So the amendment was not agreed to. After some further time,

The SPEAKER pro tempore, Mr. ROEMER, assumed the Chair.

When Mr. SKAGGS, Chairman, reported that the Committee, having had under consideration said bill, had come to no resolution thereon.

§57.22 SUBMISSION OF CONFERENCE REPORT—H.R. 4990

Mr. MURTHA submitted a conference report (Rept. No. 102-530) on the bill (H.R. 4990) rescinding certain budget authority, and for other purposes; together with a statement thereon, for printing in the Record under the rule.

§57.23 ENERGY POLICY

The SPEAKER pro tempore, Mr. ROEMER, pursuant to House Resolution 459 and rule XXIII, declared the House resolved into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 776) to provide for improved energy efficiency.

Mr. SKAGGS, Chairman of the Committee of the Whole, resumed the

chair; and after some time spent therein,

§57.24 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. CLEMENT:

On page 719, strike line 20 and all that follows through Page 727, line 3, and insert the following (and redesignate the subsequent provisions, and conform the table of contents, accordingly):

Subtitle A—Combined Construction Permit and Operating License

SEC. 2801. COMBINED LICENSES.

Section 185 of the Atomic Energy Act of 1954 (42 U.S.C. 2235) is amended—

(1) in the heading for such section by adding "and Operating Licenses" after "Permits";

(2) by adding a subsection designator "a." before "All applicants for licenses"; and

(3) by adding at the end the following new subsection:

"b. After holding a public hearing under section 189 a. (1)(A), the Commission shall issue to the applicant a combined construction and operating license if the application contains sufficient information to support the issuance of a combined license and the Commission determines that there is reasonable assurance that the facility will be constructed and will operate in conformity with the license, the provisions of this Act, and the Commission's rules and regulations. The Commission shall identify within the combined license the inspections, tests, and analyses, including those applicable to emergency planning, that the licensee shall perform, and the acceptance criteria that, if met, are necessary and sufficient to provide reasonable assurance that the facility has been constructed and will be operated in conformity with the license, the provisions of this Act, and the Commission's rules and regulations. Following issuance of the combined license, the Commission shall ensure that the prescribed inspections, tests, and analyses are performed and, prior to operation of the facility, shall find that the prescribed acceptance criteria are met. Any finding made under this subsection shall not require a hearing except as provided in section 189 a. (1)(B)."

SEC. 2802. POST-CONSTRUCTION HEARINGS ON COMBINED LICENSES.

Section 189 a. (1) of the Atomic Energy Act of 1954 (42 U.S.C. 2239(a)(1)) is amended—

(1) by adding a subparagraph designator "(A)" before "In any proceeding under this Act."; and

(2) by adding after subparagraph (A) the following new subparagraph:

"(B)(i) Not less than 180 days before the date scheduled for initial loading of fuel into a plant by a licensee that has been issued a combined construction permit and operating license under section 185 b., the Commission shall publish in the Federal Register notice of intended operation. That notice shall provide that any person whose interest may be affected by operation of the plant, may within 60 days request the Commission to hold a hearing on whether the facility as constructed complies, or on completion will comply, with the acceptance criteria of the license.

"(ii) A request for hearing under clause (i) shall show, prima facie, that one or more of the acceptance criteria in the combined license have not been, or will not be met, and the specific operational consequences of non-conformance that would be contrary to providing reasonable assurance of adequate protection of the public health and safety.

"(iii) After receiving a request for a hearing under clause (i), the Commission expedi-
