POSTAWARD CONFERENCE: At the Government’s option, a postaward conference may be held via telephone conference to discuss the total requirements of the contract as indicated in these specifications immediately after award.

OPTION TO EXTEND THE CONTRACT TERM: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed 5 years as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “Extension of Contract Term” clause. See also “Economic Price Adjustment” for periodic pricing revision.

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

Price adjustment: The prices shall be adjusted on the basis of the "Consumer Price Index For All Urban Consumers - Commodities Less Food, Seasonally Adjusted," published monthly in the CPI Detailed Report by the Department of Labor, Bureau of Labor Statistics, in the following manner:

(1) The contract price of orders placed during the adjusted period (excluding reimbursable postage or transportation costs) shall be adjusted by the percentage increase or decrease in the average, seasonally adjusted Consumer Price Index For All Urban Consumers - Commodities Less Food (seasonally adjusted) as follows: An index shall be calculated by averaging the 12 seasonally adjusted months ending 3 months prior to the expiration of the first period of the contract. This average is then compared with the average index for the 12-month period ending 3 months prior to the beginning of the contract, called the base index. The percentage increase or decrease by comparing these two indexes shall be applied to the contractor's invoices for orders placed during the price adjustment period.

(2) The Government will notify the contractor in writing of the percentage increase or decrease to be applied to any invoices to be submitted for orders subject to price adjustment in accordance with this clause. Such percentage will be determined from the published index as set forth above. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs. Any applicable discounts will be calculated on the basis of the invoice price as adjusted.

If the Government exercises an option, the extended contract shall be considered to include this economic price adjustment clause.
**PERFORMANCE RECORDS:** Notification of Performance forms will be furnished to the awarded contractor. Information such as the GPO program and print-order numbers and dates mailed/delivered must be filled in by the contractor and sent along with copies of all delivery receipts and post office mailing receipts via telefacsimile to the GPO, (312-886-3163), attn: Chicago GPO front desk, on the day mailing and delivery was completed.

**ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS:** A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The print order, when issued, will indicate the quantity to be produced and other information pertinent to the particular order.

**ORDERING:** Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from September 1, 2011 through August 31, 2012 plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be "issued" for purposes of the contract, when it is either deposited in the U.S. Postal Service mail or otherwise furnished to the contractor in conformance with the schedule.

**REQUIREMENTS:** This is a requirements contract for the items and for the period specified herein. Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled "Ordering". The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the items set forth herein do not result in orders in the amounts or quantities described as "estimated", it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract, if any.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.
Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued in accordance with the "Ordering" clause of this contract.

**CONTRACTOR MUST ITEMIZE INVOICE FOR PAYMENT TO MATCH THE SCHEDULE OF PRICES FORMAT.**

**NOTE:** In addition to the above, the contractor is required to fax a copy of each print order invoice along with a copy of the individual print order to the Chicago GPO at (312-886-3163). Failure to follow this procedure may result in delayed payment.

For example, if changes were made at the proof stage, the Government will pay for the digital corrections and new proofs (if required), but not for films. Such proof charges must be charged at the rate for digital proofs, not “from film” proofs. Minimum 150 line screen required on halftones. INITIAL PROOFS (of the initial issue only): Proofs will be presented to the Madison VA Hospital for review and approval. After the format and initial proofs have been approved, subsequent proofs must be sent by the contractor via an e-mail attachment in a digital format. Weekly printings will be evaluated to insure that the quality is equal to the original proofs approved for color and type quality.

If digitally printed, proof is to be an actual printed booklet using the same RIP, machinery and paper that is to be used for the production pieces.

If offset printed –

1 set of digital color content proofs, provided direct to plate is used to produce the final product. Proofs must be created using the same Raster Image Process (RIP) that will be used to produce the product. At contractor’s option, a film-based composite blueline may be submitted. Proofs shall be collated with all elements in proper position (not pasted up), imaged face and back, trimmed and folded to the finished size of the product.

Pantone colors may be substituted with a similar color (with the exception of process yellow) but may not be built out of the four process colors. Provide color swatch of actual color requested.

1 set of inkjet proofs that are G7 profiled and use pigment-based inks. Output must be a minimum of 720 x 720 dpi on a GRACoLor SWOP certified proofing media. Proofs must contain one of the following color control strips to be evaluated for accuracy; IDEAlliance ISO 12647-7 Wedge or P2P25 Target. Direct to plate must be used to produce the final product with a minimum of 2400 x 2400 dpi.
Proofs must contain color control bars for each color of ink on the sheet. Control bars must be placed parallel to the press' ink rollers. The control bars (such as Bruner, GATF, GRETAG, or RIT) must show areas consisting of minimum 3/16 x 3/16” solid color patches; tint patches of 25, 50, and 75%; dot gain scale; and gray balance patches for process color (if applicable). These areas must be repeated consecutively across the sheet. The make and model number of the proofing system utilized shall be furnished with the proofs. These proofs must contain all elements and indicate margins. Proofs will be used for color match on press.

If any contractor's errors are serious enough in the opinion of the GPO to require revised proofs, the revised proofs are to be provided at no expense to the Government. No extra time can be allowed for this reproofing; such operations must be accomplished within the original production schedule allotted in the specifications.

Contractor must not proceed without an "OK to Print."

**STOCK:** The specifications of all stock furnished must be in accordance with those listed herein or listed for the corresponding JCP Code numbers in the "Government Paper Specification Standards No. 12" dated March 2011. All stock used in each copy must be of a uniform shade.

Bars printing across the bind must align throughout text. (At contractor's option, pantone color can be built out of 4-color process.)

* Covers 1-4 will print the same on all issues, however, a date must be stamped in an area of the cover indicating which weekly issue it is.

Changes to the text pages (excluding the TV guide and crossword puzzle which change weekly) may occur approximately (but not limited to) every three months.

Digital printing must be capable of smooth gradient tints with no banding or tone jumping. Minimum acceptable resolution is 1200 X 1200 dpi. 4800 X 600 dpi is acceptable. HP indigo 5500 or 7000, Xerox models 7000, 8000, 700, 800 and Xerox iGen4 are known to have this capability. Resolution of the contractor's machine will be reviewed at the time of the award.
