## SEC. 904. BUY AMERICAN.

(a) SENSE OF CONGRESS.—It is the sense of Congress that any recipient of a grant under this Act, or under any amendment made by this Act, should purchase, when available and cost-effective, American made equipment and products when expending grant monies.

**SEC. 507. ENDOCRINE DISRUPTER RESEARCH PLANNING.**

(a) **SHORT TITLE.**—This section may be cited as the “Endocrine Disrupter Research Planning Act of 1996”.

(b) **FINDINGS.**—The Congress finds that—  
(1) recent reports in the media have focused public attention on a possible link between exposure to chemicals that may mimic hormones and may have adverse biological effects in humans and wildlife, including carcinogenic, reproductive, neurological, and immunological effects, now commonly referred to as endocrine disrupters;

(2) given the significant scientific uncertainties concerning the effects of such endocrine disrupters on humans and wildlife, it cannot at this time be concluded whether or not endocrine disrupters constitute a significant threat to human health or the environment;

(3) neither a conclusion that endocrine disrupters pose an imminent and serious threat to human health and the environment, nor a conclusion that the risks are insignificant or exaggerated, is warranted based on the present state of scientific knowledge;

(4) additional research is needed to more accurately characterize the risks of endocrine disrupters;

(5) risk assessment principles should be used to guide the development of a coordinated research plan to ensure that research results are relevant and adequate to objectively estimate risk to guide future public policy decisions;

(6) research carried out by the Federal Government should be done in a planned and coordinated manner to ensure that limited resources are spent efficiently and that critical information gaps are filled as quickly as possible; and

(7) researchers from academia, industry, and Federal laboratories should coordinate efforts to prioritize research topics, identify capital needs, and, in general, develop a comprehensive research plan to address important scientific and policy questions surrounding the potential effects of such chemicals.

(c) **RESEARCH PLANNING REPORT.**—

(1) **REPORT.**—The Administrator, in coordination with other Federal agencies with scientific expertise in areas relevant to assessing the human health and ecological risks of endocrine disrupters, shall submit to Congress, along with the President’s Budget Request for Fiscal Year 1998, a plan for conducting research needed to objectively assess and characterize the risk of endocrine disrupters on human health and environment.

(2) **CONTENTS.**—The plan submitted under this section shall include—

(A) the role of each participating agency in the research plan and the resources required by each agency to carry out the research plan, including human and capital resources needed to ensure that agencies have appropriate expertise, facilities, and analytical capabilities to meet the goals of the research plan;

(B) the mechanisms by which each agency will carry out research, including the use of Federal laboratory facilities, extramural grants and contracts, and cooperative research and development agreements with universities, research centers, and the private sector, and mechanisms to avoid duplication of effort and for appropriate peer review, including independent and external peer review of Federal agency intramural research;

(C) specific research strategies and timeliness for addressing the critical information

gaps with respect to hazard identification, dose-response assessment, and exposure assessment; and

(D) an assessment of the current state of scientific knowledge concerning effects of synthetic and naturally occurring endocrine disrupters on human health and the environment, including identification of scientific uncertainties unlikely to be capable of significant resolution in the near term, studies which support or fail to support conclusions of adverse public health effects, and the opportunity for public comment on such assessment.

(d) **SAVINGS CLAUSE.**—Nothing in this section is intended to alter, or otherwise affect any statutory authority of the Environmental Protection Agency or any other Federal regulatory agency or regulate substances which may pose a threat to the public health or the environment.

Amend the table of contents accordingly.  
Page 87, lines 1 through 21, amend subsection (g) to read as follows:

(g) **WEATHER SERVICE MODERNIZATION.**—The Weather Service Modernization Act (15 U.S.C. 313 note) is amended—

(1) in section 706—

(A) by amending subsection (b) to read as follows:

“(b) **CERTIFICATION.**—The Secretary may not close, automate, or relocate any field office unless the Secretary has certified to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science of the House of Representatives that such action will not result in degradation of service to the affected area. Such certification shall be in accordance with the modernization criteria established under section 704.”;

(B) by striking subsections (c), (d), (e), and (f); and

(C) by inserting after subsection (b) the following new subsections:

“(c) **SPECIAL CIRCUMSTANCES.**—The Secretary may not close or relocate any field office which is located at an airport, if the Secretary, in consultation with the Secretary of Transportation and the Committee, determines as a result of an air safety appraisal that such action will result in degradation of service that affects aircraft safety. This air safety appraisal shall be issued jointly by the Department of Commerce and the Department of Transportation before September 30, 1996, and shall be based on a coordinated review of all the airports in the United States subject to the certification requirements of subsection (b). The appraisal shall—

“(1) consider the weather information required to safely conduct aircraft operations and the extent to which such information is currently derived through manual observations provided by the National Weather Service and the Federal Aviation Administration, and automated observations provided from other sources including the Automated Weather Observation Service (AWOS), the Automated Surface Observing System (ASOS), and the Geostationary Operational Environmental Satellite (GOES); and

“(2) determine whether the service provided by ASOS, and ASOS augmented where necessary by human observations, provides the necessary level of service consistent with the service standards encompassed in the criteria for automation of the field offices.

“(d) **PUBLIC LIAISON.**—The Secretary shall maintain for a period of at least two years after the closure of any weather office a program to—

“(1) provide timely information regarding the activities of the National Weather Service which may affect service to the community, including modernization and restructuring; and

“(2) work with area weather service users, including persons associated with general

aviation, civil defense, emergency preparedness, and the news media, with respect to the provision of timely weather warnings and forecasts.”; and

(2) in section 707—

(A) by amendment subsection (c) to read as follows:

“(c) **DUTIES.** The Committee shall advise the Congress and the Secretary on—

“(1) the implementation of the Strategic Plan, annual development of the Plan, and establishment and implementation of modernization criteria; and

“(2) matters of public safety and the provision of weather services relate to the comprehensive modernization of the National Weather Service.”; and

(B) by amending subsection (f) to read as follows:

“(f) **TERMINATION.**—The Committee shall terminate—

“(1) on September 30, 1996; or

“(2) 90 days after the deadline for public comment on the modernization criteria for closure certification published in the Federal Register pursuant to section 704(b)(2), whichever occurs later.”.
