RESEARCH ON EFFECTS OF OCEAN DISPOSAL OF MUNITIONS

Pub. L. 109-364, div. A, title III, §314, Oct. 17, 2006, 120 Stat. 2139, provided that:

“(a) IDENTIFICATION OF DISPOSAL SITES.—

“(1) HISTORICAL REVIEW.—The Secretary of Defense shall conduct a historical review of available records to determine the number, size, and probable locations of sites where the Armed Forces disposed of military munitions in coastal waters. The historical review shall, to the extent possible, identify the types of munitions at individual sites.

“(2) COOPERATION.—The Secretary shall request the assistance of the Coast Guard, the National Oceanic and Atmospheric Administration, and other relevant Federal agencies in conducting the review required by this subsection.

“(3) INTERIM REPORTS.—The Secretary shall periodically, but no less often than annually, release any new information obtained during the historical review conducted under paragraph (1). The Secretary may withhold from public release the exact nature and locations of munitions the potential unauthorized retrieval of which could pose a significant threat to the national defense or public safety.

“(4) INCLUSION OF INFORMATION IN ANNUAL REPORT ON ENVIRONMENTAL RESTORATION ACTIVITIES.—The Secretary shall include the information obtained pursuant to the review conducted under paragraph (1) in the annual report on environmental restoration activities submitted to Congress under section 2706 of title 10, United States Code.

“(5) FINAL REPORT.—The Secretary shall complete the historical review required under paragraph (1) and submit a final report on the findings of such review in the annual report on environmental restoration activities submitted to Congress for fiscal year 2009.

“(b) IDENTIFICATION OF NAVIGATIONAL AND SAFETY HAZARDS.—

“(1) IDENTIFICATION OF HAZARDS.—The Secretary of Defense shall provide available information to the Secretary of Commerce to assist the National Oceanic and Atmospheric Administration in preparing nautical charts and other navigational materials for coastal waters that identify known or potential hazards posed by disposed military munitions to private activities, including commercial shipping and fishing operations.

“(2) CONTINUATION OF INFORMATION ACTIVITIES.—The Secretary of Defense shall continue activities to inform potentially affected users of the ocean environment, particularly fishing operations, of the possible hazards from contact with disposed military munitions and the proper methods to mitigate such hazards.

“(c) RESEARCH.—

“(1) IN GENERAL.—The Secretary of Defense shall continue to conduct research on the effects on the ocean environment and those who use it of military munitions disposed of in coastal waters.

“(2) SCOPE.—Research under paragraph (1) shall include—

“(A) the sampling and analysis of ocean waters and sea beds at or adjacent to military munitions disposal sites selected pursuant to paragraph (3) to determine whether the disposed military munitions have caused or are causing contamination of such waters or sea beds;

“(B) investigation into the long-term effects of seawater exposure on disposed military munitions, particularly effects on chemical munitions;

“(C) investigation into the impacts any such contamination may have on the ocean environment and those who use it, including public health risks;

“(D) investigation into the feasibility of removing or otherwise remediating the military munitions; and

“(E) the development of effective safety measures for dealing with such military munitions.

“(3) RESEARCH CRITERIA.—In conducting the research required by this subsection, the Secretary shall ensure that the sampling, analysis, and investigations are conducted at representative sites, taking into account factors such as depth, water temperature, nature of the military munitions present, and relative proximity to onshore populations. In conducting such research, the Secretary shall select at least two representative sites each in the areas of the Atlantic coast, the Pacific coast (including Alaska), and the Hawaiian Islands.

“(4) AUTHORITY TO MAKE GRANTS AND ENTER INTO COOPERATIVE AGREEMENTS.—In conducting research under this subsection, the Secretary may make grants to, and enter into cooperative agreements with, qualified research entities.

“(d) MONITORING.—If the historical review required by subsection (a) or the research required by subsection (c) indicates that contamination is being released into the ocean waters from disposed military munitions at a particular site or that the site poses a significant public health or safety risk, the Secretary of Defense shall institute appropriate monitoring mechanisms at that site and report to the congressional defense committees [Committees on Armed Services and Appropriations of the Senate and the House of Representatives] on any additional measures that may be necessary to address the release or risk, as applicable.

“(e) DEFINITIONS.—In this section:

“(1) The term ‘coastal waters’ means that part of the ocean extending from the coast line of the United States to the outer boundary of the outer Continental Shelf.

“(2) The term ‘coast line’ has the meaning given that term in section 2(c) of the Submerged Lands Act (43 U.S.C. 1301(c)).

“(3) The term ‘military munitions’ has the meaning given that term in section 101(e) of title 10, United States Code.

“(4) The term ‘outer Continental Shelf’ has the meaning given that term in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a)).”
