

proposed to be located on land within any unit of or land affiliated with the National Park System, the National Wildlife Refuge System, the National Wilderness Preservation System, the National Trails System, the National Wild and Scenic Rivers System, a National Reserve, a National Monument, or lands referenced in Public Law 108-421 for which a State has implemented a conservation management plan, if operation of the facility would be inconsistent with restrictions placed on such land.

(d) **CONSIDERATIONS.**—When evaluating an application under this section, the Board shall consider and give due weight to the following, as applicable:

(1) the land-use, zoning, and siting regulations or solid waste planning requirements of the State or State subdivision in which the facility is or will be located that are applicable to solid waste transfer facilities, including those that are not owned or operated by or on behalf of a rail carrier;

(2) the land-use, zoning, and siting regulations or solid waste planning requirements applicable to the property where the solid waste rail transfer facility is proposed to be located;

(3) regional transportation planning requirements developed pursuant to Federal and State law;

(4) regional solid waste disposal plans developed pursuant to State or Federal law;

(5) any Federal and State environmental protection laws or regulations applicable to the site;

(6) any unreasonable burdens imposed on the interstate transportation of solid waste by railroad, or the potential for discrimination against the railroad transportation of solid waste, a solid waste rail transfer facility, or a rail carrier that owns or operates such a facility; and

(7) any other relevant factors, as determined by the Board.

(e) **EXISTING FACILITIES.**—Upon the granting of<sup>2</sup> petition from the State in which a solid waste rail transfer facility is operating as of the date of enactment of the Clean Railroads Act of 2008 by the Board, the facility shall submit a complete application for a siting permit to the Board pursuant to the procedures issued pursuant to subsection (b). No State may enforce a law, regulation, order, or other requirement affecting the siting of a facility that is operating as of the date of enactment of the Clean Railroads Act of 2008 until the Board has approved or denied a permit pursuant to subsection (c).

(f) **EFFECT OF LAND-USE EXEMPTION.**—If the Board grants a land-use exemption to a solid waste rail transfer facility, all State laws, regulations, orders, or other requirements affecting the siting of a facility are preempted with regard to that facility. An exemption may require compliance with such State laws, regulations, orders, or other requirements.

(g) **INJUNCTIVE RELIEF.**—Nothing in this section precludes a person from seeking an injunction to enjoin a solid waste rail transfer facility from being constructed or operated by or on be-

half of a rail carrier if that facility has materially violated, or will materially violate, its land-use exemption or if it failed to receive a valid land-use exemption under this section.

(h) **FEEES.**—The Board may charge permit applicants reasonable fees to implement this section, including the costs of third-party consultants.

(i) **DEFINITIONS.**—In this section the terms “solid waste”, “solid waste rail transfer facility”, and “State requirements” have the meaning given such terms in section 10908(e).

#### SUBCHAPTER I—GENERAL REQUIREMENTS

#### § 11101. Common carrier transportation, service, and rates

(a) A rail carrier providing transportation or service subject to the jurisdiction of the Board

<sup>2</sup> So in original. Probably should be followed by “a”.

under this part shall provide the transportation or service on reasonable request. A rail carrier shall not be found to have violated this section because it fulfills its reasonable commitments under contracts authorized under section 10709 of this title before responding to reasonable requests for service. Commitments which deprive a carrier of its ability to respond to reasonable requests for common carrier service are not reasonable.

(b) A rail carrier shall also provide to any person, on request, the carrier's rates and other service terms. The response by a rail carrier to a request for the carrier's rates and other service terms shall be—

(1) in writing and forwarded to the requesting person promptly after receipt of the request; or

(2) promptly made available in electronic form.

(c) A rail carrier may not increase any common carrier rates or change any common carrier service terms unless 20 days have expired after written or electronic notice is provided to any person who, within the previous 12 months—

(1) has requested such rates or terms under subsection (b); or

(2) has made arrangements with the carrier for a shipment that would be subject to such increased rates or changed terms.

(d) With respect to transportation of agricultural products, in addition to the requirements of subsections (a), (b), and (c), a rail carrier shall publish, make available, and retain for public inspection its common carrier rates, schedules of rates, and other service terms, and any proposed and actual changes to such rates and service terms. For purposes of this subsection, agricultural products shall include grain as defined in section 3 of the United States Grain Standards Act (7 U.S.C. 75) and all products thereof, and fertilizer.

(e) A rail carrier shall provide transportation or service in accordance with the rates and service terms, and any changes thereto, as published or otherwise made available under subsection (b), (c), or (d).

(f) The Board shall, by regulation, establish rules to implement this section. The regulations shall provide for immediate disclosure and dissemination of rates and service terms, including classifications, rules, and practices, and their effective dates. Final regulations shall be adopted by the Board not later than 180 days after January 1, 1996.

L. 103-180, §8, Dec. 3, 1993, 107 Stat. 2052, related to duties of carriers to provide transportation and service, prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a). See sections 11101, 13710, 14101, and 15701 of this title.

#### AMENDMENTS

1996—Subsec. (f). Pub. L. 104-287 substituted “January 1, 1996” for “the effective date of the ICC Termination Act of 1995”.

#### EFFECTIVE DATE

Chapter effective Jan. 1, 1996, except as otherwise provided in Pub. L. 104-88, see section 2 of Pub. L. 104-88, set out as a note under section 701 of this title.

#### § 11102. Use of terminal facilities

(a) The Board may require terminal facilities, including main-line tracks for a reasonable distance outside of a terminal, owned by a rail carrier providing transportation subject to the jurisdiction of the Board under this part, to be used by another rail carrier if the Board finds that use to be practicable and in the public interest without substantially impairing the ability of the rail carrier owning the facilities or entitled to use the facilities to handle its own business. The rail carriers are responsible for establishing the conditions and compensation for use of the facilities. However, if the rail carriers cannot agree, the Board may establish conditions and compensation for use of the facilities under the principle controlling compensation in condemnation proceedings. The compensation shall be paid or adequately secured before a rail carrier may begin to use the facilities of another rail carrier under this section.

(b) A rail carrier whose terminal facilities are required to be used by another rail carrier under this section is entitled to recover damages from the other rail carrier for injuries sustained as the result of compliance with the requirement or for compensation for the use, or both as appropriate, in a civil action, if it is not satisfied with the conditions for use of the facilities or if the amount of the compensation is not paid promptly.

(c)(1) The Board may require rail carriers to enter into reciprocal switching agreements, where it finds such agreements to be practicable and in the public interest, or where such agreements are necessary to provide competitive rail service. The rail carriers entering into such an agreement shall establish the conditions and compensation applicable to such agreement, but, if the rail carriers cannot agree upon such conditions and compensation within a reasonable period of time, the Board may establish such conditions and compensation.

(2) The Board may require reciprocal switching agreements entered into by rail carriers pursuant to this subsection to contain provisions for the protection of the interests of employees affected thereby.

(d) The Board shall complete any proceeding under subsection (a) or (b) within 180 days after the filing of the request for relief.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 831.)
