EX. ORD. NO. 13330. HUMAN SERVICE TRANSPORTATION
COORDINATION

Ex. Ord. No. 13330, Feb. 24, 2004, 69 F.R. 9185, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance access to transportation to improve mobility, employment opportunities, and access to community services for persons who are transportation-disadvantaged, it is hereby ordered as follows:

SECTION 1. This order is issued consistent with the following findings and principles:

(a) A strong America depends on citizens who are productive and who actively participate in the life of their communities.

(b) Transportation plays a critical role in providing access to employment, medical and health care, education, and other community services and amenities. The importance of this role is underscored by the variety of transportation programs that have been created in conjunction with health and human service programs, and by the significant Federal investment in accessible public transportation systems throughout the Nation.

(c) These transportation resources, however, are often difficult for citizens to understand and access, and are more costly than necessary due to inconsistent and unnecessary Federal and State program rules and restrictions.

(d) A broad range of Federal program funding allows for the purchase or provision of transportation services and resources for persons who are transportation-disadvantaged. Yet, in too many communities, these services and resources are fragmented, unused, or altogether unavailable.

(e) Federally assisted community transportation services should be seamless, comprehensive, and accessible to those who rely on them for their lives and livelihoods. For persons with mobility limitations related to advanced age, persons with disabilities, and persons struggling for self-sufficiency, transportation within and between our communities should be as available and affordable as possible.

(f) The development, implementation, and maintenance of responsive, comprehensive, coordinated community transportation systems is essential for persons with disabilities, persons with low incomes, and older

adults who rely on such transportation to fully participate in their communities.

SEC. 2. *Definitions.* (a) As used in this order, the term “agency” means an executive department or agency of the Federal Government.

(b) For the purposes of this order, persons who are transportation-disadvantaged are persons who qualify for Federally conducted or Federally assisted transportation-related programs or services due to disability, income, or advanced age.

SEC. 3. *Establishment of the Interagency Transportation Coordinating Council on Access and Mobility.* (a) There is hereby established, within the Department of Transportation for administrative purposes, the “Interagency Transportation Coordinating Council on Access and Mobility” (“Interagency Transportation Coordinating Council” or “Council”). The membership of the Interagency Transportation Coordinating Council shall consist of:

(i) the Secretaries of Transportation, Health and Human Services, Education, Labor, Veterans Affairs, Agriculture, Housing and Urban Development, and the Interior, the Attorney General, and the Commissioner of Social Security; and

(ii) such other Federal officials as the Chairperson of the Council may designate.

(b) The Secretary of Transportation, or the Secretary’s designee, shall serve as the Chairperson of the Council. The Chairperson shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to particular subject matters, establish and direct subgroups of the Council, which shall consist exclusively of the Council’s members.

(c) A member of the Council may designate any person who is part of the member’s agency and who is an officer appointed by the President or a full-time employee serving in a position with pay equal to or greater than the minimum rate payable for GS–15 of the General Schedule to perform functions of the Council or its subgroups on the member’s behalf.

SEC. 4. *Functions of the Interagency Transportation Coordinating Council.* The Interagency Transportation Coordinating Council shall:

(a) promote interagency cooperation and the establishment of appropriate mechanisms to minimize duplication and overlap of Federal programs and services so that transportation-disadvantaged persons have access to more transportation services;

(b) facilitate access to the most appropriate, cost-effective transportation services within existing resources;

(c) encourage enhanced customer access to the variety of transportation and resources available;

(d) formulate and implement administrative, policy, and procedural mechanisms that enhance transportation services at all levels; and

(e) develop and implement a method for monitoring progress on achieving the goals of this order.

SEC. 5. *Report.* In performing its functions, the Interagency Transportation Coordinating Council shall present to me a report not later than 1 calendar year from the date of this order. The report shall:

(a) Identify those Federal, State, Tribal and local laws, regulations, procedures, and actions that have proven to be most useful and appropriate in coordinating transportation services for the targeted populations;

(b) Identify substantive and procedural requirements of transportation-related Federal laws and regulations that are duplicative or restrict the laws’ and regulations’ most efficient operation;

(c) Describe the results achieved, on an agency and program basis, in: (i) simplifying access to transportation services for persons with disabilities, persons with low income, and older adults; (ii) providing the most appropriate, cost-effective transportation services within existing resources; and (iii) reducing duplication to make funds available for more services to more such persons;

(d) Provide recommendations to simplify and coordinate applicable substantive, procedural, and administrative requirements; and

(e) Provide any other recommendations that would, in the judgment of the Council, advance the principles set forth in section 1 of this order.

SEC. 6. *General.* (a) Agencies shall assist the Inter-agency Transportation Coordinating Council and provide information to the Council consistent with applicable law as may be necessary to carry out its functions. To the extent permitted by law, and as permitted by available agency resources, the Department of Transportation shall provide funding and administrative support for the Council.

(b) Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, or legislative proposals.

(c) This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

The list of excepted programs in clause (1) is substituted for “highway safety programs, research and development not specifically referred to in paragraph (1) of this subsection”, in section 201(b)(2) of the Highway Safety Act of 1966 for clarity.

In subsection (d), the words “Administration . . . authorized by this section” are omitted as surplus.

The text of section 201(d) of the Highway Safety Act of 1966 is omitted as executed.

§ 106. Federal Aviation Administration

(a) The Federal Aviation Administration is an administration in the Department of Transportation.

(b) The head of the Administration is the Administrator. The Administration has a Deputy Administrator. They are appointed by the President, by and with the advice and consent of the Senate. When making an appointment, the President shall consider the fitness of the individual to carry out efficiently the duties and powers of the office. Except as provided in subsection (f) or in other provisions of law, the Administrator reports directly to the Secretary of Transportation. The term of office for any individual appointed as Administrator after August 23, 1994, shall be 5 years.

(c) The Administrator must—

- (1) be a citizen of the United States;

The Deputy Administrator may elect to receive (A) the pay provided by law for the Deputy Administrator, or (B) the pay and allowances or the retired pay of the military grade held. If the Deputy Administrator elects to receive the military pay and allowances or retired pay, the Ad-

(4) The appointment and service of a member of the armed forces as a Deputy Administrator does not affect the status, office, rank, or grade held by that member, or a right or benefit arising from the status, office, rank, or grade. The Secretary of a military department does not control the member when the member is carrying out duties and powers of the Deputy Administrator.

(e) The Administrator and the Deputy Administrator may not have a pecuniary interest in, or own stock in or bonds of, an aeronautical enterprise, or engage in another business, vocation, or employment.

(f) AUTHORITY OF THE SECRETARY AND THE ADMINISTRATOR.—

(1) AUTHORITY OF THE SECRETARY.—Except as provided in paragraph (2), the Secretary of Transportation shall carry out the duties and powers, and controls the personnel and activities, of the Administration. Neither the Secretary nor the Administrator may submit decisions for the approval of, or be bound by the decisions or recommendations of, a committee, board, or organization established by executive order.

(2) AUTHORITY OF THE ADMINISTRATOR.—The Administrator—

(A) is the final authority for carrying out all functions, powers, and duties of the Administration relating to—

(C) may delegate, and authorize successive redelegations of, to an officer or employee of the Administration any function, power, or duty conferred upon the Administrator, unless such delegation is prohibited by law; and

(D) except as otherwise provided for in this title, and notwithstanding any other provision of law, shall not be required to coordinate, submit for approval or concurrence, or seek the advice or views of the Secretary or any other officer or employee of the Department of Transportation on any matter with respect to which the Administrator is the final authority.

(3) REGULATIONS.—

(A) IN GENERAL.—In the performance of the functions of the Administrator and the Administration, the Administrator is authorized to issue, rescind, and revise such regulations as are necessary to carry out those functions. The issuance of such regulations shall be governed by the provisions of chapter 5 of title 5. On February 1 and August 1 of each year the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a letter listing each deadline the Administrator missed under this subparagraph during the 6-month period ending on such date, including an explanation for missing the deadline and a projected date on which the action that was subject to the deadline will be taken.

(B) APPROVAL OF SECRETARY OF TRANSPORTATION.—(i) The Administrator may not issue a proposed regulation or final regulation that is likely to result in the expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$250,000,000 or more (adjusted annually for inflation beginning with the year following the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century) in any year, or any regulation which is significant, unless the Secretary of Transportation approves the issuance of the regulation in advance. For purposes of this paragraph, a regulation is significant if the Administrator, in consultation with the Secretary (as appropriate), determines that the regulation is likely to—

(ii) The Administrator may identify for review under the criteria set forth in clause (i) unusually burdensome regulations that were issued before the date of the enactment of the Air Traffic Management System Performance Improvement Act of 1996 and that have been in force for more than 3 years.

(iii) For purposes of this subparagraph, the term “unusually burdensome regulation” means any regulation that results in the annual expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$25,000,000 or more (adjusted annually for inflation beginning with the year following the date of the enactment of the Air Traffic Management System Performance Act of 1996) in any year.

PUB. L. 103-272

Section 4(j)(3)(B) amends 49:106(g) to list the duties and powers of the Secretary of Transportation that the Administrator of the Federal Aviation Administration carries out. The duties and powers are derived from 2 sources. Some were transferred by former 49 App.:1655(c)(1), restated as 49:106 in section 1 of the Act of January 12, 1983 (Public Law 97-449, 96 Stat. 2417). The others are from laws enacted after October 15, 1966, in which the duties and powers are to be carried out by the Administrator rather than the Secretary.

“(a)(1) The Administrator of the Federal Aviation Administration shall establish a Federal Aviation Administration Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Federal Aviation Administration.

“(2) Individuals shall be selected to receive scholarships under this section through a competitive process primarily on the basis of academic merit, with consideration given to financial need and the goal of promoting the participation of individuals identified in section 33 or 34 of the Science and Engineering Equal Opportunities Act [42 U.S.C. 1885a, 1885b].

“(3) To carry out the Program the Administrator shall enter into contractual agreements with individuals selected under paragraph (2) under which the individuals agree to serve as full-time employees of the Federal Aviation Administration, for the period described in subsection (f)(1), in positions needed by the Federal Aviation Administration and for which the individuals are qualified, in exchange for receiving a scholarship.

“(b) In order to be eligible to participate in the Program, an individual must—

“(2) An individual may not receive a scholarship under this section for more than 4 academic years, unless the Administrator grants a waiver.

“(3) The dollar amount of a scholarship under this section for an academic year shall be determined under regulations issued by the Administrator, but shall in no case exceed the cost of attendance.

“(4) A scholarship provided under this section may be expended for tuition, fees, and other authorized expenses as established by the Administrator by regulation.

“(5) The Administrator may enter into a contractual agreement with an institution of higher education under which the amounts provided for a scholarship under this section for tuition, fees, and other authorized expenses are paid directly to the institution with respect to which the scholarship is provided.

“(f)(1) The period of service for which an individual shall be obligated to serve as an employee of the Federal Aviation Administration is, except as provided in subsection (h)(2), 24 months for each academic year for which a scholarship under this section is provided.

INTERNET AVAILABILITY OF INFORMATION

Pub. L. 106-181, title IX, §903, Apr. 5, 2000, 114 Stat. 196, provided that: “The Administrator [of the Federal Aviation Administration] shall make available through the Internet home page of the Federal Aviation Administration the abstracts relating to all research grants and awards made with funds authorized by the amendments made by this Act [see Tables for classification]. Nothing in this section shall be construed to require or permit the release of any information prohibited by law or regulation from being released to the public.”

FINDINGS

Section 221 of Pub. L. 104-264 provided that: “Congress finds the following:

“(1) In many respects the Administration is a unique agency, being one of the few non-defense government agencies that operates 24 hours a day, 365 days of the year, while continuing to rely on outdated technology to carry out its responsibilities for a state-of-the-art industry.

“(2) Until January 1, 1996, users of the air transportation system paid 70 percent of the budget of the Administration, with the remaining 30 percent coming from the General Fund. The General Fund contribution over the years is one measure of the benefit received by the general public, military, and other users of Administration’s services.

“(3) The Administration must become a more efficient, effective, and different organization to meet future challenges.

“(4) The need to balance the Federal budget means that it may become more and more difficult to obtain sufficient General Fund contributions to meet the Administration’s future budget needs.

“(5) Congress must keep its commitment to the users of the national air transportation system by seeking to spend all moneys collected from them each year and deposited into the Airport and Airway Trust Fund. Existing surpluses representing past receipts must also be spent for the purposes for which such funds were collected.

“(6) The aviation community and the employees of the Administration must come together to improve the system. The Administration must continue to recognize who its customers are and what their needs are, and to design and redesign the system to make safety improvements and increase productivity.

“(7) The Administration projects that commercial operations will increase by 18 percent and passenger

traffic by 35 percent by the year 2002. Without effective airport expansion and system modernization, these needs cannot be met.

“(8) Absent significant and meaningful reform, future challenges and needs cannot be met.

“(9) The Administration must have a new way of doing business.

“(10) There is widespread agreement within government and the aviation industry that reform of the Administration is essential to safely and efficiently accommodate the projected growth of aviation within the next decade.

“(11) To the extent that Congress determines that certain segments of the aviation community are not required to pay all of the costs of the government services which they require and benefits which they receive, Congress should appropriate the difference between such costs and any receipts received from such segment.

“(12) Prior to the imposition of any new charges or user fees on segments of the industry, an independent review must be performed to assess the funding needs and assumptions for operations, capital spending, and airport infrastructure.

“(13) An independent, thorough, and complete study and assessment must be performed of the costs to the Administration and the costs driven by each segment of the aviation system for safety and operational services, including the use of the air traffic control system and the Nation’s airports.

“(14) Because the Administration is a unique Federal entity in that it is a participant in the daily operations of an industry, and because the national air transportation system faces significant problems without significant changes, the Administration has been authorized to change the Federal procurement and personnel systems to ensure that the Administration has the ability to keep pace with new technology and is able to match resources with the real personnel needs of the Administration.

“(15) The existing budget system does not allow for long-term planning or timely acquisition of technology by the Administration.

“(16) Without reforms in the areas of procurement, personnel, funding, and governance, the Administration will continue to experience delays and cost overruns in its major modernization programs and needed improvements in the performance of the air traffic management system will not occur.

“(17) All reforms should be designed to help the Administration become more responsive to the needs of its customers and maintain the highest standards of safety.”

PURPOSES

Section 222 of title II of Pub. L. 104-264 provided that: “The purposes of this title [see Effective Date of 1996 Amendment note set out above] are—

“(1) to ensure that final action shall be taken on all notices of proposed rulemaking of the Administration within 18 months after the date of their publication;

“(2) to permit the Administration, with Congressional review, to establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

“(3) to establish a more autonomous and accountable Administration within the Department of Transportation; and

“(4) to make the Administration a more efficient and effective organization, able to meet the needs of a dynamic, growing industry, and to ensure the safety of the traveling public.”

PRESERVATION OF EXISTING AUTHORITY

Section 223(b) of title II of Pub. L. 104-264 provided that: “Nothing in this title [see Effective Date of 1996 Amendment note set out above] or the amendments

made by this title limits any authority granted to the Administrator by statute or by delegation that was in effect on the day before the date of the enactment of this Act [Oct. 9, 1996].”

EX. ORD. NO. 13180. AIR TRAFFIC PERFORMANCE-BASED ORGANIZATION

Ex. Ord. No. 13180, Dec. 7, 2000, 65 F.R. 77493, as amended by Ex. Ord. No. 13264, June 4, 2002, 67 F.R. 39243, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to further improve the provision of air traffic services in ways that increase efficiency, take better advantage of new technologies, accelerate modernization efforts, and respond more effectively to the needs of the traveling public, while enhancing the safety, security, and efficiency of the Nation's air transportation system, it is hereby ordered as follows:

SECTION 1. *Establishment of the Air Traffic Organization.* (a) The Secretary of Transportation (Secretary) shall, consistent with his legal authorities, move to establish within the Federal Aviation Administration (FAA) a performance-based organization to be known as the “Air Traffic Organization” (ATO).

(b) The ATO shall be composed of those elements of the FAA's Air Traffic Services and Research and Acquisition organizations that have direct connection and give support to the provision of day-to-day operational air traffic services, as determined by the Administrator of the Federal Aviation Administration (Administrator). The Administrator may delegate responsibility for any operational activity of the air traffic control system to the head of the ATO. The Administrator's responsibility for general safety, security, and policy-making functions for the National Airspace System is unaffected by this order.

(c) The Chief Operating Officer (COO) of the Air Traffic Control System, established by the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (Air-21) (Public Law 106-181) [see Short Title of 2000 Amendments note set out under section 40101 of this title], shall head the ATO and shall report directly to the Administrator and be subject to the authority of the Administrator. The COO, in consultation with the Air Traffic Control Subcommittee of the Aviation Management Advisory Committee, shall enter into an annual performance agreement with the Administrator that sets forth measurable organization and individual goals in key operational areas and describes specific targets and how such goals will be achieved. The COO may receive an annual bonus not to exceed 30 percent of the annual rate of basic pay, based upon the Administrator's evaluation of the COO's performance in relation to the targets and goals described above.

(d) The COO shall develop a 5-year strategic plan for the air traffic control system, including a clear statement of the mission and objectives for the system's safety, efficiency, and productivity. This strategic plan must ensure that ATO actions are consistent with long-term FAA strategies for the aviation system as a whole.

(e) The COO shall also enter into a framework agreement with the Administrator that will establish the relationship of the ATO with the other organizations of the FAA.

SEC. 2. *Purpose.* The FAA's primary mission is to ensure the safety, security, and efficiency of the National

Airspace System. The purpose of this order is to enhance that mission and further improve the delivery of air traffic services to the American public by reorganizing the FAA's air traffic services and related offices into a performance-based, results-oriented, organization. The ATO will be better able to make use of the unique procurement and personnel authorities that the FAA currently has and to better use the additional management reforms enacted by the Congress this year under Air-21. Specifically, the ATO shall:

(a) optimize use of existing management flexibilities and authorities to improve the efficiency of air traffic services and increase the capacity of the system;

(b) develop methods to accelerate air traffic control modernization and to improve aviation safety related to air traffic control;

(c) develop agreements with the Administrator of the FAA and users of the products, services, and capabilities it will provide;

(d) operate in accordance with safety performance standards developed by the FAA and rapidly respond to FAA safety and security oversight findings;

(e) consult with its customers, the traveling public, including direct users such as airlines, cargo carriers, manufacturers, airports, general aviation, and commercial space transportation providers, and focus on producing results that satisfy the FAA's external customer needs;

(f) consult with appropriate Federal, State, and local public agencies, including the Department of Defense and the National Aeronautics and Space Administration, to determine the best practices for meeting the diverse needs throughout the National Airspace System;

(g) establish strong incentives to managers for achieving results; and

(h) formulate and recommend to the Administrator any management, fiscal, or legislative changes necessary for the organization to achieve its performance goals.

SEC. 3. *Aviation Management Advisory Committee.* The Air Traffic Control Subcommittee of the Aviation Management Advisory Committee shall provide, consistent with its responsibilities under Air-21, general oversight to ATO regarding the administration, management, conduct, direction, and supervision of the air traffic control system.

SEC. 4. *Evaluation and Report.* Not later than 5 years after the date of this order, the Aviation Management Advisory Committee shall provide to the Secretary and the Administrator a report on the operation and effectiveness of the ATO, together with any recommendations for management, fiscal, or legislative changes to enable the organization to achieve its goals.

SEC. 5. *Definitions.* The term “air traffic control system” has the same meaning as the term defined by section 40102(a)(42) [now 40102(a)(47)] of title 49, United States Code.

SEC. 6. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right to administrative or judicial review, or any right, whether substantive or procedural, enforceable by any party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

(h) CONTRACTS, COOPERATIVE AGREEMENTS, AND AUDITS.—

(1) CONTRACTS AND COOPERATIVE AGREEMENTS.—In the same manner that a private corporation may make a contract within the scope of its authority under its charter, the Secretary may make contracts and cooperative agreements for the United States Government and disburse amounts to—

In subsection (b), the words “The Assistant Secretary of Commerce for Maritime Affairs shall, ex officio, be the Administrator” in section 201 of Reorganization Plan No. 7 of 1961 are omitted as superseded by 46 App. U.S.C. 1601 and 1603. The words “and who shall be compensated at the rate provided for level III of the Executive Schedule” in 46 App. U.S.C. 1603 are omitted as unnecessary because of 5 U.S.C. 5314.

In subsection (c), the word “Secretary” means the “Secretary of Transportation” because under 46 App. U.S.C. 1602 all functions, powers, and duties relating to the Maritime Administration were transferred from the Secretary of Commerce to the Secretary of Transportation. The words “in the competitive service” are substituted for “under the classified civil service” because of 5 U.S.C. 2102(c). The words “Provided, That such Deputy Administrator shall at no time sit as a member or acting member of the Federal Maritime Board” are omitted as obsolete because the Federal Maritime Board was abolished by section 304 of Reorganization Plan No. 7 of 1961 (46 App. U.S.C. 1111 note).

In subsection (f), the words “vessels of the United States” are substituted for “vessels of United States registry” because of the definition of “vessel of the United States” in chapter 1 of the revised title.

In subsection (g), the words “equal to the amount that would be paid to an individual performing work the Secretary considers to be of similar importance, difficulty, and responsibility” are substituted for “equal to the pay and allowances he would receive if he were the incumbent of an office or position in such service (or in the corresponding executive department), which, in the opinion of . . . the Secretary of Transportation, involves the performance of work similar in importance, difficulty, and responsibility” to eliminate unnecessary words.

In subsection (h)(2), the words “according to approved commercial practice as provided in the Act of March 20, 1922 (42 Stat. 444)” are omitted as obsolete and unnecessary.

In subsection (i)(2), the words “Notwithstanding any other provision of this chapter or any other law” are omitted as unnecessary. In clause (G), the words “National Defense Reserve Fleet” are substituted for “reserve fleet” for clarity. Clause (H) is substituted for “(7) maritime training at the Merchant Marine Academy at Kings Point, New York”, “(8) financial assistance to State maritime academies under section 1295c of this Appendix”, “(10) expenses necessary for additional training provided under section 1295d of this Appendix”, and “(10) expenses necessary to carry out subchapter XIII of this chapter” because of the reorganization of revised title 46 and to eliminate unnecessary words. The text of 46 App. U.S.C. 1119 (proviso) is omitted as obsolete.

Section effective Jan. 1, 2000, see section 107(a) of Pub. L. 106-159, set out as an Effective Date of 1999 Amendment note under section 104 of this title.

FINDINGS

Pub. L. 106-159, §3, Dec. 9, 1999, 113 Stat. 1749, provided that: “Congress makes the following findings:

“(1) The current rate, number, and severity of crashes involving motor carriers in the United States are unacceptable.

“(2) The number of Federal and State commercial motor vehicle and operator inspections is insufficient and civil penalties for violators must be utilized to deter future violations.

“(3) The Department of Transportation is failing to meet statutorily mandated deadlines for completing rulemaking proceedings on motor carrier safety and, in some significant safety rulemaking proceedings, including driver hours-of-service regulations, extensive periods have elapsed without progress toward resolution or implementation.

“(4) Too few motor carriers undergo compliance reviews and the Department’s data bases and information systems require substantial improvement to enhance the Department’s ability to target inspection and enforcement resources toward the most serious safety problems and to improve States’ ability to keep dangerous drivers off the roads.

“(7) Meaningful measures to improve safety must be implemented expeditiously to prevent increases in motor carrier crashes, injuries, and fatalities.

“(8) Proper use of Federal resources is essential to the Department’s ability to improve its research, rulemaking, oversight, and enforcement activities related to commercial motor vehicles, operators, and carriers.”

(b) In furtherance of the policy set forth in section 1 of this order, the Secretary of Transportation, in coordination with agencies as appropriate, shall advance environmental stewardship through cooperative actions with project sponsors to promote protection and enhancement of the natural and human environment in the planning, development, operation, and maintenance of transportation facilities and services.

(c) The Secretary of Transportation shall designate for the purposes of this order a list of high-priority transportation infrastructure projects that should receive expedited agency reviews and shall amend such list from time to time as the Secretary deems appropriate. For projects on the Secretary's list, agencies shall to the maximum extent practicable expedite their reviews for relevant permits or other approvals, and take related actions as necessary, consistent with available resources and applicable laws, including those relating to safety, public health, and environmental protection.

(b) Identifies substantive and procedural requirements of Federal, State, tribal, and local laws, regulations, and Executive Orders that are inconsistent with, duplicative of, or are structured so as to restrict their efficient implementation with other applicable requirements.

(c) Makes recommendations regarding those additional actions that could be taken to: (i) address the coordination and expediting of reviews of transportation infrastructure projects by simplifying and harmonizing applicable substantive and procedural requirements; and (ii) elevate and resolve controversies among Federal, State, tribal, and local agencies related to the review or impacts of transportation infrastructure projects in a timely manner.

SEC. 6. Judicial Review. This order is intended only to improve the internal management of the Federal Government and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

(2) investigate water terminals, both for inland waterway traffic and for through traffic by water and rail, including the necessary docks, warehouses, and equipment, and investigate railroad spurs and switches connecting with those water terminals, to develop the types most appropriate for different locations and for transferring passengers or property between water carriers and rail carriers more expeditiously and economically;

(3) consult with communities, cities, and towns about the location of water terminals, and cooperate with them in preparing plans for terminal facilities;

(4) investigate the existing status of water transportation on the different inland waterways of the United States to learn the extent to which—

(A) the waterways are being used to their capacity and are meeting the demands of traffic; and

(B) water carriers using those waterways are interchanging traffic with rail carriers;

(5) investigate other matters that may promote and encourage inland water transportation; and

(6) compile, publish, and distribute information about transportation on inland waterways that the Secretary considers useful to the commercial interests of the United States.

305(b)	49:1656 (less (a)).	

In subsection (a), before clause (1), the words “consistent with national transportation policies” after “develop standards and criteria” are omitted as unnecessary because of section 302 of the revised title. The words “Based on experience” are substituted for “in the light of experience”, and the words “shall prescribe” are substituted for “be promulgated by the”, to conform to other sections of the revised title. The words “from time to time” after “shall revise” are omitted as unnecessary. The words “This subsection does not apply to” are substituted for “except such proposals as are concerned with” for clarity. In clause (1), the words “a department, agency, or instrumentality of the Government” are substituted for “Federal agencies” for clarity and consistency. Similar conforming changes are made throughout the section. The word “services” after “provide transportation” is omitted as unnecessary. In clause (2), the words “48 contiguous States” are substituted for “contiguous United States” for clarity.

The text of 49:1656(a) (last par.) that provided that the Secretary of Transportation was a member of the Water Resources Council on matters pertaining to navigation features of water resource projects is omitted as superseded because 42:1962(a) gave the Secretary membership on the Council without limitation.

In subsection (b)(2), the words “unit of” before “governments” are omitted as surplus. In clause (3), the word “thereafter” after “send” is omitted as surplus.

§ 306. Prohibited discrimination

(a) In this section, “financial assistance” includes obligation guarantees.

(b) A person in the United States may not be excluded from participating in, be denied the benefits of, or be subject to discrimination under, a project, program, or activity because of race, color, national origin, or sex when any part of the project, program, or activity is financed through financial assistance under section 332 or 333 or chapter 221 or 249 of this title, section 211 or 216 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 721, 726), or title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.).

(c) When the Secretary of Transportation decides that a person receiving financial assistance under a law referred to in subsection (b) of this section has not complied with that subsection, a Federal civil rights law, or an order or regulation issued under a Federal civil rights law, the Secretary shall notify the person of the decision and require the person to take necessary action to ensure compliance with that subsection.

(d) If a person does not comply with subsection (b) of this section within a reasonable time after receiving a notice under subsection (c) of this section, the Secretary shall take at least one of the following actions:

(1) direct that no more Federal financial assistance be provided the person.

(2) refer the matter to the Attorney General with a recommendation that a civil action be brought against the person.

(3) carry out the duties and powers provided by title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

(4) take other action provided by law.

(e) When a matter is referred to the Attorney General under subsection (d)(2) of this section, or when the Attorney General has reason to believe that a person is engaged in a pattern or

practice violating this section, the Attorney General may begin a civil action in a district court of the United States for appropriate relief.

In subsection (d), the words “at least one of the following actions” are substituted for “and/or” for clarity and consistency.

The text of 45:803(e) is omitted as unnecessary.

HISTORICAL AND REVISION NOTES

Table with 3 columns: Revised Section, Source (U.S. Code), Source (Statutes at Large). Rows include 307(a), 307(b), and 307(c) with their respective legal sources.

In the section, the words "be the duty of" before "Secretary shall" are omitted as surplus.

In subsection (a), the word "inspect" is substituted for "investigate" as being more appropriate. The words "person applying to the Interstate Commerce Commission for authority to provide transportation or freight forwarder service" are substituted for "applicant seeking operating authority from the Interstate Commerce Commission" as being more precise and to conform to subtitle IV of the revised title. The words "of the inspection" are inserted for clarity.

In subsection (b), the words "person applying for permanent authority to provide transportation or freight forwarder service" are substituted for "applicant for permanent operating authority" as being more precise and to conform to subtitle IV of the revised title. The words "proposed transfer of permanent authority" are substituted for "proposed transaction involving transfer of operating authority" to eliminate surplus words and for clarity because the transfer only involves permanent authority.

In subsection (c)(1), the words "providing transportation or freight forwarder service subject to its jurisdiction" are inserted for clarity.

Subsection (c)(2) is substituted for 49:1653(e)(3) for clarity and to conform to subtitle IV of the revised title. The words "freight forwarder service" are not

used because the law does not provide for temporary authority for freight forwarders.

In subsection (c)(3) and (4), the word "finding" is substituted for "determination" to conform to subtitle IV of the revised title.

In subsection (c)(3), the words "necessary or" before "desirable" are omitted as surplus.

L. 103-272, §§1(e), 7(b), July 5, 1994, 108 Stat. 1202, 1379.

§ 309. High-speed ground transportation

(a) The Secretary of Transportation, in consultation with the Secretaries of Commerce, Energy, and Defense, the Administrator of the Environmental Protection Agency, the Assistant Secretary of the Army for Public Works, and the heads of other interested agencies, shall lead and coordinate Federal efforts in the research and development of high-speed ground transportation technologies in order to foster the implementation of magnetic levitation and high-speed steel wheel on rail transportation systems as alternatives to existing transportation systems.

(b)(1) The Secretary may award contracts and grants for demonstrations to determine the contributions that high-speed ground transportation could make to more efficient, safe, and economical intercity transportation systems. Such demonstrations shall be designed to measure and evaluate such factors as the public response to new equipment, higher speeds, variations in fares, improved comfort and convenience, and more frequent service. In connection with grants and contracts for demonstrations under this section, the Secretary shall provide for financial participation by private industry to the maximum extent practicable.

(2)(A) In connection with the authority provided under paragraph (1), there is established a national high-speed ground transportation technology demonstration program, which shall be separate from the national magnetic levitation prototype development program established under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991 and shall be managed by the Secretary of Transportation.

(B)(i) Any eligible applicant may submit to the Secretary a proposal for demonstration of any advancement in a high-speed ground transportation technology or technologies to be incorporated as a component, subsystem, or system in any revenue service high-speed ground transportation project or system under construction or in operation at the time the application is made.

(ii) Grants or contracts shall be awarded only to eligible applicants showing demonstrable benefit to the research and development, design, construction, or ultimate operation of any maglev technology or high-speed steel wheel on rail technology. Criteria to be considered in evaluating the suitability of a proposal under this paragraph shall include—

- (I) feasibility of guideway or track design and construction;
- (II) safety and reliability;
- (III) impact on the environment in comparison to other high-speed ground transportation technologies;
- (IV) minimization of land use;
- (V) effect on human factors related to high-speed ground transportation;
- (VI) energy and power consumption and cost;
- (VII) integration of high-speed ground transportation systems with other modes of transportation;
- (VIII) actual and projected ridership; and
- (IX) design of signaling, communications, and control systems.

(C) For the purposes of this paragraph, the term “eligible applicant” means any United States private business, State government, local government, organization of State or local government, or any combination thereof. The term does not include any business owned in whole or in part by the Federal Government.

(D) The amount and distribution of grants or contracts made under this paragraph shall be determined by the Secretary. No grant or contract may be awarded under this paragraph to demonstrate a technology to be incorporated into a project or system located in a State that prohibits under State law the expenditure of non-Federal public funds or revenues on the construction or operation of such project or system.

(E) Recipients of grants or contracts made pursuant to this paragraph shall agree to submit a report to the Secretary detailing the results and benefits of the technology demonstration proposed, as required by the Secretary.

NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM

Section 1036(b) of Pub. L. 102-240 provided that:

"(1) MANAGEMENT OF PROGRAM.—There is hereby established a national magnetic levitation prototype development program to be managed by a program director appointed jointly by the Secretary and the Assistant Secretary of the Army for Civil Works (hereinafter in this subsection referred to as the 'Assistant Secretary'). To carry out such program, the Secretary and the Assistant Secretary shall establish a national maglev joint project office (hereinafter in this subsection referred to as the 'Maglev Project Office'), which shall be headed by the program director, and shall enter into such arrangements as may be necessary for funding, staffing, office space, and other requirements that will allow the Maglev Project Office to

carry out its functions. In carrying out such program, the program director shall consult with appropriate Federal officials, including the Secretary of Energy and the Administrator of the Environmental Protection Agency.

“(2) PHASE ONE CONTRACTS.—

“(A) REQUEST FOR PROPOSALS.—Not later than 12 months after the date of the enactment of this Act [Dec. 18, 1991], the Maglev Project Office shall release a request for proposals for development of conceptual designs for a maglev system and for research to facilitate the development of such conceptual designs.

“(B) AWARD OF CONTRACTS.—Not later than 15 months after the date of the enactment of this Act, the Secretary and the Assistant Secretary shall, based on the recommendations of the program director, award 1-year contracts for research and development to no fewer than 5 eligible applicants. If fewer than 5 complete applications have been received, contracts shall be awarded to as many eligible applicants as is practical.

“(C) FACTORS AND CONDITIONS TO BE CONSIDERED.—The Secretary and the Assistant Secretary may approve contracts under subparagraph (B) only after consideration of factors relating to the construction and operation of a magnetic levitation system, including the cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along the Interstate highway rights-of-way, the potential for the guideway design to be a national standard, the applicant's resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors and only if the applicant agrees to submit a report to the Maglev Project Office detailing the results of the research and development and agrees to provide for matching of the phase one contract at a 90 percent Federal, 10 percent non-Federal, cost share.

“(3) PHASE TWO CONTRACTS.—Within 3 months of receiving the final reports of contract activities under paragraph (2), and based only on such reports and the recommendations of the program director, the Secretary and the Assistant Secretary shall select not more than 3 eligible applicants from among the contract recipients submitting reports under paragraph (2) to receive 18-month contracts for research and development leading to a detailed design for a prototype maglev system. The Secretary and the Assistant Secretary may only award contracts under this paragraph if—

“(A) they determine that the applicant has demonstrated technical merit for the conceptual design and the potential for further development of such design into an operational prototype as described in paragraph (4),

“(B) the applicant agrees to submit the detailed design within such 18-month period to the Maglev Project Office and the selection committee described in paragraph (4), and

“(C) the applicant agrees to provide for matching of the phase two contract at an 80 percent Federal, 20 percent non-Federal, cost share.

“(4) PROTOTYPE.—

“(A) SELECTION OF DESIGN.—Within 6 months of receiving the detailed designs developed under paragraph (3), the Secretary and the Assistant Secretary shall, based on the recommendations of the selection committee described in this subparagraph, select 1 design for development into a full-scale prototype, unless the Secretary and the Assistant Secretary determine jointly that no design shall be selected, based on an assessment of technical feasibility and projected cost of construction and operation of the prototype. A selection committee of 8 members, consisting of—

“(i) 1 member to be appointed by the Secretary,

“(ii) 1 member to be appointed by the Assistant Secretary,

“(iii) 3 members to be appointed by the Senate majority and minority leaders, and

“(iv) 3 members to be appointed by the Speaker of the House and the minority leader of the House, shall be appointed not later than 1 year following the award of contracts under paragraph (3). The selection committee, within 3 months of receiving the detailed designs developed under paragraph (3), shall make a recommendation to the Secretary and the Assistant Secretary as to the best prototype design or the unsuitability of any design. The program director shall provide technical reviews of the phase two contract reports to the selection committee and otherwise provide any technical assistance that the committee requires to assist it in making a recommendation. In the event that the Secretary and the Assistant Secretary determine jointly not to select a design for development under this subsection, they shall report to Congress on the basis for such determination, together with recommendations for future action, including further research, development, or design, termination of the program, or such other action as may be appropriate.

“(B) AWARD OF CONSTRUCTION GRANT OR CONTRACT.—Unless the Secretary and the Assistant Secretary determine not to proceed pursuant to subparagraph (A), they shall, not later than 3 months after selection of a design for development into a full-scale prototype, and based on the recommendations of the program director, award 1 construction grant or contract to the applicant whose detailed design was selected under subparagraph (A) for the purpose of constructing a prototype maglev system in accordance with the selected design. Not more than 75 percent of the cost of the project shall be borne by the United States.

“(C) FACTORS TO BE CONSIDERED IN SELECTION.—Selection of the detailed design under this paragraph shall be based on consideration of the following factors, among others:

“(i) The project shall be capable of utilizing Interstate highway rights-of-way along or above a significant portion of its route, and may also use railroad rights-of-way along or above any portion of the railroad route.

“(ii) The total length of guideway shall be at least 19 miles and allow significant full-speed operations between stops.

“(iii) The project shall be constructed and ready for operational testing within 3 years after the award of the contract or grant.

“(iv) The project shall provide for the conversion of the prototype to commercial operation after testing and technical evaluation is completed.

“(v) The project shall be located in an area that provides a potential ridership base for future commercial operation.

“(vi) The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States.

“(vii) The project shall have at least 1 switch.

“(viii) The project shall be intermodal in nature connecting a major metropolitan area with an airport, port, passenger rail station, or other transportation mode.

“(D) ADDITIONAL FACTORS FOR CONSIDERATION.—In awarding a grant or contract under this paragraph, the Secretary shall encourage the development of domestic manufacturing capabilities. In selecting among eligible applicants, the Secretary shall consider existing railroads and equipment manufacturers with excess production capacity, including railroads that have experience in advanced technologies (including self-propelled cars).

“(5) LICENSING.—

“(A) PROPRIETARY RIGHTS.—No trade secrets or commercial or financial information that is privileged or confidential, under the meaning of section 552(b)(4) of title 5, United States Code, which is obtained from a United States business, research, or education entity as a result of activities under this subsection shall be disclosed.

“(B) COMMERCIAL INFORMATION.—The research, development, and use of any technology developed pursuant to an agreement reached pursuant to this subsection, including the terms under which any technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3701–3714). In addition, the Secretary and the Assistant Secretary may require any grant or contract recipient to assure that research and development be performed substantially in the United States and that the products embodying the inventions made under any agreement pursuant to this subsection or produced through the use of such inventions be manufactured substantially in the United States.

“(6) REPORTS.—The Secretary and the Assistant Secretary shall provide periodic reports to Congress on progress made under this subsection.

“(7) ELIGIBLE APPLICANT DEFINED.—For purposes of this subsection, the term ‘eligible applicant’ means a United States private business, United States public or private education and research organization, Federal laboratory, or a consortium of such businesses, organizations, and laboratories.”

In the chapter, the words “Secretary of Transportation” and “Secretary” are substituted for “Administrator” in the provisions of the Federal Aviation Act of 1958 (Pub. L. 85-726, 72 Stat. 731) restated in the revised chapter because of the transfer of aviation functions to the Secretary under 49:1655(c)(1).

In subsection (a), the words “may prescribe regulations to carry out the duties and powers” are substituted for “may make such rules and regulations as may be necessary to carry out . . . functions, powers, and duties” for consistency and to eliminate unnecessary words. The text of 49:1657(f) and (g) is omitted as executed because the transfer of personnel, assets, and liabilities, etc., has been accomplished.

In subsection (b), the words “Except where this chapter vests in any administration, agency or board, specific functions, powers, and duties” before “the Secretary may” in 49:1657(e)(1) are omitted because of the specific wording of sections 103, 104, and 106 of the revised title. The words “in addition to the authority to delegate and redelegate contained in any other Act in the exercise of the functions transferred to or vested in the Secretary in this chapter” before “delegate” in 49:1657(e)(1) are omitted because the authority of the Secretary to delegate is consolidated in the subsection. The words “the duties and powers of the Secretary” are substituted for “any of his residual functions, powers, and duties” in 49:1657(e)(1) and “any of the functions transferred to him by this reorganization plan” in section 2 of Reorganization Plan No. 2 of 1968 (eff. July 1, 1968, 82 Stat. 1369), for clarity and consistency. The words “as he may designate” and “of such functions, powers, and duties as he may deem desirable” are omitted as surplus each place they appear in 49:1657(e)(1) and (2). The text of section 322(b) (1st sentence) of the revised title is substituted for 49:1344(d) (less words after semicolon) for clarity and because of the transfer of aviation functions to the Secretary of Transportation under 49:1655(c)(1). The text of 49:1657(e)(2) (words before 2d comma) is omitted as unnecessary because the authority of an officer to delegate is consolidated in the subsection. The words “the duties and powers of the officer” are substituted for “such functions, powers, and duties” in 49:1657(e)(2) for clarity and consistency. The words “the duties and powers specified in sections 103(c)(1), 104(c)(1), and 106(g)(1) of this title” are substituted for “any of the statutory duties and responsibilities specifically assigned to them by this chapter” in 49:1657(e)(3) for clarity. The words “may not be delegated to an officer or employee outside the Administration concerned” are substituted for “The Administrators established by section 1652(e) of this title . . . may not delegate . . . outside of their respective administrations” in 49:1657(e)(3) for clarity and because of the restatement of the section.

In subsection (c), before clause (1), the words “aviation duties and powers” are added because the source provisions being restated only applies to carrying out duties and powers related to the Federal Aviation Administration. In clause (2), the words “those departments, agencies, and instrumentalities” are substituted for “such other agencies and instrumentalities” in 49:1343(i) for clarity and consistency. The words “aviation . . . Department” are substituted for “Administration” in 49:1343(i) because of the transfer of aviation functions to the Secretary under 49:1655(c)(1).

In subsection (d), before clause (1), the words “aviation duties and powers” are substituted for “for the exercise and performance of the powers and duties vested in and imposed upon him by law” in 49:1344(a) because the source provisions being restated only applies to carrying out duties and powers related to the Federal Aviation Administration. The words “at the seat of government and elsewhere as may be necessary” after “expenditures” and “and as from time to time may be appropriated for by Congress” are omitted as surplus. In clause (8), the words “passenger-carrying aircraft and automobiles” are substituted for “passenger-carrying automobiles and aircraft” in 49:1344(a) for clarity. The words “such . . . as is necessary in the exercise and performance of the powers and duties of the Secretary” after “aircraft” in 49:1344(a) are omitted as unnecessary because of the restatement of the section. The text of 49:1344(a) (proviso) is omitted as unnecessary.

In subsection (e), before clause (1), the words “or in support of” are omitted as surplus. In clause (1), the words “making the property” are substituted for “for manufacture” for clarity. In clause (2), the word “formal” is omitted as unnecessary. The word “unreasonably” is substituted for “unduly” for consistency.

In subsection (d), the words “in carrying out duties and powers under the Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.)” are substituted for “in discharge of responsibilities under this chapter” in 49:1343(b) because of the transfer of aviation functions to the Secretary under 49:1655(c)(1) and for consistency. HISTORICAL AND REVISION NOTES—CONTINUED
PUB. L. 97-449

<i>Revised Section</i>	<i>Source (U.S. Code)</i>	<i>Source (Statutes at Large)</i>
	49:26(g).	Feb. 4, 1887, ch. 104, 24 Stat. 379, §25(g); added Aug. 26, 1937, ch. 818, 50 Stat. 837; Sept. 18, 1940, ch. 722, §14(b), 54 Stat. 919.
	49:1655(f)(2).	Oct. 15, 1966, Pub. L. 89-670, §6(f)(2), 80 Stat. 940.

In the chapter, the source provisions are those in effect on March 31, 1967, the day before the effective date of the Department of Transportation Act (Pub. L. 89-670, 80 Stat. 931), because 49:1655(f)(2) gave the Secretary of Transportation the same powers enumerated in 49:1655(f)(2) that the Interstate Commerce Commission had before certain duties and powers under 49:1655(e) were transferred on April 1, 1967, from the Commission to the Secretary. All references to brokers in the source provisions are omitted as not being applicable to the duties and powers transferred to the Secretary of Transportation.

Subsection (a) is included to ensure that the identical definitions that are relevant are used without repeating them. The source provisions for the definitions are found in the revision notes for sections 3101, 3102(c), and 10102 of the revised title.

In subsection (b), the provisions of law to which the chapter applies are only certain laws listed in 49:1655(e). Those laws include the source provisions restated in chapter 31 of the revised title and 45:4, 5, 6 (in carrying out 45:4 and 5), 11, 12, 13 (proviso), 13 (less proviso in carrying out 45:11, 12, and 13 (proviso)), and 61-64b, and 49:26(a)-(f) (words before last semicolon) and (h). The administrative powers of the Secretary under the chapter are based on the administrative powers of 49:1655(f)(2). That provision lists administrative powers the Commission had under the Interstate Commerce Act (ch. 104, 24 Stat. 379) to carry out the Act, and certain other laws authorized the Commission to use its powers under the Act to carry out those other laws. The administrative powers listed in 49:1655(f)(2) and codified in the chapter therefore apply only to a law listed in 49:1655(e) that was a part of the Interstate Commerce Act or to which the powers of the Commission under the Act were applied. The text of 45:61-64b is included because section 4 of the Act of March 4, 1907 (ch. 2939, 34 Stat. 1417), stated, "It shall be the duty of the Interstate Commerce Commission to execute and enforce the provisions of this Act, and all powers granted to the Interstate Commerce Commission are hereby extended to it in the execution of this Act". The transfer to the Secretary was executed on March 31, 1967. The Act of March 4, 1907, was restated by the Act of December 26, 1969 (Pub. L. 91-169, 83 Stat. 463); section 4 was not included in the restatement. However, repeal by implication is not favored and the transfer was completed on March 31, 1967. Therefore, the text of 45:61-64b is included within the scope of the chapter. The text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed.

PUB. L. 103-272

Section 4(j)(11) makes conforming amendments to 49:ch. 5 to reflect the restatement of 49:508 and related provisions in chapter 59 of the revised title.

AMENDMENTS

1995—Subsec. (a)(1). Pub. L. 104-88 substituted "sections 10102 and 13102" for "section 10102".

1994—Subsec. (a)(2). Pub. L. 103-272, §5(m)(9)(A), substituted "section 31501" for "section 3101".

Subsec. (a)(3). Pub. L. 103-272, §5(m)(9)(B), substituted "section 31502(c)" for "section 3102(c)".

Subsec. (a)(4) to (9). Pub. L. 103-272, §4(j)(11)(A), struck out pars. (4) to (9) which defined "beneficial owner", "carrier", "container", "initial carrier", "intermodal transportation", and "trailer", respectively.

Subsec. (b). Pub. L. 103-272, §5(m)(9)(C), added subsec. (b) and struck out former subsec. (b) which read as follows: "This chapter only applies in carrying out—

"(1) chapter 31 of this title; and

"(2) other duties and powers transferred to the Secretary under section 6(e) of the Department of Transportation Act (49 App. U.S.C. 1655(e)) and vested in the Interstate Commerce Commission before October 15, 1966."

1992—Subsec. (a)(4) to (9). Pub. L. 102-548 added pars. (4) to (9).

1984—Subsec. (b)(2). Pub. L. 98-216 substituted "49 App. U.S.C." for "49 U.S.C.".

EFFECTIVE DATE OF 1995 AMENDMENT

Amendment by Pub. L. 104-88 effective Jan. 1, 1996, see section 2 of Pub. L. 104-88, set out as an Effective Date note under section 701 of this title.

SHORT TITLE OF 1992 AMENDMENT

Section 1 of Pub. L. 102-548 provided that: "This Act [enacting section 508 of this title, amending this section and section 521 of this title, and enacting provisions set out as notes under section 508 of this title] may be cited as the 'Intermodal Safe Container Transportation Act of 1992'."

If a witness disobeys a subpoena, the Secretary, or a party to a proceeding or investigation before the Secretary, may petition the district court for the judicial district in which the proceeding or investigation is conducted to enforce the subpoena. The court may punish a refusal to obey an order of the court to comply with a subpoena as a contempt of court.

(e)(1) In a proceeding or investigation, the Secretary may take testimony of a witness by deposition and may order the witness to produce records. A party to a proceeding or investigation pending before the Secretary may take the tes-

timony of a witness by deposition and may require the witness to produce records at any time after a proceeding or investigation is at issue on petition and answer. If a witness fails to be deposed or to produce records under this subsection, the Secretary may subpoena the witness to take a deposition, produce the records, or both.

(2) A deposition may be taken before a judge of a court of the United States, a United States magistrate judge, a clerk of a district court, or a chancellor, justice, or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of a county court, or court of common pleas of any State, or a notary public who is not counsel or attorney of a party or interested in the proceeding or investigation.

(3) Before taking a deposition, reasonable notice must be given in writing by the party or the attorney of that party proposing to take a deposition to the opposing party or the attorney of record of that party, whoever is nearest. The notice shall state the name of the witness and the time and place of taking the deposition.

(4) The testimony of a person deposed under this subsection shall be taken under oath. The person taking the deposition shall prepare, or cause to be prepared, a transcript of the testimony taken. The transcript shall be subscribed by the deponent.

(5) The testimony of a witness who is in a foreign country may be taken by deposition before an officer or person designated by the Secretary or agreed on by the parties by written stipulation filed with the Secretary. The deposition shall be filed with the Secretary promptly.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The text of 49:305(a)-(c), (e), and (g)-(j) is not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In subsection (b), the text of 49:12(1)(a) (2d sentence words after semicolon) is omitted as unnecessary because the Secretary of Transportation already has authority under chapter 3 of the revised title to make recommendations to Congress.

In subsections (c)-(f), the text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed.

In subsection (c), the words "economic and" are omitted as not being transferred to the Secretary. The text of 49:305(f) (last sentence) is omitted as not applicable to this chapter.

In subsection (d), the reference to joint boards in 49:305(d) is omitted as not applicable to this chapter because 49:305(a) (establishing joint boards) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

PUB. L. 103-272

Section 4(j)(12) amends 49:502(e)(2) and 10321(d)(3) to reflect the change in the name of United States magistrates to United States magistrate judges made by section 321 of the Judicial Improvements Act of 1990 (Public Law 101-650, 104 Stat. 5117).

AMENDMENTS

1994—Subsec. (e)(2). Pub. L. 103-272 inserted "judge" after "United States magistrate".

§ 503. Service of notice and process on certain motor carriers of migrant workers and on motor private carriers

(a) Each motor carrier of migrant workers (except a motor contract carrier) and each motor private carrier shall designate an agent by name and post office address on whom service of notices in a proceeding before, and actions of, the Secretary of Transportation may be made. The designation shall be in writing and filed with the Secretary. The carrier also shall file the designation with the authority of each State in which it operates having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of that State. The designation may be changed at any time in the same manner as originally made.

(b) A notice of the Secretary to a carrier under this section is served personally or by mail on that carrier or its designated agent. Service by mail on the designated agent is made at the address filed for the agent. When notice is given by

mail, the date of mailing is considered to be the time when the notice is served. If the carrier does not have a designated agent, service may be made by posting a copy of the notice in the office of the secretary or clerk of the authority having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of the State in which the carrier maintains headquarters and with the Secretary.

(c) Each of those carriers, including such a carrier operating in the United States while providing transportation between places in a foreign country or between a place in one foreign country and a place in another foreign country, shall designate an agent in each State in which it operates by name and post office address on whom process issued by a court with subject matter jurisdiction may be served in an action brought against that carrier. The designation shall be in writing and filed with the Secretary and with the authority of each State in which the carrier operates having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of that State. If a designation under this subsection is not made, service may be made on any agent of the carrier in that State. The designation may be changed at any time in the same manner as originally made.

The section is included because 49:1655(e)(6)(D) transferred to the Secretary of Transportation all functions, powers, and duties of the Interstate Commerce Commission under 49:321(a) and (c) to the extent those subsections relate to motor carriers of migrant workers and motor private carriers. The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

Section 503	49 U.S. Code	Revised Section
(a), (b)	321(a).	10329
(c)	321(c).	10330

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In the section, the words "motor carriers" are omitted because 49:1655(e)(6)(D) applies 49:321(a) and (c) only to motor carriers of migrant workers, other than motor contract carriers, and to motor private carriers, and 49:1655(f)(2)(B)(ii) contains no reference to 49:321. The text of 49:321(b) and (d) is not included because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(e)(6)(D).

In subsection (b), the text of 49:321(a) (less 1st-5th sentences) is omitted as not applicable to this chapter.

§ 504. Reports and records

(a) In this section—

(1) "association" means an organization maintained by or in the interest of a group of rail carriers, motor carriers, motor carriers of migrant workers, or motor private carriers that performs a service, or engages in activities, related to transportation of that carrier.

(2) "carrier" means a motor carrier, motor carrier of migrant workers, motor private carrier, and rail carrier.

(3) "lessor" means a person owning a railroad that is leased to and operated by a rail carrier, and a person leasing a right to operate as a motor carrier, motor carrier of migrant workers, or motor private carrier to another.

(4) "lessor" and "carrier" include a receiver or trustee of that lessor or carrier, respectively.

(b)(1) The Secretary of Transportation may prescribe the form of records required to be prepared or compiled under this section by—

(A) carriers and lessors; and

(B) a person furnishing cars or protective service against heat or cold to or for a rail carrier.

(2) The Secretary may require—

(A) carriers, lessors, associations, or classes of them as the Secretary may prescribe, to file annual, periodic, and special reports with the Secretary containing answers to questions asked by the Secretary; and

(B) a person furnishing cars or protective service against heat or cold to a rail carrier to file reports with the Secretary containing answers to questions about those cars or service.

(c) The Secretary, or an employee (and, in the case of a motor carrier, a contractor) designated by the Secretary, may on demand and display of proper credentials—

(1) inspect the equipment of a carrier or lessor; and

(2) inspect and copy any record of—

(A) a carrier, lessor, or association;

(B) a person controlling, controlled by, or under common control with a carrier, if the Secretary considers inspection relevant to that person's relation to, or transaction with, that carrier; and

(C) a person furnishing cars or protective service against heat or cold to or for a rail carrier if the Secretary prescribed the form of that record.

(d) The Secretary may prescribe the time period during which records must be preserved by a carrier, lessor, and person furnishing cars or protective service.

(e)(1) An annual report shall contain an account, in as much detail as the Secretary may require, of the affairs of a carrier, lessor, or association for the 12-month period ending on the 31st day of December of each year. The annual report shall be filed with the Secretary by the end of the 3d month after the end of the year for which the report is made unless the Secretary extends the filing date or changes the period covered by the report.

(2) The annual report and, if the Secretary requires, any other report made under this section shall be made under oath.

(f) No part of a report of an accident occurring in operations of a motor carrier, motor carrier of migrant workers, or motor private carrier and required by the Secretary, and no part of a report of an investigation of the accident made by the Secretary, may be admitted into evidence or used in a civil action for damages related to a matter mentioned in the report or investigation.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The provisions of 49:320(c) are not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In the section, the text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed. The text of 49:320(b) (related to 13-period accounting year) and (g) is not included because it was enacted after the effective date of the transfer authority under 49:1655.

In subsection (a), references to "water line" and "pipe line" are omitted as not applicable to this chap-

ter. Clause (2) is added to provide a simple phrase to refer to all types of carriers to which the section applies.

In subsection (f), the words "the course of the" are omitted as surplus. The words "civil action" are substituted for "suit or action" because of rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.).

AMENDMENTS

1998—Subsec. (c). Pub. L. 105-178 inserted "(and, in the case of a motor carrier, a contractor)" after "employee" in introductory provisions.

§ 505. Arrangements and public records

(a) The Secretary of Transportation may require a motor carrier, motor carrier of migrant workers, or motor private carrier to file a copy of each arrangement related to a matter under this chapter that it has with another person. The Secretary may disclose the existence or contents of an arrangement between a motor contract carrier and a shipper filed under this section only if the disclosure is consistent with the public interest and is made as part of the record in a formal proceeding.

(b) Except as provided in subsection (a) of this section, all arrangements and statistics, tables, and figures contained in reports filed with the Secretary by a motor carrier under this chapter are public records. Such a public record, or a copy or extract of it, certified by the Secretary under seal is competent evidence in a proceeding of the Secretary, and, except as provided in section 504(f) of this title, in a judicial proceeding.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). (b)	16(13). 304(d) (related to administrative matters).	10303 10303

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsection (a), the text of 49:320(a) (proviso) is not included for motor carriers of migrant workers and

motor private carriers because that provision, while included in the enumeration in 49:304(a)(3) and (3a), is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The text of 40:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed. The words “also” and “with it” are omitted as surplus. The words “contract, agreement, or” are omitted as covered by “arrangement”. The words “carrier or” are omitted as covered by “person”. The words “related to a matter under this chapter” are substituted for “in relation to any traffic affected by the provisions of this chapter” for clarity because of section 501 of the revised title.

Subsection (b) does not apply to reports made to the Secretary by a rail carrier because 49:16(13) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The subsection does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. References to schedules, classifications, and tariffs are omitted as not applicable to this chapter. The words “Except as provided in subsection (a) of this section” are added for clarity. The words “except as provided in section 504(f) of this title” are added for clarity and consistency because of the restatement of the chapter.

§ 506. Authority to investigate

(a) The Secretary of Transportation may begin an investigation under this chapter on the initiative of the Secretary or on complaint. If the Secretary finds that a rail carrier, motor carrier, motor carrier of migrant workers, or motor private carrier is violating this chapter, the Secretary shall take appropriate action to compel compliance with this chapter. The Secretary may take action only after giving the carrier notice of the investigation and an opportunity for a proceeding.

(b) A person, including a governmental authority, may file with the Secretary a complaint about a violation of this chapter by a carrier referred to in subsection (a) of this section. The complaint must state the facts that are the subject of the violation. The Secretary may dismiss a complaint the Secretary determines does not state reasonable grounds for investigation and action. However, the Secretary may not dismiss a complaint made against a rail carrier because of the absence of direct damage to the complainant.

(c) The Secretary shall make a written report of each proceeding involving a rail carrier or motor carrier conducted and furnish a copy to each party to that proceeding. The report shall include the findings, conclusions, and the order of the Secretary. The Secretary may have the reports published for public use. A published report of the Secretary is competent evidence of its contents.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

	304(d) (related to reports).	10310

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsections (a) and (b), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

Subsection (a) is patterned after 49:304(c). The words “violating this chapter” are substituted for “failed to comply with any such provision or requirement” for clarity.

In subsection (b), the text of 49:13(2) (last sentence) is omitted because 49:13(3) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The words “referred to in subsection (a) of this section” are added for clarity.

Subsection (c) does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) applies only to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. The word “proceeding” is substituted for “investigation” for clarity and to conform to other sections of the revised title. The word “findings” is added for clarity. The word “decision” is omitted as covered by “conclusions”. The words “or requirement” are omitted as covered by “order”. The words “in the premises” are omitted as surplus. The words “and in case damages are awarded, such report shall include the findings of fact on which the award is made” are omitted as not applicable to this chapter. The words “entered of record”, “and decisions in such form and manner as may be best adapted for public information and use”, and “in all courts of the United States and of the several States without any further proof or authentication thereof” are omitted as surplus. The text of 49:14(3) (last sentence) is omitted as unnecessary.

§ 507. Enforcement

(a) The Secretary of Transportation may bring a civil action to enforce—

- (1) an order of the Secretary under this chapter when violated by a rail carrier; and
- (2) this chapter or a regulation or order of the Secretary under this chapter when vio-

lated by a motor carrier, motor carrier of migrant workers, motor private carrier, or freight forwarder.

In the section, the text of 49:322(b)(2) and (3) is not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

SUBCHAPTER II—PENALTIES

§ 521. Civil penalties

(a)(1) A person required under section 504 of this title to make, prepare, preserve, or submit to the Secretary of Transportation a record about rail carrier transportation, that does not make, prepare, preserve, or submit that record as required under that section, is liable to the United States Government for a civil penalty of \$500 for each violation.

(2) A rail carrier, and a lessor, receiver, or trustee of that carrier, violating section 504(c)(1) of this title, is liable to the Government for a civil penalty of \$100 for each violation.

(3) A rail carrier, a lessor, receiver, or trustee of that carrier, a person furnishing cars or protective service against heat or cold, and an officer, agent, or employee of one of them, required to make a report to the Secretary or answer a question, that does not make a report to the Secretary or does not specifically, completely, and truthfully answer the question, is liable to the Government for a civil penalty of \$100 for each violation.

(4) A separate violation occurs for each day a violation under this subsection continues.

(5) Trial in a civil action under this subsection is in the judicial district in which the rail carrier has its principal operating office or in a district through which the railroad of the rail carrier runs.

(b) VIOLATIONS RELATING TO COMMERCIAL MOTOR VEHICLE SAFETY REGULATION AND OPERATORS.—

(1) NOTICE.—

(A) IN GENERAL.—If the Secretary finds that a violation of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), 31310(g)(1)(A),¹ or 31502 of this title, or a violation of a regulation issued under any of those provisions, has occurred, the Secretary shall issue a written notice to the violator. Such notice shall describe with reasonable particularity the nature of the violation found and the provision which has been violated. The notice shall specify the proposed civil penalty, if any, and suggest actions which might be taken in order to abate the violation. The notice shall indicate that the violator may, within 15 days of service, notify the Secretary of the violator's intention to contest the matter. In the event of a contested notice, the Secretary shall afford such violator an opportunity for a hearing, pursuant to section 554 of title 5, following which the Secretary shall issue an order affirming, modifying, or vacating the notice of violation.

(B) NONAPPLICABILITY TO REPORTING AND RECORDKEEPING VIOLATIONS.—Subparagraph (A) shall not apply to reporting and recordkeeping violations.

(2) CIVIL PENALTY.—

(A) IN GENERAL.—Except as otherwise provided in this subsection, any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act that is a violation of regulations issued by the Secretary under subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each offense. Notwithstanding any other provision of this section (except subparagraph (C)), no civil penalty shall be assessed under this section against an employee for a violation in an amount exceeding \$2,500.

(B) RECORDKEEPING AND REPORTING VIOLATIONS.—A person required to make a report to the Secretary, answer a question, or make, prepare, or preserve a record under section 504 of this title or under any regulation issued by the Secretary pursuant to subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title about transportation by motor carrier, motor carrier of migrant workers, or motor private carrier, or an officer, agent, or employee of that person—

(i) who does not make that report, does not specifically, completely, and truthfully answer that question in 30 days from the date the Secretary requires the question to be answered, or does not make, prepare, or

preserve that record in the form and manner prescribed by the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed \$1,000 for each offense, and each day of the violation shall constitute a separate offense, except that the total of all civil penalties assessed against any violator for all offenses related to any single violation shall not exceed \$10,000; or

(ii) who knowingly falsifies, destroys, mutilates, or changes a required report or record, knowingly files a false report with the Secretary, knowingly makes or causes or permits to be made a false or incomplete entry in that record about an operation or business fact or transaction, or knowingly makes, prepares, or preserves a record in violation of a regulation or order of the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each violation, if any such action can be shown to have misrepresented a fact that constitutes a violation other than a reporting or recordkeeping violation.

(C) VIOLATIONS PERTAINING TO CDLS.—Any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act which is a violation of section 31302, 31303, 31304, 31305(b), or 31310(g)(1)(A) of this title shall be liable to the United States for a civil penalty not to exceed \$2,500 for each offense.

(D) DETERMINATION OF AMOUNT.—The amount of any civil penalty, and a reasonable time for abatement of the violation, shall by written order be determined by the Secretary, taking into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

(E) COPYING OF RECORDS AND ACCESS TO EQUIPMENT, LANDS, AND BUILDINGS.—A person subject to chapter 51 or a motor carrier, broker, freight forwarder, or owner or operator of a commercial motor vehicle subject to part B of subtitle VI who fails to allow promptly, upon demand, the Secretary (or an employee designated by the Secretary) to inspect and copy any record or inspect and examine equipment, lands, buildings and other property in accordance with sections 504(c), 5121(c), and 14122(b) shall be liable to the United States for a civil penalty not to exceed \$1,000 for each offense. Each day the Secretary is denied the right to inspect and copy any record or inspect and examine equipment, lands, buildings and other property shall constitute a separate offense, except that the total of all civil penalties against any violator for all offenses related to a single violation shall not exceed \$10,000. It shall be a defense to such penalty that the records did not exist at the time of the Secretary's request or could not be timely produced without unreasonable expense or effort. Nothing in this subparagraph amends or supersedes any remedy available to the Sec-

retary under section 502(d), section 507(c), or any other provision of this title.

(3) The Secretary may require any violator served with a notice of violation to post a copy of such notice or statement of such notice in such place or places and for such duration as the Secretary may determine appropriate to aid in the enforcement of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title, as the case may be.

(4) Such civil penalty may be recovered in an action brought by the Attorney General on behalf of the United States in the appropriate district court of the United States or, before referral to the Attorney General, such civil penalty may be compromised by the Secretary.

(5)(A) If, upon inspection or investigation, the Secretary determines that a violation of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title or a regulation issued under any of those provisions, or combination of such violations, poses an imminent hazard to safety, the Secretary shall order a vehicle or employee operating such vehicle out of service, or order an employer to cease all or part of the employer's commercial motor vehicle operations. In making any such order, the Secretary shall impose no restriction on any employee or employer beyond that required to abate the hazard. Subsequent to the issuance of the order, opportunity for review shall be provided in accordance with section 554 of title 5, except that such review shall occur not later than 10 days after issuance of such order.

(B) In this paragraph, "imminent hazard" means any condition of vehicle, employee, or commercial motor vehicle operations which substantially increases the likelihood of serious injury or death if not discontinued immediately.

(6) CRIMINAL PENALTIES.—

(A) IN GENERAL.—Any person who knowingly and willfully violates any provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title, or a regulation issued under any of those provisions shall, upon conviction, be subject for each offense to a fine not to exceed \$25,000 or imprisonment for a term not to exceed one year, or both, except that, if such violator is an employee, the violator shall only be subject to penalty if, while operating a commercial motor vehicle, the violator's activities have led or could have led to death or serious injury, in which case the violator shall be subject, upon conviction, to a fine not to exceed \$2,500.

(B) VIOLATIONS PERTAINING TO CDLS.—Any person who knowingly and willfully violates—

(i) any provision of section 31302, 31303(b) or (c), 31304, 31305(b), or 31310(g)(1)(A) of this title or a regulation issued under such section, or

(ii) with respect to notification of a serious traffic violation as defined under section 31301 of this title, any provision of section 31303(a) of this title or a regulation issued under section 31303(a),

shall, upon conviction, be subject for each offense to a fine not to exceed \$5,000 or imprisonment for a term not to exceed 90 days, or both.

(7) The Secretary shall issue regulations establishing penalty schedules designed to induce timely compliance for persons failing to comply promptly with the requirements set forth in any notices and orders under this subsection.

(8) PROHIBITION ON OPERATION IN INTERSTATE COMMERCE AFTER NONPAYMENT OF PENALTIES.—

(A) IN GENERAL.—An owner or operator of a commercial motor vehicle against whom a civil penalty is assessed under this chapter or chapter 51, 149, or 311 of this title and who does not pay such penalty or fails to arrange and abide by an acceptable payment plan for such civil penalty may not operate in interstate commerce beginning on the 91st day after the date specified by order of the Secretary for payment of such penalty. This paragraph shall not apply to any person who is unable to pay a civil penalty because such person is a debtor in a case under chapter 11 of title 11, United States Code.

(B) REGULATIONS.—Not later than 12 months after the date of the enactment of this paragraph, the Secretary, after notice and an opportunity for public comment, shall issue regulations setting forth procedures for ordering commercial motor vehicle owners and operators delinquent in paying civil penalties to cease operations until payment has been made.

(9) Any aggrieved person who, after a hearing, is adversely affected by a final order issued under this section may, within 30 days, petition for review of the order in the United States Court of Appeals in the circuit wherein the violation is alleged to have occurred or where the violator has his principal place of business or residence, or in the United States Court of Appeals for the District of Columbia Circuit. Review of the order shall be based on a determination of whether the Secretary's findings and conclusions were supported by substantial evidence, or were otherwise not in accordance with law. No objection that has not been urged before the Secretary shall be considered by the court, unless reasonable grounds existed for failure or neglect to do so. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the order of the Secretary.

(10) All penalties and fines collected under this section shall be deposited into the Highway Trust Fund (other than the Mass Transit Account).

(11) In any action brought under this section, process may be served without regard to the territorial limits of the district of the State in which the action is brought.

(12) In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, trial shall be by the court, or, upon demand of the accused, by a jury, conducted in accordance with the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

(13) The provisions of this subsection shall not affect chapter 51 of this title or any regulation promulgated by the Secretary under chapter 51.

(14) As used in this subsection, the terms “commercial motor vehicle”, “employee”, “employer”, and “State” have the meaning such terms have under section 31132 of this title.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). In subsection (a)(3), the words “against heat and cold” are inserted for consistency with sections 11105 and 11901 of the revised title.

Subsection (b) does not apply to motor carriers of migrant workers and motor private carriers because 49:322(h) (1st sentence) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:322(h) (1st sentence) to motor carriers of migrant workers and motor private carriers. The reference to 49:303(c), 306(a)(1), and 309(a)(1) is omitted as not applicable to this chapter.

If the Secretary determines that a substantial health or safety violation exists or has occurred which could reasonably lead to, or has resulted in, serious personal injury or death, the Secretary may assess a civil penalty not to exceed \$10,000 for each offense. DEEMED REFERENCES TO TO CHAPTERS 509 AND 511 OF TITLE 51

General references to “this title” deemed to refer also to chapters 509 and 511 of Title 51, National and Commercial Space Programs, see section 4(d)(8) of Pub. L. 111–314, set out as a note under section 101 of this title.

MINIMUM AND MAXIMUM ASSESSMENTS

Pub. L. 106–159, title II, §222, Dec. 9, 1999, 113 Stat. 1769, provided that:

“(a) IN GENERAL.—The Secretary of Transportation should ensure that motor carriers operate safely by imposing civil penalties at a level calculated to ensure prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

“(b) ESTABLISHMENT.—The Secretary—

“(1) should establish and assess minimum civil penalties for each violation of a law referred to in subsection (a); and

“(2) shall assess the maximum civil penalty for each violation of a law referred to in subsection (a) by any person who is found to have committed a pattern of violations of critical or acute regulations issued to carry out such a law or to have previously committed the same or a related violation of critical or acute regulations issued to carry out such a law.

“(c) EXTRAORDINARY CIRCUMSTANCES.—If the Secretary determines and documents that extraordinary circumstances exist which merit the assessment of any civil penalty lower than any level established under subsection (b), the Secretary may assess such lower penalty. In cases where a person has been found to have previously committed the same or a related violation of critical or acute regulations issued to carry out a law referred to in subsection (a), extraordinary circumstances may be found to exist when the Secretary determines that repetition of such violation does not demonstrate a failure to take appropriate remedial action.

“(d) REPORT TO CONGRESS.—

“(1) IN GENERAL.—The Secretary shall conduct a study of the effectiveness of the revised civil penalties established in the Transportation Equity Act for the 21st Century [Pub. L. 105–178, see Tables for classification] and this Act [see Tables for classification] in ensuring prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

“(2) SUBMISSION TO CONGRESS.—The Secretary shall transmit the results of such study and any recommendations to Congress by September 30, 2002.”

REPORT; PENALTIES; EFFECTIVENESS

Section 213(d) of Pub. L. 98–554 directed Secretary of Transportation to conduct a study of effectiveness of civil and criminal penalties established by amendments made by section 213 of Pub. L. 98–554 in deterring violations of commercial motor vehicle safety regulations issued under title II of Pub. L. 98–554 and in effectively prosecuting such violations when they occur, which study was to examine the effectiveness of penalties in effect before Oct. 30, 1984, in comparison to the penalties established by the amendments made by title II of Pub. L. 98–554, and was to further investigate the need for, and make recommendations concerning, increased fine levels for civil and criminal penalties, and

the need for additional categories of civil and criminal penalties to deter further, and prosecute effectively, violations of such commercial motor vehicle safety regulations, and further directed Secretary to submit to Congress a report on the findings of this study, together with legislative recommendations, not later than 2 years after Oct. 30, 1984.

§ 522. Reporting and record keeping violations

A person required to make a report to the Secretary of Transportation, or make, prepare, or preserve a record, under section 504 of this title about transportation by rail carrier, that knowingly and willfully (1) makes a false entry in the report or record, (2) destroys, mutilates, changes, or by another means falsifies the record, (3) does not enter business related facts and transactions in the record, (4) makes, prepares, or preserves the record in violation of a regulation or order of the Secretary, or (5) files a false report or record with the Secretary, shall be fined not more than \$5,000, imprisoned for not more than 2 years, or both.

AMENDMENTS

1998—Pub. L. 105-178 struck out "(a)" before "A person required to make a report to the Secretary of Transportation" and struck out subsec. (b) which read as follows: "A person required to make a report to the Secretary, answer a question, or make, prepare, or preserve a record under section 504 of this title about transportation by motor carrier, motor carrier of migrant workers, or motor private carrier, or an officer, agent, or employee of that person, that (1) willfully does not make that report, (2) willfully does not spe-

cifically, completely, and truthfully answer that question in 30 days from the date the Secretary requires the question to be answered, (3) willfully does not make, prepare, or preserve that record in the form and manner prescribed by the Secretary, (4) knowingly and willfully falsifies, destroys, mutilates, or changes that report or record, (5) knowingly and willfully files a false report or record with the Secretary, (6) knowingly and willfully makes a false or incomplete entry in that record about a business related fact or transaction, or (7) knowingly and willfully makes, prepares, or preserves a record in violation of a regulation or order of the Secretary, shall be fined not more than \$5,000."

§ 523. Unlawful disclosure of information

(a) A motor carrier, or an officer, receiver, trustee, lessee, or employee of that carrier, or another person authorized by that carrier to receive information from that carrier, may not knowingly disclose to another person (except the shipper or consignee), and another person may not solicit, or knowingly receive, information about the nature, kind, quantity, destination, consignee, or routing of property tendered or delivered to that carrier without the consent of the shipper or consignee if that information may be used to the detriment of the shipper or consignee or may disclose improperly to a competitor the business transactions of the shipper or consignee.

(b) This chapter does not prevent a motor carrier, motor carrier of migrant workers, or motor private carrier from giving information—

(1) in response to legal process issued under authority of a court of the United States or a State;

(2) to an officer, employee, or agent of the United States Government, a State, or a territory or possession of the United States; and

(3) to another motor carrier, motor carrier of migrant workers, or motor private carrier, or its agent, to adjust mutual traffic accounts in the ordinary course of business.

(c) An employee of the Secretary of Transportation delegated to make an inspection under section 504 of this title who knowingly discloses information acquired during that inspection, except as directed by the Secretary, a court, or a judge of that court, shall be fined not more than \$500, imprisoned for not more than 6 months, or both.

The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

Section 526	49 U.S. Code	Revised Section
	322(a).	11914

See the revision notes for the revised section for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The reference to a certificate, permit, or licence is omitted as not applicable to this chapter. The text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed.

SUBCHAPTER I—ESTABLISHMENT

§ 701. Establishment of Board

(a) ESTABLISHMENT.—There is hereby established within the Department of Transportation the Surface Transportation Board.

(b) MEMBERSHIP.—(1) The Board shall consist of 3 members, to be appointed by the President, by and with the advice and consent of the Senate. Not more than 2 members may be appointed from the same political party.

(2) At any given time, at least 2 members of the Board shall be individuals with professional standing and demonstrated knowledge in the fields of transportation or transportation regulation, and at least one member shall be an individual with professional or business experience (including agriculture) in the private sector.

(3) The term of each member of the Board shall be 5 years and shall begin when the term of the predecessor of that member ends. An individual appointed to fill a vacancy occurring before the expiration of the term for which the predecessor of that individual was appointed, shall be appointed for the remainder of that term. When the term of office of a member ends, the member may continue to serve until a successor is appointed and qualified, but for a period not to exceed one year. The President may remove a member for inefficiency, neglect of duty, or malfeasance in office.

(4) On January 1, 1996, the members of the Interstate Commerce Commission serving unexpired terms on December 29, 1995, shall become members of the Board, to serve for a period of time equal to the remainder of the term for which they were originally appointed to the Interstate Commerce Commission. Any member of the Interstate Commerce Commission whose term expires on December 31, 1995, shall become a member of the Board, subject to paragraph (3).

(5) No individual may serve as a member of the Board for more than 2 terms. In the case of an individual who becomes a member of the Board pursuant to paragraph (4), or an individual appointed to fill a vacancy occurring before the expiration of the term for which the predecessor of that individual was appointed, such individual may not be appointed for more than one additional term.

(6) A member of the Board may not have a pecuniary interest in, hold an official relation to, or own stock in or bonds of, a carrier providing transportation by any mode and may not engage in another business, vocation, or employment.

(7) A vacancy in the membership of the Board does not impair the right of the remaining members to exercise all of the powers of the Board. The Board may designate a member to act as Chairman during any period in which there is no Chairman designated by the President.

(c) CHAIRMAN.—(1) There shall be at the head of the Board a Chairman, who shall be designated by the President from among the members of the Board. The Chairman shall receive compensation at the rate prescribed for level III of the Executive Schedule under section 5314 of title 5.

(2) Subject to the general policies, decisions, findings, and determinations of the Board, the Chairman shall be responsible for administering

the Board. The Chairman may delegate the powers granted under this paragraph to an officer, employee, or office of the Board. The Chairman shall—

(A) appoint and supervise, other than regular and full-time employees in the immediate offices of another member, the officers and employees of the Board, including attorneys to provide legal aid and service to the Board and its members, and to represent the Board in any case in court;

(B) appoint the heads of offices with the approval of the Board;

(C) distribute Board business among officers and employees and offices of the Board;

(D) prepare requests for appropriations for the Board and submit those requests to the President and Congress with the prior approval of the Board; and

(E) supervise the expenditure of funds allocated by the Board for major programs and purposes.

Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this Act had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or re-

“(3) If the court in a suit described in paragraph (1) remands a case to the Board or the Secretary, subsequent proceedings related to such case shall proceed in accordance with applicable law and regulations as in effect at the time of such subsequent proceedings.

“(d) **CONTINUANCE OF ACTIONS AGAINST OFFICERS.**—No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of the Interstate Commerce Commission shall abate by reason of the enactment of this Act. No cause of action by or against the Interstate Commerce Commission, or by or against any officer thereof in his official capacity, shall abate by reason of enactment of this Act.

“(e) **EXERCISE OF AUTHORITIES.**—Except as otherwise provided by law, an officer or employee of the Board may, for purposes of performing a function transferred by this Act or the amendments made by this Act, exercise all authorities under any other provision of law that were available with respect to the performance of that function to the official responsible for the performance of the function immediately before the effective date of the transfer of the function under this Act or the amendments made by this Act.”

The members of the Council shall be appointed as follows:

(1) The members of the Council shall be appointed from among citizens of the United States who are not regular full-time employees of the United States and shall be selected for appointment so as to provide as nearly as practicable a broad representation of the various segments of the railroad and rail shipper industries.

(2) Nine of the members shall be appointed from senior executive officers of organizations engaged in the railroad and rail shipping industries, which 9 members shall be the voting members of the Council. Council action and Council positions shall be determined by a majority vote of the members present. A majority of such voting members shall constitute a quorum. Of such 9 voting members—

(A) at least 4 shall be representative of small shippers (as determined by the Chairman); and

(B) at least 4 shall be representative of Class II or III railroads.

(3) The remaining 6 members of the Council shall serve in a nonvoting advisory capacity only, but shall be entitled to participate in Council deliberations. Of the remaining members—

(A) 3 shall be representative of Class I railroads; and

(B) 3 shall be representative of large shipper organizations (as determined by the Chairman).

(4) The Secretary of Transportation and the members of the Board shall serve as ex officio, nonvoting members of the Council. The Council shall not be subject to the Federal Advi-

sory Committee Act. A list of the members appointed to the Council shall be forwarded to the Chairmen and ranking members of the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

(5) Each ex officio member of the Council may designate an alternate, who shall serve as a member of the Council whenever the ex officio member is unable to attend a meeting of the Council. Any such designated alternate shall be selected from individuals who exercise significant decision-making authority in the Federal agency involved.

(b) TERM OF OFFICE.—The members of the Council shall be appointed for a term of office of 3 years, except that of the members first appointed—

(1) 5 members shall be appointed for terms of 1 year; and

(2) 5 members shall be appointed for terms of 2 years,

as designated by the Chairman at the time of appointment. Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of his term until his successor has taken office. Vacancies on the Council shall be filled in the same manner in which the original appointments were made. The Council Chairman shall serve as the Council's executive officer and shall direct the administration of the Council, assign officer and committee duties, and shall be responsible for issuing and communicating the reports, policy positions and statements of the Council. In the event that the Council Chairman is unable to serve, the Vice Chairman shall act as Council Chairman.

(d) EXPENSES.—(1) The members of the Council shall receive no compensation for their services as such, but upon request by the Council Chairman, based on a showing of significant economic burden, the Secretary of Transportation or the Chairman of the Board, to the extent provided in advance in appropriation Acts, may provide reasonable and necessary travel expenses for such individual Council members from Department or Board funding sources in order to foster balanced representation on the Council.

(2) Upon request by the Council Chairman, the Secretary or Chairman of the Board, to the extent provided in advance in appropriations Acts, may pay the reasonable and necessary expenses incurred by the Council in connection with the coordination of Council activities, announcement and reporting of meetings, and preparation of such Council documents as are required or permitted by this section.

(3) The Council may solicit and use private funding for its activities, subject to this subsection.

(4) Prior to making any Federal funding requests, the Council Chairman shall undertake best efforts to fund such activities privately unless the Council Chairman determines that such private funding would create a conflict of interest, or the appearance thereof, or is otherwise impractical. The Council Chairman shall not request funding from any Federal agency without providing written justification as to why private funding would create any such conflict or appearance, or is otherwise impractical.

(5) To enable the Council to carry out its functions—

(A) the Council Chairman may request directly from any Federal agency such personnel, information, services, or facilities, on a compensated or uncompensated basis, as the Council Chairman determines necessary to carry out the functions of the Council;

(B) each Federal agency may, in its discretion, furnish the Council with such information, services, and facilities as the Council Chairman may request to the extent permitted by law and within the limits of available funds; and

- (3) review the fees, rents, and other charges imposed by the Board for services and things of value it provides, and suggest appropriate revisions to those charges to reflect costs incurred by the Board in providing those services and things of value.

(i) BOARD MEMBER STAFF.—Each member of the Board shall select and supervise regular and full-time employees in his or her immediate office as long as any such employee has been approved for employment by the designated agency ethics official under the same guidelines that apply to all employees of the Board. In subsection (a)(1), the words “sit and act at such times and places” are omitted as unnecessary. The word “necessary” is substituted for “as the Board or such officer or employee deems advisable” because it is more accurate.

In subsection (a)(2), the words “the witness would have been” are added for clarity and consistency in the revised title and with other titles of the United States Code.

In subsection (a)(4), the words “If a person disobeys” are substituted for “In case of contumacy or refusal to obey” for consistency in the revised title and with other titles of the Code. The words “of the Board” are substituted for “of the Board, or of any duly designated employee thereof” to eliminate unnecessary words. The words “the Board may bring a civil action in a district court of the United States” are substituted for “such district court shall, upon the request of the Board, have jurisdiction” for consistency in the revised title and because of 28:1331. The word “forthwith” is omitted as surplus. The words “An action under this paragraph may be brought in the judicial district” are added for clarity.

In subsection (b)(1)(A), the text of 49 App.:1441(b) (words before semicolon) is omitted as superseded by 49 App.:1903(b)(6)(C).

In subsection (b)(1)(B), the words “make agreements and other transactions” are substituted for “enter into . . . such contracts, leases, cooperative agreements, or other transactions” to eliminate unnecessary words. The words “to carry out this chapter” are substituted for “in the conduct of the functions and the duties of the Board under this chapter” for consistency. The words “with any government entity or any person” are omitted as surplus.

In subsection (b)(1)(C), the words “Department of Transportation and of other” are omitted as surplus. The words “department, agency, or instrumentality of the United States Government” are substituted for “civilian or military agencies and instrumentalities of the Federal Government” in 49 App.:1903(b)(6)(A) for consistency in the revised title and with other titles of the Code. The text of 49 App.:1441(b) (words after semicolon) is omitted as superseded by 49 App.:1903(b)(6)(A).

In subsection (b)(1)(D), the word “available” is omitted as surplus.

In subsection (b)(1)(E), the words “one or more” are omitted as surplus because the authority to appoint advisory committees is discretionary and unlimited on its face. The word “appropriate” is substituted for “necessary or appropriate” to eliminate unnecessary words. The words “in accordance with the Federal Advisory Committee Act” are omitted as surplus because that Act applies unless specifically excluded. (See 5 App. U.S.C.)

In subsection (b)(1)(G), the words “gifts of money and other property” are substituted for “gifts or donations of money or property (real, personal, mixed, tangible, or intangible)” to eliminate unnecessary words.

In subsection (b)(1)(H), the words “public or private” are omitted as surplus.

Subsection (b)(2) is substituted for “and to apply the funds received to the Board’s appropriations” for clarity and consistency in the revised title and with other titles of the Code.

In subsection (c), the word “submits” is substituted for “submits or transmits” for consistency. The words “Director of the Office of Management and Budget” are substituted for “Office of Management and Budget” because of 31:502(a).

In subsection (d), the word “appropriate” is substituted for “necessary or appropriate” to eliminate unnecessary words.

In subsection (e), the words “officer or employee” are substituted for “employee” for consistency in the revised title. The words “by order” are substituted for “by special or general orders” to eliminate unnecessary words. The word “individuals” is substituted for “people” for consistency in the revised title.

SUBCHAPTER III—AUTHORITY

§ 1131. General authority

(a) GENERAL.—(1) The National Transportation Safety Board shall investigate or have investigated (in detail the Board prescribes) and establish the facts, circumstances, and cause or probable cause of—

(A) an aircraft accident the Board has authority to investigate under section 1132 of this title or an aircraft accident involving a public aircraft as defined by section 40102(a)(37)¹ of this title other than an aircraft operated by the Armed Forces or by an intelligence agency of the United States;

(B) a highway accident, including a railroad grade crossing accident, the Board selects in cooperation with a State;

(C) a railroad accident in which there is a fatality or substantial property damage, or that involves a passenger train;

(D) a pipeline accident in which there is a fatality, substantial property damage, or significant injury to the environment;

(E) a major marine casualty (except a casualty involving only public vessels) occurring on or under the navigable waters, internal waters, or the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988, or involving a vessel of the United States (as defined in section 2101(46)¹ of title 46), under regulations prescribed jointly by the Board and the head of the department in which the Coast Guard is operating; and

(F) any other accident related to the transportation of individuals or property when the Board decides—

- (i) the accident is catastrophic;
- (ii) the accident involves problems of a recurring character; or
- (iii) the investigation of the accident would carry out this chapter.

(2)(A) Subject to the requirements of this paragraph, an investigation by the Board under paragraph (1)(A)–(D) or (F) of this subsection has priority over any investigation by another department, agency, or instrumentality of the United States Government. The Board shall provide for appropriate participation by other departments, agencies, or instrumentalities in the investigation. However, those departments, agencies, or instrumentalities may not participate in the decision of the Board about the probable cause of the accident.

(B) If the Attorney General, in consultation with the Chairman of the Board, determines and notifies the Board that circumstances reasonably indicate that the accident may have been caused by an intentional criminal act, the Board shall relinquish investigative priority to the Federal Bureau of Investigation. The relinquishment of investigative priority by the Board shall not otherwise affect the authority of the Board to continue its investigation under this section.

(C) If a Federal law enforcement agency suspects and notifies the Board that an accident

being investigated by the Board under subparagraph (A), (B), (C), or (D) of paragraph (1) may have been caused by an intentional criminal act, the Board, in consultation with the law enforcement agency, shall take necessary actions to ensure that evidence of the criminal act is preserved.

(3) This section and sections 1113, 1116(b), 1133, and 1134(a) and (c)–(e) of this title do not affect the authority of another department, agency, or instrumentality of the Government to investigate an accident under applicable law or to obtain information directly from the parties involved in, and witnesses to, the accident. The Board and other departments, agencies, and instrumentalities shall ensure that appropriate information developed about the accident is exchanged in a timely manner.

(b) ACCIDENTS INVOLVING PUBLIC VESSELS.—(1) The Board or the head of the department in which the Coast Guard is operating shall investigate and establish the facts, circumstances, and cause or probable cause of a marine accident involving a public vessel and any other vessel. The results of the investigation shall be made available to the public.

(2) Paragraph (1) of this subsection and subsection (a)(1)(E) of this section do not affect the responsibility, under another law of the United States, of the head of the department in which the Coast Guard is operating.

(c) ACCIDENTS NOT INVOLVING GOVERNMENT MISFEASANCE OR NONFEASANCE.—(1) When asked by the Board, the Secretary of Transportation or the Secretary of the department in which the Coast Guard is operating may—

(A) investigate an accident described under subsection (a) or (b) of this section in which misfeasance or nonfeasance by the Government has not been alleged; and

(B) report the facts and circumstances of the accident to the Board.

(2) The Board shall use the report in establishing cause or probable cause of an accident described under subsection (a) or (b) of this section.

(d) ACCIDENTS INVOLVING PUBLIC AIRCRAFT.—The Board, in furtherance of its investigative duties with respect to public aircraft accidents under subsection (a)(1)(A) of this section, shall have the same duties and powers as are specified for civil aircraft accidents under sections 1132(a), 1132(b), and 1134(a), (b), (d), and (f) of this title.

(e) ACCIDENT REPORTS.—The Board shall report on the facts and circumstances of each accident investigated by it under subsection (a) or (b) of this section. The Board shall make each report available to the public at reasonable cost.

In subsection (a)(1)(A), the words “and report the facts, conditions, and circumstances related to each accident and the probable cause thereof” in 49 App.:1441(a)(2) are omitted as unnecessary because of section 1131(d) of the revised title.

In subsection (a)(1)(B), the words “provide for” in 49 App.:1442(a) are omitted as surplus.

In subsection (a)(2), the words “any member of the National Transportation Safety Board or any officer or employee of the National Transportation Safety Board” in 49 App.:1441(c) are omitted as unnecessary because of sections 1113 and 1134 of the revised title.

§ 1134. Inspections and autopsies

(a) ENTRY AND INSPECTION.—An officer or employee of the National Transportation Safety Board—

(1) on display of appropriate credentials and written notice of inspection authority, may enter property where a transportation accident has occurred or wreckage from the accident is located and do anything necessary to conduct an investigation; and

(2) during reasonable hours, may inspect any record, process, control, or facility related to an accident investigation under this chapter.

(b) INSPECTION, TESTING, PRESERVATION, AND MOVING OF AIRCRAFT AND PARTS.—(1) In investigating an aircraft accident under this chapter, the Board may inspect and test, to the extent necessary, any civil aircraft, aircraft engine, propeller, appliance, or property on an aircraft involved in an accident in air commerce.

(2) to the maximum extent feasible, preserves evidence related to the accident, consistent with the needs of the investigation and with the cooperation of that owner or operator.

(d) EXCLUSIVE AUTHORITY OF BOARD.—Only the Board has the authority to decide on the way in which testing under this section will be conducted, including decisions on the person that will conduct the test, the type of test that will be conducted, and any individual who will witness the test. Those decisions are committed to the discretion of the Board. The Board shall make any of those decisions based on the needs of the investigation being conducted and, when applicable, subsections (a), (c), and (e) of this section.

(e) PROMPTNESS OF TESTS AND AVAILABILITY OF RESULTS.—An inspection, examination, or test under subsection (a) or (c) of this section shall be started and completed promptly, and the results shall be made available.

(f) AUTOPSIES.—(1) The Board may order an autopsy to be performed and have other tests made when necessary to investigate an accident under this chapter. However, local law protecting religious beliefs related to autopsies shall be observed to the extent consistent with the needs of the accident investigation.

(2) With or without reimbursement, the Board may obtain a copy of an autopsy report performed by a State or local official on an individual who died because of a transportation accident investigated by the Board under this chapter.

In subsection (a), the words “their duly authorized agents” are omitted as surplus. The words “may bring a civil action” are substituted for “may apply” in 49 App.:1487(a) for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words “An action under this subsection may be brought in the judicial district in which” are substituted for “for any district wherein” for clarity. After reasonable notice to the Board, the court may grant interim relief by staying the order or taking other appropriate action when cause for its action exists. Findings of fact by the Board, if supported by substantial evidence, are conclusive.

(4) In reviewing an order under this subsection, the court may consider an objection to an order of the Board only if the objection was made in the proceeding conducted by the Board or if there was a reasonable ground for not making the objection in the proceeding.

L. 97–449, §7(b), 96 Stat. 2444.

In subsection (a), the text of 49 App.:1903(d) (last sentence) is omitted as unnecessary because 5:ch. 7 applies by its own terms. The words “final order” are substituted for “order, affirmative or negative” in 49 App.:1903(d) and “Decisions of the National Transportation Safety Board made pursuant to the exercise of the functions, powers, and duties enumerated in this

subsection shall be administratively final” in 49 App.:1655(d) to eliminate unnecessary words. The words “is issued” are substituted for “after the entry” for consistency in the revised title and with other titles of the United States Code. The text of 49 App.:1655(d) (last sentence words after last comma) is omitted as unnecessary because of 49 App.:1903(d).

In subsection (b)(1), the words “affirmative or negative” are omitted as surplus. The words “related to an aviation matter” are added because the source provisions being restated only apply to aviation matters. The words “is issued” are substituted for “the entry of” for consistency in the revised title and with other titles of the Code.

In subsection (b)(2), the words “if any” are omitted as surplus. The words “of the proceeding” are added for clarity. The words “complained of” and “as provided in section 2112 of title 28” are omitted as surplus.

In subsection (b)(3), the word “amend” is added for consistency in the revised title. The word “interim” is substituted for “interlocutory” for clarity. The words “taking other appropriate action” are substituted for “by such mandatory or other relief as may be appropriate” for clarity and to eliminate unnecessary words.

In subsection (b)(4), the words “made in the proceeding conducted by” are substituted for “urged before” for clarity.

In subsection (c), the source provisions are combined to eliminate unnecessary words and are restated in this chapter to alert the reader to the authority of the Administrator of the Federal Aviation Administration to seek judicial review of an order of the National Transportation Safety Board under section 44709 or 46301(d) of the revised title that the Administrator decides will have a significant adverse impact on carrying out source provisions restated in this chapter that are derived from title VII of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 781).

AMENDMENTS

2004—Subsec. (d). Pub. L. 108–293 added subsec. (d).

(B) a cockpit or surface vehicle recorder recording.

(2)(A) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder transcript if, after an in camera review of the transcript, the court decides that—

(i) the part of the transcript made available to the public under section 1114(c) or 1114(d) of this title does not provide the party with sufficient information for the party to receive a fair trial; and

(ii) discovery of additional parts of the transcript is necessary to provide the party with sufficient information for the party to receive a fair trial.

(B) A court may allow discovery, or require production for an in camera review, of a cockpit or surface vehicle recorder transcript that the Board has not made available under section 1114(c) or 1114(d) of this title only if the cockpit

or surface vehicle recorder recording is not available.

(3) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder recording if, after an in camera review of the recording, the court decides that—

(A) the parts of the transcript made available to the public under section 1114(c) or 1114(d) of this title and to the party through discovery under paragraph (2) of this subsection do not provide the party with sufficient information for the party to receive a fair trial; and

(B) discovery of the cockpit or surface vehicle recorder recording is necessary to provide the party with sufficient information for the party to receive a fair trial.

(4)(A) When a court allows discovery in a judicial proceeding of a part of a cockpit or surface vehicle recorder transcript not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording, the court shall issue a protective order—

(i) to limit the use of the part of the transcript or the recording to the judicial proceeding; and

(ii) to prohibit dissemination of the part of the transcript or the recording to any person that does not need access to the part of the transcript or the recording for the proceeding.

(B) A court may allow a part of a cockpit or surface vehicle recorder transcript not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording to be admitted into evidence in a judicial proceeding, only if the court places the part of the transcript or the recording under seal to prevent the use of the part of the transcript or the recording for purposes other than for the proceeding.

(5) This subsection does not prevent the Board from referring at any time to cockpit or surface vehicle recorder information in making safety recommendations.

(6) In this subsection:

(A) RECORDER.—The term “recorder” means a voice or video recorder.

(B) TRANSCRIPT.—The term “transcript” includes any written depiction of visual information obtained from a video recorder.

(b) REPORTS.—No part of a report of the Board, related to an accident or an investigation of an accident, may be admitted into evidence or used in a civil action for damages resulting from a matter mentioned in the report.

FINDINGS

Pub. L. 109–59, title VII, §7101(a), Aug. 10, 2005, 119 Stat. 1891, provided that: “Congress finds with respect to hazardous materials transportation that—

“(1) approximately 4,000,000,000 tons of regulated hazardous materials are transported each year and approximately 1,200,000 movements of hazardous materials occur each day, according to Department of Transportation estimates;

“(2) the movement of hazardous materials in commerce is necessary to maintain economic vitality and meet consumer demands and must be conducted in a safe, secure, and efficient manner;

“(3) accidents involving, or unauthorized access to, hazardous materials in transportation may result in a release of such materials and pose a serious threat to public health and safety;

“(4) because of the potential risks to life, property, and the environment posed by unintentional releases of hazardous materials, consistency in laws and regulations governing the transportation of hazardous materials is necessary and desirable; and

“(5) in order to provide reasonable, adequate, and cost-effective protection from the risks posed by the transportation of hazardous materials, a network of well-trained State and local emergency response personnel and hazmat employees is essential.”

“(b) SENSE OF CONGRESS; REQUIREMENT REGARDING NOTICE.—

“(1) In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this title, it is the sense of Congress that entities receiving such assistance should, in expending such assistance, purchase only American-made equipment and products.

“(2) In providing financial assistance under this title, the Secretary of Transportation shall provide to each recipient of the assistance a notice describing the statement made in paragraph (1) by Congress.

“(c) PROHIBITION OF CONTRACTS.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a ‘Made in America’ inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract

(g) BACKGROUND CHECKS FOR DRIVERS HAULING HAZARDOUS MATERIALS.—

(1) IN GENERAL.—

(A) EMPLOYER NOTIFICATION.—Not later than 90 days after the date of enactment of this subsection, the Director of the Transportation Security Administration, after receiving comments from interested parties, shall develop and implement a process for notifying hazmat employers designated by an applicant of the results of the applicant's background record check, if—

(i) such notification is appropriate considering the potential security implications; and

(ii) the Director, in a final notification of threat assessment,¹ served on the applicant¹ determines that the applicant does not meet the standards set forth in regulations issued to carry out this section.

(B) RELATIONSHIP TO OTHER BACKGROUND RECORDS CHECKS.—

(i) ELIMINATION OF REDUNDANT CHECKS.—An individual with respect to whom the Transportation Security Administration—

(I) has performed a security threat assessment under this section; and

¹So in original. Comma probably should appear after "applicant".

(II) has issued a final notification of no security threat,

is deemed to have met the requirements of any other background check that is required for purposes of any Federal law applicable to transportation workers if that background check is equivalent to, or less stringent than, the background check required under this section.

(ii) DETERMINATION BY DIRECTOR.—Not later than 60 days after the date of issuance of the report under paragraph (5), but no later than 120 days after the date of enactment of this subsection, the Director shall initiate a rulemaking proceeding, including notice and opportunity for comment, to determine which background checks required for purposes of Federal laws applicable to transportation workers are equivalent to, or less stringent than, those required under this section.

(iii) FUTURE RULEMAKINGS.—The Director shall make a determination under the criteria established under clause (ii) with respect to any rulemaking proceeding to establish or modify required background checks for transportation workers initiated after the date of enactment of this subsection.

(2) APPEALS PROCESS FOR MORE STRINGENT STATE PROCEDURES.—If a State establishes its own standards for applicants for a hazardous materials endorsement to a commercial driver's license, the State shall also provide—

(A) an appeals process similar to and to the same extent as the process provided under part 1572 of title 49, Code of Federal Regulations, by which an applicant denied a hazardous materials endorsement to a commercial driver's license by that State may appeal that denial; and

(B) a waiver process similar to and to the same extent as the process provided under part 1572 of title 49, Code of Federal Regulations, by which an applicant denied a hazardous materials endorsement to a commercial driver's license by that State may apply for a waiver.

(3) CLARIFICATION OF TERM DEFINED IN REGULATIONS.—The term “transportation security incident”, as defined in part 1572 of title 49, Code of Federal Regulations, does not include a work stoppage or other nonviolent employee-related action resulting from an employer-employee dispute. Not later than 30 days after the date of enactment of this subsection, the Director shall modify the definition of that term to reflect the preceding sentence.

(4) BACKGROUND CHECK CAPACITY.—Not later than October 1, 2005, the Director shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committees on Transportation and Infrastructure and Homeland Security of the House of Representatives a report on the implementation of fingerprint-based security threat assessments and the adequacy of fingerprinting locations, personnel, and resources to accomplish the timely processing of fingerprint-

based security threat assessments for individuals holding commercial driver's licenses who are applying to renew hazardous materials endorsements.

(5) REPORT.—

(A) IN GENERAL.—Not later than 60 days after the date of enactment of this subsection, the Director shall transmit to the committees referred to in paragraph (4) a report on the Director's plans to reduce or eliminate redundant background checks for holders of hazardous materials endorsements performed under this section.

(B) CONTENTS.—The report shall—

(i) include a list of background checks and other security or threat assessment requirements applicable to transportation workers under Federal laws for which the Department of Homeland Security is responsible and the process by which the Secretary of Homeland Security will determine whether such checks or assessments are equivalent to, or less stringent than, the background check performed under this section; and

(ii) provide an analysis of how the Director plans to reduce or eliminate redundant background checks in a manner that will continue to ensure the highest level of safety and security.

(h) COMMERCIAL MOTOR VEHICLE OPERATORS REGISTERED TO OPERATE IN MEXICO OR CANADA.—

(1) IN GENERAL.—Beginning on the date that is 6 months after the date of enactment of this subsection, a commercial motor vehicle operator registered to operate in Mexico or Canada shall not operate a commercial motor vehicle transporting a hazardous material in commerce in the United States until the operator has undergone a background records check similar to the background records check required for commercial motor vehicle operators licensed in the United States to transport hazardous materials in commerce.

(2) EXTENSION.—The Director of the Transportation Security Administration may extend the deadline established by paragraph (1) for a period not to exceed 6 months if the Director determines that such an extension is necessary.

§ 5105. Transporting certain highly radioactive material

(a) DEFINITIONS.—In this section, “high-level radioactive waste” and “spent nuclear fuel” have the same meanings given those terms in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(b) TRANSPORTATION SAFETY STUDY.—In consultation with the Secretary of Energy, the Nuclear Regulatory Commission, potentially affected States and Indian tribes, representatives of the rail transportation industry, and shippers of high-level radioactive waste and spent nuclear fuel, the Secretary shall conduct a study comparing the safety of using trains operated only to transport high-level radioactive waste and spent nuclear fuel with the safety of using other methods of rail transportation for transporting that waste and fuel. The Secretary shall submit to Congress not later than November 16, 1991, a report on the results of the study.

(c) SAFE RAIL TRANSPORTATION REGULATIONS.—Not later than November 16, 1992, after considering the results of the study conducted under subsection (b) of this section, the Sec-

retary shall prescribe amendments to existing regulations that the Secretary considers appropriate to provide for the safe rail transportation of high-level radioactive waste and spent nuclear fuel, including trains operated only for transporting high-level radioactive waste and spent nuclear fuel.

(d) INSPECTIONS OF MOTOR VEHICLES TRANSPORTING CERTAIN MATERIAL.—(1) Not later than November 16, 1991, the Secretary shall require by regulation that before each use of a motor vehicle to transport a highway-route-controlled quantity of radioactive material in commerce, the vehicle shall be inspected and certified as complying with this chapter and applicable United States motor carrier safety laws and regulations. The Secretary may require that the inspection be carried out by an authorized United States Government inspector or according to appropriate State procedures.

(2) The Secretary may allow a person, transporting or causing to be transported a highway-route-controlled quantity of radioactive material, to inspect the motor vehicle used to transport the material and to certify that the vehicle complies with this chapter. The inspector qualification requirements the Secretary prescribes for an individual inspecting a motor vehicle apply to an individual conducting an inspection under this paragraph.

(C) to make an agreement the Secretary approves authorizing a person (including an authority of a State or political subdivision of a State or Indian tribe) to provide the training—

(i) if the agreement allows the Secretary and the State or tribe to conduct random examinations, inspections, and audits of the training without prior notice; and

(ii) if the State or tribe conducts at least one on-site observation of the training each year.

(4) The Secretary shall allocate amounts made available for grants under this subsection for a fiscal year among eligible States and Indian tribes based on the needs of the States and tribes for emergency response training. In making a decision about those needs, the Secretary shall consider—

(A) the number of hazardous material facilities in the State or on land under the jurisdiction of the tribe;

(B) the types and amounts of hazardous material transported in the State or on that land;

(C) whether the State or tribe imposes and collects a fee on transporting hazardous material;

(D) whether the fee is used only to carry out a purpose related to transporting hazardous material; and

(E) other factors the Secretary decides are appropriate to carry out this subsection.

(c) COMPLIANCE WITH CERTAIN LAW.—The Secretary may make a grant to a State under this section in a fiscal year only if the State certifies that the State complies with sections 301 and 303 of the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001, 11003).

(d) APPLICATIONS.—A State or Indian tribe interested in receiving a grant under this section shall submit an application to the Secretary. The application must be submitted at the time, and contain information, the Secretary requires by regulation to carry out the objectives of this section.

(e) GOVERNMENT'S SHARE OF COSTS.—A grant under this section is for 80 percent of the cost the State or Indian tribe incurs in the fiscal year to carry out the activity for which the grant is made. Amounts of the State or tribe under subsections (a)(2)(A) and (b)(2)(A) of this section are not part of the non-Government share under this subsection.

(f) MONITORING AND TECHNICAL ASSISTANCE.—In coordination with the Secretaries of Transportation and Energy, Administrator of the Environmental Protection Agency, and Director of the National Institute of Environmental Health Sciences, the Administrator of the Federal Emergency Management Agency shall monitor public sector emergency response planning and training for an accident or incident involving hazardous material. Considering the results of the monitoring, the Secretaries, Administrators, and Director each shall provide technical assistance to a State, political subdivision of a State, or Indian tribe for carrying out emergency response training and planning for an accident or incident involving hazardous material and shall coordinate the assistance using the existing coordinating mechanisms of the National Response Team and, for radioactive material, the Federal Radiological Preparedness Coordinating Committee.

(g) DELEGATION OF AUTHORITY.—To minimize administrative costs and to coordinate Federal financial assistance for emergency response training and planning, the Secretary may delegate to the Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sciences, Chairman of the Nuclear Regulatory Commission, Administrator of the Environmental Protection Agency, and Secretaries of Labor and Energy any of the following:

(1) authority to receive applications for grants under this section.

(2) authority to review applications for technical compliance with this section.

(3) authority to review applications to recommend approval or disapproval.

(4) any other ministerial duty associated with grants under this section.

(h) MINIMIZING DUPLICATION OF EFFORT AND EXPENSES.—The Secretaries of Transportation,

Labor, and Energy, Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sciences, Chairman of the Nuclear Regulatory Commission, and Administrator of the Environmental Protection Agency shall review periodically, with the head of each department, agency, or instrumentality of the Government, all emergency response and preparedness training programs of that department, agency, or instrumentality to minimize duplication of effort and expense of the department, agency, or instrumentality in carrying out the programs and shall take necessary action to minimize duplication.

(i) ANNUAL REGISTRATION FEE ACCOUNT AND ITS USES.—The Secretary of the Treasury shall establish an account in the Treasury (to be known as the "Hazardous Materials Emergency Preparedness Fund") into which the Secretary of the Treasury shall deposit amounts the Secretary of Transportation transfers to the Secretary of the Treasury under section 5108(g)(2)(C) of this title. Without further appropriation, amounts in the account are available—

(1) to make grants under this section;

(2) to monitor and provide technical assistance under subsection (f) of this section;

(3) to publish and distribute an emergency response guide; and

(4) to pay administrative costs of carrying out this section and sections 5108(g)(2) and 5115 of this title, except that not more than 2 percent of the amounts made available from the account in a fiscal year may be used to pay those costs.

(j) SUPPLEMENTAL TRAINING GRANTS.—

(1) In order to further the purposes of subsection (b), the Secretary shall, subject to the availability of funds, make grants to national nonprofit employee organizations engaged solely in fighting fires for the purpose of training instructors to conduct hazardous materials response training programs for individuals with statutory responsibility to respond to hazardous materials accidents and incidents.

(2) For the purposes of this subsection the Secretary, after consultation with interested organizations, shall—

(A) identify regions or locations in which fire departments or other organizations which provide emergency response to hazardous materials transportation accidents and incidents are in need of hazardous materials training; and

(B) prioritize such needs and develop a means for identifying additional specific training needs.

(3) Funds granted to an organization under this subsection shall only be used—

(A) to train instructors to conduct hazardous materials response training programs;

(B) to purchase training equipment used exclusively to train instructors to conduct such training programs; and

(C) to disseminate such information and materials as are necessary for the conduct of such training programs.

(4) The Secretary may only make a grant to an organization under this subsection in a fis-

cal year if the organization enters into an agreement with the Secretary to train instructors to conduct hazardous materials response training programs in such fiscal year that will use—

- (A) a course or courses developed or identified under section 5115 of this title; or
- (B) other courses which the Secretary determines are consistent with the objectives of this subsection;

for training individuals with statutory responsibility to respond to accidents and incidents involving hazardous materials. Such agreement also shall provide that training courses shall be open to all such individuals on a non-discriminatory basis.

(5) The Secretary may impose such additional terms and conditions on grants to be made under this subsection as the Secretary determines are necessary to protect the interests of the United States and to carry out the objectives of this subsection.

(k) **REPORTS.**—The Secretary shall submit annually to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and make available to the public information on the allocation and uses of the planning grants allocated under subsection (a), training grants under subsection (b), and grants under subsection (j) of this section and under section 5107. The report shall identify the ultimate recipients of training grants and include a detailed accounting of all grant expenditures by grant recipients, the number of persons trained under the grant programs, and an evaluation of the efficacy of training programs carried out.

(2) A special permit issued under this section shall be effective for an initial period of not more than 2 years and may be renewed by the Secretary upon application for successive periods of not more than 4 years each or, in the case of a special permit relating to section 5112, for an additional period of not more than 2 years.

This subsection does not require the release of information protected by law from public disclosure.

AMENDMENTS

2005—Pub. L. 109-59 reenacted section catchline without change and amended text generally. Prior to amendment, text read as follows: “A person knowingly violating section 5104(b) of this title or willfully violating this chapter or a regulation prescribed or order issued under this chapter shall be fined under title 18, imprisoned for not more than 5 years, or both.”

§ 5125. Preemption

(a) GENERAL.—Except as provided in subsections (b), (c), and (e) of this section and unless authorized by another law of the United States, a requirement of a State, political subdivision of a State, or Indian tribe is preempted if—

(1) complying with a requirement of the State, political subdivision, or tribe and a requirement of this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security is not possible; or

(2) the requirement of the State, political subdivision, or tribe, as applied or enforced, is an obstacle to accomplishing and carrying out this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security.

(b) SUBSTANTIVE DIFFERENCES.—(1) Except as provided in subsection (c) of this section and unless authorized by another law of the United States, a law, regulation, order, or other requirement of a State, political subdivision of a State, or Indian tribe about any of the following subjects, that is not substantively the same as a provision of this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security, is preempted:

(A) the designation, description, and classification of hazardous material.

(B) the packing, repacking, handling, labeling, marking, and placarding of hazardous material.

(C) the preparation, execution, and use of shipping documents related to hazardous material and requirements related to the number, contents, and placement of those documents.

(D) the written notification, recording, and reporting of the unintentional release in transportation of hazardous material.

(E) the designing, manufacturing, fabricating, inspecting, marking, maintaining, reconditioning, repairing, or testing a package, container, or packaging component that is represented, marked, certified, or sold as qualified for use in transporting hazardous material in commerce.

(2) If the Secretary prescribes or has prescribed under section 5103(b), 5104, 5110, or 5112 of this title or prior comparable provision of law a regulation or standard related to a subject referred to in paragraph (1) of this subsection, a State, political subdivision of a State, or Indian tribe may prescribe, issue, maintain, and enforce only a law, regulation, standard, or order about the subject that is substantively the same as a provision of this chapter or a regulation prescribed or order issued under this chapter. The Secretary shall decide on and publish in the Federal Register the effective date of section 5103(b) of this title for any regulation or standard about any of those subjects that the Secretary prescribes. The effective date may not be earlier than 90 days after the Secretary prescribes the regulation or standard nor later than the last day of the 2-year period beginning on the date the Secretary prescribes the regulation or standard.

(3) If a State, political subdivision of a State, or Indian tribe imposes a fine or penalty the Secretary decides is appropriate for a violation related to a subject referred to in paragraph (1) of this subsection, an additional fine or penalty may not be imposed by any other authority.

(c) COMPLIANCE WITH SECTION 5112(b) REGULATIONS.—(1) Except as provided in paragraph (2) of this subsection, after the last day of the 2-year period beginning on the date a regulation is prescribed under section 5112(b) of this title, a State or Indian tribe may establish, maintain, or enforce a highway routing designation over which hazardous material may or may not be transported by motor vehicles, or a limitation or requirement related to highway routing, only if the designation, limitation, or requirement complies with section 5112(b).

(2)(A) A highway routing designation, limitation, or requirement established before the date a regulation is prescribed under section 5112(b) of this title does not have to comply with section 5112(b)(1)(B), (C), and (F).

(B) This subsection and section 5112 of this title do not require a State or Indian tribe to comply with section 5112(b)(1)(I) if the highway routing designation, limitation, or requirement was established before November 16, 1990.

(C) The Secretary may allow a highway routing designation, limitation, or requirement to continue in effect until a dispute related to the designation, limitation, or requirement is resolved under section 5112(d) of this title.

(d) DECISIONS ON PREEMPTION.—(1) A person (including a State, political subdivision of a State, or Indian tribe) directly affected by a requirement of a State, political subdivision, or tribe may apply to the Secretary, as provided by regulations prescribed by the Secretary, for a decision on whether the requirement is pre-

empted by subsection (a), (b)(1), or (c) of this section or section 5119(f). The Secretary shall publish notice of the application in the Federal Register. The Secretary shall issue a decision on an application for a determination within 180 days after the date of the publication of the notice of having received such application, or the Secretary shall publish a statement in the Federal Register of the reason why the Secretary's decision on the application is delayed, along with an estimate of the additional time necessary before the decision is made. After notice is published, an applicant may not seek judicial relief on the same or substantially the same issue until the Secretary takes final action on the application or until 180 days after the application is filed, whichever occurs first.

(2) After consulting with States, political subdivisions of States, and Indian tribes, the Secretary shall prescribe regulations for carrying out paragraph (1) of this subsection.

(3) Subsection (a) of this section does not prevent a State, political subdivision of a State, or Indian tribe, or another person directly affected by a requirement, from seeking a decision on preemption from a court of competent jurisdiction instead of applying to the Secretary under paragraph (1) of this subsection.

(e) **WAIVER OF PREEMPTION.**—A State, political subdivision of a State, or Indian tribe may apply to the Secretary for a waiver of preemption of a requirement the State, political subdivision, or tribe acknowledges is preempted by subsection (a), (b)(1), or (c) of this section or section 5119(f). Under a procedure the Secretary prescribes by regulation, the Secretary may waive preemption on deciding the requirement—

- (1) provides the public at least as much protection as do requirements of this chapter and regulations prescribed under this chapter; and
- (2) is not an unreasonable burden on commerce.

(f) **FEES.**—(1) A State, political subdivision of a State, or Indian tribe may impose a fee related to transporting hazardous material only if the fee is fair and used for a purpose related to transporting hazardous material, including enforcement and planning, developing, and maintaining a capability for emergency response.

(2) A State or political subdivision thereof or Indian tribe that levies a fee in connection with the transportation of hazardous materials shall, upon the Secretary's request, report to the Secretary on—

- (A) the basis on which the fee is levied upon persons involved in such transportation;
- (B) the purposes for which the revenues from the fee are used;
- (C) the annual total amount of the revenues collected from the fee; and
- (D) such other matters as the Secretary requests.

(g) **APPLICATION OF EACH PREEMPTION STANDARD.**—Each standard for preemption in subsection (a), (b)(1), or (c), and in section 5119(f), is independent in its application to a requirement of a State, political subdivision of a State, or Indian tribe.

(h) **NON-FEDERAL ENFORCEMENT STANDARDS.**—This section does not apply to any procedure,

penalty, required mental state, or other standard utilized by a State, political subdivision of a State, or Indian tribe to enforce a requirement applicable to the transportation of hazardous material.

§ 5301. Policies, findings, and purposes

(a) DEVELOPMENT AND REVITALIZATION OF PUBLIC TRANSPORTATION SYSTEMS.—It is in the interest of the United States, including its economic interest, to foster the development and revitalization of public transportation systems that—

- (1) maximize the safe, secure, and efficient mobility of individuals;
- (2) minimize environmental impacts; and
- (3) minimize transportation-related fuel consumption and reliance on foreign oil.

(b) GENERAL FINDINGS.—Congress finds that—

- (1) more than two-thirds of the population of the United States is located in rapidly expanding urbanized areas that generally cross the

boundary lines of local jurisdictions and often extend into at least 2 States;

(2) the welfare and vitality of urban areas, the satisfactory movement of people and goods within those areas, and the effectiveness of programs aided by the United States Government are jeopardized by deteriorating or inadequate urban transportation service and facilities, the intensification of traffic congestion, and the lack of coordinated, comprehensive, and continuing development planning;

(3) transportation is the lifeblood of an urbanized society, and the health and welfare of an urbanized society depend on providing efficient, economical, and convenient transportation in and between urban areas;

(4) for many years the public transportation industry capably and profitably satisfied the transportation needs of the urban areas of the United States but in the early 1970's continuing even minimal public transportation service in urban areas was threatened because maintaining that transportation service was financially burdensome;

(5) ending that transportation, or the continued increase in its cost to the user, is undesirable and may affect seriously and adversely the welfare of a substantial number of lower income individuals;

(6) some urban areas were developing preliminary plans for, or carrying out, projects in the early 1970's to revitalize their public transportation operations;

(7) significant public transportation improvements are necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals in urban and rural areas of the United States;

(8) financial assistance by the Government to develop efficient and coordinated public transportation systems is essential to solve the urban transportation problems referred to in clause (2) of this subsection; and

(9) immediate substantial assistance by the Government is needed to enable public transportation systems to continue providing vital transportation service.

(c) **RAPID URBANIZATION AND CONTINUING POPULATION DISPERSAL.**—Rapid urbanization and continuing dispersal of the population and activities in urban areas have made the ability of all citizens to move quickly and at a reasonable cost an urgent problem of the Government.

(d) **ELDERLY INDIVIDUALS AND INDIVIDUALS WITH DISABILITIES.**—It is the policy of the Government that elderly individuals and individuals with disabilities have the same right as other individuals to use public transportation service and facilities. Special efforts shall be made in planning and designing public transportation service and facilities to ensure that public transportation can be used by elderly individuals and individuals with disabilities. All programs of the Government assisting public transportation shall carry out this policy.

(e) **PRESERVING THE ENVIRONMENT.**—It is the policy of the Government that special effort shall be made to preserve the natural beauty of

the countryside, public park and recreation lands, wildlife and waterfowl refuges, and important historical and cultural assets when planning, designing, and carrying out a public transportation capital project with assistance from the Government.

(f) **GENERAL PURPOSES.**—The purposes of this chapter are—

(1) to assist in developing improved public transportation equipment, facilities, techniques, and methods with the cooperation of both public transportation companies and private companies engaged in public transportation;

(2) to encourage the planning and establishment of areawide public transportation systems needed for economical and desirable urban development with the cooperation of both public transportation companies and private companies engaged in public transportation;

(3) to assist States and local governments and their authorities in financing areawide public transportation systems that are to be operated by public transportation companies or private companies engaged in public transportation as decided by local needs;

(4) to provide financial assistance to State and local governments and their authorities to help carry out national goals related to mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals; and

(5) to establish a partnership that allows a community, with financial assistance from the Government, to satisfy its public transportation requirements.

CONTRACTING OUT STUDY

Pub. L. 105-178, title III, §3032, June 9, 1998, 112 Stat. 385, as amended by Pub. L. 105-206, title IX, §9009(v), July 22, 1998, 112 Stat. 861, provided that:

“(a) STUDY.—Not later than 6 months after the date of enactment of this Act [June 9, 1998], the Secretary [of Transportation] shall enter into an agreement with the Transportation Research Board of the National Academy of Sciences to conduct a study of the effect of contracting out mass transportation operation and administrative functions on cost, availability and level of service, efficiency, safety, quality of services provided to transit-dependent populations, and employer-employee relations.

“(b) TERMS OF AGREEMENT.—The agreement entered into in subsection (a) shall provide that—

“(1) the Transportation Research Board, in conducting the study, consider the number of grant recipients that have contracted out services, the size of the population served by such grant recipients, the basis for decisions regarding contracting out, and the extent to which contracting out was affected by the integration and coordination of resources of transit agencies and other Federal agencies and programs; and

“(2) the panel conducting the study shall include representatives of transit agencies, employees of transit agencies, private contractors, academic and policy analysts, and other interested persons.

“(c) REPORT.—Not later than 24 months after the date of entry into the agreement under subsection (a), the Secretary shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report containing the results of the study.

“(d) FUNDING.—There shall be available from funds made available under section 5338(f)(2) of title 49, United States Code, to carry out this section \$250,000 for fiscal year 1999.

“(e) CONTRACTUAL OBLIGATION.—Entry into an agreement to carry out this section that is financed with amounts made available under subsection (d) is a contractual obligation of the United States to pay the Government’s share of the cost of the study.”

COMMUTE-TO-WORK BENEFITS

Pub. L. 102-240, title VIII, §8004, Dec. 18, 1991, 105 Stat. 2206, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) current Federal policy places commuter transit benefits at a disadvantage compared to drive-to-work benefits;

“(2) this Federal policy is inconsistent with important national policy objectives, including the need to conserve energy, reduce reliance on energy imports, lessen congestion, and clean our Nation’s air;

“(3) commuter transit benefits should be part of a comprehensive solution to national transportation and air pollution problems;

“(4) current Federal law allows employers to provide only up to \$21 per month in employee benefits for transit or van pools;

“(5) the current ‘cliff provision’, which treats an entire commuter transit benefit as taxable income if it exceeds \$21 per month, unduly penalizes the most effective employer efforts to change commuter behavior;

“(6) employer-provided commuter transit incentives offer many public benefits, including increased access of low-income persons to good jobs, inexpensive reduction of roadway and parking congestion, and cost-effective incentives for timely arrival at work; and

“(7) legislation to provide equitable treatment of employer-provided commuter transit benefits has

been introduced with bipartisan support in both the Senate and House of Representatives.

“(b) POLICY.—The Congress strongly supports Federal policy that promotes increased use of employer-provided commuter transit benefits. Such a policy ‘levels the playing field’ between transportation modes and is consistent with important national objectives of energy conservation, reduced reliance on energy imports, lessened congestion, and clean air.”

In this chapter, the words “local governmental authority” are substituted for “local public body” for consistency in the revised title and with other titles of the United States Code.

In subsection (a), before clause (1), the text of 49 App.:1608(c)(7) is omitted as surplus. The text of 49 App.:1608(c)(8) is omitted because the complete title of the Secretary of Transportation is used the first time the term appears in a section. In clause (1), before subclause (A), the words “capital project” are substituted for “construction” for clarity. In subclause (A), the

words “actual”, “all”, and “reconstruction” are omitted as surplus. In subclause (D), the words “(whether or not such overhaul increases the useful life of the rolling stock)” are omitted as surplus. In clause (2), the words “for each of the jurisdictions included in the definition of ‘State’” are omitted as surplus. In clauses (3) and (10), the word “regulation” is substituted for “rule” for consistency in the revised title and with other titles of the Code and because the terms are synonymous. In clause (3)(B)(iii), the words “of persons” are omitted as surplus. In clauses (4) and (5), the word “mass” is substituted for “public” because of the restatement. In clause (4)(A), the words “including, but not limited to, fixed rail, automated guideway transit, and exclusive facilities for buses” are omitted as surplus. In clause (6)(A), the words “municipalities and other” are omitted as surplus. In clause (6)(B), the word “authority” is substituted for “public agencies and instrumentalities” for consistency in the revised title and with other titles of the Code. The word “municipalities” is omitted as surplus. In clause (7), the words “bus, or rail, or other”, “either publicly or privately owned”, and “on a . . . basis” are omitted as surplus. Clause (8) is added for clarity because the term “net project cost” has the same meaning throughout this chapter. In clause (11), the words “the Commonwealths of” are omitted as surplus. In clause (12), the word “individuals” is substituted for “commuters or others” to eliminate unnecessary words. In clause (13)(A), the words “in the case of any such area” and “entire” are omitted as surplus. The words “Secretary of Commerce” are substituted for “Bureau of the Census” because of 15:1511(e). In clause (13)(B), the words “so designated by the Bureau of Census”, “which shall be”, “responsible”, and “in cooperation with each other” are omitted as surplus.

Subsection (b) applies to section 5307(d)(1)(D) of the revised title because of 49 App.:1607a(e)(1), restated as section 5307(n)(2) of the revised title.

(a) POLICY.—It is in the national interest to—

(1) encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight and foster economic growth and development within and between States and urbanized areas, while minimizing transportation-related fuel consumption and air pollution through metropolitan and statewide transportation planning processes identified in this chapter; and

(2) encourage the continued improvement and evolution of the metropolitan and statewide transportation planning processes by metropolitan planning organizations, State departments of transportation, and public transit operators as guided by the planning factors identified in subsection (h) and section 5304(d).

(b) DEFINITIONS.—In this section and section 5304, the following definitions apply:

operation with the State and public transportation operators, shall develop long-range transportation plans and transportation improvement programs for metropolitan planning areas of the State.

(2) CONTENTS.—The plans and TIPs for each metropolitan area shall provide for the development and integrated management and operation of transportation systems and facilities (including accessible pedestrian walkways and bicycle transportation facilities) that will function as an intermodal transportation system for the metropolitan planning area and as an integral part of an intermodal transportation system for the State and the United States.

(3) PROCESS OF DEVELOPMENT.—The process for developing the plans and TIPs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems to be addressed.

(1) IN GENERAL.—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area with a population of more than 50,000 individuals—

(A) by agreement between the Governor and units of general purpose local government that together represent at least 75 percent of the affected population (including the largest incorporated city (based on population) as named by the Bureau of the Census); or

(6) DESIGNATION OF MORE THAN ONE METROPOLITAN PLANNING ORGANIZATION.—More than one metropolitan planning organization may be designated within an existing metropolitan planning area only if the Governor and the existing metropolitan planning organization determine that the size and complexity of the existing metropolitan planning area make designation of more than one metropolitan planning organization for the area appropriate.

(1) IN GENERAL.—The Secretary shall encourage each Governor with responsibility for a portion of a multistate metropolitan area and the appropriate metropolitan planning organizations to provide coordinated transportation planning for the entire metropolitan area.

(2) INTERSTATE COMPACTS.—The consent of Congress is granted to any two or more States—

(1) APPORTIONMENT TO STATES.—

(A) IN GENERAL.—The Secretary shall apportion 80 percent of the amounts made available under subsection (g)(1) among the States to carry out sections 5303 and 5306 in the ratio that—

(f) GOVERNMENT'S SHARE OF COSTS.—The Government's share of the cost of an activity funded using amounts made available under this section may not exceed 80 percent of the cost of the activity unless the Secretary determines that it is in the interests of the Government not to require a State or local match.

(B) SPECIAL FINANCIAL RULES.—

(i) IN GENERAL.—A full funding grant agreement under this paragraph obligates an amount of available budget authority specified in law and may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law.

(ii) STATEMENT OF CONTINGENT COMMITMENT.—The agreement shall state that the contingent commitment is not an obligation of the Government.

(iii) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out a part of the project within a reasonable time are a cost of carrying out the project under a full funding grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

(iv) COMPLETION OF OPERABLE SEGMENT.—The amount stipulated in an agreement under this paragraph for a fixed guideway project shall be sufficient to complete at least an operable segment.

(C) BEFORE AND AFTER STUDY.—

(i) IN GENERAL.—A full funding grant agreement under this paragraph shall require the applicant to conduct a study that—

(I) describes and analyzes the impacts of the new fixed guideway capital project on transit services and transit ridership;

(i) a full funding grant agreement for the project will be made; and

(ii) the terms of the work agreement will promote ultimate completion of the project more rapidly and at less cost.

(B) CONTENTS.—

(i) IN GENERAL.—A work agreement under this paragraph obligates an amount of available budget authority specified in law and shall provide for reimbursement of preliminary costs of carrying out the project, including land acquisition, timely procurement of system elements for which specifications are decided, and other activities the Secretary decides are appropriate to make efficient, long-term project management easier.

(iii) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out the work agreement within a reasonable time are a cost of carrying out the agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

(iv) FAILURE TO CARRY OUT PROJECT.—If an applicant does not carry out the project for reasons within the control of the applicant, the applicant shall repay all Government payments made under the work agreement plus reasonable interest and penalty charges the Secretary establishes in the agreement.

(4) LIMITATION ON AMOUNTS.—

(A) MAJOR CAPITAL INVESTMENT GRANTS CONTINGENT COMMITMENT AUTHORITY.—The total estimated amount of future obligations of the Government and contingent commitments to incur obligations covered by all

outstanding letters of intent, full funding grant agreements, and early systems work agreements under this subsection for major new fixed guideway capital projects may be not more than the greater of the amount authorized under sections 5338(a)(3) and 5338(c) for such projects or an amount equivalent to the last 3 fiscal years of funding allocated under subsections (m)(1)(A) and (m)(2)(A)(ii) for such projects, less an amount the Secretary reasonably estimates is necessary for grants under this section for those of such projects that are not covered by a letter or agreement. The total amount covered by new letters and contingent commitments included in full funding grant agreements and early systems work agreements for such projects may be not more than a limitation specified in law.

(B) OTHER CONTINGENT COMMITMENT AUTHORITY.—The total estimated amount of future obligations of the Government and contingent commitments to incur obligations covered by all project construction grant agreements and early system work agreements under this subsection for small capital projects described in subsection (e) may be not more than the greater of the amount allocated under subsection (m)(2)(A)(i) for such projects or an amount equivalent to the last fiscal year of funding allocated under such subsection for such projects, less an amount the Secretary reasonably estimates is necessary for grants under this section for those of such projects that are not covered by an agreement. The total amount covered by new contingent commitments included in project construction grant agreements and early systems work agreements for such projects may be not more than a limitation specified in law.

(C) INCLUSION OF CERTAIN COMMITMENTS.—Future obligations of the Government and contingent commitments made against the contingent commitment authority under section 3032(g)(2) of the Intermodal Surface Transportation Efficiency Act of 1991 (106 Stat. 2125)² for the San Francisco BART to the Airport project for fiscal years 2002, 2003, 2004, 2005, and 2006 shall be charged against section 3032(g)(2) of that Act.

(D) APPROPRIATION REQUIRED.—An obligation may be made under this subsection only when amounts are appropriated for the obligation.

(5) NOTIFICATION OF CONGRESS.—At least 60 days before issuing a letter of intent or entering into a full funding grant agreement or project construction grant agreement under this section, the Secretary shall notify, in writing, the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and Appropriations of the Senate of the proposed letter or agreement. The Secretary shall include with the notification a copy of the proposed letter or agreement as well as the evaluations and ratings for the project.

² See References in Text note below.

(h) GOVERNMENT'S SHARE OF NET PROJECT COST.—

(1) IN GENERAL.—Based on engineering studies, studies of economic feasibility, and information on the expected use of equipment or facilities, the Secretary shall estimate the net project cost. A grant for the project shall be for 80 percent of the net capital project cost, unless the grant recipient requests a lower grant percentage.

(2) ADJUSTMENT FOR COMPLETION UNDER BUDGET.—The Secretary may adjust the final net project cost of a new fixed guideway capital project evaluated under subsections (d) and (e) to include the cost of eligible activities not included in the originally defined project if the Secretary determines that the originally defined project has been completed at a cost that is significantly below the original estimate.

(3) MAXIMUM GOVERNMENT SHARE.—The Secretary may provide a higher grant percentage than requested by the grant recipient if—

(A) the Secretary determines that the net project cost of the project is not more than 10 percent higher than the net project cost estimated at the time the project was approved for advancement into preliminary engineering; and

(B) the ridership estimated for the project is not less than 90 percent of the ridership estimated for the project at the time the project was approved for advancement into preliminary engineering.

(4) REMAINDER OF NET PROJECT COST.—The remainder of net project costs shall be provided from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, or new capital.

(5) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section, including paragraph (1) and subsections (d)(4)(B)(v) and (e)(5), shall be construed as authorizing the Secretary to require a non-Federal financial commitment for a project that is more than 20 percent of the net capital project cost.

(6) SPECIAL RULE FOR ROLLING STOCK COSTS.—In addition to amounts allowed pursuant to paragraph (1), a planned extension to a fixed guideway system may include the cost of rolling stock previously purchased if the applicant satisfies the Secretary that only amounts other than amounts of the Government were used and that the purchase was made for use on the extension. A refund or reduction of the remainder may be made only if a refund of a proportional amount of the grant of the Government is made at the same time.

(7) LIMITATION ON APPLICABILITY.—This subsection does not apply to projects for which the Secretary has entered into a full funding grant agreement before the date of enactment of the Federal Public Transportation Act of 2005.

(i) UNDERTAKING PROJECTS IN ADVANCE.—

(1) IN GENERAL.—The Secretary may pay the Government's share of the net capital project cost to a State or local governmental authority that carries out any part of a project described in this section without the aid of

amounts of the Government and according to all applicable procedures and requirements if—

The Secretary may base the selection of participating States on a State’s exemplary coordination of public transit-human services transportation. The Secretary may require participants to collect data necessary to support the report to Congress required by paragraph (7).

“(2) PLANNING COORDINATION.—Recipients of funds made available consistent with this subsection shall certify that—

“(B) whether States participating in the pilot program use the funds to provide services to persons with disabilities that exceed those services required by the Americans with Disabilities Act of 1990 differently than States not in the pilot program;

“(D) the percentage of funds used to assist elderly individuals;

“(E) the percentage of funds used to assist individuals with disabilities;

“(F) the extent to which States participating in this pilot program serve a wider range of elderly, low income, and persons with disabilities populations;

§ 5323. General provisions on assistance

(a) INTERESTS IN PROPERTY.—

(1) IN GENERAL.—Financial assistance provided under this chapter to a State or a local governmental authority may be used to acquire an interest in, or to buy property of, a private company engaged in public transportation, for a capital project for property acquired from a private company engaged in public transportation after July 9, 1964, or to operate a public transportation facility or equipment in competition with, or in addition to, transportation service provided by an existing public transportation company, only if—

(A) the Secretary determines that such financial assistance is essential to a program of projects required under sections 5303, 5304, and 5306;

(B) the Secretary determines that the program provides for the participation of private companies engaged in public transportation to the maximum extent feasible; and

(C) just compensation under State or local law will be paid to the company for its franchise or property.

(2) LIMITATION.—A governmental authority may not use financial assistance of the United States Government to acquire land, equipment, or a facility used in public transportation from another governmental authority in the same geographic area.

(b) NOTICE AND PUBLIC HEARING.—

(1) IN GENERAL.—For a capital project that will substantially affect a community, or the public transportation service of a community, an applicant shall—

(A) provide an adequate opportunity for public review and comment on the project;

(B) after providing notice, hold a public hearing on the project if the project affects significant economic, social, or environmental interests;

(C) consider the economic, social, and environmental effects of the project; and

(D) find that the project is consistent with official plans for developing the community.

(2) NOTICE.—Notice of a hearing under this subsection—

(A) shall include a concise description of the proposed project; and

(B) shall be published in a newspaper of general circulation in the geographic area the project will serve.

(3) APPLICATION REQUIREMENTS.—An application for a grant under this chapter for a capital project described in paragraph (1) shall include—

(A) a certification that the applicant has complied with the requirements of this subsection; and

(B) in the environmental record for the project, evidence that the applicant has complied with the requirements of this subsection.

(c) FARES NOT REQUIRED.—This chapter does not require that elderly individuals and individuals with disabilities be charged a fare.

(d) CONDITION ON CHARTER BUS TRANSPORTATION SERVICE.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used to buy or operate a bus only if the applicant, governmental authority, or publicly owned operator that receives the assistance agrees that, except as provided in the agreement, the governmental authority or an operator of public transportation for the governmental authority will not provide charter bus transportation service outside the urban area in which it provides regularly scheduled public transportation service. An agreement shall provide for a fair arrangement the Secretary of Transportation considers appropriate to ensure that the assistance will not enable a governmental authority or an operator for a governmental authority to foreclose a private operator from providing intercity charter bus service if the private operator can provide the service.

(2) VIOLATIONS.—

(A) INVESTIGATIONS.—On receiving a complaint about a violation of the agreement required under paragraph (1), the Secretary shall investigate and decide whether a violation has occurred.

(B) ENFORCEMENT OF AGREEMENTS.—If the Secretary decides that a violation has occurred, the Secretary shall correct the violation under terms of the agreement.

(C) ADDITIONAL REMEDIES.—In addition to any remedy specified in the agreement, the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate if the Secretary finds a pattern of violations of the agreement.

(e) BOND PROCEEDS ELIGIBLE FOR LOCAL SHARE.—

(1) USE AS LOCAL MATCHING FUNDS.—Notwithstanding any other provision of law, a recipient of assistance under section 5307 or 5309 may use the proceeds from the issuance of revenue bonds as part of the local matching funds for a capital project.

(2) MAINTENANCE OF EFFORT.—The Secretary shall approve of the use of the proceeds from the issuance of revenue bonds for the remainder of the net project cost only if the Secretary finds that the aggregate amount of financial support for public transportation in the urbanized area provided by the State and affected local governmental authorities during the next 3 fiscal years, as programmed in the State transportation improvement program under section 5304, is not less than the aggregate amount provided by the State and affected local governmental authorities in the urbanized area during the preceding 3 fiscal years.

(3) DEBT SERVICE RESERVE.—The Secretary may reimburse an eligible recipient for deposits of bond proceeds in a debt service reserve that the recipient establishes pursuant to section 5302(a)(1)(K) from amounts made available to the recipient under section 5309.

(4) PILOT PROGRAM FOR URBANIZED AREAS.—

(A) IN GENERAL.—The Secretary shall establish a pilot program to reimburse not to exceed 10 eligible recipients for deposits of bond proceeds in a debt service reserve that the recipient establishes pursuant to section 5302(a)(1)(K) from amounts made available to the recipient under section 5307.

(B) REPORT.—Not later than July 31, 2008, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the status and effectiveness of the pilot program established under subparagraph (A).

(f) SCHOOLBUS TRANSPORTATION.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used for a capital project, or to operate public transportation equipment or a public transportation facility, only if the applicant agrees not to provide schoolbus transportation that exclusively transports students and school personnel in competition with a private schoolbus operator. This subsection does not apply—

(A) to an applicant that operates a school system in the area to be served and a separate and exclusive schoolbus program for the school system;

(B) unless a private schoolbus operator can provide adequate transportation that complies with applicable safety standards at reasonable rates; and

(C) to a State or local governmental authority if it or a direct predecessor in interest from which it acquired the duty of transporting school children and personnel, and facilities to transport them, provided schoolbus transportation at any time after November 25, 1973, but before November 26, 1974.

(2) VIOLATIONS.—If the Secretary finds that an applicant, governmental authority, or publicly owned operator has violated the agreement required under paragraph (1), the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate.

(g) BUYING BUSES UNDER OTHER LAWS.—Subsections (d) and (f) of this section apply to financial assistance to buy a bus under sections 133 and 142 of title 23. However, subsection (f)(1)(C) of this section applies to sections 133 and 142 only if schoolbus transportation was provided at any time after August 12, 1972, but before August 13, 1973.

(h) GRANT AND LOAN PROHIBITIONS.—A grant or loan may not be used to—

(1) pay ordinary governmental or nonproject operating expenses; or

(2) support a procurement that uses an exclusionary or discriminatory specification.

(i) GOVERNMENT'S SHARE OF COSTS FOR CERTAIN PROJECTS.—

(1) EQUIPMENT FOR ADA AND CLEAN AIR ACT COMPLIANCE.—A grant for a project to be assisted under this chapter that involves acquiring vehicle-related equipment or facilities required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) or vehicle-related

equipment or facilities (including clean fuel or alternative fuel vehicle-related equipment or facilities) for purposes of complying with or maintaining compliance with the Clean Air Act, is for 90 percent of the net project cost of such equipment or facilities attributable to compliance with those Acts. The Secretary shall have discretion to determine, through practicable administrative procedures, the costs of such equipment or facilities attributable to compliance with those Acts.

(2) CERTAIN STATE OWNED RAILROADS.—The Government share for financial assistance under this chapter to a State-owned railroad (as defined in section 603 of the Rail Safety and Service Improvement Act of 1982 (45 U.S.C. 1202)) shall be the same as the Government share under section 120(b) of title 23 for Federal-aid highway funds apportioned to the State in which the railroad operates.

(j) BUY AMERICA.—(1) The Secretary of Transportation may obligate an amount that may be appropriated to carry out this chapter for a project only if the steel, iron, and manufactured goods used in the project are produced in the United States.

(2) The Secretary of Transportation may waive paragraph (1) of this subsection if the Secretary finds that—

(A) applying paragraph (1) would be inconsistent with the public interest;

(B) the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality;

(C) when procuring rolling stock (including train control, communication, and traction power equipment) under this chapter—

(i) the cost of components and subcomponents produced in the United States is more than 60 percent of the cost of all components of the rolling stock; and

(ii) final assembly of the rolling stock has occurred in the United States; or

(D) including domestic material will increase the cost of the overall project by more than 25 percent.

(3) WRITTEN JUSTIFICATION FOR PUBLIC INTEREST WAIVER.—When issuing a waiver based on a public interest determination under paragraph (2)(A), the Secretary shall issue a detailed written justification as to why the waiver is in the public interest. The Secretary shall publish such justification in the Federal Register and provide the public with a reasonable period of time for notice and comment.

(4) In this subsection, labor costs involved in final assembly are not included in calculating the cost of components.

(5) The Secretary of Transportation may not make a waiver under paragraph (2) of this subsection for goods produced in a foreign country if the Secretary, in consultation with the United States Trade Representative, decides that the government of that foreign country—

(A) has an agreement with the United States Government under which the Secretary has waived the requirement of this subsection; and

(B) has violated the agreement by discriminating against goods to which this subsection

applies that are produced in the United States and to which the agreement applies.

(6) A person is ineligible under subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations, to receive a contract or subcontract made with amounts authorized under the Federal Public Transportation Act of 2005 if a court or department, agency, or instrumentality of the Government decides the person intentionally—

(A) affixed a “Made in America” label, or a label with an inscription having the same meaning, to goods sold in or shipped to the United States that are used in a project to which this subsection applies but not produced in the United States; or

(B) represented that goods described in clause (A) of this paragraph were produced in the United States.

(7) The Secretary of Transportation may not impose any limitation on assistance provided under this chapter that restricts a State from imposing more stringent requirements than this subsection on the use of articles, materials, and supplies mined, produced, or manufactured in foreign countries in projects carried out with that assistance or restricts a recipient of that assistance from complying with those State-imposed requirements.

(8) OPPORTUNITY TO CORRECT INADVERTENT ERROR.—The Secretary may allow a manufacturer or supplier of steel, iron, or manufactured goods to correct after bid opening any certification of noncompliance or failure to properly complete the certification (but not including failure to sign the certification) under this subsection if such manufacturer or supplier attests under penalty of perjury that such manufacturer or supplier submitted an incorrect certification as a result of an inadvertent or clerical error. The burden of establishing inadvertent or clerical error is on the manufacturer or supplier.

(9) ADMINISTRATIVE REVIEW.—A party adversely affected by an agency action under this subsection shall have the right to seek review under section 702 of title 5.

(k) PARTICIPATION OF GOVERNMENTAL AGENCIES IN DESIGN AND DELIVERY OF TRANSPORTATION SERVICES.—To the extent feasible, governmental agencies and nonprofit organizations that receive assistance from Government sources (other than the Department of Transportation) for nonemergency transportation services—

(1) shall participate and coordinate with recipients of assistance under this chapter in the design and delivery of transportation services; and

(2) shall be included in the planning for those services.

(l) RELATIONSHIP TO OTHER LAWS.—Section 1001 of title 18 applies to a certificate, submission, or statement provided under this chapter. The Secretary may terminate financial assistance under this chapter and seek reimbursement directly, or by offsetting amounts, available under this chapter if the Secretary determines that a recipient of such financial assistance has made a false or fraudulent statement or related act in connection with a Federal transit program.

(m) PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.—The Secretary of

Transportation shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with Government motor vehicle safety requirements, subsection (j) of this section, and bid specifications requirements of grant recipients under this chapter. Under this subsection, independent inspections and review are required, and a manufacturer certification is not sufficient. Rolling stock procurements of 20 vehicles or fewer made for the purpose of serving other than urbanized areas and urbanized areas with populations of 200,000 or fewer shall be subject to the same requirements as established for procurements of 10 or fewer buses under the post-delivery purchaser’s requirements certification process under section 663.37(c) of title 49, Code of Federal Regulations.

(n) SUBMISSION OF CERTIFICATIONS.—A certification required under this chapter and any additional certification or assurance required by law or regulation to be submitted to the Secretary may be consolidated into a single document to be submitted annually as part of a grant application under this chapter. The Secretary shall publish annually a list of all certifications required under this chapter with the publication required under section 5336(d)(2).

(o) GRANT REQUIREMENTS.—The grant requirements under sections 5307 and 5309 apply to any project under this chapter that receives any assistance or other financing under chapter 6 (other than section 609) of title 23.

(p) ALTERNATIVE FUELING FACILITIES.—A recipient of assistance under this chapter may allow the incidental use of federally funded alternative fueling facilities and equipment by nontransit public entities and private entities if—

(1) the incidental use does not interfere with the recipient’s public transportation operations;

(2) all costs related to the incidental use are fully recaptured by the recipient from the nontransit public entity or private entity;

(3) the recipient uses revenues received from the incidental use in excess of costs for planning, capital, and operating expenses that are incurred in providing public transportation; and

(4) private entities pay all applicable excise taxes on fuel.

§ 5331. Alcohol and controlled substances testing

(a) DEFINITIONS.—In this section—

(1) “controlled substance” means any substance under section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802) whose use the Secretary of Transportation decides has a risk to transportation safety.

(2) “person” includes any entity organized or existing under the laws of the United States, a State, territory, or possession of the United States, or a foreign country.

(3) “public transportation” means any form of public transportation, except a form the Secretary decides is covered adequately, for employee alcohol and controlled substances testing purposes, under section 20140 or 31306 of this title or section 2303a, 7101(i), or 7302(e) of title 46. The Secretary may also decide that a form of public transportation is covered adequately, for employee alcohol and controlled substances testing purposes, under the alcohol and controlled substance statutes or regulations of an agency within the Department of Transportation or the Coast Guard.

(b) TESTING PROGRAM FOR PUBLIC TRANSPORTATION EMPLOYEES.—(1)(A) In the interest of public transportation safety, the Secretary shall prescribe regulations that establish a program requiring public transportation operations that

receive financial assistance under section 5307, 5309, or 5311 of this title to conduct preemployment, reasonable suspicion, random, and post-accident testing of public transportation employees responsible for safety-sensitive functions (as decided by the Secretary) for the use of a controlled substance in violation of law or a United States Government regulation, and to conduct reasonable suspicion, random, and post-accident testing of such employees for the use of alcohol in violation of law or a United States Government regulation. The regulations shall permit such operations to conduct preemployment testing of such employees for the use of alcohol.

(B) When the Secretary of Transportation considers it appropriate in the interest of safety, the Secretary may prescribe regulations for conducting periodic recurring testing of public transportation employees responsible for safety-sensitive functions (as decided by the Secretary) for the use of alcohol or a controlled substance in violation of law or a Government regulation.

(2) In prescribing regulations under this subsection, the Secretary of Transportation—

(A) shall require that post-accident testing of such a public transportation employee be conducted when loss of human life occurs in an accident involving public transportation; and

(B) may require that post-accident testing of such a public transportation employee be conducted when bodily injury or significant property damage occurs in any other serious accident involving public transportation.

(c) **DISQUALIFICATIONS FOR USE.**—(1) When the Secretary of Transportation considers it appropriate, the Secretary shall require disqualification for an established period of time or dismissal of any employee referred to in subsection (b)(1) of this section who is found—

(A) to have used or been impaired by alcohol when on duty; or

(B) to have used a controlled substance, whether or not on duty, except as allowed for medical purposes by law or regulation.

(2) This section does not supersede any penalty applicable to a public transportation employee under another law.

(d) **TESTING AND LABORATORY REQUIREMENTS.**—In carrying out subsection (b) of this section, the Secretary of Transportation shall develop requirements that shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimens;

(2) for laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any amendments to those guidelines, including mandatory guidelines establishing—

(A) comprehensive standards for every aspect of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards requiring the use of the best available technology to ensure the complete reliability and accuracy of controlled substances tests and strict procedures govern-

ing the chain of custody of specimens collected for controlled substances testing;

(B) the minimum list of controlled substances for which individuals may be tested; and

(C) appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

(3) require that a laboratory involved in controlled substances testing under this section have the capability and facility, at the laboratory, of performing screening and confirmation tests;

(4) provide that all tests indicating the use of alcohol or a controlled substance in violation of law or a Government regulation be confirmed by a scientifically recognized method of testing capable of providing quantitative information about alcohol or a controlled substance;

(5) provide that each specimen be subdivided, secured, and labeled in the presence of the tested individual and that a part of the specimen be retained in a secure manner to prevent the possibility of tampering, so that if the individual's confirmation test results are positive the individual has an opportunity to have the retained part tested by a 2d confirmation test done independently at another certified laboratory if the individual requests the 2d confirmation test not later than 3 days after being advised of the results of the first confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations that may be necessary and in consultation with the Secretary of Health and Human Services;

(7) provide for the confidentiality of test results and medical information (except information about alcohol or a controlled substance) of employees, except that this clause does not prevent the use of test results for the orderly imposition of appropriate sanctions under this section; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(e) **REHABILITATION.**—The Secretary of Transportation shall prescribe regulations establishing requirements for rehabilitation programs that provide for the identification and opportunity for treatment of any public transportation employee referred to in subsection (b)(1) of this section who is found to have used alcohol or a controlled substance in violation of law or a Government regulation. The Secretary shall decide on the circumstances under which employees shall be required to participate in a program. This subsection does not prevent a public transportation operation from establishing a program under this section in cooperation with another public transportation operation.

(f) **RELATIONSHIP TO OTHER LAWS, REGULATIONS, STANDARDS, AND ORDERS.**—(1) A State or

local government may not prescribe, issue, or continue in effect a law, regulation, standard, or order that is inconsistent with regulations prescribed under this section. However, a regulation prescribed under this section does not preempt a State criminal law that imposes sanctions for reckless conduct leading to loss of life, injury, or damage to property.

(2) In prescribing regulations under this section, the Secretary of Transportation—

(A) shall establish only requirements that are consistent with international obligations of the United States; and

(B) shall consider applicable laws and regulations of foreign countries.

(g) **INELIGIBILITY FOR ASSISTANCE.**—A person is not eligible for financial assistance under section 5307, 5309, or 5311 of this title if the person is required, under regulations the Secretary of Transportation prescribes under this section, to establish a program of alcohol and controlled substances testing and does not establish the program.

(a) PREVAILING WAGES REQUIREMENT.—The Secretary of Transportation shall ensure that laborers and mechanics employed by contractors and subcontractors in construction work financed with a grant or loan under this chapter be paid wages not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor under sections 3141-3144, 3146, and 3147 of title 40. The Secretary of Transportation may approve a grant or loan only after being assured that required labor standards will be maintained on the construction work. For a labor standard under this subsection, the Secretary of Labor has the same duties and powers stated in Reorganization Plan No. 14 of 1950 (eff. May 24, 1950, 64 Stat. 1267) and section 3145 of title 40.

(b) EMPLOYEE PROTECTIVE ARRANGEMENTS.—(1) As a condition of financial assistance under sections 5307-5312, 5316, 5318, 5323(a)(1), 5323(b), 5323(d), 5328, 5337, and 5338(b) of this title, the interests of employees affected by the assistance shall be protected under arrangements the Secretary of Labor concludes are fair and equitable. The agreement granting the assistance under sections 5307-5312, 5316, 5318, 5323(a)(1), 5323(b), 5323(d), 5328, 5337, and 5338(b) shall specify the arrangements.

(2) Arrangements under this subsection shall include provisions that may be necessary for—

(A) the preservation of rights, privileges, and benefits (including continuation of pension rights and benefits) under existing collective bargaining agreements or otherwise;

(B) the continuation of collective bargaining rights;

(C) the protection of individual employees against a worsening of their positions related to employment;

(D) assurances of employment to employees of acquired public transportation systems;

(E) assurances of priority of reemployment of employees whose employment is ended or who are laid off; and

(F) paid training or retraining programs.

(3) Arrangements under this subsection shall provide benefits at least equal to benefits established under section 11326 of this title.

(4) Fair and equitable arrangements to protect the interests of employees utilized by the Secretary of Labor for assistance to purchase like-kind equipment or facilities, and grant amend-

ments which do not materially revise or amend existing assistance agreements, shall be certified without referral.

(5) When the Secretary is called upon to issue fair and equitable determinations involving assurances of employment when one private transit bus service contractor replaces another through competitive bidding, such decisions shall be based on the principles set forth in the Department of Labor's decision of September 21, 1994, as clarified by the supplemental ruling of November 7, 1994, with respect to grant NV-90-X021. This paragraph shall not serve as a basis for objections under section 215.3(d) of title 29, Code of Federal Regulations.

§ 5334. Administrative provisions

(a) GENERAL AUTHORITY.—In carrying out this chapter, the Secretary of Transportation may—

(1) prescribe terms for a project under sections 5307 and 5309-5311 of this title (except terms the Secretary of Labor prescribes under section 5333(b) of this title);

(2) sue and be sued;

(3) foreclose on property or bring a civil action to protect or enforce a right conferred on the Secretary of Transportation by law or agreement;

(4) buy property related to a loan under this chapter;

(5) agree to pay an annual amount in place of a State or local tax on real property acquired or owned under this chapter;

(6) sell, exchange, or lease property, a security, or an obligation;

(7) obtain loss insurance for property and assets the Secretary of Transportation holds;

(8) consent to a modification in an agreement under this chapter;

(9) include in an agreement or instrument under this chapter a covenant or term the Secretary of Transportation considers necessary to carry out this chapter;

(10) collect fees to cover the costs of training or conferences, including costs of promotional materials, sponsored by the Federal Transit Administration to promote public transportation and credit amounts collected to the appropriation concerned; and

(11) issue regulations as necessary to carry out the purposes of this chapter.

(b) PROHIBITIONS AGAINST REGULATING OPERATIONS AND CHARGES.—

(1) IN GENERAL.—Except for purposes of national defense or in the event of a national or regional emergency, the Secretary may not regulate the operation, routes, or schedules of a public transportation system for which a grant is made under this chapter, nor may the Secretary regulate the rates, fares, tolls, rentals, or other charges prescribed by any provider of public transportation.

(2) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to prevent the Secretary from requiring a recipient of funds under this chapter to comply with the terms and conditions of its Federal assistance agreement.

(c) PROCEDURES FOR PRESCRIBING REGULATIONS.—(1) The Secretary of Transportation shall prepare an agenda listing all areas in which the Secretary intends to propose regula-

tions governing activities under this chapter within the following 12 months. The Secretary shall publish the proposed agenda in the Federal Register as part of the Secretary's semiannual regulatory agenda that lists regulatory activities of the Federal Transit Administration. The Secretary shall submit the agenda to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and Appropriations of the Senate on the day the agenda is published.

(2) Except for emergency regulations, the Secretary of Transportation shall give interested parties at least 60 days to participate in a regulatory proceeding under this chapter by submitting written information, views, or arguments, with or without an oral presentation, except when the Secretary for good cause finds that public notice and comment are unnecessary because of the routine nature or insignificant impact of the regulation or that an emergency regulation should be issued. The Secretary may extend the 60-day period if the Secretary decides the period is insufficient to allow diligent individuals to prepare comments or that other circumstances justify an extension.

(3) An emergency regulation ends 120 days after it is issued.

(4) The Secretary of Transportation shall comply with this section (except subsection (i)) and sections 5318(e), 5323(a)(2), 5325(a), 5325(b), and 5325(f) when proposing or carrying out a regulation governing an activity under this chapter, except for a routine matter or a matter with no significant impact.

(d) BUDGET PROGRAM AND SET OF ACCOUNTS.—The Secretary of Transportation shall—

(1) submit each year a budget program as provided in section 9103 of title 31; and

(2) maintain a set of accounts for audit under chapter 35 of title 31.

(e) DEPOSITORY AND AVAILABILITY OF AMOUNTS.—The Secretary of Transportation shall deposit amounts made available to the Secretary under this chapter in a checking account in the Treasury. Receipts, assets, and amounts obtained or held by the Secretary to carry out this chapter are available for administrative expenses to carry out this chapter.

(f) BINDING EFFECT OF FINANCIAL TRANSACTION.—A financial transaction of the Secretary of Transportation under this chapter and a related voucher are binding on all officers and employees of the United States Government.

(g) DEALING WITH ACQUIRED PROPERTY.—Notwithstanding another law related to the Government acquiring, using, or disposing of real property, the Secretary of Transportation may deal with property acquired under subsection (a)(3) or (4) of this section in any way. However, this subsection does not—

(1) deprive a State or political subdivision of a State of jurisdiction of the property; or

(2) impair the civil rights, under the laws of a State or political subdivision of a State, of an inhabitant of the property.

(h) TRANSFER OF ASSETS NO LONGER NEEDED.—

(1) If a recipient of assistance under this chapter decides an asset acquired under this chapter at

least in part with that assistance is no longer needed for the purpose for which it was acquired, the Secretary of Transportation may authorize the recipient to transfer the asset to a local governmental authority to be used for a public purpose with no further obligation to the Government. The Secretary may authorize a transfer for a public purpose other than public transportation only if the Secretary decides—

(A) the asset will remain in public use for at least 5 years after the date the asset is transferred;

(B) there is no purpose eligible for assistance under this chapter for which the asset should be used;

(C) the overall benefit of allowing the transfer is greater than the interest of the Government in liquidation and return of the financial interest of the Government in the asset, after considering fair market value and other factors; and

(D) through an appropriate screening or survey process, that there is no interest in acquiring the asset for Government use if the asset is a facility or land.

(2) A decision under paragraph (1) of this section must be in writing and include the reason for the decision.

(3) This subsection is in addition to another law related to using and disposing of a facility or equipment under an assistance agreement.

(4) PROCEEDS FROM THE SALE OF TRANSIT ASSETS.—

(A) IN GENERAL.—When real property, equipment, or supplies acquired with assistance under this chapter are no longer needed for public transportation purposes as determined under the applicable assistance agreement, the Secretary may authorize the sale, transfer, or lease of the assets under conditions determined by the Secretary and subject to the requirements of this subsection.

(B) USE.—The net income from asset sales, uses, or leases (including lease renewals) under this subsection shall be used by the recipient to reduce the gross project cost of other capital projects carried out under this chapter.

(C) RELATIONSHIP TO OTHER AUTHORITY.—The authority of the Secretary under this subsection is in addition to existing authorities controlling allocation or use of recipient income otherwise permissible in law or regulation in effect prior to the date of enactment of this paragraph.

(i) TRANSFER OF AMOUNTS AND NON-GOVERNMENT SHARE.—(1) Amounts made available for a public transportation project under title 23 shall be transferred to and administered by the Secretary of Transportation under this chapter. Amounts made available for a highway project under this chapter shall be transferred to and administered by the Secretary under title 23.

(2) The provisions of title 23 related to the non-Government share apply to amounts under title 23 used for public transportation projects. The provisions of this chapter related to the non-Government share apply to amounts under this chapter used for highway projects.

(j) RELATIONSHIP TO OTHER LAWS.—(1) Section 9107(a) of title 31 applies to the Secretary of Transportation under this chapter.

(2) Section 6101(b) to (d) of title 41 applies to a contract for more than \$1,000 for services or supplies related to property acquired under this chapter.

(k) NOTIFICATION OF PENDING DISCRETIONARY GRANTS.—Not less than 3 full business days before announcement of award by the Secretary of any discretionary grant, letter of intent, or full funding grant agreement totaling \$1,000,000 or more, the Secretary shall notify the Committees on Banking, Housing, and Urban Affairs and Appropriations of the Senate and Committees on Transportation and Infrastructure and Appropriations of the House of Representatives.

(l) AGENCY STATEMENTS.—

(1) IN GENERAL.—The Administrator of the Federal Transit Administration shall follow applicable rulemaking procedures under section 553 of title 5 before the Federal Transit Administration issues a statement that imposes a binding obligation on recipients of Federal assistance under this chapter.

(2) BINDING OBLIGATION DEFINED.—In this subsection, the term “binding obligation” means a substantive policy statement, rule, or guidance document issued by the Federal Transit Administration that grants rights, imposes obligations, produces significant effects on private interests, or effects a significant change in existing policy.

5334(j)(2)	49 App.:1608(a) (1st sentence related to 12:1749a(d)).	

In subsections (c)–(f), and (j), the relevant substantive provisions of 12:1749a are substituted for “shall . . . have the functions, powers, and duties set forth in section 1749a of title 12, except subsections (c)(2) and (f) of such section” for clarity. The reference to subsection (c)(2) is omitted as obsolete because section 201(d)(1) of the Housing and Community Development Technical Amendments Act of 1984 (Public Law 98–479, 98 Stat. 2228) repealed 12:1749a(c)(2). The words “(in addition to any authority otherwise vested in him)” are omitted as surplus.

In subsection (a), the text of 49 App.:1608(a) (1st sentence related to 12:1749a(c)(8)) is omitted as obsolete. Before clause (1), the words “carrying out this chapter” are substituted for “the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter” to eliminate unnecessary words. In clause (1), the words “(except terms the Secretary of Labor prescribes under section 5333(b) of this title)” are added for clarity because 49 App.:1608(a) only applies to the Secretary of Transportation and does not supersede the responsibility of the Secretary of Labor. In clause (3), the word “civil” is added for clarity. The words “contract, or other” are omitted as surplus. In clause (4), the words “bid for and . . . at any foreclosure or any other sale” are omitted as surplus. In clause (6), the words “at public or private sale”, “real or personal”, and “upon such terms as he may fix” are omitted as surplus. Clause (8) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(c)(7)) to eliminate unnecessary words. In clause (9), the word “provisions” is omitted as surplus. The words “carry out this chapter” are substituted for “assure that the purposes of this subchapter will be achieved” to eliminate unnecessary words.

In subsection (b), the words “regulatory” and “regulatory proceeding” are substituted for “rulemaking” for consistency in the revised title and because “rule” and “regulation” are synonymous.

In subsection (b)(1), the words “Federal Transit Administration” are substituted for “Urban Mass Transportation Administration” because of section 3004(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240, 105 Stat. 2088). The words “also” and “required by the first sentence of this paragraph” are omitted as surplus.

In subsection (c), before clause (1), the words “In the performance of, and with respect to, the functions, powers, and duties vested in him by this subchapter . . . notwithstanding the provisions of any other law” are omitted as surplus. In clause (1), the words “prepare . . . and” and “for wholly owned Government corporations” are omitted as surplus.

Subsection (d) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(b) and last sentence) to eliminate unnecessary words.

In subsection (e), the words “such . . . as the making of loans” are omitted as surplus. The words “under this chapter” are added for clarity. The word “related” is substituted for “in connection with such financial transactions” to eliminate unnecessary words. The words “approved by the Secretary” are omitted as surplus. The word “binding” is substituted for “final and conclusive” to eliminate unnecessary words. The words “and employees” are added for consistency in the revised title and with other titles of the United States Code.

In subsection (f), before clause (1), the words “in any way” are substituted for “complete, administer, remodel and convert, dispose of, lease and otherwise” to eliminate unnecessary words. In clause (1), the words “civil or criminal” are omitted as surplus. In clause (2), the words “political subdivision of a State” are substituted for “local” for consistency.

In subsection (g)(1), before clause (A), the words “facilities and equipment and other”, “(including land)”, and “first” are omitted as surplus.

In subsection (g)(3), the words “and not in lieu of” are omitted as surplus.

Subsection (i) is substituted for section 1(a)(1) (related to authority and functions reserved to Secretary of Housing and Urban Development) of Reorganization Plan No. 2 of 1968 to eliminate unnecessary words. The reference to 49 App.:1602(c)(1) is translated as a reference to 49 App.:1602(e)(1) because section 2(1) of the Urban Mass Transportation Assistance Act of 1970 (Public Law 91-453, 84 Stat. 962) redesignated subsection (c) as subsection (e). The references to 49 App.:1603(a) (1st sentence), 1604, and 1607c(b) and former 49 App.:1607a are omitted as obsolete because of section 103(a) of the National Mass Transportation Act of 1974 (Public Law 93-503, 88 Stat. 1567) and sections 303(b), 305(a), and 307 of the Federal Public Transportation Act of 1978 (Public Law 95-599, 92 Stat. 2737, 2743, 2747). Reference to 49 App.:1607c(c) is omitted because it was enacted after the Reorganization Plan and was not intended to be within the scope of the Plan.

Subsection (j)(1) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(e)) to eliminate unnecessary words.

(a) BASED ON URBANIZED AREA POPULATION.—Of the amount apportioned under subsection (i)(2) to carry out section 5307—

(1) 9.32 percent shall be apportioned each fiscal year only in urbanized areas with a population of less than 200,000 so that each of those areas is entitled to receive an amount equal to—

(A) 50 percent of the total amount apportioned multiplied by a ratio equal to the population of the area divided by the total population of all urbanized areas with populations of less than 200,000 as shown in the latest United States Government census; and

(B) 50 percent of the total amount apportioned multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary of Transportation, of the number of inhabitants in each square mile; and

(2) 90.68 percent shall be apportioned each fiscal year only in urbanized areas with populations of at least 200,000 as provided in subsections (b) and (c) of this section, except that the amount apportioned to the Anchorage urbanized area under subsection (b) shall be available to the Alaska Railroad for any costs related to its passenger operations.

(b) BASED ON FIXED GUIDEWAY REVENUE VEHICLE-MILES, ROUTE-MILES, AND PASSENGER-MILES.—(1) In this subsection, “fixed guideway revenue vehicle-miles” and “fixed guideway route-miles” include ferry boat operations directly or under contract by the designated recipient and, beginning in fiscal year 2006, 60 percent of the directional route miles attributable to the Alaska Railroad passenger operations.

(2) Of the amount apportioned under subsection (a)(2) of this section, 33.29 percent shall be apportioned as follows:

(A) 95.61 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 is entitled to receive an amount equal to—

(i) 60 percent of the 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway revenue vehicle-miles attributable to the area, as established by the Secretary of Transportation, divided by the total number of all fixed guideway revenue vehicle-miles attributable to all areas; and

(ii) 40 percent of the 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway route-miles attributable to the area, established by the Secretary, divided by the total number of all fixed guideway route-miles attributable to all areas.

An urbanized area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least .75 percent of the total amount apportioned under this subparagraph.

(B) 4.39 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 is entitled to receive an amount equal to—

(i) the number of fixed guideway vehicle passenger-miles traveled multiplied by the number of fixed guideway vehicle passenger-miles traveled for each dollar of operating cost in an area; divided by

An urbanized area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least .75 percent of the total amount apportioned under this subparagraph.

(C) Under subparagraph (A) of this paragraph, fixed guideway revenue vehicle- or route-miles, and passengers served on those miles, in an urbanized area with a population of less than 200,000, where the miles and passengers served otherwise would be attributable to an urbanized area with a population of at least 1,000,000 in an adjacent State, are attributable to the governmental authority in the State in which the urbanized area with a population of less than 200,000 is located. The authority is deemed an urbanized area with a population of at least 200,000 if the authority makes a contract for the service.

(D) A recipient's apportionment under subparagraph (A)(i) of this paragraph may not be reduced if the recipient, after satisfying the Secretary of Transportation that energy or operating efficiencies would be achieved, reduces revenue vehicle-miles but provides the same frequency of revenue service to the same number of riders.

(c) **BASED ON BUS REVENUE VEHICLE-MILES AND PASSENGER-MILES.**—Of the amount apportioned under subsection (a)(2) of this section, 66.71 percent shall be apportioned as follows:

(B) 26.61 percent of the 90.8 percent apportioned under this paragraph shall be apportioned so that each urbanized area with a population of at least 200,000 but not more than 999,999 is entitled to receive an amount equal to—

(i) 50 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio equal to the total bus revenue vehicle-miles operated in or directly serving the urbanized area divided by the total bus revenue vehicle-miles attributable to all areas;

(ii) 25 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as shown by the latest Government census; and

(iii) 25 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary of Transportation, of the number of inhabitants in each square mile.

§ 5340. Apportionments based on growing States and high density States formula factors

(a) DEFINITION.—In this section, the term “State” shall mean each of the 50 States of the United States.

(b) ALLOCATION.—Of the amounts made available for each fiscal year under section 5338(b)(2)(M), the Secretary shall apportion—

- (1) 50 percent to States and urbanized areas in accordance with subsection (c); and
- (2) 50 percent to States and urbanized areas in accordance with subsection (d).

(c) GROWING STATE APPORTIONMENTS.—

(1) APPORTIONMENT AMONG STATES.—The amounts apportioned under subsection (b)(1) shall provide each State with an amount equal

to the total amount apportioned multiplied by a ratio equal to the population of that State forecast for the year that is 15 years after the most recent decennial census, divided by the total population of all States forecast for the year that is 15 years after the most recent decennial census. Such forecast shall be based on the population trend for each State between the most recent decennial census and the most recent estimate of population made by the Secretary of Commerce.

(2) APPORTIONMENTS BETWEEN URBANIZED AREAS AND OTHER THAN URBANIZED AREAS IN EACH STATE.—

(A) IN GENERAL.—The Secretary shall apportion amounts to each State under paragraph (1) so that urbanized areas in that State receive an amount equal to the amount apportioned to that State multiplied by a ratio equal to the sum of the forecast population of all urbanized areas in that State divided by the total forecast population of that State. In making the apportionment under this subparagraph, the Secretary shall utilize any available forecasts made by the State. If no forecasts are available, the Secretary shall utilize data on urbanized areas and total population from the most recent decennial census.

(B) REMAINING AMOUNTS.—Amounts remaining for each State after apportionment under subparagraph (A) shall be apportioned to that State and added to the amount made available for grants under section 5311.

(3) APPORTIONMENTS AMONG URBANIZED AREAS IN EACH STATE.—The Secretary shall apportion amounts made available to urbanized areas in each State under paragraph (2)(A) so that each urbanized area receives an amount equal to the amount apportioned under paragraph (2)(A) multiplied by a ratio equal to the population of each urbanized area divided by the sum of populations of all urbanized areas in the State. Amounts apportioned to each urbanized area shall be added to amounts apportioned to that urbanized area under section 5336, and made available for grants under section 5307.

(d) HIGH DENSITY STATE APPORTIONMENTS.—Amounts to be apportioned under subsection (b)(2) shall be apportioned as follows:

(1) ELIGIBLE STATES.—The Secretary shall designate as eligible for an apportionment under this subsection all States with a population density in excess of 370 persons per square mile.

(2) STATE URBANIZED LAND FACTOR.—For each State qualifying for an apportionment under paragraph (1), the Secretary shall calculate an amount equal to—

(A) the total land area of the State (in square miles); multiplied by

(B) 370; multiplied by

(C)(i) the population of the State in urbanized areas; divided by

(ii) the total population of the State.

(3) STATE APPORTIONMENT FACTOR.—For each State qualifying for an apportionment under paragraph (1), the Secretary shall calculate an amount equal to the difference between the

total population of the State less the amount calculated in paragraph (2).

(4) STATE APPORTIONMENT.—Each State qualifying for an apportionment under paragraph (1) shall receive an amount equal to the amount to be apportioned under this subsection multiplied by the amount calculated for the State under paragraph (3) divided by the sum of the amounts calculated under paragraph (3) for all States qualifying for an apportionment under paragraph (1).

(5) APPORTIONMENTS AMONG URBANIZED AREAS IN EACH STATE.—The Secretary shall apportion amounts made available to each State under paragraph (4) so that each urbanized area receives an amount equal to the amount apportioned under paragraph (4) multiplied by a ratio equal to the population of each urbanized area divided by the sum of populations of all urbanized areas in the State. Amounts apportioned to each urbanized area shall be added to amounts apportioned to that urbanized area under section 5336, and made available for grants under section 5307.

SUBCHAPTER I—GENERAL

§ 5501. National Intermodal Transportation System policy

(a) GENERAL.—It is the policy of the United States Government to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the United States to compete in the global economy, and will move

individuals and property in an energy efficient way.

(b) SYSTEM CHARACTERISTICS.—(1) The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the United States' preeminent position in international commerce.

(2) The National Intermodal Transportation System shall include a National Highway System consisting of the Dwight D. Eisenhower System of Interstate and Defense Highways and those principal arterial roads that are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

(3) The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals in urban and rural areas of the United States.

(4) The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation's link to commerce.

(5) The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion, and other aspects of the quality of life in the United States.

(6) The National Intermodal Transportation System must be operated and maintained with insistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly costly construction of the Dwight D. Eisenhower System of Interstate and Defense Highways must be confronted and stopped.

(7) The National Intermodal Transportation System shall be adapted to "intelligent vehicles", "magnetic levitation systems", and other new technologies, wherever feasible and economical, with benefit cost estimates given special emphasis on safety considerations and techniques for cost allocation.

(8) When appropriate, the National Intermodal Transportation System will be financed, as regards Government apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help carry out national goals related to mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals.

(9) The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the United States for the 21st century.

(c) DISTRIBUTION AND POSTING.—The Secretary of Transportation shall distribute copies of the

policy in subsections (a) and (b) of this section to each employee of the Department of Transportation and ensure that the policy is posted in all offices of the Department.

5901(6)	49:501(a)(8).	
5901(7)	49:501(a)(9).	

This chapter restates 49:508 and the relevant definitions in 49:501 because the subject matter more appropriately belongs in subtitle III of title 49. The text of 49:501(a)(1) is restated to incorporate the definitions in 49:10102. The terms defined in 49:501(a)(2) and (3) are not used in this chapter.

In clause (2), the word “including” is substituted for “For purposes of this paragraph . . . shall be treated as a beneficial owner of such property” for consistency and to eliminate unnecessary words. The words “is not a beneficial owner only because of providing or arranging for any part of the intermodal transportation of property” are substituted for “providing or arranging for any portion of intermodal transportation of property shall in no case be a beneficial owner of such property, for purposes of this paragraph, solely by reason of providing or arranging for such transportation” to eliminate unnecessary words.

In clause (3)(A), the words “(as such terms are defined in section 10102 of this title)” are omitted as unnecessary because of clause (1) of this section.

In clause (7), the words “property-carrying” are substituted for “cargo carrying” for consistency in the revised title.

AMENDMENTS

2006—Par. (3)(B). Pub. L. 109–304 substituted “section 40102 of title 46” for “section 3 of the Shipping Act of 1984 (46 App. U.S.C. 1702)”.

1996—Par. (1). Pub. L. 104–291, §203(1), added par. (1) and struck out former par. (1) which read as follows: “the definitions in section 10102 of this title apply.”

Pars. (6) to (8). Pub. L. 104–291, §203(2), (3), added par. (6) and redesignated former pars. (6) and (7) as (7) and (8), respectively.

§ 5902. Notifications and certifications

(a) PRIOR NOTIFICATION.—If the first carrier to which any loaded container or trailer having a projected gross cargo weight of more than 29,000 pounds is tendered for intermodal transportation is a motor carrier, the person tendering the container or trailer shall give the motor carrier a notification of the gross cargo weight and a reasonable description of the contents of the container or trailer before the tendering of the container or trailer. The notification may be transmitted electronically or by telephone. This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier.

(b) CERTIFICATION.—

(1) IN GENERAL.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

(2) CONTENTS OF CERTIFICATION.—The certification required by paragraph (1) shall include—

- (A) the actual gross cargo weight;
- (B) a reasonable description of the contents of the container or trailer;
- (C) the identity of the certifying party;
- (D) the container or trailer number; and
- (E) the date of certification or transfer of data to another document, as provided for in paragraph (3).

(3) TRANSFER OF CERTIFICATION DATA.—A carrier who receives a certification may transfer the information contained in the certification to another document or to electronic format for forwarding to a subsequent carrier. The person transferring the information shall state on the forwarded document the date on which the data was transferred and the identity of the party who performed the transfer.

(4) SHIPPING DOCUMENTS.—For purposes of this chapter, a shipping document, prepared by the person who tenders a container or trailer to a first carrier, that contains the information required by paragraph (2) meets the requirements of paragraph (1).

(5) USE OF “FREIGHT ALL KINDS” TERM.—The term “Freight All Kinds” or “FAK” may not be used for the purpose of certification under section 5902(b) after December 31, 2000, as a commodity description for a trailer or container if the weight of any commodity in the trailer or container equals or exceeds 20 percent of the total weight of the contents of the trailer or container. This subsection does not

prohibit the use of the term after that date for rating purposes.

(6) SEPARATE DOCUMENT MARKING.—If a separate document is used to meet the requirements of paragraph (1), it shall be conspicuously marked “INTERMODAL CERTIFICATION”.

(7) APPLICABILITY.—This subsection applies to any person, domestic or foreign, who first tenders a container or trailer subject to this chapter for intermodal transportation within the United States.

(c) FORWARDING CERTIFICATIONS TO SUBSEQUENT CARRIERS.—A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator shall forward the certification provided under subsection (b) of this section to a subsequent carrier transporting the container or trailer in intermodal transportation before or when the loaded intermodal container or trailer is tendered to the subsequent carrier. If no certification is received by the subsequent carrier before or when the container or trailer is tendered to it, the subsequent carrier may presume that no certification is required. The act of forwarding the certification may not be construed as a verification or affirmation of the accuracy or completeness of the information in the certification. If a person inaccurately transfers the information on the certification, or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest for any such fine, penalty, cost (including storage), or interest incurred as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure.

(d) LIABILITY TO OWNER OR BENEFICIAL OWNER.—If—

(1) a person inaccurately transfers information on a certification required by subsection (b)(1), or fails to forward a certification to the subsequent carrier;

(2) as a result of the inaccurate transfer of such information or a failure to forward a certification, the subsequent carrier incurs a bond, fine, penalty, or cost (including storage), or interest; and

(3) that subsequent carrier exercises its rights to a lien under section 5905,

then that person is liable to the owner or beneficial owner, or to any other person paying the amount of the lien to the subsequent carrier, for the amount of the lien and all costs related to the imposition of the lien, including court costs and legal fees incurred in connection with it.

(e) NONAPPLICATION.—(1) The notification and certification requirements of subsections (a) and (b) of this section do not apply to any intermodal container or trailer containing consoli-

dated shipments loaded by a motor carrier if that motor carrier—

(A) performs the highway portion of the intermodal movement; or

(B) assumes the responsibility for any weight-related fine or penalty incurred by any other motor carrier that performs a part of the highway transportation.

(2) Subsections (a) and (b) of this section and section 5903(c) of this title do not apply to a carrier when the carrier is transferring a loaded container or trailer to another carrier during intermodal transportation, unless the carrier is also the person tendering the loaded container or trailer to the first carrier.

(3) A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator is deemed not to be a person tendering a loaded container or trailer to a first carrier under this section, unless the carrier, agent, broker, customs broker, freight forwarder, warehouse, or terminal operator assumes legal responsibility for loading property into the container or trailer.

(1) PRESUMPTION.—If no certification is received by a motor carrier before or when a loaded intermodal container or trailer is tendered to it, the motor carrier may presume that the gross cargo weight of the container or trailer is less than 29,001 pounds.

(2) COPY OF CERTIFICATION NOT REQUIRED TO ACCOMPANY CONTAINER OR TRAILER.—Notwithstanding any other provision of this chapter to the contrary, a copy of the certification required by section 5902(b) is not required to accompany the intermodal container or trailer.

(c) UNLAWFUL COERCION.—(1) A person may not coerce or attempt to coerce a person participating in intermodal transportation to transport a loaded container or trailer having an actual gross cargo weight of more than 29,000 pounds before the certification required by section 5902(b) of this title is provided.

(2) A person, knowing that the weight of a loaded container or trailer or the weight of a tractor-trailer combination carrying the container or trailer is more than the weight allowed by applicable State law, may not coerce or attempt to coerce a carrier to transport the container or trailer or to operate the tractor-trailer combination in violation of that State law.

(d) NOTICE TO LEASED OPERATORS.—

(1) IN GENERAL.—If a motor carrier knows that the gross cargo weight of an intermodal container or trailer subject to the certifi-

cation requirements of section 5902(b) would result in a violation of applicable State gross vehicle weight laws, then—

(A) the motor carrier shall give notice to the operator of a vehicle which is leased by the vehicle operator to a motor carrier that transports an intermodal container or trailer of the gross cargo weight of the container or trailer as certified to the motor carrier under section 5902(b);

(B) the notice shall be provided to the operator prior to the operator being tendered the container or trailer;

(C) the notice required by this subsection shall be in writing, but may be transmitted electronically; and

(D) the motor carrier shall bear the burden of proof to establish that it tendered the required notice to the operator.

(2) REIMBURSEMENT.—If the operator of a leased vehicle transporting a container or trailer subject to this chapter is fined because of a violation of a State’s gross vehicle weight laws or regulations and the lessee motor carrier cannot establish that it tendered to the operator the notice required by paragraph (1) of this subsection, then the operator shall be entitled to reimbursement from the motor carrier in the amount of any fine and court costs resulting from the failure of the motor carrier to tender the notice to the operator.

§ 5904. State enforcement

(a) GENERAL.—A State may enact a law to permit the State or a political subdivision of the State—

(1) to impose a fine or penalty, for a violation of a State highway weight law or regulation by a tractor-trailer combination carrying a loaded container or trailer for which a certification is required by section 5902(b) of this title, against the person tendering the loaded container or trailer to the first carrier if the violation results from the person's having provided erroneous information in the certification in violation of section 5903(a) of this title; and

(2) to impound the container or trailer until the fine or penalty has been paid by the owner or beneficial owner of the contents of the container or trailer or the person tendering the loaded container or trailer to the first carrier.

(b) LIMITATION.—This chapter does not require a person tendering a loaded container or trailer to a first carrier to ensure that the first carrier or any other carrier involved in the intermodal transportation will comply with any State highway weight law or regulation, other than as required by this chapter.

§ 5905. Liens

(a) GENERAL.—If a person involved in the intermodal transportation of a loaded container or trailer for which a certification is required by section 5902(b) of this title is required, because of a violation of a State's gross vehicle weight laws or regulations, to post a bond or pay a fine, penalty, cost (including storage), or interest resulting from—

(1) erroneous information provided by the certifying party in the certification to the first carrier in violation of section 5903(a) of this title;

(b) LIMITATIONS.—(1) A lien under this section does not authorize a person to dispose of the contents of a loaded container or trailer until the person who tendered the container or trailer to the first carrier, or the owner or beneficial owner of the contents, is given a reasonable opportunity to establish responsibility for the bond, fine, penalty, cost (including storage), or interest. The lien shall remain in effect until the lien holder has received payment for all costs and expenses described in subsection (a) of this section.

(2) In this section, an owner or beneficial owner of the contents of a container or trailer or a person tendering a container or trailer to the first carrier is deemed not to be a person involved in the intermodal transportation of the container or trailer.

CONGRESSIONAL FINDINGS

Pub. L. 105-178, title VII, §7301, June 9, 1998, 112 Stat. 477, provided that: “Congress finds that—

“(1) unintentional damage to underground facilities during excavation is a significant cause of disruptions in telecommunications, water supply, electric power, and other vital public services, such as hospital and air traffic control operations, and is a leading cause of natural gas and hazardous liquid pipeline accidents;

“(2) excavation that is performed without prior notification to an underground facility operator or with inaccurate or untimely marking of such a facility prior to excavation can cause damage that results in fatalities, serious injuries, harm to the environment and disruption of vital services to the public; and

“(3) protection of the public and the environment from the consequences of underground facility dam-

age caused by excavations will be enhanced by a coordinated national effort to improve one-call notification programs in each State and the effectiveness and efficiency of one-call notification systems that operate under such programs.”

§ 6102. Definitions

In this chapter, the following definitions apply:

(1) ONE-CALL NOTIFICATION SYSTEM.—The term “one-call notification system” means a system operated by an organization that has as 1 of its purposes to receive notification from excavators of intended excavation in a specified area in order to disseminate such notification to underground facility operators that are members of the system so that such operators can locate and mark their facilities in order to prevent damage to underground facilities in the course of such excavation.

(2) STATE ONE-CALL NOTIFICATION PROGRAM.—The term “State one-call notification program” means the State statutes, regulations, orders, judicial decisions, and other elements of law and policy in effect in a State that establish the requirements for the operation of one-call notification systems in such State.

(3) STATE.—The term “State” means a State, the District of Columbia, and Puerto Rico.

(4) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

(Added Pub. L. 105-178, title VII, § 7302(a), June 9, 1998, 112 Stat. 478.)

(1) appropriate participation by all underground facility operators, including all government operators;

(2) appropriate participation by all excavators, including all government and contract excavators; and

(3) flexible and effective enforcement under State law with respect to participation in, and use of, one-call notification systems.

(b) APPROPRIATE PARTICIPATION.—In determining the appropriate extent of participation required for types of underground facilities or excavators under subsection (a), a State shall assess, rank, and take into consideration the risks to the public safety, the environment, excavators, and vital public services associated with—

(1) damage to types of underground facilities; and

(2) activities of types of excavators.

(c) IMPLEMENTATION.—A State one-call notification program also shall, at a minimum, provide for and document—

(1) consideration of the ranking of risks under subsection (b) in the enforcement of its provisions;

(2) a reasonable relationship between the benefits of one-call notification and the cost of implementing and complying with the require-

ments of the State one-call notification program; and

(3) voluntary participation where the State determines that a type of underground facility or an activity of a type of excavator poses a de minimis risk to public safety or the environment.

(d) PENALTIES.—To the extent the State determines appropriate and necessary to achieve the purposes of this chapter, a State one-call notification program shall, at a minimum, provide for—

(1) administrative or civil penalties commensurate with the seriousness of a violation by an excavator or facility owner of a State one-call notification program;

(2) increased penalties for parties that repeatedly damage underground facilities because they fail to use one-call notification systems or for parties that repeatedly fail to provide timely and accurate marking after the required call has been made to a one-call notification system;

(3) reduced or waived penalties for a violation of a requirement of a State one-call notification program that results in, or could result in, damage that is promptly reported by the violator;

(4) equitable relief; and

(5) citation of violations.

(Added Pub. L. 105-178, title VII, § 7302(a), June 9, 1998, 112 Stat. 479; amended Pub. L. 107-355, § 2(a), Dec. 17, 2002, 116 Stat. 2985.)

(3) In order to expedite compliance under this section, the Secretary may consult with the State as to whether an existing State one-call notification program, a specific modification thereof, or a proposed State program would result in a positive determination under paragraph (2).

(4) The Secretary shall prescribe the form and manner of filing an application under this section that shall provide sufficient information about a State's one-call notification program for the Secretary to evaluate its overall effectiveness. Such information may include the nature and reasons for exceptions from required participation, the types of enforcement available, and such other information as the Secretary deems necessary.

(5) The application of a State under paragraph (1) and the record of actions of the Secretary under this section shall be available to the public.

(c) ALTERNATIVE PROGRAM.—A State is eligible to receive a grant under section 6106 if the State maintains an alternative one-call notification program that provides protection for public safety, excavators, and the environment that is equivalent to, or greater than, protection provided under a program that meets the minimum standards set forth in section 6103.

(d) REPORT.—The Secretary shall include the following information in reports submitted under section 60124 of this title—

(1) a description of the extent to which each State has adopted and implemented the minimum Federal standards under section 6103 or maintains an alternative program under subsection (c);

PART A—RAIL

CHAPTER 101—GENERAL PROVISIONS

Sec.
10101. Rail transportation policy.
10102. Definitions.

§ 10101. Rail transportation policy

In regulating the railroad industry, it is the policy of the United States Government—

(1) to allow, to the maximum extent possible, competition and the demand for services to establish reasonable rates for transportation by rail;

(2) to minimize the need for Federal regulatory control over the rail transportation system and to require fair and expeditious regulatory decisions when regulation is required;

(3) to promote a safe and efficient rail transportation system by allowing rail carriers to earn adequate revenues, as determined by the Board;

(4) to ensure the development and continuation of a sound rail transportation system

with effective competition among rail carriers and with other modes, to meet the needs of the public and the national defense;

(5) to foster sound economic conditions in transportation and to ensure effective competition and coordination between rail carriers and other modes;

(6) to maintain reasonable rates where there is an absence of effective competition and where rail rates provide revenues which exceed the amount necessary to maintain the rail system and to attract capital;

(7) to reduce regulatory barriers to entry into and exit from the industry;

(8) to operate transportation facilities and equipment without detriment to the public health and safety;

(9) to encourage honest and efficient management of railroads;

(10) to require rail carriers, to the maximum extent practicable, to rely on individual rate increases, and to limit the use of increases of general applicability;

(11) to encourage fair wages and safe and suitable working conditions in the railroad industry;

(12) to prohibit predatory pricing and practices, to avoid undue concentrations of market power, and to prohibit unlawful discrimination;

(13) to ensure the availability of accurate cost information in regulatory proceedings, while minimizing the burden on rail carriers of developing and maintaining the capability of providing such information;

(14) to encourage and promote energy conservation; and

(15) to provide for the expeditious handling and resolution of all proceedings required or permitted to be brought under this part.

§ 10501. General jurisdiction

(a)(1) Subject to this chapter, the Board has jurisdiction over transportation by rail carrier that is—

(A) only by railroad; or

(B) by railroad and water, when the transportation is under common control, management, or arrangement for a continuous carriage or shipment.

(2) Jurisdiction under paragraph (1) applies only to transportation in the United States between a place in—

(A) a State and a place in the same or another State as part of the interstate rail network;

dustrial, team, switching, or side tracks, or facilities, even if the tracks are located, or intended to be located, entirely in one State,

(iii) employment, retirement, annuity, and unemployment systems or other provisions related to dealings between employees and employers.

(B) The Board has jurisdiction under sections 11102 and 11103 of this title over transportation provided by a local governmental authority only if the Board finds that such governmental authority meets all of the standards and requirements for being a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission that were in effect immediately before January 1, 1996. The enactment of the ICC Termination Act of 1995 shall neither expand nor contract coverage of employees and employers by the Railway Labor Act, the Railroad Retirement Act of 1974, the Railroad Retirement Tax Act, and the Railroad Unemployment Insurance Act.

ABOLITION OF INTERSTATE COMMERCE COMMISSION

Interstate Commerce Commission abolished by section 101 of Pub. L. 104-88, set out as a note under section 701 of this title.

§ 10502. Authority to exempt rail carrier transportation

(a) In a matter related to a rail carrier providing transportation subject to the jurisdiction of the Board under this part, the Board, to the maximum extent consistent with this part, shall exempt a person, class of persons, or a transaction or service whenever the Board finds that the application in whole or in part of a provision of this part—

(1) is not necessary to carry out the transportation policy of section 10101 of this title; and

(2) either—

(A) the transaction or service is of limited scope; or

(B) the application in whole or in part of the provision is not needed to protect shippers from the abuse of market power.

(b) The Board may, where appropriate, begin a proceeding under this section on its own initiative or on application by the Secretary of Transportation or an interested party. The Board shall, within 90 days after receipt of any such application, determine whether to begin an appropriate proceeding. If the Board decides not to begin a class exemption proceeding, the reasons for the decision shall be published in the Federal Register. Any proceeding begun as a result of an application under this subsection shall be completed within 9 months after it is begun.

(c) The Board may specify the period of time during which an exemption granted under this section is effective.

(d) The Board may revoke an exemption, to the extent it specifies, when it finds that application in whole or in part of a provision of this part to the person, class, or transportation is necessary to carry out the transportation policy of section 10101 of this title. The Board shall, within 90 days after receipt of a request for revocation under this subsection, determine whether to begin an appropriate proceeding. If the Board decides not to begin a proceeding to revoke a class exemption, the reasons for the decision shall be published in the Federal Register. Any proceeding begun as a result of a request under this subsection shall be completed within 9 months after it is begun.

(e) No exemption order issued pursuant to this section shall operate to relieve any rail carrier from an obligation to provide contractual terms for liability and claims which are consistent with the provisions of section 11706 of this title. Nothing in this subsection or section 11706 of this title shall prevent rail carriers from offering alternative terms nor give the Board the authority to require any specific level of rates or services based upon the provisions of section 11706 of this title.

(f) The Board may exercise its authority under this section to exempt transportation that is provided by a rail carrier as part of a continuous intermodal movement.

(g) The Board may not exercise its authority under this section to relieve a rail carrier of its obligation to protect the interests of employees as required by this part.

SUBCHAPTER I—GENERAL AUTHORITY

§ 10701. Standards for rates, classifications, through routes, rules, and practices

(a) A through route established by a rail carrier must be reasonable. Divisions of joint rates by rail carriers must be made without unreasonable discrimination against a participating carrier and must be reasonable.

(b) A rail carrier providing transportation subject to the jurisdiction of the Board under this part may not discriminate in its rates against a connecting line of another rail carrier providing transportation subject to the jurisdiction of the Board under this part or unreasonably discriminate against that line in the distribution of traffic that is not routed specifically by the shipper.

(c) Except as provided in subsection (d) of this section and unless a rate is prohibited by a provision of this part, a rail carrier providing transportation subject to the jurisdiction of the Board under this part may establish any rate for transportation or other service provided by the rail carrier.

(d)(1) If the Board determines, under section 10707 of this title, that a rail carrier has market dominance over the transportation to which a particular rate applies, the rate established by such carrier for such transportation must be reasonable.

(2) In determining whether a rate established by a rail carrier is reasonable for purposes of this section, the Board shall give due consideration to—

(A) the amount of traffic which is transported at revenues which do not contribute to going concern value and the efforts made to minimize such traffic;

(B) the amount of traffic which contributes only marginally to fixed costs and the extent to which, if any, rates on such traffic can be changed to maximize the revenues from such traffic; and

(C) the carrier's mix of rail traffic to determine whether one commodity is paying an unreasonable share of the carrier's overall revenues,

recognizing the policy of this part that rail carriers shall earn adequate revenues, as established by the Board under section 10704(a)(2) of this title.

(3) The Board shall, within one year after January 1, 1996, complete the pending Interstate Commerce Commission non-coal rate guidelines proceeding to establish a simplified and expedited method for determining the reasonableness of challenged rail rates in those cases in which a full stand-alone cost presentation is too costly, given the value of the case.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 809; amended Pub. L. 104-287, §5(22), Oct. 11, 1996, 110 Stat. 3390.)

§ 10704. Authority and criteria: rates, classifications, rules, and practices prescribed by Board

(a)(1) When the Board, after a full hearing, decides that a rate charged or collected by a rail carrier for transportation subject to the jurisdiction of the Board under this part, or that a classification, rule, or practice of that carrier, does or will violate this part, the Board may prescribe the maximum rate, classification, rule, or practice to be followed. The Board may order the carrier to stop the violation. When a rate, classification, rule, or practice is prescribed under this subsection, the affected carrier may not publish, charge, or collect a different rate and shall adopt the classification and observe the rule or practice prescribed by the Board.

(2) The Board shall maintain and revise as necessary standards and procedures for establishing revenue levels for rail carriers providing transportation subject to its jurisdiction under this part that are adequate, under honest, economi-

cal, and efficient management, to cover total operating expenses, including depreciation and obsolescence, plus a reasonable and economic profit or return (or both) on capital employed in the business. The Board shall make an adequate and continuing effort to assist those carriers in attaining revenue levels prescribed under this paragraph. Revenue levels established under this paragraph should—

(A) provide a flow of net income plus depreciation adequate to support prudent capital outlays, assure the repayment of a reasonable level of debt, permit the raising of needed equity capital, and cover the effects of inflation; and

(B) attract and retain capital in amounts adequate to provide a sound transportation system in the United States.

(3) On the basis of the standards and procedures described in paragraph (2), the Board shall annually determine which rail carriers are earning adequate revenues.

(b) The Board may begin a proceeding under this section only on complaint. A complaint under subsection (a) of this section must be made under section 11701 of this title, but the proceeding may also be in extension of a complaint pending before the Board.

(c) In a proceeding to challenge the reasonableness of a rate, the Board shall make its determination as to the reasonableness of the challenged rate—

(1) within 9 months after the close of the administrative record if the determination is based upon a stand-alone cost presentation; or

(2) within 6 months after the close of the administrative record if the determination is based upon the methodology adopted by the Board pursuant to section 10701(d)(3).

(d) Within 9 months after January 1, 1996, the Board shall establish procedures to ensure expeditious handling of challenges to the reasonableness of railroad rates. The procedures shall include appropriate measures for avoiding delay in the discovery and evidentiary phases of such proceedings and exemption or revocation proceedings, including appropriate sanctions for such delay, and for ensuring prompt disposition of motions and interlocutory administrative appeals.

AMENDMENTS

1996—Subsec. (d). Pub. L. 104-287 substituted “January 1, 1996” for “the effective date of the ICC Termination Act of 1995”.

§ 10705. Authority: through routes, joint classifications, rates, and divisions prescribed by Board

(a)(1) The Board may, and shall when it considers it desirable in the public interest, prescribe through routes, joint classifications, joint rates, the division of joint rates, and the conditions under which those routes must be operated, for a rail carrier providing transportation subject to the jurisdiction of the Board under this part.

(2) The Board may require a rail carrier to include in a through route substantially less than the entire length of its railroad and any intermediate railroad operated with it under common management or control if that intermediate railroad lies between the terminals of the through route only when—

(A) required under section 10741, 10742, or 11102 of this title;

(B) inclusion of those lines would make the through route unreasonably long when compared with a practicable alternative through route that could be established; or

(C) the Board decides that the proposed through route is needed to provide adequate, and more efficient or economic, transportation.

The Board shall give reasonable preference, subject to this subsection, to the rail carrier originating the traffic when prescribing through routes.

(b) The Board shall prescribe the division of joint rates to be received by a rail carrier providing transportation subject to its jurisdiction under this part when it decides that a division of joint rates established by the participating carriers under section 10703 of this title, or under a decision of the Board under subsection (a) of this section, does or will violate section 10701 of this title.

(c) If a division of a joint rate prescribed under a decision of the Board is later found to violate section 10701 of this title, the Board may decide what division would have been reasonable and order adjustment to be made retroactive to the date the complaint was filed, the date the order for an investigation was made, or a later date that the Board decides is justified. The Board may make a decision under this subsection effective as part of its original decision.

§ 10706. Rate agreements: exemption from anti-trust laws

(a)(1) In this subsection—

(A) the term “affiliate” means a person controlling, controlled by, or under common control or ownership with another person and “ownership” refers to equity holdings in a business entity of at least 5 percent;

(B) the term “single-line rate” refers to a rate or allowance proposed by a single rail carrier that is applicable only over its line and for which the transportation (exclusive of terminal services by switching, drayage or other terminal carriers or agencies) can be provided by that carrier; and

(C) the term “practicably participates in the movement” shall have such meaning as the Board shall by regulation prescribe.

(2)(A) A rail carrier providing transportation subject to the jurisdiction of the Board under this part that is a party to an agreement of at least 2 rail carriers that relates to rates (including charges between rail carriers and compensation paid or received for the use of facilities and equipment), classifications, divisions, or rules related to them, or procedures for joint consideration, initiation, publication, or establishment of them, shall apply to the Board for approval of that agreement under this subsection. The Board shall approve the agreement only when it finds that the making and carrying out of the agreement will further the transportation policy of section 10101 of this title and may require compliance with conditions necessary to make the agreement further that policy as a condition of its approval. If the Board approves the agreement, it may be made and carried out under its terms and under the conditions required by the Board, and the Sherman Act (15 U.S.C. 1, et seq.), the Clayton Act (15 U.S.C. 12, et seq.), the Federal Trade Commission Act (15 U.S.C. 41, et seq.), sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9), and the Act of June 19, 1936 (15 U.S.C. 13, 13a, 13b, 21a) do not apply to parties and other persons with respect to making or carrying out the agreement. However, the Board may not approve or continue approval of an agreement when the conditions required by it are not met or if it does not receive a verified statement under subparagraph (B) of this paragraph.

(B) The Board may approve an agreement under subparagraph (A) of this paragraph only when the rail carriers applying for approval file a verified statement with the Board. Each statement must specify for each rail carrier that is a party to the agreement—

(i) the name of the carrier;

(ii) the mailing address and telephone number of its headquarter’s office; and

(iii) the names of each of its affiliates and the names, addresses, and affiliates of each of its officers and directors and of each person, together with an affiliate, owning or controlling any debt, equity, or security interest in it having a value of at least \$1,000,000.

(3)(A) An organization established or continued under an agreement approved under this subsection shall make a final disposition of a rule or rate docketed with it by the 120th day

after the proposal is docketed. Such an organization may not—

(i) permit a rail carrier to discuss, to participate in agreements related to, or to vote on single-line rates proposed by another rail carrier, except that for purposes of general rate increases and broad changes in rates, classifications, rules, and practices only, if the Board finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part;

(ii) permit a rail carrier to discuss, to participate in agreements related to, or to vote on rates related to a particular interline movement unless that rail carrier practicably participates in the movement; or

(iii) if there are interline movements over two or more routes between the same end points, permit a carrier to discuss, to participate in agreements related to, or to vote on rates except with a carrier which forms part of a particular single route. If the Board finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part.

(B)(i) In any proceeding in which a party alleges that a rail carrier voted or agreed on a rate or allowance in violation of this subsection, that party has the burden of showing that the vote or agreement occurred. A showing of parallel behavior does not satisfy that burden by itself.

(ii) In any proceeding in which it is alleged that a carrier was a party to an agreement, conspiracy, or combination in violation of a Federal law cited in subsection (a)(2)(A) of this section or of any similar State law, proof of an agreement, conspiracy, or combination may not be inferred from evidence that two or more rail carriers acted together with respect to an interline rate or related matter and that a party to such action took similar action with respect to a rate or related matter on another route or traffic. In any proceeding in which such a violation is alleged, evidence of a discussion or agreement between or among such rail carrier and one or more other rail carriers, or of any rate or other action resulting from such discussion or agreement, shall not be admissible if the discussion or agreement—

(I) was in accordance with an agreement approved under paragraph (2) of this subsection; or

(II) concerned an interline movement of the rail carrier, and the discussion or agreement would not, considered by itself, violate the laws referred to in the first sentence of this clause.

In any proceeding before a jury, the court shall determine whether the requirements of subclause (I) or (II) are satisfied before allowing the introduction of any such evidence.

(C) An organization described in subparagraph (A) of this paragraph shall provide that transcripts or sound recordings be made of all meetings, that records of votes be made, and that such transcripts or recordings and voting records be submitted to the Board and made available to other Federal agencies in connec-

tion with their statutory responsibilities over rate bureaus, except that such material shall be kept confidential and shall not be subject to disclosure under section 552 of title 5, United States Code.

(4) Notwithstanding any other provision of this subsection, one or more rail carriers may enter into an agreement, without obtaining prior Board approval, that provides solely for compilation, publication, and other distribution of rates in effect or to become effective. The Sherman Act (15 U.S.C. 1 et seq.), the Clayton Act (15 U.S.C. 12 et seq.), the Federal Trade Commission Act (15 U.S.C. 41 et seq.), sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9), and the Act of June 19, 1936 (15 U.S.C. 13, 13a, 13b, 21a) shall not apply to parties and other persons with respect to making or carrying out such agreement. However, the Board may, upon application or on its own initiative, investigate whether the parties to such an agreement have exceeded its scope, and upon a finding that they have, the Board may issue such orders as are necessary, including an order dissolving the agreement, to ensure that actions taken pursuant to the agreement are limited as provided in this paragraph.

(5)(A) Whenever two or more shippers enter into an agreement to discuss among themselves that relates to the amount of compensation such shippers propose to be paid by rail carriers providing transportation subject to the jurisdiction of the Board under this part, for use by such rail carriers of rolling stock owned or leased by such shippers, the shippers shall apply to the Board for approval of that agreement under this paragraph. The Board shall approve the agreement only when it finds that the making and carrying out of the agreement will further the transportation policy set forth in section 10101 of this title and may require compliance with conditions necessary to make the agreement further that policy as a condition of approval. If the Board approves the agreement, it may be made and carried out under its terms and under the terms required by the Board, and the antitrust laws set forth in paragraph (2) of this subsection do not apply to parties and other persons with respect to making or carrying out the agreement. The Board shall approve or disapprove an agreement under this paragraph within one year after the date application for approval of such agreement is made.

(B) If the Board approves an agreement described in subparagraph (A) of this paragraph and the shippers entering into such agreement and the rail carriers proposing to use rolling stock owned or leased by such shippers, under payment by such carriers or under a published allowance, are unable to agree upon the amount of compensation to be paid for the use of such rolling stock, any party directly involved in the negotiations may require that the matter be settled by submitting the issues in dispute to the Board. The Board shall render a binding decision, based upon a standard of reasonableness and after taking into consideration any past precedents on the subject matter of the negotiations, no later than 90 days after the date of the submission of the dispute to the Board.

(C) Nothing in this paragraph shall be construed to change the law in effect prior to Octo-

ber 1, 1980, with respect to the obligation of rail carriers to utilize rolling stock owned or leased by shippers.

(b) The Board may require an organization established or continued under an agreement approved under this section to maintain records and submit reports. The Board may inspect a record maintained under this section.

(c) The Board may review an agreement approved under subsection (a) of this section and shall change the conditions of approval or terminate it when necessary to comply with the public interest and subsection (a). The Board shall postpone the effective date of a change of an agreement under this subsection for whatever period it determines to be reasonably necessary to avoid unreasonable hardship.

(d) The Board may begin a proceeding under this section on its own initiative or on application. Action of the Board under this section—

- (1) approving an agreement;
- (2) denying, ending, or changing approval;
- (3) prescribing the conditions on which approval is granted; or
- (4) changing those conditions,

has effect only as related to application of the antitrust laws referred to in subsection (a) of this section.

(e)(1) The Federal Trade Commission, in consultation with the Antitrust Division of the Department of Justice, shall prepare periodically an assessment of, and shall report to the Board on—

- (A) possible anticompetitive features of—
 - (i) agreements approved or submitted for approval under subsection (a) of this section; and
 - (ii) an organization operating under those agreements; and

(B) possible ways to alleviate or end an anticompetitive feature, effect, or aspect in a manner that will further the goals of this part and of the transportation policy of section 10101 of this title.

(2) Reports received by the Board under this subsection shall be published and made available to the public under section 552(a) of title 5.

AMENDMENTS

1996—Subsec. (a)(5)(C). Pub. L. 104-287 substituted “October 1, 1980,” for “the effective date of the Staggers Rail Act of 1980”.

§ 10707. Determination of market dominance in rail rate proceedings

(a) In this section, “market dominance” means an absence of effective competition from other rail carriers or modes of transportation for the transportation to which a rate applies.

(b) When a rate for transportation by a rail carrier providing transportation subject to the jurisdiction of the Board under this part is challenged as being unreasonably high, the Board shall determine whether the rail carrier proposing the rate has market dominance over the transportation to which the rate applies. The Board may make that determination on its own initiative or on complaint. A finding by the Board that the rail carrier does not have market dominance is determinative in a proceeding under this part related to that rate or transportation unless changed or set aside by the Board or set aside by a court of competent jurisdiction.

(c) When the Board finds in any proceeding that a rail carrier proposing or defending a rate for transportation has market dominance over the transportation to which the rate applies, it may then determine that rate to be unreasonable if it exceeds a reasonable maximum for that transportation. However, a finding of market dominance does not establish a presumption that the proposed rate exceeds a reasonable maximum.

(d)(1)(A) In making a determination under this section, the Board shall find that the rail carrier establishing the challenged rate does not have market dominance over the transportation to which the rate applies if such rail carrier proves that the rate charged results in a revenue-variable cost percentage for such transportation that is less than 180 percent.

(B) For purposes of this section, variable costs for a rail carrier shall be determined only by using such carrier’s unadjusted costs, calculated

using the Uniform Rail Costing System cost finding methodology (or an alternative methodology adopted by the Board in lieu thereof) and indexed quarterly to account for current wage and price levels in the region in which the carrier operates, with adjustments specified by the Board. A rail carrier may meet its burden of proof under this subsection by establishing its variable costs in accordance with this paragraph, but a shipper may rebut that showing by evidence of such type, and in accordance with such burden of proof, as the Board shall prescribe.

(2) A finding by the Board that a rate charged by a rail carrier results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than 180 percent does not establish a presumption that—

(A) such rail carrier has or does not have market dominance over such transportation; or

(B) the proposed rate exceeds or does not exceed a reasonable maximum.

§ 10708. Rail cost adjustment factor

(a) The Board shall, as often as practicable, but in no event less often than quarterly, publish a rail cost adjustment factor which shall be a fraction, the numerator of which is the latest published Index of Railroad Costs (which index shall be compiled or verified by the Board, with appropriate adjustments to reflect the change in composition of railroad costs, including the quality and mix of material and labor) and the denominator of which is the same index for the fourth quarter of every fifth year, beginning with the fourth quarter of 1992.

(b) The rail cost adjustment factor published by the Board under subsection (a) of this section shall take into account changes in railroad productivity. The Board shall also publish a similar index that does not take into account changes in railroad productivity.

L. 104-88, §102(a).

§ 10709. Contracts

(a) One or more rail carriers providing transportation subject to the jurisdiction of the Board under this part may enter into a contract with one or more purchasers of rail services to provide specified services under specified rates and conditions.

(b) A party to a contract entered into under this section shall have no duty in connection with services provided under such contract other than those duties specified by the terms of the contract.

(c)(1) A contract that is authorized by this section, and transportation under such contract, shall not be subject to this part, and may not be subsequently challenged before the Board or in any court on the grounds that such contract violates a provision of this part.

(2) The exclusive remedy for any alleged breach of a contract entered into under this section shall be an action in an appropriate State court or United States district court, unless the parties otherwise agree. This section does not confer original jurisdiction on the district courts of the United States based on section 1331 or 1337 of title 28, United States Code.

(d)(1) A summary of each contract for the transportation of agricultural products (including grain, as defined in section 3 of the United States Grain Standards Act (7 U.S.C. 75) and products thereof) entered into under this section shall be filed with the Board, containing such nonconfidential information as the Board prescribes. The Board shall publish special rules for such contracts in order to ensure that the essential terms of the contract are available to the general public.

(2) Documents, papers, and records (and any copies thereof) relating to a contract described in subsection (a) shall not be subject to the mandatory disclosure requirements of section 552 of title 5.

(e) Any lawful contract between a rail carrier and one or more purchasers of rail service that was in effect on October 1, 1980, shall be considered a contract authorized by this section.

(f) A rail carrier that enters into a contract as authorized by this section remains subject to the common carrier obligation set forth in section 11101, with respect to rail transportation not provided under such a contract.

(g)(1) No later than 30 days after the date of filing of a summary of a contract under this section, the Board may, on complaint, begin a proceeding to review such contract on the grounds described in this subsection.

(2)(A) A complaint may be filed under this subsection—

(i) by a shipper on the grounds that such shipper individually will be harmed because the proposed contract unduly impairs the ability of the contracting rail carrier or carriers to meet their common carrier obligations to the complainant under section 11101 of this title; or

(ii) by a port only on the grounds that such port individually will be harmed because the proposed contract will result in unreasonable discrimination against such port.

(B) In addition to the grounds for a complaint described in subparagraph (A) of this paragraph, a complaint may be filed by a shipper of agricultural commodities on the grounds that such shipper individually will be harmed because—

(i) the rail carrier has unreasonably discriminated by refusing to enter into a contract with such shipper for rates and services for the transportation of the same type of commodity under similar conditions to the contract at issue, and that shipper was ready, willing, and able to enter into such a contract at a time essentially contemporaneous with the period during which the contract at issue was offered; or

(ii) the proposed contract constitutes a destructive competitive practice under this part.

In making a determination under clause (ii) of this subparagraph, the Board shall consider the difference between contract rates and published single car rates.

(C) For purposes of this paragraph, the term “unreasonable discrimination” has the same meaning as such term has under section 10741 of this title.

(3)(A) Within 30 days after the date a proceeding is commenced under paragraph (1) of this subsection, or within such shorter time period after such date as the Board may establish, the Board shall determine whether the contract that is the subject of such proceeding is in violation of this section.

(B) If the Board determines, on the basis of a complaint filed under paragraph (2)(B)(i) of this subsection, that the grounds for a complaint described in such paragraph have been established with respect to a rail carrier, the Board shall, subject to the provisions of this section, order such rail carrier to provide rates and service substantially similar to the contract at issue with such differentials in terms and conditions as are justified by the evidence.

(h)(1) Any rail carrier may, in accordance with the terms of this section, enter into contracts for the transportation of agricultural commodities (including forest products, but not including wood pulp, wood chips, pulpwood or paper) involving the utilization of carrier owned or leased equipment not in excess of 40 percent of the capacity of such carrier’s owned or leased equipment by major car type (plain boxcars, covered hopper cars, gondolas and open top hoppers, coal cars, bulkhead flatcars, pulpwood rackcars, and flatbed equipment, including TOFC/COFC).

(2) The Board may, on request of a rail carrier or other party or on its own initiative, grant such relief from the limitations of paragraph (1) of this subsection as the Board considers appropriate, if it appears that additional equipment may be made available without impairing the rail carrier’s ability to meet its common carrier obligations under section 11101 of this title.

(3)(A) This subsection shall cease to be effective after September 30, 1998.

(B) Before October 1, 1997, the National Grain Car Council and the Railroad-Shipper Transpor-

tation Advisory Council shall make recommendations to Congress on whether to extend the effectiveness of or otherwise modify this subsection.

SUBCHAPTER III—LIMITATIONS

§ 10741. Prohibitions against discrimination by rail carriers

(a)(1) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part may not subject a person, place, port, or type of traffic to unreasonable discrimination.

(2) For purposes of this section, a rail carrier engages in unreasonable discrimination when it charges or receives from a person a different compensation for a service rendered, or to be rendered, in transportation the rail carrier may perform under this part than it charges or receives from another person for performing a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances.

(b) This section shall not apply to—

(1) contracts described in section 10709 of this title;

(2) rail rates applicable to different routes; or

(3) discrimination against the traffic of another carrier providing transportation by any mode.

(c) Differences between rates, classifications, rules, and practices of rail carriers do not constitute a violation of this section if such differences result from different services provided by rail carriers.

§ 10742. Facilities for interchange of traffic

A rail carrier providing transportation subject to the jurisdiction of the Board under this part shall provide reasonable, proper, and equal facilities that are within its power to provide for the interchange of traffic between, and for the receiving, forwarding, and delivering of passengers and property to and from, its respective line and a connecting line of another rail carrier or of a water carrier providing transportation subject to chapter 137.

§ 10743. Liability for payment of rates

(a)(1) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor to a consignee other than the shipper or consignor, is determined under this subsection when the transportation is provided by a rail carrier under this part. When the shipper or consignor instructs the rail carrier transporting the property to deliver it to a consignee that is an agent only, not having beneficial title to the property, the consignee is liable for rates billed at the time of delivery for which the consignee is otherwise liable, but not for additional rates that may be found to be due after delivery if the consignee gives written notice to the delivering carrier before delivery of the property—

(A) of the agency and absence of beneficial title; and

(B) of the name and address of the beneficial owner of the property if it is reconsigned or diverted to a place other than the place specified in the original bill of lading.

(2) When the consignee is liable only for rates billed at the time of delivery under paragraph (1) of this subsection, the shipper or consignor, or, if the property is reconsigned or diverted, the beneficial owner, is liable for those additional rates regardless of the bill of lading or contract under which the property was transported. The beneficial owner is liable for all rates when the property is reconsigned or diverted by an agent but is refused or abandoned at its ultimate destination if the agent gave the rail carrier in the reconsignment or diversion order a notice of agency and the name and address of the beneficial owner. A consignee giving the rail carrier, and a reconsignor or diverter giving a rail carrier, erroneous information about the identity of the beneficial owner of the property is liable for the additional rates.

(b) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor, named in the bill of lading as consignee, is determined under this subsection when the transportation is provided by a rail carrier under this part. When the shipper or consignor gives written notice, before delivery of the property, to the line-haul rail carrier that is to make ultimate delivery—

(1) to deliver the property to another party identified by the shipper or consignor as the beneficial owner of the property; and

(2) that delivery is to be made to that party on payment of all applicable transportation rates;

that party is liable for the rates billed at the time of delivery and for additional rates that may be found to be due after delivery if that party does not pay the rates required to be paid under paragraph (2) of this subsection on delivery. However, if the party gives written notice to the delivering rail carrier before delivery that the party is not the beneficial owner of the prop-

erty and gives the rail carrier the name and address of the beneficial owner, then the party is not liable for those additional rates. A shipper, consignor, or party to whom delivery is made that gives the delivering rail carrier erroneous information about the identity of the beneficial owner, is liable for the additional rates regardless of the bill of lading or contract under which the property was transported. This subsection does not apply to a prepaid shipment of property.

(c)(1) A rail carrier may bring an action to enforce liability under subsection (a) of this section. That rail carrier must bring the action during the period provided in section 11705(a) of this title or by the end of the 6th month after final judgment against it in an action against the consignee, or the beneficial owner named by the consignee or agent, under that section.

(2) A rail carrier may bring an action to enforce liability under subsection (b) of this section. That carrier must bring the action during the period provided in section 11705(a) of this title or by the end of the 6th month after final judgment against it in an action against the shipper, consignor, or other party under that section.

§ 10744. Continuous carriage of freight

A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part may not enter a combination or arrangement to prevent the carriage of freight from being continuous from the place of shipment to the place of destination whether by change of time schedule, carriage in different cars, or by other means. The carriage of freight by those rail carriers is considered to be a continuous carriage from the place of shipment to the place of destination when a break of bulk, stoppage, or interruption is not made in good faith for a necessary purpose, and with the intent of avoiding or unnecessarily interrupting the continuous carriage or of evading this part.

§ 10745. Transportation services or facilities furnished by shipper

under this part may establish a charge or allowance for transportation or service for property when the owner of the property, directly or indirectly, furnishes a service related to or an instrumentality used in the transportation or service. The Board may prescribe the maximum reasonable charge or allowance a rail carrier subject to its jurisdiction may pay for a service or instrumentality furnished under this section. The Board may begin a proceeding under this section on its own initiative or on application.

§ 10746. Demurrage charges

(1) freight car use and distribution; and

(2) maintenance of an adequate supply of freight cars to be available for transportation of property.

§ 10747. Designation of certain routes by shippers

(a)(1) When a person delivers property to a rail carrier for transportation subject to the jurisdiction of the Board under this part, the person may direct the rail carrier to transport the property over an established through route. When competing rail lines constitute a part of the route, the person shipping the property may designate the lines over which the property will be transported. The designation must be in writing. A rail carrier may be directed to transport property over a particular through route when—

(A) there are at least 2 through routes over which the property could be transported;

(B) a through rate has been established for transportation over each of those through routes; and

(C) the rail carrier is a party to those routes and rates.

(2) A rail carrier directed to route property transported under paragraph (1) of this subsection must issue a through bill of lading containing the routing instructions and transport the property according to the instructions. When the property is delivered to a connecting

§ 10901. Authorizing construction and operation of railroad lines

(a) A person may—

- (1) construct an extension to any of its railroad lines;
- (2) construct an additional railroad line;
- (3) provide transportation over, or by means of, an extended or additional railroad line; or
- (4) in the case of a person other than a rail carrier, acquire a railroad line or acquire or operate an extended or additional railroad line.

only if the Board issues a certificate authorizing such activity under subsection (c).

(b) A proceeding to grant authority under subsection (a) of this section begins when an application is filed. On receiving the application, the Board shall give reasonable public notice, including notice to the Governor of any affected State, of the beginning of such proceeding.

(c) The Board shall issue a certificate authorizing activities for which such authority is requested in an application filed under subsection (b) unless the Board finds that such activities are inconsistent with the public convenience and necessity. Such certificate may approve the application as filed, or with modifications, and may require compliance with conditions (other than labor protection conditions) the Board finds necessary in the public interest.

(d)(1) When a certificate has been issued by the Board under this section authorizing the construction or extension of a railroad line, no other rail carrier may block any construction or extension authorized by such certificate by refusing to permit the carrier to cross its property if—

- (A) the construction does not unreasonably interfere with the operation of the crossed line;

(B) the operation does not materially interfere with the operation of the crossed line; and

(C) the owner of the crossing line compensates the owner of the crossed line.

(2) If the parties are unable to agree on the terms of operation or the amount of payment for purposes of paragraph (1) of this subsection, either party may submit the matters in dispute to the Board for determination. The Board shall make a determination under this paragraph within 120 days after the dispute is submitted for determination.

PRIOR PROVISIONS

A prior section 10901, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1402; Pub. L. 96-448, title II, §221, Oct. 14, 1980, 94 Stat. 1928, related to authorizing construction and operation of railroad lines, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

EFFECTIVE DATE

Chapter effective Jan. 1, 1996, except as otherwise provided in Pub. L. 104-88, see section 2 of Pub. L. 104-88, set out as a note under section 701 of this title.

§ 10902. Short line purchases by Class II and Class III rail carriers

(a) A Class II or Class III rail carrier providing transportation subject to the jurisdiction of the Board under this part may acquire or operate an extended or additional rail line under this section only if the Board issues a certificate authorizing such activity under subsection (c).

(b) A proceeding to grant authority under subsection (a) of this section begins when an application is filed. On receiving the application, the Board shall give reasonable public notice of the beginning of such proceeding.

(c) The Board shall issue a certificate authorizing activities for which such authority is requested in an application filed under subsection (b) unless the Board finds that such activities are inconsistent with the public convenience and necessity. Such certificate may approve the application as filed, or with modifications, and may require compliance with conditions (other than labor protection conditions) the Board finds necessary in the public interest.

(d) The Board shall require any Class II rail carrier which receives a certificate under subsection (c) of this section to provide a fair and equitable arrangement for the protection of the interests of employees who may be affected thereby. The arrangement shall consist exclusively of one year of severance pay, which shall not exceed the amount of earnings from railroad employment of the employee during the 12-month period immediately preceding the date on which the application for such certificate is filed with the Board. The amount of such severance pay shall be reduced by the amount of earnings from railroad employment of the employee with the acquiring carrier during the 12-month period immediately following the effective date of the transaction to which the certificate applies. The parties may agree to terms other than as provided in this subsection. The Board shall not require such an arrangement from a Class III rail carrier which receives a certificate under subsection (c) of this section.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 823.)

PRIOR PROVISIONS

A prior section 10902, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1403, related to authorizing action by rail carriers to provide adequate, efficient, and safe facilities.

§ 10903. Filing and procedure for application to abandon or discontinue

(a)(1) A rail carrier providing transportation subject to the jurisdiction of the Board under this part who intends to—

(A) abandon any part of its railroad lines; or

(B) discontinue the operation of all rail transportation over any part of its railroad lines,

must file an application relating thereto with the Board. An abandonment or discontinuance may be carried out only as authorized under this chapter.

(2) When a rail carrier providing transportation subject to the jurisdiction of the Board under this part files an application, the application shall include—

(A) an accurate and understandable summary of the rail carrier's reasons for the proposed abandonment or discontinuance;

(B) a statement indicating that each interested person is entitled to make recommendations to the Board on the future of the rail line; and

(C)(i) a statement that the line is available for subsidy or sale in accordance with section 10904 of this title, (ii) a statement that the rail carrier will promptly provide to each interested party an estimate of the annual subsidy and minimum purchase price, calculated in accordance with section 10904 of this title, and (iii) the name and business address of the person who is authorized to discuss the subsidy or sale terms for the rail carrier.

(3) The rail carrier shall—

(A) send by certified mail notice of the application to the chief executive officer of each State that would be directly affected by the proposed abandonment or discontinuance;

(B) post a copy of the notice in each terminal and station on each portion of a railroad line proposed to be abandoned or over which all transportation is to be discontinued;

(C) publish a copy of the notice for 3 consecutive weeks in a newspaper of general circulation in each county in which each such portion is located;

(D) mail a copy of the notice, to the extent practicable, to all shippers that have made significant use (as designated by the Board) of the railroad line during the 12 months preceding the filing of the application; and

(E) attach to the application filed with the Board an affidavit certifying the manner in which subparagraphs (A) through (D) of this paragraph have been satisfied, and certifying that subparagraphs (A) through (D) have been satisfied within the most recent 30 days prior to the date the application is filed.

(b)(1) Except as provided in subsection (d), abandonment and discontinuance may occur as provided in section 10904.

(2) The Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c)¹ of this title.

(c)(1) In this subsection, the term “potentially subject to abandonment” has the meaning given the term in regulations of the Board. The regulations may include standards that vary by region of the United States and by railroad or group of railroads.

(2) Each rail carrier shall maintain a complete diagram of the transportation system operated, directly or indirectly, by the rail carrier. The rail carrier shall submit to the Board and publish amendments to its diagram that are necessary to maintain the accuracy of the diagram. The diagram shall—

(A) include a detailed description of each of its railroad lines potentially subject to abandonment; and

(B) identify each railroad line for which the rail carrier plans to file an application to abandon or discontinue under subsection (a) of this section.

(d) A rail carrier providing transportation subject to the jurisdiction of the Board under this part may—

(1) abandon any part of its railroad lines; or

(2) discontinue the operation of all rail transportation over any part of its railroad lines;

only if the Board finds that the present or future public convenience and necessity require or permit the abandonment or discontinuance. In making the finding, the Board shall consider whether the abandonment or discontinuance will have a serious, adverse impact on rural and community development.

(e) Subject to this section and sections 10904 and 10905 of this title, if the Board—

(1) finds public convenience and necessity, it shall—

(A) approve the application as filed; or

(B) approve the application with modifications and require compliance with conditions that the Board finds are required by public convenience and necessity; or

(2) fails to find public convenience and necessity, it shall deny the application.

§ 10904. Offers of financial assistance to avoid abandonment and discontinuance

(a) In this section—

(1) the term “avoidable cost” means all expenses that would be incurred by a rail carrier in providing transportation that would not be incurred if the railroad line over which the transportation was provided were abandoned or if the transportation were discontinued. Expenses include cash inflows foregone and cash outflows incurred by the rail carrier as a result of not abandoning or discontinuing the transportation. Cash inflows foregone and cash outflows incurred include—

(A) working capital and required capital expenditure;

(B) expenditures to eliminate deferred maintenance;

(C) the current cost of freight cars, locomotives, and other equipment; and

(D) the foregone tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes; and

(2) the term “reasonable return” means—

(A) if a rail carrier is not in reorganization, the cost of capital to the rail carrier, as determined by the Board; and

(B) if a rail carrier is in reorganization, the mean cost of capital of rail carriers not in reorganization, as determined by the Board.

(b) Any rail carrier which has filed an application for abandonment or discontinuance shall

provide promptly to a party considering an offer of financial assistance and shall provide concurrently to the Board—

(1) an estimate of the annual subsidy and minimum purchase price required to keep the line or a portion of the line in operation;

(2) its most recent reports on the physical condition of that part of the railroad line involved in the proposed abandonment or discontinuance;

(3) traffic, revenue, and other data necessary to determine the amount of annual financial assistance which would be required to continue rail transportation over that part of the railroad line; and

(4) any other information that the Board considers necessary to allow a potential offeror to calculate an adequate subsidy or purchase offer.

(c) Within 4 months after an application is filed under section 10903, any person may offer to subsidize or purchase the railroad line that is the subject of such application. Such offer shall be filed concurrently with the Board. If the offer to subsidize or purchase is less than the carrier's estimate stated pursuant to subsection (b)(1), the offer shall explain the basis of the disparity, and the manner in which the offer is calculated.

(d)(1) Unless the Board, within 15 days after the expiration of the 4-month period described in subsection (c), finds that one or more financially responsible persons (including a governmental authority) have offered financial assistance regarding that part of the railroad line to be abandoned or over which all rail transportation is to be discontinued, abandonment or discontinuance may be carried out in accordance with section 10903.

(2) If the Board finds that such an offer or offers of financial assistance has been made within such period, abandonment or discontinuance shall be postponed until—

(A) the carrier and a financially responsible person have reached agreement on a transaction for subsidy or sale of the line; or

(B) the conditions and amount of compensation are established under subsection (f).

(e) Except as provided in subsection (f)(3), if the rail carrier and a financially responsible person (including a governmental authority) fail to agree on the amount or terms of the subsidy or purchase, either party may, within 30 days after the offer is made, request that the Board establish the conditions and amount of compensation.

(f)(1) Whenever the Board is requested to establish the conditions and amount of compensation under this section—

(A) the Board shall render its decision within 30 days;

(B) for proposed sales, the Board shall determine the price and other terms of sale, except that in no case shall the Board set a price which is below the fair market value of the line (including, unless otherwise mutually agreed, all facilities on the line or portion necessary to provide effective transportation services); and

(C) for proposed subsidies, the Board shall establish the compensation as the difference between the revenues attributable to that part

of the railroad line and the avoidable cost of providing rail freight transportation on the line, plus a reasonable return on the value of the line.

(2) The decision of the Board shall be binding on both parties, except that the person who has offered to subsidize or purchase the line may withdraw his offer within 10 days of the Board's decision. In such a case, the abandonment or discontinuance may be carried out immediately, unless other offers are being considered pursuant to paragraph (3) of this subsection.

(3) If a rail carrier receives more than one offer to subsidize or purchase, it shall select the offeror with whom it wishes to transact business, and complete the subsidy or sale agreement, or request that the Board establish the conditions and amount of compensation before the 40th day after the expiration of the 4-month period described in subsection (c). If no agreement on subsidy or sale is reached within such 40-day period and the Board has not been requested to establish the conditions and amount of compensation, any other offeror whose offer was made within the 4-month period described in subsection (c) may request that the Board establish the conditions and amount of compensation. If the Board has established the conditions and amount of compensation, and the original offer has been withdrawn, any other offeror whose offer was made within the 4-month period described in subsection (c) may accept the Board's decision within 20 days after such decision, and the Board shall require the carrier to enter into a subsidy or sale agreement with such offeror, if such subsidy or sale agreement incorporates the Board's decision.

(4)(A) No purchaser of a line or portion of line sold under this section may transfer or discontinue service on such line prior to the end of the second year after consummation of the sale, nor may such purchaser transfer such line, except to the rail carrier from whom it was purchased, prior to the end of the fifth year after consummation of the sale.

(B) No subsidy arrangement approved under this section shall remain in effect for more than one year, unless otherwise mutually agreed by the parties.

(g) Upon abandonment of a railroad line under this chapter, the obligation of the rail carrier abandoning the line to provide transportation on that line, as required by section 11101(a), is extinguished.

§ 10905. Offering abandoned rail properties for sale for public purposes

When the Board approves an application to abandon or discontinue under section 10903, the Board shall find whether the rail properties that are involved in the proposed abandonment or discontinuance are appropriate for use for public purposes, including highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. If the Board finds that the rail properties proposed to be abandoned are appropriate for public purposes and not required for continued rail operations, the properties may be sold, leased, exchanged, or otherwise disposed of only under conditions provided in the order of the Board. The conditions may include a prohibition on any such disposal for a period of not more than 180 days after the effective date of the order, unless the properties have first been offered, on reasonable terms, for sale for public purposes.

§ 10906. Exception

Notwithstanding section 10901 and subchapter II of chapter 113 of this title, and without the approval of the Board, a rail carrier providing transportation subject to the jurisdiction of the Board under this part may enter into arrangements for the joint ownership or joint use of spur, industrial, team, switching, or side tracks. The Board does not have authority under this chapter over construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks.

A prior section 10906, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1406, related to offering abandoned rail properties for sale for public purposes, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a). See section 10905 of this title.

§ 10907. Railroad development

(a) In this section, the term “financially responsible person” means a person who—

(1) is capable of paying the constitutional minimum value of the railroad line proposed to be acquired; and

(2) is able to assure that adequate transportation will be provided over such line for a period of not less than 3 years.

Such term includes a governmental authority but does not include a Class I or Class II rail carrier.

(b)(1) When the Board finds that—

(A)(i) the public convenience and necessity require or permit the sale of a particular railroad line under this section; or

(ii) a railroad line is on a system diagram map as required under section 10903 of this title, but the rail carrier owning such line has not filed an application to abandon such line under section 10903 of this title before an application to purchase such line, or any required preliminary filing with respect to such application, is filed under this section; and

(B) an application to purchase such line has been filed by a financially responsible person,

the Board shall require the rail carrier owning the railroad line to sell such line to such financially responsible person at a price not less than the constitutional minimum value.

(2) For purposes of this subsection, the constitutional minimum value of a particular railroad line shall be presumed to be not less than the net liquidation value of such line or the going concern value of such line, whichever is greater.

(c)(1) For purposes of this section, the Board may determine that the public convenience and necessity require or permit the sale of a railroad line if the Board determines, after a hearing on the record, that—

(A) the rail carrier operating such line refuses within a reasonable time to make the necessary efforts to provide adequate service to shippers who transport traffic over such line;

(B) the transportation over such line is inadequate for the majority of shippers who transport traffic over such line;

(C) the sale of such line will not have a significantly adverse financial effect on the rail carrier operating such line;

(D) the sale of such line will not have an adverse effect on the overall operational performance of the rail carrier operating such line; and

(E) the sale of such line will be likely to result in improved railroad transportation for shippers that transport traffic over such line.

(2) In a proceeding under this subsection, the burden of proving that the public convenience and necessity require or permit the sale of a particular railroad line is on the person filing the application to acquire such line. If the Board finds under this subsection that the public convenience and necessity require or permit the sale of a particular railroad line, the Board shall concurrently notify the parties of such finding and publish such finding in the Federal Register.

(d) In the case of any railroad line subject to sale under subsection (a) of this section, the Board shall, upon the request of the acquiring carrier, require the selling carrier to provide to the acquiring carrier trackage rights to allow a reasonable interchange with the selling carrier or to move power equipment or empty rolling stock between noncontiguous feeder lines operated by the acquiring carrier. The Board shall require the acquiring carrier to provide the sell-

ing carrier reasonable compensation for any such trackage rights.

(e) The Board shall require, to the maximum extent practicable, the use of the employees who would normally have performed work in connection with a railroad line subject to a sale under this section.

(f) In the case of a railroad line which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, whenever a purchasing carrier under this section petitions the Board for joint rates applicable to traffic moving over through routes in which the purchasing carrier may practicably participate, the Board shall, within 30 days after the date such petition is filed and pursuant to section 10705(a) of this title, require the establishment of reasonable joint rates and divisions over such route.

(g)(1) Any person operating a railroad line acquired under this section may elect to be exempt from any of the provisions of this part, except that such a person may not be exempt from the provisions of chapter 107 of this title with respect to transportation under a joint rate.

(2) The provisions of paragraph (1) of this subsection shall apply to any line of railroad which was abandoned during the 18-month period immediately prior to October 1, 1980, and was subsequently purchased by a financially responsible person.

(h) If a purchasing carrier under this section proposes to sell or abandon all or any portion of a purchased railroad line, such purchasing carrier shall offer the right of first refusal with respect to such line or portion thereof to the carrier which sold such line under this section. Such offer shall be made at a price equal to the sum of the price paid by such purchasing carrier to such selling carrier for such line or portion thereof and the fair market value (less deterioration) of any improvements made, as adjusted to reflect inflation.

(i) Any person operating a railroad line acquired under this section may determine preconditions, such as payment of a subsidy, which must be met by shippers in order to obtain service over such lines, but such operator must notify the shippers on the line of its intention to impose such preconditions.

§ 10908. Regulation of solid waste rail transfer facilities

(a) IN GENERAL.—Each solid waste rail transfer facility shall be subject to and shall comply with all applicable Federal and State requirements, both substantive and procedural, including judicial and administrative orders and fines, respecting the prevention and abatement of pollution, the protection and restoration of the environment, and the protection of public health and safety, including laws governing solid waste, to the same extent as required for any similar solid waste management facility, as defined in section 1004(29) of the Solid Waste Disposal Act (42 U.S.C. 6903(29))¹ that is not owned or operated by or on behalf of a rail carrier, except as provided for in section 10909 of this chapter.

(b) EXISTING FACILITIES.—

(1) STATE LAWS AND STANDARDS.—Not later than 90 days after the date of enactment of the Clean Railroads Act of 2008, a solid waste rail transfer facility operating as of such date of enactment shall comply with all Federal and State requirements pursuant to subsection (a) other than those provisions requiring permits.

(2) PERMIT REQUIREMENTS.—

(A) STATE NON-SITING PERMITS.—Any solid waste rail transfer facility operating as of the date of enactment of the Clean Railroads Act of 2008 that does not possess a permit required pursuant to subsection (a), other than a siting permit for the facility, as of the date of enactment of the Clean Railroads Act of 2008 shall not be required to possess any such permits in order to operate the facility—

(i) if, within 180 days after such date of enactment, the solid waste rail transfer facility has submitted, in good faith, a complete application for all permits, except siting permits, required pursuant to subsection (a) to the appropriate permitting agency authorized to grant such permits; and

(ii) until the permitting agency has either approved or denied the solid waste rail transfer facility's application for each permit.

(B) SITING PERMITS AND REQUIREMENTS.—A solid waste rail transfer facility operating as of the date of enactment of the Clean Railroads Act of 2008 that does not possess a State siting permit required pursuant to subsection (a) as of such date of enactment shall not be required to possess any siting permit to continue to operate or comply with any State land use requirements. The Governor of a State in which the facility is

located, or his or her designee, may petition the Board to require the facility to apply for a land-use exemption pursuant to section 10909 of this chapter. The Board shall accept the petition, and the facility shall be required to have a Board-issued land-use exemption in order to continue to operate, pursuant to section 10909 of this chapter.

(c) COMMON CARRIER OBLIGATION.—No prospective or current rail carrier customer may demand solid waste rail transfer service from a rail carrier at a solid waste rail transfer facility that does not already possess the necessary Federal land-use exemption and State permits at the location where service is requested.

(d) NON-WASTE COMMODITIES.—Nothing in this section or section 10909 of this chapter shall affect a rail carrier's ability to conduct transportation-related activities with respect to commodities other than solid waste.

(e) DEFINITIONS.—

(1) IN GENERAL.—In this section:

(A) COMMERCIAL AND RETAIL WASTE.—The term "commercial and retail waste" means material discarded by stores, offices, restaurants, warehouses, nonmanufacturing activities at industrial facilities, and other similar establishments or facilities.

(F) MUNICIPAL SOLID WASTE.—The term "municipal solid waste" means—

- (i) household waste;
- (ii) commercial and retail waste; and
- (iii) institutional waste.

(G) SOLID WASTE.—With the exception of waste generated by a rail carrier during track, track structure, or right-of-way construction, maintenance, or repair (including railroad ties and line-side poles) or waste generated as a result of a railroad accident, incident, or derailment, the term "solid waste" means—

¹ So in original. Probably should be followed by a comma.

- (i) construction and demolition debris;
- (ii) municipal solid waste;
- (iii) household waste;
- (iv) commercial and retail waste;
- (v) institutional waste;
- (vi) sludge;

(H) **SOLID WASTE RAIL TRANSFER FACILITY.**—The term “solid waste rail transfer facility”—

(i) means the portion of a facility owned or operated by or on behalf of a rail carrier (as defined in section 10102 of this title) where solid waste, as a commodity to be transported for a charge, is collected, stored, separated, processed, treated, managed, disposed of, or transferred, when the activity takes place outside of original shipping containers; but

(ii) does not include—

(I) the portion of a facility to the extent that activities taking place at such portion are comprised solely of the railroad transportation of solid waste after the solid waste is loaded for shipment on or in a rail car, including railroad transportation for the purpose of interchanging railroad cars containing solid waste shipments; or

(II) a facility where solid waste is solely transferred or transloaded from a tank truck directly to a rail tank car.

(I) **SLUDGE.**—The term “sludge” means any solid, semi-solid or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility exclusive of the treated effluent from a wastewater treatment plant.

§ 10909. Solid waste rail transfer facility land-use exemption

(a) **AUTHORITY.**—The Board may issue a land-use exemption for a solid waste rail transfer facility that is or is proposed to be operated by or on behalf of a rail carrier if—

(1) the Board finds that a State, local, or municipal law, regulation, order, or other requirement affecting the siting of such facility unreasonably burdens the interstate transportation of solid waste by railroad, discriminates against the railroad transportation of solid waste and a solid waste rail transfer facility, or a rail carrier that owns or operates such a facility petitions the Board for such an exemption; or

(2) the Governor of a State in which a facility that is operating as of the date of enactment of the Clean Railroads Act of 2008 is located, or his or her designee, petitions the Board to initiate a permit proceeding for that particular facility.

(b) **LAND-USE EXEMPTION PROCEDURES.**—Not later than 90 days after the date of enactment of the Clean Railroad¹ Act of 2008, the Board shall publish procedures governing the submission and review of applications for solid waste rail transfer facility land-use exemptions. At a minimum, the procedures shall address—

(1) the information that each application should contain to explain how the solid waste rail transfer facility will not pose an unreasonable risk to public health, safety, or the environment;

(2) the opportunity for public notice and comment including notification of the municipality, the State, and any relevant Federal or State regional planning entity in the jurisdiction of which the solid waste rail transfer facility is proposed to be located;

(3) the timeline for Board review, including a requirement that the Board approve or deny an exemption within 90 days after the full record for the application is developed;

(4) the expedited review timelines for petitions for modifications, amendments, or revocations of granted exemptions;

(5) the process for a State to petition the Board to require a solid waste transfer facility or a rail carrier that owns or operates such a facility to apply for a siting permit; and

(6) the process for a solid waste transfer facility or a rail carrier that owns or operates such a facility to petition the Board for a land-use exemption.

(c) **STANDARD FOR REVIEW.**—

(1) The Board may only issue a land-use exemption if it determines that the facility at the existing or proposed location does not pose an unreasonable risk to public health, safety,

¹ So in original. Probably should be “Railroads”.

or the environment. In deciding whether a solid waste rail transfer facility that is or proposed to be constructed or operated by or on behalf of a rail carrier poses an unreasonable risk to public health, safety, or the environment, the Board shall weigh the particular facility's potential benefits to and the adverse impacts on public health, public safety, the environment, interstate commerce, and transportation of solid waste by rail.

(2) The Board may not grant a land-use exemption for a solid waste rail transfer facility proposed to be located on land within any unit of or land affiliated with the National Park System, the National Wildlife Refuge System, the National Wilderness Preservation System, the National Trails System, the National Wild and Scenic Rivers System, a National Reserve, a National Monument, or lands referenced in Public Law 108-421 for which a State has implemented a conservation management plan, if operation of the facility would be inconsistent with restrictions placed on such land.

(d) CONSIDERATIONS.—When evaluating an application under this section, the Board shall consider and give due weight to the following, as applicable:

(1) the land-use, zoning, and siting regulations or solid waste planning requirements of the State or State subdivision in which the facility is or will be located that are applicable to solid waste transfer facilities, including those that are not owned or operated by or on behalf of a rail carrier;

(2) the land-use, zoning, and siting regulations or solid waste planning requirements applicable to the property where the solid waste rail transfer facility is proposed to be located;

(3) regional transportation planning requirements developed pursuant to Federal and State law;

(4) regional solid waste disposal plans developed pursuant to State or Federal law;

(5) any Federal and State environmental protection laws or regulations applicable to the site;

(6) any unreasonable burdens imposed on the interstate transportation of solid waste by railroad, or the potential for discrimination against the railroad transportation of solid waste, a solid waste rail transfer facility, or a rail carrier that owns or operates such a facility; and

(7) any other relevant factors, as determined by the Board.

(e) EXISTING FACILITIES.—Upon the granting of² petition from the State in which a solid waste rail transfer facility is operating as of the date of enactment of the Clean Railroads Act of 2008 by the Board, the facility shall submit a complete application for a siting permit to the Board pursuant to the procedures issued pursuant to subsection (b). No State may enforce a law, regulation, order, or other requirement affecting the siting of a facility that is operating as of the date of enactment of the Clean Rail-

roads Act of 2008 until the Board has approved or denied a permit pursuant to subsection (c).

(f) EFFECT OF LAND-USE EXEMPTION.—If the Board grants a land-use exemption to a solid waste rail transfer facility, all State laws, regulations, orders, or other requirements affecting the siting of a facility are preempted with regard to that facility. An exemption may require compliance with such State laws, regulations, orders, or other requirements.

(g) INJUNCTIVE RELIEF.—Nothing in this section precludes a person from seeking an injunction to enjoin a solid waste rail transfer facility from being constructed or operated by or on behalf of a rail carrier if that facility has materially violated, or will materially violate, its land-use exemption or if it failed to receive a valid land-use exemption under this section.

(h) FEES.—The Board may charge permit applicants reasonable fees to implement this section, including the costs of third-party consultants.

(i) DEFINITIONS.—In this section the terms “solid waste”, “solid waste rail transfer facility”, and “State requirements” have the meaning given such terms in section 10908(e).

SUBCHAPTER I—GENERAL REQUIREMENTS

§ 11101. Common carrier transportation, service, and rates

(a) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part shall provide the transportation or service on reasonable request. A rail carrier shall not be found to have violated this section because it fulfills its reasonable commitments under contracts authorized under section 10709 of this title before responding to reasonable requests for service. Commitments which deprive a carrier of its ability to respond to reasonable requests for common carrier service are not reasonable.

(b) A rail carrier shall also provide to any person, on request, the carrier's rates and other service terms. The response by a rail carrier to a request for the carrier's rates and other service terms shall be—

(1) in writing and forwarded to the requesting person promptly after receipt of the request; or

(2) promptly made available in electronic form.

(c) A rail carrier may not increase any common carrier rates or change any common carrier service terms unless 20 days have expired after written or electronic notice is provided to any person who, within the previous 12 months—

(1) has requested such rates or terms under subsection (b); or

(2) has made arrangements with the carrier for a shipment that would be subject to such increased rates or changed terms.

(d) With respect to transportation of agricultural products, in addition to the requirements of subsections (a), (b), and (c), a rail carrier shall publish, make available, and retain for public inspection its common carrier rates, schedules of rates, and other service terms, and any proposed and actual changes to such rates and service terms. For purposes of this subsection, agricultural products shall include grain as defined in section 3 of the United States Grain Standards Act (7 U.S.C. 75) and all products thereof, and fertilizer.

(e) A rail carrier shall provide transportation or service in accordance with the rates and service terms, and any changes thereto, as published or otherwise made available under subsection (b), (c), or (d).

(f) The Board shall, by regulation, establish rules to implement this section. The regulations shall provide for immediate disclosure and dissemination of rates and service terms, including classifications, rules, and practices, and their effective dates. Final regulations shall be adopted by the Board not later than 180 days after January 1, 1996.

EFFECTIVE DATE

Chapter effective Jan. 1, 1996, except as otherwise provided in Pub. L. 104-88, see section 2 of Pub. L. 104-88, set out as a note under section 701 of this title.

§ 11102. Use of terminal facilities

(a) The Board may require terminal facilities, including main-line tracks for a reasonable distance outside of a terminal, owned by a rail carrier providing transportation subject to the jurisdiction of the Board under this part, to be used by another rail carrier if the Board finds that use to be practicable and in the public interest without substantially impairing the ability of the rail carrier owning the facilities or entitled to use the facilities to handle its own business. The rail carriers are responsible for establishing the conditions and compensation for use of the facilities. However, if the rail carriers cannot agree, the Board may establish conditions and compensation for use of the facilities under the principle controlling compensation in condemnation proceedings. The compensation shall be paid or adequately secured before a rail carrier may begin to use the facilities of another rail carrier under this section.

(b) A rail carrier whose terminal facilities are required to be used by another rail carrier under this section is entitled to recover damages from the other rail carrier for injuries sustained as the result of compliance with the requirement or for compensation for the use, or both as appropriate, in a civil action, if it is not satisfied with the conditions for use of the facilities or if the amount of the compensation is not paid promptly.

(c)(1) The Board may require rail carriers to enter into reciprocal switching agreements, where it finds such agreements to be practicable and in the public interest, or where such agreements are necessary to provide competitive rail service. The rail carriers entering into such an agreement shall establish the conditions and compensation applicable to such agreement, but, if the rail carriers cannot agree upon such conditions and compensation within a reasonable period of time, the Board may establish such conditions and compensation.

(2) The Board may require reciprocal switching agreements entered into by rail carriers pursuant to this subsection to contain provisions for the protection of the interests of employees affected thereby.

(d) The Board shall complete any proceeding under subsection (a) or (b) within 180 days after the filing of the request for relief.

SUBCHAPTER II—CAR SERVICE

§ 11121. Criteria

(a)(1) A rail carrier providing transportation subject to the jurisdiction of the Board under this part shall furnish safe and adequate car service and establish, observe, and enforce reasonable rules and practices on car service. The Board may require a rail carrier to provide facilities and equipment that are reasonably necessary to furnish safe and adequate car service if the Board decides that the rail carrier has materially failed to furnish that service. The Board may begin a proceeding under this paragraph when an interested person files an application with it. The Board may act only after a hearing on the record and an affirmative finding, based on the evidence presented, that—

(A) providing the facilities or equipment will not materially and adversely affect the ability of the rail carrier to provide safe and adequate transportation;

(B) the amount spent for the facilities or equipment, including a return equal to the rail carrier's current cost of capital, will be recovered; and

(C) providing the facilities or equipment will not impair the ability of the rail carrier to attract adequate capital.

(2) The Board may require a rail carrier to file its car service rules with the Board.

(b) The Board may designate and appoint agents and agencies to make and carry out its directions related to car service and matters under sections 11123 and 11124(a)(1) of this title.

(c) The Board shall consult, as it considers necessary, with the National Grain Car Council on matters within the charter of that body.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 832.)

PRIOR PROVISIONS

A prior section 11121, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1421; Pub. L. 96-258, §1(11), June 3, 1980, 94 Stat. 426, related to criteria of rail carriers to furnish safe and adequate car service, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 11122. Compensation and practice

(a) The regulations of the Board on car service shall encourage the purchase, acquisition, and efficient use of freight cars. The regulations may include—

(1) the compensation to be paid for the use of a locomotive, freight car, or other vehicle;

(2) the other terms of any arrangement for the use by a rail carrier of a locomotive, freight car, or other vehicle not owned by the rail carrier using the locomotive, freight car, or other vehicle, whether or not owned by another carrier, shipper, or third person; and

(3) sanctions for nonobservance.

(b) The rate of compensation to be paid for each type of freight car shall be determined by the expense of owning and maintaining that type of freight car, including a fair return on its

cost giving consideration to current costs of capital, repairs, materials, parts, and labor. In determining the rate of compensation, the Board shall consider the transportation use of each type of freight car, the national level of ownership of each type of freight car, and other factors that affect the adequacy of the national freight car supply.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 832.)

PRIOR PROVISIONS

A prior section 11122, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1421; Pub. L. 96-448, title II, §224(a), Oct. 14, 1980, 94 Stat. 1929, related to use of and compensation for freight cars, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 11123. Situations requiring immediate action to serve the public

(a) When the Board determines that shortage of equipment, congestion of traffic, unauthorized cessation of operations, failure of existing commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, or other failure of traffic movement exists which creates an emergency situation of such magnitude as to have substantial adverse effects on shippers, or on rail service in a region of the United States, or that a rail carrier providing transportation subject to the jurisdiction of the Board under this part cannot transport the traffic offered to it in a manner that properly serves the public, the Board may, to promote commerce and service to the public, for a period not to exceed 30 days—

- (1) direct the handling, routing, and movement of the traffic of a rail carrier and its distribution over its own or other railroad lines;
- (2) require joint or common use of railroad facilities;
- (3) prescribe temporary through routes;
- (4) give directions for—
 - (A) preference or priority in transportation;
 - (B) embargoes; or
 - (C) movement of traffic under permits; or

(5) in the case of a failure of existing freight or commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, direct the continuation of the operations and dispatching, maintenance, and other necessary infrastructure functions related to the operations.

(b)(1) Except with respect to proceedings under paragraph (2) of this subsection, the Board may act under this section on its own initiative or on application without regard to subchapter II of chapter 5 of title 5.

(2) Rail carriers may establish between themselves the terms of compensation for operations, and use of facilities and equipment, required under this section. When rail carriers do not agree on the terms of compensation under this section, the Board may establish the terms for them. The Board may act under subsection (a) before conducting a proceeding under this paragraph.

(3)(A) Except as provided in subparagraph (B), when a rail carrier is directed under this section to operate the lines of another rail carrier due to that carrier's cessation of operations, compensation for the directed operations shall derive only from revenues generated by the directed operations.

(B) In the case of a failure of existing freight or commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, the Board shall provide funding to fully reimburse the directed service provider for its costs associated with the activities directed under subsection (a), including the payment of increased insurance premiums. The Board shall order complete indemnification against any and all claims associated with the provision of service to which the directed rail carrier may be exposed.

(c)(1) The Board may extend any action taken under subsection (a) of this section beyond 30 days if the Board finds that a transportation emergency described in subsection (a) continues to exist. Action by the Board under subsection (a) of this section may not remain in effect for more than 240 days beyond the initial 30-day period.

(2) The Board may not take action under this section that would—

- (A) cause a rail carrier to operate in violation of this part; or
- (B) impair substantially the ability of a rail carrier to serve its own customers adequately, or to fulfill its common carrier obligations.

(3) A rail carrier directed by the Board to take action under this section is not responsible, as a result of that action, for debts of any other rail carrier.

(4) In the case of a failure of existing freight or commuter rail passenger transportation operations caused by cessation of service by the National Railroad Passenger Corporation, the Board may not direct a rail carrier to undertake activities under subsection (a) to continue such operations unless—

- (A) the Board first affirmatively finds that the rail carrier is operationally capable of conducting the directed service in a safe and efficient manner; and

(B) the funding for such directed service required by subparagraph (B) of subsection (b)(3) is provided in advance in appropriations Acts.

(d) In carrying out this section, the Board shall require, to the maximum extent practicable, the use of employees who would normally have performed work in connection with the traffic subject to the action of the Board.

(e) For purposes of this section, the National Railroad Passenger Corporation and any entity providing commuter rail passenger transportation shall be considered rail carriers subject to the Board's jurisdiction.

(f) For purposes of this section, the term "commuter rail passenger transportation" has the meaning given that term in section 24102(4).¹

SUBCHAPTER I—EQUIPMENT TRUSTS AND SECURITY INTERESTS

§ 11301. Equipment trusts: recordation; evidence of indebtedness

(a) A mortgage (other than a mortgage under chapter 313 of title 46), lease, equipment trust agreement, conditional sales agreement, or other instrument evidencing the mortgage, lease, conditional sale, or bailment of or security interest in vessels, railroad cars, locomotives, or other rolling stock, or accessories used on such railroad cars, locomotives, or other rolling stock (including superstructures and racks), intended for a use related to interstate commerce shall be filed with the Board in order to perfect the security interest that is the subject of such instrument. An assignment of a right or interest under one of those instruments and an amendment to that instrument or assignment including a release, discharge, or satisfaction of any part of it shall also be filed with the Board. The instrument, assignment, or amendment must be in writing, executed by the parties to it, and acknowledged or verified under Board regulations. When filed under this section, that document is notice to, and enforceable against, all persons. A document filed under this section does not have to be filed, deposited, registered, or recorded under another law of the United States, a State (or its political subdivisions), or territory or possession of the United States, related to filing, deposit, registration, or recordation of those documents. This section does not change chapter 313 of title 46.

(b) The Board shall maintain a system for recording each document filed under subsection (a) of this section and mark each of them with a consecutive number and the date and hour of their recordation. The Board shall maintain and keep open for public inspection an index of documents filed under that subsection. That index shall include the name and address of the principal debtors, trustees, guarantors, and other parties to those documents and may include other facts that will assist in determining the rights of the parties to those transactions.

(c) The Board may to the greatest extent practicable perform its functions under this section through contracts with private sector entities.

(d) A mortgage, lease, equipment trust agreement, conditional sales agreement, or other instrument evidencing the mortgage, lease, conditional sale, or bailment of or security interest in vessels, railroad cars, locomotives, or other rolling stock, or accessories used on such railroad

cars, locomotives, or other rolling stock (including superstructures and racks), or any assignment thereof, which—

(1) is duly constituted under the laws of a country other than the United States; and

(2) relates to property that bears the reporting marks and identification numbers of any person domiciled in or corporation organized under the laws of such country,

shall be recognized with the same effect as having been filed under this section.

(e) Interests with respect to which documents are filed or recognized under this section are deemed perfected in all jurisdictions, and shall be governed by applicable State or foreign law in all matters not specifically governed by this section.

(f) The Board shall collect, maintain, and keep open for public inspection a railway equipment register consistent with the manner and format maintained by the Interstate Commerce Commission as of January 1, 1996.

SUBCHAPTER II—COMBINATIONS

§ 11321. Scope of authority

(a) The authority of the Board under this subchapter is exclusive. A rail carrier or corporation participating in or resulting from a transaction approved by or exempted by the Board under this subchapter may carry out the transaction, own and operate property, and exercise control or franchises acquired through the transaction without the approval of a State authority. A rail carrier, corporation, or person participating in that approved or exempted transaction is exempt from the antitrust laws and from all other law, including State and municipal law, as necessary to let that rail carrier, corporation, or person carry out the transaction, hold, maintain, and operate property, and exercise control or franchises acquired through the transaction. However, if a purchase and sale, a lease, or a corporate consolidation or merger is involved in the transaction, the carrier or corporation may carry out the transaction only with the assent of a majority, or the number required under applicable State law, of the votes of the holders of the capital stock of that corporation entitled to vote. The vote must occur at a regular meeting, or special meeting called for that purpose, of those stockholders and the notice of the meeting must indicate its purpose.

(b) A power granted under this subchapter to a carrier or corporation is in addition to and changes its powers under its corporate charter and under State law. Action under this subchapter does not establish or provide for establishing a corporation under the laws of the United States.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 838.)

§ 11322. Limitation on pooling and division of transportation or earnings

(a) A rail carrier providing transportation subject to the jurisdiction of the Board under this part may not agree or combine with another of those rail carriers to pool or divide traffic or services or any part of their earnings without the approval of the Board under this section or section 11123 of this title. The Board may approve and authorize the agreement or combination if the rail carriers involved assent to the pooling or division and the Board finds that a pooling or division of traffic, services, or earnings—

(1) will be in the interest of better service to the public or of economy of operation; and

(2) will not unreasonably restrain competition.

(b) The Board may impose conditions governing the pooling or division and may approve and

authorize payment of a reasonable consideration between the rail carriers.

(c) The Board may begin a proceeding under this section on its own initiative or on application.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 838.)

§ 11323. Consolidation, merger, and acquisition of control

(a) The following transactions involving rail carriers providing transportation subject to the jurisdiction of the Board under this part may be carried out only with the approval and authorization of the Board:

(1) Consolidation or merger of the properties or franchises of at least 2 rail carriers into one corporation for the ownership, management, and operation of the previously separately owned properties.

(2) A purchase, lease, or contract to operate property of another rail carrier by any number of rail carriers.

(3) Acquisition of control of a rail carrier by any number of rail carriers.

(4) Acquisition of control of at least 2 rail carriers by a person that is not a rail carrier.

(5) Acquisition of control of a rail carrier by a person that is not a rail carrier but that controls any number of rail carriers.

(6) Acquisition by a rail carrier of trackage rights over, or joint ownership in or joint use of, a railroad line (and terminals incidental to it) owned or operated by another rail carrier.

(b) A person may carry out a transaction referred to in subsection (a) of this section or participate in achieving the control or management, including the power to exercise control or management, in a common interest of more than one of those rail carriers, regardless of how that result is reached, only with the approval and authorization of the Board under this subchapter. In addition to other transactions, each of the following transactions are considered achievements of control or management:

(1) A transaction by a rail carrier that has the effect of putting that rail carrier and person affiliated with it, taken together, in control of another rail carrier.

(2) A transaction by a person affiliated with a rail carrier that has the effect of putting that rail carrier and persons affiliated with it, taken together, in control of another rail carrier.

(3) A transaction by at least 2 persons acting together (one of whom is a rail carrier or is affiliated with a rail carrier) that has the effect of putting those persons and rail carriers and persons affiliated with any of them, or with any of those affiliated rail carriers, taken together, in control of another rail carrier.

(c) A person is affiliated with a rail carrier under this subchapter if, because of the relationship between that person and a rail carrier, it is reasonable to believe that the affairs of another rail carrier, control of which may be acquired by that person, will be managed in the interest of the other rail carrier.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 838.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11343 of this title prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

A prior section 11323, Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1433; Pub. L. 99-521, §10(a), (b)(1), Oct. 22, 1986, 100 Stat. 2997, related to limitation on ownership of other carriers by household goods freight forwarders, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 11324. Consolidation, merger, and acquisition of control: conditions of approval

(a) The Board may begin a proceeding to approve and authorize a transaction referred to in section 11323 of this title on application of the person seeking that authority. When an application is filed with the Board, the Board shall notify the chief executive officer of each State in which property of the rail carriers involved in the proposed transaction is located and shall notify those rail carriers. The Board shall hold a public hearing unless the Board determines that a public hearing is not necessary in the public interest.

(b) In a proceeding under this section which involves the merger or control of at least two Class I railroads, as defined by the Board, the Board shall consider at least—

(1) the effect of the proposed transaction on the adequacy of transportation to the public;

(2) the effect on the public interest of including, or failing to include, other rail carriers in the area involved in the proposed transaction;

(3) the total fixed charges that result from the proposed transaction;

(4) the interest of rail carrier employees affected by the proposed transaction; and

(5) whether the proposed transaction would have an adverse effect on competition among rail carriers in the affected region or in the national rail system.

(c) The Board shall approve and authorize a transaction under this section when it finds the transaction is consistent with the public interest. The Board may impose conditions governing the transaction, including the divestiture of parallel tracks or requiring the granting of trackage rights and access to other facilities. Any trackage rights and related conditions imposed to alleviate anticompetitive effects of the transaction shall provide for operating terms and compensation levels to ensure that such effects are alleviated. When the transaction contemplates a guaranty or assumption of payment of dividends or of fixed charges or will result in an increase of total fixed charges, the Board may approve and authorize the transaction only if it finds that the guaranty, assumption, or increase is consistent with the public interest. The Board may require inclusion of other rail

carriers located in the area involved in the transaction if they apply for inclusion and the Board finds their inclusion to be consistent with the public interest.

(d) In a proceeding under this section which does not involve the merger or control of at least two Class I railroads, as defined by the Board, the Board shall approve such an application unless it finds that—

(1) as a result of the transaction, there is likely to be substantial lessening of competition, creation of a monopoly, or restraint of trade in freight surface transportation in any region of the United States; and

(2) the anticompetitive effects of the transaction outweigh the public interest in meeting significant transportation needs.

In making such findings, the Board shall, with respect to any application that is part of a plan or proposal developed under section 333(a)–(d) of this title, accord substantial weight to any recommendations of the Attorney General.

(e) No transaction described in section 11326(b) may have the effect of avoiding a collective bargaining agreement or shifting work from a rail carrier with a collective bargaining agreement to a rail carrier without a collective bargaining agreement.

(f)(1) To the extent provided in this subsection, a proceeding under this subchapter relating to a transaction involving at least one Class I rail carrier shall not be considered an adjudication required by statute to be determined on the record after opportunity for an agency hearing, for the purposes of subchapter II of chapter 5 of title 5, United States Code.

(2) Ex parte communications, as defined in section 551(14) of title 5, United States Code, shall be permitted in proceedings described in paragraph (1) of this subsection, subject to the requirements of paragraph (3) of this subsection.

(3)(A) Any member or employee of the Board who makes or receives a written ex parte communication concerning the merits of a proceeding described in paragraph (1) shall promptly place the communication in the public docket of the proceeding.

(B) Any member or employee of the Board who makes or receives an oral ex parte communication concerning the merits of a proceeding described in paragraph (1) shall promptly place a written summary of the oral communication in the public docket of the proceeding.

(4) Nothing in this subsection shall be construed to require the Board or any of its members or employees to engage in any ex parte communication with any person. Nothing in this subsection or any other law shall be construed to limit the authority of the members or employees of the Board, in their discretion, to note in the docket or otherwise publicly the occurrence and substance of an ex parte communication.

(Added Pub. L. 104–88, title I, §102(a), Dec. 29, 1995, 109 Stat. 839.)

§ 11325. Consolidation, merger, and acquisition of control: procedure

(a) The Board shall publish notice of the application under section 11324 in the Federal Register by the end of the 30th day after the application is filed with the Board. However, if the application is incomplete, the Board shall reject it by the end of that period. The order of rejection is a final action of the Board. The published notice shall indicate whether the application involves—

(1) the merger or control of at least two Class I railroads, as defined by the Board, to be decided within the time limits specified in subsection (b) of this section;

(2) transactions of regional or national transportation significance, to be decided within the time limits specified in subsection (c) of this section; or

(3) any other transaction covered by this section, to be decided within the time limits specified in subsection (d) of this section.

(b) If the application involves the merger or control of two or more Class I railroads, as defined by the Board, the following conditions apply:

(1) Written comments about an application may be filed with the Board within 45 days after notice of the application is published under subsection (a) of this section. Copies of such comments shall be served on the Attorney General and the Secretary of Transportation, who may decide to intervene as a party to the proceeding. That decision must be made by the 15th day after the date of receipt of the written comments, and if the decision is to intervene, preliminary comments about the application must be sent to the Board by the end of the 15th day after the date of receipt of the written comments.

(2) The Board shall require that applications inconsistent with an application, notice of which was published under subsection (a) of this section, and applications for inclusion in the transaction, be filed with it by the 90th day after publication of notice under that subsection.

(3) The Board must conclude evidentiary proceedings by the end of 1 year after the date of publication of notice under subsection (a) of this section. The Board must issue a final decision by the 90th day after the date on which it concludes the evidentiary proceedings.

(c) If the application involves a transaction other than the merger or control of at least two Class I railroads, as defined by the Board, which the Board has determined to be of regional or national transportation significance, the following conditions apply:

(1) Written comments about an application, including comments of the Attorney General and the Secretary of Transportation, may be filed with the Board within 30 days after notice of the application is published under subsection (a) of this section.

(2) The Board shall require that applications inconsistent with an application, notice of which was published under subsection (a) of this section, and applications for inclusion in the transaction, be filed with it by the 60th

day after publication of notice under that subsection.

(3) The Board must conclude any evidentiary proceedings by the 180th day after the date of publication of notice under subsection (a) of this section. The Board must issue a final decision by the 90th day after the date on which it concludes the evidentiary proceedings.

(d) For all applications under this section other than those specified in subsections (b) and (c) of this section, the following conditions apply:

(1) Written comments about an application, including comments of the Attorney General and the Secretary of Transportation, may be filed with the Board within 30 days after notice of the application is published under subsection (a) of this section.

(2) The Board must conclude any evidentiary proceedings by the 105th day after the date of publication of notice under subsection (a) of this section. The Board must issue a final decision by the 45th day after the date on which it concludes the evidentiary proceedings.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11345 of this title prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 11326. Employee protective arrangements in transactions involving rail carriers

(a) Except as otherwise provided in this section, when approval is sought for a transaction under sections 11324 and 11325 of this title, the Board shall require the rail carrier to provide a fair arrangement at least as protective of the interests of employees who are affected by the transaction as the terms imposed under section 5(2)(f) of the Interstate Commerce Act before February 5, 1976, and the terms established under section 24706(c)¹ of this title. Notwithstanding this part, the arrangement may be made by the rail carrier and the authorized representative of its employees. The arrangement and the order approving the transaction must require that the employees of the affected rail carrier will not be in a worse position related to their employment as a result of the transaction during the 4 years following the effective date of the final action of the Board (or if an employee was employed for a lesser period of time by the rail carrier before the action became effective, for that lesser period).

(b) When approval is sought under sections 11324 and 11325 for a transaction involving one Class II and one or more Class III rail carriers, there shall be an arrangement as required under subsection (a) of this section, except that such arrangement shall be limited to one year of severance pay, which shall not exceed the amount of earnings from the railroad employment of that employee during the 12-month period immediately preceding the date on which the application for approval of such transaction is filed with the Board. The amount of such sever-

ance pay shall be reduced by the amount of earnings from railroad employment of that employee with the acquiring carrier during the 12-month period immediately following the effective date of the transaction. The parties may agree to terms other than as provided in this subsection.

(c) When approval is sought under sections 11324 and 11325 for a transaction involving only Class III rail carriers, this section shall not apply.

CHAPTER 115—FEDERAL-STATE RELATIONS

Sec.

11501. Tax discrimination against rail transportation property.

11502. Withholding State and local income tax by rail carriers.

§ 11501. Tax discrimination against rail transportation property

(a) In this section—

(1) the term “assessment” means valuation for a property tax levied by a taxing district;

(2) the term “assessment jurisdiction” means a geographical area in a State used in determining the assessed value of property for ad valorem taxation;

(3) the term “rail transportation property” means property, as defined by the Board, owned or used by a rail carrier providing transportation subject to the jurisdiction of the Board under this part; and

(4) the term “commercial and industrial property” means property, other than transportation property and land used primarily for agricultural purposes or timber growing, devoted to a commercial or industrial use and subject to a property tax levy.

(b) The following acts unreasonably burden and discriminate against interstate commerce, and a State, subdivision of a State, or authority acting for a State or subdivision of a State may not do any of them:

(1) Assess rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the ratio that the assessed value of other commercial and industrial property in the same assessment jurisdiction has to the true market value of the other commercial and industrial property.

(2) Levy or collect a tax on an assessment that may not be made under paragraph (1) of this subsection.

(3) Levy or collect an ad valorem property tax on rail transportation property at a tax rate that exceeds the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

(4) Impose another tax that discriminates against a rail carrier providing transportation subject to the jurisdiction of the Board under this part.

(c) Notwithstanding section 1341 of title 28 and without regard to the amount in controversy or citizenship of the parties, a district court of the United States has jurisdiction, concurrent with other jurisdiction of courts of the United States and the States, to prevent a violation of subsection (b) of this section. Relief may be granted under this subsection only if the ratio of assessed value to true market value of rail transportation property exceeds by at least 5 percent the ratio of assessed value to true market value of other commercial and industrial property in the same assessment jurisdiction. The burden of proof in determining assessed value and true market value is governed by State law. If the ratio of the assessed value of other commercial and industrial property in the assessment jurisdiction to the true market value of all other

commercial and industrial property cannot be determined to the satisfaction of the district court through the random-sampling method known as a sales assessment ratio study (to be carried out under statistical principles applicable to such a study), the court shall find, as a violation of this section—

(1) an assessment of the rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the assessed value of all other property subject to a property tax levy in the assessment jurisdiction has to the true market value of all other commercial and industrial property; and

(2) the collection of an ad valorem property tax on the rail transportation property at a tax rate that exceeds the tax ratio rate applicable to taxable property in the taxing district.

The complaint must state the facts that are the subject of the violation. The Board may dismiss a complaint it determines does not state reasonable grounds for investigation and action. However, the Board may not dismiss a complaint made against a rail carrier providing transportation subject to the jurisdiction of the Board under this part because of the absence of direct damage to the complainant.
