

(2) will cost the American private sector over \$600,000,000,000 in 1995; and

(3) will exceed 9 percent of the Nation's Gross Domestic Product and annually cost the average household between \$6,565 and \$8,869.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the Federal Government should adopt a regulatory budget that encompasses the economic impact of Federal regulations on the national economy. The ultimate goal of the regulatory budget should be to limit the cost of private and public compliance with Federal regulations to a fixed percentage of the Nation's Gross Domestic Product.

SEC. 9. SENSE OF THE CONGRESS REGARDING BASELINES.

(a) FINDINGS.—The Congress finds that—

(1) the baseline budget shows the likely course of Federal revenues and spending if policies remain unchanged;

(2) baseline budgeting has given rise to the practice of calculating policy changes from inflated spending levels; and

(3) the baseline concept has been misused to portray policies that would simply slow down the increase in spending as spending reductions.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) the President should submit a budget that compares proposed spending levels for the budget year with the current year; and

(2) the starting point for deliberations on a budget resolution should be the current year.

SEC. 10. ADJUSTMENT OF PAY-AS-YOU-GO SCORECARD.

It is the sense of the Congress that upon enactment of a reconciliation bill pursuant to section 4, the Director of the Office of Management and Budget shall reduce the balances of direct spending and receipts legislation applicable to each fiscal year under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 by an amount equal to the net change in the deficit achieved through the enactment in that Act of direct spending and receipts legislation for that year.
