Group	Living Arrangements of Children Under 18			
	1970	1980	1990	2002
Total children under 18	69,162,000	63,427,000	64,137,000	72,321,000
Living with one parent	8,199,000	12,466,000	15,867,000	19,770,000
Percent of all children	11.9	19.7	24.7	27.3
Living with never married parent	557,000	1,820,000	4,853,000	8,111,000
Percent of all children	0.8	2.9	7.6	11.2

Source: U.S. Census Bureau (2003b).

Ethnic Group	Children Below Poverty (numbers in thousands/rate per 1,000)			
	1974	1980	1990	2002
Total	10,156 (15.4)	11,543	13,431 (20.6)	12,133
Black	3,755 (39.8)	3,961	4,550 (44.8)	3,645 (32.3)
White	6,223 (11.2)	7,181	8,232 (15.9)	7,549 (13.6)
Hispanic ¹	NA	1,749	2,865 (38.4)	3,782 (28.6)

Source: U.S. Census Bureau (2003b).

High school dropouts (percentage of status dropouts age 16-24)	Educational Achievement			
	1985	1990	1995	2000
Total	12.6	12.1	12.0	10.9
White, non-Hispanic	10.4	9.0	8.6	6.9
Black, non-Hispanic	15.2	13.2	12.1	13.1
Hispanic ¹	27.6	32.4	30.0	27.8
Average verbal SAT score	509	500	504	505
Average SAT math score	500	501	506	514

Source: National Center for Education Statistics (2001).

¹ Persons of Hispanic origin may be of any race.

NA – Not available.

Widowed	416	301	67	12	35
Total	10,146	6,627	1,819	1,050	649

¹ The CPS defines families on the basis of marital and blood relations, and treats families as a basic economic unit in its measures of family poverty and income. Under such definitions, an unmarried, cohabiting, couple would be viewed as two distinct economic units; either as two unrelated individuals, if no child dependents were involved, or as one or two single-parent families, if one or both members of the couple had children residing in the household. Cohabiting couples are identifiable on the CPS only by inference. The Census Bureau identifies such families as unmarried couple households--a household with only two adults who are unrelated and of the opposite sex (one of whom is the householder) with or without the presence of children under the age of 15. The CPS assigns a residing child to only one of the two adult members of the unmarried couple, even though the child may be the couple's offspring.

² Single female-headed families (either primary or unrelated subfamilies) with children, living in a household with either an unrelated single adult male, or with an unrelated family headed by a single adult male.

Note: Details may not sum to totals due to rounding. Numbers are estimates subject to sampling error. Caution should be exercised in interpreting differences based on small cell sizes. Marital status and family living arrangements are for the family head, as of March 2003. Poverty status is based on family income in the prior year (2002).

NA -- Not available.

Source: Table prepared by Congressional Research Service (CRS), based on analysis of the March 2002 Current Population Survey (CPS) microdata files.

TABLE G-13-- BIRTHS AND FERTILITY RATES, BY RACE OF MOTHER, SELECTED YEARS 1950-2001

¹ Spontaneous fetal losses from recognized pregnancies of all gestational periods as reported by women in the 1982, 1988, and 1995 National Survey of Family Growth conducted by the National Center for Health Statistics. The rate of pregnancy loss depends on the degree to which losses at very early gestations are detected.

PCP	NA	1.4	1.6	0.4	0.6	0.9	0.5	0.4

¹ In 1993, the question text was changed slightly in three of six forms to indicate that a "drink" meant "more than a few sips." Data for years after 1993 are based on all six forms which include this change.

² Other illicit drugs include hallucinogens, crack, other cocaine, heroin, or any use of other narcotics, amphetamines, sedatives, or tranquilizers not prescribed by a doctor. In 2001, the question text was changed on half of the questionnaire forms. "Other psychedelics" was changed to "other hallucinogens" and "shrooms" was added to the list of examples. For the tranquilizer list of examples, Miltown was replaced with Xanax. The 2001 data are based on the changed forms only. The 2002 data are based on all forms.

TABLE G-28--MEAN SAT SCORES FOR COLLEGE-BOUND
SENIORS, SELECTED YEARS 1975-2003

Year	Verbal			Math		
	Males	Females	Total	Males	Females	Total
1975	515	509	512	518	479	498
1980	506	498	502	515	473	492
1985	514	503	509	522	480	500
1990	505	496	500	521	483	501
1995	505	502	504	525	490	506
1996	507	503	505	527	492	508
1997	507	503	505	530	494	511
1998	509	502	505	531	496	512
1999	509	502	505	531	495	511
2000	507	504	505	533	498	514
2001	509	502	506	533	498	514
2002	507	502	504	534	500	516
2003	512	503	507	537	503	519

Note - For 1972-1986 a formula was applied to the original mean and standard deviation to convert the mean to the recentered scale. For 1987-1995, individual student scores were converted to the recentered scale and then the mean was recomputed. From 1996-1999, nearly all students received scores on the recentered scale. Any scale on the original scale was converted to the recentered scale prior to computing the mean. From 2000-2003, all scores are reported on the recentered scale.

C-34

¹ Based on official U.S. Census Bureau poverty levels.

² Before 2002, "other" races were included in the white racial category." Beginning in 2002, individuals on the CPS could identify as belonging to more than one racial group. In 2002, the racial categories for whites and blacks are for individuals identifying as belonging to only one racial group; people of "mixed" race and races other than white only or black only are separately identified in 2002. Hispanics may be of any race, and are identified separately.

³ Negative incomes (i.e., losses) set to zero.

⁴ The cash values of food stamps and housing assistance were estimated using their market values. Their cash values are excluded from total income for purposes of determining poverty status. Cash values of food stamps and housing assistance are included in total income for calculating the percentage share of total income.

⁵ Includes cash values of food stamps and housing assistance, and includes negative incomes (i.e. losses). 1987, 1993, and 1998 income converted to 2002 dollars using the CPI-U (Consumer Price Index for all urban consumers).

Note - Details may not sum to totals due to rounding.

2001 ⁴	11,175	3,423	7,086	3,433	15.8	30.0	12.8	27.4
2002 ⁵	11,646	3,570	7,203	3,653	16.3	32.1	13.1	28.2

¹ People of Hispanic origin may be of any race.

² For 1999, figures are based on 2000 census population controls. For 1992, on 1990 census population controls. For 1991, figures are revised to correct for nine omitted weights from the original March 1992 CPS file. For 1988 and 1987, figures are based on new processing procedures and are also revised to reflect corrections to the files after publication of the 1988 advance report, *Money Income and Poverty Status in the United States: 1988*, P-60, No. 166.

³ Consistent with 2001 data through implementation of Census 2000-based population controls and a 28,000 household sample expansion.

⁴ For 2001 and earlier years, the CPS allowed respondents to report only one race group. The reference rate groups for 2001 and earlier poverty data are: white, non-Hispanic white, black, and Asian and Pacific Islander.

⁵ The 2003 CPS (data for 2002) allowed respondents to choose more than one race. The numbers and rates reported for white and black are for those who reported white and did not report any other race category, or those who reported black and did not report any other race category.
