TITLE I—COTTON

PROGRAM FOR 1959 AND 1960

63 Stat. 1051.
7 USC 1421 note.

SEC. 101. The Agricultural Act of 1949, as amended, is amended by adding the following new section:

"SEC. 102. Notwithstanding any other provisions of law—

"(a) for each of the 1959 and 1960 crops of upland cotton the Secretary of Agriculture is authorized and directed to offer the operator of each farm for which an allotment is established under section 344 of the Agricultural Adjustment Act of 1938, as amended, a choice of (A) the farm acreage allotment determined pursuant to section 344 of the Agricultural Adjustment Act of 1938, as amended, and price support determined pursuant to section 101 of this Act (the amount of cotton estimated to be produced on the additional acres allotted to producers selecting choice (B) for such year being taken into account in computing such support), except that for the 1959 crop the level of support shall be not less than 80 per centum of parity, or (B) the farm acreage allotment determined pursuant to section 344 of the Agricultural Adjustment Act of 1938, as amended, increased by not to exceed 40 per centum (such increased acreage allotment to be the acreage allotment for the farm for all purposes) and price support at a level which is 15 per centum of parity below the level of support established for producers who elect choice (A). Any person operating more than one farm, in order to be eligible for choice (B), must elect choice (B) for all farms for which he is operator. Not later than January 31 the Secretary shall determine and announce on the basis of his estimate of the supply percentage and the parity price as of the following August 1, the price support level for producers who elect choice (A) and choice (B) respectively, and such price support levels shall be final. As soon as practicable after such announcement, the Secretary shall cause the operator (as shown on the records of the county committee) of each farm for which an allotment is established under section 344 of the Agricultural Adjustment Act of 1938, as amended, to be notified of the alternative levels of price support and the alternative acreage allotments available for his farm. The operator of each farm shall, within the time prescribed by the Secretary, notify the county committee in writing whether he desires the increased acreage allotment and the level of price support prescribed in choice (B) to be effective for the farm. If the operator fails to so notify the county committee within the time prescribed, he shall be deemed to have chosen the acreage allotment and the price support level prescribed in choice (A). The choice elected by the operator shall apply to all the producers on the farm. Notwithstanding the foregoing provisions of this subsection, the Secretary may permit the operator of a farm for which choice (B) is in effect to change to choice (A) where conditions beyond the control of

52 Stat. 57.
7 USC 1344.

the farm operator, such as excessive rain, flood, or drought, prevented the planting of acreage to cotton or having cotton acreage available for harvest on the farm in accordance with the plans of such operator in selecting choice (B). The additional acreage required to be allotted to farms under this section shall be in addition to the county, State, and national acreage allotments and the production from such acreage shall be in addition to the national marketing quota. The additional acreage authorized by this section shall not be taken into account in establishing future State, county, and farm acreage allotments. Notwithstanding any other provision of law, no farm participating in any cotton acreage reserve program established for 1959 under the Soil Bank Act shall receive an increased acreage allotment under the provisions of this section for 1959. Notwithstanding the provisions of section 344 (m) (2) any farm cotton acreage allotment increased as the result of the selection of choice (B) may not be released and reapportioned to any other farm. Price support shall be made available under this paragraph only to cooperators and only if producers have not disapproved marketing quotas for the crop.

7 USC 1801 note.

68 Stat. 4,904.
7 USC 1344.

“(b) for each of the 1959 and 1960 crops of upland cotton, price support shall be made available to producers who elect choice (A) through a purchase program. Price support shall be made available to producers who elect choice (B) through loans, purchases, or other operations.

“(c) the Commodity Credit Corporation is directed, during the period beginning August 1, 1959, and ending July 31, 1961, to offer any upland cotton owned by it for sale for unrestricted use at not less than 10 per centum above the current level of price support prescribed in choice (B).”

PRICE SUPPORT FOR 1961 AND SUBSEQUENT YEARS

SEC. 102. (a) The Agricultural Act of 1949, as amended, is amended by adding a new section 103 as follows:

7 USC 1421 note.

“SEC. 103. Notwithstanding the provisions of section 101 of this Act, price support to cooperators for each crop of upland cotton, beginning with the 1961 crop, for which producers have not disapproved marketing quotas shall be at such level not more than 90 per centum of the parity price therefor nor less than the minimum level prescribed below as the Secretary determines appropriate after consideration of the factors specified in section 401 (b) of this Act. For the 1961 crop the minimum level shall be 70 per centum of the parity price therefor, and for each subsequent crop the minimum level shall be 65 per centum of the parity price therefor. Price support in the case of noncooperators and in case marketing quotas are disapproved shall be as provided in section 101 (d) (3) and (5).”

ACREAGE ALLOTMENTS AND MARKETING QUOTAS

SEC. 103. The Agricultural Adjustment Act of 1938, as amended, is amended as follows:

(1) Section 342 is amended by striking out the third sentence and by changing the period at the end of the second sentence to a colon and adding the following: “*Provided*, That beginning with the 1961 crop, the national marketing quota shall be not less than a number of bales equal to the estimated domestic consumption and estimated exports (less estimated imports) for the marketing year for which the quota is proclaimed, except that the Secretary shall make such adjustment in the amount of such quota as he determines necessary

7 USC 1342.

after taking into consideration the estimated stocks of cotton in the United States (including the qualities of such stocks) and stocks in foreign countries which would be available for the marketing year for which the quota is being proclaimed if no adjustment of such quota is made hereunder, to assure the maintenance of adequate but not excessive stocks in the United States to provide a continuous and stable supply of the different qualities of cotton needed in the United States and in foreign cotton consuming countries, and for purposes of national security; but the Secretary, in making such adjustments, may not reduce the national marketing quota for any year below (i) one million bales less than the estimated domestic consumption and estimated exports for the marketing year for which such quota is being proclaimed, or (ii) ten million bales, whichever is larger."

7 USC 1342.

(2) Section 342 is further amended by adding at the end thereof the following: "Notwithstanding any other provision of this Act, the national marketing quota for upland cotton for 1959 and subsequent years shall be not less than the number of bales required to provide a national acreage allotment for each such year of sixteen million acres."

7 USC 1347.

(3) Section 347 (b) is amended by changing the period at the end of the second sentence to a colon and adding the following: "*Provided*, That beginning with the 1961 crop of extra long staple cotton, such national marketing quota shall be an amount equal to (1) the estimated domestic consumption plus exports for the marketing year which begins in the next calendar year, less (2) the estimated imports, plus (3) such additional number of bales, if any, as the Secretary determines is necessary to assure adequate working stocks in trade channels until cotton from the next crop becomes readily available without resort to Commodity Credit Corporation stocks."

7 USC 1344.

(4) The second sentence of section 344 (a) is amended by striking the word "five" and substituting the word "four".

MINIMUM FARM ALLOTMENTS

7 USC 1344.

SEC. 104. (a) Section 344 (b) of the Agricultural Adjustment Act of 1938, as amended, is amended by inserting before the period at the end thereof a colon and the following: "*Provided*, That there is hereby established a national acreage reserve consisting of three hundred and ten thousand acres which shall be in addition to the national acreage allotment; and such reserve shall be apportioned to the States on the basis of their needs for additional acreage for establishing minimum farm allotments under subsection (f) (1), as determined by the Secretary without regard to State and county acreage reserves (except that the amount apportioned to Nevada shall be one thousand acres). For the 1960 and succeeding crops of cotton, the needs of States (other than Nevada) for such additional acreage for such purpose may be estimated by the Secretary, after taking into consideration such needs as determined or estimated for the preceding crop of cotton and the size of the national acreage allotment for such crop. The additional acreage so apportioned to the State shall be apportioned to the counties on the basis of the needs of the counties for such additional acreage for such purpose, and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreage). Additional acreage apportioned to a State for any year under the foregoing proviso shall not be taken into account in establishing future State acreage allotments. Needs for additional acreage under the foregoing provisions and under the last proviso in subsection (e)

shall be determined or estimated as though allotments were first computed without regard to subsection (f) (1).”

(b) Section 344 (e) of the Agricultural Adjustment Act of 1938, as amended, is amended by inserting before the period at the end thereof a colon and the following: “*Provided further*, That if the additional acreage allocated to a State under the proviso in subsection (b) is less than the requirements as determined or estimated by the Secretary for establishing minimum farm allotments for the State under subsection (f) (1), the acreage reserved under this subsection shall not be less than the smaller of (1) the remaining acreage so determined or estimated to be required for establishing minimum farm allotments or (2) 3 per centum of the State acreage allotment; and the acreage which is required to be reserved under this proviso shall be allocated to counties on the basis of their needs for additional acreage for establishing minimum farm allotments under subsection (f) (1), and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreages).”

7 USC 1344.

(c) Section 344 (f) of the Agricultural Adjustment Act of 1938, as amended, is amended by changing paragraph (1) to read as follows: “(1) Insofar as such acreage is available, there shall be allotted the smaller of the following: (A) ten acres; or (B) the acreage allotment established for the farm for the 1958 crop.”

7 USC 1344.

(d) The first sentence of section 344 (f) (6) of such Act is amended to read as follows: “Notwithstanding the provisions of paragraph (2) of the subsection, if the county committee recommends such action and the Secretary determines that such action will result in a more equitable distribution of the county allotment among farms in the county, the remainder of the county acreage allotment (after making allotments as provided in paragraph (1) of this subsection) shall be allotted to farms other than farms to which an allotment has been made under paragraph (1) (B) of this subsection so that the allotment to each farm under this paragraph together with the amount of the allotment of such farm under paragraph (1) (A) of this subsection shall be a prescribed percentage (which percentage shall be the same for all such farms in the county) of the average acreage planted to cotton on the farm during the three years immediately preceding the year for which such allotment is determined, adjusted as may be necessary for abnormal conditions affecting plantings during such three-year period: *Provided*, That the county committee may in its discretion limit any farm acreage allotment established under the provisions of this paragraph for any year to an acreage not in excess of 50 per centum of the cropland on the farm, as determined pursuant to the provisions of paragraph (2) of this subsection: *Provided further*, That any part of the county acreage allotment not apportioned under this paragraph by reason of the initial application of such 50 per centum limitation shall be added to the county acreage reserve under paragraph (3) of this subsection and shall be available for the purposes specified therein.”

68 Stat. 6, 904.
7 USC 1344.

(e) The amendments made by this section shall be effective beginning with the 1959 crop.

SEC. 105. Effective beginning with the 1959 crop, section 344 (f) of the Agricultural Adjustment Act of 1938, as amended, is amended by adding at the end thereof the following new paragraph:

7 USC 1344.

“(7) (A) In the event that any farm acreage allotment is less than that prescribed by paragraph (1), such acreage allotment shall be increased to the acreage prescribed by paragraph (1). The additional

acreage required to be allotted to farms under this paragraph shall be in addition to the county, State, and national acreage allotments and the production from such acreage shall be in addition to the national marketing quota.

“(B) Notwithstanding any other provision of law—

“(i) the acreage by which any farm acreage allotment for 1959 or any subsequent crop established under paragraph (1) exceeds the acreage which would have been allotted to such farm if its allotment had been computed on the basis of the same percentage factor applied to other farms in the county under paragraph (2), (6), or (8) shall not be taken into account in establishing the acreage allotment for such farm for any crop for which acreage is allotted to such farm under paragraph (2), (6), or (8); and acreage shall be allotted under paragraph (2), (6), or (8) to farms which did not receive 1958 crop allotments in excess of ten acres if and only if the Secretary determines (after considering the allotments to other farms in the county for such crop compared with their 1958 allotments and other relevant factors) that equity and justice require the allotment of additional acreage to such farm under paragraph (2), (6), or (8),

“(ii) the acreage by which any county acreage allotment for 1959 or any subsequent crop is increased from the national or State reserve on the basis of its needs for additional acreage for establishing minimum farm allotments shall not be taken into account in establishing future county acreage allotments, and

“(iii) the additional acreage allotted pursuant to subparagraph (A) of this paragraph (7) shall not be taken into account in establishing future State, county, or farm acreage allotments.”

70 Stat. 206.
7 USC 1377.

"SEC. 378. (a) Notwithstanding any other provision of this Act, the allotment determined for any commodity for any land from which the owner is displaced because of acquisition of the land for any purpose, other than for the continued production of allotted crops, by any Federal, State, or other agency having the right of eminent domain shall be placed in an allotment pool and shall be available only for use in providing allotments for other farms owned by the owner so displaced. Upon application to the county committee, within three years after the date of such displacement, or three years after the enactment of this section, whichever period is longer, any owner so displaced shall be entitled to have established for other farms owned by him allotments which are comparable with allotments determined for other farms in the same area which are similar except for the past acreage of the commodity, taking into consideration the land, labor, and equipment available for the production of the commodity, crop-rotation practices, and the soil and other physical factors affecting the production of the commodity: *Provided*, That the acreage used to establish or increase the allotments for such farms shall be transferred from the pool and shall not exceed the allotment most recently established for the farm acquired from the applicant and placed in the pool. During the period of eligibility for the making of allotments under this section for a displaced owner, acreage allotments for the farm from which the owner was so displaced shall be established in accordance with the procedure applicable to other farms, and such allotments shall be considered to have been fully planted. After such allotment is made under this section, the proportionate part, or all, as the case may be, of the past acreage used in establishing the allotment most recently placed in the pool for the farm from which the owner was so displaced shall be transferred to and considered for the purposes of future State, county, and farm acreage allotments to have been planted on the farm to which allotment is made under this section. Except where paragraph (c) requires the transfer of allotment to another portion of the same farm, for the purpose of this section (1) that part of any farm from which the owner is so displaced and that part from which he is not so displaced shall be considered as separate farms; and (2) an owner who voluntarily relinquishes possession of the land subsequent to its acquisition by an agency having the right of eminent domain shall be considered as having been displaced because of such acquisition.

"(b) The provisions of this section shall not be applicable if (1) there is any marketing quota penalty due with respect to the marketing of the commodity from the farm acquired by the Federal, State, or other agency or by the owner of the farm; (2) any of the commodity

produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of the commodity produced on or marketed from such farm or due to a false acreage report.

“(c) This section shall not be applicable, in the case of cotton, tobacco, and peanuts, to any farm from which the owner was displaced prior to 1950, in the case of wheat and corn, to any farm from which the owner was displaced prior to 1954, and in the case of rice, to any farm from which the owner was displaced prior to 1955. In any case where the cropland acquired for nonfarming purposes from an owner by an agency having the right of eminent domain represents less than 15 per centum of the total cropland on the farm, the allotment attributable to that portion of the farm so acquired shall be transferred to that portion of the farm not so acquired.

“(d) Sections 313 (h), 334 (d), 344 (h), 353 (f), and 358 (h) of the Agricultural Adjustment Act of 1938, as amended, are repealed, but any transfer or reassignment of allotment heretofore made under the provisions of these sections shall remain in effect, and any displaced farm owner for whom an allotment has been established under such repealed sections shall not be eligible for additional allotment under subsection (a) of this section because of such displacement.”

Section 405 of the Agricultural Act of 1949 is amended by adding at the end thereof the following: “There is authorized to be included in the terms and conditions of any such nonrecourse loan a provision whereby on and after the maturity of the loan or any extension thereof Commodity Credit Corporation shall have the right to acquire title to the unredeemed collateral without obligation to pay for any market value which such collateral may have in excess of the loan indebtedness.”

SEC. 503. Section 201 (b) of the Agricultural Act of 1949, as amended, is amended by changing the semicolon at the end thereof to a colon and adding the following: “*Provided*, That in any crop year in which the Secretary determines that the domestic production of tung oil will be less than the anticipated domestic demand for such oil, the price of tung nuts shall be supported at not less than 65 per centum of the parity price therefor;”.
