Prior to award, contractor may be required to provide information related to specific equipment that will be used for production.

OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed five (5) years as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “EXTENSION OF CONTRACT TERM” clause. See also “ECONOMIC PRICE ADJUSTMENT” for authorized pricing adjustment(s).

The contractor will be notified not later than 30 days before the contract expires if the Government makes the decision to not exercise the option for a subsequent period.

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.
**ECONOMIC PRICE ADJUSTMENT:** The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from Date of Award to July 31, 2022 and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted “Consumer Price Index For All Urban Consumers – Commodities less Food” (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three (3) months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending April 30, 2021 called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

**PREAWARD SURVEY:** In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor's/subcontractor's facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract. As part of the financial determination, the contractor in line for award may be required to provide one or more of the following financial documents:

1) Most recent profit and loss statement  
2) Most recent balance sheet  
3) Statement of cash flows  
4) Current official bank statement  
5) Current lines of credit (with amounts available)  
6) Letter of commitment from paper supplier(s)  
7) Letter of commitment from any subcontractor

The documents will be reviewed to validate that adequate financial resources are available to perform the contract requirements. Documents submitted will be kept confidential, and used only for the determination of responsibility by the Government. Failure to provide the requested information in the time specified by the Government may result in the Contracting Officer not having adequate information to reach an affirmative determination of responsibility.
POST AWARD CONFERENCE: Unless waived by the Contracting Officer, the total requirements of the job as indicated in these specifications will be reviewed by the Government representatives with the contractor’s representatives at the U.S. Government Publishing Office, Denver Regional Office, immediately after award. At the option of the Government, the post award conference may be held via teleconference or waived.

ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The purchase order will be supplemented by an individual print order for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

ORDERING: Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from Date of Award through July 31, 2022, plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be “issued”, upon notification by the Government for purposes of the contract when it is electronically transmitted or otherwise physically furnished to contractor in conformance with the schedule.

REQUIREMENTS: This is a requirements contract for the items and for the period specified herein. Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled “ORDERING.” The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government’s requirements for the items set forth herein do not result in orders in the amounts or quantities described as “estimated,” it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract, if any.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor within the time specified in the order, and the rights and obligations of the contractor and the Government respecting those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued in accordance with the “ORDERING” clause of this contract.

PAYMENT: The GPO Denver office will utilize the following procedure. Billing certification sheets for the work performed will be sent by the contractor to the ordering agency for examination and certification as to correctness of the billing as applicable to the work performed.
The ordering agency is required to return the signed billing certification to the contractor within five (5) workdays of receipt. In addition, after certification a copy of the approved billing certification sheet and the accompanying 2511 print order with all additional pages are to be submitted by the agency and the contractor to the GPO Denver office at email to: InfoDenver@gpo.gov.

After examination and certification by the ordering agency, contractor must submit their invoice to GPO. Submitting invoices for payment via the GPO fax gateway (if no samples are required) utilizing the GPO barcode coversheet program application is the most efficient method of receiving payment. Instruction for using this method can be found at the following web address: http://winapps.access.gpo.gov/fms/vouchers/barcode/instructions.html.

For the purpose of earning the discount when a prompt payment discount is bid by a bidder, time will be computed from the date a correct invoice/voucher, print order, proof of delivery, and the agency signed billing certification is received by the GPO.

NOTE: Although not a requirement at this time, the contractor is encouraged to submit the “Bar Code Cover Sheet” with the request for payment. The use of this document will greatly facilitate prompt payment to the contractor. The following website address will allow the contractor to create the GPO payment barcode cover page http://winapps.access.gpo.gov/fms/vouchers/barcode/.

Exception to the Billing Certification Requirement: On all GPO Denver placed orders with print order series 05000, 25000, 45000, 65000, 85000 the billing certification requirement is WAIVED.

NOTE: The contractor is to support upgrades of application software within one month of notification by ordering agency.

Contractor must be capable of accepting data in these platform/formats for either direct input or conversion to his/her system as part of their basic charge to the Government. No additional time or compensation will be given to the contractor for common errors associated with file output from a different platform. See "Inspection of Files" for brief description of common errors. The contractor will be responsible for proofreading converted formats to ensure that all fonts have transferred platforms completely. Contractor will be responsible for final output that is in conformance with the visuals as provided.

Fonts: Various PostScript Type 1 (printer and screen) fonts, True Type fonts, and Open Type fonts will be provided with each order. NOTE: The fonts provided are the property of the ordering agency and are provided for use on the order only. Using the furnished fonts for any job other than this one violates copyright law. INSPECTION OF ELECTRONIC FILES: Contractor to perform a basic check (preflight) of the furnished files. Prior to making any revisions, the contractor must make a "copy" of the original files, and then proceed to make any revisions to the "copy" as required. Upon delivery of the printed product the contractor must provide corrected native applications files (digital deliverables) if files are modified during production. The digital deliverables must be an exact reproduction of the final printed piece in native application file format (includes all files), and must be returned on the same media as the supplied files. FILMS: Films are NOT required; computer to plate is acceptable and is the preferred method of production. At the contractor's option, they may use film; however, the Government will not pay for any film costs, even if these costs are the result of author's alterations. For example, if changes were made at the proof stage, the Government will pay for the digital corrections and new proofs (if required), but not for films. Such proof charges must be charged at the rate for digital proofs, not "from film" proofs.

Output resolution: Where electronic media is provided, the contractor must generate images equivalent to 2400 dpi for text and 150-line or higher screens for illustrations.

The original copy of this receipt must accompany the contractor's voucher/invoice for payment.

SCHEDULE: Adherence to this schedule must be maintained. Contractor must not start production of any job prior to receipt of the individual print order (GPO Form 2511).

The following schedules begin the same workday as notification of the availability of each individual print order and furnished materials. When notification of availability is given after 1:00 p.m. the date of notification shall be the following workday.

Contractor will be required to pick up print order and furnished materials from various nationwide locations throughout the U.S. Most orders will require pickup from Lakewood, Colorado; Albuquerque, NM; or Ogden, Utah. The ordering agency will notify the contractor when materials are available for pickup. The Government will wrap or otherwise prepare the furnished material for pickup by the contractor or the contractor's agent.

Submit proofs as soon as the contractor deems necessary in order to comply with the shipping schedule. Proofs will be withheld no more than two (2) workdays from receipt at the ordering office until they are approved via email. NOTE: When proofs are ordered there will be an additional four workdays added to the schedule.

The proof hold period by the Government begins when proofs are received via email by the designated party and ends when the contractor is notified via email or phone that the proofs are approved.

Proofs, along with the Government furnished material, a copy of the print order, the contractor's usual proof cover memo form, and information identifying a point of contact and their phone number at the contractor's plant will be emailed directly to the ordering agency by the contractor. Any terms and conditions on the contractor's proof documents are subordinate to GPO Contract Terms.

Complete production and shipment must be made within 10 to 15 workdays from availability of print order and furnished material. An occasional order may require complete production and delivery within 5 workdays (no proof will be required on orders requiring production within 5 workdays).
The mail/ship date indicated on the print order is the date products must to be delivered

Upon completion of each order, under separate cover, and by traceable means, the contractor shall return all furnished materials to the address indicated on the print order.

Unscheduled material such as shipping documents (GBL’s, etc.), receipts or instructions, delivery lists, labels, etc., will be furnished with each order or shortly thereafter. In the event such information is not received in due time, the contractor will not be relieved of any responsibility in meeting the shipping schedule because of failure to request such information.

PROOF DELIVERY NOTIFICATION: The contractor must notify the agency via email and verify by phone call that the email is received when the proofs are sent. In addition, if the proofs are not emailed back to the department within the specified time the contractor must notify the contract administrator and agency that the proofs have not been returned. Email proof of delivery notification per print order and confirm by phone call per print order. Include GPO program and print order numbers with all correspondence.

No definite schedule for pickup of material/placement of orders can be predetermined.

The following schedule begins the workday after notification of the availability of print order and furnished material; the workday after notification will be the first workday of the schedule.

For compliance reporting purposes, the contractor must notify the U.S. Government Publishing Office of the date of delivery. Upon completion of each order, contractor must contact the GPO Denver Regional Office at infodenver@gpo.gov.
