OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed five (5) years as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “EXTENSION OF THE CONTRACT TERM” clause. See also “ECONOMIC PRICE ADJUSTMENT” for authorized pricing adjustment(s).

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.
ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from September 1, 2017 to August 31, 2018, and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted “Consumer Price Index For All Urban Consumers - Commodities Less Food” (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three (3) months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending May 31, 2017, called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor’s/subcontractor’s facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract.

POSTAWARD CONFERENCE: Unless waived by the Contracting Officer, the total requirements of the job as indicated in these specifications will be reviewed by Government representatives with the contractor’s representatives at the U.S. Government Publishing Office, Washington, DC, immediately after award. (At the option of the Government, the postaward conference may be held via teleconference.)

ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The purchase order will be supplemented by an individual print order for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

ORDERING: Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from September 1, 2017 through August 31, 2018, plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be “issued” upon notification by the Government for purposes of the contract when it is electronically transmitted or otherwise physically furnished to the contractor in conformance with the schedule.
REQUIREMENTS: This is a requirements contract for the items and for the period specified herein. Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled “ORDERING.” The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government’s requirements for the items set forth herein do not result in orders in the amounts or quantities described as “estimated,” it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor within the time specified in the order, and the rights and obligations of the contractor and the Government respecting those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued in accordance with the “ORDERING” clause of this contract.

PAYMENT: Submitting invoices for payment via the GPO fax gateway (if no samples are required) utilizing the GPO barcode coversheet program application is the fastest method of receiving payment. Instruction for using this method can be found at the following web address: http://winapps.access.gpo.gov/fms/vouchers/barcode/instructions.html.

PROOFS: Two (2) sets of digital color content proofs in book form. Direct to plate must be used to produce the final product with a minimum of 2400 x 2400 dpi. Proofs must be created using the same Raster Image Processor (RIP) that will be used to produce the product. Proofs shall be collated with all elements in proper position (not pasted up), imaged face and back, trimmed and folded to the finished size of the product.

One (1) set of digital one-piece composite laminated halftone proofs of entire publication on the actual production stock (Kodak Approval, Polaroid PolaProof, CreoSpectrum, or Fuji Final Proof) with a minimum resolution of 2400 x 2400. Proofs must contain color control bars (such as Brunner, GATF, GRETAG, or RIT) for each color of ink on the sheet. Control bars must be placed parallel to the press’s ink rollers and must show areas consisting of minimum 1/8 x 1/8” solid color patches; tint patches of 25, 50 and 75%; dot gain scale; and gray balance patches for process color (if applicable). These areas must be repeated consecutively across the sheet. Proofs must show dot structure.

The make and model number of the proofing system utilized shall be furnished with the proofs. These proofs must contain all elements, be in press configuration and indicate margins. Proofs will be used for color match on press. Direct to plate must be used to produce the final product with a minimum of 2400 x 2400 dpi.

Pantone ink color may be substituted with a similar color (with the exception of process yellow) but may not be built out of the four process colors. When required, contractor must submit ink draw downs on actual production stock of Pantone color used in job.

Viewing Light: Proofs will be compared under controlled conditions using overhead luminaries with 5000 Kelvin.

If any contractor’s errors are serious enough in the opinion of the GPO to require revised proofs, the revised proofs are to be provided at no expense to the Government. No extra time can be allowed for this reproofing; such operations must be accomplished within the original production schedule allotted in the specifications.

Contractor must not print prior to receipt of an “O.K. to Print.”
NOTE: Author’s Alterations (AAs) may occur upon review of initial proofs, including type changes/corrections and/or layout and design changes. Depending on the severity of type, color, or layout and design changes, revised color proofs may be required when noted on affected pages. In addition, a revised set of digital color content proofs must be provided prior to the beginning of the press sheet inspection to ensure all type changes/corrections have been input prior to going to production. Author’s Alterations of a minor nature are anticipated and must be completed within the contract schedule. All text and/or layout author’s alterations will be made from the furnished revised electronic media. The contractor is to generate new electronic files from the revised electronic media. This is to ensure correct type flow due to unusual type tracking and kerning tables.

STOCK/PAPER: The specifications of all paper furnished must be in accordance with those listed herein or listed for the corresponding JCP Code numbers in the “Government Paper Specification Standards No. 12” dated March 2011.

All text paper used in each copy must be of a uniform shade.

All cover paper must have the grain parallel to the spine.

Text – White No. 2 Coated Text, Gloss-Finish, basis weight: 80 lbs. per 500 sheets, 25 x 38”, equal to JCP Code A182. (NOTE: Exception to “Government Paper Specifications Standards No. 12” (dated March 2011), under “Testing”: The acceptance criteria in Part 4 shall apply for opacity only.)

Cover – White No. 2 Coated Cover, Gloss-Finish, basis weight: 80 lbs. per 500 sheets, 20 x 26”, equal to JCP Code L12.

PRINTING:

Text –

Print text pages head-to-head in four-color process.

Facing pages print to and must align across the bind.

Text type is black, unless otherwise indicated on the layout as a screen build or knockout. Occasional four-color process illustrations will be printed to appear as black-and-white illustrations.

Cover –

Print Covers 1 through 4 in four-color process plus one Pantone ink color – Pantone 260.

Anticipate heavy ink coverage on all cover pages.

Pantone ink color must be printed as a separate color. Process color builds will not be accepted. No other color system may be substituted for the Pantone Matching System, unless authorized by the Government.

NOTE: All covers must be printed on a press capable of printing five (5) colors in a single pass through the press (minimum five printing units).

COATING: Flood coat the entire surface of Covers 1, 4, and spine with a clear gloss aqueous liquid protective coating after printing – on or off line. (Press varnish is not acceptable.)
PRESS SHEET INSPECTION: Final makeready press sheets may be inspected and approved at the contractor’s plant for the purpose of establishing specified standards for use during the actual press run. Upon approval of the sheets, contractor is charged with maintaining those standards throughout the press run (within QATAP tolerances when applicable) and with discarding all makeready sheets that preceded approval. When a press sheet inspection is required, it will be specified on the individual print order. See GPO Publication 315.3 (Guidelines for Contractors Holding Press Sheet Inspections) issued January 2015. NOTE: A press sheet inspection is for the purpose of setting specific standards that are to be maintained throughout the entire run. It does not constitute a prior approval of the entire run.

Press sheets must contain control bars for each color of ink on the sheet. Control bars must be placed parallel to the press’s ink rollers. The control bars (such as BRUNNER, GATF, GRETAG, or RIT) must show areas consisting of 1/8 x 1/8” minimum solid color patches; tint patches of 25, 50, and 75%; dot gain scale; and gray balance patches for process color (if applicable). These areas must be repeated across the entire press sheet.

MARGINS:

Text – Maintain margins as indicated on the print order or furnished media. Bleed pages scattered throughout.

Cover – Covers 1 through 4 bleed top, bottom, and outside. The solid, non-screened, Pantone 260 bar at the bottom of Covers 1, 4, and spine is three picas deep after trim.

BINDING: Perfect-bind text and wraparound cover; trim three sides.

Score the front and back covers not more than 3/16” from and parallel to the bind edge.

PACKING: Prior to packing as specified below, each copy must be inserted and sealed in a clear polybag in accordance with United States Postal Service (USPS) regulations.

Bulk Shipments –

Pack in shipping containers. Shipping containers must meet the 275 pound bursting test standard.

Pack sets of 25 copies with the spine alternated every five (5) copies. Shipping containers must not exceed a depth required to contain 25 copies without requiring extra filler to avoid crushing when containers are stacked.

Each shipping container must be reinforced with at least two (2) strands of 3/8”-wide polypropylene strapping (minimum 300 pound tensile strength or equivalent strapping material).

NOTE: Pallets are required for shipments to GPO. Any shipment requiring pallets must be shrink-wrapped and strapped with padding to reduce damage to containers caused by the straps.

Mailed Shipments –

Insert single and multiple copies, packaged in sealed clear polybags, (up to 200 leaves), into Tyvek (or equivalent) envelopes.

Quantities over 200 leaves, up to 12 pounds, must be inserted into cushioned shipping bags or wrapped in shipping bundles (maximum gross weight 14 pounds).

Quantities over 12 pounds, up to 36 pounds, must be wrapped in shipping bundles or packed in shipping containers (maximum gross weight 40 pounds).
NOTE: All shipments which fill less than a shipping container must be packaged with materials of sufficient strength and durability and in such a manner which will guarantee that the product will not be damaged and the package will not open nor split during shipping process.

LABELING AND MARKING:

**Bulk Shipments** –

Contractor to download GPO Form 905 (Rev. 7-15) – Labeling and Marking Specifications which can be located at GPO.gov, fill in appropriate blanks, and attach to shipping containers.

Shipping container labels must be printed with the appropriate issue number, appropriate quarter and year, title designated by ordering agency, and date of shipment (DAY-MONTH-YEAR) for identification.

Unless otherwise specified, shipping container labels must be printed on green paper only, as indicated on the distribution media, and marked for distribution to: Defense Distribution Susquehanna Pennsylvania, XU ASL/PLL Package Processing Point, 8th and U Avenue, (Building 89-1, Door 2), New Cumberland, PA 17070-5001.

**Mailed Shipments** –

Create and affix a recipient address label to each unit of mail packaged in Tyvek (or equivalent) envelopes, cushioned shipping bags, shipping bundles, and/or shipping containers. At contractor’s option, addresses may be directly imaged onto Tyvek (or equivalent) envelopes, cushioned shipping bags, shipping bundles, and/or shipping containers.

In addition, each Tyvek (or equivalent) envelope, cushioned shipping bag, shipping bundle, and/or shipping container must carry the departmental return address. Contractor may either create and affix a separate label to the appropriate shipping container or directly image the information onto the shipping container.

NOTE: One hundred copies for the U.S. Senate must be packed in four (4) shipping containers labeled for distribution to the U.S. Senate, and 435 copies for the House of Representatives must be packed in 18 shipping containers labeled for distribution to the House of Representatives. (Contractor to mark label: Distribute one copy to each member.)

**DEPARTMENTAL RANDOM COPIES (BLUE LABEL):** All orders must be divided into equal sublots in accordance with the chart below. A random copy must be selected from each sublot. Do not choose copies from the same general area in each sublot. The contractor will be required to certify that the copies were selected as directed using GPO Form 917 – Certificate of Selection of Random Copies which can be located at GPO.gov. The random copies constitute a part of the total quantity ordered, and no additional charge will be allowed.

These randomly selected copies must be packed separately and identified by a special label, GPO Form 2678 – Departmental Random Copies (Blue Label), which must be printed on blue paper, and affixed to each affected container. This form can be downloaded from GPO.gov. The container and its contents shall be recorded separately on all shipping documents and sent in accordance with the distribution list to the address receiving the largest quantity unless otherwise specified.
A copy of the print order/specification and a signed Certificate of Selection of Random Copies must be included.

A copy of the signed Certificate of Selection of Random Copies must accompany the invoice sent to U.S. Government Publishing Office, Financial Management Service, for payment. Failure to furnish the certificate may result in delay in processing the invoice.

QUALITY ASSURANCE RANDOM COPIES: In addition to the Departmental Random Copies (Blue Label), the contractor may be required to submit quality assurance random copies to test for compliance against the specifications. The print order will indicate the number required, if any. When ordered, the contractor must divide the entire order into equal sublots and select a copy from a different general area of each sublot. The contractor will be required to certify that the copies were selected as directed using GPO Form 917 – Certificate of Selection of Random Copies which can be located at GPO.gov. Copies will be paid for at the running rate offered in the contractor’s bid, and their cost will not be a consideration for award. A copy of the print order must be included with the samples.

Business Reply Mail labels will be furnished for mailing the quality assurance random copies. The copies are to be mailed at the same time as the first scheduled shipment. A U.S. Postal Service approved Certificate of Mailing, identified by GPO program, jacket, and print order numbers must be furnished with billing as evidence of mailing.
