SEC. 5. SENSE OF THE CONGRESS REGARDING BASELINES.

(a) FINDINGS.—The Congress finds that—

(1) the baseline budget shows the likely course of Federal revenues and spending if policies remain unchanged;

(2) baseline budgeting has given rise to the practice of calculating policy changes from inflated spending levels; and

(3) the baseline concept has been misused to portray policies that would simply slow down the increase in spending as spending reductions.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) the President should submit a budget that compares proposed spending levels for the budget year with the current year; and

(2) the starting point for deliberations on a budget resolution should be the current year.

SEC. 6. ADJUSTMENT OF PAY-AS-YOU-GO SCORE-CARD.

It is the sense of the Congress that upon enactment of a reconciliation bill pursuant to section 4, the Director of the Office of Management and Budget shall reduce the balances of direct spending and receipts legislation applicable to each fiscal year under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 by an amount equal to the net change in the deficit achieved through the enactment in that Act of direct spending and receipts legislation for that year.

SEC. 7. SPENDING REDUCTIONS.

Nothing in this concurrent resolution on the budget commits the Congress to making the specific spending reductions used as assumptions in deriving the appropriate budgetary levels in this concurrent resolution, with the full understanding that the Congress may make comparable spending reductions in other areas to arrive at the same appropriate budgetary levels.

“(5) the Federal government should suspend regulations mandating compliance with federal statutes that result in direct costs to state and local governments until reimbursement for these costs are provided by the Federal government.”
