President, during the term within which this article becomes operative from holding the office of President or acting as President during the remainder of such term.

Section 2. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several states within seven years from the date of its submission to the states by the Congress.

Amendment 23

(Ratified March 29, 1961)

Section 1. The District constituting the seat of government of the United States shall appoint in such manner as the Congress may direct:

A number of electors of President and Vice President equal to the whole number of Senators and Representatives in Congress to which the District would be entitled if it were a state, but in no event more than the least populous state; they shall be in addition to those appointed by the states, but they shall be considered, for the purposes of the election of President and Vice President, to be electors appointed by a state; and they shall meet in the District and perform such duties as provided by the twelfth article of amendment.

Section 2. The Congress shall have power to enforce this article by appropriate legislation.

Amendment 24

(Ratified January 23, 1964)

Section 1. The right of citizens of the United States to vote in any primary or other election for President or Vice President, for electors for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any state by reason of failure to pay any poll tax or other tax.

Section 2. The Congress shall have power to enforce this article by appropriate legislation.

Amendment 25

(Ratified February 10, 1967)

Section 1. In case of the removal of the President from office or of his death or resignation, the Vice President shall become President.

Section 2. Whenever there is a vacancy in the office of the Vice President, the President shall nominate a Vice President who shall take office upon confirmation by a majority vote of both Houses of Congress.

Section 3. Whenever the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the Vice President as Acting President.

Section 4. Whenever the Vice President and a majority of either the principal officers of the executive departments or of such other body as Congress may by law provide, transmit to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office, the Vice President shall immediately assume the powers and duties of the office as Acting President.

Thereafter, when the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that no inability exists, he shall resume the powers and duties of his office unless the Vice President and a majority of either the principal officers of the executive department or of such other body as Congress may by law provide, transmit within four days to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office. Thereupon Congress shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the Congress, within twenty-one days after receipt of the latter written declaration, or, if Congress is not in session, within twenty-one days after Congress is required to assemble, determines by two-thirds vote of both Houses that the President is unable to discharge the powers and duties of his office, the Vice President shall continue to discharge the same as Acting President; otherwise, the President shall resume the powers and duties of his office.

Amendment 26

(Ratified July 1, 1971)

Section 1. The right of citizens of the United States, who are 18 years of age or older, to vote, shall not be denied or abridged by the United States or any state on account of age.

Section 2. The Congress shall have the power to enforce this article by appropriate legislation.

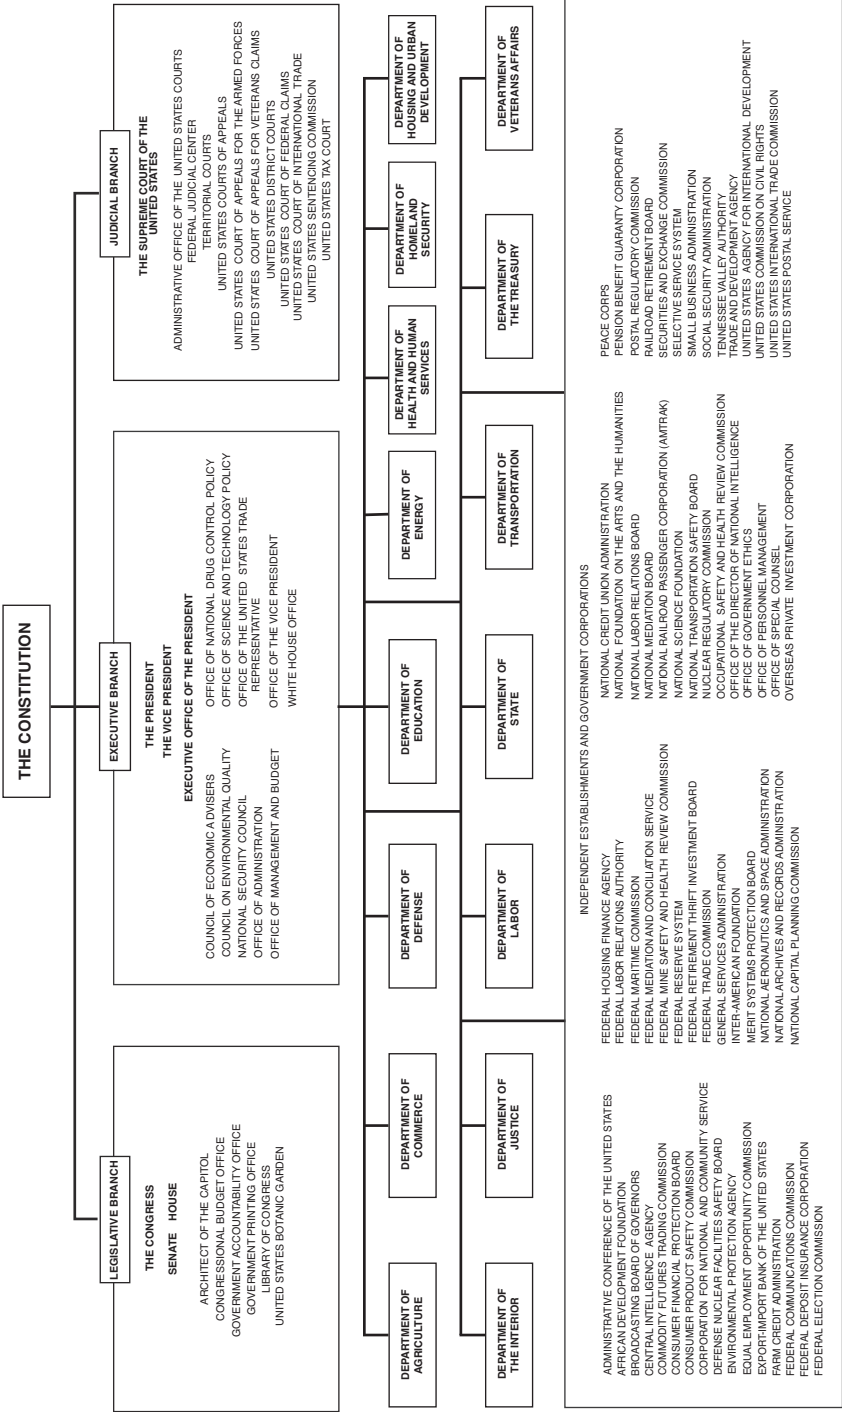

Amendment 27

(Ratified May 7, 1992)

No law, varying the compensation for the services of the Senators and Representatives, shall take effect, until an election of Representatives shall have intervened.

THE GOVERNMENT OF THE UNITED STATES

Legislative Branch

LEGISLATIVE BRANCH

CONGRESS

One Hundred and Thirteenth Congress, First Session

The Congress of the United States was created by Article I, section 1, of the Constitution, adopted by the Constitutional Convention on September 17, 1787, providing that “All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.”

The first Congress under the Constitution met on March 4, 1789, in the Federal Hall in New York City. The membership then consisted of 20 Senators and 59 Representatives.¹

Congressional Record Proceedings of Congress are published in the Congressional Record, which is issued each day when Congress is in session. Publication of the Record began March 4, 1873. It was the first record of debate officially reported, printed, and published directly by the Federal Government. The Daily Digest of the Congressional Record, printed in the back of each issue of the Record, summarizes the proceedings of that day in each House and each of their committees and subcommittees, respectively. The Digest also presents the legislative program for each day and, at the end of the week, gives the program for the following week. Its publication was begun March 17, 1947.

Sessions Section 4 of Article I of the Constitution makes it mandatory that “The Congress shall assemble at least once in every Year. . . .” Under this provision, also, the date for convening Congress was designated originally as the first Monday in December, “unless they shall by Law appoint a different Day.” Eighteen acts were passed, up to 1820, providing for the meeting of

Congress on other days of the year. From 1820 to 1934, however, Congress met regularly on the first Monday in December. In 1934 the 20th amendment changed the convening of Congress to January 3, unless Congress “shall by law appoint a different day.” In addition, the President, according to Article II, section 3, of the Constitution “may, on extraordinary Occasions, convene both Houses, or either of them, and in Case of Disagreement between them, with Respect to the Time of Adjournment, he may adjourn them to such Time as he shall think proper. . . .”

Powers of Congress Article I, section 8, of the Constitution defines the powers of Congress. Included are the powers to assess and collect taxes—called the chief power; to regulate commerce, both interstate and foreign; to coin money; to establish post offices and post roads; to establish courts inferior to the Supreme Court; to declare war; and to raise and maintain an army and navy. Congress is further empowered “To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions;” and “To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers

¹ New York ratified the Constitution on July 26, 1788, but did not elect its Senators until July 15 and 16, 1789. North Carolina did not ratify the Constitution until November 21, 1789; Rhode Island ratified it on May 29, 1790.

vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.”

Amendments to the Constitution

Another power vested in the Congress is the right to propose amendments to the Constitution, whenever two-thirds of both Houses shall deem it necessary. Should two-thirds of the State legislatures demand changes in the Constitution, it is the duty of Congress to call a constitutional convention. Proposed amendments shall be valid as part of the Constitution when ratified by the legislatures or by conventions of three-fourths of the States, as one or the other mode of ratification may be proposed by Congress.

Prohibitions Upon Congress Section 9 of Article I of the Constitution also imposes prohibitions upon Congress. “The Privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the public Safety may require it.” A bill of attainder or an ex post facto law cannot be passed. No export duty can be imposed. Ports of one State cannot be given preference over those of another State. “No money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law. . . .” No title of nobility may be granted.

Rights of Members According to section 6 of Article I, Members of Congress are granted certain privileges. In no case, except in treason, felony, and breach of the peace, can Members be arrested while attending sessions of Congress “and in going to and returning from the same. . . .” Furthermore, the Members cannot be questioned in any other place for remarks made in Congress. Each House may expel a Member of its body by a two-thirds vote.

Enactment of Laws In order to become law, all bills and joint resolutions,

except those proposing a constitutional amendment, must pass both the House of Representatives and the Senate and either be signed by the President or be passed over the President’s veto by a two-thirds vote of both Houses of Congress. Section 7 of Article I states: “If any Bill shall not be returned by the President within ten Days (Sundays excepted) after it shall have been presented to him, the Same shall be a Law, in like Manner as if he had signed it, unless the Congress by their Adjournment prevent its Return, in which Case it shall not be a Law.” When a bill or joint resolution is introduced in the House, the usual procedure for its enactment into law is as follows:

assignment to House committee having jurisdiction; if favorably considered, it is reported to the House either in its original form or with recommended amendments; if the bill or resolution is passed by the House, it is messaged to the Senate and referred to the committee having jurisdiction; in the Senate committee the bill, if favorably considered, may be reported in the form as received from the House, or with recommended amendments; the approved bill or resolution is reported to the Senate, and if passed by that body, is returned to the House; if one body does not accept the amendments to a bill by the other body, a conference committee comprised of Members of both bodies is usually appointed to effect a compromise; when the bill or joint resolution is finally approved by both Houses, it is signed by the Speaker (or Speaker pro tempore) and the Vice President (or President pro tempore or acting President pro tempore) and is presented to the President; and once the President’s signature is affixed, the measure becomes a law. If the President vetoes the bill, it cannot become a law unless it is re-passed by a two-thirds vote of both Houses.

The Senate is composed of 100 Members, 2 from each State, who are elected to serve for a term of 6 years. Senators were originally chosen by the State legislatures. This procedure was changed by the 17th amendment to the Constitution, adopted in 1913, which made the election of Senators a function of the people. There are three classes of Senators, and a new class is elected every 2 years.

Senators must be residents of the State from which they are chosen. In addition, a Senator must be at least 30 years of age and must have been a citizen of the United States for at least 9 years.

Officers The Vice President of the United States is the Presiding Officer of the Senate. In the Vice President's absence, the duties are taken over by a President pro tempore, elected by that body, or someone designated by the President pro tempore.

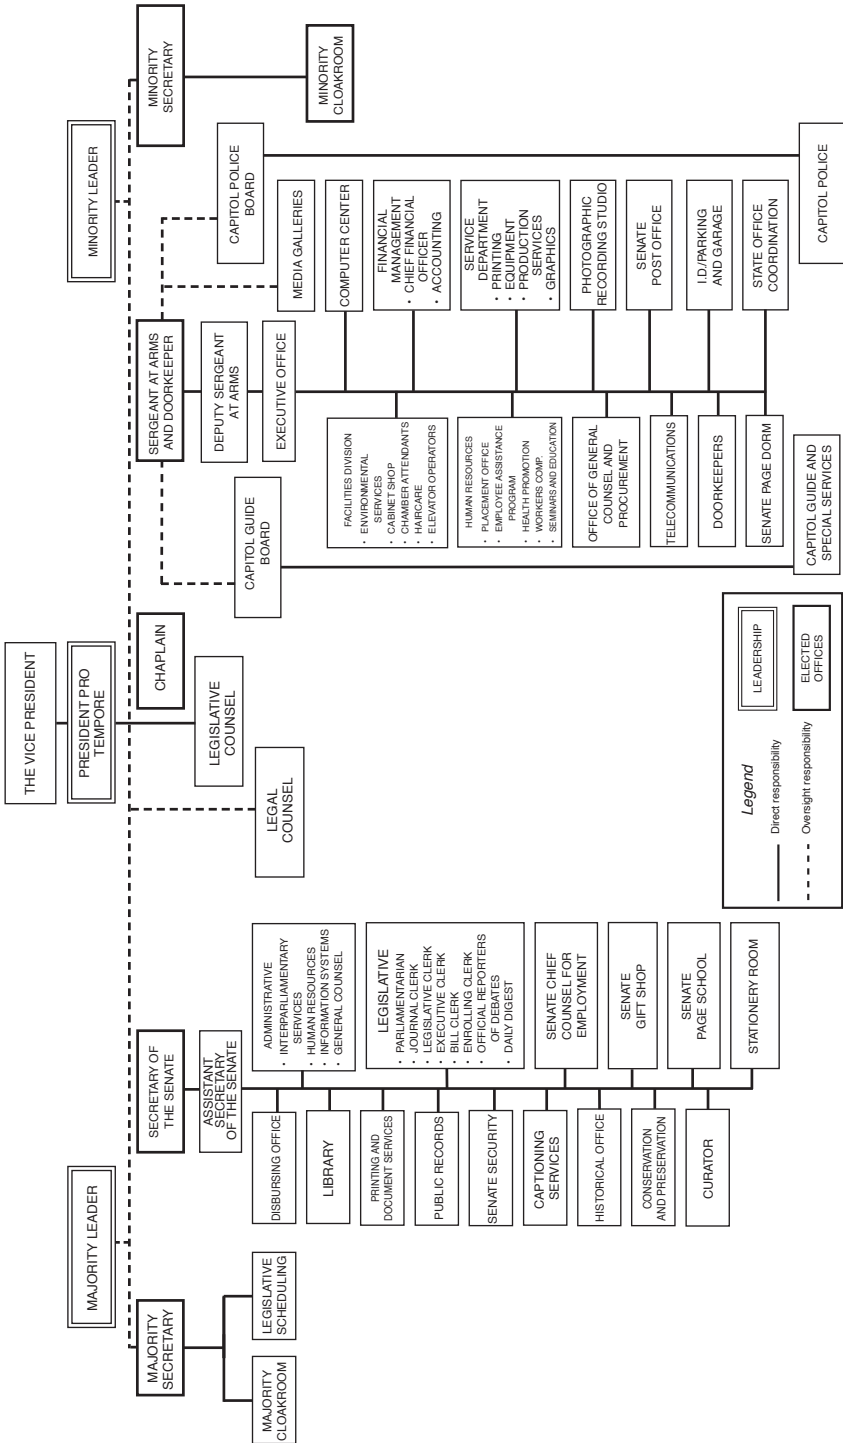

The positions of Senate Majority and Minority Leader have been in existence only since the early years of the 20th century. Leaders are elected at the beginning of each new Congress by a majority vote of the Senators in their political party. In cooperation with their party organizations, Leaders are responsible for the design and achievement of a legislative program. This involves managing the flow of legislation, expediting noncontroversial measures, and keeping Members informed regarding proposed action on pending business. Each Leader serves as an ex officio member of his party's policymaking and organizational bodies and is aided by an assistant floor leader (whip) and a party secretary.

The Secretary of the Senate, elected by vote of the Senate, performs the duties of the Presiding Officer of the Senate in the absence of the Vice

President and pending the election of a President pro tempore. The Secretary is the custodian of the seal of the Senate, draws requisitions on the Secretary of the Treasury for moneys appropriated for the compensation of Senators, officers, and employees, and for the contingent expenses of the Senate, and is empowered to administer oaths to any officer of the Senate and to any witness produced before it. The Secretary's executive duties include certification of extracts from the Journal of the Senate; the attestation of bills and joint, concurrent, and Senate resolutions; in impeachment trials, issuance, under the authority of the Presiding Officer, of all orders, mandates, writs, and precepts authorized by the Senate; and certification to the President of the United States of the advice and consent of the Senate to ratification of treaties and the names of persons confirmed or rejected upon the nomination of the President.

The Sergeant at Arms, elected by vote of the Senate, serves as the executive, chief law enforcement, and protocol officer and is the principal administrative manager for most support services in the Senate. As executive officer, the Sergeant

at Arms has custody of the Senate gavel; enforces Senate rules and regulations as they pertain to the Senate Chamber, the Senate wing of the Capitol, and the Senate office buildings; and subject to the Presiding Officer, maintains order on the Senate floor, Chamber, and galleries. As chief law enforcement officer of the Senate, the Sergeant at Arms is authorized to maintain security in the Capitol and all Senate buildings, as well as to protect Senators; to arrest and detain any person violating Senate rules; and to locate absentee Senators for a quorum. The Sergeant at Arms serves as a member of the Capitol Police Board and as its chairman each odd year. As protocol officer, the Sergeant at Arms escorts the President and other heads of state or official guests of the Senate who are attending official functions in the Capitol; makes arrangements for funerals of Senators who die in office; and assists in planning the inauguration of the President and organizing the swearing-in and orientation programs for newly elected Senators.

Committees The work of preparing and considering legislation is done largely by committees of both Houses of Congress. There are 16 standing committees in the Senate. The standing committees of the Senate are shown in the list below. In addition, there are two select committees in each House and various congressional commissions and joint committees composed of Members of both Houses. Each House may also appoint special investigating committees. The membership of the standing committees of each House is chosen by a vote of the entire body; members of other committees are appointed under the provisions of the measure establishing them.

Each bill and resolution is usually referred to the appropriate committee, which may report a bill out in its original form, favorably or unfavorably, recommend amendments, report original measures, or allow the proposed legislation to die in committee without action.

The House of Representatives comprises 435 Representatives. The number representing each State is determined by population, but every State is entitled to at least one Representative. Members are elected by the people for 2-year terms, all terms running for the same period. Representatives must be residents of the State from which they are chosen. In addition, a Representative must be at least 25 years of age and must have been a citizen for at least 7 years.

A Resident Commissioner from Puerto Rico (elected for a 4-year term) and Delegates from American Samoa, the District of Columbia, Guam, and the Virgin Islands complete the composition of the Congress of the United States. Delegates are elected for a term of 2 years. The Resident Commissioner and Delegates may take part in the floor discussions but have no vote in the full House. They do, however, vote in the committees to which they are assigned and in the Committee of the Whole House on the State of the Union.

Officers The Presiding Officer of the House of Representatives, the Speaker, is elected by the House. The Speaker may designate any Member of the House to act in the Speaker's absence.

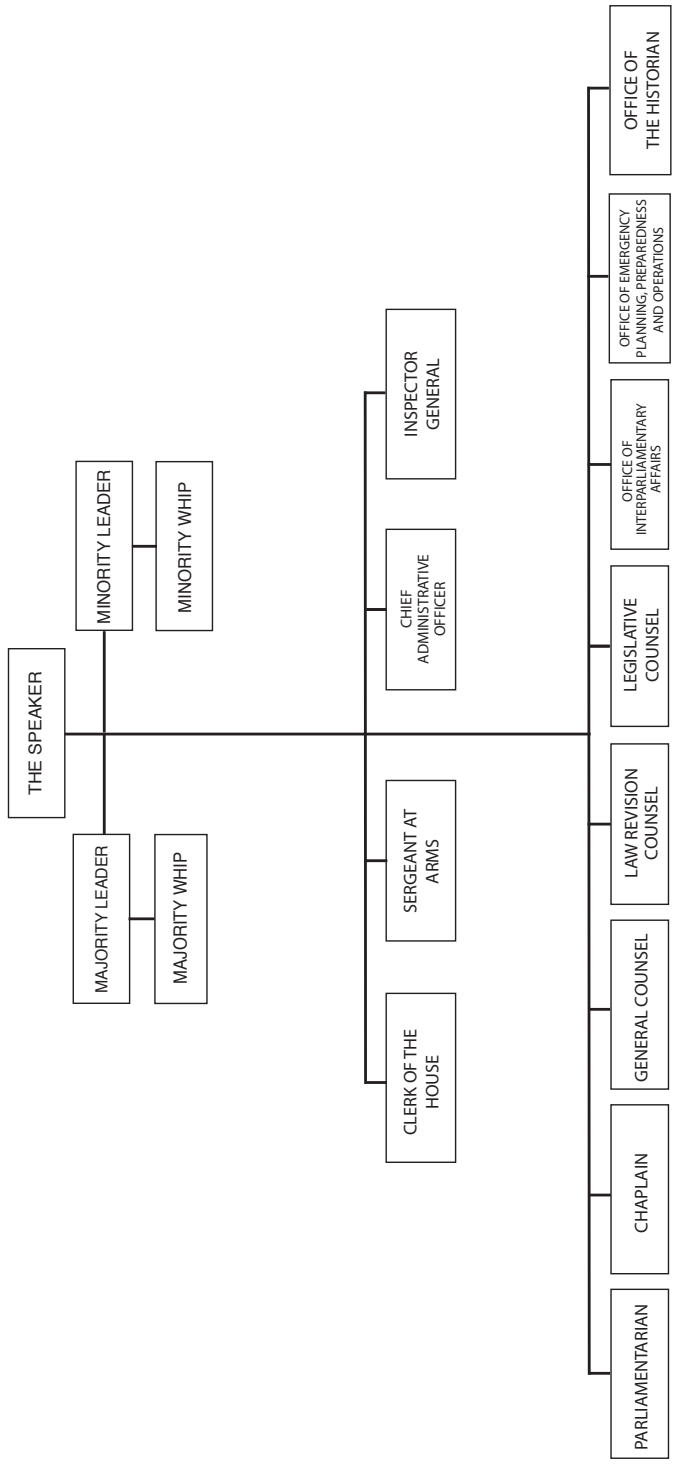

The House leadership is structured essentially the same as the Senate, with the Members in the political parties responsible for the election of their respective leader and whips.

The elected officers of the House of Representatives include the Clerk, the Sergeant at Arms, the Chief Administrative Officer, and the Chaplain.

The Clerk is custodian of the seal of the House and administers the primary legislative activities of the House. These duties include accepting the credentials of the Members-elect and calling the

Members to order at the commencement of the first session of each Congress; keeping the Journal; taking all votes and certifying the passage of bills; and processing all legislation. Through various departments, the Clerk is also responsible for floor and committee reporting services; legislative information and reference services; the administration of House reports pursuant to House rules and certain legislation including the Ethics in Government Act and the Lobbying Disclosure Act of 1995; the distribution of House documents; and administration of the House Page Program. The Clerk is also charged with supervision of the offices vacated by Members due to death, resignation, or expulsion.

HOUSE OF REPRESENTATIVES

The Sergeant at Arms maintains the order of the House under the direction of the Speaker and is the keeper of the Mace. As a member of the U.S. Capitol Police Board, the Sergeant at Arms is the chief law enforcement officer for the House and serves as Board Chairman each even year. The ceremonial and protocol duties parallel those of the Senate Sergeant at Arms and include arranging the inauguration of the President of the United States, Joint Sessions of Congress, visits to the House of heads of state, and funerals of Members of Congress. The Sergeant at Arms enforces the rules relating to the privileges of the Hall of the House, including admission to the galleries, oversees garage and parking security of the House, and distributes all House staff identification cards.

Committees The work of preparing and considering legislation is done largely by committees of both Houses of Congress.

There are 19 standing committees in the House of Representatives. The standing committees of the House of Representatives are shown in the list below. In addition, there are two select committees in the House and various congressional commissions and joint committees composed of Members of both Houses. Each House may also appoint special investigating committees. The membership of the standing committees of each House is chosen by a vote of the entire body; members of other committees are appointed under the provisions of the measure establishing them.

Each bill and resolution is usually referred to the appropriate committee, which may report a bill out in its original form, favorably or unfavorably, recommend amendments, report original measures, or allow the proposed legislation to die in committee without action.

of originating all bills for the raising of revenue. Both Houses of Congress act in impeachment proceedings, which,

according to the Constitution, may be instituted against the President, Vice President, and all civil officers of the United States. The House of

Representatives has the sole power of impeachment, and the Senate has the sole power to try impeachments.

The Architect of the Capitol maintains the U.S. Capitol and the buildings and grounds of the Capitol complex.

In addition to the Capitol, the Architect is responsible for the upkeep of all of the congressional office buildings, the Library of Congress buildings, the U.S. Supreme Court building, the Thurgood Marshall Federal Judiciary Building, the Capitol Power Plant, the Capitol Police headquarters, and the Robert A. Taft Memorial. The Architect performs his duties in connection with the Senate side of the Capitol and the Senate office buildings subject to the approval of the Senate Committee on Rules and Administration. In matters of general policy in connection with the House office buildings, his activities are subject to the approval and direction of the House Office Building Commission. The Architect is under the direction of the Speaker in matters concerning the House side of the Capitol. He is subject to the oversight of the Committee on House Administration with respect to many administrative matters affecting operations on the House side of the Capitol complex. In addition, the Architect of the Capitol serves as the Acting Director of the U.S. Botanic Garden under the Joint Committee on the Library.

The position of Architect of the Capitol was historically filled by Presidential appointment for an indefinite term. Legislation enacted in 1989 provides that the Architect is to be appointed for a term of 10 years by the President, with the advice and consent of the Senate, from a list of three candidates recommended by a congressional commission. Upon confirmation by the Senate, the Architect becomes an official of the legislative branch as an officer of Congress. He is eligible for reappointment after completion of his term.

Projects carried out by the Architect of the Capitol include operating the Capitol Visitor Center; conservation of murals, statuary, and decorative paintings in the Capitol; improvement of life-safety and fire-protection systems in the Capitol and congressional office buildings; security and accessibility improvements within the Capitol complex; renovation, restoration, and modification of the interiors and exteriors of the Thomas Jefferson and John Adams Buildings of the Library of Congress; and facility management of the Thurgood Marshall Federal Judiciary Building.

The United States Botanic Garden informs visitors about the importance and value of plants to the well-being of humankind and earth's ecosystems.

The United States Botanic Garden (USBG) is one of the oldest botanic gardens in North America. The Garden highlights the diversity of plants worldwide, as well as their aesthetic, cultural, economic, therapeutic, and ecological significance. The USBG encourages plant appreciation and the growth of botanical knowledge through artistic plant displays, exhibits, educational programs, and curation of a large collection of plants. It fosters plant conservation by serving as a repository for endangered species. Uniquely situated at the heart of the U.S. Government, the Garden seeks to promote the exchange of ideas and information relevant to its mission among national and international visitors and policymakers.

The Garden's collections include orchids, epiphytes, bromeliads, carnivorous plants, ferns, cycads, cacti, succulents, medicinal plants, rare and endangered plants, and plants valued as sources of food, beverages, fibers, cosmetics, and industrial products.

The USBG's facilities include the Conservatory, the National Garden, Bartholdi Park, an administration building, and an off-site production facility. The Conservatory, one of the largest structures of its kind in this country, reopened on December 11, 2001, after undergoing major renovation that required more than 4 years to complete. In addition to upgraded amenities for visitors, it features 12 exhibit and plant display areas.

The National Garden opened on October 1, 2006. Located on three acres adjacent to the west side of the Conservatory, the National Garden comprises a First Ladies Water Garden, a Butterfly Garden, a Rose Garden celebrating our national flower, a Lawn Terrace, a Regional Garden of native Mid-Atlantic plants, and an amphitheater where visitors may relax and enjoy the stunning views of the U.S. Capitol.

Outdoor plantings are also showcased in Bartholdi Park, a home-landscape demonstration area located across from

the Conservatory. Each of the displays is sized and scaled for suitability in an urban or suburban setting. The gardens display ornamental plants that perform well in this region arrayed in a variety of styles and themes. Also located in this park is Bartholdi Fountain, created by Frederic Auguste Bartholdi (1834–1904), sculptor of the Statue of Liberty. After undergoing extensive restoration and modifications to save both energy and water, Bartholdi Fountain was re-installed in 2010.

The USBG's staff is organized into horticulture, operations, administration, and public programs divisions. Programs for the public are listed in a quarterly calendar of events and also on the Garden's Web site. A horticultural hotline and email address are available to answer questions from the public.

The USBG was founded in 1820 under the auspices of the Columbian Institute for the Promotion of Arts and Sciences, an organization that was the outgrowth of an association known as the Metropolitan Society, which received its charter from Congress on April 20, 1818. The Garden continued under the direction of the Institute until 1837, when the Institute ceased to exist as an active organization.

In June 1842, the U.S. Exploring Expedition under the command of Captain Charles Wilkes returned from its 4-year voyage with a wealth of information, artifacts, pressed-plant specimens, and living plants from around the world. The living plants were temporarily placed on exhibit on a lot behind the old Patent Office under the care of William D. Brackenridge, the Expedition's botanist. By November 1842, the plants were moved into a greenhouse built there with funds appropriated by Congress. Subsequently, the greenhouse was expanded with two additions and a small growing area to care for the burgeoning collection. In 1843, stewardship of the collection was placed under the direction and control of the Joint Committee on the Library, which had also assumed responsibility

for publication of the results of the Expedition. Expansion of the Patent Office in 1849 necessitated finding a new location for the botanical collections.

The act of May 15, 1850 (9 Stat. 427), provided for the relocation of the Botanic Garden under the direction of the Joint Committee on the Library. The site selected was on the National Mall at the west end of the Capitol Grounds, practically the same site the Garden occupied during the period it functioned under the Columbian Institute. This site was later enlarged, and the main area continued to serve as the principal Garden site from 1850 to 1933, when the Garden was relocated to its present site.

Although the Government had assumed responsibility for the

maintenance and stewardship of the plant collection in 1842, the two functions were divided between the Commissioner of Public Buildings and the Joint Committee on the Library, respectively. In 1856, in recognition of their increasing stature, the collections and their associated operations and facilities were officially named the United States Botanic Garden, and the Joint Committee on the Library assumed jurisdiction over both its direction and maintenance (11 Stat. 104). An annual appropriation has been provided by Congress since 1856.

Presently, the Joint Committee on the Library has supervision over the USBG through the Architect of the Capitol, who has held the title of Acting Director since 1934.

The Government Accountability Office is the investigative arm of the Congress and is charged with examining all matters relating to the receipt and disbursement of public funds.

The Government Accountability Office (GAO) is an independent, nonpartisan Agency that works for Congress. GAO is often called the “congressional watchdog” because it investigates how the Federal Government spends taxpayer dollars. The GAO was established as the General Accounting Office by the Budget Accounting Act of 1921 (31 U.S.C. 702). It was renamed the Government Accountability Office pursuant to the GAO Capital Reform Act of 2004 (31 U.S.C. 702 note).

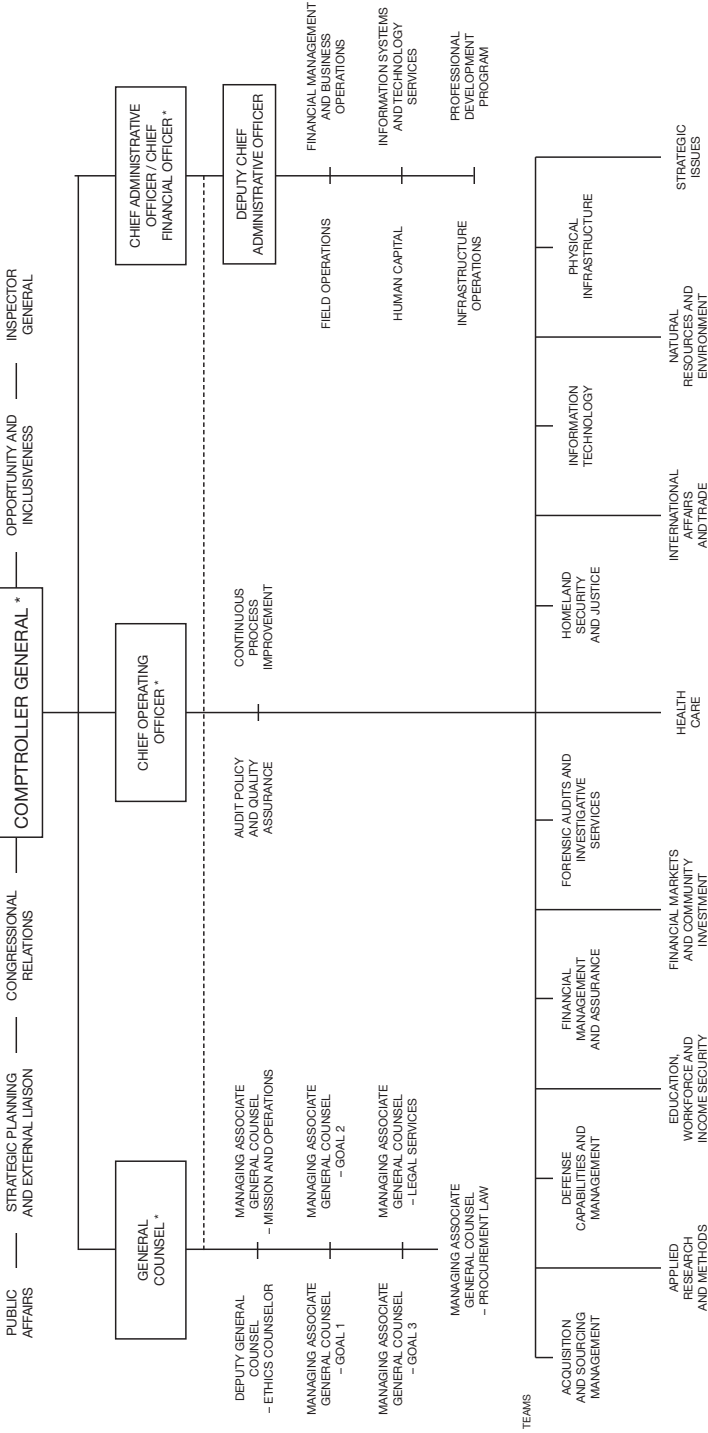

Activities

GAO gathers information to help Congress determine how effectively executive branch agencies are doing their jobs. GAO’s work routinely answers such basic questions as whether Government programs are meeting their objectives or providing good service to the public. Ultimately, GAO ensures that Government is accountable to the American people.

To help Senators and Representatives arrive at informed policy decisions, GAO provides them with information that is accurate, timely, and balanced. The Office supports congressional oversight by evaluating how well Government policies and programs are working; auditing Agency operations to determine whether Federal funds are being spent efficiently, effectively, and appropriately; investigating allegation of illegal and improper activities; and issuing legal decisions and opinions.

With virtually the entire Federal Government subject to its review, GAO issues a steady stream of products, including hundreds of reports and testimonies by GAO officials each year. GAO’s familiar “blue book” reports meet short-term immediate needs for information on a wide range of Government operations. These reports also help Congress better understand issues that are newly emerging, long term in nature, and with more far-reaching impacts. GAO’s work translates into

The Government Printing Office produces, procures, and disseminates printed and electronic publications of the Congress, executive departments, and establishments of the Federal Government.

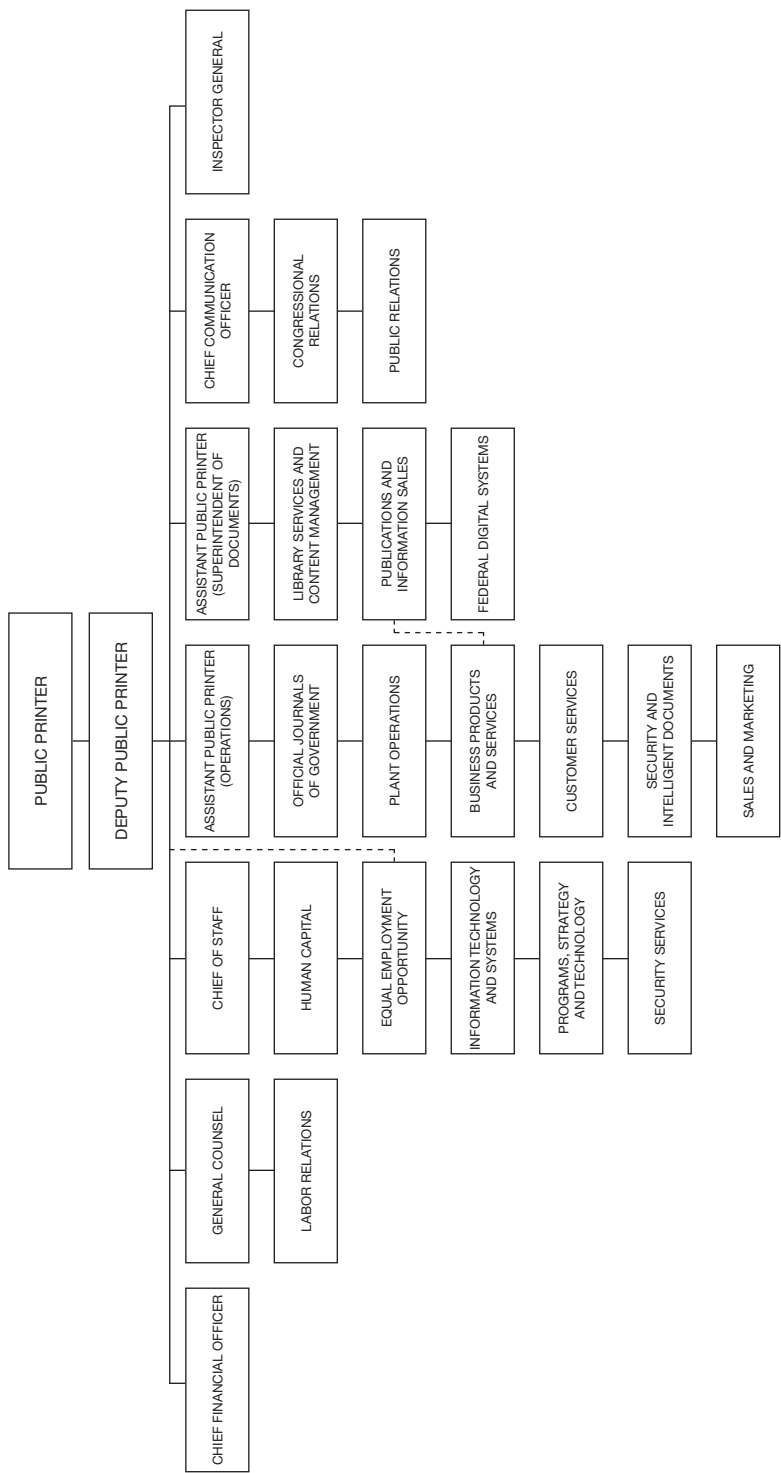

The Government Printing Office (GPO) opened for business on March 4, 1861. GPO's duties are defined in title 44 of the U.S. Code. The Public Printer, who serves as the head of GPO, is appointed by the President and confirmed by the Senate.

Activities

Headquartered in Washington, DC, with a total employment of approximately

1,900, GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government. GPO is the Federal Government's primary centralized resource for producing, procuring, cataloging, indexing, authenticating, disseminating, and preserving the

GOVERNMENT PRINTING OFFICE

official information products of the U.S. Government in digital and tangible forms.

While many of our Nation's most important products, such as the Congressional Record and Federal Register, are produced at GPO's main plant, the majority of the Government's printing needs are met through a longstanding partnership with America's printing industry. GPO procures 75 percent of all printing orders through private sector vendors across the country, competitively buying products and services from thousands of private sector companies in all 50 States. The contracts cover the entire spectrum of printing and publishing services and are available to fit almost any firm from the largest to the smallest.

GPO disseminates Federal information products through a sales program, distribution network of more than 1,200 Federal libraries nationwide, and via GPO's Federal Digital System (FDsys). More than 800,000 Federal Government document titles are available to the public at www.fdsys.gov.

Printed copies of many documents, ranging from Supreme Court opinions to reports from the Bureau of Labor Statistics, may also be purchased as follows:

The Library of Congress is the national library of the United States, offering diverse materials for research including the world's most extensive collections in many areas such as American history, music, and law.

The Library of Congress was established by Act of April 24, 1800 (2 Stat. 56), appropriating \$5,000 “for the purchase of such books as may be necessary for the use of Congress . . .” The Library’s scope of responsibility has been widened by subsequent legislation (2 U.S.C. 131–168d). The Librarian, appointed by the President with the advice and consent of the Senate, directs the Library.

The Library’s first responsibility is service to Congress. As the Library has developed, its range of service has expanded to include the entire governmental establishment and the public at large, making it a national library for the United States and a global resource through its Web site at www.loc.gov.

Activities

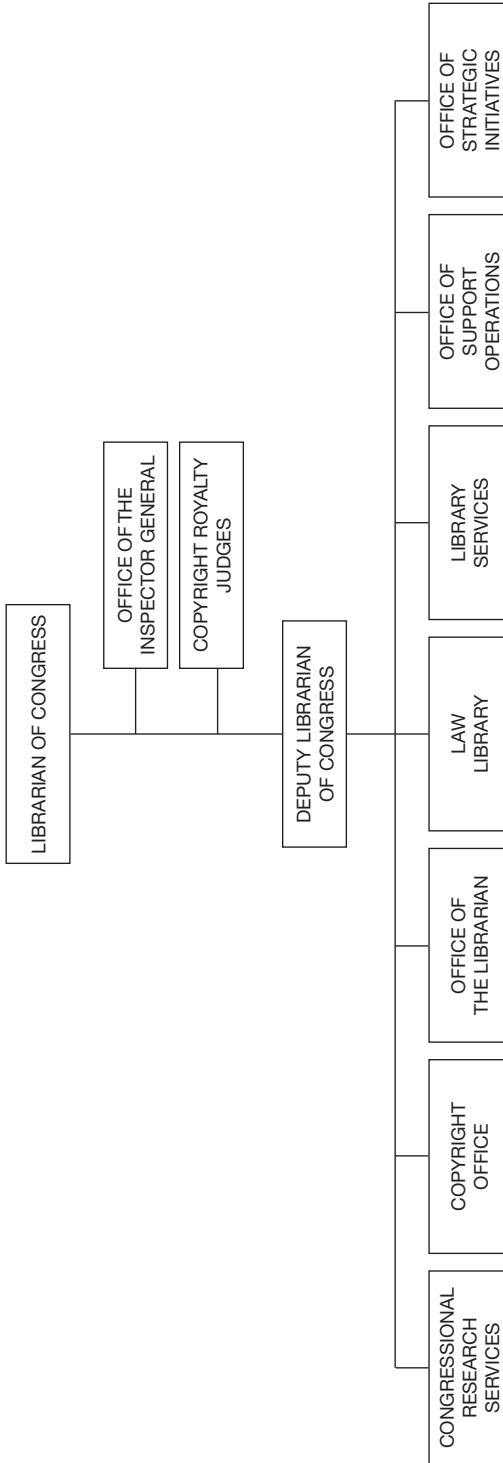

Collections The Library’s extensive collections are universal in scope. They include books, serials, and pamphlets on every subject and in a multitude of languages and research materials in many formats, including maps, photographs, manuscripts, motion pictures, and sound recordings. Among them are the most comprehensive collections of Chinese, Japanese, and Russian language books outside Asia and the former Soviet Union; volumes relating to science and legal materials outstanding for American and foreign law; the world’s largest collection

of published aeronautical literature; and the most extensive collection in the Western Hemisphere of books printed before 1501 A.D.

The manuscript collections relate to manifold aspects of American history and civilization and include the personal papers of most of the Presidents from George Washington through Calvin Coolidge. The music collections contain volumes and pieces—manuscript and published—from classic works to the newest popular compositions. Other materials available for research include maps and views; photographic records from the daguerreotype to the latest news photo; recordings, including folksongs and other music, speeches, and poetry readings; prints, drawings, and posters; government documents, newspapers, and periodicals from all over the world; and motion pictures, microforms, audio and video tapes, and digital products.

Reference Resources Admission to the various research facilities of the Library is free. No introduction or credentials are required for persons over high school age. Readers must register by presenting valid photo identification with a current address, and for certain collections there are additional requirements. While priority is given to inquiries pertaining to its holdings of special materials or to subjects in which its resources are unique, the Library does attempt to provide helpful responses to all inquirers.

Copyrights With the enactment of the second general revision of the U.S. copyright law by Act of July 8, 1870 (16 Stat. 212–217), all activities relating to copyright, including deposit and registration, were centralized in the Library of Congress. The Copyright Act of 1976 (90 Stat. 2541) brought all forms of copyrightable authorship, both published and unpublished, under a single statutory system which gives authors protection immediately upon creation of their works. Exclusive rights granted to authors under the statute include the right to reproduce and prepare derivative works, distribute copies or phonorecords, perform and display the work publicly, and in the case of sound recordings, to perform the work publicly by means of a digital audio transmission. Works eligible for copyright include literary works (books and periodicals), musical works, dramatic works, pantomimes and choreographic works, pictorial, graphic, and sculptural works, motion pictures, sound recordings, vessel hull designs, mask works, and architectural works. Serving in its capacity as a national registry for creative works, the Copyright Office registers more than 500,000 claims to copyright annually (representing more than 800,000 works) and is a major source of acquisitions for the universal collections of the Library of Congress. Most of the information available on paper is also accessible online, at www.loc.gov/copyright.

Extension of Service The Library extends its service through the following: an interlibrary loan system; duplication services, at reasonable cost, of books, manuscripts, maps, newspapers, and prints in its collections; the sale of sound recordings, which are released by its Recording Laboratory; the exchange of duplicates with other institutions; the sale of CD-ROM cataloging tools and magnetic tapes and the publication in book format or microform of cumulative catalogs, which make available the results of the expert bibliographical and cataloging work of its technical

personnel; a centralized cataloging program whereby the Library of Congress acquires material published all over the world, catalogs it promptly, and distributes cataloging information in machine-readable form and other means to the Nation’s libraries; a cooperative cataloging program whereby the cataloging of data, by name authority and bibliographic records, prepared by other libraries becomes part of the Library of Congress database and is distributed through Cataloging Services; a cataloging-in-publication program in cooperation with American publishers for printing cataloging information in current books; the National Serials Data Program, a national center that maintains a record of serial titles to which International Standard Serial Numbers have been assigned and serves, with this file, as the United States Register; and the development of general schemes of classification (Library of Congress and Dewey Decimal), subject headings, and cataloging, embracing the entire field of printed matter.

Furthermore, the Library provides for the following: the preparation of bibliographical lists responsive to the needs of Government and research; the maintenance and the publication of cooperative publications; the publication of catalogs, bibliographical guides, and lists, and of texts of original manuscripts and rare books in the Library of Congress; the circulation in traveling exhibitions of items from the Library’s collections; the provision of books in Braille, electronic access to Braille books on the Internet, “talking books,” and books on tape for the blind and the physically handicapped through more than 100 cooperating libraries throughout the Nation; the distribution of its electronic materials via the Internet; and the provision of research and analytical services on a fee-for-service basis to agencies in the executive and judicial branches.

American Folklife Center The Center was established in the Library of Congress by Act of January 2, 1976 (20 U.S.C. 2102 et seq.). It supports, preserves, and presents American folklife by receiving and maintaining folklife collections,

scholarly research, field projects, performances, exhibitions, festivals, workshops, publications, and audiovisual presentations. The Center has conducted projects in many locations across the country, such as the ethnic communities of Chicago, IL; southern Georgia; a ranching community in northern Nevada; the Blue Ridge Parkway in southern Virginia and northern North Carolina; and the States of New Jersey, Rhode Island, and Montana. The projects have provided large collections of recordings and photographs for the Archive of Folk Culture. The Center administers the Federal Cylinder Project, which is charged with preserving and disseminating music and oral traditions recorded on wax cylinders dating from the late 1800s to the early 1940s. A cultural conservation study was developed at the Center, in cooperation with the Department of the Interior, pursuant to a congressional mandate. Various conferences, workshops, and symposia are given throughout the year.

The American Folklife Center maintains and administers the Archive of Folk Culture, an extensive collection of ethnographic materials from this country and around the world. It is the national repository for folk-related recordings, manuscripts, and other unpublished materials. The Center administers the Veterans History Project, which records and preserves the first-person accounts of war veterans. It also participates in StoryCorps, a program to record and collect oral histories from people from all walks of life. This collection also resides in the American Folklife Center. The Center's reading room contains over 3,500 books and periodicals; a sizable collection of magazines, newsletters, unpublished theses, and dissertations; field notes; and many textual and some musical transcriptions and recordings.

The Folklife Center News, a quarterly newsletter, and other informational publications are available upon request. Many Center publications and a number of collections are available online through the Internet, at www.loc.gov/folklife.

For further information, call 202-707-5510.

Center for the Book The Center was established in the Library of Congress by an Act of October 13, 1977 (2 U.S.C. 171 et seq.), to stimulate public interest in books, reading, and libraries, and to encourage the study of books and print culture. The Center is a catalyst for promoting and exploring the vital role of books, reading, and libraries, nationally and internationally. As a partnership between the Government and the private sector, the Center for the Book depends on tax-deductible contributions from individuals and corporations to support its programs.

The Center's activities are directed toward the general public and scholars. The overall program includes reading promotion projects with television and radio networks, symposia, lectures, exhibitions, special events, and publications. More than 80 national educational and civic organizations participate in the Center's annual reading promotion campaign.

The Center provides leadership for 52 affiliated State centers for the book (including the District of Columbia and the U.S. Virgin Islands) and nonprofit reading-promotion partners. It oversees the Library's Read.gov Web site, administers the Library's Young Readers Center, and plays a key role in the Library's annual National Book Festival. The Center also administers the position of the National Ambassador for Young People's Literature in collaboration with the Children's Book Council. For more information on the Center and the Library's literacy promotion activities, go to www.Read.gov.

National Film Preservation Board The National Film Preservation Board, established by the National Film Preservation Act of 1992 (2 U.S.C. 179) and reauthorized by the National Film Preservation Act of 2005 (2 U.S.C. 179n), serves as a public advisory group to the Librarian of Congress. The Board works to ensure the survival, conservation, and increased public availability of America's film heritage, including

advising the Librarian on the annual selection of films to the National Film Registry and counseling the Librarian on development and implementation of the national film preservation plan. Key publications are *Film Preservation 1993: A Study of the Current State of American Film Preservation*; *Redefining Film Preservation: A National Plan*; and *Television and Video Preservation 1997: A Study of the Current State of American Television and Video Preservation*.

For further information, call 202-707-5912.

National Sound Recording Preservation Board

The National Sound Recording Preservation Board, established by the National Recording Preservation Act of 2000 (2 U.S.C. 1701 note), includes three major components: a National Recording Preservation Advisory Board, which brings together experts in the field, a National Recording Registry, and a fundraising foundation, all of which are conducted under the auspices of the Library of Congress. The Board implements a national plan for the long-term preservation and accessibility of the Nation's audio heritage. It also advises the Librarian on the selection of culturally, aesthetically, or historically significant sound recordings to be included on the National Recording Registry. The national recording preservation program sets standards for future private and public preservation efforts and will be conducted in conjunction with the Library's Packard Campus for Audio Visual Conservation in Culpeper, VA.

For further information, call 202-707-5856.

Preservation The Library provides technical information related to the preservation of library and archival material. The Library's Preservation Directorate includes three preservation science laboratories, a Center for the Library's Analytical Science Samples, and a Collections Recovery Room. Information on various preservation and conservation topics is available at www.loc.gov/preservation. General information and publications are available from the Office of the Director for Preservation,

Library of Congress, Washington, DC 20540-4500.

The Congressional Budget Office produces independent analyses of budgetary and economic issues to support the congressional budget process.

The Congressional Budget Office (CBO) was established by the Congressional Budget Act of 1974 (2 U.S.C. 601), which also created a procedure by which the Congress considers and acts upon the annual Federal budget. This process enables the Congress to have an overview of the Federal budget and to make overall decisions regarding spending and taxing levels and the deficit or surplus these levels incur.

Activities

The CBO assists the congressional budget committees with drafting and enforcing the annual budget resolution, which serves as a blueprint for total levels of Government spending and revenues in a fiscal year. Once completed, the budget resolution guides the action of other congressional committees in drafting subsequent spending and revenue legislation within their jurisdiction.

To support this process, the CBO makes budgetary and economic projections, analyzes the proposals set forth in the President's budget request, and details alternative spending and revenue options for lawmakers to consider. The CBO also provides cost estimates of bills approved by congressional committees and tracks the progress of spending and revenue legislation in a scorekeeping system. The CBO's cost estimates and scorekeeping system help the budget committees determine whether the budgetary effects of individual proposals are consistent with the most recent spending and revenue targets.

Upon congressional request, the CBO also produces reports analyzing specific policy and program issues that are significant for the budget. In keeping with the agency's nonpartisan role, its analyses do not present policy recommendations and routinely disclose their underlying assumptions and methods. This open and nonpartisan stance has been instrumental in preserving the credibility of the agency's analyses.

Baseline Budget Projections and

Economic Forecasts Each year, the CBO issues reports on the budget and economic outlook that cover the 10-year period used in the congressional budget process. Those reports present and explain the CBO's baseline budget projections and economic forecast, which are generally based on current law regarding Federal spending and revenues. The reports also describe the differences between the current projections and previous ones, compare the economic forecast with those of other forecasters, and show the budgetary impact of some alternative policy assumptions.

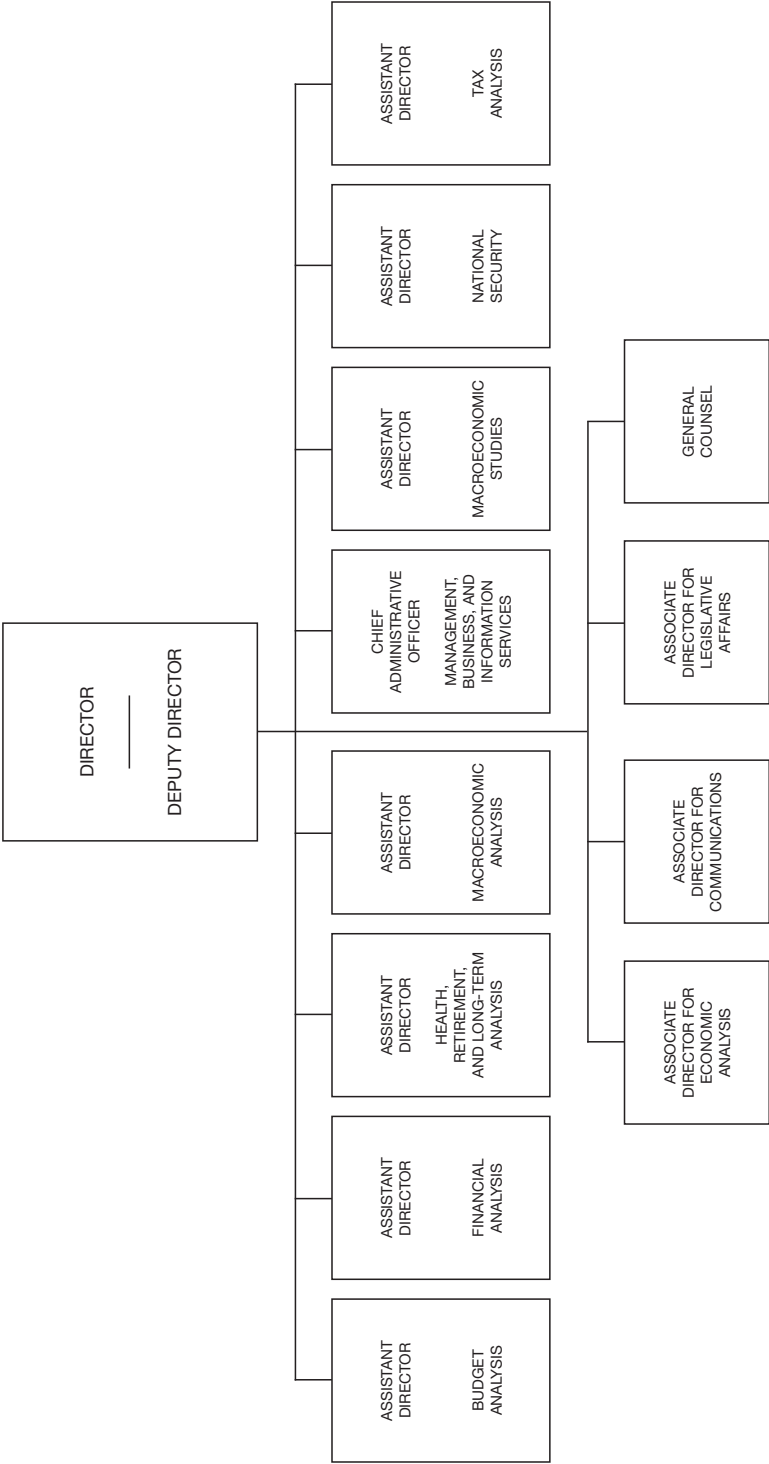

Analysis of the President's Budget The CBO estimates the budgetary impact of the proposals in the President's budget using its own economic forecast and assumptions. The CBO's independent reestimate allows Congress to compare the administration's spending and revenue proposals with CBO's baseline projections and other proposals using a consistent set of economic and technical assumptions.

Cost Estimates for Bills The CBO provides cost estimates of every bill to show how it would affect spending or revenues over the next 5 or 10 years, depending on the type of spending involved. The CBO also provides informal estimates at the committee level and other stages in the legislative process.

Scorekeeping The CBO provides the budget and appropriations committees with frequent tabulations of congressional action affecting spending and revenues. Those scorekeeping reports provide information about whether legislative actions are consistent with the spending and revenue levels set by the budget resolution.

Federal Mandates As required by the Unfunded Mandates Reform Act of 1995, the CBO analyzes the costs that proposed legislation would impose on State, local, and tribal governments and on the private sector. The CBO produces mandate statements with its cost estimates for each committee-approved bill.

CONGRESSIONAL BUDGET OFFICE

Budgetary and Economic Policy Issues

Additionally, the CBO analyzes specific program and policy issues that affect the Federal budget and the economy. Generally, requests for these analyses

come from the chairman or ranking minority member of a committee or subcommittee or from the leadership of either party in the House or Senate.

Article III, section 1, of the Constitution of the United States provides that "[t]he judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish."

The Supreme Court of the United States was created in accordance with this provision and by authority of the Judiciary Act of September 24, 1789 (1 Stat. 73). It was organized on February 2, 1790. Article III, section 2, of the Constitution defines the jurisdiction of the Supreme Court.

The Supreme Court is comprised of the Chief Justice of the United States and such number of Associate Justices as may be fixed by Congress, which is currently fixed at eight (28 U.S.C. 1). The President nominates the Justices with the advice and consent of the Senate. Article III, section 1, of the Constitution further provides that "[t]he Judges, both of the

supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office."

Court officers assist the Court in the performance of its functions. They include the Counselor to the Chief Justice, the Clerk, the Reporter of Decisions, the Librarian, the Marshal, the Legal Officer, the Curator, the Director of Information Technology, and the Public Information Officer.

Appellate Jurisdiction Appellate jurisdiction has been conferred upon the Supreme Court by various statutes

under the authority given Congress by the Constitution. The basic statute effective at this time in conferring and controlling jurisdiction of the Supreme Court may be found in 28 U.S.C. 1251, 1253, 1254, 1257–1259, and various special statutes. Congress has no authority to change the original jurisdiction of this Court.

Rulemaking Power Congress has from time to time conferred upon the Supreme Court power to prescribe rules of procedure to be followed by the lower courts of the United States.

Court Term The term of the Court begins on the first Monday in October and lasts until the first Monday in October of the next year. Approximately

8,000–10,000 cases are filed with the Court in the course of a term, and some 1,000 applications of various kinds are filed each year that can be acted upon by a single Justice.

Access to Facilities The Supreme Court is open to the public from 9 a.m. to 4:30 p.m., Monday through Friday, except on Federal holidays. Unless the Court or Chief Justice orders otherwise, the Clerk's office is open from 9 a.m. to 5 p.m., Monday through Friday, except on Federal holidays. The library is open to members of the bar of the Court, attorneys for the various Federal departments and agencies, and Members of Congress.

For further information concerning the Supreme Court, contact the Public Information Office, United States Supreme Court Building, One First Street NE., Washington, DC 20543. Phone, 202-479-3211. Internet, <http://www.supremecourt.gov>.

LOWER COURTS

Article III of the Constitution declares, in section 1, that the judicial power of the United States shall be invested in one Supreme Court and in "such inferior Courts as the Congress may from time to time ordain and establish." The Supreme Court has held that these

constitutional courts ". . . share in the exercise of the judicial power defined in that section, can be invested with no other jurisdiction, and have judges who hold office during good behavior, with no power in Congress to provide otherwise."

United States Courts of Appeals

The courts of appeals are intermediate appellate courts created by act of March 3, 1891 (28 U.S.C. ch. 3), to relieve the Supreme Court of considering all appeals in cases originally decided by the Federal trial courts. They are empowered to review all final decisions and certain interlocutory decisions (18 U.S.C. 3731; 28 U.S.C. 1291, 1292) of district courts. They also are empowered to review and enforce orders of many Federal administrative bodies. The decisions of the courts of appeals are final except as they are subject to review on writ of certiorari by the Supreme Court.

The United States is divided geographically into 12 judicial circuits, including the District of Columbia.

Each circuit has a court of appeals (28 U.S.C. 41, 1294). Each of the 50 States is assigned to one of the circuits. The territories and the Commonwealth of Puerto Rico are assigned variously to the first, third, and ninth circuits. There is also a Court of Appeals for the Federal Circuit, which has nationwide jurisdiction defined by subject matter. At present each court of appeals has from 6 to 28 permanent circuit judgeships (179 in all), depending upon the amount of judicial work in the circuit. Circuit judges hold their offices during good behavior as provided by Article III, section 1, of the Constitution. The judge senior in commission who is under 70 years of age (65 at inception of term), has been

in office at least 1 year, and has not previously been chief judge, serves as the chief judge of the circuit for a 7-year term. One of the Justices of the Supreme Court is assigned as circuit justice for each of the 13 judicial circuits. Each court of appeals normally hears cases in panels consisting of three judges but may sit en banc with all judges present.

The judges of each circuit (except the Federal Circuit) by vote determine the size of the judicial council for the circuit, which consists of the chief judge and an equal number of circuit and district judges. The council considers the state of Federal judicial business in the circuit and may “make all necessary and appropriate orders for [its] effective and expeditious administration . . .” (28 U.S.C. 332).

The chief judge of each circuit may summon periodically a judicial

conference of all judges of the circuit, including members of the bar, to discuss the business of the Federal courts of the circuit (28 U.S.C. 333). The chief judge of each circuit and a district judge elected from each of the 12 geographical circuits, together with the chief judge of the Court of International Trade, serve as members of the Judicial Conference of the United States, over which the Chief Justice of the United States presides. This is the governing body for the administration of the Federal judicial system as a whole (28 U.S.C. 331).

United States Court of Appeals for the Federal Circuit

This court was established under Article III of the Constitution pursuant to the Federal Courts Improvement Act of 1982 (28 U.S.C. 41, 44, 48), as successor to the former United States Court of Customs and Patent Appeals and the United States Court of Claims. The jurisdiction of the court is nationwide (as provided by 28 U.S.C. 1295) and includes appeals from the district courts in patent cases; appeals from the district courts in contract, and certain other civil actions in which the United States is a defendant; and appeals

from final decisions of the U.S. Court of International Trade, the U.S. Court of Federal Claims, and the U.S. Court of Appeals for Veterans Claims. The jurisdiction of the court also includes the review of administrative rulings by the Patent and Trademark Office, U.S. International Trade Commission, Secretary of Commerce, agency boards of contract appeals, and the Merit Systems Protection Board, as well as rulemaking of the Department of Veterans Affairs; review of decisions of

the U.S. Senate Committee on Ethics concerning discrimination claims of Senate employees; and review of a final order of an entity to be designated by the President concerning discrimination claims of Presidential appointees.

The court consists of 12 circuit judges. It sits in panels of three or more on each case and may also hear or rehear a case en banc. The court sits principally in

Washington, DC, and may hold court wherever any court of appeals sits (28 U.S.C. 48).

United States District Courts

The district courts are the trial courts of general Federal jurisdiction. Each State has at least one district court, while the larger States have as many as four. There are 89 district courts in the 50 States, plus the one in the District of Columbia. In addition, the Commonwealth of Puerto Rico has a district court with jurisdiction corresponding to that of district courts in the various States.

At present, each district court has from 2 to 28 Federal district judgeships, depending upon the amount of judicial work within its territory. Only one judge is usually required to hear and decide a case in a district court, but in some limited cases it is required that three judges be called together to comprise the court (28 U.S.C. 2284). The judge senior in commission who is under 70 years of age (65 at inception of term), has been in office for at least 1 year, and has not previously been chief judge, serves

as chief judge for a 7-year term. There are 645 permanent district judgeships in the 50 States and 15 in the District of Columbia. There are seven district judgeships in Puerto Rico. District judges hold their offices during good behavior as provided by Article III, section 1, of the Constitution. However, Congress may temporary judgeships for a court with the provision that when a future vacancy occurs in that district, such vacancy shall not be filled. Each district court has one or more United States magistrate judges and bankruptcy judges, a clerk, a United States attorney, a United States marshal, probation officers, court reporters, and their staffs. The jurisdiction of the district courts is set forth in title 28, chapter 85, of the United States Code and at 18 U.S.C. 3231.

Cases from the district courts are reviewable on appeal by the applicable court of appeals.

Territorial Courts

Pursuant to its authority to govern the Territories (Art. IV, sec. 3, clause 2, of the Constitution), Congress has established district courts in the territories of Guam and the Virgin Islands. The District Court of the Canal Zone was abolished on April 1, 1982, pursuant to the Panama Canal Act of 1979 (22 U.S.C. 3601 note). Congress has also established a district court in the Northern Mariana Islands, which presently is administered by the United States under a trusteeship agreement with the United Nations. These Territorial courts have jurisdiction

not only over the subjects described in the judicial article of the Constitution but also over many local matters that, within the States, are decided in State courts. The District Court of Puerto Rico, by contrast, is established under Article III, is classified like other "district courts," and is called a "court of the United States" (28 U.S.C. 451). There is one judge each in Guam and the Northern Mariana Islands, and two in the Virgin Islands. The judges in these courts are appointed for terms of 10 years.

For further information concerning the lower courts, contact the Administrative Office of the United States Courts, Thurgood Marshall Federal Judiciary Building, One Columbus Circle NE., Washington, DC 20544. Phone, 202-502-2600.

United States Court of International Trade

This court was originally established as the Board of United States General Appraisers by act of June 10, 1890, which conferred upon it jurisdiction theretofore held by the district and circuit courts in actions arising under the tariff acts (19 U.S.C. ch. 4). The act of May 28, 1926 (19 U.S.C. 405a), created the United States Customs Court to supersede the Board; by acts of August 7, 1939, and June 25, 1948 (28 U.S.C. 1582, 1583), the court was integrated into the United States court structure, organization, and procedure. The act of July 14, 1956 (28 U.S.C. 251), established the court as a court of record of the United States under Article III of the Constitution. The Customs Court Act of 1980 (28 U.S.C. 251) constituted the court as the United States Court of International Trade.

The Court of International Trade has jurisdiction over any civil action against the United States arising from Federal laws governing import transactions. This includes classification and valuation cases, as well as authority to review certain agency determinations under the Trade Agreements Act of 1979 (19 U.S.C. 2501) involving antidumping and countervailing duty matters. In addition, it has exclusive jurisdiction of civil actions to review determinations as

to the eligibility of workers, firms, and communities for adjustment assistance under the Trade Act of 1974 (19 U.S.C. 2101). Civil actions commenced by the United States to recover customs duties, to recover on a customs bond, or for certain civil penalties alleging fraud or negligence are also within the exclusive jurisdiction of the court.

The court is composed of a chief judge and eight judges, not more than five of whom may belong to any one political party. Any of its judges may be temporarily designated and assigned by the Chief Justice of the United States to sit as a court of appeals or district court judge in any circuit or district. The court has a clerk and deputy clerks, a librarian, court reporters, and other supporting personnel. Cases before the court may be tried before a jury. Under the Federal Courts Improvement Act of 1982 (28 U.S.C. 1295), appeals are taken to the U.S. Court of Appeals for the Federal Circuit, and ultimately review may be sought in appropriate cases in the Supreme Court of the United States.

The principal offices are located in New York, NY, but the court is empowered to hear and determine cases arising at any port or place within the jurisdiction of the United States.

For further information, contact the Clerk, United States Court of International Trade, One Federal Plaza, New York, NY 10278-0001. Phone, 212-264-2814.

Judicial Panel on Multidistrict Litigation

The Panel, created by act of April 29, 1968 (28 U.S.C. 1407), and consisting of seven Federal judges designated by the Chief Justice from the courts of appeals and district courts, is authorized to

temporarily transfer to a single district, for coordinated or consolidated pretrial proceedings, civil actions pending in different districts that involve one or more common questions of fact.

For further information, contact the Clerk, Judicial Panel on Multidistrict Litigation, Room G-255, Thurgood Marshall Federal Judiciary Building, One Columbus Circle NE., Washington, DC 20002-8041. Phone, 202-502-2800.

SPECIAL COURTS

United States Court of Appeals for the Armed Forces

450 E Street NW., Washington, DC 20442-0001

Phone, 202-761-1448. Fax, 202-761-4672. Internet, <http://www.armfor.uscourts.gov>.

This court was established under Article I of the Constitution of the United States pursuant to act of May 5, 1950, as amended (10 U.S.C. 867). Subject only to certiorari review by the Supreme Court of the United States in a limited number of cases, the court serves as the final appellate tribunal to review court-martial convictions of all the Armed Forces. It is exclusively an appellate criminal court, consisting of five civilian judges who are appointed for 15-year terms by the President with the advice and consent of the Senate.

The court is called upon to exercise jurisdiction to review the record in all cases extending to death; certified to the court by a Judge Advocate General of one of the Armed Forces; or petitioned by

accused who have received a sentence of confinement for 1 year or more and/or a punitive discharge.

The court also exercises authority under the All Writs Act (28 U.S.C. 1651(a)).

In addition, the judges of the court are required by law to work jointly with the senior uniformed lawyer from each of the Armed Forces and two members of the public appointed by the Secretary of Defense to make an annual comprehensive survey, to report annually to the Congress on the operation and progress of the military justice system under the Uniform Code of Military Justice, and to recommend improvements wherever necessary.

For further information, contact the Clerk, United States Court of Appeals for the Armed Forces, 450 E Street NW., Washington, DC 20442-0001. Phone, 202-761-1448. Fax, 202-761-4672. Internet, <http://www.armfor.uscourts.gov>.

United States Court of Appeals for Veterans Claims

Suite 900, 625 Indiana Avenue NW., Washington, DC 20004-2950

Phone, 202-501-5970. Fax, 202-501-5848. Internet, <http://www.uscourts.cavc.gov>.

The United States Court of Appeals for Veterans Claims, a court of record under Article I of the Constitution, was established on November 18, 1988 (38 U.S.C. 7251) and given exclusive jurisdiction to review decisions of the Board of Veterans' Appeals. Appeals concern veteran disability benefits, dependent educational assistance, survivor benefits, and pension benefits claims. In addition to its review authority, the Court has contempt authority, as well as the authority to compel action by the Secretary of Veterans Affairs, the authority to grant a petition for extraordinary relief under the All Writs Act (28 U.S.C. 1651), and the authority to make attorney fee determinations under the Equal Access to

Justice Act (28 U.S.C. 2412). Decisions of the Court of Appeals for Veterans Claims are subject to review by the United States Court of Appeals for the Federal Circuit on questions of law and on writ of certiorari by the United States Supreme Court.

The Court consists of nine judges appointed by the President, with the advice and consent of the Senate, for 15-year terms. One of the judges serves as chief judge.

The Chief Judge generally conducts a judicial conference every 2 years. The primary purpose of the conference, which involves the active participation of members of the legal community, attorneys, and practitioners admitted

to practice before the Court, is to consider the business of the Court and to recommend means of improving the administration of justice within the Court's jurisdiction.

The Court is located in Washington, DC, but it is a court of national

jurisdiction and may sit at any location within the United States.

Opinions issued by the Court, case information, and a current list of judges and officials of the United States Court of Appeals for Veterans Claims are available at www.uscourts.cavc.gov.

For further information, contact the Clerk, United States Court of Appeals for Veterans Claims, Suite 900, 625 Indiana Avenue NW., Washington, DC 20004-2950. Phone, 202-501-5970. Fax, 202-501-5848. Internet, <http://www.uscourts.cavc.gov>.

Phone, 202-357-6400. Internet, <http://www.uscfc.uscourts.gov>.

The United States Court of Federal Claims has jurisdiction over claims seeking money judgments against the United States. A claim must be founded upon the Constitution, an act of Congress, an Executive order, Federal regulations,

or contract with the United States. Judges are appointed by the President for 15-year terms, subject to Senate confirmation. Appeals are to the U.S. Court of Appeals for the Federal Circuit.

For further information, contact the Clerk's Office, United States Court of Federal Claims, 717 Madison Place NW., Washington, DC 20005-1086. Phone, 202-357-6400. Internet, <http://www.uscfc.uscourts.gov>.

United States Tax Court

400 Second Street NW., Washington, DC 20217-0002
Phone, 202-521-0700. Internet, <http://www.ustaxcourt.gov>.

The United States Tax Court is a court of record under Article I of the Constitution of the United States (26 U.S.C. 7441). The court was created as the United States Board of Tax Appeals by the Revenue Act of 1924 (43 Stat. 336). The name was changed to the Tax Court of the United States by the Revenue Act of 1942 (56 Stat. 957). The Tax Reform Act of 1969 (83 Stat. 730) established the court under Article I and then changed its name to the United States Tax Court.

The court comprises 19 judges who are appointed by the President to 15-year terms and subject to Senate confirmation. The court also has varying numbers of both senior judges (who may be recalled by the chief judge to perform further judicial duties) and special trial judges (who are appointed by the chief judge and may hear and decide a variety of cases). The court's jurisdiction is set forth in various sections of title 26 of the U.S. Code.

The offices of the court and its judges are in Washington, DC. However, the court has national jurisdiction and schedules trial sessions in more than 70 cities in the United States. Each trial session is conducted by one judge, senior judge, or special trial judge. Court proceedings are open to the public and are conducted in accordance with the court's Rules of Practice and Procedure and the rules of evidence applicable in trials without a jury in the U.S. District Court for the District of Columbia. A fee of \$60 is charged for the filing of a petition. Practice before the court is limited to practitioners admitted under the court's Rules of Practice and Procedure.

Decisions entered by the court, other than decisions in small tax cases, may be appealed to the regional courts of appeals and, thereafter, upon the granting of a writ of certiorari, to the Supreme Court of the United States. At the option of

petitioners, simplified procedures may be used in small tax cases. Small tax cases are final and not subject to review by any court.

The Administrative Office of the United States Courts supports and serves the nonjudicial, administrative business of the United States Courts.

The Administrative Office of the United States Courts was created by act of August 7, 1939 (28 U.S.C. 601). The Office was established November 6, 1939. Its Director and Deputy Director are appointed by the Chief Justice of the United States after consultation with the Judicial Conference.

Administering the Courts The Director is the administrative officer of the courts of the United States (except the Supreme Court). Under the guidance of the Judicial Conference of the United States the Director is required, among other things, to supervise all administrative matters relating to the offices of clerks and other clerical and administrative personnel of the courts; to examine the

state of the dockets of the courts, secure information as to the courts' need of assistance, and prepare and transmit quarterly to the chief judges of the circuits statistical data and reports as to the business of the courts; to submit to the annual meeting of the Judicial Conference of the United States, at least 2 weeks prior thereto, a report of the activities of the Administrative Office and the state of the business of the courts; to fix the compensation of employees of the courts whose compensation is not otherwise fixed by law; to regulate and pay annuities to widows and surviving dependent children of judges; to disburse moneys appropriated for the maintenance and operation of the courts;

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

to examine accounts of court officers; to regulate travel of judicial personnel; to provide accommodations and supplies for the courts and their clerical and administrative personnel; to establish and maintain programs for the certification and utilization of court interpreters and the provision of special interpretation services in the courts; and to perform such other duties as may be assigned by the Supreme Court or the Judicial Conference of the United States.

The Director is also responsible for the preparation and submission of the budget of the courts, which shall be transmitted by the Office of Management and Budget to Congress without change.

Probation Officers The Administrative Office exercises general supervision of the accounts and practices of the Federal probation offices, subject to primary control by the respective district courts that they serve. The Office publishes quarterly, in cooperation with the Bureau of Prisons of the Department of Justice, a magazine entitled *Federal Probation*, which is a journal "of correctional philosophy and practice."

The Director also has responsibility with respect to the establishment of pretrial services in the district courts under the Pretrial Services Act of 1982 (18 U.S.C. 3152). These offices report to their respective courts information concerning pretrial release of persons charged with Federal offenses and supervise such persons who are released to their custody.

Bankruptcy The Bankruptcy Amendments and Federal Judgeship Act of 1984 (28 U.S.C. 151) provided that the bankruptcy judges for each judicial district shall constitute a unit of the district court to be known as the bankruptcy court. Bankruptcy judges are appointed by the courts of appeals in such numbers as authorized by Congress and serve for a term of 14 years as judicial officers of the district courts.

This act placed jurisdiction in the district courts over all cases under title 11, United States Code, and all proceedings arising in or related to cases under that title (28 U.S.C. 1334). The district court may provide for such cases

and proceedings to be referred to its bankruptcy judges (as authorized by 28 U.S.C. 157).

The Director of the Administrative Office recommends to the Judicial Conference the official duty stations and places of holding court of bankruptcy judges, surveys the need for additional bankruptcy judgeships to be recommended to Congress, and determines the staff needs of bankruptcy judges and the clerks of the bankruptcy courts.

Federal Magistrate Judges The Director of the Administrative Office exercises general supervision over administrative matters in offices of U.S. magistrate judges, compiles and evaluates statistical data relating to such offices, and submits reports thereon to the Judicial Conference. The Director reports annually to Congress on the business that has come before U.S. magistrate judges and also prepares legal and administrative manuals for the use of the magistrate judges. The act provides for surveys to be conducted by the Administrative Office of the conditions in the judicial districts in order to make recommendations as to the number, location, and salaries of magistrate judges, which are determined by the Judicial Conference subject to the availability of appropriated funds.

Federal Defenders The Criminal Justice Act (18 U.S.C. 3006A) establishes the procedure for the appointment of private panel attorneys in Federal criminal cases for individuals who are unable to afford adequate representation, under plans adopted by each district court. The act also permits the establishment of Federal public defender or Federal community defender organizations by the district courts in districts where at least 200 persons annually require the appointment of counsel. Two adjacent districts may be combined to reach this total.

Each defender organization submits to the Director of the Administrative Office an annual report of its activities along with a proposed budget or, in the case of community defender organizations, a proposed grant for the coming year. The Director is responsible for the submission

of the proposed budgets and grants to the Judicial Conference for approval. The Director also makes payments to the defender organizations out of appropriations in accordance with the approved budgets and grants, as well as compensating private counsel appointed to defend criminal cases in the United States courts.

The Federal Judicial Center is the judicial branch's agency for policy research and continuing education.

The Federal Judicial Center was created by act of December 20, 1967 (28 U.S.C. 620), to further the development and adoption of improved judicial administration in the courts of the United States.

The Center's basic policies and activities are determined by its Board, which is composed of the Chief Justice of the United States, who is permanent Chair of the Board by statute, and two judges of the U.S. courts of appeals, three judges of the U.S. district courts, one

bankruptcy judge, and one magistrate judge, all of whom are elected for 4-year terms by the Judicial Conference of the United States. The Director of the Administrative Office of the United States Courts is also a permanent member of the Board.

The Center develops and administers orientation and continuing education programs for Federal judges and defenders and nonjudicial court personnel, including probation officers, pretrial services officers, and clerks'

office employees. It conducts research and evaluation on the Federal judicial processes, court management, and sentencing and its consequences. The Center produces research reports, training manuals, video programs, computer-based training, and periodicals about the Federal courts; provides guidance and advice; maintains data and records to assist those interested in documenting and conserving the history of the Federal courts; and cooperates with and assists other agencies and organizations in providing advice to improve the administration process in foreign courts.

The United States Sentencing Commission develops sentencing guidelines and policies for the Federal court system.

The United States Sentencing Commission was established as an independent agency in the judicial branch of the Federal Government by the Sentencing Reform Act of 1984 (28 U.S.C. 991 et seq. and 18 U.S.C. 3551 et seq.). The Commission establishes sentencing guidelines and policies for the Federal courts, advising them of the appropriate form and severity of

punishment for offenders convicted of Federal crimes.

The Commission is composed of seven voting members appointed by the President with the advice and consent of the Senate for 6-year terms, and two nonvoting members. One of the voting members is appointed Chairperson.

The Commission evaluates the effects of the sentencing guidelines on the criminal justice system, advises Congress

regarding the modification or enactment of statutes relating to criminal law and sentencing matters, establishes a research and development program on sentencing issues, and performs other related duties.

In executing its duties, the Commission promulgates and distributes to Federal courts and to the U.S. probation system guidelines to be consulted in determining sentences to be imposed in criminal cases, general policy statements regarding the application of guidelines, and policy statements on the appropriate use of probation and supervised release revocation provisions. These sentencing guidelines and policy statements are designed to further the purposes of just punishment, deterrence, incapacitation, and rehabilitation; provide fairness in meeting the purposes of sentencing; avoid unwarranted disparity; and reflect advancement in the knowledge of human

behavior as it relates to the criminal justice process.

In addition, the Commission provides training, conducts research on sentencing-related issues, and serves as an information resource for Congress, criminal justice practitioners, and the public.

UNITED STATES SENTENCING COMMISSION

Executive Branch

EXECUTIVE BRANCH: THE PRESIDENT

THE PRESIDENT

The President of the United States

Article II, section 1, of the Constitution provides that “[t]he executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, . . . together with the Vice President, chosen for the same Term” In addition to the powers set forth in the Constitution, the statutes have conferred upon the President specific authority and responsibility covering a wide range of matters (United States Code Index).

The President is the administrative head of the executive branch of the Government, which includes numerous agencies, both temporary and permanent, as well as the 15 executive departments.

The Cabinet The Cabinet, a creation of custom and tradition dating back to George Washington’s administration, functions at the pleasure of the President. Its purpose is to advise the President upon any subject, relating to the duties

BARACK OBAMA

of the respective offices, on which he requests information (pursuant to Article II, section 2, of the Constitution).

The Cabinet is composed of the Vice President and the heads of the 15 executive departments—the Secretaries of Agriculture, Commerce, Defense, Education, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, Interior, Labor, State, Transportation, Treasury, and Veterans Affairs, and the Attorney General. Additionally, in the Obama administration, Cabinet-level rank has been accorded to the Chief of Staff to the President; the Administrator, Environmental Protection Agency; the Chair, Council of Economic Advisers; the Director, Office of Management and Budget; the U.S. Permanent Representative to the United Nations; and the U.S. Trade Representative.

THE VICE PRESIDENT

The Vice President

Article II, section 1, of the Constitution provides that the President “shall hold his Office during the Term of four Years, . . . together with the Vice President” In addition to his role as President of the Senate, the Vice President is empowered to succeed to the Presidency, pursuant

JOSEPH R. BIDEN, JR.

to Article II and the 20th and 25th amendments to the Constitution.

The executive functions of the Vice President include participation in Cabinet meetings and, by statute, membership on the National Security Council and the Board of Regents of the Smithsonian Institution.

THE EXECUTIVE OFFICE OF THE PRESIDENT

Under authority of the Reorganization Act of 1939 (5 U.S.C. 133–133r, 133t note), various agencies were transferred to the Executive Office of the President by the President’s Reorganization Plans I and II of 1939 (5 U.S.C. app.), effective July 1, 1939. Executive Order 8248 of September 8, 1939, established the

divisions of the Executive Office and defined their functions. Subsequently, Presidents have used Executive orders, reorganization plans, and legislative initiatives to reorganize the Executive Office to make its composition compatible with the goals of their administrations.

| Chairman | JASON FURMAN |
| Members | JAMES H. STOCK, (VACANCY) |

The Council of Economic Advisers performs an analysis and appraisal of the national economy for the purpose of providing policy recommendations to the President.

The Council of Economic Advisers (CEA) was established in the Executive Office of the President by the Employment Act of 1946 (15 U.S.C. 1023). It now functions under that statute and Reorganization Plan No. 9 of 1953 (5 U.S.C. app.), effective August 1, 1953.

The Council is governed by a chairman and two members. The Chairman

is appointed by the President and confirmed by the United States Senate. The Members are appointed by the President.

The Council analyzes the national economy and its various segments; advises the President on economic developments; appraises the economic programs and policies of the Federal

Government; recommends to the President policies for economic growth and stability; assists in the preparation of the economic reports of the President to

the Congress; and prepares the Annual Report of the Council of Economic Advisers.

The Council on Environmental Quality formulates and recommends national policies and initiatives to improve the environment.

The Council on Environmental Quality (CEQ) was established within the Executive Office of the President by the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.). The Environmental Quality Improvement Act of 1970 (42 U.S.C. 4371 et seq.) established the Office of Environmental Quality (OEQ) to provide professional and administrative support for the Council. The Council and OEQ are collectively referred to as the Council on Environmental Quality, and the CEQ Chair, who is appointed by the President

and confirmed by the Senate, serves as the Director of OEQ.

The Council develops policies which bring together the Nation's social, economic, and environmental priorities, with the goal of improving Federal decisionmaking. As required by NEPA, CEQ evaluates, coordinates, and mediates Federal activities. It advises and assists the President on both national and international environmental policy matters. CEQ also oversees Federal agency and department implementation of NEPA.

The National Security Council was established by the National Security Act of 1947, as amended (50 U.S.C. 402). The Council was placed in the Executive Office of the President by Reorganization Plan No. 4 of 1949 (5 U.S.C. app.).

The National Security Council is chaired by the President. Its statutory members, in addition to the President, are the Vice President and the Secretaries of State and Defense. The Chairman of the Joint Chiefs of Staff is the statutory military adviser to the Council, and the Director of National Intelligence is its intelligence adviser. The Secretary of the Treasury, the U.S. Representative to the United Nations, the Assistant to the

President for National Security Affairs, the Assistant to the President for Economic Policy, and the Chief of Staff to the President are invited to all meetings of the Council. The Attorney General and the Director of National Drug Control Policy are invited to attend meetings pertaining to their jurisdictions; other officials are invited, as appropriate.

The Council advises and assists the President in integrating all aspects of national security policy as it affects the United States—domestic, foreign, military, intelligence, and economic—in conjunction with the National Economic Council.

The Office of Management and Budget evaluates, formulates, and coordinates management procedures and program objectives within and among Federal departments and agencies. It also controls the administration of the Federal budget, while routinely providing the President with recommendations regarding budget proposals and relevant legislative enactments.

OFFICE OF MANAGEMENT AND BUDGET

The Office of Management and Budget (OMB), formerly the Bureau of the Budget, was established in the Executive Office of the President pursuant to Reorganization Plan No. 1 of 1939 (5 U.S.C. app.).

The Office's primary functions are: to assist the President in developing and maintaining effective government by reviewing the organizational structure and management procedures of the executive branch to ensure that the intended results are achieved; to assist in developing efficient coordinating mechanisms to implement Government activities and to expand interagency cooperation; to assist the President in preparing the budget and in formulating the Government's fiscal program; to supervise and control the administration of the budget; to assist the President by clearing and coordinating departmental advice on proposed legislation and by making recommendations effecting Presidential action on legislative enactments, in accordance with past practice; to assist in developing regulatory reform proposals and programs for paperwork reduction, especially reporting burdens of the public; to assist in considering, clearing, and, where necessary, preparing proposed Executive orders and proclamations; to plan and develop information systems that provide the President with program performance data; to plan, conduct, and promote evaluation efforts that assist the President in assessing program objectives, performance, and efficiency; to keep the President informed of the

progress of activities by Government agencies with respect to work proposed, initiated, and completed, together with the relative timing of work between the several agencies of the Government, all to the end that the work programs of the several agencies of the executive branch of the Government may be coordinated and that the moneys appropriated by the Congress may be expended in the most economical manner, barring overlapping and duplication of effort; and to improve the economy, efficiency, and effectiveness of the procurement processes by providing overall direction of procurement policies, regulations, procedures, and forms.

The Office of National Drug Control Policy assists the President in establishing policies, priorities, and objectives in the National Drug Control Strategy. It also provides budget, program, and policy recommendations on the efforts of National Drug Control Program agencies.

The Office of National Drug Control Policy was established by the National Narcotics Leadership Act of 1988 (21 U.S.C. 1501 et seq.), effective January 29, 1989, reauthorized through the Office of National Drug Control Policy Reauthorization Act of 1988 (21 U.S.C. 1701 et seq.), and again reauthorized through the Office of National Drug Control Policy Reauthorization Act of 2006 (21 U.S.C. 1701 et seq.).

The Director of National Drug Control Policy is appointed by the President with the advice and consent of the Senate. The Director is assisted by five statutorily-recognized Presidential appointees: a Deputy Director, a Deputy Director for Demand Reduction, a Deputy Director for Supply Reduction, and a Deputy Director for State, Local, and Tribal Affairs.

The Director is responsible for establishing policies, objectives, priorities, and performance measurements for the National Drug Control Program, as well as for annually

promulgating the President's National Drug Control Strategy, other related drug control strategies, supporting reports, and a program budget, which the President submits to Congress. The Director advises the President regarding necessary changes in the organization, management, budgeting, and personnel allocation of Federal agencies monitoring drug activities. The Director also notifies Federal agencies if their policies do not comply with their responsibilities under the National Drug Control Strategy. Additionally, the Office has direct programmatic responsibility for the Drug-Free Communities Support Program and the High Intensity Drug Trafficking Areas Program.

The United States Trade Representative is responsible for directing all trade negotiations of and formulating trade policy for the United States.

The Office of the United States Trade Representative was created as the Office of the Special Representative for Trade Negotiations by Executive Order 11075 of January 15, 1963. The Trade Act of 1974 (19 U.S.C. 2171) established the Office as an agency of the Executive Office of the President charged with administering the trade agreements program.

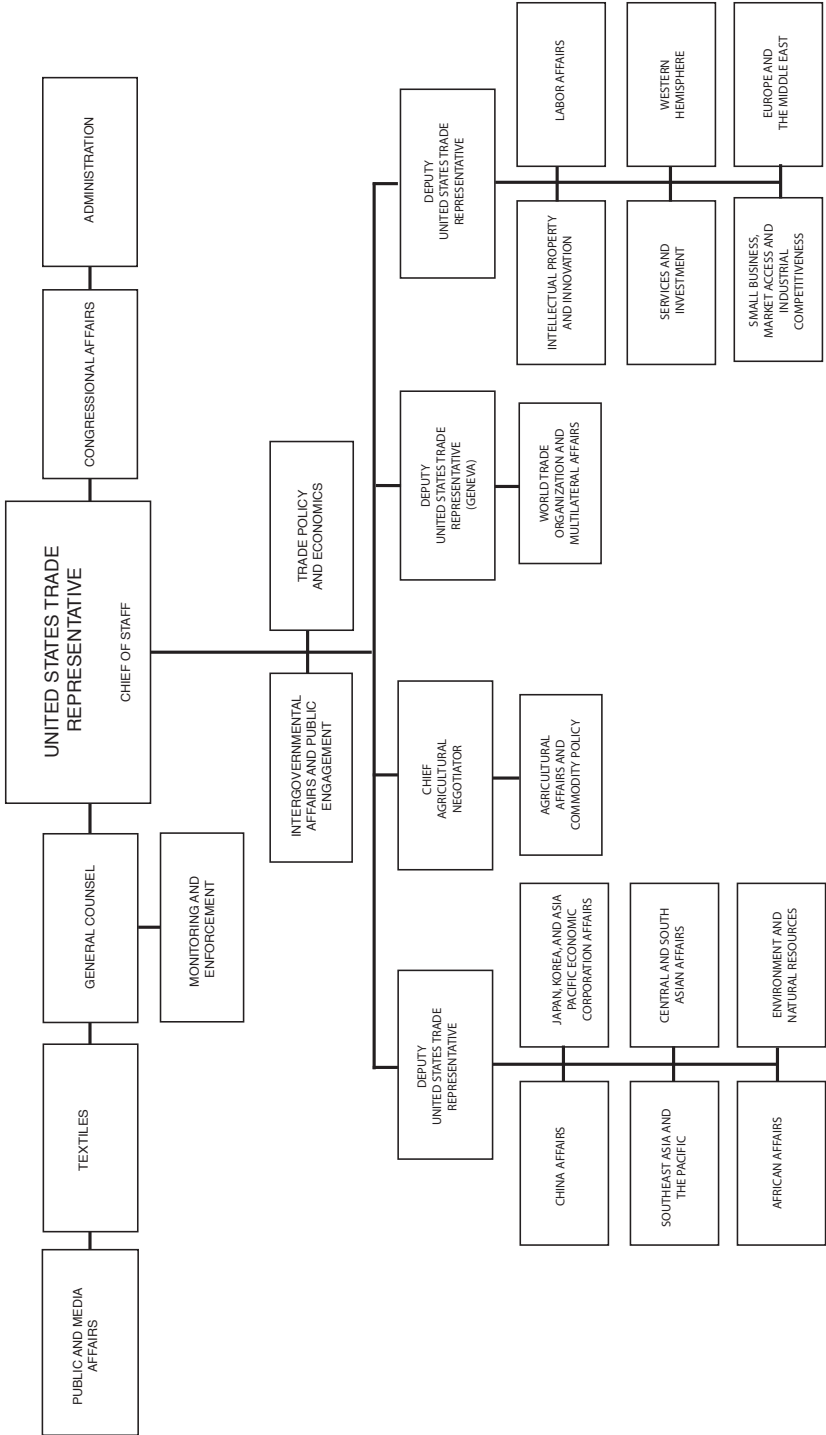

The Office is responsible for setting and administering overall trade policy. It also provides that the United States Trade Representative shall be chief representative of the United States for the following: all activities concerning the General Agreement on Tariffs and Trade; discussions, meetings, and negotiations in the Organization for Economic Cooperation and Development when such activities deal primarily with trade and commodity issues; negotiations in the U.N. Conference on Trade and Development and other multilateral institutions when such negotiations deal primarily with trade and commodity issues; other bilateral and multilateral

negotiations when trade, including East-West trade, or commodities is the primary issue; negotiations under sections 704 and 734 of the Tariff Act of 1930 (19 U.S.C. 1671c and 1673c); and negotiations concerning direct investment incentives and disincentives and bilateral investment issues concerning barriers to investment.

The Omnibus Trade and Competitiveness Act of 1988 codified these prior authorities and added additional authority, including the implementation of section 301 actions (regarding enforcement of U.S. rights under international trade agreements).

The Office is headed by the United States Trade Representative, a Cabinet-level official with the rank of Ambassador, who is directly responsible to the President. There are three Deputy United States Trade Representatives, who also hold the rank of Ambassador, two located in Washington and one in Geneva. The Chief Agricultural Negotiator also holds the rank of Ambassador.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

The United States Trade Representative serves as an ex officio member of the Boards of Directors of the Export-Import Bank and the Overseas Private

Investment Corporation and serves on the National Advisory Council for International Monetary and Financial Policy.

[For the Department of Agriculture statement of organization, see the Code of Federal Regulations, Title 7, Part 2]

The Department of Agriculture develops agricultural markets, fights hunger and malnutrition, conserves natural resources, and ensures standards of food quality through safeguards and inspections.

The Department of Agriculture (USDA) was created by an act of Congress on May 15, 1862 (7 U.S.C. 2201). In carrying out its work in the program mission areas, USDA relies on the support of departmental administration staff, as well as the Office of the Chief Financial Officer, Office of the Chief Information Officer, Office of Communications, Office of Congressional and Intergovernmental Relations, Office of the Inspector General, and the Office of the General Counsel.

Rural Development

USDA's rural development mission is to increase the economic opportunities of rural Americans and improve their quality of life. To accomplish this, USDA works to foster new cooperative relationships among Government, industry, and communities. As a capital investment bank, USDA provides financing for rural housing and community facilities, business and cooperative development, telephone and high-speed Internet access, electric, water, and sewer infrastructure. Approximately 800 Rural Development field offices, staffed by 7,000 employees, provide frontline delivery of rural development loan and grant programs at the local level.

Rural Business-Cooperative Service

To meet business credit needs in underserved rural areas, USDA's Rural Business-Cooperative Service provides loan guarantees, direct loans, and grants to rural businesses, cooperatives, farmers, and ranchers, often in partnership with private sector lenders. The following is a list and description of USDA's Rural Development business and cooperative programs.

Business and Industry Guaranteed Loan Program This program creates jobs and stimulates the rural economy by providing financial backing to rural businesses. Borrowers use loan proceeds for working capital, machinery and equipment, buildings, real estate, and certain types of debt refinancing. A borrower may be a cooperative organization, corporation, partnership, nonprofit corporation, Native American tribe, federally recognized tribal group, public body, or individual.

Intermediary Relending Program This program provides capital to rural areas through low-interest and direct loans made to nonprofit corporations, public agencies, Native American groups, and certain corporations (intermediaries). These intermediaries establish revolving loan funds so they can relend the money to businesses in economically and socially disadvantaged

rural communities. The process creates a source of capital that promotes job growth and economic development.

Rural Business Enterprise Grant

Program The Rural Business Enterprise Grant Program (RBEG) provides grants for rural projects that fund and facilitate the development of small and emerging businesses, business incubators, employment, and related adult education programs. Eligible organizations include rural public entities (towns, communities, State agencies, and authorities), Native American tribes, and nonprofit corporations.

Rural Economic Development Loan and Grant Program The REDLoan program provides zero-interest loans to local utilities, which the utilities provide to local businesses (ultimate recipients) for projects that will create and retain employment in rural areas. The ultimate recipients repay the lending utility directly, and the utility repays the loan to the agency.

The REDGrant program provides grant funds to local utility organizations, which they use to establish revolving loan funds. Each utility provides loans through a revolving loan fund for projects that will create or retain rural jobs.

Rural Microenterprise Assistance

Program This program supports the development and ongoing success of rural microentrepreneurs and microenterprises by providing loans and grants to Micro Development Organizations (MDOs). MDOs use the loan funds to establish or recapitalize a Rural Microloan Revolving Fund and grants funds to provide training and technical assistance to support the development of new microenterprises and successful continuing operation and growth of rural microenterprises.

Organizations eligible to become MDOs are nonprofit entities, Native American tribes, and public institutions of higher education that have a record of successfully delivering such services or that have a credible plan to develop an effective program to deliver them.

Biorefinery Assistance Program This program provides loan guarantees for the development, construction,

and retrofitting of new and emerging technologies for the development of advanced biofuels.

Repowering Assistance Program

This program provides payments to biorefineries in existence as of June 18, 2008. These biorefineries use renewable biomass to replace the fossil fuel used to produce heat or power biorefineries.

Advanced Biofuel Repayment Program

The program provides payments to producers to support and expand production of advanced biofuels refined from sources other than corn kernel starch.

Rural Energy for America Program

The Rural Energy for America Program (REAP) provides loan guarantees and grants to agricultural producers and rural small businesses so they can install renewable energy systems, make energy efficiency improvements, conduct energy audits, provide renewable energy development assistance, and conduct feasibility studies for renewable energy systems.

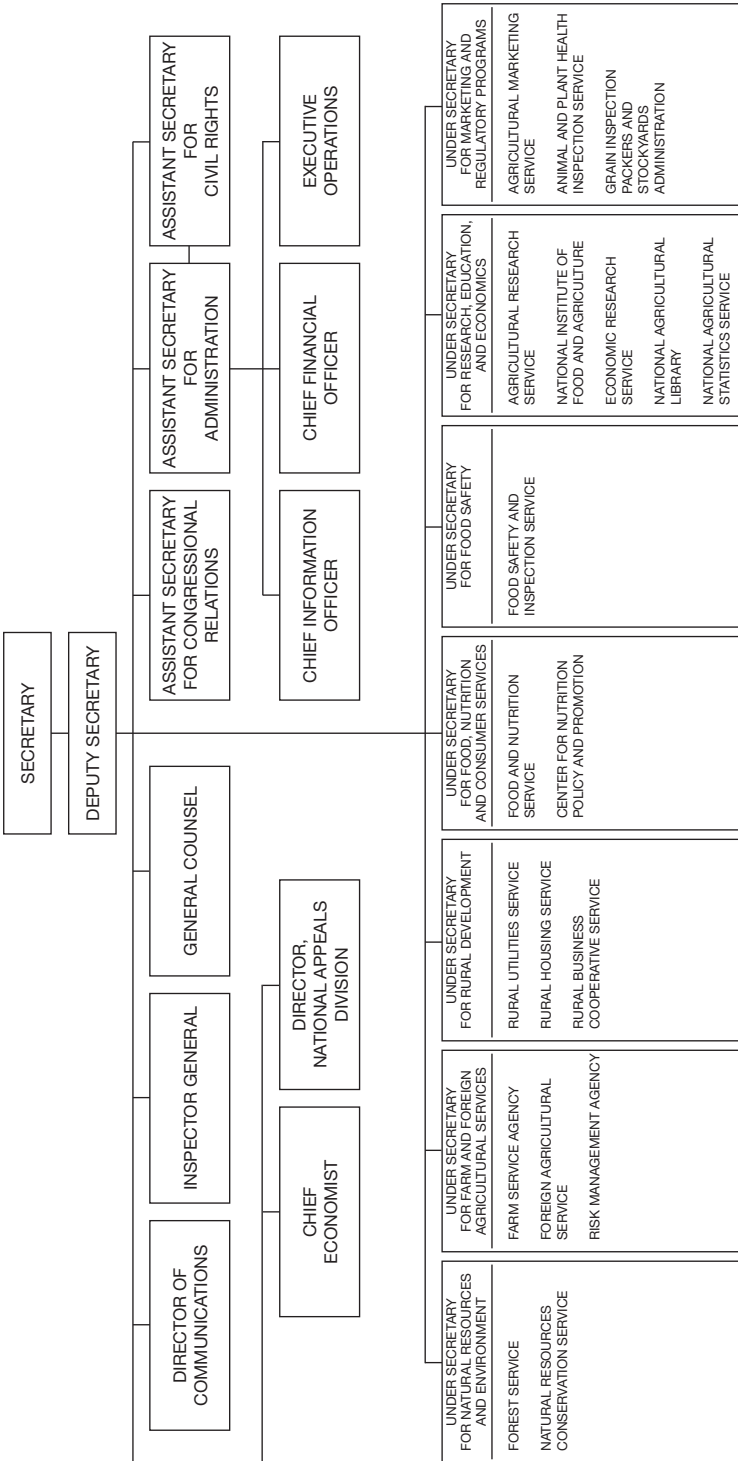

Delta Health Care Services Grant Program This program provides financial assistance to address the continued unmet health needs in 252 counties and parishes in parts of 8 States through cooperation among health care professionals, institutions of higher education, research institutions, and other entities in the Delta Region.

Rural Business Opportunity Grant Program This program promotes sustainable economic development in rural communities with exceptional needs. Recipients use the grants to fund community- and technology-based economic development projects, feasibility studies, leadership and entrepreneur training, rural business incubators, and long-term business strategic planning.

Rural Cooperative Development Grant Program This program provides grants to public, nonprofit organizations and institutions of higher learning so they can establish and operate centers for cooperative development.

Small Socially-Disadvantaged Producer Grant Program This program provides technical assistance to small

DEPARTMENT OF AGRICULTURE

socially-disadvantaged agricultural producers in rural areas.

Value-Added Producer Grant Program The Value-Added Producer Grant program encourages independent agricultural producers to refine or enhance their raw products into marketable goods, which increases the value of the product and the returns to producers.

Cooperative Programs Cooperative Programs research helps farmers and rural communities become self-reliant through the use of cooperative organizations. Studies support cooperatives that market farm products, purchase production supplies, and perform related business services. These studies concentrate on the financial, organizational, legal, social, and economic aspects of cooperative activity. Technical assistance and research help businesses effectively improve cooperative performance by organizing new cooperatives, merging existing cooperatives, changing business structures, and developing strategies for growth. Applied research gives farmers and rural communities expert assistance pertaining to their cooperatives.

The Cooperative Programs research staff collects and publishes statistics on cooperative activity in U.S. agriculture and provides research for USDA/Rural Development's "Rural Cooperatives," a bimonthly magazine on developments and research in the field of cooperative management.

Rural Housing Programs Rural Development provides affordable rental housing, homeownership opportunities, and essential community facilities to rural Americans through a broad array of direct loan, guarantee, and grant programs. Rural residents and communities may inquire about any of these programs through local and State rural development offices. It provides assistance that enables low- and very low-income rural Americans to live in safe and decent rental housing. It also provides financial and management assistance through the following services: guaranteed single-family housing (SFH) loans that guarantee loans made by commercial lenders to moderate-income

rural residents with sufficient income and acceptable credit, who may lack the down payment to secure a loan without assistance; direct SFH loans made available to people with incomes less than 80 percent of area median, to build, purchase, and repair rural homes; home improvement and repair loans and grants for owner-occupants to remove health and safety hazards from a home; mutual self-help housing technical assistance grants for nonprofit organizations and public bodies to help groups of six to eight lower income families to build their own homes by providing "sweat equity," which reduces the families' mortgages; rural housing site loans for private or public nonprofit organizations to purchase sites for the development of housing for lower income families; direct and guaranteed multifamily housing loans for private nonprofit corporations, consumer cooperatives, State or local public agencies, and individuals or organizations operating on a nonprofit or limited profit basis to provide rental or cooperative housing in rural areas for persons of very low, low, and moderate income; farm labor housing loans and grants enabling farmers, public or private nonprofit organizations, or units of local government to build, buy, or rehabilitate farm labor housing; housing preservation grants made to a public body or public or private nonprofit organization to provide assistance to homeowners and landlords to repair and rehabilitate housing for lower income families in rural areas; housing for the homeless, SFH real estate-owned (REO) property to nonprofit organizations or public bodies for transitional housing for the homeless and to the Federal Emergency Management Agency to house families affected by natural disasters; and community program loans, direct and guaranteed loans, and grants for public and quasi-public bodies, nonprofit associations, and Indian tribes for essential community facilities such as health care centers, public safety buildings and vehicles, and childcare centers.

Rural Utilities Programs Rural Development helps rural electric and telecommunications utilities in obtaining

financing and administers a nationwide water and waste loan and grant program to improve the quality of life and promote economic development in rural America. A total of 890 rural electric and 800 rural telecommunications utilities in 47 States, Puerto Rico, the Virgin Islands, Guam, the Republic of the Marshall Islands, the Northern Mariana Islands, and the Federated States of Micronesia have received financial assistance. It also provides assistance through the programs that are mentioned here. The electric program provides loans for furnishing and improving electric service to persons in rural areas, including construction of electric generating plants, transmission and distribution lines, on- and off-grid renewable energy systems, and conservation and energy efficiency improvements to provide reliable electric service. The telecommunications program provides loans and grants to improve telecommunications service and high-speed Internet access in rural areas. The water and waste direct and guaranteed loan program provides assistance to develop water and wastewater systems, including solid waste disposal and storm drainage in rural areas, cities, and towns. Water and waste disposal grants assist in reducing water and waste disposal costs to a reasonable level for users of the system. Emergency community water assistance grants provide assistance to rural communities experiencing a significant decline in quantity or quality of drinking water. Technical assistance and training grants are available to nonprofit organizations to provide rural water and waste system officials with technical assistance and training on a wide range of issues relating to the delivery of water and waste service to rural residents. Solid waste management grants are available for nonprofit organizations and public bodies to provide technical assistance and training to rural areas and towns to reduce or eliminate pollution of water resources and improve planning and management of solid waste facilities. The rural water circuit rider technical assistance program provides technical assistance to rural water systems

to solve operational, financial, and management challenges. The distance learning and telemedicine program provides financing to help rural schools and health care providers purchase or improve telecommunications facilities and equipment to bring educational and medical resources to rural areas that otherwise might be unavailable. Rural Development also guarantees loans from the Department of the Treasury's Federal Financing Bank (FFB), which lends to borrowers, primarily for large-scale electric and telecommunication facilities. It may also guarantee electric and telecommunications loans from private sources.

Marketing and Regulatory Programs

This mission area includes marketing and regulatory programs other than those concerned with food safety.

Agricultural Marketing Service

The Agricultural Marketing Service was established by the Secretary of Agriculture on April 2, 1972, under the authority of Reorganization Plan No. 2 of 1953 (5 U.S.C. app.) and other authorities. The Service administers standardization, auditing, grading, certification, market news, marketing orders, research and promotion, and regulatory programs.

Audit Services The Service provides a wide range of voluntary, user-fee audit-based programs that facilitate the global marketing of agricultural products. The Service develops and maintains audit programs, conducts direct and indirect audits, and serves as third-party unbiased contract auditors to verify specified product, process, or system requirements, such as production, processing, and handling requirements for the agricultural industry.

Market News The Service provides current, unbiased information to producers, processors, distributors, and others to assist them in the orderly marketing and distribution of farm

commodities. Information is collected on supplies, shipments, prices, location, quality, condition, and other market data on farm products in specific markets and marketing areas. The data is disseminated globally via the Internet and other electronic means. The Service also assists other countries in developing their own marketing information systems.

Standardization, Grading, and Classing Nearly 600 grade standards have been established for some 230 agricultural commodities to help buyers and sellers trade on agreed-upon quality levels. Standards are developed with the benefit of views from those in the industries directly affected and others interested. The Service also participates in developing international commodity standards to facilitate trade. Grading and classing services are provided to certify the grade and quality of products. These grading services are provided to buyers and sellers of live cattle, swine, sheep, meat, poultry, eggs, rabbits, fruits, vegetables, tree nuts, peanuts, dairy products, tobacco, and other miscellaneous food products. Classing services are provided to buyers and sellers of cotton and cotton products. These services are mainly voluntary and are provided upon request and for a fee. The Service is also responsible for testing seed.

Laboratory Testing and Laboratory Approval Services The Service provides microbiological, chemical, and other scientific laboratory support to its commodity and food procurement programs, testing peanuts for aflatoxin and seeds for germination and purity. The Service also carries out quality assurance and safety oversight activities for its milk market laboratories, resident grading programs, and State and private laboratory programs. The Service also develops and establishes specific laboratory approval programs for private laboratories that test for a specific analyte in agriculture commodities for various industries or stakeholders.

Food Quality Assurance Under a Governmentwide quality assurance program, the Service is responsible for the development and revision of

specifications used by Federal agencies in procuring food for military and civilian uses. The Service coordinates and approves certification programs designed to ensure that purchased products conform to the specification requirements.

Regulatory Programs The Service administers several regulatory programs designed collectively to protect producers, handlers, and consumers of agricultural commodities from financial loss or personal injury resulting from careless, deceptive, or fraudulent marketing practices. Such regulatory programs encourage fair trading practices in the marketing of fruits and vegetables and require truth in seed labeling and in advertising. The Service also monitors the disposition of restricted shell eggs.

Marketing Agreements and Orders The Service administers marketing agreements and orders to establish and maintain orderly marketing conditions for certain commodities. Milk marketing orders establish minimum prices that handlers or distributors are required to pay producers. Programs for fruits, vegetables, and related specialty crops like nuts and spearmint oil promote product quality control and help stabilize supplies and market prices. In some cases, they also authorize research and market development activities, including advertising supported by assessments that handlers pay. Through the orderly marketing of commodities facilitated by these programs, the interests of both producers and consumers are protected.

Plant Variety Protection Program The Service administers a program that provides for the issuance of certificates of plant variety protection. These certificates afford developers of novel varieties of sexually reproduced plants exclusive rights to sell, reproduce, import, or export such varieties, or use them in the production of hybrids or different varieties for a period of 20 years for nonwoody plants and 25 years for woody plants.

Research and Promotion Programs The Service monitors certain industry-sponsored research, promotion, and information programs authorized by

Federal laws. These programs provide farmers and processors with a means to finance and operate various research, promotion, and information activities for agricultural products, including cotton, potatoes, soybeans, sorghum, peanuts, popcorn, mushrooms, blueberries, processed raspberries, avocados, mangoes, watermelon, honey, eggs, milk and dairy products, beef, pork, lamb, and softwood lumber.

Transportation Programs The Service provides insightful information and analysis on the transportation of agricultural products. Work products are used by agricultural shippers to make better decisions and thereby improve farm income, expand exports, and better utilize the transportation system to meet the growing needs of rural America. Analysis is provided to Federal, State, and local decisionmakers and to agricultural shippers on policy matters related to agricultural and rural transportation. The program also provides technical assistance and information on agricultural and food transportation for producers, shippers, rural communities, carriers, Government agencies, and universities.

National Organic Program Through the National Organic Program, the Service develops, implements, and administers national production, handling, and labeling standards for organic food production. Organic production integrates cultural, biological, and mechanical practices to foster cycling of resources, promote ecological balance, and conserve biodiversity.

Farmers Markets and Local Food Marketing The Service helps improve marketing and distribution opportunities for U.S. agricultural products through a combination of applied research, marketing grants, and technical services, such as designing marketing facilities, conducting infrastructure assessments, feasibility studies, and providing information to States, municipalities, and others regarding funding and business resources for strengthening local and regional food enterprises.

Pesticide Data Program The Service also administers the Pesticide Data Program, which, in cooperation with

States, samples and analyzes over 30 agricultural commodities in the U.S. food supply for pesticide residue. It shares residue test results with the Environmental Protection Agency and other public agencies.

Pesticide Recordkeeping

Program The Service manages the Pesticide Recordkeeping Program in coordination with State agencies and the Environmental Protection Agency. The Service has developed educational programs and works with State agencies in inspecting applicator records.

Animal and Plant Health Inspection

Service [For the Animal and Plant Health Inspection Service statement of organization, see the Code of Federal Regulations, Title 7, Part 371]

The Animal and Plant Health Inspection Service (APHIS) was reestablished by the Secretary of Agriculture on March 14, 1977, pursuant to authority contained in 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953 (5 U.S.C. app.). APHIS was established to conduct regulatory and control programs to protect and improve animal and plant health for the benefit of agriculture and the environment. In cooperation with State governments, industry stakeholders, and other Federal agencies, APHIS works to prevent the entry and establishment of foreign animal and plant pests. APHIS also regulates certain genetically engineered organisms and works to support healthy international agricultural trade and exports of U.S. agricultural products. In addition, the Agency enforces regulations to ensure the humane treatment of certain animals and carries out research and operational activities to reduce crop and livestock depredation caused by birds, rodents, and predators.

Biotechnology Regulatory Services

Biotechnology regulatory officials are responsible for regulating the importation, movement, and field release

of genetically engineered plants and certain other genetically engineered organisms that may pose a risk to plant health.

Biotechnology regulations are designed to ensure that genetically engineered organisms, such as herbicide-tolerant or drought-resistant crops, are as safe for agriculture and the environment as traditionally bred crop varieties. In regulating biotechnology, APHIS works in concert with the Environmental Protection Agency and the Food and Drug Administration, agencies that also play important roles in protecting agriculture, a safe food supply, and the environment. APHIS's involvement begins when a person or organization wishes to import, move across a State line, or field-test a genetically engineered plant. These activities are subject to the Agency's permitting and notification system.

Plant Protection and Quarantine

Plant protection officials are responsible for programs to control or eradicate damaging foreign plant pests and diseases. These programs are carried out in cooperation with the States involved, other Federal agencies, farmers, and private organizations. Pest control programs use a single tool or a combination of pest control techniques, both chemical and nonchemical, which are both effective and safe. Plant protection officials develop Federal regulations and policies that prohibit or restrict the entry into the United States of foreign pests and plants, plant products, and other materials that may harbor pests, diseases, or noxious weeds. They also manage programs for overseas preclearance—agricultural inspection—of commodities, passengers, and U.S. military activities. These efforts help protect the health and value of U.S. agricultural production and natural resources.

Veterinary Services Animal health officials are responsible for programs to protect and improve the health, quality, and marketability of U.S. animals and animal products. The programs are carried out through cooperative links with States, foreign governments,

livestock producers, and other Federal agencies.

APHIS officials conduct exclusion and quarantine activities for animal pests and diseases, carry out eradication and control programs for certain diseases, provide laboratory diagnostic services, and conduct animal health monitoring and surveillance. They also certify as to the health status of animals and animal products being exported to other countries and respond to animal disease incursions or epidemics that threaten the health status of U.S. livestock and poultry. Because human health is closely linked to veterinary health, APHIS animal health officials cooperate with other agencies and organizations to manage effectively the intersection between wildlife, veterinary, and human health issues. APHIS also administers a Federal law intended to ensure that all veterinary biological products used in the diagnosis, prevention, and treatment of animal disease are safe, pure, potent, and effective.

Animal Care APHIS administers the Animal Welfare Act, which establishes standards for the humane care and handling of certain warmblooded animals bought, sold, and transported in commerce and used or intended for use as pets at the wholesale level or used or intended for use in exhibitions or for research purposes. The Agency also enforces the Horse Protection Act of 1970, which prohibits the soring of horses at shows and sales.

International Services APHIS activities in the international arena include conducting cooperative plant and animal pest and disease control, eradication, and surveillance programs in foreign countries. These programs provide a first line of defense for the United States against threats such as screwworm, Mediterranean fruit fly, and other exotic pests and diseases. APHIS also provides international representation concerning sanitary and phytosanitary technical trade issues and conducts capacity building activities to help develop the animal and plant health competencies and infrastructure of international counterparts.

Wildlife Services Wildlife Services officials provide assistance, upon request, to States, counties, local communities, and agricultural producer groups to reduce crop and livestock depredations caused by birds, rodents, and predators. Using methods and techniques that are biologically sound, environmentally acceptable, and economically feasible, they educate and advise farmers and ranchers on proper uses of control methods and techniques; suppress serious nuisances and threats to public health and safety caused by birds, rodents, and other wildlife in urban and rural communities; and work with airport managers to reduce risks of bird strikes. Wildlife Services officials also assist in the recovery of endangered and threatened species and monitor wildlife across the country for diseases to help protect animal and human health. In addition, they conduct research into predator-prey relationships, new control methods such as wildlife contraception, and more efficient and safe uses of existing methods such as toxicants, repellents and attractants, biological controls, scare devices, and habitat alteration.

For further information, contact Legislative and Public Affairs, Animal and Plant Health Inspection Service, Department of Agriculture, 1400 Independence Ave, SW., Washington, DC 20250. Phone, 202-799-7030. Internet, <http://www.aphis.usda.gov>.

Grain Inspection, Packers, and Stockyards Administration The Grain Inspection, Packers, and Stockyards Administration (GIPSA) was established in 1994, to facilitate the marketing of livestock, poultry, meat, cereals, oilseeds, and related agricultural products, and to promote fair and competitive trading practices for the overall benefit of consumers and American agriculture. GIPSA's Packers and Stockyards Program protects fair trade practices, financial integrity, and competitive markets for livestock, meat, and poultry. GIPSA's Federal Grain Inspection Service facilitates the marketing of U.S. grains, oilseeds, and related agricultural products through its world-renowned grain inspection and weighing system, and it maintains the integrity of the grain

marketing system by developing unbiased grading standards and methods for assessing grain quality.

Inspection The United States Grain Standards Act requires most U.S. export grain to be officially inspected. At export port locations, inspection is performed by GIPSA or by State agencies that have been delegated export inspection authority by the Administrator. For domestic grain marketed at inland locations, the Administrator designates private and State agencies to provide official inspection services upon request. Both export and domestic services are provided on a fee-for-service basis.

Weighing Official weighing of U.S. export grain is performed at port locations by GIPSA or by State agencies that have been delegated export weighing authority by the Administrator. For domestic grain marketed at inland locations, the weighing services may be provided by GIPSA or by designated private or State agencies. Upon request, weighing services are provided on a fee-for-service basis.

Standardization GIPSA is responsible for establishing, maintaining, and revising official U.S. standards for corn, wheat, rye, oats, barley, flaxseed, sorghum, soybeans, triticale, sunflower seed, canola, and mixed grain. It is authorized to perform applied research to develop methods to improve accuracy and uniformity in grading grain. It is also responsible for standardization and inspection activities for rice, dry beans, peas, lentils, hay, straw, hops, and related processed grain commodities. Although standards no longer exist for hay, straw, and hops, GIPSA maintains inspection procedures for, and retains authority to inspect, these commodities.

Methods Development GIPSA's methods development activities include applied research or tests to produce new or improved techniques for measuring grain quality. Examples include knowledge gained through the study of how to establish real-time grain inspection, develop reference methods in order to maintain consistency and standardization in the grain inspection system, as well as the comparison of

different techniques for evaluation of end-use quality in wheat.

Packers and Stockyards Activities

Through the administration of the Packers and Stockyards Act, GIPSA prohibits unfair, deceptive, and unjust discriminatory practices by market agencies, dealers, stockyards, packers, swine contractors, and live poultry dealers in the livestock, meat packing, and poultry industries. GIPSA fosters fair competition and ensures payment protection for growers and farmers. To this end, GIPSA performs various regulatory functions, including investigating alleged violations of the Act, auditing regulated entities, verifying the accuracy of scales, and monitoring industry trends to protect consumers and members of the livestock, meat, and poultry industries.

GIPSA is also responsible for the Truth-in-Lending Act and the Fair Credit Reporting Act as each relates to persons and firms subject to the Act. GIPSA carries out the Secretary's responsibilities under section 1324 of the Food Security Act of 1985 pertaining to State-established central filing systems to prenotify buyers, commission merchants, and selling agents of security interests against farm products. GIPSA administers the section of the statute commonly referred to as the "Clear Title" provision and certifies qualifying State systems.

For further information, contact the Grain Inspection, Packers, and Stockyards Administration, Department of Agriculture, 1400 Independence Ave. SW., Washington, DC 20250. Phone, 202-720-0219.

Food Safety

Food Safety and Inspection Service

The Food Safety and Inspection Service (FSIS) was established by the Secretary of Agriculture on June 17, 1981, pursuant to authority contained in 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953 (5 U.S.C. app.). FSIS is responsible for monitoring the Nation's commercial supply of meat, poultry, and processed egg products.

Meat, Poultry, and Processed Egg Products Inspection FSIS is the public health regulatory agency in the U.S. Department of Agriculture that ensures

meat, poultry, and processed egg products are safe, wholesome, accurately labeled, and properly packaged. FSIS enforces the Federal Meat Inspection Act (FMIA), the Poultry Products Inspection Act (PPIA), and the Egg Products Inspection Act (EPIA), which require Federal inspection and regulation of meat, poultry, and processed egg products prepared for distribution in commerce for use as human food. FSIS is also responsible for administering the Humane Methods of Slaughter Act, which requires that livestock are handled and slaughtered humanely at the FSIS-inspected establishment.

FSIS administers FMIA, PPIA, and EPIA by developing and implementing data-driven regulations, including inspection, testing, and enforcement activities for the products under FSIS's jurisdiction. In addition to mandatory inspection of meat, poultry, and processed egg products, FSIS tests samples of these products for microbial and chemical residues to monitor trends for enforcement purposes and to understand, predict, and prevent contamination. FSIS also ensures that only meat, poultry, and processed egg products that meet U.S. requirements are imported into the United States, and it certifies meat, poultry, and processed egg products for export.

FSIS also monitors meat, poultry, and processed egg products throughout storage, distribution, and retail channels, and it ensures regulatory compliance to protect the public, including detention of products, voluntary product recalls, court-ordered seizures of products, administrative suspension and withdrawal of inspection, and referral of violations for criminal and civil prosecution. To protect against intentional contamination, the Agency conducts food defense activities, as well.

FSIS maintains a toll-free Meat and Poultry Hotline (phone, 888-674-6854; TTY, 800-256-7072) and chat feature to answer questions in English and Spanish about the safe handling of meat, poultry, and egg products. The Hotline's hours are weekdays, from 10 a.m. to 4 p.m., EST, year round. An extensive selection of food safety messages in English and

Spanish is available at the same number at all hours of the day. Questions can also be submitted anytime to MPHotline.fsis@usda.gov.

“Ask Karen,” a Web-based virtual representative tool providing answers to consumer questions about food safety, may be accessed at www.askkaren.gov.

Food, Nutrition, and Consumer Services

The mission of Food, Nutrition, and Consumer Services is to reduce hunger and food insecurity, in partnership with cooperating organizations, by providing access to food, a healthful diet, and nutrition education to children and needy people in a manner that supports American agriculture.

Food and Nutrition Service The Food and Nutrition Service (FNS) administers the USDA domestic food assistance programs. These programs, which serve one in four Americans in the course of a year, represent our Nation’s commitment to the principle that no one in this country should fear hunger. They provide a Federal safety net to people in need. The goals of the programs are to provide needy persons with access to a more nutritious diet, to improve the eating habits of the Nation’s children, and to help provide America’s farmers with an expanded customer base.

FNS works in partnership with the States in all its programs. State and local agencies determine most administrative details regarding distribution of nutrition benefits and eligibility of participants, and FNS provides commodities and funding for additional food and to cover administrative costs. FNS administers the following nutrition assistance programs:

The Supplemental Nutrition Assistance Program (SNAP) provides nutrition benefits through State and local agencies to needy persons to increase their food purchasing power. The benefits are used by program participants to buy food

in retail stores approved by the FNS to accept and redeem the benefits.

The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) improves the health of low-income pregnant and postpartum women, infants and children up to 5 years of age by providing them with specific nutritious foods, nutrition education, and health care referrals. The WIC and Seniors’ Farmers’ Market Nutrition Programs (FMNP and SFMNP) provide WIC participants and senior citizens with increased access to fresh produce. WIC participants receive coupons to purchase fresh fruits and vegetables from authorized farmers.

The Commodity Supplemental Food Program provides a package of foods monthly to low-income pregnant, postpartum, and breastfeeding women, their infants and children under age 6, and the elderly. Nutrition education is also provided through this program.

The National School Lunch Program supports nonprofit food services in elementary and secondary schools and in residential childcare institutions. Almost 70 percent of the meals served through these institutions are free or at reduced cost.

The School Breakfast Program provides needy children with free or low-cost breakfasts that meet established nutritional standards.

The Special Milk Program for Children provides milk for children in those schools, summer camps, and childcare institutions that have no federally supported meal programs.

The Child and Adult Care Food Program provides cash and commodities for meals for preschool- and school-age children in childcare facilities and for functionally impaired adults in facilities that provide nonresidential care for such individuals.

The Summer Food Service Program helps various organizations get nutritious meals to needy preschool- and school-age children during the summer months.

The Emergency Food Assistance Program provides State agencies with commodities for distribution to food banks, food pantries, soup kitchens, and

other charitable institutions throughout the country, with administrative funds to assist in distribution.

The Food Distribution Program on Indian Reservations and the Trust Territories provides an extensive package of commodities monthly to low-income households on or near Indian reservations in lieu of SNAP benefits. This program is administered at the local level by Indian tribal organizations.

The Nutrition Assistance Programs for Puerto Rico and the Northern Marianas are block grant programs that replace the Supplemental Nutrition Assistance Program in these two territories and provide food coupons to resident participants.

Center for Nutrition Policy and Promotion The Center coordinates nutrition policy in USDA and provides overall leadership in nutrition education for the American public. It also coordinates with the Department of Health and Human Services in the review, revision, and dissemination of the Dietary Guidelines for Americans, the Federal Government's statement of nutrition policy formed by a consensus of scientific and medical professionals.

Farm and Foreign Agricultural Services

Farm Service Agency The Farm Service Agency (FSA) administers farm commodity, disaster, and conservation programs for farmers and ranchers, and makes and guarantees farm emergency, ownership, and operating loans through a network of State and county offices.

Farm Commodity Programs FSA manages commodity programs such as the direct and countercyclical program, commodity and livestock disaster programs, marketing assistance

loan programs, noninsured crop disaster assistance programs, and the tobacco transition payment program. It administers commodity loan programs for wheat, rice, corn, grain sorghum, barley, oats, oilseeds, peanuts, upland and extra-long-staple cotton, and sugar. FSA provides operating personnel for the Commodity Credit Corporation (CCC), a Government-owned and -operated organization. CCC provides short-term loans using the commodity as collateral. These loans provide farmers with interim financing and facilitate orderly marketing of farm commodities throughout the year.

Farm Loan Programs FSA makes and guarantees loans to family farmers and ranchers to purchase farmland and finance agricultural production. These programs help farmers who are temporarily unable to obtain private commercial credit. These may be beginning farmers who have insufficient net worth to qualify for commercial credit, who have suffered financial setbacks from natural disasters, or who have limited resources with which to establish and maintain profitable farming operations.

Noninsured Crop Disaster Assistance Program (NAP) NAP provides catastrophic crop loss protection for crops not covered by Federal crop insurance. Crops that are eligible include commercial crops grown for food and fiber, floriculture, ornamental nursery products, Christmas tree crops, turfgrass sod, seed crops, aquaculture (including ornamental fish such as goldfish), and industrial crops. Losses resulting from natural disasters not covered by the crop insurance policy may also be eligible for NAP assistance. NAP does not include trees grown for wood, paper, or pulp products.

Other Emergency Assistance There are FSA programs to assist farmers who encounter natural disasters from drought, flood, freeze, tornadoes, and other calamities. Eligible producers can be compensated for crop losses, livestock feed losses, and tree damage and for the cost of rehabilitating eligible farmlands damaged by natural disaster. Low-interest loans for eligible farmers can help

cover production and physical losses in counties declared disaster areas.

The largest component of USDA disaster assistance is the Crop Disaster Program (CDP), which has provided more than \$3 billion in financial relief to farmers, ranchers, foresters, and other agricultural producers who incurred losses because of recent adverse weather conditions.

Conservation Programs FSA's conservation programs include enhancement of wildlife habitat and water and air quality. The Conservation Reserve Program is the Federal Government's single-largest environmental improvement program on private lands. It safeguards millions of acres of topsoil from erosion, improves air quality, increases wildlife habitat, and protects ground and surface water by reducing water runoff and sedimentation. In return for planting a protective cover of grass or trees on vulnerable property, the owner receives a rental payment each year of a multiyear contract. Cost-share payments are also available to help establish permanent areas of grass, legumes, trees, windbreaks, or plants that improve water quality and give shelter and food to wildlife.

Commodity Operations FSA's commodity operations system facilitates the storage, management, and disposition of commodities used to meet humanitarian needs abroad. It administers the United States Warehouse Act (USWA), which authorizes the Secretary of Agriculture to license warehouse operators who store agricultural products. Warehouse operators that apply must meet the USDA standards established within the USWA and its regulations. Under the milk price support program, the Commodity Credit Corporation buys surplus butter, cheese, and nonfat dry milk from processors at announced prices to support the price of milk. These purchases help maintain market prices at the legislated support level, and the surplus commodities are used for hunger relief both domestically and internationally. FSA's commodity operations system also coordinates with other Government agencies to provide

surplus commodities for various programs and also purchases commodities for the National School Lunch Program and other domestic feeding programs.

Commodity Credit Corporation The Commodity Credit Corporation (CCC) stabilizes, supports, and protects farm income and prices, assists in maintaining balanced and adequate supplies of agricultural commodities and their products, and facilitates the orderly distribution of commodities.

CCC carries out assigned foreign assistance activities, such as guaranteeing the credit sale of U.S. agricultural commodities abroad. Major emphasis is also being directed toward meeting the needs of developing nations. Agricultural commodities are supplied and exported to combat hunger and malnutrition and to encourage economic development in developing countries. In addition, under the Food for Progress Program, CCC supplies commodities to provide assistance to developing democracies.

Risk Management Agency The Risk Management Agency (RMA), via the Federal Crop Insurance Corporation (FCIC), oversees and administers the Federal crop insurance program under the Federal Crop Insurance Act.

Federal crop insurance is offered to qualifying producers through 18 private sector crop insurance companies. Under the Standard Reinsurance Agreement (SRA), RMA provides reinsurance, pays premium subsidies, reimburses insurers for administrative and operating expenses, and oversees the financial integrity and operational performance of the delivery system. RMA bears much of the noncommercial insurance risk under the SRA, allowing insurers to retain commercial insurance risks or reinsure those risks in the private market.

In 2006, the Federal crop insurance program provided producers with more than \$44 billion in protection on approximately 246 million acres through about 1.2 million policies. There were 22 insurance plans available and 26 active pilot programs in various stages of development. Today, there are 350 plans of insurance, 1.2 million premium earning policies covering approximately 282 million acres of land, and 23 pilot programs in various stages of development.

RMA also works closely with the private sector to find new and innovative ways to provide expanded coverage. This includes risk protection for specialty crops, livestock and forage, and rangeland and pasture. Thus, RMA is able to reduce the need for ad hoc disaster assistance while providing valuable coverage for production declines that result from extended drought in many areas.

Additional information about RMA can be found on its Web site, www.rma.usda.gov. The Web site features agency news, State profiles, publications, and announcements on current issues. It also features summaries of insurance sales, pilot programs, downloadable crop policies, and agency-sponsored events. Online tools, calculators, and applications are also available on the Web site.

Foreign Agricultural Service The Foreign Agricultural Service (FAS) works to improve foreign market access for U.S. products, to build new markets, to improve the competitive position of U.S. agriculture in the global marketplace, and to provide food aid and technical assistance to foreign countries.

FAS has the primary responsibility for USDA's activities in the areas of international marketing, trade agreements and negotiations, and the collection and analysis of international statistics and market information. It also administers

the USDA's export credit guarantee and food aid programs. FAS helps increase income and food availability in developing nations by mobilizing expertise for agriculturally led economic growth.

FAS also enhances U.S. agricultural competitiveness through a global network of agricultural economists, marketing experts, negotiators, and other specialists. FAS agricultural counselors, attaches, trade officers, and locally employed staff are stationed in over 90 countries to support U.S. agricultural interests and cover 140 countries.

In addition to agricultural affairs offices in U.S. embassies, agricultural trade offices also have been established in a number of key foreign markets and function as service centers for U.S. exporters and foreign buyers seeking market information.

Reports prepared by our overseas offices cover changes in policies and other developments that could affect U.S. agricultural exports. FAS staff in U.S. Embassies around the world assess U.S. export marketing opportunities and respond to the daily informational needs of those who develop, initiate, monitor, and evaluate U.S. food and agricultural policies and programs.

In addition to data collection, FAS also maintains a worldwide agricultural reporting system based on information from U.S. agricultural traders, remote sensing systems, and other sources. Analysts in Washington, DC, prepare production forecasts, assess export marketing opportunities, and track changes in policies affecting U.S. agricultural exports and imports.

FAS programs help U.S. exporters develop and maintain markets for hundreds of food and agricultural products, from bulk commodities to brand-name items. Formal market promotion activities are carried out chiefly in cooperation with agricultural trade associations, State-regional trade groups, small businesses, and cooperatives that plan, manage, and contribute staff resources and funds to support these efforts. FAS also provides guidance to help exporters locate buyers

and provides assistance through a variety of other methods. This includes supporting U.S. participation in several major trade shows and a number of single-industry exhibitions each year.

Research, Education, and Economics

This mission area's main focus is to create, apply, and transfer knowledge and technology to provide affordable food and fiber, ensure food safety and nutrition, and support rural development and natural resource needs of people by conducting integrated national and international research, information, education, and statistical programs and services that are in the national interest.

Agricultural Research Service The Agricultural Research Service (ARS) conducts research to develop and transfer solutions to agricultural problems of high national priority. It provides information access and dissemination to ensure high-quality safe food and other agricultural products; assess the nutritional needs of Americans; sustain a competitive agricultural economy; enhance the natural resource base and the environment; and provide economic opportunities for rural citizens, communities, and society as a whole.

Research activities are carried out at 103 domestic locations (including Puerto Rico and the U.S. Virgin Islands) and 5 overseas locations. Much of this research is conducted in cooperation with partners in State universities and experiment stations, other Federal agencies, and private organizations. National Programs, headquartered in Beltsville, MD, is the focal point in the overall planning and coordination of ARS's research programs. Day-to-day management of the respective programs for specific field locations is assigned to eight area offices.

ARS also includes the National Agricultural Library (NAL), which is the primary resource in the United States for information about food, agriculture,

and natural resources and serves as an electronic gateway to a widening array of scientific literature, printed text, and agricultural images. NAL serves USDA and a broad customer base including policymakers, agricultural specialists, research scientists, and the general public. NAL works with other agricultural libraries and institutions to advance open and democratic access to information about agriculture and the Nation's agricultural knowledge.

For further information, contact the Agricultural Research Service, Department of Agriculture, 1400 Independence Avenue SW., Washington, DC 20250. Phone, 202-720-3656. Fax, 202-720-5427. Internet, <http://www.ars.usda.gov>.

The National Institute of Food and Agriculture The National Institute of Food and Agriculture (NIFA) links the research and education resources and activities of USDA and works with academic and land-grant institutions throughout the Nation. In cooperation with its partners and customers, NIFA advances a global system of research, extension, and higher education in the food and agricultural sciences and related environmental and human sciences to benefit people, communities, and the Nation.

NIFA's programs increase and provide access to scientific knowledge; strengthen the capabilities of land-grant and other institutions in research, extension, and higher education; increase access to and use of improved communication and network systems; and promote informed decisionmaking by producers, consumers, families, and community leaders to improve social conditions in the United States and around the world. These conditions include improved agricultural and other economic enterprises; safer and cleaner water, food, and air; enhanced stewardship and management of natural resources; more responsible, productive, and healthy individuals, families, and communities; and a stable, secure, diverse, and affordable national food supply.

NIFA provides research, extension, and education leadership through programs in plant and animal systems; natural resources and environment; economic

and community systems; families, 4-H, and nutrition; competitive research and integrated research, education, and extension programs and awards management; science and education resources development; and information systems and technology management.

NIFA's partnership with the land-grant universities is critical to the effective shared planning, delivery, and accountability for research, higher education, and extension programs to support a growing and thriving America economy.

For further information, contact the Communications Staff, The National Institute of Food and Agriculture, Department of Agriculture, 1400 Independence Avenue SW., Washington, DC 20250-2207. Phone, 202-720-4651. Fax, 202-690-0289.

Economic Research Service The mission of the Economic Research Service (ERS) is to inform and enhance public and private decisionmaking on economic and policy issues related to agriculture, food, the environment, and rural development.

Activities to support this mission and the following goals involve research and development of economic and statistical indicators on a broad range of topics including, but not limited to, global agricultural market conditions, trade restrictions, agribusiness concentration, farm and retail food prices, foodborne illnesses, food labeling, nutrition, food assistance programs, worker safety, agrichemical usage, livestock waste management, conservation, sustainability, genetic diversity, technology transfer, rural infrastructure, and rural employment.

Research results and economic indicators on such important agricultural, food, natural resource, and rural issues are fully disseminated to public and private decisionmakers through published and electronic reports and articles; special staff analyses, briefings, presentations, and papers; databases; and individual contacts. Through such activities, ERS provides public and private decisionmakers with economic and related social science information and analysis in support of the Department's

goals of enhancing economic opportunities for agricultural producers; supporting economic opportunities and quality of life in rural America; enhancing the protection and safety of U.S. agriculture and food; improving U.S. nutrition and health; and enhancing the natural resource base and environment. More information on ERS's program is available online.

For further information, contact the Information Services Division, Economic Research Service, Department of Agriculture, 1400 Independence Ave, SW., Washington, DC 20250. Phone, 202-694-5100. Fax, 202-245-4781. Internet, <http://www.ers.usda.gov>.

National Agricultural Statistics Service

The National Agricultural Statistics Service (NASS) prepares estimates and reports on production, supply, price, chemical use, and other items necessary for the orderly operation of the U.S. agricultural economy.

The reports include statistics on field crops, fruits and vegetables, dairy, cattle, hogs, sheep, poultry, aquaculture, and related commodities or processed products. Other estimates concern farm numbers, farm production expenditures, agricultural chemical use, prices received by farmers for products sold, prices paid for commodities and services, indexes of prices received and paid, parity prices, farm employment, and farm wage rates.

NASS prepares these estimates through a complex system of sample surveys of producers, processors, buyers, and others associated with agriculture. Information is gathered by mail, electronic data reporting, telephone, and personal interviews.

NASS is responsible for conducting the Census of Agriculture. The Census of Agriculture is taken every 5 years and provides comprehensive data on the agricultural economy down to the county level. Follow-on studies are also conducted on aquaculture, irrigation, horticultural energy, and organic agriculture.

NASS also performs reimbursable survey work and statistical consulting services for other Federal and State agencies and provides technical

assistance for developing agricultural data systems in other countries.

For further information, contact the Executive Assistant to the Administrator, National Agricultural Statistics Service, Department of Agriculture, 1400 Independence Ave, SW., Washington, DC 20250–2000. Phone, 202–720–2707. Fax, 202–720–9013.

Natural Resources and Environment

This mission area is responsible for fostering sound stewardship of 75 percent of the Nation's total land area. Ecosystems are the underpinning for the Department's operating philosophy in this area in order to maximize stewardship of our natural resources. This approach ensures that products, values, services, and uses desired by people are produced in ways that sustain healthy, productive ecosystems.

Forest Service [For the Forest Service statement of organization, see the Code of Federal Regulations, Title 36, Part 200.1]

The Forest Service was created by the Transfer Act of February 1, 1905 (16 U.S.C. 472), which transferred the Federal forest reserves and the responsibility for their management from the Department of the Interior to the Department of Agriculture. The mission of the Forest Service is to achieve quality land management under the sustainable, multiple-use management concept to meet the diverse needs of people. Its objectives include the following: advocating a conservation ethic in promoting the health, productivity, diversity, and beauty of forests and associated lands; listening to people and responding to their diverse needs in making decisions; protecting and managing the National Forests and Grasslands to best demonstrate the sustainable, multiple-use management concept; providing technical and financial assistance to State and private forest landowners, encouraging them toward active stewardship and quality land management in meeting their specific objectives; providing technical and financial assistance to cities and communities to improve their natural environment by planting trees and caring for their forests; providing international

technical assistance and scientific exchanges to sustain and enhance global resources and to encourage quality land management; assisting States and communities in using the forests wisely to promote rural economic development and a quality rural environment; developing and providing scientific and technical knowledge, improving our capability to protect, manage, and use forests and rangelands; and providing work, training, and education to the unemployed, underemployed, elderly, youth, and the disadvantaged.

National Forest System The Service manages 155 National Forests, 20 National Grasslands, 1 tall grass prairie, and 5 land utilization projects on over 193 million acres in 44 States, the Virgin Islands, and Puerto Rico under the principles of multiple-use and sustained yield. The Nation's tremendous need for wood and paper products is balanced with the other vital, renewable resources or benefits that the National Forests and Grasslands provide: recreation and natural beauty, wildlife habitat, livestock forage, and water supplies. The guiding principle is the greatest good to the greatest number in the long run.

These lands are protected as much as possible from wildfire, epidemics of disease and insect pests, erosion, floods, and water and air pollution. Burned areas get emergency seeding treatment to prevent massive erosion and stream siltation. Roads and trails are built where needed to give the public access to outdoor recreation areas and provide scenic drives and hikes. Picnic, camping, water sports, skiing, and other areas are provided with facilities for public convenience and enjoyment. Vegetative management methods are used to protect the land and streams, ensure rapid renewal of the forest, provide food and cover for wildlife and fish, and have minimum impact on scenic and recreation values. Local communities benefit from activities that occur on National Forest lands. These lands also provide needed oil, gas, and minerals. Rangelands are improved for millions of livestock and game animals. The National Forests provide a refuge

for many species of endangered birds, animals, and fish. Some 34.6 million acres are set aside as wilderness and 175,000 acres as primitive areas where timber will not be harvested.

Forest Research The Forest Service performs basic and applied research to develop the scientific information and technology needed to protect, manage, use, and sustain the natural resources of the Nation's forests and rangelands. The Forest Service's forest research strategy focuses on three major program components: understanding the structure and functions of forest and range ecosystems; understanding how people perceive and value the protection, management, and use of natural resources; and determining which protection, management, and utilization practices are most suitable for sustainable production and use of the world's natural resources.

For further information on the Forest Service or State and private forestry areas, visit the Forest Service's Web site. Internet, <http://www.fs.fed.us>.

Natural Resources Conservation Service

[For the Natural Resources Conservation Service statement of organization, see the Code of Federal Regulations, Title 7, Parts 601 and 601]

The Natural Resources Conservation Service (NRCS), formerly the Soil Conservation Service, has national responsibility for helping America's farmers, ranchers, and other private landowners develop and carry out voluntary efforts to conserve and protect our natural resources.

Conservation Technical Assistance

This is the foundation program of NRCS. Under this program, NRCS provides technical assistance to land users and units of government for the purpose of sustaining agricultural productivity and protecting and enhancing the natural resource base. This assistance is based on the voluntary cooperation of private landowners and involves comprehensive approaches to reduce soil erosion; improve soil and water quantity and quality; improve and conserve wetlands; enhance fish and wildlife habitat; improve air quality; improve pasture

and range condition; reduce upstream flooding; and improve woodlands.

Emergency Watershed Protection

Program This program provides emergency assistance to safeguard lives and property in jeopardy due to sudden watershed impairment by natural disasters. Emergency work includes quickly establishing a protective plant cover on denuded land and stream banks; opening dangerously restricted channels; and repairing diversions and levees. An emergency area need not be declared a national disaster area to be eligible for help under this program.

Environmental Quality Incentive

Program This program assists producers with environmental and natural resource conservation improvements on their agricultural lands. Half of the available funds are for conservation activities related to livestock production. Technical assistance, cost-share payments, incentive payments, and education focus on priority areas and natural resource concerns identified in cooperation with State technical committees, including such areas as nutrient management, pest management, and grazing land management.

Farmland Protection Program This program protects soil by encouraging landowners to limit conversion of their farmland to nonagricultural uses. States, Indian tribes, or local governments administer all aspects of acquiring lands that are in the program, except when it is more effective and efficient for the Federal Government to do so.

Forestry Incentives Program This program helps to increase the Nation's supply of products from nonindustrial private forest lands. This also ensures more effective use of existing forest lands and, over time, helps to prevent shortages and price increases for forest products. The program shares the cost incurred by landowners for tree planting and timberstand improvement.

National Cooperative Soil Survey

The National Cooperative Soil Survey provides the public with local information on the uses and capabilities of their soils. The published soil survey for a county or other designated area

includes maps and interpretations that are the foundation for farm planning and other private land use decisions as well as for resource planning and policy by Federal, State, and local governments. The surveys are conducted cooperatively with other Federal, State, and local agencies and land-grant universities. The Service is the national and world leader in soil classification and soil mapping, and is now expanding its work in soil quality.

Plant Materials Program At 26 plant materials centers across the country, NRCS tests, selects, and ensures the commercial availability of new and improved conservation plants for erosion reduction, wetland restoration, water quality improvement, streambank and riparian area protection, coastal dune stabilization, biomass production, carbon sequestration, and other needs. The Plant Materials Program is a cooperative effort with conservation districts, other Federal and State agencies, commercial businesses, and seed and nursery associations.

Resource Conservation and Development Program This is a locally driven program, an opportunity for civic-oriented groups to work together sharing knowledge and resources in solving common problems facing their region. The program offers aid in balancing the environmental, economic, and social needs of an area. A USDA coordinator helps each designated Resource Conservation and Development council plan, develop, and carry out programs for resource conservation, water management, community development, and environmental enhancement.

Rural Abandoned Mine Program This program helps protect people and the environment from the adverse effects of past coal mining practices and promotes the development of soil and water resources on unreclaimed mine land. It provides technical and financial assistance to land users who voluntarily enter into 5- to 10-year contracts for the reclamation of eligible land and water.

Small Watersheds Program The program helps local sponsoring groups to voluntarily plan and install watershed

protection projects on private lands. These projects include flood prevention, water quality improvement, soil erosion and sediment reduction, rural and municipal water supply, irrigation water management, fish and wildlife habitat enhancement, and wetlands restoration. The Service helps local community groups, government entities, and private landowners working together using an integrated, comprehensive watershed approach to natural resource planning.

Snow Survey and Water Supply Forecasting Program This program collects snowpack moisture data and forecasts seasonal water supplies for streams that derive most of their water from snowmelt. It helps farm operators, rural communities, and municipalities manage water resources through water supply forecasts. It also provides hydrometeorological data for regulating reservoir storage and managing streamflow. The Snow Supply Program is conducted in the Western States and Alaska.

Watershed Surveys and Planning This program assists Federal, State, and local agencies and tribal governments in protecting watersheds from damage caused by erosion, floodwater, and sediment, and it conserves and develops water and land resources. Resource concerns addressed by the program include water quality, water conservation, wetland and water storage capacity, agricultural drought problems, rural development, municipal and industrial water needs, upstream flood damages, and water needs for fish, wildlife, and forest-based industries. Types of surveys and plans include watershed plans, river basin surveys and studies, flood hazard analysis, and flood plain management assistance. The focus of these plans is to identify solutions that use land treatment and nonstructural measures to solve resource problems.

Wetlands Reserve Program Under this program, USDA purchases easements from agricultural landowners who voluntarily agree to restore and protect wetlands. Service employees help these owners develop plans to retire critical wetland habitat from crop production.

The primary objectives are to preserve and restore wetlands, improve wildlife habitat, and protect migratory waterfowl.

For further information, contact the Management Services Division, Natural Resources Conservation Service, Department of Agriculture, P.O. Box 2890, Washington, DC 20013. Phone, 202-690-4811.

Wildlife Habitat Incentives Program

This program provides financial incentives to develop habitats for fish and wildlife on private lands. Participants agree to implement a wildlife habitat development plan, and USDA agrees to provide cost-share assistance for the initial implementation of wildlife habitat development practices. USDA and program participants enter into a cost-share agreement for wildlife habitat development, which generally lasts a minimum of 10 years from the date that the contract is signed.

Sources of Information

Consumer Activities Educational, organizational, and financial assistance is offered to consumers and their families in such areas as rural housing and farm operating programs, as well as improved nutrition, family living and recreation, food stamp, school lunch, donated foods, and other food programs.

Contracts and Small-Business Activities

To obtain information about contracting or subcontracting opportunities, attending small-business outreach activities, or how to do business with USDA, contact the Office of Small and Disadvantaged

Business Utilization. Phone, 202-720-7117. Internet, <http://www.usda.gov/da/smallbus>.

Employment Most jobs in the Department are in the competitive service and are filled by applicants who have established eligibility under an appropriate examination administered by the Office of Personnel Management or Department Special Examining Units. General employment information is available online at USAJOBS. Internet, <http://www.usajobs.gov>.

Whistleblower Hotline Persons wishing to register complaints of alleged improprieties concerning the Department should contact one of the regional offices or the Inspector General's whistleblower hotline. Phone, 800-424-9121 (toll free, outside Washington, DC); 202-690-1622 (within the Washington, DC, metropolitan area); or 202-690-1202 (TDD). Fax, 202-690-2474.

Reading Rooms Reading Rooms are located at the headquarters of each USDA agency. Use the contact information provided in the "For further information" sections in the program description text above to inquire about locations, hours, and availability.

Speakers Contact the nearest Department of Agriculture office or county Extension agent. In the District of Columbia, contact the Office of Public Liaison, Office of Communications, Department of Agriculture, 1400 Independence Ave, SW., Washington, DC 20250. Phone, 202-720-2798.

The Department of Commerce promotes the Nation's domestic and international trade, economic growth, and technological advancement by fostering a globally competitive free enterprise system, supporting fair trade practices, compiling social and economic statistics, protecting Earth's physical and oceanic resources, granting patents and registering trademarks, and providing assistance to small and minority-owned businesses.

The Department was designated as such by act of March 4, 1913 (15 U.S.C. 1501), which reorganized the Department of Commerce and Labor, created by act of February 14, 1903 (15 U.S.C. 1501), by transferring all labor activities into a new, separate Department of Labor.

Office of the Secretary

Secretary The Secretary is responsible for the administration of all functions and authorities assigned to the Department of Commerce and for advising the President on Federal policy and programs affecting the industrial and commercial segments of the national economy. The Secretary is served by the offices of Deputy Secretary, Inspector General, General Counsel, and the Assistant Secretaries of Administration, Legislative and Intergovernmental Affairs, and Public Affairs. Other offices whose public

purposes are widely administered are detailed below.

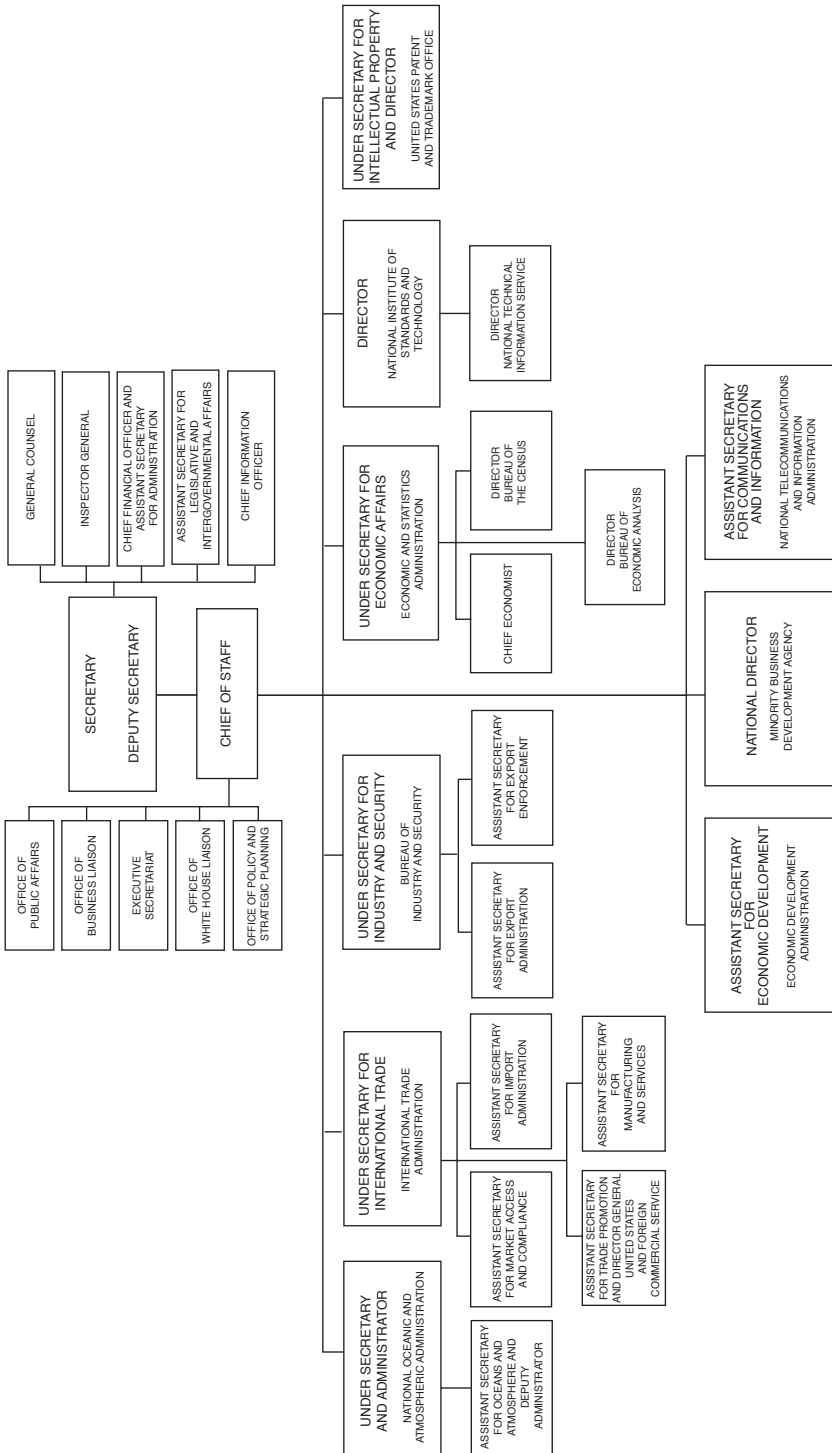

Business Liaison The Office of Business Liaison directs the business community to the offices and policy experts who can best respond to their needs by promoting proactive, responsive, and effective outreach programs and relationships with the business community. It also informs the Secretary and Department officials of the critical issues facing the business community, informs the business community of Department and administration initiatives and priorities, as well as information regarding Department resources, policies, and programs, and provides general assistance to the business community.

The Bureau of Industry and Security (BIS) is to advance U.S. national security, foreign policy, and economic objectives by ensuring an effective export control and treaty compliance system and promoting continued U.S. strategic technology leadership. BIS activities include regulating the export of sensitive goods and technologies in an effective and efficient manner; enforcing export control, antiboycott, and public safety laws; cooperating with and assisting other countries on export control and strategic trade issues; assisting U.S. industry to comply with international arms control agreements; monitoring the viability of the U.S. defense industrial base; evaluating the effects on national security of foreign investments in U.S. companies; and supporting continued U.S. technology leadership in industries that are essential to national security.

Export Administration The Office of the Assistant Secretary for Export Administration is responsible for export licenses, treaty compliance, treaty obligations relating to weapons of mass destruction, and the defense industrial and technology base. The Office regulates the export of dual-use items requiring licenses for national security, nonproliferation, foreign policy, and short supply; ensures that approval or denial of license applications is consistent with economic and security concerns; promotes an understanding of export control regulations within the business community; represents the Department in interagency and international forums relating to export controls, particularly in multilateral regimes; monitors the availability of industrial resources of national defense; analyzes the impact of export controls on strategic industries; and assesses the security consequences of certain foreign investments.

Export Enforcement The Office of the Assistant Secretary for Export Enforcement enforces dual-use export controls. This enables exporters to take advantage of legal export opportunities while ensuring that illegal exports will

be detected and either prevented or investigated and sanctioned. The Office also ensures prompt, aggressive action against restrictive trade practices; reviews visa applications of foreign nationals to prevent illegal technology transfers; and conducts cooperative enforcement activities on an international basis.

For information on the Export Enforcement field offices, visit our Web site at www.bis.doc.gov/about/programoffices.htm.

Management and Policy Coordination

The Management and Policy Coordination (MPC) unit establishes and evaluates the Bureau's overall policy agenda, priorities, goals, unit objectives, and key metrics. MPC performs oversight of program operations and expenditures; executes or supervises the President's Management Agenda; and adjudicates appeals of licensing and enforcement decisions as part of an extended legal process involving administrative law judges and the Office of General Counsel. MPC provides guidance and coordination for the Bureau's participation in the Export Control and Related Border Security Assistance Program, which provides technical assistance to strengthen the export and transit control systems of nations that are identified as potential locations for the exporting of weapons of mass destruction, missile delivery systems, or the commodities, technologies, and equipment that can be used to design and build them.

The Economic Development Administration (EDA) was created in 1965 under the Public Works and Economic Development Act (42 U.S.C. 3121) as part of an effort to target Federal resources to economically distressed areas and to help develop local economies in the United States. It was mandated to assist rural and urban communities that were outside the mainstream economy and that lagged in economic development, industrial growth, and personal income.

EDA provides grants to States, regions, and communities across the Nation to help wealth and minimize poverty by promoting a favorable business environment to attract private capital investment and higher skill, higher wage jobs through capacity building, planning, infrastructure, research grants, and strategic initiatives. Through its grant program, EDA utilizes public sector resources to facilitate an environment where the private sector risks capital and job opportunities are created.

Public works and development facilities grants support infrastructure projects that foster the establishment or expansion of industrial and commercial businesses, supporting the retention and creation of jobs.

Planning grants support the design and implementation of effective economic development policies and programs, by local development organizations, in States and communities. EDA funds a network of over 350 planning districts throughout the country.

Technical assistance provides for local feasibility and industry studies, management and operational assistance, natural resource development, and export promotion. In addition, EDA funds a network of university centers that provides technical assistance.

Research, evaluation, and demonstration funds are used to support studies about the causes of economic distress and to seek solutions to counteract and prevent such problems.

Economic adjustment grants help communities adjust to a gradual erosion or sudden dislocation of their local economic structure. This assistance provides funding for both planning and implementation to address economic change.

The Trade Adjustment Assistance program helps U.S. firms and industries injured as the result of economic globalization. A nationwide network of Trade Adjustment Assistance Centers offers low-cost, effective professional

assistance to certified firms to develop and implement recovery strategies.

Under Secretary for Economic Affairs
Deputy Under Secretary

Director, Bureau of Economic Analysis

MARK E. DOMS
NANCY POTOK
SUSAN HELPER
JOHN H. THOMPSON
J. STEVEN LANDEFELD

The Economics and Statistics Administration (ESA), headed by the Under Secretary for Economic Affairs, has three principal components: the Office of the Chief Economist, the Bureau of the Census, and the Bureau of Economic Analysis (BEA). ESA develops policy options, analyzes economic developments, manages economic data systems, and produces a major share of U.S. economic and demographic statistics, including the national economic indicators. The Under Secretary is the chief economic adviser to the Secretary and provides leadership and executive management of the Bureau of the Census and BEA.

Office of the Chief Economist

The expert economists and analysts of the Office of the Chief Economist analyze domestic and international economic developments and produce in-depth reports, fact sheets, briefings, and social media postings. These tools cover policy issues and current economic events, as well as economic and demographic trends. Department of Commerce and White House policymakers rely on these tools, as do American businesses, State and local governments, and news organizations around the world.

Bureau of the Census

[For the Bureau of the Census statement of organization, see the Federal Register of Sept. 16, 1975, 40 FR 42765]

The Bureau of the Census was established as a permanent office by act of March 6, 1902 (32 Stat. 51). The major functions of the Census Bureau are authorized by the Constitution, which provides that a census of population shall be taken every 10 years, and by laws codified as title 13 of the United States Code. The law also provides that the information collected by the Census Bureau from individual persons, households, or establishments be kept strictly confidential and be used only for statistical purposes.

The Census Bureau is responsible for the decennial censuses of population and housing; the quinquennial censuses of State and local governments, manufacturers, mineral industries, distributive trades, construction industries, and transportation; current surveys that provide information on many of the subjects covered in the censuses at monthly, quarterly, annual, or other intervals; compilation of current statistics on U.S. foreign trade, including data on imports, exports, and shipping; special censuses at the request and expense of State and local government units; publication of estimates and projections of the population; publication of current data on population and housing characteristics; and current reports on manufacturing, retail and wholesale trade, services, construction, imports and exports, State and local government

finances and employment, and other subjects.

The Census Bureau makes available statistical results of its censuses, surveys, and other programs to the public through the Internet, mobile applications, and other media. The Bureau also prepares special tabulations sponsored and paid for by data users. It also produces statistical compendia, catalogs, guides, and directories that are useful in locating information on specific subjects. Upon request, the Bureau makes searches of decennial census records and furnishes certificates to individuals for use as evidence of age, relationship, or place of birth. A fee is charged for searches.

Bureau of Economic Analysis

[For the Bureau of Economic Analysis statement of organization, see the Federal Register of Dec. 29, 1980, 45 FR 85496]

The Bureau of Economic Analysis (BEA) promotes a better understanding of the U.S. economy by providing the most timely, relevant, and accurate economic accounts data in an objective and cost-effective manner. BEA's economic statistics are closely watched and provide a comprehensive picture of the U.S. economy. BEA prepares national, regional, industry, and international accounts that present essential

information on such issues in the world economy.

BEA's national economic statistics provide a comprehensive look at U.S. production, consumption, investment, exports and imports, and income and saving. The international transactions accounts provide information on trade in goods and services (including the balance of payments and trade), investment income, and government and private finances. In addition, the accounts measure the value of U.S. international assets and liabilities and direct investment by multinational companies.

The regional accounts provide data on total and per capita personal income by region, State, metropolitan area, and county, and on gross State product. The industry economic account provides a detailed view of the interrelationships between U.S. producers and users and the contribution to production across industries.

[For the International Trade Administration statement of organization, see the Federal Register of Jan. 25, 1980, 45 FR 6148]

The International Trade Administration (ITA) was established on January 2, 1980, by the Secretary of Commerce to promote world trade and to strengthen the international trade and investment position of the United States.

ITA is headed by the Under Secretary for International Trade, who coordinates all issues concerning trade promotion, international commercial policy, market access, and trade law enforcement. The Administration is responsible for nonagricultural trade operations of the U.S. Government and supports the trade policy negotiation efforts of the U.S. Trade Representative.

Import Administration The Office of Import Administration defends American industry against injurious and unfair trade practices by administering efficiently, fairly, and in a manner consistent with U.S. international trade obligations the antidumping and countervailing duty laws of the United States. The Office ensures the proper administration of foreign trade zones and advises the Secretary on establishment of new zones; oversees the administration of the Department's textiles program; and administers programs governing watch assemblies, and other statutory import programs.

Market Access and Compliance The Office of Market Access and Compliance advises on the analysis, formulation, and implementation of U.S. international economic policies and carries out programs to promote international trade, improve access by U.S. companies to overseas markets, and strengthen the international trade and investment position of the United States. The Office analyzes and develops recommendations for region-

and country-specific international economic, trade, and investment policy strategies and objectives. In addition, the Office is responsible for implementing, monitoring, and enforcing foreign compliance with bilateral and multilateral trade agreements.

Manufacturing and Services The Manufacturing and Services unit advises on domestic and international trade and investment policies affecting the competitiveness of U.S. industry and carries on a program of research and analysis on manufacturing and services. Based on this analysis and interaction with U.S. industry, the unit Secretary develops strategies, policies, and programs to strengthen the competitive position of U.S. industries in the United States and world markets. The unit manages an integrated program that includes both industry and economic analysis, trade policy development and multilateral, regional, and bilateral trade agreements for manufactured goods and services; administers trade arrangements (other than those involving AD/CVD proceedings) with foreign governments in product and service areas; and develops and provides business information and assistance to the United States on its rights and opportunities under multilateral and other agreements.

Trade Promotion and U.S. and Foreign Commercial Service The Trade Promotion and U.S. and Foreign Commercial Service unit directs ITA's export promotion programs, develops and implements a unified goal-setting and evaluation process to increase trade assistance to small- and medium-sized businesses, directs a program of international trade events, market research, and export-related trade

information products and services; and directs programs to aid U.S. firms to compete successfully for major projects and procurements worldwide. ITA provides a comprehensive platform of export assistance services to support U.S. firms who enter or expand their presence in overseas markets, including counseling, trade events, and outreach services through 109 export assistance centers located in the United States and 158 posts located in 83 countries throughout the world. For a complete listing of ITA's export assistance centers, both in the United States and abroad, consult the Web site at www.export.gov/eac or call the Trade Information Center at 1-800-872-8723.

The Minority Business Development Agency was established by Executive order in 1969. The Agency develops and coordinates a national program for minority business enterprise.

The Agency was created to assist minority businesses in achieving effective and equitable participation in the American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The Agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and government with the Nation's minority businesses.

Business development services are provided to the minority business community through three vehicles: the minority business opportunity committees, which disseminate information on business opportunities; the minority business development centers, which provide management and technical assistance and other business development services; and electronic commerce, which includes a Web site that shows how to start a business and use the service to find contract opportunities.

The Agency promotes and coordinates the efforts of other Federal agencies in assisting or providing market opportunities for minority business. It

coordinates opportunities for minority firms in the private sector. Through such public and private cooperative activities, the Agency promotes the participation of Federal, State, and local governments, and business and industry in directing resources for the development of strong minority businesses.

The National Oceanic and Atmospheric Administration (NOAA) was formed on October 3, 1970, by Reorganization Plan No. 4 of 1970 (5 U.S.C. app.).

NOAA's mission entails environmental assessment, prediction, and stewardship. It is dedicated to monitoring and assessing the state of the environment in order to make accurate and timely forecasts to protect life, property, and natural resources, as well as to promote the economic well-being of the United States and to enhance its environmental security. NOAA is committed to protecting America's ocean, coastal, and living marine resources while promoting sustainable economic development.

For a complete listing of NOAA facilities and activities in your State or Territory, visit www.legislative.noaa.gov/NIYS/index.html.

National Weather Service The National Weather Service (NWS) provides

weather, water and climate warnings, forecasts and data for the United States, its territories, adjacent waters, and ocean areas. NWS data and products form a national information database and infrastructure used by Government agencies, the private sector, the public, and the global community to protect life and property and to enhance the national economy. Working with partners in Government, academic and research institutions and private industry, NWS strives to ensure their products and services are responsive to the needs of the American public. NWS data and information services support aviation and marine activities, wildfire suppression, and many other sectors of the economy. NWS supports national security efforts with long- and short-range forecasts, air quality and cloud dispersion forecasts, and broadcasts of warnings and critical

information over the 800-station NOAA Weather Radio network.

For further information, contact the National Weather Service, Attention: Executive Affairs, 1325 East-West Highway, Silver Spring, MD 20910-3283. Phone, 301-713-0675. Fax, 301-713-0049. Internet, <http://www.nws.noaa.gov>.

National Environmental Satellite, Data, and Information Service The National Environmental Satellite, Data, and Information Service (NESDIS) operates the Nation's civilian geostationary and polar-orbiting environmental satellites. It also manages the largest collection of atmospheric, climatic, geophysical, and oceanographic data in the world. From these sources, NESDIS develops and provides, through various media, environmental data for forecasts, national security, and weather warnings to protect life and property. This data is also used to assist in energy distribution, the development of global food supplies, the management of natural resources, and in the recovery of downed pilots and mariners in distress.

For further information, contact the National Environmental Satellite, Data, and Information Service, 1335 East-West Highway, Silver Spring, MD 20910-3283. Phone, 301-713-3578. Fax, 301-713-1249. Internet, <http://www.noaa.gov/nesdis/nesdis.html>.

National Marine Fisheries Service The National Marine Fisheries Service (NMFS) supports the management, conservation, and sustainable development of domestic and international living marine resources and the protection and restoration of healthy ecosystems. NMFS is involved in the stock assessment of the Nation's multi-billion-dollar marine fisheries, protecting marine mammals and threatened species, habitat conservation operations, trade and industry assistance, and fishery enforcement activities.

For further information, contact the National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-2239. Fax, 301-713-2258. Internet, <http://www.nmfs.noaa.gov>.

National Ocean Service The National Ocean Service (NOS) works to balance the Nation's use of coastal resources through research, management, and policy. NOS monitors the health of U.S. coasts by examining how human use and

natural events impact coastal ecosystems. Coastal communities rely on NOS for information about natural hazards so they can more effectively reduce or eliminate the destructive effects of coastal hazards. NOS assesses the damage caused by hazardous material spills and works to restore or replace the affected coastal resources. Through varied programs, NOS protects wetlands, water quality, beaches, and wildlife. In addition, NOS provides a wide range of navigational products and data that assist vessels' safe movement through U.S. waters and provides the basic set of information that establishes the latitude, longitude, and elevation framework necessary for the Nation's surveying, navigation, positioning, and mapping activities.

For further information, contact the National Ocean Service, Room 13231, SSMC 4, 1305 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-3070. Fax, 301-713-4307. Internet, <http://www.nos.noaa.gov>.

Office of Oceanic and Atmospheric Research The Office of Oceanic and Atmospheric Research (OAR) carries out research on weather, air quality and composition, climate variability and change, and ocean, coastal, and Great Lakes ecosystems. OAR conducts and directs its research programs in coastal, marine, atmospheric, and space sciences through its own laboratories and offices, as well as through networks of university-based programs across the country.

For further information, contact the Office of Oceanic and Atmospheric Research, Room 11458, 1315 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-2458. Fax, 301-713-0163. Internet, <http://www.oar.noaa.gov>.

Office of Marine and Aviation Operations The Office of Marine and Aviation Operations maintains a fleet of ships and aircraft, and manages several safety programs. Ships and aircraft are used for operational data collection and research in support of NOAA's mission, the Global Earth Observation System, and the Integrated Ocean Observing System. This includes flying "hurricane hunter" aircraft into nature's most turbulent storms to collect data critical to hurricane research.

[For the National Telecommunications and Information Administration statement of organization, see the Federal Register of June 5, 1978, 43 FR 24348]

The National Telecommunications and Information Administration (NTIA) was established in 1978 by Reorganization Plan No. 1 of 1977 (5 U.S.C. app.) and Executive Order 12046 of March 27, 1978 (3 CFR, 1978 Comp., p. 158), by combining the Office of Telecommunications Policy of the Executive Office of the President and the Office of Telecommunications of the Department of Commerce to form a new agency reporting to the Secretary of Commerce. NTIA operates under the authority of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 901).

NTIA's principal responsibilities and functions include serving as the principal executive branch adviser to the President on telecommunications and information policy; developing and presenting U.S. plans and policies at international communications conferences and related meetings; prescribing policies for and managing Federal use of the radio frequency spectrum; serving as the principal

Federal telecommunications research and engineering laboratory, through NTIA's Institute for Telecommunication Sciences, headquartered in Boulder, CO; administering Federal programs to assist telecommunication facilities, public safety organizations, and the general public with the transition to digital broadcasting; providing grants through the Broadband Technology Opportunities Program to increase broadband accessibility in underserved areas of the United States; and providing grants through the Public Telecommunications Facilities Program to extend delivery or public telecommunications services to U.S. citizens, to increase ownership and management by women and minorities, and to strengthen the capabilities of existing public broadcasting stations to provide telecommunications services.

The National Institute of Standards and Technology (NIST) operates under the authority of the National Institute of Standards and Technology Act (15 U.S.C. 271), which amends the Organic Act of March 3, 1901 (ch. 872), that created the National Bureau of Standards (NBS) in 1901. In 1988, Congress renamed NBS as NIST and expanded its activities and responsibilities.

NIST is a nonregulatory Federal agency within the Commerce Department. Its mission is to promote measurement science, standards, and technology to enhance productivity, facilitate trade, and improve the quality of life. NIST carries out its mission through the NIST laboratories, which conduct research to advance the U.S. technological infrastructure; the Baldrige National

Quality Program, which helps U.S. businesses and other organizations improve the performance and quality of their operations; the Hollings Manufacturing Extension Partnership, which helps smaller firms adopt new manufacturing and management technologies; and the Technology Innovative Program, which provides cost-shared awards to industry and other institutions for high-risk, high-reward research in areas of critical national need.

The National Technical Information Service (NTIS) serves as the largest central resource for Government-funded

scientific, technical, engineering, and business-related information available today. For more than 60 years, the

Service has assured businesses, universities, Government, and the public timely access to approximately 3 million publications covering over 350 subject areas. The Service supports the Department of Commerce mission to promote the Nation's economic growth by providing access to information that stimulates innovation and discovery. It receives no appropriations; it is mandated to recover its costs through fees charged for its products and services.

NTIS collects scientific and technical information; catalogs, abstracts, indexes, and permanently archives the information; disseminates information through electronic and other media; and provides information processing services to other Federal agencies. Printed and electronic versions of NTIS technical reports are available online through the NTIS Bibliographic Database at www.ntis.gov. NTIS information is also available electronically by subscribing to the National Technical Reports Library. In 2011, the Service established its Federal Science Repository Service,

which provides additional access to Federally-funded scientific, technical, and engineering information. In addition, the Service provides Web services for Federal Government agencies, and it works closely with them to assist in implementing and maintaining their training, systems, and applications.

The United States Patent and Trademark Office (USPTO) was established by the act of July 19, 1952 (35 U.S.C. 1) to promote the progress of science and the useful arts by securing for limited times to inventors the exclusive right to their respective discoveries for a certain period of time (Article I, Section 8 of the United States Constitution). The registration of trademarks is based on the commerce clause of the U.S. Constitution.

USPTO examines and issues patents. There are three major patent categories: utility patents, design patents, and plant patents. USPTO also issues statutory invention registrations and processes international patent applications.

Through the registration of trademarks, USPTO assists businesses in protecting their investments, promoting goods and services, and safeguarding consumers against confusion and deception in the marketplace. A trademark includes any

distinctive word, name, symbol, device, or any combination thereof adopted and used or intended to be used by a manufacturer or merchant to identify his goods or services and distinguish them from those manufactured or sold by others. Trademarks are examined by the Office for compliance with various statutory requirements to prevent unfair competition and consumer deception.

In addition to the examination of patent and trademark applications, issuance of patents, and registration of trademarks, USPTO advises and assists government agencies and officials in matters involving all domestic and global aspects of intellectual property. USPTO also promotes an understanding of intellectual property protection.

USPTO provides public access to patent, trademark, and related scientific and technical information. Patents and trademarks may be freely reviewed and searched online at www.uspto.gov or at designated Patent and Trademark Depository Libraries. There are 80 Patent and Trademark Depository Libraries located within the United States and the territory of Puerto Rico. Additionally, USPTO's Scientific and Technical Information Center in Alexandria,

VA, houses over 120,000 volumes of scientific and technical books in various languages; 90,000 bound volumes of periodicals devoted to science and technology; the official journals of 77 foreign patent organizations; and over 40 million foreign patents on paper, microfilm, microfiche, and CD-ROM.

Sources of Information

General Information Information and publications concerning patents, trademarks, attorneys and agents registered to practice before the USPTO, and USPTO satellite offices is available online at www.uspto.gov. Phone, 571-272-1000 or 800-786-9199. TTY, 571-272-9950.

Patents The United States Patent and Trademark Office has priority programs for advancement of examination of certain patent applications where the invention could materially enhance the quality of the environment of mankind. [For the Department of Defense statement of organization, see the Code of Federal Regulations, Title 32, Chapter I, Subchapter R]

The Department of Defense is responsible for providing the military forces needed to deter war and protect the security of our country. The major elements of these forces are the Army, Navy, Marine Corps, and Air Force, consisting of approximately 1.3 million men and women on active duty. They are backed, in case of emergency, by the 825,000 members of the Reserve and National Guard. In addition, there are approximately 600,000 civilian employees in the Defense Department. Under the President, who is also Commander in Chief, the Secretary of Defense exercises authority, direction, and control over the Department, which includes the separately organized military departments of Army, Navy, and Air Force, the Joint Chiefs of Staff providing military advice, the combatant commands, and defense agencies and field activities established for specific purposes.

The National Security Act Amendments of 1949 redesignated the National Military Establishment as the Department of Defense (DOD) and established it as an executive department (10 U.S.C. 111) headed by the Secretary of Defense.

Structure The Department of Defense is composed of the Office of the Secretary of Defense; the military departments and the military services within those departments; the Chairman of the Joint Chiefs of Staff and the Joint Staff; the combatant commands; the defense agencies; DOD field activities; and such other offices, agencies, activities, and commands as may be established or designated by law or by the President or the Secretary of Defense.

Each military department is separately organized under its own Secretary and functions under the authority, direction, and control of the Secretary of Defense. The Secretary of each military department is responsible to the Secretary of Defense for the operation and efficiency of his department. Orders to the military departments are issued through the Secretaries of these departments or their designees, by the Secretary of Defense, or under authority specifically delegated

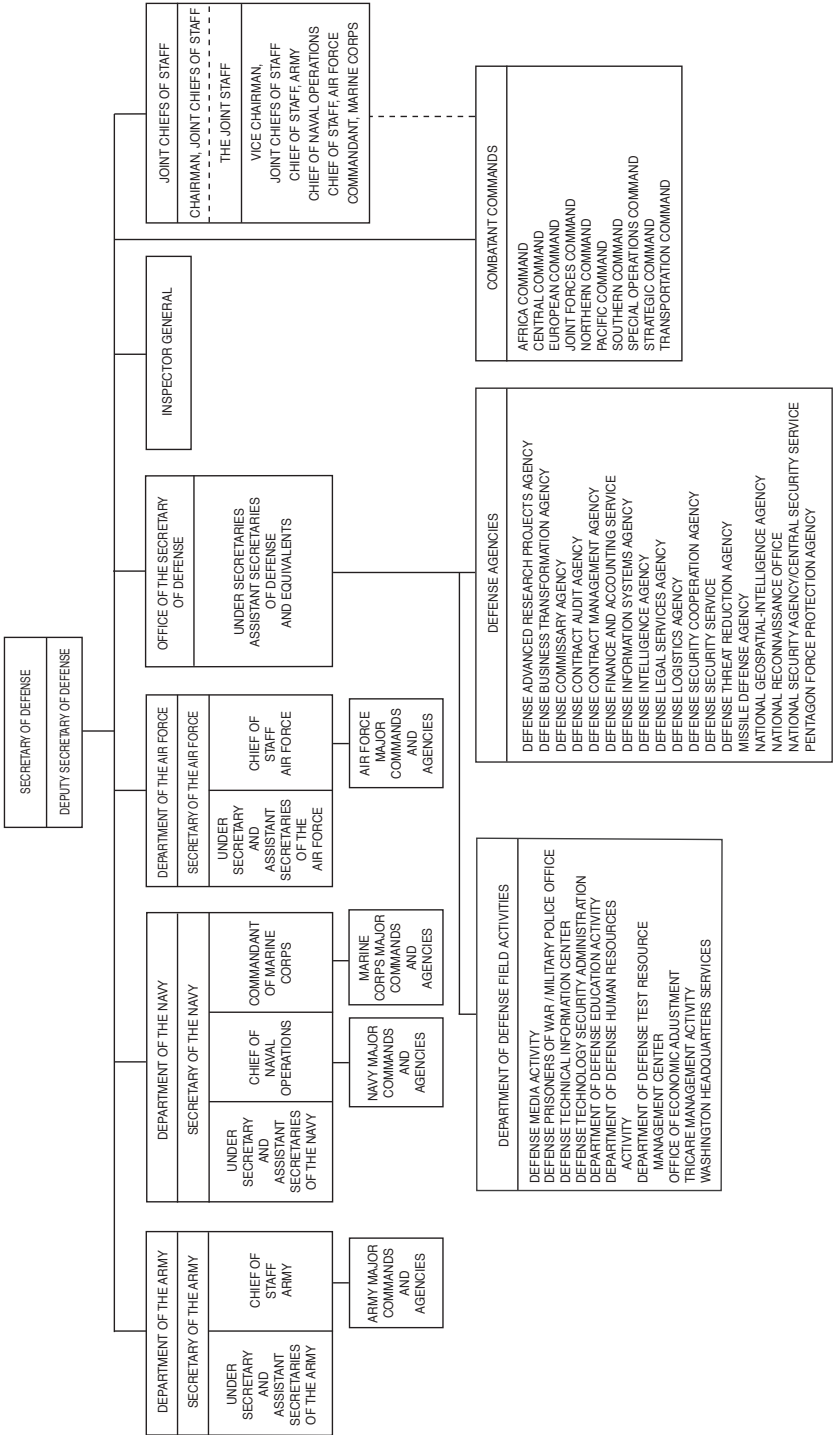

in writing by the Secretary of Defense or provided by law.

The commanders of the combatant commands are responsible to the President and the Secretary of Defense for accomplishing the military missions assigned to them and exercising command authority over forces assigned to them. The operational chain of command runs from the President to the Secretary of Defense to the commanders of the combatant commands. The Chairman of the Joint Chiefs of Staff functions within the chain of command by transmitting the orders of the President or the Secretary of Defense to the commanders of the combatant commands.

Office of the Secretary of Defense

Secretary of Defense The Secretary of Defense is the principal defense policy adviser to the President and is responsible for the formulation of general defense policy and policy related to DOD and for the execution of approved policy. Under the direction of the President, the Secretary exercises authority, direction, and control over the Department of Defense.

DEPARTMENT OF DEFENSE

Acquisition, Technology, and Logistics

The Under Secretary of Defense for Acquisition, Technology, and Logistics is the principal staff assistant and adviser to the Secretary of Defense for all matters relating to the DOD Acquisition System; research and development; modeling and simulation; systems engineering; advanced technology; developmental test and evaluation; production; systems integration; logistics; installation management; military construction; procurement; environment, safety, and occupational health management; utilities and energy management; business management modernization; document services; and nuclear, chemical, and biological defense programs.

Intelligence The Under Secretary of Defense for Intelligence is the principal staff assistant and adviser to the Secretary and Deputy Secretary of Defense for intelligence, intelligence-related matters, counterintelligence, and security. The Under Secretary of Defense for Intelligence supervises all intelligence and intelligence-related affairs of DOD.

Networks and Information Integration

The Assistant Secretary of Defense (Networks and Information Integration) is the principal staff assistant and adviser to the Secretary and Deputy Secretary of Defense for achieving and maintaining information superiority in support of DOD missions, while exploiting or denying an adversary's ability to do the same. The Assistant Secretary of Defense also serves as the Chief Information Officer.

Personnel and Readiness The Under Secretary of Defense for Personnel and Readiness is the principal staff assistant and adviser to the Secretary of Defense for policy matters relating to the structure and readiness of the total force. Functional areas include readiness; civilian and military personnel policies, programs, and systems; civilian and military equal opportunity programs; health policies, programs, and activities; Reserve component programs, policies, and activities; family policy, dependents' education, and personnel support programs; mobilization planning and requirements; language capabilities

and programs; and the Federal Voting Assistance Program. The Under Secretary of Defense (Personnel and Readiness) also serves as the Chief Human Capital Officer.

Policy The Under Secretary of Defense for Policy is the principal staff assistant and adviser to the Secretary of Defense for policy matters relating to overall international security policy and political-military affairs and represents the Department at the National Security Council and other external agencies regarding national security policy. Functional areas include homeland defense; NATO affairs; foreign military sales; arms limitation agreements; international trade and technology security; regional security affairs; special operations and low-intensity conflict; stability operations; integration of departmental plans and policies with overall national security objectives; drug control policy, requirements, priorities, systems, resources, and programs; and issuance of policy guidance affecting departmental programs.

Additional Staff In addition, the Secretary and Deputy Secretary of Defense are assisted by a special staff of assistants, including the Assistant Secretary of Defense for Legislative Affairs; the General Counsel; the Inspector General; the Assistant Secretary of Defense for Public Affairs; the Assistant to the Secretary of Defense (Intelligence Oversight); the Director of Administration and Management; the Under Secretary of Defense (Comptroller)/Chief Financial Officer; the Director of Operational Test and Evaluation; Director, Business Transformation; Director, Net Assessment; Director, Program Analysis and Evaluation; and such other officers as the Secretary of Defense establishes to assist him in carrying out his duties and responsibilities.

Joint Chiefs of Staff

The Joint Chiefs of Staff consist of the Chairman; the Vice Chairman; the Chief of Staff of the Army; the Chief of Naval Operations; the Chief of Staff of the Air Force; and the Commandant of the Marine Corps. The Chairmand of the Joint

Chiefs of Staff is the principal military adviser to the President, the National Security Council, and the Secretary of Defense. The other members of the Joint Chiefs of Staff are military advisers who may provide additional information upon request from the President, the National Security Council, or the Secretary of Defense. They may also submit their advice when it does not agree with that of the Chairman. Subject to the authority of the President and the Secretary of Defense, the Chairman of the Joint Chiefs of Staff is responsible for assisting the President and the Secretary of Defense in providing strategic direction and planning for the Armed Forces; making recommendations for the assignment of responsibilities within the Armed Forces; comparing the capabilities of American and allied Armed Forces with those of potential adversaries; preparing and reviewing contingency plans that conform to policy guidance; preparing joint logistic and mobility plans; and recommending assignment of logistic and mobility responsibilities.

The Chairman, while so serving, holds the grade of general or admiral and outranks all other officers of the Armed Forces.

The Vice Chairman of the Joint Chiefs performs duties assigned by the Chairman, with the approval of the Secretary of Defense. The Vice Chairman acts as Chairman when there is a vacancy in the office of the Chairman or in the absence or disability of the Chairman. The Vice Chairman, while so serving, holds the grade of general or admiral and outranks all other officers of the Armed Forces except the Chairman of the Joint Chiefs of Staff.

Joint Staff The Joint Staff, under the Chairman of the Joint Chiefs of Staff, assists the Chairman and the other members of the Joint Chiefs of Staff in carrying out their responsibilities.

The Joint Staff is headed by a Director who is selected by the Chairman in consultation with the other members of the Joint Chiefs of Staff and with the approval of the Secretary of Defense. Officers assigned to serve on the Joint Staff are selected by the Chairman in

approximate equal numbers from the Army, Navy, Marine Corps, and Air Force.

Combatant Commands

The combatant commands are military commands with broad continuing missions maintaining the security and defense of the United States against attack; supporting and advancing the national policies and interests of the United States and discharging U.S. military responsibilities in their assigned areas; and preparing plans, conducting operations, and coordinating activities of the forces assigned to them in accordance with the directives of higher authority. The operational chain of command runs from the President to the Secretary of Defense to the commanders of the combatant commands. The Chairman of the Joint Chiefs of Staff serves as the spokesman for the commanders of the combatant commands, especially on the administrative requirements of their commands.

For a complete listing of the combatant commands, including a map of each command's geographic area of responsibility and links to command Web sites, visit <http://www.defense.gov/specials/unifiedcommand/>.

Field Activities

Counterintelligence Field Activity The DOD Counterintelligence Field Activity was established in 2002 to build a Defense counterintelligence (CI) system that is informed by national goals and objectives and supports the protection of DOD personnel and critical assets from foreign intelligence services, foreign terrorists, and other clandestine or covert threats. The desired end is a transformed Defense CI system that integrates and synchronizes the counterintelligence activities of the military departments, defense agencies, Joint Staff, and combatant commands.

Defense Technical Information Center

The Defense Technical Information Center (DTIC) is a field activity in the Office of the Under Secretary of Defense (Acquisition, Technology, and

Logistics). It operates under the authority, direction, and control of the Director, Defense Research and Engineering. DTIC provides defense scientific and technical information, offers controlled access to defense information, and designs and hosts more than 100 DOD Web sites. DTIC's collections include technical reports, summaries of research in progress, independent research and development material, defense technology transfer agreements, and DOD planning documents.

Defense Technology Security

Administration The Defense Technology Security Administration (DTSA) is the central DOD point of contact for development and implementation of technology security policies governing defense articles and services and dual-use commodities. DTSA administers the development and implementation of DOD technology security policies on international transfers of defense-related goods, services, and technologies to ensure that critical U.S. military technological advantages are preserved; transfers that could prove detrimental to U.S. security interests are controlled and limited; proliferation of weapons of mass destruction and their means of delivery is prevented; diversion of defense-related goods to terrorists is prevented; legitimate defense cooperation with foreign friends and allies is supported; and the health of the defense industrial base is assured.

Education Activity The Department of Defense Education Activity (DODEA) was established in 1992. It consists of two subordinate organizational entities: the Department of Defense Dependents Schools (DODDS) and the Department of Defense Domestic Dependent Elementary and Secondary Schools (DDESS). DODEA formulates, develops, and implements policies, technical guidance, and standards for the effective management of Defense dependents education activities and programs. It also plans, directs, coordinates, and manages the education programs for eligible dependents of U.S. military and civilian personnel stationed overseas and stateside; evaluates the programmatic and operational

policies and procedures for DODDS and DDESS; and provides education activity representation at meetings and deliberations of educational panels and advisory groups.

Human Resources Field Activity The Department of Defense Human Resources Activity (DODHRA) enhances the operational effectiveness and efficiency of a host of dynamic and diverse programs supporting the Office of the Under Secretary of Defense for Personnel and Readiness. The Field Activity supports policy development, performs cutting-edge research and expert analysis, supports readiness and reengineering efforts, manages the largest automated personnel data repositories in the world, prepares tomorrow's leaders through robust developmental programs, supports recruiting and retaining the best and brightest, and delivers both benefits and critical services to warfighters and their families.

Internet, <http://www.dhra.mil>.

TRICARE Management Activity The TRICARE Management Activity (TMA) was formed in 1998 from the consolidation of the TRICARE Support Office (formerly Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) headquarters), the Defense Medical Programs Activity, and the integration of health management program functions formerly located in the Office of the Assistant Secretary of Defense for Health Affairs. The mission of TMA is to manage TRICARE; manage the Defense Health Program appropriation; provide operational direction and support to the Uniformed Services in the management and administration of the TRICARE program; and administer CHAMPUS.

Test Resource Management The Test Resource Management Center (TRMC) is a DOD Field Activity under the authority, direction, and control of the Under Secretary of Defense for Acquisition, Technology, and Logistics. The Center develops policy, plans for, and assesses the adequacy of the major range and test facility base to provide adequate testing in support of development, acquisition,

fielding, and sustainment of defense systems. TRMC develops and maintains the test and evaluation resources strategic plan, reviews the proposed DOD test and evaluation budgets, and certifies the adequacy of the proposed budgets and whether they provide balanced support of the strategic plan. TRMC manages the Central Test and Evaluation Investment Program, the Test and Evaluation Science and Technology Program, and the Joint Mission Environment Test Capability Program.

Defense Prisoner of War/Missing Personnel Office The Defense Prisoner of War/Missing Personnel Office (DPMO) was established in 1993 to provide centralized management of prisoner of war/missing personnel affairs within the DOD. DPMO's primary responsibilities include leadership for and policy oversight over all efforts to account for Americans still missing from past conflicts and the recovery of and accounting for those who may become isolated in hostile territory in future conflicts. The Office also provides administrative and logistical support to the U.S.-Russia Joint Commission on POW/MIAs; conducts research and analysis to help resolve cases of those unaccounted for; examines DOD documents for possible public disclosure; and, through periodic consultations and other appropriate measures, maintains viable channels of communications on POW/MIA matters between DOD and Congress, the families of the missing, and the American public.

Office of Economic Adjustment The Office of Economic Adjustment (OEA) assists communities that are adversely affected by base closures, expansions, or realignments and Defense contract or program cancellations. OEA provides technical and financial assistance to those communities and coordinates other Federal agencies' involvement through the Defense Economic Adjustment Program.

Washington Headquarters Services Washington Headquarters Services (WHS), established as a DOD Field Activity on October 1, 1977, is under the authority, direction, and control of the Director of Administration and

Management. WHS provides a wide range of administrative and operational services to the Office of the Secretary of Defense, specified DOD components, Federal Government activities, and the general public. This support includes contracting and procurement; Defense facilities management; Pentagon renovation and construction; directives and records management; financial management; library service; human resource services for executive, political, military, and civilian personnel; personnel security services; support for advisory boards and commissions; legal services and advice; information technology and data systems support; enterprise information technology infrastructure services; and planning and evaluation functions.

Defense Media Activity Defense Media Activity (DMA) gathers and reports Defense news and information from all levels in the Department to the DOD family worldwide through the Armed Forces Radio and Television Network, the Internet, and printed publications. DMA reports news about individual soldiers, sailors, marines, airmen, and Defense civilian employees to the American public through the Hometown News Service. DMA provides World Wide Web infrastructure and services for DOD organizations. It collects, processes, and stores DOD imagery products created by the Department and makes them available to the American public. It trains the Department's public affairs and visual information military and civilian professionals. DMA also operates Stars and Stripes, a news and information organization, free of Government editorial control and censorship for military audiences overseas.

The Department of the Air Force is responsible for defending the United States by providing air, space, and cyberspace capabilities.

The Department of the Air Force (USAF) was established as part of the National Military Establishment by the National Security Act of 1947 (61 Stat. 502) and came into being on September 18, 1947. The National Security Act Amendments of 1949 redesignated the National Military Establishment as the Department of Defense, established it as an executive department, and made the Department of the Air Force a military department within the Department of Defense (63 Stat. 578). The Department of the Air Force is separately organized under the Secretary of the Air Force. It operates under the authority, direction, and control of the Secretary of Defense (10 U.S.C. 8010). The Department consists of the Office of the Secretary of the Air Force, the Air Staff, and field organizations.

Secretary The Secretary is responsible for matters pertaining to organization, training, logistical support, maintenance, welfare of personnel, administrative, recruiting, research and development, and other activities prescribed by the President or the Secretary of Defense.

Air Staff The mission of the Air Staff is to furnish professional assistance to the Secretary, the Under Secretary, the Assistant Secretaries, and the Chief of Staff in executing their responsibilities.

Field Organizations The major commands, field operating agencies, and direct reporting units together represent the field organizations of the Air Force. These are organized primarily on a functional basis in the United States and on a geographic basis overseas. These commands are responsible for accomplishing certain phases of the worldwide activities of the Air Force.

They also are responsible for organizing, administering, equipping, and training their subordinate elements for the accomplishment of assigned missions.

Major Commands: Continental U.S. Commands

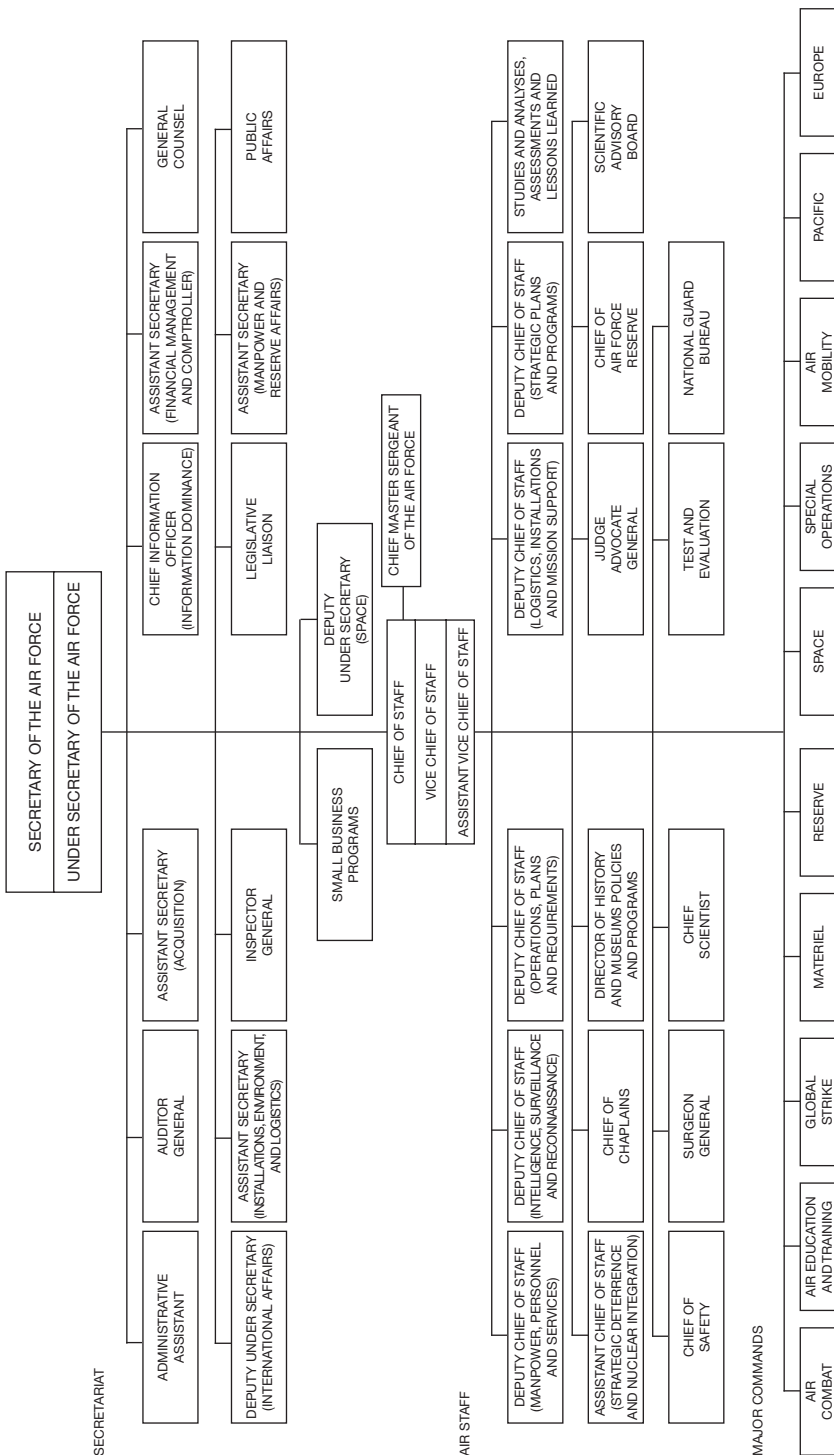

Air Combat Command The Air Combat Command operates Air Force bombers and CONUS-based, combat-coded fighter and attack aircraft. It organizes, trains, equips, and maintains combat-ready forces for rapid deployment and employment while ensuring strategic air defense forces are ready to meet the challenges of peacetime air sovereignty and wartime air defense.

Air Education and Training Command The Air Education and Training Command recruits, assesses, commissions, educates, and trains Air Force enlisted and officer personnel. It provides basic military training, initial and advanced technical training, flying training, and professional military and degree-granting professional education. The Command also conducts joint, medical service, readiness, and Air Force security assistance training.

Air Force Global Strike Command The Air Force Global Strike Command organizes, trains, and equips the Air Force's three intercontinental ballistic missile wings, two B-52 Stratofortress wings, and the only B-2 Spirit wing. These three weapons systems make up two-thirds of the Nation's strategic nuclear triad by providing land-based and airborne nuclear deterrent forces.

war-winning expeditionary capabilities through research, development, test, evaluation, acquisition, modernization, and sustainment of aerospace weapon systems throughout their life cycles. Those weapon systems include Air Force fighter, bomber, cargo, and attack fleets and armament. They also include net-centric command and control assets; intelligence, surveillance, and reconnaissance assets; and combat support information systems. In addition, the command oversees basic research and development supporting air, space, and cyberspace capabilities. The command uses an integrated, efficient life cycle management approach in its operations to ensure the best possible support to warfighters while ensuring good stewardship of taxpayer dollars.

Air Force Reserve Command The Air Force Reserve Command's airmen operate every major Air Force weapons system. The Air Force Reserve provides the Air Force with a surge capacity in times of crisis. Approximately 70,000 citizen airmen from all Air Force specialties are maintained "mission ready" and trained to the same standards as regular Air Force airmen.

Air Force Space Command The Air Force Space Command provides space and cyberspace capabilities including missile warning, space control, spacelift, satellite operations, and designated cyberspace activities.

Air Force Special Operations Command The Air Force Special Operations Command provides the air component of U.S. Special Operations Command, deploying specialized air power and delivering special operations combat power.

Air Mobility Command The Air Mobility Command provides airlift, air refueling, special air missions, and aeromedical evacuation for U.S. forces. It also supplies forces to theater commands to support wartime tasking.

Major Commands: Overseas Commands

Pacific Air Forces The Pacific Air Forces are responsible for planning, conducting, and coordinating offensive and defensive

air operations in the Pacific and Asian theaters.

U.S. Air Forces in Europe The U.S. Air Forces in Europe plan, conduct, control, coordinate, and support air and space operations to achieve United States national and NATO objectives.

Air Force Audit Agency The Air Force Audit Agency provides all levels of Air Force management with independent, objective, and quality audit services that include: reviewing and promoting economy, effectiveness, and efficiency of operations; evaluating programs and activities and assisting management in achieving intended results; and assessing and improving Air Force fiduciary stewardship and the accuracy of financial reporting.

Air Force Civil Engineer Center The Air Force Civil Engineer Center (AFCEC) provides responsive, flexible enterprise-wide installation engineering services, including facility investment planning, design and construction, operations support, real property management, readiness, energy support, environmental compliance and restoration, and audit assertions, acquisition, and program management. AFCEC conducts its operations at more than 75 locations worldwide.

Air Force Cost Analysis Agency The Air Force Cost Analysis Agency (AFCAA) performs nonadvocate cost analyses for major space, aircraft, and information system programs as required by public law and Department of Defense policy. The agency supports the Air Force-wide cost analysis program by developing and maintaining cost-estimating tools, techniques, and infrastructure. AFCAA provides guidance, analytical support,

quantitative risk analyses, and special studies in support of long-range planning, force structure, analysis of alternatives, and lifecycle cost analyses.

Air Force Financial Services Center

The Air Force Financial Services Center provides customer service and support to Active Duty and Reserve military and civilian customers throughout the world. The center is responsible for processing temporary and permanent duty travel claims previously performed at base-level Financial Services Offices.

Air Force Flight Standards Agency

The Air Force Flight Standards Agency performs worldwide inspection of airfields, navigation systems, and instrument approaches. It provides flight standards to develop Air Force instrument requirements and certifies procedures and directives for cockpit display and navigation systems. It also provides air traffic control and airlift procedures and evaluates air traffic control systems and airspace management procedures.

Air Force Historical Research Agency

The Air Force Historical Research Agency serves as a repository for Air Force historical records and provides research facilities for scholars and the general public.

Air Force Intelligence Analysis

Agency The Air Force Intelligence Analysis Agency provides national-level intelligence as part of the national intelligence community and tailored intelligence analysis to Air Force headquarters, including authoritative air, air defense, political-military, and strategic products and assessments. The agency is also the Department of Defense's intelligence lead for civilian aviation intelligence analysis. It maintains the HQ USAF Sensitive Compartmented Intelligence Local Wide Area Network components for the National Capital Region, manages physical security requirements, and produces classified media for headquarters staff.

Air Force Intelligence, Surveillance

and Reconnaissance Agency The Air Force Intelligence, Surveillance and Reconnaissance Agency organizes, trains, equips, and presents assigned forces and capabilities to conduct intelligence,

surveillance, and reconnaissance for combatant commanders and the nation through personnel assigned at two wings, two centers, and one intelligence, surveillance and reconnaissance (ISR) group, with locations around the world.

Air Force Inspection Agency The Air Force Inspection Agency is the primary action arm of the Secretary of the Air Force inspection system. In partnership with the office of Air Force Smart Operations, the agency promotes Air Force Smart Operations for the 21st Century (AFSO21) and provides assistance for process improvement activities.

Air Force Legal Operations Agency

The Air Force Legal Operations Agency includes all senior defense counsel, senior trial counsel, and appellate defense and government counsel in the Air Force, as well as all Air Force civil litigators defending the Air Force against civil law suits claiming damages and seeking other remedies in contracts, environmental, labor, and tort litigation.

Air Force Medical Operations

Agency The Air Force Medical Operations Agency assists the Air Force Surgeon General in developing plans, programs, and policies for the medical service, aerospace medicine, clinical investigations, quality assurance, health promotion, family advocacy, bioenvironmental engineering, military public health, and radioactive material management.

Air Force Medical Support Agency

The Air Force Medical Support Agency provides comprehensive consultative support and policy development for the Air Force Surgeon General in medical force management; and operational support for ground and air expeditionary medical capabilities used in global, homeland security, and force health protection, as well as all aspects of medical and dental services, aerospace medicine operations, and medical support functions.

Air Force Agency for Modeling and

Simulation The Air Force Agency for Modeling and Simulation implements policies and standards and supports field

operations in the areas of modeling and simulation.

Air Force Operations Group The Air Force Operations Group collects, processes, analyzes, and communicates information, enabling situational awareness of current USAF operations worldwide. This awareness facilitates timely, responsive, and effective decisionmaking by senior USAF leaders and combatant commanders.

Air Force Office of Special Investigations

The Air Force Office of Special Investigations identifies, exploits, and neutralizes criminal, terrorist, and intelligence threats to the U.S. Air Force, Department of Defense and U.S. Government. Its primary responsibilities are criminal investigations and counterintelligence services. The Office protects critical technologies and information; detects and mitigates threats; provides global specialized services; conducts major criminal investigations; and engages foreign adversaries and threats offensively.

Air Force Personnel Center The Air Force Personnel Center (AFPC) executes and integrates USAF personnel plans and programs and supervises procedures applicable to the worldwide management and administration of Air Force military and civilian personnel. The center identifies requirements and develops, coordinates, and implements standards, policies, procedures, and actions for assigned personnel and manpower operations. AFPC improves direct combat support and mission effectiveness for Air Force personnel with quality-of-life service programs. The center develops, coordinates, and distributes instructions and procedures that implement policy guidance received from the DCS, Manpower, Personnel and Services.

Air Force Personnel Operations Agency The Air Force Personnel Operations Agency serves as the single Air Force focal point for submission and acceptance of total force human resources information technology requirements.

Air Force Petroleum Agency The Air Force Petroleum Agency is the Air Force service control point for all Defense

Logistics Agency fuel-related support issues. The Agency provides a full range of technical and professional services related to fuels, propellants, chemicals, lubricants, gases, and cryogenics for all aerospace vehicles, systems, and equipment.

Air Force Program Executive Offices

The Air Force Program Executive Offices (PEO) are responsible for the execution of a program throughout its entire lifecycle. While the PEOs are not a specific part of the Air Force headquarters, they have direct reporting responsibilities to the Air Force Service Acquisition Executive and the Assistant Secretary of the Air Force for Acquisition for acquisition- and program-specific issues. The current Air Force PEOs responsible for program execution include areas of aircraft, weapons, command & control and combat support systems, and joint strike fighter.

Air Force Public Affairs Agency The Air Force Public Affairs Agency provides an agile and responsive public affairs capability to the Air Force through three active duty combat camera squadrons, one Reserve combat camera squadron, and four operating locations. It manages the Air Force media center which collects, archives, and distributes Air Force imagery; manages licensing and branding of Air Force trademarks; provides policy guidance and oversight for Air Force public Web site and social media programs; operates the Air Force's official social media program; composes original musical arrangements for Air Force regional bands; and develops training curricula and requirements for the Air Force's nearly 6,000 public affairs practitioners.

Air Force Review Boards Agency The Air Force Review Boards Agency provides management of various military and civilian appellate processes for the Secretary of the Air Force.

Air Force Safety Center The Air Force Safety Center's goal is to prevent mishaps and preserve combat readiness by developing, implementing, executing, and evaluating Air Force aviation, ground, weapons, nuclear surety, space, and system programs.

Air Force Security Forces Center The Air Force Security Forces Center organizes, trains, and equips Air Force security forces worldwide. It develops force protection doctrine, programs, and policies by planning and programming resources to execute the missions of integrated defense operations, nuclear and non-nuclear weapon system security, physical security, combat arms, law enforcement, antiterrorism, resource protection, and corrections.

Air Force Weather Agency The Air Force Weather Agency provides centralized weather services to the Air Force, Army joint staff, designated unified commands, and other agencies, ensuring standardization of procedures and interoperability within the USAF weather system. It also assesses its technical performance and effectiveness.

The mission of the Department of the Army is to organize, train, and equip active duty and reserve forces for the preservation of peace, security, and the defense of our Nation. As part of our national military team, the Army focuses on land operations; its soldiers must be trained with modern arms and equipment to be ready to respond quickly. The Army also administers programs aimed at protecting the environment, improving waterway navigation, controlling floods and beach erosion, and developing water resources. It provides military assistance to Federal, State, and local government agencies, including natural disaster relief assistance.

The American Continental Army, now called the United States Army, was established by the Continental Congress on June 14, 1775, more than a year before the Declaration of Independence. The Department of War was established as an executive department at the seat of government by act approved August 7, 1789 (1 Stat. 49). The Secretary of War was established as its head. The National Security Act of 1947 (50 U.S.C. 401) created the National Military Establishment, and the Department of War was designated the Department of the Army. The title of its Secretary became Secretary of the Army (5 U.S.C. 171). The National Security Act Amendments of 1949 (63 Stat. 578) provided that the Department of the Army be a military department within the Department of Defense.

Secretary

The Secretary of the Army is the senior official of the Department of the Army. Subject to the direction, authority, and control of the President as Commander in Chief and of the Secretary of Defense, the Secretary of the Army is responsible

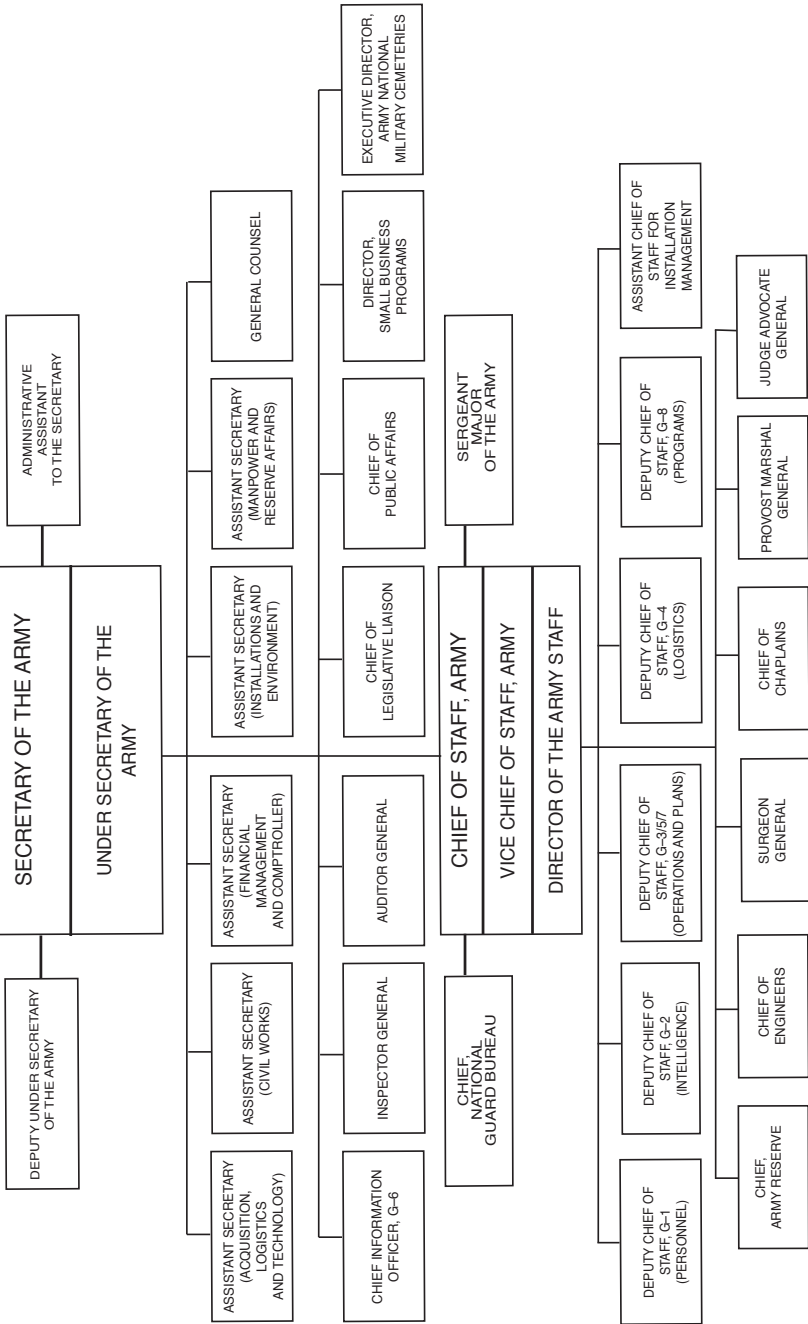

for and has the authority to conduct all affairs of the Department of the Army, including its organization, administration, operation, efficiency, and such other activities as may be prescribed by the President or the Secretary of Defense as authorized by law.

For further information, call 703-695-2422.

Army Staff

Presided over by the Chief of Staff, the Army Staff is the military staff of the Secretary of the Army. It is the duty of the Army Staff to perform the following functions: prepare for deployment of the Army and for such recruiting, organizing, supplying, equipping, training, mobilizing, and demobilizing of the Army as will assist the execution of any power, duty, or function of the Secretary or the Chief of Staff; investigate and report upon the efficiency of the Army and its preparation for military operations; act as the agent of the Secretary of the Army and the Chief of Staff in coordinating the action of all organizations of the Department of the Army; and perform such other duties not otherwise assigned

DEPARTMENT OF THE ARMY

by law as may be prescribed by the Secretary of the Army.

Program Areas

Civil Functions Civil functions of the Department of the Army include the Civil Works Program, the Nation's major Federal water resources development activity involving engineering works such as major dams, reservoirs, levees, harbors, waterways, locks, and many other types of structures; the administration of Arlington and the U.S. Soldiers' and Airmen's Home National Cemeteries; and other related matters.

History This area includes advisory and coordination service provided on historical matters, including historical properties; formulation and execution of the Army Historical Program; and preparation and publication of histories required by the Army.

Installations This area consists of policies, procedures, and resources for the management of installations to ensure the availability of efficient and affordable base services and infrastructure in support of military missions. It includes the review of facilities requirements and stationing, identification and validation of resource requirements, and program and budget development and justification. Other activities include support for base operations; morale, welfare, and recreation; real property maintenance and repair; environmental programs; military construction; housing; base realignment and closure; and competitive sourcing.

Intelligence This area includes management of Army intelligence with responsibility for policy formulation, planning, programming, budgeting, evaluation, and oversight of intelligence activities. The Army Staff is responsible for monitoring relevant foreign intelligence developments and foreign disclosure; imagery, signals, human, open-source, measurement, and signatures intelligence; counterintelligence; threat models and simulations; and security countermeasures.

Medical This area includes management of health services for

the Army and as directed for other services, agencies, and organizations; health standards for Army personnel; health professional education and training; career management authority over commissioned and warrant officer personnel of the Army Medical Department; medical research, materiel development, testing and evaluation; policies concerning health aspects of Army environmental programs and prevention of disease; and planning, programming, and budgeting for Armywide health services.

Military Operations and Plans This includes Army forces strategy formation; mid-range, long-range, and regional strategy application; arms control, negotiation, and disarmament; national security affairs; joint service matters; net assessment; politico-military affairs; force mobilization, demobilization, and planning; programming structuring, development, analysis, requirements, and management; operational readiness; overall roles and missions; collective security; individual and unit training; psychological operations; information operations; unconventional warfare; counterterrorism; operations security; signal security; special plans; equipment development and approval; nuclear and chemical matters; civil affairs; military support of civil defense; civil disturbance; domestic actions; command and control; automation and communications programs and activities; management of the program for law enforcement, correction, and crime prevention for military members of the Army; special operations forces; foreign language and distance learning; and physical security.

Reserve Components This area includes management of individual and unit readiness and mobilization for Reserve Components, comprising the Army National Guard and U.S. Army Reserve.

Religious This area includes management of religious and moral leadership and chaplain support activities throughout the Department; religious ministrations, religious education, pastoral care, and counseling for Army military personnel; liaison with ecclesiastical agencies; chapel

construction requirements and design approval; and career management of clergymen serving in the Chaplains Corps.

Army Commands

U.S. Army Forces Command

Headquartered at Fort Bragg, NC, U.S. Army Forces Command (FORSCOM) prepares conventional forces to provide a sustained flow of trained and ready land power to combatant commanders in defense of the Nation at home and abroad.

For further information, contact the FORSCOM Public Affairs Office. Phone, 910-570-7225. Internet, <http://www.forscom.army.mil>.

U.S. Army Training and Doctrine Command

Headquartered in Fort Eustis, VA, U.S. Army Training and Doctrine Command (TRADOC) develops, educates, and trains soldiers, civilians, and leaders; supports unit training; and designs, builds, and integrates a versatile mix of capabilities, formations, and equipment to strengthen the U.S. Army as a force of decisive action.

For further information, contact the TRADOC Public Affairs Office. Phone, 757-501-5876. Internet, <http://www.tradoc.army.mil>.

U.S. Army Materiel Command U.S. Army Materiel Command (AMC) is the Army's premier provider of materiel readiness—technology, acquisition support, materiel development, logistics power projection, and sustainment—to the total force, across the spectrum of joint military operations. Headquartered at Redstone Arsenal, Alabama, AMC's missions include the development of weapon systems, advanced research on future technologies, and maintenance and distribution of spare parts and equipment. AMC works closely with program executive offices, industry, academia, and other Military Services and Government agencies to develop, test, and acquire equipment that soldiers and units need to accomplish their missions.

For further information, contact the AMC Public Affairs Office. Phone, 256-450-7978. Internet, <http://www.army.mil/amc>.

Army Service Component Commands

U.S. Army Central U.S. Army Central (USARCENT) conducts operations to disrupt and defeat adversaries; deny access to weapons of mass destruction; ensure regional access; strengthen regional stability; build the self-reliance of partner nations' security forces; and protect the vital interests of the United States.

For further information, contact the USARCENT Public Affairs Office. Phone, 803-895-8875. Email, comments@arcent.army.mil. Internet, <http://www.arcent.army.mil>.

U.S. Army North U.S. Army North (USARNORTH) was established to support U.S. Northern Command. USARNORTH helps maintain readiness to support homeland defense, civil support operations, and theater security cooperation activities.

For further information, contact the USARNORTH Public Affairs Office. Phone, 210-221-0015. Email, arnorthpao@conus.army.mil. Internet, <http://www.arnorth.army.mil>.

U.S. Army South U.S. Army South (USARSO) is a major subordinate command of U.S. Army Forces Command, Fort McPherson, Georgia, and is the Army service component command of U.S. Southern Command. USARSO executes and is responsible for all Army operations within U.S. Southern Command's area of responsibility (Central and South America and the Caribbean Islands). USARSO seeks to build regional cooperative security and increase hemispheric cooperation by planning and executing multilateral exercises and carrying out humanitarian aid, peacekeeping, engineering, and medical assistance exercises. USARSO maintains a deployable headquarters at Fort Sam Houston, Texas, where it conducts strategic and operational planning.

For further information, contact the USARSO Public Affairs Office. Phone, 210-295-6739/5956/6693. Email, arsouth.arsouth.pao@mail.mil. Internet, <http://www.arsouth.army.mil>.

U.S. Army Europe U.S. Army Europe provides the principal land component for U.S. European Command (EUCOM) throughout a 51-country area. As the

U.S. Army's largest forward-deployed expeditionary force, U.S. Army Europe (USAREUR) supports NATO and U.S. bilateral, multinational, and unilateral objectives. It supports U.S. Army forces in the European Command area; receives and assists in the reception, staging, and onward movement and integration of U.S. forces; establishes, operates, and expands operational lines of communication; ensures regional security, access, and stability through presence and security cooperation; and supports U.S. combatant commanders and joint and combined commanders.

For further information, contact the USAREUR Public Affairs Office. Phone, 011-49-6221-57-7270. Internet, <http://www.eur.army.mil>.

U.S. Army Pacific U.S. Army Pacific (USARPAC) conducts operations to assure, enhance, sustain, and influence military relationships that build partner defense capacity; prepare the force for full spectrum operations; respond to threats; sustain and protect the force; and shape and posture for a stable and secure U.S. Pacific Command area of responsibility. USARPAC carries out a cooperative engagement strategy known as the Theater Security Cooperation Program with the 43 Asian and Pacific nations within or bordering its area of responsibility. These countries include the Philippines, Thailand, Vietnam, Japan, Mongolia, Russia, China, South Korea, India, Bangladesh, Australia, New Zealand, Marshall Islands, and Papua New Guinea.

For further information, contact USARPAC. Phone, 808-438-1393. Internet, <http://www.usarpac.army.mil>.

U.S. Army Africa/Southern European Task Force U.S. Army Africa (USARAF)/Southern European Task Force (SETAF) protects and defends the national security interests of the United States. As the Army Service Component Command for U.S. Africa Command, it strengthens land force capabilities of African states and regional organizations, supports U.S. Africa Command operations, and conducts military operations to deter and defeat violent extremist organizations and create a secure environment in Africa.

For further information, contact the USARAF/SETAF Public Affairs Office. Phone, 011-39-0444-71-7618. Internet, <http://www.usaraf.army.mil/>.

U.S. Army Special Operations Command

U.S. Army Special Operations Command (USASOC) organizes, trains, educates, mans, equips, funds, administers, mobilizes, deploys, and sustains Army special operations forces to successfully conduct worldwide special operations, across the range of military operations, in support of regional combatant commanders, American ambassadors, and other agencies, as directed.

For further information, contact the USASOC Public Affairs Office. Phone, 910-432-6005. Internet, <http://www.soc.mil>.

U.S. Army Military Surface Deployment and Distribution Command

The U.S. Army Military Surface Deployment and Distribution Command (SDDC) is a unique Army command that provides global surface deployment command, and control and distribution operations to meet national security objectives for the Department of Defense (DOD). SDDC also partners with the commercial transportation industry as the coordinating link between DOD surface transportation requirements and the capability industry provides.

For further information, contact the SDDC Public Affairs Office. Phone, 618-220-6284. Internet, <http://www.sddc.army.mil>.

U.S. Army Space and Missile Defense Command/Army Strategic Command

U.S. Army Space and Missile Defense Command (SMDC/ARSTRAT) serves as the Army's specified proponent for space and national missile defense and operational integrator for theater missile defense. SMDC/ARSTRAT coordinates, integrates, and/or executes combat development, materiel development, technology, and advanced research and development for missile defense and space programs. It also serves as the Army service component command, the primary land component in support of U.S. Strategic Command missions (strategic deterrence, integrated missile defense, space operations, and cyberspace operations). In addition,

SMDC/ARSTRAT conducts mission-related research and development.

[For the Department of the Navy statement of organization, see the Code of Federal Regulations, Title 32, Part 700]

The primary mission of the Department of the Navy is to protect the United States, as directed by the President or the Secretary of Defense, by the effective prosecution of war at sea including, along with its Marine Corps component, to seize or defend advanced naval bases; to support, as required, the forces of all military departments of the United States; and to maintain freedom of the seas.

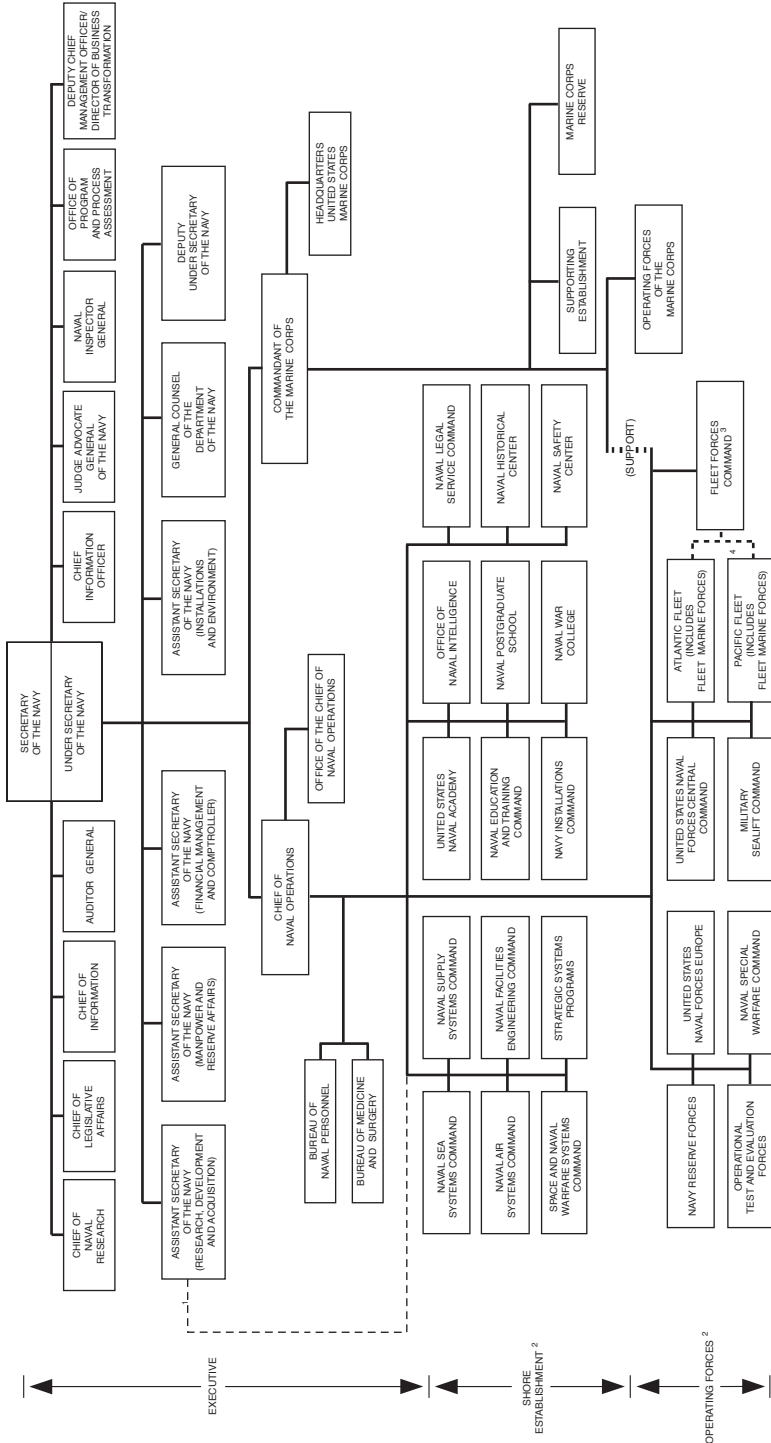

The United States Navy was founded on October 13, 1775, when Congress enacted the first legislation creating the Continental Navy of the American Revolution. The Department of the Navy and the Office of Secretary of the Navy were established by act of April 30, 1798 (10 U.S.C. 5011, 5031). For 9 years prior to that date, by act of August 7, 1789 (1 Stat. 49), the conduct of naval affairs was under the Secretary of War.

The National Security Act Amendments of 1949 provided that the Department of the Navy be a military department within the Department of Defense (63 Stat. 578).

The Secretary of the Navy is appointed by the President as the head of the Department of the Navy and is responsible to the Secretary of Defense for the operation and efficiency of the Navy (10 U.S.C. 5031). The Department of the Navy includes the U.S. Coast Guard when it is operating as a Service in the Navy.

Secretary The Secretary of the Navy is the head of the Department of the Navy, responsible for the policies and control of the Department of the Navy, including its organization, administration, functioning, and efficiency. The members of the

Secretary's executive administration assist in the discharge of the responsibilities of the Secretary of the Navy.

Legal The Office of the Judge Advocate General provides all legal advice and related services throughout the Department of the Navy, except for the advice and services provided by the General Counsel. It also provides legal and policy advice to the Secretary of the Navy on military justice, ethics, administrative law, claims, environmental law, operational and international law and treaty interpretation, and litigation involving these issues. The Judge Advocate General provides technical supervision for the Naval Justice School at Newport, RI.

For further information, contact the Office of the Judge Advocate General, Department of the Navy, Washington Navy Yard, Suite 3000, 1322 Patterson Avenue SE., Washington Navy Yard, DC 20374-5066. Phone, 202-685-5190.

Criminal Investigations The Naval Criminal Investigative Service provides criminal investigative, counterintelligence, law enforcement, and physical, personnel, and information security support to Navy and Marine Corps organizations and personnel worldwide, both ashore and afloat. The Naval Criminal Investigative Service is comprised of law enforcement professionals who are investigators, crime laboratory technicians, technical investigative specialists, security specialists, and administrative support personnel.

For further information, contact the Naval Criminal Investigative Service, 27130 Telegraph Rd., Quantico, VA 22134. Phone, 877-579-3648. Internet, www.ncis.navy.mil.

Research The Office of Naval Research encourages, promotes, plans, initiates, and coordinates naval research; coordinates naval research and development conducted by other agencies and offices of the Department of the Navy; and supervises, manages, and controls activities within or for the Department of the Navy relating to patents, inventions, trademarks, copyrights, and royalty payments.

For further information, contact the Public Affairs Office, Office of Naval Research, Ballston Tower

One, 800 North Quincy Street, Arlington, VA 22217-5660. Phone, 703-696-5031. Email, onrcsc@onr.navy.mil. Internet, www.onr.navy.mil.

Operating Forces The operating forces of the Navy are responsible for naval operations necessary to carry out the Department of the Navy's role in upholding and advancing the national policies and interests of the United States. The operating forces of the Navy include the several fleets, seagoing forces, fleet marine forces, and other assigned Marine Corps forces, the Military Sealift Command, Naval Reserve forces, and other forces and activities as may be assigned by the President or the Secretary of the Navy. The Chief of Naval Operations is responsible for the command and administration of the operating forces of the Navy.

The Atlantic Fleet is composed of ships, submarines, and aircraft that operate throughout the Atlantic Ocean and Mediterranean Sea.

The Naval Forces Europe includes forces assigned by the Chief of Naval Operations or made available from either the Pacific or Atlantic Fleet to operate in the European theater.

The Pacific Fleet is composed of ships, submarines, and aircraft operating throughout the Pacific and Indian Oceans.

The Military Sealift Command provides ocean transportation for personnel and cargo of all components of the Department of Defense and, as authorized, for other Federal agencies; operates and maintains underway replenishment ships and other vessels providing mobile logistic support to elements of the combatant fleets; and operates ships in support of scientific projects and other programs for Federal agencies.

Other major commands of the operating forces of the Navy are the Naval Forces Central Command, Operational Test and Evaluation Force, Naval Special Warfare Command, and Naval Reserve Force.

Activities

Air Systems The Naval Air Systems Command provides material support to

the Navy and Marine Corps for aircraft, airborne weapons systems, avionics, related photographic and support equipment, ranges, and targets.

Coast Guard The Commandant of the Coast Guard reports to the Secretary of the Navy and the Chief of Naval Operations when the Coast Guard is operating as a service in the Navy and represents the Coast Guard before the Joint Chiefs of Staff. During such service, Coast Guard operations are integrated and uniform with Department of the Navy operations to the maximum extent possible. The Commandant of the Coast Guard organizes, trains, prepares, and maintains the readiness of the Coast Guard for the performance of national defense missions as directed. The Commandant also maintains a security capability; enforces Federal laws and regulations on and under the high seas and waters subject to the jurisdiction of the United States; and develops, establishes, maintains, and operates aids to maritime navigation, as well as ice-breaking and rescue facilities, with due regard to the requirements of national defense.

Computers and Telecommunications

The Naval Network and Space Operations Command (NNSOC) was formed in July 2002 by the merger of elements of Naval Space Command and Naval Network Operations Command. The command operates and maintains the Navy's space and global telecommunications systems and services, directly supports warfighting operations and command and control of naval forces, and promotes innovative technological solutions to warfighting requirements. NNSOC enables naval forces to use information, space technologies, and expertise in order to achieve and maintain knowledge superiority essential for dominating the battle space.

The United States Marine Corps was established on November 10, 1775, by resolution of the Continental Congress. Marine Corps composition and functions are detailed in 10 U.S.C. 5063.

The Marine Corps, which is part of the Department of the Navy, is the smallest of the Nation's combat forces and is the only service specifically tasked by Congress to be able to fight in the air, on land, and at sea. Although marines fight in each of these dimensions, they are primarily a maritime force, inextricably linked with the Navy to move from the sea to fight on land.

The Marine Corps conducts entry-level training for its enlisted marines at two bases, Marine Corps Recruit Depot, Parris Island, SC, and Marine Corps Recruit

Depot, San Diego, CA. Officer candidates are evaluated at Officer Candidate School at Marine Corps Combat Development Command, Quantico, VA. Marines train to be first on the scene to respond to attacks on the United States or its interests, acts of political violence against Americans abroad, disaster relief, humanitarian assistance, or evacuation of Americans from foreign countries.

The Defense Advanced Research Projects Agency is a separately organized agency

within the Department of Defense and is under the authority, direction, and

control of the Under Secretary of Defense (Acquisition, Technology and Logistics). The Agency serves as the central research and development organization of the Department of Defense with a primary responsibility to maintain U.S. technological superiority over potential adversaries. It pursues imaginative and innovative research and development projects, and conducts demonstration projects that represent technology

appropriate for joint programs, programs in support of deployed forces, or selected programs of the military departments. To this end, the Agency arranges, manages, and directs the performance of work connected with assigned advanced projects by the military departments, other Government agencies, individuals, private business entities, and educational or research institutions, as appropriate.

The Defense Commissary Agency (DeCA) was established in 1990 and is under the authority, direction, and control of the Under Secretary of Defense for Personnel and Readiness and the operational supervision of the Defense Commissary Agency Board of Directors.

DeCA provides an efficient and effective worldwide system of commissaries that sell quality groceries and household supplies at low prices to members of the Armed Services community. This benefit satisfies customer demand for quality products and delivers exceptional savings while enhancing the military community's quality of life. DeCA works closely with its employees, customers, and civilian

business partners to satisfy its customers and to promote the commissary benefit. The benefit fosters recruitment, retention, and readiness of skilled and trained personnel.

The Defense Contract Audit Agency (DCAA) was established in 1965 and is under the authority, direction, and

control of the Under Secretary of Defense (Comptroller)/Chief Financial Officer. DCAA performs all necessary contract

audit functions for DOD and provides accounting and financial advisory services to all Defense components responsible for procurement and contract administration. These services are provided in connection with the negotiation, administration, and settlement of contracts and subcontracts to ensure taxpayer dollars are spent on fair and reasonable contract prices. They include evaluating the acceptability of costs claimed or proposed by contractors and reviewing the efficiency and

economy of contractor operations. Other Government agencies may request the DCAA's services under appropriate arrangements.

DCAA manages its operations through five regional offices responsible for approximately 104 field audit offices throughout the United States and overseas. Each region is responsible for the contract auditing function in its assigned area. Point of contact information for DCAA regional offices is available at www.dcaa.mil.

The Defense Security Service (DSS) is under the authority, direction, and control of the Under Secretary of Defense for Intelligence. DSS ensures the safeguarding of classified information used by contractors on behalf of the DOD and 22 other executive branch agencies under the National Industrial Security Program. It oversees the protection of conventional arms, munitions, and explosives in the custody of DOD contractors; evaluates the protection of selected private sector critical assets and infrastructures (physical and cyber-based systems) and recommends measures needed to maintain operations identified as

vital to DOD. DSS makes clearance determinations for industry and provides support services for DOD Central Adjudicative Facilities. It provides security education, training, and proactive awareness programs for military, civilian, and cleared industry to enhance their proficiency and awareness of DOD security policies and procedures. DSS also has a counterintelligence office to integrate counterintelligence principles into security countermeasures missions and to support the national counterintelligence strategy. Information on DSS operating locations and centers is available at http://www.dss.mil/isp/dss_oper_loc.html.

The Defense Threat Reduction Agency (DTRA) was established in 1998 and is under the authority, direction, and control of the Under Secretary of Defense for Acquisition, Technology, and Logistics. DTRA's mission is to reduce the threat posed by weapons of mass destruction (WMD). DTRA covers the full range of WMD threats (chemical, biological, nuclear, radiological, and high explosive), bridges the gap between the warfighters and the technical community, sustains the nuclear deterrent, and

provides both offensive and defensive technology and operational concepts to warfighters. DTRA reduces the threat of WMD by implementing arms control treaties and executing the Cooperative Threat Reduction Program. It uses combat support, technology development, and chemical-biological defense to deter the use and reduce the impact of such weapons. DTRA also prepares for future threats by developing the technology and concepts needed to counter new WMD threats and adversaries.

The Missile Defense Agency's (MDA) mission is to establish and deploy a layered ballistic missile defense system to intercept missiles in all phases of their flight and against all ranges of threats. This capability will provide a defense of the United States, deployed forces, and allies. MDA is under the authority, direction, and control of the Under Secretary of Defense for Acquisition, Technology, and Logistics. MDA manages and directs DOD's

ballistic missile defense acquisition programs and enables the Services to field elements of the overall system as soon as practicable. MDA develops and tests technologies and, if necessary, uses prototype and test assets to provide early capability. Additionally, MDA improves the effectiveness of deployed capabilities by implementing new technologies as they become available or when the threat warrants an accelerated capability.

National Defense University

The mission of the National Defense University is to prepare military and civilian leaders from the United States and other countries to evaluate national and international security challenges through multidisciplinary educational and research programs, professional exchanges, and outreach.

The National Defense University was established in 1976 and incorporates the following colleges and programs: the Industrial College of the Armed Forces, the National War College, the Joint Forces Staff College, the Information Resources Management College, the College of International Security Affairs, the Institute for National Strategic Studies, the Center for the Study of Weapons of Mass Destruction, the Center for Technology and National Security Policy, the International Student Management

Office, the Joint Reserve Affairs Center, CAPSTONE, the Security of Defense Corporate Fellows Program, the NATO Education Center, the Institute for National Security Ethics and Leadership, the Center for Joint Strategic Logistics Excellence, the Center for Applied Strategic Leaders, and the Center for Complex Operations.

For further information, contact the Human Resources Directorate, National Defense University, 300 Fifth Avenue, Building 62, Fort McNair, Washington, DC 20319-5066. Phone, 202-685-2169. Internet, <http://www.ndu.edu>.

National War College The National War College provides education in national security policy to selected military officers and career civil service employees of Federal departments and agencies concerned with national security. It is the only senior service college with the primary mission of offering a course of study that emphasizes

national security policy formulation and the planning and implementation of national strategy. Its 10-month academic program is an issue-centered study in U.S. national security. The elective program is designed to permit each student to tailor his or her academic experience to meet individual professional development needs.

For further information, contact the Department of Administration, The National War College, 300 D Street SW., Fort McNair, Washington, DC 20319-5078. Phone, 202-685-3674. Internet, <http://www.ndu.edu/nwc/>.

Industrial College of the Armed Forces

The Industrial College of the Armed Forces is an educational institution that prepares selected military and civilians for strategic leadership and success in developing our national security strategy and in evaluating, marshalling, and managing resources in the execution of that strategy. The College offers an education in the understanding of the importance of industry to our national security strategy, and more importantly the resource component of national security. The rigorous, compressed curriculum, completed in two semesters, leads to a master of science degree in national resource strategy.

For further information, contact the Director of Operations, Industrial College of the Armed Forces, 408 Fourth Avenue, Building 59, Fort McNair, Washington, DC 20319-5062. Phone, 202-685-4333. Internet, <http://www.ndu.edu/icaf/>.

Joint Forces Staff College The Joint Forces Staff College (JFSC) is an intermediate- and senior-level joint college in the professional military education system dedicated to the study of the principles, perspectives, and techniques of joint operational-level planning and warfare. The mission of JFSC is to educate national security professionals in the planning and execution of joint, multinational, and interagency operations in order to instill a primary commitment to joint, multinational, and interagency teamwork, attitudes, and perspectives. The College accomplishes this mission through four schools: the Joint Advanced Warfighters

School, the Joint and Combined Warfighting School, the Joint Continuing and Distance Education School, and the Joint Command, Control, and Information Operations School.

For further information, contact the Public Affairs Officer, Joint Forces Staff College, 7800 Hampton Boulevard, Norfolk, VA 23511-1702. Phone, 757-443-6212. Fax, 757-443-6210. Internet, <http://www.jfsc.ndu.edu>.

Information Resources Management College

The Information Resources Management College provides graduate-level courses in information resources management. The College prepares leaders to direct the information component of national power by leveraging information and information technology for strategic advantage. The College's primary areas of concentration include policy, strategic planning, leadership/management, process improvement, capital planning and investment, performance- and results-based management, technology assessment, architecture, information assurance and security, acquisition, domestic preparedness, transformation, e-Government, and information operations.

Authorized by act of September 21, 1972 (10 U.S.C. 2112), the Uniformed Services University of the Health Sciences was established to educate career-oriented medical officers for the Military Departments and the Public Health Service. The University currently incorporates the F. Edward Hebert School of Medicine (including graduate and continuing education programs) and the Graduate School of Nursing.

Students are selected by procedures recommended by the Board of Regents and prescribed by the Secretary of Defense. The actual selection is carried out by a faculty committee on admissions and is based upon motivation and dedication to a career in the uniformed services and an overall appraisal of the personal and intellectual characteristics of the candidates without regard to

sex, race, religion, or national origin. Applicants must be U.S. citizens.

Medical school matriculants will be commissioned officers in one of the uniformed services. They must meet the physical and personal qualifications for such a commission and must give evidence of a strong commitment to serving as a uniformed medical officer. The graduating medical student is required to serve a period of obligation of not less than 7 years, excluding graduate medical education.

Students of the Graduate School of Nursing must be commissioned officers of the Army, Navy, Air Force, or Public Health Service prior to application. Graduate nursing students must serve a commitment determined by their respective service.

The Department of Education establishes policy for, administers, and coordinates most Federal assistance to education. Its mission is to ensure equal access to education and to promote educational excellence throughout the Nation.

The Department of Education was created by the Department of Education Organization Act (20 U.S.C. 3411) and is administered under the supervision and direction of the Secretary of Education.

Secretary The Secretary of Education advises the President on education plans, policies, and programs of the Federal Government and serves as the chief executive officer of the Department, supervising all Department activities, providing support to States and localities, and focusing resources to ensure equal access to educational excellence throughout the Nation.

Activities

Institute of Education Sciences The Institute of Education Sciences was formally established by the Education Sciences Reform Act of 2002 (20 U.S.C. 9501 note). The Institute includes national education centers focused on research, special education, statistics, and evaluation and is the mechanism through which the Department supports the research activities needed to improve education policy and practice.

Elementary and Secondary Education The Office of Elementary and Secondary Education directs, coordinates, and formulates policy relating to early childhood, elementary, and secondary education. Included are grants and contracts to State educational agencies and local school districts, postsecondary schools, and nonprofit organizations for disadvantaged, migrant, and Indian children; enhancement of State student achievement assessment systems; improvement of reading instruction; economic impact aid; technology; safe and healthy schools; and after-school learning programs. The Office also focuses on improving K–12 education, providing children with language and cognitive development, early reading, and other readiness skills, and improving the quality of teachers and other instructional staff.

English Language Acquisition The Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students helps children who

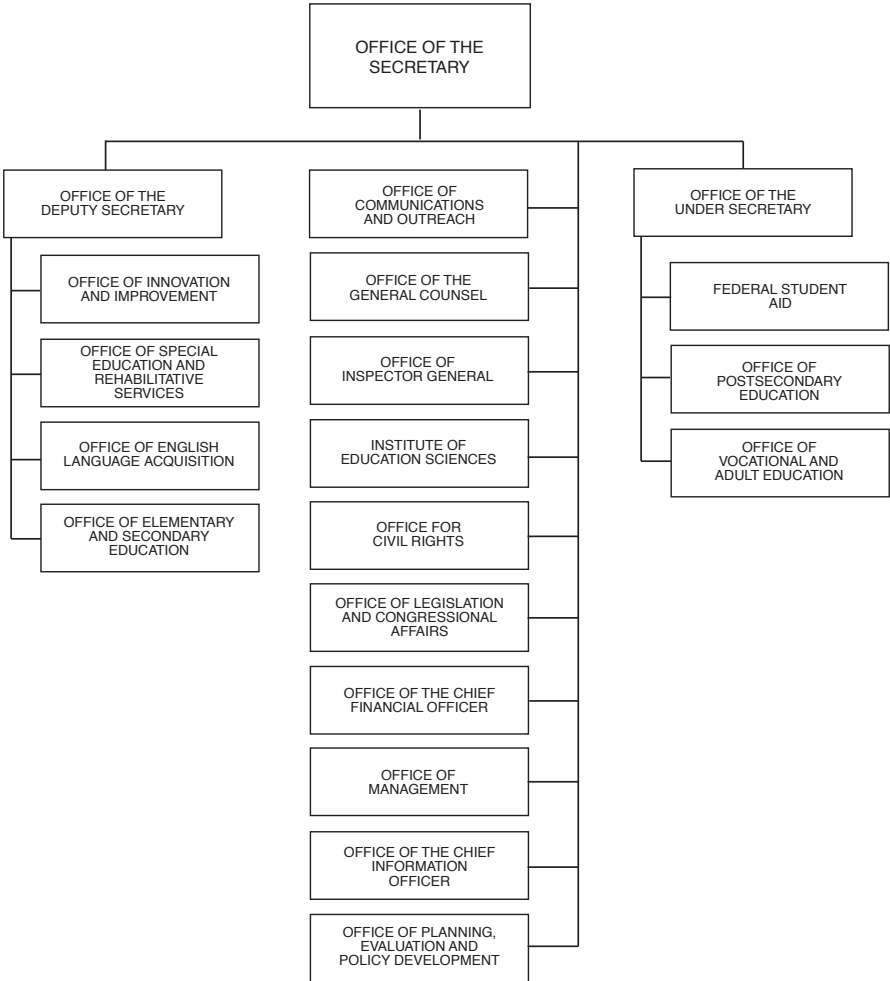

are limited in their English, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same challenging State academic content and student academic achievement standards that all children are expected to meet.

Federal Student Aid Federal Student Aid partners with postsecondary schools and financial institutions to deliver programs and services that help students finance their education beyond high school. This includes administering postsecondary student financial assistance programs authorized under Title IV of the Higher Education Act of 1965, as amended.

Innovation and Improvement The Office of Innovation and Improvement (OII) oversees competitive grant programs that support innovations in the educational system and disseminates the lessons learned from these innovative practices. OII administers, coordinates, and recommends programs and policy for improving the quality of activities designed to support and test innovations throughout the K–12 system in areas such as parental choice, teacher quality, use of technology in education, and arts in education. OII encourages the establishment of charter schools through planning, start-up funding, and approaches to credit enhancement for charter school facilities. OII also serves as the Department’s liaison and resource to the nonpublic education community.

Postsecondary Education The Office of Postsecondary Education (OPE) formulates Federal postsecondary education policy and administers programs that address critical national needs in support of the mission to increase access to quality postsecondary education. OPE develops policy for Federal student financial programs and support programs that reach out to low-income, first-generation college students and communities. OPE also supports programs that strengthen the capacity of colleges and universities serving a high percentage of disadvantaged students and improve teacher quality. OPE recognizes accrediting agencies that monitor academic quality, promote innovation in

higher education, and expand American educational resources for international studies and services.

Special Education and Rehabilitative Services The Office of Special Education and Rehabilitative Services (OSERS) provides leadership and resources to help ensure that people with disabilities have equal opportunities to learn, work, and live as fully integrated and contributing members of society. OSERS has three components: The Office of Special Education Programs administers the Individuals with Disabilities Education Act legislation, which helps States meet the early intervention and educational needs of infants, toddlers, children, and youth with disabilities. The Rehabilitation Services Administration supports State vocational rehabilitation, independent living, and assistive technology programs that provide people with disabilities the services, technology, and job training and placement assistance they need to gain meaningful employment and lead independent lives. The National Institute on Disability and Rehabilitation Research supports research and development programs that improve the ability of individuals with disabilities to work and live in a barrier-free, inclusive society. OSERS also supports Gallaudet University, the National Technical Institute for the Deaf, the American Printing House for the Blind, and the Helen Keller National Center.

Vocational and Adult Education The Office of Vocational and Adult Education (OVAE) administers grant, contract, and technical assistance programs for vocational-technical education and for adult education and literacy. OVAE

promotes programs that enable adults to acquire the basic literacy skills necessary to function in today's society. OVAE also helps students acquire challenging academic and technical skills and prepare for high-skill, high-wage, and high-demand occupations in the 21st-century global economy. OVAE provides national leadership and works to strengthen the role of community colleges in expanding access to postsecondary education for youth and adults in advancing workforce development.

Regional Offices Each regional office serves as a center for the dissemination of information and provides technical assistance to State and local educational agencies and other institutions and individuals interested in Federal educational activities. Offices are located in Boston, MA; New York, NY; Philadelphia, PA; Atlanta, GA; Chicago, IL; Dallas, TX; Kansas City, MO; Denver, CO; San Francisco, CA; and Seattle, WA.

Founded in 1858 as a nonprofit organization, the American Printing House for the Blind (APH) received its Federal charter in 1879 when Congress passed the Act to Promote Education of the Blind. This Act designates APH as the official supplier of educational materials adapted for students who are legally blind and who are enrolled in formal educational programs below the

college level. Materials produced and distributed by APH include textbooks in Braille and large type, educational tools such as Braille typewriters and computer software and hardware, teaching aides such as tests and performance measures, and other special supplies. The materials are distributed through allotments to the States to programs serving individuals who are blind.

Gallaudet University received its Federal charter in 1864 and is currently authorized by the Education of the Deaf Act of 1986, as amended. Gallaudet is a private, nonprofit educational institution providing elementary, secondary, undergraduate, and continuing education programs for persons who are deaf. The University offers a traditional liberal arts curriculum for students who are deaf and graduate programs in fields related to deafness for students who are deaf and students who are hearing. Gallaudet also conducts a wide variety of basic and applied deafness research and provides public service programs for persons who are deaf and for professionals who work with persons who are deaf.

Gallaudet University is accredited by a number of organizations, among which are the Middle States Association of Colleges and Secondary Schools, the National Council for Accreditation of

Teacher Education, and the Conference of Educational Administrators of Schools and Programs for the Deaf.

Laurent Clerc National Deaf Education Center Gallaudet's Laurent Clerc National Deaf Education Center operates elementary and secondary education programs on the main campus of the University. These programs are authorized by the Education of the Deaf Act of 1986 (20 U.S.C. 4304, as amended) for the primary purpose of developing, evaluating, and disseminating model curricula, instructional strategies, and materials in order to serve individuals who are deaf or hard of hearing. The Education of the Deaf Act requires the programs to include students preparing for postsecondary opportunities other than college and students with a broad spectrum of needs, such as students who are academically challenged, come from non-English-

speaking homes, have secondary disabilities, are members of minority groups, or are from rural areas.

Model Secondary School for the Deaf

The school was established by act of October 15, 1966, which was superseded by the Education of the Deaf Act of 1986. The school provides day and residential facilities for secondary-age students from across the United States from grades 9 to 12, inclusively.

For further information, contact the Public Relations Office, Gallaudet University, 800 Florida Avenue NE., Washington, DC 20002. Phone, 202-651-5505. Internet, <http://www.gallaudet.edu>.

Kendall Demonstration Elementary School

The school became the Nation's first demonstration elementary school for the deaf by the act of December 24, 1970 (20 U.S.C. 695), which was also later superseded by the Education of the Deaf Act of 1986. The school is a day program for students from the Washington, DC, metropolitan area from the age of onset of deafness to age 15, inclusively, but not beyond the eighth grade or its equivalent.

Howard University was established by Congress by the act of March 2, 1867 (14 Stat. 438). It offers instruction in 12 schools and colleges, as follows: the colleges of arts and sciences; dentistry; engineering, architecture, and computer sciences; medicine; pharmacy, nursing, and allied health sciences; the graduate school; the schools of

business; communications; divinity; education; law; and social work. In addition, Howard University has research institutes, centers, and special programs in the following areas: cancer, child development, computational science and engineering, international affairs, sickle cell disease, and the national human genome project.

The National Technical Institute for the Deaf (NTID) was established by act of June 8, 1965 (20 U.S.C. 681) to promote the employment of persons who are deaf, by providing technical and professional education. The National Technical Institute for the Deaf Act was superseded by the Education of the Deaf Act of 1986 (20 U.S.C. 4431, as amended). The U.S. Department of Education maintains a contract with the

Rochester Institute of Technology (RIT) for the operation of a residential facility for postsecondary technical training and education for individuals who are deaf. The purpose of the special relationship with the host institution is to give NTID's faculty and students access to more facilities, institutional services, and career preparation options than could be otherwise provided by a national

technical institute for the deaf operating independently.

NTID offers a variety of technical programs at the certificate, diploma, and associate degree levels. Degree programs include majors in business, engineering, science, and visual communications. In addition, NTID students may participate in approximately 200 educational programs available through RIT.

NTID also conducts applied research in occupational- and employment-related

aspects of deafness, communication assessment, demographics of NTID's target population, and learning processes in postsecondary education. In addition, NTID conducts training workshops and seminars related to deafness. These workshops and seminars are offered to professionals throughout the Nation who employ, work with, teach, or otherwise serve persons who are deaf.

The Department of Energy's mission is to advance the national, economic, and energy security of the United States; to promote scientific and technological innovation in support of that mission; and to ensure the environmental cleanup of the national nuclear weapons complex.

The Department of Energy (DOE) was established by the Department of Energy Organization Act (42 U.S.C. 7131), effective October 1, 1977, pursuant to Executive Order 12009 of September 13, 1977. The act consolidated the major Federal energy functions into one Cabinet-level Department.

Secretary The Secretary decides major energy policy and planning issues; acts as the principal spokesperson for the Department; and ensures effective communication and working relationships with the public and with Federal, State, local, and tribal governments. The Secretary is the principal adviser to the President on energy policies, plans, and programs.

Intelligence and Counterintelligence The Office of Intelligence and Counterintelligence ensures that all departmental intelligence information requirements are met and that the Department's technical, analytical, and research expertise is made available to support U.S. intelligence efforts. The Office develops and implements programs to identify, neutralize, and deter foreign governmental or industrial intelligence activities directed at or involving Department programs, personnel, facilities, technologies, classified information, and sensitive information. The Office ensures effective use of the U.S. Government's intelligence

apparatus in support of DOE's need for information on foreign energy situations and potential threats, development and proliferation of global nuclear weapons, and foreign production and consumption of hydrocarbon, nuclear, and other energy sources. The Office formulates all DOE intelligence and counterintelligence policy and coordinates all investigative matters with the Federal Bureau of Investigation.

For further information, contact the Office of Intelligence and Counterintelligence. Phone, 202-586-2610.

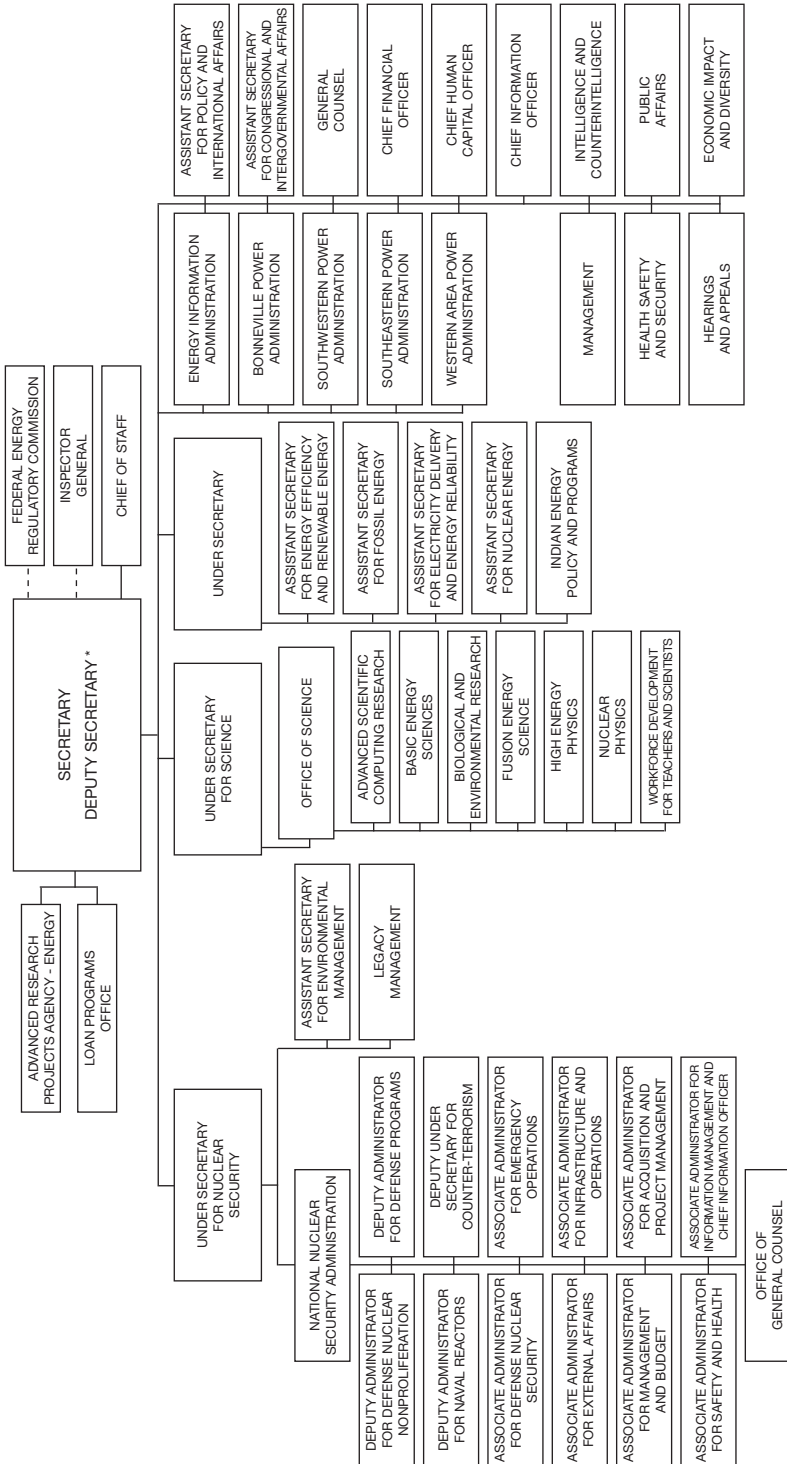

Health, Safety and Security The Office of Health, Safety and Security develops policies to protect national security and other critical assets entrusted to the DOE. It also manages security operations for departmental facilities in the national capital area.

For further information, contact the Office of Health, Safety and Security. Phone, 301-903-3777.

Energy Programs

Renewable Energy The Office of Energy Efficiency and Renewable Energy is responsible for formulating and directing programs designed to increase the production and utilization of renewable energy (solar, biomass, wind, geothermal, alcohol fuels, etc.) and hydrogen and improving the energy efficiency of the transportation, buildings,

DEPARTMENT OF ENERGY

*The Deputy Secretary also serves as the Chief Operating Officer.

industrial, and utility sectors through support of research and development and technology transfer activities. It also has responsibility for administering programs that provide financial assistance for State energy planning; weatherizing homes owned by the poor and disadvantaged; implementing State and local energy conservation programs; and promoting energy efficient construction and renovation of Federal facilities.

For further information, contact the Director of Information and Business Management Systems. Phone, 202-586-7241.

Fossil Energy The Office of Fossil Energy is responsible for research and development of programs involving coal, petroleum, and natural gas. The fossil energy program involves applied research, exploratory development, and limited proof-of-concept testing targeted to high-risk and high-payoff endeavors. The objective of the program is to provide the general technology and knowledge base that the private sector can use to complete development and initiate commercialization of advanced processes and energy systems. The program is principally executed through the National Energy Technology Laboratory. The Office also manages the strategic petroleum reserve, the northeast home heating oil reserve, and the naval petroleum shale reserves.

For further information, contact the Office of Communications. Phone, 202-586-6803.

Nuclear Energy The Office of Nuclear Energy manages DOE programs involved in the research and development of fission and fusion energy. This includes programs relating to naval and civilian nuclear reactors, the nuclear fuel cycle, and space nuclear applications. The Office manages a program to provide radioactive and stable isotope products to various domestic and international markets for medical research, health care, and industrial research. The Office also conducts technical analyses concerning nonproliferation; assesses alternative nuclear systems and new reactor and fuel cycle concepts; manages depleted uranium hexafluoride activities, highly enriched uranium downblend, natural

uranium sales, and uranium enrichment legacy activities; and evaluates proposed advanced nuclear fission energy concepts and technical improvements for possible application to nuclear powerplant systems.

For further information, contact the Director, Corporate Communications and External Affairs. Phone, 301-903-1636.

Indian Energy Policy and Programs

The Office of Indian Energy Policy and Programs was established by the Energy Policy Act of 2005 (42 U.S.C. 7144e). The Office is responsible for further developing Indian tribal energy by promoting increased energy usage and efficiency.

For further information, contact the Director. Phone, 202-586-1272.

Energy Information The Energy Information Administration is responsible for collecting, processing, and disseminating data in the areas of energy resource reserves, energy production, demand, consumption, distribution, and technology. It performs analyses of energy data to assist government and nongovernment users in understanding energy trends.

For further information, contact the Director, National Energy Information Center. Phone, 202-586-6537.

Electricity Delivery and Energy

Reliability The Office of Electricity Delivery and Energy Reliability leads a national effort to modernize and expand America's electricity delivery system. The Office works to improve the security and reliability of energy infrastructure and facilitates recovery efforts after major energy supply disruptions.

For further information, contact the Office of the Director. Phone, 202-586-1411.

Advanced Research Projects Agency—Energy

The Advanced Research Projects Agency—Energy (ARPA-E) works to overcome the long-term and high-risk challenges in the development of energy technologies. ARPA-E promotes research and development initiatives. By developing energy technologies that reduce energy imports, improve energy efficiency, and reduce energy-related

emissions, the Office enhances the economic security of the United States. Additionally, ARPA-E ensures that the United States maintains global leadership in developing and deploying advanced energy technologies.

For further information, contact the Office of the Director. Phone, 202-287-1004.

Loan Programs Office The Loan Programs Office is responsible for the domestic and commercial deployment of advanced clean energy technologies furthering national clean energy objectives, including job creation; reducing dependency on foreign oil; improving our environmental legacy; and enhancing American competitiveness in the 21st-century global economy.

For further information, contact Loan Programs Office. Phone, 202-586-8335. Email, lgprogram@hq.doe.gov.

Nuclear Security Programs

Nuclear Security The National Nuclear Security Administration (NNSA) was created by Congress through the National Defense Authorization Act for Fiscal Year 2000 (113 Stat. 512) to bring focus to the management of the Nation's defense nuclear security programs. Three existing organizations within the Department of Energy—Defense Programs, Defense Nuclear Nonproliferation, and Naval Reactors—were combined into a new, separately managed agency within DOE, headed by an Administrator who reports to the Secretary. NNSA seeks to strengthen national security through military application of nuclear energy and by reducing the global threat from terrorism and weapons of mass destruction.

The Administration's service center and eight site offices provide operations oversight and contract administration for NNSA site activities, acting as the agency's risk acceptance for the site. The site offices are responsible for the following functions: the safe and secure operation of facilities under the purview of NNSA; supporting NNSA programs to ensure their success in accordance with their expectations; and ensuring the

long-term viability of the site to support NNSA programs and projects. For more information on the service center and site offices, visit the web site: <http://nnsa.energy.gov/aboutus/ourlocations>.

For further information, contact the Associate Administrator for Management and Budget. Phone, 202-586-5753.

Defense Programs The Office of the Deputy Administrator for Defense Programs directs the Nation's nuclear weapons research, development, testing, production, and surveillance program. It is also responsible for the production of the special nuclear materials used by the weapons program within the Department and the management of defense nuclear waste and byproducts. The Office ensures the technology base for the surety, reliability, military effectiveness, and credibility of the nuclear weapons stockpile. It also manages research in inertial confinement fusion.

For further information, contact the Associate Administrator for Management and Budget. Phone, 202-586-5753.

Nuclear Nonproliferation The Office of the Deputy Administrator for Defense Nuclear Nonproliferation directs the development of the Department's policy, plans, procedures, and research and development activities relating to arms control, nonproliferation, export controls, international nuclear safety and safeguard, and surplus fissile material inventories elimination activities.

For further information, contact the Associate Administrator for Management and Budget. Phone, 202-586-5753.

Naval Reactors The Office of the Deputy Administrator for Naval Reactors manages and performs research, development, design, acquisition, specification, construction, inspection, installation, certification, testing overhaul, refueling, operations procedures, maintenance, supply support, and ultimate disposition of naval nuclear propulsion plants.

For further information, contact the Deputy Administrator for Naval Reactors. Phone, 202-781-6174.

Environmental Quality Programs

Environmental Management The Office of the Assistant Secretary for Environmental Management manages safe cleanup and closure of sites and facilities; directs a safe and effective waste management program, including storage and disposal of transuranic and mixed low- and high-level waste; and maintains an applied research program to provide innovative technologies that yield permanent cleanup solutions at reduced costs.

For further information, contact the Director of Communication/External Affairs. Phone, 202-287-5591.

Legacy Management The Office of Legacy Management manages the Department's post-closure responsibilities and ensures the future protection of the environment and human health. The Office has control and custody of legacy land, structures, and facilities, and is responsible for maintaining them at levels suitable for long-term use.

For further information, contact the Director of Business Operations. Phone, 202-586-7388.

Science Program

The Office of Science supports basic research that underpins DOE missions in national security, energy, and environment; constructs and operates large scientific facilities for the U.S. scientific community; and provides the infrastructure support for 10 national laboratories and an integrated support center. In terms of basic research, the Office of Science provides over 40 percent of Federal support to the physical sciences (including 90 percent of Federal support for high energy and nuclear physics), the sole support to sub-fields of national importance, such as nuclear medicine, heavy element chemistry, and magnetic fusion, and support for the research of scientists and graduate students located in universities throughout the Nation. Office of Science support for major scientific-user facilities, including accelerators, synchrotron light sources, and neutron sources, enables more than 18,000 scientists per year to use these state-of-the-art facilities to

conduct research in a wide range of fields, including biology, medicine, and materials. For more information on the 10 national laboratories and support centers, visit <http://science.energy.gov/>.

For further information, contact the Director of Human Resources. Phone, 301-903-5705.

Operations and Field Offices

The vast majority of the Department's energy and physical research and development, environmental restoration, and waste management activities are carried out by contractors who operate Government-owned facilities. Management and administration of Government-owned, contractor-operated facility contracts are the principal responsibility of the Department's five operations offices and three field offices.

Department operations offices provide a formal link between Department headquarters and the field laboratories and other operating facilities. They also manage programs and projects as assigned from lead headquarters program offices. Routine management guidance, coordination, oversight of the operations, field and site offices, and daily specific program direction for the operations offices is provided by the appropriate assistant secretary, office director, or program officer. For more information on the site offices, visit <http://nnsa.energy.gov/aboutus/ourlocations>.

Power Administrations

The marketing and transmission of electric power produced at Federal hydroelectric projects and reservoirs are carried out by the Department's four Power Administrations. Management oversight of the Power Administrations is the responsibility of the Deputy Secretary. **Bonneville Power Administration** The Administration markets power produced by the Federal Columbia River Power System at the lowest rates, consistent with sound business practices, and gives preference to public entities.

In addition, the Administration is responsible for energy conservation, renewable resource development, and fish and wildlife enhancement

under the provisions of the Pacific Northwest Electric Power Planning and Conservation Act of 1980 (16 U.S.C. 839 note).

For further information, contact the Bonneville Power Administration, 905 Eleventh Avenue NE., Portland, OR 97232-4169. Phone, 503-230-3000 or 800-282-3713.

Southeastern Power Administration

The Administration is responsible for the transmission and disposition of surplus electric power and energy generated at reservoir projects in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia.

The Administration sets the lowest possible rates for consumers, consistent with sound business principles, and gives preference in the sale of power and energy to public entities.

For further information, contact the Southeastern Power Administration, 1166 Athens Tech Road, Elberton, GA 30635-4578. Phone, 706-213-3800.

Southwestern Power Administration

The Administration is responsible for the sale and disposition of electric power and energy in Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas.

The Administration transmits and disposes of the electric power and energy generated at Federal reservoir projects, supplemented by power purchased from public and private utilities, in such a manner as to encourage the most widespread and economical use. The Administration sets the lowest possible rates to consumers, consistent with sound business principles, and gives preference in the sale of power and energy to public entities.

The Administration also conducts and participates in the comprehensive planning of water resource development in the Southwest.

For further information, contact the Southwestern Power Administration, Suite 1600, Williams Center Tower One, One West Third Street, Tulsa, OK 74103-3532. Phone, 918-595-6600.

Western Area Power Administration

The Administration is responsible for the Federal electric power marketing and transmission functions in 15 Central and Western States, encompassing a

geographic area of 1.3 million square miles. The Administration sells power to cooperatives, municipalities, public utility districts, private utilities, Federal and State agencies, and irrigation districts. The wholesale power customers, in turn, provide service to millions of retail consumers in Arizona, California, Colorado, Iowa, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Texas, Utah, and Wyoming.

The Administration is responsible for the operation and maintenance of transmission lines, substations, and various auxiliary power facilities in the aforementioned geographic area. It also plans, constructs, operates, and maintains additional Federal transmission facilities that may be authorized in the future.

For further information, contact the Western Area Power Administration, 12155 West Alameda Parkway, Lakewood, CO 80228-1213. Phone, 720-962-7000.

The Federal Energy Regulatory Commission (FERC) is an independent agency within the Department of Energy which regulates the interstate transmission of electricity, natural gas, and oil. FERC has retained many of the functions of the Federal Power Commission, such as setting rates and charges for the transportation and sale of natural gas and the transportation of oil by pipelines, as well as the valuation of such pipelines. FERC also reviews

proposals to build liquefied natural gas terminals and interstate natural gas pipelines as well as licensing hydropower projects. FERC is composed of five members appointed by the President of the United States with the advice and consent of the Senate. FERC Commissioners serve 5-year terms and have an equal vote on regulatory matters. One member is designated by the President to serve as both Chairman and FERC's administrative head.

The Department of Health and Human Services works to strengthen the public health and welfare of the American people by providing access to affordable, quality health care and childcare, ensuring the safety of food products, preparing for public health emergencies, and improving research efforts to diagnose, treat, and cure life-threatening illnesses.

The Department of Health and Human Services (HHS) was created as the Department of Health, Education, and Welfare on April 11, 1953 (5 U.S.C. app.).

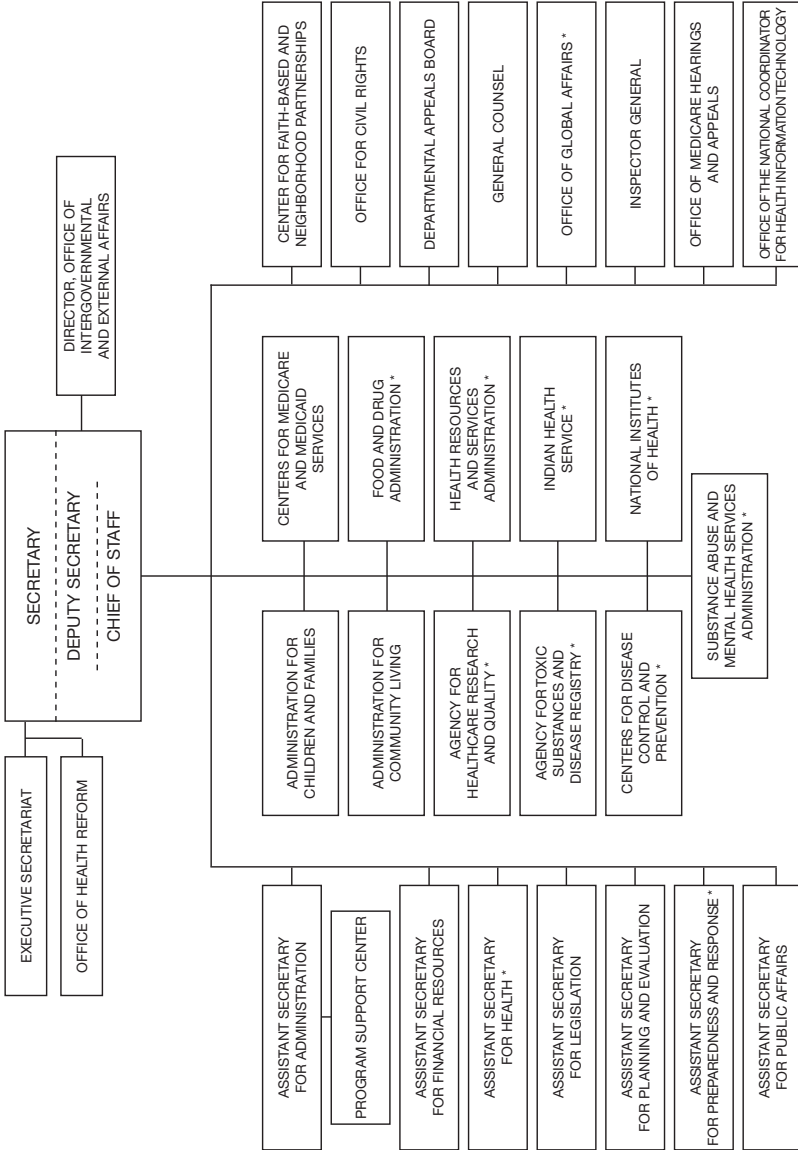

Secretary The Secretary of Health and Human Services advises the President on health, welfare, and income security plans, policies, and programs of the Federal Government

and directs Department staff in carrying out the programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives.

For information on the HHS regional offices, visit our Web site at <http://www.hhs.gov/about>.

Office of Intergovernmental and External Affairs The Office of Intergovernmental

DEPARTMENT OF HEALTH AND HUMAN SERVICES

* Designates a component of the Public Health Service.

and External Affairs (IEA) serves the Secretary as the primary liaison between the Department and State, local, and tribal governments. The mission of the Office is to facilitate communication regarding HHS initiatives as they relate to State, local, and tribal governments. IEA serves the dual role of representing the State and tribal perspective in the Federal policymaking process as well as clarifying the Federal perspective to State and tribal representatives.

For further information, contact the Office of Intergovernmental and External Affairs, 200 Independence Avenue SW., Room 620E, Washington, DC 20201. Phone, 202-690-6060. Internet, <http://www.hhs.gov/intergovernmental>.

Office of the Assistant Secretary for Preparedness and Response

The Office of the Assistant Secretary for Preparedness and Response (ASPR) was established under the Pandemic and All Hazards Preparedness Act of 2006. ASPR serves as the principal advisor to the Secretary on all matters related to Federal public health and medical preparedness and response for public health emergencies. ASPR's mission is to lead the country in preparing for, responding to, and recovering from the adverse health effects of emergencies and disasters by supporting our communities' ability to withstand adversity, strengthening the Nation's health and response systems, and enhancing national health security. ASPR leads a collaborative policy approach to the Department's preparedness, response, and recovery portfolio and works with partners across Federal, State, local, tribal, and international bodies, in communities, and in the private sector to promote a unified and strategic approach to the challenges of public health and medical preparedness, response, and recovery. In addition, ASPR has operational responsibility for overseeing the advanced research, development, and procurement of medical countermeasures and for coordinating the Federal public health and medical response to incidents.

For further information, contact the Office of the Assistant Secretary for Preparedness and Response,

Room 638-G, 200 Independence Avenue SW., Washington, DC 20201. Internet, <http://www.phe.gov/preparedness/pages/default.aspx>.

Office of the Assistant Secretary for Health

The Office of the Assistant Secretary for Health (ASH) comprises 13 offices and 9 Presidential and secretarial advisory committees. The Assistant Secretary for Health heads the Office and serves as the Secretary's senior public health advisor. ASH provides assistance in implementing and coordinating secretarial decisions for the Public Health Service and coordination of population-based health clinical divisions; provides oversight of research conducted or supported by the Department; implements programs that provide population-based public health services; and provides direction and policy oversight, through the Office of the Surgeon General, for the Public Health Service Commissioned Corps. ASH administers a wide array of interdisciplinary programs related to disease prevention, health promotion, the reduction of health disparities, women's health, HIV/AIDS, vaccine programs, physical fitness and sports, bioethics, population affairs, blood supply, research integrity, and human research protections.

The Centers for Disease Control and Prevention (CDC), as part of the Public Health Service, is charged with protecting the public health of the Nation by providing leadership and direction in the prevention of and control of diseases and other preventable conditions and responding to public health emergencies. Within the CDC, the following seven centers, institutes, and offices lead prevention, diagnosis, and treatment efforts for public health concerns.

Center for Global Health The Center leads CDC's global health strategy, working in partnership with foreign governments and international organizations to help countries around the world to effectively plan, manage, and evaluate global health care programs. The Center works to eradicate chronic diseases and life-threatening injuries, expanding global health care programs to address the leading causes of disability, morbidity, and mortality.

National Institute for Occupational Safety and Health The Institute plans, directs, and coordinates a national program to develop and establish recommended occupational safety and health standards and to conduct research, training, technical assistance, and related activities to assure safe and healthy working conditions for every working person.

Office of Infectious Diseases The Office facilitates research, programs, and policies to reduce the national and international burden of infectious diseases. The Office includes the following organizational components:

the National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention; the National Center for Immunization and Respiratory Diseases; and the National Center for Emerging and Zoonotic Infectious Diseases.

Office of Noncommunicable Diseases, Injury, and Environmental Health The Office provides strategic direction and leadership for the prevention of noncommunicable diseases, injuries, disabilities, and environmental health hazards. The Office includes the following organizational components: the National Center on Birth Defects and Developmental Disabilities; the National Center for Chronic Disease Prevention and Health Promotion; the National Center for Environmental Health; and the National Center for Injury Prevention and Control.

Office of Public Health Preparedness and Response The Office helps the Nation prepare for and respond to urgent public health threats by providing strategic direction, coordination, and support for CDC's terrorism preparedness and emergency response activities.

Office of State, Tribal, Local, and Territorial Support The Office provides guidance, strategic direction, oversight, and leadership in support of State, local, territorial, and tribal public health agencies, initiatives, and priorities to improve the capacity and performance of a comprehensive public health system.

Office of Surveillance, Epidemiology, and Laboratory Services The Office provides scientific services, knowledge, and resources to promote public

health, prepare for potential health threats, and prevent disease, disability, and injury. The Office includes the following organizational components: the National Center for Health Statistics; the Laboratory Science, Policy and Practice Program Office; the Public Health Informatics and Technology Program Office; the Public Health Surveillance Program Office; the Epidemiology and Analysis Program Office; and the Scientific Education and Professional Development Program Office.

The National Institutes of Health (NIH) supports biomedical and behavioral research domestically and abroad, conducts research in its own laboratories and clinics, trains research scientists, and develops and disseminates credible, science-based health information to the public.

Aging The Institute conducts and supports research on the aging process, age-related diseases, and other special problems and needs of older Americans. It also provides information about aging to the scientific community, health care providers, and the public.

For further information, contact the National Institute on Aging. Phone, 301-496-1752. Internet, <http://www.nia.nih.gov>.

Alcohol Abuse and Alcoholism The Institute leads the national effort to reduce alcohol-related problems by conducting and supporting biomedical and behavioral research into the causes, consequences, prevention, and treatment of alcohol-use disorders.

For further information, contact the National Institute on Alcohol Abuse and Alcoholism. Phone, 301-443-3885. Internet, <http://www.niaaa.nih.gov>.

Allergy and Infectious Diseases The Institute conducts and supports research to study the causes of infectious diseases and immune-mediated diseases and to develop better means of preventing, diagnosing, and treating these diseases.

For further information, contact the National Institute of Allergy and Infectious Diseases. Phone, 866-284-4107 or 301-496-5717. Internet, <http://www.niaid.nih.gov>.

Arthritis and Musculoskeletal and Skin Diseases The Institute supports research into the causes, treatment, and prevention of arthritis and musculoskeletal and skin diseases; the training of basic and clinical scientists to carry out this research; and the dissemination of information on research progress in these diseases.

For further information, contact the National Institute of Arthritis and Musculoskeletal and Skin Diseases. Phone, 301-496-8190. Internet, <http://www.niams.nih.gov>.

Biomedical Imaging and Bioengineering The Institute conducts, coordinates, and supports research, training, dissemination of health information, and other programs with respect to biomedical imaging, biomedical engineering, and associated technologies and modalities with biomedical applications.

For further information, contact the National Institute of Biomedical Imaging and Bioengineering. Phone, 301-451-6768. Internet, <http://www.nibib.nih.gov>.

Cancer The Institute coordinates the National Cancer Program and conducts and supports research, training, and public education with regard to the cause, diagnosis, prevention, and treatment of cancer.

For further information, contact the Cancer Information Service. Phone, 800-422-6237 or 301-435-3848. Internet, <http://www.cancer.gov>.

Center for Information Technology The Center provides, coordinates, and manages information technology to advance computational science.

For further information, contact the Center for Information Technology. Phone, 301-496-6203. Internet, <http://www.cit.nih.gov>.

Child Health and Human Development

The Institute conducts and supports basic, translational, clinical, and epidemiological research on the reproductive, rehabilitative, neurobiological, developmental, and behavioral processes that determine, maximize, and maintain the health of children, adults, families, and populations.

For further information, contact the Eunice Kennedy Shriver National Institute of Child Health and Human Development. Phone, 800-370-2943. Internet, <http://www.nichd.nih.gov>.

Clinical Center The NIH Clinical Center is the clinical research hospital for NIH. Through clinical research, investigators translate laboratory discoveries into better treatments, therapies, and interventions to improve the Nation's health. The Clinical Center conducts clinical and laboratory research and trains future clinical investigators. Nearly 500,000 volunteers from across the Nation have participated in clinical research studies since the Center opened in 1953. About 1,500 clinical research studies are currently in progress.

For further information, contact the Clinical Center. Phone, 301-496-2563. Internet, <http://clinicalcenter.nih.gov>.

Complementary and Alternative

Medicine The Center's role is to define, through rigorous scientific investigation, the usefulness and safety of complementary health practices that are not generally considered part of conventional care. This scientific research informs decisionmaking by the public, health care professionals, and health policymakers regarding the use and integration of such practices into the health care delivery system in the United States.

For further information, contact the National Center for Complementary and Alternative Medicine. Phone, 888-644-6226. Internet, <http://nccam.nih.gov>.

Deafness and Other Communication

Disorders The Institute conducts and supports biomedical and behavioral research and research training on normal and disordered processes of hearing, balance, smell, taste, voice,

speech, and language, and provides health information, based on scientific discovery, to the public. The Institute conducts diverse research performed in its own laboratories and funds a program of research and research grants.

For further information, contact the National Institute on Deafness and Other Communication Disorders. Phone, 301-496-7243. Internet, <http://www.nidcd.nih.gov>.

Dental and Craniofacial Research

The Institute conducts and supports research and research training into the causes, prevention, diagnosis, and treatment of craniofacial, oral, and dental diseases and disorders.

For further information, contact the National Institute of Dental and Craniofacial Research. Phone, 301-496-4261. Internet, <http://www.nidcr.nih.gov>.

Diabetes and Digestive and Kidney

Diseases The Institute conducts, fosters, and supports basic and clinical research into the causes, prevention, diagnosis, and treatment of diabetes, endocrine and metabolic diseases, digestive diseases and nutrition, kidney and urologic diseases, and blood diseases.

For further information, contact the National Institute of Diabetes and Digestive and Kidney Diseases. Phone, 301-496-3583. Internet, <http://www2.niddk.nih.gov>.

Drug Abuse The Institute's primary mission is to lead the Nation in bringing the power of science to bear on drug abuse and addiction through the strategic support and conduct of research across a broad range of disciplines and the rapid and effective dissemination and use of the results of that research to significantly improve drug abuse and addiction prevention and treatment and to inform policy.

For further information, contact the National Institute on Drug Abuse. Phone, 301-443-1124. Internet, <http://www.nida.nih.gov>.

Environmental Health Sciences

The Institute reduces the burden of human illnesses and disability by understanding how the environment influences the development and progression of human disease. To have the greatest impact on preventing disease and improving human health, the Institute focuses on

basic science, disease-oriented research, global environmental health, and multidisciplinary training for researchers. NIEHS also houses the National Toxicology Program, a cross-agency organization designed to coordinate toxicity testing across the Federal Government.

For further information, contact the National Institute of Environmental Health Sciences. Phone, 919-541-3345. Internet, <http://www.niehs.nih.gov>.

Fogarty International Center The Center addresses global health challenges through innovative and collaborative research and training programs. It also supports and advances the NIH research through international partnerships.

For further information, contact the Fogarty International Center. Phone, 301-496-2075. Internet, <http://www.fic.nih.gov>.

General Medical Sciences The Institute supports basic biomedical research and research training in areas ranging from cell biology, chemistry, and biophysics to genetics, pharmacology, and systemic response to trauma.

For further information, contact the National Institute of General Medical Sciences. Phone, 301-496-7301. Internet, <http://www.nigms.nih.gov>.

Heart, Lung, and Blood Diseases The Institute provides leadership for a global program in diseases of the heart, blood vessels, lung, and blood; sleep disorders; and blood resources. It conducts, fosters, and supports an integrated and coordinated program of basic research, clinical investigations and trials, observational studies, and demonstration and education projects.

For further information, contact the National Heart, Lung, and Blood Institute. Phone, 301-496-0554. Internet, <http://www.nhlbi.nih.gov>.

Human Genome Research The Institute, which helped lead the Human Genome Project, leads and supports a broad range of initiatives and studies aimed at understanding the structure and function of the human genome and its role in health and disease

For further information, contact the National Human Genome Research Institute. Phone, 301-496-0844. Internet, <http://www.genome.gov>.

Library of Medicine The National Library of Medicine is the world's largest biomedical library. It serves as the Nation's chief medical information source, providing medical library services and extensive Web-based information resources, such as PubMed, MedlinePlus, ClinicalTrials.gov, GenBank, and Toxline, to scientists, practitioners, and the general public. It conducts, fosters, and supports research and training in biomedical informatics and supports development and dissemination of clinical terminology standards.

For further information, contact the National Library of Medicine. Phone, 301-496-6308. Internet, <http://www.nlm.nih.gov>.

Mental Health The National Institute of Mental Health works to transform the understanding and treatment of mental illnesses through basic and clinical research to further the prevention, recovery, and cure of disabling mental conditions that affect millions of Americans.

Minority Health and Health Disparities The Institute leads scientific research to improve minority health and eliminate health disparities. To achieve its mission, the Institute plans, reviews, coordinates, and evaluates all minority health and health disparities research and activities of the NIH; conducts and supports research on minority health and health disparities; promotes and supports the training of a diverse research workforce; translates and disseminates research information; and fosters innovative collaborations and partnerships.

For further information, contact the National Institute on Minority Health and Health Disparities. Phone, 301-402-1366. Internet, <http://www.nimhd.nih.gov>.

Neurological Disorders and Stroke The Institute's mission is to reduce the burden of neurological diseases. It conducts, fosters, coordinates, and guides research and training on the causes, prevention, diagnosis, and treatment of neurological disorders and stroke and supports basic,

translational, and clinical research in related scientific areas.

For further information, contact the Brain Resources and Information Network of the National Institute of Neurological Disorders and Stroke, P.O. Box 5801, Bethesda, MD 20824. Phone, 800-352-9424. Internet, <http://www.ninds.nih.gov>.

Nursing Research The Institute supports clinical and basic research to build the scientific foundation for clinical practice, prevent disease and disability, manage and eliminate symptoms caused by illness, and enhance end-of-life and palliative care. The Institute addresses current workforce challenges by training the next generation of scientists and faculty.

For further information, contact the National Institute of Nursing Research. Phone, 301-496-0207. Internet, <http://www.ninr.nih.gov>.

Ophthalmological Diseases The Institute conducts, fosters, and supports research on the causes, natural history, prevention, diagnosis, and treatment of disorders of the eye and visual system. It also directs the National Eye Health Education Program.

For further information, contact the National Eye Institute. Phone, 301-496-5248. Internet, <http://www.nei.nih.gov>.

Research Resources The National Center for Research Resources supports all aspects of clinical and translational research, connecting researchers, patients, and communities across the Nation. NCCR's matrix of extramural programs enables discoveries made at a molecular and cellular level to move to animal-based studies and then to patient-oriented clinical research. The

For further information, contact the National Institutes of Health, 1 Center Drive, Bethesda, MD 20892. Phone, 301-496-4000. Internet, <http://www.nih.gov>.

Center provides thousands of NIH-funded laboratory scientists and clinical researchers with the tools and training they need to understand, detect, treat, and prevent a wide range of diseases.

Scientific Review The Center for Scientific Review (CSR) organizes the peer review groups that evaluate the majority of grant applications submitted to NIH. These groups include experienced and respected researchers from across the country and abroad. Since 1946, CSR has ensured that NIH grant applications receive fair, independent, expert, and timely reviews—free from inappropriate influences—so NIH can fund the most promising research. CSR also receives all incoming applications and assigns them to the NIH Institutes and Centers that fund grants.

The Department of Homeland Security leads the unified national effort to secure America. It will prevent and deter terrorist attacks and protect against and respond to threats and hazards to the Nation. The Department will ensure safe and secure borders, welcome lawful immigrants and visitors, and promote the free flow of commerce.

The Department of Homeland Security (DHS) was established by the Homeland Security Act of 2002 (6 U.S.C. 101 note). The Department came into existence on January 24, 2003, and is administered under the supervision and direction of the Secretary of Homeland Security.

Office of the Secretary

Secretary The Secretary is charged with developing and coordinating a comprehensive national strategy to strengthen the United States against terrorist threats or attacks. In fulfilling this effort, the Secretary will advise the President on strengthening U.S. borders, providing for intelligence analysis and infrastructure protection, improving the use of science and technology to counter weapons of mass destruction, and creating a comprehensive response and recovery division.

The Office of the Secretary oversees activities with other Federal, State, local, and private entities as part of a collaborative effort to strengthen our borders, provide for intelligence analysis and infrastructure protection, improve the use of science and technology to counter weapons of mass destruction, and to a comprehensive response and recovery system. Within the Office, there are multiple offices that contribute to the overall homeland security mission.

Privacy Office The Privacy Office protects the collection, use, and disclosure of personally identifiable information and departmental information. It ensures that appropriate access to information is consistent with the vision, strategic mission,

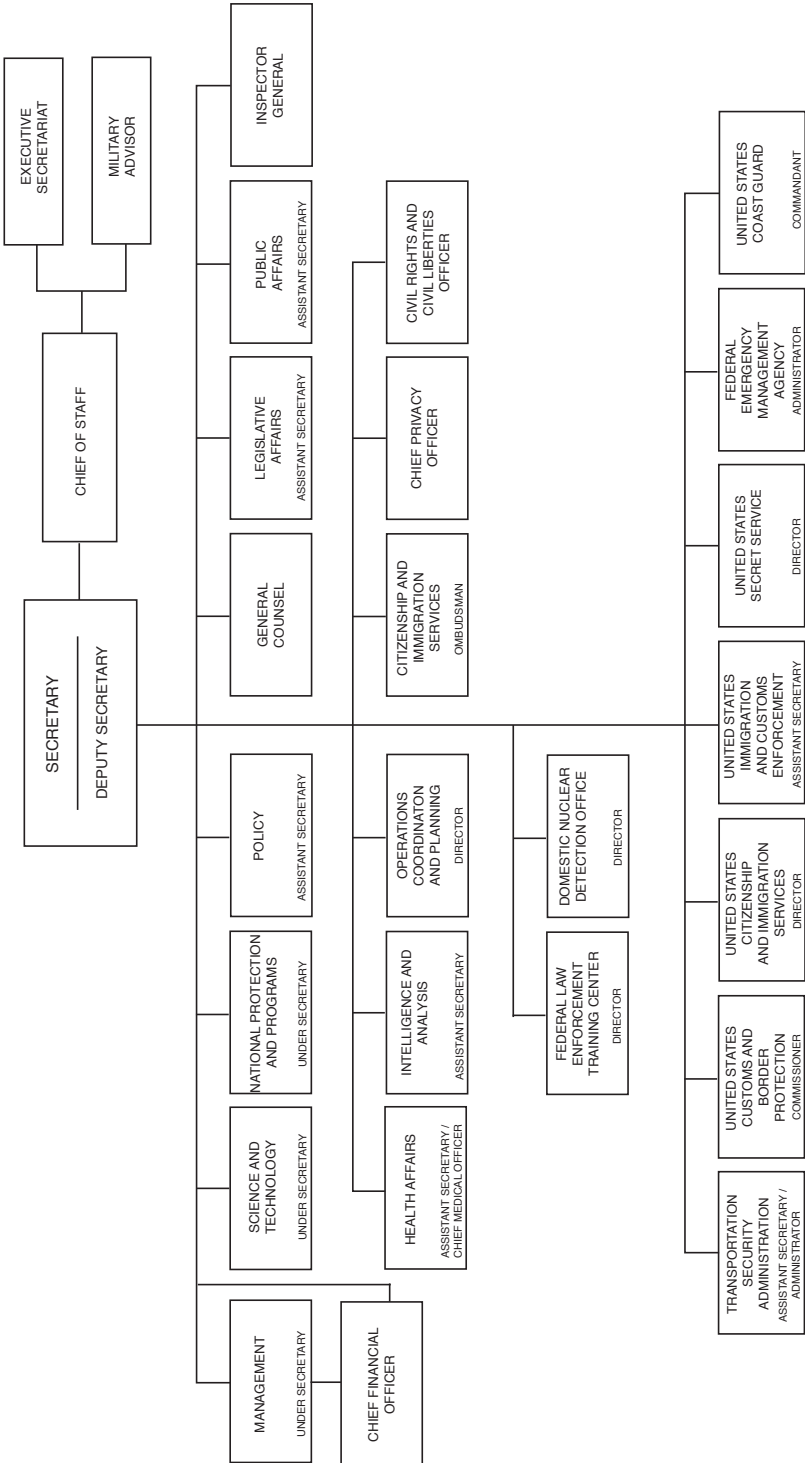

and core values of DHS. The Office also implements the policies of the Department to defend and protect the individual rights, liberties, and information interests of our citizens. The Office has oversight of all privacy and disclosure policy matters, including compliance with the Privacy Act of 1974, the Freedom of Information Act, and the completion of privacy impact statements on all new programs and systems, as required by the E-Government Act of 2002 and Section 222 of the Homeland Security Act.

Office for Civil Rights and Civil Liberties The Office provides legal and policy advice to Department leadership on civil rights and civil liberties issues, investigates and resolves complaints, and provides leadership to DHS Equal Employment Opportunity Programs.

Office of Inspector General The Office of Inspector General (OIG) conducts and supervises audits, investigations, and inspections relating to the Department's programs and operations. The OIG examines, evaluates, and where necessary, critiques these operations and activities, recommending ways for DHS to carry out its responsibilities in the most economical, efficient, and effective manner possible. The OIG also reviews recommendations regarding existing and proposed legislation and regulations relating to the Department's programs and operations.

Citizenship and Immigration Services Ombudsman The Citizenship and Immigration Services Ombudsman (CISOMB) assists individuals and employers in resolving problems connected with pending U.S. Citizenship

DEPARTMENT OF HOMELAND SECURITY

and Immigration Services (USCIS) cases. In addition, as required by statute, CISOMB identifies common problems experienced by individuals and employers when seeking USCIS services and proposes changes to mitigate such problems and improve the delivery of immigration services. In accomplishing each of these missions, the CISOMB works impartially, soliciting information and feedback from USCIS, other Government agencies, immigration benefits applicants, and the immigration stakeholder community.

Office of Legislative Affairs The Office of Legislative Affairs (OLA) serves as the Department's primary liaison to Congress. OLA advocates for the policy interests of the administration and the Secretary. OLA also ensures that all DHS components are actively engaged with Congress in their specific areas of responsibility. OLA articulates views on behalf of DHS components and their legislative initiatives. OLA responds to requests and inquiries from congressional committees, individual Members of Congress, and their staffs. OLA also participates in the Senate confirmation process for each DHS Presidential nominee.

Office of General Counsel The Office of General Counsel (OGC) is responsible for ensuring that departmental activities comply with applicable legal requirements. OGC provides legal advice on areas such as national security, immigration, litigation, international law, maritime safety and security, transportation security, border security law, cybersecurity, fiscal and appropriations law, environmental law, and many others. It also ensures that the Department's efforts to secure the Nation are consistent with the civil rights and civil liberties of its citizens and follow the rule of law. OGC also provides legal services in several areas where the law intersects with the achievement of mission goals, such as the coordination of the Department's rulemaking activities, managing interdepartmental clearance of proposed legislation, and providing legal training for law enforcement officers.

Office of Public Affairs The Office of Public Affairs (OPA) is responsible for managing external and internal communications. The Office responds to national media inquiries, maintains the Department's Web site, and writes speeches for senior Department officials. The Office manages DHS's organizational identity program, which includes usage of the DHS seal and related guidelines. Also, the Office oversees the Department's employee communication activities, which include coordinating communications for Departmentwide initiatives, town hall meetings between management and employees, and the operation and management of an intranet site. Per Presidential directive, OPA's incident communications program guides overall Federal incident communication activity and coordinates with State, local, and international partners to ensure accurate and timely information is provided to the public during a crisis.

Office of the Executive Secretary The Office of the Executive Secretary (ESEC) provides analytical and administrative support to the Office of the Secretary and the Office of the Deputy Secretary. ESEC manages the Secretary's internal and external correspondence, prepares classified and unclassified briefing materials, and oversees development of departmental testimony, questions for the record, and congressional reports. ESEC also facilitates departmental communications with Federal departments and agencies, the National Security Council, and other White House executive offices.

Senior Military Advisor The Senior Military Advisor provides counsel to the Secretary and DHS Components relating to the facilitation, coordination, and execution of policy, procedures, and preparedness activities and operations between DHS and the Department of Defense.

Office of Intergovernmental Affairs The Office of Intergovernmental Affairs (IGA) is responsible for communicating and coordinating State, local, tribal, and territorial (SLTT) government interactions throughout the Department. IGA promotes an integrated national approach

to homeland security by coordinating and advancing Federal interaction with SLTT governments. IGA is responsible for continuing the homeland security dialogue with SLTT partners, along with the national associations that represent them. IGA serves as the Secretary's primary point of contact for SLTT elected and appointed officials and their associations to ensure there are open lines of communications between the Department and its homeland security partners.

Components

National Protection and Programs Directorate

The Directorate for National Protection and Programs safeguards our critical information systems, borders, seaports, bridges, and highways by working with State, local, and private sector partners to identify threats, determine vulnerabilities, and target resources toward the greatest risks. Its functions include strengthening national risk management efforts for critical infrastructure and defining and advancing homeland security protection initiatives.

Science and Technology Directorate

The Directorate for Science and Technology is the primary research and development arm of the Department. The Directorate provides Federal, State, and local officials with the technology and capabilities to protect the homeland. Its strategic objectives are to develop and deploy systems to prevent, detect, and mitigate the consequences of chemical, biological, radiological, nuclear, and explosive attacks; develop equipment, protocols, and training procedures for response to and recovery from those attacks; enhance the Department's and other Federal, State, local, and tribal agencies' technical capabilities to fulfill their homeland security-related functions; and develop technical standards and establish certified laboratories to evaluate homeland security and emergency responder technologies for SAFETY Act certification.

Directorate for Management The Directorate for Management is responsible for budget, appropriations,

expenditure of funds, accounting and finance; procurement; human resources and personnel; information technology systems; facilities, property, equipment, and other material resources; and identification and tracking of performance measurements relating to the responsibilities of the Department.

The Directorate for Management ensures that the Department's employees have well-defined responsibilities and that managers and their employees have effective means of communicating with one another, with other governmental and nongovernmental bodies, and with the public they serve.

Chief Financial Officer The Chief Financial Officer oversees all financial management activities relating to the programs and operations of DHS, develops and maintains an integrated accounting and financial management system, and is responsible for financial reporting and internal controls.

Office of Policy The Office of Policy (PLCY) coordinates Departmentwide policies, programs, and planning to ensure consistency. The Office provides a centralized coordination point for developing and communicating policies across the multiple internal and external components of the Homeland Security network. The Office also interacts with other government entities, academia, and includes counternarcotics coordination and risk management functions for DHS.

Office of Health Affairs The Office of Health Affairs (OHA) serves as the principal adviser to the Secretary on medical and public health issues. OHA leads the Department's workforce health protection and medical support activities. The Office also manages and coordinates the Department's biological and chemical defense programs and provides medical and scientific expertise to support DHS preparedness and response efforts.

Office of Intelligence and Analysis The Office of Intelligence and Analysis, as a member of the U.S. Intelligence Community, is the nexus between the Nation's intelligence apparatus and DHS components and other State, local, and private sector partners. The Office ensures that information is gathered

from all relevant DHS field operations and other State, local, and private sector partners and that this information is shared with appropriate stakeholders to produce accurate, timely, and actionable analytical intelligence products and services.

Office of Operations Coordination and Planning The Office of Operations Coordination and Planning (OPS) provides decision support and enables the Secretary's execution of responsibilities across the homeland security enterprise by promoting situational awareness and information sharing, integrating and synchronizing strategic operations and planning, and administering the DHS continuity program. OPS is responsible for providing a joint operations coordination and planning capability at the strategic level to support DHS operational decisionmaking, Department leadership, and participation in interagency operations throughout the homeland security enterprise and across all mission areas.

Federal Law Enforcement Training Center The Federal Law Enforcement Training Center (FLETC) serves as an interagency law enforcement training organization for 90 Federal agencies and provides strategically designed training to State, local, rural, tribal, territorial, and international law enforcement agencies.

Domestic Nuclear Detection Office The Domestic Nuclear Detection Office (DNDO) is responsible for developing a global nuclear detection architecture and acquiring and supporting the deployment of a domestic nuclear detection system to report any attempt to use nuclear or radiological material against the United States. The Office also works to enhance the nuclear detection efforts of Federal, State, territorial, tribal, and local governments and the private sector to ensure a coordinated response to such threats.

Transportation Security Administration The Transportation Security Administration (TSA) protects the Nation's transportation systems to ensure freedom of movement for people and commerce.

United States Customs and Border Protection U.S. Customs and Border Protection (CBP) is responsible for securing the Nation's borders to protect it against terrorist threats and prevent the illegal entry of inadmissible persons and contraband, while facilitating lawful travel, trade, and immigration.

United States Citizenship and Immigration Services U.S. Citizenship and Immigration Services (USCIS) ensures that information and decisions on citizenship and immigration benefits are provided to customers in a timely, accurate, consistent, courteous, and professional manner, while also helping to safeguard our national security. USCIS is also responsible for enhancing the integrity of our country's legal immigration system by deterring, detecting, and pursuing immigration-related fraud, combating the unauthorized practice of immigration law, and helping to combat unauthorized employment in the workplace.

United States Immigration and Customs Enforcement U.S. Immigration and Customs Enforcement (ICE) is the principal investigative arm of DHS. ICE's primary mission is to promote homeland security and public safety through the criminal and civil enforcement of Federal laws governing border control, customs, trade, and immigration.

United States Coast Guard The U.S. Coast Guard (USCG) protects those on the sea, protects the Nation from seaborne threats, and ensures the safety, security, and stewardship of the Nation's ports, waterways, coasts, and far-reaching maritime regions of economic and national security interest. Coast Guard missions include search and rescue; maritime safety; ports, waterways, and coastal security; drug interdiction; defense readiness; ice operations; aids to navigation; marine environmental protection; living marine resources; and other law enforcement activities.

Federal Emergency Management Agency Federal Emergency Management Agency (FEMA) manages and coordinates the Federal response to and recovery from major domestic disasters and emergencies of all types.

FEMA coordinates programs to improve the effectiveness of emergency response providers at all levels of the government to respond to terrorist attacks, major disasters, and other emergencies. FEMA also initiates proactive mitigation activities, trains first responders, and manages the National Flood Insurance Program and U.S. Fire Administration.

United States Secret Service The U.S. Secret Service (USSS) carries out a unique dual mission of protection and investigation. The Secret Service protects the President, Vice President, visiting heads of state and government,

and National Special Security Events; safeguards the Nation's financial infrastructure and payments systems to preserve the integrity of the economy; and protects the White House and other designated buildings within the Washington, DC, area.

The Department of Housing and Urban Development is the principal Federal agency responsible for programs concerning the Nation's housing needs, fair housing opportunities, and improvement and development of the Nation's communities.

The Department of Housing and Urban Development (HUD) was established in 1965 by the Department of Housing and Urban Development Act (42 U.S.C. 3532-3537). It was created

to administer the principal programs which provide assistance for housing and for the development of the Nation's communities; to encourage the solution of housing and community development

problems through States and localities; and to encourage the maximum contributions that may be made by vigorous private homebuilding and mortgage lending industries to housing, community development, and the national economy.

Although HUD administers many programs, its six major functions are insuring mortgages for single-family and multifamily dwellings and extending loans for home improvement and for the purchasing of mobile homes; channeling funds from investors to the mortgage industry through the Government National Mortgage Association; making direct loans for construction or rehabilitation of housing projects for the elderly and the handicapped; providing Federal housing subsidies for low- and moderate-income families; providing grants to States and communities for community development activities; and promoting and enforcing fair housing and equal housing opportunity.

Secretary The Secretary formulates recommendations for basic policies in the fields of housing and community development; encourages private enterprise participation in housing and community development; promotes the growth of cities and States and the efficient and effective use of housing and community and economic development resources by stimulating private sector initiatives, public/private sector partnerships, and public entrepreneurship; ensures equal access to housing and affirmatively prevents discrimination in housing; and provides general oversight for the Federal National Mortgage Association.

Program Areas

Community Planning and Development

The Office administers grant programs to help communities plan and finance their growth and development, increase their capacity to govern, and to provide shelter and services for homeless people. The Office is responsible for the implementation of Community Development Block Grant (CDBG) programs for entitlement communities; the State- and HUD-administered Small

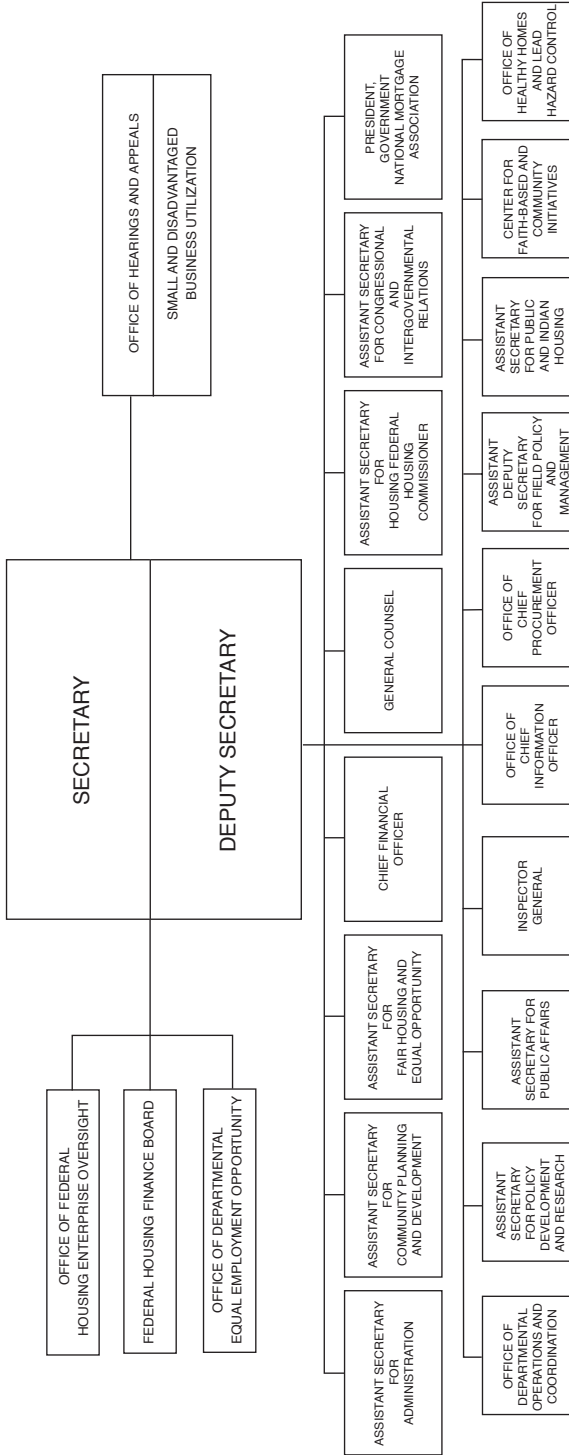

Cities Program; community development loan guarantees; special purpose grants for insular areas and historically black colleges and universities; Appalachian Regional Commission grants; the Home Investment in Affordable Housing Program, which provides Federal assistance for housing rehabilitation, tenant-based assistance, first-time homebuyers, and new construction for when a jurisdiction is determined to need new rental housing; the Department's programs to address homelessness; the John Heinz Neighborhood Development Program; community outreach partnerships; the joint community development plan to assist institutions of higher education working in concert with State and local governments to undertake activities under the CDBG program; community adjustment and economic diversification planning grants; the YouthBuild Program, which provides opportunities and assistance to very low income high school dropouts, ages 16 to 24; empowerment zones and enterprise communities; efforts to improve the environment; and community planning and development efforts of other departments and agencies, public and private organizations, private industry, financial markets, and international organizations.

For further information, contact the Office of Community Planning and Development. Phone, 202-708-2690.

Fair Housing and Equal Opportunity

The Office administers fair housing laws and regulations prohibiting discrimination in public and private housing; equal opportunity laws and regulations prohibiting discrimination in HUD-assisted housing and community development programs; the fair housing assistance grants program to provide financial and technical assistance to State and local government agencies to implement local fair housing laws and ordinances; and the Community Housing Resources Boards program to provide grants for fair housing activities such as outreach and education, identification of institutional barriers to fair housing, and complaint telephone hotlines.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

For further information, contact the Office of Fair Housing and Equal Opportunity. Phone, 202-708-4252.

Federal Housing Enterprise Oversight

The Office oversees the financial safety and soundness of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) to ensure that they are adequately capitalized and operating safely.

For further information, contact the Office of Federal Housing Enterprise Oversight. Phone, 202-414-3800.

Government National Mortgage Association (GNMA)

The mission of this Government corporation, also known as Ginnie Mae, is to support expanded affordable housing by providing an efficient Government-guaranteed secondary market vehicle to link the capital markets with Federal housing markets. Ginnie Mae guarantees mortgage-backed securities composed of FHA-insured or VA-guaranteed mortgage loans that are issued by private lenders and guaranteed by GNMA with the full faith and credit of the United States. Through these programs, Ginnie Mae increases the overall supply of credit available for housing by providing a vehicle for channeling funds from the securities market into the mortgage market.

For further information, contact the Government National Mortgage Association. Phone, 202-708-0926.

Housing The Office of Housing is responsible for the Department's housing functions and oversees aid for construction and financing of new and rehabilitated housing and for preservation of existing housing. The Office underwrites single-family, multifamily, property improvement, and manufactured home loans; administers special purpose programs designed specifically for the elderly, the handicapped, and the chronically mentally ill; administers assisted housing programs for low-income families who are experiencing difficulties affording standard housing; administers grants to fund resident ownership of multifamily

house properties; and protects consumers against fraudulent practices of land developers and promoters.

For further information, contact the Office of Housing. Phone, 202-708-3600.

Healthy Homes and Lead Hazard Control

This Office is responsible for lead hazard control policy development, abatement, training, regulations, and research. Activities of the Office include increasing public and building-industry awareness of the dangers of lead-based paint poisoning and the options for detection, risk reduction, and abatement; encouraging the development of safer, more effective, and less costly methods for detection, risk reduction, and abatement; and encouraging State and local governments to develop lead-based paint programs covering contractor certification, hazard reduction, financing, enforcement, and primary prevention, including public education.

For further information, contact the Office of Healthy Homes and Lead Hazard Control. Phone, 202-755-1785.

Public and Indian Housing The Office administers public and Indian housing programs; provides technical and financial assistance in planning, developing, and managing low-income projects; provides operating subsidies for public housing agencies (PHAs) and Indian housing authorities (IHAs), including procedures for reviewing the management of public housing agencies; administers the comprehensive improvement assistance and comprehensive grant programs for modernization of low-income housing projects to upgrade living conditions, correct physical deficiencies, and achieve operating efficiency and economy; administers programs for resident participation, resident management, home ownership, economic development and supportive services, and drug-free neighborhood programs; protects tenants from the hazards of lead-based paint poisoning by requiring PHAs and IHAs to comply with HUD regulations for the testing and removal of lead-based paint from low-income housing units; implements and monitors program

requirements related to program eligibility and admission of families to public and assisted housing, and tenant income and rent requirements pertaining to continued occupancy; administers the HOPE VI and vacancy reduction programs; administers voucher and certificate programs and the Moderate Rehabilitation Program; coordinates all departmental housing and community development programs for Indian and Alaskan Natives; and awards grants to PHAs and IHAs for the construction, acquisition, and operation of public and Indian housing projects, giving priority to projects for larger families and acquisition of existing units.

For further information, contact the Office of Public and Indian Housing. Phone, 202-708-0950.

| Assistant Secretary for Water and Science | ANNE J. CASTLE |

The Department of the Interior protects America's natural resources and heritage, honors our cultures and tribal communities, and supplies the energy to power our future.

The Department of the Interior was created by act of March 3, 1849 (43 U.S.C. 1451), which transferred to it the General Land Office, the Office of Indian Affairs, the Pension Office, and the Patent Office. It was reorganized by Reorganization Plan No. 3 of 1950, as amended (5 U.S.C. app.).

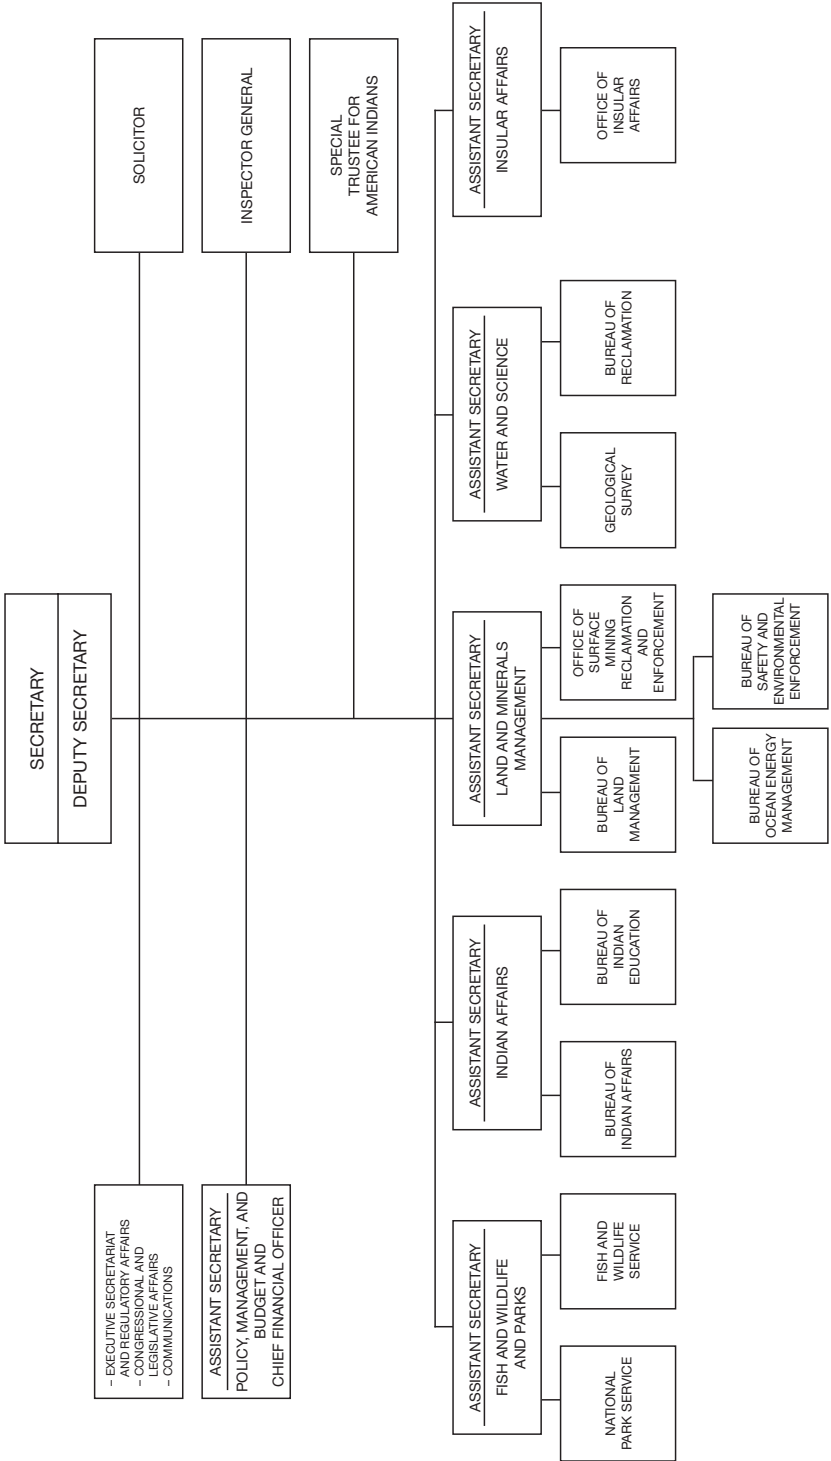

The Department manages the Nation's public lands and minerals, national parks, national wildlife refuges, and western water resources and upholds Federal trust responsibilities to Indian tribes and Alaska Natives. It is also responsible for migratory wildlife conservation; historic preservation; endangered species conservation; surface-mined lands protection and restoration; mapping geological, hydrological, and biological science for the Nation; and for financial and technical assistance for the insular areas.

Secretary The Secretary of the Interior reports directly to the President and

is responsible for the direction and supervision of all operations and activities of the Department. Some areas in which public purposes are broadly applied are detailed below.

Fish, Wildlife, and Parks The Office of the Assistant Secretary for Fish and Wildlife and Parks has responsibility for programs associated with the use, management, and conservation of natural resources; lands and cultural facilities associated with the National Park and National Refuge Systems; and the conservation and enhancement of fish, wildlife, vegetation, and habitat. The Office represents the Department in the coordination and oversight of ecosystems restoration and biological resources programs with other Federal agencies and States and tribes. It also exercises secretarial direction and supervision over the U.S. Fish and Wildlife Service and the National Park Service.

DEPARTMENT OF THE INTERIOR

Indian Affairs The Office of the Assistant Secretary for Indian Affairs is responsible for establishing and implementing Indian policy and programs; maintaining the Federal-tribal Government-to-government relationship; assisting the Secretary of the Interior with carrying out the Department's Federal trust and treaty responsibilities; exercising direction and supervision of the Bureau of Indian Affairs and the Bureau of Indian Education; directly supervising the offices of Federal acknowledgement and self-governance, Indian gaming, economic development, and all administrative and financial resource management activities; and maintaining liaison coordination between the Department and other Federal agencies that provide services or funding to the federally recognized tribes and to the eligible American Indians and Alaska Natives.

The Office of the Special Trustee for American Indians (OST) oversees Departmentwide Indian trust reform efforts to provide more effective management of and accountability for the Secretary of the Interior's trust responsibilities to Indians. OST also has programmatic responsibility for the management of financial trust assets, appraisals, and fiduciary trust beneficiary services.

Insular Areas The Office of the Assistant Secretary for Insular Areas (IN) assists the territories of American Samoa, Guam, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands in developing more efficient and effective government by providing financial and technical assistance and serves as a focal point for the management of relations between the United States and the insular areas by developing and promoting appropriate Federal policies. IN also carries out the Secretary's responsibilities that are related to the three freely associated states (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau), the Palmyra Atoll excluded areas, and Wake Atoll's residual administration.

Land and Minerals Management The Office of the Assistant Secretary for Land

and Minerals Management maintains administrative oversight for the Bureau of Land Management, the Bureau of Ocean Energy Management, the Bureau of Safety and Environmental Enforcement, and the Office of Surface Mining Reclamation and Enforcement. These bureaus are responsible for programs associated with public land management; operations management and leasing for conventional and renewable energy resources and minerals on public lands, including the Outer Continental Shelf to the outer limits of U.S. economic jurisdiction; mineral operations management on Indian lands; and surface mining reclamation and enforcement functions.

Water and Science The Office of the Assistant Secretary for Water and Science provides oversight to the U.S. Geological Survey, the Bureau of Reclamation, and the Central Utah Project Completion Act Office. It provides policy direction and oversight in program areas related to water project operations, facility security, and natural resource management, as well as for geologic, hydrologic, cartographic, biologic, and technological research. It provides guidance in developing national water and science policies and environmental improvement.

Director

MICHAEL S. BLACK

The Bureau of Indian Affairs (BIA) was created as part of the War Department in 1824 and transferred to the Department of the Interior when the latter was established in 1849. The mission of BIA is to fulfill its trust responsibilities and promote self-determination on behalf of federally recognized tribal governments, American Indians, and Alaska Natives. BIA provides services directly or through contracts, grants, or compacts to approximately 1.9 million American Indians and Alaska Natives, members of 566 federally recognized Indian tribes in the 48 contiguous United States and Alaska.

The scope of BIA's programs is extensive, covering virtually the entire range of State and local governmental services. The programs administered by either tribes or BIA include: management of natural resources on 55 million acres

of trust land, fire protection, emergency natural disaster relief, economic development programs in some of the most isolated and economically depressed areas of the United States, law enforcement, administration of tribal courts and detention centers, implementation of legislated land and water claim settlements, building, repair, and maintenance of roads and bridges, repair and maintenance of high-hazard dams, and operation of irrigation systems and agricultural programs on Federal Indian lands.

BIA works with American Indian and Alaska Native tribal governments and organizations, other Federal agencies, State and local governments, and other groups interested in the development and implementation of effective programs.

CHARLES M. ROESSEL

The Bureau of Indian Education (BIE) provides quality educational opportunities for eligible American Indian and Alaska Native elementary, secondary, and postsecondary students from the federally recognized tribes. BIE is responsible for the direction and management of all education functions, including the formation of policies and procedures, the supervision of all program activities, and the approval of expenditure of funds appropriated for education functions.

BIE is responsible for educating approximately 48,000 American Indian and Alaska Native children at 183 elementary and secondary schools on 64 reservations in 23 states. Of these schools, 126 are tribally controlled under the Indian Self-Determination

and Education Assistance Act of 1975 (25 U.S.C. 450 et seq.) or the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.), and 57 schools are operated by the Bureau of Indian Education. BIE also oversees two postsecondary schools: Haskell Indian Nations University in Lawrence, KS, and Southwestern Indian Polytechnic Institute in Albuquerque, NM.

Principal Deputy Director

NEIL G. KORNZE

The Bureau of Land Management (BLM) was established July 16, 1946, by the consolidation of the General Land Office

(created in 1812) and the Grazing Service (formed in 1934).

The BLM manages more land (245 million acres) than any other Federal

agency. This land, known as the National System of Public Lands, is primarily located in 12 Western States, including Alaska. The BLM, with a budget of about \$1 billion, also administers 700 million acres of subsurface mineral estate throughout the Nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The BLM accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.

Resources managed by the BLM include timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space. BLM programs provide for the protection (including fire suppression when appropriate), orderly development, and use of the public lands and resources under principles of multiple use and sustained yield. Land-use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment. The BLM also manages watersheds to protect soil and enhance water quality; develops recreational opportunities on public lands; administers programs to protect and manage wild horses and burros; and under certain conditions, makes land available for sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes.

The BLM oversees and manages the development of onshore energy and mineral leases and ensures compliance with applicable regulations governing the extraction of these resources. It is responsible for issuing rights-of-way, leases, and permits.

The BLM is also responsible for the survey of Federal lands and establishes and maintains public land records and mining claims records.

The Bureau of Ocean Energy Management (BOEM) was created on May 19, 2010, by Secretarial Order No. 3299, as amended.

BOEM assesses the nature, extent, recoverability, and value of leasable minerals, renewable and other authorized energy, and marine-related activities on the Outer Continental Shelf (OCS). BOEM promotes the exploration, inventory, and responsible development of energy and mineral resources and other authorized energy or marine-related activities; provides a structure to analyze the potential environmental effects of proposed operations related to resource management; develops and implements regulations governing leasing, resource evaluation, resource management, plans, and the economic evaluation of offshore activities; and oversees the financial accountability of lessees, operators, and operating-rights holders to ensure that these responsible parties can meet their financial and contractual commitments.

BOEM promotes cooperative relationships between the Federal Government, States, and tribes and native communities with respect to national, regional, and local issues related to the full scope of its responsibility. The operations of BOEM support a number of national goals and objectives, including energy security, environmental protection, and social and economic development.

JONATHAN B. JARVIS

The National Park Service was established in the Department of the Interior on August 25, 1916 (16 U.S.C. 1).

The National Park Service is dedicated to protecting the natural and cultural resources and values of the National Park System for the benefit of present and future generations. There are 401 units in the National Park System, including national parks, monuments and memorials, scenic parkways, preserves, reserves, trails, riverways, wild and scenic rivers, seashores, lakeshores, recreation areas, battlefields and battlefield parks and sites, national military parks, international historic sites, and historic sites associated with important movements, events, and personalities of the American past.

The Service is also responsible for managing a great variety of national and international programs designed to help extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

The National Park Service develops and implements park management plans and staffs the areas under its administration. It relates the natural values and historical significance of these areas to the public through talks, tours, films, exhibits, publications, and other interpretive media. It operates campgrounds and other visitor facilities and provides lodging, food, and transportation services in many areas.

The National Park Service also administers the following programs: the State portion of the Land and Water Conservation Fund, nationwide outdoor recreation coordination and information, State comprehensive outdoor recreation planning, planning and technical assistance for the national wild and scenic rivers system, the national trails system, natural area programs, the National Register of Historic Places,

national historic landmarks, historic preservation, technical preservation services, the historic American buildings survey, the historic American engineering record, and interagency archeological services.

The Office of Surface Mining Reclamation and Enforcement (OSM) was established in the Department of the Interior by the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1211).

The Office's primary goal is to assist States in operating a nationwide program that protects society and the environment from the adverse effects of coal mining, while ensuring that surface coal mining can be done without permanent damage to land and water resources. With most coal mining States responsible for regulating coal mining and reclamation activities within their borders, OSM's main objectives are to oversee State mining regulatory and abandoned-mine reclamation programs, assist States in meeting the objectives of surface mining law, and regulate mining and reclamation activities on Federal and Indian lands, and in those States choosing not to assume primary responsibility.

The Office establishes national policy for the surface mining control and reclamation program provided for in surface mining law, reviews and approves amendments to previously approved State

programs, and reviews and recommends approval of new State program submissions. Other activities include: managing the collection, disbursement, and accounting for abandoned-mine land reclamation fees; administering civil penalties programs; establishing technical standards and regulatory policy for reclamation and enforcement efforts; providing guidance for environmental considerations, research, training, and technology transfer for State, tribal, and Federal regulatory and abandoned-mine land reclamation programs; and monitoring and evaluating State and tribal regulatory programs, cooperative agreements, and abandoned-mine land reclamation programs.

Director

DANIEL M. ASHE

[For the United States Fish and Wildlife Service statement of organization, see the Code of Federal Regulations, Title 50, Subchapter A, Part 2]

The U.S. Fish and Wildlife Service is the principal Federal agency dedicated to fish and wildlife conservation. The Service's history spans nearly 140 years, dating from the establishment of its predecessor agency, the Bureau of Fisheries, in 1871. First created as an independent agency, the Bureau of Fisheries was later placed in the Department of Commerce. A second predecessor agency, the Bureau of Biological Survey, was established in 1885 in the Department of Agriculture. In 1939, the two Bureaus and their functions were transferred to the Department of the Interior. In 1940, they were consolidated into one agency and redesignated the Fish and Wildlife Service by Reorganization Plan No. 3 (5 U.S.C. app.).

The U.S. Fish and Wildlife Service is responsible for conserving, protecting, and enhancing fish, wildlife, and plants and their habitats for the continuing benefit of the American people. The National Park Service manages the 150-million-acre National Wildlife Refuge System, which encompasses 555 refuges and 38 wetland management districts. It also operates 70 national fish hatcheries, 64 fishery resource offices, and 81 ecological service field stations. The Service enforces Federal wildlife laws, administers the Endangered Species Act, manages migratory bird populations, restores nationally significant fisheries, conserves and restores wildlife habitat such as wetlands, and assists foreign governments with their conservation efforts. It also oversees the Sport Fish and Wildlife Restoration Programs, which collect and distribute revenues from excise taxes on fishing and hunting equipment to State fish and wildlife agencies.

The Service is responsible for improving and maintaining fish and

wildlife resources by proper management of wildlife and habitat. It also helps fulfill the public demand for recreational fishing while maintaining the Nation's fisheries at a level and in a condition that will ensure their continued survival.

Specific wildlife and fishery resource programs provide wildlife refuge management for public lands, including population control, migration and harvest surveys, and law and gaming enforcement for migratory and nonmigratory birds and mammals. Various programs also monitor hatchery production, stocking, and fishery management and provide technical assistance for coastal anadromous, Great Lakes (in cooperation with Canada), and other inland fisheries.

The Service provides leadership in identifying, protecting, and restoring endangered species of fish, wildlife, and plants. This program develops the Federal Endangered and Threatened Species List, conducts status surveys, prepares recovery plans, and coordinates national and international efforts to operate wildlife refuges.

In the area of resource management, the Service provides leadership for the protection and improvement of land and water environments (habitat preservation) that directly benefit the living natural resources and add quality to human life. The Service administers grant programs benefiting imperiled species, provides technical and financial assistance to private landowners for habitat restoration, completes environmental impact assessments and reviews of potential threats, manages Coastal Barrier Resource System mapping, monitors potential contaminants in wildlife, and studies fish and wildlife populations.

Public use and information programs include preparing informational

brochures and Web sites; coordinating environmental studies on Service lands; operating visitor centers, self-guided nature trails, observation towers, and display ponds; and providing recreational activities such as hunting, fishing, and wildlife photography.

The Service's Office of Federal Assistance apportions funds for projects designed to conserve and enhance the Nation's fish and wildlife resources. The funds for the projects are generated from excise taxes on sporting arms and fishing equipment.

SUZETTE KIMBALL, *Acting*

The U.S. Geological Survey (USGS) was established by the Organic Act of March

3, 1879 (43 U.S.C. 31). Since March 3, 1879, the U.S. Geological Survey

(USGS) has provided the United States with science information needed to make important land use and resource management policy decisions.

The USGS is the Earth and natural science research bureau for the Department of the Interior and the only integrated natural resources research agency in the Federal Government. USGS research and data support the Department's resource and land management information needs and also provide the climate, natural hazards, water, biological, energy, and mineral resources information needed by other Federal, State, tribal, and local government agencies to guide planning, management, and regulatory programs. Emergency response organizations, natural resource managers, land use planners, and other customers use this information to protect lives and property, address environmental health issues, and promote public prosperity for the future well-being of our country.

The USGS conducts research, monitoring, and assessments to contribute to understanding America's lands, water, and biological resources. The USGS provides information to the citizens of the country and to the global community in the form of maps, data, and reports containing analyses and interpretations of water, energy, mineral, and biological resources; land surfaces; marine environments; geologic structures; natural hazards; and dynamic processes of the Earth. USGS data and information are used daily by managers, planners, and citizens to understand, respond to, and plan for changes in the environment.

With more than 130 years of data and experience, USGS employs 8,000 science and science-support staff, in more than 400 science centers across the United States, who work on locally, regionally, and nationally scaled studies, research projects, and sampling and monitoring sites.

[For the Department of Justice statement of organization, see the Code of Federal Regulations, Title 28, Chapter I, Part 0]

The Department of Justice serves as counsel for the citizens of the United States. It represents them in enforcing the law in the public interest. Through its thousands of lawyers, investigators, and agents, the Department plays the key role in protection against criminals and subversion, ensuring healthy business competition, safeguarding the consumer, and enforcing drug, immigration, and naturalization laws.

The Department of Justice was established by act of June 22, 1870 (28 U.S.C. 501, 503, 509 note), with the Attorney General as its head. The affairs and activities of the Department of Justice are generally directed by the Attorney General.

Attorney General The Attorney General represents the United States in legal matters generally and gives advice and opinions to the President and to the heads of the executive departments of the Government when so requested. The Attorney General appears in person to represent the Government before the U.S. Supreme Court in cases of exceptional gravity or importance.

Community Relations Service The Service offers assistance to communities in resolving disputes relating to race, color, or national origin and facilitates the development of viable agreements as alternatives to coercion, violence, or litigation. It also assists and supports communities in developing local mechanisms as proactive measures to prevent or reduce racial/ethnic tensions.

For a complete list of Community Relations Service Regional Offices, visit www.justice.gov/crs/map.htm.

For further information, contact any regional office or the Director, Community Relations Service, Department of Justice, Suite 2000, 600 E Street NW., Washington, DC 20530. Phone, 202-305-2935.

Pardon Attorney The Office of the Pardon Attorney assists the President in the exercise of his pardon power under the Constitution. Generally, all requests for pardon or other forms of executive clemency, including commutation of sentences, are directed to the Pardon Attorney for investigation and review. The Pardon Attorney prepares the Department's recommendation to the President for final disposition of each application.

For further information, contact the Office of the Pardon Attorney, Department of Justice, Suite 1100, 1425 New York Avenue NW., Washington, DC 20530. Phone, 202-616-6070. Internet, <http://www.usdoj.gov/pardon>.

Solicitor General The Office of the Solicitor General represents the U.S. Government in cases before the Supreme Court. It decides what cases

the Government should ask the Supreme Court to review and what position the Government should take in cases before the Court. It also supervises the preparation of the Government's Supreme Court briefs and other legal documents and the conduct of the oral arguments in the Court. The Solicitor General also decides whether the United States should appeal in all cases it loses before the lower courts.

For further information, contact the Executive Officer, Office of the Solicitor General, Room 5142, 950 Pennsylvania Avenue NW., RFK Justice Building (Main), Washington, DC 20530-0001.

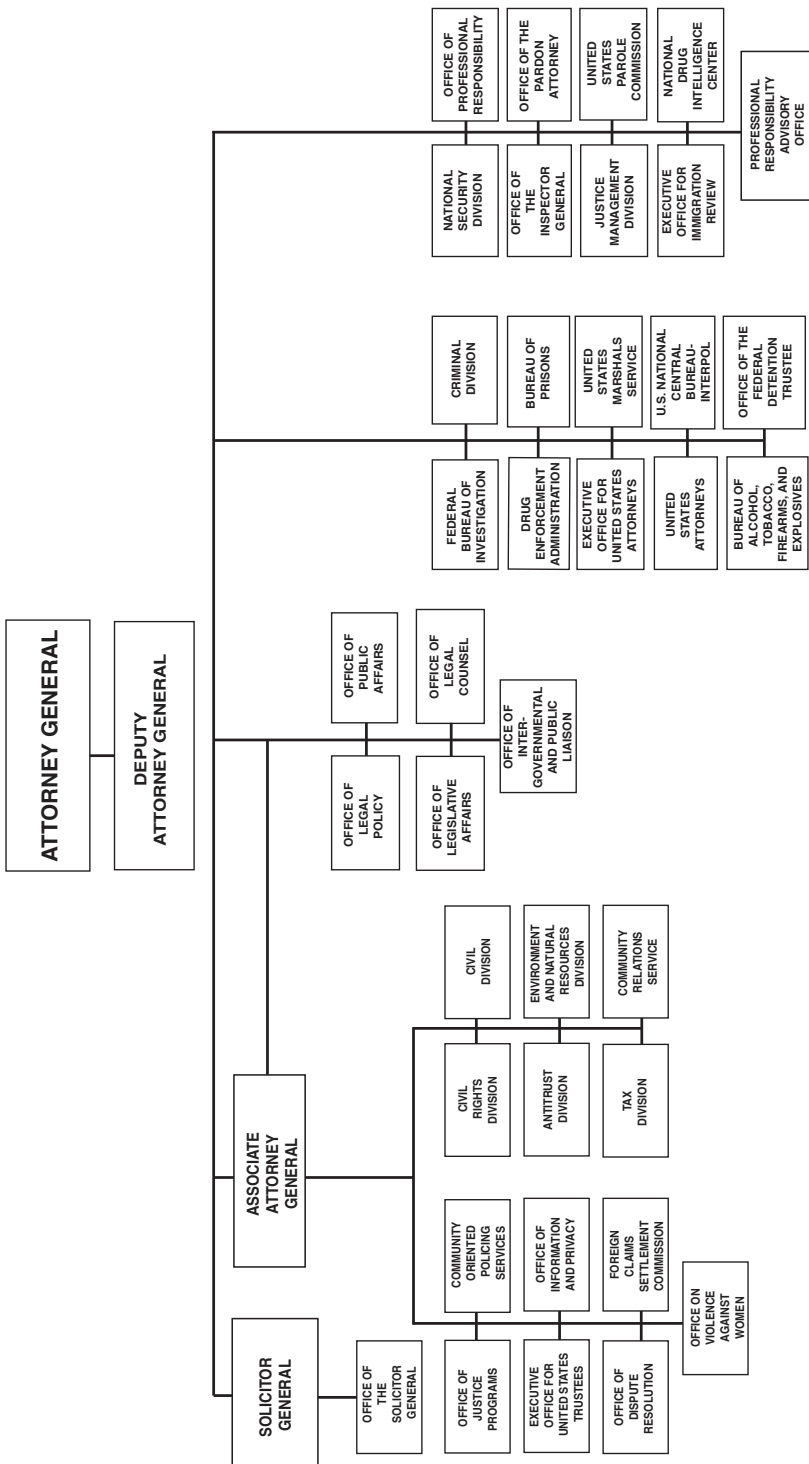

U.S. Attorneys The Executive Office for U.S. Attorneys was created on April 6, 1953, to provide liaison between the Department of Justice in Washington, DC, and the U.S. attorneys. Its mission is to provide general executive assistance to the 94 offices of the U.S. attorneys and to coordinate the relationship between the U.S. attorneys and the organization components of the Department of Justice and other Federal agencies.

For further information, contact the Executive Office for U.S. Attorneys, Department of Justice, Room 2261, 950 Pennsylvania Avenue NW., Washington, DC 20530. Phone, 202-514-1020. Internet, <http://www.usdoj.gov/usao/eousa>.

U.S. Trustee Program The Program was established by the Bankruptcy Reform Act of 1978 (11 U.S.C. 101 et seq.) as a pilot effort in 10 regions encompassing 18 Federal judicial districts to promote the efficiency and protect the integrity of the bankruptcy system by identifying and helping to investigate bankruptcy fraud and abuse. It now operates nationwide except in Alabama and North Carolina. The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 (11 U.S.C. 101 note) significantly expanded the Program's responsibilities and provided additional tools to combat bankruptcy fraud and abuse. The Executive Office for U.S. Trustees provides day-to-day policy and legal direction, coordination, and control.

For further information, contact the Executive Office for U.S. Trustees, Department of Justice, Suite 8000, 20 Massachusetts Avenue NW., Washington, DC 20530. Phone, 202-307-1391. Internet, <http://www.usdoj.gov/ust>.

DEPARTMENT OF JUSTICE

Divisions

Antitrust Division The Assistant Attorney General in charge of the Antitrust Division is responsible for promoting and maintaining competitive markets by enforcing the Federal antitrust laws. This involves investigating possible antitrust violations, conducting grand jury proceedings, reviewing proposed mergers and acquisitions, preparing and trying antitrust cases, prosecuting appeals, and negotiating and enforcing final judgments. The Division prosecutes serious and willful violations of antitrust laws by filing criminal suits that can lead to large fines and jail sentences. Where criminal prosecution is not appropriate, the Division seeks a court order forbidding future violations of the law and requiring steps by the defendant to remedy the anticompetitive effects of past violations.

The Division also is responsible for acting as an advocate of competition within the Federal Government as well as internationally. This involves formal appearances in Federal administrative agency proceedings, development of legislative initiatives to promote deregulation and eliminate unjustifiable exemptions from the antitrust laws, and participation on executive branch policy task forces and in multilateral international organizations. The Division provides formal advice to other agencies on the competitive implications of proposed transactions requiring Federal approval, such as mergers of financial institutions.

For further information, contact the FOIA Unit, Antitrust Division, Department of Justice, 325 Seventh Street NW., Washington, DC 20530. Phone, 202-514-2692.

Civil Division The Civil Division represents the United States, its departments and agencies, Members of Congress, Cabinet officers, and other Federal employees. Its litigation reflects the diversity of Government activities involving, for example, the defense of challenges to Presidential actions; national security issues; benefit programs; energy policies; commercial issues such as contract disputes, banking,

insurance, fraud, and debt collection; all manner of accident and liability claims; and violations of the immigration and consumer protection laws. The Division confronts significant policy issues, which often rise to constitutional dimensions, in defending and enforcing various Federal programs and actions. Each year, Division attorneys handle thousands of cases that collectively involve billions of dollars in claims and recoveries.

The Division litigates cases in the following areas:

Commercial litigation, litigation associated with the Government's diverse financial involvements including all monetary suits involving contracts, express or implied; actions to foreclose on Government mortgages and liens; bankruptcy and insolvency proceedings; suits against guarantors and sureties; actions involving fraud against the Government, including false or fraudulent claims for Federal insurance, loans, subsidies, and other benefits such as Medicare, false or fraudulent claims for payment under Federal contracts, whistleblower suits, and Government corruption; patent, copyright, and trademark cases and suits arising out of construction, procurement, service contracts, and claims associated with contract terminations; claims for just compensation under the Fifth Amendment; claims for salary or retirement by civilian and military personnel; cases assigned by congressional reference or special legislation; and litigation involving interests of the United States in any foreign court, whether civil or criminal in nature.

Consumer litigation, including civil and criminal litigation and related matters arising under various consumer protection and public health statutes.

Federal programs, including constitutional challenges to statutes, suits to overturn Government policies and programs, challenges to the legality of Government decisions, allegations that the President has violated the Constitution or Federal law, suits to enforce regulatory statutes and to

remedy or prevent statutory or regulatory violations.

The areas of litigation include:

Suits against the heads of Federal departments and agencies and other Government officials to enjoin official actions, as well as suits for judicial review of administrative decisions, orders, and regulations; suits involving national security, including suits to protect sensitive intelligence sources and materials; suits to prevent interference with Government operations; litigation concerning the constitutionality of Federal laws; and suits raising employment discrimination claims and Government personnel issues.

Immigration litigation, involving civil litigation under the Immigration and Nationality Act and related laws; district court litigation, habeas corpus review and general advice; petitions for removal order review and immigration-related appellate matters; cases pertaining to the issuance of visas and passports; and litigation arising under the legalization and employer sanction provisions of the immigration laws.

Torts, including the broad range of tort litigation arising from the operation of the Federal Government, constitutional tort claims against Federal Government officials throughout the Government, aviation disasters, environmental and occupational disease, and radiation and toxic substance exposure. It defends petitions filed pursuant to the Vaccine Injury Compensation Program and is responsible for administering the Radiation Exposure Compensation Program. It also handles maritime litigation and suits that seek personal monetary judgments against individual officers or employees.

Appellate, having primary responsibility for the litigation of Civil Division cases in the courts of appeal, and on occasion, State appeal courts. The Appellate Staff prepares Government briefs and presents oral arguments for these cases. Additionally, the Appellate Staff works with the Solicitor General's office to prepare documents filed for these cases in the Supreme Court, including briefs on the merits,

petitions for certiorari, and jurisdictional statements. The Appellate Staff also works with the Solicitor General's office to obtain authorization for appellate review.

For further information, contact the Office of the Assistant Attorney General, Civil Division, Department of Justice, Tenth Street and Pennsylvania Avenue NW., Washington, DC 20530. Phone, 202-514-3301.

Civil Rights Division The Civil Rights Division, headed by an Assistant Attorney General, was established in 1957 to secure effective Federal enforcement of civil rights. The Division is the primary institution within the Federal Government responsible for enforcing Federal statutes prohibiting discrimination on the basis of race, sex, disability, religion, citizenship, and national origin. The Division has responsibilities in the following areas:

Coordination and review of various civil rights statutes that prohibit discrimination on the basis of race, color, national origin, sex, and religion in programs and activities that receive Federal financial assistance by Federal agencies.

Criminal cases involving conspiracies to interfere with federally protected rights; deprivation of rights under color of law; the use of force or threat of force to injure or intimidate someone in their enjoyment of specific rights (such as voting, housing, employment, education, public facilities, and accommodations); interference with the free exercise of religious beliefs or damage to religious property; the holding of a worker in a condition of slavery or involuntary servitude; and interference with persons seeking to obtain or provide reproductive services.

Disability rights cases, achieving equal opportunity for people with disabilities in the United States by implementing the Americans with Disabilities Act (ADA). The section's enforcement, certification, regulatory, coordination, and technical assistance activities, combined with an innovative mediation program and a technical assistance grant program, provide an approach for carrying out the ADA's mandates. The section also carries out responsibilities under sections 504 and 508 of the Rehabilitation Act,

the Help America Vote Act of 2002, the Small Business Regulatory Enforcement Fairness Act, and Executive Order 12250.

Educational opportunities litigation, involving title IV of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, and title III of the Americans with Disabilities Act. In addition, the section is responsible for enforcing other statutes such as title VI of the Civil Rights Act of 1964, title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973, title II of the Americans with Disabilities Act, and the Individuals with Disabilities Education Act upon referral from other governmental agencies.

Employment litigation enforcing against State and local government employers the provisions of title VII of the Civil Rights Act of 1964, as amended, and other Federal laws prohibiting employment practices that discriminate on grounds of race, sex, religion, and national origin. The section also enforces against State and local government and private employers the provisions of the Uniformed Services Employment and Reemployment Rights Act of 1994, which prohibits employers from discriminating or retaliating against an employee or applicant for employment because of such person's past, current, or future military obligation.

Housing and Civil Enforcement statutes enforcing the Fair Housing Act, which prohibits discrimination in housing; the Equal Credit Opportunity Act, which prohibits discrimination in credit; title II of the Civil Rights Act of 1964, which prohibits discrimination in certain places of public accommodation, such as hotels, restaurants, nightclubs and theaters; title III of the Civil Rights Act of 1964, which prohibits discrimination in public facilities; and the Religious Land Use and Institutionalized Persons Act, which prohibits local governments from adopting or enforcing land use regulations that discriminate against religious assemblies and institutions or which unjustifiably burden religious exercise.

Immigration-related unfair employment practices enforcing the antidiscrimination

provisions of the Immigration and Nationality Act, which protect U.S. citizens and legal immigrants from employment discrimination based upon citizenship or immigration status and national origin, unfair documentary practices relating to the employment eligibility verification process, and retaliation.

Special litigation protecting the constitutional and statutory rights of persons confined in certain institutions owned or operated by State or local governments, including facilities for individuals with mental and developmental disabilities, nursing homes, prisons, jails, and juvenile detention facilities where a pattern or practice of violations exist; civil enforcement of statutes prohibiting a pattern or practice of conduct by law enforcement agencies that violates Federal law; and protection against a threat of force and physical obstruction that injures, intimidates, or interferes with a person seeking to obtain or provide reproductive health services, or to exercise the first amendment right of religious freedom at a place of worship.

Voting cases enforcing the Voting Rights Act, the Help America Vote Act of 2002, the National Voter Registration Act, the Voting Accessibility for the Elderly and Handicapped Act, the Uniformed and Overseas Citizens Absentee Voting Act, and other Federal statutes designed to safeguard citizens' rights to vote. This includes racial and language minorities, illiterate persons, individuals with disabilities, overseas citizens, persons who change their residence shortly before a Presidential election, and persons 18 to 20 years of age.

For further information, contact the Executive Officer, Civil Rights Division, Department of Justice, 950 Pennsylvania Avenue NW., Washington, DC 20035. Phone, 202-514-4224. Internet, <http://www.usdoj.gov/crt>.

Criminal Division The Criminal Division develops, enforces, and supervises the application of all Federal criminal laws, except those specifically assigned to other divisions. In addition to its direct litigation responsibilities, the Division formulates and implements

criminal enforcement policy and provides advice and assistance, including representing the United States before the United States Courts of Appeal. The Division engages in and coordinates a wide range of criminal investigations and prosecutions, such as those targeting individuals and organizations that engage in international and national drug trafficking and money laundering systems or organizations and organized crime groups. The Division also approves or monitors sensitive areas of law enforcement such as participation in the Witness Security Program and the use of electronic surveillance; advises the Attorney General, Congress, the Office of Management and Budget, and the White House on matters of criminal law; provides legal advice, assistance, and training to Federal, State, and local prosecutors and investigative agencies; provides leadership for coordinating international and national law enforcement matters; and provides training and development assistance to foreign criminal justice systems. Areas of responsibility include:

Asset forfeiture and money laundering, including the prosecution of complex, sensitive, multidistrict, and international cases; formulating policy and conducting training in the money laundering and forfeiture areas; developing legislation and regulations; ensuring the uniform application of forfeiture and money laundering statutes; participating in bilateral and multilateral initiatives to develop international forfeiture and money laundering policy and promote international cooperation; adjudicating petitions for remission or mitigation of forfeited assets; distributing forfeited funds and properties to appropriate domestic and foreign law enforcement agencies and community groups within the United States; and ensuring that such agencies comply with proper usage of received funds.

Child exploitation and obscenity, including providing prosecutorial and forensic assistance to Federal prosecutors and law enforcement agents in investigating and prosecuting violators of Federal criminal statutes relating to

the manufacture, distribution, receipt, or possession, of child pornography; selling, buying, or transporting women and children to engage in sexually explicit conduct; interstate or international travel to sexually abuse children; abusing children on Federal and Indian lands; transporting obscene materials in interstate or foreign commerce; international parental abduction; nonpayment of certain court-ordered child support; and contributing to the development of policy and legislative efforts related to these areas.

Computer crime and intellectual property, including cyber attacks on critical information systems, improving domestic and international infrastructure to pursue network criminals most effectively; and initiating and participating in international efforts to combat computer crime.

Enforcement, overseeing the use of the most sophisticated investigative tools at the Department's disposal; reviewing all Federal electronic surveillance requests and requests to apply for court orders permitting the use of video surveillance; authorizing or denying the entry of applicants into the Federal Witness Security Program (WSP) and coordinating and administering matters relating to all aspects of the WSP among all program components; reviewing requests for witness immunity; transfer of prisoners to and from foreign countries to serve the remainder of their prison sentences; attorney and press subpoenas; applications for S-visa status; and disclosure of grand jury information.

Fraud, including cases that focus on corporate and securities fraud schemes, financial institution fraud, insurance fraud, fraud involving Government programs such as Medicare, and international criminal activities including the bribery of foreign government officials in violation of the Foreign Corrupt Practices Act.

International affairs, including requests for international extradition and foreign evidence on behalf of Federal, State, and local prosecutors and investigators, fulfilling foreign requests for fugitives

and evidence, and negotiating and implementing law enforcement treaties.

Narcotics and dangerous drugs, including statutes pertaining to controlled substances; developing and implementing domestic and international narcotics law enforcement policies and programs; developing and administering other cooperative drug enforcement strategies, such as the Bilateral Case Initiative, and projects conducted by the law enforcement and intelligence communities.

Organized crime and racketeering efforts against traditional groups and emerging groups from Asia and Europe.

Organized Crime Drug Enforcement Task Forces, combining the resources and expertise of several Federal agencies in cooperation with the Tax Division, U.S. attorneys offices, and State and local law enforcement to identify, disrupt, and dismantle major drug supply and money laundering organizations through coordinated, nationwide investigations targeting the entire infrastructure of these enterprises.

Overseas prosecutorial development, assistance, and training for prosecutors and judicial personnel in other countries to develop and sustain democratic criminal justice institutions.

Policy and legislation, developing legislative proposals and reviewing pending legislation affecting the Federal criminal justice system; reviewing and developing proposed changes to the Federal sentencing guidelines and rules; and analyzing crime policy and program issues.

Public integrity efforts to combat corruption of elected and appointed public officials at all levels of government.

Special investigations of individuals who took part in Nazi-sponsored acts of persecution abroad before and during World War II and who subsequently entered or seek to enter the United States illegally and/or fraudulently, and interagency investigation into assets looted from victims of Nazi persecution.

Terrorism, involving design, implementation, and support of law enforcement efforts, legislative initiatives,

policies, and strategies relating to international and domestic terrorism.

Domestic security, enforcing Federal criminal laws relating to violent crimes, the illegal use of firearms and explosives, and alien smuggling and other immigration-related offenses.

For further information, contact the Office of the Assistant Attorney General, Criminal Division, Department of Justice, Tenth Street and Pennsylvania Avenue NW., Washington, DC 20530. Phone, 202-514-2601.

Environment and Natural Resources

Division The Environment and Natural Resources Division is the Nation's environmental lawyer. The Division's responsibilities include enforcing civil and criminal environmental laws that protect America's health and environment. It also defends environmental challenges to Government activities and programs and ensures that environmental laws are implemented in a fair and consistent manner nationwide. It also represents the United States in all matters concerning the protection, use, and development of the Nation's natural resources and public lands, wildlife protection, Indian rights and claims, and the acquisition of Federal property. To carry out this broad mission, the Division litigates in the following areas:

Environmental crimes, prosecuting individuals and corporate entities violating laws designed to protect the environment.

Civil environmental enforcement, on behalf of EPA; claims for damages to natural resources filed on behalf of the Departments of the Interior, Commerce, and Agriculture; claims for contribution against private parties for contamination of public land; and recoupment of money spent to clean up certain oil spills on behalf of the U.S. Coast Guard.

Environmental defense, representing the United States in suits challenging the Government's administration of Federal environmental laws including claims that regulations are too strict or lenient and claims alleging that Federal agencies are not complying with environmental standards.

Wildlife and marine resources protection, including prosecution of

smugglers and black-market dealers in protected wildlife.

Use and protection of federally owned public lands and natural resources across a broad spectrum of laws.

Indian resources protection, including establishing water rights, establishing and protecting hunting and fishing rights, collecting damages for trespass on Indian lands, and establishing reservation boundaries and rights to land.

Land acquisition for use by the Federal Government for purposes ranging from establishing public parks to building Federal courthouses.

For further information, contact the Office of the Assistant Attorney General, Environment and Natural Resources Division, Department of Justice, Tenth Street and Pennsylvania Avenue NW., Washington, DC 20530. Phone, 202-514-2701.

National Security Division The National Security Division (NSD) develops, enforces, and supervises the application of all Federal criminal laws related to the national counterterrorism and counterespionage enforcement programs, except those specifically assigned to other divisions. NSD litigates and coordinates a wide range of prosecutions and criminal investigations involving terrorism and violations of the espionage, export control, and foreign agents registration laws. It administers the Foreign Intelligence Surveillance Act and other legal authorities for national security activities; approves and monitors the use of electronic surveillance; provides legal and policy advice regarding the classification of and access to national security information; performs prepublication review of materials written by present and former DOJ employees; trains the law enforcement and intelligence communities; and advises the Department and legislative and executive branches on all areas of national security law. NSD also serves as the Department's representative on interdepartmental boards, committees, and entities dealing with issues related to national security.

NSD also has some additional counterterrorism, counterespionage, and intelligence oversight responsibilities as follows: to promote and oversee national

counterterrorism enforcement programs; develop and implement counterterrorism strategies, legislation, and initiatives; facilitate information sharing between and among the Department and other Federal agencies on terrorism threats; share information with international law enforcement officials to assist with international threat information and litigation initiatives; liaison with the intelligence, defense, and immigration communities and foreign governments on counterterrorism issues and cases; supervise the investigation and prosecution of cases involving national security, foreign relations, the export of military and strategic commodities and technology, espionage, sabotage, neutrality, and atomic energy; coordinate cases involving the application for the Classified Information Procedures Act; enforce the Foreign Agents Registration Act of 1938 and related disclosure laws; supervise the preparation of certifications and applications for orders under the Foreign Intelligence Surveillance Act (FISA); represent the United States before the Foreign Intelligence Surveillance Court; participate in the development, implementation, and review of United States intelligence policies; evaluate existing and proposed national security-related activities to determine their consistency with relevant policies and law; monitor intelligence and counterintelligence activities of other agencies to ensure conformity with Department objectives; prepare reports evaluating domestic and foreign intelligence and counterintelligence activities; and process requests to use FISA-derived information in criminal, civil, and immigration proceedings and to disseminate that information to foreign governments.

For further information, contact the Office of the Assistant Attorney General, National Security Division, Department of Justice, Tenth Street and Pennsylvania Avenue NW., Washington, DC 20530. Phone, 202-514-5600. Internet, <http://www.usdoj.gov/nsd>.

Tax Division Tax Division ensures the uniform and fair enforcement of Federal tax laws in Federal and State courts. The Division conducts enforcement

activities to deter specific taxpayers, as well as the taxpaying public at large, from conduct that deprives the Federal Government of its tax-related revenue. It represents the United States and its officers in all civil and criminal litigation arising under the internal revenue laws, other than proceedings in the U.S. Tax Court. Tax Division attorneys frequently join with assistant U.S. attorneys in prosecuting tax cases. Some criminal tax grand jury investigations and prosecutions are handled solely by Tax Division prosecutors, while others are delegated to assistant U.S. attorneys. Division attorneys evaluate requests by the Internal Revenue Service or U.S. attorneys to initiate grand jury investigations or prosecutions of tax crimes.

The Division handles a wide array of civil tax litigation, including the following: suits to enjoin the promotion of abusive tax shelters and to enjoin activities relating to aiding and abetting the understatement of tax liabilities of others; suits to enforce Internal Revenue Service administrative summonses that seek information essential to determine and collect taxpayers' liabilities, including summonses for records of corporate tax shelters and offshore transactions; suits brought by the United States to set aside fraudulent conveyances and to collect assets held by nominees and egos; tax refund suits challenging the Internal Revenue Service's determination of taxpayers' Federal income, employment, excise, and estate liabilities; bankruptcy litigation raising issues of the validity, dischargeability, and priority of Federal tax claims, and the feasibility of reorganization plans; suits brought by taxpayers challenging determinations made in the collection due process proceedings before the Internal Revenue Service's Office of Appeals; and suits against the United States for damages for the unauthorized disclosure of tax return information or for damages claimed because of alleged injuries caused by Internal

Revenue Service employees in the performance of their official duties.

The Division also collects judgments in tax cases. To this end, the Division directs collection efforts and coordinates with, monitors the efforts of, and provides assistance to the various U.S. attorneys' offices in collecting outstanding judgments in tax cases. The Division also works with the Internal Revenue Service, U.S. attorneys, and other Government agencies on policy and legislative proposals to enhance tax administration and handling tax cases assigned to those offices.

Director

JAMES B. COMEY, JR.

The Federal Bureau of Investigation (FBI) is the principal investigative arm of the United States Department of Justice. It is primarily charged with gathering and reporting facts, locating witnesses, and compiling evidence in cases involving Federal jurisdiction. It also provides law enforcement leadership and assistance to State and international law enforcement agencies.

The FBI was established in 1908 by the Attorney General, who directed that Department of Justice investigations be handled by its own staff. The Bureau is charged with investigating all violations of Federal law except those that have been assigned by legislative enactment or otherwise to another Federal agency. Its jurisdiction includes a wide range of responsibilities in the national security, criminal, and civil fields. Priority has been assigned to areas such as counterterrorism, counterintelligence, cyber crimes, internationally and nationally organized crime/drug matters, and financial crimes.

For further information, contact the Office of Public and Congressional Affairs, Federal Bureau of Investigation, J. Edgar Hoover FBI Building, 935 Pennsylvania Avenue NW., Washington, DC 20535. Phone, 202-317-2727. Internet, <http://www.fbi.gov>.

The FBI also offers cooperative services to local, State, and international law enforcement agencies. These services include fingerprint identification, laboratory examination, police training, the Law Enforcement Online communication and information service for use by the law enforcement community, the National Crime Information Center, and the National Center for the Analysis of Violent Crime.

320 First Street NW., Washington, DC 20534
Phone, 202-307-3198. Internet, <http://www.bop.gov>.

Director

CHARLES E. SAMUELS, JR.

The mission of the Bureau of Prisons is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost-efficient, and appropriately secure, and that provide work and other self-improvement opportunities to assist offenders in

becoming law-abiding citizens. The Bureau has its headquarters, also known as Central Office, in Washington, DC. The Central Office is divided into nine divisions, including the National Institute of Corrections.

The Correctional Programs Division (CPD) is responsible for inmate

classification and programming, including psychology and religious services, substance abuse treatment, case management, and programs for special needs offenders. CPD provides policy direction and daily operational oversight of institution security, emergency preparedness, intelligence gathering, inmate discipline, inmate sentence computations, receiving and discharge, and inmate transportation, as well as coordinating international treaty transfers and overseeing the special security needs of inmates placed in the Federal Witness Protection Program. CPD administers contracts and intergovernmental agreements for the confinement of offenders in community-based programs, community corrections centers, and other facilities, including privately managed facilities. CPD staff is also involved in the Bureau's privatization efforts.

The Industries, Education, and Vocational Training Division oversees Federal Prison Industries, or UNICOR, which is a wholly owned Government corporation that provides employment

and training opportunities for inmates confined in Federal correctional facilities. Additionally, it is responsible for oversight of educational, occupational, and vocational training and leisure-time programs, as well as those related to inmate release preparation.

The National Institute of Corrections (NIC) provides technical assistance, training, and information to State and local corrections agencies throughout the country, as well as the Bureau. It also provides research assistance and documents through the NIC Information Center.

Director

STACIA HYLTON

The United States Marshals Service is the Nation's oldest Federal law enforcement agency, having served as a vital link between the executive and judicial branches of the Government since 1789. The Marshals Service performs tasks that are essential to the operation of virtually every aspect of the Federal justice system.

The Service has these responsibilities: providing support and protection for the Federal courts, including security for 800 judicial facilities and nearly 2,000 judges and magistrates, as well as countless other trial participants such as jurors and attorneys; apprehending the majority of Federal fugitives; operating the Federal Witness Security Program and ensuring

the safety of endangered Government witnesses; maintaining custody of and transporting thousands of Federal prisoners annually; executing court orders and arrest warrants; managing and selling seized property forfeited to the Government by drug traffickers and other criminals and assisting the Justice Department's asset forfeiture program; responding to emergency circumstances, including civil disturbances, terrorist incidents, and other crisis situations through its Special Operations Group; restoring order in riot and mob-violence situations; and operating the U.S. Marshals Service Training Academy.

SHAWN A. BRAY

The U.S. National Central Bureau (USNCB) is the United States representative to INTERPOL, the International Criminal Police Organization. Also known as INTERPOL—Washington, the USNCB provides an essential communications link between the U.S. police community and their counterparts in the foreign member countries. The USNCB also serves as the United States point of contact for the European Police Office (EUROPOL), the European Union's law enforcement organization.

INTERPOL is an association of 182 countries dedicated to promoting mutual assistance among law enforcement authorities in the prevention and suppression of international crime. With no police force of its own, INTERPOL has no powers of arrest or search and seizure and therefore relies on the law enforcement authorities of its member countries. Each member country is required to have a national central bureau, such as the USNCB, to act as the primary point of contact for police matters. INTERPOL serves as a channel of communication for its member countries to cooperate in the investigation and prosecution of crime, provides a forum for discussions, working group meetings, and symposia to enable police to focus on specific areas of criminal activity affecting their countries, and issues and maintains information and databases on crime,

fugitives, stolen passports and vehicles, missing persons, and humanitarian concerns, which are supplied by and can be used as a source by its member countries.

The USNCB is staffed by a permanent staff and detailed special agents from numerous Federal law enforcement agencies. The USNCB is organized into the Terrorism and Violent Crimes Division, the Economic Crimes Division, the Drug Division, the Fugitive Division, the Investigative Support Division, the Administrative Services Division, the Office of the General Counsel, and the State and Local Liaison Division (SLLD).

SLLD coordinates INTERPOL requests with 62 INTERPOL State liaison offices established in each State and the cities of New York, Boston, Chicago, Washington, Miami, San Diego, Los Angeles, San Francisco, and Seattle. The USNCB has three sub-bureaus which serve to more effectively address the law enforcement needs of U.S. territories. The sub-bureaus are located in Puerto Rico, American Samoa, and the U.S. Virgin Islands. SLLD provides the primary means of communication between foreign law enforcement authorities and domestic State and local police for the purpose of pursuing international investigations. International leads developed in criminal investigations being conducted by a State or local police entity can be pursued through their liaison office.

Drug Enforcement Administration

Phone, 202–307–1000. Internet, <http://www.justice.gov/dea/>.

Administrator

MICHELE M. LEONHART

The Drug Enforcement Administration (DEA) is the lead Federal agency in enforcing narcotics and controlled substances laws and regulations. DEA also enforces the Federal money laundering and bulk currency smuggling statutes when the funds involved in the transactions or smuggling are derived from the sale of narcotics. It was created in July 1973 by Reorganization Plan No. 2 of 1973 (5 U.S.C. app.).

DEA enforces the provisions of the controlled substances and chemical diversion and trafficking laws and regulations of the United States, and operates on a worldwide basis. It presents cases to the criminal and civil justice systems of the United States—or any other competent jurisdiction—on those significant organizations and their members involved in cultivation, production, smuggling, distribution, laundering of proceeds, or diversion of controlled substances appearing in or destined for illegal traffic in the United States. DEA disrupts and dismantles these organizations by arresting their members, confiscating their drugs, and seizing their assets; and creates, manages, and supports enforcement-related programs—domestically and internationally—aimed at reducing the availability of and demand for illicit controlled substances.

DEA's responsibilities include: investigation of major narcotic, chemical, drug-money laundering, and bulk currency smuggling violators who operate at interstate and international levels; seizure and forfeiture of assets derived from, traceable to, or intended to be used for illicit drug trafficking; seizure and forfeiture of assets derived from or traceable to drug-money laundering or the smuggling of bulk currency derived from illegal drugs; enforcement of regulations governing the legal

manufacture, distribution, and dispensing of controlled substances; management of an intelligence program that supports drug investigations, initiatives, and operations worldwide; coordination with Federal, State, and local law enforcement authorities and cooperation with counterpart agencies abroad; assistance to State and local law enforcement agencies in addressing their most significant drug and drug-related violence problems; leadership and influence over international counterdrug and chemical policy and support for institution building in host nations; training, scientific research, and information exchange in support of drug traffic prevention and control; and education and assistance to the public community on the prevention, treatment, and dangers of drugs.

DEA maintains liaison with the United Nations, INTERPOL, and other organizations on matters relating to international narcotics control programs. It has offices throughout the United States and in 62 foreign countries.

650 Massachusetts Avenue NW., Washington, DC 20226

Phone, 202-927-8500. Internet, <http://www.atf.gov>.

Director

B. TODD JONES

The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) is responsible for enforcing Federal criminal laws and regulating the firearms and explosives industries. ATF, formerly known as the Bureau of Alcohol, Tobacco, and Firearms, was initially established by Department of Treasury Order No. 221, effective July 1, 1972, which transferred the functions, powers, and duties arising under laws relating to alcohol, tobacco, firearms, and explosives from the Internal Revenue Service to ATF. The Homeland Security Act of 2002 (6 U.S.C. 531) transferred certain functions and authorities of

ATF to the Department of Justice and established it under its current name. ATF works, directly and through partnerships, to investigate and reduce violent crime involving firearms and explosives, acts of arson, and illegal trafficking of alcohol and tobacco products. The Bureau provides training and support to its Federal, State, local, and international law enforcement partners and works primarily in 23 field divisions across the 50 States, Puerto Rico, the U.S. Virgin Islands, and Guam. It also has foreign offices in Mexico, Canada, Colombia, and France.

Boards

Executive Office for Immigration Review

Falls Church, VA 22041

Phone, 703-305-0289. Internet, <http://www.usdoj.gov/eoir>.

Director

JUAN P. OSUNA

The Executive Office for Immigration Review, under a delegation of authority

from the Attorney General, is charged with adjudicating matters brought under

various immigration statutes to its three administrative tribunals: the Board of Immigration Appeals, the Office of the Chief Immigration Judge, and the Office of the Chief Administrative Hearing Officer.

The Board of Immigration Appeals has nationwide jurisdiction to hear appeals from certain decisions made by immigration judges and by district directors of the Department of Homeland Security (DHS). In addition, the Board is responsible for hearing appeals involving disciplinary actions against attorneys and representatives before DHS and the Board.

Decisions of the Board are binding on all DHS officers and immigration judges unless modified or overruled by the Attorney General or a Federal court. All Board decisions are subject to judicial review in Federal court. The majority of appeals reaching the Board involve orders of removal and applications for relief from removal. Other cases before the Board include the removal of aliens applying for admission to the United States, petitions to classify the status of alien relatives for the issuance of preference immigrant visas, fines imposed upon carriers for the violation of the immigration laws, and motions

for reopening and reconsideration of decisions previously rendered.

The Office of the Chief Immigration Judge provides overall direction for more than 200 immigration judges located in 53 immigration courts throughout the Nation. Immigration judges are responsible for conducting formal administrative proceedings and act independently in their decisionmaking capacity. Their decisions are administratively final, unless appealed or certified to the Board.

In removal proceedings, an immigration judge determines whether an individual from a foreign country should be admitted or allowed to stay in the United States or be removed. Judges are located throughout the United States, and each judge has jurisdiction to consider various forms of relief available under the law, including applications for asylum.

The Office of the Chief Administrative Hearing Officer is responsible for the general supervision and management of administrative law judges who preside at hearings that are mandated by provisions of immigration law concerning allegations of unlawful employment of aliens, unfair immigration-related employment practices, and immigration document fraud.

For further information, contact the Office of Legislative and Public Affairs, Executive Office for Immigration Review, Department of Justice, Falls Church, VA 22041. Phone, 703-305-0289. Internet, <http://www.usdoj.gov/eoir>.

United States Parole Commission

5550 Friendship Boulevard, Chevy Chase, MD 20815
Phone, 301-492-5990. Internet, <http://www.usdoj.gov/uspc>.

Chairman

ISAAC FULWOOD, JR.

The United States Parole Commission (USPC) makes parole release decisions for eligible Federal and District of Columbia prisoners; authorizes methods of release and conditions under which release occurs; prescribes, modifies, and monitors compliance with the terms and conditions governing offenders' behavior while on parole or mandatory or supervised release; issues warrants for violation of supervision; determines probable cause for the revocation

process; revokes parole, mandatory, or supervised release; releases from supervision those offenders who are no longer a risk to public safety; and promulgates the rules, regulations, and guidelines for the exercise of USPC's authority and the implementation of a national parole policy.

USPC has sole jurisdiction over the following: Federal offenders who committed offenses before November 1, 1987; D.C. Code offenders who

committed offenses before August 5, 2000; D.C. Code offenders sentenced to a term of supervised release; Uniform Code of Military Justice offenders who are in Bureau of Prison's custody; transfer treaty cases; and State probationers and parolees in the Federal Witness Protection Program.

Office of Community Oriented Policing Services

1100 Vermont Avenue NW., Washington, DC 20530
Phone, 202-514-2058. Internet, <http://www.cops.usdoj.gov>.

Director

BERNARD K. MELEKIAN

The Office of Community Oriented Policing Services (COPS) was established to assist law enforcement agencies in enhancing public safety through the implementation of community policing strategies. COPS does so by providing training to enhance law enforcement officers' problem-solving and community interaction skills; encouraging law enforcement and community members to develop initiatives to prevent crime; substantially increasing the number of law enforcement officers directly interacting with the community; and supporting the development of new technologies to shift law enforcement's focus to preventing crime and disorder within their communities.

The COPS Office includes the following program divisions:

The grants administration division is responsible for developing and designing new programs to provide resources for the hiring of new officers and to further the adoption and implementation of community policing, reviewing grant applications, and assisting grantees in the implementation of their grants.

The grants monitoring division is responsible for tracking grantees' compliance with the conditions of their grants. The Division conducts site visits and reviews grantee files to ensure that COPS funds are properly used to hire officers and implement community policing. The Division also provides onsite technical assistance to grantees, office-based grant reviews, alleged noncompliance reviews, audit resolution, and collects and disseminates examples of successful community policing strategies.

The training and technical assistance division is responsible for coordinating the provision of training and technical assistance to advance the adoption, implementation, and sustaining of community policing in the thousands of communities served by the COPS Office.

The compliance division is responsible for the monitoring and coordination of the Office of Inspector General (OIG) audits and independent audits required by the Single Audit Act and serves as the liaison between grantees and auditors in the conduct and resolution of OIG audits.

For further information, contact the Office of Community Oriented Policing Services (COPS), Department of Justice, 1100 Vermont Avenue NW., Washington, DC 20530. Phone, 202-514-2058. Internet, <http://www.cops.usdoj.gov>.

ANUJ C. DESAI

The Foreign Claims Settlement Commission of the United States is a quasi-judicial, independent agency within the Department of Justice, which adjudicates claims of U.S. nationals against foreign governments, either under specific jurisdiction conferred by Congress or pursuant to international claims settlement agreements. The decisions of the Commission are final and are not reviewable under any standard by any court or other authority. Funds for payment of the Commission's awards are derived from congressional appropriations, international claims settlements, or the liquidation of foreign assets in the United States by the Departments of Justice and the Treasury.

The Commission also has authority to receive, determine the validity and amount, and provide for the payment of claims by members of the U.S. Armed Services and civilians held as prisoners of war or interned by a hostile force in Southeast Asia during the Vietnam conflict or by the survivors of such service members and civilians.

The Commission is also responsible for maintaining records and responding to inquiries related to the various claims programs it has conducted against the Governments of Albania, Bulgaria, China, Cuba, Czechoslovakia, Egypt, Ethiopia, the Federal Republic of Germany, the German Democratic Republic, Hungary, Iran, Italy, Panama, Poland, Romania, the Soviet Union, Vietnam, and Yugoslavia, as well as those authorized under the War Claims Act of 1948 and other statutes.

The Department of Labor promotes the welfare of job seekers, wage earners, and retirees by improving working conditions, advancing opportunities for profitable employment, protecting retirement and health care benefits, matching workers to employers, strengthening free collective bargaining, and tracking changes in economic indicators on a national scale.

The Department of Labor (DOL) was created by act of March 4, 1913 (29

U.S.C. 551). Congress first created a Bureau of Labor in the Interior

Department by act of June 24, 1884. The Bureau of Labor later became independent as a Department of Labor without executive rank by act of June 13, 1888. It returned to bureau status in the Department of Commerce and Labor, which was created by act of February 14, 1903 (15 U.S.C. 1501; 29 U.S.C. 1 note).

The Department administers a variety of Federal labor laws to guarantee workers' rights to fair, safe, and healthy working conditions, including minimum hourly wage and overtime pay, protection against employment discrimination, and unemployment insurance.

Office of the Secretary

Secretary The Secretary is the principal adviser to the President on the development and execution of policies and the administration and enforcement of laws relating to wage earners, their working conditions, and their employment opportunities.

Office of the Administrative Law Judges Prior to 1972, the Office of Administrative Law Judges (OALJ) comprised two Administrative Law Judges (referred to as "hearing examiners" until November 7, 1972) who adjudicated a small number of cases arising primarily under Presidential Executive Orders. In 1972, OALJ's role was significantly expanded to include a more diverse range of labor-related cases. It presently employs 42 judges in Washington, DC, and seven district offices located in various cities around the country. OALJ's judges are not political appointees and are guaranteed decisional independence by, and appointed under, the Administrative Procedure Act, 5 U.S.C. 500 et seq. Judges within OALJ preside over trial-type hearings in various matters, including claims for compensation and medical or survivor's benefits under the Longshore and Black Lung statutes; antidiscrimination and retaliation complaints arising under Executive Order 11246 and several whistleblower statutes; enforcement actions brought by other agencies within the Department of Labor such as the Wage and Hour Division and the Employee Benefits Security Administration; and immigration cases

granting or denying employers' requests to hire foreign workers in numerous professional and nonprofessional occupations on either a temporary or permanent basis. Appeals from decisions by OALJ's judges are typically reviewed by either the Administrative Review Board or Benefits Review Board and subsequently by the U.S. Courts of Appeals and U.S. Supreme Court.

Office of the Assistant Secretary for Administration and Management The Office of the Assistant Secretary for Administration and Management is responsible for the development and promulgation of policies, standards, procedures, systems, and materials related to the resource and administrative management of the Department and for the execution of such policies and directives at Headquarters and in the field.

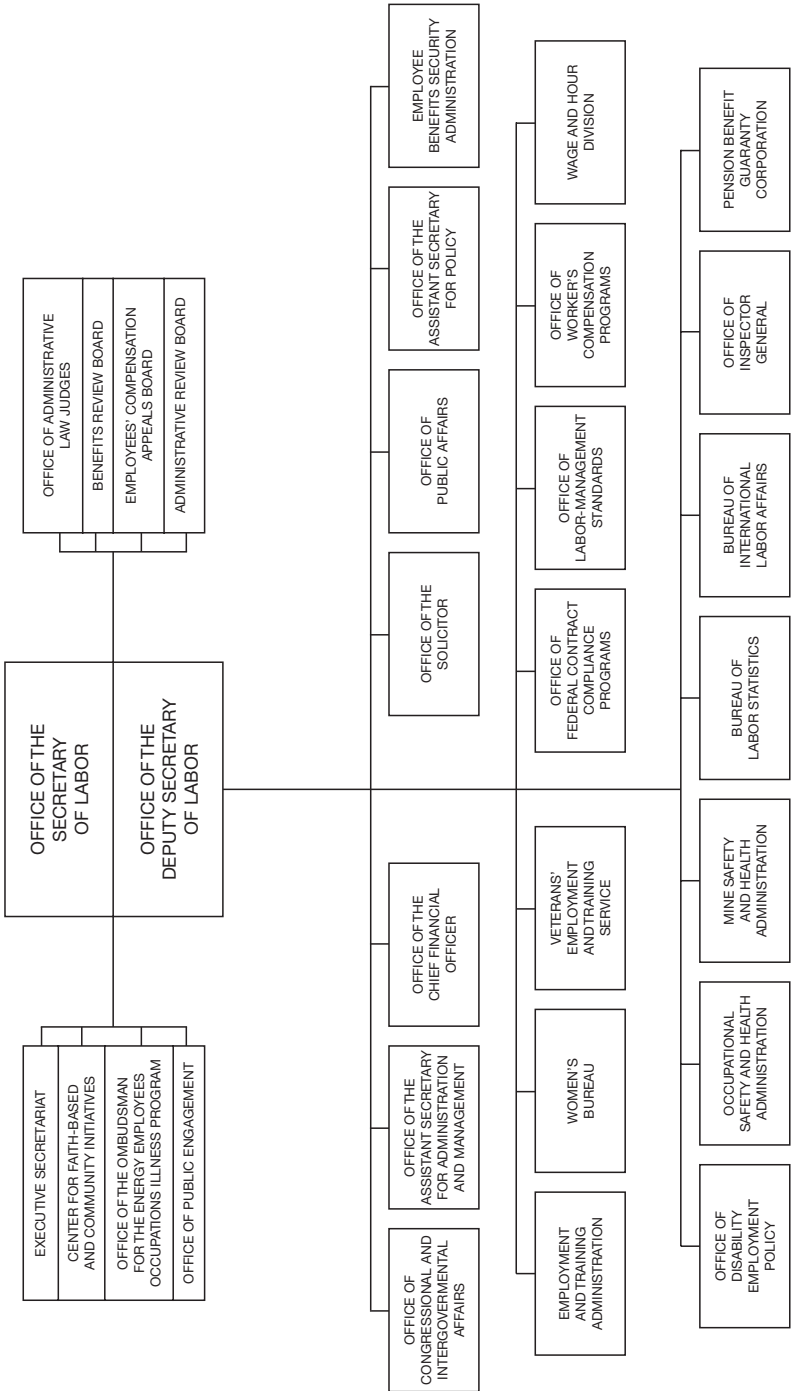

For more information, call 202-693-4040. Internet, <http://www.dol.gov/oasam/>.

Office of Disability Employment Policy The Office of Disability Employment Policy (ODEP) seeks to increase the number and quality of employment opportunities for people with disabilities by promoting the adoption and implementation of its policy strategies and effective practices and bringing focus to the issue of disability employment. ODEP acts as a facilitator and catalyst among the multiple agencies across the Federal Government that support the education and training needs of people with disabilities, promoting collaboration and realignment of policy based on validated research and emerging successful and innovative practices. ODEP also promotes collaboration, policy and resource alignment, and the adoption and implementation of effective practices by State, local, and nongovernmental entities, including businesses.

Office of Federal Contract Compliance Programs The Office of Federal Contract Compliance Programs (OFCCP) administers and enforces three equal opportunity mandates:

DEPARTMENT OF LABOR

Executive Order 11246, as amended; section 503 of the Rehabilitation Act of 1973, as amended; and the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended (38 U.S.C. 4212). These mandates prohibit Federal contractors and subcontractors from discriminating on the basis of race, color, religion, sex, national origin, disability, or veteran status. They also require Federal contractors and subcontractors to take affirmative steps to ensure equal employment opportunities. OFCCP also shares responsibility with the U.S. Equal Employment Opportunity Commission in enforcing Title I of the Americans with Disabilities Act.

For a complete listing of OFCCP offices across the country, including addresses, telephone numbers, and key officials, visit www.dol.gov/ofccp/contacts/ofnaton2.htm.

Office of Inspector General The Office of Inspector General conducts audits and investigations to review the effectiveness, efficiency, and integrity of all DOL programs and operations, including those performed by its contractors and grantees. The Office is unique among Inspectors General because it conducts labor racketeering investigations of employee benefit plans, labor-management relations, and internal labor union affairs.

For further information, call 202-693-5100.

Office of Labor-Management Standards The Office of Labor-Management Standards conducts criminal and civil investigations to safeguard the financial integrity of unions and to ensure union democracy. The Office conducts investigative audits of labor unions to uncover and remedy criminal and civil violations of the Labor-Management Reporting and Disclosure Act and related statutes. The Office also publishes the text of the Labor-Management Reporting and Disclosure Act and pamphlets that explain the reporting, election, bonding, and trusteeship provisions of the act. The

pamphlets and reporting forms used by persons covered by the act are available free, in limited quantities, from the OLMS National Office at Room N-5616, 200 Constitution Avenue NW., Washington, DC 20210, and from OLMS field offices.

Office of the Ombudsman for the Energy Employees Occupational Illness Compensation Program Act

The Office of the Ombudsman for the Energy Employees Occupational Illness Compensation Program Act was established in October 2004 under Part E of the Energy Employees Occupational Illness Compensation Program Act (EEOICPA), as amended, (42 U.S.C. 7385s-15) to administer a system of Federal payments to compensate certain nuclear workers for occupational illnesses caused by exposure to toxic substances. It is a small, independent office, headed by the Ombudsman, who is appointed by the Secretary of Labor. The Office provides information to claimants on the benefits available under Parts E and B of the EEOICPA and issues annual reports to Congress detailing the complaints, grievances, and requests for assistance received by the Office.

For further information, call 202-693-5890.

Office of the Solicitor of Labor The Office of the Solicitor of Labor (SOL) provides comprehensive legal services to help the Department achieve its mission. More specifically, the Solicitor serves dual roles in the Department. First, the Solicitor acts as the Department's chief enforcement officer, pursuing affirmative litigation on behalf of the Secretary before administrative law judges, review boards

and commissions, and in the Federal district courts and courts of appeals. The Solicitor also as the Department's general counsel, assisting in the development of regulations, standards, and legislative proposals; providing legal opinions and advice on all of the Department's activities; advising the Solicitor General on Supreme Court litigation involving the Department's statutes or in other matters in which we have an institutional interest; and coordinating with the Department of Justice (DOJ), as appropriate, to defend the Department in litigation.

For a complete listing of regional offices of the Office of the Solicitor, including addresses, telephone numbers, and key officials, visit www.dol.gov/sol/organizations/regions/main.htm.

Office of Workers' Compensation Programs

By making timely and appropriate decisions on claims, promptly paying benefits, and helping workers return to their jobs quickly, the Office of Workers' Compensation Programs (OWCP) protects the interests of workers who are injured or become ill on the job. OWCP serves specific employee groups that are covered under four major disability compensation statutes by mitigating the financial burden resulting from workplace injury or illness and promoting return to work when appropriate. The statutes are the Federal Employees' Compensation Act, serving Federal employees; the Longshore and Harbor Workers' Compensation Act, serving certain employees engaged in maritime employment on navigable waters in the United States; the Black Lung Benefits Act, serving coal miners who are totally disabled due to pneumoconiosis, a respiratory disease associated with the prolonged inhalation of coal dust; and the Energy Employees Occupational Illness Compensation Act, serving eligible workers who became ill as a result of work in the

nuclear weapons industry. Dependents or survivors may also be eligible for benefits.

For a complete listing of Office of Workers' Compensation Programs district offices, including addresses, telephone numbers, and key officials, visit www.dol.gov/owcp/owcpckeyp.htm.

For further information, contact the Office of the Director, Office of Workers' Compensation Programs, Department of Labor, Room S-3524, 200 Constitution Avenue NW., Washington, DC 20210. Phone, 202-693-0031. Internet, <http://www.dol.gov/owcp>.

Administrative Review Board The Administrative Review Board (ARB) consists of five members appointed by the Secretary. It issues final agency decisions for appeals cases under a wide range of worker protection laws, including the McNamara O'Hara Service Contract Act and the Davis Bacon Act. The appeals cases primarily address environmental, transportation, and securities whistleblower protection; H-1B immigration provisions; child labor law violations; employment discrimination; job training; seasonal and migrant workers; and Federal construction and service contracts. The Board's cases generally arise upon appeal from decisions of Department of Labor Administrative Law Judges or the Administrator of the Department's Wage and Hour Division. Depending upon the statute at issue, the parties may appeal the Board's decisions to Federal district or appellate courts and, ultimately, to the U.S. Supreme Court.

For further information, call the Administrative Officer. Phone, 202-693-6234. Internet, <http://www.dol.gov/arb/welcome.html>.

Benefits Review Board The Benefits Review Board (BRB) consists of five members appointed by the Secretary. In 1972, Congress created the Board to review and issue decisions on appeals of workers' compensation cases arising under the Longshore and Harbor Workers' Compensation Act, and its extensions, and the Black Lung Benefits amendments to the Federal Coal Mine Safety Act of 1969. Board decisions may be appealed to the U.S. Courts of Appeals and to the U.S. Supreme Court.

For further information, call the Administrative Officer. Phone, 202-693-6234. Internet, <http://www.dol.gov/brb/welcome.html>.

Employees' Compensation Appeals Board

The Employees' Compensation Appeals Board (ECAB) is a three-member quasi-judicial body appointed by the Secretary and delegated exclusive jurisdiction by Congress to hear and make final decisions on appeals filed by Federal workers arising under the Federal Employees' Compensation Act. The Board was created by Reorganization Plan No. 2 of 1946 (60 Stat. 1095). The Board's decisions are not reviewable and are binding upon the Office of Workers' Compensation Programs (OWCP).

The Bureau of Labor Statistics (BLS) was established, in the Department of the Interior, as the Bureau of Labor by the act of June 27, 1884 (23 Stat. 60). It was renamed the Bureau of Labor Statistics by the act of March 4, 1913 (37 Stat. 736). The Bureau of Labor Statistics (BLS) collects, analyzes, and disseminates economic information to support public and private decisionmaking. BLS serves as a statistical resource to the Department of Labor. Data are available relating to employment, unemployment, and other characteristics of the labor force; consumer and producer prices, consumer expenditures, and import and export prices; wages and employee benefits; productivity and technological change; employment projections; occupational illness and injuries; and international comparisons of labor statistics. Most of the data is collected in surveys conducted by the Bureau, the Bureau of the Census (on a contract basis), or on a cooperative basis with State agencies.

The Bureau strives to have its data satisfy a number of criteria, including: relevance to current social and economic issues, timeliness in reflecting today's rapidly changing economic conditions, accuracy and consistently high statistical quality, and impartiality in both subject matter and presentation.

Basic data are issued in monthly, quarterly, and annual news releases; bulletins, reports, and special publications; and periodicals. Regional offices issue additional reports and releases, usually presenting locality or regional detail.

The Administration was established as the Mine Enforcement Safety Administration by the Interior Secretary's Order 2953 of May 7, 1973. It was renamed the Mine Safety and Health Administration by the act of Nov. 9, 1979 (91 Stat. 1319). The Mine Safety and Health Administration (MSHA) seeks to prevent mining-related deaths, diseases, and injuries and promotes safe and healthful workplaces for the Nation's miners. MSHA promulgates and enforces mandatory health and safety standards by thoroughly inspecting each mine once per year; targeting the most common causes of fatal mine accidents and disasters; reducing exposure to health risks from mine dusts and other contaminants;

improving training, particularly for inexperienced miners and contractors; strengthening MSHA and the industry's emergency response preparedness; enforcing miners' rights to report hazardous conditions without fear of retaliation; and emphasizing prevention. The Administration also assists States in the development of effective State mine safety and health programs and contributes to the improvement in and expansion of mine safety and health research and development.

The Veterans' Employment and Training Service (VETS) is responsible for administering veterans' employment and training programs and compliance activities that help veterans and servicemembers succeed in their civilian careers. VETS administers the Jobs for Veterans State Grant program, which provides grants to States to fund personnel dedicated to serving the employment needs of veterans. VETS field staff works closely with and provides technical assistance to State employment workforce agencies to ensure that veterans receive priority of service and gain meaningful employment. VETS also administers three competitive grants programs: the Veterans Workforce Investment Program, the Homeless Veterans Reintegration Program, and the Incarcerated Veterans Transition Program. In addition, VETS prepares separating servicemembers for the civilian labor market through its Transition Assistance Program Employment Workshops.

VETS has three distinct compliance programs: the Federal Contractor Program, Veterans' Preference in Federal

hiring and the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA). With respect to Federal contractors, VETS promulgates regulations and maintains oversight of the program by assisting contractors to comply with their affirmative action and reporting obligations. Although the Office of Personnel Management is responsible for administering and interpreting statutes and regulations governing veterans' preference in Federal hiring, VETS investigates allegations that veterans' preference rights have been violated. In addition, VETS preserves servicemembers' employment and reemployment rights through its administration and enforcement of the USERRA statute. VETS conducts thorough investigations of alleged violations and conducts an extensive USERRA outreach program.

[For the Department of State statement of organization, see the U.S. Code of Federal Regulations, Title 22, Part 5.]

The Department of State advises the President and leads the Nation in foreign policy issues to advance freedom and democracy for the American people and the international community. To this end, the Department compiles research on American overseas interests, disseminates information on foreign policy to the public, negotiates treaties and agreements with foreign nations, and represents the United States in the United Nations and other international organizations and conferences.

The Department of State was established by act of July 27, 1789, as the Department of Foreign Affairs and was renamed Department of State by act of September 15, 1789 (22 U.S.C. 2651 note).

Secretary of State The Secretary of State is responsible for the overall direction, coordination, and supervision of U.S. foreign relations and for the interdepartmental activities of the U.S. Government abroad. The Secretary is the first-ranking member of the Cabinet, is a member of the National Security Council, and is in charge of the operations of the Department, including the Foreign Service.

Regional Bureaus Foreign affairs activities worldwide are handled by the geographic bureaus, which include the Bureaus of African Affairs, European and Eurasian Affairs, East Asian and Pacific Affairs, Near Eastern Affairs, South and Central Asian Affairs, and Western Hemisphere Affairs.

Administration The Bureau of Administration provides support programs and services to Department of State operations worldwide, as well as programs and services to other U.S. Government agencies represented at U.S. Embassies and consulates. These functions include administrative policy, domestic emergency management; management of owned or leased facilities in the United States; procurement, supply, travel, and transportation support; classified pouch, unclassified pouch, and domestic mail distribution; official records, publishing, library, and foreign language interpreting and translating services; and support to the schools abroad that educate dependents of U.S. Government employees assigned to diplomatic and consular missions.

Direct services to the public include: authenticating documents used abroad for legal and business purposes; responding to requests under the Freedom of Information and Privacy Acts; providing the electronic reading room for public reference to State Department records; and determining use of the diplomatic reception rooms of the Harry S. Truman headquarters building in Washington, DC.

For further information, contact the Bureau of Administration. Phone, 703-875-7000. Internet, <http://www.state.gov/m/a>.

Arms Control, Verification and Compliance

The Bureau of Arms Control, Verification and Compliance is responsible for ensuring and verifying compliance with international arms control, nonproliferation, and disarmament agreements and commitments. The Bureau also leads negotiation and implementation efforts with respect to strategic arms control, most recently the new START Treaty and conventional forces in Europe. The Bureau is the principal policy representative to the intelligence community with regard to verification and compliance matters and uses this role to promote, preserve, and enhance key collection and analytic capabilities and to ensure that intelligence verification, compliance, and implementation requirements are met. The Bureau staffs and manages treaty implementation commissions, creates negotiation and implementation policy for agreements and commitments, and develops policy for future arms control, nonproliferation, and disarmament arrangements. It also provides secure government-to-government communication linkages with foreign treaty partners. The Bureau is also responsible for preparing

verifiability assessments on proposals and agreements, and reporting these to Congress as required. The Bureau also prepares the “President’s Annual Report to Congress on Adherence to and Compliance With Arms Control, Nonproliferation, and Disarmament Agreements and Commitments,” as well as the reports required by the Iran, North Korea, and Syria Nonproliferation Act.

For further information, contact the Bureau of Arms Control, Verification and Compliance. Phone, 202-647-6830. Fax, 202-647-1321. Internet, <http://www.state.gov/t/avc/>.

Budget and Planning The Bureau of Budget and Planning manages budgeting and resource management for operation accounts.

For further information, contact the Bureau of Budget and Planning. Phone, 202-647-8515. Internet, <http://www.state.gov/s/d/rm/>.

Comptroller and Global Financial Services The Bureau of the Comptroller and Global Financial Services, led by the Chief Financial Officer, integrates strategic planning, budgeting, and performance to secure departmental resources. The Bureau manages all departmental strategic and performance planning; global financial services, including accounting, disbursing, and payroll; issuance of financial statements and oversight of the Department’s management control program; coordination of national security resources and remediation of vulnerabilities within the Department’s global critical infrastructure; and management of the International Cooperative Administrative Support Services Program.

For further information, contact the Bureau of the Comptroller and Global Financial Services. Phone, 202-647-7490. Internet, <http://www.state.gov/m/cgfs/>.

Conflict and Stabilization Operations The Bureau of Conflict and Stabilization Operations advances U.S. national security by driving integrated, civilian-led efforts to prevent, respond to, and stabilize crises in priority states, setting conditions for long-term peace. The Bureau emphasizes sustainable solutions guided by local dynamics and actors and

promotes unity of effort, strategic use of scarce resources, and burden-sharing with international partners.

For further information, contact the Bureau of Conflict Stabilization Operations. Phone, 202-663-0323. Internet, <http://www.state.gov/g/cso>.

Consular Affairs The Bureau of Consular Affairs is responsible for the protection and welfare of American citizens and interests abroad; the administration and enforcement of the provisions of the immigration and nationality laws insofar as they concern the Department of State and Foreign Service; the issuance of passports and visas; and related services. Approximately 18 million passports a year are issued by the Bureau’s Office of Passport Services at the processing centers in Portsmouth, NH, and Charleston, SC, and the regional agencies in Boston, MA; Chicago, IL; Aurora, CO; Honolulu, HI; Houston, TX; Los Angeles, CA; Miami, FL; New Orleans, LA; New York, NY; Philadelphia, PA; San Francisco, CA; Seattle, WA; Norwalk, CT; Detroit, MI; Minneapolis, MN; and Washington, DC. In addition, the Bureau helps secure America’s borders against entry by terrorists or narco-traffickers, facilitates international adoptions, and supports parents whose children have been abducted abroad.

For further information, visit the Bureau of Consular Affairs Web site at www.travel.state.gov.

Counterterrorism The Bureau of Counterterrorism leads the Department in the U.S. Government’s effort to counter terrorism abroad and secure the United States against foreign terrorist threats. To carry out its mission, the Bureau develops and implements counterterrorism strategies, promotes international cooperation on counterterrorism issues, serves as the Department’s key link on counterterrorism to the Department of Homeland Security, focuses efforts to counter violent extremism, and develops international partner counterterrorism capacity.

For further information, contact CT’s Office of Public Affairs. Phone, 202-647-1845. Internet, <http://www.state.gov/g/ct>.

Democracy, Human Rights, and Labor The Bureau of Democracy, Human

Rights, and Labor (DRL) is responsible for developing and implementing U.S. policy on democracy, human rights, labor, religious freedom, monitoring and combating anti-Semitism, and advocating for inclusion of people with disabilities. DRL practices diplomatic engagement and advocacy to protect human rights and strengthen democratic institutions. Working with governments, civil society, and multilateral organizations to support democratic governance and human rights, the Bureau also participates in multi-stakeholder initiatives to encourage multinational corporations to adhere to human rights standards of conduct, including the elimination of child labor. DRL fulfills the USG reporting responsibilities on human rights and democracy, producing the annual "Country Reports on Human Rights Practices," the annual "International Religious Freedom" report, and the "Advancing Freedom and Democracy" report. Providing targeted program assistance through the Human Rights and Democracy Fund and other funding streams, the Bureau works to protect human rights and strengthen democratic institutions around the world. DRL programs help prosecute war criminals, promote religious freedom, support workers' rights, encourage accountability in governance, as well as facilitate freedom of expression and freedom to access information on the Internet. The Bureau also has a Congressionally-mandated responsibility to ensure that foreign military assistance and training is not provided to gross violators of human rights. DRL leads the Secretary of State's Task Force on Global Internet Freedom.

For further information, contact the Bureau of Democracy, Human Rights, and Labor. Phone, 202-647-1337. Internet, <http://www.state.gov/j/drl>.

Diplomatic Security The Bureau of Diplomatic Security provides a secure environment to promote U.S. interests at home and abroad. The Bureau's mission includes protecting the Secretary of State and other senior Government officials, resident and visiting foreign dignitaries, and foreign missions in the United States; conducting criminal, counterintelligence, and personnel security investigations;

ensuring the integrity of international travel documents, sensitive information, classified processing equipment, and management information systems; the physical and technical protection of domestic and overseas facilities of the Department of State; providing professional law enforcement and security training to U.S. and foreign personnel; and a comprehensive, multifaceted overseas security program serving the needs of U.S. missions and resident U.S. citizens and business communities. Through the Office of Foreign Missions, the Bureau regulates the domestic activities of the foreign diplomatic community in the areas of taxation, real property acquisitions, motor vehicle operation, domestic travel, and customs processing.

For further information, contact the Bureau of Diplomatic Security Office of Public Affairs. Phone, 571-345-2502. Internet, <http://www.state.gov/m/ds>.

Economic and Business Affairs The Bureau of Economic and Business Affairs (EB) promotes international trade, investment, economic development, and financial stability on behalf of the American people. EB works to build prosperity and economic security at home and abroad by implementing policy related to the promotion of U.S. trade, investment and exports, international development and reconstruction, intellectual property enforcement, terrorism financing and economic sanctions, international communications and information policy, and aviation and maritime affairs. EB formulates and carries out U.S. foreign economic policy and works to sustain a more democratic, secure, and prosperous world.

For further information, contact the Bureau of Economic and Business Affairs. Phone, 202-647-7971. Fax, 202-647-5713. Internet, <http://www.state.gov/e/eeb>.

Educational and Cultural Affairs The Bureau of Educational and Cultural Affairs administers the principal provisions of the Mutual Educational and Cultural Exchange Act (the Fulbright-Hays Act), including U.S. international educational and cultural exchange

programs. These programs include the prestigious Fulbright Program for students, scholars, and teachers; the International Visitor Leadership Program, which brings leaders and future leaders from other countries to the United States for consultation with their professional colleagues; and professional, youth, sports, and cultural exchanges. Programs are implemented through cooperative relationships with U.S. nongovernmental organizations that support the Bureau's mission.

For further information, contact the Bureau of Educational and Cultural Affairs. Phone, 202-632-6445. Fax, 202-632-2701. Internet, <http://exchanges.state.gov/>.

Energy Resources The Bureau of Energy Resources (ENR) leads the State Department in the U.S. Government's promotion of U.S. and international energy policy. ENR works to ensure that international energy markets are secure and predictable in order to mitigate potential disruptions, while also working with international partners to diversify U.S. energy supplies. The Bureau also seeks to encourage the transformation of United States and world production and consumption of energy to confront the limits of a hydrocarbon-based society and rapid increases in energy demand. ENR works to promote good governance, transparency, and reform of energy sectors globally, which will help broaden energy access, further ensure stable energy supplies, and reduce political instability.

For further information, contact the Bureau of Energy Resources. Phone, 202-647-3423. Internet, <http://www.state.gov/e/enr>.

Foreign Service Institute The Foreign Service Institute of the Department of State is the Federal Government's primary foreign affairs-related training institution. In addition to the Department of State, the Institute provides training for more than 47 other Government agencies. The Institute has more than 700 courses, including some 70 foreign language courses, ranging in length from 1 day to 2 years. The courses are designed to promote successful performance in each professional assignment, to ease

the adjustment to other countries and cultures, and to enhance the leadership and management capabilities of the foreign affairs community.

For further information, contact the Foreign Service Institute. Phone, 703-302-6729. Fax, 703-302-7227. Internet, <http://www.state.gov/m/fsi/>.

Information Resource Management

The Bureau of Information Resource Management (IRM) provides the Department with the information technology it needs to carry out U.S. diplomacy in the information age. The IRM Bureau is led by the Department's Chief Information Officer. IRM establishes effective information resource management planning and policies; ensures availability of information technology systems and operations, including information technology contingency planning, to support the Department's diplomatic, consular, and management operations; exercises management responsibility to ensure the Department's information resources meet the business requirements of the Department and provide an effective basis for knowledge sharing and collaboration within the Department and with other foreign affairs agencies and partners; exercises delegated approving authority for the Secretary of State for the development and administration of the Department's computer and information security programs and policies.

For further information, contact the Bureau of Information Resource Management. Phone, 202-647-2977. Internet, <http://www.state.gov/m/irm/>.

Inspector General The Office of Inspector General (OIG) conducts independent audits, inspections, and investigations to promote effective management, accountability, and positive change in the Department of State, the Broadcasting Board of Governors (BBG), and the foreign affairs community. OIG provides leadership to promote integrity, efficiency, effectiveness, and economy; prevents and detects waste, fraud, abuse, and mismanagement; identifies vulnerabilities and recommends constructive solutions; offers expert assistance to improve Department and BBG operations;

communicates timely, useful information that facilitates decision-making and achieves measurable gains; and keeps the Department, BBG, and Congress informed.

For further information, contact the Office of Inspector General. Phone, 202-663-0340. Internet, <http://www.oig.state.gov>.

Intelligence and Research The primary mission of the Bureau of Intelligence and Research (INR) is to harness intelligence to serve U.S. diplomacy. Drawing on all-source intelligence, INR provides value-added independent analysis of events to Department policymakers, ensures that intelligence activities support foreign policy and national security purposes, and serves as the focal point in the Department for ensuring policy review of sensitive counterintelligence and law enforcement activities. The Bureau also analyzes geographical and international boundary issues. INR is a member of the U.S. Intelligence Community and serves as the Community's Executive Agent for Analytical Outreach.

For further information, contact the Bureau of Intelligence and Research. Phone, 202-647-1080. Internet, <http://www.state.gov/s/inr>.

International Information Programs

The Bureau of International Information Programs (IIP) informs, engages, and influences international audiences about U.S. policy and society to advance America's interests. IIP is a leader in developing and implementing public diplomacy strategies that measurably influence international audiences through quality programs and cutting-edge technologies. IIP provides localized contact for U.S. policies and messages, reaching millions worldwide in English, Arabic, Chinese, French, Persian, Russian, and Spanish. IIP delivers America's message to the world through a number of key products and services. These programs reach, and are created strictly for, key international audiences, such as U.S. diplomatic missions abroad, the media, government officials, opinion leaders, and the general public in more than 140 countries around the world. They include Web and print publications,

in-person and telecommunications-based speaker programs, and information resource services. IIP orchestrates the State Department's efforts to counter anti-American disinformation/propaganda and serves as the Department's chief link with other agencies in coordinating international public diplomacy programs.

For further information, contact the Bureau of International Information Programs. Phone, 202-632-9942. Fax, 202-632-9901. Internet, <http://www.state.gov/r/iip/>.

International Narcotics and Law Enforcement

The Bureau of International Narcotics and Law Enforcement Affairs (INL) is responsible for developing policies and managing programs to combat and counter international narcotics production and trafficking, and for strengthening law enforcement and other rule of law institutional capabilities outside the United States. The Bureau also directs narcotics control coordinators at posts abroad and provides guidance on narcotics control, justice sector reform, and anticrime matters to the chiefs of missions. It supports the development of strong, sustainable criminal justice systems as well as training for police force and judicial officials. INL works closely with a broad range of other U.S. Government agencies.

For further information, contact the Bureau of International Narcotics and Law Enforcement Affairs. Phone, 202-647-2842. Fax, 202-736-4045. Internet, <http://www.state.gov/j/inl>.

International Organizations The Bureau of International Organization Affairs provides guidance and support for U.S. participation in international organizations and conferences and formulates and implements U.S. policy toward international organizations, with particular emphasis on those organizations which make up the United Nations system. It provides direction in the development, coordination, and implementation of U.S. multilateral policy.

For further information, contact the Bureau of International Organization Affairs. Phone, 202-647-9600. Fax, 202-647-2175. Internet, <http://www.state.gov/p/io/>.

International Security and Nonproliferation

The Bureau of International Security and Nonproliferation (ISN), is responsible for managing a broad range of nonproliferation, counterproliferation, and arms control functions. ISN leads U.S. efforts to prevent the spread of weapons of mass destruction (nuclear, radiological, chemical, and biological weapons) related materials, and their delivery systems. It is responsible for spearheading efforts to promote international consensus on weapons of mass destruction proliferation through bilateral and multilateral diplomacy; addressing weapons of mass destruction proliferation threats posed by nonstate actors and terrorist groups by improving physical security, using interdiction and sanctions, and actively participating in the Proliferation Security Initiative; coordinating the implementation of key international treaties and arrangements, working to make them relevant to today's security challenges; working closely with the U.N., the G-8, NATO, the Organization for the Prohibition of Chemical Weapons, the International Atomic Energy Agency, and other international institutions and organizations to reduce and eliminate the threat posed by weapons of mass destruction; and supporting efforts of foreign partners to prevent, protect against, and respond to the threat or use of weapons of mass destruction by terrorists.

For further information, contact the Bureau of International Security and Nonproliferation. Phone, 202-647-9868. Fax, 202-736-4863. Internet, <http://www.state.gov/t/isn>.

Legal Adviser The Office of the Legal Adviser advises the Secretary of State and other Department officials on all domestic and international legal matters relating to the Department of State, Foreign Service, and diplomatic and consular posts abroad. The Office's lawyers draft, negotiate, and interpret treaties, international agreements, domestic statutes, departmental regulations, Executive orders, and other legal documents; provide guidance on international and domestic law; represent

the United States in international organization, negotiation, and treaty commission meetings; work on domestic and foreign litigation affecting the Department's interests; and represent the United States before international tribunals, including the International Court of Justice.

For further information, contact the Office of the Legal Adviser. Phone, 202-647-9598. Fax, 202-647-7096. Internet, <http://www.state.gov/s/l/>.

Legislative Affairs The Bureau of Legislative Affairs coordinates legislative activity for the Department of State and advises the Secretary, the Deputy, as well as the Under Secretaries and Assistant Secretaries on legislative strategy. The Bureau facilitates effective communication between State Department officials and the Members of Congress and their staffs. Legislative Affairs works closely with the authorizing, appropriations, and oversight committees of the House and Senate, as well as with individual Members that have an interest in State Department or foreign policy issues. The Bureau also manages Department testimony before House and Senate hearings, organizes Member and staff briefings, facilitates congressional travel to overseas posts for Members and staff throughout the year, reviews proposed legislation, and coordinates Statements of Administration Policy on legislation affecting the conduct of U.S. foreign policy. The Legislative Affairs staff advises individual Bureaus of the Department on legislative and outreach strategies and coordinates those strategies with the Secretary's priorities.

For further information, contact the Bureau of Legislative Affairs. Phone, 202-647-1714. Internet, <http://www.state.gov/s/h/>.

Medical Services The Office of Medical Services (MED) develops, manages, and staffs a worldwide primary health care system for U.S. Government employees and their eligible dependents residing overseas. In support of its overseas operations, MED approves and monitors the medical evacuation of patients, conducts pre-employment and in-service physical clearance examinations, and provides clinical referral and advisory

services. MED also provides for emergency medical response in the event of a crisis at an overseas post.

For further information, contact the Office of Medical Services. Phone, 202-663-1649. Fax, 202-663-1613. Internet, <http://www.state.gov/m/med>.

Oceans and International Environmental and Scientific Affairs

The Bureau of Oceans and International Environmental and Scientific Affairs (OES) serves as the foreign policy focal point for international oceans, as well as environmental and scientific efforts. OES projects, protects, and promotes U.S. global interests in these areas by articulating U.S. foreign policy, encouraging international cooperation, and negotiating treaties and other instruments of international law. The Bureau serves as the principal adviser to the Secretary of State on international environment, science, and technology matters and takes the lead in coordinating and brokering diverse interests in the interagency process, where the development of international policies or the negotiation and implementation of relevant international agreements are concerned. The Bureau seeks to promote the peaceful exploitation of outer space, develop and coordinate policy on international health issues, encourage government-to-government scientific cooperation, and prevent the destruction and degradation of the planet's natural resources and the global environment.

For further information, contact the Bureau of Oceans and International Environmental and Scientific Affairs. Phone, 202-647-6961. Fax, 202-647-0217. Internet, <http://www.state.gov/e/oes/>.

Overseas Buildings Operations The Bureau of Overseas Buildings Operations (OBO) directs the worldwide overseas buildings program for the Department of State and the U.S. Government community serving abroad under the authority of the chiefs of mission. Along with the input and support of other State Department bureaus, foreign affairs agencies, and Congress, OBO sets worldwide priorities for the design, construction, acquisition, maintenance, use, and sale of real properties and the use of sales proceeds. OBO also serves as

the Single Real Property Manager of all overseas facilities under the authority of the chiefs of mission.

For further information, contact the Bureau of Overseas Buildings Operations. Phone, 703-875-4131. Fax, 703-875-5043. Internet, <http://www.state.gov/obo>.

Political-Military Affairs

The Bureau of Political-Military Affairs is the principal link between the Departments of State and Defense and is the Department of State's lead on operational military matters. The Bureau provides policy direction in the areas of international security, security assistance, military operations, defense strategy and policy, counterpiracy measures, and defense trade. Its responsibilities include coordinating the U.S. Government's response to piracy in the waters off the Horn of Africa, securing base access to support the deployment of U.S. military forces overseas, negotiating status of forces agreements, coordinating participation in coalition combat and stabilization forces, regulating arms transfers, directing military assistance to U.S. allies, combating illegal trafficking in small arms and light weapons, facilitating the education and training of international peacekeepers and foreign military personnel, managing humanitarian mine action programs, and assisting other countries in reducing the availability of man-portable air defense systems.

For further information, contact the Bureau of Political-Military Affairs. Phone, 202-647-9022. Fax, 202-736-4413. Internet, <http://www.state.gov/t/pm>.

Population, Refugees, and Migration

The Bureau of Population, Refugees, and Migration directs the Department's population, refugee, and migration policy development. It administers U.S. contributions to international organizations and nongovernmental organizations for humanitarian assistance- and protection-related programs on behalf of refugees, conflict victims, and internally displaced persons. The Bureau oversees the annual admissions of refugees to the United States for permanent resettlement, working closely with the Department of

Homeland Security, the Department of Health and Human Services, and various State and private voluntary agencies. It coordinates U.S. international population policy and promotes its goals through bilateral and multilateral cooperation. It works closely with the U.S. Agency for International Development, which administers U.S. international population programs. The Bureau also coordinates the Department's international migration policy through bilateral and multilateral diplomacy. The Bureau oversees efforts to encourage greater participation in humanitarian assistance and refugee resettlement on the part of foreign governments and uses humanitarian diplomacy to increase access and assistance to those in need in the absence of political solutions.

For further information, contact the Bureau of Population, Refugees, and Migration. Phone, 202-453-9339. Fax, 202-453-9394. Internet, <http://www.state.gov/g/prm>.

Public Affairs The Bureau of Public Affairs (PA) supports U.S. foreign policy goals and objectives, advances national interests, and enhances National security by informing and influencing domestic and global public opinion about American interaction with the rest of the world. In addition, PA works to help Americans understand the importance of foreign affairs by conducting press briefings for the domestic and foreign press, pursuing media outreach by other means, arranging townhall meetings and community speakers, and preparing historical studies on U.S. diplomacy and foreign affairs matters.

For further information, contact the Bureau of Public Affairs. Phone, 202-647-6575. Internet, <http://www.state.gov/r/pa>.

Protocol The Chief of Protocol is the principal adviser to the U.S. Government, the President, the Vice President, and the Secretary of State on matters of diplomatic procedure governed by law or international custom and practice. The Office is responsible for arranging visits of foreign chiefs of state, heads of government, and other high officials to the United States; organizing credential presentations of

newly arrived Ambassadors, as presented to the President and to the Secretary of State; operating the President's guest house, Blair House; organizing delegations representing the President at official ceremonies abroad; conducting official ceremonial functions and public events; interpreting the official order of precedence; conducting outreach programs of cultural enrichment and substantive briefings of the Diplomatic Corps; accrediting of over 118,000 embassy, consular, international organization, and other foreign government personnel, members of their families, and domestics throughout the United States; determining entitlement to diplomatic or consular immunity; publishing of diplomatic and consular lists; resolving problems arising out of diplomatic or consular immunity, such as legal and police matters; and approving the opening of embassy and consular offices in conjunction with the Office of Foreign Missions.

For further information, contact the Office of the Chief of Protocol. Phone, 202-647-1735. Fax, 202-647-1560. Internet, <http://www.state.gov/s/cpr/>.

Foreign Service To a great extent the future of our country depends on the relations we have with other countries, and those relations are conducted principally by the U.S. Foreign Service. Trained representatives stationed worldwide provide the President and the Secretary of State with much of the raw material from which foreign policy is made and with the recommendations that help shape it.

Ambassadors are the personal representatives of the President and report to the President through the Secretary of State. Ambassadors have full responsibility for implementation of U.S. foreign policy by any and all U.S. Government personnel within their country of assignment, except those under military commands. Their responsibilities include negotiating agreements between the United States and the host country, explaining and disseminating official U.S. policy, and maintaining cordial relations with that country's government and people.

For a complete listing of Foreign Service posts, including addresses, telephone numbers, and key officials, visit www.usembassy.gov.

The Bureau of Verification, Compliance, and Implementation is responsible for ensuring and verifying compliance with international arms control, nonproliferation, and disarmament agreements and commitments. The Bureau also leads negotiation and implementation efforts with respect to strategic arms control, most recently the new START Treaty, and conventional forces in Europe. The Bureau is the principal policy representative to the intelligence community with regard to verification and compliance matters, and uses this role to promote, preserve, and enhance key collection and analytic capabilities and to ensure that intelligence verification, compliance, and implementation requirements are met. The Bureau staffs and manages treaty implementation commissions, creating negotiation and implementation policy for agreements and commitments, and developing policy for future arms control, nonproliferation, and disarmament arrangements. It also provides support to arms control, nonproliferation, and disarmament policymaking, including information technology support and secure government-to-government communication linkages with foreign treaty partners. The Bureau is also responsible for preparing verifiability assessments on proposals and agreements, and reporting these to Congress as required. The Bureau also prepares the President's Annual Report to Congress on Adherence to and Compliance With Arms Control, Nonproliferation, and Disarmament Agreements and Commitments, as well as the reports required by the Iran, North Korea, and Syria Nonproliferation Act.

For further information, contact the Bureau of Verification, Compliance, and Implementation. Phone, 202-647-5315. Fax, 202-647-1321.

[For the Department of Transportation statement of organization, see the Code of Federal Regulations, Title 49, Part 1, Subpart A]

The Department of Transportation establishes national transportation policy for highway planning, and construction, motor carrier safety, urban mass transit, railroads, aviation, and the safety of waterways, ports, highways, and pipelines.

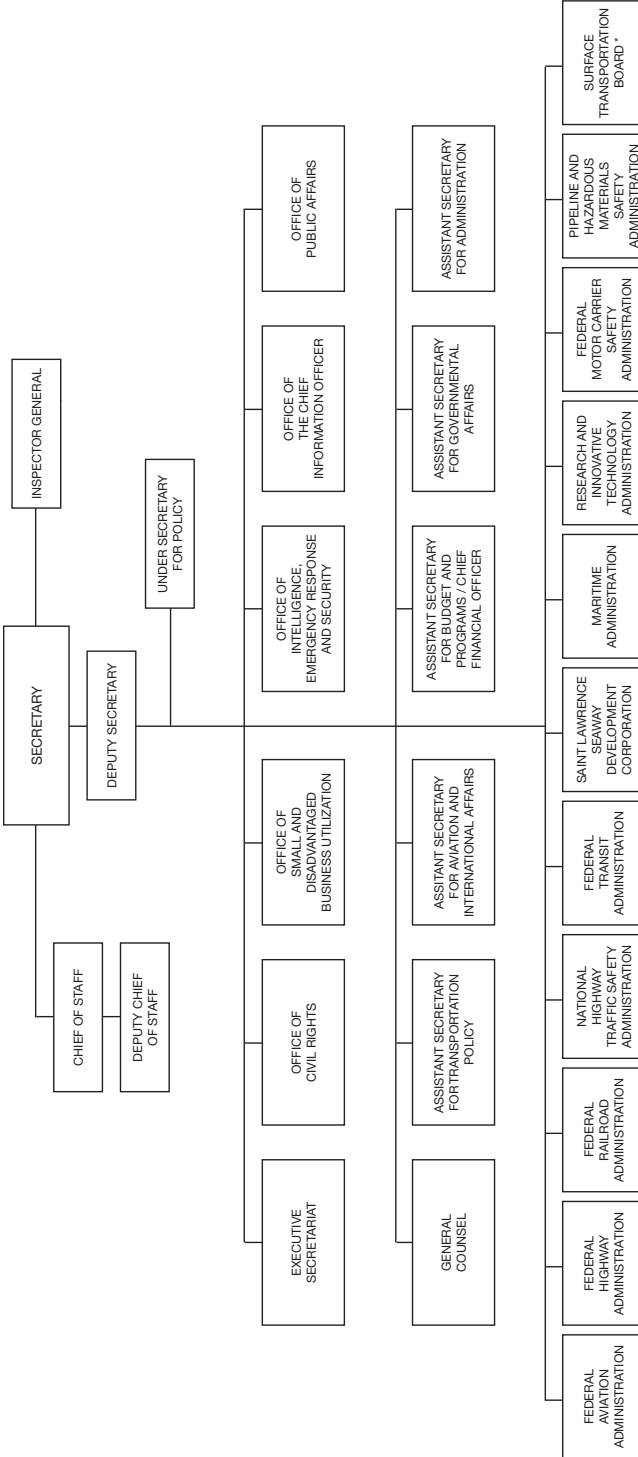

The Department of Transportation (DOT) was established by act of October 15, 1966, as amended (49 U.S.C. 102 and 102 note), "to assure the coordinated, effective administration of the transportation programs of the Federal Government" and to develop "national transportation policies and programs conducive to the provision of fast, safe, efficient, and convenient transportation at the lowest cost consistent therewith." It became operational in April 1967 and was comprised of elements transferred

from eight other major departments and agencies.

Secretary The Department of Transportation is administered by the Secretary of Transportation, who is the principal adviser to the President in all matters relating to Federal transportation programs.

Under Secretary The Under Secretary for Policy serves as a principal policy adviser to the Secretary and provides leadership in policy development for the Department.

DEPARTMENT OF TRANSPORTATION

*The Surface Transportation Board is administratively affiliated with the Department of Transportation.

Aviation and International Affairs

The Office of the Assistant Secretary for Aviation and International Affairs has principal responsibility for the development, review, and coordination of policy for international transportation, and for development, coordination, and implementation of policy relating to economic regulation of the airline industry. The Office licenses U.S. and foreign carriers to serve in international air transportation and conducts carrier fitness determinations for carriers serving the United States. The Office also participates in negotiations with foreign governments to develop multilateral and bilateral aviation and maritime policies on a wide range of international transportation and trade matters and to coordinate cooperative agreements for the exchange of scientific and technical information between nations. In addition to these responsibilities, the Office resolves complaints concerning unfair competitive practices in domestic and international air transportation, establishes international and intra-Alaska mail rates, determines the disposition of requests for approval and immunization from the antitrust laws of international aviation agreements, and administers the essential air service program.

For further information, call 202-366-8822.

Drug and Alcohol Policy and Compliance

The Office ensures that the national and international drug and alcohol policies and goals of the Secretary are developed and carried out in a consistent, efficient, and effective manner within the transportation industries. The Office provides expert advice, counsel, and recommendations to the Secretary regarding drugs and alcohol as they pertain to the Department of Transportation and testing within the transportation industry.

For further information, contact the Office of Drug and Alcohol Policy and Compliance. Phone, 202-366-3784.

Intelligence, Security, and Emergency Response

The Office ensures development, coordination, and execution of plans and procedures for the Department of Transportation to balance transportation security requirements with safety, mobility, and economic needs of the Nation through effective intelligence, security, preparedness, and emergency response programs. The Office monitors the Nation's transportation network on a continuous basis; advises the Secretary on incidents affecting transportation systems; provides leadership on national preparedness, response, and transportation security matters; briefs the Secretary on intelligence relevant to the transportation sector; performs DOT's National Response Framework Emergency Support Function responsibilities; coordinates DOT participation in emergency preparedness and response exercises under the National Training and Exercise Program; administers DOT's Continuity of Government and Continuity of Operations programs; and serves as the DOT representative for emergency planning for civil aviation support to NATO and other allies.

For further information, contact the Office of Intelligence, Security, and Emergency Response. Phone, 202-366-6525.

Transportation Policy

The Office of the Assistant Secretary for Transportation Policy has principal responsibility for analysis, development, articulation, and review of policies and plans for all modes of transportation. The Office develops, coordinates, and evaluates public policy on safety, energy, and environmental initiatives which affect air, surface, marine, and pipeline transportation and maintains policy and economic oversight of regulatory programs and legislative initiatives of the Department. The Office also analyzes the economic and institutional implications of current and emerging transportation policy issues, transportation infrastructure finances, and new transportation technologies.

For further information, contact the Office of Transportation Policy. Phone, 202-366-4416.

Sources of Information

Inquiries for information on the following subjects should be directed to the specified office, Department of Transportation, Washington, DC 20590, or to the address indicated.

The Federal Aviation Administration (FAA), formerly the Federal Aviation Agency, was established by the Federal Aviation Act of 1958 (72 Stat. 731). The agency became a component of the Department of Transportation in 1967 pursuant to the Department of Transportation Act (49 U.S.C. 106). The mission of the FAA is to regulate civil aviation and U.S. commercial space transportation, maintain and operate air traffic control and navigation systems for both civil and military aircraft, and develop and administer programs relating

to aviation safety and the National Airspace System.

Activities

Air Navigation Facilities The agency is responsible for the location, construction or installation, maintenance, operation, and quality assurance of Federal visual and electronic aids to air navigation. The agency operates and maintains voice/data communications equipment, radar facilities, computer systems, and visual display equipment at flight service stations, airport traffic control towers, and air route traffic control centers.

Airport Programs The agency maintains a national plan of airport requirements, administers a grant program for development of public use airports to assure and improve safety and to meet current and future airport capacity needs, evaluates the environmental impacts of airport development, and administers an airport noise compatibility program with the goal of reducing noncompatible uses around airports. It also develops standards and technical guidance on airport planning, design, safety, and operations and provides grants to assist public agencies in airport system and master planning and airport development and improvement.

Airspace and Air Traffic Management

The safe and efficient utilization of the navigable airspace is a primary objective of the agency. To meet this objective, it operates a network of airport traffic control towers, air route traffic control centers, and flight service stations. It develops air traffic rules and regulations and allocates the use of the airspace. It also provides for the security control of air traffic to meet national defense requirements.

Civil Aviation Abroad Under the Federal Aviation Act of 1958 and the International Aviation Facilities Act (49 U.S.C. app. 1151), the agency encourages aviation safety and civil aviation abroad by exchanging aeronautical information with foreign aviation authorities; certifying foreign repair stations, airmen, and mechanics; negotiating bilateral airworthiness agreements to facilitate the import and export of aircraft and components; and providing technical assistance and training in all areas of the agency's expertise. It provides technical representation at international conferences, including participation in the International Civil Aviation Organization and other international organizations.

Commercial Space Transportation The agency regulates and encourages the U.S. commercial space transportation industry. It licenses the private sector launching of space payloads on expendable launch vehicles and commercial space launch facilities. It also sets insurance

requirements for the protection of persons and property and ensures that space transportation activities comply with U.S. domestic and foreign policy.

Registration The agency provides a system for registering aircraft and recording documents affecting title or interest in the aircraft, aircraft engines, propellers, appliances, and spare parts.

Research, Engineering, and Development

The research, engineering, and development activities of the agency are directed toward providing the systems, procedures, facilities, and devices needed for a safe and efficient system of air navigation and air traffic control to meet the needs of civil aviation and the air defense system. The agency also performs an aeromedical research function to apply knowledge gained from its research program and the work of others to the safety and promotion of civil aviation and the health, safety, and efficiency of agency employees. The agency also supports development and testing of improved aircraft, engines, propellers, and appliances.

Safety Regulation The Administration issues and enforces rules, regulations, and minimum standards relating to the manufacture, operation, and maintenance of aircraft, as well as the rating and certification (including medical) of airmen and the certification of airports serving air carriers. It performs flight inspection of air navigation facilities in the United States and, as required, abroad.

Test and Evaluation The agency conducts tests and evaluations of specified items such as aviation systems, subsystems, equipment, devices, materials, concepts, or procedures at any phase in the cycle of their development from conception to acceptance and implementation, as well as assigned independent testing at key decision points.

Other Programs The agency administers the aviation insurance program under the defense materials system with respect to priorities and allocation for civil aircraft and civil aviation operations. The agency develops specifications for the preparation of

aeronautical charts. It publishes current information on airways and airport service and issues technical publications for the improvement of safety in flight, airport planning and design, and other aeronautical activities. It serves as the executive administration for the operation

and maintenance of the Department of Transportation automated payroll and personnel systems.

The Federal Highway Administration (FHWA) was established as an agency of the Department of Transportation by the Department of Transportation Act (49 U.S.C. 104). Title 23 of the United States Code and other supporting legislation authorize the Administration's various activities.

FHWA's mission is to improve mobility on our Nation's highways through national leadership, innovation, and program delivery. The Administration works with Federal, State, and local agencies as well as other stakeholders and partners to preserve and improve the National Highway System, which includes the Interstate System and other roads of importance for national

defense and mobility. The FHWA works to improve highway safety and minimize traffic congestion on these and other key facilities. The FHWA bears the responsibility of ensuring that America's roads and highways remain safe, technologically up-to-date, and environmentally friendly.

Through surface transportation programs, innovative and traditional financing mechanisms, and new types of pavement and operational technology, FHWA increases the efficiency by which people and goods move throughout the Nation. The Administration also works to improve the efficiency of highway and road connections to other modes of transportation. The Federal-aid Highway

Program's budget is primarily divided between Federal-aid funding and the Federal Lands Highway Program.

Programs

Federal-aid Highway Program FHWA manages the Federal-aid Highway Program, which provides financial and technical assistance to States for constructing and improving the Nation's transportation infrastructure. The program includes the provision of engineering standards and policies, technical expertise, and other assistance related to the maintenance of highways, rural and urban roads, bridges, tunnels, hydraulic/geotechnical structures, and other engineering activities. Projects associated with the Federal-aid highway program include the National Highway System, Surface Transportation Program, Highway Bridge Program, Congestion Mitigation and Air Quality Improvement Program, Intelligent Transportation Systems Program, Transportation Infrastructure Finance and Innovation Act Program, the Emergency Relief Program, and the Federal Lands Highway Program.

Federal Lands Highway Program The Federal Lands Highway Program (FLHP) funds and gives technical assistance to a coordinated program of public roads servicing the transportation needs of Federal and Indian lands. The Program provides funding for public roads and highways on Federal and tribal lands that are not a State or local government responsibility. The planning, construction, and improvement of highways and bridges in national forests and parks, other federally owned land, and tribal lands benefit from FLHP funding.

Field and Division Offices

The FHWA consists of a Headquarters office in Washington, DC; a Federal-aid division office in each State, the District of Columbia, and Puerto Rico; four metropolitan offices in New York City, Philadelphia, Chicago, and Los Angeles serving as extensions of the corresponding Federal-aid division offices; and three Federal Lands Highway division offices.

A complete list of FHWA field and division offices is available online.

The Federal Railroad Administration was created pursuant to section 3(e)(1) of the Department of Transportation Act of 1966 (49 U.S.C. 103). The purpose of the Administration is to promulgate and enforce rail safety regulations, administer railroad financial assistance programs, conduct research and development in support of improved railroad safety and national rail transportation policy, provide for the rehabilitation of Northeast Corridor rail passenger service, and consolidate government support of rail transportation activities.

Activities

Passenger and Freight Services The Administration oversees and provides financial assistance to Amtrak and administers financial assistance programs to demonstrate high-speed rail technology, to reduce grade crossing hazards in high-speed rail corridors, to provide for investments in small freight railroads and other rail projects, to plan for high-speed rail projects, and to plan and deploy magnetic levitation technology.

Railroad Safety The Administration administers and enforces the Federal laws and related regulations designed to promote safety on railroads; exercises jurisdiction over all areas of rail safety under the Rail Safety Act of 1970, such as track maintenance, inspection standards, equipment standards, and operating practices. Railroad and related industry

equipment, facilities, and records are inspected and required reports reviewed. In addition, the Administration educates the public about safety at highway-rail grade crossings and the danger of trespassing on rail property.

Research and Development The Administration's ground transportation research and development program seeks to advance all aspects of intercity ground transportation and railroad safety pertaining to the physical sciences and engineering, in order to improve railroad safety and ensure that railroads continue to be a viable national transportation resource.

Transportation Test Center The Administration tests and evaluates conventional and advanced railroad systems and components at the Transportation Test Center near Pueblo, CO. Private sector companies and the Governments of the United States, Canada, and Japan use the facility to explore the operation of conventional and advanced systems under controlled conditions. It is used by Amtrak for the testing of new high-speed locomotives and trains and by the Federal Transit Administration for testing urban rapid transit vehicles.

[For the National Highway Traffic Safety Administration statement of organization, see the Code of Federal Regulations, Title 49, Part 501]

The National Highway Traffic Safety Administration (NHTSA) was established by the Highway Safety Act of 1970 (23 U.S.C. 401 note) to help reduce the number of deaths, injuries, and economic losses resulting from motor vehicle crashes on the Nation's highways.

The Administration carries out programs relating to the safety performance of motor vehicles and related equipment; administers the State and community highway safety program with the FHWA; regulates the Corporate Average Fuel Economy program; issues Federal Motor Vehicle Safety Standards (FMVSS) that prescribe safety features and levels of safety-related performance for vehicles and vehicular equipment; rates the safety of passenger vehicles in the New Car Assessment Program; monitors and participates in international vehicle safety forums to harmonize the FMVSS where appropriate; investigates and prosecutes odometer fraud; carries out the National Driver Register Program to facilitate the exchange of State records on problem drivers; conducts studies and operates programs aimed at reducing

economic losses in motor vehicle crashes and repairs; performs studies, conducts demonstration projects, issues regulations requiring manufacturers to provide motor vehicle consumer information to vehicle purchasers and promotes programs to reduce impaired driving, increase seat belt use, and reduce risky driver behaviors; and issues theft prevention standards for passenger motor vehicles.

Activities

Research and Program Development

The Administration provides a foundation for the development of motor vehicle and highway safety program standards by analyzing data and researching, developing, testing, and evaluating motor vehicles, motor vehicle equipment, and advanced technologies, and collecting and analyzing crash data. The research program covers numerous areas affecting safety and includes laboratory-testing facilities to obtain necessary basic data. NHTSA strives to encourage industry to adopt advanced motor vehicle safety designs, elevate public awareness of

safety potentials, and provide a base for vehicle safety information.

Regional Operations and Program Delivery

The Administration administers State highway safety grant programs, authorized by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users. The Highway Safety formula grant program provides funds to the States, Indian nations, and the territories each year to support safety programs, particularly in the following national priority areas: occupant protection, impaired driving, police traffic services, emergency medical services, data/traffic records, motorcycle safety, pedestrian and bicycle safety, speed control, and roadway safety. Incentive grants are also used to encourage States to implement effective impaired driving, occupant protection, motorcycle safety, and data improvement programs.

Rulemaking The Administration issues Federal Motor Vehicle Safety Standards that prescribe safety features and levels of safety-related performance for vehicles and vehicular equipment. The Administration participates in the United Nations World Forum for the Harmonization of Vehicle Regulations (WP.29) to improve, update, and harmonize its standards. It also conducts the New Car Assessment Program and the Governments Five Star Safety Rating Program, under which child seats, passenger cars, light trucks, and vans are subjected to a variety of assessments to evaluate their safety performance. These assessments are highly publicized and the vehicle star ratings are required to be placed on a new vehicles price label. Consumers use this information to make more informed decisions about how vehicles can keep them from getting in a crash and how well they would be protected if they were in a crash. The Administration educates consumers on topics such as distracted driving, as well as the proper use of vehicle safety features and child seats. To promote maximum feasible fuel economy, it manages a program establishing and revising fleet average fuel economy standards for passenger car and light

truck manufacturers. The Administration also carries out an antitheft program, which includes issuing rules requiring that certain passenger motor vehicles meet parts-marking requirements, the designation of likely high-theft truck lines and calculating and publishing annual motor vehicle theft rates.

Enforcement NHTSA's Office of Enforcement assures that all new vehicles sold in the U.S. meet applicable Federal Motor Vehicle Safety Standards (FMVSS). Under its compliance program, the Office conducts random tests and collects consumer complaints to identify and investigate problems with motor vehicles and vehicular equipment. If a vehicle or equipment suffers from a safety-related defect or does not meet all applicable FMVSS, the Office seeks a recall under which manufacturers must notify owners and remedy the defect free of charge. The Office then monitors recalls to ensure that owners are notified in a timely manner and that the scope of the recall and the remedy are adequate to correct the defect. The Office also assures that all motor vehicles subject to the CAFE regulations meet their respective CAFE targets, and it enforces violations of Federal odometer fraud regulations through criminal prosecution of offenders.

National Center for Statistics and Analysis

The Administration maintains a collection of scientific and technical information related to motor vehicle safety and operates the National Center for Statistics and Analysis, whose activities include the development and maintenance of national highway-crash data collection systems and related statistical and economic analysis efforts. These comprehensive motor vehicle safety information resources serve as documentary reference points for Federal, State, and local agencies, as well as industry, universities, and the public.

Communications and Consumer Information

The Administration develops, directs, and implements communication strategies based on NHTSA policy and programs, including campaigns to support high visibility enforcement efforts such as "Click It or

Ticket" and "Drive Sober or Get Pulled Over." It also promotes safety messages for NHTSA vehicle-related issues. The Office also manages all NHTSA Web sites and the toll-free Motor Vehicle Auto Safety Hotline to identify safety problems in motor vehicles and equipment. Consumers can call the hotline (phone, 888-327-4236; TDD, 800-424-9153 or 202-366-7800 in the Washington, DC, area) to report safety-related problems. English- and Spanish-speaking representatives are available between 8 a.m. and 10 p.m. eastern standard time, Monday through Friday, except Federal

holidays. Consumers can also reach the hotline via the Internet at www.nhtsa.dot.gov/hotline. These calls form the basis for investigations and, ultimately, recalls if safety-related defects are identified. The hotline and the Web sites provide information to consumers about vehicle and child seat recalls, crash test results, and a variety of other highway safety information.

[For the Federal Transit Administration statement of organization, see the Code of Federal Regulations, Title 49, Part 601]

The Federal Transit Administration (FTA) (formerly the Urban Mass Transportation Administration) was established as an operating administration of the U.S. Department of Transportation by section 1 of Reorganization Plan No. 2 of 1968 (5 U.S.C. app. 1), effective July 1, 1968. FTA's mission is to improve public transportation for America's communities by assisting in developing improved public transportation and providing financial assistance to State and local governments to finance public

transportation systems and carry out national transit goals and policy.

Programs

Alternatives Analysis This program provides grants to assist identifying public transportation needs and the costs and benefits of various transportation strategies for a defined travel corridor. The results of such studies may be the selection of a locally preferred transportation alternative, which is the

first step in the process of developing viable projects for possible future funding under the New Starts and Small Starts program.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13094_7395.html.

Capital Investment This program assists in financing the acquisition, construction, reconstruction, and improvement of facilities and equipment for use in public transportation service in urban areas. There are three categories of funds available under the Capital Investment program: Fixed Guideway Modernization funds for rolling stock renewal, safety-related improvements, and signal and power modernization; New Starts and Small Starts funds for construction of new fixed guideway systems or extensions to existing fixed guideway systems or corridor based rapid bus systems; and Bus and Bus Facilities funds for the acquisition of buses and rolling stock, ancillary equipment, and the construction of bus facilities.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13093_3558.html (Fixed Guideway Modernization grants), http://www.fta.dot.gov/grants/13094_3559.html (New Starts and Small Starts), and http://www.fta.dot.gov/grants/13094_3557.html (Bus and Bus Facilities).

Clean Fuels Grant Program This program was developed to assist nonattainment and maintenance areas in achieving or maintaining the National Ambient Air Quality Standards for ozone and carbon monoxide (CO), and it supports emerging clean fuel and advanced propulsion technologies for transit buses and markets for those technologies. Program funding is used for purchasing or leasing clean fuel buses, including buses that employ a lightweight composite primary structure and vans for use in revenue service; constructing or leasing clean fuel bus facilities (including electrical recharging facilities and related equipment); and projects relating to clean fuel, biodiesel, hybrid electric, or zero emissions technology buses.

For more information, call 202-366-2053. Internet, <http://www.fta.dot.gov/cleanfuels>.

Elderly and Persons With Disabilities

The program provides financial assistance to private nonprofit agencies to meet the transportation needs of elderly persons and persons with disabilities where services provided by public operators are unavailable, insufficient, or inappropriate; to public bodies approved by the State to coordinate services for elderly persons or persons with disabilities; or to public bodies which certify to the Governor that no nonprofit corporation or association is readily available in an area to provide the service. Funds are allocated by formula to the States. Local organizations apply for funding through a designated State agency.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13093_3556.html.

Job Access and Reverse Commute Grants

This program makes funding available to public agencies and nonprofit organizations to pay the capital and operating costs of delivering new or expanded job access or reverse commute services and to promote the use of transit during nontraditional work hours, as well as encourage employer-based transportation strategies. The program provides funding for job access projects implementing new or expanded transportation services for transporting welfare recipients and low-income persons to and from jobs and needed employment support services such as child care and reverse commute projects implementing new or expanded general purpose public transportation services to transport residents of urban, rural, and suburban areas to suburban employment centers.

For further information, call 202-366-0176. Internet, <http://www.fta.dot.gov/funding/grants>.

New Freedom This program makes capital and operating funding available to support new public transportation services that go beyond the requirements of the Americans with Disabilities Act (ADA) of 1990. Funding is available for private nonprofit organizations, State and local governmental authorities, and operators of public transportation services including private operators of public

transportation services. Eligible projects must be targeted toward individuals with disabilities and meet the intent of the program by removing barriers to transportation and assisting persons with disabilities with transportation, including transportation to and from jobs and employment services.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13093_3549.html.

Non-Urbanized Area Assistance This program provides funds for public transportation in areas outside urbanized areas by formula to the States. Funding may be used for capital, operating, and administrative expenses for public transportation projects that meet the needs of rural communities, and 15 percent of annual funds may be used for intercity bus service.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13093_3555.html.

Over-the-Road Bus Program This program makes funds available to private operators of over-the-road buses to finance the incremental capital and training costs of complying with DOT's over-the-road bus accessibility regulation. Accessibility projects improve mobility for individuals with disabilities by providing financial assistance to help make vehicles accessible and provide sensitivity and equipment training to drivers and other personnel.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13094_11856.html.

Planning This program provides financial assistance in meeting the transportation planning needs of metropolitan planning organizations by allocating funds to States, which, in turn, are allocated to the metropolitan planning organizations. Assistance is available for transportation planning, technical assistance studies, demonstrations, management training, and cooperative research.

For further information, call 202-366-4033. Internet, http://www.fta.dot.gov/12347_4160.html.

Paul S. Sarbanes Transit in Parks

This program provides funding for alternative transportation projects in and around National Parks and other Federal recreation areas. Alternative transportation includes visitor shuttle bus systems, bicycle and pedestrian trails, ferries, and other forms of public or nonmotorized transportation. Projects funded through this program reduce congestion, protect sensitive natural and cultural treasures, and enhance the visitor experience. Funding is awarded through a competitive process to units of Federal land management agencies and to State, local and tribal government agencies.

For further information, call 202-366-2053. Internet, <http://www.fta.dot.gov/transitinparks>.

Research and Technology This program seeks to improve public transportation for America's communities by delivering research products and services that assist transit agencies to improve their systems. Under this program, FTA partners with the transportation industry to undertake research, development, and demonstration projects that will improve the safety, quality, efficiency, reliability, cost-effectiveness, and environmental performance of public transportation in America and that leads to increases in transit ridership.

Transit research and technology efforts are undertaken with both public and private research organizations, universities, transit providers, and industry suppliers and manufacturers. Projects include: research on the state of the transit industry; public transportation services, management, and operational practices; asset management and maintenance research; advanced technologies that improve bus and rail services; standards development; bus rapid transit research; advanced propulsion systems, including fuel-cell-powered transit buses; research to improve energy efficiency and reduce emissions; and international activities that promote American transit products and services overseas.

For further information, call 202-366-4052. Internet, <http://www.fta.dot.gov/research>.

Rural Transportation Assistance This program allocates funds annually to the

States to provide assistance for transit research, technical assistance, training, and related support activities for transit providers serving nonurbanized areas. Additional funds are used at the national level to develop training materials, develop and maintain a national clearinghouse on rural transit activities and information, and provide technical assistance through peer practitioners to promote exemplary techniques and practices.

For further information, call 202-366-2053. Internet, http://www.fta.dot.gov/grants/13093_3554.html.

Safety FTA's safety program supports State and local agencies in fulfilling their responsibility for the safety of public transportation facilities and services, through the encouragement and sponsorship of safety and security

planning, training, information collection and analysis, drug control programs, system/safety assurance reviews, generic research, and other cooperative government/industry activities.

For further information, call 202-366-4020. Internet, <http://www.fta.dot.gov/about/12419.html>.

Training and Technical Assistance

Through the National Transit Institute (NTI), FTA develops and offers training courses for improving transit planning, operations, workforce performance, and productivity. NTI courses are conducted at sites across the United States on a wide variety of subjects, ranging from multimodal planning to management development, third-party contracting, safety, and security. Current NTI course offerings are available online at www.ntionline.com.

The Maritime Administration was established by Reorganization Plan No. 21 of 1950 (5 U.S.C. app.). The Maritime Act of 1981 (46 U.S.C. 1601) transferred the Maritime Administration to the Department of Transportation. The Administration manages programs to aid in the development, promotion, and operation of the U.S. merchant marine. It is also charged with organizing and directing emergency merchant ship operations.

The Maritime Administration administers subsidy programs to pay the difference between certain costs of operating ships under the U.S. flag and foreign competitive flags on essential services, and the difference between the costs of constructing ships in U.S. and foreign shipyards. It provides financing guarantees for the construction, reconstruction, and reconditioning of ships; and enters into capital construction fund agreements that grant tax deferrals on moneys to be used for the acquisition, construction, or reconstruction of ships.

The Administration constructs or supervises the construction of merchant-type ships for the Federal Government. It helps industry generate increased business for U.S. ships and conducts programs to develop ports, facilities, and intermodal transport, and to promote domestic shipping.

It conducts program and technical studies and administers a war risk insurance program that insures operators and seamen against losses caused by

hostile action if domestic commercial insurance is not available.

Under emergency conditions the Maritime Administration charters Government-owned ships to U.S. operators, requisitions or procures ships owned by U.S. citizens, and allocates them to meet defense needs.

It maintains a national defense reserve fleet of Government-owned ships that it operates through ship managers and general agents when required in national defense interests. An element of this activity is the Ready Reserve force consisting of a number of ships available for quick-response activation.

The Administration regulates sales to aliens and transfers to foreign registry of ships that are fully or partially owned by U.S. citizens. It also disposes of Government-owned ships found nonessential for national defense.

The Administration operates the U.S. Merchant Marine Academy, Kings Point, NY, where young people are trained to become merchant marine officers, and conducts training in shipboard firefighting at Toledo, OH. It also administers a Federal assistance program for the maritime academies operated by the States of California, Maine, Massachusetts, Michigan, New York, and Texas.

The Saint Lawrence Seaway Development Corporation was established by the Saint Lawrence Seaway Act of May 13, 1954 (33 U.S.C. 981–990) and became an operating administration of the Department of Transportation in 1966.

The Corporation, working cooperatively with the Saint Lawrence Seaway Management Corporation (SLSMC) of Canada, is dedicated to operating and maintaining a safe, reliable, and efficient deep draft waterway between the Great Lakes and the Atlantic Ocean. It ensures the safe transit of commercial and noncommercial vessels through the two U.S. locks and the navigation channels of the Saint Lawrence Seaway System. The Corporation works jointly with

SLSMC on all matters related to rules and regulations, overall operations, vessel inspections, traffic control, navigation aids, safety, operating dates, and trade development programs.

The Great Lakes/Saint Lawrence Seaway System extends from the Atlantic Ocean to the Lake Superior ports of Duluth/Superior, a distance of 2,342 miles. The Corporation's main customers are vessel owners and operators, Midwest States and Canadian provinces, Great Lakes port communities, shippers and receivers of domestic and international cargo, and the Great Lakes/Saint Lawrence Seaway Systems maritime and related service industries. International and domestic commerce through the Seaway contributes to the economic prosperity of the entire Great Lakes region.

The Pipeline and Hazardous Materials Safety Administration was established on February 20, 2005. It is responsible for hazardous materials transportation and pipeline safety.

Hazardous Materials

The Office of Hazardous Materials Safety develops and issues regulations for the safe and secure transportation of hazardous materials by all modes, excluding bulk transportation by water. The regulations cover shipper and carrier operations, packaging and container specifications, and hazardous materials definitions. The Office provides training and outreach to help shippers and carriers meet the requirements of the hazardous material regulations. The Office is also responsible for the enforcement of regulations other than those applicable to a single mode of transportation. The Office manages a fee-funded grant program to assist States in planning for hazardous materials emergencies and to assist States and Indian tribes with training for hazardous materials emergencies. Additionally, the Office maintains a national safety program to safeguard food and certain other products from contamination during motor or rail transportation.

Pipelines

The Office of Pipeline Safety's (OPS) mission is to ensure the safety, security, and environmental protection of the Nation's pipeline transportation system. The Office establishes and enforces safety and environmental standards for transportation of gas and hazardous liquids by pipeline. OPS also analyzes data, conducts education and training, promotes damage prevention, and conducts research and development for pipeline safety. Through OPS-administered grants-in-aid, States that voluntarily assume regulatory jurisdiction of pipelines can receive funding for up to 50 percent of the costs for their intrastate pipeline safety programs. OPS engineers inspect most interstate pipelines and other facilities not covered by the State programs. The Office also implements the Oil Pollution Act of 1990 by providing approval for and testing of oil pipeline spill response plans.

The Research and Innovative Technology Administration (RITA) was created under the Norman Y. Mineta Research and Special Programs Improvement Act (49 U.S.C. 101 note). RITA coordinates, facilitates, and reviews the Department's research and development programs and activities; performs comprehensive transportation statistics research, analysis, and reporting; and promotes the use of innovative technologies to improve our Nation's transportation system.

RITA brings together important DOT data, research, and technology transfer assets and provides strategic direction and oversight of DOT's Intelligent Transportation Systems Program.

RITA is composed of the staff from the Office of Research, Development, and Technology; the Volpe National Transportation Systems Center; the Transportation Safety Institute; and the Bureau of Transportation Statistics.

The Federal Motor Carrier Safety Administration was established within the Department of Transportation on January 1, 2000, pursuant to the Motor Carrier Safety Improvement Act of 1999 (49 U.S.C. 113).

Formerly a part of the Federal Highway Administration, the Federal Motor Carrier Safety Administration's primary mission is to prevent commercial motor vehicle-related fatalities and injuries. Activities of the Administration contribute to ensuring safety in motor carrier operations through strong enforcement of safety regulations, targeting high-risk carriers and commercial motor vehicle drivers; improving safety information systems and commercial motor vehicle technologies; strengthening commercial motor vehicle equipment and operating standards; and increasing safety awareness. To accomplish these activities, the Administration works with Federal, State, and local enforcement agencies, the motor carrier industry, labor safety interest groups, and others.

Activities

Commercial Drivers' Licenses The Administration develops standards to test and license commercial motor vehicle drivers.

Data and Analysis The Administration collects and disseminates data on motor carrier safety and directs resources to improve motor carrier safety.

For further information, contact the Federal Motor Carrier Safety Administration, 1200 New Jersey Avenue SE., Washington, DC 20590. Phone, 202-366-2519. Internet, <http://www.fmcsa.dot.gov>.

Regulatory Compliance and Enforcement

The Administration operates a program to improve safety performance and remove high-risk carriers from the Nation's highways.

Research and Technology The Administration coordinates research and development to improve the safety of motor carrier operations and commercial motor vehicles and drivers.

Safety Assistance The Administration provides States with financial assistance for roadside inspections and other commercial motor vehicle safety programs. It promotes motor vehicle and motor carrier safety.

Other Activities The Administration supports the development of unified motor carrier safety requirements and procedures throughout North America. It participates in international technical organizations and committees to help share the best practices in motor carrier safety throughout North America and the rest of the world. It enforces regulations ensuring safe highway transportation of hazardous materials and has established a task force to identify and investigate those carriers of household goods that have exhibited a substantial pattern of consumer abuse.

The Surface Transportation Board was established in 1996 by the Interstate Commerce Commission (ICC) Termination Act of 1995 (49 U.S.C. 10101 et seq.) as an independent adjudicatory body organizationally housed within the Department of Transportation with jurisdiction over certain surface transportation economic regulatory matters formerly under ICC jurisdiction. The Board consists of three members, appointed by the President with the advice and consent of the Senate for 5-year terms.

The Board adjudicates disputes and regulates interstate surface transportation through various laws pertaining to the different modes of surface transportation. The Board's general responsibilities include the oversight of firms engaged in transportation in interstate and foreign commerce to the extent that it takes place within the United States, or between or among points in the contiguous United States and points in Alaska, Hawaii, or U.S. Territories or possessions. Surface transportation matters under the Board's jurisdiction in general include railroad rate and service issues, rail restructuring transactions (mergers, line sales, line construction, and line abandonments), and labor matters related thereto; certain

trucking company, moving van, and noncontiguous ocean shipping company rate matters; certain intercity passenger bus company structure, financial, and operational matters; and certain pipeline matters not regulated by the Federal Energy Regulatory Commission.

In performing its functions, the Board is charged with promoting, where appropriate, substantive and procedural regulatory reform and providing an efficient and effective forum for the resolution of disputes. Through the granting of exemptions from regulations where warranted, the streamlining of its decisionmaking process and the regulations applicable thereto, and the consistent and fair application of legal and equitable principles, the Board seeks to provide an effective forum for efficient dispute resolution and facilitation of appropriate market-based business transactions. Through rulemakings and case disposition, it strives to develop new and better ways to analyze unique and complex problems, to reach fully justified decisions more quickly, to reduce the costs associated with regulatory oversight, and to encourage private sector negotiations and resolutions to problems, where appropriate.

The Department of the Treasury serves as financial agent for the U.S. Government, manufacturing coins and currency, enforcing financial laws, and recommending economic, tax, and fiscal policies.

The Treasury Department was created by act of September 2, 1789 (31 U.S.C. 301 and 301 note). Many subsequent acts have figured in the development of the Department, delegating new duties to its charge and establishing the numerous bureaus and divisions that now comprise the Treasury.

Secretary As a major policy adviser to the President, the Secretary has primary responsibility for recommending domestic and international financial,

economic, and tax policy; formulating broad fiscal policies that have general significance for the economy; and managing the public debt. The Secretary also oversees the activities of the Department in carrying out its major law enforcement responsibility; in serving as the financial agent for the U.S. Government; and in manufacturing coins, currency, and other products for customer agencies. The Secretary also serves as the Government's chief financial officer.

DEPARTMENT OF THE TREASURY

Activities

Economic Policy The Office of the Assistant Secretary for Economic Policy assists policymakers in the determination of economic policies. The Office analyzes domestic and international economic issues and developments in the financial markets, assists in the development of official economic projections, and works closely with Federal Government agencies to develop economic forecasts underlying the yearly budget process.

Enforcement The Office of the Assistant Secretary for Enforcement coordinates Treasury law enforcement matters, including the formulation of policies for Treasury enforcement activities, and cooperates on law enforcement matters with other Federal agencies. It oversees the Alcohol and Tobacco Tax and Trade Bureau, charged with collecting excise taxes on alcoholic beverages and tobacco products; the Office of Financial Enforcement, assisting in implementing the Bank Secrecy Act and administering related Treasury regulations; and the Office of Foreign Assets Control, controlling assets in the United States of “blocked” countries and the flow of funds and trade to them.

Domestic Finance The Office of Domestic Finance works to preserve confidence in the U.S. Treasury market, manage Federal fiscal operations, and strengthen financial institutions and markets; to promote access to credit; and to improve financial access and education in service of America’s long-term economic strength and stability.

Financial Institutions The Office of Financial Institutions coordinates the Department’s efforts regarding financial institutions legislation and regulation, legislation affecting Federal agencies that regulate or insure financial institutions, and securities markets legislation and regulation. The Office also coordinates the Department’s effort on financial education policy and ensures the resiliency of the financial services sector.

Financial Markets The Office of Financial Markets serves to formulate policy on Federal debt management, State and local finance (including the

Federal debt), Federal Government credit policies, and lending and privatization. This Office also oversees the Federal Financing Bank, and the Assistant Secretary serves as the senior member of the Treasury Financing Group and coordinates the President’s Working Group on Financial Markets.

Fiscal Affairs The Office of the Fiscal Assistant Secretary provides policy oversight of the Fiscal Service bureaus and develops policy on payments, collections, debt financing operations, electronic commerce, Governmentwide accounting, Government investment fund management, and other related issues. The Office also performs two critical functions for the Department: It manages the daily cash position of the Government, and it produces the cash and debt forecasts used to determine the size and timing of the Government’s financing operations.

Financial Stability The Office of Financial Stability (OFS) within the U.S. Treasury was created by the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5201 et seq.) to administer the Troubled Asset Relief Program (TARP). The purpose of the TARP was to help restore the liquidity and stability to the U.S. financial system following the 2008 financial crisis. Treasury’s authority to make financial commitments under TARP ended on October 3, 2010. Today, OFS is focused on winding down the TARP investments in a manner that balances speed of exit with maximizing taxpayer returns as well as continuing to help homeowners prevent avoidable foreclosures.

International Development and Markets The Office of the Assistant Secretary for Development and Markets manages the work of the Committee on Foreign Investment in the United States and Treasury’s Office of Technical Assistance. The Office also advises and assists the Under Secretary for International Affairs and other policymakers on financial and economic policies surrounding major bilateral and multilateral engagements. It plays a similar role in the formulation and execution of policies affecting export

finance, financial services, trade, and multilateral development, including the World Bank, the regional development banks, and emerging global issues like food security and climate finance.

International Finance The Office of the Assistant Secretary for International Finance conducts macroeconomic analyses on global, regional, country-specific bases to advise and assist the Under Secretary for International Affairs and other policymakers in the formulation and execution of financial and economic policy towards and through the International Monetary Fund and other major multilateral and bilateral engagements like the U.S.-China Strategic and Economic Dialogue and the G-20.

Tax Policy The Office of the Assistant Secretary for Tax Policy advises and assists the Secretary and the Deputy Secretary in the formulation and execution of domestic and international tax policies and programs. These functions include analysis of proposed tax legislation and tax programs; projections of economic trends affecting tax bases; studies of effects of alternative tax measures; preparation of official estimates of Government receipts for the President's annual budget messages; legal advice and analysis on domestic and international tax matters; assistance in the development and review of tax legislation and domestic and international tax regulations and rulings; and participation in international tax treaty negotiations and in maintenance of relations with international organizations on tax matters.

Treasurer of the United States The Office of the Treasurer of the United States was established on September 6, 1777. The Treasurer was originally charged with the receipt and custody of Government funds, but many of these functions have been assumed by different bureaus of the Department. In 1981, the Treasurer was assigned responsibility for oversight of the Bureau of Engraving and Printing and the United States Mint. The Treasurer reports to the Secretary through the Assistant Secretary for Management/Chief Financial Office

Treasury Inspector General for Tax Administration The Treasury Inspector General for Tax Administration (TIGTA) was established in January 1999, in accordance with the Internal Revenue Service Restructuring and Reform Act of 1998 (26 U.S.C. 1 note), to provide independent oversight of the Internal Revenue Service programs and activities. TIGTA is charged with monitoring the Nation's tax laws to ensure that the Internal Revenue Service (IRS) acts with efficiency, economy, and effectiveness toward program accomplishment; ensuring compliance with applicable laws and regulations, preventing, detecting, and deterring fraud, waste, and abuse; investigating activities or allegations related to fraud, waste, and abuse by IRS personnel; and protecting the IRS against attempts to corrupt or threaten its employees.

[For the Office of the Comptroller of the Currency statement of organization, see the Code of Federal Regulations, Title 12, Part 4]

The Office of the Comptroller of the Currency (OCC) was created February 25, 1863 (12 Stat. 665), as a bureau of the Department of the Treasury. Its primary mission is to regulate national banks. The Office is headed by the Comptroller, who is appointed for a 5-year term by the President with the advice and consent of the Senate. In July 2011, the Office of Thrift Supervision was integrated into the OCC, along with the responsibility for the supervision of Federal savings associations.

The OCC regulates national banks and Federal savings associations through its power to examine banks; approve or deny applications for new bank charters, branches, or mergers; take enforcement actions—such as bank closures—against banks that are not in compliance with laws and regulations; and issue rules, regulations, and interpretations on banking practices.

The OCC supervises approximately 1,900 national banks, Federal savings associations, and Federal branches, including their trust activities and overseas operations. Each bank is examined by a nationwide staff of approximately 2,500 bank examiners

who are supervised by four district offices. The OCC is independently funded through assessments of bank assets.

The Bureau of the Fiscal Service provides central payment services to Federal program agencies, operates the Federal Government's collections and deposit systems, provides Governmentwide accounting and reporting services, manages the collection of delinquent debt owed to the Federal Government, borrows the money needed to operate the Federal Government, accounts for the resulting public debt, and provides reimbursable support to Federal agencies.

Payments Each year, the Fiscal Service disburses more than one billion non-Defense payments to a wide variety of recipients, such as those individuals who receive Social Security, IRS tax refunds, and veterans' benefits. In Fiscal Year 2012, the Fiscal Service issued more than \$2.4 trillion in payments, 88 percent of which were issued electronically.

Collections Fiscal Service administers the world's largest collection system, processing more than 400 million transactions through the support of six Federal Reserve Banks and a network of over 100 financial institutions. In Fiscal Year 2012, the Fiscal Service collected over \$3.16 trillion in Federal revenues from individual and corporate income tax deposits, customs duties, loan repayments, fines, proceeds from leases, as well as other sources of revenue.

Fiscal Service and IRS manage the Electronic Federal Tax Payment System (www.eftps.gov), which allows individuals and businesses to pay Federal taxes through the Internet. EFTPS-Online also provides such features as an instant, printable acknowledgment for documenting each transaction, the ability

to schedule advance payments, and access to payment history.

The Treasury Offset Program is one of the methods used to collect delinquent debt. Fiscal Service uses the program to withhold Federal payments, such as Federal income tax refunds, Federal salary payments, and Social Security benefits, to recipients with delinquent debts, including past-due child support obligations and State and Federal income tax debt.

Do Not Pay The Fiscal Service Do Not Pay Business Center has a two-part vision for programs administered or funded by the Federal Government: to help prevent and stop improper payments from being made, and to identify and to mitigate fraud, waste and abuse. The goal of the program is to integrate Do Not Pay into existing business processes by providing agencies access to current and relevant data to help make an award or payment decision.

Debt Financing The Bureau auctions and issues Treasury bills, notes, and bonds and manages the sales and redemption of savings bonds. It provides daily and other periodic reports to account for the composition and size of the debt. In addition, the Bureau implements the regulations for the Government securities market. These regulations provide for investor protection while maintaining a fair and liquid market for Government securities.

Accounting Fiscal Service gathers and publishes Governmentwide financial information that is used by the public and private sectors to monitor the Government's financial status and establish fiscal and monetary policies. These publications include the "Daily Treasury Statement," "Monthly Treasury Statement," "Treasury Bulletin," "U.S. Government Annual Report," and "Financial Report of the U.S. Government."

Electronic Commerce Through its electronic money programs, Fiscal Service offers new payment and collection technologies using the Internet and card technologies to help Federal agencies modernize their cash management activities. Examples include

stored-value cards used on military bases, point-of-sale check conversion, and Internet credit card collection programs.

Shared Services The Administrative Resource Center (ARC) delivers franchise services on a reimbursable basis to more than 85 Treasury and Federal Government agencies. ARC provides services in six areas: financial management, investment accounting, human resources, information technology, procurement, and travel.

The Office of the Commissioner of Internal Revenue was established by act of July 1, 1862 (26 U.S.C. 7802). The Internal Revenue Service (IRS) is responsible for administering and enforcing the internal revenue laws and related statutes, except those relating to alcohol, tobacco, firearms, and

explosives. Its mission is to collect the proper amount of tax revenue, at the least cost to the public, by efficiently applying the tax law with integrity and fairness. To achieve that purpose, the IRS strives to achieve the highest possible degree of voluntary compliance in accordance with the tax laws and regulations; advises the

public of their rights and responsibilities; determines the extent of compliance and the causes of noncompliance; properly administers and enforces the tax laws; and continually searches for and implements new, more efficient ways of accomplishing its mission. IRS ensures satisfactory resolution of taxpayer complaints; provides taxpayer service and education; determines, assesses, and collects internal revenue taxes; determines pension plan qualifications and exempt organization status; and prepares and issues rulings and regulations to supplement the provisions of the Internal Revenue Code.

The source of most revenues collected is the individual income tax and the social insurance and retirement taxes. Other major sources are corporate income, excise, estate, and gift taxes. Congress first received authority to levy taxes on the income of individuals and corporations in 1913, pursuant to the 16th Amendment of the Constitution.

Sources of Information

Audiovisual Materials Films providing information on the American tax system, examination and appeal rights, and the tax responsibilities of running a small business are available. Some of the films are also available in Spanish. The films can be obtained by contacting any territory office. Also available are audio and video cassette tapes that provide step-by-step instructions for preparing basic individual income tax forms.

These tapes are available in many local libraries.

Contracts Write to the Internal Revenue Service (OS:A:P), 1111 Constitution Avenue NW., Washington, DC 20224. Phone, 202-283-1710.

Customer Service The Internal Revenue Service provides year-round tax information and assistance to taxpayers, primarily through its Web site and toll-free telephone system, which also includes telephone assistance to deaf and hearing-impaired taxpayers who have access to a teletypewriter or television/phone. The toll-free numbers are listed in local telephone directories and in the annual tax form packages. Taxpayers may

also visit agency offices for help with their tax problems. Individual preparation is available for handicapped or other individuals unable to use the group preparation method. Foreign language tax assistance is also available at many locations. The IRS encourages taxpayers to use the resources available at www.irs.gov for assistance with their tax questions or to locate electronic filing sources.

Educational Programs The Service provides, free of charge, general tax information publications and booklets on specific tax topics. Taxpayer information materials also are distributed to major television networks and many radio and television stations, daily and weekly newspapers, magazines, and specialized publications. Special educational materials and films are provided for use in high schools and colleges. Individuals starting a new business are given specialized materials and information at small business workshops, and community colleges provide classes based on material provided by the Service. The community outreach tax assistance program provides assistance to community groups. Through the volunteer income tax assistance program and the tax counseling for the elderly program, the Service recruits, trains, and supports volunteers who offer free tax assistance to low-income, elderly, military, and non-English-speaking taxpayers. Materials, films, and information on the educational programs can be obtained by contacting any territory office.

Employment For information, write to the recruitment coordinator at any of the territory offices.

Publications "The Annual Report—Commissioner of Internal Revenue," the "Internal Revenue Service Data Book," and periodic reports of statistics of income are available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. "Examination of Returns, Appeal Rights, and Claims for Refund," "Your Federal Income Tax," "Farmer's Tax Guide," "Tax Guide for Small Business," and other publications are available at Internal Revenue Service offices free of charge.

Reading Rooms Public reading rooms are located in the national office and in each territory office.

Speakers Arrangements for speakers on provisions of the tax law and operations of the Internal Revenue Service for professional and community groups may be made by writing to the Senior

Commissioner's Representative. For national organizations, write to the Communications Division at the IRS National Headquarters in Washington, DC.

Taxpayer Advocate Each district has a problem resolution staff which attempts to resolve taxpayer complaints not satisfied through regular channels.

For further information, contact the Internal Revenue Service, Department of the Treasury, 1111 Constitution Avenue NW., Washington, DC 20224. Phone, 202-622-5000.

The establishment of a mint was authorized by act of April 2, 1792 (1 Stat. 246). The Bureau of the Mint was established by act of February 12, 1873 (17 Stat. 424), and recodified on September 13, 1982 (31 U.S.C. 304, 5131). The name was changed to United States Mint by Secretarial order dated January 9, 1984.

The primary mission of the Mint is to produce an adequate volume of circulating coinage for the Nation to conduct its trade and commerce. The Mint also produces and sells numismatic coins, American Eagle gold and silver bullion coins, and national medals. In addition, the Fort Knox Bullion Depository is the primary storage facility for the Nation's gold bullion.

The U.S. Mint maintains sales centers at the Philadelphia and Denver Mints and at Union Station in Washington, DC. Public tours are conducted, with

free admission, at the Philadelphia and Denver Mints.

For a complete list of U.S. Mint field facilities, visit www.usmint.gov/about_the_mint.

The Department of Veterans Affairs operates programs to benefit veterans and members of their families. Benefits include compensation payments for disabilities or death related to military service; pensions; education and rehabilitation; home loan

guaranty; burial; and a medical care program incorporating nursing homes, clinics, and medical centers.

The Department of Veterans Affairs (VA) was established as an executive department by the Department of Veterans Affairs Act (38 U.S.C. 201 note). It is comprised of three organizations that administer veterans programs: the Veterans Health Administration, the Veterans Benefits Administration, and the National Cemetery Administration. Each organization has field facilities and a central office component. Staff offices support the overall function of the Department and its Administrations.

Activities

Advisory Committee Management Office

The Advisory Committee Management Office serves as the coordinating office for the Department's 25 Federal advisory committees. It is responsible for establishing clear and uniform goals, standards, and procedures for advisory committee activities. It is also responsible for ensuring that VA advisory committee operations are in compliance with the provisions of the Federal Advisory Committee Act.

Office of Acquisition, Logistics, and Construction

The Office of Acquisition, Logistics, and Construction (OALC) is a multifunctional organization responsible for directing the acquisition, logistics, construction, and leasing functions within the VA. The Executive Director, OALC, is also the Chief Acquisition Officer for the VA.

Cemeteries The National Cemetery Administration (NCA) is responsible for the management and oversight of 131 national cemeteries in the United States and Puerto Rico, as well as 33 soldiers' lots, Confederate cemeteries, and monument sites. Burial in a national cemetery is available to eligible veterans and their spouses and dependent children. At no cost to the family, a national cemetery burial includes the gravesite, graveliner, opening and closing of the grave, headstone or marker, and perpetual care as part of a national shrine. If a veteran is buried in an unmarked grave in a private cemetery

anywhere in the world, NCA will provide a headstone or marker. If a veteran died on or after November 1, 1990, and is buried in a grave marked with a privately purchased headstone, NCA will provide a headstone or marker to supplement the grave or a medallion to be affixed to the permanent headstone. NCA's State Cemetery Grants Program provides funds to State and tribal governments to establish, expand, or improve veterans' cemeteries. NCA issues Presidential Memorial Certificates to recognize the service of honorably discharged servicemembers or veterans.

Center for Minority Veterans

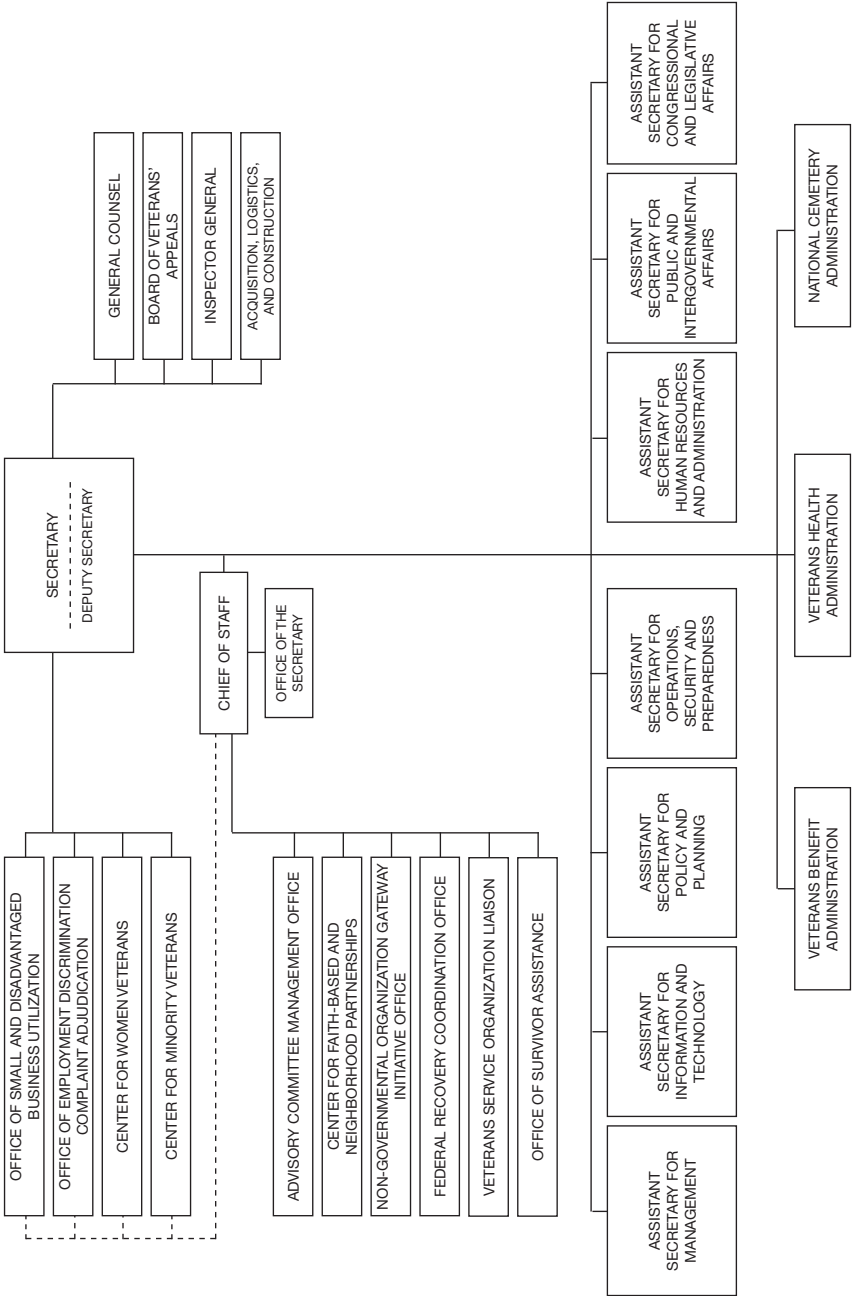

The Center for Minority Veterans (CMV), established by the Veterans' Benefits Improvement Act of 1984 (38 U.S.C. 101 note), promotes the use of VA benefits, programs, and services by minority veterans. The CMV focuses on the unique and special needs of African Americans, Hispanics, Asian Americans, Pacific Islanders, and Native Americans, which include American Indians, Native Hawaiians, and Alaska Natives.

Center for Women Veterans

The Center for Women Veterans (CWV), established by the Veterans' Benefits Improvement Act of 1984 (38 U.S.C. 101 note), reports to the Secretary's Office and oversees the Department's programs for women veterans. The CWV Director serves as the primary advisor to the Secretary on all matters related to policies, legislation, programs, issues, and initiatives affecting women veterans. The CWV ensures that women veterans receive benefits and services on par with male veterans; VA programs are responsive to gender-specific needs of women veterans; outreach is performed to improve women veterans' awareness of services, benefits, and eligibility criteria; and women veterans are treated with dignity and respect.

Health Services The Veterans Health Administration (VHA) is home to the largest integrated health care system in the United States. It provides hospital, nursing home, domiciliary, and outpatient

DEPARTMENT OF VETERANS AFFAIRS

medical and dental care to eligible veterans of military service in the Armed Forces. VHA conducts both individual medical and health care delivery research projects and multihospital research programs, to include assisting in the education of physicians, dentists, and the training of many other health care professionals through affiliations with educational institutions and organizations. VHA treated over 6 million patients in 2010, and has over 1,600 sites of care which include: 152 hospitals, 965 outpatient clinics, 133 community living centers, and 293 Vet Centers. In 2010, VA hospitals also had approximately 680,000 inpatient admissions and more than 75 million outpatient visits. The number of women veterans using VA health care doubled from 160,000 in 2000 to 315,000 in 2010. VA hospitals provide more public data about quality and safety than any health care system in the world and held academic affiliations with more than 1,200 educational institutions. More than 100,000 health care students receive clinical training from VA each year.

Historically, VHA has been at the forefront in developing new devices, treatments, and tools for various conditions and diseases, including the first electronic health record, cardiac pacemaker, bionic ankle, and successful liver transplant. It has also developed new drugs and treatments for acquired immune deficiency syndrome/human immunodeficiency virus, diabetes, Alzheimer's disease, and osteoporosis. Currently, VHA medical centers provide a wide range of services including traditional hospital-based services such as critical care, mental health, orthopedics, pharmacy, radiology, and physical therapy. Furthermore, most VA medical centers offer additional medical and surgical specialties services including pathology, dermatology, dental, geriatrics, neurology, oncology, prosthetics, urology, and vision care. Some medical centers also offer advanced services such as organ transplants and plastic surgery. VHA also distinguishes itself as the Nation's largest provider of graduate medical education and major contributor to medical research.

Operations, Security, and Preparedness

The Assistant Secretary for Operations, Security, and Preparedness (OSP) coordinates VA's emergency management, preparedness, personal identity verification, physical security, personnel security and suitability, police services, law enforcement activities, and ensures compliance and resource management in the OSP, so the Department can continue to perform the mission-essential functions under all circumstances across the spectrum of threats. OSP directs and provides oversight for the VA's overall operations for planning, response, and security and law enforcement programs in support of the National Response Framework, Homeland Security Presidential Directive 12, and other related Executive orders and Federal regulations.

Veterans Benefits The Veterans Benefits Administration provides information, advice, and assistance to veterans, their dependents, beneficiaries, representatives, and others applying for VA benefits. It also cooperates with the Department of Labor and other Federal, State, and local agencies in developing employment opportunities for veterans and referral for assistance in resolving socioeconomic, housing, and other related problems.

The Compensation and Pension Service is responsible for claims for disability compensation and pension, specially adapted housing, accrued benefits, adjusted compensation in death cases, and reimbursement for headstone or marker; allowances for automobiles and special adaptive equipment; special clothing allowances; emergency officers' retirement pay; survivors' claims for death compensation, dependency and indemnity compensation, death pension, and burial and plot allowance claims; forfeiture determinations; and a benefits protection program for minors and incompetent adult beneficiaries.

The Education Service administers the Montgomery GI Bill program and other programs which provide education benefits to qualified active-duty members, veterans, certain dependents of veterans, and members of the Selected

and Ready Reserve. The Service also checks school records to ensure that they comply with the pertinent law, approves courses for the payment of educational benefits, and administers a work-study program. Additional details are available at www.gibill.va.gov.

The Insurance Service's operations for the benefit of servicemembers, veterans, and their beneficiaries are available through the regional office and insurance center (phone, 800-669-8477) in Philadelphia, PA, which provides the full range of activities necessary for a national life insurance program. Activities include the complete maintenance of individual accounts, underwriting functions, life and death insurance claims awards, and any other insurance-related transactions. The Service also administers the Veterans Mortgage Life Insurance Program for those disabled veterans who receive a VA grant for specially adapted housing and supervises the Servicemembers' Group Life Insurance Program and the Veterans' Group Life Insurance Program.

The Loan Guaranty Service is responsible for operations that include appraising properties to establish their values; approving grants for specially adapted housing; supervising the construction of new residential properties; establishing the eligibility of veterans for the program; evaluating the ability of a veteran to repay a loan and the credit risk; making direct loans to Native American veterans to acquire a home on trust land; servicing and liquidating defaulted loans; and disposing of real estate acquired as the consequence of defaulted loans.

The Vocational Rehabilitation and Employment Service provides outreach, motivation, evaluation, counseling, training, employment, and other rehabilitation services to service-connected disabled veterans. Vocational and educational counseling, as well as the evaluation of abilities, aptitudes, and interests are provided to veterans and servicepersons. Counseling, assessment, education programs, and in some cases, rehabilitation services are available to spouses and children of totally and permanently disabled veterans as well

as surviving orphans, widows, and widowers of certain deceased veterans.

Vocational training and rehabilitation services are available to children with spina bifida having one or both parents who served in the Republic of Vietnam during the Vietnam era, or served in certain military units in or near the demilitarized zone in Korea, between September 1, 1967 and August 31, 1971.

Veterans' Appeals The Board of Veterans' Appeals (BVA) renders final decisions on behalf of the Secretary on appeals from decisions of local VA offices. The Board reviews all appeals for entitlement to veterans' benefits, including claims for service connection, increased disability ratings, total disability ratings, pension, insurance benefits, educational benefits, home loan guarantees, vocational rehabilitation, dependency and indemnity compensation, health care delivery, and fiduciary matters. The Board has jurisdiction over appeals arising from the VA regional offices, VA medical centers, the National Cemetery Administration, and the Office of General Counsel. The Board's mission is to conduct hearings and issue timely, understandable, and quality decisions for veterans and other appellants in compliance with the requirements of law. Final BVA decisions are appealable to the U.S. Court of Appeals for Veterans Claims.

Field Facilities The Department's operations are handled through the following field facilities: cemeteries, domiciliaries, medical centers, outpatient clinics, and regional offices. Cemeteries provide burial services to veterans, their spouses, and dependent children. Domiciliaries provide the least intensive level of inpatient medical care, including necessary ambulatory medical treatment, rehabilitation, and support services, in a structured environment to veterans who are unable because of their disabilities to provide adequately for themselves in the community. Medical centers provide eligible beneficiaries with medical and other health care services equivalent to those provided by private sector institutions, augmented in many

instances by services to meet the special requirements of veterans. Outpatient clinics provide eligible beneficiaries with ambulatory care. Regional offices grant benefits and services provided by law for veterans, their dependents, and beneficiaries within an assigned territory; furnish information regarding VA benefits and services; adjudicate claims and make awards for disability compensation and pension; conduct outreach and information dissemination; provide support and assistance to various segments of the veteran population to include former prisoners of war, minority, homeless, women, and elderly veterans; supervise payment of VA benefits to incompetent beneficiaries; provide vocational rehabilitation and employment training; administer educational benefits; guarantee loans for purchase, construction, or alteration of homes; process grants for specially adapted housing; process death claims; and assist veterans in exercising rights to benefits and services.

The Conference develops recommendations for improving the fairness and effectiveness of procedures by which Federal agencies administer regulatory, benefit, and other Government programs.

The Administrative Conference of the United States was established as a permanent independent agency by the Administrative Conference Act (5 U.S.C. 591-596) enacted in 1964. The Conference was the successor to two temporary Administrative Conferences during the Eisenhower and Kennedy administrations.

The Conference ceased operations on October 31, 1995, due to termination of funding by Congress. Congress

reauthorized the Conference in 2004 and again in 2008. The 2004 legislation expanded its responsibilities to include specific attention to achieving more effective public participation and efficiency, reducing unnecessary litigation, and improving the use of science in the rulemaking process. Funding was approved in 2009, and the Conference was officially re-established in March 2010.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

By statute the Administrative Conference has no fewer than 75 and no more than 101 members, a majority of whom are Government officials. The Chairman of the Conference is appointed by the President with the advice and consent of the Senate for a 5-year term. The Council, which acts as the executive board, consists of the Chairman and 10 other members appointed by the President for 3-year terms. Federal officials named to the Council may constitute no more than half of the total Council membership. Members representing the private sector are appointed by the Chairman, with the approval of the Council, for 2-year terms. The Chairman is the only full-time, compensated member.

The entire membership is divided into committees, each assigned a broad area of interest such as adjudication, administration, collaborative governance, judicial review, regulation, or rulemaking. The membership meeting in plenary session constitutes the Assembly of the Conference, which by statute must meet at least once, and customarily meets twice, each year.

Activities

Subjects for inquiry are developed by the Chairman and approved by the Council, often based on input from government and non-government experts in administrative procedure. The committees conduct thorough studies of these subjects and propose recommendations, based on supporting reports, ordinarily prepared for the Conference by expert consultants. Recommendations are evaluated by the Council and, if ready for Assembly consideration, are distributed to the membership with the supporting reports and placed on the agenda of the next plenary session. The deliberations of the

committees and Assembly are open to the public.

The Chairman is authorized to encourage the departments and agencies to adopt the recommendations of the Conference and is required to transmit to the President and to Congress an annual report and interim reports concerning the activities of the Conference, including reports on the implementation of its recommendations.

Recommendations adopted by the Conference may call for new legislation or for action on the part of affected agencies. A substantial number of recommendations were implemented prior to the termination of Conference activities in 1995.

The Chairman may make independent inquiries into procedural matters, including matters proposed by individuals inside or outside the Government. The purpose of such inquiries is to determine whether the problems should be made the subject of Conference study in the interest of developing fair and effective procedures.

Upon the request of the head of a department or agency, the Chairman is authorized to furnish advice and assistance on matters of administrative procedure. The Conference may collect information and statistics from departments and agencies and publish such reports as it considers useful for evaluating and improving administrative processes. The Conference also serves as a forum for the interchange among departments and agencies of information that may be useful in improving administrative practices and procedures.

Sources of Information

The Conference will make available, principally through the Internet, copies of its recommendations and reports, as well as information about work currently in progress.

The African Development Foundation promotes development and empowerment in Africa and enhances and strengthens U.S. relations with Africa through effective development assistance.

The African Development Foundation was established by the African Development Foundation Act (22 U.S.C. 290h) as a Government corporation to support the self-help efforts of the poor in Africa. The Foundation is led by a Board of Directors, consisting of a Chairman, a Vice Chairman, and five Board Members, nominated by the President with the advice and consent on the Senate.

The Foundation invests in private and nongovernmental organizations in Africa to promote and support innovative enterprise development, generate jobs, and increase incomes of the poor. It seeks to expand local institutional and financial capacities to foster entrepreneurship, ownership, and community-based economic development among marginalized and underserved populations in sub-Saharan Africa.

The Broadcasting Board of Governors informs, engages, and connects people around the world in support of freedom and democracy.

The Broadcasting Board of Governors (BBG) became an independent agency on October 1, 1999, by authority of the Foreign Affairs Reform and Restructuring Act of 1998 (22 U.S.C. 6501 note). It is composed of nine members. Eight members are appointed by the President and confirmed by the Senate; the ninth, an ex officio member, is the Secretary of State.

The BBG serves as the governing body for all civilian U.S. international broadcasting and provides programming in 61 languages via radio, television, and the Internet. The BBG broadcast services include the Voice of America, the Office of Cuba Broadcasting, Radio Free Europe/Radio Liberty, Radio Free Asia, and the Middle East Broadcasting Networks.

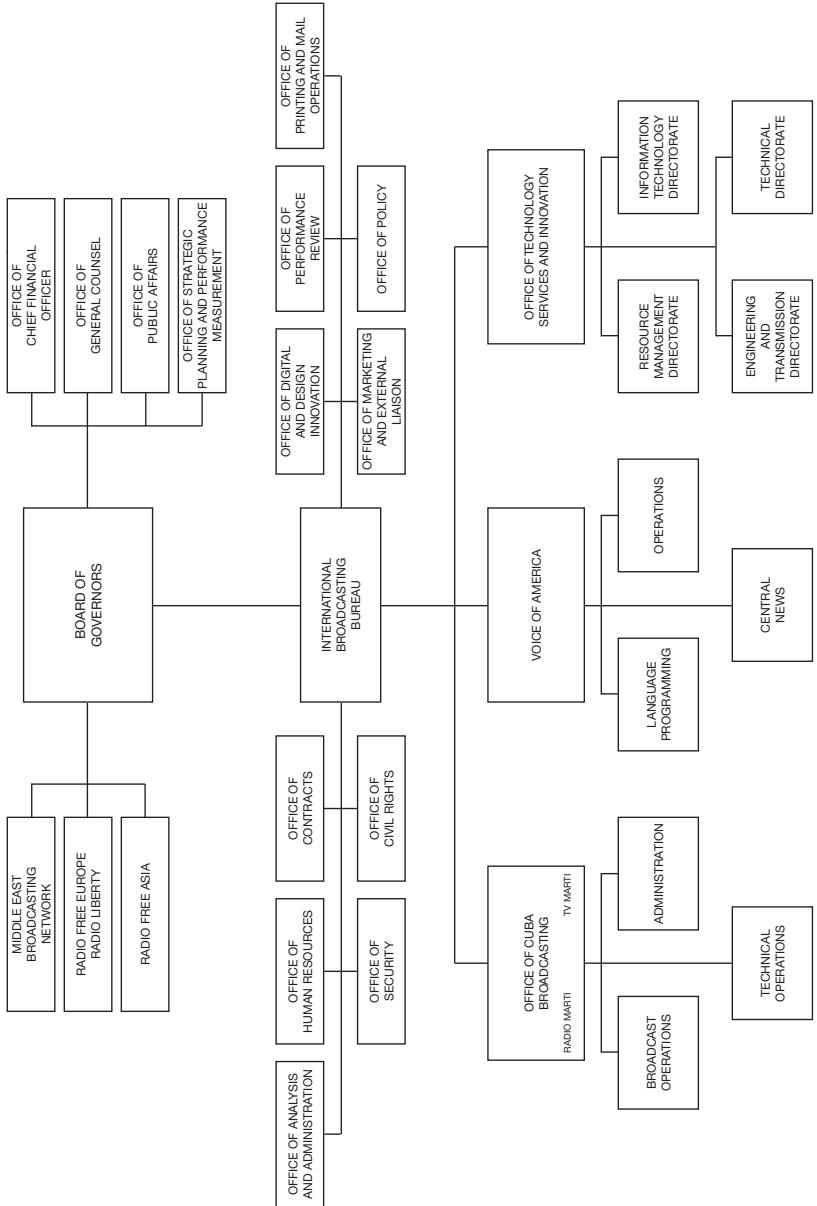

All BBG broadcast services adhere to the broadcasting standards and principles of the International Broadcasting Act of 1994, which include reliable, accurate, and comprehensive news; balanced and comprehensive presentations of U.S. thought, institutions, and policies, as well as discussions about those policies; information about developments

throughout the world; and a variety of opinions from nations around the world.

Activities

International Broadcasting Bureau The International Broadcasting Bureau (IBB) provides program delivery and essential support services for U.S. International Broadcasting. IBB is responsible for the agency's strategic planning and for integrating activities across the Federal and grantee broadcasters for greater organizational efficiency. IBB manages a global network of transmitting sites, and extensive system of leased satellite and fiber optic circuits, and an increasing variety of rapidly growing Internet and mobile audience platforms and services. IBB is responsible for program placement services and marketing for all BBG broadcast organizations. It provides research and evaluations of broadcasts and produces Voice of America editorials. IBB manages the agency's financial operations, legal support, and communications, and also provides information technology,

human resources, Equal Employment Opportunity, procurement, security, and other administrative support for the agency.

Internet, <http://www.bbg.gov>.

Voice of America The Voice of America (VOA) is a multimedia international broadcasting service funded by the U.S. Government through the Broadcasting Board of Governors. VOA began broadcasting in 1942 and now reaches more than 134 million people worldwide. VOA provides accurate, comprehensive, and trustworthy news and information, as well as informed discussion about the United States and the world. It strives to engage audiences in regions deemed critical to the U.S. through whatever medium—radio, television, Internet, or digital media—the people of those regions prefer. VOA broadcasts approximately 1,800 hours of news, information, educational, and cultural programming every week to an estimated worldwide audience of approximately 134 million people. Programs are produced in 45 languages.

Internet, <http://www.voanews.com>.

Radio Free Europe/Radio Liberty

Radio Free Europe/Radio Liberty (RFE/RL) is a private nonprofit corporation reaching more than 23 million people in 28 languages and in 21 countries, including Afghanistan, Iran, Iraq, Pakistan, and Russia. RFE/RL journalists provide what many people cannot get locally: uncensored news, responsible discussion, and open debate. RFE/RL uses the latest digital technologies—the Internet, SMS text messaging, online video, satellite radio, and popular social media networks—and trusted broadcast radio to reach people in some of the most closed societies on Earth. With more than 60 years of surrogate broadcasting experience, RFE/RL continues to bring audiences the rich, immediate, and interactive content they seek. RFE/RL is funded by a grant from the BBG.

Internet, <http://www.rferl.org>.

Radio Free Asia Radio Free Asia (RFA), is a private, nonprofit news organization, operating under a grant from the BBG. Broadcasting daily in nine languages to listeners in Asia whose governments restrict media, RFA delivers award-winning, reliable news and information, along with a range of voices and opinions from within Asia, to demonstrate freedom of expression over the airwaves, on television, and online. Through shortwave, medium wave, satellite and transmission television, social media, and the Internet, RFA broadcasts in Mandarin, Cantonese, Uighur, three Tibetan dialects, Burmese, Vietnamese, Korean, Lao, and Khmer. Headquartered in Washington, D.C., RFA has seven overseas bureaus and a vast network of correspondence around the world. RFA is funded by a grant from the Broadcasting Board of Governors.

Internet, <http://www.rfa.org>.

Middle East Broadcasting Networks

The Middle East Broadcasting Networks, Inc. (MBN) is a nonprofit news organization that operates Alhurra Television, Radio Sawa, and Afia Darfur under a grant from the BBG. Alhurra, Radio Sawa, and Afia Darfur provide an open line of communication between the people of the Middle East and the United States. MBN's networks deliver accurate information on the United States, its policies, and its people with a broad range of perspectives and an exchange of ideas on relevant issues. MBN networks have an audience of more than 30 million people and 21 countries in the Middle East and North Africa. Internet, www.radiosawa.com and www.alhurra.com.

Office of Cuba Broadcasting The Office of Cuba Broadcasting conducts the operations of the Martí at its headquarters in Miami, FL. The Martí are a multimedia hub of news, information, and analysis that provides the people of Cuba with interactive programs 7 days a week through television (satellite and transmission), shortwave and medium wave radio, as well as flash drives, emails, DVDs, and SMS text. Combined with the online platform, *martinoticias*.

[For the Central Intelligence Agency statement of organization, see the Code of Federal Regulations, Title 32, Part 1900]

The Central Intelligence Agency collects, evaluates, and disseminates vital information on political, military, economic, scientific, and other developments abroad needed to safeguard national security.

The Central Intelligence Agency was established by the National Security Act of 1947, as amended (50 U.S.C. 401 et seq.). It now functions under that statute, Executive Order 12333 of December 4, 1981, the Intelligence Reform and Terrorism Prevention Act of 2004 (50 U.S.C. 401 note), and other laws, Executive orders, regulations, and directives.

The Central Intelligence Agency is headed by the Director, who is appointed by the President with the advice and consent of the Senate.

The Central Intelligence Agency uses human source collection and other appropriate means to gather intelligence; however, it neither carries out internal security functions nor exercises police, subpoena, or other law enforcement powers. The Agency correlates, evaluates, and disseminates national security intelligence. It also directs and coordinates intelligence collecting outside the United States by U.S. Intelligence Community elements

authorized to engage in human source collection.

In coordination with other departments, agencies, and authorized elements of the United States Government, it ensures that resources are used effectively and that adequate consideration is given to the risks, both to the United States and to those involved in collecting intelligence abroad. The Agency carries out other intelligence-related tasks that are necessary for safeguarding national security, as the President or the Director of National Intelligence (DNI) may indicate. It coordinates, under the direction of the DNI and consistent with section 207 of the Foreign Service Act of 1980, relationships among elements of the U.S. Intelligence Community and the intelligence or security services of foreign governments or international organizations in matters of national security and intelligence that is acquired clandestinely.

[For the Commodity Futures Trading Commission statement of organization, see the Code of Federal Regulations, Title 17, Part 140]

The Commodity Futures Trading Commission fosters open, competitive, and financially sound markets by protecting market users and the public from fraud, manipulation, abusive practices, and systemic risk related to derivatives subject to the Commodity Exchange Act.

The Commodity Futures Trading Commission was established by the Commodity Futures Trading Commission Act of 1974 (7 U.S.C. 4a). The Commission began operation in April 1975, and its authority to regulate futures trading was renewed by Congress in 1978, 1982, 1986, 1992, 1995, 2000, and 2008. In 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301 et seq.) gave the Commission new and expanded responsibilities and authorities for regulation of the swaps marketplace.

The Commission consists of five Commissioners who are appointed by the President, with the advice and consent of the Senate. One Commissioner is designated by the President to serve as Chairman. The Commissioners serve staggered 5-year terms, and by law no more than three Commissioners can belong to the same political party. The Commission has nine major operating components: the Divisions of Market Oversight, Clearing and Risk, Swap Dealer and Intermediary Oversight, Enforcement, and the Offices of the

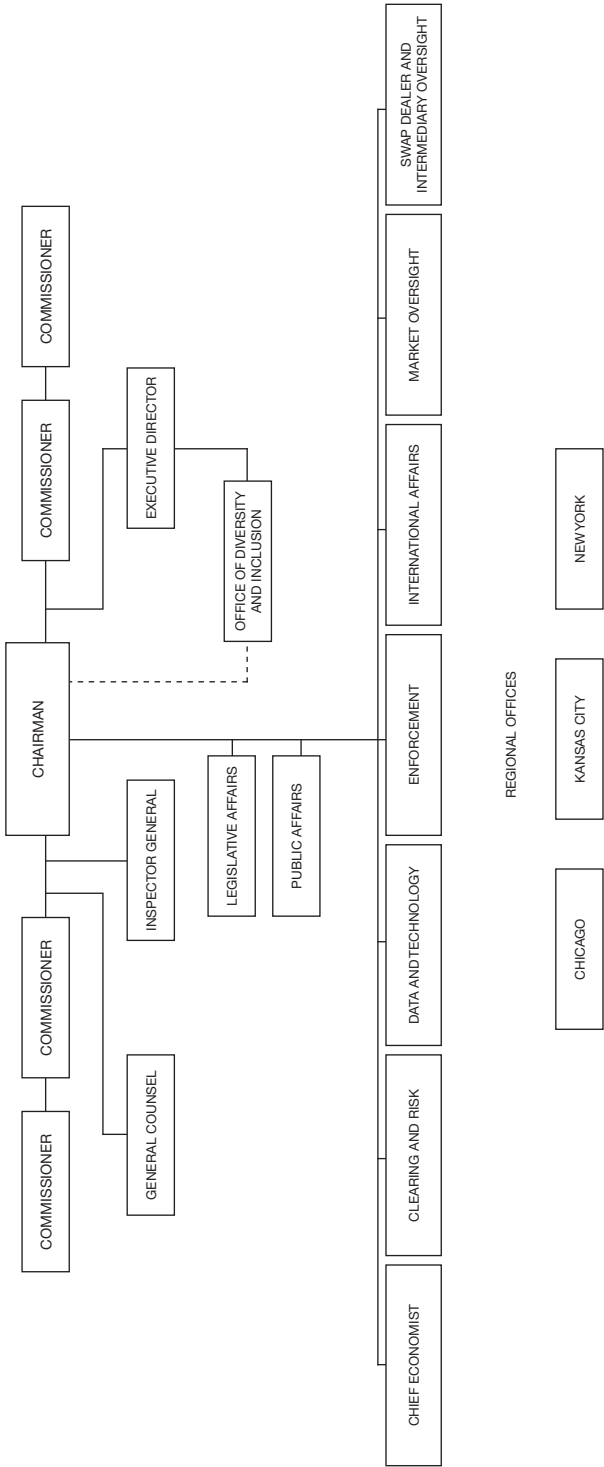

Executive Director, the General Counsel, the Chief Economist, International Affairs, and Data and Technology.

Activities

The Commission regulates trading on the U.S. futures and options markets, which offer commodity futures and options contracts, as well as the swaps marketplace in the United States. This oversight of the derivatives marketplace is carried out through the various activities of the Commission.

The Commission oversees derivatives clearing organizations and other market participants in the clearing process, including futures commission merchants, swap dealers, major swap participants, and large traders. In addition, the Commission oversees the registration and compliance of intermediaries and futures industry self-regulatory organizations, including U.S. derivatives exchanges and the National Futures Association. The Commission also oversees trade execution facilities and data repositories, conducts surveillance, reviews new exchange applications, and examines

COMMODITY FUTURES TRADING COMMISSION

existing exchanges to ensure compliance with applicable core principles. Under the Dodd-Frank Act, the Commission is also responsible for developing and monitoring compliance with regulations addressing registration, business conduct standards, capital adequacy, and margin requirements for swap dealers and major swap participants.

Exercising the Commission's authority, its staff also investigates and prosecutes alleged violations of the Commodity Exchange Act and Commission

regulations. Potential violations include fraud, manipulation, and other abuses concerning commodity derivatives and swaps that threaten market integrity, market participants, and the general public.

The Commission maintains regional offices in Chicago, IL, and New York, NY, where many of the Nation's designated contract markets are located. An additional regional office is located in Kansas City, MO.

The Consumer Financial Protection Bureau makes markets for consumer financial products and services work for Americans—whether they are applying for a mortgage, choosing among credit cards, or using any number of other consumer financial products.

The Consumer Financial Protection Bureau (CFPB) is an independent Federal agency established by title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2012 (12 U.S.C. 5491). CFPB is headed by a Director, who is appointed by the President and confirmed by the Senate.

CFPB regulates the offering and provision of consumer financial products and services under Federal consumer financial laws. The Bureau works to give consumers the information they need to understand the terms of their agreements with financial companies and to make regulations and guidance as clear and streamlined as possible so providers of consumer financial products and services can follow the rules on their own.

CFPB's key responsibilities are to write rules, supervise companies, and enforce Federal consumer financial protection laws; restrict unfair, deceptive, or

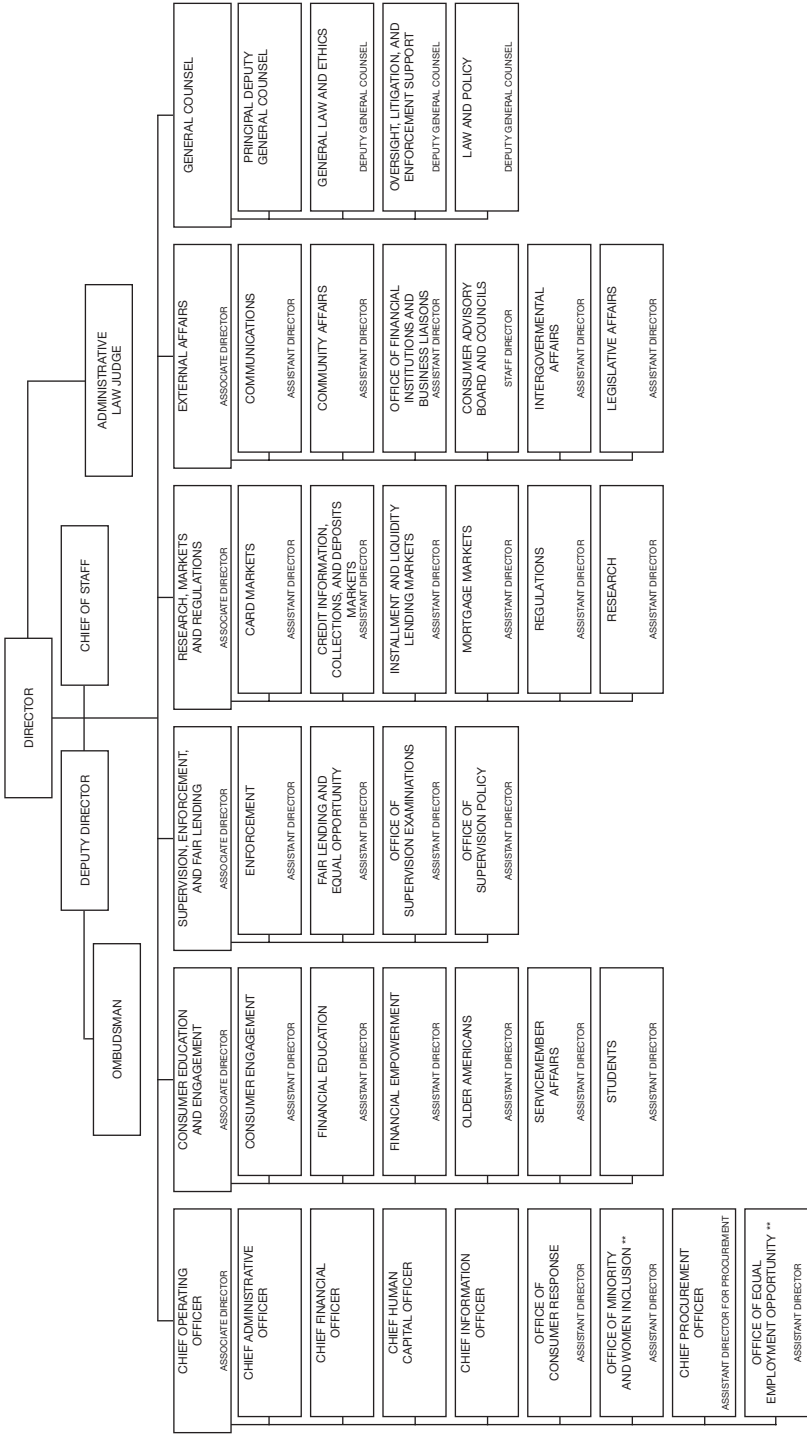

abusive acts or practices; take consumer complaints; promote financial education; research consumer behavior; monitor financial markets for new risks to consumers; and enforce laws that outlaw discrimination and other unfair treatment in consumer finance.

members, who are appointed by the President with the advice and consent of the Senate, for 7-year terms.

The Commission implements provisions of the Flammable Fabrics Act (15 U.S.C. 1191); Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471); Federal Hazardous Substances Act (15 U.S.C. 1261); act of August 2, 1956 (15 U.S.C. 1211), prohibiting the transportation of refrigerators without door safety devices; Children's Gasoline Burn Prevention Act (15 U.S.C. 2056 note); and Virginia Graeme Baker Pool and Spa Safety Act (15 U.S.C. 8001 et seq.).

Activities

To help protect the public from risks of injury and deaths associated with consumer products, the Commission requires manufacturers to report defects in products that could present substantial hazards and carry out consumer recalls to address hazards in consumer products; collects information on consumer product-related injuries and maintains an Injury Information Clearinghouse; conducts research on consumer product hazards; assists in the development of voluntary safety standards; establishes

The Corporation for National and Community Service fosters civic engagement through service and volunteering.

The Corporation for National and Community Service (CNCS) was established on October 1, 1993, by the National and Community Service Trust Act of 1993 (42 U.S.C. 12651 et seq.). CNCS is a Federal corporation governed by a 15-member bipartisan Board of Directors, appointed by the President with the advice and consent of the Senate. The Board has responsibility for overall policy direction of the Corporation's activities and has the power to make all final grant decisions, approve the strategic plan and annual budget, and advise and make recommendations to the President and the Congress regarding changes in the national service laws.

As the Nation's largest grantmaker for service and volunteering, CNCS engages more than 5 million Americans in service through its core programs—AmeriCorps, Senior Corps, the Social Innovation Fund, and the George H.W. Bush Volunteer Generation Fund—and leads President Obama's national call to service initiative, United We Serve. CNCS harnesses America's most powerful resource, the energy and talents of our citizens, to solve problems. From grade school through retirement, CNCS empowers Americans and fosters a lifetime of service to improve lives, strengthen communities, and foster civic engagement.

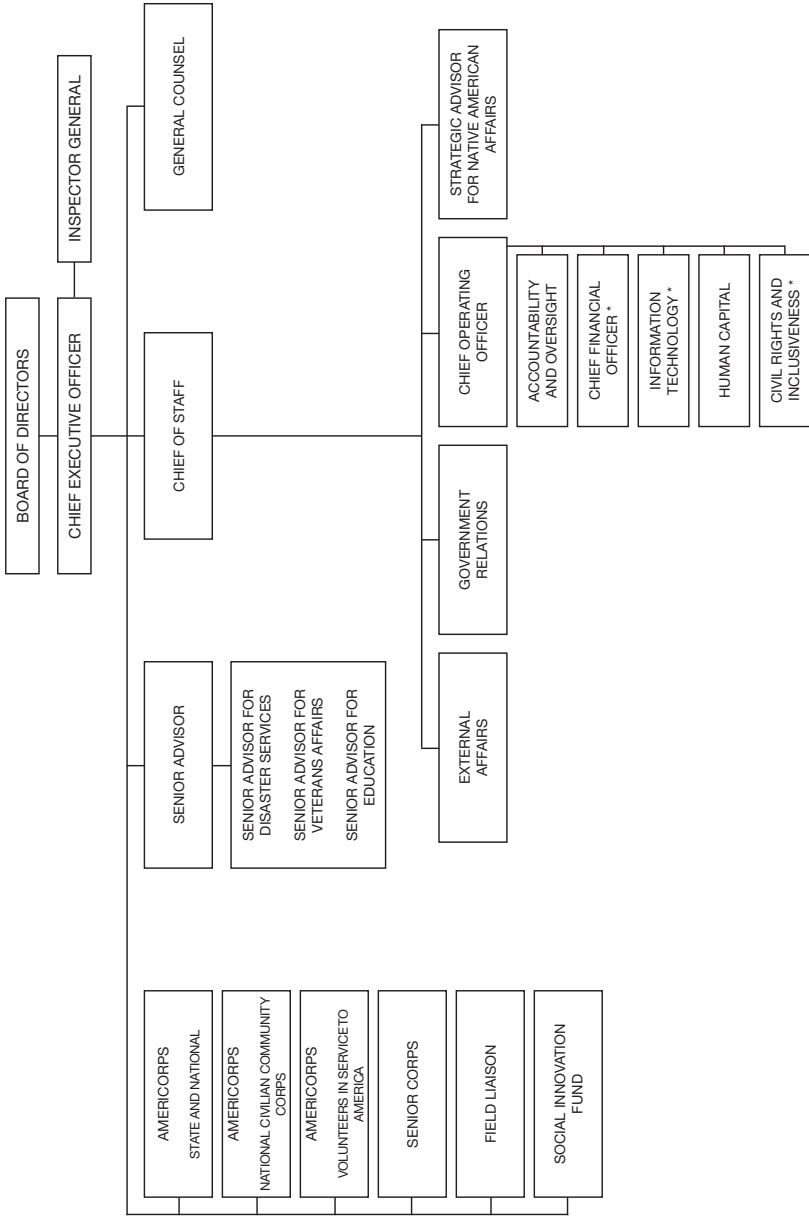

AmeriCorps AmeriCorps provides intensive opportunities for more than 75,000 Americans each year to serve their communities. AmeriCorps members

recruit, train, and supervise community volunteers, tutor and mentor youth, build affordable housing, teach computer skills, clean parks and streams, run afterschool programs, and help communities respond to disasters and nonprofit groups to become self-sustaining. In exchange for a year of full-time service, AmeriCorps members earn an education award that can be used to pay for college or graduate school, or to pay back qualified student loans. Since 1994 more than 800,000 Americans have served in AmeriCorps. AmeriCorps has three main programs: AmeriCorps*State and National, AmeriCorps*NCCC, and AmeriCorps*VISTA.

AmeriCorps*State and National supports a wide range of local service programs that engage thousands of Americans in intensive community service each year, providing grants to a network of local and national organizations and agencies committed to using national service to address critical community needs in education, public safety, health, and the environment. Each of these organizations and agencies, in turn, uses their AmeriCorps funding to recruit, place, and supervise AmeriCorps members nationwide.

AmeriCorps*State and National operates through national and local nonprofit organizations, public agencies, and faith-based and community groups. More than three-quarters of AmeriCorps grant funding goes to Governor-appointed State service commissions, which in turn award

grants to nonprofit groups to respond to local needs. AmeriCorps*NCCC (National Civilian Community Corps) is a team-based, residential program for men and women from age 18 to 24 that combines the best practices of civilian service with aspects of military service, including leadership and team building. AmeriCorps*VISTA (Volunteers in Service to America) members serve full-time, for 1 year, in nonprofits, public agencies, and faith-based organizations to fight illiteracy, improve health services, build and expand business, increase housing opportunities, and bridge the digital divide.

Senior Corps Senior Corps taps the skills, talents, and experience of more than 360,000 Americans age 55 and older to meet a wide range of community challenges through three programs: Retired and Senior Volunteers Program (RSVP), Foster Grandparents, and Senior Companions. RSVP volunteers help local police departments conduct safety patrols, participate in environmental projects, provide intensive educational services to children and adults, respond to natural disasters, and recruit other volunteers. Foster Grandparents serve as tutors and mentors to young people with special needs. Senior Companions help homebound seniors and other adults maintain independence in their own homes. Senior Corps volunteers served 1.5 million Americans, including 560,000 veterans and 300,000 children.

Social Innovation Fund The Social Innovation Fund (SIF) is an effective approach to transforming lives and communities that positions the Federal Government to act as a catalyst for positive impact by mobilizing public and private resources to find and grow community-based nonprofit with evidence of strong results. An initiative enacted under the Edward M. Kennedy Serve America Act, the SIF is a new way of doing business for the Federal Government that has potential to affect urgent national challenges. The SIF targets millions of dollars in public-private funds to expand effective solutions in three areas: economic

opportunity, healthy futures, and youth development and social support.

Other Initiatives As the Federal agency for service and volunteerism, CNCS carries out the Call to Service authority in multiple ways. CNCS's initiatives include: the Martin Luther King, Jr. National Day of Service, the September 11th National Day of Service and Remembrance, National Mentoring Month, the President's Higher Education Community Service Honor Roll, and United We Serve, a nationwide effort launched with the White House in 2009 to engage Americans in service to meet community needs. As a result of United We Serve, hundreds of thousands of Americans have joined with friends and neighbors to replenish food banks, provide health services, support veterans and military families, restore public lands, and more. CNCS has also partnered with other agencies and nonprofit organizations on the "Let's Read!" initiative to reduce summer reading loss and the "Let's Move!" initiative to combat childhood obesity, and "Joining Forces," an effort led by First Lady Michelle Obama and Dr. Jill Biden to engage Americans in supporting veterans and military families.

The Corporation and its programs work with the USA Freedom Corps, established on January 29, 2002, by Executive Order 13254. USA Freedom Corps is a White House initiative to foster a culture of citizenship, service, and responsibility, and help all Americans answer the President's call to service.

The Defense Nuclear Facilities Safety Board reviews and evaluates the content and implementation of standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy.

The Defense Nuclear Facilities Safety Board was established as an independent agency on September 29, 1988, by the Atomic Energy Act of 1954, as amended (42 U.S.C. 2286-2286i).

The Board is composed of five members appointed by the President with the advice and consent of the Senate. Members of the Board are appointed from among United States citizens who are respected experts in the field of nuclear safety.

Activities

The Defense Nuclear Facilities Safety Board reviews and evaluates the content and implementation of standards

for defense nuclear facilities of the Department of Energy (DOE); investigates any event or practice at these facilities which may adversely affect public health and safety; and reviews and monitors the design, construction, and operation of facilities. The Board makes recommendations to the Secretary of Energy concerning DOE defense nuclear facilities to ensure adequate protection of public health and safety. In the event that any aspect of operations, practices, or occurrences reviewed by the Board is determined to present an imminent or severe threat to public health and safety, the Board transmits its recommendations directly to the President.

The Environmental Protection Agency protects human health and safeguards the environment.

The Environmental Protection Agency (EPA) was established in the executive branch as an independent agency pursuant to Reorganization Plan No. 3 of 1970 (5 U.S.C. app.), effective December 2, 1970. The Agency facilitates coordinated and effective governmental action to protect the environment. It serves as the public's advocate for a livable environment.

Core Functions

Air and Radiation The Office of Air and Radiation develops air quality policies, programs, regulations, and standards, including emission standards for stationary and mobile sources, and for hazardous air pollutants. It also conducts research and disseminates information on indoor air pollutants. This Office provides technical direction, support, and evaluation of regional air activities; offers training in the field of air pollution

ENVIRONMENTAL PROTECTION AGENCY

control; gives technical assistance to States and agencies operating radiation protection programs; and provides technical support and policy direction to international efforts to reduce global and transboundary air pollution and its effects.

For further information, call 202-564-7400.

Water The Office of Water develops national programs, technical policies, and regulations for controlling water pollution and protecting water supplies, including ground water, drinking water, and marine and estuarine habitats. This Office controls pollution runoff; develops water quality standards and effluent guidelines; supports regional water activities; develops programs for technical assistance and technology transfer; and offers water quality training.

For further information, call 202-564-5700.

Solid Waste and Emergency Response

The Office of Solid Waste and Emergency Response provides policy, guidance, and direction for EPA's hazardous waste and emergency response programs. It develops policies, standards, and regulations for hazardous waste treatment, storage, and disposal; develops and implements programs to detect, prevent, and clean up leakage from underground storage tanks; provides technical assistance in safe waste management; administers the Brownfields program, which advocates for redevelopment and reuse of contaminated land; and manages the Superfund toxic waste cleanup program to respond to hazardous waste sites and chemical and oil spill accidents.

For further information, call 202-566-0200.

Chemical Safety and Pollution

Prevention The Office of Chemical Safety and Pollution Prevention supports public access to information on industrial chemicals; stops pollution through innovative strategies; evaluates and regulates pesticides and industrial chemicals to safeguard all Americans; establishes safe levels of residual pesticide on food; formulates national

strategies for controlling bioaccumulative and toxic substances; and develops scientific criteria for assessing chemical substances, standards for test protocols for chemicals, rules and procedures for industry reporting, and scientific information for the regulation of pesticides and toxic chemicals.

For further information, call 202-564-2902.

Research and Development The Office of Research and Development conducts and supports research for understanding and resolving the Nation's most serious environmental threats. It develops methods and technologies to reduce exposure to pollution and prevent its creation. This Office assesses health and ecological risk and makes recommendations for sound management strategies to assure that pollution problems of the highest risk receive optimum remediation. It manages the Science To Achieve Results Program, which awards research grants to scientists in universities and environmental science students.

For further information, call 202-564-6620.

Enforcement and Compliance

Assurance The Office of Enforcement and Compliance Assurance manages a national criminal enforcement, forensics, and training program. This Office also manages EPA's regulatory, site remediation, and Federal facilities enforcement and compliance assurance programs.

For further information, call 202-564-2440.

Regional Offices

EPA's 10 regional offices are committed to the development of strong local programs for pollution abatement. The Regional Administrators are responsible for accomplishing, within their regions, the Agency's national program objectives. They develop, propose, and implement an approved regional program for comprehensive and integrated environmental protection activities.

The Equal Employment Opportunity Commission enforces laws prohibiting employment discrimination based on race, color, gender, religion, national origin, age, disability, or genetic information.

The Equal Employment Opportunity Commission (EEOC) was created by Title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e-4), and became operational July 2, 1965. Laws enforced by EEOC

include Title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.), the Age Discrimination in Employment Act of 1967 (29 U.S.C. 621 et seq.), sections of the Rehabilitation Act of 1973 (29

U.S.C. 791 et seq.) and the Civil Rights Act of 1991 (105 Stat. 1071), the Equal Pay Act of 1963 (29 U.S.C. 206), Title I of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), and Title II of the Genetic Information Non-Discrimination Act of 2008 (42 U.S.C. 2000ff et seq.).

The EEOC is a bipartisan commission comprising five members appointed by the President, with the advice and consent of the Senate, for staggered 5-year terms. The President designates a Chairman and Vice Chairman. In addition to the members of the Commission, the President appoints a General Counsel, with the advice and consent of the Senate, to support the Commission and provide direction, coordination, and supervision of the EEOC's litigation program. The General Counsel serves for a term of 4 years.

Activities

Enforcement The EEOC enforces its statutory, regulatory, policy, and program responsibilities through its headquarters-based Office of Field Programs, Office of General Counsel, and 53 field offices. The field offices receive charges of discrimination from the public and use a variety of resolution methods, tailored to each charge, from voluntary mediation to full-scale investigation and conciliation. The field staff is responsible for achieving a wide range of objectives that focus on the quality, timeliness, and appropriateness of individual, class, and systemic charges; for securing relief for victims of discrimination in accordance with Commission policies; for counseling individuals about their rights under the laws enforced by the EEOC; and for conducting outreach and technical assistance programs. The Office of General Counsel conducts the Commission's litigation in U.S. District Courts and Courts of Appeal.

For information on the nearest field office, visit our Web site at www.eeoc.gov/field/index.cfm.

Complaints Against the Federal Government

The EEOC establishes the procedures for Federal employees and job applicants to file complaints of

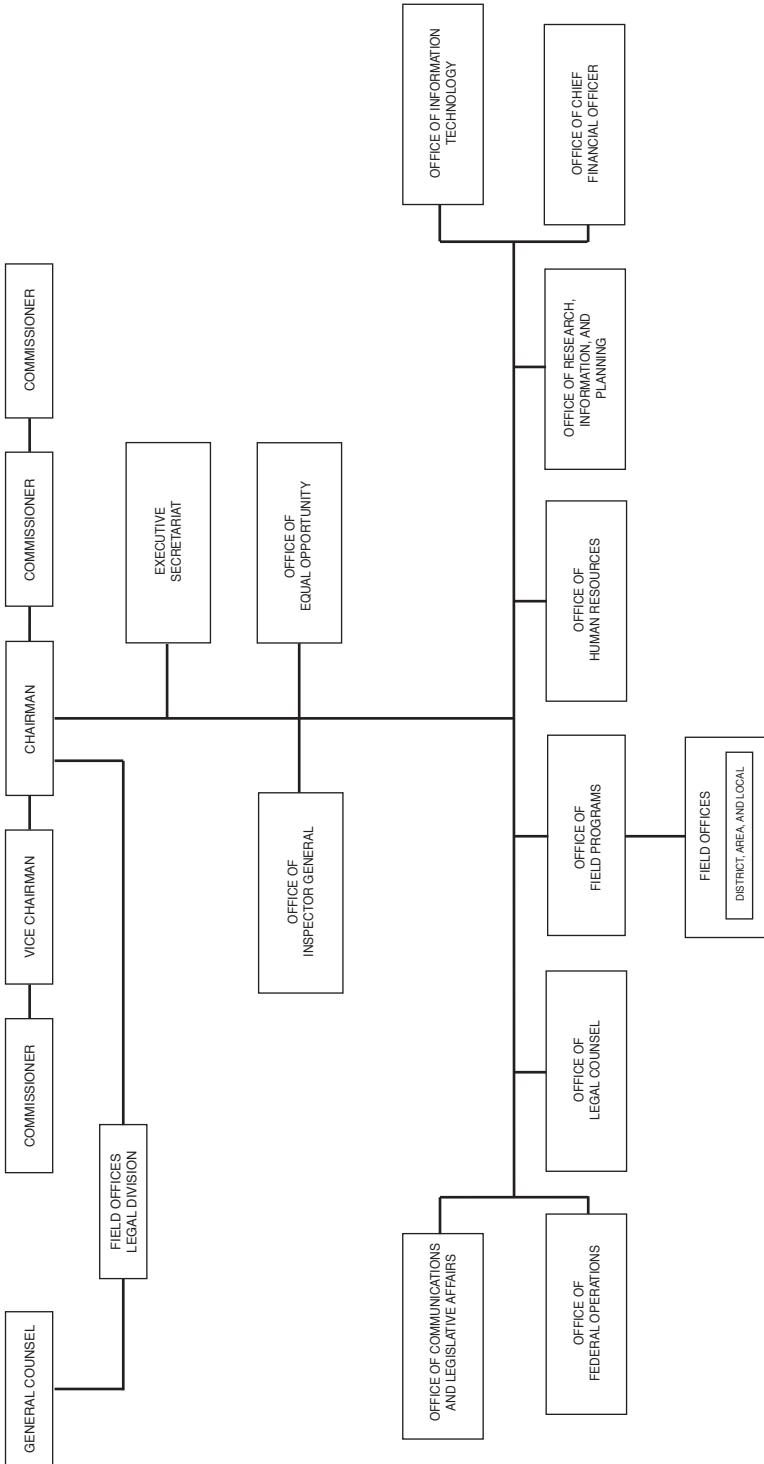

employment discrimination or retaliation. The agency charged with discrimination is responsible for informal counseling and, if a complaint is filed and accepted, investigating the claims raised therein. At the conclusion of the investigation, complainants may request a hearing before an EEOC administrative judge or that the agency issue a final decision on the matter. The agency's final decision or final action after a hearing may be appealed to the Commission.

In addition, the Office of Federal Operations provides oversight and technical assistance concerning equal employment opportunity (EEO) complaint adjudication and the maintenance of affirmative employment programs throughout the Federal Government. Using the guidance and principles contained in the EEOC's EEO Management Directive 715, the Commission monitors and evaluates Federal agencies' affirmative employment programs under Title VII and section 501 of the Rehabilitation Act and ensures that all Federal employees compete on a fair and level playing field.

Other Activities The Commission promotes voluntary compliance with EEO statutes through a variety of educational and technical assistance activities. The Commission's outreach and education programs provide general information about the EEOC, its mission, rights and responsibilities under the statutes enforced by the Commission, and the charge/complaint process. EEOC representatives are available, on a limited basis and at no cost, to make presentations and participate in meetings, conferences, and seminars with employee and employer groups, professional associations, students, nonprofit entities, community organizations, and other members of the general public.

The Commission offers more in-depth training tailored to employers for a fee. This training is available to private employers and State, local, and Federal government personnel through the EEOC Training Institute. The EEOC Training Institute provides a wide variety of training to educate managers and employees on the laws enforced by the

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

EEOC and how to prevent and eliminate discrimination in the workplace.

The Commission publishes data on the employment status of minorities and women through six employment surveys covering private employers, apprenticeship programs, labor unions, State and local governments, elementary and secondary schools, and colleges and universities. This collection of data is shared with selected Federal agencies and is made available, in appropriate form, for public use.

Sources of Information

Electronic Access Information regarding the programs and activities of the Commission is available through the Internet at www.eeoc.gov. EEOC's most popular publications may be downloaded from that site in PDF format for easy reproduction.

Employment The Commission hires in many different job categories, including information intake representatives, office automation assistants, investigators, paralegals, program analysts, attorneys, mediators, and social scientists. The Export-Import Bank assists in financing the export of U.S. goods and services to international markets.

The Export-Import Bank of the United States (Ex-Im Bank), established in 1934, operates as an independent agency of the U.S. Government under the authority of the Export-Import Bank Act of 1945, as amended (12 U.S.C. 635 et seq.). Its Board of Directors consists of a President and Chairman, a First Vice President and Vice Chair, and three other Directors. All are appointed by the President with the advice and consent of the Senate.

Ex-Im Bank's mission is to help American exporters meet government-supported financing competition from other countries, so that U.S. exports can compete for overseas business on the basis of price, performance, and service, and in doing so help, and sustain U.S. jobs. The Bank also fills gaps in the availability of commercial financing for creditworthy export transactions by providing a variety of financing

mechanisms, including working capital guarantees, export-credit insurance, and financing to help foreign buyers purchase U.S. goods and services.

Ex-Im Bank is required to find a reasonable assurance of repayment for each transaction it supports. Its legislation requires it to meet the financing terms of competitor export credit agencies, but not to compete with commercial lenders. Legislation restricts the Bank's operation in some countries and its support for military goods and services.

Ex-Im Bank operates at no cost to the U.S. taxpayer and has earned nearly \$1.6 billion above its operating costs since fiscal year 2008. Its total authorizations support an estimated \$50 billion in U.S. export sales and approximately 255,000 American jobs in communities across the country.

Activities

Ex-Im Bank is authorized to have loans, guarantees, and insurance outstanding at any one time in aggregate amount not in excess of \$120 billion. It supports U.S. exporters through a range of diverse programs. These programs are offered under four broad categories of export financing: working capital guarantees, export credit insurance, loan guarantees, and direct loans.

Ex-Im Bank initiated several changes to enhance its support to small business. The Bank's regional offices are now

dedicated exclusively to small business outreach and support. The Bank also established a Small Business Committee to coordinate, evaluate, and make recommendations on Bank functions necessary for a successful small business strategy, and the small business division is led by a senior vice president.

Regional Offices

The Export-Import Bank operates export finance centers and field offices across the country. A complete listing with contact information is available at www.exim.gov/about/contact/.

The Farm Credit Administration ensures the safe and sound operation of the banks, associations, affiliated service organizations, and other entities of the Farm Credit System, and protects the interests of the public and those who borrow from Farm Credit institutions or invest in Farm Credit securities.

The Farm Credit Administration (FCA) was established as an independent financial regulatory agency in the executive branch of the Federal Government by Executive Order 6084

on March 27, 1933. FCA carries out its responsibilities by conducting examinations of the various Farm Credit lending institutions, which are Farm Credit Banks, the Agricultural Credit

FARM CREDIT ADMINISTRATION

* Reports to the Board for policy and to the Chief Executive Officer for administration.

** Maintains a confidential advisory relationship with each of the Board members.

Bank, Agricultural Credit Associations, and Federal Land Credit Associations.

FCA also examines the service organizations owned by the Farm Credit lending institutions, as well as the National Consumer Cooperative Bank.

FCA policymaking is vested in the Farm Credit Administration Board, whose three full-time members are appointed to 6-year terms by the President, with the advice and consent of the Senate. One member of the Board is designated by the President as Chairman and serves as the Administration's chief executive officer. The Board is responsible for approving rules and regulations, providing for the examination and regulation of and reporting by Farm Credit institutions, and establishing the policies under which the Administration operates. Board meetings are regularly held on the second Thursday of the month and are subject to the Government in the Sunshine Act. Public announcements of these meetings are published in the Federal Register.

The lending institutions of the Farm Credit System were established to provide adequate and dependable credit and closely related services to farmers, ranchers, and producers or harvesters of aquatic products; persons engaged in providing on-the-farm services; rural homeowners; and associations of farmers, ranchers, and producers or harvesters of aquatic products, or federations of such associations that operate on a cooperative basis and are engaged in marketing, processing, supply, or business service functions for the benefit of their members. Initially capitalized by the United States Government, the Farm Credit lending institutions are organized as cooperatives and are completely owned by their borrowers. The loan funds provided to borrowers by these institutions are obtained primarily through the sale of securities to investors in the Nation's capital markets.

The Agricultural Credit Act of 1987, as amended (12 U.S.C. 2279aa-1), established the Federal Agricultural Mortgage Corporation (commonly known as Farmer Mac). The Corporation, designated as part of the Farm Credit System, is a federally chartered

instrumentality of the United States and promotes the development of a secondary market for agricultural real estate and rural housing loans. Farmer Mac also provides guarantees for the timely payment of principal and interest on securities representing interests in or obligations backed by pools of agricultural real estate loans. The Administration is responsible for the examination and regulation of Farmer Mac to ensure the safety and soundness of its operations.

The Administration manages regulations under which Farm Credit institutions operate. These regulations implement the Farm Credit Act of 1971, as amended (12 U.S.C. 2001), and have the force and effect of law. Similar to the authorities of other Federal regulators of financial institutions, the Administration's authorities include the power to issue cease-and-desist orders, to levy civil monetary penalties, to remove officers and directors of Farm Credit institutions, and to establish financial and operating reporting requirements. Although it is prohibited from participation in routine management or operations of Farm Credit institutions, the Administration is authorized to become involved in these institutions' management and operations when the Farm Credit Act or its regulations have been violated, when taking an action to correct an unsafe or unsound practice, or when assuming a formal conservatorship over an institution.

The Administration does not operate on funds appropriated by Congress; it derives income from assessments collected from the institutions that it regulates and examines. In addition to its headquarters in McLean, VA, the Administration maintains four field offices located in Aurora, CO; Bloomington, MN; Irving, TX; and Sacramento, CA.

Authority for the organization and activities of the Farm Credit System may be found in the Farm Credit Act of 1971, as amended.

[For the Federal Communications Commission statement of organization, see the Code of Federal Regulations, Title 47, Part 0]

The Federal Communications Commission regulates interstate and foreign communications by radio, television, wire, satellite, and cable.

The Federal Communications Commission (FCC) was created by the Communications Act of 1934 (47 U.S.C. 151 et seq.) to regulate interstate and foreign communications by wire and radio in the public interest. The scope of FCC regulation includes radio and television broadcasting; telephone, telegraph, and cable television operation; two-way radio and radio operators; and satellite communication.

The Commission comprises five members, who are appointed by the President with the advice and consent of the Senate. One of the members is designated by the President as Chairman.

Activities

Media Bureau The Media Bureau develops, recommends, and administers policy and licensing programs for the regulation of electronic media, including cable television, multichannel video programming distribution, broadcast television and radio, and satellite services in the United States and its territories. The Bureau also conducts rulemaking proceedings, studies and analyzes electronic media services; resolves waiver petitions, declaratory rulings, and adjudications related to electronic media services; and processes applications for authorization, assignment, transfer, and renewal of media services, including AM, FM, TV, the cable TV relay service, and related matters.

For further information, contact the Media Bureau. Phone, 202-418-7200, or 888-225-5322.

Wireline Competition Bureau The Wireline Competition Bureau advises and makes recommendations to the FCC. The Bureau ensures choice, opportunity, and fairness in the development of wireline communications; assesses the present and future wireline communication needs of the Nation; encourages the development and widespread availability of wireline communication

services; promotes investment in wireline communication infrastructure; and reviews and coordinates orders, programs, and actions initiated by other bureaus and offices in matters affecting wireline communications to ensure consistency with overall FCC policy.

For further information, contact the Wireline Competition Bureau. Phone, 202-418-1500, or 888-225-5322.

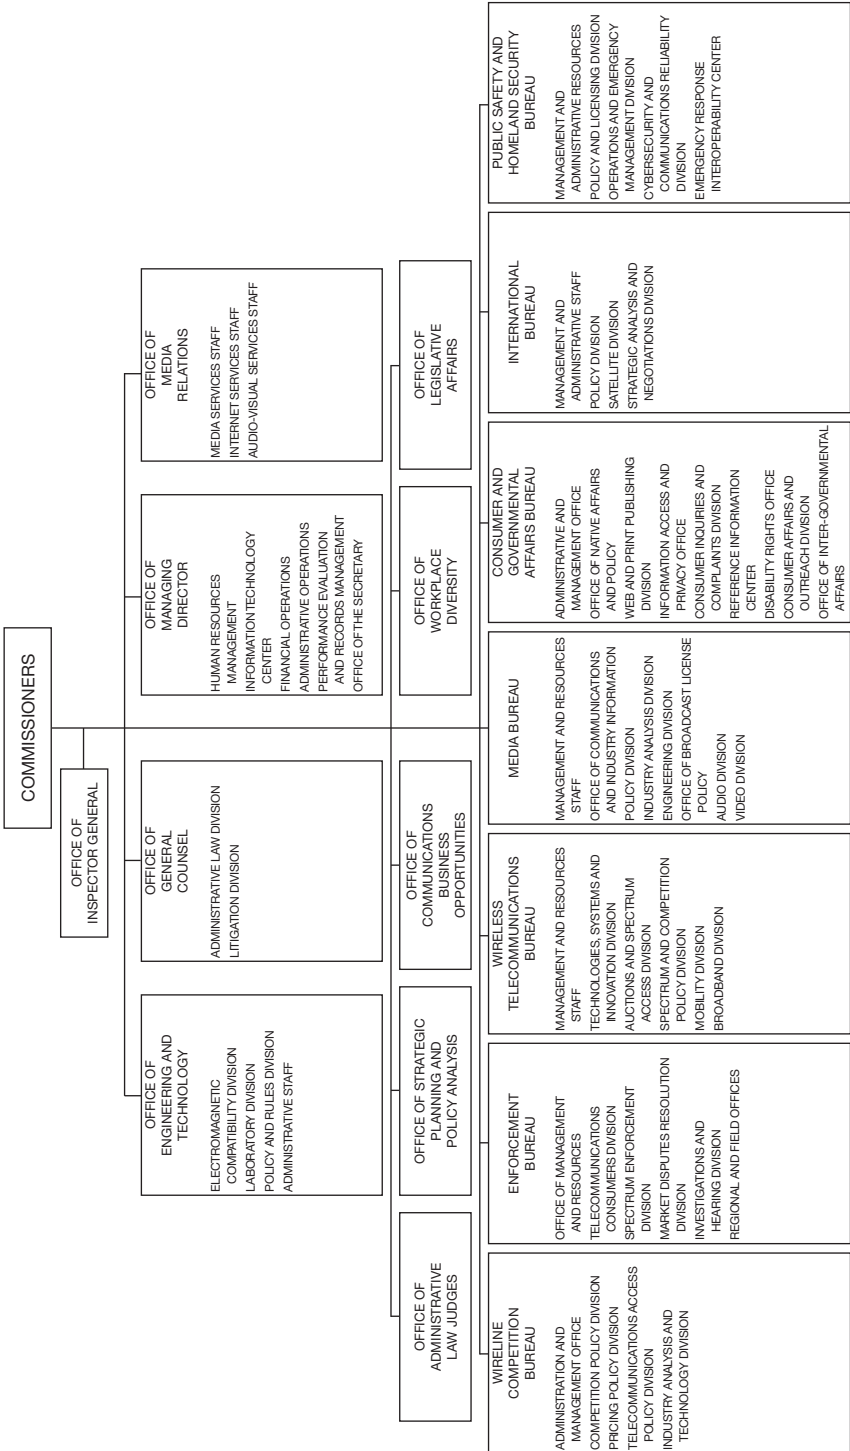

Consumer and Governmental Affairs Bureau

The Consumer and Governmental Affairs Bureau develops and administers the FCC's consumer and governmental affairs policies and initiatives. The Bureau facilitates public participation in the Commission's decisionmaking process; represents the Commission on consumer and Government committees, working groups, task forces, and conferences; works with public, Federal, State, local, and tribal agencies to develop and coordinate policies; oversees the Consumer Advisory Committee and the Intergovernmental Advisory Committee; provides expert advice and assistance regarding compliance with applicable disability and accessibility requirements, rules, and regulations; resolves informal complaints through mediation; and conducts consumer outreach and education programs.

For further information, contact the Consumer and Governmental Affairs Bureau. Phone, 202-418-1400, or 888-225-5322.

Enforcement Bureau The Enforcement Bureau serves as the FCC's primary agency for enforcing the Communications Act, other communications statutes, and the Commission's rules and orders. The Bureau investigates and resolves complaints regarding common carriers (wireline, wireless, and international) and noncommon carriers subject to the Commission's jurisdiction under Title II of the Communications Act; radio frequency interference, equipment, and

FEDERAL COMMUNICATIONS COMMISSION

devices; accessibility to communications services and equipment for persons with disabilities; noncompliance with the lighting and marking of radio transmitting towers and pole attachment regulations; noncompliance with children's television programming commercial limits; and unauthorized construction and operation of communication facilities and false distress signals.

For further information, contact the Enforcement Bureau. Phone, 202-418-7450, or 888-225-5322.

International Bureau The International Bureau serves as the FCC's principal representative in international organizations. It monitors compliance with the terms and conditions of authorizations and licenses granted by the Bureau and enforces them in conjunction with appropriate bureaus and offices; provides advice and technical assistance to U.S. trade officials in the negotiation and implementation of telecommunications trade agreements; and promotes the international coordination of spectrum allocation and frequency and orbital assignments in order to minimize cases of international radio interference involving U.S. licenses.

For further information, contact the International Bureau. Phone, 202-418-0437, or 888-225-5322.

Wireless Telecommunications Bureau The Wireless Telecommunications Bureau administers all domestic commercial and private wireless communication programs and rules. It addresses present and future wireless communication and spectrum needs; promotes access, efficiency, and innovation in the allocation, licensing, and use of electromagnetic spectrum; ensures choice, opportunity, and fairness in the development of wireless communication services and markets; and promotes the development and widespread availability of wireless broadband, mobile, and other wireless communication services, devices, and facilities, including through open networks. The Bureau also develops, recommends, administers, and coordinates policy for wireless communication services, including rulemaking, interpretations, and equipment standards; explains rules

to and advises the public on them and provides rule-interpretation material for the Enforcement Bureau; serves as the FCC's principal policy and administrative resource for all spectrum auctions; and processes wireless service and facility authorization applications.

For further information, contact the Wireless Telecommunications Bureau. Phone, 202-418-0600, or 888-225-5322.

Public Safety and Homeland Security Bureau The Public Safety and Homeland Security Bureau develops, recommends, and administers FCC's policies pertaining to public safety communication. This includes 911 and E911; operability and interoperability of public safety communications; communications infrastructure protection and disaster response; and network security and reliability. The Bureau also serves as a clearinghouse for public safety communication information, which encompasses priority emergency communication programs; alert and warning of U.S. citizens; continuity of government operations and operational planning; public safety outreach (e.g. first-responder organizations and hospitals); disaster management coordination and outreach; FCC 24/7 Communication Center; and studies and reports of public safety, homeland security, and disaster management issues.

For further information, contact the Public Safety and Homeland Security Bureau. Phone, 202-418-1300, or 888-225-5322. Email, pshsinfo@fcc.gov.

The Federal Deposit Insurance Corporation preserves and promotes public confidence in U.S. financial institutions by insuring bank and thrift deposits, periodically examining State-chartered banks, and liquidating assets of failed institutions.

The Federal Deposit Insurance Corporation (FDIC) was established under the Banking Act of 1933 after numerous banks failed during the Great Depression. FDIC began insuring banks on January 1, 1934. The basic insurance coverage per depositor at each insured bank and savings association is \$250,000.

The FDIC is managed by a five-person Board of Directors, all of whom are appointed by the President and confirmed by the Senate, with no more than three being from the same political party.

FDIC receives no Congressional appropriations. It is funded by insurance premiums on deposits held by insured banks and savings associations and from interest on the investment of those premiums in U.S. Government securities. FDIC has authority to borrow up to \$100 billion from the Treasury for insurance purposes.

Activities

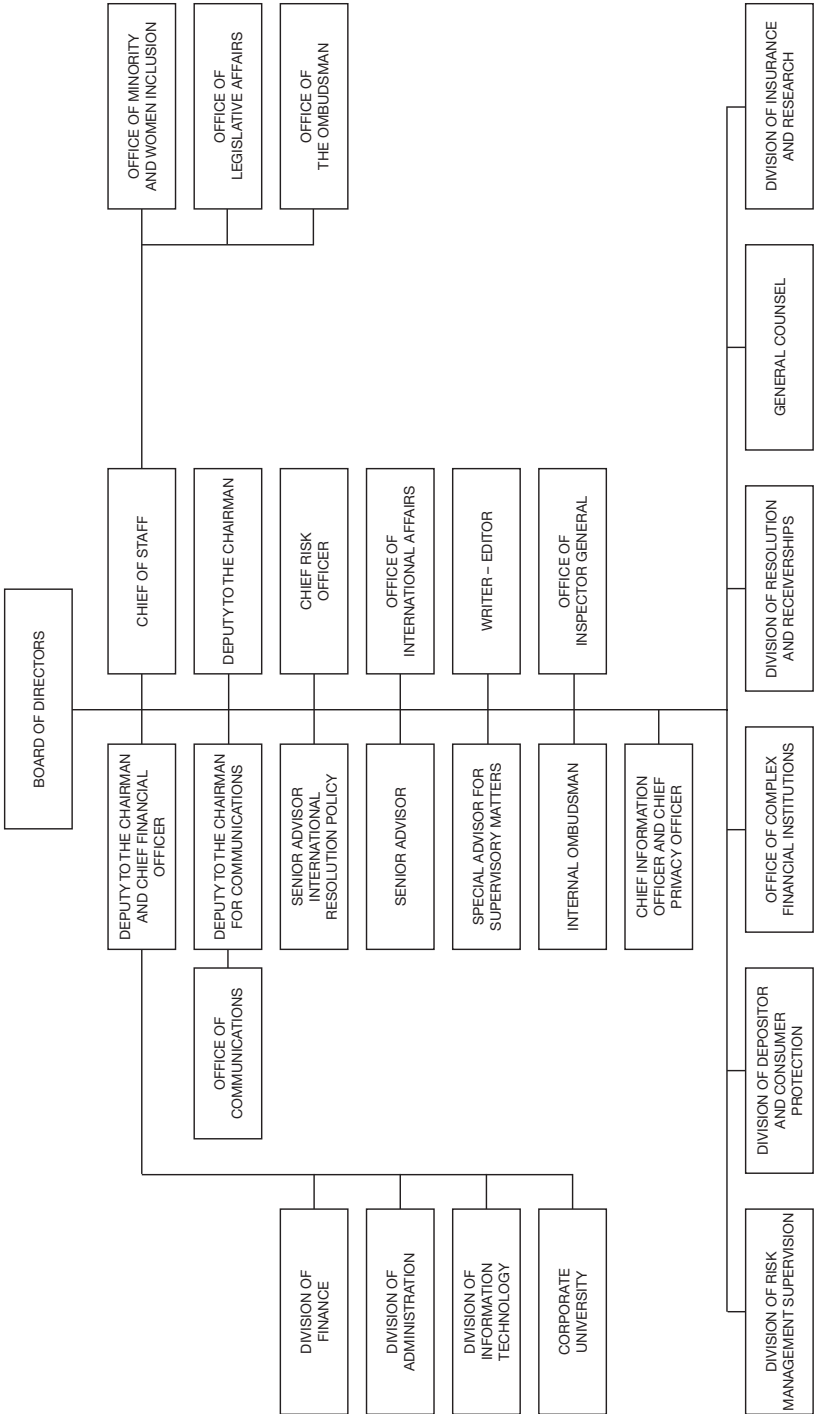

The FDIC insures about \$10 trillion of U.S. bank and thrift deposits. The

insurance fund is composed of insurance premiums paid by banks and savings associations and the interest on the investment of those premiums in U.S. Government securities, as required by law. Premiums are determined by an institution's level of capitalization and potential risk to the insurance fund.

The FDIC examines about 4,400 State-chartered commercial and savings banks that are not members of the Federal Reserve System, called State nonmember banks. The FDIC also has authority to examine other types of FDIC-insured institutions for deposit insurance purposes. The two types of examinations conducted are for safety and soundness and for compliance with applicable consumer laws such as the Truth in Lending Act, the Home Mortgage Disclosure Act, the Equal Credit Opportunity Act, the Fair Housing Act, and the Community Reinvestment Act. Examinations are performed on the institution's premises and offsite through computer data analysis.

A failed bank or savings association is generally closed by its chartering

FEDERAL DEPOSIT INSURANCE CORPORATION

authority, and the FDIC is named receiver. The FDIC is required to resolve the closed institution in a manner that is least costly to the FDIC. Ordinarily, the FDIC attempts to locate a healthy institution to acquire the failed entity. If such an entity cannot be found, the FDIC pays depositors the amount of their insured funds, usually by the next business day following the closing. Depositors with funds that exceed the insurance limit often receive an advance dividend, which is a portion of their uninsured funds that is determined by an estimate of the future proceeds from liquidating the failed institution's remaining assets. Depositors with funds in a failed institution that exceed the insurance limit receive a receivership certificate for those funds and partial payments of their uninsured funds as asset disposition permits.

As part of its insurance, supervisory, and receivership responsibilities, the FDIC approves or disapproves of mergers, consolidations, and acquisitions where the resulting bank is an insured State nonmember; approves or disapproves of proposals by banks to establish and operate a new branch, close an existing branch, or move its main office from one location to another; and approves or disapproves of requests to engage as principal in activities and investments that are not permissible for a national bank. It also issues enforcement actions, including cease-and-desist orders, for specific violations or practices requiring corrective action and reviews changes in ownership or control of a bank.

The Federal Election Commission provides public disclosure of campaign finance activities and ensures compliance with campaign finance laws and regulations.

The Federal Election Commission is an independent agency established by section 309 of the Federal Election Campaign Act of 1971, as amended (2 U.S.C. 437c). It comprises six Commissioners appointed by the President with the advice and consent of the Senate. The act also provides for three statutory officers—the Staff Director, the General Counsel, and the Inspector General—who are appointed by the Commission.

Activities

The Commission administers and enforces the Federal Election Campaign Act of 1971, as amended (2 U.S.C. 431 et seq.), and the Revenue Act, as amended (26 U.S.C. 1 et seq.). These laws provide for the public funding of Presidential elections, public disclosure of the financial activities of political committees involved in Federal elections, and limitations and prohibitions on contributions and expenditures made to influence Federal elections (Presidency, Senate, and House of Representatives).

Public Funding of Presidential Elections

The Commission oversees the public financing of Presidential elections by certifying Federal payments to primary candidates, general election nominees, and national nominating conventions. It also audits recipients of Federal funds and may require repayments to the U.S. Treasury, if a committee makes nonqualified campaign expenditures.

Disclosure The Commission ensures public disclosure of the campaign finance activities reported by political committees supporting Federal candidates. Committee reports, filed regularly, disclose where campaign

money comes from and how it is spent. The Commission places reports on the public record within 48 hours after they are received and computerizes the data contained in the reports.

Sources of Information

The Federal Housing and Finance Agency promotes a stable and liquid mortgage market, affordable housing, and community investment through safety and soundness oversight of Fannie Mae, Freddie Mac, and the Federal Home Loan Banks.

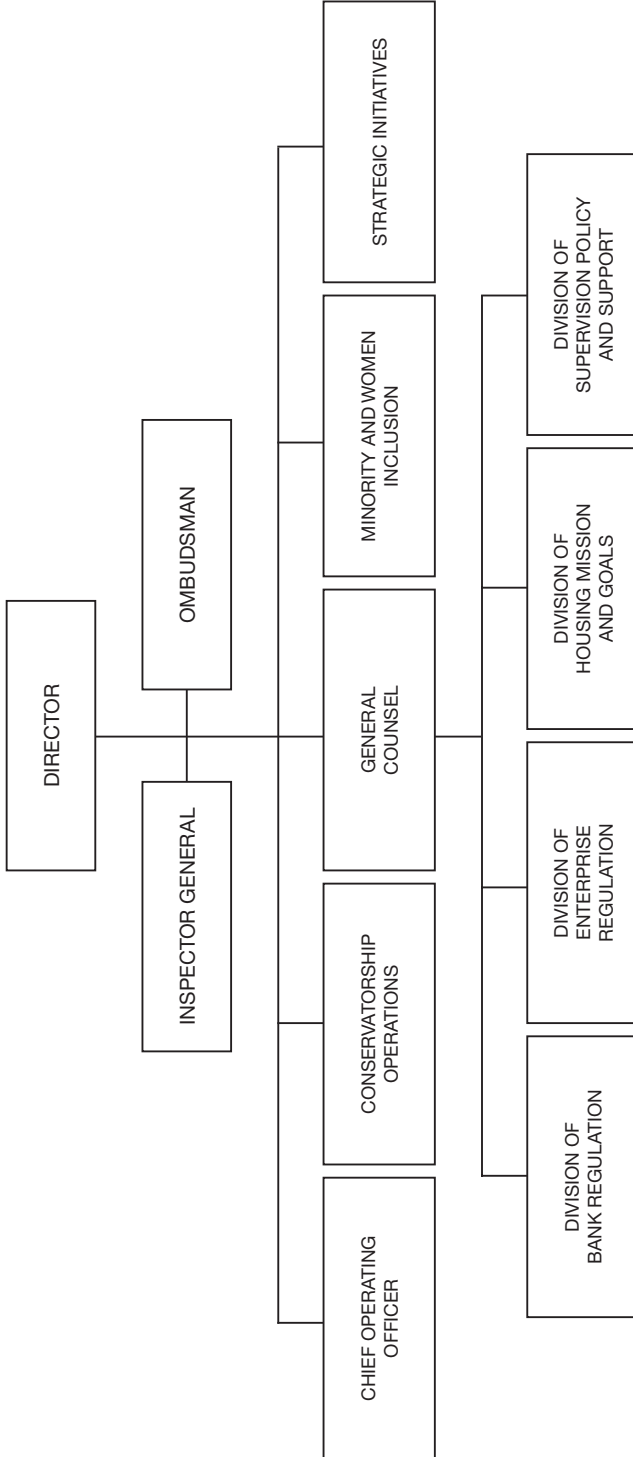

The Federal Housing and Finance Agency (FHFA) was established by the Housing and Economic Recovery Act of 2008 (42 USC 4501 note) as an independent agency in the executive branch. The FHFA is the result of the merger of the Federal Housing Finance Board and the Office of Federal Housing Enterprise Oversight, and the transfer of the Department of Housing and Urban Development's Government-sponsored enterprise mission team.

FHFA is managed by a Director who is appointed by the President and confirmed by the Senate. FHFA's Director also serves as the Chairman of the Federal Housing Oversight Board. The

Secretary of the Treasury, the Secretary of Housing and Urban Development, and the Chairman of the Securities and Exchange Commission are also members of the Board. Since 2009, the Agency has had an Acting Director in place.

FHFA was created to ensure the security and supervision of Fannie Mae, Freddie Mac, the 12 Federal Home Loan Banks, and the Office of Finance. The Agency's increased regulatory powers and affordable housing goals were designed to restore confidence in the 14 Government-sponsored loan enterprises and enable these entities to provide more effective assistance to troubled mortgage markets.

FEDERAL HOUSING FINANCE AGENCY

FHFA ensures the housing government-sponsored enterprises operate in a safe and sound manner so that they serve as a reliable source of liquidity and funding for housing finance and community investment.

Activities

FHFA oversight strengthens vital components of the Nation's secondary mortgage markets. It oversees maintenance of adequate capital and internal controls, operations that foster efficient, competitive, and resilient national housing finance markets, and compliance with the rules, regulations, guidelines, and orders issued by FHFA and authorizing statutes.

The Federal Labor Relations Authority oversees labor-management relations between the Federal Government and its employees.

The Federal Labor Relations Authority was created as an independent establishment by Reorganization Plan No. 2 of 1978 (5 U.S.C. app.), effective January 1, 1979, pursuant to Executive Order 12107 of December 28, 1978, to consolidate the central policymaking functions in Federal labor-management relations. Its duties and authority are specified in Title VII (Federal Service Labor-Management Relations) of the Civil Service Reform Act of 1978 (5 U.S.C. 7101–7135).

The Authority comprises three members who are nominated by the President and confirmed by the Senate to a 5-year term. The Chairman of the Authority serves as the chief executive and administrative officer. The Chairman also chairs the Foreign Service Labor Relations Board. The General Counsel of the Authority investigates alleged unfair labor practices, files and prosecutes unfair labor practice complaints before the Authority, and exercises such other powers as the Authority may prescribe.

Activities

The Authority adjudicates disputes arising under the Federal Labor-Management Relations Program, deciding cases concerning the negotiability of collective bargaining agreement proposals, appeals concerning unfair labor practices and representation petitions, and exceptions to grievance arbitration awards. It also assists Federal agencies and unions in understanding their rights and responsibilities under the program through training.

The Federal Service Impasses Panel, an entity within the Authority, is assigned

the function of providing assistance in resolving negotiation impasses between agencies and unions. After investigating an impasse, the Panel can either recommend procedures to the parties for the resolution of the impasse or assist the parties in resolving the impasse through whatever methods and procedures it considers appropriate, including fact finding and recommendations. If the parties do not arrive at a settlement after assistance by the Panel, the Panel may hold hearings and take whatever action is necessary to resolve the impasse.

The Foreign Service Labor Relations Board and the Foreign Service Impasse Disputes Panel administer provisions of chapter 2 of the Foreign Service Act of 1980 (22 U.S.C. 3921) concerning labor-management relations. This chapter establishes a statutory labor-management relations program for Foreign Service employees of the U.S. Government. Administrative and staff support is provided by the Federal Labor Relations Authority and the Federal Service Impasses Panel.

The Federal Maritime Commission regulates the waterborne foreign commerce of the United States. It ensures that U.S. oceanborne trades are open to all on fair and equitable terms and protects against concerted activities and unlawful practices.

The Federal Maritime Commission was established by Reorganization Plan No. 7 of 1961 (46 U.S.C. 301-307), effective August 12, 1961. It is an independent agency that regulates shipping under the following statutes: the Shipping Act of 1984, as amended (46 U.S.C. 40101-41309); Section 19 of the Merchant Marine Act, 1920 (46 U.S.C. 42101-42109); the Foreign Shipping Practices Act of 1988 (46 U.S.C. 42301-42307); and the act of November 6, 1966 (46 U.S.C. 44101-44106).

Activities

Agreements The Commission reviews agreements by and among ocean common carriers and/or marine terminal operators, filed under section 5 of the Shipping Act of 1984, for statutory compliance as well as for likely impact on competition. It also monitors activities under all effective agreements for compliance with the provisions of law and its rules, orders, and regulations.

Tariffs The Commission monitors and prescribes requirements to ensure

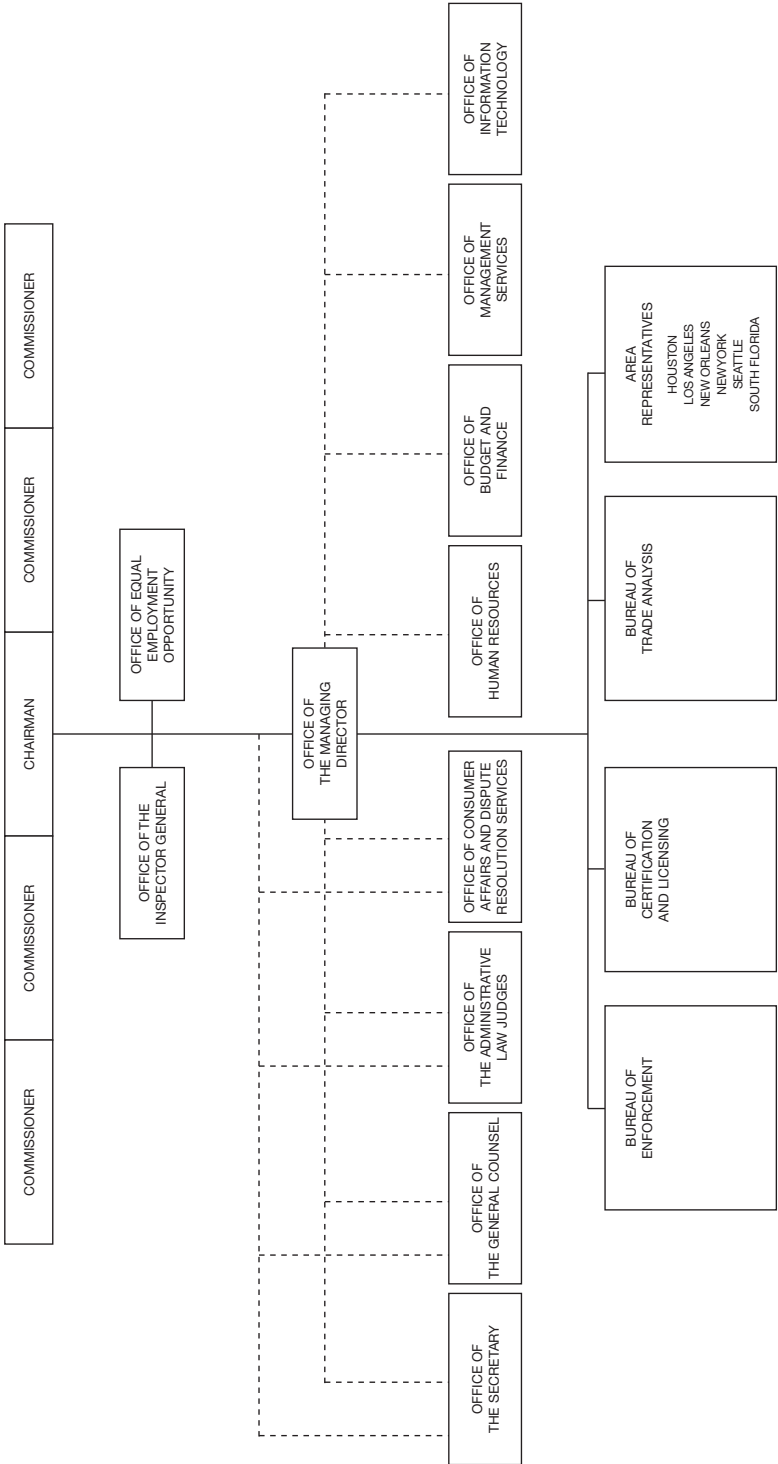

accessibility and accuracy of electronic tariff publications of common carriers engaged in the foreign commerce of the United States. Special permission applications may be submitted for relief from statutory and/or Commission tariff requirements.

Service Contracts The Commission receives and reviews filings of confidential service contracts between shippers and ocean common carriers. The Commission also monitors publication of certain essential terms of those service contracts.

Non-Vessel-Operating Common Carrier Service Arrangements The Commission receives and reviews service arrangements entered into by non-vessel-operating common carriers and their customers. Cargo moving under these service arrangements is exempt from the tariff publication and adherence requirements of the Shipping Act, on the condition that the service arrangements must be filed with the Commission.

Licenses The Commission issues licenses to those persons and entities

FEDERAL MARITIME COMMISSION

in the United States who wish to carry out the business of providing freight forwarding services and non-vessel-operating common carrier services.

Passenger Indemnity The Commission administers the passenger indemnity provisions of the act of November 6, 1966, which require shipowners and operators to obtain certificates of financial responsibility to pay judgments for personal injury or death or to refund fares in the event of nonperformance of voyages.

Complaints The Commission reviews alleged or suspected violations of the shipping statutes and rules and regulations of the Commission and may take administrative action to institute formal proceedings, to refer matters to other governmental agencies, or to bring about voluntary agreement between the parties.

Formal Adjudicatory Procedures

The Commission conducts formal investigations and hearings on its own motion and adjudicates formal complaints in accordance with the Administrative Procedure Act (5 U.S.C. note prec. 551).

Alternative Dispute Resolution The Commission reviews informal complaints and attempts to assist parties in resolving disputes. Mediation and other dispute resolution services are available in order to assist parties in achieving a more acceptable resolution to a dispute at less cost than may be possible in litigation. These services are available before and after the commencement of litigation. The Commission also provides an informal process to adjudicate certain complaints involving less than \$50,000 in damages.

Rulemaking The Commission promulgates rules and regulations to interpret, enforce, and ensure compliance with shipping and related statutes by common carriers and other persons subject to the Commission's jurisdiction.

Investigation and Economic Analyses

The Commission prescribes and

administers programs to ensure compliance with the provisions of the shipping statutes. These programs include: education and outreach activities; the collection of information relating to field investigation of activities and practices of ocean common carriers, terminal operators, agreements among ocean common carriers and/or marine terminal operators, ocean transportation intermediaries, passenger vessel operators, and other persons subject to the shipping statutes; and rate analyses, studies, and economic reviews of current and prospective trade conditions, including the extent and nature of competition in various trade areas.

International Affairs The Commission conducts investigations of foreign governmental and carrier practices that adversely affect the U.S. shipping trade. In consultation with other executive agencies, the Commission takes action to effect the elimination of discriminatory practices on the part of foreign governments against shipping in the United States foreign trade, and to achieve comity between the United States and its trading partners.

FEDERAL MEDIATION AND CONCILIATION SERVICE

Director

GEORGE H. COHEN

The Federal Mediation and Conciliation Service assists labor and management in resolving disputes in collective bargaining contract negotiation through voluntary mediation and arbitration services, provides training to unions and management in cooperative processes to improve long-term relationships, and provides alternative dispute resolution services and training to Government agencies.

The Federal Mediation and Conciliation Service (FMCS) was created by the Labor Management Relations Act, 1947 (29 U.S.C. 172). The Director is appointed by the President with the advice and consent of the Senate.

Activities

FMCS helps prevent disruptions in the flow of interstate commerce caused by labor-management disputes by providing mediators to assist disputing parties in the resolution of their differences. Mediators have no law enforcement authority and rely wholly on persuasive techniques.

FMCS offers its services in labor-management disputes to any industry, with employees represented by a union, which affects interstate commerce. FMCS becomes involved in disputes on its own initiative or at the request of one or more of the disputants, whenever it deems that a dispute threatens to cause a substantial interruption of commerce. The Labor Management Relations Act requires that parties to a labor contract must file a dispute notice, if agreement is not reached 30 days in advance of a

contract termination or reopening date. The notice must be filed with FMCS and the appropriate State or local mediation agency. FMCS is required to avoid the mediation of disputes that would have only a minor effect on interstate commerce, if State or other conciliation services are available to the parties.

Mediation Efforts of FMCS mediators are directed toward the establishment of sound and stable labor-management relations on a continuing basis, thereby helping to reduce the incidence of work stoppages. The mediator's basic function is to encourage and promote better day-to-day relations between labor and management, so that issues arising in negotiations may be faced as problems to be settled through mutual effort rather than issues in dispute.

Arbitration FMCS, on the joint request of employers and unions, will also assist in the selection of arbitrators from a roster of private citizens who are qualified as neutrals to adjudicate matters in dispute. For further information, contact the Office of Arbitration Services. Phone, 202-606-5111.

The Federal Mine Safety and Health Review Commission ensures compliance with occupational safety and health standards in the Nation's surface and underground coal, metal, and nonmetal mines.

The Federal Mine Safety and Health Review Commission is an independent, adjudicative agency established by the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 801 et seq.), as amended. It provides administrative trial and appellate review of legal disputes arising from enforcement actions taken by the Department of Labor.

The Commission consists of five members who are appointed by the President with the advice and consent of the Senate and who serve staggered 6-year terms. The Chairman is appointed from among the Commissioners by the President.

The Commission and its Office of Administrative Law Judges are charged with deciding cases brought before it by the Mine Safety and Health Administration, mine operators, and miners or their representatives. These cases generally involve review of the Administration's enforcement actions, including citations, mine-closure orders, and proposals for civil penalties issued for violations of the act or the mandatory safety and health standards promulgated by the Secretary of Labor. The Commission also has jurisdiction over discrimination complaints filed by miners or their representatives in connection with their safety and health, complaints for compensation filed on behalf of miners idled as a result of mine closure orders issued by the Administration, and disputes over mine emergency response plans.

Cases brought before the Commission are assigned to the Office of Administrative Law Judges, and hearings are conducted pursuant to the requirements of the Administrative Procedure Act (5 U.S.C. 554, 556) and

the Commission's procedural rules (29 CFR 2700).

A judge's decision becomes a final but nonprecedential order of the Commission 40 days after issuance unless the Commission has directed the case for review in response to a petition or on its own motion. If a review is conducted, a decision of the Commission becomes final 30 days after issuance unless a party adversely affected seeks review in the U.S. Circuit Court of Appeals for the District of Columbia or the Circuit within which the mine subject to the litigation is located.

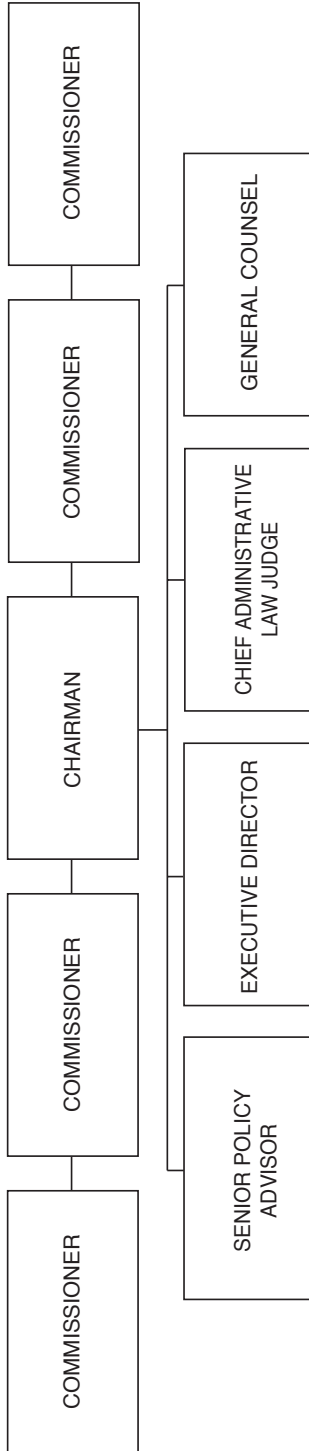

As far as practicable, hearings are held at locations convenient to the affected mines. In addition to its Washington, DC, offices, the Office of Administrative Law Judges maintains an office in the Colonnade Center, Room 280, 1244 Speer Boulevard, Denver, CO 80204.

Sources of Information

Commission decisions are published bimonthly and are available through the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. The Commission's Web site includes recent decisions, a searchable database of previous decisions, procedural rules, audio recordings of recent public meetings, and other pertinent information.

Requests for Commission records should be submitted in accordance with the Commission's Freedom of Information Act regulations. Other information, including Commission rules of procedure and brochures explaining the Commission's functions, is available from the Executive Director, Federal Mine Safety and Health Review Commission,

The Federal Reserve System, the central bank of the United States, administers and formulates the Nation's credit and monetary policy.

The Federal Reserve System (FRS) was established by the Federal Reserve Act (12 U.S.C. 221), approved December 23, 1913. Its major responsibility is in the execution of monetary policy. It also performs other functions, such as the transfer of funds, handling Government deposits and debt issues, supervising and regulating banks, and acting as lender of last resort.

FRS contributes to the strength and vitality of the U.S. economy. By influencing the lending and investing activities of depository institutions and

the cost and availability of money and credit, the FRS promotes the full use of human and capital resources, the growth of productivity, relatively stable prices, and equilibrium in the Nation's international balance of payments. Through its supervisory and regulatory banking functions, FRS helps maintain a commercial banking system that is responsive to the Nation's financial needs and objectives.

FRS comprises the Board of Governors; the 12 Federal Reserve Banks and their 25 branches and other facilities;

the Federal Open Market Committee; the Federal Advisory Council; the Consumer Advisory Council; the Thrift Institutions Advisory Council; and the Nation's financial institutions, including commercial banks, savings and loan associations, mutual savings banks, and credit unions.

Board of Governors The Board comprises seven members appointed by the President with the advice and consent of the Senate. The Chairman of the Board of Governors is a member of the National Advisory Council on International Monetary and Financial Policies. The Board determines general monetary, credit, and operating policies for the System as a whole and formulates the rules and regulations necessary to carry out the purposes of the Federal Reserve Act. The Board's principal duties consist of monitoring credit conditions; supervising the Federal Reserve Banks, member banks, and bank holding companies; and regulating the implementation of certain consumer credit protection laws.

The Board has the power, within statutory limitations, to fix the requirements for reserves to be maintained by depository institutions on transaction accounts or nonpersonal time deposits. The Board reviews and determines the discount rate charged by the Federal Reserve Banks. For the purpose of preventing excessive use of credit for the purchase or carrying of securities, the Board is authorized to regulate the amount of credit that may be initially extended and subsequently maintained on any security (with certain exceptions).

Supervision of Federal Reserve Banks

The Board is authorized to make examinations of the Federal Reserve Banks, to require statements and reports from such Banks, to supervise the issue and retirement of Federal Reserve notes, to require the establishment or discontinuance of branches of Reserve Banks, and to exercise supervision over all relationships and transactions of those Banks with foreign branches.

Supervision of Bank Holding Companies

The Federal Reserve supervises and

regulates bank holding companies. Its objective is to maintain the separation between banking and commerce by controlling the expansion of bank holding companies, preventing the formation of banking monopolies, restraining certain trade practices in banking, and limiting the nonbanking activities of bank holding companies. A company that seeks to become a bank holding company must obtain the prior approval of the Federal Reserve. Any company that qualifies as a bank holding company must register and file reports with the FRS.

Supervision of Banking Organizations

The Federal Reserve supervises and regulates domestic and international activities of U.S. banking organizations. It supervises State-chartered banks that are members of the System, all bank holding companies, and Edge Act and agreement corporations (corporations chartered to engage in international banking).

The Board has jurisdiction over the admission of State banks and trust companies to membership in the FRS, membership termination for these banks, the establishment of branches by these banks, and the approval of bank mergers and consolidations where the resulting institution will be a State member bank. It receives copies of condition reports submitted to the Federal Reserve Banks. It has power to examine all member banks and the affiliates of member banks and to require condition reports from them. It has authority to require periodic and other public disclosure of information with respect to an equity security of a State member bank that is held by 500 or more persons. It establishes minimum standards with respect to installation, maintenance, and operation of security devices and procedures by State member banks. It can issue cease-and-desist orders in connection with violations of law or unsafe or unsound banking practices by State member banks and to remove directors or officers of such banks in certain circumstances. It also can suspend member banks from use of the Federal Reserve System's credit facilities for using bank credit for speculation or other purposes inconsistent with the maintenance of sound credit conditions.

The Board may grant authority to member banks to establish branches in foreign countries or dependencies or insular possessions of the United States, to invest in the stocks of banks or corporations engaged in international or foreign banking, or to invest in foreign banks. It also charters, regulates, and supervises certain corporations that engage in foreign or international banking and financial activities.

The Board is authorized to issue general regulations permitting interlocking relationships in certain circumstances between member banks and organizations dealing in securities or between member banks and other banks.

The Board prescribes regulations to ensure a meaningful disclosure by lenders of credit terms so that consumers will be able to compare more readily the various credit terms available and will be informed about rules governing credit cards, including their potential liability for unauthorized use.

The Board has authority to impose reserve requirements and interest rate ceilings on branches and agencies of foreign banks in the United States, to grant loans to them, to provide them access to Federal Reserve services, and to limit their interstate banking activities.

Federal Open Market Committee The Federal Open Market Committee comprises the Board of Governors and five of the presidents of the Reserve Banks. The Chairman of the Board of Governors is traditionally the Chairman of the Committee. The president of the Federal Reserve Bank of New York serves as a permanent member of the Committee. Four of the twelve Reserve Bank presidents rotate annually as members of the Committee.

Open market operations of the Reserve Banks are conducted under regulations adopted by the Committee and pursuant to specific policy directives issued by the Committee, which meets in Washington, DC, at frequent intervals. Purchases and sales of securities in the open market are undertaken to supply bank reserves to support the credit and money needed for long-term economic growth, to offset cyclical economic

swings, and to accommodate seasonal demands of businesses and consumers for money and credit. These operations are carried out principally in U.S. Government obligations, but they also include purchases and sales of Federal agency obligations. All operations are conducted in New York, where the primary markets for these securities are located; the Federal Reserve Bank of New York executes transactions for the Federal Reserve System Open Market Account in carrying out these operations.

Under the Committee's direction, the Federal Reserve Bank of New York also undertakes transactions in foreign currencies for the Federal Reserve System Open Market Account. The purposes of these operations include helping to safeguard the value of the dollar in international exchange markets and facilitating growth in international liquidity in accordance with the needs of an expanding world economy.

Federal Reserve Banks The 12 Federal Reserve Banks are located in Atlanta, GA; Boston, MA; Chicago, IL; Cleveland, OH; Dallas, TX; Kansas City, MO; Minneapolis, MN; New York, NY; Philadelphia, PA; Richmond, VA; San Francisco, CA; and St. Louis, MO. Branch banks are located in Baltimore, MD; Birmingham, AL; Buffalo, NY; Charlotte, NC; Cincinnati, OH; Denver, CO; Detroit, MI; El Paso, TX; Helena, MT; Houston, TX; Jacksonville, FL; Little Rock, AR; Los Angeles, CA; Louisville, KY; Memphis, TN; Miami, FL; Nashville, TN; New Orleans, LA; Oklahoma City, OK; Omaha, NE; Pittsburgh, PA; Portland, OR; Salt Lake City, UT; San Antonio, TX; and Seattle, WA.

Reserves on Deposit The Reserve Banks receive and hold on deposit the reserve or clearing account deposits of depository institutions. These banks are permitted to count their vault cash as part of their required reserve.

Extensions of Credit The Federal Reserve is required to open its discount window to any depository institution that is subject to its reserve requirements on transaction accounts or nonpersonal time deposits. Discount window credit provides for Federal Reserve lending to

eligible depository institutions under two basic programs. One is the adjustment credit program; the other supplies more extended credit for certain limited purposes.

Short-term adjustment credit is the primary type of Federal Reserve credit. It is available to help borrowers meet temporary requirements for funds. Borrowers are not permitted to use adjustment credit to take advantage of any spread between the discount rate and market rates.

Extended credit is provided through three programs designed to assist depository institutions in meeting longer term needs for funds. One provides seasonal credit—for periods running up to 9 months—to smaller depository institutions that lack access to market funds. A second program assists institutions that experience special difficulties arising from exceptional circumstances or practices involving only that institution. Finally, in cases where more general liquidity strains are affecting a broad range of depository institutions—such as those whose portfolios consist primarily of longer term assets—credit may be provided to address the problems of particular institutions being affected by the general situation.

Currency Issue The Reserve Banks issue Federal Reserve notes, which constitute the bulk of money in circulation. These notes are obligations of the United States and are a prior lien upon the assets of the issuing Federal Reserve Bank. They are issued against a pledge by the Reserve Bank with the Federal Reserve agent of collateral security including gold certificates, paper discounted or purchased by the Bank, and direct obligations of the United States.

Other Powers The Reserve Banks are empowered to act as clearinghouses and as collecting agents for depository

institutions in the collection of checks and other instruments. They are also authorized to act as depositories and fiscal agents of the United States and to exercise other banking functions specified in the Federal Reserve Act. They perform a number of important functions in connection with the issue and redemption of United States Government securities.

The Federal Retirement Thrift Investment Board administers the Thrift Savings Plan, which provides Federal employees the opportunity to save for additional retirement security.

The Federal Retirement Thrift Investment Board was established as an independent agency by the Federal Employees' Retirement System Act of 1986 (5 U.S.C. 8351 and 8401-79). The act vests responsibility for the agency in six named fiduciaries: the five Board members and the Executive Director. The five members of the Board, one of whom is designated as Chairman, are appointed by the President with the advice and consent of the Senate and serve on the Board on a part-time basis. The members appoint the Executive Director, who is responsible for the management of the agency and the Plan.

Activities

The Thrift Savings Plan is a tax-deferred, defined contribution plan that was

established as one of the three parts of the Federal Employees' Retirement System. For employees covered under the System, savings accumulated through the Plan make an important addition to the retirement benefits provided by Social Security and the System's Basic Annuity. Civil Service Retirement System employees and members of the Uniformed Services may also take advantage of the Plan to supplement their annuities.

The Board operates the Thrift Savings Plan and manages the investments of the Thrift Savings Fund solely for the benefit of participants and their beneficiaries. As part of these responsibilities, the Board maintains an account for each Plan participant, makes loans, purchases annuity contracts, and provides for the payment of benefits.

[For the Federal Trade Commission statement of organization, see the Code of Federal Regulations, Title 16, Part 0]

The Federal Trade Commission promotes consumer protections and enforces the laws that prohibit anticompetitive, deceptive, or unfair business practices.

The Federal Trade Commission (FTC) was established in 1914 by the Federal Trade Commission Act (15 U.S.C. 41-58). The Commission comprises five members appointed by the President, with the advice and consent of the Senate, for a term of 7 years. No more than three of the Commissioners may be members of the same political party. One Commissioner is designated by the President as Chair of the Commission and is responsible for its administrative management.

Activities

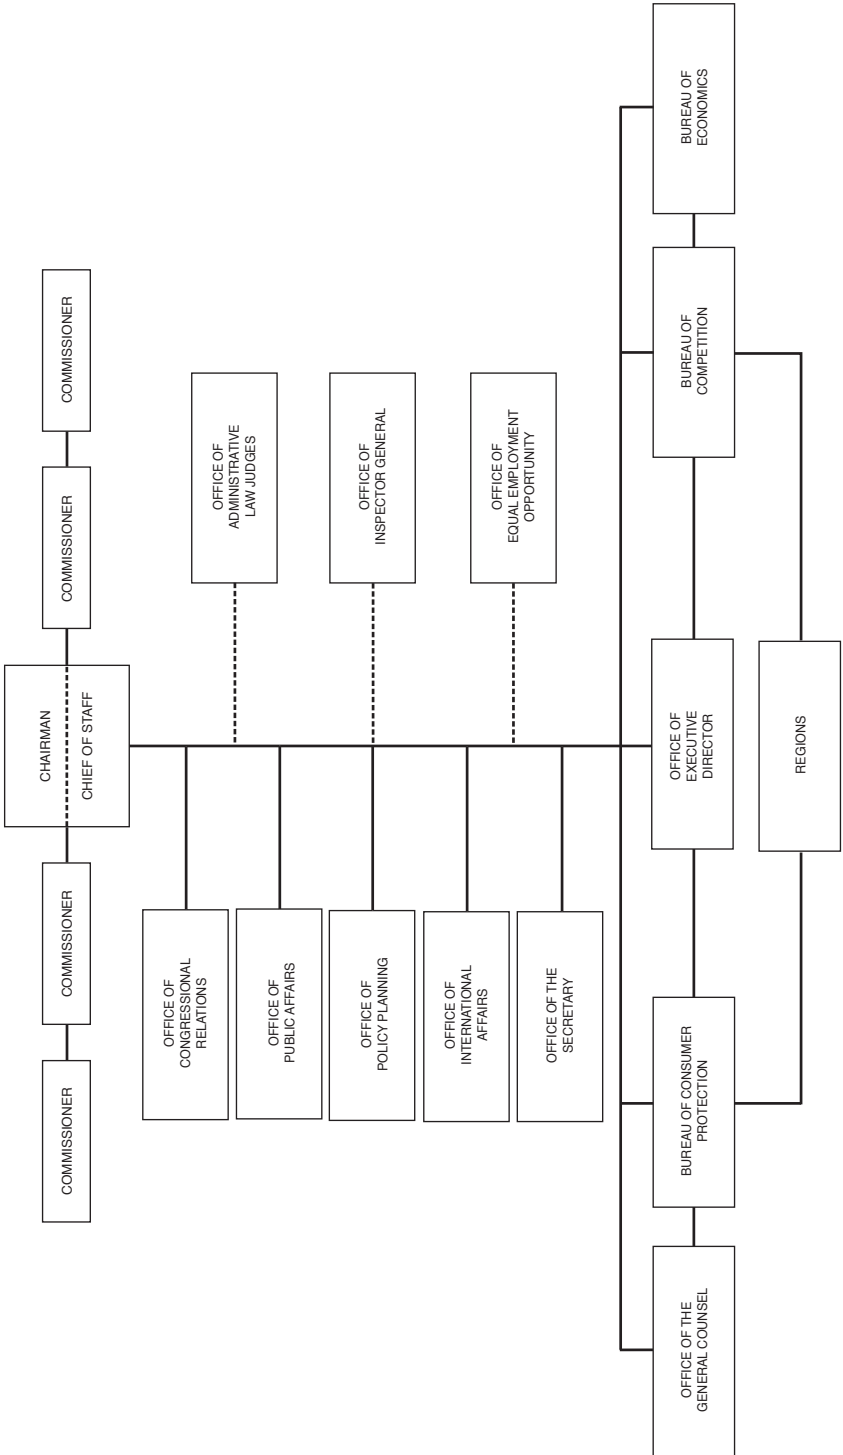

The FTC protects consumers and maintains competition in broad sectors of the economy. It enforces laws that prohibit business practices that are anticompetitive, deceptive, or unfair to consumers and seeks to do so without impeding legitimate business activity. The FTC also educates consumers and businesses to encourage informed consumer choices, compliance with the law, and public understanding of the competitive process.

Consumer Protection The FTC protects consumers by bringing a variety of consumer protection cases and working with State attorneys general and other State and local consumer protection officials. This goal is advanced by five law enforcement functions: privacy and identity protection, financial practices, marketing practices, advertising practices, and enforcement.

Competition The FTC promotes competition by preventing anticompetitive mergers and assuring that the marketplace is free from anticompetitive business practices. These goals are carried out through six law enforcement-related activities: premerger notification, merger and joint venture enforcement, merger and joint venture compliance, nonmerger enforcement, nonmerger compliance, and antitrust policy.

Enforcement FTC's law enforcement work covers actions to foster voluntary compliance with the law and formal administrative or Federal court litigation

FEDERAL TRADE COMMISSION

leading to mandatory orders against offenders.

Compliance may be obtained through voluntary and cooperative action by private companies in response to nonbinding staff advice, formal advisory opinions by the FTC, and guides and policy statements delineating legal requirements as to particular business practices.

Formal litigation is instituted either by issuing an administrative complaint or by filing a Federal district court complaint charging a person, partnership, or corporation with violating one or more of the statutes enforced by the FTC. If the charges are not contested or are found to be true after an administrative hearing or a Federal court trial in a contested case, an administrative law judge or Federal court judge may issue an order requiring discontinuance of the unlawful practices. Also, the FTC may request that a U.S. district court issue a preliminary or permanent injunction to halt the use of allegedly unfair or deceptive practices, to prevent an anticompetitive merger or unfair methods of competition from taking place, or to prevent violations of any statute enforced by the FTC. In Federal court, the FTC may obtain other relief, including monetary redress.

International Affairs The FTC works with other nations and international organizations to promote sound competition and consumer protection policies and provide technical assistance to enable developing competition and consumer protection agencies to perform their missions.

Investigations FTC investigations may originate through complaint by a consumer or competitor, Congress, or from Federal, State, or municipal agencies. The FTC may also initiate an investigation into possible violations. Complaints may be submitted by letter or phone and should give the facts in detail accompanied by all supporting evidence. It also maintains electronic complaint

systems that are accessible through its Web site. It is FTC policy not to disclose the identity of any complainant, except as required by law or FTC rules. An order issued after an administrative or Federal court proceeding that requires the respondent to cease and desist or take other corrective action may be appealed.

[For the General Services Administration statement of organization, see the Code of Federal Regulations, Title 41, Part 105-53]

The General Services Administration establishes policy for and provides management of Government property and records, including construction and operation of buildings; procurement and distribution of supplies; utilization and disposal of real and personal property; transportation, travel, fleet, and communications management; and management of the Governmentwide automatic data processing resources program.

The General Services Administration (GSA) was established by section 101 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 751).

Civilian Board of Contract Appeals

The Civilian Board of Contract Appeals resolves disputes between contractors and executive agencies, excluding the Postal Service, Postal Rate Commission, National Aeronautics and Space Administration, and Tennessee Valley Authority. The Board also hears and decides requests for review of transportation audit rate determinations; claims by Federal civilian employees (including Department of Defense employees) regarding travel and relocation expenses; claims for the proceeds of the sale of property of certain Federal civilian employees; cases involving the Indian Self-Determination and Education Assistance Act and the Federal Crop Insurance Corporation; and requests for arbitration to resolve disputes between applicants and the Federal Emergency Management Agency over funding for public assistance applications arising from the damage caused by Hurricanes Katrina and Rita and applications by prevailing parties for fees under the Equal Access to Justice Act.

In addition, the Board provides alternative dispute resolution services to executive agencies in contract-related disputes. Although the Board is located within the GSA, it functions as an independent tribunal.

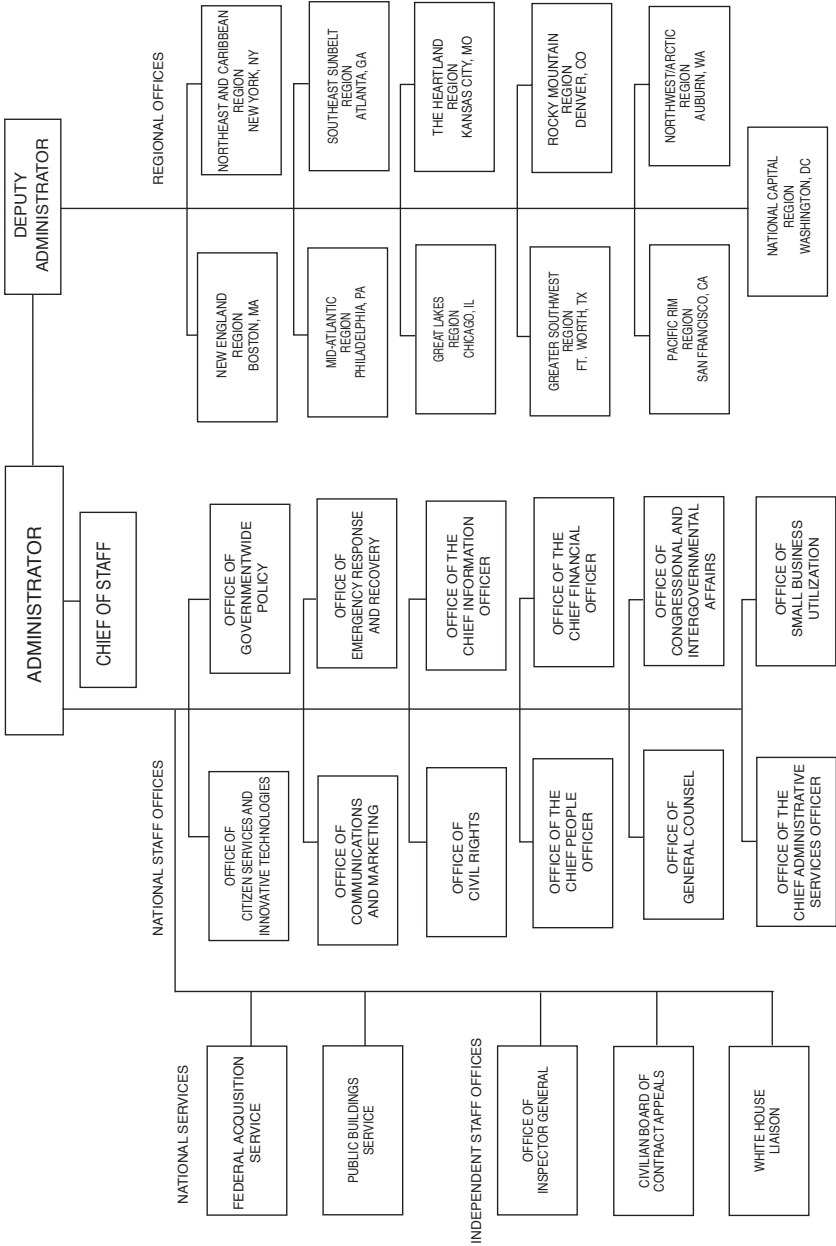

For further information, contact the Civilian Board of Contract Appeals, General Services Administration, Washington, DC 20405. Phone, 202-606-8800. Internet, <http://www.cbca.gsa.gov/>.

Office of Government-wide Policy The Office of Government-wide Policy (OGP) collaborates with the Federal community to develop policies and guidelines for the management and efficient use of Government property, technology, and administrative services. OGP's policymaking authority and policy support activities encompass the areas covering electronic government and information technology, acquisition, real property and the workplace, travel, transportation, personal property,

aircraft, the Federal motor vehicle fleet, mail, regulatory information, energy efficiency, and the use of Federal Advisory Committees. OGP also provides leadership to interagency groups and facilitates Government-wide management reform through the effective use of performance measures and best practices. OGP's business lines include: the Office of Acquisition Policy; the Office of Asset and Transportation Management; the Office of Information, Integrity, and Access; the Office of Federal High-Performance Green Buildings; Office of Executive Councils. For further information on OGP, call 202-501-8880.

The Office of Acquisition Policy (OAP) leads positive change in acquisition policy through its role on the Federal Acquisition Regulation (FAR) Council as well as through GSA acquisition policy, guidance, and reporting to stakeholders. OAP, in conjunction with the Department of Defense and NASA, writes the FAR which serves as the rule book for all Federal agency procurements and governs the billions of dollars expended by the Federal Government every year. OAP also hosts the Federal Acquisition Institute (FAI), which is charged with fostering and promoting the development of the Federal acquisition workforce, along with their training, certification, and warrant needs. OAP also oversees acquisition integrity functions for GSA, including suspension and debarment of contractors and participants in non-procurement programs, agency level acquisition protests, agency task and delivery order ombudsman functions, internal procurement management reviews, and agency competition advocate functions. The Regulatory Secretariat Division staff prepares, compiles, and processes regulatory and general notices for publication in the Federal Register. The OAP is headed by the Deputy Chief Acquisition Officer/ Senior Procurement Executive and includes the Office of Governmentwide Acquisition Policy; the Office of General Services Acquisition Policy, Integrity and Workforce; and the Federal Acquisition Institute. For further information, call 202-501-1777.

GENERAL SERVICES ADMINISTRATION

The Office of Federal Asset and Transportation Policy leads Federal agencies in the economic and efficient management of assets and specific services by spearheading effective policy development for travel, employee relocation, personal and real property, motor vehicles, aircraft, transportation and mail. The Office maintains liaisons with State and local governments, industry, and professional organizations and participates in the work of boards, committees, and groups related to asset and transportation management. The Office also provides advice, guidance, and formal classroom training and consultation to agencies regarding establishing and managing Federal advisory committees, as mandated by the Federal Advisory Committee Act. The Office of Asset and Transportation Management's policy divisions include: the Policy Performance Division; the Aviation Policy Division; the Transportation and Mail Policy Division; the Personal Property Policy Division; the Real Property Policy Division, the Travel and Relocation Policy Division; the Motor Vehicle Policy Division; and the Committee Management Secretariat. For further information, call 202-501-1777.

The Office of Information, Integrity, and Access is responsible for an array of policies, programs, and Governmentwide shared services focused on: progressively improving the management, sharing, security, and quality of information to foster transparency, accountability, trust, & accessibility; enabling increased access to government information & assets to enable shared services, increase share-ability, ensure privacy and security protections, and to reduce risk and costs; driving progress toward increased capability to use and connect data and information in order to deliver improved evidenced-based and actionable analysis and decision-support; delivering policies, program guidance, shared services and support to our governmentwide customers for DotGov Domain Name Registrations and Domain Management, Technical Assistance and Tools related to meeting Section 508 policy requirements, and Federal Identity, Credentialing,

and Access Control Management; and providing easy access to the public with information about their tax dollars via USASpending.gov For further information, call 202-501-0202.

The Office of Federal High-Performance Green Buildings (OFHPGB) aims to allow the Federal Government to operate more efficiently and effectively by minimizing the Federal footprint through efficient use of energy, water, and resources, and creating healthy, productive workspaces. Congress authorized OFHPGB to enable and enhance Federal leadership in the field of sustainable real property portfolio management and operations. The Office works to promote, coordinate, and stimulate green building across the entire Federal Government, which includes over 400,000 owned or leased buildings containing over 3 billion square feet of space. The Office has three principal categories of activity: leading and coordinating the greening of the Federal real estate portfolio; supporting innovation and collaboration on the development of new technologies; and supplying the market with information and best practices. The Office of Federal High-Performance Green Buildings has an interdisciplinary team with expertise in energy, water, air quality, sustainable design, facilities management, budgeting, human behavior, organizational effectiveness, communications, and research. For further information, call 202-219-1522.

The Office of Executive Councils coordinates with the Office of Management and Budget and Federal management councils to identify performance improvement initiatives to pursue across Federal agencies, lead working groups to drive these initiatives, establish performance goals, and facilitate the adoption of new processes by Federal agencies. The Office analyzes data, diagnoses challenges, identifies best practices, and documents the benefits delivered by the improvement initiatives. The Office of Executive Councils also provides technical and management services to the following Federal management councils: the Chief

Acquisition Officers Council (CAOC), the Chief Financial Officers Council (CFOC), the Chief Information Officers Council (CIOOC), the Performance Improvement Council (PIC), and the President's Management Council (PMC). For further information, call 202-273-4925.

For further information, contact the Office of Governmentwide Policy. Phone, 202-501-8880. Internet, <http://www.gsa.gov/portal/content/104550>.

Citizen Services and Innovative Technologies The Office of Citizen Services and Innovative Technologies (OCSIT) is the Nation's focal point for information and services offered by the Federal Government to the public. OCSIT provides tools, practices, and templates to facilitate the Government's use of new technologies to enhance customer service and improve operational efficiency and effectiveness. OCSIT also creates products and services that Federal agencies can use to accelerate innovation, enhance public services and engagement capabilities, and improve resource management.

OCSIT has a 40-year history of providing consumer information and

services to the public through multiple delivery channels. The Office works closely with other Federal agencies to ensure that Government information is made available and fully accessible by the public. OCSIT manages the U.S. Government's official Web portal USA.Gov, where citizens can find information about any aspect of their Government, and GobiernoUSA.gov, the Spanish language version of the portal.

OCSIT manages the Federal Citizen Information Center (FCIC) which helps Federal agencies and departments develop, promote, and distribute useful consumer information to the public. Citizens can get the access they need in a variety of ways: consulting FCIC's print publications, calling 1-800-FED-INFO, sending an e-mail, or accessing one of FCIC's family of Web sites (listed below). The FCIC also maintains the National Contact Center, the Consumer Information Catalog, and the Consumer Action Handbook.

For further information, contact the Federal Citizen Information Center's National Contact Center. Phone, 1-800-333-4636. Internet, <http://www.info.gov>.

Small Business Utilization The Office of Small Business Utilization (OSBU) promotes increased access to GSA's nationwide procurement opportunities for small, HUBZone, and minority-, veteran-, and women-owned businesses. OSBU engages in activities that make it possible for the small business community to meet key contracting experts and be counseled on the procurement process. OSBU monitors and implements small

business policies and manages a range of programs mandated by law.

For further information, contact the Office of Small Business Utilization. Phone, 202-501-1021.

Federal Acquisition Service

The Federal Acquisition Service (FAS) provides acquisition and procurement support services for Federal agencies to increase overall Government

efficiency. FAS programs include tools and resources that aid in the acquisition of products, services, and full-service programs in information technology, telecommunications, professional services, supplies, motor vehicles, travel and transportation, charge cards, and personal property utilization and disposal.

FAS provides multiple channels for customers to acquire the products, services, and solutions they need. Key acquisition programs include multiple awards schedules and Governmentwide acquisition contracts that provide customers easy access to a wide range of information technology, telecommunications, and professional products and services. It also provides its customers with access to the products and services they need through online Web sites such as GSA Advantage!, e-Buy, Schedules e-Library, GSA Auctions, Transportation Management Services Solutions, and a myriad of other electronic tools.

For further information, contact the Office of the Commissioner, Federal Acquisition Service. Phone, 703-605-5400.

Public Buildings Service

The Public Buildings Service (PBS) is the landlord for the civilian Federal Government, providing workspace solutions to more than one million Federal employees in 2,100 communities across the Nation, stimulating local economies by designing, building, managing, and maintaining public buildings, as well as leasing from the private sector. PBS is a leader in sustainable design, energy conservation, and green building technologies. Its portfolio consists of 370 million square feet in over 9,600 assets across all 50 States, 6 U.S. Territories, and the District of Columbia. The Service preserves and maintains 480 historic properties and commissions the country's most talented artists to produce works of art for Federal buildings, as well as preserves artwork commissioned under the Works Progress Administration. PBS collects rent from Federal tenants, which is deposited into

the Federal Buildings Fund, the principal funding mechanism for PBS.

For further information, contact the Office of the Commissioner, Public Buildings Service. Phone, 202-501-1100.

The Inter-American Foundation supports social and economic development in Latin America and the Caribbean.

The Inter-American Foundation (IAF) was created in 1969 (22 U.S.C. 290f) as an experimental U.S. foreign assistance program. IAF is governed by a nine-person Board of Directors appointed by the President with the advice and consent of the Senate. Six members are drawn from the private sector and three from the Federal Government. The Board of Directors appoints the President of IAF.

IAF works in Latin America and the Caribbean to promote equitable, participatory, and sustainable self-help development by awarding grants directly to local organizations throughout the region. It also partners with the public and private sectors to build support and mobilize local, national, and international resources for grassroots development.

The Merit Systems Protection Board protects the integrity of the Federal personnel merit systems and the rights of Federal employees.

The Merit Systems Protection Board is a successor agency to the United States Civil Service Commission, established by act of January 16, 1883 (22 Stat. 403). Reorganization Plan No. 2 of 1978 (5 U.S.C. app.) redesignated part

of the Commission as the Merit Systems Protection Board. The Board is comprised of three members appointed by the President with the advice and consent of the Senate.

MERIT SYSTEMS PROTECTION BOARD

Activities

The Board has responsibility for hearing and adjudicating appeals by Federal employees of adverse personnel actions, such as removals, suspensions, and demotions. It also resolves cases involving reemployment rights, denial of periodic step increases in pay, actions against administrative law judges, and charges of prohibited personnel practices, including charges in connection with whistleblowing.

The Board has the authority to enforce its decisions and to order corrective and disciplinary actions. An employee or applicant for employment involved in an appealable action that also involves an allegation of discrimination may ask the Equal Employment Opportunity

Commission to review a Board decision. Final decisions and orders of the Board can be appealed to the U.S. Court of Appeals for the Federal Circuit.

The Board reviews regulations issued by the Office of Personnel Management and has the authority to require agencies to cease compliance with any regulation that could constitute a prohibited personnel practice. It also conducts special studies of the civil service and other executive branch merit systems and reports to the President and the Congress on whether the Federal workforce is being adequately protected against political abuses and prohibited personnel practices.

[For the National Aeronautics and Space Administration statement of organization, see the Code of Federal Regulations, Title 14, Part 1201]

The mission of the National Aeronautics and Space Administration is to pioneer the future in space exploration, scientific discovery, and aeronautics research.

The National Aeronautics and Space Administration (NASA) was established by the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2451 et seq.).

Activities

Aeronautics Research Mission Directorate

The Aeronautics Research

Mission Directorate (ARMD) conducts high-quality, cutting-edge research that generates innovative concepts, tools, and technologies to enable revolutionary advances in our Nation's future aircraft as well as in the airspace in which they will fly. ARMD programs will facilitate a safer, more environmentally friendly, and more efficient national air transportation system. In addition, NASA's aeronautics

research will continue to play a vital role in supporting NASA's human and robotic space exploration activities.

For further information, call 202-358-2047.

Human Exploration and Operations

Mission Directorate The Human Exploration and Operations (HEO) Mission Directorate provides leadership and management of NASA's human space exploration in low Earth orbit and beyond. HEO's activities include the management of commercial space transportation, exploration systems development, human spaceflight capabilities, advanced exploration systems, and life sciences research performed in space. The Directorate also manages space and flight support for NASA missions, which encompasses space communications, launch services, and rocket propulsion testing.

HEO is enabling the development of commercial space transportation to ferry cargo and crew to the International Space Station (ISS), the cornerstone of current human low Earth orbit space activities. A complex of laboratories staffed by an international crew and built through the contributions of many nations, the ISS conducts scientific research and helps prepare for human exploration beyond low Earth orbit. By providing assured access to the space station, HEO's commercial space transportation promotion efforts strengthen America's space industry, and serve as a catalyst for future business ventures to capitalize on affordable access to space.

In addition to its work supporting the ISS, HEO is leading NASA's efforts to send humans deeper into space than ever before by developing launch and spaceflight vehicles that will enable crewed exploration missions beyond low Earth orbit. These programs include the Space Launch System (SLS) program, which will develop a heavy lift vehicle that will be able to launch crew modules, equipment, and cargo for such missions, and the Orion Multi-Purpose Crew Vehicle, which will carry a human crew beyond Earth's orbit, sustain them during their mission, and return them safely to the Earth.

For further information, call 202-358-1562.

Science Mission Directorate The Science Mission Directorate conducts and manages scientific studies to expand our understanding of the Earth, the solar system, our galaxy, and the wider universe. Its activities include studying the Earth from space; exploring the dynamic relationship between the Sun and the solar system; using robots to visit, explore, and retrieve samples from bodies throughout the solar system in order to study their origins and evolution; and using space observatories to peer out into our galaxy and beyond to investigate questions about the origin, evolution, and destiny of the universe, as well as to search for other solar systems, planets, and signs of extraterrestrial life.

For further information, call 202-358-3889, or visit www.nasascience.nasa.gov.

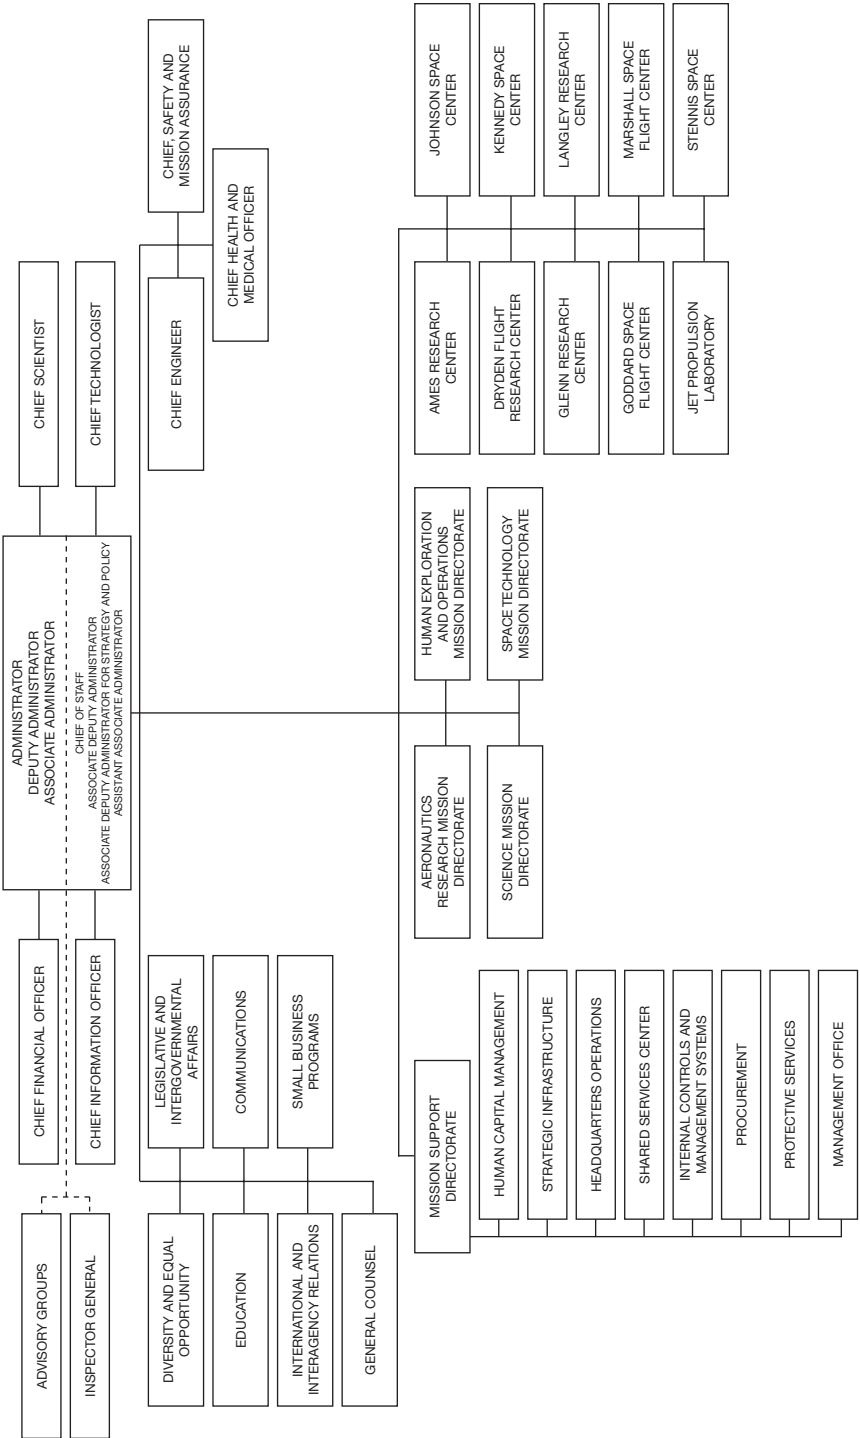

Space Technology Mission Directorate

The Space Technology Mission Directorate (STMD) rapidly develops, demonstrates, and infuses revolutionary, high-payoff technologies by pushing the boundaries of aerospace technology. This organization employs a portfolio approach spanning a range of discipline areas and technology readiness levels to advance technologies for the benefit of NASA, the aerospace industry, other Government agencies and to address national needs. Research and technology development takes place within NASA Centers, in academia, and industry, and it leverages partnerships with other Government agencies and international partners. STMD invests in crosscutting, transformational technologies that have high potential for offsetting mission risk, reducing cost, and advancing existing capabilities, thereby enabling more challenging missions and capabilities for NASA and the Nation.

For further information, call 202-358-0454.

Mission Support Directorate The Mission Support Directorate provides effective and efficient institutional support to enable the agency to accomplish its missions successfully. It focuses on reducing institutional risk to NASA's current and future missions

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

by improving processes, stimulating efficiency, and providing consistency and uniformity across institutional capabilities and services.

For further information, call 202-358-2789.

NASA Centers

Ames Research Center The Ames Research Center, located in California's Silicon Valley, provides solutions to NASA's exploration questions through interdisciplinary scientific discovery and innovative technology systems. The Center provides leadership in astrobiology, information science, small spacecraft, advanced thermal protection systems, human factors, and the development of new tools for a safer and more efficient national airspace. It also develops unique partnerships and collaborations, exemplified by NASA's Astrobiology Institute, the NASA Research Park, and the University Affiliated Research Center.

For further information, visit www.nasa.gov/ames.

Dryden Flight Research Center The Dryden Flight Research Center, located in Edwards, CA, is NASA's primary installation for flight research. Since 1946, Dryden's researchers have led the way to major advancements in the design and capabilities of many civilian and military aircraft. Its workforce expertise in aeronautics and developing flight research tools and techniques, coupled with its suite of specialized laboratories and facilities, are key to the development and maturation of new vehicles.

Glenn Research Center The Glenn Research Center, with locations in Cleveland, OH, and Sandusky, OH, works with other NASA Centers to develop spaceflight systems and technologies to make a new, safer, and less expensive rocket system to return Americans to the Moon and help humanity explore the universe. The Center provides expertise in propulsion, power, communications, and testing for spacecraft and lunar systems. In aeronautics, its scientists and engineers develop new technologies to make

airplanes safer, quieter, and more environmentally friendly.

Goddard Space Flight Center The Goddard Space Flight Center, located in Greenbelt, MD, expands the knowledge of Earth and its environment, the solar system, and the universe through observations from space. The Center also conducts scientific investigations, develops and operates space systems, and advances essential technologies.

Johnson Space Center The Lyndon B. Johnson Space Center (JSC), located in Houston, TX, leads the United States in the human exploration of space. The Center manages and conducts programs and projects that build, test, and integrate human-rated systems for transportation, habitation, and working in space; plans and operates human spaceflight missions; and provides support to commercial aerospace programs and projects. JSC is home to the International Space Station Program, the Multi-Purpose Crew Vehicle Program, and the Commercial Crew and Cargo Program. It contributes to agency-led, international, and commercial aerospace programs and projects by providing expertise in crew and mission operations; design, development, testing, and operation of complex systems; safety and risk analysis; medical, biomedical, and life sciences; human habitability, health, and performance; lunar and planetary geosciences; space systems engineering; and integrated project management. JSC's unique facilities, such as its thermal vacuum chambers and neutral buoyancy laboratory, provide essential capabilities for systems testing and development, as well as astronaut mission training.

Kennedy Space Center The John F. Kennedy Space Center, located in Florida, is responsible for NASA's space launch operations and spaceport and range technologies. Home to NASA's Launch Services Program, it manages the processing and launching of astronaut crews and associated payloads. The Center's management activities include the International Space Station segments, research experiments and supplies, and NASA's scientific and research

spacecraft. These scientific and research spacecraft range from robotic landers to Earth observation satellites and space-based telescopes on a variety of launch vehicles.

Innovative technology experts at the Center support NASA's current programs and future exploration missions by developing new products and processes that benefit the space agency and consumers. The Center remains a leader in cutting-edge research and development in the areas of physics, chemistry, technology, prototype designing, engineering, environmental conservation, and renewable energy.

Langley Research Center The Langley Research Center, located in Hampton, VA, is renowned for its scientific and technological expertise in aerospace research, systems integration, and atmospheric science. Established in 1917 as an aeronautics lab, the Center has a rich heritage in space and science technologies. It conducts critical research in materials and structures; aerodynamics; and hypersonic, supersonic, and subsonic flight. The Center has also developed and validated technologies to improve the effectiveness, safety, environmental compatibility, and efficiency of the Nation's air transportation system. It supports the space exploration program and space operations with systems analysis and engineering, aerosciences, materials and structures, and technology and systems development and testing. The Center continues to have a principal role in understanding and protecting our planet through atmospheric measurement, instruments, missions, and prediction algorithms. Its Engineering and Safety Center has improved mission safety by performing independent engineering assessments, testing, analysis, and evaluations to determine appropriate preventative and corrective action for problems, trends, or issues across NASA programs and projects.

Marshall Space Flight Center The George C. Marshall Space Flight Center, located in Huntsville, AL, provides unique expertise in development and

integration of space transportation and propulsion systems, space systems, space technologies, and scientific research, instruments, and experiments required for space exploration and space operations. MSFC manages multiple programs and projects including the space launch system, International Space Station (ISS) environmental control and life support systems, ISS payload operations, numerous ISS facilities and experiments, the Chandra X-ray Observatory, the Discovery and New Frontiers Programs, space technology demonstration missions, and the Michoud Assembly Facility, a major space vehicle manufacturing and assembly complex located in New Orleans, LA.

Stennis Space Center The John C. Stennis Center, located near Bay St. Louis, MS, serves as NASA's rocket propulsion testing ground. The Center provides test services not only for America's space program, but also for the Department of Defense and private sector. Its unique rocket propulsion test capabilities will be used extensively as part of NASA's new space launch system. The Center's Applied Science and Technology Project Office provides project management to support NASA's science and technology goals. It also supports NASA's Applied Sciences Program.

Jet Propulsion Laboratory The Laboratory is managed under contract by the California Institute of Technology in Pasadena, CA. It develops spacecraft and space sensors and conducts mission operations and ground-based research in support of solar system exploration, Earth science and applications, Earth and ocean dynamics, space physics and astronomy, and information systems technology. It is also responsible for the management of the Deep Space Network in support of NASA projects.

Additional publications are available both online and onsite at the NASA Headquarters Library in Washington, DC.

[For the National Archives and Records Administration statement of organization, see the Federal Register of June 25, 1985, 50 FR 26278]

The National Archives and Records Administration safeguards and preserves the records of the U.S. Government, ensuring that the American people can discover, use, and learn from their documentary heritage. It establishes policies and procedures for managing Federal records; oversees the Presidential Libraries system; promotes civic education; and publishes the laws, regulations, Presidential papers, and other public documents.

The National Archives and Records Administration (NARA) is the successor agency to the National Archives Establishment, which was created in 1934 and later, in 1949, incorporated into the General Services Administration as the National Archives and Records Service in 1949. NARA was established as an independent agency in the Federal Government's executive branch of the Government by act of October 19, 1984 (44 U.S.C. 2101 et seq.), effective April 1, 1985.

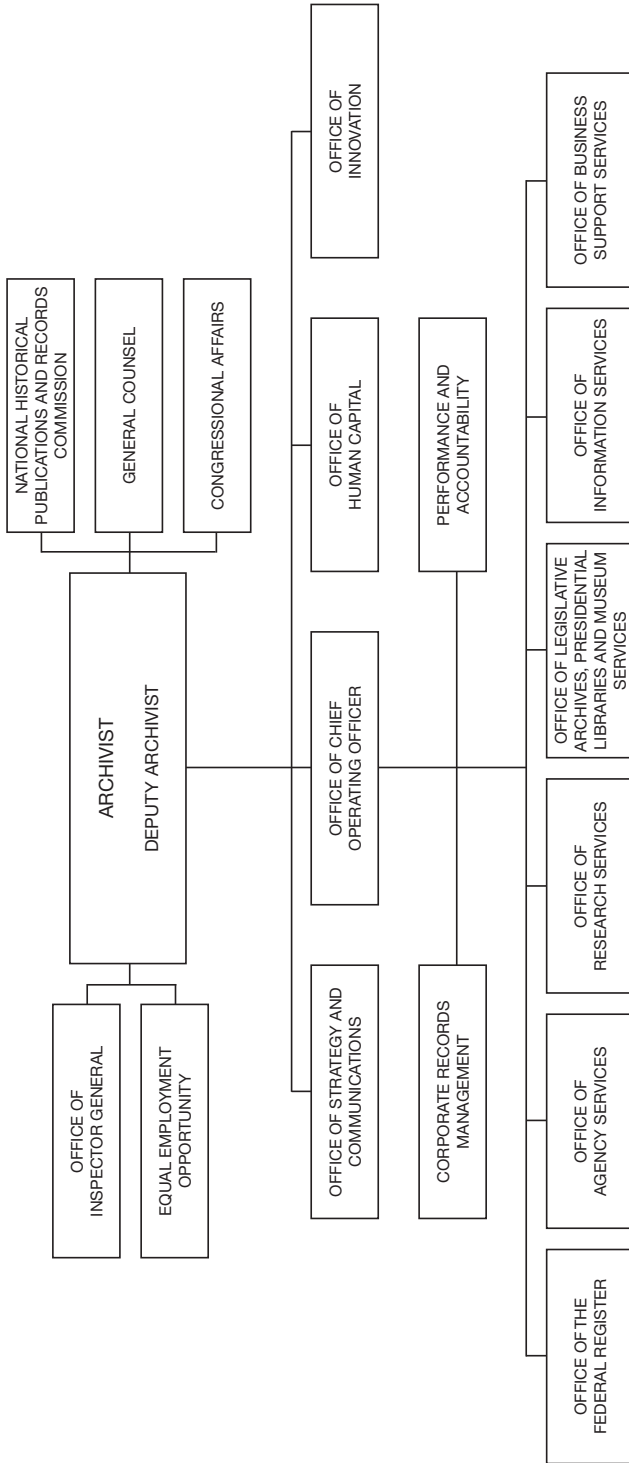

Archival Program NARA maintains the U.S. Government's most historically valuable records, ranging from the Revolutionary War era to the recent past; arranges and preserves records and prepares finding aids to facilitate their use; makes records publicly accessible online and in its research rooms; answers requests for information contained in its holdings; and provides, for a fee, copies of records. NARA holdings include the records of the U.S. House of Representatives and Senate, which are preserved and administered by the Center for Legislative Archives. Many important records are available in microfilm and online at www.archives.gov. Archival records are maintained in NARA facilities in the Washington, DC, area. Records of exceptional local or regional interest are maintained in NARA archives located in other parts of the country. There are also nine NARA-affiliated archives holding NARA-owned records and making them available to the public.

Records Management To ensure proper documentation of the organization, policies, and activities of the Government, NARA develops standards and guidelines for nationwide management and disposition of recorded information. It appraises Federal records and approves disposition schedules. NARA also inspects agency records and management practices, develops records management training programs, provides guidance and assistance on records management, and stores inactive records.

Agency Services Agency Services leads NARA's efforts to meet the ongoing records management needs of the Federal Government and to represent the public interest in the accountability and transparency of this management. Its components include the Office of the Chief Records Officer; the Federal Records Centers Program, including the National Personnel Records Center; the Information Security Oversight Office; the National Declassification Center; and the Office of Government Information Services.

Office of Innovation The Office of Innovation creates innovative ways to serve its customers and to increase access to and delivery of records through all forms of media. Its mission includes demonstrating leadership in the archival and information access field. The Office coordinates NARA's efforts for Open Government and the National Digital Strategy. It is comprised of several divisions, including digitization; digital engagement (Internet, social media,

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

and NARA's online catalog); business architecture, standards and authorities; and the Innovation Hub.

Office of the Chief Records Officer The Office of the Chief Records Officer assists Government agencies with their records management programs and the lifecycle management of Federal records. The Office formulates recommendations for Governmentwide policies, procedures, regulations, and guidance on the creation, management, and disposition of records in various media. It conducts inspections, evaluations, and surveys of records and records management programs in agencies, reports its findings, and recommends improvements or necessary corrective actions. The Office also provides records management services including appraisal and scheduling, technical assistance, training, consultation, and analysis regarding policy matters, as well as identifying permanent records eligible for transfer to the National Archives.

For further information on the duties and programs of the Office of the Chief Records Officer, send an email to the address below. Email, rm.communications@nara.gov.

Federal Records Centers Program

NARA's Federal Records Centers Program (FRCP) stores and services active and inactive records for Federal agencies. A national network of 18 facilities, the FRCP system currently stores more than 27 million cubic feet of records. Since 1999, the FRCP system has operated as a reimbursable program that provides the Federal community with records center services on a fee-for-service basis. These services include storage of textual and special media records; management of classified and non-classified records; retrieval of records needed by customers to conduct daily business or fulfill statutory requirements; expedited responses to congressional inquiries, litigation, and urgent business needs; disposition services, including the disposal of temporary records that have reached the end of their required retention period and the transfer of permanent records to the legal custody of the National Archives; and a variety of

special projects in response to customer needs.

The National Personnel Records Center (NPRC) in St. Louis, MO, is the largest facility in the FRCP system. This facility stores and services the civilian personnel, medical, and pay records of former U.S. Civil Service employees and the personnel, medical, and related records of discharged military personnel. The NPRC provides research rooms in which the public and Federal agency personnel can review official military and civilian personnel folders and other related records. It also provides Federal agencies with services and technical advice relating to records disposition, filing and classification schemes, document conversion, and the protection of vital civilian and military records.

To request military records, visit www.archives.gov/veterans/. For further information on the Federal Records Centers, visit www.archives.gov/frc/ or contact the FRCP. Phone, 314-801-9300, Email frc@nara.gov. For further information on the National Personnel Records Center, visit www.archives.gov/st-louis/ or contact the NPRC. Phone, 314-801-0800. Fax, 301-801-9195.

Information Security Oversight Office

The Information Security Oversight Office (ISOO) oversees programs for Classified National Security Information and Controlled Unclassified Information in both Government and industry and reports to the President annually on their status. ISOO receives policy and program guidance from the National Security Council and operates under the authority of Executive orders 12829, 13549, 13587, 13526, and 13556. As an organizational component of the National Archives and Records Administration, ISOO's goals are to hold classification activities to the minimum necessary standard in order to protect national security, promote consistency and transparency in the handling of Controlled Unclassified Information, safeguard classified national security information in both Government and industry efficiently and cost-effectively, and promote declassification and public access to information as soon as security considerations permit.

ISOO is responsible for implementing and monitoring the National Industrial

Security Program (NISP). The Director of ISOO also serves as the Chair of the NISP Policy Advisory Committee, a forum used to discuss policy issues in dispute and to recommend changes to those policies, as appropriate. ISOO acts as a consultant for policy guidance to the Executive Agent for Safeguarding Classified Information on Computer Networks, and serves as the Chair of the State, Local, Tribal, and Private Sector Entities Policy Advisory Committee to discuss program-related policy issues, facilitate the resolution of disputes, and recommend policy and procedural changes to remove undue impediments to the sharing of information under the program. As a member of the Senior Information Sharing and Safeguarding Steering Committee and the Insider Threat Task Force, ISOO has a leading role in the development, coordination, oversight, and promulgation of policies, objectives, and priorities for establishing and integrating security, counterintelligence, user audits and monitoring, and other safeguarding capabilities and practices within agencies.

The Office was also named the Executive Agent for administering Executive order 13556, "Controlled Unclassified Information" (CUI). CUI will establish consistent information sharing and protection practices by replacing the ad hoc, agency-specific policies and procedures with an executive branchwide program to manage all unclassified information that requires safeguarding and/or dissemination controls pursuant to and consistent with applicable law, regulations, and Governmentwide policies.

For further information, contact the Information Security Oversight Office. Phone, 202-357-5250. Email, isoo@nara.gov. Internet, <http://www.archives.gov/isoo>.

National Declassification Center The National Declassification Center (NDC) was established by Executive order 13526 and began operations in early January 2010. The Center is responsible for the timely and appropriate processing of referrals between agencies for accessioned Federal records and transferred Presidential records; general

interagency declassification activities necessary to fulfill the requirements of sections 3.3 and 3.4 of the order; the exchange among agencies of detailed declassification guidance to support equity recognition; the development of effective, transparent, and standard declassification work processes, training, and quality assurance measures; the development of solutions to declassification challenges posed by electronic records, special media, and emerging technologies; and the linkage and effective utilization of existing agency databases and the use of new technologies to support declassification activities under the purview of the Center.

For further information, contact The National Declassification Center. Phone, 301-837-3110. Email, ndc@nara.gov. Internet, <http://www.archives.gov/declassification>.

Office of Government Information Services Established under the OPEN Government Act of 2007 (5 U.S.C. 101 note), the Office of Government Information Services (OGIS) reviews Freedom of Information Act (FOIA) activities throughout the Government. OGIS serves as liaison between individuals making FOIA requests and administrative agencies, providing mediation services and resolving disputes as necessary. OGIS reviews policies and procedures of administrative agencies under FOIA. OGIS also reviews agency compliance with FOIA and recommends policy changes to Congress and the President.

For further information, contact the Office of Government Information Services. Phone, 202-741-5770. Email, ogis@nara.gov. Internet, <http://ogis.archives.gov/>.

Research Services Research Services provides world-class services to customers that wish to access NARA's accessioned Federal records. Records are available for research purposes in reading rooms at the National Archives Building (Archives I) in Washington, DC; the National Archives (Archives II) in College Park, MD; and various regional facilities throughout the Nation.

For a listing of Records Services facilities, visit <http://www.archives.gov/locations/>

Presidential Libraries Through the Presidential Libraries, which are located at sites selected by the Presidents and built with private funds, NARA preserves and makes available the records, personal papers, and artifacts of a particular President's administration. Each library operates a research room and provides reference services for Presidential papers and other historical materials. The Libraries display artifacts and other holdings in exhibits illustrating the life and times of a President through museum exhibits. The Presidential Libraries also provide programming for students of all ages promoting citizen engagement. NARA operates the Libraries of Presidents Herbert Hoover through President George W. Bush. While such records were once considered personal papers, all Presidential records created on or after January 20, 1981, are declared by law to be owned and controlled by the United States and are required to be transferred to NARA at the end of the administration, pursuant to the Presidential Records Act of 1978 (44 U.S.C. 2201 et seq.). The Office of Presidential Libraries within the National Archives oversees the archival, museum, and education programs of the 13 Presidential Libraries.

For further information, contact the Office of Presidential Libraries. Phone, 301-837-3250. Fax, 301-837-3199. Internet, <http://www.archives.gov/presidential-libraries>.

Office of the Federal Register The Office of the Federal Register (OFR) prepares and publishes a variety of public documents.

Upon passage by Congress and approval by the President, the OFR assigns each new act of Congress a public or private law number and publishes the text of the new law in slip law (pamphlet) form. This slip law serves as the official publication of the law and is admissible as legal evidence of the law's provisions. The OFR also publishes the United States Statutes at Large, an annual compilation of all the laws passed during a Congressional session.

Each Federal workday, the OFR publishes the Federal Register, which contains current Presidential proclamations and Executive orders,

Federal agency regulations having general applicability and legal effect, proposed agency rules, and documents required by statute to be published. All Federal regulations in force are codified annually in the Code of Federal Regulations.

Presidential speeches, news conferences, messages, and other materials released by the White House Office of the Press Secretary are published online in the Daily Compilation of Presidential Documents and annually in the Public Papers of the Presidents. The Daily Compilation of Presidential Documents, as well as electronic versions of the previous Weekly Compilation of Presidential Documents from 1993 onward, can be accessed at www.presidentialdocuments.gov.

The United States Government Manual, published annually, serves as the official handbook of the Federal Government, providing extensive information on the legislative, judicial, and executive branches.

All OFR publications are available in both paper editions and online in electronic formats at www.ofr.gov.

For further information, contact Information Services and Technology, Office of the Federal Register. Phone, 202-741-6000. TTY, 202-741-6086. Fax, 202-741-6012. Email, fedreg.info@nara.gov. Internet, <http://www.ofr.gov>.

National Historical Publications and Records Commission The National Historical Publications and Records Commission (NHPRC) is the grant-making affiliate of the National Archives and Records Administration. NHPRC promotes the preservation and use of America's documentary heritage essential to understanding our democracy, history, and culture. NHPRC grants help State and local archives, universities, historical societies, and other nonprofit organizations preserve and manage electronic records, improve training and techniques, strengthen archival programs, preserve and process records collections, and provide access to them through the publication of finding aids and documentary editions of the papers of the Founding Era and other themes

and historical figures in American history. NHPRC works in partnership with a national network of State historical records advisory boards. It also provides Federal leadership in public policy for the preservation of, and access to, America's documentary heritage.

For further information, contact the National Historical Publications and Records Commission. Phone, 202-357-5010. Email, nhprc@archives.gov. Internet, <http://www.archives.gov/nhprc>.

National Archives Trust Fund Board

The National Archives Trust Fund Board receives funds from the sale of reproductions of historic documents and publications about the records, as well as from gifts and bequests. The Board invests these funds and uses income to support archival functions such as the preparation of publications that make information about historic records more widely available. Members of the Board are the Archivist of the United States, the Secretary of the Treasury, and the Chairman of the National Endowment for the Humanities.

For further information, contact the Secretary, National Archives Trust Fund Board. Phone, 301-837-3165.

[For the National Capital Planning Commission statement of organization, see the Code of Federal Regulations, Title 1, Part 456.2.]

The National Capital Planning Commission is the central agency for conducting planning and development activities for Federal lands and facilities in the National Capital Region. The region includes the District of Columbia and all land areas within the boundaries of Montgomery and Prince George's Counties in Maryland and Fairfax, Loudoun, Prince William, and Arlington Counties and the City of Alexandria in Virginia.

The National Capital Planning Commission was established as a park planning agency by act of June 6, 1924, as amended (40 U.S.C. 8701 et seq.). Two years later its role was expanded to include comprehensive planning. In 1952, under the National Capital Planning Act, the Commission was designated the central planning agency for the Federal and District of Columbia governments.

In 1973, the National Capital Planning Act was amended by the District of Columbia Home Rule Act, which made the mayor of the District of Columbia the chief planner for the District and gave the Commission specific authority for

reviewing certain District decisions. The Commission continues to serve as the central planning agency for the Federal Government in the National Capital Region.

The Commission is composed of five appointed and seven ex officio members. Three citizen members, including the Chairman, are appointed by the President, with the remaining two appointed by the mayor of the District of Columbia. Presidential appointees include one resident each from Maryland and Virginia and one from anywhere else in the United States. The two mayoral appointees must be District of Columbia residents.

For further information, contact the National Capital Planning Commission, 401 Ninth Street NW., Suite 500, Washington, DC 20004. Phone, 202-482-7200. Fax, 202-482-7272. Email, info@ncpc.gov. Internet, <http://www.ncpc.gov>.

[For the National Credit Union Administration statement of organization, see the Code of Federal Regulations, Title 12, Part 720]

The National Credit Union Administration is responsible for chartering, insuring, supervising, and examining Federal credit unions and administering the National Credit Union Share Insurance Fund.

The National Credit Union Administration (NCUA) was established by act of March 10, 1970 (12 U.S.C. 1752), and reorganized by act of November 10, 1978 (12 U.S.C. 226), as an independent agency in the executive branch of the Federal Government. It regulates and insures all Federal credit unions and insures State-chartered credit unions that apply and qualify for share insurance.

Activities

Chartering NCUA grants Federal credit union charters to groups sharing a common bond of occupation or association or groups within a well-defined neighborhood, community, or rural district. A preliminary investigation is made to determine if certain standards are met before granting a Federal charter.

Examinations The Administration regularly examines Federal credit unions to determine their solvency and compliance with laws and regulations and to assist credit union management and operations.

For further information, contact the Director, Office of Examination and Insurance. Phone, 703-518-6360.

Share Insurance The act of October 19, 1970 (12 U.S.C. 1781 et seq.), provides for a program of share insurance. The insurance is mandatory for Federal credit unions. State-chartered credit unions in many States are required to have Federal

share insurance, and it is optional for other State-chartered credit unions. Credit union members' accounts are insured up to \$250,000. The National Credit Union Share Insurance Fund requires each insured credit union to place and maintain a 1-percent deposit of its insured savings with the Fund.

For further information, contact the Director, Office of Examination and Insurance. Phone, 703-518-6360.

Supervision Supervisory activities are carried out through regular examiner contacts and through periodic policy and regulatory releases from the Administration. NCUA also identifies emerging problems and monitors operations between examinations.

For a complete list of NCUA regional offices, visit <http://www.ncua.gov/about/pages/Contact.aspx>.

Sources of Information

Consumer Assistance Questions about credit union insurance and other consumer matters can be directed to NCUA's Consumer Assistance Center at 800-755-1030, from 9 a.m. to 5 p.m., eastern standard time, Monday through Friday. After business hours, consumers may leave a recorded message.

Consumer Complaints NCUA investigates the complaints of members unable to resolve problems with their Federal credit unions. Complaints should

be sent to the regional office in the State where the credit union is located.

Employment Inquiries and applications for employment should be directed to the Office of Human Resources, National Credit Union Administration, 1775 Duke Street, Alexandria, VA 22314–3428.

Federally Insured Credit Unions A list of federally insured credit union names, addresses, asset levels, and number of members is available for review at NCUA's central and regional offices. Copies of the listing are available at a nominal fee from NCUA, Publications, 1775 Duke Street, Alexandria, VA 22314–3428. Phone, 703–518–6340.

The National Endowment for the Arts advances artistic excellence, creativity, and innovation for the benefit of individuals and communities.

Through its grants and programs, the Arts Endowment brings great art to all 50 States and 6 U.S. jurisdictions, including rural areas, inner cities, and military bases. The Arts Endowment awards competitive matching grants to nonprofit organizations, to units of State or local government, and to federally recognized tribal communities or tribes for projects, programs, or activities in the fields of artist communities, arts education, dance, design, folk and traditional arts, literature, local arts agencies, media arts, museums, music, musical theater, opera, presenting, theater, and visual arts. In addition, it awards competitive nonmatching individual fellowships in literature and honorary fellowships in jazz, folk and traditional arts, and opera. Forty percent

of the Arts Endowment's grant funds go to the 56 State and jurisdictional arts agencies and their 6 regional arts organizations in support of arts projects in thousands of communities across the country.

The National Endowment for the Humanities supports research, education, preservation, and public programs in the humanities.

According to the agency's authorizing legislation, the term "humanities" includes, but is not limited to, the study of the following: language, both modern and classical; linguistics; literature; history; jurisprudence; philosophy; archeology; comparative religion; ethics; the history, criticism, and theory of the arts; and those aspects of the social sciences that employ historical or philosophical approaches.

To increase understanding and appreciation of the humanities, the Endowment makes grants to individuals, groups, or institutions: schools, colleges, universities, museums, public television stations, libraries, public agencies, and nonprofit private groups.

Bridging Cultures Initiative This initiative encourages projects that explore the ways in which cultures around the globe, as well as the many subcultures within America's borders, have influenced American society.

For further information, call 202-606-8337.

Challenge Grants Nonprofit institutions interested in developing new sources of long-term support for educational, scholarly, preservation, and public programs in the humanities may be assisted in these efforts by a challenge grant.

For further information, call 202-606-8309.

Digital Humanities The Office of Digital Humanities encourages and supports projects that use or study the impact of digital technology on education, preservation, public programming, and research in the humanities.

The Institute of Museum and Library Services creates strong libraries and museums that connect people to information and ideas.

The Institute of Museum and Library Services (IMLS) was established within the National Foundation on the Arts and the Humanities by the Museum and Library Services Act of September 30,

1996 (110 Stat. 3009), which amended the Museum Services Act (20 U.S.C. 961 et seq.). The Institute combines administration of Federal museum programs formerly carried out by the

Institute of Museum Services and Federal library programs formerly carried out by the Department of Education. The Institute's Director is appointed by the President with the advice and consent of the Senate and is authorized to make grants to museums and libraries. The Director receives policy advice on museum and library programs from the National Museum and Library Services Board, which is comprised of 20 members appointed by the President, the Director, the Deputy Director for the Office of Museum Services, and the Deputy Director for the Office of Library Services.

IMLS is the primary source of Federal support for the Nation's 123,000 libraries and 17,500 museums. It helps libraries and museums improve innovation, learning, and cultural and civic engagement. Through grant-making, policy development, and research, IMLS enables libraries and museums to deliver more and better services to individuals and their communities. IMLS awards grants to all types of museums and libraries. Eligible museums include art, history, general, children's, natural history, science, and technology, as well as historic houses, zoos, aquariums, botanical gardens, arboretums, nature centers, and planetariums. Eligible libraries include public, school, academic, research, and special libraries. The Institute makes grants that improve electronic sharing of information and expand public access to information and services.

African American History and Culture Museum Grants This program strengthens African American museums in the areas of professional training, technical assistance, internships, and expertise.

Conservation Assessment Program IMLS helps support the cost of the Conservation Assessment Program through a cooperative agreement with Heritage Preservation. The program provides a conservation professional to perform the assessment.

Laura Bush 21st Century Librarian Program This program recruits and educates future librarians and those who

will prepare them for careers in library science.

Museum Assessment Program IMLS helps support the cost of the Museum Assessment Program through a cooperative agreement with the American Association of Museums. The program helps museums assess their strengths and weaknesses and plan for the future.

Museums for America This program aids museums to serve a wider, more diverse public through education, partnerships, and technology.

National Arts and Humanities Youth Program Awards This program is a project of the President's Committee on the Arts and the Humanities in partnership with IMLS, the National Endowment for the Arts, and the National Endowment for the Humanities. These awards acknowledge museums and libraries for afterschool and out-of-school arts and humanities youth programming.

National Leadership Grants This program provides grants to enhance the quality of library and museum services nationwide.

National Medal for Museum and Library Service This program recognizes outstanding museums and libraries that provide meaningful public service for their communities.

Native American Library Services This program provides small grants to tribes and Alaska Native villages for core library operations, technical assistance, and enhancement grants to promote innovative practices.

Native American/Native Hawaiian Museum Services This program strengthens museum services to Native American tribes and Native Hawaiian organizations in the areas of programming and professional development.

Sparks! Ignition Grants These grants help archives or museums and libraries innovate and enhance the way they operate and provide services.

State Program Grants IMLS, through the Library Services and Technology Act, provides annual grants to support library services in each State using a population-based formula. To find background material, contact your State librarian.

More information on your State's program is available online.

[For the National Labor Relations Board statement of organization, see the Federal Register of June 14, 1979, 44 FR 34215]

The National Labor Relations Board prevents and remedies unfair labor practices committed by private sector employers and unions. It safeguards employees' rights to organize and determine whether to have unions as their bargaining representative.

The National Labor Relations Board (NLRB) is an independent agency created by Congress to administer the National

Labor Relations Act of 1935 (Wagner Act; 29 U.S.C. 167). The Board is authorized to designate appropriate units

for collective bargaining and to conduct secret ballot elections to determine whether employees desire representation by a labor organization.

Activities

The NLRB has two principal functions: preventing and remedying unfair labor practices and conducting secret ballot elections among employees in appropriate collective-bargaining units to determine whether or not they desire to be represented by a labor organization in bargaining with employers over their wages, hours, and working conditions. The agency also conducts secret ballot elections among employees who have been covered by a union-security agreement to determine whether or not they wish to revoke their union's authority to make such agreements. In jurisdictional disputes between two or more unions, the Board determines which competing group of workers is entitled to perform the work involved.

The regional directors and their staffs process representation, unfair labor practice, and jurisdictional dispute cases. They issue complaints in unfair labor practice cases, seek settlement of unfair labor practice charges, obtain compliance with Board orders and court judgments, and petition district courts for injunctions to prevent or remedy unfair labor practices. The regional directors conduct hearings in representation cases, hold elections pursuant to the agreement of the parties or the decision-making authority delegated to them by the Board or pursuant to Board directions, and issue certifications of representatives when unions win or certify the results when unions lose employee elections. They process petitions for bargaining unit clarification, for amendment of certification, and for rescission of a labor organization's authority to make a union-shop agreement. They also conduct national emergency employee referendums.

Administrative law judges conduct hearings in unfair labor practice cases, make findings of fact and conclusions of law, and recommend remedies for violations found. Their decisions can be

appealed to the Board for a final agency determination. The Board's decisions are subject to review in the U.S. courts of appeals.

Contracts Prospective suppliers of goods and services may inquire about agency procurement and contracting practices by writing to the Chief, Acquisitions Management Branch, National Labor Relations Board, Washington, DC 20570. Phone, 202-273-4047.

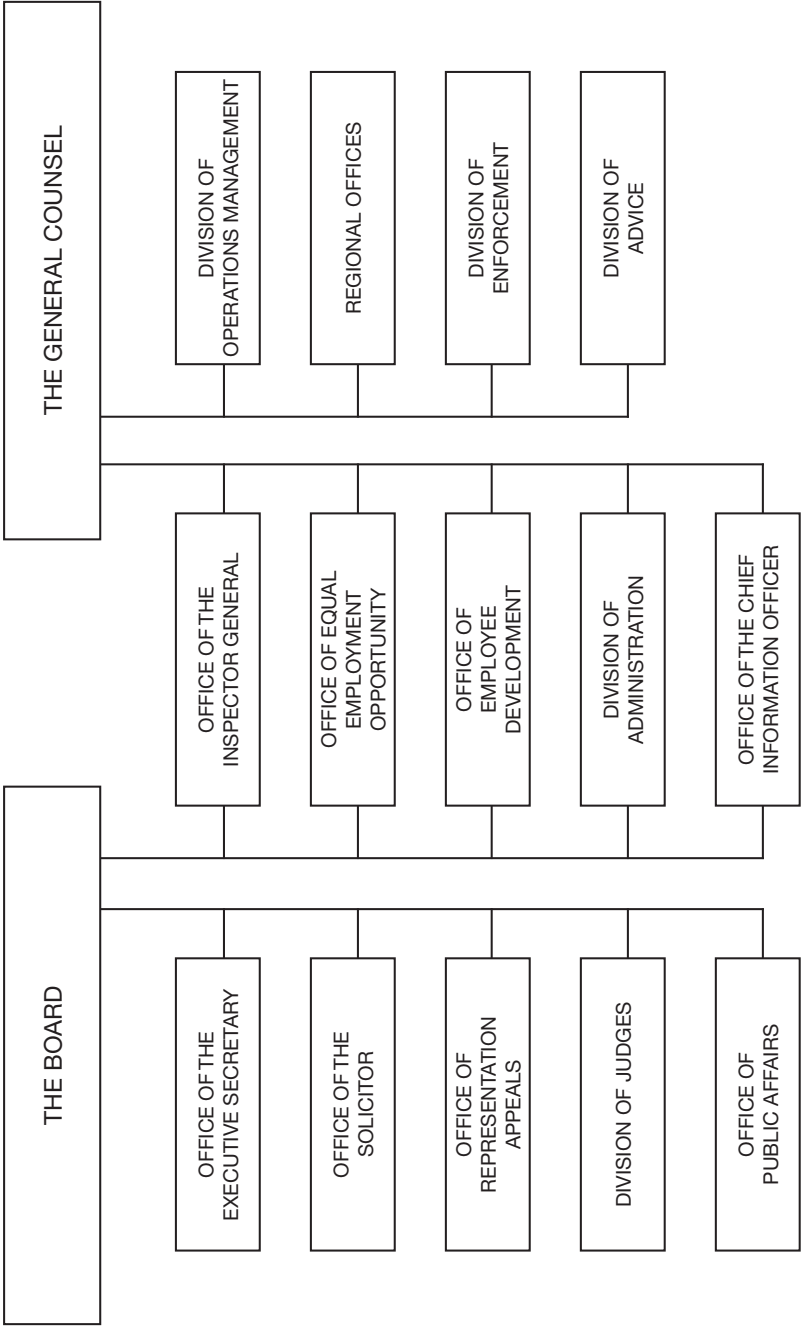

Programs and Activities Information about the Board's programs and activities is available through the Internet at www.nlr.gov.

Employment The Board appoints administrative law judges from a register established by the Office of Personnel Management. The agency hires attorneys for all its offices, field examiners for its field offices, and administrative personnel for its Washington and field offices. Inquiries regarding college and law school recruiting programs should be directed to the nearest regional office. Employment inquiries and applications may be sent to any regional office or the Washington Human Resources Office.

Publications Anyone desiring to inspect formal case documents or read agency publications may use facilities of the Washington or field offices, or search the agency Web site at www.nlr.gov. The Board's offices offer free informational leaflets in limited quantities.

Speakers To provide a better understanding of the National Labor Relations Act and the Board's policies, procedures, and services, Washington and regional office personnel are available to serve as speakers for labor and civic organizations, educational institutions, management organizations, bar associations, and other similar groups. Requests for speakers or panelists may be made to Washington officials or to the appropriate regional director or agency Web site at www.nlr.gov/about_us/speakers.aspx.

The National Mediation Board facilitates labor-management relations within the railroads and the airlines.

The National Mediation Board (NMB) is an independent agency established by the 1934 amendments to the Railway Labor Act of 1926 (45 U.S.C. 151-158, 160-162, 1181-1188). The Board is composed of three members, appointed by the President and confirmed by the Senate. The Board designates a Chairman on a yearly basis.

The Agency's dispute-resolution processes are designed to resolve disputes over the negotiation of new or revised collective bargaining agreements and the interpretation or application of existing agreements. It also effectuates employee rights of self-organization where a representation dispute exists.

Activities

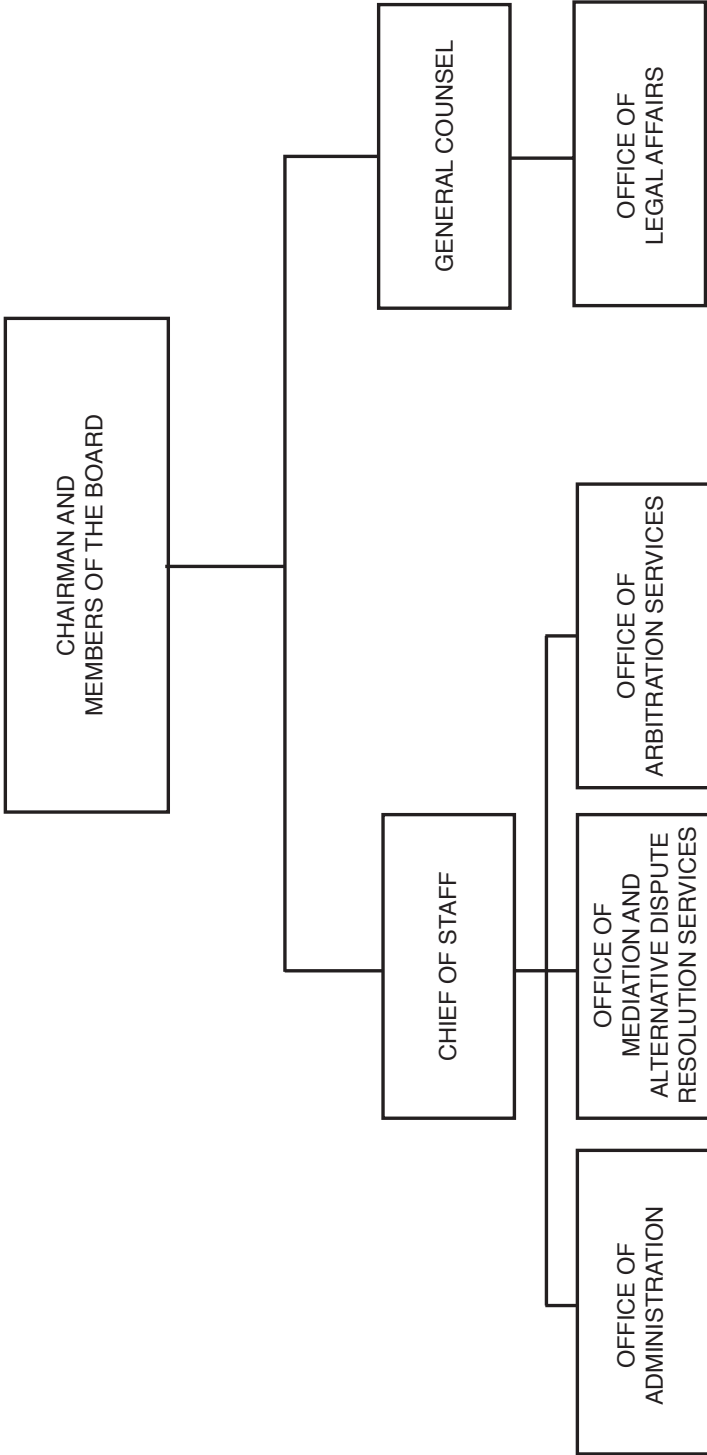

Mediation and Alternative Dispute Resolution Following receipt of an application for mediation, the NMB assigns a mediator to assist the parties in reaching an agreement. The NMB is obligated to use its best efforts to bring about a peaceful resolution to the dispute. If such efforts do not settle the dispute, the NMB advises the parties and offers interest arbitration as an alternative approach to resolve the remaining issues. If either party rejects this offer,

the NMB releases the parties from formal mediation. This release triggers a 30-day cooling off period. During this period, NMB continues to work with the parties to achieve a consensual resolution. If, however, an agreement is not reached by the end of the 30-day period, the parties are free to exercise lawful self-help, such as carrier-imposed working conditions or a strike by the union/organization.

In addition to traditional mediation services, NMB also provides voluntary Alternative Dispute Resolution (ADR) services. ADR services include facilitation, training, grievance mediation, and an Online Dispute Resolution component, which applies technology to the dispute resolution process. The purpose of the ADR program is to assist the parties in learning and applying more effective, less confrontational methods for resolving their disputes, and to help them resolve more of their own disputes without outside intervention.

Presidential Emergency Board If NMB determines that a dispute threatens to substantially deprive any section of the country of essential transportation service, it notifies the President. The President may, at his discretion, establish a Presidential Emergency Board (PEB) to investigate and report back within 30

NATIONAL MEDIATION BOARD

days. After the PEB has been created and for 30 days after it has made its report to the President, neither party to the dispute may exercise self-help.

There are also special emergency procedures for unresolved disputes affecting publicly funded and operated commuter railroads and their employees. If the mediation procedures are exhausted, the parties to the dispute, or the Governor of any State where the railroad operates, may request that the President establish a PEB. The President is required to establish such a board if requested. If no settlement is reached within 60 days following the creation of the PEB, NMB is required to conduct a public hearing on the dispute. If there is no settlement within 120 days after the creation of the PEB, any party, or the Governor of any affected state, may request a second, final-offer PEB. No self-help is permitted pending the exhaustion of these emergency procedures.

Representation When a labor organization or individual files an application with NMB to represent employees, the Agency assigns an investigator to conduct a representation investigation. Should the applicant meet the requirements, NMB continues the investigation, usually with a secret telephone or Internet election. NMB is responsible for ensuring that the requirements for a fair election process have been maintained. If the employees vote to be represented, NMB issues a certification which commences the carrier's statutory duty to bargain with the certified representative.

Arbitration NMB provides both grievance arbitration and interest arbitration. Grievance arbitration is a process for resolving disputes regarding the interpretation or application of an existing collective bargaining agreement. Grievances must be handled through grievance arbitration if not otherwise resolved, and cannot be used by the parties to trigger self-help actions. NMB has significant administrative responsibilities for grievance arbitration in the railroad industry, which includes those before the National Railroad Adjustment Board (NRAB), as well

as the two types of arbitration panels established by the labor-management parties at each railroad: public law boards (PLBs) and special boards of adjustment (SBAs). Grievance arbitration in the airline industry is accomplished at the various system boards of adjustment created jointly by labor and management at the parties' expense. NMB furnishes panels of prospective arbitrators for the parties' selection in both the airline and railroad industries. NMB also pays the salary and travel expenses of the arbitrators for railroad arbitration proceedings. Grievance arbitration decisions are final and binding with very limited grounds for judicial review.

Interest arbitration is a process to establish the terms of a new or modified collective bargaining agreement through arbitration, rather than through negotiations. Unlike grievance arbitration, its use is not statutorily required. NMB offers the parties the opportunity to use binding interest arbitration when the agency has determined that further mediation efforts will not be successful. In addition, the parties may directly agree to resolve their collective bargaining dispute or portions of their dispute through interest arbitration. NMB generally provides the parties with panels of potential arbitrators from which they choose an individual to resolve their dispute. In some instances, however, the parties agree to allow NMB to directly appoint an arbitrator. Interest arbitration decisions are final and binding with very narrow grounds for judicial appeal.

[For the National Railroad Passenger Corporation statement of organization, see the Code of Federal Regulations, Title 49, Part 700]

The National Railroad Passenger Corporation provides intercity rail passenger service in the United States.

The National Railroad Passenger Corporation (Amtrak) was created by the Rail Passenger Service Act of 1970, as amended (49 U.S.C. 241),

and was incorporated under the laws of the District of Columbia to provide a balanced national transportation system

by developing, operating, and improving U.S. intercity rail passenger service.

Amtrak operates approximately 300 trains per day, serving over 500 stations in 46 States, over a system of 22,000 route miles. Of this route system, Amtrak owns about 530 route miles in the Northeast and several other small track segments elsewhere in the country.

Amtrak owns or leases its stations and owns its own repair and maintenance facilities. The Corporation employs a total workforce of approximately 20,000 and provides all reservation, station, and onboard service staffs, as well as train and engine operating crews. Outside the Northeast Corridor, Amtrak may enter into contracts with privately or publicly owned railroads to operate over their

track. These railroads are responsible for the condition of the roadbed and for coordinating the flow of traffic.

In fiscal year 2011, Amtrak transported over 31 million people with 85,000 passengers traveling on Amtrak per day. Also, Amtrak runs commuter trains under contract with several commuter agencies.

Although Amtrak's basic route system was originally designated by the Secretary of Transportation in 1971, modifications have been made to the Amtrak system and to individual routes that have resulted in more efficient and cost-effective operations. Capital funding has increased in recent years, allowing Amtrak to make progress in bringing its network to a state of good repair and in reducing debt load.

The National Science Foundation promotes the progress of science and engineering through the support of research and education programs.

The National Science Foundation (NSF) is an independent agency created by the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861–1875).

NSF purposes are to increase the Nation's base of scientific and engineering knowledge; to strengthen its ability to conduct research in all areas of science and engineering; to develop and help implement science and engineering education programs that can better prepare the Nation for meeting the challenges of the future; and to promote international cooperation through science and engineering. In its role as a leading Federal supporter of science and engineering, the agency also has an important role in national policy planning.

The Director and the Deputy Director are appointed by the President, with the advice and consent of the Senate, to a 6-year term and an unspecified term, respectively. The Foundation's activities are guided by the National Science Board (NSB). NSB is composed of a chairman, a vice chairman, 24 board members, and the Director ex officio. Members are appointed by the President with the advice and consent of the Senate for 6-year terms, with one-third appointed every 2 years. They are selected because of their records of distinguished service in science, engineering, education, research management, or public affairs to be broadly representative of the views of national science and engineering

leadership. The Board also has a broad national policy responsibility to monitor and make recommendations to promote the health of U.S. science and engineering research and education.

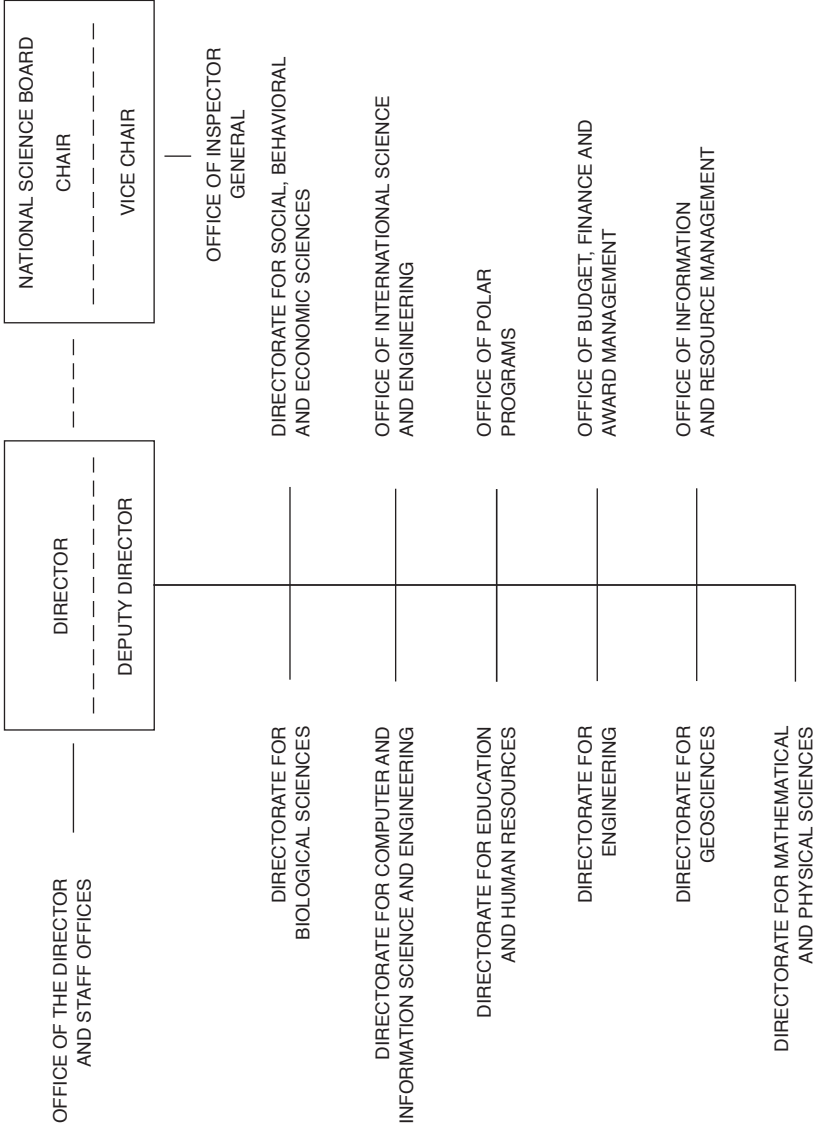

The Foundation's Office of Inspector General is responsible for conducting and supervising audits, inspections, and investigations relating to the programs and operations of the Foundation, including allegations of misconduct in science.

Activities

NSF initiates and supports fundamental, long-term, merit-selected research in all the scientific and engineering disciplines. This support is made through grants, contracts, and other agreements awarded to universities, colleges, academic consortia, and nonprofit and small business institutions. Most of this research is directed toward the resolution of scientific and engineering questions concerning fundamental life processes, natural laws and phenomena, fundamental processes influencing the human environment, and the forces affecting people as members of society as well as the behavior of society as a whole.

The Foundation encourages cooperative efforts by universities, industries, and government. It also promotes the application of research and development for better products and services that improve the quality of life and stimulate economic growth.

NATIONAL SCIENCE FOUNDATION

The Foundation promotes the development of research talent through support of undergraduate and graduate students, as well as postdoctoral researchers. It administers special programs to identify and encourage participation by groups underrepresented in science and technology and to strengthen research capability at smaller institutions, small businesses, undergraduate colleges, and universities.

The Foundation supports major national and international science and engineering activities, including the U.S. Antarctic Program, the Ocean Drilling Program, global geoscience studies, and others. Cooperative scientific and engineering research activities support exchange programs for American and foreign scientists and engineers, execution of jointly designed research projects, participation in the activities of international science and engineering organizations, and travel to international conferences.

Support is provided through contracts and cooperative agreements with national centers where large facilities are made available for use by qualified scientists and engineers. Among the types of centers supported by the Foundation are astronomy and atmospheric sciences, biological and engineering research, science and technology, supercomputers, and long-term ecological research sites.

The Foundation's science and engineering education activities include grants for research and development activities directed to model instructional materials for students and teachers and the application of advanced technologies to education. Grants also are available for teacher preparation and enhancement and informal science education activities. Funding is also provided for college science instrumentation, course and curriculum improvement, faculty and student activities, and minority resource centers. In addition, studies of the status of math, science, and engineering education are supported.

NSF presents the Vannevar Bush Award annually to a person who, through public service activities in science and technology, has made an outstanding

contribution toward the welfare of mankind and the Nation. It also presents the Public Service Award to an individual and to a company, corporation, or organization who, through contributions to public service in areas other than research, have increased the public understanding of science or engineering. NSF annually presents the Alan T. Waterman Award to an outstanding young scientist or engineer for support of research and study. The Foundation also provides administrative support for the President's Committee on the National Medal of Science.

Information on these awards is available through the Internet at www.nsf.gov/home/nsb/start.htm.

Sources of Information

Board and Committee Minutes

Summary minutes of the open meetings of the Board may be obtained from the National Science Board Office. Phone, 703-292-7000. Information on NSB meetings, minutes, and reports is available through the Internet at www.nsf.gov/home/nsb/start.htm. Summary minutes of the Foundation's advisory groups may be obtained from the contacts listed in the notice of meetings published in the Federal Register or under "News and Media" on the Foundation's Web site. General information about the Foundation's advisory groups may be obtained from the Division of Human Resource Management, Room 315, Arlington, VA 22230. Phone, 703-292-8180.

Contracts The Foundation publicizes contracting and subcontracting opportunities in the Commerce Business Daily and other appropriate publications. Organizations seeking to undertake contract work for the Foundation should contact either the Division of Contracts, Policy, and Oversight (phone, 703-292-8240) or the Division of Administrative Services (phone, 703-292-8190), National Science Foundation, Arlington, VA 22230.

Electronic Access Information regarding NSF programs and services is available through the Internet at www.nsf.gov.

Employment Inquiries may be directed to the Division of Human Resource Management, National Science Foundation, Room 315, Arlington, VA 22230. Phone, 703-292-8180. TDD, 703-292-8044. Internet, www.nsf.gov/jobs.

Fellowships Consult the NSF Guide to Programs and appropriate announcements and brochures for postdoctoral fellowship opportunities that may be available through some Foundation divisions. Beginning graduate and minority graduate students wishing to apply for fellowships should contact the Directorate for Education and Human Resources. Phone, 703-292-8601.

Freedom of Information Act Requests Requests for agency records should be submitted in accordance with the Foundation's FOIA regulation at 45 CFR 612. Such requests should be clearly identified with "FOIA REQUEST" and be addressed to the FOIA Officer, Office of General Counsel, National Science Foundation, Room 1265, Arlington, VA 22230. Phone, 703-292-8060. Fax, 703-292-9041. Email, foia@nsf.gov.

Grants Individuals or organizations who plan to submit grant proposals should refer to the NSF Guide to Programs, Grant Proposal Guide (NSF-01-2), and appropriate program brochures and announcements that may be obtained as indicated in the Publications section. Grant information is also available through the Internet at www.nsf.gov.

Office of Inspector General General inquiries may be directed to the Office of Inspector General, National Science Foundation, Room 1135, Arlington, VA 22230. Phone, 703-292-7100.

Privacy Act Requests Requests for personal records should be submitted in accordance with the Foundation's

Privacy Act regulation at 45 CFR 613. Such requests should be clearly identified with "PRIVACY ACT REQUEST" and be addressed to the Privacy Act Officer, National Science Foundation, Room 1265, Arlington, VA 22230. Phone, 703-292-8060.

Publications The National Science Board assesses the status and health of science and its various disciplines, including such matters as human and material resources, in reports submitted to the President for submission to the Congress. The National Science Foundation issues publications that announce and describe new programs, critical dates, and application procedures for competitions. Single copies of these publications can be ordered by writing to NSF Clearinghouse, P.O. Box 218, Jessup, MD 20794-0218. Phone, 301-947-2722. Internet, www.nsf.gov. Email, pubinfo@nsf.gov.

Reading Room A collection of Foundation policy documents and staff instructions, as well as current indexes, are available to the public for inspection and copying during regular business hours, 8:30 a.m. to 5 p.m., Monday through Friday, in the National Science Foundation Library, Room 225, Arlington, VA 22230. Phone, 703-292-7830.

Small Business Activities The Office of Small Business Research and Development provides information on opportunities for Foundation support to small businesses with strong research capabilities in science and technology. Phone, 703-292-8330. The Office of Small and Disadvantaged Business Utilization oversees agency compliance with the provisions of the Small Business Act and the Small Business Investment Act of 1958, as amended (15 U.S.C. 631, 661, 683). Phone, 703-292-8330.

[For the National Transportation Safety Board statement of organization, see the Code of Federal Regulations, Title 49, Part 800]

The National Transportation Safety Board investigates accidents, conducts studies, and makes recommendations to Government agencies, the transportation industry, and others on safety measures and practices.

The National Transportation Safety Board (NTSB) was established in 1967 and became totally independent on April 1, 1975, by the Independent Safety Board Act of 1974 (49 U.S.C. 1111).

NTSB consists of five Members appointed for 5-year terms by the President with the advice and consent of the Senate. The President designates two of these Members as Chairman and Vice Chairman of the Board for 2-year terms. The designation of the Chairman is made with the advice and consent of the Senate.

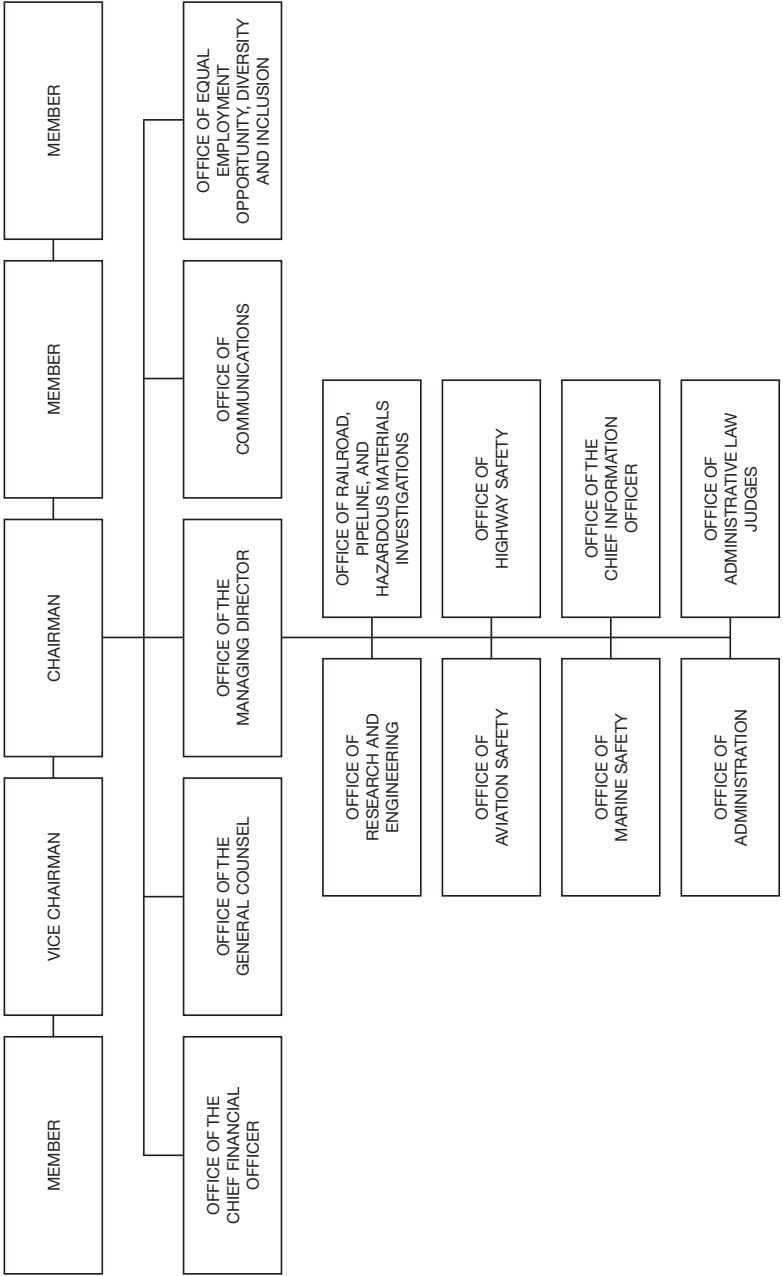

Activities

Accident Investigation NTSB is responsible for investigating, determining probable cause, making safety recommendations, and reporting the facts and circumstances of incidents in the following areas: U.S. civil aviation and certain public-use aircraft accidents; railroad accidents in which there is a

fatality or substantial property damage, or that involve a passenger train; pipeline accidents in which there is a fatality, substantial property damage, or significant injury to the environment; highway accidents, including railroad grade-crossing accidents, that the Board selects in cooperation with the States; major marine casualties and marine accidents involving a public vessel and a nonpublic vessel, in accordance with regulations prescribed jointly by the Board and the U.S. Coast Guard; certain accidents involving hazardous materials; and other transportation accidents that are catastrophic, involve problems of a recurring character, or otherwise should be investigated in the judgment of the Board.

Safety Problem Identification NTSB makes recommendations on matters pertaining to transportation safety and is a catalyst for transportation accident prevention by conducting safety studies

NATIONAL TRANSPORTATION SAFETY BOARD

and special investigations; assessing techniques of accident investigation and publishing recommended procedures; establishing regulatory requirements for reporting accidents; evaluating the transportation safety consciousness and efficacy of other Government agencies in the prevention of accidents; evaluating the adequacy of safeguards and procedures concerning the transportation of hazardous materials and the performance of other Government agencies charged with ensuring the safe transportation of such materials; and reporting annually to the Congress on its activities.

Family Assistance for Aviation Disasters

NTSB coordinates the resources of the Federal Government and other organizations to support the efforts of local and State governments and airlines to meet the needs of aviation disaster victims and their families. It assists in making Federal resources available to local authorities and airlines.

Certificate, Civil Penalty, and License Appeal

On appeal, NTSB reviews the suspension, amendment, modification, revocation, or denial of certain certificates, licenses, and assessments of civil penalties issued by the Secretary of Transportation. NTSB also reviews on appeal from the orders of any administrative law judge, the decisions of the Commandant of the Coast Guard revoking, suspending, or denying certain licenses, certificates, documents, and registers.

For further contact information for National Transportation Safety Board Aviation, Highway, and Railroad Safety regional offices, visit www.ntsbt.gov/Abt_NTSB/offices.htm.

Sources of Information

Contracts and Procurement Inquiries regarding NTSB's procurement and contracting activities should be addressed to the Contracting Officer, National

Transportation Safety Board, Washington, DC 20594. Phone, 202-314-6102.

Electronic Access Agency information, including aircraft accident data, synopses of aircraft accidents, speeches and congressional testimony given by Board members and staff, press releases, job vacancy announcements, and notices of Board meetings, public hearings, and other agency events, is available online. Internet, <http://www.ntsbt.gov/>.

Employment Send applications for employment to the Human Resources Division, National Transportation Safety Board, Washington, DC 20594. Phone, 202-314-6230.

Publications Publications are provided free of charge to the following categories of subscribers: Federal, State, or local transportation agencies; international transportation organizations or foreign governments; educational institutions or public libraries; nonprofit public safety organizations; and the news media. Persons in these categories who are interested in receiving copies of Board publications should contact the Records Management Division, National Transportation Safety Board, Washington, DC 20594. Phone, 202-314-6551. All other persons interested in receiving publications must purchase them from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. Orders may be placed by telephone to the Subscription Unit at 703-487-4630 or the sales desk at 703-487-4768.

Reading Room The Board's Public Reference Room is available for record inspection or photocopying. It is located in Room 6500 at the Board's Washington, DC, headquarters and is open from 8:45 a.m. to 4:45 p.m. every business day. Requests for access to public records should be made in person at Room 6500 or by writing to the Records Management Division, National Transportation Safety Board, Washington, DC 20594. Phone, 202-314-6551.

[For the Nuclear Regulatory Commission statement of organization, see the Code of Federal Regulations, Title 10, Part II]

The Nuclear Regulatory Commission licenses and regulates civilian use of nuclear energy to protect public health and safety and the environment.

The Nuclear Regulatory Commission (NRC) was established as an independent regulatory agency under the provisions of the Energy Reorganization Act of 1974 (42 U.S.C. 5801 et seq.) and Executive Order 11834 of January 15, 1975. All licensing and related regulatory functions formerly assigned to the Atomic Energy Commission were transferred to the Nuclear Regulatory Commission.

The Commission's major program components are the Office of Nuclear Reactor Regulation, the Office of New Reactors, the Office of Nuclear Material Safety and Safeguards, the Office of Federal and State Materials and Environmental Management Programs, and the Office of Nuclear Regulatory Research. Its headquarters are located in

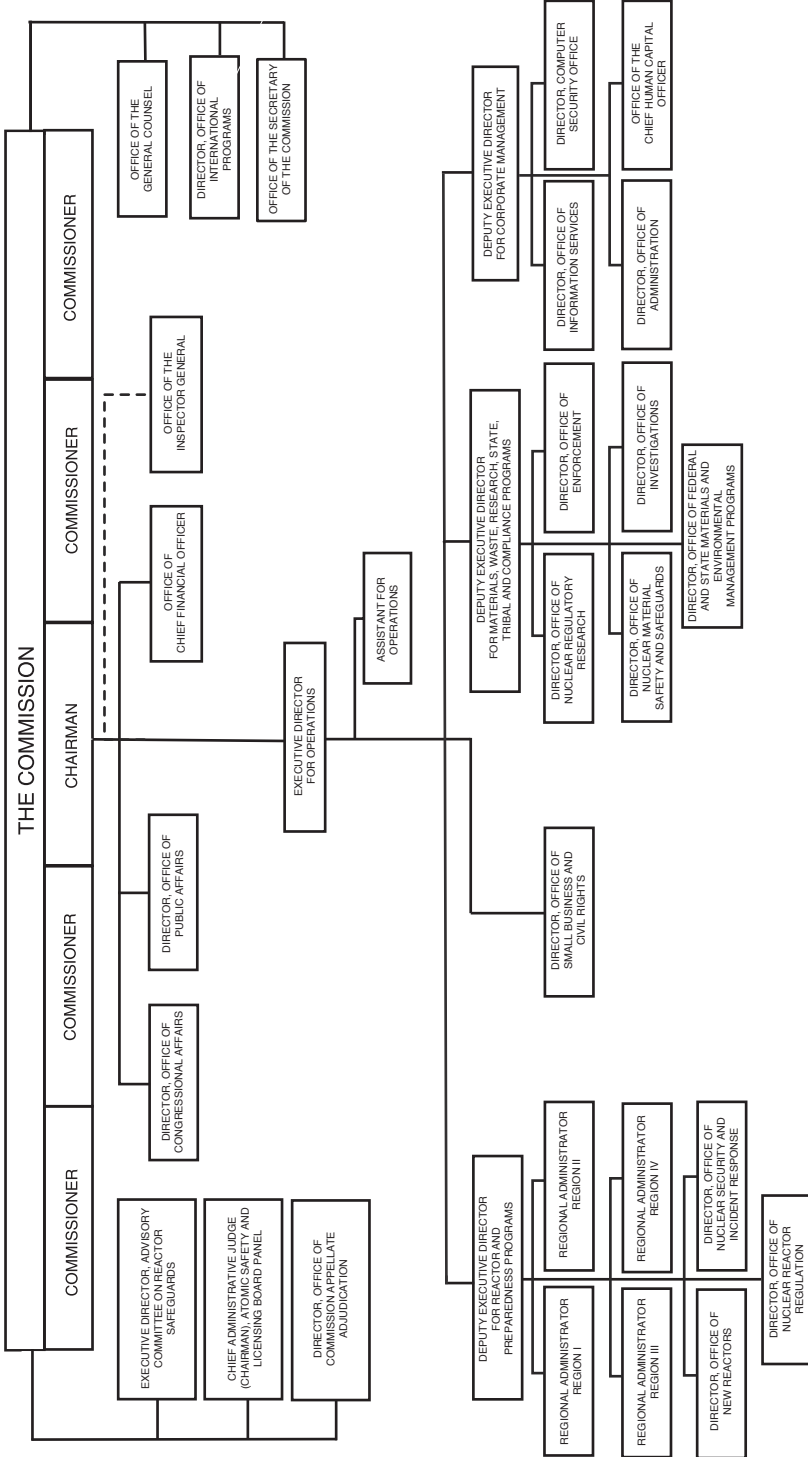

Rockville, Maryland, and there are four regional offices.

The Commission ensures that nuclear materials and facilities for civilian use are managed in a manner consistent with public health and safety, environmental quality, national security, and antitrust laws. Most of the Commission's effort is focused on regulating the use of nuclear energy to generate electric power.

Activities

NRC is primarily responsible for the following functions: licensing the construction, operation, and closure of nuclear reactors and other nuclear facilities, such as nuclear fuel cycle facilities, low-level radioactive waste disposal sites under NRC jurisdiction,

NUCLEAR REGULATORY COMMISSION

the geologic repository for high-level radioactive waste, and nonpower test and research reactors; licensing the possession, use, processing, handling, and export of nuclear material; licensing the operators of nuclear power and nonpower test and research reactors; inspecting licensed facilities and activities; conducting the U.S. Government research program on light-water reactor safety; developing and implementing rules and regulations that govern licensed nuclear activities; investigating nuclear incidents and allegations concerning any matter regulated by the Commission; maintaining the NRC Incident Response Program; collecting, analyzing, and disseminating information about the operational safety of commercial nuclear power reactors and certain nonreactor activities; developing effective working relationships with the States regarding reactor operations and the regulation of nuclear material; and assuring that adequate regulatory programs are maintained by those States that exercise regulatory control over certain nuclear materials in the State.

Sources of Information

Freedom of Information Act Requests

Requests for copies of records should be directed to the FOIA/Privacy Act Officer, Mail Stop T-5 F09, Nuclear Regulatory Commission, Washington, DC 20555-0001. Phone, 301-415-7169. Fax, 301-415-5130. Requests may also be submitted online by using the form accessible at www.nrc.gov/reading-rm/foia/foia-submittal-form.html.

Publications The Nuclear Regulatory Commission publishes scientific, technical, and administrative information dealing with licensing and regulation of civilian nuclear facilities and materials, as well as periodic and annual reports. Some publications and documents are available online at www.nrc.gov. The U.S. Government Printing Office and the National Technical Information Service sell single copies of, or subscriptions to, the Commission's publications. To obtain prices and order publications, contact the Superintendent of Documents,

Government Printing Office, Mail Stop SSOP, Washington, DC 20402-0001 (phone, 202-512-1800; Internet, <http://www.gpo.gov/about/bookstore.htm>) or NTIS, 5301 Shawnee Road, Alexandria, VA 22312 (phone, 703-605-6050; Internet, www.ntis.gov).

Active Regulatory Guides The Regulatory Guide series provides guidance to licensees and applicants on implementing specific parts of the Commission's regulations, techniques used by its staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits or licenses. Regulatory guides are issued in the following 10 broad divisions: power reactors, research and test reactors, fuels and materials facilities, environmental and siting, materials and plant protection, products, transportation, occupational health, antitrust and financial review, and general. Active Regulatory Guides may be obtained free of charge by downloading them from the Nuclear Regulatory Commission's online library at www.nrc.gov/reading-rm/doc-collections/reg-guides. In addition, those who are interested may examine and copy, for a fee, publicly accessible documents at the Commission's Public Document Room, O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852.

Draft Regulatory Guides The Nuclear Regulatory Commission issues regulatory guides in draft form to solicit public comment and involve the public in developing the agency's regulatory positions. Some draft guides are proposed revisions of existing guides. Draft regulatory guides have not received complete staff review and, therefore, they do not represent official Nuclear Regulatory Commission staff positions. In finalizing the guides, the staff considers all comments received during the public comment period. These drafts may be downloaded through the Commission's online library at www.nrc.gov/reading-rm/doc-collections/reg-guides. The public may comment on draft guides and other documentation issued in draft form online at <http://www.nrc.gov/public-involve/doc-comment.html>.

Reading Rooms The Public Document Room in Rockville, Maryland, maintains an extensive collection of documents related to Nuclear Regulatory Commission licensing proceedings and other significant actions. Documents issued prior to October 1999 are available in paper or microfiche. Documents issued after October 1999 are also available from the Commission's full-text document management system, which is accessible online at www.nrc.gov/reading-rm/adams.html. The headquarters' Public Document Room is located on the first floor at One White Flint North, 11555 Rockville Pike, Rockville, MD, and is open Monday through Friday, from 7:45 a.m. to 4:15 p.m., except on Federal holidays.

Documents Documents from the collection may be reproduced, with

some exceptions, on paper, microfiche, or CD-ROM for a nominal fee. For additional information regarding the Public Document Room, go to www.nrc.gov/reading-rm/pdr.html or contact the Nuclear Regulatory Commission, Public Document Room, Washington, DC 20555-0001. Phone, 301-415-4737, or 800-397-4209. Email, pdr.resource@nrc.gov. Fax, 301-415-3548.

Microfiche Collections Selected regional libraries of the Government Printing Office Federal Depository Library Program maintain permanent microfiche collections of Nuclear Regulatory Commission documents released between January 1981 and October 1999. For further information, contact the Public Document Room at 301-415-4737 or 800-397-4209.

For further information, contact the Office of Public Affairs, Nuclear Regulatory Commission, Washington, DC 20555-0001. Phone, 301-415-8200. Email, opa.resource@nrc.gov. Internet, <http://www.nrc.gov>.

The Occupational Safety and Health Review Commission ensures the timely and fair resolution of cases involving the alleged exposure of American workers to unsafe or unhealthy working conditions.

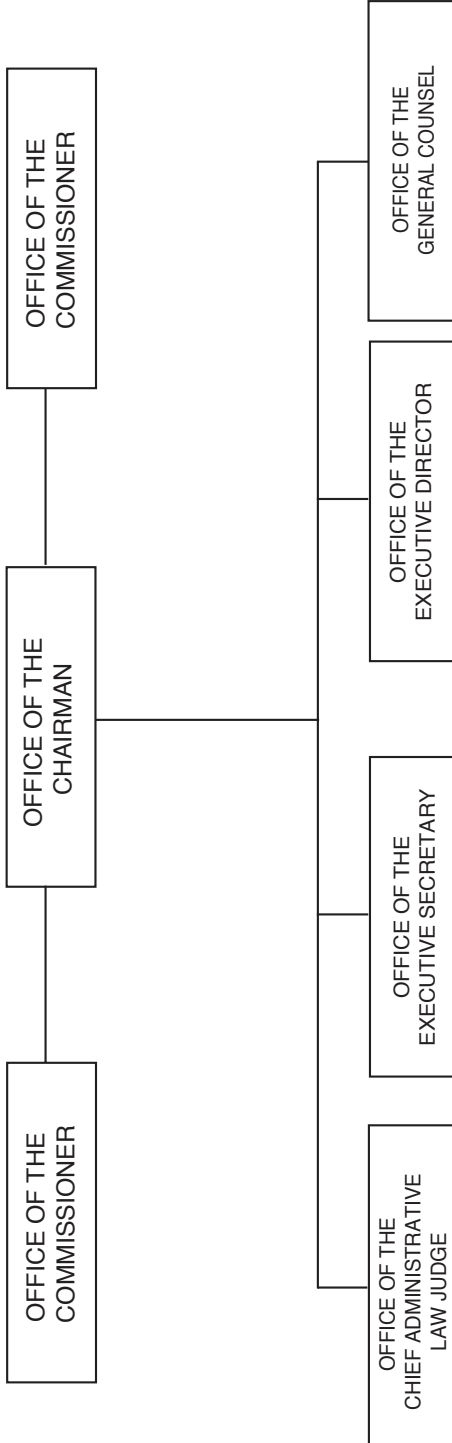

The Occupational Safety and Health Review Commission is an independent, quasi-judicial agency established by the Occupational Safety and Health Act of 1970 (29 U.S.C. 651-678).

The Commission rules on cases when disagreements arise over the results of safety and health inspections performed by the Department of Labor's Occupational Safety and Health Administration (OSHA). Employers have the right to dispute any alleged job

safety or health violation found during the inspection by OSHA, the penalties it proposes, and the time given to correct any hazardous situation.

The Occupational Safety and Health Act covers virtually every employer in the country. Its purpose is to reduce the incidence of personal injuries, illness, and deaths among working men and women in the United States that result from their employment. It requires employers to provide a working

environment free from recognized hazards that are causing or likely to cause death or serious physical harm to the employees and to comply with occupational safety and health standards promulgated under the act.

Activities

The Commission was created to adjudicate enforcement actions initiated under the act when they are contested by employers, employees, or representatives of employees. A case arises when a citation, issued to an employer as the result of an OSHA inspection, is contested within 15 working days of receipt of the report.

There are two levels of adjudication within the Commission. All cases are first assigned to an administrative law judge. A hearing is generally held in the community or as close as possible to where the alleged violation occurred. After the hearing, the judge issues a

decision, based on findings of fact and conclusions of law.

A substantial number of the judge's decisions become final orders of the Commission. However, if a party petitions the Commission members for review of the judge's decision and the petition is granted, Commission members will issue the final order.

After a final order is issued, any party to the case may seek a review of the decision in the United States Courts of Appeals.

The Commission's principal office is in Washington, DC. Administrative law judges are also located in Atlanta and Denver regional offices.

The Office of Government Ethics directs executive branch policies related to preventing conflicts of interest on the part of Government employees and resolving those conflicts of interest that do occur.

The Office of Government Ethics (OGE) is an executive branch agency established under the Ethics in Government Act of 1978, as amended (5 U.S.C. app. 401).

The Director of OGE is appointed by the President with the advice and consent of the Senate for a 5-year term.

Activities

The Office of Government Ethics develops appropriate ethics policies for the executive branch through the promulgation of regulations on Standards of Ethical Conduct, public and confidential financial disclosure of executive branch officials, ethics training programs, and the identification and resolution of actual and potential conflicts of interest by reviewing the financial disclosure reports submitted by nominees to, the incumbents of, and those leaving executive branch positions requiring Presidential appointment with Senate confirmation. These financial disclosure reports are also available for public inspection.

The OGE also provides education and training to 6,000 ethics officials through instructor-led and Web-based training programs; assesses the effectiveness of public and confidential financial disclosure systems maintained by over 130 executive branch agencies; maintains an extensive program to

provide advice on Standards of Ethical Conduct and conflict of interest laws; conducts onsite reviews of agency ethics programs; orders corrective action on the part of agencies and employees, including orders to establish or modify an agency's ethics program; evaluates the effectiveness of the Ethics in Government Act, the conflict of interest laws, and other related statutes and recommending appropriate changes; and provides technical assistance in support of U.S. international anticorruption and good governance initiatives.

Sources of Information

Electronic Access Information regarding OGE's services and programs is available in electronic format on the Internet at www.oge.gov.

Publications The Office of Government Ethics periodically updates its publication, The Informal Advisory Letters and Memoranda and Formal Opinions of the United States Office of Government Ethics, available from the Government Printing Office. In addition, OGE has ethics publications and instructional resources available. Upon request, OGE also provides copies of executive branch public financial disclosure reports in accordance with the Ethics in Government Act and OGE's regulations.

[For the Office of Personnel Management statement of organization, see the Federal Register of Jan. 5, 1979, 44 FR 1501]

The Office of Personnel Management administers a merit system to ensure compliance with personnel laws and regulations and assists agencies in recruiting, examining, and promoting people on the basis of their knowledge and skills, regardless of their race, religion, sex, political influence, or other nonmerit factors.

The Office of Personnel Management (OPM) was created as an independent establishment by Reorganization Plan No. 2 of 1978 (5 U.S.C. app.), pursuant

to Executive Order 12107 of December 28, 1978. Many of the functions of the former United States Civil Service Commission were transferred to OPM.

Activities

Employee Benefits OPM manages numerous activities that directly affect the well-being of the Federal employee and indirectly enhance employee effectiveness. These include health benefits, life insurance, and retirement benefits.

Examining and Staffing The Office of Personnel Management is responsible for providing departments and agencies with technical assistance and guidance in examining competitive positions in the Federal civil service for General Schedule grades 1 through 15 and Federal Wage system positions. In addition, OPM is responsible for the following duties: providing testing and examination services, at the request of an agency, on a reimbursable basis; establishing basic qualification standards for all occupations; certifying agency delegated examining units to conduct examining; providing employment information for competitive service positions; and providing policy direction and guidance on promotions, reassignments, appointments in the excepted and competitive services, reinstatements, temporary and term employment, veterans preference, workforce planning and reshaping, organizational design, career transition, and other staffing provisions.

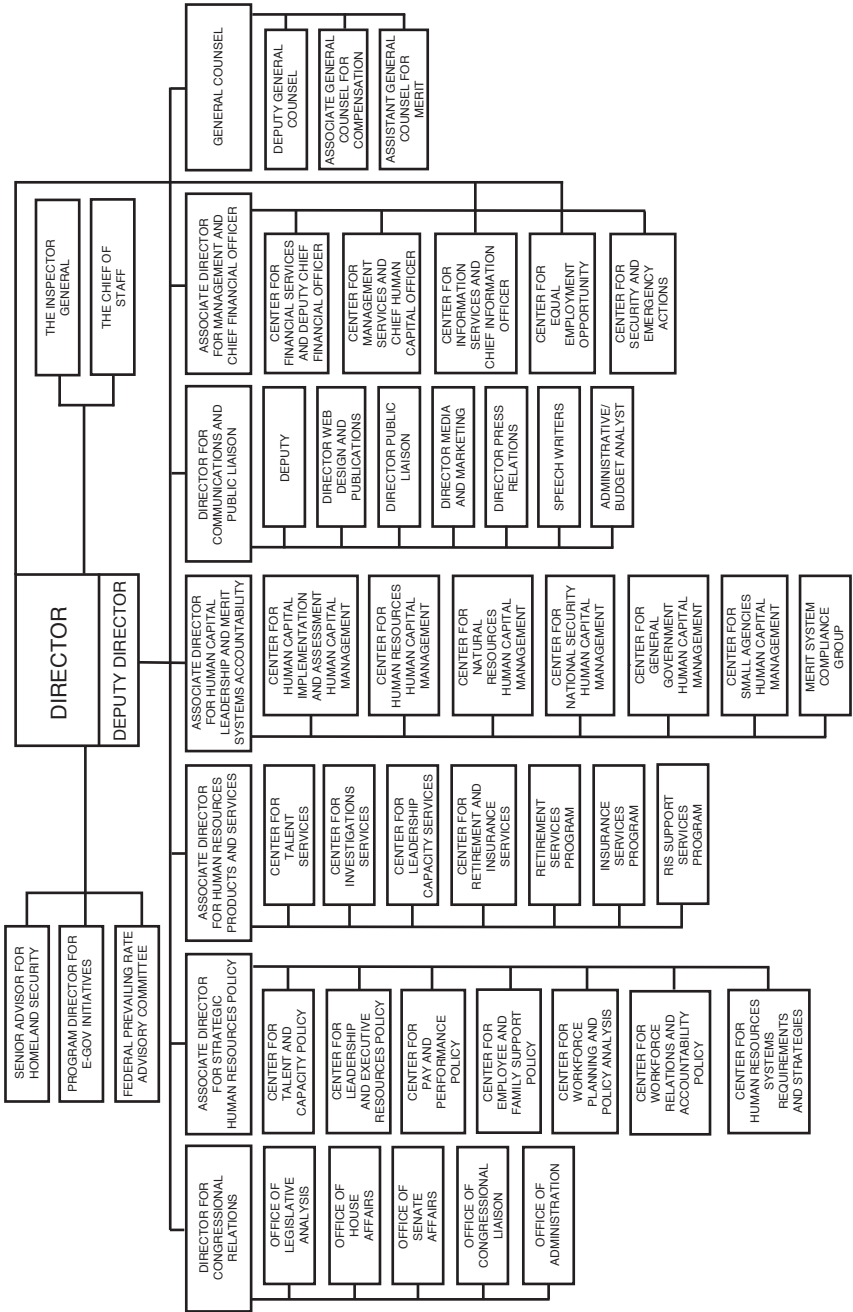

Executive Resources OPM leads in the selection, management, and development of Federal executives. OPM provides policy guidance, consulting services, and technical support on Senior Executive Service (SES) recruitment, selection, succession planning, mobility performance, awards, and removals. It reviews agency nominations for SES career appointments and administers the Qualifications Review Boards that certify candidates' executive qualifications. It manages SES, senior-level, and scientific and professional space allocations to agencies, administers the Presidential Rank Awards program, and conducts orientation sessions for newly appointed executives. In addition, OPM manages three interagency residential development and training centers for executives and managers.

Investigations The Office of the Inspector General conducts comprehensive and independent audits, investigations, and evaluations relating to OPM programs and operations. It is responsible for administrative actions against health care providers who commit sanctionable offenses with respect to the Federal Employees' Health Benefits Program or other Federal programs.

For further information, contact the Office of the Inspector General. Phone, 202-606-1200.

Personnel Systems OPM provides leadership and guidance to agencies on systems to support the manager's personnel management responsibilities. These include the following: white- and blue-collar pay systems, including SES and special occupational pay systems; geographical adjustments and locality payments; special rates to address recruitment and retention problems; allowances and differentials, including recruitment and relocation bonuses, retention allowances, and hazardous duty/environmental pay; and premium pay; annual and sick leave, court leave, military leave, leave transfer and leave bank programs, family and medical leave, excused absence, holidays, and scheduling of work, including flexible and compressed work schedules; performance management, covering appraisal systems, performance pay and awards, and incentive awards for suggestions, inventions, and special acts; classification policy and standards for agencies to determine the series and grades for Federal jobs; labor-management relations, including collective bargaining, negotiability, unfair labor practices, labor-management cooperation, and consulting with unions on Governmentwide issues; systems and techniques for resolving disputes with employees; quality of worklife initiatives, such as employee health and fitness, work and family, AIDS in the workplace, and employee assistance programs; human resources development, including leadership and administration of the Human Resources Development Council and the Government

OFFICE OF PERSONNEL MANAGEMENT

Performance and Results Act interest group; the Training and Management Assistance program, to help agencies develop training and human resources management solutions, including workforce planning and succession management strategies, e-learning applications, traditional classroom training materials, compensation and performance management systems, and other customized products; information systems to support and improve Federal personnel management decisionmaking; and Governmentwide instructions for personnel processing and recordkeeping and for release of personnel data under the Freedom of Information Act and the Privacy Act.

OPM also provides administrative support to special advisory bodies, including the Federal Prevailing Rate Advisory Committee, the Federal Salary Council, and the Presidential Advisory Committee on Expanding Training Opportunities.

Oversight OPM assesses human capital management Governmentwide and within agencies to gather information for policy development and program refinement, ensure compliance with law and regulation, and enhance agency capability for human resources management accountability. Agency accountability systems help ensure that human capital decisions are consistent with merit principles and that human capital strategies are aligned with mission accomplishment. OPM also works with agencies to find better and more strategic ways to manage Federal human capital.

Workforce Diversity OPM provides leadership, direction, and policy for Governmentwide affirmative recruiting programs for women, minorities, individuals with disabilities, and veterans. It also provides leadership, guidance, and technical assistance to promote merit and equality in systemic workforce recruitment, employment, training, and retention. In addition, OPM gathers, analyzes, and maintains statistical data on the diversity of the Federal workforce and prepares evaluation reports for Congress and others on individual agency and Governmentwide progress toward

full workforce representation for all Americans in the Federal sector.

Other Personnel Programs OPM coordinates the temporary assignment of employees between Federal agencies and State, local, and Indian tribal governments, institutions of higher education, and other eligible nonprofit organizations for up to 2 years, for work of mutual benefit to the participating organizations. It administers the Presidential Management Intern Program, which provides 2-year, excepted appointments with Federal agencies to recipients of graduate degrees in appropriate disciplines. In addition, the Office of Personnel Management administers the Federal Merit System Standards, which apply to certain grant-aided State and local programs.

Federal Executive Boards Federal Executive Boards (FEBs) were established by Presidential memorandum on November 10, 1961, to improve internal Federal management practices and to provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity. They carry out their functions under OPM supervision and control.

FEBs serve as a means for disseminating information within the Federal Government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. Each Board is composed of heads of Federal field offices in the metropolitan area. A chairman is elected annually from among the membership to provide overall leadership to the Board's operations. Committees and task forces carry out interagency projects consistent with the Board's mission.

Federal Executive Boards are located in 28 metropolitan areas that are important centers of Federal activity. These areas are as follows: Albuquerque-Santa Fe, NM; Atlanta, GA; Baltimore, MD; Boston, MA; Buffalo, NY; Chicago, IL; Cincinnati, OH; Cleveland, OH; Dallas-Fort Worth, TX; Denver, CO; Detroit, MI; Honolulu, HI; Houston, TX; Kansas City, MO; Los Angeles, CA; Miami, FL; Minneapolis-St. Paul, MN; New Orleans, LA; New

York, NY; Newark, NJ; Oklahoma City, OK; Philadelphia, PA; Pittsburgh, PA; Portland, OR; St. Louis, MO; San Antonio, TX; San Francisco, CA; and Seattle, WA.

Federal Executive Associations or Councils have been locally organized in approximately 65 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity.

The Office of Special Counsel investigates allegations of certain activities prohibited by civil service laws, rules, or regulations and litigates before the Merit Systems Protection Board.

OFFICE OF SPECIAL COUNSEL

The Office of Special Counsel (OSC) was established on January 1, 1979, by Reorganization Plan No. 2 of 1978 (5 U.S.C. app.). The Civil Service Reform Act of 1978 (5 U.S.C. 1101 note), which became effective on January 11, 1979, enlarged its functions and powers. Pursuant to provisions of the Whistleblower Protection Act of 1989 (5 U.S.C. 1211 et seq.), OSC functions as an independent investigative and prosecutorial agency within the executive branch that litigates before the Merit Systems Protection Board.

Activities

The primary mission of the Office of Special Counsel is safeguarding of the merit system in Federal employment by protecting employees and applicants from prohibited personnel practices, especially reprisal for whistleblowing. The Office also operates a secure channel for Federal whistleblower disclosures of violations of laws, rules, or regulations; gross mismanagement; gross waste of

funds; abuse of authority; and substantial and specific danger to public health and safety. In addition, OSC issues advice on the Hatch Act and enforces its restrictions on political activity by Government employees. Finally, OSC protects the civilian employment and reemployment rights of military servicemembers under the Uniformed Services Employment and Reemployment Act. OSC is committed to enhancing Government accountability and performance by the realization of a diverse, inclusive Federal workplace where employees embrace excellence in service, uphold merit system principles, are encouraged to disclose wrongdoing, and are safeguarded against reprisals and other unlawful employment practices.

[For the Overseas Private Investment Corporation statement of organization, see the Code of Federal Regulations, Title 22, Chapter VII]

The Overseas Private Investment Corporation promotes economic growth and job opportunities both at home and abroad by encouraging U.S. private investment in developing countries and emerging markets by providing investors with financing, guarantees, political risk insurance, and support for private equity investment funds.

The Overseas Private Investment Corporation (OPIC) was established in 1971 as an independent agency by the Foreign Affairs Reform and Restructuring Act (112 Stat. 2681–790). OPIC helps U.S. businesses invest overseas, fosters economic development in new and emerging markets, complements the private sector in managing risks associated with foreign direct investment, and supports U.S. foreign policy. OPIC charges market-based fees for its products, and it operates on a self-sustaining basis at no net cost to taxpayers.

OPIC helps U.S. businesses compete in emerging markets when private sector support is not available. OPIC offers up to \$250 million in long-term financing and/or political risk insurance to U.S. companies investing in over 150 emerging markets and developing countries. Backed by the full faith and credit of the U.S. Government, OPIC advocates for U.S. investment, offers experience in risk management, and draws on an outstanding record of success.

OPIC mobilizes America's private sector to advance U.S. foreign policy and development initiatives. Projects supported by OPIC expand economic development, which encourages political stability and free market reforms. Over the agency's 40 year history, OPIC has supported \$200 billion worth of investments that have helped developing countries to generate over \$15 billion in host government revenues and over 845,000 host country jobs. OPIC projects have also generated \$75 billion in U.S. exports and supported more than 276,000 American jobs. OPIC promotes U.S. best practices by requiring projects to adhere to international standards on

the environment, worker rights, and human rights.

Activities

OPIC insures U.S. investors, contractors, exporters, and financial institutions against political violence, expropriation of assets by foreign governments, and the inability to convert local currencies into U.S. dollars. OPIC can insure up to \$250 million per project and has no minimum investment size requirements. Insurance is available for investments in new ventures, expansions of existing enterprises, privatizations, and acquisitions with positive developmental benefits.

OPIC provides financing through direct loans and loan guaranties for medium- and long-term private investment. Loans range from \$100,000 to \$250 million for projects sponsored by U.S. companies, and financing can be provided on a project finance or corporate finance basis. In most cases, the U.S. sponsor is expected to contribute at least 25 percent of the project equity, have a track record in the industry, and have the means to contribute to the financial success of the project.

To address the lack of sufficient equity investment in emerging markets, OPIC has supported the creation of privately owned and managed investment funds that make direct equity and equity-related investments in new, expanding, or privatizing companies. These funds, which have a regional or sectoral focus, provide the long-term growth capital that can serve as a catalyst for private sector economic activity in developing countries and the creation of new markets and opportunities for American companies.

Helping America's small businesses grow through investments in emerging markets is an important OPIC priority. Any small business with annual revenues less than \$35 million is eligible for small business center programs. For businesses with annual revenues over \$35 million and under \$250 million, OPIC's regular small business programs are available. OPIC provides direct loans to U.S. small businesses and offers insurance products to meet the special needs of small businesses. Other client services include streamlined applications and processing procedures and online small business resources available at www.opic.gov.

For further information, contact the Overseas Private Investment Corporation, 1100 New York Avenue NW., Washington, DC 20527. Phone, 202-336-8400. Fax, 202-336-7949. Internet, <http://www.opic.gov>.

The Peace Corps helps people of interested countries meet their need for trained men and women and promotes mutual understanding between Americans and citizens of other countries.

The Peace Corps was established by the Peace Corps Act of 1961, as amended (22 U.S.C. 2501), and was made an independent agency by title VI of the International Security and Development Cooperation Act of 1981 (22 U.S.C. 2501–1).

Activities

The Peace Corps consists of a Washington, DC, headquarters, 8 area offices, and overseas operations in 76 countries, utilizing more than 8,000 volunteers.

To fulfill the Peace Corps mandate, men and women are trained for a 9- to 14-week period in the appropriate local language, the technical skills necessary for their particular jobs, and the cross-cultural skills needed to adjust to a society with traditions and attitudes different from their own. Volunteers serve for a period of 2 years, living among the people with whom they work. Volunteers are expected to become a part of the community through their voluntary service.

Thousands of volunteers serve throughout the world, working in six program areas: education, health and HIV/AIDS, environment, youth development, agriculture, and business development. Community-level projects are designed to incorporate the skills of volunteers with the resources of host-country agencies and other international assistance organizations to help solve specific development problems, often in conjunction with private volunteer organizations.

In the United States, the Peace Corps is working to promote an understanding of people in other countries. Through its World Wise Schools Program, volunteers are matched with elementary and junior high schools in the United States to encourage an exchange of letters, pictures, music, and artifacts. Participating students increase their knowledge of geography, languages, and different cultures, while gaining an appreciation for voluntarism.

The Peace Corps offers other domestic programs involving former volunteers, universities, local public school systems, and private businesses and foundations in a partnership to help solve some of the United States most pressing domestic problems.

The Pension Benefit Guaranty Corporation protects the retirement incomes of American workers in private-sector defined benefit pension plans.

The Pension Benefit Guaranty Corporation (PBG) is a self-financing, wholly owned Government corporation subject to the Government Corporation Control Act (31 U.S.C. 9101-9109). The Corporation, established by title IV of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1301-1461), operates in accordance with policies established by its Board of Directors, which consists of the Secretaries of Labor, Commerce, and the Treasury. The Secretary of Labor is Chairman of the Board. A seven-member Advisory Committee, composed of two labor, two business, and three public members appointed by the President, advises the agency on investment issues.

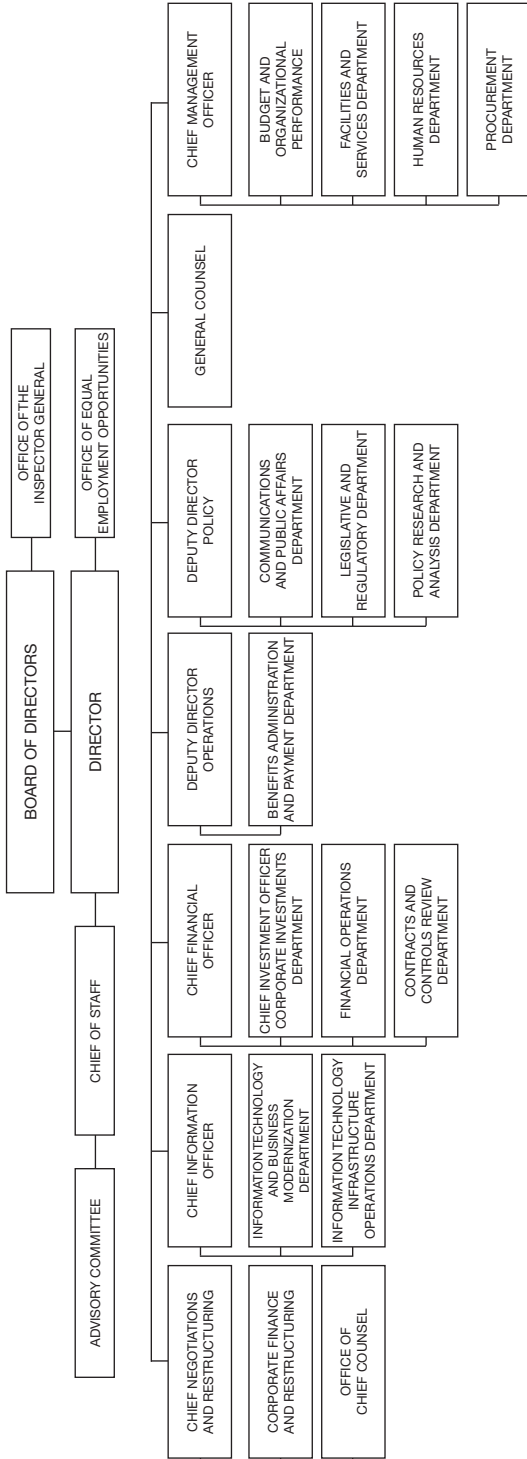

Activities

Coverage The Corporation insures most private sector defined-benefit pension plans, which provide a pension benefit based on factors such as age, years of service, and salary.

The Corporation administers two insurance programs, separately covering single-employer and multiemployer plans. More than 40 million workers and retirees participate in nearly 26, 000 covered plans

Single-Employer Insurance Under the single-employer program, the Corporation guarantees payment of basic pension benefits if an insured plan terminates without sufficient assets to pay those benefits. However, the law limits the total monthly benefit that the agency may guarantee for one individual to \$4,789.77 per month for a 65-year-

PENSION BENEFIT GUARANTY CORPORATION

old individual in a pension plan that terminates in 2013. The law also sets other restrictions on PBGC's guarantee, including limits on the insured amount of recent benefit increases. In certain cases, the Corporation may also pay some benefits above the guaranteed amount depending on the funding level of the plan and amounts recovered from employers.

A plan sponsor may terminate a single-employer plan in a standard termination if the plan has sufficient assets to purchase private annuities to cover all benefit liabilities. If a plan does not have sufficient assets, the sponsor may seek to transfer the pension liabilities to the PBGC by demonstrating that it meets the legal criteria for a distress termination. In either termination, the plan administrator must inform participants in writing at least 60 days prior to the date the administrator proposes to terminate the plan. Only a plan that has sufficient assets to pay all benefit liabilities may terminate in a standard termination. The Corporation also may institute termination of underfunded plans in certain specified circumstances.

Multiemployer Insurance Under title IV, as revised in 1980 by the Multiemployer Pension Plan Amendments Act (29 U.S.C. 1001 note), which changed the

insurable event from plan termination to plan insolvency, the Corporation provides financial assistance to multiemployer plans that are unable to pay nonforfeitable benefits. The plans are obligated to repay such assistance. The act also made employers withdrawing from a plan liable to the plan for a portion of its unfunded vested benefits.

Premium Collections All defined-benefit pension plans insured by PBGC are required to pay premiums to the Corporation according to rates set by Congress. The per-participant flat-rate premium for plan years beginning in 2013 is \$42.00 for single-employer plans and \$12.00 for multiemployer plans. Underfunded single-employer plans must also pay an additional premium equal to \$9 per \$1,000 of unfunded vested benefits. A termination premium of \$1,250 per participant per year applies to certain distress and involuntary plan terminations, payable for 3 years after the termination.

The Postal Regulatory Commission develops and implements a modern system of postal rate regulation.

The Postal Regulatory Commission is the successor agency to the Postal Rate Commission, which was created by the Postal Reorganization Act, as amended (39 U.S.C. 101 et seq.). The Commission was established as an independent agency in the executive branch of Government by the Postal Accountability and Enhancement Act (39 U.S.C. 501). It is composed of five Commissioners, appointed by the President with the advice and consent of the Senate, one of whom is designated as Chairman.

The Commission promulgates rules and regulations, establishes procedures, and takes other actions necessary to carry out its obligations. It considers complaints received from interested persons relating to United States Postal Service rates, regulations, and services. The Commission also has certain reporting obligations, including a report on universal postal service and the postal monopoly.

Sources of Information

Employment The Commission's programs require attorneys, economists,

statisticians, accountants, industrial engineers, marketing specialists, and administrative and clerical personnel to fulfill its responsibilities. Requests for employment information should be directed to the Personnel Officer.

Electronic Access Electronic access to current docketed case materials is available through the Internet at www.prc.gov. Email can be sent to the Commission at prc-admin@prc.gov and prc-dockets@prc.gov.

Reading Room Facilities for inspection and copying of records, viewing automated daily lists of docketed materials, and accessing the Commission's Internet site are located at Suite 200, 901 New York Avenue NW, Washington, DC. The room is open from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays.

Rules of Practice and Procedure The Postal Regulatory Commission's Rules of Practice and Procedure governing the conduct of proceedings before the Commission may be found in parts 3001, 3010, 3015, 3020, 3025, 3030, 3031, and 3060 of title 39 of the Code of Federal Regulations.

[For the Railroad Retirement Board statement of organization, see the Code of Federal Regulations, Title 20, Part 200]

The Railroad Retirement Board administers comprehensive retirement-survivor and unemployment-sickness benefit programs for the Nation's railroad workers and their families.

The Railroad Retirement Board (RRB) was originally established by the Railroad Retirement Act of 1934, as amended (45 U.S.C. 201–228z-1).

The RRB derives statutory authority from the Railroad Retirement Act of 1974 (45 U.S.C. 231–231u) and the Railroad Unemployment Insurance Act (45 U.S.C. 351–369). It administers these acts and participates in the administration of the Social Security Act and the Health Insurance for the Aged Act insofar as they affect railroad retirement beneficiaries.

The RRB is composed of three members appointed by the President with the advice and consent of the Senate: one upon recommendations of representatives of railroad employees; one upon recommendations of railroad employers; and one, the Chairman, as a public member.

Activities The Railroad Retirement Act provides for the payment of annuities to individuals who have completed at least 10 years of creditable railroad service, or 5 years if performed after 1995, and have ceased compensated service upon their attainment of specified ages, or at any age if permanently disabled for all employment. In some circumstances occupational disability annuities or

supplemental annuities are provided for career employees.

A spouse's annuity is provided, under certain conditions, for the wife or husband of an employee annuitant. Divorced spouses may also qualify.

Survivor annuities are awarded to the qualified spouses, children, and parents of deceased career employees, and various lump-sum benefits are also available under certain conditions.

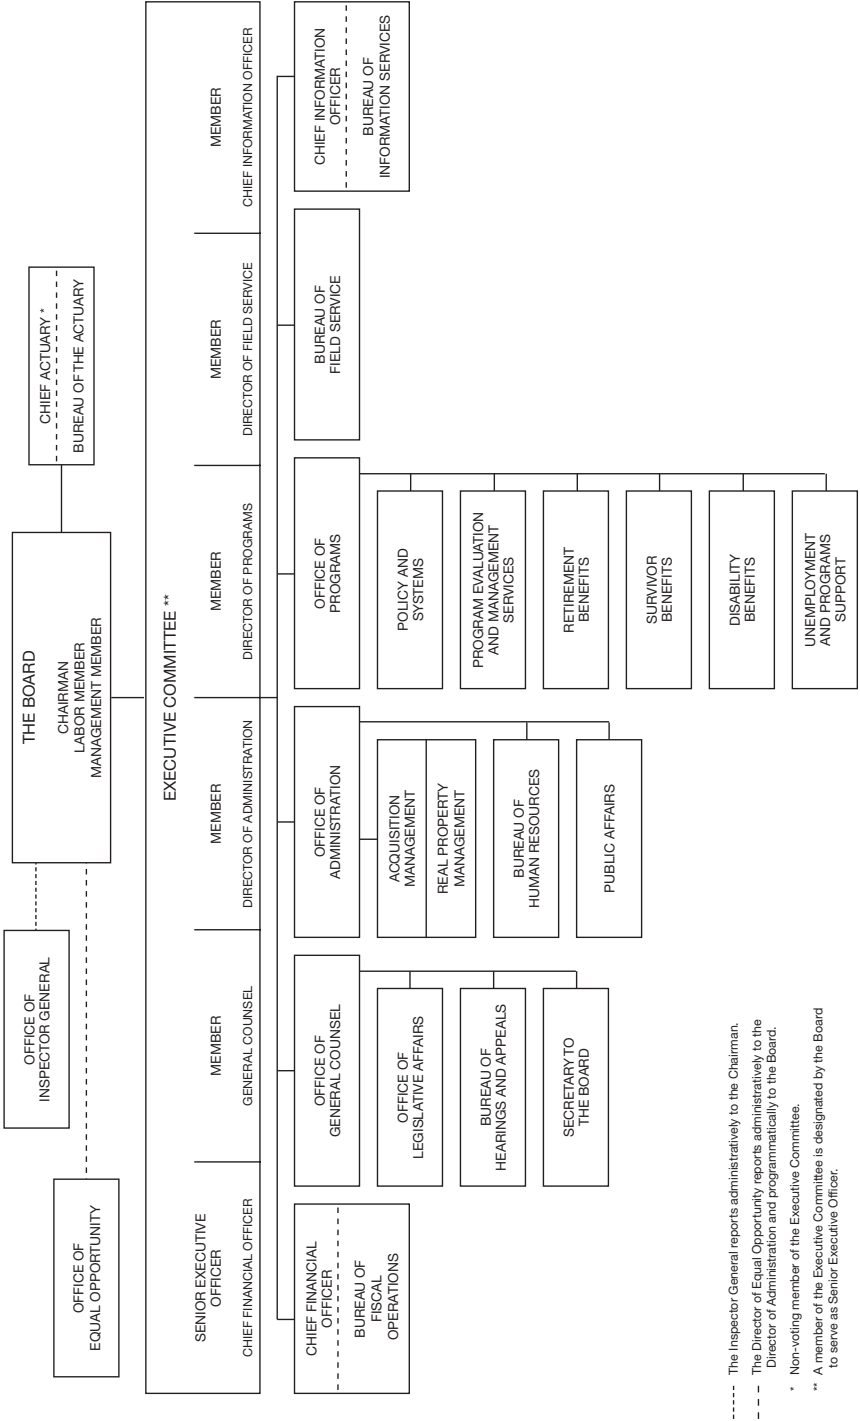

Benefits based upon qualifying railroad earnings in a preceding 1-year period are provided under the Railroad Unemployment Insurance Act to individuals who are unemployed in a benefit year, but who are ready and willing to work, and to individuals who are unable to work because of sickness or injury.

The RRB maintains, through its field offices, a placement service for unemployed railroad personnel.

Sources of Information

Benefit Inquiries The RRB maintains direct contact with railroad employees and railroad retirement beneficiaries through its field offices located across the country. Field personnel explain

[For the Securities and Exchange Commission statement of organization, see the Code of Federal Regulations, Title 17, Part 200]

The Securities and Exchange Commission provides protection for investors, to ensure that securities markets are fair and honest, and enforces securities laws through sanctions.

The Securities and Exchange Commission (SEC) was created under authority of the Securities Exchange Act of 1934 (15 U.S.C. 78a-78jj) and was organized on July 2, 1934. The Commission serves as adviser to United States district courts in connection with reorganization proceedings for debtor corporations in which there is a substantial public interest. The Commission also has certain responsibilities under section 15 of the Bretton Woods Agreements Act of 1945 (22 U.S.C. 286k-1) and section 851(e) of the Internal Revenue Code of 1954 (26 U.S.C. 851(e)).

The Commission is vested with quasi-judicial functions. Persons aggrieved by its decisions in the exercise of those functions have a right of review by the United States courts of appeals.

For a complete listing of SEC regional offices, including addresses, telephone numbers, and key officials, visit www.sec.gov/contact/addresses.htm.

Activities

Full and Fair Disclosure The Securities Act of 1933 (15 U.S.C. 77a) requires issuers of securities and their controlling persons making public offerings of securities in interstate commerce or via mail to file with the Commission registration statements containing

financial and other pertinent data about the issuer and the securities being offered. There are limited exemptions, such as government securities, nonpublic offerings, and intrastate offerings, as well as certain offerings not exceeding \$1.5 million. The effectiveness of a registration statement may be refused or suspended after a public hearing if the statement contains material misstatements or omissions, thus barring sale of the securities until it is appropriately amended.

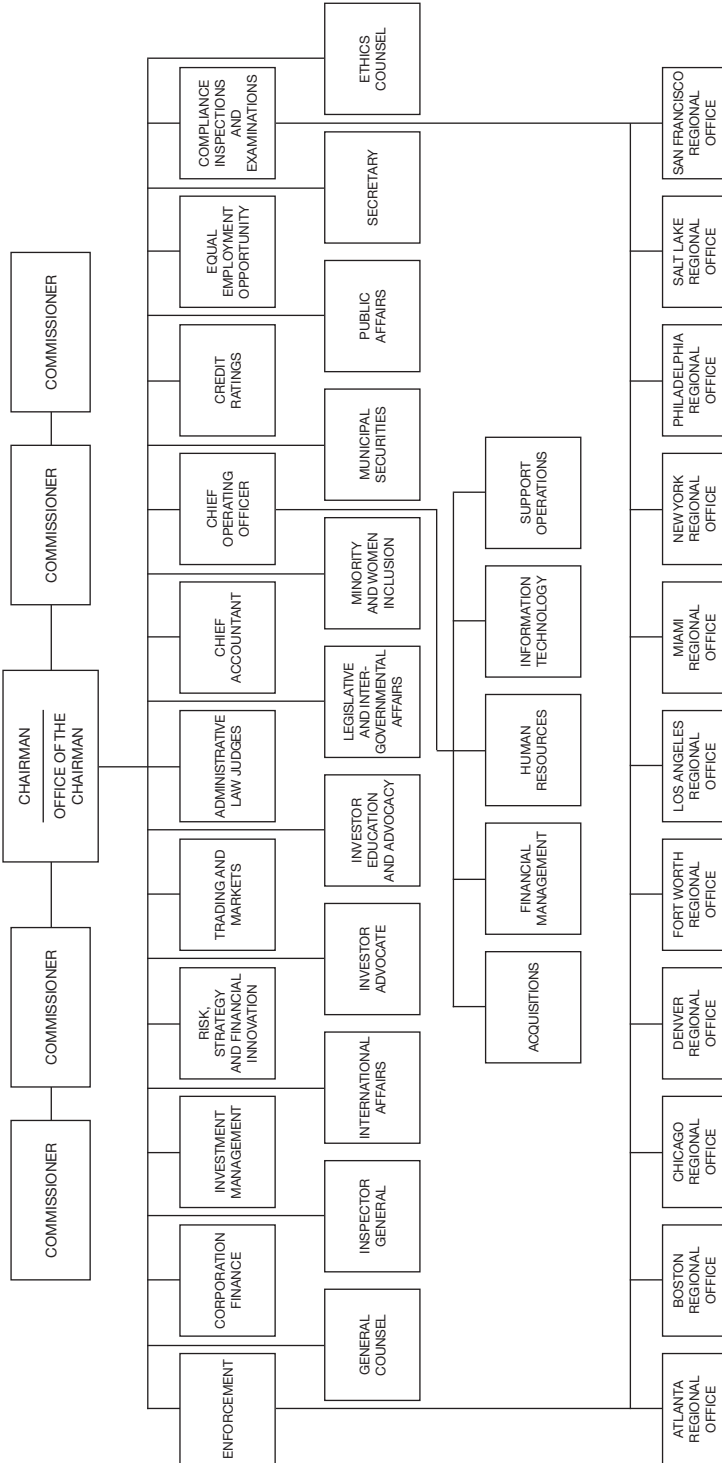

Regulation of Investment Advisers

Persons who, for compensation, engage in the business of advising others with respect to securities must register with the Commission. The Commission is authorized to define what practices are considered fraudulent or deceptive and to prescribe means to prevent those practices.

Regulation of Mutual Funds and Other Investment Companies

The Commission registers investment companies and regulates their activities to protect investors. The regulation covers sales load, management contracts, composition of boards of directors, and capital structure. The Commission must also determine the fairness of various transactions of investment companies before these actually occur.

SECURITIES AND EXCHANGE COMMISSION

The Commission may institute court action to enjoin the consummation of mergers and other plans of reorganization of investment companies if such plans are unfair to securities holders. It also may impose sanctions by administrative proceedings against investment company management for violations of the act and other Federal securities laws and file court actions to enjoin acts and practices of management officials involving breaches of fiduciary duty and personal misconduct and to disqualify such officials from office.

Regulation of Securities Markets The Securities Exchange Act of 1934 assigns to the Commission broad regulatory responsibilities over the securities markets, the self-regulatory organizations within the securities industry, and persons conducting a business in securities. Persons who execute transactions in securities generally are required to register with the Commission as broker-dealers. Securities exchanges and certain clearing agencies are required to register with the Commission, and associations of brokers or dealers are permitted to register with the Commission. The Act also provides for the establishment of the Municipal Securities Rulemaking Board to formulate rules for the municipal securities industry.

The Commission oversees the self-regulatory activities of the national securities exchanges and associations, registered clearing agencies, and the Municipal Securities Rulemaking Board. In addition, the Commission regulates industry professionals, such as securities brokers and dealers, certain municipal securities professionals, Government securities brokers and dealers, and transfer agents.

Rehabilitation of Failing Corporations

In cases of corporate reorganization proceedings administered in Federal courts, the Commission may participate as a statutory party. The principal functions of the Commission are to protect the interests of public investors involved in such cases through efforts to ensure their adequate representation and to participate in legal and policy issues

that are of concern to public investors generally.

Representation of Debt Securities

Holders The Commission safeguards the interests of purchasers of publicly offered debt securities issued pursuant to trust indentures.

Enforcement Activities The Commission's enforcement activities are designed to secure compliance with the Federal securities laws administered by the Commission and the rules and regulations adopted thereunder. These activities include measures to do the following: compel compliance with the disclosure requirements of the registration and other provisions of the relevant acts; prevent fraud and deception in the purchase and sale of securities; obtain court orders enjoining acts and practices that operate as a fraud upon investors or otherwise violate the laws; suspend or revoke the registrations of brokers, dealers, investment companies, and investment advisers who willfully engage in such acts and practices; suspend or bar from association persons associated with brokers, dealers, investment companies, and investment advisers who have violated any provision of the Federal securities laws; and prosecute persons who have engaged in fraudulent activities or other willful violations of those laws.

In addition, attorneys, accountants, and other professionals who violate the securities laws face possible loss of their privilege to practice before the Commission.

To this end, private investigations are conducted into complaints or other indications of securities violations. Evidence thus established of law violations is used in appropriate administrative proceedings to revoke registration or in actions instituted in Federal courts to restrain or enjoin such activities. Where the evidence tends to establish criminal fraud or other willful violation of the securities laws, the facts are referred to the Attorney General for criminal prosecution of the offenders. The Commission may assist in such prosecutions.

The Selective Service System provides manpower to the Armed Forces in an emergency and operates an Alternative Service Program during a draft for men classified as conscientious objectors.

The Selective Service System was established by the Military Selective Service Act (50 U.S.C. app. 451–471a). The act requires the registration of male citizens of the United States and all other male persons who are in the United States and who are ages 18 to 25. The act exempts members of the active Armed Forces and nonimmigrant aliens. Proclamation 4771 of July 20, 1980, requires male persons born on or after January 1, 1960, and who have attained age 18, but have not attained age 26 to register. Registration is conducted at post offices within the United States, at U.S. embassies and consulates outside the United States, and online at www.sss.gov.

The act imposes liability for training and service in the Armed Forces upon registrants who are ages 18 to 26, except those who are exempt or deferred. Persons who have been deferred remain liable for training and service until age 35. Aliens are not liable for training and service until they have remained in the United States for more than 1 year. Conscientious objectors who are found to be opposed to all service in the Armed

Forces are required to perform civilian work in lieu of induction into the Armed Forces.

The authority to induct registrants, including doctors and allied medical specialists, expired July 1, 1973.

The Small Business Administration aids, counsels, assists, and protects the interests of small business; ensures that small-business concerns receive a fair portion of Government purchases, contracts and subcontracts, and sales of Government property; makes loans to small-business concerns, State and local development

companies, and the victims of natural disasters or of certain types of economic injury; and licenses, regulates, and makes loans to small-business investment companies.

The Small Business Administration (SBA) was created by the Small Business Act of 1953 and derives its present existence and authority from the Small Business Act (15 U.S.C. 631 et seq.) and the Small Business Investment Act of 1958 (15 U.S.C. 661).

Activities

Advocacy The Office of Advocacy is mandated by Congress to serve as an independent voice within the Federal Government for the approximately 27.2 million small businesses throughout the country. The Office is headed by the Chief Counsel for Advocacy, appointed by the President from the private sector with the advice and consent of the Senate, who advances the views, concerns, and interests of small business before the Congress, the White House, and Federal and State regulatory agencies.

The Office monitors and reports annually on Federal agency compliance with the Regulatory Flexibility Act (RFA), which requires agencies to analyze the impact of their regulations on small businesses and consider less burdensome alternatives. Small entities include small businesses, nonprofit organizations, and governmental jurisdictions. Executive Order 13272 requires Federal agencies to take the Office's comments into consideration before proposed regulations are finalized and requires the Office to train Federal agencies on RFA compliance.

The Office is one of the leading national sources for information on the state of small business and the issues that affect small-business success and growth. It conducts economic and statistical research into matters affecting the competitive strength of small business, jobs created by small businesses, and the impact of Federal laws, regulations, and programs on small businesses, making recommendations to policymakers for appropriate adjustments to meet the special needs of small business.

Additionally, regional advocates enhance communication between the small-business community and the Chief Counsel. As the Chief Counsel's direct link to local business owners, State and local government agencies, State legislatures, and small-business organizations, they help identify new issues and problems of small business by monitoring the effect of Federal and State regulations and policies on the local business communities within their regions.

For further information, contact the Office of Advocacy. Phone, 202-205-6533. Email, advocacy@sba.gov.

Business and Community Initiatives

The Office of Business and Community Initiatives (OBCI) develops and cosponsors counseling, education, training, and information resources for small businesses. It has partnered with the private sector to promote entrepreneurial development. OBCI directs the national program of the Service Corps of Retired Executives (SCORE), a resource partner of SBA. SCORE provides free counseling, mentoring, training seminars, and specialized assistance to veterans and active military personnel. For more information, visit www.score.org. OBCI also offers young entrepreneurs a teen-business site at www.sba.gov/teens.

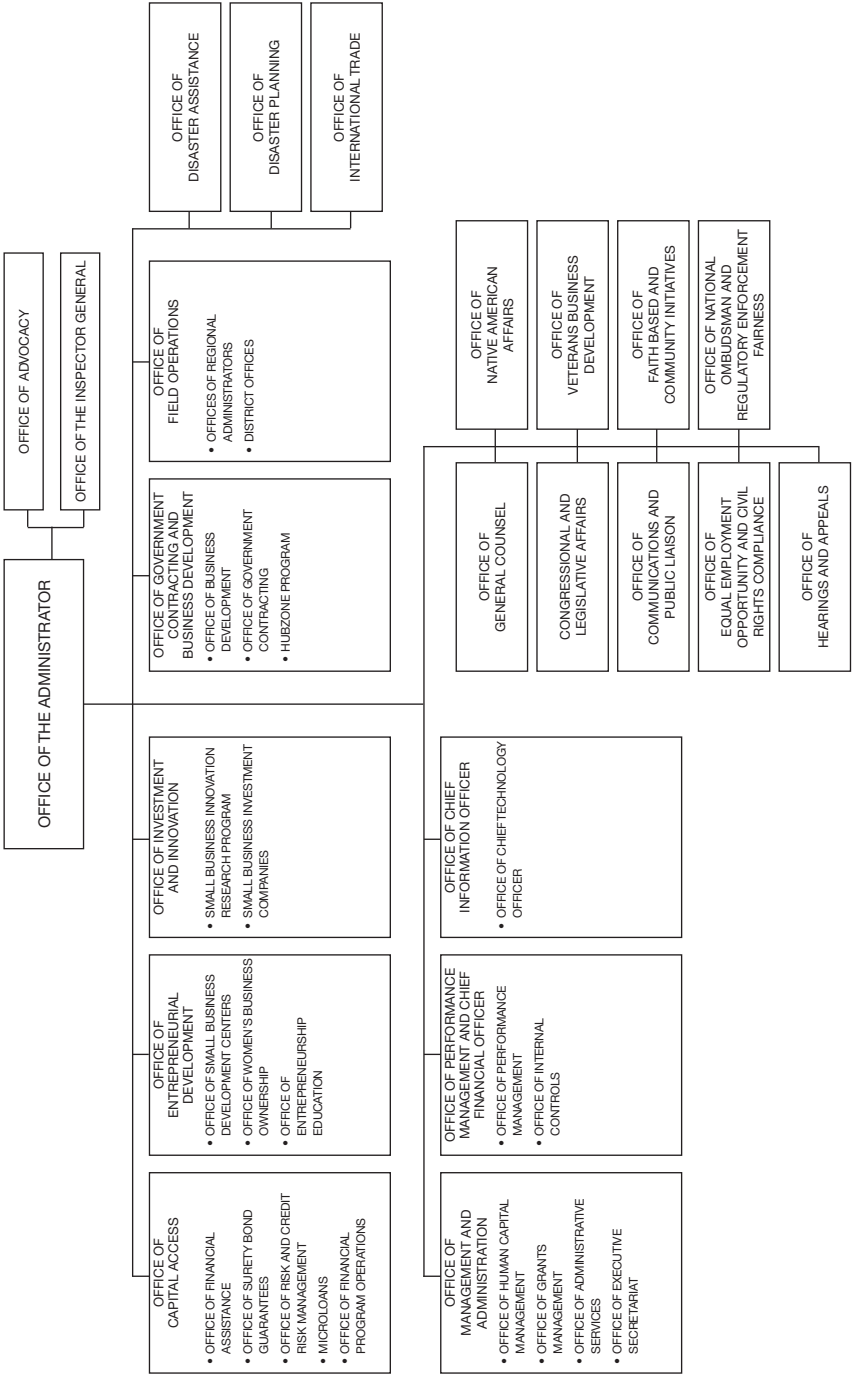

The Office of International Visitors briefs foreign delegations, business organizations, and international nongovernmental organizations (NGOs) on the SBA model.

In addition to education and training events, SBA offers an online management series on business growth and sustainability at www.sba.gov/library/pubs.

For further information, contact the Office of Business and Community Initiatives. Phone, 202-205-6665.

Capital Access The Office of the Associate Administrator for Capital Access provides overall direction for SBA's financial programs. It offers a comprehensive array of debt and equity

programs for startup and expanding businesses. In addition to lending to businesses that sell their products and services domestically, the Office provides financial assistance programs for small-business exporters in the form of loan programs and technical assistance. The Office also oversees a surety bond guarantee program for small-business contractors and SBA's lender oversight programs.

For further information, contact the Office of Capital Access. Phone, 202-205-6657.

Disaster Assistance SBA serves as the Federal disaster bank for nonfarm, private sector losses. It lends money to help the victims of disasters repair or replace most disaster-damaged property. Direct loans with subsidized interest rates are made to assist individuals, homeowners, businesses of all sizes, and nonprofit organizations.

For further information, contact the Office of Disaster Assistance. Phone, 202-205-6734.

Financial Assistance SBA provides its guarantee to lending institutions and certified development companies that make loans to small-business concerns, which in turn use the loans for working capital and financing the acquisition of land and buildings; the construction, conversion, or expansion of facilities; and the purchase of machinery and equipment.

The Administration also provides small-scale financial and technical assistance to very small businesses through loans and grants to nonprofit organizations that act as intermediaries under SBA's microloan program.

For further information, contact the nearest Small Business Administration district office (see Field Operations below).

Government Contracting SBA helps small businesses, including small disadvantaged businesses, women-owned small businesses, HUBZone-certified firms, and service-disabled veteran-owned small businesses obtain a fair share of Government procurement through a variety of programs and services. The contracting liaison helps small businesses secure an equitable

share of natural resources sold by the Federal Government. It works closely with Federal agencies and the Office of Management and Budget to establish policy and regulations concerning small-business access to Government contracts. It assists in the formulation of small-business procurement policies as they relate to size standards, the Small Business Innovation Research Program, and the Small Business Technology Transfer Program.

For further information, contact the nearest Office of Government Contracting. Phone, 202-205-6459. Internet, <http://www.sba.gov/GC/indexcontacts.html>.

International Trade The Office of International Trade (OIT) supports small-business access to export markets and participates in broader U.S. Government activities related to trade policy and international commercial affairs to encourage an environment of trade and international economic policies favorable to small businesses. These activities are designed to facilitate both entrance and growth into the international marketplace, including educational initiatives, technical assistance programs and services, and risk management and trade finance products.

SBA's export promotion activities for small business combine financial and technical assistance through a nationwide delivery system. Export-finance products include long-term, short-term, and revolving lines of credit through SBA's 7(a) Loan Program, administered by a staff of field-based export specialists located in U.S. Export Assistance Centers (USEACs). They work with the U.S. Department of Commerce and the Export-Import Bank of the United States, and the effort is leveraged through close collaboration with commercial lenders, Small Business Development Centers, and local business development organizations.

Available financial assistance can provide a business with up to \$1.25 million, with terms up to 25 years for real estate and 15 years for equipment. Export Working Capital Program loans generally provide 12 months of renewable financing. For smaller loan amounts, SBA

Export Express has a streamlined, quick approval process for businesses needing up to \$250,000. Technical assistance includes making available to current and potential small-business exporters export training, export legal assistance, and collaboration with the 30 Small Business Development Centers with international trade expertise and the Government's USA Trade Information Center.

SBA is required to work with the Government's international trade agencies to ensure that small business is adequately represented in bilateral and multilateral trade negotiations. OIT represents SBA and the Government on two official U.S. Government-sponsored multilateral organizations concerned with small business: the Organization for Economic Cooperation and Development and Asia-Pacific Economic Cooperation. SBA's trade policy involvement is carried out with the U.S. Trade Representative and the Commerce Department's International Trade Administration. Private sector input on trade policy is achieved through participation with the small-business Industry Sector Advisory Committee on international trade. OIT also lends support to the Government's key trade initiatives, such as Trade Promotion Authority, the Central American Free Trade Area, and the Free Trade Area of the Americas. The Commerce and State Departments, the Agency for International Development, and the U.S. Trade Representative look to the SBA to share ideas and provide small-business technical expertise to certain countries.

OIT's office in Washington, DC, coordinates SBA's participation/operation of USEACs, including budget, policy, and administration. It participates in a variety of interagency trade efforts and financial programs. OIT provides representations to the Cabinet-level Trade Promotion Coordinating Committee concerning trade and international economic policy. It also participates on the Industry Sector Advisory Council on Small Business International Trade and the congressionally sponsored Task Force on Small Business International Trade. SBA's

Administrator is also a sitting member of the President's Export Council.

OIT's field offices provide a nationwide network of service delivery for small-business exporters. Full-time SBA export specialists staff 16 USEACs. Their outreach efforts are supplemented by the 68 SBA district offices staffed by employees with collateral duties as international trade officers.

For further information, contact the Office of International Trade. Phone, 202-205-6720. Internet, <http://www.sba.gov/oit>.

Venture Capital The Small Business Investment Company (SBIC) program was created in 1958 to fill the gap between the availability of venture capital and the needs of small businesses in startup and growth situations. The structure of the program is unique in that SBICs are privately owned and managed venture capital funds, licensed and regulated by the SBA, that use their own capital plus funds borrowed with an SBA guarantee to make equity and debt investments in qualifying small businesses. The New Markets Venture Capital (NMVC) program is a sister program focused on low-income areas, which augments the contribution made by SBICs to small businesses in the United States. In addition, NMVC companies may make technical assistance grants to potential portfolio companies.

The Government itself does not make direct investments or target specific industries in the SBIC program. Fund portfolio management and investment decisions are left to qualified private fund managers. To obtain an SBIC license, an experienced team of private equity managers must secure minimum commitments from private investors. SBICs may only invest in small businesses having net worth of less than \$18 million and average aftertax income for the previous 2 years of less than \$6 million.

For further information, contact the Investment Division. Phone, 202-205-6510. Internet, <http://www.sba.gov/inv>.

HUBZone Program The HUBZone Program provides Federal contracting assistance for qualified small businesses located in historically underutilized

business zones in an effort to increase employment, capital investment, and economic development in these areas, including Indian reservations. The Office coordinates efforts with other Federal agencies and local municipal governments to leverage resources to assist qualified small businesses located in HUBZone areas. The program provides for set-asides, sole source awards, and price evaluation preferences for HUBZone small businesses and establishes goals for awards to such firms.

For further information, call 202-205-6731.
Internet, <http://www.sba.gov/hubzone>.

Business Development The Office of Business Development is responsible for the 8(a) Business Development Program. The Office assists small businesses by providing access to capital and credit, business counseling, training workshops, technical guidance, and assistance with contracts and loans. Its primary business development tools are the Mentor-Protege Program and the 7(j) Management and Technical Assistance Program.

For further information, call 202-205-5852.
Internet, <http://www.sba.gov/8abd>.

Native American Affairs The Office of Native American Affairs was established to assist and encourage the creation, development, and expansion of Native American-owned small businesses by developing and implementing initiatives designed to address those difficulties encountered by Native Americans as they start, develop, and expand small businesses. In addition, in an effort to address the unique conditions encountered by reservation-based entrepreneurs, the Office is developing a Web-based resource entitled the "Tribal Self Assessment Tool." It is intended to allow tribal nations to assess their vision and goals relative to their governance structure, culture, capabilities, and resources. The tool is free and will be available on the Internet.

For further information, contact the Office of Native American Affairs. Phone, 202-205-7364.

Regulatory Fairness Program Congress established the National Ombudsman

and 10 Regulatory Fairness Boards in 1996 as part of the Small Business Regulatory Enforcement Fairness Act (SBREFA). The National Ombudsman's primary mission is to assist small businesses when they experience excessive or unfair federal regulatory enforcement actions, such as repetitive audits or investigations, excessive fines, penalties, threats, retaliation or other unfair enforcement action by a Federal agency. The National Ombudsman receives comments from small-business concerns and acts as a liaison between them and Federal agencies. Comments received from small businesses are forwarded to Federal agencies for review and Federal agencies are requested to consider the fairness of their enforcement action. A copy of the agency's response is sent to the small business owner by the Office of the National Ombudsman. In some cases, fines have been lowered or eliminated and decisions changed in favor of the small-business owner.

Each of the Regulatory Fairness Boards (RegFair) has five volunteer members who are owners, operators, or officers of small-business concerns that are appointed by the SBA Administrator for 3-year terms. Each RegFair Board meets at least annually with the Ombudsman on matters of concern to small businesses relating to the enforcement or compliance activities of Federal agencies; reports to the Ombudsman on substantiated instances of excessive enforcement; and, prior to publication, provides comment on the annual report to Congress.

For further information, contact the Office of the National Ombudsman. Phone, 202-205-2417 or 888-734-3247. Internet, <http://www.sba.gov/ombudsman>.

Small Business Development

Centers The Office of Small Business Development Centers (OSBDC) provides counseling and training to existing and prospective small-business owners at more than 950 service locations in every State, Puerto Rico, the U.S. Virgin Islands, Guam, and American Samoa. OSBDC develops national policies and goals, establishes standards for the selection and performance of its Small Business

Development Centers (SBDCs), monitors compliance with applicable Office of Management and Budget circulars and laws, and implements new approaches to improve existing centers. OSBDC also oversees 63 lead centers and maintains liaison with other Federal, State, and local agencies and private organizations whose activities relate to its centers. It also assesses how the program is affected by substantive developments and policies in other SBA areas, Government agencies, and the private sector.

The Small Business Development Center Program is a cooperative effort of the private sector, the educational community, and Federal, State, and local governments. The program enhances local economic development by providing small businesses with the management and technical assistance they need to succeed. It also provides services such as development of business plans, manufacturing assistance, financial packages, procurement contracts, and international trade assistance. Special areas include ecommerce; technology transfer; IRS, EPA, and OSHA regulatory compliance; research and development; defense economic transition assistance; disaster recovery assistance; and market research. Based on client need assessments, business trends, and individual business requirements, SBDCs modify their services to meet the evolving needs of the small-business community.

For further information, contact the Office of Small Business Development Centers. Phone, 202-205-6766.

Surety Bonds Through its Surety Bond Guarantee Program, SBA helps small and emerging contractors to obtain the bonding necessary for them to bid on and receive contracts up to \$5 million. SBA guarantees bonds that are issued by participating surety companies and reimburses between 70 percent and 90 percent of losses and expenses incurred should a small business default on the contract. Construction, service, or supply contractors are eligible for the program if they, together with their affiliates, meet the size standard for the primary industry in which the small business is engaged,

as defined by the North American Industry Classification System (NAICS).

For further information, contact the Office of Surety Guarantees. Phone, 202-205-6540. Internet, <http://www.sba.gov/osg>.

Technology The Office of Technology has authority and responsibility for directing and monitoring the Governmentwide activities of the Small Business Innovation Research Program (SBIR) and the Small Business Technology Transfer Program (STTR). The Office develops and issues policy directives for the general conduct of the programs within the Federal Government and maintains a source file and information program to provide each interested and qualified small-business concern with information on opportunities to compete for SBIR and STTR program awards. The Office also coordinates with each participating Federal agency in developing a master release schedule of all program solicitations; publishes the Presolicitation Announcement quarterly online, which contains pertinent facts on upcoming solicitations; and surveys and monitors program operations within the Federal Government and reports on the progress of the programs each year to Congress.

The Office has four main objectives: to expand and improve SBIR and STTR; to increase private sector commercialization of technology developed through Federal research and development; to increase small-business participation in Federal research and development; and to improve the dissemination of information concerning SBIR and STTR, particularly with regard to participation by women-owned small-business concerns and by socially and economically disadvantaged small-business concerns.

For further information, contact the Office of Technology. Phone, 202-205-6450. Email, technology@sba.gov.

Veterans Affairs The Office of Veterans Business Development (OVBD) is responsible for the formulation, execution, and promotion of policies and programs that provide assistance to small-business concerns owned and controlled by veterans and service-

disabled veterans. This includes reserve component members of the U.S. military. Additionally, OVBD serves as an ombudsman for the full consideration of veterans in all programs of the Administration.

OVBD provides ecounseling and works with every SBA program to ensure that veterans receive special consideration in the operation of that program. OVBD also provides numerous tools, such as the Vet Gazette newsletter, Reserve and Guard business assistance kits, program design assistance, and training events. Additionally, OVBD manages five Veterans Business Outreach Centers to provide outreach, directed referrals, and tailored entrepreneurial development services such as business training, counseling, and mentoring to veterans, including service-disabled veterans, and reservists. These Centers provide an in-depth resource for existing and potential veteran entrepreneurs. The Office also coordinates SBA collaborative efforts with veterans service organizations; the Departments of Defense, Labor, and Veterans Affairs; the National Veterans Business Development Corporation; State departments of veterans affairs; the National Committee for Employer Support of the Guard and Reserve; the Department of Defense Yellow Ribbon Reintegration Program; and other public, civic, and private organizations to ensure that the entrepreneurial needs of veterans, service-disabled veterans, and self-employed members of the Reserve and National Guard are being met.

For further information, contact the Office of Veterans Business Development. Phone, 202-205-6773. Internet, <http://www.sba.gov/vets>.

Women's Business Ownership The Office of Women's Business Ownership (OWBO) provides assistance to current and potential women business owners and acts as their advocate in the public and private sectors. OWBO assists women in becoming full partners in economic development by providing business training, counseling, mentoring, and other assistance through representatives in local SBA offices, Women's Business Centers (WBCs), and mentoring roundtables. Each

WBC is tailored to meet the needs of its individual community and places a special emphasis on helping women who are socially and economically disadvantaged. Assistance covers every stage of business, from startup to going public. There are WBCs in almost every State and U.S. Territory.

OWBO works with other SBA programs, Federal agencies, and private sector organizations to leverage its resources and improve opportunities for women-owned businesses to access Federal procurement and international trade opportunities. OWBO also works with the National Women's Business Council and the Department of Labor to maintain the most current research on women's business ownership.

SBA has loan guaranty programs to help women access the credit and capital they need to start and grow successful businesses. The 7(a) Loan Guaranty Program offers a number of effective ways to finance business needs, including unsecured smaller loans and revolving lines of credit. The 504 Program provides long-term, fixed-rate financing for major fixed assets, such as land and buildings, through certified development programs. Equity financing is available through the Small Business Investment Company Program. The Microloan Program offers direct small loans, combined with business assistance, through SBA-licensed intermediaries nationwide. The SBA does not offer grants for small businesses.

For further information, contact the Women's Business Ownership representative in your SBA district office. Phone, 202-205-6673. Email, owbo@sba.gov. Internet, <http://www.sba.gov/aboutsba/sbaprograms/onlinewbc/index.html>.

Field Operations The Office of Field Operations provides management direction and oversight to SBA's 10 regional and 68 district offices, acting as the liaison between the district offices, the Administration's program delivery system, and the headquarters administrative and program offices.

A complete listing of the regional, district, and disaster field offices of the SBA, including addresses, telephone numbers, and key officials, is available online.

[For the Social Security Administration statement of organization, see the Code of Federal Regulations, Title 20, Part 422]

The Social Security Administration manages the retirement, survivors, and disability insurance programs commonly known as Social Security; administers the

Supplemental Security Income program for the aged, blind, and disabled; assigns Social Security numbers to U.S. citizens; and maintains earnings records for workers under their Social Security numbers.

The Social Security Administration (SSA) was established by Reorganization Plan No. 2 of 1946 (5 U.S.C. app.), effective July 16, 1946. It became an independent agency in the executive branch by the Social Security Independence and Program Improvements Act of 1994 (42 U.S.C. 901), effective March 31, 1995.

The Administration is headed by a Commissioner, appointed by the President with the advice and consent of the Senate.

In administering the programs necessary to carry out the Administration's mission, by law the Commissioner is assisted by a Deputy Commissioner who performs duties assigned or delegated by the Commissioner, a Chief Financial Officer, a Chief Information Officer, a General Counsel, a Chief Actuary, and an Inspector General.

Programs and Activities

Old-Age, Survivors, and Disability Insurance

The agency administers social insurance programs that provide monthly benefits to retired and disabled workers, their spouses and children, and survivors of insured workers. Financing is under a system of contributory social insurance, whereby employees, employers, and the self-employed pay contributions that are pooled in special trust funds. When earnings stop or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to partially replace the earnings the family has lost.

Supplemental Security Income The agency administers this needs-based program for the aged, blind, and disabled. A basic Federal monthly payment is financed out of general revenue, rather than a special trust fund. Some States, choosing to provide payments to supplement the benefits, have agreements with the Administration under which it administers the supplemental payments for those States.

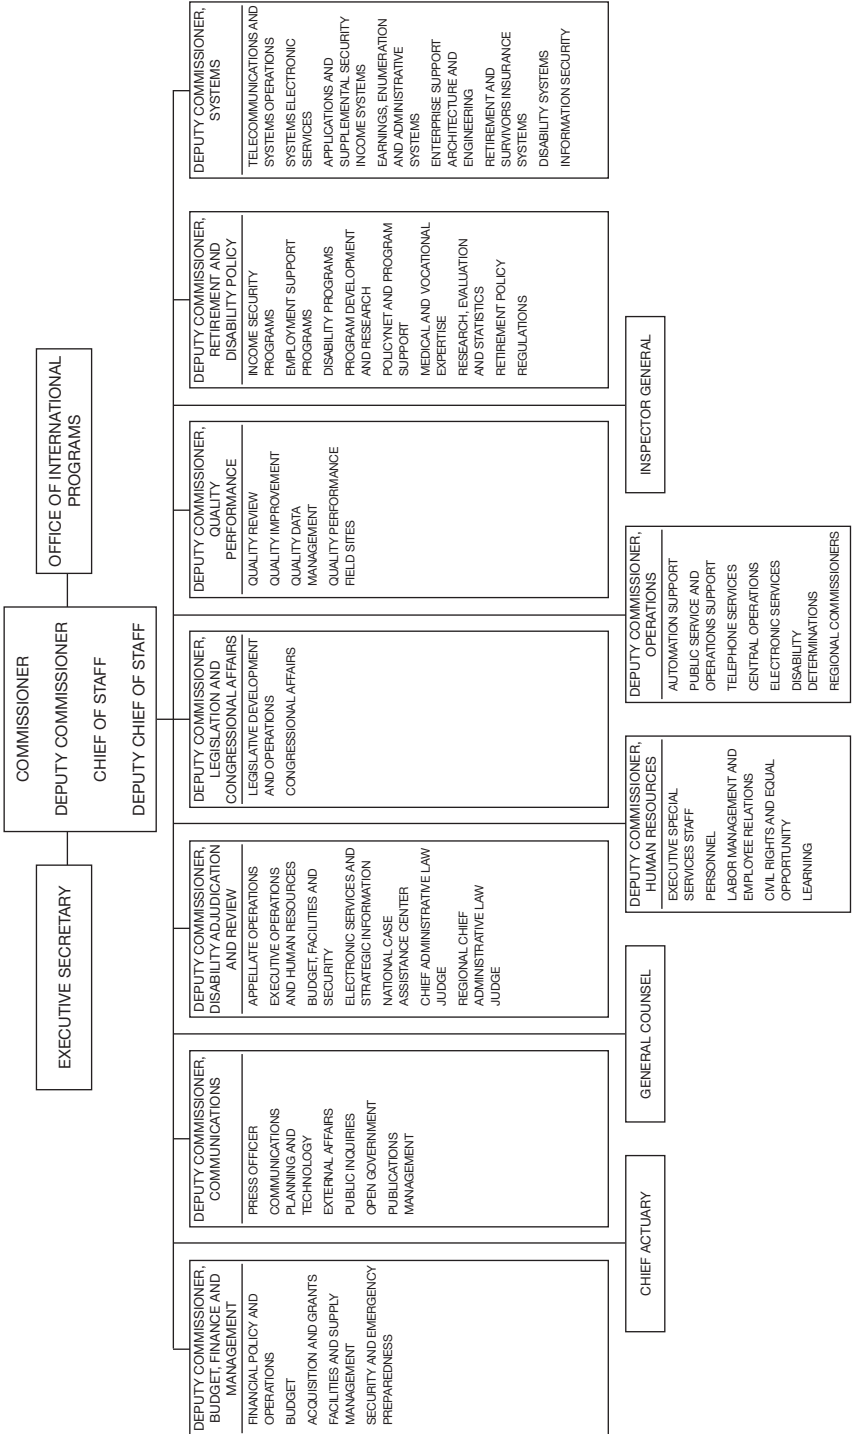

Medicare While the administration of Medicare is the responsibility of the Centers for Medicare and Medicaid Services, SSA provides Medicare assistance to the public through SSA field offices and call centers and adjudicates requests for hearings and appeals of Medicare claims.

Black Lung By agreement with the Department of Labor, SSA is involved in certain aspects of the administration of the black lung benefits provisions of the Federal Coal Mine Health and Safety Act of 1969, as amended (30 U.S.C. 901).

Regional Offices Social Security Administration operations are decentralized to provide services at the local level. Each of the 10 SSA regions, under the overall direction of its Regional Commissioner, contains a network of field offices and call centers, which serve as the contacts between SSA and the public. The Administration operates approximately 1260 field offices, 37 call centers, 10 Social Security card centers, and 6 processing centers. These installations are responsible for informing the public of the purposes and provisions of Social Security programs and their rights and responsibilities; assisting with claims filed for retirement, survivors, disability, or health insurance benefits, black lung benefits, or Supplemental Security Income; developing and adjudicating claims; assisting certain beneficiaries in claiming reimbursement for medical expenses; developing cases involving earnings records, coverage, and fraud-related questions; making rehabilitation service referrals; and assisting claimants in filing appeals on SSA determinations of benefit entitlement or amount.

Hearing Offices SSA also administers a nationwide hearings and appeals program that provides a mechanism for individuals dissatisfied with determinations affecting their rights to and amounts of benefits or their participation in programs under the Social Security Act. The act allows for administrative appeals of these

SOCIAL SECURITY ADMINISTRATION

determinations in accordance with the requirements of the Administrative Procedure and Social Security Acts. SSA has approximately 140 hearing offices located in the 10 SSA regions.

The Tennessee Valley Authority conducts a unified program of resource development for the advancement of economic growth in the Tennessee Valley region.

The Tennessee Valley Authority (TVA) is a wholly owned Government corporation created by the act of May 18, 1933 (16 U.S.C. 831–831dd). All functions of the Authority are vested in its nine-member Board of Directors, the members of which are appointed by the President with the advice and consent of the Senate. The Board designates one member as Chairman.

Programs and Activities

TVA's programs and activities include flood control, navigation, electric power production and transmission, recreation improvement, water supply and water quality management, environmental stewardship, and economic development.

TVA's electric power program is financially self-supporting and operates as part of an independent system with TVA's system of dams on the Tennessee River and its larger tributaries. These dams provide flood regulation on the Tennessee River and contribute to regulation of the lower Ohio and Mississippi Rivers. The system maintains a continuous 9-foot-draft navigation channel for the length of the 650-mile Tennessee River main stream, from Paducah, KY, to Knoxville, TN. The dams harness the power of the rivers to produce electricity. They also provide other benefits, notably outdoor recreation and water supply.

TVA operates the river management system and provides assistance to State

and local governments in reducing local flood problems. It also works with other agencies to encourage full and effective use of the navigable waterway by industry and commerce.

TVA is the wholesale power supplier for 155 local municipal and cooperative electric systems serving customers in parts of 7 States. It supplies power to 56 industries and Federal installations whose power requirements are large or unusual. Power to meet these demands is supplied from dams, coal-fired powerplants, nuclear powerplants, combustion turbine and diesel installations, solar energy sites, wind turbines, a methane gas facility, and a pumped-storage hydroelectric plant; U.S. Corps of Engineers dams in the Cumberland Valley; and Aluminum Company of America dams, whose operation is coordinated with TVA's system.

Economic development is at the heart of TVA's mission of making the Tennessee Valley a better place to live. A healthy economy means quality jobs, more investment in the region, sustainable growth, and opportunities for residents in the southeastern region to build more prosperous lives. TVA Economic Development takes a regional approach to economic growth by partnering with power distributors and both public and private organizations to attract new investments and quality jobs, supporting retention and growth of existing businesses and industries,

preparing communities for leadership and economic growth, and providing financial and technical services.

The Trade and Development Agency advances economic development and U.S. commercial interest in developing and middle-income countries.

The Trade and Development Program was established on July 1, 1980, as a component organization of the International Development Cooperation Agency. Section 2204 of the Omnibus Trade and Competitiveness Act of 1988 (22 U.S.C. 2421) made it a separate component agency. The organization was renamed the Trade and Development Agency (USTDA) and made an independent agency within the executive branch of the Federal Government on October 28, 1992, by the Jobs Through Exports Act of 1992 (22 U.S.C. 2421).

USTDA is a foreign assistance agency that delivers its program commitments through overseas grants and contracts with U.S. firms. The agency helps companies create U.S. jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project planning activities, pilot projects, and reverse trade missions while creating sustainable infrastructure and economic growth in partner countries.

USTDA provides grant funding to overseas project sponsors for the planning of projects that support the development of modern infrastructure and an open trading system. The hallmark of USTDA development assistance has always involved building partnerships between U.S. companies and overseas project sponsors to bring proven private sector solutions to developmental challenges.

USTDA works with other U.S. Government agencies to bring their particular expertise and resources to a development objective. These agencies include the Departments of State, the Treasury, Commerce, Transportation, and Energy; the Office of the U.S. Trade Representative; the Export-Import Bank of the United States; and the Overseas Private Investment Corporation.

Activities USTDA funds various forms of technical assistance, training, early investment analysis, reverse trade missions, and business workshops that

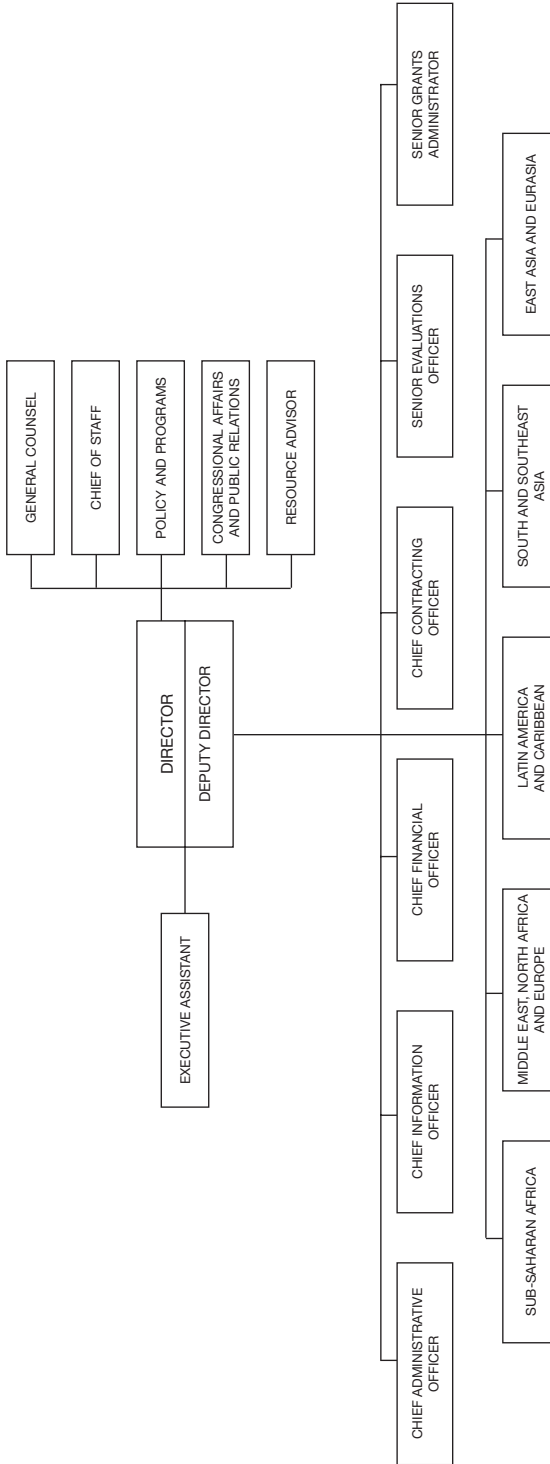

support the development of a modern infrastructure and a fair and open trading environment. Working closely with a foreign project sponsor, USTDA makes its funds available on the condition that the foreign entity contract with a U.S. firm to perform the activity funded. This affords American firms market entry, exposure, and information, thus helping them to establish a position in markets that are otherwise difficult to penetrate. USTDA is involved in many sectors, including transportation, energy, and information and communications technologies.

USTDA-funded studies evaluate the technical, economic, and financial aspects of a development project. They also advise the host nation about the availability of U.S. goods and services and can be used by financial institutions in assessing the creditworthiness of an undertaking. Grants are based on an official request for assistance made by the sponsoring government or private sector organization of a developing or middle-income nation.

Sources of Information

Requests for proposals to conduct USTDA-funded technical assistance and feasibility studies or definitional missions involving review of projects under consideration for USTDA support are listed on the Federal Business Opportunities (FBO) Web site. Links to the FBO postings can be found at www.ustda.gov. In an effort to provide timely information on Agency-supported activities, USTDA sends out an electronic newsletter with current business opportunities and a calendar of events on a biweekly basis. A free email subscription is available online. Agency news, reports, and lists of current business opportunities and upcoming events are also available online. USTDA's library maintains final reports on the Agency's activities. The reports are available for public review on weekdays, from 8:30 a.m. to 5:30 p.m. Regional program inquiries should be directed

The United States Agency for International Development administers U.S. foreign economic and humanitarian assistance programs worldwide in the developing world, Central and Eastern Europe, and Eurasia.

The United States Agency for International Development (USAID) is an independent Federal agency established by 22 U.S.C. 6563. Its principal statutory authority is the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2151 et seq.). USAID serves as the focal point within the Government for economic matters affecting U.S. relations with developing countries. USAID administers international economic and humanitarian

assistance programs. The Administrator is under the direct authority and foreign policy guidance of the Secretary of State.

Programs

The Agency meets its post-cold war era challenges by utilizing its strategy for achieving sustainable development in developing countries. It supports programs in four areas: population and health, broad-based economic growth,

environment, and democracy. It also provides humanitarian assistance and aid to countries in crisis and transition.

Population and Health The Agency contributes to a cooperative global effort to stabilize world population growth and support women's reproductive rights. The types of population and health programs supported vary with the particular needs of individual countries and the kinds of approaches that local communities initiate and support. Most USAID resources are directed to the following areas: support for voluntary family planning systems, reproductive health care, needs of adolescents and young adults, infant and child health, and education for girls and women.

Economic Growth The Agency promotes broad-based economic growth by addressing the factors that enhance the capacity for growth and by working to remove the obstacles that stand in the way of individual opportunity. In this context, programs concentrate on strengthening market economies, expanding economic opportunities for the disadvantaged in developing countries, and building human skills and capacities to facilitate broad-based participation.

Environment The Agency's environmental programs support two strategic goals: reducing long-term threats to the global environment, particularly loss of biodiversity and climate change; and promoting sustainable economic growth locally, nationally, and regionally by addressing environmental, economic, and developmental practices that impede development and are unsustainable. Globally, Agency programs focus on reducing sources and enhancing sinks of greenhouse gas emissions and on promoting innovative approaches to the conservation and sustainable use of the planet's biological diversity. The approach to national environmental problems differs on a country-by-country basis, depending on a particular country's environmental priorities. Country strategies may include improving agricultural, industrial, and natural resource management practices that play a central role in environmental

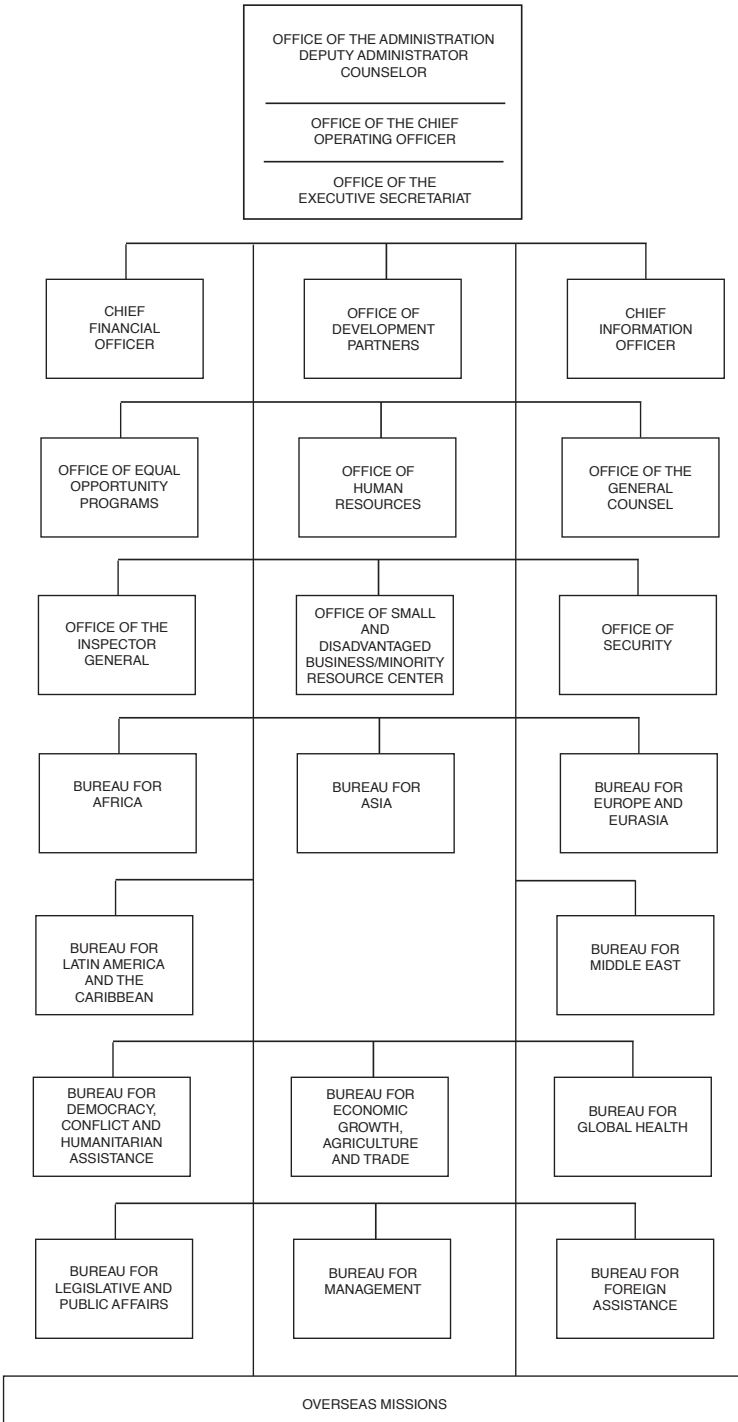

degradation; strengthening public policies and institutions to protect the environment; holding dialogues with country governments on environmental issues and with international agencies on the environmental impact of lending practices and the design and implementation of innovative mechanisms to support environmental work; and environmental research and education.

Democracy The Agency's strategic objective in the democracy area is the transition to and consolidation of democratic regimes throughout the world. Programs focus on such problems as human rights abuses; misperceptions about democracy and free-market capitalism; lack of experience with democratic institutions; the absence or weakness of intermediary organizations; nonexistent, ineffectual, or undemocratic political parties; disenfranchisement of women, indigenous peoples, and minorities; failure to implement national charter documents; powerless or poorly defined democratic institutions; tainted elections; and the inability to resolve conflicts peacefully.

Humanitarian Assistance and Post-Crisis Transitions The Agency provides humanitarian assistance that saves lives, reduces suffering, helps victims return to self-sufficiency, and reinforces democracy. Programs focus on disaster prevention, preparedness, and mitigation; timely delivery of disaster relief and short-term rehabilitation supplies and services; preservation of basic institutions of civil governance during disaster crisis; support for democratic institutions during periods of national transition; and building and reinforcement of local capacity to anticipate and handle disasters and their aftermath.

Overseas Organizations U.S. Agency for International Development country organizations are located in countries where a bilateral program is being implemented. The in-country organizations are subject to the direction and guidance of the chief U.S. diplomatic representative in the country, usually the Ambassador. The organizations report to the Agency's Assistant Administrators for

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

the four geographic bureaus: the Bureau for Africa, Asia and Near East, Europe and the New Independent States, and Latin America and the Caribbean.

The overseas program activities that involve more than one country are administered by regional offices. These offices may also perform country organizational responsibilities for assigned countries. Generally, the offices are headed by a regional development officer.

Development Assistance Coordination and Representative Offices provide liaison with various international organizations and represent U.S. interests in development assistance matters. Such offices may be only partially staffed by Agency personnel and may be headed by employees of other U.S. Government agencies.

The Commission on Civil Rights collects and studies information on discrimination or denials of equal protection of the laws because of race, color, religion, sex, age, disability, national origin, or in the administration of justice in such areas as voting rights, enforcement of Federal civil rights laws, and equal opportunity in education, employment, and housing.

The Commission on Civil Rights was first created by the Civil Rights Act of 1957, as amended, and reestablished by the United States Commission on Civil Rights Act of 1994, as amended (42 U.S.C. 1975).

Activities

The Commission makes findings of fact but has no enforcement authority. Findings and recommendations are submitted to the President and Congress, and many of the Commission's recommendations have been enacted, either by statute, Executive order, or regulation. The Commission evaluates Federal laws and the effectiveness of Government equal opportunity programs. It also serves as a national clearinghouse for civil rights information.

Regional Programs The Commission maintains six regional divisions. For a complete listing of the regional divisions of the U.S. Commission on Civil Rights, including addresses, telephone numbers,

The United States International Trade Commission furnishes studies, reports, and recommendations involving international trade and tariffs to the President, the U.S. Trade Representative, and congressional committees. The Commission also conducts a variety of investigations pertaining to international trade relief.

The United States International Trade Commission (USITC) is an independent

agency created by the Revenue Act (39 Stat. 795) and originally named the

United States Tariff Commission. The name was changed to the United States International Trade Commission by section 171 of the Trade Act of 1974 (19 U.S.C. 2231).

Six Commissioners are appointed by the President with the advice and consent of the Senate for 9-year terms, unless appointed to fill an unexpired term. The Chairman and Vice Chairman are designated by the President for 2-year terms, and succeeding Chairmen may not be of the same political party. The Chairman generally is responsible for the administration of the Commission. Not more than three Commissioners may be members of the same political party (19 U.S.C. 1330).

Activities

The Commission performs a number of functions pursuant to the statutes referred to above. Under the Tariff Act of 1930, the Commission is given broad powers of investigation relating to the customs laws of the United States and foreign countries; the volume of importation in comparison with domestic production and consumption; the conditions, causes, and effects relating to competition of foreign industries with those of the United States; and all other factors affecting competition between articles of the United States and imported articles. The Commission is required, whenever requested, to make available to the President, the House Committee on Ways and Means, and the Senate Committee on Finance all information at its command and is directed to make such investigations and reports as may be requested by the President, Congress, or the committees mentioned above.

In order to carry out these responsibilities, the Commission is required to engage in extensive research, conduct specialized studies, and maintain a high degree of expertise in all matters relating to the commercial and international trade policies of the United States.

Imported Articles Subsidized or Sold at Less Than Fair Value The Commission conducts preliminary-phase investigations to determine whether imports of foreign

merchandise allegedly being subsidized or sold at less than fair value injure or threaten to injure an industry in the United States. If the Commission's determination is affirmative and the Secretary of Commerce determines there is reason to believe or suspect such unfair practices are occurring, then the Commission conducts final-phase investigations to determine the injury or threat of injury to an industry because of such imports.

Under the Uruguay Round Agreements Act, the Commission also conducts sunset reviews. In these reviews, the Commission evaluates whether material injury to a U.S. industry would continue or recur if the antidumping duty or countervailing duty order under review were revoked. Such injury reviews must be conducted on all antidumping duty and countervailing duty orders every 5 years for as long as the orders remain in effect.

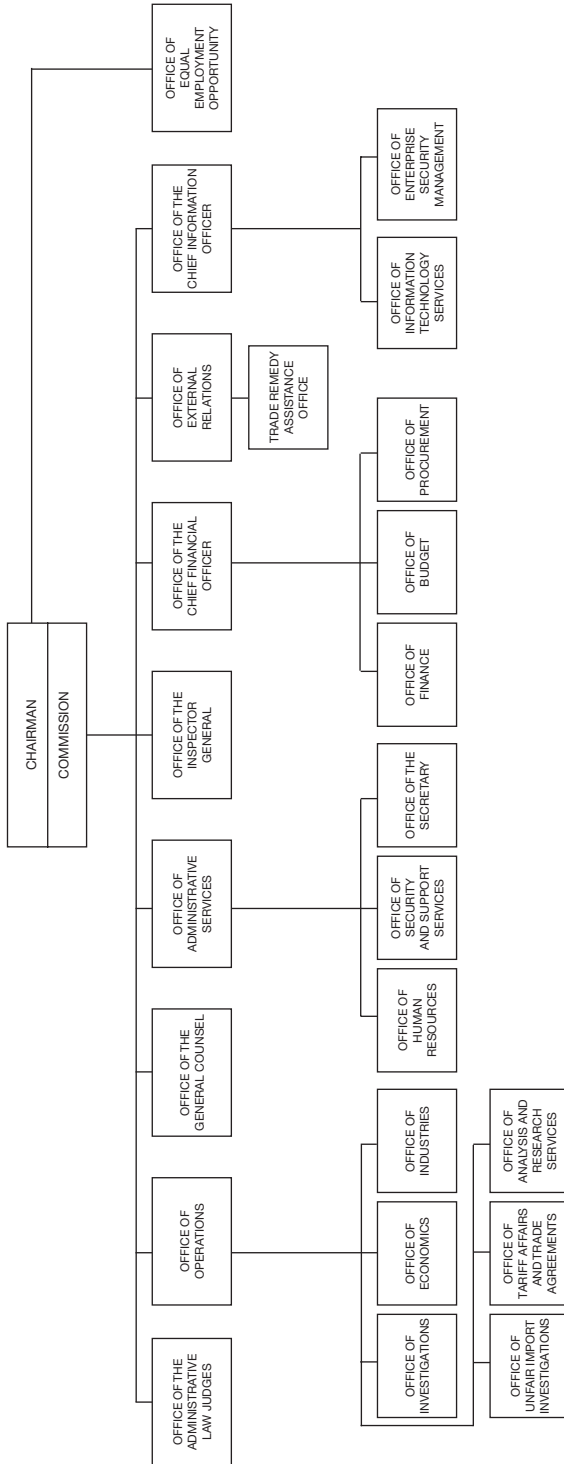

Unfair Practices in Import Trade The Commission applies U.S. statutory and common law of unfair competition to the importation of products into the United States and their sale. If the Commission determines that there is a violation of law, it is to direct that the articles involved be excluded from entry into the United States, or it may issue cease-and-desist orders directing the person engaged in such violation to cease and desist from engaging in such unfair methods or acts.

Trade Negotiations The Commission advises the President as to the probable economic effect on the domestic industry and on consumers of modification of duties and other barriers to trade that may be considered for inclusion in any proposed trade agreement with foreign countries.

Generalized System of Preferences With respect to articles that may be considered for preferential removal of the duty on imports from designated developing countries, the Commission advises the President as to the probable economic effect such removal will have on the domestic industry and on consumers.

Industry Adjustment to Import Competition (Global Safeguard Actions)

UNITED STATES INTERNATIONAL TRADE COMMISSION

The Commission conducts investigations upon petition on behalf of an industry, a firm, a group of workers, or other entity representative of an industry to determine whether an article is being imported in such increased quantities as to injure or threaten to injure the domestic industry producing an article like or directly competitive with the imported article. If the Commission's finding is affirmative, it recommends to the President the action that would address such a threat and be most effective in facilitating positive adjustment by the industry to import competition. The President determines if import relief is appropriate.

The Commission reports on developments within an industry that has been granted import relief and advises the President of the probable economic effect of the reduction or elimination of the tariff increase that has been granted. The President may continue, modify, or terminate the import relief previously granted.

Imports From NAFTA Countries

(Bilateral Safeguard Actions) The Commission conducts investigations to determine whether, as a result of the reduction or elimination of a duty provided for under the North American Free Trade Agreement (NAFTA), a Canadian article or a Mexican article, as the case may be, is being imported into the United States in such increased quantities and under such conditions so that imports of the article constitute a substantial cause of serious injury or (except in the case of a Canadian article) a threat of serious injury to the domestic industry producing an article that is like or directly competitive with the imported article. If the Commission's determination is in the affirmative, the Commission recommends to the President the relief that is necessary to prevent or remedy serious injury. Commission investigations under these provisions are similar procedurally to those conducted under the global safeguard action provisions.

Imports from China (Bilateral Safeguard Actions)

The Commission conducts investigations to determine whether products from China are being imported into the United States in such increased

quantities or under such conditions as to cause or threaten to cause market disruption to the domestic producers of like or directly competitive products. If the Commission makes an affirmative determination, it proposes a remedy. The Commission sends its reports to the President and the U.S. Trade Representative. The President makes the final remedy decision.

Market Disruption From Communist Countries

The Commission conducts investigations to determine whether increased imports of an article produced in a Communist country are causing market disruption in the United States. If the Commission's determination is in the affirmative, the President may take the same action as in the case of serious injury to an industry, except that the action would apply only to imports of the article from the Communist country. Commission investigations conducted under this provision are similar procedurally to those conducted under the global safeguard action provisions.

Import Interference With Agricultural Programs

The Commission conducts investigations, at the direction of the President, to determine whether imports or potential imports may interfere with the Department of Agriculture's agricultural programs or reduce the amount of any product processed in the United States. After investigating, the Commission discloses findings and makes recommendations. The President may then restrict the imports in question by imposing import fees or quotas. Such fees or quotas may be applied only against countries that are not members of the World Trade Organization.

Uniform Statistical Data The Commission, in cooperation with the Secretary of the Treasury and the Secretary of Commerce, establishes for statistical purposes an enumeration of articles imported into the United States and exported from the United States and seeks to establish comparability of such statistics with statistical programs for domestic production.

Harmonized Tariff Schedule of the United States, Annotated

The Commission issues a publication

containing the U.S. tariff schedules and related matters and considers questions concerning the arrangement of such schedules and the classification of articles.

International Trade Studies The Commission conducts studies, investigations, and research projects on a broad range of topics relating to international trade, pursuant to requests of the President, the House Ways and Means Committee, the Senate Finance Committee, either branch of the Congress, or on its own motion. Public reports of these studies, investigations, and research projects are issued in most cases.

The Commission also keeps informed of the operation and effect of provisions relating to duties or other import restrictions of the United States contained in various trade agreements. Occasionally, the Commission is required by statute to perform specific trade-related studies.

[For the United States Postal Service statement of organization, see the Code of Federal Regulations, Title 39, Part 221]

The United States Postal Service provides mail processing and delivery services to individuals and businesses within the United States.

The Postal Service was created as an independent establishment of

the executive branch by the Postal Reorganization Act (39 U.S.C. 101 et

seq.), approved August 12, 1970. The present United States Postal Service commenced operations on July 1, 1971.

In FY 2012, the Postal Service had approximately 528,000 career employees and handled over 159 billion pieces of mail. The chief executive officer of the Postal Service, the Postmaster General, is appointed by the nine Governors of the Postal Service, who are appointed by the President with the advice and consent of the Senate. The Governors and the Postmaster General appoint the Deputy Postmaster General, and these 11 people constitute the Board of Governors.

In addition to the national headquarters, there are area and district offices supervising more than 35,000 post offices, branches, stations, contract postal units, and community post offices throughout the United States.

Activities

In order to expand and improve service to the public, the Postal Service is engaged in customer cooperation activities, including the development of programs for both the general public and major customers. The Consumer Advocate, a postal ombudsman, represents the interest of the individual mail customer in matters involving the Postal Service by bringing complaints and suggestions to the attention of top postal management and solving the problems of individual customers. To provide postal services responsive to public needs, the Postal Service operates its own planning, research, engineering, real estate, and procurement programs specially adapted to postal requirements, and maintains close ties with international postal organizations.

The Postal Service is the only Federal agency whose employment policies are governed by a process of collective bargaining under the National Labor Relations Act. Labor contract negotiations, affecting all bargaining unit personnel, as well as personnel matters involving employees not covered by collective bargaining agreements, are administered by Labor Relations or Human Resources.

The U.S. Postal Inspection Service is the Federal law enforcement agency which has jurisdiction in criminal matters affecting the integrity and security of the mail. Postal Inspectors enforce more than 200 Federal statutes involving mail fraud, mail bombs, child pornography, illegal drugs, mail theft, and other postal crimes, as well as being responsible for the protection of all postal employees.

Postal Service customers and employees can file mail fraud complaints, find local Postal Inspection Service offices, and receive helpful preventative tips at 1-877-876-2455 or at <https://postalinspectors.uspis.gov>.

[For the Legal Services Corporation statement of organization, see the Code of Federal Regulations, Title 45, Part 1601]

The Legal Services Corporation promotes equal access to justice and provides civil legal assistance to low-income persons.

The Legal Services Corporation (LSC) is a private, nonprofit corporation established by the Legal Services Act of 1974, as amended (42 U.S.C. 2996), to promote equal access to justice under the law for all Americans.

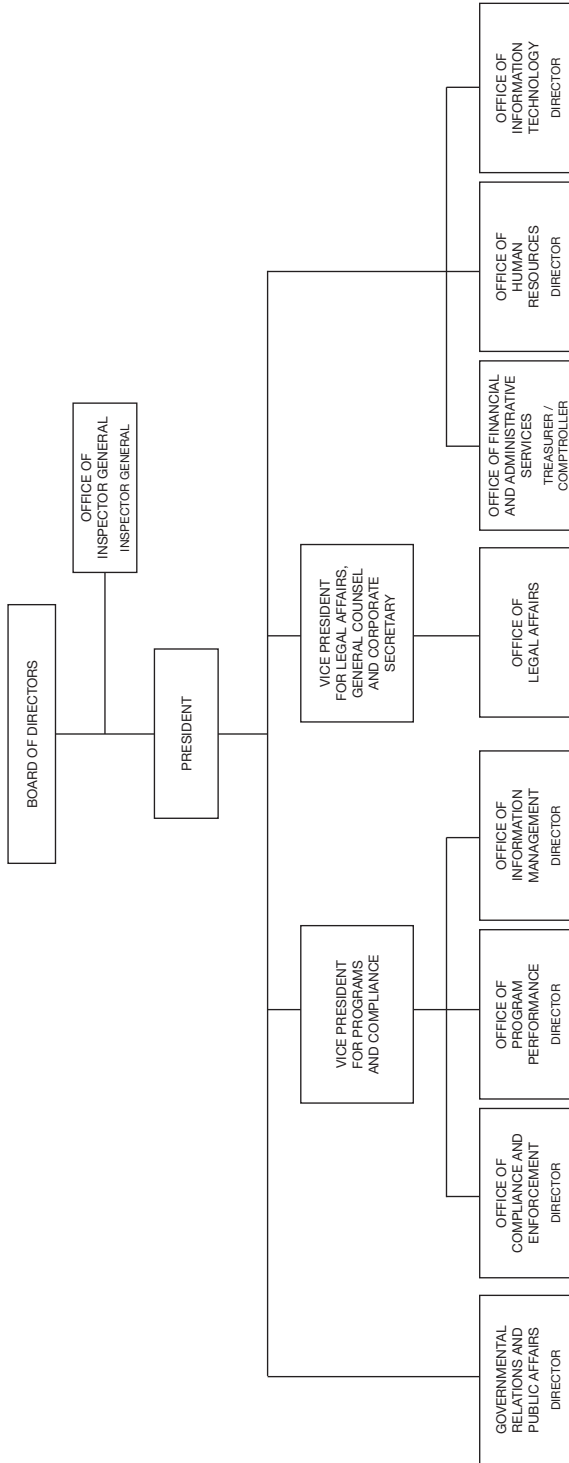

LSC is headed by an 11-member Board of Directors, appointed by the President and confirmed by the Senate. By law, the Board is bipartisan and no more than six members may be of the same political party.

LSC is funded by congressional appropriations and provides legal services through grants to independent local legal services provider programs selected through a system of competition. In 2009, LSC funded 136 programs. Together, they

serve every county and congressional district in the Nation, as well as the U.S. territories. Programs are also funded to address the needs of Native Americans and migrant farmworkers.

The legal services delivery system is based on several principles: local priorities, national accountability, competition for grants, and a strong public-private partnership. Local programs are governed by their own boards of directors, which set priorities and determine the types of cases that will be handled subject to restrictions set by Congress. A majority of each local board is appointed by local bar associations, and one-third of each local board is composed of client representatives

LEGAL SERVICES CORPORATION

appointed by client groups. Each board hires its own executive director. Programs may supplement their LSC grants with additional funds from State and local governments and other sources. They further leverage Federal funds by involving private attorneys in the delivery of legal services for the poor, mostly through volunteer pro bono work.

Programs that LSC funds do not handle criminal cases, nor do they accept fee-

generating cases that private attorneys are willing to accept on a contingency basis. In addition, in 1996 a series of new limitations were placed upon activities in which LSC-funded programs may engage on behalf of their clients, even with non-LSC funds. All programs must comply with laws enacted by Congress and the implementing regulations promulgated by LSC.

The Smithsonian Institution is an independent trust instrumentality of the United States which comprises the world's largest museum and research complex; includes 19 museums and galleries, the National Zoo, and research facilities in several States and the Republic of Panama; and is dedicated to public education, national service, and scholarship in the arts, sciences, history, and culture.

The Smithsonian Institution was created by an act of Congress on August 10, 1846 (20 U.S.C. 41 et seq.), to carry out the terms of the will of British scientist James Smithson (1765–1829), who in 1826 had bequeathed his entire estate to the United States “to found at Washington, under the name of the Smithsonian Institution, an establishment for the increase and diffusion of knowledge among men.” On July 1, 1836, Congress accepted the legacy and pledged the faith of the United States to the charitable trust.

In September 1838, Smithson’s legacy, which amounted to more than 100,000 gold sovereigns, was delivered to the mint at Philadelphia. Congress vested responsibility for administering the trust in the Secretary of the Smithsonian and the Smithsonian Board of Regents, composed of the Chief Justice, the Vice President, three Members of the Senate, three Members of the House of Representatives, and nine citizen members appointed by joint resolution of Congress. To carry out Smithson’s mandate, the Institution executes the following functions: conducts scientific and scholarly research; publishes the results of studies, explorations, and investigations; preserves for study and reference more than 137 million artifacts, works of art, and scientific specimens; organizes exhibits representative of the arts, the sciences, American history, and world culture; shares Smithsonian resources and collections with communities throughout the Nation; and engages in educational programming and national and international cooperative research.

Smithsonian activities are supported by its trust endowments and revenues; gifts, grants, and contracts; and funds appropriated to it by Congress. Admission to the museums in Washington, DC, is free.

Activities

Anacostia Community Museum The Museum, located in the historic Fort Stanton neighborhood of Southeast Washington, serves as a national resource for exhibitions, historical documentation, and interpretive and educational programs relating to the impact of history and contemporary social issues on urban communities.

For further information, contact the Anacostia Community Museum, 1901 Fort Place SE., Washington, DC 20020. Phone, 202-633-1000. Internet, <http://anacostia.si.edu>.

Archives of American Art The Archives contains the Nation’s largest collection of documentary materials reflecting the history of visual arts in the United States. On the subject of art in America, it is the largest archives in the world, holding more than 16 million documents. The Archives gathers, preserves, and microfilms the papers of artists, craftsmen, collectors, dealers, critics, and art societies. These papers include manuscripts, letters, diaries, notebooks, sketchbooks, business records, clippings, exhibition catalogs, transcripts of tape-recorded interviews, and photographs of artists and their work.

For further information, contact the Archives of American Art, Suite 2200, 750 Ninth Street NW., Washington, DC 20001. Phone, 202-633-7940. Internet, <http://www.aaa.si.edu>.

Cooper-Hewitt National Design Museum The Museum is the only museum in the country devoted exclusively to historical and contemporary design. Collections include objects in such areas as applied arts and industrial design, drawings and prints, glass, metalwork, wallcoverings, and textiles. Changing exhibits and public programs seek to educate by exploring the role of design in daily life. The Museum is closed until 2014. Programming will be offered offsite and online.

For further information, contact Cooper-Hewitt National Design Museum, 2 East Ninety-First Street, New York, NY 10128. Phone, 212-849-8400. Internet, <http://cooperhewitt.org>.

Freer Gallery of Art The building, the original collection, and an endowment were the gift of Charles Lang Freer (1854–1919). The Gallery houses one of the world's most renowned collections of Asian art, an important group of ancient Egyptian glass, early Christian manuscripts, and works by 19th- and early 20th-century American artists. The objects in the Asian collection represent the arts of East Asia, the Near East, and South and Southeast Asia, including paintings, manuscripts, scrolls, screens, ceramics, metalwork, glass, jade, lacquer, and sculpture. Members of the staff conduct research on objects in the collection and publish results in scholarly journals and books for general and scholarly audiences.

For further information, contact the Freer Gallery of Art, Jefferson Drive at Twelfth Street SW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://www.asia.si.edu>.

Hirshhorn Museum and Sculpture Garden From cubism to minimalism, the Museum houses major collections of modern and contemporary art. The nucleus of the collection is the gift and bequest of Joseph H. Hirshhorn (1899–1981). Supplementing the permanent collection are loan exhibitions. The Museum houses a collection research facility, a specialized art library, and a photographic archive, available for consultation by prior appointment. The outdoor sculpture garden is located nearby on the National Mall. There is an active program of public service and education, including docent tours, lectures on contemporary art and artists, and films of historic and artistic interest.

For further information, contact the Hirshhorn Museum and Sculpture Garden, Seventh Street and Independence Avenue SW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://www.hirshhorn.si.edu>.

National Air and Space Museum Created to memorialize the development and achievements of aviation and spaceflight, the Museum collects, displays, and preserves aeronautical

and space flight artifacts of historical significance as well as documentary and artistic materials related to air and space. Among its artifacts are full-size planes, models, and instruments. Highlights of the collection include the Wright brothers' Flyer, Charles Lindbergh's Spirit of St. Louis, a Moon rock, and Apollo spacecraft. The exhibitions and study collections record the human conquest of the air from its beginnings to recent achievements. The principal areas in which work is concentrated include flight craft of all types, spaceflight vehicles, and propulsion systems. The Museum's IMAX Theater and the 70-foot domed Einstein Planetarium are popular attractions. The Museum's Steven F. Udvar-Hazy Center, at Washington Dulles International Airport, opened in December 2003. Its featured artifacts include a space shuttle and the Enola Gay B-29 World War II bomber.

National Museum of African Art This is the only art museum in the United States dedicated exclusively to portraying the creative visual traditions of Africa. Its research components, collection, exhibitions, and public programs establish the Museum as a primary source for the examination and discovery of the arts and culture of Africa. The collection includes works in wood, metal, fired clay, ivory, and fiber. The Eliot Elisofon Photographic Archives includes slides, photos, and film segments on Africa. There is also a specialized library.

For further information, contact the National Museum of African Art, 950 Independence Avenue SW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://africa.si.edu>.

National Museum of African American History and Culture The Museum was established in 2003 and will be the only national museum devoted exclusively to the documentation of African American life, art, history, and culture. Scheduled for completion in 2015, the Museum will be built on the National Mall on a 5-acre tract adjacent to the Washington Monument. In the meantime, the

Museum has exhibition space on the second floor of the National Museum of American History.

For further information, contact the National Museum of African American History and Culture, Capital Gallery, Suite 7001, 600 Maryland Avenue SW., Washington, DC 20024. Phone, 202-633-1000. Internet, <http://www.nmaahc.si.edu>.

Smithsonian American Art Museum

The Museum's art collection spans centuries of American painting, sculpture, folk art, photography, and graphic art. A major center for research in American art, the Museum has contributed to such resources as the Inventory of American Paintings Executed Before 1914, the Smithsonian Art Index, and the Inventory of American Sculpture. The library, shared with the National Portrait Gallery, contains volumes on art, history, and biography, with special emphasis on the United States. The Donald W. Reynolds Center for American Art and Portraiture is home to the Smithsonian American Art Museum, the National Portrait Gallery, and the Archives of American Art. Hundreds of images from the collection and extensive information on its collections, publications, and activities are available electronically on the Museum's Web site.

For further information, contact the Smithsonian American Art Museum, Eighth and F Streets NW., Washington, DC 20006. Phone, 202-633-1000. Internet, <http://www.americanart.si.edu>.

Renwick Gallery The Gallery, a branch of the Smithsonian American Art Museum, is dedicated to exhibiting crafts of all periods and to collecting 20th-century American crafts. It offers changing exhibitions of American crafts and decorative arts, both historical and contemporary, and a rotating selection from its permanent collection. The Gallery's grand salon is elegantly furnished in the Victorian style of the 1860s and 1870s. The Gallery closes for a 2-year renovation beginning in early 2014.

For further information, contact the Renwick Gallery, Seventeenth Street and Pennsylvania Avenue NW., Washington, DC 20006. Phone, 202-633-1000. Internet, <http://www.americanart.si.edu/renwick>.

National Museum of American History

In pursuit of its fundamental mission to inspire a broader understanding of the United States and its people, the Museum provides learning opportunities, stimulates the imagination of visitors, and presents challenging ideas about the Nation's past. The Museum's exhibits provide a unique view of the American experience. Emphasis is placed upon innovative individuals representing a wide range of cultures, who have shaped our heritage, and upon science and the remaking of our world through technology. Exhibits draw upon strong collections in the sciences and engineering, agriculture, manufacturing, transportation, political memorabilia, costumes, musical instruments, coins, Armed Forces history, photography, computers, ceramics, and glass. Classic cars, icons of the American Presidency, First Ladies' gowns, the Star-Spangled Banner flag, Whitney's cotton gin, Morse's telegraph, the John Bull locomotive, Dorothy's ruby slippers from "The Wizard of Oz," and other American icons are highlights of the collection. The West Wing of the Museum is closed for renovation until 2015.

For further information, contact the National Museum of American History, Fourteenth Street and Constitution Avenue NW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://www.americanhistory.si.edu>.

National Museum of the American Indian

The Museum was established in 1989, and the building on the National Mall opened September 2004. Much of the collection of the Museum is comprised of the collection of the former Heye Foundation in New York City. It is an institution of living cultures dedicated to the collection, preservation, study, and exhibition of the life, languages, literature, history, and arts of the Native peoples of the Americas. Highlights include Northwest Coast carvings; dance masks; pottery and weaving from the Southwest; painted hides and garments from the North American Plains; goldwork of the Aztecs, Incas, and Maya; and Amazonian featherwork. The National Museum of the American Indian also operates the George Gustav Heye

Center at the Alexander Hamilton U.S. Custom House in New York City.

For further information, contact the National Museum of the American Indian, Fourth Street and Independence Avenue SW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://americanindian.si.edu>.

American Museum of Natural History

Dedicated to understanding the natural world and the place of humans in it, the Museum's permanent exhibitions focus on human cultures, Earth sciences, biology, and anthropology, with the most popular displays featuring gem stones such as the Hope Diamond, dinosaurs, insects, marine ecosystems, birds, and mammals. In 2010, the Museum celebrated its 100th anniversary with the opening of a new permanent exhibition, the David H. Koch Hall of Human Origins. An IMAX theater offers large-format films. The Museum's encyclopedic collections comprise more than 126 million specimens, making the Museum one of the world's foremost facilities for natural history research. The Museum's seven departments are anthropology, botany, entomology, invertebrate zoology, mineral sciences, paleobiology, and vertebrate zoology. Doctorate-level staff researchers ensure the continued growth and value of the collection by conducting studies in the field and laboratory.

For further information, contact the National Museum of Natural History, Tenth Street and Constitution Avenue NW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://www.mnh.si.edu>.

National Portrait Gallery The Gallery was established in 1962 for the exhibition and study of portraiture depicting men and women who have made significant contributions to the history, development, and culture of the United States. The Gallery contains more than 19,000 works, including photographs and glass negatives. The first floor of the Gallery is devoted to changing exhibitions from the Gallery's collection of paintings, sculpture, prints, photographs, and drawings as well as to special portrait collections. Featured on the second floor are the permanent collection of portraits of eminent Americans and the

Hall of Presidents, including the famous Gilbert Stuart portrait-from-life of George Washington. The two-story American Victorian Renaissance Great Hall on the third floor of the Gallery houses and exhibit of 20th century Americans and is used for special events and public programs. The Gallery shares a large library with the Smithsonian American Art Museum and the Archives of American Art. The education department offers public programs; outreach programs for adult groups; and walk-in and group tours.

For further information, contact the National Portrait Gallery, Eighth and F Streets NW., Washington, DC 20001. Phone, 202-633-1000. Internet, <http://www.npg.si.edu>.

National Postal Museum The Museum houses the Nation's postal history and philatelic collection, the largest of its kind in the world, with more than 13 million objects. The Museum is devoted to the history of America's mail service, and major galleries include exhibits on mail service in colonial times and during the Civil War, the Pony Express, modern mail service, automation, mail transportation, and the art of letters, as well as displays of the Museum's priceless stamp collection. Highlights include three mail planes, a replica of a railway mail car, displays of historic letters, handcrafted mail boxes, and rare U.S. and foreign-issue stamps and covers.

For further information, contact the National Postal Museum, 2 Massachusetts Avenue NE., Washington, DC 20001. Phone, 202-633-1000. Internet, <http://postalmuseum.si.edu>.

National Zoological Park The National Zoo is an international leader in wildlife conservation, education, and research. Home to more than 2,000 animals, the Zoo encompasses 163 acres along Rock Creek Park in Northwest Washington. Exhibits include the David M. Rubenstein Family Giant Panda Habitat, where the giant pandas Mei Xiang and Tian Tian can be found. Built to mimic the animals' natural habitat in China, it is part of the Zoo's Asia Trail, which also takes visitors through the habitats of red pandas, Asian small-clawed otters, fishing cats, sloth bears, and clouded leopards. Other highlights include the Elephant

Trails, home to the Asian elephant Kandula, who was born at the Zoo in 2001; Amazonia, a 15,000-square-foot rain forest habitat; the Reptile Discovery Center, featuring African pancake tortoises and the world's largest lizards, Komodo dragons; and the Great Ape House, home to gorillas, orangutans, and other primates.

Arthur M. Sackler Gallery This Asian art museum opened in 1987 on the National Mall. Changing exhibitions drawn from major collections in the United States and abroad, as well as from the permanent holdings of the Sackler Gallery, are displayed in the distinctive below-ground museum. The Gallery's growing permanent collection is founded on a group of art objects from China, South and Southeast Asia, and the ancient Near East that were given to the Smithsonian by Arthur M. Sackler (1913-1987). The Museum's current collection features Persian manuscripts; Japanese paintings; ceramics, prints, and textiles; sculptures from India; and paintings and metalware from China, Korea, Japan, and Southeast Asia. The Sackler Gallery is connected by an underground exhibition space to the neighboring Freer Gallery.

For further information, contact the Arthur M. Sackler Gallery, 1050 Independence Avenue SW., Washington, DC 20560. Phone, 202-633-1000. Internet, <http://www.asia.si.edu>.

Smithsonian Institution Archives The Smithsonian Institution Archives acquires, preserves, and makes available for research the official records of the Smithsonian Institution and the papers of individuals and organizations associated with the Institution or with its work. These holdings document the growth of the Smithsonian and the development of American science, history, and art.

Smithsonian Museum Conservation Institute

The Institute researches preservation, conservation, and technical study and analysis of collection materials. Its researchers investigate the chemical and physical processes that are involved in the care of art, artifacts, and specimens and attempt to formulate conditions and procedures for storage, exhibit, and stabilization that optimize the preservation of these objects. In interdisciplinary collaborations with archeologists, anthropologists, and art

historians, natural and physical scientists study and analyze objects from the collections and related materials to expand knowledge and understanding of their historical and scientific context.

For further information, contact the Museum Conservation Institute, Museum Support Center, Suitland, MD 20746. Phone, 301-238-1240. Internet, <http://www.si.edu/mci>.

Smithsonian Environmental Research Center (SERC) The Center is the leading national research center for understanding environmental issues in the coastal zone. SERC is dedicated to increasing knowledge of the biological and physical processes that sustain life on Earth. The Center, located near the Chesapeake Bay, trains future generations of scientists to address ecological questions of the Nation and the globe.

Activities

The Gallery houses one of the finest collections in the world, illustrating Western man's achievements in painting, sculpture, and the graphic arts. The West Building includes European (13th through early 20th century) and American (18th through early 20th century) works. An extensive survey of Italian painting and sculpture, including the only painting by Leonardo da Vinci in the Americas, is presented here. Rich in Dutch masters and French impressionists, the collection offers superb surveys of American, British, Flemish, Spanish, and 15th and 16th century German art, as well as Renaissance medals and bronzes, Chinese porcelains, and about 97,000 works of graphic art from the 12th to the 20th centuries. The East Building collections and Sculpture Garden include important works by major 20th-century artists. The Gallery represents a partnership of Federal and private resources. Its operations and maintenance are supported through Federal appropriations, and all of its acquisitions of works of art, as well as numerous special programs, are made possible through private donations and funds. Graduate and postgraduate research is conducted under a fellowship program; education programs for schoolchildren and the general public are conducted daily; and an extension service provides slide teaching and multimedia programs, videocassettes, CD-ROMs, DVDs, and

videodiscs to millions of people each year.

Activities

Created by an Act of Congress in 1968, the Woodrow Wilson International Center for Scholars is a national, living memorial honoring the legacy of President Woodrow Wilson. The Wilson Center, headquartered in Washington, DC, and supported by both public and private funds, provides a strictly nonpartisan space for scholars and policymakers to interact. By conducting relevant, timely research and promoting dialogue from all perspectives, the Center works to address critical current and emerging challenges confronting the United States and the world.

Sources of Information

Electronic Access Information on the Woodrow Wilson Center is available through the Internet at www.wilsoncenter.org.

Employment For information on employment opportunities at the Woodrow Wilson Center, contact the Office of Human Resources, One Woodrow Wilson Plaza, 1300 Pennsylvania Avenue NW., Washington, DC 20004-3027. Internet, www.wilsoncenter.org/hr/index.htm.

Fellowships and Internship The Woodrow Wilson Center offers residential fellowships that allow academics, public officials, journalists, business professionals, and others to pursue their research and writing at the Center

while interacting with policymakers in Washington. The Center also invites public policy scholars and senior scholars from a variety of disciplines to conduct research for varying lengths of time in residence. For more information, call 202-691-4213. The Center also has a year-round need for interns to assist the program and projects staff and to act as research assistants for scholars and fellows. For more information, call 202-691-4053.

The State Justice Institute awards grants to improve the administration of justice in the State courts of the United States.

State Justice Institute (SJI) was established by the State Justice Institute Authorization Act of 1984 (42 U.S.C. 10701 et seq.) as a private, nonprofit corporation to further the development and improvement of judicial administration in the State courts.

SJI is supervised by a Board of Directors consisting of 11 members

appointed by the President with the advice and consent of the Senate. The Board is statutorily composed of six judges, a State court administrator, and four members of the public, of whom no more than two can be of the same political party.

In carrying out its mission, SJI develops solutions to common issues faced by State courts; provides practical products to judges and court staff; ensures that effective approaches in one State are quickly and economically shared with other courts nationwide; and supports national, regional, and in-State educational programs to speed the transfer of solutions.

To accomplish these broad objectives, SJI is authorized to provide funds, through grants, cooperative agreements, and contracts, to State courts and

organizations that can assist in the improvement of judicial administration in the State courts.

The United States Institute of Peace promotes research, policy analysis, education, and training on international peace and conflict resolution.

The United States Institute of Peace (USIP) is an independent quasi-Federal institution established by Congress pursuant to title XVII of the Defense Authorization Act of 1985, as amended (22 U.S.C. 4601-4611), to develop, apply, and foster cost-effective strategies

and tools to prevent, mitigate, and resolve violent international conflicts, particularly those that threaten or harm America's strategic and security interests. The USIP Act defines the organization's mission "to serve the people and the government through the widest possible

range of education and training, basic and applied research opportunities, and peace information services on the means to promote international peace and the resolution of conflicts among nations and peoples of the world without recourse to violence." The Institute is governed by a bipartisan Board of Directors appointed by the President and confirmed by the Senate. The Board is comprised of members from outside the Federal service, the Secretary of State, the Secretary of Defense, and the President of the National Defense University. The Board appoints the President of the Institute.

Programs and Activities

The Institute supports U.S. national security and foreign affairs through conflict management and peacebuilding operations; training in conflict management and peacebuilding tradecraft and best practices; and conflict research and analysis. In carrying out its mission, USIP operates on the ground in conflict zones, providing services that include facilitating dialogue among parties in conflict; building conflict management skills and capacity; indentifying and disseminating best practices in conflict management; promoting the rule of law; reforming and strengthening education systems; strengthening civil society; and

educating the public through media and other outreach activities. USIP works in partnership with the State and Defense Departments, the U.S. Agency for International Development, nongovernmental organizations, higher and secondary educational institutions, foreign governments, and international organizations to promote collaborative problemsolving through conflict management operations, training and analysis, facilitated dialogue, Track 1.5 diplomacy, and special events. The Institute conducts practitioner training in conflict management, including mediation and negotiating skills for government and military personnel, civil society leaders, and staff of nongovernmental and international organizations. The Institute extends its reach through grants, fellowships, and scholarships to nonprofit organizations in the United States and overseas.

The African Development Bank (AFDB) was established in 1964 and, by charter amendment, opened its membership to non-African countries in 1982. Its mandate is to contribute to the economic development and social progress of its regional members. Bank membership totals 77, including 53 African countries and 24 nonregional countries. With the September 1999 ratification of the agreement on the fifth general capital increase, Bank ownership is 60 percent African and 40 percent nonregional.

The African Development Fund (AFDF), the concessional lending

affiliate, was established in 1972 to complement AFDB operations by providing concessional financing for high-priority development projects in the poorest African countries. The Fund's membership consists of 25 nonregional member countries, South Africa, and AFDB, which represents its African members and is allocated half of the votes.

In February 2003, security concerns resulted in AFDB headquarters temporarily relocating to Tunis, Tunisia.

The Asian Development Bank (ADB) commenced operations on December 19, 1966. It now has 67 member countries: 48 from Asia and 19 from outside the region.

The purpose of the ADB is to foster sustainable economic development, poverty alleviation, and cooperation among its developing member countries in the Asia-Pacific region. The ADB invests in infrastructure, health

care services, financial and public administration systems, and helps nations prepare for the impact of climate change and better manage their natural resources. The ADB is committed to helping developing member countries

evolve into thriving, modern economies that are well integrated with each other and the world. Its primary vehicles for assistance are loans, grants, policy dialogue, technical assistance, and equity investments.

The Inter-American Defense Board is the oldest permanently constituted, international military organization in the world. It was founded by Resolution XXXIX of the Meeting of Foreign Ministers at Rio de Janeiro in January 1942. The Board is governed according to Statutes that the General Assembly of the Organization of American States approved in March 2006. Senior armed forces officers from the member nations staff the various agencies of the Board. Its three major components are the Council of Delegates, the Secretariat, and the Inter-American Defense College.

The Board studies and recommends to member governments measures it

feels are necessary for the safety and security of the hemisphere. It also acts as a technical military adviser for the Organization of American States and is involved in projects such as disaster preparedness and humanitarian demining programs in Central and South America.

The Inter-American Defense College, founded in 1962, prepares senior military officers and civilian functionaries for positions in their respective governments. The College provides an 11-month, professionally-oriented, multidisciplinary, graduate-level course of study focusing on the Western Hemisphere's most pressing defense and security issues.

The Final Act of the United Nations Monetary and Financial Conference, signed at Bretton Woods, NH, on July 22, 1944, set forth the original Articles of Agreement of the International Monetary Fund (IMF). The Agreement became effective on December 27, 1945, when the President, authorized by the Bretton Woods Agreements Act (22

U.S.C. 286), accepted membership for the United States in IMF, the Agreement having thus been accepted by countries whose combined financial commitments (quotas) equaled approximately 80 percent of IMF's original quotas. The inaugural meeting of the Board of Governors was held in March 1946,

and the first meeting of the Executive Directors was held May 6, 1946.

On May 31, 1968, the Board of Governors approved an amendment to the Articles of Agreement for the establishment of a facility based on Special Drawing Rights (SDR) in IMF and for modification of certain IMF rules and practices. The amendment became effective on July 28, 1969, and the Special Drawing Account became operative on August 6, 1969. United States acceptance of the amendment and participation in the Special Drawing Account were authorized by the Special Drawing Rights Act (22 U.S.C. 286 et seq.).

On April 30, 1976, the Board of Governors approved a second amendment to the Articles of Agreement, which entered into force on April 1, 1978. This amendment gave members the right to adopt exchange arrangements of their choice while placing certain obligations on them regarding their exchange rate policies, over which IMF was to exercise firm surveillance. The official price of gold was abolished, and the SDR account was promoted as the principal reserve asset of the international monetary system. United States acceptance of this amendment was authorized by the Bretton Woods Agreements Act Amendments (22 U.S.C. 286e-5).

On June 28, 1990, the Board of Governors approved a third amendment to the Articles of Agreement, which became effective on November 11, 1992. Under this amendment, a member's voting rights and certain related rights may be suspended by a 70-percent majority of the executive board if the member, having been declared ineligible to use the general resources of the Fund, persists in its failure to fulfill any of its obligations under the Articles.

As of December 31, 2007, IMF had 185 member countries. Total quotas at the end of December 2007 were SDR 217.3 billion (about \$343.4 billion).

The IMF promotes international monetary cooperation through a permanent forum for consultation and collaboration on international monetary problems; facilitates the expansion and balanced growth of international trade; promotes exchange rate stability; assists in the establishment of an open multilateral system of payments for current transactions among members; and gives confidence to members by making IMF resources temporarily available to them under adequate safeguards.

IMF helps its members correct imbalances in their international balances of payments. It periodically examines the economic developments and policies of its member countries, offers policy advice, and at member's request and upon executive board approval, provides financial assistance through a variety of financial facilities designed to address specific problems. These financing mechanisms provide access to the Fund's general resources to offer short-term assistance during crises of market confidence, compensatory financing to countries suffering declines in export earnings, emergency assistance for countries recovering from natural disasters or armed conflict, and low-interest rate resources to support structural adjustment and promote growth in the poorest countries. IMF also provides technical assistance and training to its members. As of December 31, 2007, IMF usable resources were SDR 165.4 billion (\$261.4 billion), and 1-year forward commitment capacity was SDR 127.7 billion (\$201.7 billion).

Established in 1951, the International Organization for Migration (IOM) is the leading intergovernmental organization in the field of migration. With 149 member states, a further 12 states holding observer status and offices in over 100 countries, IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to migrants and governments, while working in close cooperation with governmental, intergovernmental, and non-governmental partners. IOM has observer status at the United Nations.

IOM works with its partners to meet the growing operational challenges of migration management; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.

IOM has been at the forefront of emergency response to ensure assistance and protection to stranded migrants and displaced persons. IOM has a lead role under the UN Cluster Approach in Camp Co-ordination and Camp Management

in Natural Disasters and is a key partner in Emergency Shelter, Logistics, Health, Protection and Early Recovery.

IOM's expertise and services also include: providing secure, reliable, and cost-effective services for persons requiring migration assistance; promoting humane and orderly management of migration and the effective respect for the human rights of migrants; providing expert advice, technical cooperation, and operational assistance to build national capacities and facilitate cooperation on migration matters; assisting states to facilitate the integration of migrants in their new environment and to engage diasporas, including as development partners; advising states in the development and delivery of programs and technical expertise to combat migrant smuggling and human trafficking; working with national health systems to reduce mortality, morbidity, and disabilities and to enhance access to rights-based health and well-being services throughout the migration cycle; and working with states in the area of labor migration, amongst others.

JOSÉ M. INSULZA
ALBERT R. RAMDIN

The Organization of American States (OAS) brings together the countries of the Western Hemisphere to strengthen cooperation and advance common interests. At the core of the OAS mission is a commitment to democracy. Building on this foundation, OAS works to promote good governance, strengthen human rights, foster peace and security, expand trade, and address the complex problems caused by poverty, drugs, and corruption. Through decisions made by its political bodies and programs carried out by its General Secretariat, OAS promotes greater inter-American cooperation and understanding.

OAS member states have intensified their cooperation since the end of the cold war, taking on new and important challenges. In 1994, the region's 34 democratically elected presidents and prime ministers met in Miami for the First Summit of the Americas, where they established broad political, economic, and social development goals. They have continued to meet periodically since then to examine common interests and priorities. Through the ongoing Summits of the Americas process, the region's leaders have entrusted the OAS with a growing number of responsibilities to help advance the countries' shared vision.

With four official languages—English, Spanish, Portuguese, and French—the OAS reflects the rich diversity of peoples and cultures across the Americas. The OAS has 35 member states: the independent nations of North, Central, and South America, and of the Caribbean. Since 1962, Cuba has been barred from participation by resolution of the Eighth Meeting of Consultation of Ministers of Foreign Affairs. Countries from all around the world are permanent observers, closely following the issues that are critical to the Americas and often providing key financial support for OAS programs.

Member states set major policies and goals through the General Assembly, which gathers the hemisphere's foreign ministers once a year in regular session. The Permanent Council, made up of ambassadors appointed by member states, meets regularly at OAS headquarters in Washington, DC, to guide ongoing policies and actions. The chairmanship of the Permanent Council rotates every 3 months, in alphabetical order of countries. Each member state has an equal voice, and most decisions are made through consensus.

Also under the OAS umbrella are several specialized agencies that have considerable autonomy: the Pan American Health Organization in Washington, DC; the Inter-American Children's Institute in Montevideo, Uruguay; the Inter-American Institute for Cooperation on Agriculture in San Jose, Costa Rica; and the Pan American Institute of Geography and History and the Inter-American Indian Institute, both in Mexico City.

In 1948, 21 nations of the hemisphere signed the OAS Charter at the Ninth International Conference of American States. They were Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba (barred from participation), Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, United States of America, Uruguay, and Venezuela.

Subsequently, 14 other countries joined the OAS by signing and ratifying the Charter. They were Barbados, Trinidad and Tobago, Jamaica, Grenada, Suriname, Dominica, Saint Lucia, Antigua and Barbuda, Saint Vincent and the Grenadines, the Bahamas, Saint Kitts and Nevis, Canada, Belize, and Guyana. This brings the number of member states to 35.

The United Nations is an international organization that was set up in accordance with the Charter drafted by governments represented at the Conference on International Organization meeting at San Francisco. The Charter was signed on June 26, 1945, and came into force on October 24, 1945, when the required number of ratifications and accessions had been made by the signatories. Amendments increasing membership of the Security Council and the Economic and Social Council came into effect on August 31, 1965.

The United Nations now consists of 193 member states, of which 51 are founding members.

The purposes of the United Nations set out in the Charter are to maintain international peace and security; to develop friendly relations among nations; to achieve international cooperation in solving international problems of an economic, social, cultural, or humanitarian character and in promoting respect for human rights; and to be a center for harmonizing the actions of nations in the attainment of these common ends.

The principal organs of the United Nations are as follows:

General Assembly All states that are members of the United Nations are members of the General Assembly. Its functions are to consider and discuss any matter within the scope of the Charter of the United Nations and to make recommendations to the members of

the United Nations and other organs. It approves the budget of the organization, the expenses of which are borne by the members as apportioned by the General Assembly.

The General Assembly may call the attention of the Security Council to situations likely to endanger international peace and security, may initiate studies, and may receive and consider reports from other organs of the United Nations. Under the "Uniting for Peace" resolution adopted by the General Assembly in November 1950, if the Security Council fails to act on an apparent threat to or breach of the peace or act of aggression because of lack of unanimity of its five permanent members, the Assembly itself may take up the matter within 24 hours—in emergency special session—and recommend collective measures, including, in case of a breach of the peace or act of aggression, use of armed force when necessary to maintain or restore international peace and security.

The General Assembly normally meets in regular annual session from September through December. It also has met in special sessions and emergency special sessions.

Security Council The Security Council consists of 15 members, of which 5—the People's Republic of China, France, Russia, the United Kingdom, and the United States of America—are permanent members. The 10 nonpermanent members are elected for 2-year terms by the General Assembly. The primary

responsibility of the Security Council is to act on behalf of the members of the United Nations in maintenance of international peace and security. Measures that may be employed by the Security Council are outlined in the Charter.

The Security Council, together with the General Assembly, also elects the judges of the International Court of Justice and makes a recommendation to the General Assembly on the appointment of the Secretary-General of the organization.

The Security Council first met in London on January 17, 1946, and is so organized as to be able to function continuously.

Economic and Social Council This organ is responsible, under the authority of the General Assembly, for the economic and social programs of the United Nations. Its functions include making or initiating studies, reports, and recommendations on international economic, social, cultural, educational, health, and related matters; promoting respect for and observance of human rights and fundamental freedoms for all; calling international conferences and preparing draft conventions for submission to the General Assembly on matters within its competence; negotiating agreements with the specialized agencies and defining their relationship with the United Nations; coordinating the activities of the specialized agencies; and consulting with nongovernmental organizations concerned with matters within its competence. The Council consists of 54 members of the United Nations elected by the General Assembly for 3-year terms; 18 are elected each year.

The Council usually holds two regular sessions a year. It has also held a number of special sessions.

Trusteeship Council The Trusteeship Council was initially established to consist of any member states that administered trust territories, permanent members of the Security Council that did not administer trust territories, and enough other nonadministering countries elected by the General Assembly for

3-year terms to ensure that membership would be equally divided between administering and nonadministering members. Under authority of the General Assembly, the Council considered reports from members administering trust territories, examined petitions from trust territory inhabitants, and provided for periodic inspection visits to trust territories.

With the independence of Palau, the last remaining U.N. trust territory, the Trusteeship Council formally suspended operations after nearly half a century. The Council will henceforth meet only on an extraordinary basis, as the need may arise.

International Court of Justice The International Court of Justice is the principal judicial organ of the United Nations. It has its seat at The Hague, the Netherlands. All members of the United Nations are ipso facto parties to the Statute of the Court. Nonmembers of the United Nations may become parties to the Statute of the Court on conditions prescribed by the General Assembly on the recommendation of the Security Council.

The jurisdiction of the Court comprises all cases that the parties refer to it and all matters specially provided for in the Charter of the United Nations or in treaties and conventions in force.

The Court consists of 15 judges known as members of the Court. They are elected for 9-year terms by the General Assembly and the Security Council, voting independently, and may be reelected.

Secretariat The Secretariat consists of a Secretary-General and "such staff as the Organization may require." The Secretary-General, who is appointed by the General Assembly on the recommendation of the Security Council, is the chief administrative officer of the United Nations. He acts in that capacity for the General Assembly, the Security Council, the Economic and Social Council, and the Trusteeship Council. Under the Charter, the Secretary-General "may bring to the attention of the Security Council any matter that in his opinion may threaten the maintenance of international peace and security."

WORLD BANK GROUP

President

JIM YONG KIM

The World Bank Group consists of five institutions: the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), Multilateral Investment Guarantee Agency (MIGA), and the International Centre for the Settlement of Investment Disputes

(ICSID). The two primary economic and social development institutions are the IBRD and the IDA. Donor countries and countries with borrowing rights—187 in total—support and benefit from these two development banks. The other three institutions complement the activities of the IBRD and the IDA.

International Bank for Reconstruction and Development

The International Bank for Reconstruction and Development (IBRD) officially came into existence in 1944.

The Bank's purpose is to promote economic, social, and environmental progress in developing nations by reducing poverty so that their people may

live better and fuller lives. The Bank lends funds at market-determined interest rates, provides advice, and serves as a catalyst to stimulate outside investments. Its resources come primarily from funds raised in the world capital markets, its retained earnings, and repayments on its loans.

International Development Association

The International Development Association (IDA) came into existence in 1960, as an institution of the World Bank Group. The Association's resources consist of subscriptions and supplementary resources in the form of general replenishments on a three year revolving cycle, mostly from its more industrialized and developed members; special contributions by its richer members; repayments on earlier credits; and transfers from IBRD's net earnings.

The Association promotes economic development, reduces poverty, and raises the standard of living in the least developed areas of the world. It does this by financing their developmental requirements on concessionary terms, which are more flexible and bear less heavily on the balance of payments than those of conventional loans, thereby furthering the objectives of IBRD and supplementing its activities.

International Finance Corporation

The International Finance Corporation (IFC), an institution of the World Bank Group, was established in 1956 to promote productive private enterprise in developing member countries.

The Corporation pursues its objective principally through direct debt and equity investments in projects that establish new businesses or expand, modify, or diversify

existing businesses. It also encourages co-financing by other investors and lenders.

Additionally, advisory services and technical assistance are provided by IFC to developing member countries in areas such as capital market development, privatization, corporate restructuring, and foreign investment.

Multilateral Investment Guarantee Agency

The Multilateral Investment Guarantee Agency (MIGA), an institution of the World Bank Group, was formally constituted in 1988.

Its basic purpose is to facilitate the flow of foreign private investment for productive purposes to developing member countries by offering long-term

political risk insurance in the areas of expropriation, transfer restriction, breach of contract, and war and civil disturbance; and by providing advisory and consultative services. The Agency cooperates with national investment insurance schemes, such as OPIC, and with private insurers.

The International Centre for the Settlement of Investment Disputes (ICSID) is an autonomous international institution affiliated with the World Bank Group established under the Convention on the Settlement of Investment Disputes between States and Nationals of Other States. The Convention sets forth ICSID's mandate, organization, and core functions. The primary purpose of ICSID is to provide facilities for conciliation and arbitration of international investment disputes.

The ICSID Convention is a multilateral treaty formulated by the Executive Directors of the International Bank for Reconstruction and Development (the World Bank). The treaty entered into force in 1966. There are currently 157 signatory states to the ICSID Convention of which 147 countries also deposited their instruments of ratification, acceptance, or approval of the Convention.

OTHER INTERNATIONAL ORGANIZATIONS

Below is a list of other international organizations in which the United States participates, but do not have separate entries elsewhere in the *Manual*. The United States participates in these organizations in accordance with the provisions of treaties, other international agreements, congressional legislation, or executive arrangements. In some cases, no financial contribution is involved.

Various commissions, councils, or committees subsidiary to the organizations listed here are not named separately on this list. These include the international bodies for drugs and crime, which are subsidiary to the United Nations.

This listing is provided for reference purposes and should not be considered exhaustive.
