

**CIRCULAR LETTER NO. 986**

April 13, 2017

**TO:** Publishing and Printing Officials of the Federal Government

**SUBJECT:** GPO Oklahoma City Regional Printing Procurement Office to be Temporarily Closed

Effective Monday, April 17, 2017, the GPO Oklahoma City Regional Printing Procurement Office will be temporarily closed. The Printing Specialist, Roland Whitehurst, has been promoted to the Manager of the Seattle regional office and he will be vacating the Oklahoma City office in order to transition to his new role. GPO is committed to continuing to provide the same timely procurement consulting and support services for all of your printing and publishing support needs.

We ask current Oklahoma City users to immediately begin submitting any new SF-1s to our Dallas, TX Regional Office or our Denver, CO Regional Office, depending upon your location. Your new Contract Administrator for any existing Term Contracts or one time procurements will be contacting you directly.

The Dallas office will support all of the customers located in Oklahoma or Texas. The Denver office will support all of the customers located in Kansas.

The Dallas and Denver personnel are prepared to provide you with a level of service commensurate with that of the Oklahoma City office. However, you may also choose to work with any GPO office that provides the service level that you believe is most suitable for your needs.

The contact information for the Dallas office is as follows:

**Dallas Regional Office**

All team members have access to the team mailbox: [infodallas@gpo.gov](mailto:infodallas@gpo.gov)
