The majority of orders that require printing on this contract will contain the Disclosure Notice and Distribution Statement D on title page. OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract ([TERM OF CONTRACT](#)) for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause, except, the total duration of the contract may not exceed **five years (September 30, 2030)** as a result of, and including, any extension(s) added under this clause. Further extension may be negotiated under the “*Extension of Term of Contract*” clause. See also “*Economic Price Adjustment*” for authorized pricing adjustment(s).

EXTENSION OF TERM OF CONTRACT: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment.

There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period.

Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from **October 1, 2025, through September 30, 2026**, and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final

period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted “*Consumer Price Index For All Urban Consumers - Commodities Less Food*” (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three (3) months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending **June 30, 2025, called the base index**. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

If the Government exercises an option, the extended contract shall be considered to include this economic price adjustment clause.

PAPER PRICE ADJUSTMENT. Paper prices charged under this contract will be adjusted in accordance with “*Table 9 - Producer Price Indexes and Percent Changes for Commodity Groupings and Individual Items*” in Producer Price Indexes report, published by the Bureau of Labor Statistics (BLS), as follows:

1. BLS code 0913 for all paper less newsprint will apply to all paper required under this contract.
2. The applicable index figures for the month of **September 2025** will establish the base index.
3. There shall be no price adjustment for the first three months of the contract.
4. Price adjustments may be monthly thereafter, but only if the index varies by an amount (plus or minus) exceeding 5% by comparing the base index to the index for that month which is two months prior to the month being considered for adjustment.
5. Beginning with order placement in the fourth month, index variances will be calculated in accordance with the following formula:

$$\frac{X - \text{base index}}{\text{base index}} \times 100 = __\%$$

where X = the index for that month which is two months prior to the month being considered for adjustment.

6. The contract adjustment amount, if any, will be the percentage calculated in 5 above less 5%.
7. Adjustments under this clause will be applied to the contractor's bid price(s) for line items “[III. STOCK/PAPER](#)” in the Schedule of Prices and will be effective on the first day of any month for which prices are to be adjusted.

The Contracting Officer will give written notice to the contractor of any adjustments to be applied to invoices for orders placed during months affected by this clause.

In no event, however, will any price adjustment be made which would exceed the maximum permissible under any law in effect at the time of the adjustment. The adjustment, if any, shall not be based upon the actual change in cost to the contractor, but shall be computed as provided above.

The contractor warrants that the paper prices set forth in this contract do not include any allowance for any contingency to cover anticipated increased costs of paper to the extent such increases are covered by this price adjustment clause.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor's/subcontractor's facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract. The Purchase Order will be supplemented by an individual "Print Order" for each job placed with the contractor. The Print Order, when issued, will indicate the quantity to be produced and any other information pertinent to the particular order.

Orders may be issued under the contract from **August 1, 2025, through July 31, 2026**, plus for such additional period(s) as the contract is extended. All Print Orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any Print Order. A Print Order shall be "*issued*" upon notification by the Government for purposes of the contract when it is electronically transmitted or otherwise physically furnished to the contractor in conformance with the schedule.

Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled "*Ordering*". The quantities of items specified herein are estimates only and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the items set forth herein do not result in orders in the amounts or quantities described as "*estimated*", it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor(s) all the items set forth which are required to be purchased by the Government activity identified in [SECTION 2. – SPECIFICATIONS](#).

The Government shall not be required to purchase from the contractor(s), requirements in excess of the limit on total orders under this contract, if any.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor(s) within the time specified in the order, and the rights and obligations of the contractor(s) and the Government respecting those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor(s) will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by Print Orders issued in accordance with the “*Ordering*” clause of this contract.
