¶53.6 ENROLLED BILL SIGNED

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that, pursuant to clause 4 of rule I, the Speaker signed the following enrolled bill on Friday, April 30, 2010:

H.R. 5146. An Act to provide that Members of Congress shall not receive a cost of living adjustment in pay during fiscal year 2011.

¶53.7 NATIONAL SCIENCE FOUNDATION

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1307):

Whereas Congress created the National Science Foundation in 1950 to promote the progress of science, to advance the national health, prosperity, and welfare, and to secure the national defense;

Whereas the National Science Foundation, under the capable leadership of its directors, advised by the distinguished members of the National Science Board, has worked continuously and successfully for 60 years to ensure that the United States maintains its leadership in discovery, innovation, and learning in science, engineering, and mathematics;

Whereas the National Science Foundation strengthens the economy and improves the quality of life in the United States as the Federal Government's only agency dedicated to the support of fundamental research and education in all scientific and engineering disciplines;

Whereas the National Science Foundation supports a network of 200,000 individuals each year, including scientists, engineers, students, and educators at over 2,000 colleges and universities, schools, nonprofit organizations, science centers and museums, and small businesses throughout our Nation, and funds multi-user facilities and tools for conducting world-class research and research training;

Whereas during the past decade, the National Science Foundation has met increasingly challenging national needs with strategic planning, hard work, and unrelenting dedication;

Whereas the National Science Foundation supports science, technology, engineering, and mathematics (STEM) education at all levels, including support for undergraduate and graduate students, early-career researchers, and K–12 STEM teachers, and emphasizes broadening participation in the Nation's science and engineering research and education enterprises;

Whereas the National Science Foundation, through its National Hazards Reduction Program, the George E. Brown, Jr., Network for Earthquake Engineering Simulation, the Approaches to Combat Terrorism program, and similar research activities, has contributed to predicting and reducing the risk of devastation from natural and manmade disasters, and during the past decade has funded quick-response research at the sites of unprecedented national and international tragedies, including the September 11 attacks on the United States, the South Asian earthquake and tsunami, Hurricane Katrina, and the Haitian earthquake, which in turn will contribute to further preventing and mitigating the impact of future disasters;

Whereas the contributions of the National Science Foundation to understanding the fundamental nature of the universe included the completion, during the past decade, of the Robert C. Byrd Green Bank Telescope, the Gemini South Telescope, the Long-Range Interferometer Gravitational-wave Observatory, the South Pole Telescope, and the United States contribution to the Large Hadron Collider; and

Whereas the research and observations supported by the National Science Foundation and conducted in the United States in the polar regions and across the planet increasingly contribute to our understanding of the climate: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the significance of the anniversary of the founding of the National Science Foundation;

(2) acknowledges that 60 years of National Science Foundation achievements and service to the United States have advanced our Nation's leadership in discovery, innovation, and learning in science, engineering, and mathematics; and

(3) reaffirms its commitment to support investments in basic research, education, and technological advancement through the National Science Foundation, one of the premier scientific organizations in the World.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, recognized Ms. FUDGE and Mr. HALL of Texas, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that two-thirds of the Members present had voted in the affirmative.

Ms. FUDGE demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶53.8 LAB DAY

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1213):

Whereas in 2005 the National Academy of Sciences published a report entitled ''Rising Above the Gathering Storm'', which estimated that in the United States innovations generated by the Science, Technology, Engineering, and Mathematics (STEM) fields account for nearly half of the growth in gross domestic product;

Whereas in 2006 only 4.5 percent of college graduates in the United States received a diploma in engineering, compared with 25.4 percent in South Korea, 33.3 percent in China, and 39.1 percent in Singapore;

Whereas increasing the number of students pursuing careers in STEM fields is vital to the global competitiveness of the United States;

Whereas many STEM occupations do not have representation of women and underrepresented minorities proportional to these groups in the population or their enrollment in higher education;

Whereas strengthening partnerships between the Federal and State governments, the private sector, nonprofit organizations, professional societies, and the education community will improve STEM education in our Nation's schools;

Whereas the Bureau of Labor Statistics reports that science and engineering occupations are projected to grow by 21.4 percent from 2004 to 2014, compared to a projected growth of 13 percent in all occupations during the same time period;

Whereas an understanding of science and mathematics is necessary not only for those who will enter STEM fields as majors but for all citizens to understand scientific and technical issues that affect their lives;

Whereas scientific and technical skills are a requirement for an increasingly wide range of occupations and hands-on inquiry-based learning in the STEM fields is an essential element of a well-rounded education;

Whereas the President has launched an ''Educate to Innovate campaign'' which aims to increase STEM literacy so that all students can learn deeply and think critically in STEM, to move American students from the middle of the pack to the top in the next decade, and to expand STEM education and career opportunities for underrepresented groups, including women and girls;

Whereas National Lab Day is a nationwide initiative to foster community-based collaborations between educators and STEM professionals and other volunteers across the country to support high-quality, hands-on, discovery-based laboratory experiences for students;

Whereas more than 200 business, science and technology, and education organizations have declared their support for National Lab Day; and

Whereas schools and educators across the country will celebrate the first National Lab Day during the first week of May at a time of their own choosing: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the ideals of National Lab Day;

(2) calls upon the Office of Science and Technology Policy and the National Science Foundation to continue fostering partnerships such as those involved in National Lab Day; and

(3) encourages scientists, volunteers, and educators to participate in National Lab Day.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that two-thirds of the Members present had voted in the affirmative.

Ms. FUDGE demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶53.9 LASER 50TH ANNIVERSARY

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1310):

Whereas the invention of the laser was one of the groundbreaking scientific achievements of the 20th century;

Whereas in 1953, Charles H. Townes, along with graduate students James Gordon and Herbert Zeiger produced the first master device, which was a precursor to the laser that relied on microwave radiation instead of visible or infrared radiation;

Whereas concurrent to Charles H. Townes' activities, Nikolay Basov and Aleksandr Prokhorov of the Soviet Union independently produced a maser with significant technical advances which allowed continuous output;

Whereas Charles H. Townes, Nikolay Basov, and Aleksandr Prokhorov shared the 1964 Nobel Prize in Physics for their ''fundamental work in the field of quantum electronics'', which led to the construction of masers, and subsequently lasers;

Whereas in 1960, Theodore H. Maiman constructed the first functioning laser at Hughes Research Laboratories in Malibu, California, and the laser was first operated on May 16, 1960;

Whereas Theodore H. Maiman was the recipient of the 1983/1984 Wolf Prize in Physics for his realization of the first operating laser;

Whereas since being created in 1960, lasers have become an integral and essential part of our daily lives. Lasers can be found in a wide range of applications including in compact disc players, laser printers, barcode scanners, digital video devices (DVDs), industrial welders, and surgical apparatus, amongst others;

Whereas total global sales of lasers in 2010 is expected to top 5.9 billion dollars;

Whereas innovations flowing from basic research such as the laser have made America into the world leader in technology development;

Whereas continued support of scientific research programs is indispensable to maintaining America's position as the global leader in technology and innovation; and

Whereas LaserFest is a year-long celebration of the 50th anniversary intended to bring public awareness to the story of the laser and scientific achievement generally, and was founded by the following partners: the Optical Society of America, the American Physical Society, the International Society for Optical Engineering, and IEEE: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the 50th anniversary of the laser; and

(2) recognizes the need for continued support of scientific research to maintain America's future competitiveness.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, recognized Ms. FUDGE and Mr. HALL of Texas, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution was agreed to was, by unanimous consent, laid on the table.

¶53.10 TELEVISION INFRARED OBSERVATION SATELLITE

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1231):

Whereas, April 1, 2010, is the 50th anniversary of the launch by the United States of the Television Infrared Observation Satellite (TIROS I), the first weather observation satellite, that was capable of taking television images on command and remotely at locations around the world, and either recording the pictures as television signals for subsequent playback or transmitting the images to ground stations in real time;

Whereas TIROS resulted from the actions by President Eisenhower and Congress to create the National Aeronautics and Space Administration (NASA), a civilian space agency, which applied technology from several military programs that had been directed by the U.S. Army Signal Corps Development and Research Labs (USASCDRL) at Fort Monmouth, New Jersey, and the United States Army Ballistic Missile Agency in Huntsville, Alabama;

Whereas TIROS I images offered meteorologists the ability to examine large-scale weather patterns to improve weather forecasting and enable early warning of approaching storms, thus saving lives and property around the world;

Whereas the TIROS I images led to a better understanding of global patterns and supported transmission of detailed local weather information to national weather agencies around the world;

Whereas the realization of TIROS I was made possible by years of development of computers, missile systems, television imaging, magnetic recording, semiconductor devices, and solar cell applications, all of which resulted from both Government and private sector investments;

Whereas Government investments in research and development made possible the deployment of satellite tracking networks, worldwide WWV receiver time base systems, tracking data reduction for orbit element determination, and other facilities essential to the satellite applications;

Whereas Government and contractor personnel collaborated to observe and analyze the motion of TIROS I in the Earth's magnetic field, and developed satellite magnetic attitude controls for later TIROS and other spacecraft to utilize the Earth's magnetic field to orient satellites in Earth orbit;

Whereas the success of TIROS I was a significant Cold War event that restored the national pride and confidence in the space program;

Whereas, since the launch of TIROS I, the United States has launched over 82 experimental and operational meteorological satellites;

Whereas NASA's Nimbus Satellites and Advanced Communications Technology Satellite continued to enhance understanding and performance by further testing and development of space power systems, sensor development, and other technologies;

Whereas the National Oceanic and Atmospheric Administration (NOAA) manages and operates fleets of satellites for the purposes of environmental and weather monitoring;

Whereas similar TIROS missions employed launch vehicles, spacecraft, and imaging equipment that was developed by NASA, the United States Air Force and their contractors and has performed in an outstanding manner;

Whereas the next 50 years of United States accomplishments in space, like other important fields, will rely on individuals possessing strong mathematics, science, and engineering skills and the educators who will train such individuals; and

Whereas the United States space program enables the development of advanced technologies, skills, and capabilities that support the competitiveness and economic growth of the United States: Now, therefore, be it

Resolved, That the House of Representatives—

(1) celebrates the achievement of the National Aeronautics and Space Administration and the Television Infrared Observation Satellite (TIROS I) team who worked together to enable the successful launch and operation of TIROS I by the United States to establish applications of space systems and technology for the benefit of people worldwide;

(2) supports science, technology, engineering, and mathematics education programs which are critical for preparing the next generation of engineers and scientists to lead future United States space endeavors;

(3) recognizes the role of the United States space program in strengthening the scientific and engineering foundation that contributes to United States innovation and economic growth; and

(4) looks forward to the next 50 years of United States achievements in the peaceful use of space to benefit all mankind.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, recognized Ms. FUDGE and Mr. HALL of Texas, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution was agreed to was, by unanimous consent, laid on the table.

¶53.11 FIRST USE OF THE TELESCOPE 400TH ANNIVERSARY

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1269):

Whereas 2009 is the 400th anniversary of the first use of the improved telescope capable of astronomical observations by its developer, the Italian Renaissance scientist Galileo Galilei;

Whereas Galileo, born in Pisa, Italy, in 1564, was educated at the University of Pisa where he became Professor of Mathematics;

Whereas he attained life tenure as Chair of Mathematics at University of Padua;

Whereas Galileo was appointed Chief Philosopher and Mathematician to the Grand Duke of Tuscany, Cosimo de' Medici II, his patron;

Whereas Galileo had an integral role in the Scientific Revolution of the 17th Century due to his major contributions as a physicist, mathematician, astronomer, and philosopher;

Whereas Galileo is universally regarded as the ''Father of Modern Astronomy'', ''Father of Modern Physics'', and ''Father of Modern Science'';

Whereas his experiments on the laws of motion, falling bodies, and the parabolic paths of projectiles and his observations of

astronomical bodies were scientific advances;

Whereas his inventions, the enhanced telescope; hydrostatic balance; geometric and military compass; thermoscope (thermometer); perfected compound microscope; pulsilogium (pulsiometer), enabled practical applications in the fields of military and civil engineering, navigation, medicine, and astronomy;

Whereas his newly designed instruments of measurement, coupled with his theory that the natural world was written in the language of mathematics, laid the groundwork for modern scientific method and research;

Whereas Galileo's use of his telescope, the central instrument of the Scientific Revolution, enabled his discovery of certain features of the surface of the moon, the moons of Jupiter, the phases and motion of Venus, and sunspots;

Whereas these findings confirmed that the Copernican Sun Centered Solar System was plausible;

Whereas this changed human understanding of the cosmos;

Whereas Galileo published his theories and findings in several treatises, letters, and books, most importantly, Siderius Nuncius and the Dialogue Concerning the Two Chief World Systems;

Whereas Galileo's body of work enabled subsequent generations, in particular in the United States, to build on the tradition of scientific research, to be in the forefront of new scientific endeavors, specifically in medicine, technology, and space exploration, resulting in the betterment of mankind;

Whereas the United States of America has previously honored the scientist through naming a research aircraft, ''Galileo'', commissioned for the Eclipse Expedition in 1965, and naming one of its major interplanetary missions, the Galileo Expedition to Jupiter, launched in 1989 and ending its 14-year odyssey in 2003;

Whereas America also has built on the legacy of Galileo with NASA's most successful long-term science mission, the launch in 1990 of the Hubble Space Telescope, which contributes to our understanding of the universe;

Whereas as part of NASA's tribute to Galileo, a replica of Galileo's telescope, provided by the Istituto e Museo di Storia della Scienza, Florence, Italy, was carried into space by Italian American astronaut, Michael Massimino, on the May 2009 Atlantis mission to repair and update the orbiting Hubble telescope;

Whereas 2009 also marks the 40th anniversary of the moon landing by the Apollo 11 astronauts, which gave mankind first hand knowledge of the moon's surface, first observed in detail when Galileo turned his telescope to the sky in 1609;

Whereas the United Nations ''The International Year of Astronomy 2009'' is a global effort with over 140 countries participating, initiated by the International Astronomical Union (IAU) and UNESCO, at the request of Italy, Galileo's native country; and

Whereas organizations, educational institutions, government entities, most notably in Italy, Istituto e Museo di Storia della Scienza and in the United States, NASA, Smithsonian Institution, Franklin Institute in Philadelphia, Italian Embassy and Italian Consulates, National Italian American Foundation and Italian Heritage and Culture Committee of New York, Inc., are celebrating the genius of Galileo Galilei and ''The International Year of Astronomy 2009'' with numerous public programs, publications, symposia, proclamation ceremonies, and tributes to Galileo and his legacy: Now, therefore, be it

Resolved, That the Congress of the United States of America commemorates the 400th anniversary of the first use of the telescope by Galileo Galilei for astronomical observation and marks this discovery as one of the major events impacting mankind, and expresses its gratitude for Galileo's expansion of the universe and mankind's understanding of his place in the cosmos, and that the Congress of the United States of America joins the world in celebration of ''The International Year of Astronomy''.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, recognized Ms. FUDGE and Mr. HALL of Texas, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The SPEAKER pro tempore, Mr. JACKSON of Illinois, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution was agreed to was, by unanimous consent, laid on the table.

¶53.23 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE PRESIDENT

The SPEAKER pro tempore, Mrs. DAHLKEMPER, laid before the House a communication, which was read as follows:

MAY 3, 2010.
Hon. NANCY PELOSI,
Speaker, The Capitol,
House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on Monday, May 3, 2010 at 3:23 p.m., and said to contain a message from the President whereby he submits to the Congress a copy of a notice continuing the national emergency with respect to the Syrian Government.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

¶53.24 NATIONAL EMERGENCY WITH RESPECT TO SYRIA

The Clerk then read the message from the President, as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d), provides for the automatic termination of a national emergency, unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the Federal Register for publication the enclosed notice stating that the national emergency with respect to the actions of the Government of Syria declared in Executive Order 13338 of May 11, 2004, and relied upon for additional steps taken in Executive Order 13399 of April 25, 2006, and Executive Order 13460 of February 13, 2008, is to continue in effect beyond May 11, 2010.

While the Syrian government has made some progress in suppressing foreign fighter networks infiltrating suicide bombers into Iraq, its actions and policies, including continuing support for terrorist organizations and pursuit of weapons of mass destruction and missile programs, pose a continuing unusual and extraordinary threat to the national security, foreign policy, and economy of the United States. For these reasons, I have determined that it is necessary to continue in effect the national emergency declared with respect to this threat and to maintain in force the sanctions to address this national emergency. As we have communicated to the Syrian government directly, Syrian actions will determine whether this national emergency is renewed or terminated in the future.

BARACK OBAMA.

THE WHITE HOUSE, *May 3, 2010.*

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 111–105).

¶53.25 ENROLLED BILL SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 5146. An Act to provide that Members of Congress shall not receive a cost of living adjustment in pay during fiscal year 2011.

¶53.26 BILLS PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House, reported that on April 29, 2010, she presented to the President of the United States, for his approval, the following bill:

H.R. 5147. An Act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

¶54.16 NATIONAL TRAIN DAY

Ms. Corrine BROWN of Florida, moved to suspend the rules and agree to the resolution (H. Res. 1301); as amended:

Whereas in 1830, the Nation's first passenger and freight railroad, the Baltimore & Ohio, revolutionized transportation in the United States;

Whereas on May 10, 1869, in Promontory Summit, Utah, the golden spike was driven into the final tie that joined 1,776 miles of the Central Pacific and Union Pacific railways, transforming America by creating the Nation's first transcontinental railroad;

Whereas by 1910, trains carried 95 percent of all intercity transportation;

Whereas after 1920, rail passenger revenues declined due to the rise of the automobile;

Whereas in the 1930s, railroads reignited popular imagination with service improvements and new, diesel-powered streamliners;

Whereas on May 26, 1934, the Pioneer Zephyr set a speed record for travel between Denver and Chicago when it made a 1,015-mile, non-stop ''Dawn-to-Dusk'' run in 13 hours and 5 minutes at an average speed of 77 miles per hour and, during one section of the run, reached a speed of 112.5 miles per hour, just short of the then United States land speed record of 115 miles per hour;

Whereas on January 22, 1935, the 400, later named the Twin Cities 400, traveled 400 miles between Chicago and St. Paul in 400 minutes;

Whereas at its inception in 1935, Time magazine dubbed the 400, ''the fastest train scheduled on the American continent, fastest in all the world on a stretch over 200 miles'';

Whereas the resurgence in passenger railroading was short-lived, as the continuing rise of the automobile, the devastating economic impact of two World Wars, the creation of the Interstate Highway System, the increasing availability, comfort, and convenience of air travel, increasing train fares and decreasing service, and a number of railroad bankruptcies, mergers, and acquisitions took their toll on passenger rail service in the United States;

Whereas by 1965, only 10,000 rail passenger cars were in operation, 85 percent fewer than in 1929, and passenger rail service was provided on only 75,000 miles of track;

Whereas in 1970, Congress saved passenger rail service in the United States by creating the National Railroad Passenger Corporation, known as Amtrak;

Whereas since 1970, the Federal Government has invested nearly $1,300,000,000,000 in

our Nation's highways, more than $484,000,000,000 in aviation, and $67,000,000,000 in passenger rail;

Whereas with the enactment of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110–432) in the 110th Congress and the American Recovery and Reinvestment Act of 2009 (Public Law 111–5) in this Congress, Congress charted a new course for Amtrak and for the development of high-speed and intercity passenger rail in the United States;

Whereas the Recovery Act provided $8,000,000,000 in grants to States for the development of high-speed and intercity passenger rail and $1,300,000,000 for Amtrak for capital, safety, and security improvements;

Whereas the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2010, provided an additional $2,500,000,000 to States for investment in high-speed and intercity passenger rail and more than $1,500,000,000 to Amtrak for capital and operating expenses;

Whereas the Federal Railroad Administration received 259 applications totaling $57,000,000,000 for the $8,000,000,000 in funds available under the Recovery Act;

Whereas in January, the President announced the recipients of the $8,000,000,000 in Recovery Act funds for development of high-speed and intercity passenger rail service in 13 corridors spanning 31 States;

Whereas Amtrak has selected projects in 44 States to invest its $1,300,000,000 in Recovery Act funds;

Whereas these and continued investments in developing a national high-speed and intercity passenger rail system will revitalize passenger rail service in the United States, help develop a domestic manufacturing base for high-speed and intercity passenger rail, and create good jobs in the United States;

Whereas Amtrak ridership grew every year from 1998 to 2008 and the railroad carried 27,200,000 passengers in 2009, making it the second-best year in the company's history; and

Whereas Amtrak has designated May 8, 2010, as National Train Day to celebrate America's love for trains: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the important contributions that trains and Amtrak make to the national transportation system;

(2) supports the goals and ideals of National Train Day as designated by Amtrak; and

(3) urges the people of the United States to recognize such a day as an opportunity to celebrate passenger rail and learn more about trains.

The SPEAKER pro tempore, Ms. McCOLLUM, recognized Ms. Corrine BROWN of Florida, and Mr. SHUSTER, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Ms. McCOLLUM, announced that two-thirds of the Members present had voted in the affirmative.

Mr. BROUN of Georgia, demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Ms. McCOLLUM, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶54.17 H. RES. 1320—UNFINISHED BUSINESS

The SPEAKER pro tempore, Ms. McCOLLUM, pursuant to clause 8 of rule XX, announced the unfinished business to be the motion to suspend the rules and agree to the resolution (H. Res. 1320) expressing support for the vigilance and prompt response of the citizens of New York City, the New York Police Department, the New York Police Department Bomb Squad, the Fire Department of New York, other first responders, the Federal Bureau of Investigation, United States Customs and Border Protection, the United States Attorney's Office for the Southern District of New York, the Department of Homeland Security, the Department of Justice, the New York Joint Terrorism Task Force, the Bridgeport Police Department, Detective Bureau, Patrol Division, and other law enforcement agencies in Connecticut to the attempted terrorist attack in Times Square on May 1, 2010, their exceptional professionalism and investigative work following the attempted attack, and their consistent commitment to preparedness for and collective response to terrorism; as amended.

The question being put,

Will the House suspend the rules and agree to said resolution, as amended?

¶54.27 NATIONAL SAFE DIGGING MONTH

Ms. Corrine BROWN of Florida, moved to suspend the rules and agree to the resolution (H. Res. 1278); as amended:

Whereas each year there are over 200,000 incidences of unintentional damage to underground utility infrastructure (including pipelines, electrical, telecommunications, water, and sewer lines), many as a result of an individual who fails to have underground utilities lines located before digging;

Whereas there are 2,534,000 miles of pipelines, of which 2,036,800 are for distribution of natural gas, 323,600 for transmission of natural gas, and 173,500 for hazardous materials including oil;

Whereas some utility lines are buried only a few inches underground, making them easy to strike even during shallow digging projects;

Whereas failure to locate underground utility lines before digging may have unintended consequences such as service interruption, environmental damage, property damage, personal injury, and even death;

Whereas State one-call notification programs allow homeowners and excavators to have underground utilities located and marked before conducting digging or excavation activities;

Whereas Congress first established minimum standards for State one-call notification programs and authorized appropriations for Federal grants to improve State one-call notification programs in the Transportation Equity Act for the 21st Century in 1998;

Whereas Congress required a 3-digit, nationwide toll-free number be established to be used by State one-call systems in the Pipeline Safety Improvement Act of 2002;

Whereas in 2005, ''811'' was designated as the nationwide one-call number for homeowners and excavators to call before conducting digging or excavation activities;

Whereas in the Pipeline Inspection, Protection, Enforcement, and Safety Act of 2006 Congress authorized the Secretary of Transportation to issue civil penalties to any owner or operator of a pipeline facility who fails to respond to a request to mark an underground pipeline facility, any individual who fails to use a State's one-call system prior to digging or excavation activities, or any individual who disregards location information or markings while digging or excavating;

Whereas the one-call system has helped reduce the number of digging damages caused by failure to locate underground utilities prior to digging from 57 percent in 2004 to 37.5 percent in 2009;

Whereas the 1,400 members of the Common Ground Alliance, who are dedicated to ensuring public safety, environmental protection, and the integrity of services by promoting effective damage prevention practices, promote the national ''Call Before You Dig'' campaign to increase public awareness about the importance of calling 811 to identify the exact location of underground utility lines;

Whereas the Common Ground Alliance has designated April as National Safe Digging month in order to increase awareness of safe digging practices across the country and to celebrate the anniversary of the designation of 811 as the national ''Call Before You Dig'' number; and

Whereas April is the beginning of the peak of excavation projects around the Nation: Now, therefore, be it

Resolved, That the House of Representatives supports the goals and ideals of National Safe Digging Month, and encourages all homeowners and excavators throughout the country to call 811 before conducting any digging or excavation activities.

The SPEAKER pro tempore, Mr. PETERS, recognized Ms. Corrine BROWN of Florida, and Mr. SHUSTER, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Mr. PETERS, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution, as amended, was agreed to.

¶54.28 MESSAGE FROM THE PRESIDENT—NUCLEAR ENERGY AGREEMENT BETWEEN THE UNITED STATES AND AUSTRALIA

The SPEAKER pro tempore, Mr. PETERS, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)) (the ''Act''), the text of a proposed Agreement between the Government of the United States of America and the Government of Australia Concerning Peaceful Uses of Nuclear Energy. I am also pleased to transmit my written approval, authorization, and determination concerning the Agreement, and an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the Agreement. In accordance with section 123 of the Act, as amended by title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105–277), a classified annex to the NPAS, prepared by the Secretary of State in consultation with the Director of National Intelligence, summarizing relevant classified information, will be submitted to the Congress separately. The joint memorandum submitted to me by the Secretaries of State and Energy and a letter from the Chairman of the Nuclear Regulatory Commission stating the views of the Commission are also enclosed.

The proposed Agreement has been negotiated in accordance with the Act and other applicable law. In my judgment, it meets all applicable statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States.

The proposed Agreement provides a comprehensive framework for peaceful nuclear cooperation with Australia based on a mutual commitment to nuclear nonproliferation. The Agreement has an initial term of 30 years from the date of its entry into force, and will continue in force thereafter for additional periods of 5 years each, unless terminated by either party on 6 months' advance written notice at the end of the initial 30-year term or at the conclusion of any of the additional 5-year periods. The proposed Agreement permits the transfer of information, material, equipment (including reactors), and components for nuclear research and nuclear power production. It does not permit transfers of Restricted Data, sensitive nuclear technology, sensitive nuclear facilities, or major critical components of such facilities. In the event of termination of the proposed Agreement, key nonproliferation conditions and controls continue with respect to material, equipment, and components subject to the proposed Agreement.

Australia is a non-nuclear weapon state party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). Australia has concluded a Safeguards Agreement and Additional Protocol with the International Atomic Energy Agency. Australia is a party to the Convention on the Physical Protection of Nuclear Material, which establishes international standards of physical protection for the use, storage, and transport of nuclear material. It is also a member of the Nuclear Suppliers Group, whose non-legally binding guidelines set forth standards for the responsible export of nuclear commodities for peaceful use. A more detailed discussion of Australia's domestic civil nuclear activities and its nuclear nonproliferation policies and practices, including its nuclear export policies and practices, is provided in the NPAS and the NPAS classified annex submitted to the Congress separately.

I have considered the views and recommendations of the interested agencies in reviewing the proposed Agreement and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the Agreement and authorized its execution. I urge the Congress to give it favorable consideration.

This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Act. My Administration is prepared to begin immediately the consultations with the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs as provided in section 123 b. Upon completion of the 30 days of continuous session review provided for in section 123 b., the 60 days of continuous session review provided for in section 123 d. shall commence.

BARACK OBAMA.

THE WHITE HOUSE, *May 5, 2010*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs.

(1) to assist in marketing the Home Star Retrofit Rebate Program;

(2) to facilitate consumer financing;

(3) to assist in implementation of the Silver Star Home Energy Retrofit Program and the Gold Star Home Energy Retrofit Program, including installation of qualified energy retrofit measures; and

(4) to assist in implementing quality assurance programs.

(m) COORDINATION OF REBATE AND EXISTING STATE-SPONSORED PROGRAMS.—

(1) IN GENERAL.—A State shall, to the maximum extent practicable, prevent duplication through coordination of a program authorized under this title with—

(A) the Energy Star appliance rebates program authorized under section 124 of the Energy Policy Act of 2005 (42 U.S.C. 15821), and any other Federal programs that provide funds to States for home or appliance energy efficiency purposes; and

(B) comparable programs planned or operated by States, political subdivisions, electric and natural gas utilities, Federal power marketing administrations, and Indian tribes.

(2) EXISTING PROGRAMS.—In carrying out this subsection, a State shall—

(A) give priority to—

(i) comprehensive retrofit programs in existence on the date of enactment of this Act, including programs under the supervision of State utility regulators; and

(ii) using funds made available under this title to enhance and extend existing programs; and

(B) seek to enhance and extend existing programs by coordinating with administrators of the programs.

(n) HEALTH AND SAFETY REQUIREMENTS.—Nothing in this title shall relieve any contractor from the obligation to comply with applicable Federal, State, and local health and safety code requirements.

(o) INFORMATION HOTLINES.—

(1) CONTRACTORS.—The Secretary shall establish and publicize a telephone hotline for contractors to call to obtain information about the programs under this Act.

(2) HOMEOWNERS.—The Secretary shall establish and publicize a telephone hotline for homeowners to call to obtain information about the programs under this Act.

(p) ONLINE CHAT FUNCTION.—The Secretary shall determine the feasibility and effectiveness of establishing an online chat function through the website established for the Home Star Retrofit Rebate Program, and may establish such a function as appropriate.

(q) DISASTER AREAS.—The Secretary shall ensure that a home in an area declared affected by a major disaster declared by the President under section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170) is not denied assistance under the Home Star Retrofit Rebate Program solely because there is no equipment or system to replace due to the disaster.

(r) INCOME THRESHOLD.—Homeowners with a gross annual household income of more than $250,000 shall not be eligible for a rebate under this title.

SEC. 102. REBATE AGGREGATORS.

(a) IN GENERAL.—The Secretary shall develop a network of rebate aggregators that can facilitate the delivery of rebates to homeowners to reimburse the homeowners for work provided by participating contractors and vendors for energy efficiency retrofit work. The Secretary shall approve or deny an application from a person seeking to become a rebate aggregator not later than 30 days after receiving such application. The Secretary may disqualify any rebate aggregator, in one or more particular States, that fails to meet its obligations under this title in a timely and competent manner. The Secretary shall consult with States operating existing residential energy efficiency and retrofit programs on how best to coordinate the Home Star Retrofit Rebate Program with such existing programs, including the designation of rebate aggregators.

(b) AVAILABILITY.—Not later than 60 days after the date of enactment of this Act, the Secretary shall identify a sufficient number of rebate aggregators in each State to ensure that rebate applications can be accepted from all qualified contractors. Not later than 90 days after such date of enactment, the Secretary shall ensure that rebate aggregation services are available to all homeowners in the United States at the lowest reasonable cost.

(c) RESPONSIBILITIES.—Rebate aggregators shall—

(1) review each proposed rebate application for completeness and accuracy;

(2) review all measures for which rebates are sought for eligibility in accordance with this title;

(3) not later than 10 days after receipt of a complete rebate application, provide data to the Secretary for inclusion in the database maintained through the Federal Rebate Processing System, consistent with data protocols established by the Secretary;

(4) not later than 10 days after the date of receipt, distribute funds received from the Secretary to contractors, vendors, or other persons in accordance with approved claims for reimbursement made to the Federal Rebate Processing System;

(5) maintain appropriate accounting for rebate applications processed, and their disposition;

(6) review contractor qualifications and accreditation and retain documentation of such qualification and accreditation, as required for contractors to be authorized to perform residential energy efficiency retrofit work under this title; and

(7) maintain information regarding contractors' fulfillment of the requirements of section 101(c).

(d) ELIGIBILITY.—To be eligible to apply to the Secretary for approval as a rebate aggregator, an entity—

(1) shall be—

(A) a Home Performance with Energy Star partner;

(B) an entity administering a residential energy efficiency retrofit program established or approved by a State;

(C) a Federal power marketing administration or the Tennessee Valley Authority;

(D) an Armed Forces exchange service in the United States that offers for sale energy savings measures described in section 103;

(E) an electric utility, natural gas utility, or water utility administering or offering a residential energy efficiency retrofit program; or

(F) an entity—

(i) with corporate status or status as a State or local government;

(ii) who can demonstrate adequate financial capability to manage a rebate aggregator program, as evidenced by audited financial records;

(iii) whose participation in the program, in the judgment of the Secretary, would facilitate coordination with, and not disrupt, existing residential retrofit programs in the States that are carrying out the Home Star Retrofit Rebate Program under this title; and

(iv) whose operational facilities, employees, electronic recordkeeping hardware and facilities, and conventional records used to carry out the responsibilities of a rebate aggregator are located wholly within the United States, to the extent consistent with the international obligations of the United States.

(2) must be able to demonstrate—

(A) a relationship with 1 or more independent quality assurance providers that is sufficient to meet the volume of contracting services delivered;

(B) the capability to provide such electronic data as is required by the Secretary to the Federal Rebate Processing System; and

(3) shall include in its application the amount it proposes to charge for the review and processing of a rebate under this title.

(e) PROMPT PROCESSING OF REBATES.—Within 10 days after receiving an application for a rebate consistent with this title, a rebate aggregator shall submit a claim for that rebate to the Federal Rebate Processing System. Within 10 days after the Federal Rebate Processing System receives such a submission from a rebate aggregator, the Secretary shall provide the funds to the rebate aggregator necessary to pay such rebates to the qualified contractor or vendor who applied for them and to compensate the rebate aggregator for its services in accordance with this title. Within 10 days of being provided such funds, the rebate aggregator shall pay the rebates to the rebate applicant.

(f) PUBLIC UTILITY COMMISSION EFFICIENCY TARGETS.—The Secretary shall—

(1) develop guidelines for States to use to allow utilities participating as rebate aggregators to count the energy savings from their participation toward State-level energy savings targets; and

Whereas since its establishment, the NRCS has developed, tested, and demonstrated conservation practices, helped develop the science and art of conservation, and continues to strive toward innovation;

Whereas the NRCS encourages and works with landowners and land users to adopt conservation practices and technologies in a voluntary manner to address natural resource concerns;

Whereas NRCS employees serve in offices in every State and territory, while other employees assist other countries and governments;

Whereas while some NRCS employees work directly with landowners, other employees serve in support of NRCS field operations, but all work toward a common goal of improving the condition of all natural resources found on private lands, knowing when they succeed, all Americans benefit; and

Whereas the NRCS has been ''helping people, help the land'' for 75 years: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) congratulates the outstanding conservation professionals of the Natural Resources Conservation Service on the occasion of the 75th anniversary of the Natural Resources Conservation Service;

(2) recognizes the vital role conservation plays in the well-being of the United States;

(3) expresses its continued commitment to the conservation of natural resources on private lands in both the national interest and as a national priority; and

(4) recognizes the services that the Natural Resources Conservation Service provides to the United States by helping farmers, ranchers, and other landowners to protect soil, water, and related natural resources.

The SPEAKER pro tempore, Mr. DRIEHAUS, recognized Mr. HOLDEN and Mr. LUCAS, each for 20 minutes.

¶57.27 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE PRESIDENT

The SPEAKER pro tempore, Mrs. HALVORSON, laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, May 11, 2010.

Hon. NANCY PELOSI,
The Speaker, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on Monday, May 11, 2010 at 5:09 p.m., and said to contain a message from the President whereby he submits the 2010 National Drug Control Strategy.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

¶57.28 2010 NATIONAL DRUG CONTROL POLICY

The SPEAKER pro tempore, Mrs. HALVORSON, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I am pleased to transmit the 2010 National Drug Control Strategy, a blueprint for reducing illicit drug use and its harmful consequences in America. I am committed to restoring balance in our efforts to combat the drug problems that plague our communities. While I remain steadfast in my commitment to continue our strong enforcement efforts, especially along the southwest border, I directed the Office of National Drug Control Policy to reengage in efforts to prevent drug use and addiction and to make treatment available for those who seek recovery. This new, balanced approach will expand efforts for the three critical ways that we can address the drug problem: prevention, treatment, and law enforcement.

Drug use endangers the health and safety of every American, depletes financial and human resources, and deadens the spirit of many of our communities. Whether struggling with an addiction, worrying about a loved one's substance abuse, or being a victim of drug-related crime, millions of people in this country live with the devastating impact of illicit drug use every day. This stark reality demands a new direction in drug policy—one based on common sense, sound science, and practical experience. That is why my new Strategy includes efforts to educate young people who are the most at-risk about the dangers of substance abuse, allocates unprecedented funding for treatment efforts in federally qualified health centers, reinvigorates drug courts and other criminal justice innovations, and strengthens our enforcement efforts to rid our streets of the drug dealers who infect our communities.

I am confident that if we take these needed steps, we will make our country stronger, our people healthier, and our streets safer. If we boost community-based prevention efforts, expand treatment opportunities, strengthen law enforcement capabilities, and work collaboratively with our global partners, we will reduce drug use and its resulting damage.

While I am proud of the new direction described here, a well-crafted strategy is only as successful as its implementation. To succeed, we will need to rely on the hard work, dedication, and perseverance of every concerned

American. I look forward to working with the Congress, Federal, State, and local officials, tribal leaders, and citizens across the country as we implement this Strategy and make our communities better places to live, work, and raise our families.

BARACK OBAMA.
THE WHITE HOUSE, *May 11, 2010*.

The message, together with the accompanying papers, was referred to the Committee on Armed Services, the Committee on Education and Labor, the Committee on Energy and Commerce, the Committee on Foreign Affairs, the Committee on Homeland Security, the Committee on the Judiciary, the Committee on Natural Resources, the Committee on Oversight and Government Reform, the Committee on Small Business, the Committee on Transportation and Infrastructure, the Committee on Veterans Affairs, and the Committee on Ways and Means and ordered to be printed (H. Doc. 111–107).

¶57.29 SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 1405. An Act to redesignate the Longfellow National Historic Site, Massachusetts, as the ''Longfellow House-Washington's Headquarters National Historic Site''; to the Committee on Natural Resources.

S. 1053. An Act to amend the National Law Enforcement Museum Act to extend the termination date; to the Committee on Natural Resources.

¶57.30 ENROLLED BILLS SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 2802. An Act to provide for an extension of the legislative authority of the Adams Memorial Foundation to establish a commemorative work in honor of former President John Adams and his legacy, and for other purposes.

Whereas many of the Nation's heroes have been pilots, including the Wright brothers, Charles Lindbergh, Amelia Earhart, Charles ''Chuck'' Yeager, the Nation's astronauts and military aviators, and the flight crew of U.S. Airways Flight 1549, among others;

Whereas every one of these individuals had to learn to fly before they could achieve their greatness;

Whereas there are approximately 600,000 pilots and approximately 230,000 commercial and general aviation airplanes in the United States;

Whereas flight brings joy, inspiration, and a sense of accomplishment to those who fly for recreation, pleasure, and work;

Whereas flight allows the movement of people and commodities across the Nation and around the world quickly and efficiently; and

Whereas the third Saturday in May is an appropriate day to observe International Learn to Fly Day: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals and ideals of National Learn to Fly Day; and

Whereas after the earthquake, general aviation pilots rallied to provide transportation for medical staff and relief personnel;

Whereas more than 4,500 relief flights were made by general aviators in the first 30 days after the earthquake;

Whereas business aircraft alone conducted more than 700 flights, transporting 3,500 passengers, and over 1,000,000 pounds of cargo and supplies;

Whereas relief flights were fully paid for by individual pilots and aircraft owners;

Whereas smaller general aviation aircraft were able to deliver supplies and medical personnel to areas outside Port-Au-Prince which larger aircraft could not serve; and

Whereas the selfless efforts of the general aviation community have saved countless lives and provided humanitarian assistance in a time of need: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the United States Congress—

Whereas, each year, AmeriCorps provides opportunities for 85,000 citizens across the Nation to give back in an intensive way to their communities;

Whereas those same individuals improve the lives of the Nation's most vulnerable citizens, protect the environment, contribute to public safety, respond to disasters, and strengthen the educational system;

Whereas AmeriCorps members serve thousands of nonprofit organizations, schools, and faith-based and community organizations each year;

Whereas AmeriCorps members, after their terms of service end, are more likely to remain engaged in their communities as volunteers, teachers, and nonprofit professionals;

Whereas, on April 21, 2009, President Barack Obama signed the Edward M. Kennedy Serve America Act, passed by bi-partisan majorities in both the House of Representatives and the Senate, which reauthorized and will expand AmeriCorps programs;

Whereas national service programs have engaged millions of Americans in results-driven service in the Nation's most vulnerable communities, providing hope and help to people facing economic and social needs;

Whereas, this year, as the economic downturn puts millions of Americans at risk, national service and volunteering are more important than ever; and

Whereas 2010's AmeriCorps Week, observed May 8 through May 15, provides the perfect opportunity for AmeriCorps members, alumni, grantees, program partners, and friends to shine a spotlight on the work done by members and to motivate more Americans to serve their communities: Now, therefore, be it

Whereas National Nurses Week is a time of year to reflect on the important contributions that nurses make to provide safe, high-quality health care;

Whereas nurses are known to be patient advocates, acting to protect the lives of those under their care;

Whereas nurses represent the largest single component of the health care profession with 3,100,000 jobs;

Whereas the work of nurses encompasses a wide scope of scientific inquiry including clinical research, health systems and outcomes research, and nursing education research;

Whereas nurses help inform and educate the public and Congress to improve the recruitment, education, retention, and the practice of all nurses and, more importantly, the health and safety of the patients they care for;

Whereas the American Association of Colleges of Nursing (AACN) released final survey data showing that enrollments in entry-level baccalaureate programs in nursing rose by 3.6 percent in 2009, and though this marks the ninth consecutive year of enrollment growth, the annual increase in student capacity in 4-year nursing programs has declined sharply since 2003 when enrollment was up by 16.6 percent;

Whereas United States nursing programs were forced to reject almost 119,000 qualified applications to nursing programs according to the National League for Nursing's most recent survey of all prelicensure nursing programs;

Whereas according to the Bureau of Labor Statistics, employment of registered nurses is expected to grow by 22 percent from 2008 to 2018, much faster than the average for all occupations;

Whereas according to new survey data by the AACN, enrollment in doctoral nursing programs increased by more than 20 percent this year, signaling strong interest among students in careers as nursing scientists, faculty, primary care providers, and specialists;

Whereas according to the AACN, expanding capacity in baccalaureate and graduate programs is critical to sustaining a healthy nursing workforce and providing patients with the best care possible;

Whereas nursing colleges and universities across the country are struggling to meet the rising demand for nurses; and

Whereas increased support is needed to enhance efforts to educate nursing students at all levels, to increase the number of faculty members to educate nursing students, and to create educational opportunities to retain nurses in the profession: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals and ideals of National Nurses Week, as founded by the American Nurses Association; and

(2) acknowledges the importance of quality higher education in nursing, including baccalaureate and graduate programs and programs that help expand the supply of nursing program faculty, to meet the needs of one of the Nation's fastest growing labor fields.

¶58.12 CHILDREN'S BOOK WEEK

Ms. WOOLSEY moved to suspend the rules and agree to the following resolution (H. Res. 1333):

Whereas research has indicated that children who are read to three or four times a week are more likely to recognize the letters of the alphabet, be able to count to 20, and write their own names;

Whereas children's books are instrumental in teaching children to read by providing simple phrases that promote reading techniques, including phonics, and retaining children's interest;

Whereas many teachers use children's books in the classroom as a tool to promote and teach literacy to their students;

Whereas Children's Book Week has been celebrated nationally since 1919 and is founded on the declaration that a ''great nation is a reading nation'';

Whereas Children's Book Week highlights the importance of parents and guardians taking the time to read with their children and encourages libraries, schools, and community organizations to hold events to promote reading; and

Page 195, after line 11, insert the following new section:

SEC. 504. CLEAN ENERGY CONSORTIUM.

(a) PURPOSE.—The Secretary shall carry out a program to establish a Clean Energy Consortium to enhance the Nation's economic, environmental, and energy security by promoting commercial application of clean energy technology and ensuring that the United States maintains a technological lead in the development and commercial application of state-of-the-art energy technologies. To achieve these purposes the program shall leverage the expertise and resources of the university and private research communities, industry, venture capital, national laboratories, and other participants in energy innovation to support collaborative, cross-disciplinary research and development in areas not being served by the private sector in order to develop and accelerate the commercial application of innovative clean energy technologies.

(b) DEFINITIONS.—For purposes of this section:

(1) CLEAN ENERGY TECHNOLOGY.—The term ''clean energy technology'' means a technology that—

(A) produces energy from solar, wind, geothermal, biomass, tidal, wave, ocean, and other renewable energy resources (as such term is defined in section 610 of the Public Utility Regulatory Policies Act of 1978);

(B) more efficiently transmits, distributes, or stores energy;

(C) enhances energy efficiency for buildings and industry, including combined heat and power;

(D) enables the development of a Smart Grid (as described in section 1301 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17381)), including integration of renewable energy resources and distributed generation, demand response, demand side management, and systems analysis;

(E) produces an advanced or sustainable material with energy or energy efficiency applications; or

(F) improves energy efficiency for transportation, including electric vehicles.

(2) CLUSTER.—The term ''cluster'' means a network of entities directly involved in the research, development, finance, and commercial application of clean energy technologies whose geographic proximity facilitates utilization and sharing of skilled human resources, infrastructure, research facilities, educational and training institutions, venture capital, and input suppliers.

(3) CONSORTIUM.—The term ''Consortium'' means a Clean Energy Consortium established in accordance with this section.

(4) PROJECT.—The term ''project'' means an activity with respect to which a Consortium provides support under subsection (e).

(5) QUALIFYING ENTITY.—The term ''qualifying entity'' means each of the following:

(A) A research university.

(B) A State or Federal institution with a focus on the advancement of clean energy technologies.

(C) A nongovernmental organization with research or technology transfer expertise in clean energy technology development.

(6) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(7) TECHNOLOGY DEVELOPMENT FOCUS.—The term ''technology development focus'' means

the unique clean energy technology or technologies in which a Consortium specializes.

(8) TRANSLATIONAL RESEARCH.—The term ''translational research'' means coordination of basic or applied research with technical applications to enable promising discoveries or inventions to achieve commercial application of energy technology.

(c) ROLE OF THE SECRETARY.—The Secretary shall—

(1) have ultimate responsibility for, and oversight of, all aspects of the program under this section;

(2) select a recipient of a grant for the establishment and operation of a Consortium through a competitive selection process;

(3) coordinate the innovation activities of the Consortium with those occurring through other Department of Energy entities, including the National Laboratories, the Advanced Research Projects Agency—Energy, Energy Innovation Hubs, and Energy Frontier Research Collaborations, and within industry, including by annually—

(A) issuing guidance regarding national energy research and development priorities and strategic objectives; and

(B) convening a conference of staff of the Department of Energy and representatives from such other entities to share research results, program plans, and opportunities for collaboration.

(d) ENTITIES ELIGIBLE FOR SUPPORT.—A consortium shall be eligible to receive support under this section if—

(1) it is composed of—

(A) 2 research universities with a combined annual research budget of $500,000,000; and

(B) 1 or more additional qualifying entities;

(2) its members have established a binding agreement that documents—

(A) the structure of the partnership agreement;

(B) a governance and management structure to enable cost-effective implementation of the program;

(C) a conflicts of interest policy consistent with subsection (e)(1)(B);

(D) an accounting structure that meets the requirements of the Department of Energy and can be audited under subsection (f)(4); and

(E) that it has an External Advisory Committee consistent with subsection (e)(3);

(3) it receives funding from States, consortium participants, or other non-Federal sources, to be used to support project awards pursuant to subsection (e);

(4) it is part of an existing cluster or demonstrates high potential to develop a new cluster; and

(5) it operates as a nonprofit organization.

(e) CLEAN ENERGY CONSORTIUM.—

(1) ROLE.—The Consortium shall support translational research activities leading to commercial application of clean energy technologies, in accordance with the purposes of this section, through issuance of awards to projects managed by qualifying entities and other entities meeting the Consortium's project criteria, including national laboratories. The Consortium shall—

(A) develop and make available to the public through the Department of Energy's Web site proposed plans, programs, project selection criteria, and terms for individual project awards under this subsection;

(B) establish conflict of interest procedures, consistent with those of the Department of Energy, to ensure that employees and designees for Consortium activities who are in decisionmaking capacities disclose all material conflicts of interest, including financial, organizational, and personal conflicts of interest;

(C) establish policies—

(i) to prevent resources provided to the Consortium from being used to displace private sector investment otherwise likely to occur, including investment from private sector entities that are members of the Consortium;

(ii) to facilitate the participation of private entities that invest in clean energy technologies to perform due diligence on award proposals, to participate in the award review process, and to provide guidance to projects supported by the Consortium; and

(iii) to facilitate the participation of parties with a demonstrated history of commercial application of clean energy technologies in the development of Consortium projects;

(D) oversee project solicitations, review proposed projects, and select projects for awards; and

(E) monitor project implementation.

(2) DISTRIBUTION OF AWARDS.—The Consortium, with prior approval of the Secretary, shall distribute awards under this subsection to support clean energy technology projects conducting translational research, provided that at least 50 percent of such support shall be provided to projects related to the Consortium's clean energy technology development focus. Upon approval by the Secretary, all remaining funds shall be available to support any clean energy technology projects conducting translational research.

(3) EXTERNAL ADVISORY COMMITTEE.—

(A) IN GENERAL.—The Consortium shall establish an External Advisory Committee, the members of which shall have extensive and relevant scientific, technical, industry, financial, or research management expertise. The External Advisory Committee shall review the Consortium's proposed plans, programs, project selection criteria, and projects and shall ensure that projects selected for awards meet the conflict of interest policies of the Consortium. External Advisory Committee members other than those representing Consortium members shall serve for no more than 3 years. All External Advisory Committee members shall comply with the Consortium's conflict of interest policies and procedures.

(B) MEMBERS.—The External Advisory Committee shall consist of—

(i) 5 members selected by the Consortium's research universities;

(iii) 2 members selected at large by other External Advisory Committee members to represent the entrepreneur and venture capital communities; and

(iv) 1 member appointed by the Secretary.

(4) CONFLICT OF INTEREST.—The Secretary may disqualify an application or revoke funds distributed to the Consortium if the Secretary discovers a failure to comply with conflict of interest procedures established under paragraph (1)(B).

(f) GRANT.—

(1) IN GENERAL.—The Secretary shall make a grant under this section in accordance with section 989 of the Energy Policy Act of 2005 (42 U.S.C. 16353). The Secretary shall award the grant, on a competitive basis, to 1 regional Consortium, for a term of 3 years.

¶58.27 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 12, printed in Part B of House Report 111-479, submitted by Mr. George MILLER of California:

Page 246, after line 8, add the following new section:

SEC. 704. INFORMATION REQUESTS BY LABOR ORGANIZATIONS.

(a) ELIGIBILITY FOR FUNDS.—Notwithstanding any other provision of this Act, a public institution of higher education that employs employees who are represented by a labor organization and perform work on an activity or program supported by this Act or an amendment made by this Act shall be eligible to receive funding for facilities and administrative costs for any activity or program supported by this Act or the amendments made by this Act only if the institution maintains a policy that meets the requirements set forth in subsection (b).

(b) REQUIREMENTS.—A policy described under subsection (a) shall require that the institution provide, within 15 days of receipt of a request by a labor organization representing the employees of the institution described in subsection (a), any information which the labor organization has a lawful right to obtain under applicable labor laws. Such a policy shall provide that, on a case-by-case basis, such 15 days may be extended to a longer time period by mutual agreement of the labor organization and the institution.

(c) FAILURE TO COMPLY WITH POLICY.—

(1) COMPLAINT OF NONCOMPLIANCE.—In the case of an institution of higher education that does not provide information requested by a labor organization in compliance with the requirements of a policy described in subsections (a) and (b), the labor organization may file a complaint of noncompliance with the head of the agency overseeing any activity or program supported by this Act or the amendments made by this Act for which the institution is receiving funds.

(2) NOTIFICATION TO INSTITUTION.—Upon receiving such a complaint, the head of such agency shall notify the institution of the complaint and provide the institution an additional 30 days to provide the requested information to the labor organization or otherwise explain why the complaint of non-compliance is not valid.

(3) AGENCY ACTION.—If the information has not been provided by the institution at the conclusion of such 30 day period and the head of such agency determines the complaint to be valid, the head of such agency shall suspend payment of any funds for facilities and administrative costs that would otherwise be available to such institution for all activities and programs supported by this Act and the amendments made by this Act until such time as the requested information has been provided by the institution.

(d) DEFINITIONS.—For purposes of this section—

(1) the term ''institution of higher education'' has the meaning given such term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)), except that such term does not include a private institution of higher education; and

(2) the term ''facilities and administrative costs'' means facilities and administrative (F&A) costs as defined in the Office of Management and Budget Revised Circular A–21 (Cost Principles for Educational Institutions, published in the Federal Register on May 10, 2004).

(e) EFFECTIVE DATE.—This section shall take effect on January 1, 2011.

So the amendment was agreed to.

The SPEAKER pro tempore, Mr. GARAMENDI, assumed the Chair.

When Mr. DRIEHAUS, Acting Chairman, reported that the Committee, having had under consideration said bill, had come to no resolution thereon.

¶58.31 MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Brian Pate, one of his secretaries.

¶58.32 LORD'S RESISTANCE ARMY DISARMAMENT AND NORTHERN UGANDA RECOVERY

Mr. ENGEL moved to suspend the rules and pass the bill of the Senate (S. 1067) to support stabilization and lasting peace in northern Uganda and areas affected by the Lord's Resistance Army through development of a regional strategy to support multilateral efforts to successfully protect civilians and eliminate the threat posed by the Lord's Resistance Army and to authorize funds for humanitarian relief and reconstruction, reconciliation, and transitional justice, and for other purposes.

The SPEAKER pro tempore, Mr. GARAMENDI, recognized Mr. ENGEL

and Ms. ROS-LEHTINEN, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and pass said bill?

The SPEAKER pro tempore, Mr. GARAMENDI, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said bill was passed.

A motion to reconsider the vote whereby the rules were suspended and said bill was passed was, by unanimous consent, laid on the table.

Ordered, That the Clerk notify the Senate thereof.

¶58.33 UNITED KINGDOM AND UNITED STATES

Mr. ENGEL moved to suspend the rules and agree to the following resolution (H. Res. 1303); as amended:

Whereas the Magna Carta, which subjected the English monarch and the English people to the rule of law and is considered one of the most important documents in the legal history of the United Kingdom and the United States, was recognized in 1957 by the American Bar Association for its importance to United States law and constitutionalism and remains on permanent display at the National Archives and Records Administration Building in Washington, DC;

Whereas the English philosopher John Locke, through his monumental works on social contract theory and natural law entitled ''An Essay Concerning Human Understanding'', ''First Treatise on Government'', and ''Second Treatise on Government'', greatly influenced the American Revolution;

Whereas Scottish economist Adam Smith's ''Wealth of Nations'' greatly contributed to the competition and free market principles of the United States;

Whereas the English lawyer Sir William Blackstone's ''Commentaries on the Laws of England'' had a lasting influence on the development of United States common law and legal institutions;

Whereas the arrival of more than 1,500,000 members of the United States Armed Forces in the United Kingdom in the 1940s was a turning point in World War II that further solidified the close friendship between the United Kingdom and the United States;

Whereas Sir Winston Churchill, who heroically and skillfully guided the United Kingdom through World War II, articulated the close ties between the United Kingdom and the United States when he was recognized by becoming the first Honorary Citizen of the United States on April 9, 1963, stating, ''In this century of storm and tragedy I contemplate with high satisfaction the constant factor of the interwoven and upward progress of our peoples. Our comradeship and our brotherhood in war were unexampled. We stood together, and because of that fact the free world now stands. Nor has our partnership any exclusive nature: the Atlantic community is a dream that can well be fulfilled to the detriment of none and to the enduring benefit and honour of the great democracies.'';

Whereas, on August 14, 1941, President Franklin Delano Roosevelt and Prime Minister Winston Churchill agreed to the Atlantic Charter which set forward principles meant to serve as the precursor for the formation of the United Nations;

Whereas when Sir Winston Churchill resigned from his second tour of duty as Prime Minister of the United Kingdom, he warned his cabinet to ''never be separated from the Americans'';

Whereas the United Kingdom and the United States were founding Members of the North Atlantic Treaty Organization and were 2 of the original 12 countries to sign the North Atlantic Treaty on April 4, 1949, in Washington, DC;

Whereas the special relationship between the United Kingdom and the United States was further strengthened by the coordination of Prime Minister Margaret Thatcher and President Ronald Reagan whose firm opposition to communism ultimately led to the fall of the Union of Soviet Socialist Republics and the Iron Curtain;

Whereas after the September 11, 2001, attacks, Prime Minister Tony Blair immediately flew to the United States to express solidarity with the United States, and President George W. Bush declared in a speech before Congress that the United States ''has no truer friend than Great Britain'';

Whereas the United Kingdom joined forces with the United States against the Taliban in Afghanistan as part of Operation Enduring Freedom from the first attacks in October 2001 and permitted the United States to fly missions from Diego Garcia, part of the British Indian Ocean Territory;

Whereas, as of March 15, 2010, a total of 273 United Kingdom military and civilian personnel have died while serving in Afghanistan since the start of operations;

Whereas there are approximately 1,700 United Kingdom military and civilian personnel currently deployed to assist with the military and reconstruction efforts in Iraq;

Whereas since 2003 the United Kingdom has pledged 744,000,000 British pounds toward reconstruction efforts in Iraq;

Whereas 179 United Kingdom military and civilian personnel have died in Iraq since the beginning of the campaign in March 2003;

Whereas, on August 17, 2006, the United States and the United Kingdom introduced a draft United Nations Security Council resolution for the ''expeditious deployment'' of a United Nations peacekeeping force in Darfur, Sudan, and since have worked collaboratively to press for full implementation of the United Nations-Africa Union Mission in Darfur (UNAMID) mandate;

Whereas the United Kingdom Foreign & Commonwealth Office reports that the United States is the largest source of foreign direct investment in the United Kingdom's economy, while the United Kingdom is the largest single investor in the United States economy and, according to the United States Trade Representative, the United Kingdom is one of the European Union countries with the largest foreign direct investment in the United States; and

Whereas the United Kingdom and the United States share a commitment to free speech, democracy, and the rule of law based on the rich history of a longstanding friendship and shared ideals: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the special relationship between the United Kingdom and the United States;

(2) expresses sincere gratitude to the people of the United Kingdom for their generosity, camaraderie, and cooperation with the people of the United States in military operations, foreign assistance, and other joint efforts throughout the world;

(3) acknowledges the importance of the United Kingdom's political philosophy, law, and history on the cultural, political, and legal institutions of the United States; and

(4) looks forward to continued, deepening ties of friendship between the peoples of the United Kingdom and the United States.

The SPEAKER pro tempore, Mr. GARAMENDI, recognized Mr. ENGEL and Ms. ROS-LEHTINEN, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Mr. DEUTCH, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution, as amended, was agreed to.

By unanimous consent, the title was amended so as to read: ''A resolution recognizing the special relationship and historic ties between the United Kingdom and the United States.''.

A motion to reconsider the votes whereby the rules were suspended and said resolution, as amended, was agreed to and the title was amended was, by unanimous consent, laid on the table.

¶58.34 COMMUNITY OF DEMOCRACIES

Mr. ENGEL moved to suspend the rules and agree to the following resolution (H. Res. 1143); as amended:

Whereas the Community of Democracies is a global intergovernmental organization of democratic countries which aims to promote democracy and strengthen democratic norms and institutions around the world;

Whereas the Community of Democracies was founded in June 2000 at a ministerial conference in Warsaw, Poland;

Whereas the Warsaw Conference was convened upon the initiative of then-Secretary of State Madeleine Albright and then-Minister of Foreign Affairs of Poland Bronislaw Geremek;

Whereas delegations from 106 countries signed the final declaration of the Warsaw Conference on June 27, 2000, endorsing an agreed list of core democratic principles and practices, and committing themselves to the promotion of those principles and practices;

Whereas since the Warsaw Conference, there have been four subsequent ministerial conferences of the Community of Democracies in Seoul, Korea, in November 2002, Santiago, Chile, in April 2005, Bamako, Mali, in November 2007, and Lisbon, Portugal, in July 2009;

Whereas since its founding the Community of Democracies has been guided by a Convening Group, today consisting of Cape Verde, Chile, Czech Republic, El Salvador, India, Italy, Lithuania, Mali, Mexico, Mongolia, Morocco, Philippines, Poland, Portugal, South Africa, South Korea, and the United States;

Whereas in June 2009, Lithuania assumed the Presidency of the Community of Democracies for a two-year term;

Whereas upon the initiative of the Government of Poland, the Community of Democracies established a Permanent Secretariat in Warsaw in January 2009, with the goal of strengthening the institution and enabling it to more effectively fulfill its mission of promoting democracy worldwide;

Whereas the Permanent Secretariat in Warsaw has established itself as a vibrant institution of the Community of Democracies, with an active agenda and effective operation;

Whereas under the leadership of the Convening Group, the Lithuanian Presidency,

the Permanent Secretariat, and the International Steering Committee, the Community of Democracies has mounted recent efforts to promote democracy in such countries as Iran, Burma, and Afghanistan, and passed resolutions, issued position statements, and committed itself further to missions assisting democratic advancement in those countries and societies which desire it; and

Whereas on the 10th anniversary of the Warsaw Conference, the Community of Democracies will convene in Krakow, Poland, to re-launch the Community and adopt a work program to advance democracy worldwide: Now, therefore, be it

Resolved, That the House of Representatives—

(1) commends the Community of Democracies for its achievements since it was founded in 2000;

(2) applauds the recent establishment of the Permanent Secretariat of the Community of Democracies and expresses its appreciation to the Government of Poland for the support it has extended to the Permanent Secretariat and for hosting it in Warsaw;

(3) appreciates the energy and initiative that the Lithuanian Presidency has committed to the Community of Democracies and its Working Groups; and

(4) extends its best wishes for the success of the Community's ongoing efforts to promote democracy worldwide, and of the Krakow Conference, which will be held on the 10th anniversary of the founding of the Community of Democracies.

The SPEAKER pro tempore, Mr. DEUTCH, recognized Mr. ENGEL and Ms. ROS-LEHTINEN, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Mr. DEUTCH, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution, as amended, was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution, as amended, was agreed to was, by unanimous consent, laid on the table.

¶58.35 ANTI-TUBERCULOSIS PROGRAMS

Mr. ENGEL moved to suspend the rules and agree to the following resolution (H. Res. 1155); as amended:

Whereas tuberculosis (hereafter in this preamble referred to as ''TB'') is the second leading fatal global infectious disease behind HIV/AIDS, claiming 1,800,000 million lives each year;

Whereas the global TB pandemic and the spread of drug resistant TB present a persistent public health threat to the United States;

Whereas according to 2009 data of the World Health Organization, 5 percent of all new TB cases are drug resistant;

Whereas TB is the leading killer of people with HIV/AIDS;

Whereas TB is the third leading killer of adult women, and the stigma associated with TB disproportionately affects women, causing them to delay seeking care and interfering with treatment adherence;

Whereas the Institute of Medicine (IOM) found that the resurgence of TB between 1980 and 1992 was caused by cuts in TB control funding and the spread of HIV/AIDS;

Whereas, although the numbers of TB cases in the United States continue to decline, progress towards TB elimination has slowed, and it is a disease that does not recognize borders;

Whereas New York City had to spend over $1,000,000,000 to control a multi-drug resistant TB outbreak between 1989 and 1993;

Whereas an extensively drug resistant form of TB, known as XDR-TB (hereafter referred to in this preamble as ''XDR-TB)''), is very difficult and expensive to treat and has high and rapid fatality rates, especially among HIV/AIDS patients;

Whereas the United States has had more than 83 cases of XDR-TB over the last decade;

Whereas the Centers for Disease Control and Prevention estimated in 2009 that it costs $483,000 to treat a single case of XDR-TB;

Whereas African Americans are 8 times more likely to have TB than Caucasians, and significant disparities exist among other United States minorities, including Native Americans, Asian Americans, and Hispanic Americans;

Whereas, although drugs, diagnostics and vaccines for TB exist, these technologies are antiquated and are increasingly inadequate for controlling the global epidemic;

Whereas the most commonly used TB diagnostic in the world, sputum microscopy, is more than 100 years old and lacks sensitivity to detect TB in most HIV/AIDS patients and in children;

Whereas current tests to detect drug resistance take at least 1 month to complete and faster drug susceptibility tests must be developed to stop the spread of drug resistant TB;

Whereas the TB vaccine, BCG, provides some protection to children, but has little or no efficacy in preventing pulmonary TB in adults;

Whereas there is also a critical need for new TB drugs that can safely be taken concurrently with antiretroviral therapy for HIV;

Whereas enactment of the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 and the Comprehensive TB Elimination Act provide an historic United States commitment to the global eradication of TB, including to the successful treatment of 4,500,000 new TB patients and 90,000 new multi-drug resistant (MDR) TB cases by 2013, while providing additional treatment through coordinated multilateral efforts;

Whereas the United States Agency for International Development provides financial and technical assistance to nearly 40 highly-burdened TB countries and supports the development of new diagnostic and treatment tools, and is authorized to support research to develop new vaccines to combat TB;

Whereas the Centers for Disease Control and Prevention, working in partnership with States and territories of the United States, directs the national TB elimination program and essential national TB surveillance, technical assistance, prevention activities and supports the development of new diagnostic, treatment and prevention tools to combat TB;

Whereas the National Institutes of Health, through its many institutes and centers, plays the leading role in basic and clinical research into the identification, treatment and prevention of TB;

Whereas the Global Fund to Fight AIDS, Tuberculosis and Malaria provides 63 percent of all international financing for TB programs worldwide and finances proposals worth $3,200,000,000 in 112 countries, and TB treatment for 6,000,000 and HIV/TB services for 1,800,000, and in many countries in which the Global Fund supports programs, TB prevalence is declining, as are TB mortality rates; and

Whereas March 24, 2010, is World Tuberculosis Day, a day that commemorates the date in 1882 when Dr. Robert Koch announced his discovery of Mycobacterium tuberculosis, the bacteria that causes tuberculosis: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals of World TB Day to raise awareness about tuberculosis;

(2) commends the progress made by United States-led anti-tuberculosis programs; and

(3) reaffirms its commitment to global tuberculosis control made through the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008.

The SPEAKER pro tempore, Mr. DEUTCH, recognized Mr. ENGEL and Ms. ROS-LEHTINEN, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Mr. DEUTCH, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution, as amended, was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution, as amended, was agreed to was, by unanimous consent, laid on the table.

¶58.36 PRESIDENT'S EXPORT COUNCIL

The SPEAKER pro tempore, Mr. DEUTCH, pursuant to Executive Order 12131, and the order of the House of January 6, 2009, announced that the Speaker appointed the following Members of the House to the President's Export Council: Messrs. REICHERT, and TIBERI.

Ordered, That the Clerk notify the Senate of the foregoing appointments.

¶58.37 MESSAGE FROM THE PRESIDENT—NATIONAL EMERGENCY WITH RESPECT TO IRAQ

The SPEAKER pro tempore, Mr. DEUTCH, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the Federal Register for publication, continuing the national emergency with respect to the stabilization of Iraq. This notice states that the national emergency with respect to the stabilization of Iraq declared in Executive Order 13303 of May 22, 2003, as

modified in scope and relied upon for additional steps taken in Executive Order 13315 of August 28, 2003, Executive Order 13350 of July 29, 2004, Executive Order 13364 of November 29, 2004, and Executive Order 13438 of July 17, 2007, is to continue in effect beyond May 22, 2010.

Obstacles to the orderly reconstruction of Iraq, the restoration and maintenance of peace and security in the country, and the development of political, administrative, and economic institutions in Iraq continue to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. Accordingly, I have determined that it is necessary to continue the national emergency with respect to this threat and maintain in force the measures taken to deal with that national emergency.

The Iraqi government continues to take steps to resolve debts and settle claims arising from the actions of the previous regime. Before the end of the year, my Administration will review the Iraqi government's progress on resolving these outstanding debts and claims, as well as other relevant circumstances, in order to determine whether the prohibitions contained in Executive Order 13303 of May 22, 2003, as amended by Executive Order 13364 of November 29, 2004, on any attachment, judgment, decree, lien, execution, garnishment, or other judicial process with respect to the Development Fund for Iraq, the accounts, assets, and property held by the Central Bank of Iraq, and Iraqi petroleum-related products, should continue in effect beyond December 31, 2010, which are in addition to the sovereign immunity ordinarily provided to Iraq as a sovereign nation under otherwise applicable law.

BARACK OBAMA.

THE WHITE HOUSE, *May 12, 2010.*

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 111–108).

¶58.38 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE PRESIDENT

The SPEAKER pro tempore, Mr. DEUTCH, laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, May 10, 2010.

Hon. NANCY PELOSI,
The Speaker, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on Monday, May 10, 2010 at 2:47 p.m., and said to contain a message from the President whereby he submits a proposed Agreement Between the Government of the United States of America and the Government of the Russian Federation for Cooperation in the Field of Peaceful Uses of Nuclear Energy.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

¶58.39 ATOMIC ENERGY AGREEMENT BETWEEN THE UNITED STATES AND THE RUSSIAN FEDERATION

The Clerk then read the message from the President, as follows:

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)) (the ''Act''), the text of a proposed Agreement Between the Government of the United States of America and the Government of the Russian Federation for Cooperation in the Field of Peaceful Uses of Nuclear Energy (the ''Agreement''). I am also pleased to transmit my written approval of the proposed Agreement and determination that the proposed Agreement will promote, and will not constitute an unreasonable risk to, the common defense and security, together with a copy of an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the Agreement. In accordance with section 123 of the Act, as amended by title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105–277), classified annexes to the NPAS, prepared by the Secretary of State in consultation with the Director of National Intelligence, summarizing relevant classified information, will be submitted to the Congress separately.

The proposed Agreement was signed in Moscow on May 6, 2008. Former President George W. Bush approved the Agreement and authorized its execution, and he made the determinations required by section 123 b. of the Act. (Presidential Determination 2008–19 of May 5, 2008, 73 FR 27719 (May 14, 2008)).

On May 13, 2008, President Bush transmitted the Agreement, together with his Presidential Determination, an unclassified NPAS, and classified annex, to the Congress for review (see House Doc. 110–112, May 13, 2008). On September 8, 2008, prior to the completion of the 90-day continuous session review period, he sent a message informing the Congress that ''in view of recent actions by the Government of the Russian Federation incompatible with peaceful relations with its sovereign and democratic neighbor, Georgia,'' he had determined that his earlier determination (concerning performance of the proposed Agreement promoting, and not constituting an unreasonable risk to, the common defense and security) was no longer effective. He further stated that if circumstances should permit future reconsideration by the Congress, a new determination would be made and the proposed Agreement resubmitted.

After review of the situation and of the NPAS and classified annex, I have concluded: (1) that the situation in Georgia need no longer be considered an obstacle to proceeding with the proposed Agreement; and (2) that the level and scope of U.S.-Russia cooperation on Iran are sufficient to justify resubmitting the proposed Agreement to the Congress for the statutory review period of 90 days of continuous session and, absent enactment of legislation to disapprove it, taking the remaining steps to bring it into force.

The Secretary of State, the Secretary of Energy, and the members of the Nuclear Regulatory Commission (NRC) have recommended that I resubmit the proposed Agreement to the Congress for review. The joint memorandum submitted to me by the Secretaries of State and Energy and a letter from the Chairman of the NRC stating the views of the Commission are enclosed.

I have considered the views and recommendations of the interested departments and agencies in reviewing the proposed Agreement, and have determined that performance of the proposed Agreement will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the proposed Agreement and urge the Congress to give the proposed Agreement favorable consideration.

My reasons for resubmitting the proposed Agreement to the Congress for its review at this time are as follows:

The United States and Russia have significantly increased cooperation on nuclear nonproliferation and civil nuclear energy in the last 12 months, starting with the establishment of the Bilateral Presidential Commission Working Group on Nuclear Energy and Security. In our July 2009 Joint Statement on Nuclear Cooperation, Russian President Medvedev and I acknowledged the shared vision between the United States and Russia of the growth of clean, safe, and secure nuclear energy for peaceful purposes and committed to work together to bring into force the agreement for nuclear cooperation to achieve this end. The Russian government has indicated its support for a new United Nations Security Council Resolution on Iran and has begun to engage on specific resolution elements with P5 members in New York. On April 8, 2010, the United States and Russia signed an historic New START Treaty significantly reducing the number of strategic nuclear weapons both countries may deploy. On April 13, both sides signed the Protocol to amend the 2000 U.S.-Russian Plutonium Management and Disposition Agreement, which is an essential step toward fulfilling each country's commitment to effectively and transparently dispose of at least 34 metric tons of excess weapon-grade plutonium, enough for about 17,000 nuclear weapons, with more envisioned to be disposed in the future. Russia recently established an international nuclear fuel reserve in Angarsk to provide an incentive to other nations not to acquire sensitive uranium enrichment technologies. Joint U.S. and Russian leadership continue to successfully guide the Global Initiative to Combat Nuclear Terrorism as it becomes a durable international institution. The United States believes these events demonstrate significant progress in the

U.S.-Russia nuclear nonproliferation relationship and that it is now appropriate to move forward with this Agreement for cooperation in the peaceful uses of nuclear energy.

The proposed Agreement has been negotiated in accordance with the Act and other applicable laws. In my judgment, it meets all applicable statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States.

The proposed Agreement provides a comprehensive framework for peaceful nuclear cooperation with Russia based on a mutual commitment to nuclear nonproliferation. It has a term of 30 years, and permits the transfer, subject to subsequent U.S. licensing decisions, of technology, material, equipment (including reactors), and components for nuclear research and nuclear power production. It does not permit transfers of Restricted Data. Transfers of sensitive nuclear technology, sensitive nuclear facilities, and major critical components of such facilities may only occur if the Agreement is amended to cover such transfers. In the event of termination, key nonproliferation conditions and controls continue with respect to material, equipment, and components subject to the Agreement.

The Russian Federation is a nuclear weapon state party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). Like the United States, it has a ''voluntary offer'' safeguards agreement with the International Atomic Energy Agency (IAEA). That agreement gives the IAEA the right to apply safeguards on all source or special fissionable material at peaceful-use nuclear facilities on a list provided by Russia. The Russian Federation is also a party to the Convention on the Physical Protection of Nuclear Material, which establishes international standards of physical protection for the use, storage, and transport of nuclear material. It is also a member of the Nuclear Suppliers Group, whose non-legally binding guidelines set forth standards for the responsible export of nuclear commodities for peaceful use. A more detailed discussion of Russia's domestic civil nuclear program and its nuclear nonproliferation policies and practices, including its nuclear export policies and practices, is provided in the NPAS and in the classified annexes to the NPAS submitted to the Congress separately.

This transmittal shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Act. My Administration is prepared to immediately begin the consultations with the Senate Committee on Foreign Relations and House Committee on Foreign Affairs as provided in section 123 b. Upon completion of the 30-day continuous session period provided for in section 123 b., the 60-day continuous session period provided for in section 123 d. shall commence.

BARACK OBAMA.

THE WHITE HOUSE, *May 10, 2010.*

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs.

¶60.4 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE PRESIDENT

The SPEAKER pro tempore, Mrs. CAPPS, laid before the House a communication, which was read as follows:

HOUSE OF REPRESENTATIVES,
Washington, DC, May 14, 2010.

Hon. NANCY PELOSI,
Speaker, Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on Friday, May 14, 2010 at 10:52 a.m., and said to contain a message from the President whereby he submits a copy of a notice filed earlier with the Federal Register continuing the emergency with Burma first declared in Executive Order 13047 of May 20, 1997.

With best wishes, I am,

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

¶60.5 NATIONAL EMERGENCY WITH RESPECT TO BURMA

The Clerk then read the message from the President, as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. I have sent the enclosed notice to the Federal Register for publication, stating that the Burma emergency is to continue in effect beyond May 20, 2010.

The crisis between the United States and Burma arising from the actions

and policies of the Government of Burma, including its engaging in large-scale repression of the democratic opposition in Burma, that led to the declaration of a national emergency in Executive Order 13047 of May 20, 1997, as modified in scope and relied upon for additional steps taken in Executive Order 13310 of July 28, 2003, Executive Order 13448 of October 18, 2007, and Executive Order 13464 of April 30, 2008, has not been resolved. These actions and policies are hostile to U.S. interests and pose a continuing unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it is necessary to continue the national emergency with respect to Burma and maintain in force the sanctions against Burma to respond to this threat.

BARACK OBAMA.
THE WHITE HOUSE, *May 13, 2010*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 111–115).

Mr. George MILLER of California, moved to suspend the rules and agree to the following concurrent resolution (H. Con. Res. 211):

Whereas, November 6, 2009, will mark the 75th anniversary of the historic passage of a ballot measure to create the East Bay Regional Park District (referred to in this preamble as the ''District'') in California's San Francisco Bay Area by a convincing ''yes'' vote of a 2½ to 1 margin in 1934 during the height of the Depression;

Whereas with the help of the Civilian Conservation Corps, the Works Progress Administration, and private contractors, the District began putting people to work to establish the District's first 3 regional parks—Tilden, Temescal, and Sibley;

Whereas over the intervening 75 years, the District has grown to be the largest regional

park agency in the United States with nearly 100,000 acres of parklands spread across 65 regional parks and over 1,100 miles of trails in Alameda and Contra Costa Counties;

Whereas approximately 14,000,000 visitors a year from throughout the San Francisco Bay Area and beyond take advantage of the vast and diverse District parklands and trails;

Whereas the vision of the District is to preserve the priceless heritage of the region's natural and cultural resources, open space, parks, and trails for the future, and to set aside park areas for enjoyment and healthful recreation for current and future generations;

Whereas the mission of the District is to acquire, develop, manage, and maintain a high quality, diverse system of interconnected parklands that balances public usage and education programs with the protection and preservation of the East Bay's most spectacular natural and cultural resources;

Whereas an environmental ethic guides the District in all that it does;

Whereas in 1988, East Bay voters approved the passage of Measure AA, a $225,000,000 bond to provide 20 years of funding for regional and local park acquisition and development projects;

Whereas in 2008, under the strategic leadership of its Board of Directors and General Manager Pat O'Brien, East Bay voters approved passage of the historic Measure WW, a $500,000,000 renewal of the original Measure AA bond—the largest regional or local park bond ever passed in the United States; and

Whereas throughout 2009, the District's 75th Anniversary will be recognized through special events and programs: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) recognizes the 75th anniversary of the establishment of the East Bay Regional Park District; and

Whereas Floyd Dominy acquired critical war materials, helped resolve food shortages, and served in the U.S. Naval Reserve during World War II;

Whereas Floyd Dominy joined the Bureau of Reclamation in 1946 as a specialist responsible for procedures by which newly irrigated land on public land could be settled by returning war veterans;

Whereas Floyd Dominy later served as the Associate Commissioner of the Bureau of Reclamation before being sworn in as Commissioner upon appointment by President Dwight D. Eisenhower;

Whereas Floyd Dominy served in the same capacity under Presidents John F. Kennedy, Lyndon Johnson, and Richard Nixon;

Whereas upon his retirement in 1969, Floyd Dominy was and continues to be the longest serving Bureau of Reclamation Commissioner;

Whereas Floyd Dominy, during his tenure as the Commissioner of the Bureau of Reclamation, played a major role in the authorization and the construction of numerous Federal multi-purpose dams and water projects in the western United States, including Glen Canyon, Flaming Gorge, and Navajo Dams, the Central Arizona Project, San Luis Unit, and the Trinity Division of the Central Valley Project;

Whereas many of these projects that Floyd Dominy played such a role in creating and constructing continue to be vital to the Nation's food supply and renewable electricity generation and attract millions of recreationalists each year; and

Whereas Floyd Dominy was named one of the top ten ''Public Works Men of the Year'' in 1966 and was awarded for ''Outstanding Engineering Achievement in Heavy Construction'' in 1974: Now, therefore, be it

Will the House suspend the rules and pass said bill?

The SPEAKER pro tempore, Mr. CUELLAR, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said bill was passed.

A motion to reconsider the vote whereby the rules were suspended and said bill was passed was, by unanimous consent, laid on the table.

Ordered, That the Clerk request the concurrence of the Senate in said bill.

¶62.8 EMPORIA STATE UNIVERSITY LADY HORNETS

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1292); as amended:

Whereas the Emporia State University (ESU) Lady Hornet basketball team defeated the Fort Lewis Skyhawks by a score of 65 to 53 to win the 2010 NCAA Women's Division II National Championship in St. Joseph, Missouri, on March 26, 2010;

Whereas this is ESU's first ever women's national basketball championship and the first national championship in any sport since being crowned the 1984 NCAA NAIA Women's Softball National Champions;

Whereas the ESU coaching staff of head coach Brandon Schneider and assistant coaches Jory Collins and Kiel Unruh guided the Lady Hornets to a final record of 30 wins and only 5 losses;

Whereas the 2010 National Champions consisted of seniors Cassondra Boston, Jamie Augustyn, Lacy Corker, and Sophia Lenard, juniors Ashley Ferrell, Negesti Taylor, Kayla Krueger, Dava Logsdon, and Alli Volkens, sophomore Brittney Miller, and freshmen Rachel Hanf, Jocelyn Cummings, and Kelsey Newman;

Whereas ESU was led by the overall Most Outstanding Player of the tournament, Alli Volkens, who recorded 16 points, 15 rebounds, and five blocks in the championship game; and

Whereas the students, staff, alumni, and friends of Emporia State University along with the city of Emporia, Kansas, deserve

much credit for their support of the Lady Hornet basketball team: Now, therefore, be it

Resolved, That the House of Representatives—

(1) congratulates the Emporia State University Lady Hornet basketball team for winning the 2010 NCAA Division II National Championship; and

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Ms. MCCOLLUM, announced that two-thirds of the Members present had voted in the affirmative.

Ms. FUDGE moved to suspend the rules and agree to the following resolution (H. Res. 1361); as amended:

Whereas North Carolina Central University (NCCU) in Durham, North Carolina, was chartered in 1909 as a private institution and opened to students on July 5, 1910;

Whereas the school was founded by Dr. James E. Shepard as the National Religious Training School and Chautauqua for the Colored Race with the purpose of developing African-American men and women into citizens of fine character and sound academic training;

Whereas the school's name was changed to the National Training School in 1915, following its sale and reorganization;

Whereas the school became a publicly supported institution in 1923 under the name of the Durham State Normal School, with funding from the North Carolina General Assembly;

Whereas the General Assembly rededicated the institution as the North Carolina College for Negroes in 1925, making it the Nation's first State-supported liberal arts college for African-American students;

Whereas the college saw significant expansion between 1927 and 1929 through additional funding from the General Assembly, a generous gift from B.N. Duke, and contributions from the citizens of Durham;

Whereas the college was accredited by the Southern Association of Colleges and Secondary schools as a class ''A'' institution in

1937, and gained membership in that association in 1957;

Whereas the college was authorized to offer graduate studies in 1939, which led to the establishment of the School of Law in 1940 and the School of Library Science in 1941;

Whereas the General Assembly changed the name of the institution to North Carolina College at Durham in 1947 and, finally, to North Carolina Central University in 1969;

Whereas NCCU became part of the consolidated University of North Carolina system, which includes all 16 of North Carolina's public institutions that grant baccalaureate degrees, in 1972;

¶62.19 CHILDHOOD OBESITY AWARENESS MONTH

Mrs. CAPPS moved to suspend the rules and agree to the following resolution (H. Res. 996); as amended:

Whereas during the past four decades, obesity rates have soared among all age groups, increasing more than fourfold among children ages 6 to 11;

Whereas 31.8 percent or 23,000,000 children and teenagers ages 2 to 19 are obese or overweight, a statistic that health and medical experts consider an epidemic;

Whereas significant disparities exist among the obesity rates of children based on race and poverty; for example on average 38 percent of Mexican-American children and 34.9 percent of African-American children ages 2 to 19 are overweight or obese, compared with 30.7 percent of White children and 39.5 percent of low-income American Indian and Alaska Native children ages 2 to 5;

Whereas the financial implications of childhood obesity pose a financial threat to our economy and health care system, carrying up to $14,000,000,000 per year in direct health care cost, with people in the United States spending about 9 percent of their total medical costs on obesity-related illnesses;

Whereas obese young people have an 80 percent chance of being obese adults and are more likely than children of normal weight to become overweight or obese adults, and therefore more at risk for associated adult health problems, including heart disease, type 2 diabetes, sleep apnea, stroke, several types of cancer, and osteoarthritis;

Whereas in part due to the childhood obesity epidemic, 1 in 3 children (and nearly 1 in 2 minority children) born in the year 2000 will develop type 2 diabetes at some point in their lifetime if current trends continue;

Whereas some consequences of childhood and adolescent obesity are psychosocial and can hinder academic and social functioning and persist into adulthood;

Whereas participating in physical activity is important for children and teens as it may have beneficial effects not only on body weight, but also on blood pressure and bone strength;

Whereas proper nutrition is important for children before birth and through their life span as nutrition has beneficial effects for health and body weight, and is important in the prevention of various chronic diseases;

Whereas childhood obesity is preventable, yet does not appear to be declining;

Whereas public, community-based, and private sector organizations and individuals throughout the United States, including First Lady Michelle Obama, are working to decrease childhood obesity rates for people in the United States of all races through a range of efforts, including educational presentations, media campaigns, Web sites, policies, healthier food options, and greater opportunities for physical activity; and

Whereas America on the Move, American Beverage Association, American College of Sports Medicine, American Diabetes Association, American Dietetic Association, American Heart Association, American Medical Association, American Medical Group Association, American Sleep Apnea Association, American Society of Bariatric Physicians, American Society for Metabolic and Bariatric Surgery, American Society for Nutrition, American Society of Landscape Architects, Amerinet, BET Foundation, Black Leadership Forum, Black Women's Health Imperative, Campaign to End Obesity, Canyon Ranch Institute, Center for Science in the Public Interest, Children's Health Fund, Children's National Medical Center, Children Now, COSHAR Foundation, First Focus, Grocery Manufacturers Association, Healthcare Leadership Council, HealthCorps, Healthways, International, Health, Racquet, and Sportsclub Association, Medical Fitness Association, NAACP, National Association of Children's Hospitals, National Association of Chronic Disease Directors, National Association of School Nurses, National Association for Sport and Physical Education, National Black Nurses Association, National Collaboration for Youth, National Congress of Black Women, Inc., National Council of Urban Indian Health, National Family Caregivers Association, National Football League, National Football League Players Association, National Indian Health Board, National Latina Health Network, National League of Cities, National Medical Association, National Recreation and Park Association, Nemours, Obesity Action Coalition, Partnership to Fight Chronic Disease, Partnership for Prevention, PepsiCo, Richard Simmons' Ask America PE Crusade, Safe Routes to School National Partnership, ShapeUp America!, STOP Obesity Alliance, The Coca-Cola Company, The Obesity Society, Trust for America's Health, United Fresh Produce Association, United Way, University Hospitals Rainbow Babies & Children's Hospital, U.S. Conference of Mayors, U.S. Preventive Medicine, Inc., Voices for America's Children, YMCA of the USA, YWCA USA, and other organizations support the designation of September as National Childhood Obesity Awareness Month to educate the public about the need for increased education and proactive steps to prevent childhood obesity in the United States: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the designation of National Childhood Obesity Awareness Month to raise public awareness and mobilize the country to address childhood obesity;

(2) recognizes the importance of preventing childhood obesity and decreasing its prevalence in the United States; and

(3) requests that the President encourage the Federal Government, States, tribes and

tribal organizations, localities, schools, nonprofit organizations, businesses, other entities, and the people of the United States to observe the month with appropriate programs and activities with the goal of promoting healthy eating and physical activity and increasing awareness of childhood obesity among individuals of all ages and walks of life.

The SPEAKER pro tempore, Ms. MCCOLLUM, recognized Mrs. CAPPS and Mr. PITTS, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

The SPEAKER pro tempore, Ms. MCCOLLUM, announced that two-thirds of the Members present had voted in the affirmative.

¶62.20 AUTOMOBILE DEALERSHIPS

Mrs. CAPPS moved to suspend the rules and agree to the following resolution (H. Res. 713); as amended:

Whereas auto dealers have deep roots in local communities and have helped manufacturers with long-term customer relationships that create brand loyalty and maintain customer convenience;

Whereas dealerships across the country provide jobs, give direct investments to local economies, and supply tax revenue to State and local governments;

Whereas virtually all new cars and light trucks bought in the United States are sold through franchised dealers;

Whereas dealers are independently owned, and combined, represent the largest retail business in the United States, with approximately $693,000,000,000 in revenues in 2007;

Whereas auto dealers are significant employers in local communities across the country;

Whereas franchised dealers employ over 1,100,000 people, comprise nearly 20 percent of all retail sales in the United States, and, in total, pay billions annually in state and local taxes;

Whereas the Nation's 20,700 independent franchised new car dealerships comprise an industry that is largely privately held, with private ownership accounting for 92 percent of the market;

Whereas the franchised dealership system in the United States is the independent link between the manufacturer's assembly line and the consumer and its functions include, but are not limited, to the following—

(1) selling the product and providing information for consumers;

(2) holding vehicle and parts inventory;

(3) performing service and providing parts to fulfill manufacturer warranty obligations;

(4) handling product safety recalls;

(5) facilitating the exchange of used vehicles; and

(6) arranging financing for consumers;

Whereas some restructuring of dealer networks was in the public interest and necessary to increase the competitiveness of automobile manufacturers;

Whereas the economic downturn put thousands of jobs at risk, including those at automobile dealerships and automobile manufacturers; and

Whereas auto dealers will play a key role in any effort to revive the United States auto industry: Now, therefore, be it

Resolved, That—

(1) the House of Representatives recognizes the significant contributions of United States automobile dealerships; and

(2) it is the sense of the House of Representatives that automobile dealerships which have been successful and are being closed not of their own doing, but instead as a function of the auto market as a whole, should be given consideration to obtain a dealership franchise when the automobile market rebounds and stabilizes.

¶62.24 NATIONAL FOSTER CARE MONTH

Mr. MCDERMOTT moved to suspend the rules and agree to the following resolution (H. Res. 1339):

Whereas on average, the Nation's foster care system provides for nearly 500,000 children each day who are unable to live safely with their biological parents;

Whereas there is a shortage of foster parents and great need for their services, as there are fewer than 3 foster homes for every 10 children in care;

Whereas foster parents are the most front-line caregiver for children who cannot safely remain with their biological parents and provide physical care, emotional support, education advocacy, and are the largest single source of families providing permanent homes for kids leaving foster care to adoption;

Whereas 273,000 children entered the foster care system during fiscal year 2008 and an average of 123,000 children were waiting to be adopted every day;

Whereas almost 55,000 children were adopted out of foster care in fiscal year 2008, but the number of children ''aging out'' of the foster care system without finding a permanent family increased to an all-time high of nearly 30,000 in fiscal year 2008;

Whereas children ''aging out'' of foster care need and deserve a support system as they work to secure affordable housing, obtain health insurance, pursue higher education, and acquire adequate employment;

Whereas youth in foster care are much more likely to face educational instability with 65 percent of former foster children experiencing at least 7 school changes while in care;

Whereas an increased emphasis on prevention and reunification services is necessary to reduce the number of children that are forced to enter the foster care system;

Whereas Federal legislation over the past three decades, including the Adoption Assistance and Safe Families Act of 1980, the Adoption and Safe Families Act of 1997, and the Fostering Connections to Success and Increasing Adoptions Act of 2008, provided new investments and services to improve the outcomes of children in the foster care system;

Whereas foster children, like all children, deserve no less than a safe, loving, and permanent home; and

Whereas May would be an appropriate month to designate as National Foster Care Month to provide an opportunity to acknowledge the accomplishments of the child welfare workforce, foster parents, advocacy community, and mentors and the positive impact they have on children's lives: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the designation of National Foster Care Month;

(2) honors the tireless efforts of those who work to improve outcomes for children in the child welfare system;

(3) acknowledges the exceptional alumni of the foster care system who serve as advocates and role models for youth who remain in care;

(4) recognizes the significant improvements to Federal, State, and local child welfare policy; and

(5) reaffirms the need to work through the title IV programs in the Social Security Act and other programs to support vulnerable families, invest in prevention and reunification services, promote adoption in cases where reunification is not in a child's best interest, adequately serve those children brought into the foster care system, and facilitate the successful transition into adulthood for children that ''age out'' of the foster care system.

The SPEAKER pro tempore, Ms. DEGETTE, recognized Mr. MCDERMOTT and Mr. LINDER, each for 20 minutes.

After debate,

The question being put, viva voce,

¶62.26 QINGHAI PROVINCE OF CHINA EARTHQUAKE

Mr. MCMAHON moved to suspend the rules and agree to the following resolution (H. Res. 1324):

Whereas, on April 14, 2010, an earthquake measuring 6.9 on the Richter scale struck the Qinghai province of southwest China;

Whereas the China Earthquake Networks Administration confirmed the earthquake struck in Yushu County, a remote and mountainous area sparsely populated by farmers and herdsmen;

Whereas the population of Yushu County is overwhelmingly poor, with rural residents earning an average of $342 a year, largely from agriculture;

Whereas at least 18 aftershocks measuring more than 6.0 on the Richter scale followed the quake throughout the day in the seismically active zone;

Whereas over 2,000 people have been killed and over 10,000 injured, numbers that are feared to climb;

Whereas an unknown number of individuals remain buried in debris as soldiers work around the clock to dig them out by hand;

Whereas at least 40 people remain trapped under a collapsed office building that houses the local Departments of Commerce and Industry of the Peoples Republic of China and many children and young adults still lie beneath the rubble of collapsed primary and vocational schools;

Whereas officials expect the death toll will rise because rescue efforts are stymied by a lack of heavy equipment and the mountainous terrain;

Whereas medical supplies and tents are also in short supply;

Whereas China Central Television and the Red Cross Society of China estimate that 90 percent of homes and 70 percent of schools in the region have been destroyed;

Whereas the region that includes Yushu County is located on the Tibetan plateau, and many villages sit well above 16,000 feet, with freezing temperatures not uncommon in mid-April;

Whereas by the evening of April 14, 2010, temperatures in the county seat had already reached 27 degrees Fahrenheit;

Whereas thousands of Tibetan monks, many of whom traveled long distances from other Tibetan areas, have played a vital role in relief efforts, providing food and assistance, and tending to the basic and spiritual needs of the victims;

Whereas in order to prevent a flood, workers are racing to release water from a reservoir in the disaster area after discovering that a crack had formed in the dam due to the earthquake;

Whereas many survivors have already fled to the surrounding mountains, amid fears that a nearby dam could be ruptured by the aftershocks hitting the area;

Whereas news media reported that 700 paramilitary officers are already working in the quake zone and that more than 4,000 others will be sent to assist in search and rescue efforts;

Whereas the Civil Affairs Ministry said it would also send 5,000 tents and 100,000 coats and blankets; and

Whereas the international community is sending much needed supplies and supporting local Chinese relief efforts: Now, therefore, be it

Resolved, That the House of Representatives—

(1) expresses its deepest condolences and sympathies for the loss of life and the physical and psychological damage caused by the earthquake of April 14, 2010;

(2) expresses solidarity with the people of the Qinghai province, Tibetan-Americans, Chinese-Americans, and all those who have lost loved ones or have otherwise been affected by the tragedy, including rescue and humanitarian workers;

(3) reaffirms the United States pledge, issued by Secretary of State Hillary Rodham Clinton, to stand ready to assist the people of China during this difficult period; and

(4) expresses support for the recovery and long-term reconstruction needs of the residents of the areas affected by the earthquake, including the restoration of monasteries and other Tibetan Buddhist sites that are integral to the preservation of Tibetan culture and religious traditions.

The SPEAKER pro tempore, Ms. DEGETTE, recognized Mr. MCMAHON and Mr. POE of Texas, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution?

The point of no quorum was considered as withdrawn.

¶62.27 CONSULATE IN THE KURDISTAN REGION OF IRAQ

Mr. MCMAHON moved to suspend the rules and agree to the following resolution (H. Res. 873); as amended:

Whereas 15 countries, including leading European nations, have diplomatic and consulate representation in Erbil, the capital of the Kurdistan Region of Iraq;

Whereas the United States Department of State modified its Travel Warning for Iraq this year to reflect the relative safety and security of the Kurdistan Region of Iraq;

Whereas the establishment of a United States Consulate in the Kurdistan Region of Iraq, as well as in other regions of Iraq, is consistent with current United States policy to normalize United States–Iraqi relations at the diplomatic, commercial, cultural, and educational levels as United States Armed Forces responsibly redeploy from Iraq in accordance with the Status of Forces Agreement between the United States and Iraq;

Whereas greater United States Government civilian representation throughout Iraq, including in the Kurdistan Region, will serve United States interests during this period of transition;

Whereas the establishment of a United States Consulate in the Kurdistan Region of Iraq will increase travel between the United States and Iraq and thus strengthen people-to-people exchanges between both sides;

Whereas currently, United States citizens either living in or visiting the Kurdistan Region of Iraq must travel to the United States Embassy in Baghdad, 200 miles away, to receive consular services;

Whereas the establishment of a United States Consulate in the Kurdistan Region of Iraq will be helpful both in attracting greater United States business and investment to the region and in ensuring that the region continues to serve as a ''gateway'' to United States business success in other parts of Iraq, as a number of United States Government agencies have advocated;

Whereas the establishment of a United States Consulate in the Kurdistan Region of Iraq will reaffirm United States support for the stability, prosperity, and democracy that the Kurdistan Region of Iraq has achieved;

Whereas the establishment of a United States Consulate in Iraq, including in the Kurdistan Region will facilitate more governmental and nongovernmental missions between the United States and the Iraq;

Whereas the Kurds of Iraq have been willing partners with the United States in the democratic transition in Iraq since 2003;

¶63.12 COMMUNICATION FROM THE CLERK—CERTIFICATE OF ELECTION

The SPEAKER laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, May 19, 2010.

Hon. NANCY PELOSI,
The Speaker, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: I have the honor to transmit herewith a scanned copy of a letter received from Mr. Chet Harhut, Commissioner, Bureau of Commissions, Elections, and Legislation, Pennsylvania Department of State, Commonwealth of Pennsylvania, indicating that, according to the unofficial returns of the Special Election held May 18, 2010, the Honorable Mark S. Critz was elected Representative to Congress for the Twelfth Congressional District, Commonwealth of Pennsylvania.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

Enclosure.

COMMONWEALTH OF PENNSYLVANIA,
BUREAU OF COMMISSIONS, ELECTIONS & LEGISLATION,
Harrisburg, PA, May 19, 2010.

Hon. LORRAINE C. MILLER,
Clerk, House of Representatives, The Capitol, Washington, DC.

DEAR MS. MILLER: This is to advise you that the unofficial results of the Special Election held on Tuesday, May 18, 2010, for Representative in Congress from the Twelfth Congressional District of Pennsylvania, show that Mark S. Critz received 70,710 or 52.6% of the total number of votes cast for that office.

It would appear from these unofficial results that Mark S. Critz was elected as Representative in Congress from the Twelfth Congressional District of Pennsylvania.

To the best of our knowledge and belief at this time, there is no contest to this election.

As soon as the official results are certified to this office by all counties involved, an official Certificate of Election will be prepared for transmittal as required by law.

CHET HARHUT,
Commissioner.

¶63.13 ORDER OF BUSINESS—SWEARING IN OF MEMBER-ELECT

On motion of Mr. KANJORSKI, by unanimous consent,

Ordered, That, notwithstanding the fact that the certificate of election of Mr. Mark S. Critz, 12th District of the State of Pennsylvania, has not been received by the Clerk of the House of Representatives, Mr. CRITZ be permitted to take the oath of office as prescribed by law, there being no contest and no question with regard to his election.

Mr. CRITZ then presented himself at the bar of the House and took the oath of office prescribed by law.

¶63.14 WHOLE NUMBER OF THE HOUSE OF REPRESENTATIVES ADJUSTED

The SPEAKER announced under clause 5(d) of rule XX, that, in light of the administration of the oath to Representative CRITZ, the whole number of the House is adjusted to 432.

Whereas 18,000,000 people in the United States, representing all segments of the population, including emerging demographics, live in manufactured or modular homes;

Whereas because they are important sources of affordable housing, manufactured and modular housing are a critical part of the solution to the ongoing crisis in the housing market in this Nation;

Whereas the factory production process provides manufactured and modular housing with technological advantages, value, and customization options for consumers seeking quality housing and sustainable homeownership;

Whereas manufactured homes are built to a national standard under the National Manufactured Housing Construction and Safety Standards Act of 1974, which governs construction, engineering, quality, safety, and systems performance;

Whereas that Act supports innovation, consumer safety, efficiency, and quality while preserving the affordability and customization of manufactured housing;

Whereas creating affordable homeownership opportunities helps build communities and requires the cooperation of the private and public sectors, including the Federal Government and State and local governments;

Whereas the laws of the United States, such as the Manufactured Housing Improvement Act of 2000, encourage manufactured housing homeownership and should continue to do so in the future;

¶65.10 HIV PREVENTION

Mr. DONNELLY of Indiana, moved to suspend the rules and agree to the concurrent resolution (H. Con. Res. 137):

Whereas adequate and secure housing for people with human immunodeficiency virus or acquired immunodeficiency syndrome (HIV/AIDS) is a challenge with global dimensions and adequate housing is one of the greatest unmet needs of persons in the United States with HIV/AIDS;

Whereas growing empirical evidence shows that the socioeconomic circumstances of individuals and groups and structural factors such as housing status are of equal importance, or even greater importance, to health status than medical care and personal health behaviors;

Whereas the link between poverty and disparities in HIV risk and health outcomes is well established, and new research findings demonstrate the direct relationship between inadequate housing and greater risk of HIV infection, poor health outcomes, and early death;

Whereas rates of HIV infection are 3 to 16 times higher among persons who are homeless or unstably housed, 70 percent of all persons living with HIV/AIDS report a lifetime experience of homelessness or housing instability, and the HIV/AIDS death rate is 7 to 9 times higher for homeless adults than for the general population;

Whereas poor living conditions, including overcrowding and homelessness, undermine safety, privacy, and efforts to promote self-respect, human dignity, and responsible sexual behavior;

Whereas homeless and unstably housed persons are 2 to 6 times more likely to use hard drugs, share needles, or exchange sex for money and housing than similar persons with stable housing, as the lack of stable housing directly impacts the ability of people living in poverty to reduce HIV risk behaviors;

Whereas in spite of the evidence indicating that adequate housing has a direct positive effect on HIV prevention, treatment, and health outcomes, the housing resources devoted to the national response to HIV/AIDS have been inadequate and housing has been largely ignored in policy discussions at the international level; and

Whereas the Congress recognized the housing needs of people with HIV/AIDS in enacting the Housing Opportunities for Persons with AIDS (HOPWA) program in 1990 as part of the Cranston-Gonzalez National Affordable Housing Act (Public Law 101–625) and the HOPWA program currently serves 70,000 households: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) stable and affordable housing is an essential component of an effective strategy for HIV prevention, treatment, and care; and

(2) the United States should make a commitment to providing adequate funding for developing housing as a response to the AIDS pandemic.

Whereas Father's Day is a fitting day to recognize the sacrifice and service of these fallen heroes and their families;

Whereas Sons and Daughters in Touch (SDIT) is the only national organization formed specifically to bring together and support the children and families of these American heroes;

Whereas SDIT locates, unites, and supports sons, daughters, and other family members of those who died or remain missing as a result of the Vietnam War and promotes healing through various outreach and education efforts;

Whereas SDIT has held regular Father's Day gatherings for the past 20 years to bring together such sons, daughters, wives, and other family members in a spirit of honor, remembrance, and learning;

Whereas America's current military campaigns have produced a new generation of Gold Star sons and daughters who have lost parents in war;

Whereas Sons and Daughters in Touch is in a unique position to serve as an example to current and future generations of Gold Star families as they bear the painful burden resulting from the selfless sacrifices made by their fathers and mothers in wartime service to the Nation, and SDIT can also serve as a resilient example to all nations affected by war;

Whereas Sons and Daughters in Touch will celebrate its 20th anniversary, which is being held on Father's Day, 2010, at the Vietnam Veterans Memorial in Washington, the District of Columbia; and

¶65.16 MESSAGE FROM THE PRESIDENT—REDUCE UNNECESSARY SPENDING OF 2010

The SPEAKER pro tempore, Ms. ROYBAL-ALLARD, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Today, I am pleased to submit to the Congress the enclosed legislative proposal, the ''Reduce Unnecessary Spending Act of 2010,'' along with a section-by-section analysis of the legislation.

This proposal will be another important step in restoring fiscal discipline and making sure that Washington spends taxpayer dollars responsibly. It will provide a new tool to streamline Government programs and operations, cut wasteful Government spending, and enhance transparency and accountability to the American people. The legislation will create an expedited procedure to rescind unnecessary spending and to broadly scale back funding levels if warranted. The legislation would require the Congress to vote up or down on legislation proposed by the President to rescind funding. This new, enhanced rescission authority will not only empower the President and the Congress to eliminate unnecessary spending, but also discourage waste in the first place.

Now more than ever, it's critical that taxpayer dollars are not wasted on programs that are ineffective, duplicative, or out-dated. In a time when American families and small business owners are conscious of every dollar and make sure that they manage their budgets wisely, the Federal Government can do no less. The American people expect and demand that we spend their money with the same discipline. Allowing taxpayer dollars to be wasted is both an irresponsible use of taxpayer funds and an irresponsible abuse of the public trust.

Recently, the Congress has taken welcome steps to curb wasteful spending. In 2007, when I served in the Senate, a bipartisan group worked together to eliminate anonymous earmarks and brought new measures of transparency to the process so Americans can better follow how their tax dollars are being spent. Consequently, we have seen progress—with earmarks declining since these reforms were passed, including during this past fiscal year.

In addition, my Administration undertook a line-by-line review of the Budget, and put forward approximately $20 billion of terminations, reductions, and savings both for Fiscal Year 2010 and 2011. While recent administrations have seen between 15 to 20 percent of their proposed discretionary cuts approved by the Congress, for FY 2010, we worked with the Congress to enact 60 percent of proposed cuts.

Despite the progress we have made to reduce earmarks and other unnecessary spending, there is still more work to be done. The legislation I am sending to you today provides an important tool. The legislation allows the President to target spending policies that do not have a legitimate and worthy public purpose by providing the President with an additional authority to propose the elimination of wasteful or excessive funding. These proposals then receive expedited consideration in the Congress and a guaranteed up-or-down vote. This legislation would also allow the President to delay funding for these projects until the Congress has had the chance to consider the changes. In addition, this proposal has been crafted to preserve the constitutional balance of power between the President and the Congress.

Overall, the ''Reduce Unnecessary Spending Act of 2010'' provides a new way for the Congress and the President to manage taxpayer dollars wisely. That is why I urge the prompt and favorable consideration of this proposal, and look forward to working with the Congress on this matter in the coming weeks.

BARACK OBAMA.

THE WHITE HOUSE, *May 24, 2010*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on the Budget and the Committee on Rules and ordered to be printed (H. Doc. 111–117).

Whereas the history of Asians and Pacific Islanders in the United States is inextricably tied to the story of the Nation;

Whereas the month of May was selected for Asian/Pacific American Heritage Month due to the following two historical events, first, May 7, 1843, when the first Japanese immigrants arrived in the United States, and second, May 10, 1869, when, with substantial contributions from Chinese immigrants, the first transcontinental railroad was completed;

Whereas today, according to the United States Census Bureau, the Asian American and Pacific Islander community is one of the fastest growing and most diverse populations in the United States, comprised of over 45 distinct ethnicities and over 28 language groups in the community;

Whereas approximately 3,000,000 school-aged children have a food allergy and the number of American children with a peanut allergy doubled between 1997 and 2002;

Whereas the prevalence of allergies has increased since the early 1980s in the United States across all age, sex, and racial groups;

Whereas allergies are the most frequently reported chronic condition in children;

Whereas it is estimated that the cost of allergies is nearly $7,000,000,000 each year;

Whereas an estimated 20,000,000 or 1 in 15 Americans suffer from asthma, and over 50 percent of asthma cases are ''allergic-asthma'';

Whereas asthma is the third-ranking cause of hospitalization among children;

Whereas among children ages 5 to 17, asthma is a leading cause of school absences from a chronic illness;

Whereas asthma accounts for an annual loss of more than 12,800,000 school days per year, which is approximately 8 days for each student with asthma, and it is estimated that children with asthma spend nearly 8,000,000 days per year restricted to bed;

Whereas the annual cost of asthma is estimated to be nearly $18,000,000,000;

Whereas the Asthma and Allergy Foundation of America first declared ''National Asthma and Allergy Awareness Week'' 25 years ago in May 1984;

¶67.7 ISRAEL MEMBERSHIP IN ORGANIZATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

Ms. BERKLEY moved to suspend the rules and agree to the resolution (H. Res. 1391); as amended:

Whereas Israel first sent an observer delegation to the Organization for Economic Co-operation and Development (OECD) in 1994, and first began actively seeking to join the OECD in 2000, when it met the OECD's membership requirements relating to industrial and per-capita product criteria;

Whereas in May 2006, the OECD adopted in full the Report by the Working Party on the Implications of Future Enlargement on OECD Governance, stating that expanding membership is vital to the organization;

Whereas Israel has been the most active nonmember country in the OECD, is a member, observer, or ad hoc observer in dozens of working bodies, is party to various OECD declarations, and is already in compliance with multiple OECD standards;

Whereas Israel's tax burden, encompassing income and property taxes, customs duties, value-added taxes, and national insurance, is much lower than in most OECD member states;

Whereas the World Bank ranks Israel among the 30 countries in which it is easiest to do business, and ranks Israel as tied for fourth in ease of getting credit and tied for fifth in protection of investors;

Whereas in 2010, the World Economic Forum ranked Israel 27th out of 133 countries in its Growth Competitiveness Index, and in particular ranked Israel third in quality of scientific research institutions, fourth in utility patents, fifth in strength of investor protection, fifth in the Forum's legal

rights index, seventh in life expectancy, ninth in innovation, 15th in financial market sophistication, 15th in availability of the latest technologies, and 15th in judicial independence;

Whereas the World Economic Forum ranked Israel 28th out of 133 countries in its 2009–2010 Networked Readiness Index and 29th out of 121 in its 2009 Enabling Trade Index;

Whereas Israel has carried out far-reaching economic reforms in recent years with respect to taxes, labor, competition, capital markets, pension funds, energy, infrastructures, communications, transport, housing, and other fields, growing its private sector and streamlining its public sector;

Whereas Israel is a world leader in science and technology and is home to the most high-technology start-up companies, scientific publications, and research and development spending per capita;

Whereas membership in the OECD will likely strengthen the position of Israel in the global economy and within international financial institutions, solidify Israel's transition from an emerging market to an advanced economy, and encourage increased foreign direct investment in Israel;

Whereas Israel's accession to membership in the OECD will strengthen the OECD because of Israel's high living standards, free and stable markets, and commitment to democracy, human rights, and freedom;

Whereas Israel's economic and technological standing will likely benefit OECD member states in innovation, in research and development, and in the science and technology, including high-technology, sectors;

Whereas Israel is a strong ally and friend of the United States and supports the United States in international organizations more consistently than any other country;

Whereas, on November 8, 2005, the House of Representatives unanimously adopted H. Res. 38, and on May 3, 2007, the Senate by unanimous consent adopted S. Res. 188, in support of Israel's accession to membership in the OECD;

Whereas in May 2007, during the annual meeting of the OECD's ministerial council, OECD member states invited Israel to open talks for accession to membership in that organization;

Whereas the Secretary-General of the OECD, Angel Gurria, has supported Israel's candidacy for accession to OECD membership and worked to ensure that Israel's candidacy was not politicized, and was judged by objective economic and democratic standards;

Whereas the United States has supported Israel's candidacy for accession to OECD membership;

Whereas, on May 10, 2010, the 31 OECD member states unanimously agreed to invite Israel to become a member of that organization, with the OECD noting in a statement that ''Israel's scientific and technological policies have produced outstanding outcomes on a world scale.'';

Whereas, on May 10, 2010, Israeli Prime Minister Benjamin Netanyahu noted regarding Israel's accession to OECD membership that ''Israel's accession to the OECD has strategic importance for the process of positioning Israel's economy as a developed and advanced economy, as well as in attracting international investments . . . There is still work to be done. We have done a great deal. We are doing a great deal; and we will do a great deal . . . so that we can be on the list of leading countries, among the 15 most advanced countries in the world. This goal is possible and it won't take us too many years to accomplish.'';

Whereas Israel will be welcomed into the OECD during the annual meeting of that organization's ministerial council on May 27, 2010, and will fully accede to membership once it passes the requisite enacting legislation, a process that is likely to be completed within months; and

Whereas Israel continues to pursue further opportunities to accede to membership or enhance its participation, as the case may be, in international forums: Now, therefore, be it

Resolved, That the House of Representatives—

(1) congratulates Israel for its accession to membership in the Organization for Economic Co-operation and Development (OECD);

(2) commends the 31 nations of the OECD, as well as OECD Secretary-General Angel Gurria, for recognizing Israel's economic success as well as its commitment to the principles of democratic government and market economy by unanimously electing Israel to OECD membership;

(3) recognizes the importance of the strong role played by the United States in Israel's successful bid for accession to membership in the OECD; and

(4) calls on responsible nations to support efforts by Israel to accede to membership or enhance its participation, as the case may be, in international forums.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, recognized Ms. BERKLEY and Ms. ROS-LEHTINEN, each for 20 minutes.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

The SPEAKER pro tempore, Mr. JACKSON of Illinois, pursuant to clause 12(a) of rule I, declared the House in recess at 11 o'clock and 10 minutes a.m., subject to the call of the Chair.

¶67.9 AFTER RECESS—5:45 P.M.

The SPEAKER pro tempore, Ms. RICHARDSON, called the House to order.

¶67.10 H. RES. 1347—UNFINISHED BUSINESS

So the amendment was agreed to.

¶68.19 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 13, printed in House Report 111-498, submitted by Mr. MCGOVERN:

Add at the end of subtitle F of title X, the following:

SEC. 1065. FINDINGS AND SENSE OF CONGRESS ON OBESITY AND FEDERAL CHILD NUTRITION PROGRAMS.

(a) FINDINGS.—Congress find the following:

(1) According to the April 2010 report, ''Too Fat to Fight'', more than 100 retired generals and admirals wrote that, ''[o]besity among children and young adults have increased so dramatically that they threaten not only the overall health of America but the future strength of our military.''

(2) Twenty-seven percent, over 9,000,000, 17-24-year-olds in the United States are too fat to serve in the military.

(3) Between 1995 and 2008, the military had 140,000 individuals who showed up at the centers for processing but failed their entrance physicals because they were too heavy.

(4) Being overweight is now the leading medical reason for rejection from military service.

(5) Between 1995 and 2008, the proportion of potential recruits who failed their physicals each year because they were overweight rose nearly 70 percent.

(6) The military annually discharges over 1,200 first-term enlistees before their contracts are up because of weight problems.

(7) The military must then recruit and train their replacements at a cost of $50,000 for each man or woman.

(8) Training replacements for those discharged because of weight problems adds up to more than $60,000,000 annually.

(10) Overweight adolescents are more likely to become overweight adults.

(11) Overweight adolescents and overweight adults are at risk of developing obesity-related, life-threatening diseases including cancer, type 2 diabetes, stroke, heart disease, arthritis, and breathing problems.

(12) According to the American Public Health Association, ''left unchecked, obesity will add nearly $344 billion to the nations annual health care costs by 2018 and account for more than 21 percent of health care spending''.

(13) Overweight and undernourished adolescents face academic challenges due to poor health behaviors, resulting in even greater risk to their future health and earing and the Nation's economic growth and worldwide competition.

(14) For decades military leaders have championed efforts to improve the nutrition of young people in America.

(15) During World War II, 40 percent of rejected recruits were turned away because of poor or under nutrition.

(16) The preamble to the Richard B. Russell National School Lunch Act (42 U.S.C. 1751) states ''It is hereby declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation's children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants in aid and other means, in providing an adequate supply of food and other facilities for the establishment, maintenance, operation and expansion of nonprofit school lunch programs''.

(17) Over 17 million children were food insecure, or hungry, in 2008, according to data collected by the Department of Agriculture.

(18) The Federal Child Nutrition Programs under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) are proven to be effective in combating both hunger and obesity.

(19) President Obama has called for a historic investment in the Federal Child Nutrition Programs in order to respond to 2 of the greatest child health challenges of our time, hunger and poor nutrition.

(20) Two hundred twenty-one Members of Congress signed a letter to Speaker Pelosi in support of President Obama's budget request for the Federal Child Nutrition Programs.

(21) This same letter requested identification of possible offsets for the new investments in these important anti-hunger and nutrition programs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) reducing domestic childhood obesity and hunger is a matter of national security;

(2) obesity and hunger will continue to negatively impact recruitment for Armed Forces without access to physical activity, healthy food, and proper nutrition;

(3) Congress should act to reduce childhood obesity and hunger;

(4) the Federal Child Nutrition Programs under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) should be funded at the President's request; and

(5) the increases in funding for such programs should be properly offset.

It was decided in the affirmative ..... { Yeas ..... 341 / Nays 85

''AUDITS OF INTELLIGENCE COMMUNITY BY GOVERNMENT ACCOUNTABILITY OFFICE

''SEC. 508. (a) IN GENERAL.—Except as provided in subsection (b), the Director of National Intelligence shall ensure that personnel of the Government Accountability Office designated by the Comptroller General are provided with access to all information

in the possession of an element of the intelligence community that the Comptroller General determines is necessary for such personnel to conduct an analysis, evaluation, or investigation of a program or activity of an element of the intelligence community that is requested by one of the congressional intelligence committees.

''(b) AUDITS OF PROGRAMS INVOLVING SOURCES AND METHODS.—(1) If the Director of National Intelligence determines that a portion of an analysis, evaluation, or investigation to be conducted by the Comptroller General that is requested by a committee of Congress with jurisdiction over the subject of such analysis, evaluation, or investigation involves a matter that is subject to the reporting requirements of section 503 or intelligence sources or methods, such portion may be redacted from such analysis, evaluation, or investigation and provided exclusively to the congressional intelligence committees.

''(2) If the Director of National Intelligence redacts a portion of an analysis, evaluation, or investigation under paragraph (1), the Director shall inform the committee of Congress that requested such analysis, evaluation, or investigation of the redaction.

''(c) NOTICE OF ANALYSIS, EVALUATION, OR INVESTIGATION AND PROCEDURES.—Not later than 15 days before initiating an analysis, evaluation, or investigation of an element of the intelligence community, the Comptroller General shall submit to the congressional intelligence committees a notice that includes—

''(1) a description of the analysis, evaluation, or investigation to occur and the purposes of such analysis, evaluation, or investigation;

''(2) the names of the personnel who will conduct such analysis, evaluation, or investigation and the level of security clearance possessed by such personnel; and

''(3) the procedures to be used in the course of such analysis, evaluation, or investigation for examining classified information, including a description of all facilities and materials that will be used.

''(d) DISCUSSION OF PROCEDURES.—(1) Prior to initiating an analysis, evaluation, or investigation of an element of the intelligence community, the Comptroller General, in consultation with the congressional intelligence committees, shall discuss with the Director of National Intelligence the procedures for conducting such analysis, evaluation, or investigation.

''(2) Not later than five days after the discussion referred to in paragraph (1), the Director of National Intelligence may submit to the Comptroller General a written comment suggesting any changes or modifications to the procedures referred to in paragraph (1).

''(e) CONFIDENTIALITY.—The Comptroller General shall maintain the same level of confidentiality for a record made available during the course of an analysis, evaluation, or investigation involving sources or methods as is required of the head of the element of the intelligence community from which such record is obtained. An officer or employee of the Government Accountability Office shall be subject to the same statutory penalties for unauthorized disclosure or use of a record as an officer or employee of the element of the intelligence community that provided the Comptroller General or such officer or employee of the Government Accountability Office with access to such record.

''(f) WORKPAPERS.—All workpapers of the Comptroller General and all records and property of any element of the intelligence community that the Comptroller General uses during the course of an analysis, evaluation, or investigation involving sources or methods shall remain in facilities provided by the element of the intelligence community providing such records and property.

''(g) PROVISION OF SUPPLIES.—The head of each element of the intelligence community that is a subject of an analysis, evaluation, or investigation by the Comptroller General involving sources or methods shall provide the Comptroller General with suitable and secure offices and furniture, telephones, and access to copying facilities, for purposes of such analysis, evaluation, or investigation.

''(h) PROCEDURES FOR PROTECTION OF INFORMATION.—The Comptroller General, in consultation with the congressional intelligence committees, shall establish procedures to protect from unauthorized disclosure all classified and other sensitive information furnished to the Comptroller General in the course of conducting an analysis, evaluation, or investigation involving sources and methods.

''(i) SUBMISSION OF NAMES OF PERSONNEL CONDUCTING ANALYSIS, EVALUATION, OR INVESTIGATION.—Prior to initiating an analysis, evaluation, or investigation involving sources and methods, the Comptroller General shall provide the Director of National Intelligence and the head of each element of the intelligence community that is a subject of such analysis, evaluation, or investigation with the name of each officer and employee of the Government Accountability Office who has obtained appropriate security clearance and to whom, upon proper identification, the head of such element shall make available records and information during the course of such analysis, evaluation, or investigation.

''(j) COOPERATION.—The head of each element of the intelligence community that is a subject of an analysis, evaluation, or investigation shall cooperate fully with the Comptroller General and provide timely responses to requests by the Comptroller General for documentation and information made pursuant to this section.

''(k) RULE OF CONSTRUCTION.—Except as provided in subsection (b), nothing in this section or any other provision of law shall be construed to restrict or limit the authority of the Comptroller General to audit, evaluate, or obtain access to the records of an element of the intelligence community absent specific statutory language restricting or limiting such audits, evaluations, or access to records.''.

SEC. 212. LIMITATION ON USE OF FUNDS FOR AN ALTERNATIVE PROPULSION SYSTEM FOR THE F–35 JOINT STRIKE FIGHTER PROGRAM.

(a) LIMITATION ON USE OF FUNDS FOR AN ALTERNATIVE PROPULSION SYSTEM FOR THE F–35 JOINT STRIKE FIGHTER PROGRAM.—None of the funds authorized to be appropriated or otherwise made available by this Act may be obligated or expended for the development or procurement of an alternate propulsion system for the F–35 Joint Strike Fighter program until the Secretary of Defense submits to the congressional defense committees a certification in writing that the development and procurement of the alternate propulsion system—

(1) will—

(A) reduce the total life-cycle costs of the F–35 Joint Strike Fighter program; and

(B) improve the operational readiness of the fleet of F–35 Joint Strike Fighter aircraft; and

(2) will not—

(A) disrupt the F–35 Joint Strike Fighter program during the research, development, and procurement phases of the program; and

(B) result in the procurement of fewer F–35 Joint Strike Fighter aircraft during the lifecycle of the program.

(d) OFFSETS.—

(1) NAVY JOINT STRIKE FIGHTER F136 DEVELOPMENT.—The amount authorized to be appropriated by section 201(2) for research, development, test, and evaluation for the Navy is hereby decreased by $242,500,000, with the amount of the decrease to be derived from the amounts available for the Joint Strike Fighter (PE #0604800N) for F136 development.

(2) AIR FORCE JOINT STRIKE FIGHTER F136 DEVELOPMENT.—The amount authorized to be appropriated by section 201(3) for research, development, test, and evaluation for the Air Force is hereby decreased by $242,500,000, with the amount of the decrease to be derived from the amounts available for the Joint Strike Fighter (PE #0604800F) for F136 development.

SEC. 802. DESIGNATION OF F135 ENGINE DEVELOPMENT AND PROCUREMENT PROGRAM AS MAJOR SUBPROGRAM.

(a) DESIGNATION AS MAJOR SUBPROGRAMS.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall designate the engine development and procurement program described in subsection (b) as a major subprogram of the F–35 Lightning II aircraft major defense acquisition program, in accordance with section 2430a of title 10, United States Code.

(b) DESCRIPTION.—For purposes of subsection (a), the engine development and procurement program is the F135 engine development and procurement program.

(c) ORIGINAL BASELINE.—For purposes of reporting requirements referred to in section 2430a(b) of title 10, United States Code, for the major subprogram designated under subsection (a), the Secretary shall use the Milestone B decision for the subprogram as the original baseline for the subprogram.

(d) ACTIONS FOLLOWING CRITICAL COST GROWTH.—

(1) IN GENERAL.—Subject to paragraph (2), to the extent that the Secretary elects to restructure the F–35 Lightning II aircraft major defense acquisition program subsequent to a reassessment and actions required by subsections (a) and (c) of section 2433a of title 10, United States Code, during fiscal year 2010, and also conducts such reassessment and actions with respect to the F135 engine development and procurement program (including related reporting based on the original baseline as defined in subsection (c)), the requirements of section 2433a of such title with respect to the major subprogram designated under subsection (a) shall be considered to be met with respect to the major subprogram.

(2) LIMITATION.—Actions taken in accordance with paragraph (1) shall be considered to meet the requirements of section 2433a of title 10, United States Code, with respect to the major subprogram designated under subsection (a) only to the extent that designation as a major subprogram would require the Secretary of Defense to conduct a reassessment and take actions pursuant to such section 2433a for such a subprogram upon enactment of this Act. The requirements of such section 2433a shall not be considered to be met with respect to such a subprogram in the event that additional programmatic changes, following the date of the enactment of this Act, cause the program acquisition unit cost or procurement unit cost of such a subprogram to increase by a percentage equal to or greater than the critical cost growth threshold (as defined in section 2433(a)(5) of such title) for the subprogram.

''(A) IN GENERAL.—If there is an installment acceleration amount with respect to a plan for any plan year in the restriction period with respect to an election year under paragraph (2)(D), then the shortfall amortization installment otherwise determined and payable under such paragraph for such plan year shall, subject to the limitation under subparagraph (B), be increased by such amount.

''(B) TOTAL INSTALLMENTS LIMITED TO SHORTFALL BASE.—Subject to rules prescribed by the Secretary of the Treasury, if a shortfall amortization installment with respect to any shortfall amortization base for an election year is required to be increased for any plan year under subparagraph (A)—

''(i) such increase shall not result in the amount of such installment exceeding the present value of such installment and all succeeding installments with respect to such base (determined without regard to such increase but after application of clause (ii)), and

''(ii) subsequent shortfall amortization installments with respect to such base shall, in reverse order of the otherwise required installments, be reduced to the extent necessary to limit the present value of such subsequent shortfall amortization installments (after application of this paragraph) to the present value of the remaining unamortized shortfall amortization base.

''(C) INSTALLMENT ACCELERATION AMOUNT.—For purposes of this paragraph—

''(i) IN GENERAL.—The term 'installment acceleration amount' means, with respect to any plan year in a restriction period with respect to an election year, the sum of—

''(II) the aggregate amount of extraordinary dividends and redemptions determined under subparagraph (E) for the plan year.

''(ii) ANNUAL LIMITATION.—The installment acceleration amount for any plan year shall not exceed the excess (if any) of—

''(I) the sum of the shortfall amortization installments for the plan year and all preceding plan years in the amortization period elected under paragraph (2)(D) with respect to the shortfall amortization base with respect to an election year, determined without regard to paragraph (2)(D) and this paragraph, over

''(II) the sum of the shortfall amortization installments for such plan year and all such preceding plan years, determined after application of paragraph (2)(D) (and in the case of any preceding plan year, after application of this paragraph).

''(iii) CARRYOVER OF EXCESS INSTALLMENT ACCELERATION AMOUNTS.—

''(I) IN GENERAL.—If the installment acceleration amount for any plan year (determined without regard to clause (ii)) exceeds the limitation under clause (ii), then, subject to subclause (II), such excess shall be treated as an installment acceleration amount with respect to the succeeding plan year.

''(II) CAP TO APPLY.—If any amount treated as an installment acceleration amount under subclause (I) or this subclause with respect any succeeding plan year, when added to other installment acceleration amounts (determined without regard to clause (ii)) with respect to the plan year, exceeds the limitation under clause (ii), the portion of such amount representing such excess shall be treated as an installment acceleration amount with respect to the next succeeding plan year.

''(III) LIMITATION ON YEARS TO WHICH AMOUNTS CARRIED FOR.—No amount shall be carried under subclause (I) or (II) to a plan year which begins after the first plan year following the last plan year in the restriction period (or after the second plan year following such last plan year in the case of an election year with respect to which 15-year amortization was elected under paragraph (2)(D)).

''(IV) ORDERING RULES.—For purposes of applying subclause (II), installment acceleration amounts for the plan year (determined without regard to any carryover under this clause) shall be applied first against the limitation under clause (ii) and then carryovers to such plan year shall be applied against such limitation on a first-in, first-out basis.

''(II) $1,000,000.

''(ii) AMOUNTS SET ASIDE FOR NONQUALIFIED DEFERRED COMPENSATION.—If during any calendar year assets are set aside or reserved (directly or indirectly) in a trust (or other arrangement as determined by the Secretary of the Treasury), or transferred to such a trust or other arrangement, by a plan sponsor for purposes of paying deferred compensation of an employee under a nonqualified deferred compensation plan (as defined in section 409A of such Code) of the plan sponsor, then, for purposes of clause (i), the amount of such assets shall be treated as remuneration of the employee includible in income for the calendar year unless such amount is otherwise includible in income for such year. An amount to which the preceding sentence applies shall not be taken into account under this paragraph for any subsequent calendar year.

''(iii) ONLY REMUNERATION FOR CERTAIN POST-2009 SERVICES COUNTED.—Remuneration shall be taken into account under clause (i) only to the extent attributable to services performed by the employee for the plan sponsor after February 28, 2010.

''(iv) EXCEPTION FOR CERTAIN EQUITY PAYMENTS.—

''(I) IN GENERAL.—There shall not be taken into account under clause (i)(I) any amount includible in income with respect to the granting after February 28, 2010, of service recipient stock (within the meaning of section 409A of the Internal Revenue Code of 1986) that, upon such grant, is subject to a substantial risk of forfeiture (as defined under section 83(c)(1) of such Code) for at least 5 years from the date of such grant.

''(vi) SELF-EMPLOYED INDIVIDUAL TREATED AS EMPLOYEE.—The term 'employee' includes, with respect to a calendar year, a self-employed individual who is treated as an employee under section 401(c) of such Code for the taxable year ending during such calendar year, and the term 'compensation' shall include earned income of such individual with respect to such self-employment.

''(vii) INDEXING OF AMOUNT.—In the case of any calendar year beginning after 2010, the dollar amount under clause (i)(II) shall be increased by an amount equal to—

''(I) such dollar amount, multiplied by

''(II) the cost-of-living adjustment determined under section 1(f)(3) of such Code for the calendar year, determined by substituting 'calendar year 2009' for 'calendar year 1992' in subparagraph (B) thereof.

If the amount of any increase under clause (i) is not a multiple of $1,000, such increase shall be rounded to the next lowest multiple of $1,000.

''(E) EXTRAORDINARY DIVIDENDS AND REDEMPTIONS.—

''(i) IN GENERAL.—The amount determined under this subparagraph for any plan year is the excess (if any) of the sum of the dividends declared during the plan year by the plan sponsor plus the aggregate amount paid for the redemption of stock of the plan sponsor redeemed during the plan year over the greater of—

''(I) the adjusted net income (within the meaning of section 4043) of the plan sponsor for the preceding plan year, determined without regard to any reduction by reason of interest, taxes, depreciation, or amortization, or

''(II) in the case of a plan sponsor that determined and declared dividends in the same manner for at least 5 consecutive years immediately preceding such plan year, the aggregate amount of dividends determined and declared for such plan year using such manner.

''(ii) ONLY CERTAIN POST-2009 DIVIDENDS AND REDEMPTIONS COUNTED.—For purposes of clause (i), there shall only be taken into account dividends declared, and redemptions occurring, after February 28, 2010.

''(iii) EXCEPTION FOR INTRA-GROUP DIVIDENDS.—Dividends paid by one member of a controlled group (as defined in section 302(d)(3)) to another member of such group shall not be taken into account under clause (i).

termination of employment of an employee or shareholder, shall not be taken into account under clause (i).

''(v) EXCEPTION FOR CERTAIN PREFERRED STOCK.—

''(I) IN GENERAL.—Dividends and redemptions with respect to applicable preferred stock shall not be taken into account under clause (i) to the extent that dividends accrue with respect to such stock at a specified rate in all events and without regard to the plan sponsor's income, and interest accrues on any unpaid dividends with respect to such stock.

''(II) APPLICABLE PREFERRED STOCK.—For purposes of subclause (I), the term 'applicable preferred stock' means preferred stock which was issued before March 1, 2010 (or which was issued after such date and is held by an employee benefit plan subject to the provisions of this title).

''(II) if the plan sponsor elects 15-year amortization for the shortfall amortization base for the election year, the 5-year period beginning with the election year (or, if later, the first plan year beginning after December 31, 2009).

''(iii) ELECTIONS FOR MULTIPLE PLANS.—If a plan sponsor makes elections under paragraph (2)(D) with respect to 2 or more plans, the Secretary of the Treasury shall provide rules for the application of this paragraph to such plans, including rules for the ratable allocation of any installment acceleration amount among such plans on the basis of each plan's relative reduction in the plan's shortfall amortization installment for the first plan year in the amortization period described in subparagraph (A) (determined without regard to this paragraph).

''(iv) MERGERS AND ACQUISITIONS.—The Secretary of the Treasury shall prescribe rules for the application of paragraph (2)(D) and this paragraph in any case where there is a merger or acquisition involving a plan sponsor making the election under paragraph (2)(D).''.

''(I) the shortfall amortization installments with respect to such base shall be determined under clause (ii) or (iii), whichever is specified in the election, and

''(II) the shortfall amortization installment for any plan year in the 9-plan-year period described in clause (ii) or the 15-plan-year period described in clause (iii), respectively, with respect to such shortfall amortization base is the annual installment determined under the applicable clause for that year for that base.

''(ii) 2 PLUS 7 AMORTIZATION SCHEDULE.—The shortfall amortization installments determined under this clause are—

''(I) in the case of the first 2 plan years in the 9-plan-year period beginning with the election year, interest on the shortfall amortization base of the plan for the election year (determined using the effective interest rate for the plan for the election year), and

''(II) in the case of the last 7 plan years in such 9-plan-year period, the amounts necessary to amortize the remaining balance of the shortfall amortization base of the plan for the election year in level annual installments over such last 7 plan years (using the segment rates under subparagraph (C) for the election year).

''(B) TOTAL INSTALLMENTS LIMITED TO SHORTFALL BASE.—Subject to rules prescribed by the Secretary, if a shortfall amortization installment with respect to any shortfall amortization base for an election year is required to be increased for any plan year under subparagraph (A)—

''(i) such increase shall not result in the amount of such installment exceeding the present value of such installment and all succeeding installments with respect to such base (determined without regard to such increase but after application of clause (ii)), and

''(ii) subsequent shortfall amortization installments with respect to such base shall, in reverse order of the otherwise required installments, be reduced to the extent necessary to limit the present value of such subsequent shortfall amortization installments (after application of this paragraph) to the present value of the remaining unamortized shortfall amortization base.

''(A) AMORTIZATION OF NET INVESTMENT LOSSES.—

''(i) IN GENERAL.—A multiemployer plan with respect to which the solvency test under subparagraph (C) is met may treat the portion of any experience loss or gain attributable to net investment losses incurred in either or both of the first two plan years ending after August 31, 2008, as an item separate from other experience losses, to be amortized in equal annual installments (until fully amortized) over the period—

''(I) beginning with the plan year in which such portion is first recognized in the actuarial value of assets, and

''(II) ending with the last plan year in the 30-plan year period beginning with the plan year in which such net investment loss was incurred.

''(ii) COORDINATION WITH EXTENSIONS.—If this subparagraph applies for any plan year—

''(I) no extension of the amortization period under clause (i) shall be allowed under subsection (d), and

''(II) if an extension was granted under subsection (d) for any plan year before the election to have this subparagraph apply to the plan year, such extension shall not result in such amortization period exceeding 30 years.

''(iii) NET INVESTMENT LOSSES.—For purposes of this subparagraph—

''(I) IN GENERAL.—Net investment losses shall be determined in the manner prescribed by the Secretary of the Treasury on the basis of the difference between actual and expected returns (including any difference attributable to any criminally fraudulent investment arrangement).

''(II) CRIMINALLY FRAUDULENT INVESTMENT ARRANGEMENTS.—The determination as to whether an arrangement is a criminally fraudulent investment arrangement shall be made under rules substantially similar to the rules prescribed by the Secretary of the Treasury for purposes of section 165 of the Internal Revenue Code of 1986.

''(B) EXPANDED SMOOTHING PERIOD.—

''(i) IN GENERAL.—A multiemployer plan with respect to which the solvency test under subparagraph (C) is met may change its asset valuation method in a manner which—

''(C) SOLVENCY TEST.—The solvency test under this paragraph is met only if the plan actuary certifies that the plan is projected to have sufficient assets to timely pay expected benefits and anticipated expenditures over the amortization period, taking into account the changes in the funding standard account under this paragraph.

''(D) RESTRICTION ON BENEFIT INCREASES.—If subparagraph (A) or (B) apply to a multiemployer plan for any plan year, then, in addition to any other applicable restrictions on benefit increases, a plan amendment increasing benefits may not go into effect during either of the 2 plan years immediately following such plan year unless—

''(I) any such increase is paid for out of additional contributions not allocated to the plan immediately before the application of this paragraph to the plan, and

''(II) the plan's funded percentage and projected credit balances for such 2 plan years are reasonably expected to be at least as high as such percentage and balances would have been if the benefit increase had not been adopted, or

''(ii) the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986 or to comply with other applicable law.

''(E) REPORTING.—A plan sponsor of a plan to which this paragraph applies shall—

''(i) give notice of such application to participants and beneficiaries of the plan, and

''(I) beginning with the plan year in which such portion is first recognized in the actuarial value of assets, and

''(II) ending with the last plan year in the 30-plan year period beginning with the plan year in which such net investment loss was incurred.

''(ii) COORDINATION WITH EXTENSIONS.—If this subparagraph applies for any plan year—

''(I) no extension of the amortization period under clause (i) shall be allowed under subsection (d), and

''(II) if an extension was granted under subsection (d) for any plan year before the election to have this subparagraph apply to the plan year, such extension shall not result in such amortization period exceeding 30 years.

''(ii) ASSET VALUATION METHODS.—If this subparagraph applies for any plan year—

''(I) the Secretary shall not treat the asset valuation method of the plan as unreasonable solely because of the changes in such method described in clause (i), and

''(i) 1.064 percent of such gross receipts for the privilege of further transmitting, beyond the local service area of such primary transmitter, any non-network programming of a primary transmitter in whole or in part, such amount to be applied against the fee, if any, payable pursuant to clauses (ii) through (iv);

''(i) gross receipts of the cable system for the purpose of this paragraph shall be computed by subtracting from such actual gross receipts the amount by which $263,800 exceeds such actual gross receipts, except that in no case shall a cable system's gross receipts be reduced to less than $10,400; and

''(ii) the royalty fee payable under this paragraph to copyright owners pursuant to paragraph (3) shall be 0.5 percent, regardless of the number of distant signal equivalents, if any.

''(1) INJUNCTION WAIVER.—A court that issued an injunction pursuant to subsection (a)(7)(B) before the date of the enactment of this subsection shall waive such injunction if the court recognizes the entity against which the injunction was issued as a qualified carrier.

''(2) LIMITED TEMPORARY WAIVER.—

''(A) IN GENERAL.—Upon a request made by a satellite carrier, a court that issued an injunction against such carrier under subsection (a)(7)(B) before the date of the enactment of this subsection shall waive such injunction with respect to the statutory license provided under subsection (a)(2) to the extent necessary to allow such carrier to make secondary transmissions of primary transmissions made by a network station to unserved households located in short markets in which such carrier was not providing local service pursuant to the license under section 122 as of December 31, 2009.

''(B) EXPIRATION OF TEMPORARY WAIVER.—A temporary waiver of an injunction under subparagraph (A) shall expire after the end of the 120-day period beginning on the date such temporary waiver is issued unless extended for good cause by the court making the temporary waiver.

''(C) FAILURE TO PROVIDE LOCAL-INTO-LOCAL SERVICE TO ALL DMAS.—

''(i) FAILURE TO ACT REASONABLY AND IN GOOD FAITH.—If the court issuing a temporary waiver under subparagraph (A) determines that the satellite carrier that made the request for such waiver has failed to act reasonably or has failed to make a good faith effort to provide local-into-local service to all DMAs, such failure—

''(I) is actionable as an act of infringement under section 501 and the court may in its discretion impose the remedies provided for in sections 502 through 506 and subsection (a)(6)(B) of this section; and

''(II) shall result in the termination of the waiver issued under subparagraph (A).

''(ii) FAILURE TO PROVIDE LOCAL-INTO-LOCAL SERVICE.—If the court issuing a temporary waiver under subparagraph (A) determines that the satellite carrier that made the request for such waiver has failed to provide local-into-local service to all DMAs, but determines that the carrier acted reasonably and in good faith, the court may in its discretion impose financial penalties that reflect—

''(I) the degree of control the carrier had over the circumstances that resulted in the failure;

''(II) the quality of the carrier's efforts to remedy the failure; and

''(III) the severity and duration of any service interruption.

''(D) SINGLE TEMPORARY WAIVER AVAILABLE.—An entity may only receive one temporary waiver under this paragraph.

''(C) VOLUNTARY TERMINATION.—At any time, an entity recognized as a qualified carrier may file a statement of voluntary termination with the court certifying that it no longer wishes to be recognized as a qualified carrier. Upon receipt of such statement, the court shall reinstate the injunction waived under paragraph (1).

''(D) LOSS OF RECOGNITION PREVENTS FUTURE RECOGNITION.—No entity may be recognized as a qualified carrier if such entity had previously been recognized as a qualified carrier and subsequently lost such recognition or voluntarily terminated such recognition under subparagraph (C).

''(4) QUALIFIED CARRIER OBLIGATIONS AND COMPLIANCE.—

''(ii) RECORDS OF QUALIFIED CARRIER.—Beginning on the date that is one year after the date on which the qualified carrier is recognized as such under paragraph (3)(B), but not later than October 1, 2011, the qualified carrier shall provide the Comptroller General with all records that the Comptroller General, in consultation with the Register of Copyrights, considers to be directly pertinent to the following requirements under this section:

''(I) Proper calculation and payment of royalties under the statutory license under this section.

''(II) Provision of service under this license to eligible subscribers only.

''(iii) SUBMISSION OF REPORT.—The Comptroller General shall file the report required by clause (i) not later than March 1, 2012, with the court referred to in paragraph (1) that issued the injunction, the Register of Copyrights, the Committees on the Judiciary and on Energy and Commerce of the House of Representatives, and the Committees on the Judiciary and on Commerce, Science, and Transportation of the Senate.

''(iv) EVIDENCE OF INFRINGEMENT.—The Comptroller General shall include in the report a statement of whether the examination by the Comptroller General indicated that there is substantial evidence that a copyright holder could bring a successful action under this section against the qualified carrier for infringement. The Comptroller General shall consult with the Register of Copyrights in preparing such statement.

''(v) SUBSEQUENT EXAMINATION.—If the report includes the Comptroller General's statement that there is substantial evidence that a copyright holder could bring a successful action under this section against the qualified carrier for infringement, the Comptroller General shall, not later than 6 months after the report under clause (i) is published, initiate another examination of the qualified carrier's compliance with the royalty payment and household eligibility requirements of the license under this section since the last report was filed under clause (iii). The Comptroller General shall file a report on such examination with the court referred to in paragraph (1) that issued the injunction, the Register of Copyrights, the Committees on the Judiciary and on Energy and Commerce of the House of Representatives, and the Committees on the Judiciary and on Commerce, Science, and Transportation of the Senate. The report shall include a statement described in clause (iv), prepared in consultation with the Register of Copyrights.

''(C) AFFIRMATION.—A qualified carrier shall file an affidavit with the district court and the Register of Copyrights 30 months after such status was granted stating that, to the best of the affiant's knowledge, it is in compliance with the requirements for a qualified carrier.

''(D) COMPLIANCE DETERMINATION.—Upon the motion of an aggrieved television broadcast station, the court recognizing an entity as a qualified carrier may make a determination of whether the entity is providing local-into-local service to all DMAs.

''(E) PLEADING REQUIREMENT.—In any motion brought under subparagraph (D), the party making such motion shall specify one or more designated market areas (as such term is defined in section 122(j)(2)(C)) for which the failure to provide service is being alleged, and, for each such designated market area, shall plead with particularity the circumstances of the alleged failure.

''(F) BURDEN OF PROOF.—In any proceeding to make a determination under subparagraph (D), and with respect to a designated market area for which failure to provide service is alleged, the entity recognized as a qualified carrier shall have the burden of proving that the entity provided local-into-local service with a good quality satellite signal to at least 90 percent of the households in such designated market area (based on the most recent census data released by the United States Census Bureau) at the time and place alleged.

''(5) FAILURE TO PROVIDE SERVICE.—

''(A) PENALTIES.—If the court recognizing an entity as a qualified carrier finds that such entity has willfully failed to provide local-into-local service to all DMAs, such finding shall result in the loss of recognition of the entity as a qualified carrier and the termination of the waiver provided under paragraph (1), and the court may, in its discretion—

''(i) treat such failure as an act of infringement under section 501, and subject such infringement to the remedies provided for in sections 502 through 506 and subsection (a)(6)(B) of this section; and

''(ii) impose a fine of not less than $250,000 and not more than $5,000,000.

''(B) EXCEPTION FOR NONWILLFUL VIOLATION.—If the court determines that the failure to provide local-into-local service to all DMAs is nonwillful, the court may in its discretion impose financial penalties for noncompliance that reflect—

''(i) the degree of control the entity had over the circumstances that resulted in the failure;

''(ii) the quality of the entity's efforts to remedy the failure and restore service; and

''(iii) the severity and duration of any service interruption.

''(6) PENALTIES FOR VIOLATIONS OF LICENSE.—A court that finds, under subsection (a)(6)(A), that an entity recognized as a qualified carrier has willfully made a secondary transmission of a primary transmission made by a network station and embodying a performance or display of a work to a subscriber who is not eligible to receive the transmission under this section shall reinstate the injunction waived under paragraph (1), and the court may order statutory damages of not more than $2,500,000.

''(7) LOCAL-INTO-LOCAL SERVICE TO ALL DMAS DEFINED.—For purposes of this subsection:

Such test shall be conducted within 30 days after the date the subscriber submits a request for the test. If the written findings and conclusions of a test conducted in accordance with such clause demonstrate that the subscriber does not receive a signal that meets or exceeds the requisite signal intensity standard in such clause, the subscriber shall not be denied the retransmission of a signal of a network station under section 119(d)(10)(A) of title 17, United States Code.'';

SEC. 526. PROCESS FOR ISSUING QUALIFIED CARRIER CERTIFICATION.

Part I of title III is amended by adding at the end the following new section:

''SEC. 342. PROCESS FOR ISSUING QUALIFIED CARRIER CERTIFICATION.

''(a) CERTIFICATION.—The Commission shall issue a certification for the purposes of section 119(g)(3)(A)(iii) of title 17, United States Code, if the Commission determines that—

''(1) a satellite carrier is providing local service pursuant to the statutory license under section 122 of such title in each designated market area; and

''(2) with respect to each designated market area in which such satellite carrier was not providing such local service as of the date of enactment of the Satellite Television Extension and Localism Act of 2010—

''(A) the satellite carrier's satellite beams are designed, and predicted by the satellite manufacturer's pre-launch test data, to provide a good quality satellite signal to at least 90 percent of the households in each such designated market area based on the most recent census data released by the United States Census Bureau; and

''(B) there is no material evidence that there has been a satellite or sub-system failure subsequent to the satellite's launch that precludes the ability of the satellite carrier to satisfy the requirements of subparagraph (A).

''(b) INFORMATION REQUIRED.—Any entity seeking the certification provided for in subsection (a) shall submit to the Commission the following information:

''(1) An affidavit stating that, to the best of the affiant's knowledge, the satellite carrier provides local service in all designated market areas pursuant to the statutory license provided for in section 122 of title 17, United States Code, and listing those designated market areas in which local service was provided as of the date of enactment of the Satellite Television Extension and Localism Act of 2010.

''(2) For each designated market area not listed in paragraph (1):

''(A) Identification of each such designated market area and the location of its local receive facility.

''(B) Data showing the number of households, and maps showing the geographic distribution thereof, in each such designated market area based on the most recent census data released by the United States Census Bureau.

''(C) Maps, with superimposed effective isotropically radiated power predictions obtained in the satellite manufacturer's prelaunch tests, showing that the contours of the carrier's satellite beams as designed and the geographic area that the carrier's satellite beams are designed to cover are predicted to provide a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

''(D) For any satellite relied upon for certification under this section, an affidavit stating that, to the best of the affiant's knowledge, there have been no satellite or sub-system failures subsequent to the satellite's launch that would degrade the design performance to such a degree that a satellite transponder used to provide local service to any such designated market area is precluded from delivering a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

''(E) Any additional engineering, designated market area, or other information the Commission considers necessary to determine whether the Commission shall grant a certification under this section.

''(c) CERTIFICATION ISSUANCE.—

''(1) PUBLIC COMMENT.—The Commission shall provide 30 days for public comment on a request for certification under this section.

''(2) DEADLINE FOR DECISION.—The Commission shall grant or deny a request for certification within 90 days after the date on which such request is filed.

''(d) SUBSEQUENT AFFIRMATION.—An entity granted qualified carrier status pursuant to section 119(g) of title 17, United States Code, shall file an affidavit with the Commission 30 months after such status was granted stating that, to the best of the affiant's knowledge, it is in compliance with the requirements for a qualified carrier.

''(e) DEFINITIONS.—For the purposes of this section:

''(2) GOOD QUALITY SATELLITE SIGNAL.—

''(A) IN GENERAL.—The term ''good quality satellite signal'' means—

''(i) a satellite signal whose power level as designed shall achieve reception and demodulation of the signal at an availability level of at least 99.7 percent using—

''(I) models of satellite antennas normally used by the satellite carrier's subscribers; and

''(II) the same calculation methodology used by the satellite carrier to determine predicted signal availability in the top 100 designated market areas; and

''(ii) taking into account whether a signal is in standard definition format or high definition format, compression methodology, modulation, error correction, power level, and utilization of advances in technology that do not circumvent the intent of this section to provide for non-discriminatory treatment with respect to any comparable television broadcast station signal, a video signal transmitted by a satellite carrier such that—

''(I) the satellite carrier treats all television broadcast stations' signals the same with respect to statistical multiplexer prioritization; and

''(II) the number of video signals in the relevant satellite transponder is not more than the then current greatest number of video signals carried on any equivalent transponder serving the top 100 designated market areas.

''(B) DETERMINATION.—For the purposes of subparagraph (A), the top 100 designated market areas shall be as determined by Nielsen Media Research and published in the Nielsen Station Index Directory and Nielsen Station Index United States Television Household Estimates or any successor publication as of the date of a satellite carrier's application for certification under this section.''.
