

**§ 301.55-3**

(c) Any other product, article, or means of conveyance not listed in paragraphs (a) or (b) of this section that an inspector determines presents a risk of spreading the South American cactus moth, after the inspector provides written notification to the person in possession of the product, article, or means of conveyance that it is subject to the restrictions of this subpart.

**§ 301.55-3 Quarantined areas.**

(a) Except as otherwise provided in paragraph (b) of this section, the Administrator will list as a quarantined area in paragraph (c) of this section each State, or each portion of a State, in which the South American cactus moth has been found by an inspector, in which the Administrator has reason to believe that the South American cactus moth is present, or that the Administrator considers necessary to quarantine because of its inseparability for quarantine enforcement purposes from localities where South American cactus moth has been found. Less than an entire State will be designated as a quarantined area only if the Administrator determines that:

(1) The State has adopted and is enforcing restrictions on the intrastate movement of the regulated articles that are equivalent to those imposed by this subpart on the interstate movement of regulated articles; and

(2) The designation of less than the entire State as a quarantined area will be adequate to prevent the interstate spread of the South American cactus moth.

(b) The Administrator or an inspector may temporarily designate any nonquarantined area in a State as a quarantined area in accordance with the criteria specified in paragraph (a) of this section. The Administrator will give a copy of this regulation along with written notice of the temporary designation to the owner or person in possession of the nonquarantined area, or, in the case of publicly owned land, to the person responsible for the management of the nonquarantined area. Thereafter, the interstate movement of any regulated article from an area temporarily designated as a quarantined area will be subject to this subpart. As soon as practicable, the area

**7 CFR Ch. III (1-1-14 Edition)**

will be added to the list in paragraph (c) of this section or the designation will be terminated by the Administrator or an inspector. The owner or person in possession of, or, in the case of publicly owned land, the person responsible for the management of, an area for which designation is terminated will be given written notice of the termination as soon as practicable.

(c) The following areas are designated as quarantined areas: The States of Alabama, Florida, Georgia, Louisiana, Mississippi, and South Carolina.

[74 FR 27073, June 8, 2009, as amended at 75 FR 41074, July 15, 2010]

**§ 301.55-4 Conditions governing the interstate movement of regulated articles from quarantined areas.**

Any regulated article may be moved interstate from a quarantined area<sup>3</sup> only if moved under the following conditions:

(a) With a certificate or limited permit issued and attached in accordance with §§ 301.555 and 301.55-8;

(b) Without a certificate or limited permit if:

(1) The regulated article originated outside the quarantined area and is either moved in an enclosed vehicle or is completely enclosed by a covering (such as canvas, plastic, or closely woven cloth) adequate to prevent access by South American cactus moths while moving through the quarantined area; and

(2) The point of origin of the regulated article is indicated on the waybill, and the enclosed vehicle or the enclosure that contains the regulated article is not opened, unpacked, or unloaded in the quarantined area; and

(3) The regulated article is moved through the quarantined area without stopping except for refueling or for traffic conditions, such as traffic lights or stop signs.

(c) Without a certificate or limited permit if the regulated articles are cactus pads and fruits for consumption from outside the quarantined area that are being moved in accordance with the

<sup>3</sup>Requirements under all other applicable Federal domestic plant quarantines and regulations must also be met.
