Semiannual Regulatory Agenda

**DEPARTMENT OF DEFENSE (DOD)****DEPARTMENT OF DEFENSE****32 CFR Chs. I, V, VI, and VII****33 CFR Ch. II****36 CFR Ch. III****Improving Government Regulations;  
Semiannual Agenda of Regulations****AGENCY:** Department of Defense (DoD).**ACTION:** Semiannual regulatory agenda.

**SUMMARY:** The Department of Defense (DoD) is publishing this semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under E.O. 12866 "Regulatory Planning and Review" and the Office of Federal Procurement Policy Act of 1988 (41 U.S.C. 402). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12866, the Federal Procurement Policy Act, and other regulatory guidance. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, or tribal interests under the criteria of E.O. 12866. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

The agenda portion of this document updates the report published on November 28, 1995, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included herein will also be used by the Office of Federal Procurement Policy to publish the "Procurement Regulatory Activity Report" required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in October 1996, in consolidation with the annual regulatory plan. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

For specific agenda items, contact the appropriate individual indicated in each DoD component report.

**SUPPLEMENTARY INFORMATION:** This regulatory agenda is composed of the regulatory status reports, including procurement-related regulatory status reports, from the Office of the Secretary of Defense (OSD) and the Departments of the Army, Navy, and Air Force. Included also is the regulatory status report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12866 and involve water resource projects and regulation of activities in waters of the United States.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12866, will continue to be the DoD single-source reporting vehicle, which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, DoD components will identify those rules which come under the criteria of the:

- a. Regulatory Flexibility Act;
- b. Paperwork Reduction Act of 1995;
- c. Office of Federal Procurement Policy Act Amendments of 1988.

Those DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, DoD will continue to participate in regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public.

**DOD**

Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, DoD

reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission. The publishing of this agenda does not waive the applicability of the military affairs exemption in

section 553 of title 5 and section 3 of E.O. 12866.

Dated: February 26, 1996.

**Abstract:** This Interim Rule implements section 558 of the National Defense Authorization Act for fiscal year 1995 (PL 103-337 (1994)), as it applies to grants. Section 558 states that funds available to the Department of Defense may not be provided by grant or contract to any institution of higher education that has a policy of denying, or which effectively prevents, the Secretary of Defense from obtaining for military recruiting purposes: entry to campuses; access to students on campuses; or access to directory information pertaining to students. This rule implements the law, as it applies to grants, by requiring inclusion of an appropriate clause in DoD grants with institutions of higher education. It also extends the requirement, as a matter of policy, to DoD cooperative agreements, because they are very similar to grants.

#### 677. COLLECTION FROM THIRD PARTY PAYERS OF REASONABLE COSTS OF HEALTHCARE SERVICES; AMENDMENT

**Priority:** Substantive, Nonsignificant**Legal Authority:** 5 USC 301; 10 USC 1095**CFR Citation:** 32 CFR 220**Legal Deadline:** None

**Abstract:** This rule establishes a new rule under the Third Party Collection program for determining the reasonable

## DOD—OS

## Final Rule Stage

costs of healthcare services provided by facilities of the Uniformed Services in cases in which care is provided under TRICARE Resource Sharing Agreements. For purposes of the Third Party Collection program, such services will be treated the same as other services provided by facilities of the Uniformed Services. This rule also lowers the high cost ancillary threshold value from \$60 to \$25 for patients that come to the Uniformed Services facility for ancillary services requested by a source other than a Uniformed Services facility provider. The reasonable costs of such services will be accumulated on a daily basis. The Department of Defense is now implementing TRICARE, a major structural reform of the military health care system, featuring adoption of managed care practices in military hospitals and by special civilian contract provider networks. Consistent with TRICARE, as part of the Third Party Collection Program, DoD is transitioning to a billing and collection system in which all costs borne by DoD Medical Treatment Facilities (MTFs) will be billed by the MTF providing the care. Thus, all care performed within the facility, plus an added amount for supplemental care purchased by the facility, will be billed by the MTF. Conversely, care provided outside the MTF under other arrangements will be billed by the provider of that care.

**Abstract:** The Corps of Engineers intends to make numerous clarifications to its existing regulations at 33 CFR 320 to 330, to consolidate all permit regulations into one document, and to reorganize 33 CFR 325 for clarity. Since the Corps Regulatory Program final regulations were published in the Federal Register on November 13, 1986 (51 CFR 41206), there has been need to clarify several of those provisions. Since 1986, the Corps has adopted two new appendices at 33 CFR 325, appendices B and C, and the Corps has also adopted revisions to the Nationwide Permit Program (33 CFR 330), Class 1 Administrative Civil Penalties (33 CFR 326), and revisions to the definition of discharge of Dredged Material and Fill Material and prior converted croplands. For clarity, the Corps intends to consolidate all these changes into one document.

Under this program, waiver of benefit limits to the Basic CHAMPUS program may be authorized for beneficiaries when the provision of such services or supplies is cost-effective and clinically appropriate, as compared to historical or projected CHAMPUS/MTF utilization of health care services. It is designed to develop a cost-effective plan of care by targeting appropriate resources to meet the individual needs of the beneficiary.
