SECTION 1. - GENERAL TERMS AND CONDITIONS

GPO CONTRACT TERMS: Any contract which results from this Invitation for Bid will be subject to the applicable provisions, clauses, and supplemental specifications of GPO Contract Terms (GPO Publication 310.2, effective December 1, 1987 (Rev. 01-18)) and GPO Contract Terms, Quality Assurance through Attributes Program for Printing and Binding (GPO Pub. 310.1, effective May 1979 (Rev. 09-19)).

GPO Contract Terms (GPO Publication 310.2) – <https://www.gpo.gov/docs/default-source/forms-and-standards-files-for-vendors/contractterms2018.p>

GPO QATAP (GPO Publication 310.1) – <https://www.gpo.gov/docs/default-source/forms-and-standards-files-for-vendors/qatap-rev-09-19.pdf>

SUBCONTRACTING: The provisions of GPO Publication 310.2 are modified to permit subcontracting of four-color copying/duplicating.

The contractor shall be responsible for enforcing all contract requirements outsourced to a subcontractor.

Subcontractor(s) must be approved by the Government prior to production starting in that facility. The subcontractor's information must be provided in conjunction with the "PREAWARD PRODUCTION PLANS, *Security Control Plans*" specified herein.

If the contractor needs to add a subcontractor at any time after award, the subcontractor must be approved by the Government prior to production starting at that facility. If the subcontractor is not approved by the Government, then the contractor must submit the new subcontractor's information to the Government for approval five (5) calendar days prior to the start of production at that facility.

GPO IMPRINT REQUIREMENTS: The GPO imprint requirement, GPO Contract Terms, Supplemental Specification, No. 9 is waived.

QUALITY ASSURANCE LEVELS AND STANDARDS: The following levels and standards shall apply to these specifications:

Product Quality Levels:

- (a) Printing (page related) Attributes - Level III.
- (b) Finishing (item related) Attributes - Level III.

Inspection Levels (from ANSI/ASQC Z1.4):

- (a) Non-destructive Tests - General Inspection Level I.
- (b) Destructive Tests - Special Inspection Level S - 2.

Specified Standards: The specified standards for the attributes requiring them shall be:

<u>Attribute</u>	<u>Specified Standard</u>
P-7. Type Quality and Uniformity	O.K. Proofs/Average Type Dimension/ Electronic Media
P-10. Process Color Match	Electronic Media

Prior to award, contractor may be required to provide information related to specific equipment that will be used for production.

OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed five (5) years as a result of, and including, any extension added under this clause. Further extension may be negotiated under the “EXTENSION OF CONTRACT TERM” clause. See also “ECONOMIC PRICE ADJUSTMENT” for authorized pricing adjustments(s).

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by a separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from June 1, 2023, to May 31, 2024, and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted “Consumer Price Index For All Urban Consumers - Commodities Less Food” (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending 3 months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending February 28, 2023, called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor's/subcontractor's facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract. As part of the financial determination, the contractor in line for award may be required to provide one or more of the following financial documents:

- 1) Most recent profit and loss statement
- 2) Most recent balance sheet
- 3) Statement of cash flows
- 4) Current official bank statement
- 5) Current lines of credit (with amounts available)
- 6) Letter of commitment from paper supplier(s)

7) Letter of commitment from any subcontractor

The documents will be reviewed to validate that adequate financial resources are available to perform the contract requirements. Documents submitted will be kept confidential and used only for the determination of responsibility by the Government. Failure to provide the requested information in the time specified by the Government may result in the Contracting Officer not having adequate information to reach an affirmative determination of responsibility.

SECURITY REQUIREMENTS: The contractor shall comply with all security requirements set forth in these specifications.

NOTE: All furnished materials are designated as “Sensitive But Unclassified.”

SENSITIVE BUT UNCLASSIFIED (SBU): Any Department of Justice information made available, which is marked “Official Use Only” on the print order or on any part of the furnished material, shall be used only for the purpose of carrying out the provisions of this contract, and shall not be divulged or made known in any manner to any person except as may be necessary in the performance of the contract. All copies must be accounted for and waste sheets and printing plates destroyed beyond recognition or reconstruction. (See “DISPOSAL OF WASTE MATERIALS.”)

SECURITY WARNING: Proper control and handling must be maintained at all times to prevent any information or materials required to produce the product ordered under these specifications from falling into unauthorized hands. Unless otherwise indicated herein, all erroneous/extra copies produced by the contractor are to be destroyed beyond recognition by means of abrasive destruction, burning, shredding, or other methods that guarantee complete protection against access.

DATA RIGHTS: All data and materials furnished and/or used in the performance of this contract shall be the sole property of the Government. The contractor agrees not to assert rights or to establish any claim to such data/materials in whole or in part in any manner or form, or to authorize others to do so, without prior written consent of the Contracting Officer.

DISPOSAL OF WASTE MATERIALS: The contractor is required to demonstrate how all waste materials used in the production of sensitive information will be definitively destroyed, i.e., burning, pulping, shredding, macerating, or other suitable similar means. Electronic records must be definitively destroyed in a manner that prevents reconstruction. *Definitively* destroying the records means the material cannot be reassembled and used in an inappropriate manner in violation of law and regulations. *Sensitive* records are records that are national security classified or exempted from disclosure by statute, including the Privacy Act or regulation.

If the contractor selects shredding as a means of disposal, it is preferred that a cross-cut shredder be used. If a strip shredder is used, the strips must not exceed one-quarter inch.

The contractor must provide the method planned to dispose of the materials. A Government representative may be required to be present for the disposal of waste materials. At Government’s option, contractor may be required to return all waste materials to the ordering agency. Disposal of waste materials cannot be subcontracted.

SECURITY CONTROLS: To ensure the contractor’s facility can provide the necessary controls to safeguard security materials, a tour of the facility may be conducted by the agency security personnel. The review of the contractor’s facility will include, but is not limited to, the following:

- Physical security controls
- Identification and authentication controls
- System accountability controls
- Systems access controls
- Protection of residual data

- Backup procedures
- Fire detection and annunciation
- Contingency plans
- Personnel security

The contractor will be required to make reasonable changes to their facility and/or procedures to properly safeguard security material. If requirements are not met, the products will be procured from other sources.

PREAWARD PRODUCTIONS PLANS: The contractor shall present, in writing, to the Contracting Officer within three (3) workdays of being notified to do so by the Contracting Officer or his/her representative, detailed plans for the following activities. The workday after notification to submit will be the first day of the schedule.

THESE PROPOSED PLANS ARE SUBJECT TO REVIEW AND APPROVAL BY THE GOVERNMENT, AND AWARD WILL NOT BE MADE PRIOR TO APPROVAL OF THE SAME. THE GOVERNMENT RESERVES THE RIGHT TO WAIVE ANY OR ALL OF THESE PLANS.

Option Years: For each option year that may be exercised, the contractor will be required to re-submit, in writing, the above plans detailing any changes and/or revisions that may have occurred. The contractor should be prepared to submit these plans to GPO within three (3) workdays of notification of the option year being exercised.

If there are no changes/revisions, the contractor will be required to submit to the Contracting Officer a statement confirming that the current plans are still in effect.

Security Control Plans: The contractor shall operate and maintain an effective security system whereby materials used to perform the contract are manufactured and/or stored (e.g., while waiting to be processed, delivered, or disposed of) so as to ensure against theft and/or the unauthorized possession of the materials. Contractor is cautioned that Government provided information/materials shall not be used for non-government business. Specifically, Government information shall not be used for the benefit of a third party.

The contractor must provide a secure area(s) dedicated to the processing and storage of materials. Secure work areas must be under camera surveillance, with access limited to only those employees involved in the production of this contract. Signs must be posted so that only assigned employees may enter. It is prohibited for cameras and cell phones to be in the work areas of production.

At least one supervisory employee must be permanently assigned to the secured areas to visually observe, at all times, the production of work and the destruction of any materials.

The Government retains the right to conduct on-site security reviews at any time during the term of the contract.

The Security Control Plans shall provide in detail, at a minimum:

- How all accountable materials will be handled throughout all phases of production.
- How all furnished data will be stored and protected.
- How the disposal of waste materials will be handled. (See “DISPOSAL OF WASTE MATERIALS.”)
- List of contractor’s employees involved and their specific function.
- How all applicable Government-mandated security/privacy/rules and regulations, as cited in this contract, shall be adhered to by the contractor.

Part of the Security Control Plan shall include a floor plan detailing the area(s) to be used, showing existing walls, equipment to be used, and the processing and storage locations.

Contingency Plan: The failure to deliver these briefs and reports in accordance with the schedule requirements of this contract would have an impact on the daily operations of DOJ. Therefore, if for any reason(s) (act of God, labor disagreements, national emergency, pandemic, etc.) the contractor is unable to perform, contractor must have a continuity plan in place to produce the briefs and reports.

These plans must include the location of the facility to be used, security plans at that facility, and a timetable for the start of production at that facility. Part of this plan must also include the transportation of Government materials from one facility to the other.

PREAWARD TEST: The contractor being considered for award will be required to demonstrate the ability to produce the items required in these specifications at the requisite quality level by completing a preaward test. The Government reserves the right to waive the preaward test if there is other evidence that, in the opinion of the Contracting Officer, indicates that the contractor being considered for award has the capability to successfully produce the items required.

The document furnished (via email) will consist of one Merit Brief of approximately 100 pages using the same media stipulated in these specifications, representative of the type of materials to be furnished on this contract.

The contractor will be required to preflight, print, and bind (as specified) in accordance with the specifications herein. Printed/bound test samples must be printed on the required paper as specified under "STOCK/PAPER."

The contractor must submit 15 preaward test samples as follows:

Five (5) preaward test samples to Department of Justice, Attn: Brian Hicks, DTP unit, Room 6638, 950 Pennsylvania Avenue, NW, Washington, DC 20530.

Contractor must submit preaward test samples within 24 hours of receipt of furnished test materials.

Contractor must notify via email to Margaret Irvin at margaret.d.irvine@usdoj.gov, and Cecilia Dominguez at cdominguezcastro@gpo.gov on the same day as the delivery of the preaward samples.

If preaward test samples are disapproved by the Government, the contractor may be permitted, at the option of the Government, additional time to correct defects and/or submit revised test samples if so notified by the Contracting Officer. (The time allowed to provide additional test material may differ depending upon the nature of the defects noted and will be specified when notification is given.)

In the event the revised preaward test samples are disapproved by the Government, the contractor shall be deemed to have failed to comply with the applicable requirements of these specifications and may be a reason for a determination of non-responsibility.

Failure to deliver completed preaward test samples within the stated time period may disqualify the contractor from further consideration for award.

All operations necessary in the performance of this test shall be performed at the facility(ies) and on the equipment in which the contract production will be performed.

No charges will be allowed for costs incurred in the performance of this preaward test.

PREAWARD PAPER SAMPLES: The contractor being considered for award may be required to furnish samples of the paper to be used in the production of the contract requirements. (NOTE: The preaward paper samples may be waived by the Contracting Officer.)

The sample requirement is no less than 25 sheets of each stock. Each sheet sample shall be 8-1/2 x 11" and must be of the kind and quality required by the specifications (see "STOCK/PAPER" as specified herein). The container and accompanying documentation shall be marked PAPER SAMPLES, and shall include the GPO Program Number.

Samples will be inspected and tested and must comply with the specifications as to the kind and quality of materials.

Samples must be submitted within three (3) workdays of receipt of notification by GPO.

Submit samples to the GPO, Quality Control for Published Products, Attn: John Carey, Mail Stop CSPA Room C613, 732 North Capitol Street, NW, Washington, DC 20401. (Contractor must notify cdominguezcastro@gpo.gov when the paper samples are delivered to GPO.)

All samples submitted by a paper mill or a contractor must be labeled as to the JCP Code, paper weight, and paper manufacturer. Additionally, the package must clearly identify the program number and contractor on whose behalf the paper samples are being submitted. Any package not properly identified/labeled and/or has less than the specified 25 sheets will not be tested.

If the preaward paper samples are disapproved by the Government, the contractor may be permitted, at the option of the Government, additional time to submit additional samples if so notified by the Contracting Officer.

In the event the revised samples are disapproved by the Government, the contractor shall be deemed to have failed to comply with the applicable requirements of these specifications and may be a reason for a determination of non-responsibility.

Failure to deliver the paper samples within the stated time period may disqualify the contractor from further consideration for award.

Samples will not be returned to the contractor.

No charges will be allowed for these preaward paper samples.

ASSIGNMENT OF JACKETS, PURCHASE, AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover work performed. The purchase order will be supplemented by an individual print order for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

ORDERING: Items to be furnished under the contract shall be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from June 1, 2023, through May 31, 2024, plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be "issued" upon notification by the Government for purposes of the contract when it is electronically transmitted or otherwise physically furnished to the contractor in conformance with the schedule.

REQUIREMENTS: This is a requirements contract for the items and the period specified herein. Delivery of items or performance of work shall be made only as authorized by orders issued under the clause entitled "ORDERING." The quantities of items specified herein are estimates only, and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the items set forth herein do not result in orders in the amounts or quantities described as "estimated," it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements above the limit on total orders under this contract if any.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor within the time specified in the order, and the rights and obligations of the contractor and the Government respecting those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If shipment/delivery of any quantity of an item covered by the contract is required because of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued under the "ORDERING" clause of this contract.

PRIVACY ACT NOTIFICATION: This procurement action requires the contractor to do one or more of the following: design, develop, or operate a system of records on individuals to accomplish an agency function in accordance with the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 552a) and applicable agency regulations. The size of the fold-ins cannot be predetermined at this time, but it is anticipated that the maximum size will be 18 x 11". When ordered, fold-ins will require from one to four folds (parallel and/or angle) and may require an angle cut in order to tip to text page.

PACKING: Pack in shipping containers not to exceed 45 pounds when fully packed.

All shipments which fill less than a shipping container must be packaged with materials of sufficient strength and durability and in such a manner that will guarantee that the product will not be damaged and the package will not open nor split during shipping or delivery process.

LABELING AND MARKING: Contractor to download the "Labeling and Marking Specifications" form (GPO Form 905, Rev. 7-15) from www.gpo.gov, fill in appropriate blanks, and attach it to shipping bags or shipping containers. Label must clearly show the GPO program number, jacket number, and print order number.

QUALITY ASSURANCE RANDOM COPIES: The contractor may be required to submit quality assurance random copies to test for compliance against the specifications. The print order will indicate the number required, if any. When ordered, the contractor must divide the entire order into equal sublots and select a copy from a different general area of each subplot. The contractor will be required to certify that the copies were selected as directed using GPO Form 917 – Certificate of Selection of Random Copies which can be located on GPO.gov. Copies will be paid for at the running rate offered in the contractor's bid, and their cost will not be a consideration for award. A copy of the print order must be included with the samples.

Business Reply Mail labels will be furnished for mailing the quality assurance random copies. The copies are to be mailed at the same time as the first scheduled shipment. A U.S. Postal Service-approved Certificate of Mailing, identified by the GPO program, jacket, and print order numbers must be furnished with billing as evidence of mailing.

DISTRIBUTION: Deliver f.o.b. destination to approximately one (1) address in the Washington, DC area.

Complete address and quantity will be furnished with the print orders.

Entrance to the receiving platform at the Department of Justice, Washington, DC, has a maximum height clearance of 10'8". It is the responsibility of the contractor to provide shipment to the platform. No trailer trucks allowed.

Upon completion of each order, the contractor must notify the ordering agency (on the same day the order delivers) via email to the address indicated on the print order. The subject line of the email shall be "Distribution Notice for Program 404-S, Print Order XXXXX, Jacket Number XXX-XXX." The notice must provide all applicable tracking numbers, delivery method, and title of the product. Contractor must be able to provide copies of all delivery receipts upon agency request.

All expenses incidental to picking up and returning furnished materials (as applicable), maintaining SFTP site, submitting proofs, and furnishing sample copies must be borne by the contractor.

SCHEDULE: Adherence to this schedule must be maintained. Contractor must not start production of any job prior to receipt of the individual print order (GPO Form 2511).

PDF soft proofs must be emailed to the ordering agency at the email address specified on the print order.

The Government will notify the contractor before 3:00 p.m. of electronic transmission to be sent before 10:00 p.m.

If delivery of a brief is required by a specific time of the day, it will be specified when the order is placed, and will also be indicated on the print order.

Deliveries made after the time specified may affect the outcome of pending judicial decisions and may result in monetary loss to the Government and/or parties involved in litigation. In such cases, the Government will recover the actual damages suffered from the contractor.

Failure to meet scheduled times and dates may result in the Government immediately defaulting the contractor on the print order.

Any order rejected by the Government due to a contractor's error/fault must be reprinted, and copies must be received at the destination within one (1) workday of the notification of rejection.

The Government will have, on limited occasion, the requirement to notify the contractor that a problem on a print order may have occurred, and to delay the production for a short period of time.

In the event the Government delays a production, it will notify the contractor to stop production by no later than 9:30 a.m., the morning after an order was placed with the contractor the preceding evening.

In the event the Government delays a production, it will notify the contractor to either proceed with production or cancel the print order by no later than 12:00 p.m. (noon), the morning after an order was placed with the contractor the preceding evening.

Upon the Government's approval notification, the Government will still require the contractor to make delivery no later than 3:00 p.m. If the Government cancels the print order, the contractor will be reimbursed only for work performed prior to the cancellation or stoppage, and in accordance with the prices offered in the "SCHEDULE OF PRICES."

No definite schedule for placement of orders can be predetermined.

The following schedules begin the SAME day as notification of the availability of the print order and furnished material; the SAME workday as notification will be the first workday of the schedule.

Regular Schedule: Approximately 50% of the orders placed will require a regular schedule.

- Contractor must complete production and distribution within one (1) workday of receipt of the print order and furnished material, no later than 3:00 p.m. NOTE: For example, a print order placed no later than 10:00 p.m. on Tuesday would need to be delivered no later than 3:00 p.m. on Wednesday.
- If proofs are required, the contractor must deliver up to 200 pages of proofs within eight (8) hours of notification of the availability of copy. The remaining proofs shall be submitted in increments of 80 pages. An additional two (2) hours will be allowed for each additional increment of 80 pages, or fraction thereof.
- If corrections are required, the Government will submit new electronic media.

NOTE: For orders requiring the regular schedule, the Department of Justice will occasionally request the contractor to provide proofs from electronic media to the Government by 9:00 a.m., regardless of when the order was placed. The Government will review the proof copy, and notify the contractor no later than 12:00 p.m. (noon), on the same day to either proceed with production or cancel the print order.

- In the event proofs are requested, the Government will still require the delivery of the order to be made by 3:00 p.m. on the originally scheduled delivery date on the print order.
- If proofs are not required, the contractor will complete production and make delivery by 3:00 p.m. in accordance with the first bullet point above.
- All proof and transit time are included in the one (1) workday schedule.

Accelerated Schedule: Approximately 50% of the orders placed will require an accelerated schedule.

- Contractor must complete production and delivery within four (4) hours of notification of the availability of print order and furnished materials.
- Contractor will be notified in writing and/or by phone by 3:00 p.m. the day prior to a print order being placed with the accelerated 4-hour schedule requirement.
- When proofs are required, a Department of Justice representative will be on-site to conduct a proof inspection at the contractor's plant. The representative will occasionally request the contractor to provide revised proofs after changes have been incorporated. NOTE: Delivery date and time as indicated on the print order are critical.

The ship/deliver date indicated on the print order is the date products ordered for delivery f.o.b. destination must be delivered to the destination specified.

Unscheduled material such as shipping documents, receipts or instructions, delivery lists, labels, etc., will be furnished with each order or shortly thereafter. In the event such information is not received in due time, the contractor will not be relieved of any responsibility in meeting the shipping schedule because of failure to request such information.

For compliance reporting purposes, the contractor is to notify the U.S. Government Publishing Offices of the date of shipment or delivery. Upon completion of each order, contractor must contact the Shared Support Services Compliance Section via email at compliance@gpo.gov, or via telephone at (202) 512.0520. Personnel receiving email or call will be unable to respond to questions of a technical nature or to transfer any inquiries.

STORAGE: The contractor must properly store all furnished paper stock in a manner that provides protection from any type of damage, especially from the elements.

Contractor must keep an accurate and updated account of how much stock is used under the requirements of this contract, including spoilage and/or damaged stock. The contractor will be responsible for reimbursing the Government for any stock that is damaged while in their possession.

CONTRACT EXPIRATION: The contractor must return any unused paper stock to the DOJ upon completion of the contract.

SECTION 3. - DETERMINATION OF AWARD

The Government will determine the lowest bid by applying the prices offered in the "SCHEDULE OF PRICES" to the following units of production which are the estimated requirements to produce one (1) year's production under this contract. These units do not constitute, nor are they to be construed as, a guarantee of the volume of work which may be ordered for a like period of time.

PREMIUM PAYMENTS: Orders requiring the accelerated schedule will be paid for at the premium rate under the contractor's offered percentage in the "SCHEDULE OF PRICES."

All other orders will be placed with the regular schedule and paid for at the basic prices offered.

Percentages offered for premium-priced work are additional to the basic prices offered for units of work. Premium payments, when authorized, will apply to all items except Item II., "PAPER" in the "SCHEDULE OF PRICES."

Failure of the contractor to deliver work at the time specified will result in disallowance of premium payments that were anticipated, and the contractor will not list such items on their billing invoice.

It is estimated that 50% of all orders placed on this contract will require an accelerated schedule. Premium payments for an accelerated schedule will be evaluated for award. Evaluation will be affected by applying the percentage increase, offered for the accelerated schedule in the "SCHEDULE OF PRICES" (Item III.), to 50% of the prices offered for all items, except Item II., "PAPER."

The following item designations correspond to those listed in the "SCHEDULE OF PRICES."

		(1)	(2)
I.	(a)	207	201
	(b)	5,637	5,618
	(c)	62	60

SECTION 4. - SCHEDULE OF PRICES

Bids offered are f.o.b. destination.

Prices must include the cost of all required materials and operations for each item listed in accordance with these specifications.

Bidder must make an entry in each of the spaces provided. Bids submitted with any obliteration, revision, or alteration of the order and manner of submitting bids, may be declared non-responsive.

An entry of NC (No Charge) shall be entered if bidder intends to furnish individual items at no charge to the Government. Bids submitted with NB (No Bid), NA (Not Applicable), or blank spaces for an item may be declared non-responsive.

The Contracting Officer reserves the right to reject any offer that contains prices for individual items of production (whether or not such items are included in the "DETERMINATION OF AWARD") that are inconsistent or unrealistic in regard to other prices in the same offer or to GPO prices for the same operation if such action would be in the best interest of the Government.

All invoices submitted to the GPO shall be based on the most economical method of production.

Fractional parts of 100 will be prorated at the per-100 rate.

For saddle-stitched and perfect-bound products, a charge will be allowed for each text page, whether printed or blank. Unless otherwise specified, no more than three (3) blank pages shall be permitted at the end of the text for saddle-stitched products.

For the fold-ins, a charge will be allowed for each "fold-in unit." The number of units in a particular fold-in will be determined by dividing its trim size (expressed in square inches) by 57 square inches, with any fractional remainder being counted as a whole.

Contractor is not allowed to charge for text pages or fold-ins under both line items for black and four-color process.

Cost of all required paper must be charged under Item II., "PAPER."

Contractor's billing invoice must be itemized in accordance with the line items in the "SCHEDULE OF PRICES."

I. PRINTING, BINDING, PACKING, AND DISTRIBUTION: Prices offered must be all inclusive, as applicable and must include the cost of all required materials and operations necessary (including proofs) for the printing, binding, packing, and distribution of the product listed in accordance with these specifications.

Fold-ins - One page-size leaf will be allowed for each "fold-in unit." The number of units in a particular fold-in will be determined by dividing its trim size (expressed in square inches) by 57 square inches, with any fractional remainder being counted as a whole.

The text of the document must appear on both sides of the page.

The document shall be stapled or bound at the upper left-hand corner. Copies, if required, shall be produced on the same type of paper and shall be legible. The original of any such document (except a motion to dismiss or affirm under Rule 18.6) shall be signed by the party proceeding *pro se* or by counsel of record who must be a member of the Bar of this Court or an attorney appointed under the Criminal Justice Act of 1964, see 18 U. (e) the title of the document (*e. g.*, “Petition for Writ of Certiorari,” “Brief for Respondent,” “Joint Appendix”);

(f) the name of the attorney who is counsel of record for the party concerned (who must be a member of the Bar of this Court except as provided in Rule 9.1) and on whom service is to be made, with a notation directly thereunder identifying the attorney as counsel of record and setting out counsel’s office address, e-mail address, and telephone number. Only one counsel of record may be noted on a single document, except that counsel of record for each party must be listed on the cover of a joint appendix. The names of other members of the Bar of this Court or of the bar of the highest court of State acting as counsel, and, if desired, their addresses, may be added, but counsel of record shall be clearly identified. Names of persons other than attorneys admitted to a state bar may not be listed, unless the party is appearing *pro se*, in which case the party’s name, address, and telephone number shall appear.

(g) The foregoing shall be displayed in an appropriate typographical manner and, except for identification of counsel, may not be set in type smaller than standard 11-point, if the document is prepared as required by Rule 33.1.

2. Every document (other than a joint appendix), that exceeds 1,500 words when prepared under Rule 33.1, or that exceeds five pages when prepared under Rule 33.2, shall contain a table of contents and a table of cited authorities (*i. e.*, cases alphabetically arranged, constitutional provisions, statutes, treatises, and other materials) with references to the pages in the document where such authorities are cited.

3. The body of every document shall bear at its close the name of counsel of record and such other counsel, identified on the cover of the document in conformity with subparagraph 1(f) of this Rule, as may be desired.

4. Every appendix to a document must be preceded by a table of contents that provides a description of each document in the appendix.

5. All references to a provision of federal statutory law should ordinarily be cited to the United States Code, if the

provision has been codified therein. In the event the provision has not been classified to the United States Code, citation should be to the Statutes at Large. Additional or alternative citations should be provided only if there is a particular reason why those citations are relevant or necessary to the argument.

6. A case in which privacy protection was governed by Federal Rule of Appellate Procedure 25(a)(5), Federal Rule of Bankruptcy Procedure 9037, Federal Rule of Civil Procedure 5.2, or Federal Rule of Criminal Procedure 49.1 is governed by the same Rule in this Court. In any other case, privacy protection is governed by Federal Rule of Civil Procedure 5.2, except that Federal Rule of Criminal Procedure 49.1 governs when an extraordinary writ is sought in a criminal case. If the Court schedules briefing and oral argument in a case that was governed by Federal Rule of Civil Procedure 5.2(c) or Federal Rule of Criminal Procedure 49.1(c), the parties shall submit electronic versions of all prior and subsequent filings with this Court in the case, subject to the redaction Rules set forth above.
