7 USC 1353.

“(e) Any part of the farm rice acreage allotment on which rice will not be planted and which is voluntarily surrendered to the county committee shall be deducted from the allotment to such farm and may be reapportioned by the county committee to other farms in the same county receiving allotments in amounts determined by the county committee to be fair and reasonable on the basis of the past production of rice by the producers on the farm or the past production of rice on the farm, as the case may be; acreage allotments previously established for the farm or for the producers on the farm, as the case may be; abnormal conditions affecting acreage; land, labor, water, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice. Any allotment surrendered under this provision shall be regarded for the purposes of subsection (b) of this section as having been planted on the farm from which surrendered, except that this shall not operate to make the farm from which the allotment was surrendered eligible for an allotment as having rice planted thereon, or to make any producer thereon eligible for an allotment as having produced rice, during the five-year base period.”

of surrendered al-  
lotment.

Approved April 30, 1955.

## AN ACT

To amend the rice marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended.

May 5, 1955  
[H. R. 4647]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 353 of

Rice.  
63 Stat. 1059.  
7 USC 1353.

the Agricultural Adjustment Act of 1938, as amended, is amended by adding to subsection (c) thereof, two new paragraphs reading as follows:

State allotments.  
Increase and apportionment.

“(3) Each of the State acreage allotments for 1955 heretofore proclaimed by the Secretary shall be increased by 2 per centum or by such greater acreage as may be necessary to provide such State with an allotment equal to its 1950 allotment. In any State having county acreage allotments for 1955 (i) the increase in the State allotment shall be apportioned among counties in the State on the same basis as the State allotment was heretofore apportioned among the counties, but without regard to adjustments for trends in acreage, and (ii) the 1955 allotment for any county in which the 1950-1954 average planted plus diverted acreage of rice, adjusted for trends in acreage, exceeds the 1945-1949 average planted acreage of rice, similarly adjusted, by more than 2 per centum shall then be further increased by such additional acreage as may be necessary to provide such county with an allotment equal to its 1950 allotment. The increases in the county acreage allotments and the increases in the State allotments, where county allotments are not determined, shall be used to establish farm acreage allotments which are fair and reasonable in relation to the applicable allotment factors specified in subsection (b) of this section and to correct inequities and prevent hardships.

Reserve acreage.

“(4) The reserve acreage made available for 1955 in any State for apportionment to farms operated by persons who have not produced rice during the preceding five years or on which rice has not been planted in the preceding five years shall not be less than five hundred acres; and the additional acreage necessary to provide such minimum reserve acreages shall be in addition to the National and State acreage allotments.”

Approved May 5, 1955.
