QUALITY CONTROL REQUIREMENTS: Prior to start-up, the contractor must put into effect, and maintain, within their own organization, an independent quality assurance organization of sufficient size and expertise to monitor the operations performed and inspect the products of each operation to a degree and extent that will insure the Government’s quality assurance, inspection, and acceptance provisions herein are met. The contractor must perform the process controls, inspections, and tests required to substantiate that the checks provided under this contract conform to the specifications and contract requirements.

OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed approximately three (3) months for Government processing of the security requirements and printing of Prior to Production test samples (SSA and/or Bank test checks), and five (5) years for actual production as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “EXTENSION OF CONTRACT TERM” clause. See also “ECONOMIC PRICE ADJUSTMENT” for authorized pricing adjustment(s).
EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from the Date of Award through February 28, 2017 and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted "Consumer Price Index For All Urban Consumers - Commodities Less Food" (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending 3 months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending July 31, 2015 called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

A department supervisor must hold the key to the container. The department supervisor will periodically transfer the defective checks to the vault for storage until they are delivered to the person charged with their destruction. Such checks shall be destroyed by shredding or hydro-pulping, after which the residue may be disposed of by the contractor as waste. The width of the shreds shall not be more than 3/8”. Waste/defective check destruction must be performed on site.

Unauthorized persons shall not be permitted within areas where these items are being manufactured and/or stored. Before authorizing any employee to enter such area, the employee must adhere to the PERSONNEL SECURITY AND SUITABILITY and PUBLIC TRUST SECURITY REQUIREMENTS.

The contractor will be held responsible for maintaining proper control and handling to prevent any information or materials required to produce the product ordered under these specifications from falling into unauthorized hands. Unless otherwise indicated herein, all extra copies, materials, waste, etc., must be destroyed. Paper documents containing confidential information must be destroyed by burning, pulping, shredding, macerating, or similar means that ensures the information cannot be recovered and used. Please note that hand tearing or lining through documents does not meet SSA guidelines for appropriate destruction of the product. 1) prior to award;
2) Prior to the beginning of production; and
3) At any time or times it may elect during the term of the contract, to ascertain whether the Third Party Draft Checks are being produced, stored, shipped, and delivered in accordance with these requirements, and that facilities are suitable, secure, and safe for storage of reproducibles, raw materials and/or checks. Inspections of the contractor’s plant may be announced or unannounced.

PERSONNEL SECURITY AND SUITABILITY REQUIREMENTS:

The Contractor must comply with the following Personnel Security and Suitability requirements:
Contractor personnel are considered Federal employees for purposes of applying provisions of the Privacy Act of 1974, Tax Reform Act of 1976, and SSA regulation 1 and Section 1106 of the Social Security Act on the confidentiality of and disclosure and protection of information entrusted to them.

Contractor personnel are subject to the same personnel security and suitability requirements as SSA employees. The provisions of Executive Order 10450, Executive Order 12968 and Title 5 of the Code of Federal Regulations (CFR), parts 731, 732 and 736 require that: "Every competitive, excepted and contractor position must be designated at a level of sensitivity that is commensurate with the responsibilities and other attributes, (such as policy making, fiduciary, public contact or public trust) of the position as they relate to the efficiency of the service, and;

All Federal service and contractor employees must be designated, in terms of their national security sensitivity, to assure appropriate screening. The required background investigation is conducted to provide a basis for ensuring that the employment of an individual is clearly consistent with the interests of the national security."

The Contractor shall be required to provide the information required for such background checks and shall agree to abide by SSA personnel security and suitability determinations.

Before Government authorization is granted to any employee to enter the secured and/or vault area(s) where the manufacture, storage or shipment of items covered by this specification are being produced or held, the background security check must be conducted by the Government. The contractor shall not allow anyone into the secured area(s) until written security clearance has been furnished by the Government.

Personnel Screening: Before authorizing any employee to enter the secure room or vault, or to participate in any way in the manufacture, storage, or shipment of any of the items covered by this contract, the contractor shall submit to the Government the name, address, date and place of birth, Social Security Number, race, sex, and fingerprints of the employee for screening purposes. The Government will retain the prerogative for granting access to any of the secure areas.

PUBLIC TRUST SECURITY REQUIREMENTS:

This contract has been designated Public Trust Position Level 5C. Due to the sensitive nature of the information contained in the products produced under this contract, contractor employees performing under this contract will be subject to a thorough civil and criminal background check.

"Performing under this contract” is defined as working on-site at an SSA facility (including visiting the SSA site for any reason) or having access to Government programmatic or sensitive information.

Within two (2) days following contract award, the contractor must provide to SSA an Electronic Questionnaire for Investigations Process (eQIP) applicant listing of all individuals for whom the contractor is requesting a suitability determination (i.e., background investigation). This listing should include the following:

- Contractor’s name
- Contract number
- Contractor’s point of contact (CPOC) name
- CPOC’s contact information including email address
- Each applicant’s full name, Social Security Number (SSN), date of birth, and place of birth (must show city and state if born in the United States (U.S.) OR city and country if born outside the U.S.)

The background investigation process will not start until the applicant listing is submitted. Send the applicant listing via Fax to Center for Personnel Security and Project Management (CPSPM) Suitability Team (410) 966-0640 or via traceable means via common carrier to the Social Security Administration, CPSPM Suitability Team, 2601 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235.

Once SSA receives and reviews the applicant listing, SSA will initiate the eQIP. SSA will Email notification to the CPOC the name of each applicant invited into the eQIP website to complete their background investigation form. The CPOC will provide the website to the applicants to complete their eQIP form electronically. The applicant will have up to 14 calendar days following SSA notification to the CPOC of the eQIP invitations to complete the eQIP form.
The applicant must print the signature pages of the SF 85P form prior to releasing the application in eQIP, sign the signature pages and provide the signed originals to the CPOC. See Exhibit B: Questionnaire for Public Trust Positions - Sample Form SF85P.

The following is a list of documents the contractor employees will be responsible for completing:

- Original signed and dated eQIP signature pages as specified in the above paragraph.
- Two (2) “Fingerprint Cards” (FD-258). See Exhibit C.
  NOTE: The contractor will absorb the costs for obtaining fingerprints.
- One (1) “Declaration for Federal Employment” (Optional Form 306). See Exhibit D.
- One (1) “Fair Credit Reporting Act Authorization Form”. See Exhibit E.
- For a non-U.S. citizen, one (1) legible photocopy of the work authorization permit and social security card.

The CPOC must ensure all paper forms are fully completed and signed prior to submission to SSA. All forms and fingerprinting cards must be submitted at least 15 workdays prior to the date work is to begin on the contract. Fingerprint cards and all paper forms must be legible or typed in black ink and all signatures must be in black ink. There must be no “breaks” in residences or employment. SSA requires complete addresses, including zip codes and phone numbers with area code. SSA must receive forms and fingerprint cards within 30 calendar days after notification of the eQIP invitation. It is the responsibility of the contractor to ensure fingerprint cards are processed through their local police departments or other authorized fingerprint printers. SSA will return incomplete forms back to the contractor. Forms may be obtained by calling SSA Personnel Security Suitability Program Officer (SPO).

The CPOC will submit one cover sheet containing the names of all of the individuals for whom the contractor is submitting completed paperwork. This cover sheet should include the contract number, each applicant’s full name, each applicant’s Social Security Number (SSN), each applicant’s date of birth, and each applicant’s place of birth. The CPOC will submit this cover sheet along with the completed paper forms and two FD-258 fingerprint charts for each applicant via traceable means via common carrier to: SSA, CPSPM Suitability Team, 2601 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235.

The CPOC will also email a copy of the cover sheet to the Contracting Officer’s Technical Representative (COTR) to the email address shown in the contract. Before forwarding, the CPOC will remove all personal information from the applicant list (SSN, date of birth and place of birth).

NOTE: IT IS THE RESPONSIBILITY OF THE CPOC TO ENSURE CLEARANCES ARE OBTAINED PRIOR TO ANY CONTRACT TESTING.

The CPOC will follow this instruction for new contract employees hired during the contract term.

Suitability Determination:

A Federal Bureau of Investigation fingerprint check is part of the basis used for making a suitability determination. This determination is final unless information obtained during the remainder of the full background investigation, conducted by the Office of Personnel Management, is such that SSA would find the contractor personnel unsuitable to continue performing under this contract. CPSPM will notify the CPOC, COTR, and Contracting Officer of the result of these determinations.

CONTRACTOR LIABILITY: The contractor shall be responsible for all electronic media, printed checks, plates, SSA Logo, blank proofs or photocopies thereof, and all other materials necessary to produce this product, while in their custody and control. The contractor agrees to pay the Government the amount of loss(es) sustained by misappropriation or improper use of the electronic media, paper, printed checks, plates or proofs in the custody and control of the contractor.

The contractor shall guarantee that the imprinted checks:

- Will have no missing numbers.
- Will have the correct Common Accounting Number (CAN) numbers on them.
• Are sequential and shipped to the correct address.
• That duplicate numbers or blank checks will not be included in shipments.

NOTE: The contractor shall reimburse the Government for any costs incurred from the use of checks furnished by the contractor which do not conform to the specifications.

The contractor may be held responsible and/or liable to reimburse SSA and/or the bank for any misprinted, incorrect and/or duplicate stock, blank stock and/or incorrectly delivered stock resulting in fraudulent or counterfeit activity. Such activity will be determined by SSA and/or the bank and reimbursement will be required by the contractor within 30 workdays upon notification.

Upon notification from SSA of any incorrect printing or incorrect shipment, the contractor will replace order(s) with a new shipment of stock within two (2) workdays and shall deliver to the office by overnight, traceable delivery at no additional cost to the Government.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor’s/subcontractor’s facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract.

“Prime Contractor”, specified in the “Preaward Survey” section, is defined to include wholly owned subsidiaries of the Prime Contractor. As such, the facilities of the wholly owned subsidiaries are also eligible to perform the predominant function of presswork under their current contractor codes and their current quality level certifications (at time of bid submission), and as the back-up facility in accordance with the specifications of Program.

Attending the preaward survey will be representatives from GPO and/or SSA. The preaward survey will include a review of all subcontractors involved, along with their specific functions; and, the contractor’s production plans as required by this specification.

If award is predicated on the purchase of production and/or systems equipment, the contractor must provide purchase order(s) with delivery date(s) of equipment to arrive at least 90 calendar days prior to the start of live production, on or about December 1, 2015.

If the Government, during the preaward survey, concludes that the contractor does not or cannot meet all of the requirements as described in this contract, the Government reserves the right to deem the contractor unresponsive and will proceed to the next responsive bidder, if applicable.

PRODUCTION PLANS: The contractor shall present, in writing, to the Contracting Officer within five (5) workdays of being notified to do so by the Contracting Officer or his/her representative, detailed plans for each of the following activities. The workday after notification to submit will be the first day of the schedule. These proposed plans are subject to review and approval by the government and award will not be made prior to approval of same.

NOTE: THE GOVERNMENT RESERVES THE RIGHT TO WAIVE SOME OR ALL OF THESE PLANS.

Backup Facility/Contingency Plan - Failure to deliver checks in a timely manner would have a major negative impact on the Government. Therefore, if for any reason(s) (Act of God, labor disagreements, etc.) the contractor is unable to perform at the said location for a period longer than forty-eight (48) hours, the contractor must have a backup facility with the capability of producing the checks. This backup facility must be operated by the contractor, and must meet the requirements of this contract.

Plans for this contingency production must be prepared and submitted to the Contracting Officer as part of the preaward survey. These plans must include the location of the facility to be used, equipment available at the facility, security plans at that facility, and a timetable for the start of production at that facility. Part of this plan must also include the transportation of Government materials from one facility to the other.

Note: All terms and conditions of this contract will apply to the back up facility.
**Distribution Plan** - This plan must include sufficient detail as to how the Contractor will comply with all applicable shipping requirements.

**Material Handling and Inventory Control** - This plan must explain in detail how the following materials will be handled: incoming raw materials, work-in-progress materials, and quality control inspection materials.

**Personnel Plan** - This plan must include a listing of all personnel who will be involved with this contract. For any new employees, the plan must include the source of these employees, and a description of the training programs the employees will be given to familiarize them with the requirements of this program.

**Production Plan** - This plan must include items such as a detailed listing of all production equipment and equipment capacities to be utilized on this contract. If new equipment is to be utilized, documentation of the source, delivery schedule, and installation dates are required.

The contractor must disclose in their production plan their intentions for the use of any subcontractors for any materials necessary under this contract, capacity that is available for these workloads and if a subcontractor will be handling SSA checks, the plan must include the same information required from the contractor for all items contained under “Security Requirements” and “Preaward Survey”. If the subcontractor for any operation is added at any time after award, the contractor must submit the subcontractor’s proposed plans which are subject to review and approval by the Government. NOTE: The subcontractor must be approved by the Government prior to production starting in that facility.

**Security Control Plan** - This plan must provide the details of the contractor’s entire production facility and surrounding areas. Part of the Security Control Plan must include a floor plan detailing the area(s) to be used, showing existing walls, equipment to be used, and the printing and finishing locations. This plan must also address all topics noted in the section detailing the Security Requirements.

**See Page 3 of 24: SECURITY REQUIREMENTS**

**Quality Control Plan** - The contractor must describe in detail their quality control/quality assurance plan including how, when, where, and by whom the items in the plan will be performed. This plan must also address all topics noted in the section detailing the Quality Control Requirements.

The **Quality Control Plan** must include, as a minimum, the following elements:

1. Quality assurance of all materials (e.g., check paper and inks). Each homogeneous lot of check paper and inks shall be tested for compliance with specification requirements. Records of all materials tests and inspections shall be maintained and made available to the Government upon request. These records include tests and inspections performed by the contractor and/or by third party laboratories. If the contractor is receiving test and inspection data from material suppliers, these records shall also be maintained and made available to the Government upon request.

2. Process controls inspections and tests during all phases of production.

3. Targets for control and measurement of color register.

4. Use of standard specimens for color and printing matching purposes when printing checks.

6. Use of equipment in the manufacture of checks which will reject, or identify for rejection, those with defects which cause incorrect operation of high speed print equipment, high speed MICR Reader/Sorter, or other equipment used in the issuance and payment of checks.

7. Examination of each delivery order to assure that pre-printed serial numbers are not duplicated from previous orders. If this is the case, the contractor must immediately notify the Contracting Officer or designee.

8. Independent verification of the machine set-up as to disbursing check serial number at the beginning of the numerical printing operations and prior to resuming such operations after each machine stoppage.
9. Audit of each batch of checks involved in a machine jam or malfunction during numerical printing or MICR encoding to verify the accuracy of such printing and MICR encoding.

10. Independent inspection and approval of checks made up specifically to replace defective checks and of their insertion in numerical sequence within the related batches.

11. All records covering the manufacturing, packaging and shipping of the checks must be identified by the serial numbers of the checks when applicable. They must also contain the following information:
   (a) Employee(s) handling the checks
   (b) Description of any difficulties encountered
   (c) Date
   (d) Time
   (e) Machine identification

12. Records of all tests and inspections. When quantitative results are available, they shall be recorded. Results of non-quantitative inspections (e.g. visual matches) shall also be recorded.

13. Records of process controls sufficient to validate their effectiveness.

14. All quality system records shall be maintained throughout production and be made available to the Government upon request.

15. Appointment of an official who shall be responsible for the operation of the quality control system and for investigating and ascertaining the causes of deficiencies found in checks shipped.

   NOTE: A Certificate of Inspection of each shipment, certifying that the checks were tested and inspected and found to comply with all requirements and giving the number of the final inspection, may be required by the Contracting Officer.

16. Inspection for conformance to color standards and integrity of numbers.

17. Performance of Finished Product: Checks produced under these specifications must be guaranteed to function properly when processed. Checks require precision spacing, printing, perforating, and trimming.

Recovery Plan - A recovery system will be required to ensure that all defective, missing, or mutilated pieces detected are identified, reprinted, and replaced.

- Amount block (for numeric amount).
- Three accounting/management information memo lines.

CHECK SECURITY FEATURES: The contractor must provide the Government with the following security features built into the checks ordered during the course of this contract:

- **Chain-link Design Watermark** – Created by the Fourdrinier (dandy-roll) papermaking process, this overall design is pressed into the wet paper, displacing some fibers thereby achieving various levels of light transmission which allow easy recognition from either side as a two-dimensional watermark which cannot be photocopied or scanned, removed, corrupted or faithfully replicated. The watermark design must be Conservator or SSA approved functional and aesthetic equivalent.

- **Invisible Fluorescent Security Fibers** – Paper must contain two (2) different colors of fibers (blue and yellow-green) that are embedded into the paper, invisible to the naked eye and viewable only with a U-V light. This feature therefore cannot be photocopied or scanned and is valuable as an additional tool in determining document authenticity.

- **Toner Retention Treatment** – At least the front of the paper must be fully treated with a security level toner retention purposed to facilitate the bonding of laser printed toner characters to the paper surface to deter mechanical alteration through removal of toner data via tape-lift, scraping or other abrasive techniques so that attack results in either the inability to effectively remove laser printed data, or a perceptible disruption of the surface print and/or fibers. The toner retention treatment must be either TA4 or SSA approved functional equivalent to TA4 which is a full-face toner retention treatment developed for high-speed laser printers such as the Xerox 4635 series and Xerox DP180 as well as for general laser-printers.

- **Full Chemical Sensitization** – The paper pulp must contain chemical reagents to the five (5) families of known chemical alteration agents. If chemicals from the families of oxidants, polar solvents, non-polar solvents, acids, or alkalis are applied to attempt localized chemical alteration, noticeable colored stains will appear through the
paper and be visible from either side.

- Warning Band on top of check
- Logo line of the words “SECURE DOCUMENT” document for the signature line
- VOID pantograph if check is copied. Void Pantograph should not appear in amount box and signature line.
  NOTE: ANY VOID FEATURE USED BY THE CONTRACTOR CANNOT VIOLATE ANY COPYRIGHTS OR PATENTS.
- Padlock icon on the face. Exact location to be determined.

The contractor may also suggest or notify the Government of additional industry standard security features and technologies when possible to improve the security of the checks during the course of this contract. Acceptance of new technologies or altering of the checks is at the Government’s discretion. In the event any new technology is approved by SSA, the cost will be negotiated between the contractor and the Government.

**PAPER SAMPLES:** Contractor to supply ten (10) 8-1/2 x 11” sheets of blank production stock containing all security features and meeting all required paper specifications.

**PROOFS:** Proofs are required for the initial order and as a result of any required re-design.

See page 19 of 24: SCHEDULE; PROOFS AND PAPER SAMPLES

Contractor must supply three (3) sets of digital color content proofs. Proofs must be created using the same Raster Image Processor (RIP) that will be used to produce the product. Proofs shall be imaged face and back with all elements in proper position (not pasted up) and trimmed to the finished size of the product.

The contractor will be required to furnish an overlay (film positive) of the black image of the check to show the exact position of the MICR line and the Check number.

- All proofs must be uniform in size and must contain a single imprint to a sheet.
- The imprint information contained on each proof will be overprinted.
- Contractor will produce generic stock for overprinting the information, as well as the numbering sequence.

At agency’s option, Contractor to submit ink drawdowns on actual production stock with Pantone colors to be used in job.

The Government may require one (1) or more sets of revised proofs before rendering an “O.K. to print”.

If any contractor’s errors are serious enough in the opinion of the GPO to require revised proofs, the revised proofs are to be provided at no expense to the Government. No extra time can be allowed for this reproofing; such operations must be accomplished within the original production schedule allotted in the specifications.

**NOTE:** All proofs must be manufactured at the facility in which the contract production quantities are to be manufactured.

**PRIOR TO PRODUCTION SAMPLES:**

See Exhibit G: Check Testing Specifications

See page 19 of 24: SCHEDULE; PRIOR TO PRODUCTION SAMPLES

1. **Bank Test Checks:** Prior to the commencement of production on the first order and as required*, the contractor must submit 15 test checks (of the first part of the actual check) for each of SSA’s 15 accounts for bank testing of MICR printing specifications. These samples are to be printed on the actual security paper to be used in this contract.

* At any time during the duration of this contract, SSA may re-design any feature of the checks. As a result, the Government may request bank test checks as noted above.
The Government may exercise the option to waive bank test checks.

All costs for the bank test checks must be included in the contract price for the production quantity.

2. **SSA Test Checks:** Prior to the commencement of production on the first order and as required*, the contractor must submit 100 laser style test checks for SSA testing (NOTE – the full 8-1/2 x 11” sheet is required).

   For testing purposes only, contractor is to ensure the top portion of the check is voided and the middle and bottom portions contain a “Non Negotiable” pantograph (location to be determined at Post Award). Samples are to be printed on the actual security paper to be used in this contract, but do not have to contain the MICR printing.

   * At any time during the duration of this contract, SSA may re-design any feature of the checks. As a result, the Government may request 100 laser style test checks for SSA testing based on Check requirements as noted above.

All samples must be produced using the ink, paper, equipment, and method of production which will be used in producing the finished product and must be of the kind, size, and quality the contractor will furnish. Face of check prints in Blue and Black plus MICR. The top portion of the check must contain the word “VOID” (ink color to be determined) The “NON-NEGOTIABLE” text prints in PMS 185 (red) (or match sample) in the middle and bottom portion of the sample. All colors are subject to government approval. The warning band and SSA logo is knocked out on the check. Micro printing is required on the signature line and dollar amount box.

Samples must have a “VOID” pantograph (incorporated into the background) intended for use on products produced on this program. The proposed “VOID” pantograph is subject to Government approval and must be created by the contractor. The word(s) “VOID” will print on the face of the check. The word(s) “VOID” must not be visible on the printed check, but must appear when the check is reproduced by use of a single or multi-color laser copier or other similar duplicating processes on the market today. “VOID” pantograph should not appear in amount box and signature line.

**NOTE:** No additional time will be given in the contract schedule for creating the “VOID” pantograph and/or performing any testing of the “VOID” pantograph. Bidders unable to comply shall be declared non-responsible.

Samples will be inspected and tested and must comply with the specifications as to construction, kind and quality of materials, and satisfactory processing.

If the samples are disapproved by the Government, the Government at its option may require the contractor to submit additional samples for inspection and testing, in the time and under the terms and conditions specified in the notice of rejection. Such additional samples shall be furnished, and necessary changes made, at no additional cost to the Government and with no extension in the shipping schedule. The Government will require the time specified above to inspect and test any additional samples required.

In the event the samples are disapproved by the Government, the contractor shall be deemed to have failed to make delivery within the meaning of the default clause. In which event, this contract shall be subject to termination for default, provided however, that the failure of the Government to terminate the contract for default in such event shall not relieve the contractor of the responsibility to deliver the contract quantities in accordance with the shipping schedule.

If the event the Government fails to approve, conditionally approve, or disapprove the samples within the time specified, the Contracting Officer shall automatically extend the shipping schedule in accordance with article 12 “Notice of Compliance With Schedules” of Contract Clauses in GPO Contract Terms (Pub. 310.2, effective December 1, 1987 (Rev. June 2001).

All samples shall be manufactured at the facility in which the contract production quantities are to be manufactured. Samples will not be returned to the contractor.

**NOTE:** Manufacture of the final product prior to the approval of the proofs and samples submitted is not permitted. Violation of this restriction shall be considered a breach of security and contractor shall be subject to default.

**STOCK/PAPER:** The specifications of all paper furnished must be in accordance with those listed herein.
Color of paper furnished shall be of a uniform shade and a close match to samples provided after award.

The Contracting Officer reserves the right to reject shipments of any order printed on paper the color of which, in his opinion, materially differs from that of the color sample(s).

Micro printing is required on the signature line and dollar amount box. Contractor to print the following on stub (at top of page): “PLEASE REMOVE THIS STUB BEFORE CASHING”.

Check stock is to be printed on appropriate quality security paper. Printed checks must be imprinted on the front with a legend limiting negotiability to 60 calendar days after issuance.

Checks must have a “VOID” pantograph (incorporated into the background) intended for use on products produced on this program. The proposed “VOID” pantograph is subject to Government approval and must be created by the contractor. The word(s) “VOID” will print on the face of the check. **NOTE:** The Government reserves the right to alter base stock requirements or make format/text changes to the checks at any time during the term of the contract. Notification of a proposed change will be given with sufficient time for the contractor to allow for the change, and submit stock samples, proofs, and test checks to the Government and test checks to the bank. Therefore, the contractor is not to preprint or maintain a surplus/inventory of base stock greater than as is necessary to meet restocking requirements under the accelerated schedule. The Government shall not be obligated to purchase from the contractor any surplus/inventory of unused paper or base stock remaining on hand beyond this requirement when a stock or format/text change is implemented OR at the end of the term of the contract.

**MARGINS:** Follow exhibit samples (See Exhibit A) and bank check testing specifications provided (See Exhibit G).

**PRESS SHEET INSPECTION:** Final make-ready press sheets will be inspected and approved at the contractor’s plant for the purpose of establishing specified standards for use during the actual press run. Upon approval of the sheets, contractor is charged with maintaining those standards throughout the press run (within QATAP tolerances when applicable) and with discarding all make-ready sheets that preceded approval. When a press sheet inspection is required, it will be specified on the individual print order. See **GPO Publication 315.3** (Guidelines for Contractors Holding Press Sheet Inspections) dated August 2002.

**NOTE:** A press sheet inspection is for the purpose of setting specific standards that are to be maintained throughout the entire run. It does not constitute a prior approval of the entire run.

**CONSTRUCTION:** Finished checks must be suitable for continuous operation on laser compatible printers.

The document is 8-1/2 x 11” with three horizontal perforations. The first perforation is 3/8” from the top of the check
page. This is the top stub portion of the check. The second and third perforations are every 3-9/16” from the first perforation. This document must be cut exactly to specifications in order to properly be used with SSA’s software that is required for issuing checks. No magnetic ink, other than the encoded MICR may appear on the lower 5/8” of the document. This includes additional printing, signature, or printing on the reverse of the document.

The check is comprised of 3 parts: one original check at the top, the middle portion a blank section containing only the “NON NEGOTIABLE” marking. The bottom portion shall be a contrasting color to the top (check) portion.

**DEFECTIVES:** The contractor shall examine finished checks, to the extent necessary, to eliminate imperfect work prior to delivery. Defective work includes, but is not limited to, the following defects: not color specified; scuffs or tears; broken corners; split, ragged or crushed edges; wrinkles; grain not long and/or short; encoding quality not equal to the standard; slime spots, dirt spots, knots, lumps, or blisters in excess of standard; improper registration; incorrect printing; defective tinting; printing quality not equal to the standard; checks not in number sequence; missing checks; and duplicate checks. The Contracting Officer reserves the right to require the contractor to replace any defective checks and any related copies or stubs found in any order or to replace all checks within a continuous series if, in his/her opinion, segregation of the defective items would not be feasible. The determination by the Contracting Officer as to defective workmanship in a particular check or lots of checks shall be final and conclusive, subject to normal appeal procedures as outlined in the Disputes Clause as indicated in GPO Contract Terms.

A single check is defective if it fails to conform to any applicable requirements of this specification.

**Testing and Inspection by the Contracting Officer:** The Contracting Officer will, at his/her option, make tests from time to time to determine that the checks being manufactured adhere to the specifications and standards prescribed herein. He/she may use either or both of the following methods for obtaining samples:

a. An authorized representative may periodically visit the contractor’s manufacturing plant to inspect quality of printing, shade of tint, the methods of packing, etc., and will select or require the contractor to furnish samples of blank stock, printed work, ink, packing material, etc., for laboratory testing.

b. The Contracting Officer may request the contractor to take samples of the security paper, checks, ink, packing material, etc. and promptly forward them by registered mail or by hand delivery with appropriate receipt to the GPO. All photo prints or specimens of checks shall be voided in an approved manner before being permitted to leave the contractor's plant.

SECTION 3 – DETERMINATION OF AWARD

The Government will determine the lowest bid by applying the prices offered in the “Schedule of Prices” to the following units of production which are the estimated requirements to produce one year’s production under this contract. These units do not constitute, nor are they to be construed as, a guarantee of the volume of work which may be ordered for as a like period of time.

All orders will be paid for at the basic prices offered.

Form SSA-301 (2-98)
Questionnaire for Public Trust Positions

Follow instructions fully or we cannot process your form. Be sure to sign and date the certification statement on Page 7 and the release on Page 8. If you have any questions, call the office that gave you the form.

Purpose of this Form

The U.S. Government conducts background investigations and reinvestigations to establish that applicants or incumbents either employed by the Government or working for the Government under contract, are suitable for the job and/or eligible for a public trust or sensitive position. Information from this form is used primarily as the basis for this investigation. Complete this form only after a conditional offer of employment has been made.

Giving us the information we ask for is voluntary. However, we may not be able to complete your investigation, or complete it in a timely manner, if you don’t give us each item of information we request. This may affect your placement or employment prospects.

Authority to Request this Information

The U.S. Government is authorized to ask for this information under Executive Orders 10450 and 10577, sections 3301 and 3302 of title 5, U.S. Code; and parts 5, 731, 732, and 736 of Title 5, Code of Federal Regulations.

Your Social Security number is needed to keep records accurate, because other people may have the same name and birth date. Executive Order 9397 also asks Federal agencies to use this number to help identify individuals in agency records.

The Investigative Process

Background investigations are conducted using your responses on this form and on your Declaration for Federal Employment (OF 306) to develop information to show whether you are reliable, trustworthy, of good conduct and character, and loyal to the United States. The information that you provide on this form is confirmed during the investigation. Your current employer must be contacted as part of the investigation, even if you have previously indicated on applications or other forms that you do not want this.

In addition to the questions on this form, inquiry also is made about a person’s adherence to security requirements, honesty and integrity, vulnerability to exploitation or coercion, falsification, misrepresentation, and any other behavior, activities, or associations that tend to show the person is not reliable, trustworthy, or loyal.

Your Personal Interview

Some investigations will include an interview with you as a normal part of the investigative process. This provides you the opportunity to update, clarify, and explain information on your form more completely, which often helps to complete your investigation faster. It is important that the interview be conducted as soon as possible after you are contacted. Postponements will delay the processing of your investigation, and declining to be interviewed may result in your investigation being delayed or canceled.

You will be asked to bring identification with your picture on it, such as a valid State driver’s license, to the interview. There are other documents you may be asked to bring to verify your identity as well.

These include documentation of any legal name change, Social Security card, and/or birth certificate.

You may also be asked to bring documents about information you provided on the form or other matters requiring specific attention. These matters include alien registration, delinquent loans or taxes, bankruptcy, judgments, liens, or other financial obligations, agreements involving child custody or support, alimony or property settlements, arrests, convictions, probation, and/or parole.

Instructions for Completing this Form

1. Follow the instructions given to you by the person who gave you the form and any other clarifying instructions furnished by that person to assist you in completion of the form. Find out how many copies of the form you are to turn in. You must sign and date, in black ink, the original and each copy you submit.

2. Type or legibly print your answers in black ink (if your form is not legible, it will not be accepted). You may also be asked to submit your form in an approved electronic format.

3. All questions on this form must be answered. If no response is necessary or applicable, indicate this on the form (for example, enter "None" or "N/A"). If you find that you cannot report an exact date, approximate or estimate the date to the best of your ability and indicate this by marking "APPROX." or "EST."

4. Any changes that you make to this form after you sign it must be initialed and dated by you. Under certain limited circumstances, agencies may modify the form consistent with your intent.

5. You must use the State codes (abbreviations) listed on the back of this page when you fill out this form. Do not abbreviate the names of cities or foreign countries.

6. The 5-digit postal ZIP codes are needed to speed the processing of your investigation. The office that provided the form will assist you in completing the ZIP codes.

7. All telephone numbers must include area codes.

8. All dates provided on this form must be in Month/Day/Year or Month/Year format. Use numbers (1-12) to indicate months. For example, June 10, 1978, should be shown as 6/10/78.

9. Whenever "City (Country)" is shown in an address block, also provide in that block the name of the country when the address is outside the United States.

10. If you need additional space to list your residences or employments/self-employments/unemployments or education, you should use a continuation sheet, SF 86A. If additional space is needed to answer other items, use a blank piece of paper. Each blank piece of paper you use must contain your name and Social Security Number at the top of the page.
Final Determination on Your Eligibility

Final determination on your eligibility for a public trust or sensitive position and your being granted a security clearance is the responsibility of the Office of Personnel Management or the Federal agency that requested your investigation. You may be provided the opportunity personally to explain, refute, or clarify any information before a final decision is made.

Penalties for Inaccurate or False Statements

The U.S. Criminal Code (title 18, section 1001) provides that knowingly falsifying or concealing a material fact is a felony which may result in fines of up to $10,000, and/or 5 years imprisonment, or both. In addition, Federal agencies generally fire, do not grant a security clearance, or disqualify individuals who have materially and deliberately falsified these forms, and this remains a part of the permanent record for future placements. Because the position for which you are being considered is one of public trust or is sensitive, your trustworthiness is a very important consideration in deciding your suitability for placement or retention in the position.

Your prospects of placement are better if you answer all questions truthfully and completely. You will have adequate opportunity to explain any information you give us on the form and to make your comments part of the record.

Disclosure of Information

The information you give us is for the purpose of investigating you for a position; we will protect it from unauthorized disclosure. The collection, maintenance, and disclosure of background investigative information is governed by the Privacy Act. The agency which requested the investigation and the agency which conducted the investigation have published notices in the Federal Register describing the system of records in which your records will be maintained. You may obtain copies of the relevant notices from the person who gave you this form. The information on this form, and information we collect during an investigation may be disclosed without your consent as permitted by the Privacy Act (5 USC 552a(b)) and as follows:

PRIVACY ACT ROUTINE USES

1. To the Department of Justice when: (a) the agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) any employee of the agency in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (d) the United States Government is a party to litigation or has interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation and the use of such records by the Department of Justice is therefore deemed by the agency to be for a purpose that is compatible with the purpose for which the agency collected the records.

2. To a court or adjudicative body in a proceeding when: (a) the agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) any employee of the agency in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (d) the United States Government is a party to litigation or has interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation and the use of such records is therefore deemed by the agency to be for a purpose that is compatible with the purpose for which the agency collected the records.

3. Except as noted in Question 21, when a record on its face, or in conjunction with other records, indicates a violation or potential violation of law, whether civil, criminal, or regulatory, in nature, and whether arising by general statute, particular program statute, regulation, rule, or order issued pursuant thereto, the relevant records may be disclosed to the appropriate Federal, State, local, tribal, or other public authority responsible for enforcing, investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, or order.

4. To any source or potential source from which information is requested in the course of an investigation concerning the hiring or retention of an employee or other person, action, or the issuing or retention of a security clearance, contract, grant, license, or other benefit, to the extent necessary to identify the individual, inform the source of the nature and purpose of the investigation, and to identify the type of information requested.

5. To a Federal, State, local, foreign, tribal, or other public authority the fact that this system of records contains information relevant to the retention of an employee, or the retention of a security clearance, contract, license, grant, or other benefit. The other agency or licensing organization may then make a request supported by written consent of the individual for the entire record if it so chooses. No disclosure will be made unless the information has been determined to be sufficiently reliable to support a referral to another office within the agency or to another Federal agency for criminal, civil, administrative, personnel, or regulatory action.

6. To contractors, grantees, experts, consultants, or volunteers when necessary to perform a function or service related to this record for which they have been engaged. Such recipients shall be required to comply with the Privacy Act of 1974, as amended.

7. To the news media or the general public factual information the disclosure of which would be in the public interest and which would not constitute an unwarranted invasion of personal privacy.

8. To a Federal, State, or local agency, or other appropriate entities or individuals, or through established liaison channels to selected foreign governments, in order to enable an intelligence agency to carry out its responsibilities under the National Security Act of 1947 as amended, the CIA Act of 1948 as amended, Executive Order 12333 or any successor order, applicable national security directives, or classified implementing procedures approved by the Attorney General and promulgated pursuant to such statutes, orders or directives.

9. To a Member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the written request of the constituent about whom the record is maintained.

10. To the National Archives and Records Administration for records management inspections conducted under 44 USC 2904 and 2906.

11. To the Office of Management and Budget when necessary to the review of private relief legislation.

WHERE YOU HAVE LIVED

List the places you have lived, beginning with the most recent (#1) and working back 7 years. All periods must be accounted for in your list. Be sure to indicate the actual physical location of your residence: do not use a post office box as an address, do not list a permanent address when you were actually living at a school address, etc. Be sure to specify your location as closely as possible: for example, do not list only your base or ship, list your barracks number or home port. You may omit temporary military duty locations under 90 days (list your permanent address instead), and you should use your APO/FPO address if you lived overseas.

For any address in the last 5 years, list a person who knew you at that address, and who preferably still lives in that area (do not list people for residences completely outside this 5-year period, and do not list your spouse, former spouses, or other relatives). Also for addresses in the last 5 years, if the address is “General Delivery,” a Rural or Star Route, or may be difficult to locate, provide directions for locating the residence on an attached continuation sheet.

- Use one of the following codes in the "Code" block:
  1 - High School
  2 - College/University/Military College

YOUR EMPLOYMENT ACTIVITIES

List your employment activities, beginning with the present (#1) and working back 7 years. You should list all full-time work, part-time work, military service, temporary military duty locations over 90 days, self-employment, other paid work, and all periods of unemployment. The entire 7-year period must be accounted for without breaks, but you need not list employment before your 16th birthday.

- **Code.** Use one of the codes listed below to identify the type of employment:
  
  1 - Active military duty stations
  2 - National Guard/Reserve
  3 - U.S.P.H.S. Commissioned Corps
  4 - Other Federal employment
  5 - State Government (Non-Federal employment)
  6 - Self-employment (include business and/or name of person who can verify)
  7 - Unemployment (include name of person who can verify)
  8 - Federal Contractor (List Contractor, not Federal agency)
  9 - Other

- **Employer/Verifier Name.** List the business name of your employer or the name of the person who can verify your self-employment or unemployment in this block. If military service is being listed, include your duty location or home port as well as your branch of service. You should provide separate listings to reflect changes in your military duty locations or home ports.

- **Previous Periods of Activity.** Complete these lines if you worked for an employer on more than one occasion at the same location. After entering the most recent period of employment in the initial numbered block, provide previous periods of employment at the same location on the additional lines provided. For example, if you worked at XY Plumbing in Denver, CO, during 3 separate periods of time, you would enter dates and information concerning the most recent period of employment first, and provide dates, position titles, and supervisors for the two previous periods of employment on the lines below that information.

Federal Investigations Notice
Letter No. 98-02
Date: March 6, 1998

On September 30, 1997, amendments to the Fair Credit Reporting Act (FCRA) (15 U.S.C. § 1681, et seq.) became effective as a result of the Consumer Credit Reporting Reform Act of 1996. The amendments require changes on the part of the users of consumer reports and providers of information to consumer reporting agencies. These changes impact on OPM-IS as the provider of investigative services to other Federal agencies, and on our customer agencies as the final users of credit information gathered as a result of OPM's investigations.

Most notably, Section 1681b of title 15 addresses permissible purposes for which consumer reports may be furnished and conditions for furnishing and using consumer reports for employment purposes. If an agency intends to use a consumer report for employment purposes, Subsection 1681b (b) (2) of title 15 requires that the applicant/employee be notified in a document consisting solely of the notice that a consumer report may be used, and the applicant/employee must authorize this use in writing before the consumer report is obtained. Subsection 1681b (b)(3) of title 15 requires that, before taking adverse action relative to an employment decision based on a consumer report, the agency must provide the consumer with a copy of the report, and a copy of the Federal Trade Commission's (FTC) Consumer Rights Notice.

The notice, disclosure, certification and adverse action requirements of the FCRA do not directly apply to OPM-IS in its role as the provider of investigative services to other requesting Federal agencies. However, we do obtain credit reports on behalf of other Federal agencies, and will require those Federal agencies to certify that they are the procurer of the credit report and that they are compliant with the FCRA's relevant provisions. We are, therefore, sending under separate cover a request to each agency for a one-time blanket certification to this effect, to be completed and returned to OPM-IS no later than May 1, 1998.

We will ask that the certification acknowledge that the requesting Federal agency is the procurer of the credit report for purposes of compliance with the FCRA. We will also ask that the requesting Federal agency certify that it is compliant with all relevant provisions of the FCRA. This certification should include certification that the agency will (a) clearly and conspicuously disclose to the subject of investigation, in a written document consisting solely of the disclosure, that the agency may obtain a credit report for employment purposes; and (b) obtain the subject's written authorization to obtain the credit report. It will also state that the
agency will not take adverse action against the subject of investigation, based in whole or in part upon the credit report, without first providing the subject a copy of the report and a written description of the subject's rights as described by the FTC under Section 1681g(e)(3) of title 15. Finally, the certification must state that the requesting Federal agency will not use any information from the consumer report in violation of any applicable equal employment opportunity law or regulation. A sample release for obtaining written authorization from each affected applicant/employee, as well as a copy of the FTC's Consumer Rights Notice are attached for your information and may be reproduced as necessary. You can obtain additional information regarding the FCRA at the Federal Trade Commission's web site (http://www.ftc.gov).

A Summary of Your Rights Under the Fair Credit Reporting Act
The federal Fair Credit Reporting Act (FCRA) is designed to promote accuracy, fairness, and privacy of information in the files of every "consumer reporting agency" (CRA). Most CRAs are
credit bureaus that gather and sell information about you -- such as if you pay your bills on time or have filed bankruptcy -- to creditors, employers, landlords, and other businesses. You can find the complete text of the FCRA, 15 U.S. C. 1681-1681 u, at the Federal Trade Commission's web site (http://www.FTC.GOV). The FCRA gives you specific rights, as outlined below. You may have additional rights under state law. You may contact a state or local consumer protection agency or a state attorney general to learn those rights.

- You must be told if information in your file has been used against you. Anyone who uses information from a CRA to take action against you -- such as denying an application for credit, insurance, or employment -- must tell you, and give you the name, address, and phone number of the CRA that provided the consumer report.

- You can find out what is in your file. At your request, a CRA must give you the information in your file, and a list of everyone who has requested it recently. There is no charge for the report if a person has taken action against you because of information supplied by the CRA, if you request the report within 60 days of receiving notice of the action. You also are entitled to one free report every twelve months upon request if you certify that (1) you are unemployed and plan to seek employment within 60 days, (2) you are on welfare, or (3) your report is inaccurate due to fraud. Otherwise, a CRA may charge you up to eight dollars.

- You can dispute inaccurate information with the CRA. If you tell a CRA that your file contains inaccurate information, the CRA must investigate the items (usually within 30 days) by presenting to its information source all relevant evidence you submit, unless your dispute is frivolous. The source must review your evidence and report its findings to the CRA. (The source also must advise national CRAs -- to which it has provided the data -- of any error.) The CRA must give you a written report of the investigation, and a copy of your report if the investigation results in any change. If the CRA's investigation does not resolve the dispute, you may add a brief statement to your file. The CRA must normally include a summary of your statement in future reports. If an item is deleted or a dispute statement is filed, you may ask that anyone who has recently received your report be notified of the change.

- Inaccurate information must be corrected or deleted. A CRA must remove or correct inaccurate or unverified information from its files, usually within 30 days after you dispute it. However, the CRA is not required to remove accurate data from your file unless it is outdated (as described below) or cannot be verified. If your dispute results in any change to your report, the CRA cannot reinsert into your file a disputed item unless the information source verifies its accuracy and completeness. In addition, the CRA must give you a written notice telling you it has reinserted the item. The notice must include the name, address and phone number of the information source.

- You can dispute inaccurate items with the source of the information. If you tell anyone -- such as a creditor who reports to a CRA -- that you dispute an item, they may not then report the information to a CRA without including a notice of your dispute. In addition, once you've notified the source of the error in writing, it may not continue to report the information if it is, in fact, an error.

- Outdated information may not be reported. In most cases, a CRA may not report negative information that is more than seven years old; ten years for bankruptcies.

- Access to your file is limited. A CRA may provide information about you only to people with a need recognized by the FCRA -- usually to consider an application with a creditor, insurer, employer, landlord, or other business.

- Your consent is required for reports that are provided to employers, or reports that contain medical information. A CRA may not give out information about you to your employer, or prospective employer, without your written consent. A CRA may not report medical information about you to creditors, insurers, or employers, without your permission.

- You may choose to exclude your name from CRA lists for unsolicited credit and insurance offers. Creditors and insurers may use file information as the basis for sending you unsolicited offers of credit or insurance. Such offers must include a toll-free phone number for you to call if you want your name and address removed from future lists. If you call, you must be kept off the lists for two years. If you request, complete, and return the CRA form provided for this purpose, you must be taken off the lists indefinitely.
- You may seek damages from violators. If a CRA, a user or (in some cases) a provider of CRA data, violates the FCRA, you may sue them in state or federal court. The FCRA gives several different federal agencies authority to enforce the FCRA:

PAYEE NAME AUTHENTICATION
The payee name information printed on the check must EXACTLY MATCH, character by character, the format of the payee name information submitted in the issuance file. The first two lines of payee information will be matched on the check. Up to 60 characters may be printed per line. Choice of validating one or two lines of Payee details will be determined during the implementation process. The payee name information (and address, if present) must be printed on the check using fixed pitch (where all characters have the same width). During implementation, your current font will be tested to see if changes must be made. The following font types are not permitted: Any fonts using Serifs and Decorative / Cursive / Shaded fonts. Variations to this specification will need to be tested based on font type. Citi recommends the utilization of Helvetica and Arial fonts.
NO HANDWRITTEN CHECKS WILL BE ACCEPTED FOR PNA PROCESSING.
Citi recommends 12 Character Per Inch (CPI). Print with default font spacing to ensure that there will be a clear separation between individual characters and between lines of text. Do not use bold or italic effects.
Check Printing: Dot Matrix printers are NOT permitted when printing checks with PNA services.
The payee name must be printed no higher than 2 1/4” from the bottom of the check. The area of the check in which the payee name and address is printed, and extending at least .25 inches around the printing, must be white (clear band), or printed with a light pastel color of print contrast signal .30 or less. There should be no other information, lines, symbols, or marks appearing in this region. This will prohibit extraneous noise from interfering with the automated character recognition. The location of the payee name(s) on the check and the payee font type may not vary. Citi must be alerted immediately of any layout changes.
