

U.S. GOVERNMENT PUBLISHING OFFICE
Washington, DC

GENERAL TERMS, CONDITIONS, AND SPECIFICATIONS

For the Procurement of

**Representative Payee, Beneficiary Recontact, and Disability Update Reports
(Direct Mail Scannable Forms)**

as requisitioned from the U.S. Government Publishing Office (GPO) by the

Social Security Administration (SSA)

Single Award

TERM OF CONTRACT: The term of this contract is for the period beginning November 1, 2025 and ending October 31, 2026, plus up to four (4) optional 12-month extension period(s) that may be added in accordance with the “OPTION TO EXTEND THE TERM OF THE CONTRACT” clause in SECTION 1 of this contract.

The period from November 1, 2025 through June 30, 2026, will be used by the contractor for testing and interfacing with SSA’s National File Transfer Management System (FTMS) for electronic transmission of files from SSA to the production facility. Actual, live production begins on or around July 1, 2026.

BID OPENING: Bids shall be opened virtually at 11:00 a.m., Eastern Time (ET), on September 11, 2025, at the U.S. Government Publishing Office. All parties interested in attending the bid opening shall email bids@gpo.gov one (1) hour prior to the bid opening date and time to request a Microsoft Teams live stream link. This must be a separate email from the bid submission. The link will be emailed prior to the bid opening.

BID SUBMISSION: Bidders must email bids to bids@gpo.gov for this solicitation. No other method of bid submission will be accepted at this time. The program number and bid opening date must be specified in the subject line of the emailed bid submission. *Bids received after the bid opening date and time specified above will not be considered for award.*

BIDDERS, PLEASE NOTE: *This program was formerly Program 494-S.* These specifications have been extensively revised; therefore, all bidders are cautioned to familiarize themselves with all provisions of these specifications before bidding, with particular attention to:

- All security requirements/clauses/specifications specified in SECTION 1.
- SECTION 4. – SCHEDULE OF PRICES, BID ACCEPTANCE PERIOD.

Abstracts of contract prices are available at <https://www.gpo.gov/how-to-work-with-us/vendors/contract-pricing>.

For information of a technical nature, contact Jennifer Yarbrough at jyarbrough@gpo.gov or (202) 512-0220.

SECTION 1. – GENERAL TERMS AND CONDITIONS

GPO CONTRACT TERMS: Any contract which results from this Invitation for Bid will be subject to the applicable provisions, clauses, and supplemental specifications of GPO Contract Terms (GPO Publication 310.2, effective December 1, 1987 (Rev. 01-18)) and GPO Contract Terms, Quality Assurance through Attributes Program for Printing and Binding (GPO Publication 310.1, effective May 1979 (Rev. 09-19)).

GPO Contract Terms (GPO Publication 310.2) – <https://www.gpo.gov/docs/default-source/forms-and-standards-files-for-vendors/contractterms2018.pdf>.

GPO QATAP (GPO Publication 310.1) – <https://www.gpo.gov/docs/default-source/forms-and-standards-files-for-vendors/qatap-rev-09-19.pdf>.

SUBCONTRACTING: The predominant production functions are the printing of notices, the laser/ion deposition printing/imaging of data at a minimum of 600 x 600 dpi for the notices from electronically transmitted files, folding, inserting, presorting, mailing, and disposal of waste materials. Any bidder who cannot perform the predominant production functions of this contract will be declared non-responsible. (*Inkjet printing is not allowed.*)

Contractor may subcontract the printing and manufacturing of envelopes, instruction sheets, and flyers.

The contractor shall be responsible for enforcing all contract requirements outsourced to a subcontractor.

If the contractor needs to add a subcontractor at any time after award, the subcontractor must be approved by the Government prior to production starting in that facility. If the subcontractor is not approved by the Government, then the contractor must submit new subcontractor's information to the Government for approval 30 calendar days prior to the start of production at that facility.

QUALITY ASSURANCE LEVELS AND STANDARDS: The following levels and standards shall apply to these specifications:

Product Quality Levels:

- (a) Printing (page related) Attributes – Level III.
- (b) Finishing (item related) Attributes – Level III.

Inspection Levels (from ANSI/ASQC Z1.4):

- (a) Non-destructive Tests – General Inspection Level I.
- (b) Destructive Tests – Special Inspection Level S-2.
- (c) Transparent, low-gloss, poly-type window material, covering the envelope window, must pass a readability test with a rejection rate of less than 1/4% of 1% when run through a U.S. Postal Service (USPS) OCR scanner.
- (d) Exception: ANSI X3.17 “Character Set for Optical Character Recognition (OCR A)” shall apply to these specifications. The revisions of this standard which are effective as of the date of this contract are those which shall apply.
- (e) Exception: The Data Matrix 2D Barcodes must be in accordance with the requirements of ANSI MH 10.8.3M unless otherwise specified.
- (f) The payment portion below the micro-perforation on the “payment stub” (Title II – Final Accounting Notices), once detached, will be scanned and must function properly when processed through the current high-speed scanning equipment at SSA. A form is a reject and will be considered a major defect when its OCR print cannot be correctly deciphered on the first pass through the scanning equipment. (See “PRINTING, Imaging,” “MICRO-PERFORATED PAYMENT STUB,” and “BINDING” specified herein for additional information regarding the perforated payment stub.)

NOTE: Use of equipment or ink, which in any way adversely affects the scannability of the payment stub, will not be allowed.

ANSI Standards may be obtained from the American National Standards Institute, 25 West 43rd Street, 4th Floor, New York, NY 10036.

Specified Standards: The specified standards for the attributes requiring them shall be:

<u>Attribute</u>	<u>Specified Standard</u>
P-7. Type Quality and Uniformity	O.K. Press Sheet

Special Instructions: In the event the inspection of press sheets is waived by the Government, the following list of alternative standards (in order of precedence) shall become the Specified Standards:

P-7. O.K. Preproduction Test Samples; Average Type Dimension.

NOTE: The forms produced under these specifications require precision spacing, printing, trimming, and folding and must be guaranteed to function properly when processed through an Integrated Image Based Data Capture System (IIBDCS). The barcoding must be easily readable by all standard barcode scanning devices regardless of the contractor's method of reproducing the codes. (SSA equipment: hand-held barcode reader and high-speed scanners for Mailers 1 through 36 and the OPEX AS 3690 Scanner for micro-perforated payment stub for Mailers 19 through 24.)

OPTION TO EXTEND THE TERM OF THE CONTRACT: The Government has the option to extend the term of this contract for a period of 12 months by written notice to the contractor not later than 30 days before the contract expires. If the Government exercises this option, the extended contract shall be considered to include this clause except, the total duration of this contract may not exceed five (5) years as a result of, and including, any extension(s) added under this clause. Further extensions may be negotiated under the "EXTENSION OF CONTRACT TERM" clause. See also "ECONOMIC PRICE ADJUSTMENT" for authorized pricing adjustment(s).

EXTENSION OF CONTRACT TERM: At the request of the Government, the term of any contract resulting from this solicitation may be extended for such period of time as may be mutually agreeable to the GPO and the contractor.

ECONOMIC PRICE ADJUSTMENT: The pricing under this contract shall be adjusted in accordance with this clause, provided that in no event will any pricing adjustment be made that would exceed the maximum permissible under any law in effect at the time of the adjustment. There will be no adjustment for orders placed during the first period specified below. Pricing will thereafter be eligible for adjustment during the second and any succeeding performance period(s). For each performance period after the first, a percentage figure will be calculated as described below and that figure will be the economic price adjustment for that entire next period. Pricing adjustments under this clause are not applicable to reimbursable postage or transportation costs, or to paper, if paper prices are subject to adjustment by separate clause elsewhere in this contract.

For the purpose of this clause, performance under this contract will be divided into successive periods. The first period will extend from November 1, 2025 through October 31, 2026 and the second and any succeeding period(s) will extend for 12 months from the end of the last preceding period, except that the length of the final period may vary. The first day of the second and any succeeding period(s) will be the effective date of the economic price adjustment for that period.

Pricing adjustments in accordance with this clause will be based on changes in the seasonally adjusted "Consumer Price Index For All Urban Consumers - Commodities Less Food" (Index) published monthly in the CPI Detailed Report by the U.S. Department of Labor, Bureau of Labor Statistics.

The economic price adjustment will be the percentage difference between Index averages as specified in this paragraph. An index called the variable index will be calculated by averaging the monthly Indexes from the 12-month interval ending three (3) months prior to the beginning of the period being considered for adjustment. This average is then compared to the average of the monthly Indexes for the 12-month interval ending July 31, 2025 called the base index. The percentage change (plus or minus) of the variable index from the base index will be the economic price adjustment for the period being considered for adjustment.

The Government will notify the contractor by contract modification specifying the percentage increase or decrease to be applied to invoices for orders placed during the period indicated. The contractor shall apply the percentage increase or decrease against the total price of the invoice less reimbursable postage or transportation costs and separately adjusted paper prices. Payment discounts shall be applied after the invoice price is adjusted.

PAPER PRICE ADJUSTMENT: Paper prices charged under this contract will be adjusted in accordance with “Table 9 - Producer Price Indexes and Percent Changes for Commodity Groupings and Individual Items” in Producer Price Indexes report, published by the Bureau of Labor Statistics (BLS), as follows:

NOTE: For the purpose of this contract, the Paper Price Adjustment will be based on the date of actual production. Actual, live production begins July 1, 2026.

1. BLS code 0913-01 for Offset and Text will apply to all paper required under this contract.
2. The applicable index figures for the month of June 2026 will establish the base index.
3. There shall be no price adjustment for the first three production months of the contract.
4. Price adjustments may be monthly thereafter, but only if the index varies by an amount (plus or minus) exceeding 5% by comparing the base index to the index for that month, which is two months prior to the month being considered for adjustment.
5. Beginning with order placement in the fourth month, index variances will be calculated in accordance with the following formula:

$$\frac{X - \text{Base Index}}{\text{Base Index}} \times 100 = \underline{\hspace{2cm}} \%$$

where X = the index for that month which is two months prior to the month being considered for adjustment.

6. The contract adjustment amount, if any, will be the percentage calculated in 5 above less 5%.
7. Adjustments under this clause will be applied to the contractor’s bid price(s) for Item V., “PAPER” in the “SCHEDULE OF PRICES” and will be effective on the first day of any month for which prices are to be adjusted.

The Contracting Officer will give written notice to the contractor of any adjustments to be applied to invoices for orders placed during months affected by this clause.

In no event, however, will any price adjustment be made which would exceed the maximum permissible under any law in effect at the time of the adjustment. The adjustment, if any, shall not be based upon the actual change in cost to the contractor, but shall be computed as provided above.

The contractor warrants that the paper prices set forth in this contract do not include any allowance for any contingency to cover anticipated increased costs of paper to the extent such increases are covered by this price adjustment clause.

SECURITY REQUIREMENTS: Clause 2352.224-1 Protection of Confidential Information (Dec 2008):

- (a) “Confidential information,” as used in this clause, means information or data, or copies or extracts of information or data, that is: (1) provided by the Social Security Administration (SSA) to the contractor for, or otherwise obtained by the contractor in, the performance of this contract; and (2) of a personal nature about an individual, such as name, home address, and social security number, or proprietary information or data submitted by or pertaining to an institution or organization, such as employee pay scales and indirect cost rates.
- (b) The Contracting Officer and the contractor may, by mutual consent, identify elsewhere in this contract specific information or categories of information that the Government will furnish to the contractor or that the contractor is expected to generate which are confidential. Similarly, the Contracting Officer and the contractor may, by mutual consent, identify such confidential information from time to time during the performance of the contract. The confidential information will be used only for purposes delineated in the contract; any other use of the confidential information will require the Contracting Officer’s express written authorization. The Contracting Officer and the contractor will settle any disagreements regarding the identification pursuant to the “Disputes” clause.
- (c) The contractor shall restrict access to all confidential information to the minimum number of employees and officials who need it to perform the contract. Employees and officials who need access to confidential information for performance of the contract will be determined in conference between SSA’s Contracting Officer, Contracting Officer’s Technical Representative, and the responsible contractor official. Upon request, the contractor will provide SSA with a list of “authorized personnel,” that is, all persons who have or will have access to confidential information covered by this clause.
- (d) The contractor shall process all confidential information under the immediate supervision and control of authorized personnel in a manner that will: protect the confidentiality of the records; prevent the unauthorized use of confidential information; and prevent access to the records by unauthorized persons.
- (e) The contractor shall assure that each contractor employee with access to confidential information knows the prescribed rules of conduct, and that each contractor employee is aware that he/she may be subject to criminal penalties for violations of the Privacy Act and/or the Social Security Act.

When the contractor employees are made aware of this information, they will be required to sign the SSA-301, “Contractor Personnel Security Certification” (see Exhibit A).

A copy of this signed certification must be forwarded to: SSA, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401, or email to: melissa.picone@ssa.gov. A copy must also be forwarded to: U.S. Government Publishing Office, Attn: Jennifer Yarbrough at jyarbrough@gpo.gov. (See paragraph (f) below regarding the minimum standards that the safeguards must meet.)

- (f) Whenever the contractor is storing, viewing, transmitting, or otherwise handling confidential information, the contractor shall comply with the applicable standards for security controls that are established in the [Federal Information Security Modernization Act \(FISMA\)](#). (These standards include those set by the National Institute of Standards and Technology (NIST) via the Federal Information Processing Standards (FIPS) publications and NIST Special Publications, particularly [FIPS 199](#), [FIPS 200](#), and [NIST Special Publications - 800 series](#).)

- (g) If the contractor, in the performance of the contract, uses any information subject to the Privacy Act of 1974, 5 U.S.C. 552a, and/or section 1106 of the Social Security Act, 42 U.S.C. 1306, the contractor must follow the rules and procedures governing proper use and disclosure set forth in the Privacy Act, section 1106 of the Social Security Act, and the Commissioner's regulations at 20 C.F.R. Part 401 with respect to that information.
- (h) For knowingly disclosing information in violation of the Privacy Act, the contractor and contractor employees may be subject to the criminal penalties as set forth in 5 U.S.C. Section 552(i)(1) to the same extent as employees of SSA. For knowingly disclosing confidential information as described in section 1106 of the Social Security Act (42 U.S.C. 1306), the contractor and contractor employees may be subject to the criminal penalties as set forth in that provision.
- (i) The contractor shall assure that each contractor employee with access to confidential information is made aware of the prescribed rules of conduct and the criminal penalties for violations of the Privacy Act and/or the Social Security Act.
- (j) Whenever the contractor is uncertain how to handle properly any material under the contract, the contractor must obtain written instructions from the Contracting Officer addressing this question. If the material in question is subject to the Privacy Act and/or section 1106 of the Social Security Act or is otherwise confidential information subject to the provisions of this clause, the contractor must obtain a written determination from the Contracting Officer prior to any release, disclosure, dissemination, or publication. Contracting Officer instructions and determinations will reflect the result of internal coordination with appropriate program and legal officials.
- (k) Performance of this contract may involve access to tax return information as defined in 26 U.S.C. Section 6103(b) of the Internal Revenue Code (IRC). All such information shall be confidential and may not be disclosed without the written permission of the SSA Contracting Officer. For willingly disclosing confidential tax return information in violation of the IRC, the contractor and contractor employees may be subject to the criminal penalties set forth in 26 U.S.C. Section 7213. (Refer to "SAFEGUARDING FEDERAL TAX INFORMATION REQUIREMENTS.")
- (l) The SSA reserves the right to conduct on-site visits to review the contractor's documentation and in-house procedures for protection of and security arrangements for confidential information and adherence to the terms of this clause.
- (m) The SSA reserves the right to inspect contractor facilities to ensure compliance with this contract. If facilities are found deficient, the contractor must implement corrective actions within 45 calendar days of notification.
- (n) The contractor must include this clause in all resulting subcontracts whenever there is any indication that the subcontractor(s), engaged by the contractor, and their employees or successor subcontractor(s) and their employees might have access to SSA's confidential information.
- (o) The contractor must assure that its subcontractor(s) and their employees or any successor subcontractor(s) and their employees with access to SSA confidential information are made aware of the prescribed rules of conduct. For knowingly disclosing SSA's confidential information, any subcontractor(s) and their employees or successor subcontractor(s) and their employees may be subject to criminal penalties as described in section 1106 of the Social Security Act (42 U.S.C. 1306) and the Privacy Act (5 U.S.C. 552a).

SSA EXTERNAL SERVICE PROVIDER SECURITY REQUIREMENTS: This resource identifies the basic information security requirements related to the procurement of Information Technology (IT) services hosted externally to SSA's Network.

The following general security requirements apply to all External Service Providers (ESP):

- a. The solution must be located in the United States, its territories, or possessions.

NOTE: "United States" means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, et seq.), but does not include any other place subject to U.S. jurisdiction or any U.S. base or possession within a foreign country (29 CFR 4.112).

- b. Upon request from the SSA Contracting Officer Technical Representative (COTR), the ESP shall provide access to the hosting facility to the U.S. Government or authorized agents for inspection and facilitate an on-site security risk and vulnerability assessment.
- c. The solution must meet Federal Information Processing Standards (FIPS) and guidance developed by the National Institute of Science and Technology (NIST) under its authority provided by the Federal Information Security Modernization Act (FISMA) to develop security standards for federal information processing systems, and Office of Management and Budget's (OMB) Circular A-130 Appendix III.
- d. ESPs classified as Cloud Service Providers (CSP) must be FedRAMP authorized. As part of these requirements, CSPs must have a security control assessment performed by a Third Party Assessment Organization (3PAO).
- e. The ESP shall submit to the SSA COTR documentation describing how the solution implements security controls in accordance with the designated categorization (FIPS 199) and the Minimum Security Requirements for Federal Information and Information Systems (FIPS 200) which requires the use of NIST SP 800-53r5 (or later) before SSA provides data.
- f. All ESPs that process or store Personally Identifiable Information (PII) (as defined in Clause 2352.224-2A (a)) are considered a Moderate impact categorization. If PII or sensitive data (defined by the COTR) is stored or processed by the ESP, then the ESP shall provide a Security Authorization Package (SAP), which will undergo a Triannual Full Assessment and will undergo an Annual Review. The SAP should include a System Security Plan (SSP), Security Assessment Report (SAR), Risk Assessment Report (RAR), and Plan of Action & Milestone Report (POA&M). The SAP must be reviewed by SSA before the SSA transfers data to the ESP. Refer to NIST SP 800-37 and NIST SP 800-53r5 (or later) for more information on the Security Authorization Package. (Refer to "SAFEGUARDING FEDERAL TAX INFORMATION REQUIREMENTS" if an independent assessor is needed to accomplish this requirement.)

NOTE: Independent assessor is any individual or group capable of conducting an impartial assessment of security controls employed within or inherited by an information system.

- g. SSA will consider a self-assessment of security controls for solutions that do not involve sensitive information or PII.

With the everchanging security models and requirements, OIS recommends that the contractor formally request updated templates and requirement changes via email annually from the date of the award.

The publications specified below contain current examples of templates. The contractor will need to evaluate the templates and complete them as appropriate. Additional guidance can be found from the NIST links above. The contractor will need to work with SSA to determine if the 800-53r5 or 800-171r3 SSP templates should be used, or if there are new templates available.

- NIST Special Publication 800-171r3, CUI-SSP Template (see Exhibit B)

- NIST Special Publication 800-171r3, System Security Plan (SSP) (see Exhibit D)
- SSA PII Loss Reporting Template (see Exhibit E)

Additionally, see the section “SAFEGUARDING FEDERAL TAX INFORMATION REQUIREMENTS” which outlines additional requirements if Federal Tax Information (FTI) is involved.

PHYSICAL SECURITY: Contractor’s facilities storing SSA assets and information are required to meet the Interagency Security Committee’s (ISC) standard for Federal facilities. This information can be found in the “Facility Security Plan: An Interagency Security Committee Guide,” dated February 2015, 1st Edition. SSA reserves the right to inspect contractor facilities to ensure compliance with the ISC guidelines. If facilities are found deficient, the contractor must implement corrective actions within 45 calendar days of notification. Requirements can include, but not be limited to, the physical security countermeasures, such as access control systems, closed circuit television systems, intrusion detection systems, and barriers.

Contractor must pass all External Service Provider Security and Physical Security requirements as specified above before the Government can award this contract. Any bidder who cannot obtain approval for any of these security requirements within 60 calendar days of approval of production plans and physical security inspection will be declared non-responsible.

SECURITY WARNING:

All employees working on this contract must:

- Be familiar with current information on security, privacy, and confidentiality as they relate to the requirements of this contract.
- Obtain pre-screening authorization before using sensitive or critical applications pending a final suitability determination as applicable to the specifications.
- Lock or log off their workstation/terminal prior to leaving it unattended.

- Act in an ethical, informed, and trustworthy manner.
- Protect sensitive electronic records.
- Be alert to threats and vulnerabilities to their systems.
- Be prohibited from having any mobile devices or cameras in sensitive areas that contain confidential materials, including areas where shredding and waste management occurs.

Contractor's managers working on this contract must:

- Monitor use of mainframes, PCs, LANs, and networked facilities to ensure compliance with national and local policies, as well as the Privacy Act statement.
- Ensure that employee screening for sensitive positions within their department has occurred prior to any individual being authorized access to sensitive or critical applications.
- Implement, maintain, and enforce the security standards and procedures as they appear in this contract and as outlined by the contractor.
- Contact the security officer within 24 hours whenever a systems security violation is discovered or suspected.

Applicability: The responsibility to protect PII applies during the entire term of this contract and all option year terms if exercised. All contractors must secure and retain written acknowledgement from their employees stating they understand these policy provisions and their duty to safeguard PII. These policy provisions include, but are not limited to, the following:

- Employees are required to have locking file cabinets or desk drawers for storage of confidential material, if applicable.
- Material is not to be taken from the contractor's facility without express permission from the Government.
- Employees must safeguard and protect all Government records from theft and damage while being transported to and from contractor's facility.

The following list provides examples of situations where PII is not properly safeguarded:

- Leaving an unprotected computer containing Government information in a non-secure space (e.g., leaving the computer unattended in a public place, in an unlocked room, or in an unlocked vehicle).
- Leaving an unattended file containing Government information in a non-secure area (e.g., leaving the file in a break-room or on an employee's desk).
- Storing electronic files containing Government information on a computer or access device (flash drive, CD, etc.) that other people have access to (not password-protected).

This list does not encompass all failures to safeguard PII but is intended to act as an alert to the contractor's employees to situations that must be avoided. Misfeasance occurs when an employee is authorized to access Government information that contains sensitive or personally identifiable information and, due to the employee's failure to exercise due care, the information is lost, stolen, or inadvertently released.

Clause 2352.224-2A Protecting and Reporting the Loss of Personally Identifiable Information (May 2019)

(a) Definitions.

The following terms are defined for the purposes of this clause:

“Agency” means the Social Security Administration (SSA).

“Breach” means the loss of control, compromise, unauthorized disclosures, unauthorized acquisition, or any similar occurrence where: (1) a person other than an authorized user accesses or potentially accesses personally identifiable information (PII); or (2) an authorized user accesses or potentially accesses personally identifiable information for another than authorized purpose. A breach is not limited to an occurrence where a person other than an authorized user potentially accesses PII by means of a network intrusion, a targeted attack that exploits website vulnerabilities, or an attack executed through an email message or attachment. A breach may also include the loss or theft of physical documents that include PII and portable electronic storage media that store PII, the inadvertent disclosure of PII on a public website, or an oral disclosure of PII to a person who is not authorized to receive that information. It may also include an authorized user accessing PII for other than an authorized purpose. Often, an occurrence may be first identified as an incident, but later identified as a breach once it is determined that the incident involves PII, as is often the case with a lost or stolen laptop or electronic storage device.

Some common examples of a breach include:

- A laptop or portable storage device storing PII is lost or stolen;
- An email containing PII is inadvertently sent to the wrong person;
- A box of documents with PII is lost or stolen during shipping;
- An unauthorized third party overhears agency employees discussing PII about an individual seeking employment or Federal benefits;
- A user with authorized access to PII sells it for personal gain or disseminates it to embarrass an individual;
- An information technology system that maintains PII is accessed by a malicious actor; or
- PII that should not be widely disseminated is posted inadvertently on a public website.

“Employee(s)” means individual(s) under a direct employee-employer relationship with the contractor, where the contractor has the power or right to control and direct the individual in the material details of how work is to be performed.

“Handling of PII” or “handle(s) PII” means accessing, using, creating, collecting, processing, storing, maintaining, disseminating, disclosing, disposing, or destruction of PII, as defined in this clause.

“Incident” means an occurrence that (1) actually or imminently jeopardizes, without lawful authority, the integrity, confidentiality, or availability of information or an information system or (2) constitutes a violation or imminent threat of violation of law, security policies, security procedures, or acceptable use policies.

“Personally identifiable information” (PII) means information that can be used to distinguish or trace an individual’s identity, either alone or when combined with other information that is linked or linkable to a specific individual. The PII may range from common data elements such as names, addresses, dates of birth, and places of employment, to identity documents, Social Security numbers (SSN) or other government-issued identifiers, precise location information, medical history, and biometric records. Within this clause, “PII” shall specifically mean PII that is made or becomes available to the contractor, including its employees, as a result of performing under this contract.

“Primary agency contact” means the SSA Contracting Officer’s Representative (COR) who is the Contracting Officer’s Technical Representative (COTR) or, for indefinite delivery contracts with individual orders issued against the contract, e.g., task-order contracts, the order’s Task Manager, if one has been assigned. The COR may have one or more designated alternates to act for the COR when the COR is unavailable. If neither the COR nor the designated alternate is available, the alternate shall be considered a responsible agency manager in the office.

“Secure area” or “Secure duty station” means, for the purpose of this clause, either of the following, unless the agency expressly states otherwise on a case-by-case basis: (1) a contractor employee’s official place of work that is in the contractor’s established business office in a commercial setting, or (2) a location within the agency or other Federal- or State-controlled premises. A person’s private home, even if it is used regularly as a “home office” (including that of a contractor management official), shall not be considered a secure area or duty station.

“Suspected breach” means PII that, among other possibilities, has been lost or stolen, or accessed in an unauthorized fashion, but it is not yet confirmed that the PII has been compromised to meet the level of a breach.

“Transport(ing)” or “transported” means the physical taking or carrying of PII from one location to another. For the purpose of this clause, the term does not include shipping by a common or contract carrier (as defined in Federal Acquisition Regulation (FAR) section 47.001), shipping by the U.S. Post Office, or electronic transmission. See “FILE TRANSFER MANAGEMENT SYSTEM (FTMS) REQUIREMENTS” specified herein for information regarding electronic transmission. SSA will review and approve the Material Handling and Inventory Control plan and the Security Control Plan (see “PREAWARD PRODUCTION PLANS, *Materials Handling and Inventory Control Plan*” and “*Security Control Plan*”). The plans shall describe in detail how the contractor will transport PII.

(b) *Responsibility for Safeguarding PII.*

- (1) The contractor shall comply with applicable limitations on use, treatment, and safeguarding of PII under the Privacy Act of 1974 (5 U.S.C. § 552a); the Federal Information Security Management Act of 2002 (44 U.S.C. § 3541, et seq.), as amended by the Federal Information Security Modernization Act of 2014 (Pub. L. 113-283); related National Institute of Standards and Technology guidelines; the Paperwork Reduction Act, 44 U.S.C. § 3501-3521; the E-Government Act of 2002, 44 U.S.C. § 3501 note; Office of Management and Budget (OMB) guidance relating to handling of PII, including OMB Memorandum M-17-12, “Preparing for and Responding to a Breach of Personally Identifiable Information”; SSA privacy and security policies and procedures relating to handling of PII; and other Federal laws governing handling of PII.
- (2) The contractor shall establish, maintain, and follow its own policies and procedures to protect the confidentiality of PII (PII policies and procedures) in accordance with the laws, policies, and requirements referenced in this clause and elsewhere in the contract. The contractor’s PII policies and procedures shall include safeguards to protect PII from loss, theft, or inadvertent disclosure and breach procedures.
- (3) The contractor shall restrict handling of PII to only those authorized employees who need it in connection with the performance of work under this contract.
- (4) Unless authorized by this contract or otherwise in writing by SSA, the contractor shall not publish, disclose, release, or otherwise disseminate PII, internally or externally.
- (5) The contractor shall inform its employees who will or may handle PII of their individual responsibility to safeguard it. In addition, the contractor shall educate and train employees as required by FAR 24.301 and enforce employees’ compliance with the contractor’s PII policies and procedures and other requirements relating to handling of PII in this contract. SSA may require the contractor to provide evidence of the performance of training and the content of the training.

- (6) Additional policies, procedures, and requirements involving the handling of PII may be prescribed elsewhere in this contract, including but not limited to information security policies. The contractor shall follow all such policies, procedures, and requirements. If contract performance calls for the contractor handling of PII in a manner not addressed in this clause or elsewhere in the contract that may cause a security question or concern, the contractor shall seek clarification and direction from the agency, prior to commencing the handling of PII in question. The contractor shall also follow the safeguard requirements set forth in "SAFEGUARDING FEDERAL TAX INFORMATION REQUIREMENTS."

(c) *Safeguarding Requirements.*

- (1) The contractor is responsible for safeguarding PII at all times. The contractor shall ensure that PII remains under the immediate supervision and control of authorized employees in a manner that will protect the confidentiality and integrity of PII. Examples of proper safeguarding include, but are not limited to: maintaining the confidentiality of each employee's individual password (by not sharing the password with any other individual or entity and not writing it down); verifying the identity of individuals before disclosing information to them; preventing others in the area from viewing PII on one's computer screen; consistently locking or logging off one's workstation when one is away; and ensuring that PII is appropriately returned or, upon receiving the agency's approval, destroyed when no longer needed. The contractor may use its internal policies and practices, non-disclosure agreements, system security requirements or any other means to accomplish its safeguarding responsibilities.

(2) *Transporting PII Outside a Secure Area/Secure Duty Station.*

- (i) The contractor shall safeguard equipment, files, or documents containing PII when transporting information from a secure area/secure duty station. The contractor shall ensure that the laptops and other electronic devices/media being used to transport PII are encrypted and password protected. The contractor shall ensure that the encryption and password protection are in accordance with any agency-prescribed standards or policies, which shall be communicated separately from this clause. The contractor shall use reasonable protection measures when transporting PII, e.g., storing files in a locked briefcase, not leaving files and/or equipment in plain view.
- (ii) The contractor shall ensure that its PII policies and procedures address transporting PII outside a secure area and emailing PII to and from non-SSA email addresses. The contractor shall provide employees, upon or immediately prior to their commencing work on the contract, with contact information and instructions relating to PII breaches and incidents, based on the contractor's security/PII loss incident policy and procedures. (If the preceding requirement is introduced to the contract under a contract modification, the contractor shall ensure employees are provided this information and instructions within 10 working days of the modification.) The contractor shall periodically remind employees of the foregoing information and instructions per the regular training requirements at (d)(1) below.

(NOTE: Agency-prescribed contact information and instructions for reporting lost or possibly lost PII are discussed in paragraph (d) below.) SSA may require that the contractor present evidence of compliance with these provisions.

(iii) *Tracking PII-containing material (files, documents, etc.).*

- (A) Unless the PII is being transported for disposal pursuant to the contract per (c)(3) below, or SSA grants an exception per (c)(2)(iii)(D) below, the contractor shall take appropriate and necessary action to ensure that the PII-containing material, such as file(s) or document(s) being physically transported or transmitted electronically outside the secure area/secure duty station, are tracked through a log. The PII-containing material shall be logged out prior to transport as well as logged back in upon return. The contractor can establish any mechanism for tracking as long as the process, at a minimum, provides for the following information to be logged:

- (1) first and last name of the employee taking/returning the material;
 - (2) the identification of the PII-containing material, such as the name of the file(s) or document(s) containing PII;
 - (3) the media used to transport the PII (e.g., electronic, such as laptop, portable drive, compact disc/digital versatile disc (CD/DVD), or email—be as specific as possible; paper, such as paper file folders or printouts);
 - (4) the reason he/she intends to transport the PII-containing material;
 - (5) the date he/she transported the PII-containing material from the secure area/secure duty station;
 - (6) the date the PII-containing material is due to be returned to the secure area/duty station. See subparagraph (c)(2)(iii)(B) immediately below.
 - (7) the approver's name and phone number.
 - (8) the actual return date of the PII-containing material.
- (B) Materials shall be returned or, when authorized by paragraph (c)(3), documented as destroyed, within 90 calendar days of removal from the office or have contractor supervisory approval for being held longer.
- (C) The log shall be maintained in a secure manner. Upon request by the agency, the contractor shall provide the information from the log in a format (e.g., electronic or paper) that can be readily accessed by the agency. The contractor shall retain the log in accordance with General Records Schedule 4.2, Information Access and Protection Records, Item 40 (disposition authority DAA-GRS-2016-0002-0004). (See Exhibit F.)
- (D) SSA may relieve the contractor of having to comply with these logging requirements for certain transmissions when the contractor is engaged in routine and secure transmission of PII, and SSA determines that there are appropriate security controls in place to track the data through other means.
- (3) *Return and/or Disposal of PII.* The contractor shall return and/or dispose of the PII when the PII is no longer required for performance of this contract, e.g., upon contract completion, per agency direction and requirements. The marked statement(s) below apply to this contract:
- [x] (i) This contract entails the return of PII.
- [x] (ii) This contract entails the disposal of PII. The contractor shall follow the procedures described in "Disposal of Waste Materials" (see "PREAWARD PRODUCTION PLANS, *Disposal of Waste Materials*").
- (4) *Emailing PII.* The contractor's corporate or organizational email system is deemed not to be secure. Therefore, the contractor shall put policies and procedures in place to ensure that its employees email PII using only the following procedures in (i) and (ii), below:

- (i) *Sending from a SSA email address.* If employees have been given access to the SSA email system, they may use it to send email messages containing PII in the body or in an unencrypted attachment but only to other SSA email addresses (which contain the “name@ssa.gov” format) or to email addresses belonging to a SSA-certified email system. Email directed to any other address(es) may contain PII only if the PII is entirely contained in an encrypted attachment. The contractor shall encrypt PII in accordance with OMB Circular A-130, Managing Information as a Strategic Resource (July 28, 2016).
- (ii) *Sending from a non-SSA email system.* If employees are using the contractor’s own or any other non-agency email system (e.g., Yahoo!, Gmail), they may send email messages transmitting PII only if the PII is entirely contained in an encrypted attachment, per OMB Circular A-130; none of the PII may be in the body of the email itself or in an unencrypted attachment. When emailing from such systems, this procedure applies when emailing PII to any email address, including but not limited to, a SSA email system address. Unless specifically noted otherwise, the contractor and its employees are expected to conduct business operations under this contract using the contractor’s own email system, i.e., in accordance with the foregoing rules for transmitting PII.

SSA may grant written exceptions to compliance with the email requirements in paragraph (c)(4) above when the contractor’s corporate or organizational email system has been deemed by SSA to be secure.

- (d) *Procedures for Reporting PII Breach or Incident.* The agency has its own reporting requirements for PII breaches or incidents. The purpose of the following paragraphs is to ensure that the contractor meets the requirements and shares breach or incident information appropriately. The contractor’s report of a breach or incident will not, by itself, be interpreted as evidence that the contractor failed to provide adequate safeguards for PII.

- (1) *Contractor Responsibility.* In addition to establishing and implementing its own internal procedures referenced in paragraph (b) above, the contractor shall provide regular training (at least annually and when new employees commence work) for contractors on how to identify and report a breach or incident and take reasonable actions to implement agency-prescribed procedures described in paragraph (d)(3) below for reporting PII breaches or incidents. These include training employees handling PII about these procedures, including how to identify and report a PII breach or incident, and otherwise taking appropriate and necessary steps to enforce their compliance in carrying them out. The contractor shall cooperate and exchange information with agency officials, as determined necessary by the agency, in order to report and manage a suspected or confirmed breach or incident effectively. The contractor shall maintain capabilities to determine what agency information was or could have been accessed and by whom, be able to construct a timeline of user activity, determine methods and techniques used to access agency information, and identify the initial attack vector. The contractor shall allow for an inspection, investigation, forensic analysis, and any other action necessary to ensure compliance with OMB memorandum M-17-12 and agency guidance and breach procedures to assist with responding to a breach or incident. SSA may require evidence of compliance with this guidance.
- (2) *Potential Need for Immediate, Direct Reporting by the Employee.* The agency recognizes that contractor employees will likely make the initial discovery of a PII breach or incident. When an employee becomes aware or suspects that PII has been lost or compromised, he/she is required to follow the contractor’s established security/PII breach/incident reporting process (see paragraph (d)(1), above). The contractor’s reporting process, along with the agency’s (see paragraph (d)(3) below), shall require the contractor, and not necessarily the employee, in such circumstances to notify the agency of the breach or incident. However, the contractor shall inform each employee handling or potentially handling PII that he/she must be prepared to notify outside authorities directly and immediately as described in paragraph (d)(3)(v) below, if, shortly following the breach or incident or discovery of the breach or incident, he/she finds it evident that neither an appropriate contractor nor the agency manager/contact can be reached. The contractor shall emphasize to the employee that timeliness in reporting the incident is critical.

(3) *Procedures.*

- (i) When a contractor employee becomes aware of or suspects a PII breach or incident, the contractor, in accordance with its incident reporting process, shall provide immediate (as soon as possible and without unreasonable delay) notification of the breach or incident to the primary agency contact. If the primary agency contact is not readily available, the contractor shall immediately notify the contact's alternate. The contractor shall act to ensure that each employee, prior to commencing work on the contract, has been given information as to who the primary and alternate agency contacts are and how to contact them. In addition, the contractor shall act to ensure that each employee promptly receives any updates on such information, as they are made available. Whenever the employee removes PII from a secure area/secure duty station, he/she shall comply with the contractor's security policies, including having on hand the current contact information for the primary agency contact and at least one alternate.
- (ii) The contractor shall provide the primary agency contact or the alternate, as applicable, updates on the status of the reported PII loss or compromise as they become available but shall not delay the initial report.
- (iii) The contractor shall provide complete and accurate information about the details of the PII breach or incident to assist the agency contact/alternate, including the following information:
 - (A) Contact information;
 - (B) A description of the PII breach or incident (i.e., nature of the breach, scope, number of files or records, type of equipment or media, etc.) including the approximate time and location of the loss;
 - (C) A description of safeguards used, where applicable (e.g., locked briefcase, redacted personal information, password protection, encryption, etc.);
 - (D) An identification of agency components (organizational divisions or subdivisions) contacted, involved, or affected;
 - (E) Whether the contractor or its employee has contacted or been contacted by any external organizations (i.e., other agencies, law enforcement, press, etc.);
 - (F) Whether the contractor or its employee has filed any other reports (i.e., Federal Protective Service, local police, and agency reports); and
 - (G) Any other pertinent information.
- (iv) The contractor may use the PII Loss Reporting Template (Exhibit E) to gather and organize information quickly about the incident. The contractor shall ensure that each employee with access to PII under the contract, prior to accessing the PII, has a copy of the worksheet with its instructions, and particularly when transporting PII from a secure duty station.
- (v) There may be rare instances (e.g., outside of business hours) when the contractor is unable to reach either the primary agency contact or the alternate immediately. In such a situation, the contractor shall immediately call the agency's Enterprise Customer Service Desk (ECSD) toll-free at 1-877-697-4889 to file the initial report directly, providing the information in (d)(3)(iii) above and as requested by the ECSD. Overall, during this time, the contractor shall cooperate as necessary with the ECSD or any of the other external organizations described in (d)(3)(iii) above.

- (vi) If the contractor makes a direct report to the ECSD, the contractor shall document the call with the Enterprise Customer Support (ECS) Ticket number, which the ECSD will assign. The contractor shall provide the ECS Ticket number to the primary agency contact, or, if unavailable, his/her alternate.
 - (vii) Subparagraphs (v) through (vi) apply to all contractor employees. The contractor shall ensure its internal procedures and PII breach/incident training make clear to employees these responsibilities. Reports to the ECSD should not be delayed because an employee could not reach the contractor's management.
 - (viii) The contractor and its employee(s) shall limit disclosures about PII involved in a breach or incident to only those SSA and contractor employee(s) with a need for the information in order to respond to and take action to prevent, minimize, or remedy the breach or incident. The contractor may disclose breach or incident information to Federal, state, or local law enforcement agencies and other third parties with a need for the information; however, information about the specific PII involved may only be disclosed to such authorities and third parties as Federal law permits. The contractor shall not, without SSA approval, publicly disclose information about PII involved in a breach or incident or SSA's involvement in a breach or incident. The contractor shall not, without SSA approval, notify individuals affected by the PII breach or incident. The contractor's PII breach and incident reporting process shall ensure that disclosures are made consistent with these requirements. As used in this paragraph, the term PII references only PII covered by this clause.
- (e) *Additional Contractor Responsibilities When There Is a Suspected or Confirmed Breach.*
- (1) The contractor shall have a formal security/PII breach or incident reporting process in place that outlines appropriate roles and responsibilities, as well as the steps that must be taken, in the event of a security/PII breach or incident. The plan shall designate who within the contractor's organization has responsibility for reporting the PII breach or incident to the agency.
 - (2) In the event of a PII breach or incident, the contractor shall take immediate steps to address consequential security issues that have been identified, including steps to minimize further security risks to those individuals whose personal information was lost, compromised, or potentially compromised.
 - (3) The contractor shall confer with SSA personnel in reviewing the actions the contractor has taken and plans to take in dealing with the breach or incident. Additionally, the contractor shall provide any documentation requested by SSA.
 - (4) The contractor shall bear the cost for any data breach or incident: (1) occurring outside of SSA-controlled facilities, systems, or environments when the affected PII was in the possession or control of the contractor or its employees, agents, or representatives; or (2) resulting from the contractor or its employees, agents, or representatives' failure to properly safeguard PII or facilities, systems, or other environments containing PII in accordance with this contract's requirements. In addition, as SSA requires, the contractor shall be responsible for or shall assist SSA in taking preventative and remedial actions that SSA determines are necessary to address such a breach or incident.

Preventative and remedial actions may include notification to individuals potentially affected by the breach and other countermeasures to mitigate the risk of harm or to protect PII (e.g., operating call centers and providing resources for potentially affected individuals). SSA will notify the contractor when SSA determines that preventative or remedial action(s) are necessary and instruct the contractor on whether the action(s) will be effectuated by the contractor or SSA. SSA may choose to effectuate the action(s) at the agency's discretion. The contractor shall be responsible for the cost of all preventative or remedial action(s), including those actions effectuated by SSA, resulting from the breaches and incidents covered by this paragraph. Note: Nothing in this paragraph affects the contractor's obligations in paragraph (e)(2) above to take immediate steps to address identified security issues.

(f) *Subcontractor(s)*.

- (1) The contractor shall include this clause in all resulting subcontracts whenever there is any indication that the subcontractor(s) and their employees, or successor subcontractor(s) and their employees, will or may handle PII. When this clause is included in a subcontract, all references to “contractor” in paragraphs (a) through (e) and (h) shall be read to apply to the subcontractor(s).
- (2) The contractor shall take appropriate and necessary action to ensure its subcontractor(s) and their employees, or any successor subcontractor(s) and their employees, comply with this clause.
- (3) *Notification of Subcontractor Handling of PII.* If the contractor engages a subcontractor under this contract whose employee(s) will actually or potentially handle PII, the contractor shall do the following:
 - (i) Notify the SSA COR-COTR and the Contracting Officer of this arrangement in advance of providing access to PII, providing the subcontractor name(s) and address(es) and, upon request, a description of the nature of the PII to which the employee(s) will actually or potentially be given/have access (e.g., phone numbers, SSN); and
 - (ii) Provide the agency’s COR-COTR the names of the subcontractor employee(s) who will actually or potentially be assigned and/or have access to the PII. The contractor may satisfy this requirement when submitting the name(s) of the subcontractor employee(s) to the agency’s COR-COTR for the requisite security background check described in paragraph (g) below.
- (g) *Security and Suitability Requirements Clause.* For each contractor employee handling PII, the contractor shall fulfill the requirements of the Security and Suitability Requirements Clause, found elsewhere in this contract, to ensure that any such individual has the appropriate background checks.
- (h) The contractor shall permit the agency to conduct security reviews and inspections to ensure that the contractor maintains adequate safeguards and security measures for PII in accordance with the terms of this contract. At SSA’s request, the contractor shall grant SSA, and its auditors, access to all systems, facilities, equipment, locations, and other environments that create, collect, use, process, store, maintain, disseminate, disclose, or dispose of PII for such reviews and inspections. The contractor is not required to provide SSA access to parts of those systems, facilities, equipment, locations, and other environments that are not impacted by such reviews and inspections.

SAFEGUARDING FEDERAL TAX INFORMATION REQUIREMENTS:

The contractor and contractor’s officers and employees must be in compliance with all requirements of IRS Publication 1075 – “Tax Information Security Guidelines for Federal, State and Local Agencies” (Revised November 2021) [as applicable to this contract, with particular attention to the following information –](#)

NOTE: The below information, in its entirety, can be found in IRS Publication 1075; however, some edits have been made specific to SSA and this contract. Any edits made do not change the requirements of IRS Publication 1075 or relieve the contractor or contractor’s officers and employees of being in compliance with IRS Publication 1075 and the requirements of this contract. IRS Publication 1075 can be accessed at: [P 1075 \(Rev. 11-2016\) \(irs.gov\)](#).

“Federal Tax Information” (FTI) includes return or return information received directly from the IRS or obtained through an authorized, secondary source, including SSA.

“Return” means any tax or information return, estimated tax declaration or refund claim required by or permitted under the IRC and filed with the IRS by, on behalf of, or with respect to any person or entity.

“Return Information” is any information collected or generated by the IRS regarding any person’s liability or possible liability under the IRC. It includes but is not limited to:

- Information that IRS obtained from any source or developed through any means that relates to the potential liability of any person under the IRC for any tax, penalty, interest, fine, forfeiture, or other imposition or offense
- Information extracted from a return, including names of dependents or the location of business
- The taxpayer’s name, address, and identification number
- Information collected by the IRS about any person’s tax affairs, even if identifiers, such as name, address, and identification number, are deleted
- Status of whether a return was filed, under examination, or subject to other investigation or processing, including collection activities
- Information contained on transcripts of accounts

I. PERFORMANCE

In performance of this contract, the contractor agrees to comply with and assume responsibility for compliance by officers or employees with the following requirements:

- (1) All work will be performed under the supervision of the contractor.
- (2) The contractor and contractor’s officers or employees to be authorized access to FTI must meet background check requirements defined in IRS Publication 1075. The contractor will maintain a list of officers or employees authorized access to FTI. Such list will be provided to SSA and, upon request, to the IRS.
- (3) FTI in hardcopy or electronic format shall be used only for the purpose of carrying out the provisions of this contract. FTI in any format shall be treated as confidential and shall not be divulged or made known in any manner to any person except as may be necessary in the performance of this contract. Inspection or disclosure of FTI to anyone other than the contractor or the contractor’s officers or employees authorized is prohibited.
- (4) FTI will be accounted for upon receipt and properly stored before, during, and after processing. In addition, any related output and products require the same level of protection as required for the source material.
- (5) The contractor will certify that FTI processed during the performance of this contract will be completely purged from all physical and electronic data storage with no output to be retained by the contractor at the time the work is completed. If immediate purging of physical and electronic data storage is not possible, the contractor will certify that any FTI in physical or electronic storage will remain safeguarded to prevent unauthorized disclosures.
- (6) Any spoilage or any intermediate hard copy printout that may result during the processing of FTI will be given to SSA. When this is not possible, the contractor will be responsible for the destruction of the spoilage or any intermediate hard copy printouts and will provide SSA with a statement containing the date of destruction, description of material destroyed, and the destruction method.
- (7) All computer systems receiving, processing, storing, or transmitting FTI must meet the requirements in IRS Publication 1075. To meet functional and assurance requirements, the security features of the environment must provide for the managerial, operational, and technical controls. All security features must be available and activated to protect against unauthorized use of and access to FTI.
- (8) No work involving FTI furnished under this contract will be subcontracted without the prior written approval of the IRS and SSA. (NOTE: Any subcontracting must be in accordance with the subcontracting requirements of this contract).
- (9) Contractor will ensure that the terms of FTI safeguards described herein are included, without modification, in any approved subcontract for work involving FTI.

- (10) To the extent the terms, provisions, duties, requirements, and obligations of this contract apply to performing services with FTI, the contractor shall assume toward the subcontractor all obligations, duties, and responsibilities that SSA under this contract assumes toward the contractor, and the subcontractor shall assume toward the contractor all the same obligations, duties, and responsibilities which the contractor assumes toward SSA under this contract.
- (11) In addition to the subcontractor's obligations and duties under an approved subcontract, the terms and conditions of this contract apply to the subcontractor, and the subcontractor is bound and obligated to the contractor hereunder by the same terms and conditions by which the contractor is bound and obligated to SSA under this contract.
- (12) For purposes of this contract, the term "contractor" includes any officer or employee of the contractor with access to or who uses FTI, and the term "subcontractor" includes any officer or employee of the subcontractor with access to or who uses FTI.
- (13) SSA will have the right to void the contract if the contractor fails to meet the terms of FTI safeguards described herein.

II. CRIMINAL/CIVIL SANCTIONS

- (1) Each officer or employee of a contractor to whom FTI is or may be disclosed shall be notified in writing that FTI disclosed to such officer or employee can be used only for a purpose and to the extent authorized herein, and that further disclosure of any FTI for a purpose not authorized herein constitutes a felony punishable upon conviction by a fine of as much as \$5,000 or imprisonment for as long as five (5) years, or both, together with the costs of prosecution.
- (2) Each officer or employee of a contractor to whom FTI is or may be accessible shall be notified in writing that FTI accessible to such officer or employee may be accessed only for a purpose and to the extent authorized herein, and that access/inspection of FTI without an official need-to-know for a purpose not authorized herein constitutes a criminal misdemeanor punishable upon conviction by a fine of as much as \$1,000 or imprisonment for as long as one (1) year, or both, together with the costs of prosecution.
- (3) Each officer or employee of a contractor to whom FTI is or may be disclosed shall be notified in writing that any such unauthorized access, inspection, or disclosure of FTI may also result in an award of civil damages against the officer or employee in an amount equal to the sum of the greater of \$1,000 for each unauthorized access, inspection, or disclosure, or the sum of actual damages sustained as a result of such unauthorized access, inspection, or disclosure, plus in the case of a willful unauthorized access, inspection, or disclosure or an unauthorized access, inspection or disclosure which is the result of gross negligence, punitive damages, plus the cost of the action. These penalties are prescribed by IRC sections 7213, 7213A, and 7431 and set forth at 26 CFR 301.6103(n)-1.
- (4) Additionally, it is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a(i)(1), which is made applicable to contractors by 5 U.S.C. 552a(m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position, has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who, knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

- (5) Granting a contractor access to FTI must be preceded by certifying that each officer or employee understands SSA's security policy and procedures for safeguarding FTI. A contractor and each officer or employee must maintain their authorization to access FTI through annual recertification of their understanding of SSA's security policy and procedures for safeguarding FTI. The initial certification and recertifications must be documented and placed in SSA's files for review. As part of the certification and at least annually afterwards, a contractor and each officer or employee must be advised of the provisions of IRC sections 7213, 7213A, and 7431 (see Exhibit 4, *Sanctions for Unauthorized Disclosure*, and Exhibit 5, *Civil Damages for Unauthorized Disclosure*). The training on SSA's security policy and procedures provided before the initial certification and annually thereafter must also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches. (See Section 10.) For the initial certification and the annual recertifications, the contractor and each officer or employee must sign, either with ink or electronic signature, a confidentiality statement certifying their understanding of the security requirements.

III. INSPECTION

The IRS and SSA, with 24-hour notice, shall have the right to send its inspectors into the offices and plants of the contractor to inspect facilities and operations performing any work with FTI under this contract for compliance with requirements defined in IRS Publication 1075. The IRS' right of inspection shall include the use of manual and/or automated scanning tools to perform compliance and vulnerability assessments of information technology (IT) assets that access, store, process, or transmit FTI. Based on the inspection, corrective actions may be required in cases where the contractor is found to be noncompliant with FTI safeguard requirements.

NOTE: The foregoing inspection rights are in addition to such rights identified elsewhere in this contract. Inspection rights identified elsewhere in this contract are not diminished or modified by these rights.

2352.204-1 – Security and Suitability Requirements (Sept 2023)

NOTE: For the purposes of this contract, the Contracting Officer's Representative (COR) or Contracting Officer's Technical Representative (COTR) is the SSA representative/Program Lead. Additionally, the terms "business days," "working days," and "workdays" are used interchangeably throughout this contract.

(a) Acronyms and Definitions – As used in this clause –

"Applicant" means an individual seeking to work on or for an SSA contract or grant.

"Access to a facility, site, system, or information" means physical access to any Social Security Administration (SSA) facility or site, logical access to any SSA information system, or access to programmatic or sensitive information.

"CO" means contracting officer.

"Contractor" means any entity having a relationship with SSA because of this contract. This term includes, but is not limited to, corporations, limited liability partnerships, and sole proprietorships.

"Contractor personnel" means employees of the contractor, employees of the subcontractor, any consultant retained by the contractor or subcontractor, any volunteer or intern of the contractor or subcontractor, and if the contractor or subcontractor is a sole proprietorship, it refers to the sole proprietorship.

"COR" means contracting officer's representative.

"CPOC" means company point of contact as specified by the contract.

"CSPS" means Center for Suitability and Personnel Security.

“eAPP” means electronic application. “eAPP” contains the investigative Standard Forms (SF) federal applicants use to input information required to process their personnel background investigation. eAPP replaced eQIP as the system for initiating investigations.

“NBIS” means National Background Investigation Services.

“PIV” means Personal Identity Verification.

“Subcontractor” means any entity having a relationship with SSA’s contractor because of this contract. This term includes, but is not limited to, corporations, limited liability partnerships, and sole proprietorships.

(b) Purpose

This clause provides SSA’s policies and procedures concerning the conduct of background investigations (i.e., suitability determinations) of contractor personnel. A background investigation is required any time contractor personnel requires any type of access to a facility, site, system, or information, whether or not a PIV credential is required. Contractor personnel may be subject to periodic reinvestigation per SSA policy. The purpose of these investigations is to determine the suitability of contractor personnel needing access to a SSA facility, site, system, or information. If applicable, the clause also describes the process to obtain a PIV credential.

PIV Credentials

- (1) A PIV credential is required for contractor personnel requiring access to a SSA information system or routine, unescorted access to a SSA facility or site for a period of six months or more. (See paragraph (k) for more information.)
- (2) A PIV credential is not required for:
 - (i) Contractor personnel requiring escorted access to a SSA facility or site for less than six months; or
 - (ii) Contractor personnel requiring infrequent escorted access to a SSA facility or site, even if the access may be longer than six months (e.g., contractor personnel who provide infrequent facilities or equipment maintenance or repair, or who conduct onsite shredding, etc.).

(c) Authorities

- (1) Homeland Security Presidential Directive 12
(<http://www.dhs.gov/homeland-security-presidential-directive-12>).
- (2) Office of Management and Budget Memorandum M-05-24
(<https://obamawhitehouse.archives.gov/sites/default/files/omb/assets/omb/memoranda/fy2005/m05-24.pdf>).
- (3) The Crime Control Act of 1990, Public Law 101-647, subtitle E, as amended by Public Law 102-190 (for childcare center security requirements)
(<http://www.gpo.gov/fdsys/pkg/USCODE-2010-title42/pdf/USCODE-2010-title42-chap132-subchapV-sec13041.pdf>).
- (4) Executive Orders 13764 and 12968
(<https://www.hsd.org/?abstract&did=798174> and
<https://www.gpo.gov/fdsys/pkg/FR-1995-08-07/pdf/95-19654.pdf>)

- (5) Title 5, Code of Federal Regulations (CFR), Parts 731, 736, and 1400 (for positions assigned a “National Security” designation)
(http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&tpl=/ecfrbrowse/Title05/5cfr731_main_02.tpl,

- (6) Contractors must comply with the Fair Chance to Compete for Jobs Act of 2019 ([National Defense Authorization Act for Fiscal Year 2020](#)) and the respective Federal regulations (5 CFR Parts 302, 317, 319, 330, 731, 754, and 920). In accordance with the Fair Chance Act, the contractor may not verbally, or through written form, request the disclosure of criminal history record information regarding an applicant for a position related to work under such contract before the contractor extends a conditional offer to the applicant.

(d) Suitability Process

The background investigation and adjudication processes are compliant with 5 CFR 731 or equivalent.

SSA is required to submit fingerprints to the Federal Bureau of Investigation (FBI) as part of the Federal personnel background investigation process. This requirement is in accordance with Homeland Security Presidential Directive-12 (HSPD-12) and is mandatory for everyone within the SSA workforce, including contractor personnel.

The FBI maintains fingerprints and uses these fingerprint submissions to conduct ongoing post-appointment arrest checks. Consistent with Federal suitability and personnel security regulations and directives, any post-appointment arrest notifications will be sent to CSPS for suitability review.

Contractors must notify their applicants to work on SSA contracts to carefully review and understand the FBI Privacy Act Statement and the Noncriminal Justice Applicant’s Privacy Rights Statement, which can be found through the links below. These documents contain vital information about individual’s rights and how their information will be handled.

- [Privacy Act Statement — FBI](#)
- [Noncriminal Justice Applicant’s Privacy Rights](#)

Any applicant requiring access to a SSA facility, site, information, or system must complete and submit, through the COR, the documents listed in (1) at least 30 business days prior to the date contractor personnel are to begin work. The suitability process cannot begin until the contractor submits, and SSA receives, accurate and complete documents.

(1) Suitability Document Submission

- a. Immediately upon award, the CPOC must provide to the COR for all applicants requesting a suitability determination:
 - (i) An Applicant Listing including the names of all applicants requesting suitability;
 - (ii) Completed Optional Form (OF) 306, Declaration for Federal Employment (see Exhibit G);
 - (iii) Proof of citizenship and/or work authorization documents for non-U.S. born applicants, if applicable.

- b. The Applicant Listing must include the contractor's name, the contract number, the CPOC's name, the CPOC's contact information, the COR's name, the COR's contact information, Social Security Number (SSN), First Name, Full Middle Name, Last Name, Suffix, Email Address, Date of Birth (MM/DD/YYYY), Birth City, Birth County, Country (if not USA), Birth State/Province for all applicants requesting suitability. All spelling of names, email addresses, places, and numbers must be accurate, consistent, and legible.

The required suitability forms and a sample of properly completed forms are available on [SSA's Office of Acquisition and Grants \(OAG\) website](#) ("Information About Acquisitions" tab, "Security Information" section

[https://www.ssa.gov/oag/acq/ASC_2352_204-1_Security_and_Suit_Reqrmts_Post_10012017/Links%20for%20Agency%20Specific%20Clause%202352_204-1%20Post%2010012017.htm]).

(2) eApp Form and Fingerprint Submission

- a. Once SSA receives all completed documents, listed in (1), CSPS will initiate the suitability screening process using the Applicant Listing. CSPS will email the specific suitability instructions to the CPOC and COR for applicants to electronically complete the background investigation form (Standard Form (SF) 85, Questionnaire for Non-Sensitive Positions or SF 85P, Questionnaire for Public Trust Positions – see Exhibit H). Applicants will receive two separate account creation emails from donotreply@nbis.mil. One email contains the User ID and link with instructions. The other email has the applicant's temporary password.
- b. Applicants should complete their investigative forms as soon as possible but no later than seven business days from receipt of the account creation emails. After form submission, applicants can download copies of their form and relevant documents. Please note, reviewing the form prior to submission can only be done in eAPP. The SF does not become available for download until it has been submitted in eAPP.
- c. Information about the eApp process is available on the [National Background Investigative Services \(NBIS\) website](#).
- d. CSPS will also email instructions to the CPOC and COR for applicants to obtain electronic fingerprinting services. Applicants must schedule a fingerprint appointment and submit fingerprints as soon as possible. Please note, fingerprinting should not be completed until after the eAPP has been submitted.

If applicants cannot report to the designated fingerprint locations (in the notification email), CSPS will accept completed Field Division (FD) 258 fingerprint cards (see Exhibit I). The COR can provide the FD 258, if required. Applicants must complete all fields on the FD 258. Incomplete fields may delay suitability processing.

If applicants need to mail completed FD 258 fingerprint cards, the applicants are to send them, via certified mail, along with a completed Contractor Personnel Suitability Cover Sheet-Fingerprint Cards (found on the [OAG website](#)) to:

Social Security Administration
Center for Suitability and Personnel Security
Attn: Contractor Security Team
6401 Security Boulevard
2246 Annex Building
Baltimore, MD 21235

(3) Status Check

If applicants have completed each of the steps in their entirety and do not receive a suitability determination within 15 business days of their last submission, call 1-844-874-9940 to determine suitability status.

(e) Suitability Determination

- (1) CSPS uses an FBI fingerprint check as part of the basis for making a preliminary suitability determination. This determination is final unless information obtained during the remainder of the full background investigation, conducted by SSA's Investigative Service Provider, is such that SSA would find the contractor personnel unsuitable to continue performing under this contract. CSPS will notify the CPOC and the COR of any unsuitable determinations.
- (2) SSA will not allow contractor personnel access to a facility, site, information, or system until CSPS issues a favorable preliminary suitability determination. A prescreen suitability determination letter issued by CSPS is valid only for performance on the contract specified in the letter.
- (3) If an applicant previously received a suitability determination from SSA while employed by another contractor and is to perform work under this SSA contract for a different contractor, the CPOC must submit a fully completed, legible Contractor Personnel Rollover Request Form (see Exhibit J) to the COR of the new contract. CSPS will notify the CPOC and the COR of suitability to work on this contract. The Contractor Personnel Rollover Request Form is on [OAG's website](#).

(f) Contractor Personnel Previously Cleared by SSA or Another Federal Agency

If an applicant previously received a suitability determination from SSA or another Federal agency, all documentation will be reviewed to determine reciprocity. If reciprocity applies, there will be no eAPP initiated. However, fingerprints will be required for all cases including reciprocity.

- (g) CSPS will then provide a letter to the CPOC and the COR indicating the applicant is suitable to begin work on the contract. A contractor is not entitled to an equitable adjustment of the contract because of an unfavorable suitability determination(s). Additionally, if SSA determines that the number or percentage of unfavorable determinations make successful contract performance unlikely, SSA may terminate the contract for cause or default.

(h) Unsuitable Determinations

- (1) The contractor must notify the contractor personnel of any unsuitable determinations as soon as possible after receipt of such a determination.
- (2) The contractor must submit requests for clarification for unsuitable determinations in writing within 30 calendar days of the date of the unsuitable determination to the email mailbox or address listed below. Contractor personnel must file their own requests; contractor may not file requests on behalf of contractor personnel.

(3) There is no appeals process for contractor unsuitable determinations.

(i) Contractor Notification to Government

The contractor shall notify the COR and CSPS within one business day if any contractor personnel is arrested or charged with a crime during the term of this contract, or if there is any other change in the status of contractor personnel (e.g., leaves the company, no longer works under the contract, the alien status changes, etc.) that could affect their suitability determination. The contractor must provide in the notification as much detail as possible, including, but not limited to: name(s) of contractor personnel whose status has changed, contract number, the type of charge(s), if applicable, date of arrest, the court date, jurisdiction, and, if available, the disposition of the charge(s).

(j) Obtaining a Credential

(1) This section applies only if contractor personnel will have access to a SSA information system or routine or unescorted access to a SSA facility or site for a period of six months or more as described in paragraph (b)(1).

(2) Once the contractor personnel receive notification of an acceptable preliminary suitability determination, but prior to beginning work under the contract, the contractor personnel must appear at the respective SSA facility to begin the credentialing process. The contractor must contact the COR to arrange for credentialing. Once the COR makes the appointment, the COR must contact the contractor to inform the contractor of the credentialing appointment(s). The COR will also arrange for the contractor personnel to be escorted (by either the COR or a COR's representative) to the appropriate credentialing office at the time of this appointment. The contractor personnel must present the preliminary suitability determination letter and two forms of identification at this meeting. At least one of the forms of identification must be a Government-issued photo identification (ID) (for acceptable forms of ID, see List of Acceptable Documents on OAG's [website](#)). A signed and dated SSA-222 is also a required document (see OAG's [website](#)). For SSA Headquarters access, a completed Form SSA-4395, Application for Access to SSA Facilities, signed by the contractor personnel and the COR is also required. The COR will provide the SSA-4395 Form to the contractor personnel when applicable.

(3) Credentialing appointments last approximately 15 minutes. Depending on a contractor's scheduling needs and availabilities, contractor personnel may be scheduled for credentialing all in one day (this process may take a few hours to complete, depending on the number of contractor personnel that need to be credentialed) or they may come in at separate times convenient to the contractor personnel's and the COR's schedules.

(4) Contacts

a. SSA Headquarters' Parking and Credentialing Office representatives can be reached at Parking.and.Credentialing@ssa.gov or 410-965-5910.

b. Contact information for other SSA facilities is available on OAG's [website](#).

(k) Contractor Return of PIV Credential

The contractor must account for and ensure that all forms of Government-provided identification (PIV credential) issued to contractor personnel under this contract are returned to SSA's Headquarters' Parking and Credentialing Office or respective SSA facility, as appropriate, as soon as any of the following occur: when no longer needed for contract performance; upon completion of any contractor personnel employment; or upon contract completion or termination.

(l) Government Control

The Government has full control over and may grant, deny, or withhold access to a facility, site, system, or information and may remove contractor personnel, or require the contractor to remove contractor personnel from performing under the contract for reasons related to conduct even after contractor personnel are found suitable to work on the contract (see paragraph (m) below).

(m) Removal From Duty

The CO, in coordination with the COR and CSPS, may remove a contractor, or request the contractor immediately remove any contractor personnel from working under the contract based on conduct that occurs after a favorable suitability determination. This includes temporarily removing contractor personnel arrested for a violation of law pending the outcome of any judicial proceedings. The contractor must comply with these requests to remove any contractor personnel. The Government's determination may be made based on, but not limited to, these incidents involving the misconduct or delinquency:

- (1) Violation of the Rules and Regulations Governing Public Buildings and Grounds, 41 CFR 101-20.3. This includes any local credentialing requirements.
- (2) Neglect of duty, including sleeping while on duty; unreasonable delays or failure to carry out assigned tasks; conducting personal affairs while on duty; and refusing to cooperate in upholding the integrity of SSA's security program.
- (3) Falsification or unlawful concealment, removal, mutilation, or destruction of any official documents, records, or Government property or concealment of material facts by willful omissions from official documents or records.
- (4) Disorderly conduct, use of abusive or offensive language, quarreling, intimidation by words or actions, or fighting. Also, participating in disruptive activities that interfere with the normal and efficient operations of the Government.
- (5) Theft, vandalism, or any other criminal actions.
- (6) Selling, consuming, possessing, or being under the influence of intoxicants, drugs, or substances that produce similar effects.
- (7) Improper use of official authority or credentials.
- (8) Unauthorized use of communications equipment or Government property.
- (9) Misuse of weapon(s) or tools used in the performance of the contract.
- (10) Unauthorized access to areas not required for the performance of the contract.
- (11) Unauthorized access to SSA's employees' personal property.

- (12) Violation of security procedures or regulations.
 - (13) Prior contractor personnel unsuitability determination by SSA or another Federal agency.
 - (14) Unauthorized access to, or disclosure of, agency programmatic or sensitive information, or Internal Revenue Service Tax Return information.
 - (15) Failure to ensure the confidentiality of or failure to protect from disclosure, agency information entrusted to them. Certain provisions of these statutes and regulations apply to Federal employees, and apply equally to contractor personnel: The Privacy Act of 1974, The Tax Reform Act of 1976 and the Taxpayer Browsing Protection Act of 1997, SSA regulation 1, The Computer Fraud and Abuse Act of 1986, and Section 1106 of the Social Security Act.
 - (16) Being under investigation by an appropriate authority for violating any of the above.
- (n) The contractor is required to include the substance of this clause in any subcontract requiring the subcontractor to access a SSA facility, site, system, or information. However, the contractor must obtain, review, and submit to SSA all of the completed and required forms (see paragraphs (d) and (e)) from the subcontractor. SSA will not accept completed forms from anyone other than the contractor.

Clause 2352.204-2 Federal Information Security Modernization Act (FISMA) and Agency Privacy Management (MAY 2021)

(a) Definitions

Terms defined for this clause:

“Agency” means the Social Security Administration (SSA).

“COR-COTR” means Contracting Officer’s Representative-Contracting Officer’s Technical Representative.

“Electronic Personnel Enrollment and Credentialing System (EPECS)” means the system supporting the Homeland Security Presidential Directive-12 credentialing process at SSA.

“OAG” means the Office of Acquisition and Grants at SSA.

“PIV Credential” means personal identity verification credentials required for contractor personnel requiring unescorted access to a SSA facility or access to SSA information systems.

(b) Agency Responsibility Related to FISMA Training Requirements

- (1) The Federal Information Security Management Act of 2002 (44 U.S.C. § 3541, et seq.), as amended by the Federal Information Security Modernization Act of 2014 (Pub. L. 113-283) (collectively, “FISMA”), and the Office of Management and Budget Circular No. A-130 (published July 28, 2016) require all agency contractor and subcontractor personnel working under agency contracts who will have access to any kind of SSA information, receive periodic training in information technology (IT) security awareness and accepted IT security practice. This includes training for contractor personnel who do not have access to electronic information systems. The training level and content is tailored to the contractors’ assigned roles and responsibilities and the risk and magnitude of harm related to the required activities.
- (2) SSA requires contractor personnel to read and sign the Security Awareness Contractor Personnel Security Certification (CPSC) form, SSA-222. The SSA-222 is on OAG’s internet site (see paragraph (c)(3)(i) below) or contractors can ask the COR-COTR for a copy. This training does not preclude any additional role-based information security or privacy training specified elsewhere in this contract.

(c) Contractor Responsibilities Related to FISMA Training Requirements

(1) Contractor Personnel Requiring a SSA-issued PIV Credential and Access to SSA's Network

- (i) Following contract award, the agency mandates contractor personnel requiring a PIV credential and access to SSA's network to take security awareness training by reading and electronically signing the CPSC form, SSA-222, during the PIV credentialing process. This requirement also applies to contractor personnel requiring a PIV credential and access to SSA's network subsequently added to the contract. If contractor personnel receive a PIV credential, contractors are not required to send an email per paragraph (c)(3)(iii).
- (ii) For each successive year of the contract, contractor personnel shall take annual security awareness training via a video on demand on a SSA-managed website. Contractor personnel with a valid SSA email address will receive an email to take this training at the appropriate time. Additionally, contractor personnel must electronically attest to the CPSC form, SSA-222, within EPECS. The COR-COTR will email this invitation to contractor personnel initiating this action.

(2) Contractor Personnel Requiring a SSA-issued PIV Credential but Not Access to SSA's Network:

- (i) Following contract award, the agency mandates contractor personnel requiring a PIV credential to take security awareness training by reading and electronically signing the CPSC form, SSA-222, during the PIV credentialing process. This requirement also applies to contractor personnel subsequently added to the contract and requiring a PIV credential. For contractor personnel receiving a PIV credential, contractors are not required to send an email per paragraph (c)(3)(iii) for the first year of the contract.
- (ii) For each successive year of the contract, the contractor shall repeat the processes described in paragraphs (c)(3)(i) through (iii), below, on an annual basis. The contractor must submit the information in paragraph (c)(3)(iii), below, within 45 calendar days of the date the option was renewed, or the anniversary of the contract award date, whichever comes first.

(3) Contractor Personnel Not Requiring a SSA-issued PIV Credential and No Access to SSA's Network:

- (i) Following contract award, the contractor shall ensure that all contractor personnel performing under this contract take the security awareness training by reading and signing the CPSC form, SSA-222. This requirement also applies to contractor personnel subsequently added to the contract. A copy of this form is on OAG's Internet website ([SSA-222](#)) (See Exhibit K.)
- (ii) The contractor must receive signed copies of the form from each contractor personnel working under the contract within 30 calendar days following contract award, or within 30 calendar days after a contractor personnel begins working under the contract, whichever comes first.
- (iii) The contractor shall send an email to the COR-COTR, within 45 calendar days following contract award. Similarly, the contractor shall send such email notification 45 calendar days of when new contractor personnel are added to perform work under the contract. The contractor will attach each signed form, completed per paragraph (c)(3)(ii), above, to the email along with a list of the names (first, middle initial, and last) of the contractor personnel who signed the form and the contract number they are working under.
- (iv) For each successive year of the contract, the contractor shall repeat the processes described in paragraphs (c)(3)(i)-(iii), above, on an annual basis. The contractor must submit the information in paragraph (c)(3)(iii), above, within 45 calendar days of the date the option was renewed, or the anniversary of the contract award date, whichever comes first.

- (4) The contractor shall retain copies of signed CPSC forms, SSA-222, mentioned in paragraphs (c) (1), (c)(2), and (3) above for potential future SSA audits for a period of three years after final payment (per FAR, Section 4.703).
- (d) Applicability of this Clause to Subcontractor Personnel. The contractor is required to include a clause substantially the same as this in all subcontracts awarded under the prime contract. This clause shall require the subcontractors to follow the instructions in paragraph (c) of this clause. For subcontractor personnel following paragraphs (c)(2) and (3), the subcontractor shall submit the signed forms to the contractor and the contractor will be responsible for submitting this information to SSA per paragraph (c)(3)(iii). The subcontractor shall be responsible for maintaining its signed forms as detailed in paragraph (c)(4).

Email Procedures

For the contractor's convenience, SSA has included the following instructions to send emails with sensitive documentation or messages containing personally identifiable information (e.g., SSNs, etc.) securely to a SSA email address. Contractor is to consult their local information technology staff for assistance. If the contractor utilizes an alternate secure method of transmission, it is recommended that the contractor contact the recipient to confirm receipt.

To Encrypt a File using WinZip

- i. Save the file to contractor's hard drive.
- ii. Open Windows Explorer and locate the file.
- iii. Right click on the file.
- iv. Select "WinZip."
- v. Select "Add to Zip File."
- vi. An Add box pops up. Near the bottom of the box is an "Options" area.
- vii. Click the "Encrypt added files" checkbox.
- viii. Click the "Add" button.
- ix. Check the "Hide Password" checkbox if not already checked.
 - a. Enter a string of characters as a password composed of letters, numbers, and special characters (minimum 8 characters – maximum 64 characters).
 - b. Select the 256-Bit AES encryption radio button.
 - c. Click "OK."
- x. The file has been encrypted successfully, and the new Zip file can now be attached to an email.

Providing the Recipient with the Password

Send the password to the intended recipient in a separate email message prior to sending the encrypted file or after sending the encrypted file. Do not send the password in the same email message to which the encrypted file is attached.

If possible, it is recommended to provide the password to the COR-COTR by telephone or establish a predetermined password between the contractor and the COR-COTR.

The COR-COTR should also submit the password in a separate email from the documentation when submitting to ^DCHR OPE Suitability. Due to the large volume of submissions, the COR-COTR must always provide the password to ^DCHR OPE Suitability in a separate email, even if it is a pre-established password for a contract.

Sending an encrypted Zip File via email

- 1. Compose a new message.
- 2. Attach the Zip File.
- 3. Send message.

PREAWARD SURVEY: In order to determine the responsibility of the prime contractor or any subcontractor, the Government reserves the right to conduct an on-site preaward survey at the contractor's/subcontractor's facility or to require other evidence of technical, production, managerial, financial, and similar abilities to perform, prior to the award of a contract.

As part of the financial determination, the contractor in line for award may be required to provide one or more of the following financial documents:

- 1) Most recent profit and loss statement
- 2) Most recent balance sheets
- 3) Statement of cash flows
- 4) Current official bank statement
- 5) Current lines of credit (with amounts available)
- 6) Letter of commitment from paper supplier(s)
- 7) Letter of commitment from any subcontractor

The documents will be reviewed to validate that adequate financial resources are available to perform the contract requirements. Documents submitted will be kept confidential and used only for the determination of responsibility by the Government.

Failure to provide the requested information in the time specified by the Government may result in the Contracting Officer not having adequate information to reach an affirmative determination of responsibility.

Additionally, the preaward survey will include a review of all subcontractors involved, along with their specific functions, and the contractor's/subcontractor's backup facility, quality control/recovery program, computer system, mail, material handling/inventory control, personnel, production, security control, production area, and disposal of waste material plans as required by this specification.

If award is predicated on the purchase of production and/or systems equipment, the contractor must provide purchase order(s) with delivery date(s) of equipment to arrive and be installed and fully functional at least 120 calendar days prior to the start of live production on July 1, 2026.

If the Government, during the preaward survey, concludes that the contractor does not or cannot meet all of the requirements as described in this contract, the contractor will be declared non-responsible.

PREAWARD PRODUCTION PLANS: As part of the preaward survey, the contractor shall present, in writing, to the Contracting Officer within five (5) workdays of being notified to do so by the Contracting Officer or his/her representative, detailed plans for each of the below activities. If the Government requests additional information after review of the production plans, the contractor must submit updated plans within two (2) workdays of request.

Additionally, the contractor must submit a Security Authorization Package (SAP), as required, within 10 workdays of request. The workday after notification to submit will be the first day of the schedule. If the Government requests additional information after review of the SAP, the contractor must submit the additional information within three (3) workdays of request.

NOTE: The schedule for the preaward production plans and the SAP starts the same workday.

After review of the updated plans and/or SAP, it is at the Contracting Officer's discretion to allow additional revisions.

The Preaward Production Plans must be formatted so that each plan, as specified below, is its own section, and all information required for that plan is specified in that section. At contractor's option, each plan can be a separate document or one document with each plan separately identified.

PLEASE NOTE: The notices produced on this contract must not be produced at multiple facilities, and therefore, cannot be transferred interchangeably between multiple plant locations. Any reference in this contract to multiple locations/facilities refers to the primary location and the backup facility only.

Option Years: For each option year that may be exercised, the contractor will be required to review their plans and re-submit in writing the above plans detailing any changes and/or revisions that may have occurred. The revised plans are subject to Government approval and must be submitted to the Contracting Officer or his/her representative within five (5) workdays of notification of the option year being exercised.

NOTE: If there are no changes/revisions, the contractor will be required to submit to the Contracting Officer or his/her representative a statement confirming that the current plans are still in effect.

These proposed plans are subject to review and approval by the Government, and award will not be made prior to approval of same. The Government reserves the right to waive some or all of these plans.

Information Sheet – If the contractor is currently producing on other GPO contracts, they must submit an information sheet specifying how the workload(s) on this contract will fit into the pre-existing Government production without hampering the production/delivery schedules for all the contracts.

NOTE: This is a requirement of this program due to the legislated nature of certain GPO contracts.

At a minimum, the information sheet must include a list of the contracts currently held and the production/delivery schedules for each of those contracts. The sheet must also specify which of those contracts would run concurrently with the projected schedule for this contract.

Backup Facility – The failure to deliver these notices in a timely manner would have an impact on the daily operations of SSA. Therefore, if for any reason(s) (act of God, labor disagreements, national emergencies, pandemics, etc.), the contractor is unable to perform at said location for a period longer than 24 hours, the contractor must have a backup facility with the capability of producing the notices. The contractor must operate the backup facility.

Plans for their contingency production must be prepared and submitted to the Contracting Officer as part of the preaward survey. These plans must include the location of the facility to be used, equipment available at the facility, security plans at the facility, and a timetable for the start of production at that facility.

Part of the plans must also include the transportation of Government materials from one facility to another. The contractor must produce items from a test file at the new facility for verification of software prior to producing notices at this facility. SSA has the option to install a data connection into the contractor's backup facility.

NOTE: All terms and conditions of this contract will apply to the backup facility. Due to the time-sensitive nature of the notices produced on this contract, the contractor must maintain the original schedule set forth in this contract.

Quality Control Plan – The contractor must provide and maintain, within their organization, an independent quality assurance team of sufficient size and expertise. The team must monitor the operations performed and inspect the products of each operation to a degree and extent that will ensure the Government's quality assurance, inspection, and acceptance provisions specified herein are met. The contractor must perform, or have performed, the process controls, inspections, and tests required to substantiate that the products provided under this contract conform to the specifications and contract requirements. The contractor must describe in detail their quality control/quality assurance and recovery plans describing how, when, and by whom the plans will be performed.

The quality control plan must also include examples and a detailed description of all quality control samples and their corresponding inspection reports or logs the contractor will keep to document the quality control inspections performed on each run. Furthermore, the plan must include the names of all quality assurance officials and describe their duties in relationship to the quality control plan.

The quality control system must include all aspects of the job including mail flow and materials handling. The plan must also allow for a complete audit trail (e.g., it must be possible to locate any piece of mail at any time from the point it leaves the press up to and including the point at which the mail is off-loaded at the USPS facility). SSA will not request, as a routine matter, the contractor to produce pieces in transit within the contractor's plant.

The quality control plan must account for the number of pieces mailed daily.

Quality Control Sample Plan – The plan must provide a description of how the contractor will create quality control samples for periodic samplings to be taken during the production run and provide for backup and re-running in the event of an unsatisfactory sample. The plan must contain control systems that will detect defective, missing, or mutilated pieces.

The plan must include the sampling interval the contractor intends to utilize. The contractor will be required to create two (2) quality control samples every 4,000 notices. Mailers with low volumes (less than 4,000) will require at least one (1) set of samples to be produced. The samples are to be drawn from the production stream at the same time:

- One (1) sample will be drawn, inspected, and retained as part of the contractor's quality assurance records.
- One (1) sample will be drawn for the Social Security Administration and packed with associated pieces from each print order and shipped to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.

Samples must be bulk shipped to SSA weekly for each print order. The contractor must ship the quality control samples for each particular print order within two (2) workdays of the mail date of that print order.

The plans must detail the actions to be taken by the contractor when defective, missing, or mutilated items are discovered. These actions must be consistent with the requirements found in GPO Contract Terms (GPO Publication 310.2, effective December 1, 1987 (Rev. 01-18)).

The plan must monitor all aspects of the job including material handling and mail flow, to assure the production and delivery of these notices meet specifications and Government requirements. This includes maintaining 100% accountability in the accuracy of imaging and mailing of all pieces throughout each run. The contractor must ensure that there are no missing or duplicate pieces.

NOTE: Contractor must submit samples of the Automated Audit Report and 100% Accountability Summary Report. (See "100% ACCOUNTABILITY OF PRODUCTION AND MAILING.")

The contractor must maintain quality control samples, inspection reports, and records for a period of no less than 210 calendar days subsequent to the date of the check tendered for final payment by the Government Publishing Office. The Government will periodically verify that the contractor is complying with the approved quality control plan through on-site examinations and/or requesting copies of the contractor's quality assurance records and quality assurance random copies.

Computer System Plan – This plan must include a detailed listing of the contractor's operating software platform and file transfer system necessary to interface with SSA's National File Transfer Management System (FTMS) for electronic transmission of files from SSA. The plan must also include the media type on which files from SSA will be received to the extent that operator intervention (e.g., a tape mount) is not required at SSA or the contractor's production facility.

The system plan must demonstrate the contractor's ability to provide complete hardware and software compatibility with SSA's existing network. (See "FILE TRANSFER MANAGEMENT SYSTEM (FTMS) REQUIREMENTS.") The contractor must complete a Computer System Plan (see Exhibit L).

Included with the Computer System Plan must be a resume for each employee responsible for the monitoring and the programming of the contractor's computer system and file transmissions. If the contractor plans to use a consultant for either task, a resume must still be included.

Mail Plan – This plan must include sufficient detail as to how the contractor will comply with all applicable U.S. Postal Service mailing requirements as listed in the USPS Domestic and International Mail Manuals in effect at the time of the mailing and other USPS instructional material such as the Postal Bulletin. The contractor must also disclose how they will achieve multi-level USPS automated presort postal discounts as outlined in the contract.

Material Handling and Inventory Control Plan – This plan must explain in detail how the following materials will be handled throughout all phases of production: incoming raw materials; work-in-progress materials; quality control inspection materials; USPS inspection materials; all outgoing materials cleared for USPS pickup/delivery; and method of disposal of all production waste materials.

Personnel Plan – In conjunction with the required applicant listing (See “Clause 2352.204-1 – Security and Suitability Requirements (Sept 2023)”), this plan must include a listing of all personnel who will be involved with this contract. For any new employees, the plan must include the source of these employees and a description of the training programs the employees will receive to familiarize them with the requirements of this program.

Production Plan – The contractor must provide a detailed plan of the following:

- (a) List of all production equipment and equipment capacities to be utilized on this contract;
- (b) The production capacity currently being utilized on this equipment;
- (c) Capacity that is available for these workloads; and,
- (d) If new equipment is to be utilized, documentation of the purchase order, source, delivery schedule, and installation dates are required.
- (e) The last leaf of the Title II - Final Accounting notices (Mailers 19 through 24) contain a micro-perforated payment stub. The contractor will be required to identify the payment stub page (English or Spanish) requiring perforation. Regarding the “select-a-perf” requirement, the contractor's production plan must explain how they will handle imaging and collating the required micro-perforated sheet into the proper sequence of leaves. The plan shall also detail how the contractor intends to meet the critical margins associated with the scan line. (See “PRINTING, Imaging” and “BINDING.”)

The contractor must disclose in their production plan their intentions for the use of any subcontractor(s). The plan must include the same information required from the contractor for all items contained under “SECURITY REQUIREMENTS” and “PREAWARD SURVEY.” If a subcontractor for any operation is added at any time after award, the contractor must submit the subcontractor's proposed plans which are subject to review and approval by the Government.

The subcontractor must be approved by the Government prior to production starting in that facility. If the subcontractor is not approved by the Government, then the contractor has 30 calendar days prior to production to submit to the Government the new subcontractor's information.

Security Control Plan – The contractor must maintain in operation, an effective security system where items by these specifications are manufactured and/or stored (awaiting distribution or disposal) to assure against theft and/or the product ordered falling into unauthorized hands.

Contractor is cautioned that no Government provided information shall be used for non-government business. Specifically, no Government information shall be used for the benefit of a third party.

The Government retains the right to conduct on-site security reviews at any time during the term of the contract.

The plan shall contain at a minimum:

- (1) How Government files (data) will be secured to prevent disclosure to a third party;
- (2) How the disposal of waste materials will be handled (see “*Disposal of Waste Materials*”);
- (3) How all applicable Government-mandated security/privacy/rules and regulations as cited in this contract must be adhered to by the contractor and/or subcontractor(s);
- (4) How contractors classified as Cloud Service Providers (CSP) will adhere to additional FedRAMP security control requirements. CSPs must have a security control assessment performed by a Third Party Assessment Organization (3PAO).
- (5) The contractor shall submit a System Authorization Package as described in the “SSA External Service Provider Security Requirements” section. The SSP, a part of this package, documents how the solution implements security controls in accordance with the designated FIPS 199 security categorization and the Minimum Security Requirements for Federal Information and Information Systems. This SSP requires the use of NIST SP 800-53 v4. The SAP should be completed by either an independent assessor or another Federal agency.

Production Area Plan – The contractor must provide a secure area(s) dedicated to the processing and storage of data for SSA notices, either a separate facility dedicated to this product or a walled-in, limited access area within the contractor’s existing facility. Access to the area(s) must be limited to security-trained employees involved in the production of notices.

Part of the Production Area Plan must include a floor plan detailing the area(s) to be used, showing existing walls, equipment to be used, and the printing and finishing locations.

Contractor must have, in place, a building security system that is monitored 24 hours a day, seven (7) days a week, and a badging/keypunch system that limits access to Government materials (data processing center/production facility and other areas where Government materials with PII are stored or are accessible) that is only accessible by approved personnel. Contractor must present this information, in detail, in the production area plan.

Disposal of Waste Materials – The contractor is required to demonstrate how all waste materials used in the production of sensitive SSA records (records containing PII information as identified in “SECURITY WARNING”) will be definitively destroyed (e.g., burning, pulping, shredding, macerating, or other suitable similar means). Electronic records must be definitively destroyed in a manner that prevents reconstruction. *Sensitive* records are records that are national security classified or exempted from disclosure by statute, including the Privacy Act or regulation. *Definitively* destroying the records means the material cannot be reassembled and used in an inappropriate manner in violation of law and regulations.

The contractor, at a minimum, must crosscut shred all documents into squares not to exceed one-quarter inch. All documents to be destroyed cannot leave the security of the building, must be destroyed at contractor’s printing site, and cannot be subcontracted. The contractor must specify the method planned to dispose of the material.

UNIQUE IDENTIFICATION NUMBER: Unique identifying numbers will be used to track each individual notice, thereby providing 100% accountability. This enables the contractor to track each notice through completion of the project. The contractor will be required to create a test sample every 4,000 notices. Each file must have a minimum of one (1) test sample. This sample must have a unique number and must be produced on each notice. The contractor will generate a list of the unique identifying numbers for each sample. As samples are pulled, the unique numbers will be marked off the list. This enables the contractor to track which samples have been produced and pulled and what records have been produced.

The contractor may create their own sequence number and run date to facilitate their presorting and inserting process but must maintain the original SSA identification number.

RECOVERY SYSTEM: A recovery system will be required to ensure that all defective, missing, or mutilated pieces detected are identified, reprinted, and replaced. The contractor's recovery system must use the unique sequential alpha/numeric identifiers assigned to each piece (including quality control samples) to aid in the recovery and replacement of any defective, missing, or mutilated pieces, and must be capable of tracking and/or locating any individual piece of mail from the time it leaves the press, up to and including when it is off-loaded at the U.S. Postal Service facility. An explanation of the contractor's sequential numbering system is required to understand the audit trail required for each and every piece.

100% ACCOUNTABILITY OF PRODUCTION AND MAILING: Contractor must have a closed loop process* to determine that the data from the original print file is in the correct envelope with the correct number of pages and inserts. Notices requiring print regeneration must be reprinted from their original print image with the original job ID and piece ID remaining unchanged as each mail piece continues through the inserting life cycle. This process will repeat itself (since subsequent reprint runs may yield damages) until all mail pieces from the original print run have been inserted and accounted for.

***Closed Loop Processing** - A method for generating a plurality of mail pieces including error detection and reprinting capabilities. The method provides a mail handling process, which tracks processing errors with the use of a first and second scan code, which obtain information regarding each mail piece, diverts mail pieces in response to error detection, transmits such errors to a processor, and automatically generates a reconfigured print file to initiate reprints for the diverted mail pieces.

Contractor will be responsible for providing a unique identifying number that will be used to track each individual notice, thereby providing 100% accountability and validating the integrity of every notice produced in all phases of printing, inserting, and mailing and to ensure all notices received from SSA were correctly entered into the U.S. Postal System.

NOTE: Contractor must have all hardware, programming, and finalized reports in place to meet this requirement. The equipment must arrive, be installed, and be fully functional at least 120 calendar days prior to the start of live production on July 1, 2026. Contractor must submit a sample of their proposed Audit and Summary Reports with the required Preaward Production Plans for approval. The Government considers grounds for the immediate default of this contract if the contractor, at any time, is unable to perform or found not complying with any part of this requirement.

Notice integrity shall be defined as follows:

- Each notice must include all pages (and only those pages) intended for the designated recipient as contained in the print files received from SSA.
- The contractor's printing process must have automated systems, which can detect all sync errors, stop printing when detected, and identify, remove, and reprint all affected notices.

Mailing integrity shall be defined as follows:

- All notices received from SSA for each file date were printed, inserted, and entered correctly into the U.S. Postal System.

The contractor is responsible for providing the automated inserted notice tracking/reporting systems and processes required to validate that 100% of all notices received from SSA were printed, all pages for each notice with the correct inserts are accounted for, inserted, and mailed correctly.

The contractor's inserting equipment must have automated systems that include notice coding and scanning technology capable of:

- (a) Uniquely identifying each notice and corresponding notice leaves within each individual file by mailer number and file date.
- (b) Unique identifier to be scanned during insertion to ensure all notices and corresponding notice leaves are present and accounted for.
- (c) *Entrance Scanning*: A camera system must electronically track and scan all leaves of each mail piece as the inserting equipment pulls them into the machine to ensure each mail piece was produced and inserted. If there is any variance on a mail piece or if a mail piece is not verified that all leaves are present, that piece and the piece prior to and immediately following must be diverted and sent back for reprint. All instances of variance must be logged.
- (d) *Touch and Toss*: All spoilage, diverted, mutilated, or mail piece that is acted upon directly by a human hand prior to sealing must be immediately recorded, discarded, properly destroyed, and automatically regenerated in a new print file for reprint. *Exception* – Intentionally diverted pieces due to a requirement for a product, which cannot be intelligently inserted and requires manual insertion such as a publication, can be sealed, re-scanned, and placed back into production. These must be programmed diverts and sent to a separate bin for processing to ensure they are not mixed with other problem diverts and logged into the Audit system as such.
- (e) *Exit Scanning*: A camera system must be mounted just aft of the inserting equipment. This camera system must read a unique code through the window of each mail piece and capable of identifying and reporting all missing notices that were lost or spoiled during production for each individual file by mailer number and file date. This system ensures that no missing mail pieces have been inadvertently inserted into another mail piece. The equipment must check the mail pieces after insertion, verify that all leaves are accounted for, and divert any suspect product. During exit scanning, if a sequence number is missing, the notice prior to and immediately after must be diverted. The equipment must divert all products that exhibit missing or out of order sequence numbers and any other processing errors. All diverted pieces are to be automatically recorded and regenerated in a new print file for reprint.
- (f) *Reconciliation*: All notices and the amount of correct finished product must be electronically accounted for after insertion through the use of the audit system that is independent of the inserting equipment as well as independent of the operator. The sequence numbers for each file must be reconciled, taking into account any spoilage, duplicate, and/or diverted product. If the reconciliation yields divergent results, corrective action must be taken to locate the mail pieces that are causing any difference between the input and outputs of the inserting process. Therefore, all finished mail for that sequence run must be held in an accessible area until this reconciliation is complete.
- (g) Generate a new production file for all missing, diverted, or mutilated notices (reprint file).
- (h) Contractor must generate an Automated Audit Report from the information gathered from scanning for each mailer number, file date, and each notice (manual inputs are not allowed). This audit report will contain detailed information for each notice as outlined above for each individual file by mailer number and file date. Contractor must maintain this information for 210 calendar days after mailing.
- (i) Audit report must contain the following information:
 - 1. Job name
 - 2. Mailer number, file date, and mail date(s)
 - 3. Machine ID
 - 4. Date of production with start and end times for each phase of the run (i.e., machine ID).
 - 5. Start and end sequence numbers in each run

6. Status of all sequence numbers in a run
 7. Total volume in run
 8. Status report for all incidents for each sequence number and cause (i.e., inserted, diverted, and reason for diverting such as missing sequence number, missing leaves, mutilated, duplicate, pulled for inspection, etc.)
 9. Bottom of audit report must contain total number of records for that run, quantity sent to reprint, number of duplicates, duplicates verified and pulled, and total completed.
 10. Audit report must contain the same information for all the reprints married with the report as listed above showing that all pieces for each mailer number and file date are accounted for with corresponding date stamp of completion of each.
- (j) Contractor must generate a final automated 100% Accountability Summary Report for each individual file by mailer number and file date. This information must be generated directly from the audit report. Manual inputs are not allowed. The 100% Accountability Summary Report must contain the following:
1. Job Information - Job name, file date, mailer number, piece quantity, sequence start, and end number, if multiple batches for a single file include number of batches and batch number (i.e., 1 of 4, due date, etc.).
 2. Job Start Time and Job End Time
 3. Volume of sequence numbers associated with an individual file by mailer number and file date that were inserted and date completed.
 4. Volume of reprints that were inserted for each file date and when completed.
 5. Total volume inserted for each file date and final date and time that each batch was completed.

A PDF copy of the summary report(s) and matching USPS Certificate of Bulk Mailing, USPS 3607R, and/or GPO 712 form(s) must be emailed to Melissa Picone at melissa.picone@ssa.gov within two (2) workdays of mailing.

Contractor must submit a sample of their Audit and Summary Reports (see Exhibit M) with the required Preaward Production Plans for Government review and approval. The audit team must approve the audit and summary reports prior to award. During the term of the contract, NO changes are to be made to the approved audit and summary reports without prior approval from the audit team. The contractor must submit in writing a request to make changes to the audit and summary reports, along with samples of the proposed audit and summary reports for review and approval.

Contractor must generate an automated audit report when necessary showing the tracking of all notices throughout all phases of production for each mail piece. This audit report will contain all information as outlined in item (i) above. Contractor is required to provide any requested Summary and/or Audit reports within one (1) hour of a request via email in a MS Word, MS Excel, or PDF file to Melissa Picone at melissa.picone@ssa.gov.

NOTE: The Government reserves the right to conduct an audit at any time during the term of the contract. The audit team will provide the contractor a minimum of a 24-hour notice prior to audit. If the contractor produces multiple SSA contracts, the audit team will provide a list of contracts and print orders they will require full audit reports, summary reports, and postal documentation for during the audit.

The contractor must provide the required audit reports within one (1) hour of request; the audit team will grant one (1) hour for each report to be pulled. The audit team may request a full tour and demonstration of the accountability process at the time of the audit. A wrap-up meeting will occur at the conclusion of the audit. The audit team will review their findings with the contractor at this time. The contractor will need to provide in writing responses to all findings, questions, and concerns within one (1) week of the wrap-up meeting. If corrections are required to the contractor's audit reports, the Government may grant the contractor 60 calendar days to complete the changes. The audit team must approve the audit and summary report changes prior to the contractor implementing the changes. Once the new report is approved, the contractor must update the sample of the audit and summary provided with the production plans. The Government considers grounds for the immediate default of this contract if the contractor, at any time, is unable to perform or found not in compliance with any part of this requirement.

All notice tracking/reporting data must be retained in electronic form for 210 calendar days after mailing and must be made available to SSA for auditing of contractor performance upon request.

NOTE: The Government will not as a routine matter request the contractor produce individual pieces in transit within the plant; however, the contractor must demonstrate they will have an audit trail established that has the ability to comply with this type of request when and if the need arises.

REQUEST FOR NOTICE PULLS FROM PRODUCTION: Due to the sensitivity of some of the notices in this contract, the Government may request that certain notices be removed from the production stream. When this occurs, the Government will supply the contractor with a list of Social Security Numbers (SSNs) that need to be pulled.

The contractor must be able to run a sort to find and eliminate the notice from the production run. If the list is provided after the notice had been produced, the contractor must be capable of identifying the notice and pulling it from the production floor. It is anticipated that this will be an infrequent occurrence.

ON-SITE REPRESENTATIVES: One (1) or two (2) full-time Government representatives may be placed on the contractor's premises on a limited basis or throughout the term of the contract.

The contractor will be required to provide one private office of not less than 150 square feet, furnished with at least one desk, two swivel armchairs, secure internet access for Government laptop computers, a worktable, and two 4-drawer letter-size file cabinets with combination padlock and pendaflex file folders or equal.

On-site representative(s) may be stationed at the contractor's facility to: provide project coordination in receipt of transmissions; verify addresses; monitor the printing, folding, inserting, mail processing, quality control, sample selections, and inspections; and, monitor the packing and staging of the mail.

These representatives will not have contractual authority and cannot make changes in the specifications or in contract terms but will bring defects detected to the attention of the company Quality Control Officer. The representatives must have full and unrestricted access to all production areas where work on this program is being performed.

POSTAWARD CONFERENCE: Unless waived by the Contracting Officer, the total requirements of the job as indicated in these specifications will be reviewed by Government representatives with the contractor's representatives at the Social Security Administration, 6401 Security Boulevard, Baltimore, MD, 21235 immediately after award. At the Government's option, the postaward conference may be held via teleconference.

Person(s) that the contractor deems necessary for the successful implementation of the contract must be in attendance.

PREPRODUCTION MEETING: A preproduction meeting covering the printing, imaging, folding, inserting, and mailing must be held at the contractor's facility after award of the contract to review the contractor's production plan and to establish coordination of all operations. Attending this meeting will be representatives from the Government Publishing Office, Social Security Administration, and U.S. Postal Service. The contractor must present and explain their final plan for the printing, imaging, folding, inserting, and mailing of all notices.

At the Government's option, the preproduction meeting may be held via teleconference. The Government reserves the right to waive the preproduction meeting.

The contractor must meet with SSA Division of Mail and Postage Policy (DMPP) and USPS representatives to present and discuss their plan for mailing. The preproduction meeting will include a visit to the contractor's mailing facility where the contractor is to furnish specific mail flow information.

The contractor must present documentation of the plant loading agreement and either a copy of the optional procedure, which has been negotiated with the USPS or a draft of the original procedure that the contractor intends to negotiate with the USPS for SSA approval. The contractor also needs to present SSA with a copy or a draft of the manifest (tracking system) to be used to accomplish the above.

In addition, the contractor must be prepared to present detailed production plans, including such items as quality assurance, projected commencement dates, equipment loading, pallet needs, etc. The contractor is to provide the name of the representative responsible for the mailing operation and that individual's backup.

Person(s) that the contractor deems necessary for the successful implementation of the contract must be in attendance.

ASSIGNMENT OF JACKETS, PURCHASE AND PRINT ORDERS: A GPO jacket number will be assigned and a purchase order issued to the contractor to cover the work performed. The purchase order will be supplemented by an individual print order for each job placed with the contractor. The print order, when issued, will indicate the quantity to be produced and any other information pertinent to the order.

ORDERING: Items to be furnished under the contract must be ordered by the issuance of print orders by the Government. Orders may be issued under the contract from November 1, 2025 through October 31, 2026, plus for such additional period(s) as the contract is extended. All print orders issued hereunder are subject to the terms and conditions of the contract. The contract shall control in the event of conflict with any print order. A print order shall be "issued" upon notification by the Government for purposes of the contract when it is electronically transmitted or otherwise physically furnished to the contractor in conformance with the schedule.

REQUIREMENTS: This is a requirements contract for the items and for the period specified herein. Shipment/delivery of items or performance of work shall be made only as authorized by orders issued in accordance with the clause entitled "ORDERING." The quantities of items specified herein are estimates only and are not purchased hereby. Except as may be otherwise provided in this contract, if the Government's requirements for the items set forth herein do not result in orders in the amounts or quantities described as "estimated," it shall not constitute the basis for an equitable price adjustment under this contract.

Except as otherwise provided in this contract, the Government shall order from the contractor all the items set forth which are required to be purchased by the Government activity identified on page 1.

The Government shall not be required to purchase from the contractor, requirements in excess of the limit on total orders under this contract, if any.

Orders issued during the effective period of this contract and not completed within that time shall be completed by the contractor within the time specified in the order, and the rights and obligations of the contractor and the Government respecting those orders must be governed by the terms of this contract to the same extent as if completed during the effective period of this contract.

If shipment/delivery of any quantity of an item covered by the contract is required by reason of urgency prior to the earliest date that shipment/delivery may be specified under this contract, and if the contractor will not accept an order providing for the accelerated shipment/delivery, the Government may procure this requirement from another source.

The Government may issue orders which provide for shipment/delivery to or performance at multiple destinations.

Subject to any limitations elsewhere in this contract, the contractor shall furnish to the Government all items set forth herein which are called for by print orders issued in accordance with the "ORDERING" clause of this contract.

PRIVACY ACT NOTIFICATION: This procurement action requires the contractor to do one or more of the following: design, develop, or operate a system of records on individuals to accomplish an agency function in accordance with the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 552a) and applicable agency regulations. Violation of the Act may involve the imposition of criminal penalties as stated in 5 U.S.C. 552a (i)(1) CRIMINAL PENALTIES. It is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a, specifically, 5 U.S.C. 552a (i)(1) CRIMINAL PENALTIES and m(1) GOVERNMENT CONTRACTORS.

PRIVACY ACT

(a) The contractor agrees:

- (1) to comply with the Privacy Act of 1974 and the rules and regulations issued pursuant to the Act in the design, development, or operation of any system of records on individuals in order to accomplish an agency function when the contract specifically identifies (i) the system or systems of records and (ii) the work to be performed by the contractor in terms of any one or combination of the following: (A) design, (B) development, or (C) operation;
- (2) to include the solicitation notification contained in this contract in every solicitation and resulting subcontract and in every subcontract awarded without a solicitation when the statement of work in the proposed subcontract requires the design, development, or operation of a system of records on individuals to accomplish an agency function; and
- (3) to include this clause, including this paragraph (3), in all subcontracts awarded pursuant to this contract which require the design, development, or operation of such a system of records.

(b) In the event of violations of the Act, a civil action may be brought against the agency involved where the violation concerns the design, development, or operation of a system of records on individuals to accomplish an agency function, and criminal penalties may be imposed upon the officers or employees of the agency where the violation concerns the operation of a system of records on individuals to accomplish an agency function. For purposes of the Act when the contract is for the operation of a system of records on individuals to accomplish an agency function, the Contractor and any employee of the Contractor is considered to be an employee of the agency.

(c) The terms used in this clause have the following meanings:

- (1) "Operation of a system of records" means performance of any of the activities associated with maintaining the system of records including the collection, use, and dissemination of records.
- (2) "Record" means any item, collection or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph.
- (3) "System of records" on individuals means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

ADDITIONAL EMAILED BID SUBMISSION PROVISIONS: The Government will not be responsible for any failure attributable to the transmission or receipt of the emailed bid including, but not limited to, the following:

1. Illegibility of bid.
2. Emails over 75 MB may not be received by GPO due to size limitations for receiving emails.
3. The bidder's email provider may have different size limitations for sending email; however, bidders are advised not to exceed GPO's stated limit.
4. When the email bid is received by GPO, it will remain unopened until the specified bid opening time. Government personnel will not validate receipt of the emailed bid prior to bid opening. GPO will use the prevailing time (specified as the local time zone) and the exact time that the email is received by GPO's email server as the official time stamp for bid receipt at the specified location.

PAYMENT: Submitting invoices for payment via the GPO fax gateway (if no samples are required) utilizing the GPO barcode coversheet program application is the most efficient method of receiving payment. Instruction for using this method can be found at the following web address:

<http://winapps.access.gpo.gov/fms/vouchers/barcode/instructions.html>.

Invoices may also be mailed to: U.S. Government Publishing Office, Office of Financial Management, Attn: Comptroller, Stop: FMCE, Washington, DC 20401.

For more information about the billing process, refer to the General Information of the Office of Finance web page located at: <http://www.gpo.gov/finance/index.htm>.

Contractor's billing invoice must be itemized in accordance with the items in the "SCHEDULE OF PRICES."

SECTION 2. – SPECIFICATIONS

SCOPE: These specifications cover the production of mailing packages from six (6) identified workloads (total of 36 mailers) consisting of English or Spanish personalized scannable forms; English or Spanish personalized notices with micro-perforated payment stub; English or Spanish instruction sheets; flyers (English only); Business Reply Mail (BRM) envelopes (English and Bilingual English/Spanish); Courtesy Reply Mail (CRM) envelopes (English and Bilingual English/Spanish); and, mail-out envelopes (English and Bilingual English/Spanish); requiring such operations as: the receipt and processing of transmitted data; composition; printing; imaging; binding; construction; gathering and inserting; packing; and distribution.

TITLE: Representative Payee, Beneficiary Recontact, and Disability Update Reports.

The six (6) identified workloads are as follows:

Representative Payee Reports:

1. Title II
2. Title XVI
3. Title II – Final Accounting

Beneficiary Recontact Reports:

4. Beneficiary Recontact

Disability Update Reports:

5. Title II
6. Title XVI

NOTE: The Disability Update Reports also includes an Envelope Fulfillment Requirement.

Future Workloads (during term of contract): During the term of this contract, the Government anticipates developing new notice workloads with the same requirements as the mailing packages described by these specifications. All terms and conditions in these specifications will apply to any future notice workloads. It is estimated that approximately one (1) to three (3) new notice workloads may be added during the term of this contract. File names/dataset names for the new mailers will be supplied to the contractor as they are developed.

FREQUENCY OF ORDERS: Transmission of notices will be as follows:

- Representative Payee Title II: Monthly print orders.
- Representative Title XVI: Monthly print orders.
- Representative Payee Title II – Final Accounting: Weekly print orders.
- Beneficiary Recontact: Monthly print orders.
- Disability Update Title II: Print orders will be issued in January, May, and September.
- Disability Update Title XVI: Print orders will be issued in January and July.

Below is an anticipated transmission schedule. Delays and changes to the schedule may occur. Contractor must be prepared to receive files 24/7/365.

- Representative Payee Title II Notices will transmit between the 17th and 27th of each month.
- Representative Payee Title XVI Notices will transmit on the first Saturday of each month (print order to be issued on the following Monday).
- Representative Payee Title II – Final Accounting Notices will transmit on Sunday of each week (print order to be issued on the following Monday).

- Beneficiary Recontact Notices will transmit between the 20th and 31st of each month.
- Disability Update Title II Notices will transmit between the 18th and 31st of January, May, and September for February, June, and October mailings.
- Disability Update Title XVI Notices will transmit between the 21st and 31st of January and July for February and August mailings.

The January orders for Disability Update Title II and Disability Update Title XVI will be ordered on the same print order.

Print orders may not be issued on the same day as receipt of files by the contractor (e.g., if SSA sends files to the contractor on Saturday, the print order may not be issued until Monday).

For the initial composition and proofs, SSA will send an email (along with the furnished copy) ordering the composition and proofs. Multiple rounds of proofs may be required. Upon receipt of “O.K. to Print” on the proofs, the composition and proofs will be ordered on the same print order as the preproduction construction samples validation test.

A separate print order will be issued for the transmission test, preproduction scannable forms validation test, and the micro-perforated payment stub validation test.

A separate print order will be issued for the preproduction construction sample validation test.

Throughout the term of the contract, if proofs are required, they will be ordered on a live production print order.

QUANTITY: The combined yearly total for all mailers (1 through 36) is approximately 4,810,800 notices per year broken down as follows:

- Representative Payee Title II: Approximately 1,434,000 notices.
- Representative Payee Title XVI: Approximately 1,425,000 notices.
- Representative Payee Title II – Final Accounting: Approximately 29,900 notices.
- Beneficiary Recontact: Approximately 95,400 notices.
- Disability Update Title II Notices: Approximately 1,252,500 notices.
- Disability Update Title XVI Notices: Approximately 574,000 notices.

The Government reserves the right to increase or decrease the quantity by up to 25% of the total number of notices ordered annually. This 25% includes the additional notices occasioned by the one (1) to three (3) new notice workloads that may be added during the term of this contract.

The figures indicated below are estimates based on historical data. Exact quantities will not be known until each run is electronically transmitted to the contractor. **NO SHORTAGES WILL BE ALLOWED.**

CONTRACTOR TO FURNISH: All materials and operations, other than those listed under “GOVERNMENT TO FURNISH,” necessary to produce the product(s) in accordance with these specifications.

Secure File Transfer Protocol (SFTP) Site: Contractor is required to set up, establish, and maintain a contractor-hosted SFTP website that multiple users at SSA can access for passing PDF notice validation samples and other information that contains PII to SSA and back. SFTP website must be accessible via Edge web browser and must not require the download or installation of any additional software. (NOTE: Contractor cannot send any notices or information that contain PII via email.) Appropriate log-on instructions and protocol must be provided by the contractor at time of award. The contractor shall provide security, which at a minimum, shall require a unique user ID and password for each user to access.

Performance of Finished Product: The forms produced under these specifications require precision spacing, printing, trimming, and folding and must be guaranteed to function properly when processed through an Integrated Image Based Data Capture System (IIBDCS). The barcoding must be easily readable by all standard barcode scanning devices regardless of the contractor’s method of reproducing the codes. (SSA equipment: hand-held barcode reader and high-speed scanners for Mailers 1 through 36 and the OPEX AS 3690 Scanner for micro-perforated payment stub for Mailers 19 through 24).

DATESET NAMES: The dataset names listed below may not be the final dataset names transmitted to the contractor. If there are changes, final dataset names will be provided to the contractor at the postaward conference.

*The SSA provided data files for the Disability Update Reports (Mailers 29 through 36) are divided into separate English and Spanish files. However, ALL Disability Update Report mailers including the scannable forms, instruction sheets, and mail-out envelopes will print in English ONLY. The only exception for these mailers is the bilingual CRM return envelopes, which will print with both English and Spanish language on the back of the envelopes.

NOTE: The Disability Update live production files correspond to the following Scanning Form Identification Codes (SFIC) (see locations 1 through 5 of the Vendor Record Specifications) and use either PO Box 4550, Wilkes-Barre, PA 18767-4550 (Title II) or PO Box 4556, Wilkes-Barre, PA 18767-4556 (Title XVI) as follows:

TRANSMISSION: Upon award of this contract, the Government will determine the connectivity method between SSA and the contractor. Internet Protocol (IP) will be the connection protocol for the transmissions.

The connectivity method will be through the Internet using an encrypted VPN tunnel, or the Government will place an order for a dedicated circuit to be installed within 60 to 90 calendar days of award between the contractor’s location and SSA’s network interface location. Either connectivity method will be encrypted with the AES256 encryption algorithm. For the Internet option to be used, the contractor must have an Internet ready VPN IPsec capable hardware device. The Government will not be responsible for any cost associated with the VPN Internet connection that the contractor may incur. The connection method is at the sole discretion of the Government. The cost of the dedicated circuit connection will be borne by the Government. The Government shall not be responsible for installation delays of data connections due to any external influences such as employee strikes, weather, supplies, etc., which conditions are beyond the control of the Government.

If a dedicated circuit is deemed necessary, SSA will provide the dedicated data connection, including a router, and firewall at the contractor’s specified locations. The contractor shall provide adequate rack space for securing the router and firewall; the contractor shall provide a dedicated analog dial-up line within eight (8) feet of the router. This dedicated analog dial-up line will be used for router management and access for troubleshooting. The line must be in place and active prior to the installation of the circuit/router and equipment.

Upon contract award, the contractor shall provide a complete delivery address with nearest cross-street, contact name, and phone number for installation of data transmission services and equipment. The contractor’s contact person shall be available for delivery of services at the specified location. The Government shall not be responsible for incorrect or lack of address information nor for non-availability of contact person(s) at the delivery site.

It is the contractor’s responsibility to notify SSA when systems or data line problems arise, and transmission(s) cannot take place. SSA’s first point of contact for systems or data line problems is the HELP DESK at (866) 718-6410. The contractor must call (866) 718-6410 and select Option 0 to establish a ticket. The contractor will describe the transmission issue to the help desk technician who will create a ticket number. After establishing a ticket, the print contractor must email the DBOPC.Leaders.Mailing.List@ssa.gov mailbox and include Melissa Picone at melissa.picone@ssa.gov on the email. The email must include the ticket number and identify any files that should have transmitted but did not, as well as a description of any other issues with the transmission.

Any reprogramming and/or reformatting of data supplied by wire transmission or VPN Internet transmission necessitated due to the contractor’s method of production shall be the responsibility of the contractor. *It is solely the contractor’s responsibility to ensure proper printing and inserting in their environment.*

FILE TRANSFER MANAGEMENT SYSTEM (FTMS) REQUIREMENTS: The contractor shall provide the capability to interface with SSA’s National File Transfer Management System (FTMS) for electronic transmission of notice files from SSA to the production facility. SSA will provide the necessary data connection into the contractor’s location. At the discretion of SSA, the line speed may be either increased or decreased depending on utilization. The contractor must provide, at their expense, the equipment and operating software platform and the file transfer software required at their location. The contractor assumes all responsibility for configuration, maintenance, and troubleshooting of their equipment and software.

SSA utilizes, and the contractor must provide compatibility with, file transfer technologies that SSA supports, which include SFTP and TIBCO Managed File Transfer (MFT). The contractor may implement the Command Center Transfer Platform Server that has embedded software encryption capable of being enabled. If using TIBCO MFT, the personal computers/servers must have the capability to run Managed File Transfer software with encryption enabled using IP protocols on Windows, UNIX (i.e., IBM's AIX, SUN, or HP), or z/OS platforms.

SSA will not permit any private class A, B, or C IP addresses (i.e., 10.xxx.xxx.xxx type IP addresses) from external users on its network. At connection time to SSA, the contractor will be provided a suitable IP address for access to SSA's network via a firewall. SSA will provide the necessary subnet(s) for connection at the remote site. The contractor will be responsible for their own name/address translation to fulfill the intended purpose of data transfers. SSA will exchange Managed File Transfer or SFTP configuration information with the contractor as required to accomplish file transfers.

The contractor may determine the media type on which files from SSA will be received, to the extent that operator intervention (e.g., a tape mount) is not required at SSA or the contractor's production facility. Simultaneous multiple transmission sessions must be possible on the contractor's equipment. All files transmitted by the SSA will be written as Physical Sequential or "flat" files at the contractor's location and will be distinguished with a "run date" in the contractor's file name.

Virtual Storage Access Method files and Generation Data Groups supported by IBM/MVS or IBM z/OS operating systems are not permitted under this contract. The contractor's storage format must not preclude the availability of the Managed File Transfer software Checkpoint/Restart feature.

NOTE: The contractor may not use VM/VSE/ESA on a mainframe system, as this hampers automated file transmission.

The contractor's FTMS software shall be operational for the receipt of data files 24 hours per day, seven (7) days per week, unless otherwise specified by the Government. The communications protocol between SSA and the contractor shall be the Internet Protocol. The contractor must specify the type of Local Area Network (LAN) connection that will be used at the location where the SSA connection is to be installed. The contractor is responsible for providing complete hardware and software compatibility with SSA's existing network. Production file transfers will be established according to SSA's standard procedures for transmission control, dataset naming, and resource security. The contractor's file management system must accommodate multiple file transmission sessions without intervention at either end. The contractor must have sufficient capacity to support the number of concurrent transmission file sessions as dictated by SSA.

The above will apply, regardless of the number of workloads transmitted to the contractor daily. If the contractor is awarded multiple SSA notice workloads, there must be sufficient capacity at the contractor's production facility to accept transmission of all files according to their schedules.

In the event that the transmission network is unavailable for a time period deemed critical by the Government, the files may, at the Government's option, be processed at the SSA print/mail facility.

It is the contractor's responsibility to notify SSA when systems or data line problems arise and transmission(s) cannot take place. SSA's first point of contact for systems or data line problems shall be the HELP DESK at (866) 718-6410. The contractor must call (866) 718-6410 and select Option 0 to establish a ticket. The contractor will describe the transmission issue to the help desk technician who will create a ticket number. After establishing a ticket, the print contractor must email the DBOPC.Leaders.Mailing.List@ssa.gov mailbox and include Melissa Picone at melissa.picone@ssa.gov on the email. The email must include the ticket number and describe the issue experienced (if files should have transmitted but did not, the email must include the file names of missing files).

NOTE: The contractor must not compress files.

All data provided by the Government or duplicates made by the contractor or their representatives and any resultant printouts must be accounted for and kept under strict security to prevent their release to any unauthorized persons.

Data may not be duplicated in whole or in part for any other purpose than to create material to be used in the performance of this contract.

Any duplicate data and any resultant printouts must be destroyed by the contractor. Data provided to the contractor must be retained for 21 workdays after mailing (before destruction).

FOR QUALITY CONTROL AND AUDITING PURPOSES: The contractor must not merge file dates and mailers during processing, printing and mailing. All files transmitted by SSA will be physical sequential. Any alteration of the notice content in the file is not permitted.

PREPRODUCTION TESTS: Prior to the commencement of production of orders placed under this contract, the contractor will be required to demonstrate their ability to perform the contract requirements by performing the following tests –

- Transmission Test
- Preproduction Validation Tests
 - Scannable Forms Validation Test
 - Micro-Perforated Payment Stub Validation Test
 - Construction Samples Validation Test
- Systems Change/New and Existing Notice Files Validation Test

The Government will furnish electronic test files at the postaward conference, or shortly thereafter, to be used in performing the Transmission Test and the Preproduction Validation Tests.

Failure by the contractor to perform any of the tests listed above to the satisfaction of the Government may be cause for default.

The Government reserves the right to waive the requirements of any or all of these tests. The contractor will be notified at the postaward conference if any test(s) will be waived.

NOTE: All PDF's containing PII must be sent via SFTP.

Transmission Test: After the appropriate data connection has been installed, the contractor will be required to receive, within one (1) workday, data for approximately 827,000 notices (Mailers 1 through 36). These files will be sent concurrently, and the contractor will need to demonstrate their ability to receive them simultaneously.

The contractor will be required to perform a Record Count Verification and a Coding Accuracy Support System (CASS) certification within one (1) workday after the complete transmission of the test files.

The contractor will be required to copy the files to their own system and email Melissa Picone at melissa.picone@ssa.gov with the exact counts received (broken down by dataset name), before proceeding with any other processing.

The contractor will be required to run the test file through their CASS certification system to ensure there are no problems with the reading of the address file. The contractor will be required to report to SSA with the test results.

SSA will respond within one (1) workday of receipt thereof.

Preproduction Validation Tests: Prior to commencement of production of orders placed under this contract, the Government will furnish electronic test files shortly after the postaward conference to be used in performing the Preproduction Validation Tests.

Upon completion of all validation test requirements, the contractor will be reimbursed in accordance with the applicable line items in “SECTION 4. - SCHEDULE OF PRICES.” If the contractor fails to meet all test requirements, they will not be reimbursed for any associated costs.

The contractor must perform the preproduction validation tests in their facilities and on their equipment using their personnel.

NOTE: The Government may require the contractor to make changes to the formats of the scannable forms, notices with micro-perforated payment stub, instruction sheets, flyer, or envelopes at any time during the term of the contract. Whenever such copy changes are required, all aspects of the tests and “test schedules” must be maintained. Live production of all the mailers will continue during this transition period.

Scannable Forms Validation Test:

Within five (5) workdays of receipt of the Government’s approval on the 36 Scannable Form proofs, the contractor must conduct a Scannable Forms Validation Test and furnish 3,200 printed samples (50* samples each of Mailers 1 through 36 Regular and Certified) for validation. Forms must be complete and include all variable data from the Government furnished test files.

Mailers 1 through 24 – The contractor must submit the 50* printed samples as follows:

- 25 test samples to: Social Security Administration, Attn: Representative Payee Analyst, Analysis Staff, Wilkes-Barre Direct Operations Center, Room 341, 1150 East Mountain Boulevard, Wilkes-Barre, PA 18702-7997.
- 25 DUPLICATE test samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401. *NOTE: Press quality Adobe Acrobat PDF samples may be requested in addition to, or as an alternative to, printed samples for the Baltimore, MD address only.

The container and accompanying documentation for both locations must include the GPO Jacket, Purchase Order, Program, and Print Order Numbers.

Mailers 25 through 28 – The contractor must submit the 50* printed samples as follows:

- 25 test samples to: Social Security Administration, Attn: Beneficiary Recontact Analyst, Analysis Staff, Wilkes-Barre Direct Operations Center, Room 341, 1150 East Mountain Boulevard, Wilkes-Barre, PA 18702-7997.
- 25 DUPLICATE test samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401. *NOTE: Press quality Adobe Acrobat PDF samples may be requested in addition to, or as an alternative to, printed samples for the Baltimore, MD address only.

The container and accompanying documentation for both locations must include the GPO Jacket, Purchase Order, Program, and Print Order Numbers.

Mailers 29 through 36 – The contractor must submit the 50* printed samples as follows:

- 25 test samples to: Social Security Administration, Attn: CDR Analyst, Wilkes-Barre Direct Operations Center, Room 341, 1150 East Mountain Boulevard, Wilkes-Barre, PA 18702-7997.
- 25 DUPLICATE test samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401. *NOTE: Press quality Adobe Acrobat PDF samples may be requested in addition to, or as an alternative to, printed samples for the Baltimore, MD address only.

The container and accompanying documentation for both locations must include the GPO Jacket, Purchase Order, Program, and Print Order Numbers.

SSA will test these samples on their scanner and barcode reading device(s) as specified in these specifications.

The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof. Approval or conditional approval shall not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons thereof.

If contractor errors are found or author's alterations (AA's) are required, additional hard copy and/or PDF samples (as ordered) will be required within three (3) workdays of receipt of notification until such time as the validation produces no errors and no further AAs are needed.

The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within five (5) workdays of receipt thereof.

Using the Government furnished test files, the contractor is required to furnish one (1) complete set of PDF files of the Scannable Forms Validation Test Samples. The PDF samples are to be uploaded to the SFTP site within seven (7) workdays of approval of printed samples. The contract must send an email to melissa.picone@ssa.gov once the upload is complete.

Micro-Perforated Payment Stub Validation Test:

Within five (5) workdays of receipt of the Government's approval on the six (6) Title II – Final Accounting Personalized Notices with Micro-Perforated Payment Stub proofs, the contractor must conduct a Micro-Perforated Payment Stub Validation Test and furnish 500 printed samples (50* samples each of Mailers 19 through 24 Regular and Certified) for validation of the alpha-numeric scan line.

Notices with Payment Stub must be complete and include all variable data from the Government furnished test files. The micro-perforation on the payment stub page must be precisely located, and the payment stub must function properly when processed through the current high-speed scanning equipment owned by SSA. A form is a reject when its OCR print cannot be correctly deciphered on the first pass through the specified reading equipment.

The contractor must submit the 50* printed samples as follows:

- 25 test samples to: Michael Molino, Operations Manager for Process Area 4, 2nd Floor, Mid-Atlantic Program Service Center, 300 Spring Garden Street, Philadelphia, PA 19123.
- 25 DUPLICATE test samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401. *NOTE: Press quality Adobe Acrobat PDF samples may be requested in addition to, or as an alternative to, printed samples for the Baltimore, MD address only.

The container and accompanying documentation for both locations must include the GPO Jacket, Purchase Order, Program, and Print Order Numbers.

The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof. Approval or conditional approval shall not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons thereof.

If contractor errors are found or AAs are required, additional hard copy and/or PDF samples (as ordered) will be required within three (3) workdays of notification until such time as the validation produces no errors and no further AAs are needed.

The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within five (5) workdays of receipt thereof.

Construction Samples Validation Test:

Within 10 workdays of receipt of the Government's "O.K. to Print" on all the necessary components including the Preproduction Validation Tests for the Scannable Forms and the Title II – Final Accounting Notices with Micro-Perforated Payment Stub, the contractor must conduct a Construction Samples Validation Test and furnish 800 sample notice packages (10 samples each of Mailers 1 through 28 Regular and Certified and Mailers 29 through 36 (Low and not-Low) Regular and Certified) of the final completed product.

The samples must be complete and include all variable data from the Government furnished test files, inserted into the mail-out envelope with all required inserts and envelopes, leaving the mail-out envelope unsealed.

The contractor will be required to have all the necessary inserts and envelopes completed prior to beginning this validation test.

The contractor must send all test samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401. The container and accompanying documentation must include the GPO Jacket, Purchase Order, Program, and Print Order Numbers.

The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof. Approval or conditional approval shall not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons thereof.

If contractor errors are found, additional samples will be required within three (3) workdays of notification until such time as the validation produces no errors.

The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within three (3) workdays of receipt thereof.

Systems Change/New and Existing Notice Files Validation Test: When required, the Government will furnish test files for transmission that are to be used in performing a Systems Change/New and Existing Notice Files Validation Test. This test is required whenever SSA initiates a systems/programming change, a new notice workload is developed, or an existing workload is changed.

SSA may require press quality PDF and/or hard copy samples.

When required, the contractor must furnish up to 25 PDF samples with variable data for each mailer within three (3) workdays of receipt of the test files and/or approval of the PDF proofs without variable data, as applicable, via the SFTP site and email melissa.picone@ssa.gov once available. (NOTE: Quantity to be specified at time of test.)

When required, the contractor must furnish up to 25 printed (hard copy) samples (no envelopes) with variable data for each mailer within three (3) workdays of receipt of the test files and/or approval of the PDF proofs with or without variable data, as applicable, to WBD0C or MATPSC for scanner testing. (NOTE: Quantity to be specified at time of test.)

The Government will approve, conditionally approve, or disapprove the samples within five (5) workdays of receipt thereof. Approval or conditional approval must not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval must state any further action required by the contractor. A notice of disapproval must state the reasons thereof.

The test must occur without a break in production of notices. The Government will inform the contractor in advance when the test files are to be provided and what changes are taking place.

NOTE: If errors are found, additional samples of notices (as indicated above) will be required until such time as the validation produces no errors.

COMPOSITION: Typesetting for text and form work will be required as follows:

- Contractor will be required to typeset all scannable forms and personalized notices with micro-perforated payment stub utilizing Century Schoolbook, or similar serif typeface. The FORM ID number located in the form identifier box at the top of each scannable form must be set in OCR A 18-point typeface.
- If required, contractor will be required to typeset all instruction sheets utilizing Century Schoolbook, or similar serif typeface. The numbers/letters located within the boxes of each instruction sheet will be typeset utilizing OCR handprinted characters typeface unless otherwise specified.
- Contractor will be required to typeset all envelopes utilizing Helvetica, or similar typeface.

NOTE: If required, the contractor must typeset the above from the furnished manuscript copy.

SSA reserves the right to require samples and to judge the suitability of any alternate typeface offered in order to make an award, which is deemed to be in the best interest of the Government.

The entirety of each category of composition (text, tabular, and display) must be identical throughout the product(s) ordered under these specifications. Contractor is to match the type size on the manuscript copy. Exact spacing of scan boxes and variable data must be maintained for readability on pre-programmed scanning equipment.

Form work will be defined as matter set in all sizes and will include vertical, horizontal, and diagonal rules, box heads, numbered lines, checkboxes, arrows, type matter, etc., positioned in the proper location to provide spaces for information to be filled in individually.

PROOFS: Proofs will be required with the initial order and any time a copy change is required during the term of the contract. Proofs will be ordered without and with variable data.

Instruction Sheets, Flyer, and Envelopes:

- One (1) press quality Adobe Acrobat (most current version) PDF soft proof (for content only) using the same Raster Image Processor (RIP) that will be used to produce the final printed product. PDF proof will be evaluated for text flow, image position, and color breaks. Proof will not be used for color match.

For the envelopes, the PDF proofs must show all margins and dimensions, indicate trim marks, show flap, and window size and placement, as applicable.

Scannable Forms and Personalized Notices with Micro-Perforated Payment Stub:

- One (1) press quality Adobe Acrobat (most current version) PDF soft proof (for content only) using the same Raster Image Processor (RIP) that will be used to produce the final printed product. PDF proof will be evaluated for text flow, image position, and color breaks. Proof will not be used for color match.
- Three (3) sets of digital color content proofs will be required. Proofs must be created using the same Raster Image Processor (RIP) that will be used to produce the product. Proofs must be collated with all elements in their proper position (not pasted up), imaged face and back, trimmed, and folded to the finished size as required for each item.

SSA reserves the right to make changes to all proofs. The Government may require one (1) or more sets of revised proofs before rendering an “O.K. to Print.”

The contractor will be responsible for performing all necessary proofreading to ensure that the proofs are in conformity with the copy submitted.

If any contractor’s errors are serious enough in the opinion of GPO to require revised proofs, the revised proofs are to be provided at no additional expense to the Government. No extra time can be allowed for this reproofing operation; such operations must be accomplished within the original production schedule allotted in the specifications.

The contractor must not print prior to receipt of an “O.K. to Print.”

STOCK/PAPER: The specifications of all paper furnished must be in accordance with those listed herein or listed for the corresponding JCP Code numbers in the “Government Paper Specification Standards No. 13” dated September 2019. Government Paper Specification Standards No. 13 – https://www.gpo.gov/docs/default-source/forms-and-standards-files-for-vendors/vol_13.pdf.

Color of paper furnished must be of a uniform shade and a close match by visual inspection of the JCP and/or attached color sample(s). The Contracting Officer reserves the right to reject shipments of any order printed on paper the color of which, in his or her opinion, materially differs from that of the color sample(s).

All paper used in each order must be of a uniform shade.

Scannable Forms: White Optical Character Recognition (OCR) Bond, basis weight: 20 lbs. per 500 sheets, 17 x 22”, equal to JCP Code O-25.

Personalized Notices with Micro-Perforated Payment Stub: White Uncoated Text, basis weight: 50 lbs. per 500 sheets, 25 x 38”, equal to JCP Code A60.

Instruction Sheets: White Uncoated Text, basis weight: 50 lbs. per 500 sheets, 25 x 38”, equal to JCP Code A60.

Flyers: White Writing, basis weight: 20 lbs. per 500 sheets, 17 x 22”, equal to JCP Code D10.

BRM Return Envelopes: White, Pink, or Green Writing Envelope, basis weight: 20 lbs. per 500 sheets, 17 x 22”, equal to JCP Code V20. NOTE: The Pink Writing must be a match of Pantone 210, and the Green Writing must be a match of Pantone 344. At contractor’s option, the pink envelopes may be surface tinted to match Pantone 210, and the green envelopes may be surface tinted to match Pantone 344. Surface tinting must cover all exposed surfaces (front and back) of the envelope when sealed. *Envelope color must meet USPS print reflectance difference requirements.*

CRM Return Envelopes: White Writing Envelope, basis weight: 20 lbs. per 500 sheets, 17 x 22”, equal to JCP Code V20.

Mail-out Window Envelopes: White Writing Envelope, basis weight: 24 lbs. per 500 sheets, 17 x 22", equal to JCP V20; or, at contractor's option, White Uncoated Text, basis weight: 60 lbs. per 500 sheets, 25 x 38", equal to JCP Code A60.

PRINTING AND IMAGING: All printing/imaging must have a minimum resolution of 600 x 600 dpi (see "Imaging" below). **NOTE: Inkjet printing is not allowed.**

The Government reserves the right to make changes to the envelopes or to the format/text of the forms, personalized notices, payment stubs, instruction sheets, or flyer at any time during the term of this contract. Notification of a proposed change will be given with sufficient time for the contractor to allow for the change and submit proofs to the Government. The contractor is not to preprint or maintain more than a 90-calendar day surplus/inventory of the instruction sheets, flyers, and envelopes as required by this contract.

NOTE: The Disability Update Reports are quarterly notices. All components of the Disability Update Reports are excluded from the 90-calendar day surplus/inventory.

In the event that the agency makes changes to any or all of the instruction sheets, flyer, or envelopes, the Government will exhaust the current supply before requiring the contractor to begin using the updated components. The Government will not be required to purchase from the contractor the surplus/inventory of any stocked items remaining on-hand in excess of what was authorized when an envelope or format/text change is implemented. However, if a revision occurs which requires destruction of any stocked item, contractor will be allowed to charge for only those line items applicable in accordance with the "SCHEDULE OF PRICES."

Printing:

Scannable Forms: Print face and back, head-to-head, in black ink only.

Personalized Notices with Micro-Perforated Payment Stub: Print face and back, head-to-head, in black ink only.

Instruction Sheets: Print face and back, head-to-head, in black ink only.

Flyers: Print face only in black ink.

ALL Envelopes: Print face and back (after manufacturing) in black ink only. Printing must be in accordance with the requirements for the style envelope ordered. All printing must comply with all applicable U.S. Postal Service regulations. The envelope must accept printing without feathering or penetrating to the reverse side.

All envelopes require a security tint (straight-line tint is not acceptable) printed on the inside (back - before manufacturing) in black ink. The contractor may use their own design but must guarantee that the product will ensure complete opacity and prevent show through of any material contained therein. NOTE: The inside of the BRM and CRM return envelopes must contain a clear area (no pantograph design) (approximate 3-1/2 x 5/8" in size), behind the IMb to ensure the readability by U.S. Postal Service equipment.

BRM Envelopes: Face of envelopes to be in BUSINESS REPLY FORMAT. Print the FIM and IMb using the furnished camera copy. Contractor is responsible for placing the FIM and IMb on the mail piece according to the current U.S. Postal Service Domestic Mail Manual.

CRM Envelopes: Face of envelopes to be in COURTESY REPLY FORMAT. Print the FIM and IMb using the furnished camera copy. Contractor is responsible for placing the FIM and IMb on the mail piece according to the current U.S. Postal Service Domestic Mail Manual.

NOTE: The Title XVI mail-out envelope for the Representative Payee Reports and the Disability Update Reports must contain the ADDRESS SERVICE REQUESTED endorsement on the front of the envelope.

Recycled Paper Logo and Legend:

See Government Paper Specification Standards No. 13 for recycled content requirements. If recycled paper is used, the recycled paper logo and legend must be printed in black ink as follows:

Scannable Forms/Personalized Notices: The English recycled paper logo and legend must be printed on the first page of the English scannable forms/personalized notices in the bottom left-hand corner. The Spanish recycled paper logo and legend must be printed on the first page of the Spanish scannable forms/personalized notices in the bottom left-hand corner.

Instruction Sheets: The English recycled paper logo and legend must be printed on the last page of the English instruction sheets in the bottom left-hand corner. The Spanish recycled paper logo and legend must be printed on the last page of the Spanish instruction sheets in the bottom left-hand corner.

Flyers: The English recycled paper logo and legend must be printed in the bottom left-hand corner of the page.

Envelopes: The English recycled paper logo and legend must be printed on the back of all envelopes in the bottom left-hand corner. If the envelope is bilingual, then the Spanish recycled paper logo and legend must also be printed on the back in the bottom right-hand corner.

Imaging:

Contractor will be required to convert furnished data from the electronic transmission for laser/ion deposition printing in black ink with a minimum resolution of 600 x 600 dpi, utilizing Century Schoolbook, or similar serif typeface on the scannable forms in accordance with the following:

NOTE: Inkjet printing is not allowed.

Variable Data:

Form SSA-623-OCR-SM:

Face of Scannable Form – Maximum 28 type lines of alphanumeric characters (includes form identifier located in the box at the top of each form), Data Matrix 2D barcode located at the top of each form (7/16” to the right of the form identifier box), plus the IMb.

Back of Scannable Form – Two (2) type lines of alphanumeric characters matching the barcodes on the back of the form, one (1) type line of alphanumeric characters located in the form identifier box at the top of each form, plus Data Matrix 2D barcode located at the top of each form (1/4” to the right of the form identifier box).

Form SSA-6230-OCR-SM:

Face of Scannable Form – Maximum 27 type lines of alphanumeric characters (includes form identifier located in the box at the top of each form), Data Matrix 2D barcode located at the top of each form (7/16” to the right of the form identifier box), plus the IMb.

Back of Scannable Form – Two (2) type lines of alphanumeric characters matching the barcodes on the back of the form, one (1) type line of alphanumeric characters located in the form identifier box at the top of each form, plus Data Matrix 2D barcode located at the top of each form (1/4” to the right of the form identifier box).

Form SSA-6234-OCR-SM:

Face of Scannable Form – Maximum 30 type lines of alphanumeric characters (includes form identifier located in the box at the top of each form), Data Matrix 2D barcode located at the top of each form (7/16” to the right of the form identifier box), plus the IMb.

Back of Scannable Form – Two (2) type lines of alphanumeric characters matching the barcodes on the back of the form, one (1) type line of alphanumeric characters located in the form identifier box at the top of each form, plus Data Matrix 2D barcode located at the top of each form (1/4” to the right of the form identifier box).

Form SSA-1588-OCR-SM:

Face of Scannable Form – Maximum 11 type lines of alphanumeric characters (includes form identifier located in the box at the top of each form), Data Matrix 2D barcode located at the top of each form (7/16” to the right of the form identifier box), plus the IMb.

Back of Scannable Form – No variable data on back of forms.

Form SSA-455-OCR-SM:

Face of Scannable Form – Maximum 20 type lines of alphanumeric characters plus the IMb.

Back of Scannable Form – Four (4) type lines of alphanumeric characters with 2 of the 4 type lines matching the barcodes.

The Scanning Form Identification Code (SFIC) will consist of a 5-digit number printed using the OCR-A font. All variable data for the Report Period, Beneficiary, Telephone Number, and BNC# must be printed using the OCR-A font.

For those fields that will contain data of varying length (PNA 1 - 6, Beneficiary’s Name, and Reporting Period), the contractor must make the adjustment (i.e., close up the extra space) in the printing of those fields on the scannable form.

Contractor must determine type size (largest size that can be accommodated in the available space) subject to SSA approval.

Scan Lines on Face of Forms:

Representative Payee (Title II, Title II – Final Accounting):

Form SSA-623-OCR-SM – Maximum 60 characters printed on two lines (line 1: 28 characters; line 2: 32 characters), OCR-A font.

Form SSA-6230-OCR-SM – Maximum 70 characters printed on two lines (line 1: 35 characters; line 2: 35 characters), OCR-A font.

Form SSA-6234-OCR-SM – Maximum 70 characters printed on two lines (line 1: 28 characters; line 2: 42 characters), OCR-A font.

Representative Payee (Title XVI):

Form SSA-623-OCR-SM – Maximum 79 characters printed on two lines (line 1: 40 characters; line 2: 39 characters), OCR-A font.

Form SSA-6230-OCR-SM – Maximum 79 characters printed on two lines (line 1: 40 characters; line 2: 39 characters), OCR-A font.

Form SSA-6234 OCR-SM – Maximum 84 characters printed on two lines (line 1: 42 characters; line 2: 42 characters), OCR-A font.

Beneficiary Recontact:

Form SSA-1588-OCR-SM – Maximum 53 characters printed on two lines (line 1: 35 characters; line 2: 18 characters), OCR-A font.

Disability Update (Title II, Title XVI):

Form SSA-455-OCR-SM – Maximum 96 characters printed on three lines (line 1: 32 characters; line 2: 32 characters; line 3: variable up to 32 characters maximum), OCR-A font. NOTE: Character set required includes the “/”.

NOTE: All scan lines located on the face of any of the scannable forms must not fall on a fold.

Scan lines must be printed using the OCR-A font. The OCR printing must read continuously on an Integrated Image Based Data Capture System (IIBDCS). The reject rate due to manufacturing deficiencies shall not exceed 0.65% of the items when run on the specified reading equipment. A form is a reject when its OCR print cannot be correctly deciphered on the first pass through the specified reading equipment. Acceptability of the lot for OCR readability will be based on the number of rejected items in a sample of the size specified in ANSI/ASQC Z1.4, General Inspection Level I, with AQL equal to 0.65%. For OCR evaluation, the sampling unit of production will be an individual form. OCR tests are independent of tests and evaluations of all other product characteristics and have separate AQLs and sample sizes. At the Government's option, the sample may consist of sequential items from one or more portions of the lot rather than a random sample.

ANSI X3.17 “Character Set for Optical Character Recognition (OCR-A)” shall apply to these specifications. The revisions of this standard which are effective as of the date of this contract are those which shall apply.

ANSI Standards may be obtained from the American National Standards Institute, 25 West 43rd Street, 4th Floor, New York, NY 10036.

MICRO-PERFORATED PAYMENT STUB: The Representative Payee Title II – Final Accounting personalized notice contains a micro-perforated payment stub with an alphanumeric scan line. The alphanumeric scan line must be printed using the OCR-A font. The payment stub page is part of the notice itself and will be electronically transmitted. The payment stub page is the only page that should contain the micro-perforation.

The payment stub portion, once detached, will be scanned. It is critical that the bottom of the OCR-A scan line be 1/2” from the bottom and 1/4” from the right leading edge on the payment stub page. The payment stub produced must be guaranteed to function properly when processed through the current high-speed scanning equipment at SSA. A form is a reject when its OCR print cannot be correctly deciphered on the first pass through the specified reading equipment.

The contractor must not use magnetic ink to print the payment stub as it will affect its ability to scan. Use of equipment or ink, which in any way adversely affects the ability to scan the payment stub, will not be allowed.

NOT-LOW PERSONALIZED SCANNABLE FORMS: The Disability Update Title II and Title XVI notices are expected to include “not-LOW” mailers. The contractor is required to review the Orbit Priority Code (ORB) field (location 285, Scanline 2, Field 3) for all records.

For every record containing an “M” or “H” in the ORB field, the contractor must image a large (48-point) 6-sided asterisk in Times New Roman on the front of the scannable form. The 6-sided asterisk must be positioned 7/16” from the top and 2-7/8” from the left edge on the front of the scannable form. Follow furnished samples.

Forms printed with the 6-sided asterisk are described as “not-LOW” personalized scannable mailer forms.

When an asterisk is printed on a “not-LOW” scannable form, the CRM return envelope included with the form must also have a large (48-point) 6-sided asterisk in Times New Roman printed on the front. The 6-sided asterisk must be positioned 1-11/16” from the top and 1-3/8” from the left edge on the front of the CRM return envelope.

If the value for location 285 (Scanline 2, Field 3, the ORB field) is “L” or blank, **DO NOT** print an asterisk on the scannable form or on the CRM return envelope.

It is expected that all scheduled mailings will include “not-LOW” mailers. Upon selection of records for a scheduled printing, the contractor will be advised of the amount of “not-LOW” mailers in the selection by type (Title II and/or Title XVI) and if they are first-time or second-time mailers. When possible, the contractor will be notified in advance of estimated quantities for “not-LOW” mailings.

BARCODE REQUIREMENTS: The scannable forms contain Data Matrix 2D barcodes and Standard 3 of 9 barcodes. (See manuscript copy for precise placement and size of barcodes.) Barcodes must not interfere with the fold or any wording on the forms.

Carbon black ink must be used to image barcodes. Barcodes must not fall on a fold. Contractor will be required to have the necessary equipment to perform all quality assurance tests and to verify the accuracy of the barcodes and scannable lines during the term of this contract.

Data Matrix 2D Barcode:

Representative Payee (Title II, Title XVI, Title II – Final Accounting): Two (2) Data Matrix 2D barcodes will be required on all SSA-623, SSA-6230, and SSA-6234 scannable forms as follows:

Face: Located at the top, 7/16” to the right of the form identifier box of each form. Height is 1/2”, plus or minus 1/16”; length/width is 1/2”, plus or minus 1/16”.

Back: Located at the top, 1/4” to the right of the form identifier box of each form. Height is 1/2”, plus or minus 1/16”; length/width is 1/2”, plus or minus 1/16”.

NOTE: At least 1/8” margin (quiet zone) is required top, bottom, left, and right of each Data Matrix 2D barcode.

The Data Matrix 2D barcodes must contain the following data elements:

Form ID:	4 positions (6230, 6231, 6232, 6233, 6234, 6235, 6236, 6237, 6239).
Page Number:	1 position (1 for face, 2 for back).
Language:	1 position (E for English, S for Spanish).
Second Request:	1 position (Y for yes, N for no, and F for final accounting).
Printer Information:	variable length (contractor’s name).
Edition Date:	6 positions (2 positions for month, 4 positions for year; value must always reflect the edition date on form).
Scan Lines:	variable length (see “PRINTING AND IMAGING, Imaging, Scan Lines on Face of Forms”).

Beneficiary Recontact: One (1) Data Matrix 2D barcode will be required on all SSA-1588 scannable forms as follows:

Face: Located at the top, 7/16” to the right of the form identifier box of each form. Height is 1/2”, plus or minus 1/16”; length/width is 1/2”, plus or minus 1/16”.

NOTE: At least 1/8” margin (quiet zone) is required top, bottom, left, and right of each Data Matrix 2D barcode.

The Data Matrix 2D barcode must contain the following data elements:

Form ID:	4 positions (1588)
Page Number:	1 position (1 for face)
Language:	1 position (E for English, S for Spanish)
Request:	1 position (value 1 = first request, value 2 = final request)
Printer Information:	variable length (contractor’s name)
Edition Date:	6 positions (2 positions for month, 4 positions for year; value must always reflect the edition date on form)
Scan Lines:	53 positions (See “PRINTING AND IMAGING, Imaging, Scan Lines on Face of Forms”)
Beneficiary’s First Name:	15 positions
Beneficiary’s Middle Initial:	1 position
Beneficiary’s Surname:	20 positions

Disability Update (Title II, Title XVI): Two (2) Data Matrix 2D barcodes will be required on all SSA-455 scannable forms as follows:

Face: Located at question 1.b, 5/16” to the left of 1.b2 and 1.b3. Height is 5/8”, plus or minus 1/16”; length/width is 5/8”, plus or minus 1/16”.

Back: Located in the top margin, 1/4” down from the leading edge of the form, and 1-1/2” in from the left edge of the form. Height is 5/8”, plus or minus 1/16”; length/width is 5/8”, plus or minus 1/16” centered in the margin.

NOTE: At least 1/8” margin (quiet zone) is required top, bottom, left, and right of each Data Matrix 2D barcode.

The Data Matrix 2D barcodes must contain the following data elements:

Form Number:	7 positions (SSA-455)
Revision Date:	6 positions, (2 positions for month, 4 positions for year; value must always reflect the edition date on form)
Form Side:	1 position (F for Front, B for Back)
Request:	1 position (value 1 = first request, value 2 = second request)
Mail Date:	8 positions (MMDDYYYY = Month/Day/Year)
Scan Line 1:	32 positions (123456789/C1/1952/0000/12345678/)
Scan Line 2:	32 positions (3/---/L/0012/022016/1/8/S11/123/)
Scan Line 3:	variable length, maximum 32 positions (ANYCITY /PA/1234567890/) (See “PRINTING AND IMAGING, Imaging, Scan Lines on Face of Forms”)
End:	3 positions (EOD for End of Data)

Example:

SSA-455,062024,F,1,06072024,123456789/C1/1952/0000/12345678/,3/---/L/0012/062022/1/8/S11/123/, ANYCITY /PA/1234567890/,EOD

Data columns are to be preceded and followed by the standard Data Matrix 2D barcode start/stop patterns, left row indicator, and right row indicator. Additionally, a delimiter character (comma) must be inserted between each element.

The Data Matrix 2D barcodes must be in accordance with the requirements of ANSI MH 10.8.3M, unless otherwise specified.

The Data Matrix 2D barcodes produced under these specifications must be guaranteed to function properly when processed through an Integrated Image Based Data Capture System. The barcoding must be readable by all standard barcode scanning devices regardless of the contractor's method of reproducing the codes.

Standard 3 of 9 Barcode: The Standard 3 of 9 barcode consists of a maximum 16 characters. Two (2) barcodes will be required on the back of the Representative Payee (Title II, Title XVI, Title II – Final Accounting) and Beneficiary Recontact scannable forms; and one (1) barcode will be required on the back of the Disability Update (Title II, Title XVI) scannable forms as follows:

Representative Payee (Title II, Title XVI, Title II – Final Accounting):

First Barcode: Type of Event (TOE). 6 characters + start/stop = 8 characters encoded. Height is 1/2", plus or minus 1/16", density of 6.6 CPI. A standard 1/2" margin (quiet zone) is required left and right of each barcode.

A. If the Processing Center Code (PC Code) is 0 through 6, the barcode should be:

<u>Position</u>	<u>Code</u>
1	start
2	8
3	6
4	1
5	0
6	0
7	4
8	stop

B. If the PC Code is 7 or 8, the barcode should be:

<u>Position</u>	<u>Code</u>
1	start
2	8
3	6
4	1
5	0
6	8
7	6
8	stop

Second Barcode: (Social Security Number (SSN), PC Code, 0, 1, 8, and 9). 14 characters + start/stop = 16 characters encoded. Height is 1/2", plus or minus 1/16", density of 6.6 CPI. A standard 1/2" margin (quiet zone) is required left and right of each barcode.

<u>Position</u>	<u>Field/Entry</u>
1	*start/stop
2-10	SSN
11	PC Code
12	0
13	1
14	8
15	9
16	*start/stop

NOTE: The Title XVI forms selection process does not always identify a processing center code (PC Code). The contractor must force a PC Code of “0” (zero) for the barcode on the reverse side of the form on Title XVI selections unless a PC Code is present in the files. This will allow the barcode to be used for Title XVI forms. If the PC Code is “0,” the PC field on the face of the form must be blank. If a PC Code of 1 through 8 is present, then that number must be part of the barcode and must be shown in the PC field on the face of the form.

Beneficiary Recontact:

First Barcode: Type of Event (TOE). The Toe for all Beneficiary Recontact Forms is 270. The Toe is 6 characters + start/stop = 8 characters encoded. Minimum length is 1-3/4” and maximum length is 1-7/8” (not including the quite zones). Height is 1/2”, plus or minus 1/16”. A standard 1/2” margin (quiet zone) is required left and right of each barcode.

A. The barcode interpretation should be:

<u>Position</u>	<u>Code</u>
1	start
2	8
3	6
4	1
5	0
6	6
7	8
8	stop

Second Barcode: (Social Security Number (SSN), PC Code, 0, 1, 8, and 1). 14 characters + start/stop = 16 characters encoded. Minimum length is 3-1/2” and maximum length is 3-3/4” (not including the quiet zones). Height is 1/2”, plus or minus 1/16”. A standard 1/2” margin (quiet zone) is required left and right of each barcode.

<u>Position</u>	<u>Code</u>
1	start (*)
2-10	SSN
11	PC Code
12	0
13	1
14	8
15	1
16	stop (*)

Disability Update (Title II, Title XVI):

Barcode: (Social Security Number (SSN), PC Code, 0, 1, 8, and 9). 14 characters + start/stop (*) = 16 characters encoded. Height is 1/2”, plus or minus 1/16”, density of 6.6 CPI (Font C3901J). A standard 1/2” margin (quiet zone) is required left and right of each barcode.

<u>Position</u>	<u>Code</u>
1	start (*)
2-10	SSN
11	PC Code
12	0
13	1
14	8
15	9
16	stop (*)

Type of Event (TOE): The TOE Code will not be shown in barcode format on the back of the Disability Update scannable forms. The letters “TOE” and the numbers “290,” “790,” and “990” should be displayed on the back of the scannable form as follows:

- A. If the file contains Title XVI records, Processing Center Code (PC) 0 through 6, then the TOE Code Visual Display should read: TOE 290.
- B. If the file contains Title II records, Processing Center Code (PC) 0 through 6, then the TOE Code Visual Display should read: TOE 790.
- C. If the file contains Title II records, Processing Center Code (PC) 7 or 8, then the TOE Code Visual Display should read: TOE 990.

The BNC is to be printed landscape style on the back of the following forms as follows:

- Beneficiary Recontact – The BNC is literally interpreted between the TOE and the SSN barcodes.
- Disability Update – The BNC is literally interpreted between the 2D barcode and the SSN barcode. The TOE, PI, and P9 are literally interpreted directly below the BNC. The PI lead value should reflect the PC code printed on the front of the form followed by 0181 (X0181).

The SSN is to be printed landscape style on the back of the following forms as follows:

- Representative Payee (Title II, Title XVI, Title II – Final Accounting) – The SSN is literally interpreted between the TOE and the SSN barcodes.

All encoded data is to be preceded and followed by the Standard 3 of 9 barcode start/stop (*) code. Additionally, where blanks occur in fields identified for conversion to barcode, these blanks should be expressed as barcoded blanks.

The Standard 3 of 9 barcode must be in accordance with the requirements of AIM Uniform Symbology Specifications, Code 39 and ANSI X3.182-1990 (Barcode Print Quality Guidelines), unless otherwise specified.

PRESS SHEET INSPECTION: Final makeready press sheets may be inspected and approved at the contractor’s plant for the purpose of establishing specified standards for use during the actual press run. Upon approval of the sheets, contractor is charged with maintaining those standards throughout the press run (within QATAP tolerances when applicable) and with discarding all makeready sheets that preceded approval. See GPO Publication 315.3 (Guidelines for Contractors Holding Press Sheet Inspections) issued January 2015. NOTE: A press sheet inspection is for the purpose of setting specific standards that are to be maintained throughout the entire run. It does not constitute a prior approval of the entire run.

Viewing Light: Press sheets will be viewed under controlled conditions with 5000 degrees Kelvin overhead luminaries. The viewing conditions must conform to ISO 3664-2009. A viewing booth under controlled conditions with 5000 degrees Kelvin overhead luminaries with neutral gray surroundings must be provided.

NOTE: When a press sheet inspection is required, the Government will notify the contractor. A press sheet inspection(s) may be required at the contractor’s/subcontractor’s plant before production begins on any new or existing workload.

MARGINS: Margins on the scannable forms must be a minimum of 1/4” on all sides. Contractor is to follow furnished manuscript copy, electronic file, or other given instructions for proper margins on the instruction sheets, flyer, personalized notice with micro-perforated payment stub, and envelopes.

BINDING:

Scannable Forms: Trim four sides.

Personalized Notice with Micro-Perforated Payment Stub: Each leaf trims four sides.

Stub Requirement: The last leaf of the English and the Spanish Title II – Final Accounting Personalized Notices requires a full horizontal micro-perforation 3-1/2” up from bottom of page and runs across the entire 8-1/2” dimension. Only the payment stub page is to contain the perforation.

Instruction Sheets:

Representative Payee and Disability Update – Fold from 17 x 11” flat size down to 8-1/2 x 11”, title out and trim three sides.

Beneficiary Recontact – Trim four sides.

Flyers: Trim four sides.

CONSTRUCTION:

White, Pink, and Green BRM Return Envelopes (4 x 8-7/8”): Envelopes must be open side with side seams and a gummed, fold-over flap for sealing. Flap depth is at contractor’s option but must meet all USPS requirements. Flap must be coated with suitable remoistenable glue the entire length of flap that will securely seal the return envelope for mailing. Adhesive must not adhere to the contents of the envelope.

NOTE: The white and pink BRM return envelopes must accommodate the scannable form when folded as specified under “GATHERING AND INSERTING.” The green BRM return envelope must accommodate the Micro-Perforated Payment Stub.

White CRM Return Envelopes (4 x 8-7/8”): Envelopes must be open side with side seams and a gummed, fold-over flap for sealing. Flap depth is at contractor’s option but must meet all USPS requirements. Flap must be coated with suitable remoistenable glue the entire length of flap that will securely seal the return envelope for mailing. Adhesive must not adhere to the contents of the envelope.

NOTE: The white CRM return envelopes must accommodate the scannable form when folded as specified under “GATHERING AND INSERTING.”

White Mail-out Envelopes (4-1/4 x 9-1/2”): Envelopes must be open side with side seams or high-cut diagonal seams, at contractor’s option, and a gummed, fold-over flap for sealing. Flaps must be coated with a suitable glue that will securely seal the envelope without adhering to contents, permit easy opening by the recipient, and not permit resealing of the envelope. Mail-out envelopes to be securely sealed on all sides and must remain sealed under normal mailing conditions.

Representative Payee and Beneficiary Recontact Envelopes– Flap depth is at contractor’s option but must meet all USPS requirements. Face of envelope to contain one (1) die-cut address window (1-5/8 x 4-1/4” in size) with slightly rounded corners. Window to be positioned 7/8” from the bottom edge and 1/2” from the left edge.

Disability Update Envelopes – Flap depth must be at least 1-1/2”. Face of envelope to contain one (1) die-cut address window (1-1/2 x 4-1/16” in size) with slightly rounded corners. Window to be positioned 1/2” from the bottom edge and 5/8” from the left edge.

Contractor has the option to adjust the size of the window openings (subject to SSA approval) providing the visibility of the mailing address and IMb on the form is not obscured and other extraneous information is not visible when material is inserted into the envelope.

Windows are to be covered with a suitable transparent, low-gloss, poly-type material that must be clear of smudges, lines, and distortions. Poly-type material must be securely affixed to the inside of the envelope so as not to interfere with insertion of contents. Window material must meet the current USPS readability standards/requirements.

GATHERING AND INSERTING: Gather and fold (as specified below) for insertion into the mail-out envelope.

- **Scannable Forms:** Fold from 8-1/2 x 11" flat size down to 8-1/2 x 3-2/3" with two parallel accordion folds, title out. The recipient's name and address must be visible through the window envelope when inserted into mail-out envelope. NOTE: Scan lines located on the face and barcodes located on the face and back of the scannable forms must not fall on a fold.
- **Personalized Notice with Micro-Perforated Payment Stub:** Fold the two 8-1/2 x 11" leaves from 8-1/2 x 11" flat size down to 8-1/2 x 3-2/3" with two parallel accordion folds. NOTE: Micro-perforation to fall on fold.

For the Title II – Final Accounting workload, the Final Accounting Personalized Notice with Micro-Perforated Payment Stub sheets will nest behind the Final Accounting Personalized Scannable Form to create a 6-page form/notice. The recipient's name and address on the Scannable Form must be visible through the window envelope when inserted into the mail-out envelope. Additionally, it is the contractor's responsibility to ensure that the Final Accounting Personalized Notice with Micro-Perforated Payment Stub imaged with recipient's name and other personal information will match with the scannable form (which contains 2D barcodes with personalized data) for the same recipient.

- **Instruction Sheets:**

Representative Payee and Disability Update – Fold from 8-1/2 x 11" down to 8-1/2 x 3-2/3" for insertion into mail-out envelope.

Beneficiary Recontact – Fold from 8-1/2 x 11" flat size down to 8-1/2 x 3-2/3" for insertion into mail-out envelope.

- **Flyers:** Fold from 8-1/2 x 11" flat size down to 8-1/2 x 3-2/3" for insertion into mail-out envelope.

Mailers 1, 2, 5, 6, 9, 10 (Title II English) – Each constructed mailer consists of five components: (1) personalized scannable form, (2) instruction sheet, (3) flyer, (4) BRM envelope, and (5) mail-out envelope into which components 1 through 4 are inserted for mailing. Contractor to follow construction sample for proper insertion of components 1 through 4 into component 5.

Mailers 3, 4, 7, 8, 11, 12 (Title II Spanish) – Each constructed mailer consists of four components: (1) personalized scannable form, (2) instruction sheet, (3) BRM envelope, and (4) mail-out envelope into which components 1 through 3 are inserted for mailing. Contractor to follow construction sample for proper insertion of components 1 through 3 into component 4.

Mailers 13 through 18 (Title XVI) – Each constructed mailer consists of five components: (1) personalized scannable form, (2) instruction sheet, (3) flyer, (4) BRM envelope, and (5) mail-out envelope into which components 1 through 4 are inserted for mailing. Contractor to follow construction sample for proper insertion of components 1 through 4 into component 5.

Mailers 19 through 24 (Title II-Final Accounting) – Each constructed mailer consists of six components: (1) personalized scannable form, (2) personalized notice with micro-perforated payment stub, (3) instruction sheet, (4) white BRM envelope, (5) green BRM envelope, and (6) mail-out envelope into which components 1 through 5 are inserted for mailing. Contractor to follow construction sample for proper insertion of components 1 through 5 into component 6.

Mailers 25 through 28 (Beneficiary Recontact) – Each constructed mailer consists of four components: (1) personalized scannable form, (2) instruction sheet, (3) CRM envelope, and (4) mail-out envelope into which components 1 through 3 are inserted for mailing. Contractor to follow construction sample for proper insertion of components 1 through 3 into component 4.

Mailers 29 through 36 (Title II and Title XVI) – Each constructed mailer consists of four components: (1) personalized scannable form, (2) instruction sheet, (3) CRM envelope, and (4) mail-out envelope into which components 1 through 3 are inserted into for mailing. Contractor to follow construction sample for proper insertion of components 1 through 3 into component 4.

Seal all mail-out envelopes.

For all mailers, it is the contractor's responsibility to ensure that only the computer-generated address and Intelligent Mail barcode on the form will be visible through the window in the mail-out envelope and that only one form is inserted into each envelope.

It is the contractor's responsibility to ensure that the correct package material is inserted into the mail-out envelope.

PACKING (WBDOC Bulk Envelope Shipment): Pack suitable in shipping containers not to exceed 40 pounds when fully packed.

All shipments which fill less than a shipping container must be packaged with materials of sufficient strength and durability and in such a manner that will guarantee that the envelopes will not be damaged, and the package will not open or split when shipping.

LABELING AND MARKING (WBDOC Bulk Envelope Shipment): Contractor to download the "Labeling and Marking Specifications" form (GPO Form 905, R. 7-15) from gpo.gov, fill in appropriate blanks, and attach to shipping containers.

PRODUCTION INSPECTION: Production inspection(s) may be required at the contractor's/subcontractor's plant for the purpose of establishing that the receipt of transmitted files; the printing of notices/forms, instruction sheets, flyers, and envelopes; the imaging, collating, folding, inserting, and mailing are being accomplished in accordance with contract quality attributes and requirements.

A production inspection is for the purpose of setting specific standards that are to be maintained throughout the entire run. It does not constitute a prior approval of the entire run. A production inspection(s) may be required at the contractor's/subcontractor's plant before production begins on any new workload.

When a production inspection is required, the Government will notify the contractor.

DISTRIBUTION:

- Deliver f.o.b. destination (on the first order and whenever SSA makes a significant change to the language, format, or appearance of a form/notice) 15 complete sample mailers of each form/notice type (along with any required insert(s)) inserted into mail-out envelopes. (DO NOT SEAL ENVELOPES.) Samples must be delivered to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.

- Deliver f.o.b. destination (on the first order and whenever SSA makes a copy change to any envelope) as follows:
 - 10 printed samples of each envelope to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.
 - 10 printed samples of the seven (7) Disability Update envelopes to: Social Security Administration, Attn: CDR Analyst, Wilkes-Barre Direct Operations Center, Room 341, 1150 East Mountain Boulevard, Wilkes-Barre PA, 18702-7997.
- Deliver f.o.b. destination all required quality control samples to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.
- Mail f.o.b. contractor's city each individual mailer. (The contractor is responsible for all costs incurred in transporting the mailers to the U.S. Postal Service facility.)
- Deliver f.o.b. destination the WBD OC Bulk Envelopes to: Social Security Administration, Wilkes-Barre Direct Operations Center, Attn: CDR Workload, Room 264, 1150 East Mountain Boulevard, Wilkes-Barre, PA 18702-7997 via Small Package Common Carrier (SPCC) (499 pounds or less) or Reimbursable Freight (500 pounds or more). NOTE: Wilkes-Barre, PA delivery hours are 7:00 a.m. to 3:00 p.m. (based on local prevailing times, on normal Government workdays).

Small Package Common Carrier – Third-Party Billing:

Packages weighing up to and including 499 pounds are to be made by SPCC except those destined for Post Office Boxes, APO/FPO, and United States Possessions and Territories.

The Social Security Administration will provide the name and account number for the SPCC. When used, the contractor will be responsible for providing the carrier with the following:

1. All packages addressed and sorted to meet the requirements of the small package common carrier. NOTE: Contractor may be required to apply special SPCC barcode labels.
2. Separate common carrier pickup records for each print order. The contractor must annotate the pickup records with the requisition number and the print order number.
3. A shipping manifest which includes:
 - (a) The name of the contractor, the requisition number, the print order number, the common carrier account/shipper number.
 - (b) A listing which includes each addressee's account number or office code (when provided on SSA supplied address labels), address, city, state, zip code, common carrier delivery zone, weight, and package identification number (if applicable) of each package shipped to each addressee.
 - (c) The listing must be grouped by pickup, and each group must be identified with the pickup record number. This number must correspond to the number on the form(s) which the contractor is required to obtain from the carrier for compliance purposes. The listing must be in either account number or ZIP code order within each group.
 - (d) The summary information for each group must include the total number of packages, the total weight, and the total shipping cost.

The contractor will be required to ship via SPCC charging the cost to SSA's Third-Party account number, which will be provided after award.

Reimbursable Freight: A single shipment to one address weighing 500 pounds or more is to be shipped by reimbursable freight. The contractor will be responsible for selection of carrier and must ship by the most reasonable method to ensure prompt delivery and safe arrival at all destinations for shipments requiring Commercial Bills of Lading.

All costs are to be billed on the contractor's invoices at the actual cost which the contractor paid for these services. Shipments must be made direct to the destination(s) stated on the print order.

Unless otherwise indicated, truck deliveries must be made at the point of destination between the hours of 8:30 a.m. and 3:00 p.m., local prevailing time, on standard Government workdays. Shipments must be delivered as specified.

Domestic First-Class Letter-Size Mail: The contractor is required to prepare domestic First-Class letter-size mail in accordance with appropriate USPS rules and regulations including the USPS Domestic Mail Manual and Postal Bulletins, in effect at the time of the mailing.

When volumes warrant, SSA requires the use of permit imprint. The contractor must use SSA's "Postage and Fees Paid First Class Mail" permit imprint mailing indicia printed on each mail piece. Each mail piece sent under this payment method must bear a permit imprint indicia showing that postage is paid. Permit imprint indicia may be printed directly on mail pieces.

The contractor is cautioned to use the permit imprint only for mailing material produced under this contract.

The contractor is required to obtain the maximum USPS postage discounts possible in accordance with the USPS First-Class Domestic Mail automated and nonautomated mail discount structure in effect at the time of mailing: (a) Automation (5-digit); (b) Automation (AADC); (c) Automation (Mixed AADC); (d) Nonautomation (Presorted); and (e) Nonautomation (Single Piece).

Mail addressed to United States possessions (e.g., American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Palau, Puerto Rico, U.S. Virgin Islands, and Wake Island) and Military Overseas Addresses (APO/FPO mail) is Domestic Mail, not International Mail, and must be included in the discount sorting above.

To maximize automation discounts, Intelligent Mail Barcode barcoding, delivery address placement, and envelopes used for the mailing are among the items that must comply with USPS requirements for automation-compatible mail in effect at the time of the mailing.

Contractor will be required to produce and use a USPS Intelligent Mail Barcode Full-Service option and achieve the maximum postage discounts available with this option. The contractor will be required to comply with USPS requirements and place the IMb on all mail pieces of these workloads. The contractor is required to be capable of achieving the postage discounts available with the Full-Service option of the IMb program. The Full-Service option requires the contractor to use Postal One.

SSA will provide the contractor with a 6-digit Mailer Identifier (MID) for the mailing. The Mailer Identifier is a field within the Intelligent Mail Barcode that is used to identify the owner of the mail.

Certified Mail: During the term of this contract, it is anticipated that SSA will require some of the mailers be sent certified or registered mail.

In the event that any of these notices are Special Notice Option (SNO), the mail pieces included in these mailings will be required to be mailed using USPS Certified Mail. The contractor will prepare these mail pieces according to USPS regulations contained in the Domestic Mail Manual (DMM) under section 503.3.0, Certified Mail. Notices associated

with the certified mail file shall be inserted into envelopes and processed as certified mail. The contractor must place the current U.S. Postal Service 20-digit certified number and barcode on the envelope. The contractor must prepare the file as a separate permit imprint mailing of identical weight pieces using the appropriate U.S. Postal Service mailing statement.

International First-Class Mail: International Mail is not required on this contract. However, if, at any point during the term of the contract, International Mail is required, or if a new workload is added that requires International Mail, the contractor must mail in accordance with these specifications.

All items mailed must conform to the appropriate USPS International Mail Manual, Postal Bulletins, and other USPS rules and regulations in effect at the time of mailing.

Permit imprint is to be used for International Mail providing the mailing consists of at least 200 pieces. Permit imprint may not be used if the mailing is less than 200 pieces.

If the mailing meets the qualifications for International Priority Airmail (IPA), it must be processed through IPA in accordance with USPS rules and regulations in effect at the time of the mailing. Contractor must prepare mail pieces in accordance with the shape-based requirements of First-Class Mail International service listed in the USPS International Mail Manual and the additional requirements for IPA as specified in the most recent IMM. The contractor is required to sort the mail to achieve the maximum postage discounts available with the IPA program. To maximize postage savings, the contractor shall sort to the IPA Rate Group 1 through 15. Due to heightened security, many foreign postal administrations require complete sender and addressee information in roman letters and arabic numerals on postal items.

The complete address of the sender, including ZIP Code and country of origin, must be shown in the upper left corner of the address side of the envelope.

International Mail return addresses must show as the last line of the address “UNITED STATES OF AMERICA” or “USA,” all in upper-case letters. All International Mail must be endorsed “PAR AVION” or “AIR MAIL,” as described in the USPS IMM. The contractor may use a rubber stamp to meet these requirements.

NOTE: International mail cannot contain a presort endorsement. Again, mail addressed to United States possessions (e.g., American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Palua, Puerto Rico, U.S. Virgin Islands, and Wake Island), and Military Overseas addresses (APO/FPO mail) is Domestic Mail, NOT International Mail.

Minimum Volume Reduction Provision (MVRP): Contractor is strongly encouraged to apply for an exception in the Publication 401 Guide to the Manifest Mailing System called the Minimum Volume Reduction Provision (MVRP) through their local USPS Bulk Mail Entry Unit (BMEU). (See Exhibit N for MVRP Request Letter for local BMEU.)

The MVRP provides an exception to the “200 pieces or 50 pounds” rule for Permit Imprint mailings (including certified and foreign mail). With the MVRP exception, the contractor will be allowed to mail pieces under the 200 pieces or less than 50 pounds on a permit imprint eliminating metering (this includes certified and foreign mail). Contractor must submit USPS postal paperwork electronically, including piece level barcode information. Contractor will be required to contact USPS prior to any MVRP expiration date (if specified by USPS). All MVRP agreements must be current.

These workloads contain various weight pieces. The contractor is strongly encouraged to use manifest mail when postal regulations allow. The contractor must have a Manifest Mailing System (MMS) for First-Class Mail, which has been approved by USPS to document postage charges for this mailing. Each mail piece must be identified with a unique identification number or with a keyline containing a unique identification number and rate information about the piece. Requirements for the MMS are contained in Publication 401 “USPS Guide to the Manifest Mailing System” in effect at the time of the mailing.

NOTE: A copy of the USPS approval for the MMS must be presented at the postaward conference.

USPS has instituted a verification procedure called a “tap” test. This test is used to screen all mailings with barcoded inserts for proper barcode spacing within the envelope window. When the insert showing through the window is moved to any of its limits inside the envelope, the entire barcode must remain within the barcode clear zone. In addition, a clear space must be maintained that is at least 0.125 inch between the barcode and the left and right edges of the window and at least 0.028-inch clearance between the Intelligent Mail Barcode and the top and bottom edges of the window.

All letters in a mailing must pass the “tap” test in order to obtain the maximum postal discounts for the agency. The contractor will be responsible for payment of any additional postage resulting from a loss of postage discounts due to failure to pass the “tap” test because of inaccuracy or failure to conform to USPS specifications.

The contractor is required to fill in all applicable items on USPS form(s) and submit in duplicate to the entry post office. The post office will return a verified copy of USPS form(s) to the contractor. The contractor must immediately forward a copy to the ordering agency identifying the program number, print order number, and jacket number, as appropriate.

National Change of Address (NCOA) and Coding Accuracy Support System (CASS): The files provided by SSA to the contractor may or may not be CASS or NCOA certified. Contractor will be required to complete all necessary processing to obtain certification and mail discounts for USPS.

The contractor shall run all addresses through NCOA and CASS software for address accuracy. The contractor cannot change the addresses, but if an address fails CASS or NCOA or requires a NCOA move update, the contractor shall sort those pieces into a separate file and mail at the non-automated presort rate or full postage rate as to avoid any USPS fines for failure to meet address accuracy rules imposed by USPS. If contractor fails to meet this requirement, the Government will not reimburse for any USPS imposed fines. All related costs to perform this operation must be included in submitted bid pricing. No additional reimbursement will be authorized.

IMPORTANT: Contractor CANNOT at any time perform move updates or address corrections on the notice address. Notices that require a move update can be separated/diverted and sent at the full USPS first class rate. If the contractor uses a mail sort house, the furnished mail package must not receive an updated mailing address label.

Certificate of Conformance (If Required): When using Permit Imprint Mail, the contractor must complete GPO Form 712 – Certificate of Conformance (Rev. 10-15), and the appropriate mailing statement(s) supplied by the USPS. A fillable GPO Form 712 Certificate of Conformance can be found at <https://www.gpo.gov/how-to-work-with-us/vendors/forms-and-standards>.

Mailing Documentation: The contractor shall provide SSA with complete copies of all documents used by USPS to verify and accept the mail (e.g., computer records of presort ZIP+4, barcode breakdown, press runs, etc.) including USPS 3607R and/or GPO’s Form 712 (Certificate of Conformance) and/or Certificate of Bulk mailing, etc. Each document must be noted with file date and mailer number.

The contractor must place the number that is on top of the GPO Form 712 (the number that starts with “A”) in the space provided on the USPS mailing statements. If no space is provided on the mailing statement, place the number in the upper right margin of the mailing statement. The contractor will use SSA’s Federal Agency Cost Code 276-00020, which must be placed on all mailing documents. All copies must be legible and include both obverse and reverse side.

Mailing Documentation and Summary Reports: A PDF copy of the summary report(s) and matching USPS Certificate of Bulk Mailing, USPS 3607R, and/or GPO 712 form(s) must be submitted to melissa.picone@ssa.gov for each file date within two (2) workdays of mailing. All copies must be legible and include both obverse and reverse side.

Furnished material and USPS validated copies of postal documentation must be delivered (via overnight carrier or as PDF copies via email, as applicable) to: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.

Upon completion of this contract, the contractor must email a PDF file (current version) of all base forms, instruction sheets, flyer, and all envelopes to Melissa Picone at melissa.picone@ssa.gov.

Invoices: Within three (3) workdays following the completion of each print order, the contractor must submit via email one (1) copy of the contractor's billing invoice showing amount of billing invoice to melissa.picone@ssa.gov. The original invoice will be sent to the U.S. Government Publishing Office. (See "PAYMENT.")

Quality Control Samples: Each box of quality control samples should contain the samples for a particular print order in a separate box. The contractor must ship the quality control samples each week within two (2) workdays of the last mailing date of the print order.

All expenses incidental to picking up and returning materials (as applicable), submitting and picking up proofs (as applicable), and furnishing sample copies must be borne by the contractor.

SCHEDULE: Adherence to this schedule must be maintained. Contractor must not start production of any job prior to receipt of the individual print order (GPO Form 2511).

In the event that it becomes necessary for the contractor to deviate from the specified mail-out date or the quantity to be mailed, SSA must be notified immediately.

Manuscript copy, camera copy, PDF file, or electronic media for forms, notices with micro-perforated payment stub, instruction sheets, flyer, and envelopes will be provided at the postaward conference, or shortly thereafter.

When required, hard copy proofs must be delivered to and picked up from: Social Security Administration, Attn: Melissa Picone, DMIM, 1300 Annex Building, 6401 Security Boulevard, Baltimore, MD 21235-6401.

If applicable, furnished manuscript/camera copy must be returned with hard copy proofs.

When required, contractor to email PDF proofs as instructed by SSA.

Proof Schedule: The following schedules begin the workday after receipt of furnished materials; the workday after receipt will be the first workday of the schedule.

NOTE: Hard copy proofs will not be returned to the contractor.

Instruction Sheets, Flyer, and Envelopes:

- Contractor to submit all required PDF proofs within seven (7) workdays of receipt of furnished materials.
- Proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/"O.K. to Print" via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)

- Revised proofs will be withheld no more than three (3) workdays from receipt at the ordering agency until receipt of corrections/changes/"O.K. to Print" via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)

Scannable Forms and Personalized Notices with Micro-Perforated Payment Stub:

Without Variable Data –

- Contractor to submit all required PDF proofs for ***initial proofs*** within 21 workdays of receipt of furnished materials and for ***other than initial proofs*** within five (5) workdays of receipt of furnished materials.
- Proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)
- If AAs are required, contractor to submit revised PDF proofs within three (3) workdays of notification until such time as no further AAs are needed.
- Revised proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)

With Variable Data (other than live production) –

- Contractor to submit all required PDF proofs with variable data within three (3) workdays of receipt of proof approval on PDF proofs without variable data.
- Proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)
- Contractor to submit all required hard copy proofs with variable data within three (3) workdays of receipt of proof approval on PDF proofs with variable data.
- Proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)
- If AAs are required, contractor to submit revised PDF and/or hard copy proofs, as ordered, within three (3) workdays of notification until such time as no further AAs are needed.
- Revised proofs will be withheld no more than five (5) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)

Live Production

- Contractor to submit all required proofs for the scannable forms and personalized notices with micro-perforated payment stub within one (1) workday of receipt of the live production files.
- Proofs will be withheld no more than two (2) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email for PDF proofs. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)
- If AAs are required, contractor to submit revised PDF and/or hard copy proofs, as ordered, within one (1) workday of notification until such time as the proofs produce no errors and no further AAs are needed.

- Revised proofs will be withheld no more than two (2) workdays from receipt at the ordering agency until receipt of corrections/changes/“O.K. to Print” via email for PDF proofs. (NOTE: The first workday after receipt of proofs at the ordering agency is day one (1) of the hold time.)

Preproduction Test Schedules:

Transmission Test:

- The contractor will be required to receive approximately 827,000 notices (Mailers 1 through 36) within one (1) workday.
- The contractor will be required to perform a Record Count Verification and CASS certification within one (1) workday after the complete transmission of the test files.
- SSA will verify that the counts match and notify the contractor within one (1) workday.

Preproduction Validation Tests:

- *Scannable Forms Validation Test –*
 - Within five (5) workdays of receipt of the Government’s approval on the 36 Scannable Form proofs, the contractor must conduct a Scannable Forms Validation Test and furnish 3,200 printed samples (50 samples each of Mailers 1 through 36 Regular and Certified) for validation.
 - The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof.
 - If contractor errors are found or author’s alterations (AA’s) are required, additional samples will be required within three (3) workdays of receipt of notification until such time as the validation produces no errors and no further AAs are needed.
 - The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within five (5) workdays of receipt thereof.
- *Micro-Perforated Payment Stub Validation Test –*
 - Within five (5) workdays of receipt of the Government’s approval on the six (6) Title II – Final Accounting Personalized Notices with Micro-Perforated Payment Stub proofs, the contractor must conduct a Micro-Perforated Payment Stub Validation Test and furnish 500 printed samples (50 samples each of Mailers 19 through 24 Regular and Certified) for validation of the alphanumeric scan line.
 - The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof.
 - If contractor errors are found or AAs are required, additional samples will be required within three (3) workdays of notification until such time as the validation produces no errors and no further AAs are needed.
 - The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within five (5) workdays of receipt thereof.

▪ *Construction Samples Validation Test –*

- Within 10 workdays of receipt of the Government’s “O.K. to Print” on all the necessary components including the Preproduction Validation Tests for the Scannable Forms and the Title II – Final Accounting Notices with Micro-Perforated Payment Stub, the contractor must conduct a Construction Samples Validation Test and furnish 800 sample notice packages (10 samples each of Mailers 1 through 28 Regular and Certified and Mailers 29 through 36 (Low and not-Low) Regular and Certified) of the final completed product.
- The Government will approve, conditionally approve, or disapprove the preproduction validation samples within five (5) workdays of the receipt thereof.
- If contractor errors are found, additional samples will be required within three (3) workdays of notification until such time as the validation produces no errors.
- The Government will approve, conditionally approve, or disapprove the additional preproduction validation samples within three (3) workdays of receipt thereof.

Systems Change/New and Existing Notice Files Validation Test:

- When required, the contractor will furnish up to 25 PDF samples with variable data for each mailer within three (3) workdays of receipt of the test files and/or approval of the PDF proofs without variable data, as applicable.
- When required, the contractor will furnish up to 25 printed (hard copy) samples (no envelopes) with variable data for each mailer within three (3) workdays of receipt of the test files and/or approval of the PDF proofs with or without variable data, as applicable.
- The Government will approve, conditionally approve, or disapprove the samples within five (5) workdays of receipt thereof.

Production Schedule:

Workday - The term “workday” is defined as Monday through Friday* each week, exclusive of the days on which Federal Government holidays are observed.

Federal Government Holidays are as follows: New Year’s Day, Martin Luther King’s Birthday, President’s Day, Memorial Day, Juneteenth Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.

*NOTE: The contractor’s FTMS software shall be operational for the receipt of data files 24 hours a day, seven (7) days a week, unless otherwise specified by the Government. (See “FILE TRANSFER MANAGEMENT SYSTEM (FTMS) REQUIREMENTS” for additional information).

Print orders will be issued as follows:

Representative Payee –

Title II – between the 17th and 27th of each month

Title XVI – on the Monday following the first Saturday of each month

Title II – Final Accounting – on the Monday following each Sunday of each week

Beneficiary Recontact – between the 20th and 31st of each month

Disability Update –

Title II – between the 18th and 31st of January, May, and September

Title XVI – between the 21st and 31st of January and July

The following schedules begin the workday after receipt of print order; the workday after receipt will be the first workday of the schedule.

Regular Schedule (Monthly) –

Representative Payee Title II (Mailables 1 through 12), Title XVI (Mailables 13 through 18) and Beneficiary Recontact (Mailables 25 through 28) – Complete production and mailing must be made within 10 workdays of receipt of print order.

Regular Schedule (Weekly) –

Representative Payee Title II – Final Accounting (Mailables 19 through 24) – Complete production and mailing must be made within five (5) workdays of receipt of print order.

Regular Schedule (Quarterly) –

Disability Update Title II (Mailables 29 through 32) and Title XVI (Mailables 33 through 36) – Complete production and mailing must be made within 10 workdays of receipt of print order.

WBD OC Bulk Envelope Shipment – Complete production and distribution must be made within 30 workdays of receipt of print order.

PRESS SHEET AND PRODUCTION INSPECTIONS: The contractor must notify the GPO of the date and time that the press sheet or production inspection can be performed. In order for proper arrangements to be made, notification must be given at least seven (7) workdays prior to the inspection(s). Notify the U.S. Government Publishing Office, Quality Control for Published Products, Washington, DC 20401 at (202) 512-0542 AND Melissa Picone via email at melissa.picone@ssa.gov. Telephone calls to GPO will only be accepted between the hours of 8:00 a.m. and 2:00 p.m., prevailing Eastern Time, Monday through Friday. NOTE: See contract clauses, paragraph 14(e) (1), Inspections and Tests in GPO Contract Terms (GPO Publication 310.2, effective December 1, 1987 (Rev. 01-18)). When supplies are not ready at the time specified by the contractor for inspection, the Contracting Officer may charge to the contractor the additional cost of the inspection.

NOTE: If the backup facility is used for the production of these notices, the Government will require a press sheet inspection. Prior to production in that facility, notification must be given at least seven (7) workdays in advance of production startup.

The ship/deliver date indicated on the print order is the date products ordered for delivery f.o.b. destination must be delivered to the destinations specified and the date products ordered for mailing/shipping f.o.b. contractor's city must be delivered to the post office or picked up by SPCC.

Unscheduled material such as shipping documents, receipts or instructions, delivery lists, and labels will be furnished with the order or shortly thereafter. In the event such information is not received in due time, the contractor will not be relieved of any responsibility in meeting the shipping schedule because of failure to request such information.

For compliance reporting purposes, the contractor must notify the U.S. Government Publishing Office of the date of shipment or delivery, as applicable. Upon completion of each order, contractor must contact the Shared Support Services Compliance Section via email at compliance@gpo.gov; or via telephone at (202) 512-0520. Personnel receiving the email or call will be unable to respond to questions of a technical nature or to transfer any inquiries.

SECTION 3. – DETERMINATION OF AWARD

The Government will determine the lowest bid by applying the prices offered in the “SCHEDULE OF PRICES” to the following units of production, which are the estimated requirements to produce one (1) year’s production under this contract. These units do not constitute, nor are they to be construed as, a guarantee of the volume of work which may be ordered under this contract for a like period of time.

The following item designations correspond to those listed in the “SCHEDULE OF PRICES.”

SECTION 4. – SCHEDULE OF PRICES

Bids offered are f.o.b. contractor's city for all mailing/shipping and f.o.b. destination to Baltimore, MD, and Wilkes-Barre, PA.

Bidder must make an entry in each of the spaces provided. Bids submitted with any obliteration, revision, or alteration of the order and manner of submitting bids may be declared nonresponsive.

An entry of NC (No Charge) shall be entered if bidder intends to furnish individual items at no charge to the Government. Bids submitted with NB (No Bid), NA (Not Applicable), or blank spaces for an item may be declared nonresponsive.

The Contracting Officer reserves the right to reject any offer that contains prices for individual items of production (whether or not such items are included in the "DETERMINATION OF AWARD") that are inconsistent or unrealistic in regard to other prices in the same offer or to GPO prices for the same operation if such action would be in the best interest of the Government.

All billing invoices submitted to the GPO shall be based on the most economical method of production. Fractional parts of 1,000 will be prorated at the per-1,000 rate.

Contractor's billing invoice must be itemized in accordance with the line items in the "SCHEDULE OF PRICES."

Cost of all required paper must be charged under Item V., "PAPER."

I. COMPOSITION: Prices offered must include the cost of all required materials and operations necessary for the complete composition of the products listed in accordance with these specifications.

Any change in the format on any page or on any envelope will be charged under line item (a) or (b), as applicable. For line item I.(a), a charge will be allowed for each 8-1/2 x 11" page.

(a) Scannable Forms, Notices with Micro-Perforated Payment Stub,
Instruction Sheets, and Flyer per 8-1/2 x 11" page\$ _____

(b) Envelopesper envelope\$ _____

II. PREPRODUCTION TESTS: Price offered must include all costs incurred in performing the preproduction tests as specified in these specifications. These costs shall cover but are not limited to: machine time, personnel, all required materials, transmissions, electronic prepress, plates, paper, printing, imaging, collating, inserting, mail preparation, and any other operations necessary to produce the required quantities of the product in the time specified and in accordance with specifications.

(a) Transmission Test..... per test.....\$ _____

(b) Preproduction Scannable Forms Validation Test per test.....\$ _____

(c) Preproduction Micro-Perforated Payment Stub Validation Test..... per test.....\$ _____

(d) Construction Samples Validation Test per test.....\$ _____

(e) Systems Change Validation Test..... per test.....\$ _____

(Initials)

III. PROOFS: For line item III.(a), a charge will be allowed for each 8-1/2 x 11" page.

- (a) PDF Soft Proof: Instruction Sheets and Flyer per proof.....\$ _____
- (b) PDF Soft Proof: Envelopes per proof.....\$ _____
- (c) PDF Soft Proof: Scannable Forms and
Personalized Notices with Micro-Perforated Payment Stub per proof.....\$ _____
- (d) Digital Color Content Proof: Scannable Forms and
Personalized Notices with Micro-Perforated Payment Stub per 8-1/2 x 11" page.....\$ _____

IV. PRINTING, IMAGING, BINDING, AND CONSTRUCTION: Prices offered must be all-inclusive for printing, imaging, binding, and construction as required, and must include the cost of all required materials (excluding paper) and operations necessary for the printing, imaging, binding, and construction of the products listed in accordance with these specifications.

- (a) *Makeready/setup charge\$ _____

*Contractor will be allowed only one (1) makeready/setup charge per order. This combined charge shall include all materials and operations necessary to makeready and/or setup the contractor's equipment for that run. Invoices submitted with more than one makeready/setup charge per order will be disallowed.

- (b) Scannable Forms and Personalized Notices
with Micro-Perforated Payment Stub (8-1/2 x 11") per 1,000 leaves\$ _____
- (c) Instruction Sheets (8-1/2 x 11") per 1,000 instruction sheets\$ _____
- (d) Instruction Sheets (17 x 11" flat)..... per 1,000 instruction sheets\$ _____
- (e) Flyers (8-1/2 x 11") per 1,000 flyers\$ _____
- (f) BRM and CRM Return Envelopes (4 x 8-7/8") per 1,000 envelopes\$ _____
- (g) Mail-out Envelope with Window (4-1/4 x 9-1/2")..... per 1,000 envelopes\$ _____

V. PAPER: Payment for all paper supplied by the contractor under the terms of these specifications, as ordered on the individual print order, will be based on the net number of leaves furnished for the product(s) ordered. The cost of any paper required for makeready or running spoilage must be included in the prices offered.

Computation of the net number of leaves will be based on the following:

Scannable Forms (8-1/2 x 11") - A charge will be allowed for each page-size leaf.
Notices with Micro-Perforated Payment Stub (8-1/2 x 11") - A charge will be allowed for each page-size leaf.
Instruction Sheets and Flyers (8-1/2 x 11") - A charge will be allowed for each page-size leaf.
Instruction Sheets (17 x 11") - A charge will be allowed for each 17 x 11" size leaf.
ALL Envelopes - One leaf will be allowed for each envelope.

(Initials)

Per 1,000 Leaves

- (a) Scannable Forms: White OCR Bond (20-lb.).....\$ _____
- (b) Notices with Micro-Perforated Payment Stub: White Uncoated Text (50-lb.)\$ _____
- (c) Instruction Sheets (8-1/2 x 11"): White Uncoated Text (50-lb.)\$ _____
- (d) Instruction Sheets (17 x 11" flat): White Uncoated Text (50-lb.)\$ _____
- (e) Flyers: White Writing (20-lb.).....\$ _____
- (f) BRM and CRM Return Envelope: White Writing Envelope (20-lb.)\$ _____
- (g) BRM Return Envelope: Colored Writing Envelope (20-lb.).....\$ _____
- (h) Mail-out Envelope with Window: White Writing Envelope (24-lb.);
or, at contractor's option, White Uncoated Text (60-lb.)\$ _____

VI. ADDITIONAL OPERATIONS:

Destruction of Stocked Items..... per 1,000 pieces\$ _____

VII. GATHERING, INSERTING, PACKING, AND MAILING: Prices offered must include the cost of all required materials and operations necessary for the mailing of the notice(s) (including cost of collating (single or multiple leaves) in proper sequence and folding to required size in accordance with these specifications; insertion of all appropriate items, as required, into mail-out envelope); packing and shipping of the WBD OC envelopes (including the cost of packing; shipping containers; all necessary wrapping and packing materials; labeling and marking); and, distribution in accordance with these specifications.

- (a) Mailers..... per 1,000 mailers\$ _____
- (b) WBD OC Bulk Envelopes:
Packing and sealing shipping containers per container\$ _____

(Initials)

SHIPMENTS: Shipments will be made from: City _____ State _____.

The city(ies) indicated above will be used for evaluation of transportation charges when shipment f.o.b. contractor's city is specified. If no shipping point is indicated above, it will be deemed that the bidder has selected the city and state shown below in the address block, and the bid will be evaluated and the contract awarded on that basis. If shipment is not made from evaluation point, the contractor will be responsible for any additional shipping costs incurred.

DISCOUNTS: Discounts are offered for payment as follows: _____ Percent _____ Calendar Days. See Article 12 "Discounts" of Solicitations Provisions in GPO Contract Terms (Publication 310.2).

AMENDMENT(S): Bidder hereby acknowledges amendment(s) number(ed) _____.

BID ACCEPTANCE PERIOD: In compliance with the above, the undersigned agree, if this bid is accepted within _____ calendar days (90 calendar days unless a different period is inserted by the bidder) from the date for receipt of bids, to furnish the specified items at the price set opposite each item, delivered at the designated point(s), in exact accordance with specifications. *NOTE: Failure to provide a 90-day bid acceptance period may result in expiration of the bid prior to award.*

BIDDER'S NAME AND SIGNATURE: Unless specific written exception is taken, the bidder, by signing and submitting a bid, agrees with and accepts responsibility for all certificate ions and representations as required by the solicitation and GPO Contract Terms – Publication 310.2. When responding by email, fill out and return one copy of all pages in "SECTION 4. – SCHEDULE OF PRICES," including initialing/signing where indicated. Valid electronic signatures will be accepted in accordance with the Uniform Electronic Transactions Act, §2. Electronic signatures must be verifiable of the person authorized by the company to sign bids. *Failure to sign the signature block below may result in the bid being declared non-responsive.*

CONTRACTOR PERSONNEL SECURITY CERTIFICATION

Purpose: This form is used for contractor personnel to certify that they understand SSA's security and confidentiality requirements.

I understand the SSA security and confidentiality requirements and agree that:

1. I will follow all SSA rules of conduct and security policy/privacy rules/regulations.
2. I agree not to construct and maintain, for a period of time longer than required by the contract, any file containing SSA data unless explicitly agreed to by SSA in writing as part of the task documentation.
3. I agree to safeguard SSA information, whether electronic or hardcopy, in secured and locked containers during transportation.
4. I will use all computer software according to Federal copyright laws and licensing agreements.
5. I agree to keep confidential any third-party proprietary information which may be entrusted to me as part of the contract.
6. I will comply with systems security requirements contained in the SSA Systems Security Handbook.
7. I will not release or disclose any information subject to the Privacy Act of 1974, the Tax Return Act of 1976, SSA Regulation 1 and section 1106 of the Social Security Act to any unauthorized person.
8. I understand that disclosure of any information to parties not authorized by SSA may lead to criminal prosecution under Federal law.

1. SYSTEM IDENTIFICATION

1.1. System Name/Title: [State the name of the system. Spell out acronyms.]

1.1.1. System Categorization: Moderate Impact for Confidentiality

1.1.2. System Unique Identifier: [Insert the System Unique Identifier]

1.2. Responsible Organization:

Name:	
Address:	
Phone:	

1.2.1. **Information Owner** - Government point of contact responsible for providing and/or receiving Controlled Unclassified Information (CUI):

Name:	
Title:	
Office Address:	
Work Phone:	
e-Mail Address:	

1.2.1.1. **System Owner** (assignment of security responsibility):

Name:	
Title:	
Office Address:	
Work Phone:	
e-Mail Address:	

1.2.1.2. **System Security Officer**:

Name:	
Title:	
Office Address:	
Work Phone:	
e-Mail Address:	

1.3. **General Description/Purpose of System:** What is the function/purpose of the system? [Provide a short, high-level description of the function/purpose of the system.]

1.3.1. Number of end users and privileged users: [In the table below, provide the approximate number of users and administrators of the system. Include all those with privileged access such as system administrators, database administrators, application administrators, etc. Add rows to define different roles as needed.]

Roles of Users and Number of Each Type:

Number of Users	Number of Administrators/ Privileged Users

- 1.4. General Description of Information: Controlled Unclassified Information (CUI)** information types processed, stored, or transmitted by the system are determined and documented. For more information, see the CUI Registry at <https://www.archives.gov/cui/registry/category-list>.
[Document the CUI information types processed, stored, or transmitted by the system below].

2. SYSTEM ENVIRONMENT

Include a detailed topology narrative and graphic that clearly depicts the system boundaries, system interconnections, and key devices. (Note: *this does not require depicting every workstation or desktop*, but include an instance for each operating system in use, an instance for portable components (if applicable), all virtual and physical servers (e.g., file, print, web, database, application), as well as any networked workstations (e.g., Unix, Windows, Mac, Linux), firewalls, routers, switches, copiers, printers, lab equipment, handhelds). If components of other systems that interconnect/interface with this system need to be shown on the diagram, denote the system boundaries by referencing the security plans or names and owners of the other system(s) in the diagram.

[Insert a system topology graphic. Provide a narrative consistent with the graphic that clearly lists and describes each system component.]

- 2.1.** Include or reference a complete and accurate listing of all hardware (a reference to the organizational component inventory database is acceptable) and software (system software and application software) components, including make/OEM, model, version, service packs, and person or role responsible for the component. [Insert the reference/URL or note that the hardware component inventory is attached.]
- 2.2.** List all software components installed on the system. [Insert the reference/URL or note that the software component inventory is attached.]
- 2.3.** Hardware and Software Maintenance and Ownership - Is all hardware and software maintained and owned by the organization? [Yes/No - If no, explain:]

3. REQUIREMENTS

(Note: The source of the requirements is NIST Special Publication 800-171, dated December 2016)

Provide a thorough description of how all of the security requirements are being implemented or planned to be implemented. The description for each security requirement contains: 1) the security requirement number and description; 2) how the security requirement is being implemented or planned to be implemented; and 3) any scoping guidance that has been applied (e.g., compensating mitigations(s) in place due to implementation constraints in lieu of the stated requirement). If the requirement is not applicable to the system, provide rationale.

3.1. Access Control

3.1.1. Account Management

- a. Define the types of system accounts allowed and prohibited.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Create, enable, modify, disable, and remove system accounts in accordance with policy, procedures, prerequisites, and criteria.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Specify:

1. Authorized users of the system,
2. Group and role membership, and
3. Access authorizations (i.e., privileges) for each account.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Authorize access to the system based on:

1. A valid access authorization and
2. Intended system usage.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- e. Monitor the use of system accounts.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- f. Disable system accounts when:

1. The accounts have expired,
2. The accounts have been inactive for [Assignment: organization-defined time period],
3. The accounts are no longer associated with a user or individual,
4. The accounts are in violation of organizational policy, or
5. Significant risks associated with individuals are discovered.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- g. Notify account managers and designated personnel or roles within:

1. [Assignment: organization-defined time period] when accounts are no longer required.

2. [Assignment: organization-defined time period] when users are terminated or transferred.
3. [Assignment: organization-defined time period] when system usage or the need-to-know changes for an individual.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- h. Require that users log out of the system after [Assignment: organization-defined time period] of expected inactivity or when [Assignment: organization-defined circumstances].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.2. Access Enforcement:

Enforce approved authorizations for logical access to CUI and system resources in accordance with applicable access control policies.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.3. Information Flow Enforcement

Enforce approved authorizations for controlling the flow of CUI within the system and between connected systems.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.4. Separation of Duties

- a. Identify the duties of individuals requiring separation.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Define system access authorizations to support separation of duties of individuals to reduce the risk of malevolent activity without collusion.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.5. Least Privilege

- a. Allow only authorized system access for users (or processes acting on behalf of users) that is necessary to accomplish assigned organizational tasks.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize access to [Assignment: organization-defined security functions] and [Assignment: organization-defined security-relevant information].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Review the privileges assigned to roles or classes of users [Assignment: organization-defined frequency] to validate the need for such privileges.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Reassign or remove privileges, as necessary.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.6. Least Privilege – Privileged Accounts

- a. Restrict privileged accounts on the system to [Assignment: organization-defined personnel or roles].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Require that users (or roles) with privileged accounts use non-privileged accounts when accessing non-security functions or non-security information.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.7. Least Privilege – Privileged Functions

- a. Prevent non-privileged users from executing privileged functions.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Log the execution of privileged functions.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.8. Unsuccessful Logon Attempts

- a. Enforce a limit of [Assignment: organization-defined number] consecutive invalid logon attempts by a user during a [Assignment: organization-defined time period].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Automatically [Selection (one or more): lock the account or node for an [Assignment: organization-defined time period]; lock the account or node until released by an administrator; delay next logon prompt; notify system administrator; take other action] when the maximum number of unsuccessful attempts is exceeded.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.9. System Use Notification

Display a system use notification message with privacy and security notices consistent with applicable CUI rules before granting access to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.10. Device Lock

- a. Prevent access to the system by [Selection (one or more): initiating a device lock after [Assignment: organization-defined time period] of inactivity; requiring the user to initiate a device lock before leaving the system unattended].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Retain the device lock until the user reestablishes access using established identification and authentication procedures.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Conceal, via the device lock, information previously visible on the display with a publicly viewable image.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.11. Session Termination

Terminate a user session automatically after [Assignment: organization-defined conditions or trigger events requiring session disconnect].

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.12. Remote Access

- a. Establish usage restrictions, configuration requirements, and connection requirements for each type of allowable remote system access.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize each type of remote system access prior to establishing such connections.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Route remote access to the system through authorized and managed access control points.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Authorize the remote execution of privileged commands and remote access to security-relevant information.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.13. Withdrawn

Incorporated into 03.01.12.

3.1.14. Withdrawn

Incorporated into 03.01.12.

3.1.15. Withdrawn

Incorporated into 03.01.12.

3.1.16. Wireless Access

- a. Establish usage restrictions, configuration requirements, and connection requirements for each type of wireless access to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize each type of wireless access to the system prior to establishing such connections.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Disable, when not intended for use, wireless networking capabilities prior to issuance and deployment.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Protect wireless access to the system using authentication and encryption.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.17. Withdrawn

Incorporated into 03.01.16.

3.1.18. Access Control for Mobile Devices

- a. Establish usage restrictions, configuration requirements, and connection requirements for mobile devices.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize the connection of mobile devices to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Implement full-device or container-based encryption to protect the confidentiality of CUI on mobile devices.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.19. Withdrawn

Incorporated into 03.01.18.

3.1.20. Use of External Systems

- a. Prohibit the use of external systems unless the systems are specifically authorized.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Establish the following security requirements to be satisfied on external systems prior to allowing use of or access to those systems by authorized individuals: [Assignment: organization-defined security requirements].

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Permit authorized individuals to use external systems to access the organizational system or to process, store, or transmit CUI only after:

1. Verifying that the security requirements on the external systems as specified in the organization’s system security plans have been satisfied and

2. Retaining approved system connection or processing agreements with the organizational entities hosting the external systems.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Restrict the use of organization-controlled portable storage devices by authorized individuals on external systems.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.1.21. Withdrawn

Incorporated into 03.01.20.

3.1.22. Publicly Accessible Content

- a. Train authorized individuals to ensure that publicly accessible information does not contain CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review the content on publicly accessible systems for CUI and remove such information, if discovered.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.2. Awareness and Training

3.2.1. Literacy Training and Awareness

- a. Provide security literacy training to system users:

1. As part of initial training for new users and [Assignment: organization- defined frequency] thereafter,
2. When required by system changes or following [Assignment: organization- defined events], and
3. On recognizing and reporting indicators of insider threat, social engineering, and social mining.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Update security literacy training content [Assignment: organization-defined frequency] and following [Assignment: organization-defined events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.2.2. Role-Based Training

- a. Provide role-based security training to organizational personnel:
1. Before authorizing access to the system or CUI, before performing assigned duties, and [Assignment: organization-defined frequency] thereafter.
 2. When required by system changes or following [Assignment: organization-defined events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Update role-based training content [Assignment: organization-defined frequency] and following [Assignment: organization-defined events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.2.3. Withdrawn

Incorporated into 03.02 01.

3.3. Audit and Accountability**3.3.1. Event Logging**

- a. Specify the following event types selected for logging within the system: [Assignment: organization-defined event types].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update the event types selected for logging [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.2. Audit Record Content

- a. Include the following content in audit records:
1. What type of event occurred
 2. When the event occurred
 3. Where the event occurred
 4. Source of the event

5. Outcome of the event
6. Identity of the individuals, subjects, objects, or entities associated with the event.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Provide additional information for audit records as needed.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.3. Audit Record Generation

- a. Generate audit records for the selected event types and audit record content specified in **03.03.01** and **03.03.02**.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Retain audit records for a time period consistent with the records retention policy. Review and update logged events.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.4. Response to Audit Logging Process Failures

- a. Alert organizational personnel or roles within [Assignment: organization-defined time period] in the event of an audit logging process failure.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Take the following additional actions: [Assignment: organization-defined additional actions].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.5. Audit Record Review, Analysis, and Reporting

- a. Review and analyze system audit records [Assignment: organization-defined frequency] for indications and the potential impact of inappropriate or unusual activity.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Report findings to organizational personnel or roles.
Analyze and correlate audit records across different repositories to gain organization-wide situational awareness.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.6. Audit Record Reduction and Report Generation

- a. Implement an audit record reduction and report generation capability that supports audit record review, analysis, reporting requirements, and after-the-fact investigations of incidents.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Preserve the original content and time ordering of audit records.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.7. Time Stamps

- a. Use internal system clocks to generate time stamps for audit records.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Record time stamps for audit records that meet [Assignment: organization-defined granularity of time measurement] and that use Coordinated Universal Time (UTC), have a fixed local time offset from UTC, or include the local time offset as part of the time stamp.

☐ Implemented

☐ Planned to be Implemented

☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.8. Protection of Audit Information

- a. Protect audit information and audit logging tools from unauthorized access, modification, and deletion.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize access to management of audit logging functionality to only a subset of privileged users or roles.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.3.9. Withdrawn

Incorporated into 03.03.08.

3.4. Configuration Management**3.4.1. Baseline Configuration**

- a. Develop and maintain under configuration control, a current baseline configuration of the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update the baseline configuration of the system [Assignment: organization-defined frequency] and when system components are installed or modified.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.2. Configuration Settings

- a. Establish, document, and implement the following configuration settings for the system that reflect the most restrictive mode consistent with operational requirements: [Assignment: organization-defined configuration settings].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Identify, document, and approve any deviations from established configuration settings.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.3. Configuration Change Control

- a. Define the types of changes to the system that are configuration controlled.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review proposed configuration-controlled changes to the system and approve or disapprove such changes with explicit consideration for security impacts.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Implement and document approved configuration-controlled changes to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Monitor and review activities associated with configuration-controlled changes to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.4. Impact Analyses

- a. Analyze changes to the system to determine potential security impacts prior to change implementation.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Verify that the security requirements for the system continue to be satisfied after the system changes have been implemented.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.5. Access Restrictions for Change

Define, document, approve, and enforce physical and logical access restrictions associated with changes to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.6. Least Functionality

- a. Configure the system to provide only mission-essential capabilities.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Prohibit or restrict use of the following functions, ports, protocols, connections, and services:
[Assignment: organization-defined functions, ports, protocols, connections, and services].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Review the system [Assignment: organization-defined frequency] to identify unnecessary or nonsecure functions, ports, protocols, connections, and services.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Disable or remove functions, ports, protocols, connections, and services that are unnecessary or nonsecure.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.7. Withdrawn

Incorporated into 03.04.06 and 03.04.08.

3.4.8. Authorized Software – Allow by Exception

- a. Identify software programs authorized to execute on the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Implement a deny-all, allow-by-exception policy for the execution of authorized software programs on the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Review and update the list of authorized software programs [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.9. Withdrawn

Addressed by 03.01.05, 03.01.06, 03.01.07, 03.04.08, and 03.12.03.

3.4.10. System Component Inventory

- a. Develop and document an inventory of system components.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update the system component inventory [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Update the system component inventory as part of installations, removals, and system updates.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.11. Information Location

- a. Identify and document the location of CUI and the system components on which the information is processed and stored.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Document changes to the system or system component location where CUI is processed and stored.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.4.12. System and Component Configuration for High-Risk Areas

- a. Issue systems or system components with the following configurations to individuals traveling to high-risk locations: [Assignment: organization-defined system configurations].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Apply the following security requirements to the systems or components when the individuals return from travel: [Assignment: organization-defined security requirements].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5. Identification and Authentication

3.5.1. User Identification, Authentication, and Re-Authentication.

- a. Uniquely identify and authenticate system users and associate that unique identification with processes acting on behalf of those users.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Re-authenticate users when [Assignment: organization-defined circumstances or situations requiring re-authentication].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.2. Device Identification and Authentication

Uniquely identify and authenticate [Assignment: organization-defined devices or types of devices] before establishing a system connection.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.3. Multi-Factor Authentication

Implement multi-factor authentication for access to privileged and non-privileged accounts.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.4. Replay-Resistant Authentication

Implement replay-resistant authentication mechanisms for access to privileged and non-privileged accounts.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.5. Identifier Management

- a. Receive authorization from organizational personnel or roles to assign an individual, group, role, service, or device identifier.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Select and assign an identifier that identifies an individual, group, role, service, or device.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Prevent the reuse of identifiers for [Assignment: organization-defined time period].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Manage individual identifiers by uniquely identifying each individual as [Assignment: organization-defined characteristic identifying individual status].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.6. Withdrawn

Consistency with SP 800-53.

3.5.7. Password Management

- a. Maintain a list of commonly used, expected, or compromised passwords, and update the list [Assignment: organization-defined frequency] and when organizational passwords are suspected to have been compromised.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Verify that passwords are not found on the list of commonly used, expected, or compromised passwords when users create or update passwords.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Transmit passwords only over cryptographically protected channels.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Store passwords in a cryptographically protected form.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- e. Select a new password upon first use after account recovery.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- f. Enforce the following composition and complexity rules for passwords: [Assignment: organization-defined composition and complexity rules].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.8. Withdrawn

Consistency with SP 800-53.

3.5.9. Withdrawn

Consistency with SP 800-53.

3.5.10. Withdrawn

Incorporated into 03.05.07.

3.5.11. Authentication Feedback

Obscure feedback of authentication information during the authentication process.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.5.12. Authenticator Management

- a. Verify the identity of the individual, group, role, service, or device receiving the authenticator as part of the initial authenticator distribution.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Establish initial authenticator content for any authenticators issued by the organization.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Establish and implement administrative procedures for initial authenticator distribution; for lost, compromised, or damaged authenticators; and for revoking authenticators.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Change default authenticators at first use.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- e. Change or refresh authenticators [Assignment: organization-defined frequency] or when the following events occur: [Assignment: organization-defined events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- f. Protect authenticator content from unauthorized disclosure and modification.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.6. Incident Response

3.6.1. Incident Handling

Implement an incident-handling capability that is consistent with the incident response plan and includes preparation, detection and analysis, containment, eradication, and recovery.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.6.2. Incident Monitoring, Reporting, and Response Assistance

- a. Track and document system security incidents.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Report suspected incidents to the organizational incident response capability within [Assignment: organization-defined time period].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Report incident information to [Assignment: organization-defined authorities].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Provide an incident response support resource that offers advice and assistance to system users on handling and reporting incidents.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.6.3. Incident Response Testing

Test the effectiveness of the incident response capability [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.6.4. Incident Response Training

- a. Provide incident response training to system users consistent with assigned roles and responsibilities:
1. Within [Assignment: organization-defined time period] of assuming an incident response role or responsibility or acquiring system access,
 2. When required by system changes, and
 3. [Assignment: organization-defined frequency] thereafter.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update incident response training content [Assignment: organization-defined frequency] and following [Assignment: organization-defined events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.6.5. Incident Response Plan

- a. Develop an incident response plan that:
1. Provides the organization with a roadmap for implementing its incident response capability,
 2. Describes the structure and organization of the incident response capability,
 3. Provides a high-level approach for how the incident response capability fits into the overall organization,
 4. Defines reportable incidents,
 5. Addresses the sharing of incident information, and
 6. Designates responsibilities to organizational entities, personnel, or roles.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Distribute copies of the incident response plan to designated incident response personnel (identified by name and/or by role) and organizational elements.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Update the incident response plan to address system and organizational changes or problems encountered during plan implementation, execution, or testing.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Protect the incident response plan from unauthorized disclosure.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.7. Maintenance

3.7.1. Withdrawn

Recategorized as NCO.

3.7.2. Withdrawn

Incorporated into 03.07.04 and 03.07.06.

3.7.3. Withdrawn

Incorporated into 03.08.03.

3.7.4. Maintenance Tools

- a. Approve, control, and monitor the use of system maintenance tools.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Check media with diagnostic and test programs for malicious code before it is used in the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Prevent the removal of system maintenance equipment containing CUI by verifying that there is no CUI on the equipment, sanitizing or destroying the equipment, or retaining the equipment within the facility.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.7.5. Nonlocal Maintenance

- a. Approve and monitor nonlocal maintenance and diagnostic activities.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Implement multi-factor authentication and replay resistance in the establishment of nonlocal maintenance and diagnostic sessions.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Terminate session and network connections when nonlocal maintenance is completed.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.7.6. Maintenance Personnel

- a. Establish a process for maintenance personnel authorization.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Maintain a list of authorized maintenance organizations or personnel.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Verify that non-escorted personnel who perform maintenance on the system possess the required access authorizations.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Designate organizational personnel with required access authorizations and technical competence to supervise the maintenance activities of personnel who do not possess the required access authorizations.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8. Media Protection**3.8.1. Media Storage**

Physically control and securely store system media that contain CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.2. Media Access

Restrict access to CUI on system media to authorized personnel or roles.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.3. Media Sanitization

Sanitize system media that contain CUI prior to disposal, release out of organizational control, or release for reuse.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.4. Media Marking

Mark system media that contain CUI to indicate distribution limitations, handling caveats, and applicable CUI markings.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.5. Media Transport

- a. Protect and control system media that contain CUI during transport outside of controlled areas.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Maintain accountability of system media that contain CUI during transport outside of controlled areas.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Document activities associated with the transport of system media that contain CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.6. Withdrawn

Addressed by 03.13.08.

3.8.7. Media Use

- a. Restrict or prohibit the use of [Assignment: organization-defined types of system media].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Prohibit the use of removable system media without an identifiable owner.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.8.8. Withdrawn

Incorporated into 03.08.07.

3.8.9. System Backup – Cryptographic Protection

- a. Protect the confidentiality of backup information.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Implement cryptographic mechanisms to prevent the unauthorized disclosure of CUI at backup storage locations.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.9. Personnel Security

3.9.1. Personnel Screening

- a. This Screen individuals prior to authorizing access to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Rescreen individuals in accordance with [Assignment: organization-defined conditions requiring rescreening].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.9.2. Personnel Termination and Transfer

- a. When individual employment is terminated:
1. Disable system access within [Assignment: organization-defined time period],
 2. Terminate or revoke authenticators and credentials associated with the individual, and
 3. Retrieve security-related system property.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. When individuals are reassigned or transferred to other positions in the organization:
1. Review and confirm the ongoing operational need for current logical and physical access authorizations to the system and facility, and
 2. Modify access authorization to correspond with any changes in operational need.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.10. Physical Protection**3.10.1. Physical Access Authorizations**

- a. Develop, approve, and maintain a list of individuals with authorized access to the facility where the system resides.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Issue authorization credentials for facility access.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Review the facility access list [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Remove individuals from the facility access list when access is no longer required..

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.10.2. Monitoring Physical Access

- a. Monitor physical access to the facility where the system resides to detect and respond to physical security incidents.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review physical access logs [Assignment: organization-defined frequency] and upon occurrence of [Assignment: organization-defined events or potential indications of events].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.10.5. Withdrawn

Incorporated into 03.10.07.

3.10.6. Alternate Work Site

- a. Determine alternate work sites allowed for use by employees.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Employ the following security requirements at alternate work sites: [Assignment: organization-defined security requirements].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.10.7. Physical Access Control

- a. Enforce physical access authorizations at entry and exit points to the facility where the system resides by:

1. Verifying individual physical access authorizations before granting access to the facility and
2. Controlling ingress and egress with physical access control systems, devices, or guards.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Maintain physical access audit logs for entry or exit points.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Escort visitors, and control visitor activity.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Secure keys, combinations, and other physical access devices.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- e. Control physical access to output devices to prevent unauthorized individuals from obtaining access to CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.10.8. Access Control for Transmission

Control physical access to system distribution and transmission lines within organizational facilities.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.11. Risk Assessment

3.11.1. Risk Assessment

- a. Assess the risk (including supply chain risk) of unauthorized disclosure resulting from the processing, storage, or transmission of CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Update risk assessments [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.11.2. Vulnerability Monitoring and Scanning

- a. Monitor and scan the system for vulnerabilities [Assignment: organization-defined frequency] and when new vulnerabilities affecting the system are identified.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Remediate system vulnerabilities within [Assignment: organization-defined response times].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Update system vulnerabilities to be scanned [Assignment: organization-defined frequency] and when new vulnerabilities are identified and reported.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.11.3. Withdrawn

Incorporated into 03.11.02.

3.11.4. Risk Response

Respond to findings from security assessments, monitoring, and audits.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.12. Security Assessment

3.12.1. Security Assessment

Assess the security requirements for the system and its environment of operation [Assignment: organization-defined frequency] to determine if the requirements have been satisfied.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.12.2. Plan of Action and Milestones

- a. Develop a plan of action and milestones for the system:
1. To document the planned remediation actions to correct weaknesses or deficiencies noted during security assessments and
 2. To reduce or eliminate known system vulnerabilities.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Update the existing plan of action and milestones based on the findings from:

1. Security assessments,
2. Audits or reviews, and
3. Continuous monitoring activities.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- 3.12.3. Monitor security controls on an ongoing basis to ensure the continued effectiveness of the controls.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.12.4. Withdrawn

Incorporated into 03.15.02.

3.12.5. Information Exchange

- a. Approve and manage the exchange of CUI between the system and other systems using [Selection (one or more): interconnection security agreements; information exchange security agreements; memoranda of understanding or agreement; service-level agreements; user agreements; non-disclosure agreements; other types of agreements].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Document interface characteristics, security requirements, and responsibilities for each system as part of the exchange agreements.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Review and update the exchange agreements [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13. System and Communications Protection

3.13.1. Boundary Protection

- a. Monitor and control communications at external managed interfaces to the system and key internal managed interfaces within the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Connect to external systems only through managed interfaces that consist of boundary protection devices arranged in accordance with an organizational security architecture.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.2. Withdrawn

Recategorized as NCO.

3.13.3. Withdrawn

Addressed by 03.01.01, 03.01.02, 03.01.03, 03.01.04, 03.01.05, 03.01.06, and 03.01.07.

3.13.4. Information in Shared System Resources

Prevent unauthorized and unintended information transfer via shared system resources.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.5. Withdrawn

Incorporated into 03.13.01.

3.13.6. Network Communications – Deny by Default – Allow by Exception

Deny network communications traffic by default and allow network communications traffic by exception.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.7. Withdrawn

Addressed by 03.01.12, 03.04.02 and 03.04.06.

3.13.8. Transmission and Storage Confidentiality

Implement cryptographic mechanisms to prevent the unauthorized disclosure of CUI during transmission and while in storage.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.9. Network Disconnect

Terminate the network connection associated with a communications session at the end of the session or after [Assignment: organization-defined time period] of inactivity.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.10. Cryptographic Key Establishment and Management

Establish and manage cryptographic keys in the system in accordance with the following key management requirements: [Assignment: organization-defined requirements for key generation, distribution, storage, access, and destruction].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.11. Cryptographic Protection

Implement the following types of cryptography to protect the confidentiality of CUI: [Assignment: organization-defined types of cryptography].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.12. Collaborative Computing Devices and Applications

- a. Prohibit the remote activation of collaborative computing devices and applications with the following exceptions: [Assignment: organization-defined exceptions where remote activation is to be allowed].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Provide an explicit indication of use to users physically present at the devices.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.13. Mobile Code

- a. Define acceptable mobile code and mobile code technologies.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Authorize, monitor, and control the use of mobile code.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.14. Withdrawn

Technology-specific.

3.13.15. Session Authenticity

Protect the authenticity of communications sessions.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.13.16. Withdrawn

Incorporated into 03.13.08.

3.14. System and Information Integrity

3.14.1. Flaw Remediation

- a. Identify, report, and correct system flaws.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Install security-relevant software and firmware updates within [Assignment: organization-defined time period] of the release of the updates.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.14.2. Malicious Code Protection

- a. Implement malicious code protection mechanisms at system entry and exit points to detect and eradicate malicious code.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Update malicious code protection mechanisms as new releases are available in accordance with configuration management policies and procedures.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Configure malicious code protection mechanisms to:

1. Perform scans of the system [Assignment: organization-defined frequency] and real-time scans of files from external sources at endpoints or system entry and exit points as the files are downloaded, opened, or executed; an
2. Block malicious code, quarantine malicious code, or take other mitigation actions in response to malicious code detection.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.14.3. Security Alerts, Advisories, and Directives

- a. Receive system security alerts, advisories, and directives from external organizations on an ongoing basis.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Generate and disseminate internal system security alerts, advisories, and directives, as necessary.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.14.4. Withdrawn

Incorporated into 03.14.02.

3.14.5. Withdrawn

Addressed by 03.14.02.

3.14.6. System Monitoring

- a. Monitor the system to detect:

1. Attacks and indicators of potential attacks and
2. Unauthorized connections.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Identify unauthorized use of the system.

Monitor inbound and outbound communications traffic to detect unusual or unauthorized activities or conditions.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.14.7. Withdrawn

Incorporated into 03.14.06.

3.14.8. Information Management and Retention

Manage and retain CUI within the system and CUI output from the system in accordance with applicable laws, Executive Orders, directives, regulations, policies, standards, guidelines, and operational requirements.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.15. Planning

3.15.1. Policy and Procedures

- a. Develop, document, and disseminate to organizational personnel or roles the policies and procedures needed to satisfy the security requirements for the protection of CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update policies and procedures [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.15.2. System Security Plan

- a. Develop a system security plan that:

1. Defines the constituent system components;
2. Identifies the information types processed, stored, and transmitted by the system;
3. Describes specific threats to the system that are of concern to the organization;
4. Describes the operational environment for the system and any dependencies on or connections to other systems or system components;
5. Provides an overview of the security requirements for the system;
6. Describes the safeguards in place or planned for meeting the security requirements;
7. Identifies individuals that fulfill system roles and responsibilities; and
8. Includes other relevant information necessary for the protection of CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update the system security plan [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Protect the system security plan from unauthorized disclosure.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.15.3. Rules of Behavior

- a. Establish rules that describe the responsibilities and expected behavior for system usage and protecting CUI.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Provide rules to individuals who require access to the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Receive a documented acknowledgement from individuals indicating that they have read, understand, and agree to abide by the rules of behavior before authorizing access to CUI and the system.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- d. Review and update the rules of behavior [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.16. System and Services Acquisition

3.16.1. Security Engineering Principles

Apply the following systems security engineering principles to the development or modification of the system and system components: [Assignment: organization-defined systems security engineering principles].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.16.2. Unsupported System Components

- a. Replace system components when support for the components is no longer available from the developer, vendor, or manufacturer.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Provide options for risk mitigation or alternative sources for continued support for unsupported components that cannot be replaced.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.16.3. External System Services

- a. Require the providers of external system services used for the processing, storage, or transmission of CUI to comply with the following security requirements: [Assignment: organization-defined security requirements].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Define and document user roles and responsibilities with regard to external system services, including shared responsibilities with external service providers.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Implement processes, methods, and techniques to monitor security requirement compliance by external service providers on an ongoing basis.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.17. Supply Chain Risk Management

3.17.1. Supply Chain Risk Management Plan

- a. Develop a plan for managing supply chain risks associated with the research and development, design, manufacturing, acquisition, delivery, integration, operations, maintenance, and disposal of the system, system components, or system services.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Review and update the supply chain risk management plan [Assignment: organization-defined frequency].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- c. Protect the supply chain risk management plan from unauthorized disclosure.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.17.2. Acquisition Strategies, Tools, and Methods

Develop and implement acquisition strategies, contract tools, and procurement methods to identify, protect against, and mitigate supply chain risks.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

3.17.3. Supply Chain Requirements and Processes

- a. Establish a process for identifying and addressing weaknesses or deficiencies in the supply chain elements and processes.

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

- b. Enforce the following security requirements to protect against supply chain risks to the system, system components, or system services and to limit the harm or consequences from supply chain-related events: [Assignment: organization-defined security requirements].

☐ Implemented ☐ Planned to be Implemented ☐ Not Applicable

Current implementation or planned implementation details. If “Not Applicable,” provide rationale.

1 PURPOSE

This System Security Plan provides an overview of the security requirements for the SSA ESP 53 Template v1 and describes the controls in place or planned for implementation to provide a level of security appropriate for the information to be transmitted, processed, or stored by the system. Information security is vital to our critical infrastructure and its effective performance and protection is a key component of our national security program. Proper management of information technology systems is essential to ensure the confidentiality, integrity, and availability of the data transmitted, processed or stored by SSA ESP 53 Template v1.

The security safeguards implemented for SSA ESP 53 Template v1 meet the policy and control requirements set forth in this System Security Plan. All systems are subject to monitoring consistent with applicable laws, regulations, agency policies, procedures, and practices.

2 SYSTEM IDENTIFICATION

- System Name/Version Number: SSA ESP 53 Template v1/The project version was not specified for the system.
- Acronym: SSA ESP 53 Template v1
- EA Number: A project tracking number was not assigned to the system.
- System Type: Not Specified
- Agency Operated or Contractor Operated:
- PII Data (Yes/No): No
- E-Authentication Application (Yes/No): No
- Federal Tax Information (FTI) (Yes/No): No

3 INFORMATION SYSTEM CATEGORIZATION

3.1 Information Types

This section describes how the information types used by the information system are categorized for confidentiality, integrity, and availability sensitivity levels.

The following tables identify the information types that are input, stored, processed, and/or output from SSA ESP 53 Template v1. The selection of the information types is based on guidance provided by Office of Management and Budget (OMB) Federal Enterprise Architecture Program Management Office Business Reference Model 2.0 and Federal Information Processing Standards (FIPS) Pub 199, Standards for Security Categorization of Federal Information and Information Systems which is based on National Institute of Standards and Technology (NIST) Special Publication (SP) 800-60, Guide for Mapping Types of Information and Information Systems to Security Categories.

Information Type	Confidentiality	Integrity	Availability
Information Sharing (M-M-M)	Moderate	Moderate	Moderate

3.2 Security Objectives Categorization (FIPS 199)

Based on the information provided in section 3.1 Information Types, SSA ESP 53 Template v1 defaults to the below high-water mark.

Confidentiality: **Low**

Integrity: **Low**

Availability: **Low**

4 PROJECT PERSONNEL

The following individuals are identified as the system owner or functional proponent/advocate for this system.

Name	Role	Email	Phone Number
Not Specified	Not Specified	Not Entered	Not Entered

5 LEVERAGED AUTHORIZATIONS

5.1 Authorization to Operate (ATO)

The SSA ESP 53 Template v1 Not Specified leverage the authority of a pre-existing Federal Entity. ATOs leveraged by SSA ESP 53 Template v1 are listed in the table that follows.

Information System Name	Federal Entity	Authorization Status	Expiration Date

5.2 FedRAMP

The SSA ESP 53 Template v1 Not Specified leverage a pre-existing FedRAMP Authorization. FedRAMP Authorizations leveraged by SSA ESP 53 Template v1 are listed in the table that follows.

Information System Name	Service Provider Owner	Expiration Date

6 SYSTEM INFORMATION

6.1 System Description

General Description of the System Not Specified

6.1.1 Architecture Description & Diagram

6.1.2 Network Description & Diagram

6.1.3 Dataflow Description & Diagram

6.2 System User Groups

All personnel have their status categorized with a sensitivity level in accordance with PS-2.

Category	Organization	Subsystem Name	Interface	Authentication	User Groups	Authorized Privileges	Functions Performed	Internal/External
User	Not Entered	N/A	Not Specified	Not Specified	Users	Not Specified	User Functions	Not Specified
Administrator	Not Entered	N/A	Not Specified	Not Specified	Administrators	Not Specified	Administrative Functions	Not Specified

There are currently internal personnel and external personnel. Within one year, it is anticipated that there will be internal personnel and external personnel.

7 SYSTEM ENVIRONMENT AND INVENTORY

When completed, SSA will accept this inventory workbook as the inventory information required by the following:

- System Security Plan
- Security Assessment Plan
- Security Assessment Report
- Information System Contingency Plan
- Initial Plan of Actions & Milestones (POA&M)
- Quarterly Continuous Monitoring (POA&M or as a separate document)

Note: A complete and detailed list of the system hardware and software inventory is required per NIST SP 800-53, Rev 5 CM-8.

7.1 System Environment

1 PURPOSE

This System Security Plan provides an overview of the security requirements for the SSA ESP 171 Template v1 and describes the controls in place or planned for implementation to provide a level of security appropriate for the information to be transmitted, processed, or stored by the system. Information security is vital to our critical infrastructure and its effective performance and protection is a key component of our national security program. Proper management of information technology systems is essential to ensure the confidentiality, integrity, and availability of the data transmitted, processed or stored by SSA ESP 171 Template v1.

The security safeguards implemented for SSA ESP 171 Template v1 meet the policy and control requirements set forth in this System Security Plan. All systems are subject to monitoring consistent with applicable laws, regulations, agency policies, procedures, and practices.

2 SYSTEM IDENTIFICATION

- System Name/Version Number: SSA ESP 171 Template v1/The project version was not specified for the system.
- Acronym: SSA ESP 171 Template v1
- EA Number: A project tracking number was not assigned to the system.
- System Type: Not Specified
- Agency Operated or Contractor Operated:
- PII Data (Yes/No): No
- E-Authentication Application (Yes/No): No
- Federal Tax Information (FTI) (Yes/No): No

3 INFORMATION SYSTEM CATEGORIZATION

3.1 Information Types

This section describes how the information types used by the information system are categorized for confidentiality, integrity, and availability sensitivity levels.

The following tables identify the information types that are input, stored, processed, and/or output from SSA ESP 171 Template v1. The selection of the information types is based on guidance provided by Office of Management and Budget (OMB) Federal Enterprise Architecture Program Management Office Business Reference Model 2.0 and Federal Information Processing Standards (FIPS) Pub 199, Standards for Security Categorization of Federal Information and Information Systems which is based on National Institute of Standards and Technology (NIST) Special Publication (SP) 800-60, Guide for Mapping Types of Information and Information Systems to Security Categories.

Information Type	Confidentiality	Integrity	Availability
Statistical Information	Moderate	Moderate	Moderate

3.2 Security Objectives Categorization (FIPS 199)

Based on the information provided in section 3.1 Information Types, SSA ESP 171 Template v1 defaults to the below high-water mark.

Confidentiality: **Low**

Integrity: **Low**

Availability: **Low**

4 PROJECT PERSONNEL

The following individuals are identified as the system owner or functional proponent/advocate for this system.

Name	Role	Email	Phone Number
Not Specified	Not Specified	Not Entered	Not Entered

5 LEVERAGED AUTHORIZATIONS

5.1 Authorization to Operate (ATO)

The SSA ESP 171 Template v1 Not Specified leverage the authority of a pre-existing Federal Entity. ATOs leveraged by SSA ESP 171 Template v1 are listed in the table that follows.

Information System Name	Federal Entity	Authorization Status	Expiration Date

5.2 FedRAMP

The SSA ESP 171 Template v1 Not Specified leverage a pre-existing FedRAMP Authorization. FedRAMP Authorizations leveraged by SSA ESP 171 Template v1 are listed in the table that follows.

Information System Name	Service Provider Owner	Expiration Date

6 SYSTEM INFORMATION

6.1 System Description

General Description of the System Not Specified

6.1.1 Architecture Description & Diagram

6.1.2 Network Description & Diagram

6.1.3 Dataflow Description & Diagram

6.2 System User Groups

All personnel have their status categorized with a sensitivity level in accordance with PS-2.

Category	Organization	Subsystem Name	Interface	Authentication	User Groups	Authorized Privileges	Functions Performed	Internal/External
Administrator	Not Entered	N/A	Not Specified	Not Specified	Administrators	Not Specified	Administrative Functions	Not Specified
User	Not Entered	N/A	Not Specified	Not Specified	Users	Not Specified	User Functions	Not Specified

There are currently internal personnel and external personnel. Within one year, it is anticipated that there will be internal personnel and external personnel.

7 SYSTEM ENVIRONMENT AND INVENTORY

When completed, SSA will accept this inventory workbook as the inventory information required by the following:

- System Security Plan
- Security Assessment Plan
- Security Assessment Report
- Information System Contingency Plan
- Initial Plan of Actions & Milestones (POA&M)
- Quarterly Continuous Monitoring (POA&M or as a separate document)

Note: A complete and detailed list of the system hardware and software inventory is required per NIST SP 800-53, Rev 4 CM-8.

7.1 System Environment

Location	City	State
ACI-AWS	Not Entered	Not Entered
E-Vault (E-V)	Not Entered	Colorado
Kansas City Service Delivery Point (KS SDP)	Kansas City	Missouri
National Support Center (NSC)	Urbana	Maryland
Richmond Service Delivery Point (RI SDP)	Richmond	California
Secondary Support Center (SSC)	Durham	North Carolina

7.2 Equipment Inventory

7.2.1 Hardware

Hostname	Manufacturer/Model	Operating System/Version	Function
----------	--------------------	--------------------------	----------

Note: IPv4 and IPv6 are only entered if applicable.

7.2.2 Software

Name	Version	Vendor	Use/Description
------	---------	--------	-----------------

7.3 Ports, Protocols, and Services

Entity	Description/Service	Direction	Service	TCP/UDP	Port Number
Not Specified	Not Specified	Not Specified	Not Specified	Not Specified	

8 SYSTEM INTERCONNECTIONS

8.1 Internal Connections

System Acronym	System Name	Data Sharing Method	Data Type	Data Description	Security Categorization
Not Specified	Not Specified	Not Specified	Not Specified	Not Specified	Not Specified

8.2 External Connections

System Acronym	System Name	Data Sharing Method	Data Type	Data Description	Security Categorization
Not Specified	Not Specified	Not Specified	Not Specified	Not Specified	Not Specified

Attachment A. (GAM 15.02) Worksheet for Reporting Loss or Potential Loss of PII

The "Worksheet for Reporting Loss or Potential Loss of Personally Identifiable Information" is intended to assist you to quickly organize and report the needed information about the potential incident.

1. Information about the individual making the report to the NNSC:

Name:					
Position:					
Deputy Commissioner Level Organization:					
Phone Numbers:					
Work:		Cell:		Home/Other:	
Email Address:					
Check one of the following:					
Management Official		Security Officer		Non-Management	

2. Information about the data that was lost/stolen:

Describe what was lost or stolen (e.g., case file, MBR data):

Which element(s) of PII did the data contain?

Name		Bank Account Info	
SSN		Medical/Health Information	
Date of Birth		Benefit Payment Info	
Place of Birth		Mother's Maiden Name	
Address		Other (describe):	

Estimated volume of records involved:

3. How was the data physically stored, packaged and/or contained?

Paper or Electronic? (Circle one):

If Electronic, what type of device?

Laptop		USB Drive		Backup Tape		Blackberry	
Workstation		Server		CD/DVD		Mobile Phone #	
Hard Drive		Floppy Disk		Cell (not Blackberry)			
Other (describe):							

Additional Questions if Electronic:

	<u>Yes</u>	<u>No</u>	<u>Not Sure</u>
a. Was the device encrypted?			
b. Was the device password protected?			
c. If a laptop, was a VPN SmartCard lost?			
d. If laptop, powerstate when	Off	Sleep	Hibernate
		Not	

lost?						Sure	
Cardholder's Name:							
Cardholder's SSA logon PIN:							
Hardware Make/Model:							
Hardware Serial Number:							

Additional Questions if Paper:

	Yes	No	Not Sure
a. Was the information in a locked briefcase?			
b. Was the information in a locked cabinet or drawer?			
c. Was the information in a locked vehicle trunk?			
d. Was the information redacted?			
e. Other circumstances:			

4. If the employee/contractor who was in possession of the data or to whom the data was assigned is not the person making the report to the NNSC (as listed in #1), information about this employee/contractor:

Name:					
Position:					
Deputy Commissioner Level Organization:					
Phone Numbers:					
Work:		Cell:		Home/Other:	
Email Address:					

5. Circumstances of the loss:

- a. When was it lost/stolen:
- b. Brief description of how the loss/theft occurred:
- c. When was it reported to SSA management official (date and time)?

6. Have any other SSA components been contacted? If so, who? (Include deputy commissioner level, agency level, regional/associate level component names)

7. Which reports have been filed? (include FPS, local police, and SSA reports)

Report Filed	Yes	No	Report Number
Federal Protective Service			
Local Police			
OIG			
	Yes	No	
SSA-3114 (Incident Alert)			
SSA-342 (Report of Survey)			
Security Assessments and Funded Enhancements (SAFE)			

Other (describe)

- 8. Other pertinent information (include actions underway as well as any contacts with other agencies, law enforcement or the press):**

Declaration for Federal Employment*

(*This form may also be used to assess fitness for federal contract employment)

Form Approved:
OMB No. 3206-0182

Instructions

The information collected on this form is used to determine your acceptability for Federal and Federal contract employment and your enrollment status in the Government's Life Insurance program. You may be asked to complete this form at any time during the hiring process. Follow instructions that the agency provides. If you are selected, before you are appointed you will be asked to update your responses on this form and on other materials submitted during the application process and then to recertify that your answers are true.

All your answers must be truthful and complete. **A false statement on any part of this declaration or attached forms or sheets may be grounds for not hiring you, or for firing you after you begin work. Also, you may be punished by a fine or imprisonment (U.S. Code, title 18, section 1001).**

Either type your responses on this form or print clearly in dark ink. If you need additional space, attach letter-size sheets (8.5" X 11"). Include your name, Social Security Number, and item number on each sheet. We recommend that you keep a photocopy of your completed form for your records.

Privacy Act Statement

The Office of Personnel Management is authorized to request this information under sections 1302, 3301, 3304, 3328, and 8716 of title 5, U. S. Code. Section 1104 of title 5 allows the Office of Personnel Management to delegate personnel management functions to other Federal agencies. If necessary, and usually in conjunction with another form or forms, this form may be used in conducting an investigation to determine your suitability or your ability to hold a security clearance, and it may be disclosed to authorized officials making similar, subsequent determinations.

Your Social Security Number (SSN) is needed to keep our records accurate, because other people may have the same name and birth date. Public Law 104-134 (April 26, 1996) asks Federal agencies to use this number to help identify individuals in agency records. Giving us your SSN or any other information is voluntary. However, if you do not give us your SSN or any other information requested, we cannot process your application. Incomplete addresses and ZIP Codes may also slow processing.

ROUTINE USES: Any disclosure of this record or information in this record is in accordance with routine uses found in System Notice OPM/GOVT-1, General Personnel Records. This system allows disclosure of information to: training facilities; organizations deciding claims for retirement, insurance, unemployment, or health benefits; officials in litigation or administrative proceedings where the Government is a party; law enforcement agencies concerning a violation of law or regulation; Federal agencies for statistical reports and studies; officials of labor organizations recognized by law in connection with representation of employees; Federal agencies or other sources requesting information for Federal agencies in connection with hiring or retaining, security clearance, security or suitability investigations, classifying jobs, contracting, or issuing licenses, grants, or other benefits; public and private organizations, including news media, which grant or publicize employee recognitions and awards; the Merit Systems Protection Board, the Office of Special Counsel, the Equal Employment Opportunity Commission, the Federal Labor Relations Authority, the National Archives and Records Administration, and Congressional offices in connection with their official functions; prospective non-Federal employers concerning tenure of employment, civil service status, length of service, and the date and nature of action for separation as shown on the SF 50 (or authorized exception) of a specifically identified individual; requesting organizations or individuals concerning the home address and other relevant information on those who might have contracted an illness or been exposed to a health hazard; authorized Federal and non-Federal agencies for use in computer matching; spouses or dependent children asking whether the employee has changed from a self-and-family to a self-only health benefits enrollment; individuals working on a contract, service, grant, cooperative agreement, or job for the Federal government; non-agency members of an agency's performance or other panel; and agency-appointed representatives of employees concerning information issued to the employees about fitness-for-duty or agency-filed disability retirement procedures.

Public Burden Statement

Public burden reporting for this collection of information is estimated to vary from 5 to 30 minutes with an average of 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of the collection of information, including suggestions for reducing this burden, to the U.S. Office of Personnel Management, Reports and Forms Manager (3206-0182), Washington, DC 20415-7900. The OMB number, 3206-0182, is valid. OPM may not collect this information, and you are not required to respond, unless this number is displayed.

Questionnaire for Public Trust Positions

Follow instructions fully or we cannot process your form. Be sure to sign and date the certification statement on Page 7 and the release on Page 8. *If you have any questions*, call the office that gave you the form.

Purpose of this Form

The U.S. Government conducts background investigations and reinvestigations to establish that applicants or incumbents either employed by the Government or working for the Government under contract, are suitable for the job and/or eligible for a public trust or sensitive position. Information from this form is used primarily as the basis for this investigation. Complete this form only after a conditional offer of employment has been made.

Giving us the information we ask for is voluntary. However, we may not be able to complete your investigation, or complete it in a timely manner, if you don't give us each item of information we request. This may affect your placement or employment prospects.

Authority to Request this Information

The U.S. Government is authorized to ask for this information under Executive Orders 10450 and 10577, sections 3301 and 3302 of title 5, U.S. Code; and parts 5, 731, 732, and 736 of Title 5, Code of Federal Regulations.

Your Social Security number is needed to keep records accurate, because other people may have the same name and birth date. Executive Order 9397 also asks Federal agencies to use this number to help identify individuals in agency records.

The Investigative Process

Background investigations are conducted using your responses on this form and on your Declaration for Federal Employment (OF 306) to develop information to show whether you are reliable, trustworthy, of good conduct and character, and loyal to the United States. The information that you provide on this form is confirmed during the investigation. Your current employer must be contacted as part of the investigation, even if you have previously indicated on applications or other forms that you do not want this.

In addition to the questions on this form, inquiry also is made about a person's adherence to security requirements, honesty and integrity, vulnerability to exploitation or coercion, falsification, misrepresentation, and any other behavior, activities, or associations that tend to show the person is not reliable, trustworthy, or loyal.

Your Personal Interview

Some investigations will include an interview with you as a normal part of the investigative process. This provides you the opportunity to update, clarify, and explain information on your form more completely, which often helps to complete your investigation faster. It is important that the interview be conducted as soon as possible after you are contacted. Postponements will delay the processing of your investigation, and declining to be interviewed may result in your investigation being delayed or canceled.

You will be asked to bring identification with your picture on it, such as a valid State driver's license, to the interview. There are other documents you may be asked to bring to verify your identity as well.

These include documentation of any legal name change, Social Security card, and/or birth certificate.

You may also be asked to bring documents about information you provided on the form or other matters requiring specific attention. These matters include alien registration, delinquent loans or taxes, bankruptcy, judgments, liens, or other financial obligations, agreements involving child custody or support, alimony or property settlements, arrests, convictions, probation, and/or parole.

Instructions for Completing this Form

1. Follow the instructions given to you by the person who gave you the form and any other clarifying instructions furnished by that person to assist you in completion of the form. Find out how many copies of the form you are to turn in. You must sign and date, in black ink, the original and each copy you submit.
2. Type or legibly print your answers in black ink (if your form is not legible, it will not be accepted). You may also be asked to submit your form in an approved electronic format.
3. All questions on this form must be answered. If no response is necessary or applicable, indicate this on the form (for example, enter "None" or "N/A"). If you find that you cannot report an exact date, approximate or estimate the date to the best of your ability and indicate this by marking "APPROX." or "EST."
4. Any changes that you make to this form after you sign it must be initialed and dated by you. Under certain limited circumstances, agencies may modify the form consistent with your intent.
5. You must use the State codes (abbreviations) listed on the back of this page when you fill out this form. Do not abbreviate the names of cities or foreign countries.
6. The 5-digit postal ZIP codes are needed to speed the processing of your investigation. The office that provided the form will assist you in completing the ZIP codes.
7. All telephone numbers must include area codes.
8. All dates provided on this form must be in Month/Day/Year or Month/Year format. Use numbers (1-12) to indicate months. For example, June 10, 1978, should be shown as 6/10/78.
9. Whenever "City (Country)" is shown in an address block, also provide in that block the name of the country when the address is outside the United States.
10. If you need additional space to list your residences or employments/self-employments/unemployments or education, you should use a continuation sheet, SF 86A. If additional space is needed to answer other items, use a blank piece of paper. Each blank piece of paper you use must contain **your name and Social Security Number at the top of the page.**

Final Determination on Your Eligibility

Final determination on your eligibility for a public trust or sensitive position and your being granted a security clearance is the responsibility of the Office of Personnel Management or the Federal agency that requested your investigation. You may be provided the opportunity personally to explain, refute, or clarify any information before a final decision is made.

Penalties for Inaccurate or False Statements

The U.S. Criminal Code (title 18, section 1001) provides that knowingly falsifying or concealing a material fact is a felony which may result in fines of up to \$10,000, and/or 5 years imprisonment, or both. In addition, Federal agencies generally fire, do not grant a security clearance, or disqualify individuals who have materially and deliberately falsified these forms, and this remains a part of the permanent record for future placements. Because the position for which you are being considered is one of public trust or is sensitive, your trustworthiness is a very important consideration in deciding your suitability for placement or retention in the position.

Your prospects of placement are better if you answer all questions truthfully and completely. You will have adequate opportunity to explain any information you give us on the form and to make your comments part of the record.

Disclosure of Information

The information you give us is for the purpose of investigating you for a position; we will protect it from unauthorized disclosure. The collection, maintenance, and disclosure of background investigative information is governed by the Privacy Act. The agency which requested the investigation and the agency which conducted the investigation have published notices in the Federal Register describing the system of records in which your records will be maintained. You may obtain copies of the relevant notices from the person who gave you this form. The information on this form, and information we collect during an investigation may be disclosed without your consent as permitted by the Privacy Act (5 USC 552a(b)) and as follows:

PRIVACY ACT ROUTINE USES

1. To the Department of Justice when: (a) the agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) any employee of the agency in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (d) the United States Government, is a party to litigation or has interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation and the use of such records by the Department of Justice is therefore deemed by the agency to be for a purpose that is compatible with the purpose for which the agency collected the records.

2. To a court or adjudicative body in a proceeding when: (a) the agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) any employee of the agency in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (d) the United States Government is a party to litigation or has interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation and the use of such records is therefore deemed by the agency to be for a purpose that is compatible with the purpose for which the agency collected the records.

3. Except as noted in Question 21, when a record on its face, or in conjunction with other records, indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute, particular program statute, regulation, rule, or order issued pursuant thereto, the relevant records may be disclosed to the appropriate Federal, foreign, State, local, tribal, or other public authority responsible for enforcing, investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, or order.

4. To any source or potential source from which information is requested in the course of an investigation concerning the hiring or retention of an employee or other personnel action, or the issuing or retention of a security clearance, contract, grant, license, or other benefit, to the extent necessary to identify the individual, inform the source of the nature and purpose of the investigation, and to identify the type of information requested.

5. To a Federal, State, local, foreign, tribal, or other public authority the fact that this system of records contains information relevant to the retention of an employee, or the retention of a security clearance, contract, license, grant, or other benefit. The other agency or licensing organization may then make a request supported by written consent of the individual for the entire record if it so chooses. No disclosure will be made unless the information has been determined to be sufficiently reliable to support a referral to another office within the agency or to another Federal agency for criminal, civil, administrative, personnel, or regulatory action.

6. To contractors, grantees, experts, consultants, or volunteers when necessary to perform a function or service related to this record for which they have been engaged. Such recipients shall be required to comply with the Privacy Act of 1974, as amended.

7. To the news media or the general public, factual information the disclosure of which would be in the public interest and which would not constitute an unwarranted invasion of personal privacy.

8. To a Federal, State, or local agency, or other appropriate entities or individuals, or through established liaison channels to selected foreign governments, in order to enable an intelligence agency to carry out its responsibilities under the National Security Act of 1947 as amended, the CIA Act of 1949 as amended, Executive Order 12333 or any successor order, applicable national security directives, or classified implementing procedures approved by the Attorney General and promulgated pursuant to such statutes, orders or directives.

9. To a Member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the written request of the constituent about whom the record is maintained.

10. To the National Archives and Records Administration for records management inspections conducted under 44 USC 2904 and 2906.

11. To the Office of Management and Budget when necessary to the review of private relief legislation.

List the places where you have lived, beginning with the most recent (#1) and working back 7 years. All periods must be accounted for in your list. Be sure to indicate the actual physical location of your residence: do not use a post office box as an address, do not list a permanent address when you were actually living at a school address, etc. Be sure to specify your location as closely as possible: for example, do not list only your base or ship, list your barracks number or home port. You may omit temporary military duty locations under 90 days (list your permanent address instead), and you should use your APO/FPO address if you lived overseas.

For any address in the last 5 years, list a person who knew you at that address, and who preferably still lives in that area (do not list people for residences completely outside this 5-year period, and do not list your spouse, former spouses, or other relatives). Also for addresses in the last 5 years, if the address is "General Delivery," a Rural or Star Route, or may be difficult to locate, provide directions for locating the residence on an attached continuation sheet.

10 WHERE YOU WENT TO SCHOOL

List the schools you have attended, beyond Junior High School, **beginning with the most recent (#1) and working back 7 years**. List **all** College or University degrees and the dates they were received. If all of your education occurred more than 7 years ago, list your most recent education beyond high school, no matter when that education occurred.

Use one of the following codes in the "Code" block:

1 - High School

2 - College/University/Military College

3 - Vocational/Technical/Trade School

For schools you attended in the past 3 years, list a person who knew you at school (an instructor, student, etc.). Do not list people for education completely outside this 3-year period.

For correspondence schools and extension classes, provide the address where the records are maintained.

11 YOUR EMPLOYMENT ACTIVITIES

List your employment activities, beginning with the present (#1) and working back 7 years. You should list all full-time work, part-time work, military service, temporary military duty locations over 90 days, self-employment, other paid work, and all periods of unemployment. The entire 7-year period must be accounted for without breaks, but you need not list employments before your 16th birthday.

- **Code.** Use one of the codes listed below to identify the type of employment:

1 - Active military duty stations

2 - National Guard/Reserve

3 - U.S.P.H.S. Commissioned Corps

4 - Other Federal employment

5 - State Government (Non-Federal employment)

6 - Self-employment (Include business and/or name of person who can verify)

7 - Unemployment (Include name of person who can verify)

8 - Federal Contractor (List Contractor, not Federal agency)

9 - Other

- **Employer/Verifier Name.** List the business name of your employer or the name of the person who can verify your self-employment or unemployment in this block. If military service is being listed, include your duty location or home port here as well as your branch of service. You should provide separate listings to reflect changes in your military duty locations or home ports.

- **Previous Periods of Activity.** Complete these lines if you worked for an employer on more than one occasion at the same location. After entering the most recent period of employment in the initial numbered block, provide previous periods of employment at the same location on the additional lines provided. For example, if you worked at XY Plumbing in Denver, CO, during 3 separate periods of time, you would enter dates and information concerning the most recent period of employment first, and provide dates, position titles, and supervisors for the two previous periods of employment on the lines below that information.

Social Security Account Number (SSAN): Pursuant to the Privacy Act of 1974, any Federal, state, or local government agency that requests an individual to disclose his or her SSAN, is responsible for informing the person whether disclosure is mandatory or voluntary, by what statutory or other authority the SSAN is solicited, and what uses will be made of it. In this instance, the SSAN is solicited pursuant to 28 U.S.C. 534 and will be used as a unique identifier to confirm your identity because many people have the same name and date of birth. Disclosure of your SSAN is voluntary; however, failure to disclose your SSAN may affect completion or approval of your application.

PRIVACY ACT STATEMENT

Authority: The FBI's acquisition, preservation, and exchange of fingerprints and associated information is generally authorized under 28 U.S.C. 534. Depending on the nature of your application, supplemental authorities include Federal statutes, State statutes pursuant to Pub.L. 92-544, Presidential Executive Orders, and federal regulations. Providing your fingerprints and associated information is voluntary; however, failure to do so may affect completion or approval of your application.

Principal Purpose: Certain determinations, such as employment, licensing, and security clearances, may be predicated on fingerprint-based background checks. Your fingerprints and associated information/biometrics may be provided to the employing, investigating, or otherwise responsible agency, and/or the FBI for the purpose of comparing your fingerprints to other fingerprints in the FBI's Next Generation Identification (NGI) system or its successor systems (including civil, criminal, and latent fingerprints repositories) or other available records of the employing, investigating, or otherwise responsible agency. The FBI may retain your fingerprints and associated information/biometrics in NGI after the completion of this application and, while retained, your fingerprints may continue to be compared against other fingerprints submitted to or retained by NGI.

Routine Uses: During the processing of this application and for as long thereafter as your fingerprints and associated information/biometrics are retained in NGI, your information may be disclosed pursuant to your consent, and may be disclosed without your consent as permitted by the Privacy Act of 1974 and all applicable Routine Uses as may be published at any time in the Federal Register, including the Routine Uses for the NGI system and the FBI's Blanket Routine Uses. Routine uses include, but are not limited to, disclosures to: employing, governmental or authorized non-governmental agencies responsible for employment, contracting, licensing, security clearances, and other suitability determinations; local, state, tribal, or federal law enforcement agencies; criminal justice agencies; and agencies responsible for national security or public safety.

PAPERWORK REDUCTION ACT NOTICE

According to the Paperwork Reduction Act of 1995, no persons are required to provide the information requested unless a valid OMB control number is displayed. The valid OMB control number for this information collected is 1110-0046. The time required to complete this information collection is estimated to be 10 minutes, including time reviewing instructions, gathering, completing, reviewing and submitting the information collection. If you have any comments concerning the accuracy of this time estimate or suggestions for reducing this burden, please send to: Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Washington, DC 20530.

INSTRUCTIONS:

- * 1. PRINTS MUST GENERALLY BE CHECKED THROUGH THE APPROPRIATE STATE IDENTIFICATION BUREAU, AND ONLY THOSE FINGERPRINTS FOR WHICH NO DISQUALIFYING RECORD HAS BEEN FOUND LOCALLY SHOULD BE SUBMITTED FOR FBI SEARCH.
2. IDENTITY OF PRIVATE CONTRACTORS SHOULD BE SHOWN IN SPACE "EMPLOYER AND ADDRESS". THE CONTRIBUTOR IS THE NAME OF THE AGENCY SUBMITTING THE FINGERPRINT CARD TO THE FBI. UNIVERSAL CONTROL NUMBER, IF KNOWN, SHOULD ALWAYS BE FURNISHED IN THE APPROPRIATE SPACE.

Security and Privacy Awareness Training Contractor / Affiliate Personnel Security Certification

Purpose:

This training document is to be signed by contractor, subcontractor, or affiliate personnel, and those acting on behalf of the Social Security Administration (SSA) who have been granted access to SSA information and information systems to certify that they have received and understand SSA Information Security and Privacy Awareness Training detailed below.

Background:

SSA is vital to the economic security of the United States. In the performance of their duties in support of SSA's mission, all contractors, subcontractors, affiliates, and those acting on behalf of SSA who have been granted access to SSA information systems, hereafter referred to as "Authorized Users(s)," are responsible for protecting such information and information systems (e.g., hardware, software/applications, federal information/data, network, people) throughout the entire information life cycle, including collection, processing, maintenance, use, sharing, dissemination, or disposition of information. Federal information includes information created, collected, processed, maintained, disseminated, disclosed, or disposed of by or for the Federal Government, in any medium or form.

Security awareness training is required for Authorized Users, per Section 44 USC 3554 of the Federal Information Security Modernization Act of 2014 (FISMA). Failure to follow prescribed rules or misuse of federal information and information systems can lead to criminal penalties, including fines and imprisonment, and disciplinary actions according to the contract and/or agreement under which I am performing work for SSA.

I understand that SSA maintains a variety of sensitive information about the agency's operations and programs, which may be information pertaining to program (e.g., information about SSA's clients) or non-program (e.g., administrative and personnel records) matters. I understand that SSA may authorize me to have access to federal information and information systems and that my access to and use of such information and information systems must be in accordance with the provisions of the contract and/or agreement under which I am performing work for SSA.

I understand that the terms in the contract and/or agreement under which I am performing work for SSA take precedence over this document. I understand that any questions I may have concerning authorization(s) to access SSA information and information systems should be directed in accordance with the terms of the contract and/or agreement. I have read, understand, and agree to the following conditions:

Insider Threat

An insider threat is someone with authorized access who uses that access, intentionally or unintentionally, to harm the security of the Agency or the Nation. The individual with authorized access may attempt to wittingly or unwittingly harm the security of the agency through espionage, terrorism, unauthorized disclosure of sensitive information, or the loss or degradation of agency resources or capabilities.

- If I observe a potential insider threat, **I will** report the incident to SSAITP@ssa.gov and, as appropriate, in accordance with the personally identifiable information and incident reporting requirements in the contract or agreement under which I am working.
 - **I will** safeguard federal information and information systems from exploitation, compromise, espionage, terrorism, or other unauthorized use and disclosure.
-

Malware, Remote Access, and Mobile Device Security

Malware encompasses malicious software, programs, files, and/or code in the form of virus, ransomware, and spyware that cause damage to information systems and data. SSA defends against malware using antivirus programs, intrusion detection systems, and social engineering training among other methods. Routine software and security updates ensure SSA devices are up to date with the latest malware protection.

When I have been granted an SSA device to perform work for the agency, the following requirements apply:

- In order to ensure my SSA device receives the necessary software and security updates, **I will** remain connected to SSANet using the agency's Virtual Private Network throughout my workday, **I will** keep my workstation plugged in and powered on, and **I will** restart my workstation at least once a week and at the end of each workday, logging off from the CTRL+ALT+DELETE screen unless further guidance is issued.
- **I will not** store federal information on personally owned media devices or, connect non-SSA approved and issued personal Bluetooth devices to an SSA device.
- **I will not** alter SSA devices, disable security settings, or download or install unauthorized software onto SSA devices.
- **I will** follow the security and safety requirements of any alternative worksite agreement and all contract or agreements related to non-SSA worksites.
- **I will not** print any material that contains federal information at an unapproved location. **I will** protect SSA devices at all times, to include while on travel, at any alternative worksite, and any approved non-SSA worksite.

Secure Browsing and Social Media

Attackers use social data mining techniques to gather information about an individual or organization in public or social settings, including social media. SSA social media accounts are not official SSA websites, but rather the department's presence on third-party service providers' platforms, which means SSA has limited control over how each platform uses personal data provided by users.

- **I will not** transmit, store, or process federal information on non-SSA owned and operated sites, including social media, third party online forums, third-party collaboration tools or sites, social networking sites, any other non-SSA-hosted sites, or unapproved third-party data storage providers unless explicitly authorized to do so.
 - **I will not** share programming code used for federal information systems with unauthorized individuals including but not limited to, posting code to unauthorized online forums, sending code to anyone not properly authorized to have it, or storing code on unapproved third-party sites.
 - **I will not** use federal information systems to browse or access information about myself, my children, other family members, co-workers or former co-workers, acquaintances, and/or friends.
-

Secure Email and Fax Use

Email is an official business communication tool and users must use it in a responsible, secure, and lawful manner. When using SSA email, to protect agency systems and those who receive email from me:

- **I will** use business communication tools including SSA email in a responsible, secure, and lawful manner.
- **I will not** send or forward Personally Identifiable Information (PII) to or from a non-SSA email address unless the information has been properly encrypted or the recipient is on the Agency's Secure Partners List.
- **I will not** copy or blind copy work-related email to a personal, non-SSA email address.
- **I will not** send or forward chain letters or other unauthorized mass mailings.
- **I will not** configure my SSA email account to automatically forward work-related email to an outside (non-SSA, non-secure) address.
- If I receive an email intended for someone else, **I will** immediately notify the sender and delete or destroy the misdirected message.

A fax is an official business communication tool and users must use it in a responsible, secure, and lawful manner. When using an SSA fax, to protect agency systems and those who receive faxes from me:

- **I will** use business communication tools including SSA fax in a responsible, secure, and lawful manner.
- **I will** use a cover sheet that notes the sensitivity of the material and follow all Controlled Unclassified Information (CUI) labeling requirements.
- **I will not** leave fax machines unattended when transmitting.
- **I will** transmit faxes to the intended recipient, when possible, using pre-programmed fax numbers.
- **I will not** use SSA's fax system to create or distribute disruptive or offensive messages.
- If I receive a fax by mistake, **I will** notify the sender. To the extent possible, **I will not** read the fax's contents. **I will** destroy the misdirected message.

Security Incident Reporting

Security incidents involve any attempted or actual authorized access, use, disclosure, modification, or destruction of information. Examples include malicious or unauthorized intrusion or access, virus attacks, phishing, vishing, supply chain threats, foreign intelligence threats, insider threats, and loss of PII.

- If I suspect or confirm the loss or theft of any sensitive information, including PII, **I will** report it within one hour to my supervisor, manager, contracting officer's representative and/or contracting officer's technical representative or another designated official. If those individuals are not available, **I will** use the PII Loss Reporting Tool to report any loss or theft of any sensitive information or PII.
 - If I observe a suspected systems intrusion attempt or other security-related incident, **I will** report the incident within 15 minutes of discovery to SOC@ssa.gov.
 - If I am the targeted victim of a phishing (suspicious email) attempt, **I will** report the incident within 15 minutes of discovery by clicking on the SSA Reporter button found on the Microsoft Outlook ribbon.
 - If I am the target of a vishing (suspicious phone call) attempt, **I will** report the incident within 15 minutes of discovery to SOC@ssa.gov.
 - If I observe a potential insider threat, **I will** report the incident to SSAITP@ssa.gov. If I observe suspected violations of the Social Security Act, Privacy Act and other laws, as well as SSA policies and procedures, **I will** report the incident to the Office of the Inspector General in accordance with published policy.
-

Social Engineering

Vishing is the practice of tricking you, over the phone, into revealing information to an unauthorized individual or performing actions on your workstation that may compromise the security of SSA.

- **I will** avoid vishing attempts by validating a caller's identity and purpose.
- If I am unable to validate the caller's identity, **I will** hang up and call back using a number I know to be correct.

Phishing is someone using social engineering techniques over email to trick you into revealing sensitive information, clicking on a malicious link, or opening a malicious attachment that can infect your workstation.

- **I will** avoid phishing attempts by verifying the email sender.
- **I will** be suspicious when receiving emails from individuals I do not know or have not heard from in a long time.
- **I will** never respond to requests for PII or send password information in an email.
- **I will** only release information if I am confident of an individual's identity and right to receive it.

Unauthorized Access and Prohibited Behavior

Unauthorized access to federal information or information systems is prohibited. The agency monitors all network and system activity and has the ability to trace violations or attempted violations to individual information system users. Federal information system users do not have a right, nor should they have an expectation, of privacy while using any Government office equipment at any time, including accessing the Internet using E-mail.

- **I will not** inspect, access, or attempt to access any federal information that SSA has not expressly authorized me to access.
 - **I will not** release or disclose any federal information to any unauthorized person, agency, or entity. **I understand** that unauthorized disclosure of federal information may lead to civil penalties and/or criminal prosecution under Federal law (e.g., The Privacy Act of 1974, 5 U.S.C. 552a; SSA's regulations at 20 C.F.R. Part 401; The Social Security Act, 42 U.S.C. 1306 (a); and 5 U.S.C. Section 552(i)). **I further understand** that additional privacy and disclosure protections may apply to certain types of SSA information including Federal Tax Information (i.e., earnings information), which may be subject to additional penalties under sections 6103, 7213, 7213A, and 7431 of the Internal Revenue Service (IRS) Code (Title 26 of the United States Code).
 - **I will** follow all access, retention, and/or destruction requirements in the contract and/or agreement under which I am authorized to access federal information. **I understand** that such requirements may require me to cease access to, return, or destroy federal information upon completion of my work for SSA or termination of my contract and/or agreement that authorized my access to federal information.
 - **I will not** take federal information off-site, unless expressly authorized to do so by contract and/or agreement or other written authorization from SSA. If SSA authorizes me to take federal information off-site, I agree to safeguard all such information in accordance with agency policy and standards and the requirements of the contract and/or agreement under which I am performing work so that no unauthorized person, agency, or entity can access federal information.
 - **I will** keep confidential any third-party proprietary information that may be entrusted to me as part of the contract and/or agreement, including safeguarding such information from unauthorized access and not disclosing or releasing such information unless expressly authorized to do so.
 - **I will** follow all requirements in the contract and/or agreement under which I am performing work for SSA, including but not limited to those governing confidential information or PII.
 - **I will** only use my access to federal information and information systems for the performance of my official duties.

Chapter 101; 5 U.S.C. § 552a(e)(9)-(10); and Executive Order 13488 of the Social Security Act, as amended, allow us to collect this information. Furnishing this information to the Social Security Administration (SSA) is voluntary. However, failing to provide this information may affect your ability to access Federal information and information systems, which is a condition of the contract under which you are performing work for SSA (SSA contract). Not providing this information also could prevent us from issuing you a PIV credential and/or authorizing you to access SSA's network, one or both of which may be conditions of your SSA contract. Failure to follow prescribed rules or misuse of SSA information and information systems could lead to removal from duty from your SSA contract.

We will use the information you provide to grant you access to Federal information and information systems. We may also share your information for the following purposes, called routine uses:

- To contractors and other Federal agencies, as necessary, for assisting SSA in the efficient administration of its programs. We disclose information under this routine use only in situations in which SSA may enter into a contractual or similar agreement with a third party to assist the accomplishing an agency function relating to this system of records; and
- To student volunteers, individuals working under a personal services contract, and other workers who individuals performing functions for SSA but technically do not having the status of Federal agency employees, when they are performing work for SSA, as authorized by law, and if they need access to personally identifiable information (PII) in SSA the records in order to perform their assigned agency functions.

In addition, we may share this information in accordance with the Privacy Act and other Federal laws. For example, where authorized, we may use and disclose this information in computer matching programs, in which our records are compared with other records to establish or verify a person's eligibility for Federal benefit programs and for repayment of incorrect or delinquent debts under these programs.

A list of additional routine uses is available in our Privacy Act System of Records Notice (SORN) 60-0361, entitled Identity Management System, as published in the Federal Register (FR) on November 3, 2006, at 71 FR 64751. Additional information, and a full listing of all our SORNs, is available on our website at www.ssa.gov/privacy.

RE: USPS Minimum Volume Reduction Program

To Whom It May Concern:

I am writing to request approval to use USPS Minimum Volume Reduction Program as shown in Publication 401 - Guide to the Manifest Mailing System. The exception is for the “200 piece or 50 pound” rule for permit imprint mailings (including certified and foreign mail).

If approved, we would submit the paperwork electronically and include piece level barcode information.

A large portion of our business is government mailings and the use of this exception would greatly expedite our mail processing.

Please let me know if any additional information is required. My contact information is below.

Thank you for your time and consideration.
