

“(C) consider the needs of existing public safety radio services (as such services are described in section 309(j)(2)(A) of the Communications Act of 1934, as amended by this Act);

“(D) comply with the requirements of international agreements concerning spectrum allocations; and

“(E) coordinate with the Secretary of Commerce when there is any impact on Federal Government spectrum use.

“(3) USE OF BANDS AT 2,110–2,150 MEGAHERTZ.—The Commission shall reallocate spectrum located at 2,110–2,150 megahertz for assignment by competitive bidding unless the Commission determines that auction of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce greater receipts. If the Commission makes such a determination, then the Commission shall, within 2 years after the date of enactment of this Act [Aug. 5, 1997], identify an alternative 40 megahertz, and report to the Congress an identification of such alternative 40 megahertz for assignment by competitive bidding.

“(4) USE OF 15 MEGAHERTZ FROM BANDS AT 1,990–2,110 MEGAHERTZ.—The Commission shall reallocate 15 megahertz from spectrum located at 1,990–2,110 megahertz for assignment by competitive bidding unless the President determines such spectrum cannot be reallocated due to the need to protect incumbent Federal systems from interference, and that allocation of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce comparable receipts. If the President makes such a determination, then the President shall, within 2 years after the date of enactment of this Act, identify alternative bands of frequencies totalling 15 megahertz, and report to the Congress an identification of such alternative bands for assignment by competitive bidding.

“(5) NOTIFICATION TO THE SECRETARY OF COMMERCE.—The Commission shall attempt to accommodate incumbent licensees displaced under this section by relocating them to other frequencies available for allocation by the Commission. The Commission shall notify the Secretary of Commerce whenever the Commission is not able to provide for the effective relocation of an incumbent licensee to a band of frequencies available to the Commission for assignment. The notification shall include—

“(A) specific information on the incumbent licensee;

“(B) the bands the Commission considered for relocation of the licensee;

“(C) the reasons the licensee cannot be accommodated in such bands; and

“(D) the bands of frequencies identified by the Commission that are—

“(i) suitable for the relocation of such licensee; and

“(ii) allocated for Federal Government use, but that could be reallocated pursuant to part B of the National Telecommunications and Information Administration Organization Act (as amended by this Act) [part B (§§ 131–135) of title I of Pub. L. 102–538, see Tables for classification].”

§ 926. Authority to recover reassigned frequencies

(a) Authority of President

Subsequent to the withdrawal of assignment to Federal Government stations pursuant to section 924 of this title, the President may reclaim reassigned frequencies for reassignment to Federal Government stations in accordance with this section.

(b) Procedure for reclaiming frequencies

(1) Unallocated frequencies

If the frequencies to be reclaimed have not been allocated or assigned by the Commission

pursuant to the 1934 Act [47 U.S.C. 151 et seq.], the President shall follow the procedures for substitution of frequencies established by section 924(b) of this title.

(2) Allocated frequencies

If the frequencies to be reclaimed have been allocated or assigned by the Commission, the President shall follow the procedures for substitution of frequencies established by section 924(b) of this title, except that the statement required by section 924(b)(1)(B) of this title shall include—

(A) a timetable to accommodate an orderly transition for licensees to obtain new frequencies and equipment necessary for its utilization; and

(B) an estimate of the cost of displacing spectrum users licensed by the Commission.

(c) Costs of reclaiming frequencies

The Federal Government shall bear all costs of reclaiming frequencies pursuant to this section, including the cost of equipment which is rendered unusable, the cost of relocating operations to a different frequency, and any other costs that are directly attributable to the reclaiming of the frequency pursuant to this section, and there are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(d) Effective date of reclaimed frequencies

The Commission shall not withdraw licenses for any reclaimed frequencies until the end of the fiscal year following the fiscal year in which a statement under section 924(b)(1)(B) of this title pertaining to such frequencies is received by the Commission.

(e) Effect on other law

Nothing in this section shall be construed to limit or otherwise affect the authority of the President under section 706 of the 1934 Act (47 U.S.C. 606).

(Pub. L. 102–538, title I, § 116, as added Pub. L. 103–66, title VI, § 6001(a)(3), Aug. 10, 1993, 107 Stat. 386.)

REFERENCES IN TEXT

For definition of the 1934 Act, referred to in subsec. (b)(1), see section 921(3) of this title.

§ 927. Existing allocation and transfer authority retained

(a) Additional reallocation

Nothing in this subchapter prevents or limits additional reallocation of spectrum from the Federal Government to other users.

(b) Implementation of new technologies and services

Notwithstanding any other provision of this subchapter—

(1) the Secretary may, consistent with section 903(e) of this title, at any time allow frequencies allocated on a primary basis for Federal Government use to be used by non-Federal licensees on a mixed-use basis for the purpose of facilitating the prompt implementation of new technologies or services and for other purposes; and
