PRESIDENT OBAMA'S HEALTH CARE REFORM ADDRESS TO CONGRESS AVAILABLE ON GPO'S FEDERAL DIGITAL SYSTEM

WASHINGTON—President Barack Obama gave a historic address on health care reform to a joint session of Congress last night. The authentic, electronic transcript of the President's remarks is available on the U.S. Government Printing Office's (GPO) Federal Digital System (FDsys). This system gives the American people a one-stop site to authentic, published Government information. FDsys allows GPO to receive information from Federal agencies in all three branches of Government and create a repository for permanent, public access. FDsys offers incredible search capabilities for users such as: searching by Congressional Committee, a Member of Congress, keyword and date. FDsys was named by *Government Computer News* as one of the Government's best Web sites.

The GPO is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, authenticating, and preserving published U.S. Government information in all its forms. GPO is responsible for the production and distribution of information products and services for all three Branches of the Federal Government. In addition to publication sales, GPO makes government information available at no cost to the public through *GPO Access* (www.gpoaccess.gov) and GPO's Federal Digital System (FDsys) www.fdsys.gov, and through partnerships with 1,240 libraries nationwide participating in the Federal Depository Library Program. For more information, please visit www.gpo.gov.
