

Proclamation 4749 of April 14, 1980

National Farm Safety Week, 1980

By the President of the United States of America

A Proclamation

Every year hundreds of thousands of farm and ranch residents suffer unnecessary injury, and sometimes disability and death, from accidents on the farm. The annual cost of these accidents totals several billion dollars. But statistics do not reveal the depth of personal loss and grief experienced by the injured and their families. Though progress has been made in many areas of farm accident control, more can be done.

Safety leaders have demonstrated that accidents and injuries can be effectively reduced by greater caution in work habits, by consistent use of protective equipment, and by careful planning for emergencies. A safer agricultural environment will be more productive and better able to meet the tremendous food and fiber needs of our people in the decade ahead.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate the seven-day period beginning July 25, 1980, as National Farm Safety Week. I urge the Nation's farmers and ranchers to adopt safe and sensible work practices and to remove unnecessary home and workplace hazards. Further, I call upon those who serve agricultural producers to become full partners in farm and community safety efforts.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of April in the year of our Lord nineteen hundred and eighty, and of the Independence of the United States of America the two hundred and fourth.

JIMMY CARTER

Proclamation 4750 of April 15, 1980

Continuation of Emergency Building Temperature Restrictions

By the President of the United States of America

A Proclamation

I find that continued implementation of the Emergency Building Temperature Restrictions, Energy Conservation Contingency Plan No. 2, is required in the national interest. This Plan was transmitted by me to the Congress on March 1, 1979, and approved by resolution of each House of Congress in the manner provided by law. 44 FR 12911.

This Conservation Plan was implemented by me nine months ago because it was clear in view of unstable world production of crude oil that we could not rely on imports to meet our normal demand. Worldwide production of crude oil now is at levels even below those of the comparable period last year. We have had to terminate crude oil imports from Iran, and have experienced increased uncertainty about the level of continued crude oil supplies from other producing countries. Because of the actions of the Soviet Union in Afghanistan and the tensions between Iraq and Iran, the threat to the stability of commerce in the countries of the oil-producing Persian Gulf has increased.

This shortage of reliable supply has resulted in continued high U.S. dependence on insecure crude oil imports, which have experienced rapid price increases, substantially increasing our inflation rate and creating a major adverse impact on the national economy. These effects are likely to be of significant scope and duration, and may be exacerbated by additional shortages which, should they occur, are likely to be of an emergency nature resulting from interruption of the supply of foreign petroleum.

The risk to the Nation from this reliance on insecure oil imports has not diminished since the Plan was implemented nine months ago. Under applicable law the finding that a shortage of energy supply requires implementation of the Plan must be considered anew nine months after it was made. I therefore renew the finding and determination contained in Proclamation No. 4667 of July 10, 1979 under sections 201(b) and 3(8) of the Energy Policy and Conservation Act (42 U.S.C. 6261(b), 6202(8)).

42 USC 6261
note.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, by the authority vested in me by the Constitution and laws of the United States, including section 201(b) of the Energy Policy and Conservation Act (42 U.S.C. 6261(b)), do hereby proclaim that:

Sec. 1-101. The finding and determination under sections 3(8) and 201(b) of the Energy Policy and Conservation Act (42 U.S.C. 6202(8), 6261(b)) contained in Proclamation No. 4667 of July 10, 1979 are hereby renewed.

Sec. 1-102. This Proclamation shall be immediately transmitted to the Congress.

Sec. 1-103. The provisions of the Emergency Building Temperature Restrictions, Energy Conservation Contingency Plan No. 2 (44 FR 12911 of March 8, 1979) and the regulations thereunder, or any amendments thereto, shall continue in effect until January 16, 1981, unless earlier rescinded.

Sec. 1-104. In accordance with the provisions of this Plan and the regulations thereunder, the Secretary of Energy is hereby authorized to continue the administration of the program in all respects.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of April, in the year of our Lord nineteen hundred eighty, and of the Independence of the United States of America the two hundred and fourth.

JIMMY CARTER

Proclamation 4751 of April 23, 1980

Amendment to Proclamation 4744

By the President of the United States of America

A Proclamation

By the authority vested in me as President by the Constitution and the laws of the United States, including Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), and the Emergency Petroleum Allocation Act of 1973, as amended (15 U.S.C. 751 *et seq.*), Proclamation 4744, as amended, is hereby amended as follows:

Ante, pp. 3736,
3747.
