

harmful interference as a means of increasing commercial access.

(Pub. L. 102-538, title I, §112, as added Pub. L. 103-66, title VI, §6001(a)(3), Aug. 10, 1993, 107 Stat. 380.)

§ 923. Identification of reallocable frequencies

(a) Identification required

The Secretary shall, within 18 months after August 10, 1993, and within 6 months after August 5, 1997, prepare and submit to the President and the Congress a report identifying and recommending for reallocation bands of frequencies—

(1) that are allocated on a primary basis for Federal Government use;

(2) that are not required for the present or identifiable future needs of the Federal Government;

(3) that can feasibly be made available, as of the date of submission of the report or at any time during the next 15 years, for use under the 1934 Act [47 U.S.C. 151 et seq.] (other than for Federal Government stations under section 305 of the 1934 Act [47 U.S.C. 305]);

(4) the transfer of which (from Federal Government use) will not result in costs to the Federal Government, or losses of services or benefits to the public, that are excessive in relation to the benefits to the public that may be provided by non-Federal licensees; and

(5) that are most likely to have the greatest potential for productive uses and public benefits under the 1934 Act [47 U.S.C. 151 et seq.] if allocated for non-Federal use.

(b) Minimum amount of spectrum recommended

(1) Initial reallocation report

In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the initial report required by subsection (a) of this section, for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that in the aggregate span not less than 200 megahertz, that are located below 5 gigahertz, and that meet the criteria specified in paragraphs (1) through (5) of subsection (a) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that span in the aggregate not less than 100 megahertz.

(2) Mixed uses permitted to be counted

Bands of frequencies which a report of the Secretary under subsection (a) or (d)(1) of this section recommends be partially retained for use by Federal Government stations, but which are also recommended to be reallocated to be made available under the 1934 Act [47 U.S.C. 151 et seq.] for use by non-Federal stations, may be counted toward the minimum spectrum required by paragraph (1) or (3) of this subsection, except that—

(A) the bands of frequencies counted under this paragraph may not count toward more than one-half of the minimums required by paragraph (1) or (3) of this subsection;

(B) a band of frequencies may not be counted under this paragraph unless the as-

signments of the band to Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305) are limited by geographic area, by time, or by other means so as to guarantee that the potential use to be made by such Federal Government stations is substantially less (as measured by geographic area, time, or otherwise) than the potential use to be made by non-Federal stations; and

(C) the operational sharing permitted under this paragraph shall be subject to the interference regulations prescribed by the Commission pursuant to section 305(a) of the 1934 Act [47 U.S.C. 305(a)] and to coordination procedures that the Commission and the Secretary shall jointly establish and implement to ensure against harmful interference.

(3) Second reallocation report

In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the second report required by subsection (a) of this section, for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), a band or bands of frequencies that—

(A) in the aggregate span not less than 12 megahertz;

(B) are located below 3 gigahertz; and

(C) meet the criteria specified in paragraphs (1) through (5) of subsection (a) of this section.

(c) Criteria for identification

(1) Needs of the Federal Government

In determining whether a band of frequencies meets the criteria specified in subsection (a)(2) of this section, the Secretary shall—

(A) consider whether the band of frequencies is used to provide a communications service that is or could be available from a commercial provider or other vendor;

(B) seek to promote—

(i) the maximum practicable reliance on commercially available substitutes;

(ii) the sharing of frequencies (as permitted under subsection (b)(2) of this section);

(iii) the development and use of new communications technologies; and

(iv) the use of nonradiating communications systems where practicable; and

(C) seek to avoid—

(i) serious degradation of Federal Government services and operations;

(ii) excessive costs to the Federal Government and users of Federal Government services; and

(iii) excessive disruption of existing use of Federal Government frequencies by amateur radio licensees.

(2) Feasibility of use

In determining whether a frequency band meets the criteria specified in subsection (a)(3) of this section, the Secretary shall—

(A) assume that the frequency will be assigned by the Commission under section 303 of the 1934 Act (47 U.S.C. 303) within 15 years;

(B) assume reasonable rates of scientific progress and growth of demand for telecommunications services;

(C) seek to include frequencies which can be used to stimulate the development of new technologies; and

(D) consider the immediate and recurring costs to reestablish services displaced by the reallocation of spectrum.

(3) Analysis of benefits

In determining whether a band of frequencies meets the criteria specified in subsection (a)(5) of this section, the Secretary shall consider—

(A) the extent to which equipment is or will be available that is capable of utilizing the band;

(B) the proximity of frequencies that are already assigned for commercial or other non-Federal use;

(C) the extent to which, in general, commercial users could share the frequency with amateur radio licensees; and

(D) the activities of foreign governments in making frequencies available for experimentation or commercial assignments in order to support their domestic manufacturers of equipment.

(4) Power agency frequencies

(A) Applicability of criteria

The criteria specified by subsection (a) of this section shall be deemed not to be met for any purpose under this subchapter with regard to any frequency assignment to, or any frequency assignment used by, a Federal power agency for the purpose of withdrawing that assignment.

(B) Mixed use eligibility

The frequencies assigned to any Federal power agency may only be eligible for mixed use under subsection (b)(2) of this section in geographically separate areas, but in those cases where a frequency is to be shared by an affected Federal power agency and a non-Federal user, such use by the non-Federal user shall not cause harmful interference to the affected Federal power agency or adversely affect the reliability of its power system.

(C) “Federal power agency” defined

As used in this paragraph, the term “Federal power agency” means the Tennessee Valley Authority, the Bonneville Power Administration, the Western Area Power Administration, the Southwestern Power Administration, the Southeastern Power Administration, or the Alaska Power Administration.

(5) Limitation on reallocation

None of the frequencies recommended for reallocation in the reports required by this subsection shall have been recommended, prior to August 10, 1993, for reallocation to non-Federal use by international agreement.

(d) Procedure for identification of reallocable bands of frequencies

(1) Submission of preliminary identification to Congress

Within 6 months after August 10, 1993, the Secretary shall prepare, make publicly available, and submit to the President, the Congress, and the Commission a report which makes a preliminary identification of reallocable bands of frequencies which meet the criteria established by this section.

(2) Public comment

The Secretary shall provide interested persons with the opportunity to submit, within 90 days after the date of its publication, written comment on the preliminary report required by paragraph (1). The Secretary shall immediately transmit a copy of any such comment to the Commission.

(3) Comment and recommendations from Commission

The Commission shall, within 90 days after the conclusion of the period for comment provided pursuant to paragraph (2), submit to the Secretary the Commission’s analysis of such comments and the Commission’s recommendations for responses to such comments, together with such other comments and recommendations as the Commission deems appropriate.

(4) Direct discussions

The Secretary shall encourage and provide opportunity for direct discussions among commercial representatives and Federal Government users of the spectrum to aid the Secretary in determining which frequencies to recommend for reallocation. The Secretary shall provide notice to the public and the Commission of any such discussions, including the name or names of any businesses or other persons represented in such discussions. A representative of the Commission (and of the Secretary at the election of the Secretary) shall be permitted to attend any such discussions. The Secretary shall provide the public and the Commission with an opportunity to comment on the results of any such discussions prior to the submission of the initial report required by subsection (a) of this section.

(e) Timetable for reallocation and limitation

(1) Timetable required

The Secretary shall, as part of the reports required by subsections (a) and (d)(1) of this section, include a timetable that recommends effective dates by which the President shall withdraw or limit assignments of the frequencies specified in such reports.

(2) Expedited reallocation

(A) Required reallocation

The Secretary shall, as part of the report required by subsection (d)(1) of this section, specifically identify and recommend for immediate reallocation bands of frequencies that in the aggregate span not less than 50 megahertz, that meet the criteria described in subsection (a) of this section, and that

can be made available for reallocation immediately upon issuance of the report required by subsection (d)(1) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that in the aggregate span not less than 25 megahertz.

(B) Permitted reallocation

The Secretary may, as part of such report, identify and recommend bands of frequencies for immediate reallocation for a mixed use pursuant to subsection (b)(2) of this section, but such bands of frequencies may not count toward the minimums required by subparagraph (A).

(3) Delayed effective dates

In setting the recommended delayed effective dates, the Secretary shall—

(A) consider the need to reallocate bands of frequencies as early as possible, taking into account the requirements of paragraphs (1) and (2) of section 925(b) of this title;

(B) be based on the useful remaining life of equipment that has been purchased or contracted for to operate on identified frequencies;

(C) consider the need to coordinate frequency use with other nations; and

(D) take into account the relationship between the costs to the Federal Government of changing to different frequencies and the benefits that may be obtained from commercial and other non-Federal uses of the reassigned frequencies.

(f) Additional reallocation report

If the Secretary receives a notice from the Commission pursuant to section 3002(c)(5) of the Balanced Budget Act of 1997, the Secretary shall prepare and submit to the President, the Commission, and the Congress a report recommending for reallocation for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that are suitable for the licensees identified in the Commission's notice. The Commission shall, not later than one year after receipt of such report, prepare, submit to the President and the Congress, and implement, a plan for the immediate allocation and assignment of such frequencies under the 1934 Act [47 U.S.C. 151 et seq.] to incumbent licensees described in the Commission's notice.

(g) Relocation of Federal Government stations

(1) Eligible Federal entities

Any Federal entity that operates a Federal Government station assigned to a band of frequencies specified in paragraph (2) and that incurs relocation costs because of the reallocation of frequencies from Federal use to non-Federal use shall receive payment for such costs from the Spectrum Relocation Fund, in accordance with section 928 of this title. For purposes of this paragraph, Federal power agencies exempted under subsection (c)(4) of this section that choose to relocate from the frequencies identified for reallocation pursuant to subsection (a) of this section, are eligible to receive payment under this paragraph.

(2) Eligible frequencies

The bands of eligible frequencies for purposes of this section are as follows:

(A) the 216–220 megahertz band, the 1432–1435 megahertz band, the 1710–1755 megahertz band, and the 2385–2390 megahertz band of frequencies; and

(B) any other band of frequencies reallocated from Federal use to non-Federal use after January 1, 2003, that is assigned by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), except for bands of frequencies previously identified by the National Telecommunications and Information Administration in the Spectrum Reallocation Final Report, NTIA Special Publication 95–32 (1995).

(3) Definition of relocation costs

For purposes of this subsection, the term “relocation costs” means the costs incurred by a Federal entity to achieve comparable capability of systems, regardless of whether that capability is achieved by relocating to a new frequency assignment or by utilizing an alternative technology. Such costs include—

(A) the costs of any modification or replacement of equipment, software, facilities, operating manuals, training costs, or regulations that are attributable to relocation;

(B) the costs of all engineering, equipment, software, site acquisition and construction costs, as well as any legitimate and prudent transaction expense, including outside consultants, and reasonable additional costs incurred by the Federal entity that are attributable to relocation, including increased recurring costs associated with the replacement facilities;

(C) the costs of engineering studies, economic analyses, or other expenses reasonably incurred in calculating the estimated relocation costs that are provided to the Commission pursuant to paragraph (4) of this subsection;

(D) the one-time costs of any modification of equipment reasonably necessary to accommodate commercial use of such frequencies prior to the termination of the Federal entity's primary allocation or protected status, when the eligible frequencies as defined in paragraph (2) of this subsection are made available for private sector uses by competitive bidding and a Federal entity retains primary allocation or protected status in those frequencies for a period of time after the completion of the competitive bidding process; and

(E) the costs associated with the accelerated replacement of systems and equipment if such acceleration is necessary to ensure the timely relocation of systems to a new frequency assignment.

(4) Notice to Commission of estimated relocation costs

(A) The Commission shall notify the NTIA at least 18 months prior to the commencement of any auction of eligible frequencies defined in paragraph (2). At least 6 months prior to the

commencement of any such auction, the NTIA, on behalf of the Federal entities and after review by the Office of Management and Budget, shall notify the Commission of estimated relocation costs and timelines for such relocation.

(B) Upon timely request of a Federal entity, the NTIA shall provide such entity with information regarding an alternative frequency assignment or assignments to which their radiocommunications operations could be relocated for purposes of calculating the estimated relocation costs and timelines to be submitted to the Commission pursuant to subparagraph (A).

(C) To the extent practicable and consistent with national security considerations, the NTIA shall provide the information required by subparagraphs (A) and (B) by the geographic location of the Federal entities' facilities or systems and the frequency bands used by such facilities or systems.

(5) Notice to congressional committees and GAO

The NTIA shall, at the time of providing an initial estimate of relocation costs to the Commission under paragraph (4)(A), submit to¹ Committees on Appropriations and Energy and Commerce of the House of Representatives for approval, to the Committees on Appropriations and Commerce, Science, and Transportation of the Senate for approval, and to the Comptroller General a copy of such estimate and the timelines for relocation. Unless disapproved within 30 days, the estimate shall be approved. If disapproved, the NTIA may resubmit a revised initial estimate.

(6) Implementation of procedures

The NTIA shall take such actions as necessary to ensure the timely relocation of Federal entities' spectrum-related operations from frequencies defined in paragraph (2) to frequencies or facilities of comparable capability. Upon a finding by the NTIA that a Federal entity has achieved comparable capability of systems by relocating to a new frequency assignment or by utilizing an alternative technology, the NTIA shall terminate the entity's authorization and notify the Commission that the entity's relocation has been completed. The NTIA shall also terminate such entity's authorization if the NTIA determines that the entity has unreasonably failed to comply with the timeline for relocation submitted by the Director of the Office of Management and Budget under section 928(d)(2)(B) of this title.

(h) Federal action to expedite spectrum transfer

Any Federal Government station which operates on electromagnetic spectrum that has been identified in any reallocation report under this section shall, to the maximum extent practicable through the use of the authority granted under subsection (g) of this section and any other applicable provision of law, take action to relocate its spectrum use to other frequencies that are reserved for Federal use or to consolidate its spectrum use with other Federal Gov-

ernment stations in a manner that maximizes the spectrum available for non-Federal use.

(i) "Federal entity" defined

For purposes of this section, the term "Federal entity" means any department, agency, or other instrumentality of the Federal Government that utilizes a Government station license obtained under section 305 of the 1934 Act (47 U.S.C. 305).

(Pub. L. 102-538, title I, §113, as added Pub. L. 103-66, title VI, §6001(a)(3), Aug. 10, 1993, 107 Stat. 380; amended Pub. L. 105-33, title III, §3002(d)(1), (e)(1)-(3), Aug. 5, 1997, 111 Stat. 262, 264, 265; Pub. L. 105-261, div. A, title X, §1064(c), Oct. 17, 1998, 112 Stat. 2132; Pub. L. 106-65, div. A, title X, §1062(c)(2), Oct. 5, 1999, 113 Stat. 768; Pub. L. 108-494, title II, §202, Dec. 23, 2004, 118 Stat. 3991.)

REFERENCES IN TEXT

For definition of the 1934 Act, referred to in subsecs. (a)(3), (5), (b)(2), and (f), see section 921(3) of this title.

Section 3002(c)(5) of the Balanced Budget Act of 1997, referred to in subsec. (f), is section 3002(c)(5) of Pub. L. 105-33, which is set out as a note under section 925 of this title.

AMENDMENTS

2004—Subsec. (g). Pub. L. 108-494 added pars. (1) to (6) and struck out former pars. (1) to (3) which related to relocation of Federal Government stations in general, process for relocation, and right to reclaim.

1999—Subsec. (b)(3)(A). Pub. L. 106-65 substituted "12 megahertz" for "20 megahertz".

1998—Subsec. (g)(1). Pub. L. 105-261 designated existing provisions as subpar. (A), inserted subpar. heading, substituted "Any such Federal entity which proposes to so relocate shall notify the NTIA, which in turn shall notify the Commission, before the auction concerned of the marginal costs anticipated to be associated with such relocation or with modifications necessary to accommodate prospective licensees. The Commission in turn shall notify potential bidders of the estimated relocation or modification costs based on the geographic area covered by the proposed licenses before the auction." for "Such payments may be in advance of relocation and may be in cash or in kind. Any such payment in cash shall be deposited in the account of such Federal entity in the Treasury of the United States or in a separate account authorized by law. Funds deposited according to this paragraph shall be available, without appropriation or fiscal year limitation, only for such expenses of the Federal entity for which such funds were deposited under this paragraph.", and added subpars. (B) to (F).

1997—Subsec. (a). Pub. L. 105-33, §3002(e)(1), inserted "and within 6 months after August 5, 1997" after "August 10, 1993," in introductory provisions.

Subsec. (b)(1). Pub. L. 105-33, §3002(e)(2)(A), (B), substituted "Initial reallocation report" for "In general" in heading and inserted "in the initial report required by subsection (a) of this section" after "recommend for reallocation" in text.

Subsec. (b)(2). Pub. L. 105-33, §3002(e)(2)(C), inserted "or (3)" after "paragraph (1)" in two places.

Subsec. (b)(3). Pub. L. 105-33, §3002(e)(2)(D), added par. (3).

Subsec. (d)(4). Pub. L. 105-33, §3002(e)(3), substituted "initial report" for "final report".

Subsecs. (f) to (i). Pub. L. 105-33, §3002(d)(1), added subsecs. (f) to (i).

SPECTRUM MANAGEMENT AUTHORITY RETAINED

Pub. L. 108-494, title II, §208(a), Dec. 23, 2004, 118 Stat. 3996, provided that: "Except as provided with respect to the bands of frequencies identified in section 113(g)(2)(A) of the National Telecommunications and

¹ So in original. Probably should be followed by "the".

Information Administration Organization Act (47 U.S.C. 923(g)(2)(A)) as amended by this title, nothing in this title [see Short Title of 2004 Amendment note set out under section 901 of this title] or the amendments made by this title shall be construed as limiting the Federal Communications Commission's authority to allocate bands of frequencies that are reallocated from Federal use to non-Federal use for unlicensed, public safety, shared, or non-commercial use."

REPORTS ON COSTS OF RELOCATIONS

Pub. L. 105-261, div. A, title X, §1064(d), Oct. 17, 1998, 112 Stat. 2133, provided that: "The head of each department or agency of the Federal Government shall include in the annual budget submission of such department or agency to the Director of the Office of Management and Budget a report assessing the costs to be incurred by such department or agency as a result of any frequency relocations of such department or agency that are anticipated under section 113 of the National Telecommunications [and] Information Administration Organization Act (47 U.S.C. 923) as of the date of such report."

§ 924. Withdrawal or limitation of assignment to Federal Government stations

(a) In general

The President shall—

(1) within 6 months after receipt of a report by the Secretary under subsection (a), (d)(1), or (f) of section 923 of this title, withdraw the assignment to a Federal Government station of any frequency which the report recommends for immediate reallocation;

(2) within any such 6-month period, limit the assignment to a Federal Government station of any frequency which the report recommends be made immediately available for mixed use under section 923(b)(2) of this title;

(3) by the delayed effective date recommended by the Secretary under section 923(e) of this title (except as provided in subsection (b)(4) of this section), withdraw or limit the assignment to a Federal Government station of any frequency which the report recommends be reallocated or made available for mixed use on such delayed effective date;

(4) assign or reassign other frequencies to Federal Government stations as necessary to adjust to such withdrawal or limitation of assignments; and

(5) transmit a notice and description to the Commission and each House of Congress of the actions taken under this subsection.

(b) Exceptions

(1) Authority to substitute

If the President determines that a circumstance described in paragraph (2) exists, the President—

(A) may substitute an alternative frequency or frequencies for the frequency that is subject to such determination and withdraw (or limit) the assignment of that alternative frequency in the manner required by subsection (a) of this section; and

(B) shall submit a statement of the reasons for taking the action described in subparagraph (A) to the Commission, Committee on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

(2) Grounds for substitution

For purposes of paragraph (1), the following circumstances are described in this paragraph:

(A) the reassignment would seriously jeopardize the national defense interests of the United States;

(B) the frequency proposed for reassignment is uniquely suited to meeting important governmental needs;

(C) the reassignment would seriously jeopardize public health or safety;

(D) the reassignment will result in costs to the Federal Government that are excessive in relation to the benefits that may be obtained from commercial or other non-Federal uses of the reassigned frequency; or

(E) the reassignment will disrupt the existing use of a Federal Government band of frequencies by amateur radio licensees.

(3) Criteria for substituted frequencies

For purposes of paragraph (1), a frequency may not be substituted for a frequency identified and recommended by the report of the Secretary under section 923(a) of this title unless the substituted frequency also meets each of the criteria specified by section 923(a) of this title.

(4) Delays in implementation

If the President determines that any action cannot be completed by the delayed effective date recommended by the Secretary pursuant to section 923(e) of this title, or that such an action by such date would result in a frequency being unused as a consequence of the Commission's plan under section 925 of this title, the President may—

(A) withdraw or limit the assignment to Federal Government stations on a later date that is consistent with such plan, except that the President shall notify each committee specified in paragraph (1)(B) and the Commission of the reason that withdrawal or limitation at a later date is required; or

(B) substitute alternative frequencies pursuant to the provisions of this subsection.

(Pub. L. 102-538, title I, §114, as added Pub. L. 103-66, title VI, §6001(a)(3), Aug. 10, 1993, 107 Stat. 384; amended Pub. L. 105-33, title III, §3002(d)(2), Aug. 5, 1997, 111 Stat. 264.)

AMENDMENTS

1997—Subsec. (a)(1). Pub. L. 105-33, §3002(d)(2)(A), substituted "subsection (a), (d)(1), or (f)" for "subsection (a) or (d)(1)".

Subsec. (a)(2). Pub. L. 105-33, §3002(d)(2)(B), substituted "any such 6-month period" for "either such 6-month period".

§ 925. Distribution of frequencies by Commission

(a) Allocation and assignment of immediately available frequencies

With respect to the frequencies made available for immediate reallocation pursuant to section 923(e)(2) of this title, the Commission, not later than 18 months after August 10, 1993, shall issue regulations to allocate such frequencies and shall propose regulations to assign such frequencies.
