So the resolution was agreed to.

A motion to reconsider the vote whereby said resolution was agreed to was, by unanimous consent, laid on the table.

48.8 DOD AUTHORIZATION

The SPEAKER pro tempore, Mr. LATOURETTE, pursuant to House Resolution 441 and rule XXIII, declared the House resolved into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 3616) to authorize appropriations for fiscal year 1999 for military activities of the Department of Defense, to prescribe military per-

sonnel strengths for fiscal year 1999, and for other purposes.

Mr. CAMP, Chairman of the Committee of the Whole, resumed the chair; and after some time spent there-in,

48.9 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. SPENCE:

At the end of title XII (page 253, after line 3), insert the following new section:

SEC. 1206. SENSE OF THE CONGRESS.

It is the sense of the Congress that—

(1) United States business interests must not be placed above United States national security interests;

(2) at the Presidential summit meeting to be held in the People's Republic of China in June of 1998, the United States should not—

(A) support membership of the People's Republic of China in the Missile Technology Control Regime;

(B) agree to issue any blanket waiver of the suspensions contained in section 902 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (Public Law 101-246), regarding the export of satellites of United States origin intended for launch from a launch vehicle owned by the People's Republic of China;

(C) agree to increase the number of launches of satellites to geosynchronous orbit by the People's Republic of China above the number contained in Article II(B)(ii) of the 1995 Memorandum of Agreement Between the Government of the United States of America and the Government of the People's Republic of China Regarding International Trade in Commercial Launch Services;

(D) support any cooperative project with the People's Republic of China to design or manufacture satellites;

(E) enter into any new scientific, technical, or other agreements, or amend any existing scientific, technical, or other agreements, with the People's Republic of China involving space or missile-related technology;

(F) agree to any arms control initiative that cannot be effectively verified, including any initiative relating to detargeting of strategic offensive missiles; or

(G) support any increase in the number or frequency of military-to-military contacts between the United States and the People's Republic of China;

(3) the decision of the executive branch in 1998 to issue a waiver allowing the export of satellite technology to the People's Republic of China was not in the national interest of the United States, given the ongoing criminal investigation by the Justice Department of the transfer in 1996 of satellite technology to that country;

(4) the executive branch should ensure that United States law regarding the export of satellites to the Peoples Republic of China is enforced and that the criminal investigation described in paragraph (3) proceeds with all due dispatch; and

(5) the President should indefinitely suspend the export of satellites of United States origin to the People's Republic of China, including those satellites licensed in February 1998 as part of the Chinasat-8 program.
