§ 1720C. Noninstitutional alternatives to nursing home care

(a) The Secretary may furnish medical, rehabilitative, and health-related services in non-institutional settings for veterans who are eligible under this chapter for, and are in need of, nursing home care. The Secretary shall give priority for participation in such program to veterans who—

(1) are in receipt of, or are in need of, nursing home care primarily for the treatment of a service-connected disability; or

(2) have a service-connected disability rated at 50 percent or more.

(b)(1) Under the program conducted pursuant to subsection (a), the Secretary shall (A) furnish appropriate health-related services solely through contracts with appropriate public and private agencies that provide such services, and (B) designate Department health-care employees to furnish case management services to veteran furnished services under the program.

(2) For the purposes of paragraph (1), the term "case management services" includes the coordination and facilitation of all services furnished to a veteran by the Department of Veterans Affairs, either directly or through contract, including assessment of needs, planning, referral (including referral for services to be furnished by the Department, either directly or through a contract, or by an entity other than the Department), monitoring, reassessment, and followup.

(c) The Secretary may provide in-kind assistance (through the services of Department of Veterans Affairs employees and the sharing of other Department resources) to a facility furnishing services to veterans under subsection (b)(1)(A). Any such in-kind assistance shall be provided under a contract between the Department and the facility concerned. The Secretary may provide such assistance only for use solely in the furnishing of appropriate services under this section and only if, under such contract, the Department receives reimbursement for the full cost of such assistance (including the cost of services and supplies and normal depreciation and amortization of equipment). Such reimbursement may be made by reduction in the charges to the United States or by payment to the United States. Any funds received through such reimbursement shall be credited to funds allotted to the Department facility that provided the assistance.

(d) The total cost of providing services or in-kind assistance in the case of any veteran for any fiscal year under the program may not exceed 65 percent of the cost that would have been incurred by the Department during that fiscal year if the veteran had been furnished, instead, nursing home care under section 1710 of this title during that fiscal year.
