DOING BUSINESS WITH THE GPO: Contractors wishing to do business with the GPO are referred to the GPO web site <http://www.gpo.gov/business/index.html>, where one can register as a GPO contractor using the 'GPO Contractor Connection' link in accordance with the furnished instructions on that page.

NOTE: Prospective as well as existing GPO contractors are to note that, as of 1/1/08, all contractor's seeking to do business with the GPO must first complete and thereafter maintain the accuracy of its GPO Contractor Connection registration with the following mandatory taxpayer information boxes: "EIN/TIN #" (Employer Identification Number or Taxpayer Identification Number); "Subject to Backup Withholding" (See Form W-9, Request for Taxpayer Identification Number and Certification); and, "Current W-9 Request" (See Form W-9). The GPO will withhold payment of any invoices for work completed by any contractor who fails to provide these tax data in GPO Contractor Connection. Such invoices will be declared ineligible for payment until all requirements for payment, including providing these tax data in GPO Contractor Connection, have been satisfied.

CONTRACTING METHOD: This contract is being advertised as, and shall be awarded as, a Small Purchase contract, in accordance with the U. S. Government Printing Office Printing Procurement Regulation (PPR: GPO Publication 305.3), Chapter VII, Section 4.

FACSIMILE BIDS: Facsimile bids are permitted.

- (a) Definition. "Facsimile bid," as used in this solicitation, means a bid, modification of a bid, or withdrawal of a bid that is transmitted to and received by the Government via electronic equipment that communicates and reproduces both printed and handwritten material.
- (b) Bidders may submit facsimile bids as responses to this solicitation. These responses must arrive at the place and by the time specified in the solicitation.
- (c) Facsimile bids that fail to furnish required representations or information or that reject any of the terms, conditions, and provisions of the solicitation will be excluded from consideration.
- (d) Facsimile bids must contain the required signatures.
- (e) The Government reserves the right to make award solely on the facsimile bid. However, bidders agree to promptly submit the complete original signed bid.
- (f) Submit facsimile bid to FAX No. (707) 748-1981, one bid per facsimile.

- (g) If the bidder chooses to transmit a facsimile bid, the Government will not be responsible for any failure attributable to the transmission or receipt of the facsimile bid including, but not limited to, the following:
- (1) Receipt of garbled or incomplete bid.
 - (2) Availability or condition of the receiving facsimile equipment.
 - (3) Incompatibility between the sending and receiving equipment.
 - (4) Delay in transmission or receipt of bid.
 - (5) Failure of the bidder to properly identify the bid.
 - (6) Illegibility of bid.
 - (7) Security of bid data.

QUALITY ASSURANCE LEVELS AND STANDARDS: The following levels and standards shall apply to these specifications:

- (b) Finishing Attributes — Level III

- (a) Non-destructive Tests — General Inspection Level I.
- (b) Destructive Tests — Special Inspection Level S-2.

Specified Standards: The specified standards for the attributes requiring them shall be:

<u>Attribute</u>	<u>Specified Standard</u>
P-7. Type Quality and Uniformity	Approved Proofs
P-10. Process Color Match	Approved Proofs

OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor before expiration of the current contract term. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed five years as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “Extension of Contract Term” clause. See also “Economic Price Adjustment” for periodic pricing revision.

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The purchase order will be supplemented by an individual "Print Order" for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

RECOVERED MATERIALS PROGRAM: The Government Publishing Office is promoting the use of recovered materials in its contracts to the maximum extent practicable, provided all specification requirements are met. Offerors are encouraged to supply paper and paper products that contain recovered materials even in the absence of a specific solicitation provision or contract clause requiring such materials.

Recovered materials shall mean "recovered fiber" or "postconsumer recovered fiber" as defined in "Government Paper Specification Standards No. 12", published by the Joint Committee on Printing. However, when used in conjunction with the cotton/linen content of paper, "recovered fiber" means a postconsumer fiber and "recovered material" means a pre-consumer fiber.

By submission of a bid or offer, or by substantial performance on a small purchase, the offeror certifies that the paper to be supplied contains at least the minimum percentage of recovered materials in the paper products as specified. This certification concerns a matter within the jurisdiction of an agency of the United States, and the making of a false, fictitious or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001. The Government reserves the right to require proof of such certification prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

When the use of recovered materials is specified, the contractor shall maintain manufacturer/mill accounting and record summaries on the fiber weight content used as feed stock, for the purposes of Government audit, that will verify (a) the contractor's certification of the minimum percentage of recovered materials used in the performance of the contract, (b) that the paper and paper products are in compliance with the specification requirements, and (c) the paper is manufactured in accordance with the Environmental Protection Agency (EPA) Paper Products Recovered Materials Advisory Notice (61 FR 26985, May 29, 1996) whether the products are manufactured by the contractor or another paper mill. The contractor, if not the manufacturer, shall obtain this information from the paper manufacturer. The contractor shall maintain, and make available to the Government, these documents for one year after the expiration of the contract. Nothing in this clause shall excuse the contractor from furnishing the specified paper.

PAYMENT: Submitting invoices for payment via the GPO fax gateway (if no samples are required) utilizing the GPO barcode coversheet program application is the most efficient method of invoicing. Instruction for using this method can be found at the following web address:
<http://winapps.access.gpo.gov/fms/vouchers/barcode/instructions.html>.

Invoices may also be mailed to: U.S. Government Publishing Office, Office of Financial Management, Attn: Comptroller, Stop: FMCE, Washington, DC 20401.

For more information about the billing process refer to the General Information of the Office of Finance web page located at <https://www.gpo.gov/how-to-work-with-us/agency/billing-and-payment>.

Note: *The contractor shall itemize each billing voucher in accordance with the contract 'Schedule of Prices.'*

ORDERING: Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from April 1, 2018 to March 31, 2019 plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to

the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be "issued" for purposes of the contract, when it is either deposited in the U.S. Postal Service mail or otherwise furnished to the contractor in conformance with the schedule.

REQUIREMENTS: This is a requirements contract for the items and for the period specified herein. Delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled "Ordering". The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the items set forth herein do not result in orders in the amounts or quantities described as "estimated", it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract, if any.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor within the time specified in the order, and the rights and obligations of the contractor and the Government respecting those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued in accordance with the "Ordering" clause of this contract.

ECONOMIC PRICE ADJUSTMENT: The prices set forth in this contract shall be adjusted in accordance with the provisions of this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period below. Pricing will thereafter be eligible for adjustment during the second and any succeeding period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause herein.

For the purpose of this clause, the contract shall be divided into successive periods. The first period shall extend from April 1, 2018 to March 31, 2019. The second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period

may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Price adjustments in accordance with this clause will be based on the changes in the seasonally adjusted "Consumer Price Index For All Urban Consumers - Commodities Less Food" published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The Economic price adjustment will be the percentage difference between the Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending December 31, 2017, called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

NOTIFICATION: The contractor will be notified a minimum of 30 days before the end of the current contract annual period of availability or nonavailability of funds for subsequent periods. Cancellation is effected if (i) the Contracting Officer notifies the contractor that funds are not available for the next year, or (ii) the Contracting Officer fails to notify the contractor that funds are available for the next year.

SECTION 2. - SPECIFICATIONS

SCOPE: These specifications cover the production of pressure sensitive labels and decals requiring such operations as electronic receipt and physical retrieval of furnished materials, generation of printing media from furnished digital copy, typesetting/composition, creating camera-ready mechanical color separations, films, PDF "soft proofs," conventional hardcopy proofs. Category 2 digital or screen printing, laminating, die-cutting, (laser) trimming, packing and delivery.

TITLE: Labels and Decals.

FREQUENCY OF ORDERS:

Orders consist of **digital or screen printing** on vinyl, polyester plastic, metal foil or reflective sheet stock and mounted on suitable backing sheet: Approx. 35 orders per year.

Based upon past performance, orders may contain as many as five products per order.

QUANTITY:

From 50 to 10,000 labels/decals per order.

TRIM SIZES: Various trim sizes will be ordered and paid for in their respective "Format" classification as follows:

- Format "A": Any size label up to and including 2 x 3", or a maximum of 6 sq. inches.
- Format "B": Any size label over 2 x 3" up to and including 5 x 7", or a maximum of 35 sq. inches.
- Format "C": Any size label over 5 x 7" up to and including 9 x 12", or a maximum of 108 sq. inches.

To determine the trim size of die-cut circles or irregular die-cut shapes (i.e. arcs, crescents, etc.), use the rectangular or square size of the stock needed to produce the die-cut shape ordered: For example, a 3" diameter circle is die-cut out of a 3 x 3" square piece of material, or 9 sq. inches. See pages 19 and 23 (under 'STOCK') for additional details.

GOVERNMENT TO FURNISH:

The Government will most typically electronically transmit digital assets, including Macintosh-generated or Windows-generated Adobe Acrobat Portable Document Format (PDF) files, MS Word, MS Publisher, Adobe InDesign, Illustrator and/or Photoshop files.

Occasionally the Government will also furnish repro copy, reprint samples, manuscript copy and/or 650/700 MB CD-R (W) disc(s) requiring physical retrieval from customer's facility.

Facsimile for shipping container labels.

CONTRACTOR TO FURNISH: All materials and operations, other than those listed under "Government to Furnish" herein, necessary to produce the product(s) in accordance with these specifications.

Contractor shall provide any missing TrueType and/or OpenType fonts not included or embedded within the furnished digital copy. Contractor shall obtain the newest available version of the software programs cited under 'Government to Furnish,' as each software upgrade is made available for purchase by the public.

Digital prepress, deliverables:

Prior to image processing, the contractor shall perform a basic check (preflight) of the furnished media and publishing files to assure correct output of the required reproduction image. Any errors, media damage, or data corruption that might interfere with proper file image processing must be reported to the GPO.

The contractor shall create or alter any necessary trapping, set proper screen angles and screen frequency, and define file output selection for the imaging device being utilized. Furnished files must be imaged as necessary to meet the assigned quality level.

When required by the Government, the contractor shall make minor revisions to the electronic files. It is anticipated that the Government will make all major revisions.

Prior to making revisions, the contractor shall copy the furnished files and make all changes to the copy.

Upon completion of each order, the contractor must furnish final production native application files (digital deliverables) with the furnished material. The digital deliverables must be an exact representation of the final printed product and shall be returned on the same type of storage media as was originally furnished. The Government will not accept, as digital deliverables, PostScript files, Adobe Acrobat Portable Document Format (PDF) files, or any proprietary file formats other than those supplied, unless specified by the Government.

COMPOSITION: Composition requirements will consist of setting type and rules in various formats and sizes.

Various serif and sans serif typefaces and sizes up to 2" high will be required. The successful bidder must provide the ordering agency with specimens or a complete listing of typefaces and sizes that are available for use under this contract.

REPRODUCIBLES: The contractor must make all films/reproducibles required.

Output of furnished digital copy: Based upon past performance, it is estimated that as many as 90% of the contract orders will include Governmental submittal of digital copy for reproduction. Unless otherwise specified, the contractor is not obligated to produce an order by RIPing (i.e. rasterizing) the furnished digital copy directly to a xerographic copying machine. The contractor may—at the contractor's option—digitally output a single first-generation copy on paper at a min. of 600 dpi before placing it "on the glass" to produce the requisite number of second generation copies for final delivery.

Unless otherwise specified, the output copy shall match any furnished dummy hardcopy. In the absence of furnished dummy hardcopy, the final printed product shall match the "on screen" appearance of the furnished digital copy.

The contractor will be responsible for converting any furnished RGB elements to CMYK and providing any bleed margins, if omitted by the ordering agency, at no additional cost to the Government.

Creating printing media: The Government will provide orders with furnished close-registration multicolor reprint samples with abutting colors, but without any accompanying mechanical or digital separations.

When such reprint samples are furnished without accompanying mechanical-digital separations, the contractor will be required to create and composite (with registration and traps) a digital printer separate for each product color. The contractor shall archive and return the registered and composited printer separates in the form of an Adobe Acrobat PDF file archived on a CD-R disc labeled with the title of the applicable label(s). The contractor shall be reimbursed for the creation of the new printing media in accordance with the contract 'Schedule of Prices.'

New digital printing media created by the contractor will become property of the Government and must be returned with the final printed product, or to the address otherwise noted on the Print Order.

PROOFS: Based upon past performance, approx. 70% of the Category 1 and 50% of the Category 2 orders will most typically require electronic submittal of an Adobe Acrobat PDF "soft proof." Occasionally the customer will require physical submittal of a conventional hardcopy page proof.

STOCK: The specifications of all stock furnished must be in accordance with those listed below:

All inks/paints used must be fade resistant, and must not show any appreciable change in color after exposure in an Atlas Fadeometer for 170 standard fading hours or its equivalent.

For labels/decals printing on colored stock, the contractor may surface tint white stock to match the required colors. No additional charge will be allowed to surface tint the stock.

Match Pantone color number as indicated on the print order: may bleed four sides.

Serializing: When indicated on the print order the labels/decals will be serialized in 1/8 to 1/4" high characters in red or black ink, as specified: No missing or duplicated numbers. If numbered orders require clear protective coating, the coating shall be applied atop the printed nos.

When ordered, laminate the entire surface over the printing with a 1-mil thick clear **UV-inhibiting** polyester film or equal.

CONSTRUCTION:

Apply a permanent or removable type pressure-sensitive adhesive, to adhere to glass, metal, plastic and finished wood surfaces with the ability to withstand moisture. Numerous orders will specifically require satisfactory adhesive performance in the presence of alcohol and xylene, as indicated on the print order.

Unless otherwise instructed, the contractor may die-cut or laser trim labels to the advertised trim size, based on the most economical method of production

Pack in poly bag or, at contractor's option, shrink-film wrap each individual roll. Wrap, or at contractor's option, shrink-film wrap, in suitable units, sheets.

Pack in shipping containers.

LABELING AND MARKING: Reproduce shipping container label from furnished repro, fill in appropriate blanks, and attach to one end of each shipping container.

DEPARTMENTAL QUALITY COPIES: All orders must be divided into equal sublots in accordance with the chart shown below. A random sample must be selected from each subplot. Do not choose copies from the same general area in each subplot.

<u>Quantity Ordered</u>	<u>Number of Sublots</u>
500 - 3,200	50
3,201 - 10,000	80
10,001 - 35,000	125

These randomly selected samples must be packed separately and must be identified by a special government-furnished blue label, which is to be affixed to each affected container. These random sample copies must be recorded separately on all shipping documents and sent in accordance with the distribution list. The random inspection samples constitute a part of the total quantity ordered, and no additional charge will be allowed.

In addition, a copy of the PRINT ORDER/SPECIFICATION along with the signed selection certificate, which will be furnished, must be included with the samples.

A copy of the Government-furnished certificate must accompany the voucher sent to the GPO, Financial Management Service, for payment. Failure to furnish the certificate may result in delay of processing the voucher.

CERTIFICATIONS.

C-1. Covenant Against Contingent Fees. Submission of a bid without statement of exception shall constitute certification.

(a) The contractor warrants that no person or agency has been employed or retained to solicit or obtain a contract upon an agreement or understanding for a contingent fee, except a bona fide employee or agency. For breach or violation of this warranty, the Government shall have the right to annul the contract without liability or, in its discretion, to deduct from the contract price or consideration or otherwise recover, the full amount of the contingent fee.

(b) "Bona fide agency" means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

"Bona fide employee" means a person, employed by a contractor and subject to the contractor's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

"Improper influence" means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

C-2. Buy American Certification. Except as may be listed with the bid itself, the bidder certifies with the submission of a bid that each end product is a domestic end product (as defined in clause 37 "Buy American Act" in Contract Clauses), and that components of unknown origin have been considered to have been mined, produced, or manufactured outside the United States. Any exception listed with the bid itself must list both the excluded end products and the country of origin of each.

C-3. Clean Air and Water. Submission of a bid without statement of exception shall constitute certification.

(Applicable if the bid or offer exceeds \$100,000 or the Contracting Officer has determined that orders under an indefinite quantity contract in any year will exceed \$100,000, or a facility to be used has been the subject of a conviction under the Clean Air Act (42 U.S.C. 7413 (C) (1)) or the Federal Water Pollution Control Act (33 U.S.C. 1319(c)) and is listed by EPA, or is not otherwise exempt.)

(c) Bidder will include substantially this certification, including this paragraph (c), in every nonexempt subcontract.

C-4. Certificate of Independent Price Determination. Submission of a bid without statement of exception shall constitute certification.

(a) The offeror certifies that—

(1) The prices in the offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices; (ii) the intention to submit an offer; or (iii) the methods or factors used to calculate the prices offered.

(2) The prices in the offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law, and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory—

(1) Is the person in the offeror's organization responsible for determining the prices being offered in the bid or proposal, and that the signatory has not participated and will not participate in any action contrary to subparagraphs (a) (1) through (a) (3) of this provision; or

(2) (i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to subparagraphs (a) (1) through (a) (3) of this provision [insert full name of person(s) in the offeror's organization responsible for determining the prices offered in the bid or proposal, and the title of his or her position in the offeror's organization];

(ii) As an authorized agent, does certify that the principals named in subdivision (b) (2) (i) of this provision have not participated, and will not participate, in any action contrary to subparagraphs (a) (1) through (a) (3) of this provision; and

(iii) As an agent has not personally participated, and will not participate, in any action contrary to subparagraphs (a) (1) through (a) (3) of this provision.

(c) If the offeror deletes or modifies subparagraph (a) (2) of this provision, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

C-5. Certification Regarding Debarment, Suspension, Proposed Debarment, and other Responsibility Matters (Jan. 1999). By submission of a bid—

(a) (1) The offeror certifies, to the best of its knowledge and belief, that—

(i) The offeror and/or any of its principals—

(A) Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have not, within a 3-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of a fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(C) Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with commission of any of the offenses enumerated in subdivision (a) (1) (i) (B) of this provision.

(ii) The offeror has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principals," for the purposes of this certification, means officers; directors; owners; partners; and persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division or business segment, and similar positions).

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under the solicitation. However, the certification will be considered in connection with a determination of the offeror's responsibility. Failure of the offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the offeror non-responsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from the solicitation for default.

The offeror agrees that a breach of this certification is a violation of the Equal Opportunity clause in the contract.

(c) The offeror further agrees that (except where it has obtained identical certifications from proposed subcontractors for specific time periods) it will—

(1) Obtain identical certifications from proposed subcontractors before the award of subcontracts under which the subcontractor will be subject to the Equal Opportunity clause;
