OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed five (5) years as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the "Extension of Contract Term" clause. See also "Economic Price Adjustment" for authorized pricing adjustment(s).

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding
performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from Date of Award through April 30, 2022, and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted “Consumer Price Index For All Urban Consumers - Commodities Less Food” (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three (3) months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending January 31, 2021, called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

If the Government exercises an option, the extended contract shall be considered to include this economic price adjustment clause.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor the Government reserves the right to conduct an on-site preaward survey at the contractor’s facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract. Failure to provide the requested information in the time specified by the Government may result in the Contracting Officer not having adequate information to reach an affirmative determination of responsibility.

SECURITY REQUIREMENTS: During the performance of this contract, legal documents, including personally identifiable information (PII) and Sensitive But Unclassified will be reproduced. Due to the sensitive nature of the documents furnished, all materials must be kept confidential. This material is not for public consumption and should be handled with extreme care.

Definitely destroying the records means the material cannot be reassembled and used in an inappropriate manner in violation of law and regulations. Sensitive records are records that are national security classified or exempted from disclosure by statute, including the Privacy Act or regulation.

If the contractor selects shredding as a means of disposal, it is preferred that a cross-cut shredder be used. If a strip shredder is used, the strips must not exceed one-quarter inch.

The contractor must provide the method planned to dispose of the materials. At Government’s option, contractor may be required to return all waste materials to the ordering agency.

SECURITY CONTROL PLAN: The contractor shall operate and maintain an effective security system whereby materials used to perform the contract are manufactured and/or stored (e.g. while awaiting distribution or disposal) so as to ensure against theft and/or the unauthorized possession of the materials.

Contractor is cautioned that Government provided information shall not be used for non-government business. Specifically, Government information shall not be used for the benefit of a third party.
The contractor shall present, in writing, to the Contracting Officer via email within two (2) workdays of being notified to do so by the Contracting Officer or his/her representative, detailed plans for the following activities. The workday after notification to submit will be the first day of the schedule.

These proposed plans are subject to review and approval by the Government, and award will not be made prior to approval of same. The Government reserves the right to waive some or all of these plans.

Prior to award, the contractor and his or her employees may be required to read and sign a “Confidentiality Agreement” supplied by the ordering agency.

Any forthcoming changes by the contractor, will require the contractor notifying the Government and forwarding the updated and signed agreements.

The Government retains the right to conduct on-site security reviews at any time during this contract.

1. The plan shall contain at a minimum how government files (data) will be secured to prevent disclosure to a third party prior to and after termination of contract;
2. Explain how all accountable materials will be handled throughout all phases of production;
3. How the disposal of waste materials will be handled; and,
4. How all applicable Government-mandated security/privacy/rules and regulations as cited in this contract shall be adhered to by the contractor.

Option Years: For each option year that may be exercised, the contractor will be required to re-submit, in writing, the above plans detailing any changes and/or revisions that may have occurred. The contractor should be prepared to submit these plans to GPO within five (5) workdays of notification of the option year being exercised.

If there are no changes/revisions, the contractor will be required to submit to the Contracting Officer a statement confirming that the current plans are still in effect.

POSTAWARD CONFERENCE: Unless waived by the Contracting Officer, the total requirements of the job as indicated in these specifications will be reviewed by Government representatives with the contractor’s representatives at the GPO Philadelphia Regional Office, immediately after award. At the option of the Government, the post-award conference may be held via teleconference. Person(s) that the contractor deems necessary for the successful implementation of the contract must be in attendance.

ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The purchase order will be supplemented by an individual print order for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

ORDERING: Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from Date of Award through April 30, 2022, plus for such additional period(s) as the contract is extended. Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled "ORDERING". The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the
items set forth herein do not result in orders in the amounts or quantities described as "ESTIMATED", it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1. The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract, if any.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.

It is the Government’s obligation to make the materials available to the defense for the production of discovery material. The DOJ provides it to the contractor and directs designated parties, (e.g. attorney), not working for the ordering agency, to contact the contractor and order *at their own expense.* The contractor is, in effect, selling to the authorized individuals. When required, the prices submitted in the “SCHEDULE OF PRICES” will be applied. An authorized list will be provided with each print order. The contractor is responsible for collecting all fees for services directly from the authorized parties. The Government is not liable for any copies not ordered via the print order.

Where materials are stitched, or otherwise fastened or bound, care must be used in taking the materials apart to ensure that part of the document is not obliterated or that the authenticity of the document becomes questionable.

Contractor may disassemble the furnished documents before production, unless it is a bound book or publication. Contractor may not destroy the binding in any way, unless specified by the ordering agency.

There may be items that do not require scanning/duplicating, but these items do have to be maintained with the applicable documents, or as otherwise indicated on the print order.
